Wellington Koo Says No Compromise Can Be Acceptable Unless Japs Evacuate

Tokyo advices said that Japanese railway guards launched an attack southwest forces. The government said against Chinchow where Chi-"Real war" la predicted if Chiang Kai-Shek, deposed Volleys Of Shots Pre-Manchurian governor, enters Northern Manchuria to join forces with Chang Hauch-Liang.

At Nanking Wellington Koo new foreign minister, said China had submitted a "concrete proposto the Langue council at Paris and that any compromise not providing for Japanese evacuation will be unacceptable. Meanwhile the League was deadlocked at Paris over the dispute.

The Tokyo government instructed it. Washington ambaseador to regusure the United States that Japan had not violated the ninepower treaty, the Briand-Kellogg pact or the covenant of the

Positive Proof of FORD F.CONOMY

city of Detroit purchases 137 new Ford cars Hundreds now in use prove low cost of operation

THESE 137 new Ford cars represent one of the largest deliveries ever made to a municipality at one time.

21 radio-equipped Ford scout cars were traded in on this purchase. They had been operated day and night for two years in heavy traffic and all kinds of weather.

Their individual records ranged from 78, 431 miles to 143,723 miles with a grand total of 2,283,097 miles. The operating cost of the 21 cars was 2.284 cents a mile - less than 2 1/3 cents. This cost included all fuel, oil, tires, repairs and every other item except depreciation and insurance.

Of 577 Ford cars in Detroit City service, the 300 in the Police Department traveled a total of 6,591,937 miles during the past fiscal year, at an average cost of 2.9 cents

Many claims have been made on operating costs, but here in the carefully kept motor car records of the City of Detroit is positive proof of Ford economy.

In the paragraphs above, it is seen that 21 Ford scout cars averaged less than 2 1.3

cents a mile and 300 Ford cars in all branches of Detroit police work averaged 2.9 cents a mile!

Day and night, twenty-four hours a day, these Ford cars are in operation. Fembranches of transportation demand such grueling service. The records show that low fuel and oil consumption is but one of the Ford's many economies. Ford materials, simplicity of design and accuracy in manufacturing provide unusual strength, stamina and freedom from replacements and repairs.

The individual car buyer as well as the purchasing department of a city or a husiness cannot afford to ignore the proved economy of the Ford car.

Last Day of COOKING SCHOOL

The last chance to hear Mrs. Harris is TOMORROW at 10 A. M. at the MI-LANE THEATRE in THE SANFORD HERALD'S free COOKING SCHOOL, Do not MISS this OPPORTUNITY. She is interesting and instructive.

Ask about the gas range to be given

Today hundreds of women learned just how pleasant cooking can be with a modern A. B. Gas Range. You always work in a cool kitchen because the oven is INSULATED to hold the heat inside. There's an'oven heat control to insure steady temperatures at the correct degree. Its convenience is a revelation in time and labor saving. Utensil drawers right under your hand, These modern gas ranges are a series of shortcuts in meal preparation. Don't miss the final cooking lecture of the series tomorrow. More recipes will be demonstrated . . . the kind that you can easily repeat in your own home. Everything is absolutely free.
