

RAILWAY WORLD AWAITS DECISION OF WILKERSON IN RULINGS ON STRIKE

WITHOUT ANY SUGGESTION
FROM DAUGHERTY FOR
ANY MODIFICATIONS

RESTRAINING ORD'R

Nineteen Railways and Subsidiaries Made Peace With the Shop Men

(By The Associated Press)
ATLANTA, Sept. 22.—With work-Southern resuming normal, the rail- ing forces in the railroad shops of the way officials are confronted with new problems in hostility and outbreaks between strikers and employes who held their places during the walkout period. Fourteen men received injuries at Knoxville, when non-union men were driven from the shops. In Atlanta, Macon and other cities, both the Seaboard and Southern railway striking shippers refused to return until they are assured not to be compelled to work with the new employes. The situation at Birmingham where it was necessary to rush state guardsmen and deputy sheriffs to Alabama Great Southern shops to prevent threatened battle has improved.

CHICAGO, Sept. 22.—With the railroad work waiting the decision he promised at 11 o'clock tomorrow, Judge Wilkerson, in preparation of his ruling on the government strike injunction was without suggestions today from Daugherty for modification of restraining order issued September 1. Meanwhile nineteen railways and their subsidiaries have made peace with their shop men on the basis of the Baltimore terms, according to official announcement by John Scott, secretary of the shop crafts organization. At the same time many other roads continue to hold aloof from the plan, operated their shops independent of any negotiations with the officials of the union.

CHICAGO, Sept. 22.—Fate of the government's suit for a nation-wide injunction against the striking railroad shop workers will be announced at 11 a. m. Saturday by Federal Judge Wilkerson.

In the meanwhile, the temporary restraining order which had been in effect since September 1 is continued in force by order of the court. The order would have expired at midnight last night.

Attorney General Daugherty read the draft of the proposed injunction to the court, and after a brief statement in defense of the government's right to enjoin the strikers brought the case to a close.

The injunction bill differs but little from the restraining order. Its terms have, in some cases, been made more binding and its phraseology clarified but, with one exception, it is as drastic as the order now in effect.

The outstanding modification is a paragraph specially asserting that "nothing contained herein shall be construed to prohibit the use of the funds or moneys of any of said labor organizations for any lawful purpose and nothing contained in this order shall be construed to prohibit the expression of an opinion of argument not intended to aid or encourage the doing of any of the acts heretofore enjoined, or not calculated to maintain, or prolong a conspiracy to restrain interstate commerce or the transportation of the mails."

To the original restraining order, the government also has added in the new bill an additional provision that the application for a preliminary injunction shall be continued against all defendants who have not been served notices of the present hearing.

In explanation of the injunction bill, Attorney General Daugherty told the court that "this order does not question the right of any man or number of men to strike, but it restrains them from unlawful 'striking'."

"The law of this country," he continued, "is applicable to cases of this kind where transportation and the carriage of the mails is involved, is somewhat different from the law where so-called industrial disputes and strikes are involved."

"The government of the United States must at all times be fair, but the government of the United States

FIRE PREVENTION WEEK DESIGNATED FOR GOOD WORK

OUNCE OF PREVENTION WORTH
MOE THAN POUND OF
PROTECTION

Plans have been made all over the country for the observance of Fire Prevention Week, Oct. 2 to Oct. 9. For some years this campaign centered on Oct. 9, Fire Prevention Day, the anniversary of the great Chicago fire, Oct. 9, 1871, when Mrs. O'Leary's cow kicked over an oil lamp in the little stable on the west side of that city.

The National Fire Protection Association, together with the National Clean Up and Paint Up Campaign Bureau, and other organizations, found that the best results could not be secured in one day as Fire Prevention Day. Instead of a day a week was suggested and many communities increased even that time, until now many cities extend the public activities of fire prevention work over two or three weeks.

In the last few years it has been found that 15,000 lives and \$500,000,000 have been the average toll taken by fire each year. It is also declared that 60 per cent of these fires and their tragedies might have been prevented by precaution easily in the reach of any city or community.

The aim of Fire Prevention week, according to T. Alfred Fleming, National Chairman for the movement, is to bring to the people a realization of the fact that the fire loss is everybody's loss and everybody's responsibility and that the great majority of fires are preventable through the exercise of ordinary carefulness.

All over the country the school children, boy scouts, women's clubs, chambers of commerce, all civic organizations and local branches of government are being organized in local Clean Up and Paint Up Campaigns, for the removal of rubbish, for cleaning up about the homes and in the houses, from attics to the basements, all looking towards a reduction of fire and disease causes and at the same time towards cleaner and more beautiful cities and homes. In Cincinnati alone, according to Capt. J. J. Conway, superintendent of the Cincinnati Salvage Corps, this campaign has affected an annual saving in that city of \$850,000 in the reduction of insurance rates resulting from decreased fire hazards, which is more than it costs to maintain the fire department of Cincinnati.

Elks and Odd Fellows Are Invited Sunday to the Scrap Iron Class

Memorial Services in Memory of the
Late Cleveland Jacobs

All Elks and Odd Fellows are especially invited to attend the Scrap Iron class at the Princess Theatre next Sunday morning at 9:50. Dr. King, of the Baptist church; Judge Housholder, Judge Sharon and H. C. Dubose will make short talks. All the churches will join in the exercises at the theatre and all of them are cordially invited. Special music by a male quartette will furnish the music. The exercises will be in the form of a memorial to the late Cleveland Jacobs, who was a member of the Elks and Odd Fellows lodges. The public is cordially invited to attend.

P. B. Pinder and Hector Cameron of Jacksonville are making their headquarters at the Montezuma while in the city on a business mission.

must at all times be firm. No freedom of speech is interfered with by this order, unless it be that speech which incites the mob.

"The order speaks for the last word of the government and for society and civilization through that tribunal which guides the way not only to the destiny of men but of the nation, for peace and fairness and liberty and protection with firmness, and, if necessary, with force."

GREAT FEELING OF RELIEF PERVADES DETROIT BUSINESS AND THE LABOR CIRCLES

Ford Plants Commencing Business Mean Seventy
Thousand Go to Work Today

(By The Associated Press)
DETROIT, Sept. 22.—A feeling of relief pervades in business as well as labor circles here today as the three largest industrial plants of the Detroit area—those of the Ford Motor Company—resumed operations after a week of idleness. Approximately seventy thousand Ford employes are under orders to resume work. Between thirty and thirty-five thousand workers of other concerns are also preparing to reopen.

CONGRESS WOULD ADJOURN UNTIL AFTER THE ELECTIONS —RUSHING PROGRAM THROUGH

Today Will Be the General Breaking up of This
Session

(By The Associated Press)
WASHINGTON, Sept. 22.—Final congress expects to be away. Senator Harrison said he hoped it would pass, because the clerks had earned it, but informed the senate he would oppose a resolution to accord the same privilege to the Republican senators, who, he said, had failed to earn their stipend.

Addressing Senator Watson, Republican, Indiana, Senator Harrison asked him how he would explain to the people of his state "the do nothing program of his party."

He said he supposed Senator Watson would go back and tell the Indiana voters that they should elect Albert J. Beveridge the Republican nominee on the strength of the activities of the present congress and added the question: "What were they?"

Senator Harrison said he wanted to impart the "secret" also that Mr. Beveridge was running for the presidency right now. The candidate, the senator said, was making a race for election to the senate, but declared his main objective was the white house.

Chamber of Commerce Had a Fine Meeting at Valdez Hotel Today

About Twenty-five Members Were
Present, Good Work Accomplished

The Chamber of Commerce had a fine meeting today at noon at the Hotel Valdez where an elegant luncheon was served and about twenty-five members or more were present. The meeting was filled with pep and punch and shows that more and more new folks are becoming interested in the Chamber of Commerce recognizing the fact that it is doing a great work for the city of Sanford and the county of Seminole. Committee reports showed that the committees are meeting each week and keeping up the good work of putting Sanford on the map. The report of the publicity committee and the golf committee, the waterways and band and merchants and many other committees all being good and showing that the Chamber of Commerce is putting it over in good shape.

The Herald will have a more detailed report of the meeting in another issue because we want the public to learn about the golf club and the other work that the Chamber of Commerce is fostering. Many present made short talks on the progress of the city and E. T. Woodruff made an especially fine talk on boosting the city and standing by those who are standing by Sanford. It was also decided to hold a big monthly meeting some time soon and get all the county folks together at this meeting as they have more time to come in at night.

PULLMAN RATE IS NOT EXORBITANT SAYS CLERK QUIRK

(By The Associated Press)
WASHINGTON, Sept. 22.—Chief Clerk Quirk, of the Interstate Commerce Commission recommended the dismissal of complaint of National Council of Traveling Salesmen's Association, and other traveling men, against the twenty per cent increase in Pullman rates which became effective in 1920. Held rates were not unreasonable.

ENGLAND WILL HOLD THE DARDENELLES TO THE END TURKS DISPUTE THE RIGHT

AUTHORITIES
INVESTIGATING
NEW MYSTERY

MURDER OF MINISTER AND HIS
CHOIR LEADER
PROBED

(By The Associated Press)
NEW BRUNSWICK, N. J., Sept. 22. Authorities investigating the slaying of Rev. Edward Wheeler Hall and Mrs. Eleanor Reinhardt Mills, his choir leader, turned again to James Mills, husband of the dead woman in their efforts to solve the mystery which six days of probing only served to deepen. Mills was re-examined at length by the district attorney, and detectives, but no indication was given what line questioning took.

ANOTHER ENJOY- ABLE KIWANAS NOON-DAY MEET

The Sanford Kiwanis Club held an unusually interesting meeting at the Palm Room of the Valdez Hotel Thursday at noon. The meeting was called to order by President A. P. Connelly, and Dr. Brownlee, of the local Presbyterian church, asked the Divine blessing on the deliberations.

Charles Maus, of Baltimore, was present, the guest of Kiwanian Sam Baume. Mrs. Starling and Mr. Hadlow were also guests of the club. The sweet singer of the Seminole Swamps, P. M. Boyd, being absent, his place was fairly well filled by Sam Baume and B. W. Herndon. Mrs. Boyd played the accompaniment in her usual acceptable manner.

Robert Deane and Judge Maines were forced to sing "Liza Jane" when convicted of the crime of raising a mustache. They were both almost guilty, as a close observer could easily discern a smudge of whiskers—or dirt—right squarely under each nose. The committee on signs were again and again given more time to report, and the members of the club agreed to send out 1,000 post cards on Post Card Day.

O. P. Swope was the speaker of the day, and while the writer was so unfortunate as to have to leave before Mr. Swope's talk several have taken pains to tell him that it was the best and most forceful talk that the Kiwanians have listened to in many a long day. We hope to be able to publish Mr. Swope's speech in full in these columns in the near future.

New Tariff Rates Applying Today American Imports

Broad Powers Under Elastic Rate in
Effect

(By The Associated Press)
WASHINGTON, Sept. 22.—New rates of tariff of 1922 applying today on flow of American imports. The law marking new phase of history in American tariff making in its delegation to president of broad powers under elastic rate provision went into effect at midnight with all collectors at customs houses previously instructed as to provisions. Millions of dollars of revenue, officials believed would be raised from assessment on duties on goods in bond or transit ports of entry.

MIAMI, Sept. 22.—Duties under the new tariff are not being collected at Miami today because collector was not advised as to tariff charges. Articles imported at Miami include tomatoes, tropical fruits, vegetables, Palmetto hats, etc.

CONGRESS ADJOURNS SINE DIE TODAY— WERE OVERWORKED

(By The Associated Press)
WASHINGTON, Sept. 22.—Adjournment of congress at 3:00 today was arranged definitely when the senate soon after reconvening, adopted the house resolution providing for sine die ending the session.

WILL ISSUE ULTIMATUM
FOR PRESENT AND NO
FIGHTING

TURKS WOULD CROSS STRAITS BUT BRITISH SAY "THEY SHALL NOT PASS"

(By The Associated Press)
LONDON, Sept. 22.—Views of the Near Eastern crisis here oscillate between hope and fear with slight tendency in favor of hopeful side of balance. Nothing happened in the last twenty-four hours to make the position materially worse although continues serious. Peril, is in possibility, that Turkish Nationalist troops will attack the British positions along the Dardanelles, but notwithstanding continued reports their energetic military preparations, this fear has not yet materialized.

CONSTANTINOPLE, Sept. 22.—The Turkish Nationalist forces seized the town of Eaine on the Asiatic side of Dardanelles, threatening Kuma Kaul, important key position of the Southern side straits.

LONDON, Sept. 22.—The conference between Premier Poincare and Lord Curzon will be resumed at Paris, today, and, while these are pending, the British prime minister left for the country, and the other members of the cabinet are scattering. It is believed, however, that instructions have been sent to the British foreign secretary, to inform M. Poincare in the emphatic manner that Great Britain is determined to preserve the Dardanelles straits from Turkish control.

At the same time, special efforts will be continued to win Rumania and Jugoslavia to the British point of view, especially since these powers apparently are hesitating whether to favor the British or the French side.

In some quarters it was even declared that Lord Curzon's instructions amounted practically to defying France to support the Turks.

CONSTANTINOPLE, Sept. 22.—Hamid Bey visited General Harrington, commander of the allied forces, yesterday and explained that the Kemalists were seeking the right to cross the Dardanelles, a privilege already accorded to the Greeks.

General Harrington replied that a Turkish advance on the straits meant a declaration of war against Great Britain and would be resisted with all vigor.

Hamid Bey replied that the Kemalists did not wish to fight the British.

CONSTANTINOPLE, Sept. 22.—In allied diplomatic circles last night it was regarded that the Turkish Nationalists are on the point of issuing an ultimatum to the Allies, demanding the evacuation of Thrace in 48 hours.

PARIS, Sept. 22.—Great Britain has refused categorically to withdraw her troops from Chanak and has so informed the French government. This was definitely stated in official British circles last night in reply to a persistent report in French quarters that British forces would probably be retired on the other side of the straits.

Lord Curzon, the British foreign secretary, was in communication with Premier Lloyd George by telephone and telegraph throughout the day, and the French premier had notification late yesterday afternoon of the decision to hold the troops at Chanak.

A further decision of the British government which will be formally announced at today's meeting, is that its representatives will go to the proposed conference with an open mind and will refuse to concede the Turkish claims to Thrace, Adrianople and Constantinople in advance of the peace meetings. These two decisions came as a great disappointment to France, which had hoped for withdrawal of the British forces and tentative acceptance of the Turkish claims to Great Britain as a preliminary to the conference.

R. town, 30 minutes to Sanford postoffice, oranges, guavas, mulberries, roses and other ornamental shrubbery. Barn, garage, 4 poultry houses. Farming tools and flock of poultry. All for \$2,000; \$1,000 cash, balance 1 and 2 years. An ideal location for a poultry farm. Why pay rent? Work in town and own your own home in the country.

The Daily Herald Delivered to your friends.

NOTICE! There will be a meeting of The Political Club of Seminole County, at the Masonic Hall in Sanford SATURDAY NIGHT, SEPTEMBER 23RD at 8 o'clock

All citizens, and particularly the ladies, are invited to attend. The principles and objects of the club will be announced. There will be some interesting short speeches.

WIFE TELLS OF SCANDAL OVER CHILD

SOUTH BEND, Ind., Sept. 20.—Resuming the witness stand today at the hearing which is being held to determine whether or not Harry Poulin is the father of her infant son, Mrs. John F. Tiernan, wife of a University of Notre Dame professor told, on cross-examination of her first meeting with Poulin. While attending a dance with her husband in a local hotel here, early in 1921, Mrs. Tiernan said she first met Poulin. While Mrs. Tiernan and Poulin were dancing together, the witness testified, he kissed her. A month or so later, she said, she again met Poulin, and he again kissed her. The second time Poulin kissed her, Mrs. Tiernan said, she had gone to his store at Notre Dame. Several visits to the store were made she said, while her husband believed she was attending a picture show.

Attorneys questioned Mrs. Tiernan about several picnics which were attended by members of both families, and Mrs. Tiernan, admitted that while on one of these outings she wore a bathing suit which was presented to her by Poulin, without the knowledge of his wife. Mrs. Tiernan was in tears so often that it was necessary for the court to suspend her examination by defense attorneys several times.

While Mrs. Poulin and her children were in Chicago, Mrs. Tiernan testified that Poulin called her on the telephone several times and induced her to visit him in his home. She met him at their regular meeting place, she said; and then went to his home, staying there until about 10 o'clock, when she went home. The hearing was to be continued this afternoon.

ROADS NOW BID STRONG FOR BUSINESS

Partial End of Row Boosts Moving of Freight

CHICAGO Sept. 20.—With the lineup of railroads on the unions' partial settlement plan virtually unchanged today, and union leaders seeking to bring the New York Central lines into the agreement, railroads were generally reported bidding for business and moving a heavy volume of freight. The roads, as a whole, according to some estimates, were operating with 85 per cent. of their normal shop forces prior to the shopmen's strike, July 1, and had order cars rapidly were decreasing.

A decrease of 23,339 cars requiring repairs on September 1, as compared to the number on August 1, was reported to rail executives by the car service division of the American Railway Association. The decrease was much larger—52,413—on September 1, compared with the same date a year ago.

CONFESSES TO KILLING

LUMBERTON, N. C., Sept. 20.—Frank Summers, who in a signed statement given to the police at Augusta, Ga., confessed to the killing of Manning Ford near here last February and who late yesterday led Robeson county officials to some woods, where a human skeleton was found, with the skull badly crushed, will be tried for murder in the first degree at the November term of Robeson county criminal court, it was stated at the sheriff's office here today. The bones and fragments of clothing were found near the spot where Summers said he had hidden Ford's body, after the killing.

PICRIC ACID CAN BE OBTAINED UNDER CONDITIONS

An Outlined By The Agricultural Station

GAINESVILLE, Sept. 21.—While picric acid is available to Florida farmers for blasting purposes without charge, certain expenses incident to its shipment must be paid, according to Dean Wilmon Newell, of the Florida Agricultural College, which was recently designated to distribute the acid in this state. The acid was turned over for distribution to the farmers by the government from its surplus.

"While this explosive is offered free in the sense that the government does not ask any payment for the material itself," Dean Newell states, "there are a number of conditions which must be met in order to secure it.

"It is necessary to pay for placing the picric acid in cartridges, which is 6 cents a pound. In addition to this, 1 cent a pound is charged to cover clerical and stenographic work, etc., in handling the orders. The acid can be purchased only in carload lots containing a minimum of 20,000 pounds of the explosive and the farmer must pay the freight from the nearest point at which this explosive is in storage.

"One hundred pounds of the acid, crated for shipment, weighs 136 pounds. So in the case of a carload of 20,000 pounds of acid, freight must be paid on 27,000 pounds.

"The government will not allow more than 1,000 pounds to go to any one land owner, hence it is necessary that not less than 20 farmers, located near a central unloading point, club together.

"The charge of 7 cents a pound must be paid, cash in advance, and either cash or banker's guarantee furnished to cover freight charges. When ordered under these conditions the picric acid will cost the farmer, by the time he gets it at the average Florida town, from 1 0 to 18 cents a pound.

"Where farmers will pool sufficient orders to make a carload in any community, county agents will be glad to handle all details for them. It is not feasible for the College of Agriculture to have this material shipped in car lots to Gainesville or other central local point and distributed from there by local freight as drayage, local freight charges, etc., would make the material cost the farmer practically as much as dynamite.

"Picric acid is used in all respects as dynamite except that a more powerful detonator (cap) is required to explode it."

You can buy wall paper at the Sanford Paint Store for 5c a roll, Welaka Block. 150-2tc

MRS. OLSEN ON THE CAMPAIGN TRAIL

(By The Associated Press) ST. PAUL, Minnesota, Sept. 22.—Whatever else she may accomplish in her campaign for the United States senatorship, Mrs. Anna D. Olsen, democratic nominee, will be well known to Minnesota at large when the November election day rolls around. Easily the peace-maker in the three-cornered contest for the office now

held by Frank E. Kellogg, Minnesota's junior senator, Mrs. Olsen has just entered on the second phase of her campaign, which will not end until the day before election.

For six weeks she traveled over the state in a small automobile, donated by friends, and now after a rest, she again has taken to the highways for further intensive campaigning.

During the first six weeks of her campaign for the fall election—she also campaigned before the June 18 primary—she visited ninety-five small cities and towns in forty counties, delivering an address in each municipality.

On this extensive trip, she covered more than 5,000 miles. She was accompanied by her husband, Peter Olsen, superintendent of Cloquet city schools, and her 14-year-old daughter, Mary, who alternated at the wheel.

Mrs. Olsen is enthusiastic over the reception she has received. When she started out, she told the Associated Press she thought she would "be doing well if she talked to fifty people at each meeting." Instead, she has been heard by crowds many times that number, some of them turning out early in the morning or meeting her late at night.

MOTOR CLUBS FOR FLORIDA NOW TOTAL 19

Clubs of the American Automobile Association have just been organized in Rome, Valdosta and Columbus, Ga., according to information given out by Roger A. Drew, manager of the Tampa Motor club.

In commenting on progress of the Tampa club Mr. Drew called attention to the fact that members touring the state are now entitled to reciprocal service from 18 other clubs, several new clubs recently having been formed in Florida. The roster now includes: Alachua County Motor club, Gainesville; headquarters, City Offices building.

Clearwater Motor club, Clearwater; headquarters, Chamber of Commerce. Columbia County Motor club, Lake City; headquarters, Chamber of Commerce.

Daytona Motor club, Daytona; headquarters, Casino Bargeys building. Glades County Motor club, Moore Haven; headquarters, Commercial Club room.

Jacksonville Motor club, Jacksonville; headquarters, Chamber of Commerce.

Lee County Motor club, Fort Myers; headquarters, room 20, Bank of Ft. Myers.

Marion County Motor club, Ocala; headquarters, Chamber of Commerce. Miami Motor club, Miami, headquarters, Hotel Urmev.

Punam County Motor club, Palatka; headquarters, Chamber of Commerce.

St. Petersburg Motor club, St. Petersburg; headquarters, City building. St. Johns County Motor Club, St. Augustine; headquarters, C. S. Smith Co.

Seminole County Motor club, Sanford; headquarters, Chamber of Commerce.

Tarpon Springs Motor club, Tarpon Springs; headquarters, Chamber of Commerce.

Tampa Motor club, Tampa; headquarters, City Hall.

Polk County Motor club, Lakeland; headquarters, Elks' Hotel building. Manatee County Motor club, Bradenton.

Sarasota County Motor club, Sarasota.—Tampa Times.

DODGE BROTHERS ADD BODY PLANT

\$1,500,000 Construction Project Necessary as Demand for Cars Grows

Following recent completion of a vast construction program costing \$8,000,000, Dodge Brothers, Detroit, have broken ground for another huge 8-story building requiring an additional investment of \$1,500,000. In this new unit, 440,000 sq. ft. of floor space will be provided. It will be devoted largely to closed body work.

The new principle of all steel closed body construction developed by Dodge Brothers has generated a rapidly growing demand for this type of body. The new plant will provide much-needed space for assembly, enameling

and storage of the all-steel closed bodies. Many large presses and enormous electrically heated enameling ovens will be installed, and ware house space will be provided.

The announcement of proposed increase of manufacturing facilities comes as a welcome one to Dodge Brothers dealers throughout the country, as the demand for cars, has been far in advance of present production.

The new construction project, on completion, will increase Dodge Brothers floor space to a total of 130 acres, and will give employment to hundreds of additional workmen.

That Putnam county is the most admirably situated section of Florida for the growing of citrus fruit, that farm lands in this county are as highly productive as those of any spot in the country and that no county in the state has a greater soil diversity were statements made and proven at an evening luncheon of the Kiwanis club at the James hotel in Palatka recently.

COLLEGE PROFESSOR KILLED IN ACCIDENT AT POSTDAM, NEW YORK

(By The Associated Press)
POSTDAM, New York, Sept. 22.—Professor Max Hoyer, of the faculty of Clarkson College, was killed and three students of the college were dangerously hurt in a nautic accident here.

GET A SANFORD TAG FREE.

You want a Sanford tag on your car. You can buy a big blue one for your car from the dealers or the Chamber of Commerce or you can get a yellow one free at the Williams' Garage. Volie is always on the job when it comes to advertising the city and has arranged for a big shipment of yellow metal signs with the name "Sanford" in big letters that will attract the attention of all those who see it. Get one of them free at Volie Williams' Garage on Magnolia avenue.

REPORT ON KILLINGS

MARION, Ill., Sept. 22.—The report of the special grand jury, which is investigating the 22 killings at the Lester strip mine June 22 and 23, will comment on the riot and say that the evidence showed dereliction of duty on the part of county officials. It was announced today by Assistant Attorney-General Middlekauff. The report is expected to be presented Saturday. Williamson county board of supervisors today announced it would not allow claims of approximately \$275,000 filed against the county as a result of the killings.

FIRE THREATENS CITY

NEW ORLEANS, Sept. 22.—The storage buildings and the main office of the Gallagher Transfer and Storage company here and one private residence are burning and a general fire alarm has been turned in. A brisk wind threatens to spread the fire through the adjoining resident district. At 12:30 o'clock all available patrolmen in the city had been ordered to the scene of the fire to maintain order and to prevent the large crowds that gathered from blocking the progress of fire fighters.

JUDGE CLARKE WILL NOT RUN FOR PRESIDENT

YOUNGSTOWN, Ohio, Sept. 22.—Reports that former Justice John H. Clarke, of the United States supreme court has resigned from the bench in order to seek the democratic nomination for president in 1924 on a league of nations platform, were denied by Justice Clarke in a statement issued here today.

Although he hopes to "aid in the search for the man or group of men, and women competent for leadership of the league cause, and proposes to devote much of his leisure to working for the league, he has no intention of becoming a candidate for any office," he declared.

"To a lawyer," said Justice Clarke, "there is no higher honor than which I had, and when I resigned I did not intend to become and shall not under any circumstances hereafter become a candidate for any public office. There are now, and are likely to be in the future more than enough candidates for every office, but I think there are not enough men, or women either, maintaining a position of independence such that they can tell the truth to the country, unbiased by personal or partisan interest. Such a position of independence I hope to maintain."

A careful study of the proposed League of Nations before the treaty of Versailles was concluded, Justice Clarke said, left him with the profound conviction that unless some league were formed, our wars must soon follow, with results disastrous to America and to mankind.

"What has happened since," he continued, "so confirms me in that conviction that I think it not an overstatement to say that unless our civilization shall, at an early day, devise some means of making an end of war—war will make an end of our civilization."

"It is a surface judgment which regards the result of the election in 1920 as final against our government joining the league of nations. I refuse to accept it as such.

"For two years now church people, whenever they have met in large numbers, have resolved in favor of a league of peace; college and school teachers in their conventions are constantly doing the same thing, and societies of women everywhere have declared in favor of such a league.

"This great body of public opinion of our country favorable to the League of Nations has been flouted and ignored, because since the illness of ex-President Wilson, it has been without a program and without specific leadership. Perhaps I may be of service in aiding in the search for the man or group of men and women competent for such leadership."

INVESTIGATING EXPRESS RATES SAYS FLETCHER

The Interstate Commerce Commission has advised Senator Fletcher that an investigation into the interstate rates and charges of express carriers had been assigned for hearing on October 30, 1922, at 10 o'clock A. M., at the office of the Commission, before Examiners Barclay and Mullen, for the purpose of determining whether such rates and charges, or any of them, are unreasonable or otherwise in contravention of the provisions of the Interstate Commerce Act, and of making such findings and entering such orders as may be necessary to remove any unlawfulness which may be found to exist.

BILL TO PROVIDE PUBLIC BUILDING FUND IS PLANNED

WASHINGTON, Sept. 21.—An attempt will be made to have a public building bill, carrying an appropriation of \$80,000,000 to \$100,000,000, enacted at the December session of Congress, Representative Langley, Kentucky, chairman of the house public grounds committee and Representative Clark, Florida, ranking Democrat on the committee, today told President Harding. The last omnibus bill authorizing construction of post offices and other federal buildings was passed in 1918.

PROSPECTS BRIGHT FOR CITRUS FRUIT, SAYS THE REVIEW

Condition of Oranges and Grapefruit Is Advancing

GAINESVILLE, Sept. 22.—With the condition of both oranges and grapefruit continuing to climb, prospects for citrus fruits are "very promising," according to the monthly review of crop conditions in Florida issued by the Department of Agriculture at Gainesville. On September 1, the condition of oranges had advanced from 88 per cent of normal a month ago to 89 per cent. At the same time last year conditions was 85 per cent. It falls below the condition of September 1, two years ago when it was 92 per cent of normal and three years ago when it was 90 per cent.

The condition of grapefruit September 1, was placed at 86 per cent as compared with 83 the month before, and 85 the same time last year. The condition September 1 was much better than at the same time two years ago when it was 79 per cent, but is short of the mark three years ago when it was 89 per cent.

The condition of staple crops deteriorated slightly during the month, the review says, with the exception of velvet beans, cowpeas, and late hay crops, which showed improved prospects. Cotton picking was reported to be well advanced but the crop has suffered heavy damage from rust, shedding and weevil infestation.

The corn yields are running below those of last year and production, on a slightly decreased acreage is estimated at 10,303,000 bushels compared with 11,032,000 bushels last year.

Condition of cotton on August 25 was 60 per cent of normal compared with 65 per cent a month ago and 59 per cent a year ago. Production is estimated at 22,000 bales against 10,905 last year; 19,114 in 1920 and 15,922 bales in 1919.

No top crop will be made anywhere in the state and the Sea Island acreage will not mature more than half of a middle crop. A good bottom crop

Most of the Sea Island acreage has been picked and picking is well advanced in short cotton territory.

Prospects for sweet potatoes are not as good as for a month ago but early plantings are showing a better yield than those of last year. Production is estimated at 3,200,000 bushels based upon September 1 condition of 87 per cent of normal. Last year unfavorable weather after September 1 cut production to 2,720,000 bushels.

Production of tobacco is estimated at 3,070,000 pounds compared with 3,600,000 pounds last year. The decrease in production is due to a heavy cut in acreage of sun tobacco. Rice is maturing and harvesting has started. Condition is about the same as for a year ago but, on account of a decrease in acreage planted, production will probably not exceed 70,000 bushels, compared with 88,000 bushels last year.

Field peas are showing excellent condition with the acreage planted quite a little larger than for last year. Condition of velvet beans continue to improve and is now almost up to condition at this time last year. A fairly good crop is in sight. Pasture declined slightly in condition during the month but is generally better than at this time last year.

Production of peanuts is estimated at 1,944,000 bushels compared with 2,168,000 bushels last year.

ENDORSE GERMAN BONDS

BRUSSELS, Sept. 20.—Dr. Lansberg, the German minister here, informed the Belgian government this morning that the Reichsbank was willing to endorse German treasury bonds for reparation payments to Belgium to the amount of 270,000,000 gold marks due February 15 and June 15, 1923.

The stretch of road that is being paved with asphalt between Plymouth and Mt. Dora is now open to the public. This is the first road to be paved with standard sheet asphalt in the state. The asphalt is spread three inches thick over a hard surfaced eight inch base composed of Marion county limestone.

WHEAT PRICE SOARS AS DEMAND EQUALS THAT OF WAR TIME

CHICAGO, Sept. 22.—Regardless of price, wheat was in eager demand today on a war time basis. The hoarse roar from the crowded trading pit on 'change her' had a volume seldom heard of except when a military struggle of world-wide import appears fairly in view, and immense breadstuff supplies are an apparent imminent need.

In a majestic sweep, the market moved upward, adding just short of six cents a bushel to the value of hundreds of millions of bushels of the cereal, and paralling in a measure the ascent of prices which preceded the outbreak of hostilities with Germany. Selling on the rise was practically confined to holders of wheat who were in a position to collect a profit. Under pressure from this source, the market receded somewhat at the last, closing 3 1/2 cents to 4 1/8 cents higher than Saturday, with the leading month December, standing at \$1.05 5/8 to \$1.03 3/4.

Regardless of the coal situation we can still have Fords.

The new tariff bill went into effect a midnight last night. There was no noise about it. The noise will be heard later.

Now that Smyrna has been destroyed the folks over there will be wanting relief. The idea is to keep the Turks from eating up all the food that we send to the Christians.

Moonshiners in South Carolina have taken to firing on balloons as they pass. It must be a bad brand of "white mule" those boys are making up there when they fire on balloons.

October ninth is Fire Prevention Day and a good day to think about the prevention of fires. No man ever takes out sufficient insurance to cover his losses by fire therefore it behooves each and every one to prevent fires at all times. It is much cheaper to prevent fires than to have them aside from the loss of life that might ensue.

THE RACE PROBLEM

Now and then a race conflict arises in the south, and the south deals with the situation in a manner that experience seems to justify. On the whole, the colored people of the south are better behaved than in the north.

A great amount of criticism has been visited upon the south from some quarters in the north because of the fact that in the south the colored man is taught to know his place and keep it. Frequently there occur clashes in the north that compels these same critics to cry out against the arrogance of the black race. Illinois has staged several race riots that excel anything that ever occurred in the south. A recent one that started over a trivial affair—so trivial and under circumstances that could not have existed in the south, and in which a number of persons were severely injured has not yet been settled. About this occurrence the Chicago Tribune says:

"Prompted by the recent clash between the races in Lincoln Park, the Tribune has received numerous heated and intolerant letters from both whites and blacks. Each has blamed the other for the trouble. We do not assume to judge between them, but we are impressed by the evidence that there is a chip on the shoulder of each party.

"An illustration of this condition came to our attention on an elevated train shortly after the Lincoln Park affair. Four colored laborers occupied considerable more than half of a car seat designed to accommodate eight persons comfortably. Three whites occupied the other end of the bench. Opposite, eight white men and women sat, without crowding. A white man entered, counted the passengers on each bench, and then squeezed himself into the seat between the whites and blacks. The three whites crowded together. The blacks braced themselves against such a move without even taking up the few inches of vacant space wasted between them. They stared defiantly at the newcomer on their bench. He sat on the edge of the seat and submitted to discomfort.

"The colored men grinned at each other. No doubt their vanity or pride of equality, or whatever it might be called, was pleasantly thrilled. But at that moment, if we are any judge of human expression, it would have taken a little to precipitate a riot in that car. And after such a riot the colored folk would have arisen in protest, and written to the newspapers that they were abused and assaulted by prejudiced and arrogant whites, to the disgrace of Chicago, etc.

Such chips must be removed from popular shoulders. Whether any one likes it or not, we have many thousands of colored residents in Chicago. They have been welcomed by some lines of business and coddled by some classes of politicians. They are here, and we must make the best of them

and get along with them. But it is equally necessary that they should get along with us. To do so they should show as much consideration for the whites as they want the whites to show them. They must behave themselves and teach their children to do likewise. Those who do not grasp this fact will be taught, at painful cost. Those who do, will receive consideration and decent treatment."

No one will glory in these clashes of the races or take comfort in the fact that the north finds it has a race problem as well as the south. But the Reporter-Star has always contended that it was no kindness, to the colored man to put him in politics—in fact it was a detriment to him, and the Chicago Tribune hints at the evil. The colored man has his place in the economic situation of America, and is entitled to a square deal. The best friend of the negro is the man who helps him to know how to make an honest living, have a fair and square deal in business and to enjoy his church relationships, which to the colored race means very much. Herein is the salvation of the colored race.—Reporter-Star.

OCALA'S BAND JOKE

Editor Star: As you say, the band is having its little joke. Listen why it is so funny.

The Board of Trade has been plining for a band for a long time. A band was finally gotten together. The Board of Trade requested a free test concert be played, that city fathers be present to give approval or disapproval. Free concert was played and Board of Trade awarded a ten weeks contract, which was O. K'ed by city council. (Refer you to headlines in Star "City Council Agrees to Help Band.")

When less than half the contract was played council discovers it has spent the money which was assessed for band for something more essential. Board of Trade says go ahead, we will raise it by public subscription. When balance of fund was practically raised by public subscription financing committee remembered that there were certain strings on contributions which should cause their immediate return.

This leaves the band with a good joke, one month's hall rent to pay, a light bill, new instruments on the hands of individuals costing more than they could make out of entire contract, leaving us with out of town men to pay for last two concerts as well as ourselves and director, also leaving us with some valuable experience.

The best joke is that the band men did not solicit the work. They only like to get together and play and see something stirring in town. As far as financial returns, ask A. E. Gerig, W. W. Condon, H. W. Tucker, Ben Borden or any of the old wheel horses if band playing has not cost them either directly or indirectly more than they ever got or expected to get out of it. We do not ask the public to be taxed to support a band. We did expect, however, a bona fide contract entered into by the Board of Trade and approved by the city council would be fulfilled.

Yes, the band is having its little joke, but somehow it also seems a joke on the public who with civic pride attended our concerts, applauded our efforts and laughed at our mistakes. It's a joke on the hundreds of little kids that romped and played on the grass and looked forward to band night.

Oh, sure; it's all a big joke.
THE BAND.
—Ocala Star.

THE SOLDIER BONUS KILLED AS EXPECTED

As was predicted by this paper and as was expected by those who were on the inside of the political situation in Washington, the president vetoed the soldier bonus measure hardly without deliberation or hesitation. After both houses of congress have for three years fought over and knocked the bonus measure from pillar to post; after the majority of these politicians, whose fences at home were in danger had held off the showing of their hands until the election were over, then the so-called leaders of our country passed the measure and put it up to the president. It simply means that the entire time which has been taken up by congress, especially the senate in fighting over this measure has been lost. But, on the other hand, these same law makers don't take any time at all or hesitate very long and the president does not stand back on very much ceremony when they want to vote and contribute over a million dollars in grain for the starving Russians; it seems to be an easy matter also for them to vote, in a very few months' time, a tariff which will put a duty on sugar and other necessities of life, simply because it is an administration measure which the president has the effrontery to announce ahead of time would be signed by him.

The president gives as one of his reasons for vetoing the measure that no provision was made for the raising of the money to pay this obligation, yet opponents of the measure were careful to make a provision that the

money is to come from the interest on the foreign debt, most of which these very same soldiers, who are denied any income for their sacrifices, were responsible for stopping and preventing the amount from getting any larger. They went over the sea to save the world from the hands of autocracy and for democracy yet the very moment that they started to go to camps and to drill for army service the men who are bossing the tariff legislation; the men who are dictating what course the president is to pursue and who are driving his band wagon, were laying their schemes and plans to bleed the country at the expense of the soldiers who in all sincerity made the sacrifice.

In other words, the profiteers who made millions out of the war are still in charge of affairs and if the president and those who justify their position on the bonus, because they claim they have been taking care of crippled veterans, think that such will let them off, they ought to look at themselves again and they will find out that these veterans who have been taken care of compose a very small per cent of the whole and that there are hundreds of thousands who have never even been considered along that same line because it takes the department from two to three years to get action on one man and if you will go into the methods and plans followed out by the so-called vocational training institutions, you will find that most of them are graft ridden and easy marks for those who are in charge and that they are a great liability to the government and are run just as loose as the army camps were during the war.

The soldier bonus may be killed; the soldiers may have their noses cut off for a time but the sentiment created against the government not because these men have been refused a few dollars in money, but because of the principle of refusing them even any decent recognition upon their return from service, has hardened about four million stalwart, once patriotic young men, into cold blooded, unenthusiastic citizens who, if another call for arms is made and a defense is desired, will have something to think about before they take up their guns in defense of their country. That is the sentiment that has been instilled into these men and from the treatment most of them have received you can't blame them one bit.—Lakeland Star-Telegram.

AWARD THE CONTRACT TO THE LOCAL BAND

The Times is in receipt of the following letter from the secretary of the board of trade, who is a member of the committee appointed to select the band which will furnish concerts during the tourist season:

The committee having the task in hand of awarding the contract for band concerts during the coming season have eliminated all but two of the numerous bids which have been submitted. One of these bids is submitted by a local band leader and the other is submitted by an out-of-town band leader. The committee would appreciate from you an expression of what you believe the citizens of Tampa would prefer the committee to do. The committee is taking into consideration the fact that in the past there have been many disadvantages which local bands have had to contend with in rendering concerts, and it is expected that this year more ideal facilities will be provided.

An expression from you, as stated above, will be greatly appreciated, and the committee would like to have your expression in hand within the next day or two if possible.

The Times elects to make public answer to the inquiry. It has no hesitation in declaring in favor of awarding the contract to the local organization.

There was no just cause for complaint at the quality or variety of music furnished by Prof. R. E. Cobb's band last season—and for several seasons past. A number of the towns and cities in the state which cater to tourists employed musical organizations from other sections of the country and at much greater cost, but in our judgment the Tampa programs compared very favorably with any that were presented in Florida during the 1921-2 season. And a fact which influences The Times strongly in favor of the local organization is that most of the members of Cobb's band are residents and taxpayers—they will help to pay for the concerts thru the taxes they pay.

Further, it is pertinent to inquire, how may we ever expect to have a band which will do credit to the city if it is not given the support needed to maintain it? No progressive citizen will question the desirability of a good band—a city which does not include a band in its civic activities certainly cannot be considered up-to-date.

In line with the thoughts it has expressed the Times submits the following communication received this morning:

Tampa, Fla., Sept. 20, 1922.
To the Editor of The Times:
According to press notices, the board of trade seems to be in a quandary over the awarding of the band contract for the coming tourist season, unable to decide between the Tampa organization and one in Baltimore.

If conditions are anywhere near equal there should be no hesitation in the matter.

Tampa folks have grown used to the "Buy in Tampa," "Purchase Tampa-made goods," "Patronize home industry" and the various other "boosting movements fostered by the board of trade and other commercial organizations of Tampa. It is unsafe to mention a mail order firm for fear of being accused of a lack of patriotism but as soon as there is a bit of public business to be given out or a contract to let it seems we must send out of town for it.

Why can we not "practice what we preach?" Professor Cobb's band is a splendid musical organization; it would be a credit to any town on the map. This fact is conceded, not only by the home folks but by tourists and musical critics from all parts of the country. We are proud of them as a Tampa asset, so if we are to have music why not be consistent and make it Tampa music? Even the benefit of a considerable difference in favor of the Tampa band would be justified by our civic pride (or "patriotism," if you will), aside from the fact that Professor Cobb's splendid band thoroughly deserves all the credit and support we can offer.—Sam J. Kendrick.
—Tampa Times.

homes, apartments and rooms are to be permitted to remain such proportions as to discourage those who come to Eustis to spend the winter or to make their permanent homes.

A legitimate rental is to be expected. Those who build or purchase homes are entitled to a reasonable profit on their investments, but the individual, firm or corporation that makes exorbitant charges as a result of the present dearth of housing facilities in Eustis is a menace to the future growth and development of the city, and cannot be classed among our most progressive and desirable citizens.—Eustis Lake Region.

INTRODUCE NEW SOLDIER BONUS BILL IN SENATE

New Bill Would Provide for Payments of \$20 for Each Month of Service

(By The Associated Press) WASHINGTON, Sept. 22.—Senator Bursum, Republican, New Mexico, late yesterday introduced into the senate another bonus measure, defined in its title as the "veterans refund and adjusted compensation act."

The measure would provide for payments of \$20 for each month of service together with the return of all compulsory allotments made by the service men and payments on account of government insurance between April 5, 1917 and July 1, 1919.

No provision is made for financing the bonus.

Where the amount due a veteran did not exceed \$50, it would be paid in full on October 1, 1923. In all other cases, fifty per cent would be paid October 1, 1923, and the remainder on October 1, 1926, together with interest at four per cent.

The obligations given by the government on unpaid sums could not be used as security for loans except under regulations prescribed by the secretaries of the war and navy.

Announcing that the fight of the American Legion for adjusted compensation had "only begun" Hanford MacNider, national commander of the organization, declared last night in a formal statement that "reputation of those who have defended the nation is not for the good of any country."

"Those men now in congress," he said, "who are fighting for their honest convictions, carrying out what those they represent would wish can be assured that the service men and women—and we represent a whole generation—will not forget. To prove that the people's will must be carried out, we shall continue to fight to that objective."

MRS. POULIN RESUMES STAND AT HEARING OF PATERNITY CHARGE

(By The Associated Press) SOUTH BEND, Ind., Sept. 22.—Mrs. May Poulin, wife of Harry Poulin, who is charged by Mrs. Augusta Tiernan with the paternity of her 10-months-old child, resumed the stand when hearings of the case were taken up today. Mrs. Poulin, testifying in behalf of her husband undergoing a cross examination by the prosecution when the court adjourned yesterday.

LYNCHERS INDICTED FOR HANGINGS IN HINESVILLE, GA.

(By The Associated Press) HINESVILLE, Ga., Sept. 22.—The grand jury of Liberty county returned indictments against five residents of Wayne county charging them with murder. Alleged to have taken part in lynching two Wayne county negroes in Liberty county several weeks ago.

PRESIDENT SIGNS BILLS FOR COAL COMMITTEE AND FACT FINDINGS

(By The Associated Press) WASHINGTON, Sept. 22.—President Harding signed the administrative coal distribution, anti-profiteering and fact finding coal commission bills today.

BISHOP GAILOR PRESIDENT NATIONAL COUNCIL EPISCOPAL CHURCHES OF AMERICA

(By The Associated Press) PORTLAND, Ore., Sept. 22.—Bishop T. F. Gailor, of Tennessee, was re-elected by the house of bishops as the president of the National Council of the Protestant Episcopal church in the United States. He has held the place since the National Council was created three years ago.

STILL A MYSTERY

NEW BRUNSWICK, N. J., Sept. 22.—Many evidences of recent use were found today, in the old unoccupied house on the hill top, overlooking the orchard where last Saturday the bodies of Rev. Edward Wheeler Hall, rector of the church of St. John the Evangelist, and his choir leader, Mrs. Eleanor Reinhardt Mills, wife of the church sexton, were discovered.

TARIFF ACT COMES INTO FORCE TODAY

(By The Associated Press) WASHINGTON, Sept. 22.—American tariff making will enter a new phase today with the coming into force of the tariff act of 1922. For the first time, congress has delegated part of its authority over taxes at the customs houses, conferring on the president broad powers to increase or decrease rates and to change from foreign to American valuation as the basis for assessing ad valorem duties on imports.

Referring to the sections carrying this grant of authority, President Harding, in attaching his signature to the new act, declared that "if we succeeded as I hope we succeeded in making effective the elastic provisions of this, this will prove the greatest contribution toward progress in tariff making in a century."

The tariff commission, created during the administration of President Wilson, will be the agency through which the president will exercise his new authority. The commission will make extensive investigations into the cost of production at home and abroad and will report its findings with recommendations for rate or valuation changes to the president.

Applications for changes in rates or valuation basis will be referred to the commission. If the facts presented justified action investigation, and, perhaps, hearings would follow.

Rules and regulations will be announced, Chairman Marvin said yesterday when the commission works out details of methods of procedure.

TARIFF WIL COST \$32,000 PER DAY TO SAVANNAH REFINERY

(By The Associated Press) SAVANNAH, Sept. 22.—William S. Pardonner, vice-president of the Savannah sugar refinery, said today, that when the new sugar tariff goes into effect, it will cost the Savannah sugar refinery in round figures \$32,000 a day. The refinery produces 1,750,000 pounds of sugar daily. The new bill puts a tariff of 1.7645 a pound on the raw product which comes from Cuba.

POSTAL CLERKS WILL REMAIN AFFILIATED WITH UNION LABOR

(By The Associated Press) WASHINGTON, Sept. 22.—By a vote of almost two to one the railway postal clerks have voted to continue affiliation with the American Federation of Labor it was announced today by the Railway Mail Association.

A referendum mail ballot taken by the association during September resulted in 7,131 votes favoring continuation of affiliation to 3,830 against.

The railway postal clerks affiliated with the federation in 1917, "because of the oppressive policies of Postmaster General Burleson," their railway association asserted in a statement which added:

"Since the resignation of Postmaster General Hays there has been a return to the discredited, Burleson policies in the conduct of the postal service and the treatment of the postal employees."

GROCERS FEAR NEW CLASS RATES WOULD HURT SOUTH'S TRADE

(By The Associated Press) ATLANTA, Sept. 22.—Statements that proposed changes in the Southern freight class rates, as recommended by the railroads, would react against commerce in the South especially wholesale and retail grocery trade were made at the closing session here today of the investigation being conducted by the Interstate Commerce Commission.

The carriers' proposal to eliminate classification and cancel all shipments of less than carload lots would greatly increase rates on food products, according to testimony by T. D. Guthrie, traffic manager of the American Wholesale Grocers' Association. The rates would greatly increase the cost of living in this section and would have a tendency to put out of business many wholesale houses dependent upon shipments of food products from Northern and Western markets. It was stated by Mr. Guthrie whose testimony was substantiated by Francis E. Kamper, president of the National Retail Grocers Association.

Letters from merchants from all parts of the south protesting against increased freight rates on less than carload shipments were offered by both Mr. Guthrie and Mr. Kamper. The hearings will be resumed in Asheville on October 4.

STORM RAGES ALONG COAST OF CAROLINA

WASHINGTON, Sept. 22.—The Southern storm was central last night near latitude 35 and longitude 73 and moving northwestward, according to advices to the weather bureau here. The storm has been attended by gales along the coast from Cape Cod southward to the Georgia coast and by winds of hurricane velocity off the North Carolina coast, the report said. Storm warnings remain displayed on the Atlantic coast at and between Cape Hatteras and Boston.

MILLIONS TO BANISH NOISE

CHICAGO, Sept. 22.—More than a million dollars will be spent to banish noise from the new \$15,000,000 hotel Stevens, planned as the world's largest hostelry according to the builders, who expect construction to begin in January.

HURRICANE HITS BERMUDA

HAMILTON, Bermuda, Sept. 22.—Bermuda has been in the grip of a fall hurricane since 6 o'clock this morning. Considerable damage has been done to small buildings and a number of plate glass windows have been blown to pieces. The telephone and electric light systems are disorganized. No damage was done to vessels in the harbor.

At Hamilton and St. Georges the wind abated about noon and no further damage is expected.

SIGN RAIL AGREEMENT

WASHINGTON, Sept. 22.—Agreement was signed today by the Southern Railway and representatives of the Order of Railroad Conductors and the Brotherhood of Railway Trainmen, extending until January 1, 1924, present wages and working conditions of members of these unions employed by the Southern system.

ATHLETES ENTERED IN THE LEGION MEET AT NEW ORLEANS

(By The Associated Press) NEW ORLEANS, Sept. 22.—More than sixteen hundred athletes, 46 rifle teams are entered in the American Legion National Athletic championship meet to be held during the national convention of the Legion at New Orleans, October 16, 1920.

FUEL DISTRIBUTOR UNDER NEW ACT

WASHINGTON, Sept. 22.—Conrad E. Spens, vice-president of the Chicago, Burlington & Quincy railroad was appointed fuel distributor under the new coal distribution anti-profiteering act today.

STRIKERS' EFFECTS WILL LINGER, SAY BUSINESS CHIEFS

WASHINGTON, Sept. 22.—Warning was given by high administration officials recently that the country must wholly recover from the aftermath of the recent industrial upheaval before economic benefits flowing from the settlement of the railroad strike can react fully upon national business conditions.
Secretary Hoover took the view that although the country is now undoubtedly better off than it was a year ago, it will probably be six months before a high plane of prosperity is attained, while Secretary Mellon, although considering the business outlook "very good," recognized as forestalling immediate commercial expansion the limitations imposed upon transportation facilities by car shortages and a possible inadequate labor supply.

The greatest loss as a result of the strike will be borne by the farmers, according to an analysis of the situation by Secretary Hoover in which he reached the conclusion that the "economic wound" received by the country should be quickly healed.

While the losses due to the coal and railroad strikes have been "considerable," Secretary Hoover said in a statement issued last night, "they are easily overestimated."

"The estimate of current coal miners' wages lost in the five months of strike is not a basis of estimate of the total loss," he said, "because over a period of eighteen months we will probably consume the same amount of coal. In other words, the miners will work more days in the week and produce more coal in the next six or eight months than they would have produced if there had been no strike, and this the wage roll of the next six or eight months will be larger and will in a considerable degree, compensate the loss during this suspension."

"The real loss would be more in the loss of productivity in industries that have or might have to close down as a result of the coal strike. If all of our industries can be kept in motion, the loss will be much less from the coal strike than is currently estimated."

"The greatest loss today is the one being met by the farmer as a result of the railway strike. The export of farm produce has been seriously interfered with by the inability of the railways to transport produce. Prices are, therefore, unduly depressed in the agricultural regions."

"The inability to transport manufactured products will create some degree of loss but not serious as that to agriculture."

"There are other losses that must be counted into the national balance sheet, such as the damage to the railways the extra charges which they have been put to, the cost of keeping the mines open, and the maintaining them during the period of suspension, and a hundred other items that are of importance. In the broad view, however, if we can get back to business, if we can secure a resumption of transportation and rapid distribution of coal and agricultural produce, we will not have received such an economic wound as cannot be very quickly recovered from. We will probably not be on such a high plane of business prosperity during the next six months as we would have had the strike not taken place but we will undoubtedly be on a much higher and much more comfortable plane than that of last year."

BRADENTOWN CUTS TAX RATE 3 MILLS; PUBLICITY PROVIDED

BRADENTOWN, Sept. 22.—The city tax rate for the new tax year will be fifteen mills, which is a reduction of three mills from the rate for the previous year. This is accomplished despite the fact that appropriations included in the new budget embrace outlays equal to about one and a quarter mills, for extraordinary purposes. One-half mill goes into the publicity fund being raised in common with the county and the towns of Palmetto and Manatee, and another half mill will be used to put the ball park, which is city owned property, in shape for use

by the St. Louis National League ball club which will train here next spring. Other appropriations for betterments include the opening of streets in the new Point Pleasant subdivision, and for paving and sewers.

The total assessed valuation is \$5,650,000.

Economy in administration of the city's affairs by the present administration, headed by Mayor E. P. Green, and which went into office the first of the present year is responsible for the fact that the millage can now be substantially reduced. The budget has been delayed a bit so that it could be decided just how much money would be required for extraordinary expenses, and despite the fact that the fiscal year ended June 30, the affairs of the town government have continued on a cash basis and there still is money in the treasury from last year's tax levy. There has been no money borrowed against the new tax year.

Some floating indebtedness that has stood against the city for several years will also be taken care of in the new tax levy, despite the trimming down of the millage.
