SANFORD, FLORIDA, SEPTEMBER 23, 1910

Number 34

Our Terms and Quality are Just What You are Looking for

It is gradually being demonstrated that West Sanford is one of the most stable portions of the Sanford Celery Delta. There is very little actual farming within the city limits of Sanford. The Sanford Celery Delta begins on the west at the Astor Grant, skirts along the shores of Lake Monroe on the south and Lake Jessup on the north and terminates at Soldier Creek. This area is within the irrigable belt. There are some areas on the south side of Lake Jessup that are also irrigable and some portions of that area are in cultivation, but it could hardly be located within the limits of the Sanford Celery Delta.

Beginning at the west limits of Sanford and extending on west for a distance of four miles are to be found as good farms, in actual cultivation, as there is on the globe today. Farming land that sells at from \$150 to \$1,500 an acre must be good farming land. This is the kind we have on the West Side.

As an evidence of the popularity and worth of the West Side there are now in process of construction some twelve or fifteen farm residences. These range all the way from a modest cottage to a handsome eight room residence on Sanford Farms. Every available acre will be placed in cultivation and there is no land for rental on the West Side.

The Sanford Farm tract comprehending 200 five acre farms, which is an integral part of the west end of the Celery Delta, was placed on the market late in March, since which time Title Bond & Guarantee Company has sold three-fourths of the property.

One of the prime features of this tract is the terms upon which it is being sold, the said terms appearing in the box at the head of this page. These terms allow the purchaser to place the greater portion of his money in development work instead of in land payments, thus giving the purchaser six years in which to pay out his contract. The payments of \$120 per annum on each five acres is simply cheaper than rent. Many a poor devil is paying more rent than this for a place that is wholly unproductive—a place that will never yield a single cent. But in this case the property can be made to take care of all payments, if the purchaser will roll up his sleeves and go to work.

Every acre of the land can be irrigated with flowing wells and this makes the property immune from all weather conditions so far as wet and dry is concerned. In fact, the Sanford Farmer is very glad indeed when the rain refuses to come. He has his unlimited supply of water from the artesian wells and he will make a crop whether or no.

If you are interested in coming to Sanford and if you want to grow vegetables for the winter markets of the north, write us about our guarantees on property and other points of which you should have knowledge before purchasing here. We will take care to tell you the plain unvarnished truth in every instance and give you only that information upon which you can rely.

Title Bond & Guarantee Co.

Sanford does not have free delivery of mail. There is always a large number of persons lined up at the general delivery window of the post office, and those who are coming to this city will save time and trouble by having their mail addressed in care of the Title Bond & Guarantee Company.

**This List May Interest You**

- FOR SALE Five acres, 2 1/4 cleared, 1 well 2 room cottage, price \$1,050.

LETTER NO. 3.

The Father Shows His Son That the Sort of Land to Purchase in Florida is the Kind That Can be Irrigated.

My Dear Son:—

It is with a little concern that I write you in regard to the quality of land you should purchase in Florida when you launch into the vegetable growing business. I had a talk with a gentleman here yesterday and he gave me the

**Following Statement**

In the season of 1904 and 1905 I placed fifty acres in cultivation, no part of which could be irrigated. I planted it to egg plant, tomatoes, peppers and melons. The entire venture which had a first cost of several thousand dollars to me was a TOTAL LOSS, on account of no rain falling at the proper time. I have had much experience in growing vegetables and know the crop failure did not occur on account of a lack of experience. This venture fully satisfied me that land that cannot be irrigated is worthless for winter vegetable growing. I would not accept any sized Florida farm as a gift if I had to cultivate it without irrigation.

Signed G. F. SMITH, Sanford, Florida

**The Truth Is What Should Guide You**

And when a gentleman of Mr. Smith's standing in the community makes the broad assertion that land which cannot be irrigated is useless for vegetable culture, you should pay strict attention to his admonitions.

**You Know As Well As I Do**

That flowing wells cannot be had on Tenth Street in Sanford and that out side of the city limits in that direction land can be purchased for the nominal sum of ten dollars an acre on account of the absence of Flowing wells.

**A Gentleman Took Your Father Out To Palm Hammock**

A few days ago and while we sat in the machine, he pointed out forty acres of land within a stones throw of us that could be had for

**Twenty-Five Dollars An Acre**

While within a stones throw in the opposite direction he pointed out unimproved land that is worth \$150 an acre. The difference being that the \$25 land was above the artesian level and the \$150 land was in the irrigable zone.

**I Have Tried To Make This Fact Plain To You**

Many times I want you to secure a thorough comprehension of it. If you can get the water from flowing artesian wells that land is better by an unlimited number of times than the land that is high and dry and without the irrigable zone.

**Because Land Is In The Vicinity Of Sanford**

Does not make it valuable, any more that does it make you a millionaire by standing within the shadow of the Knickerbrocker bank which has resources amounting to \$80,000,000.

**Do You Grasp The Point?**

If not you have become very dense and are sorely in need of a lotion to clear the bat nests out of your belfry.

**A Good Thing to Tie to**

Is the proposition offered at this time by the Title Bond & Guarantee Company, which owns one of the handsomest unsold tracts of land in the entire Celery Delta. Fifty per cent of these farms which are known as Sanford Farms and are in the suburbs of Sanford on the west have been sold, a good majority of which have undergone improvement. The unsold tracts are the choicest pieces in the entire division.

**This Company**

Will sell you one of these farms on the most liberal terms offered by any real estate concern here. The land is perfectly adapted to the growth of vegetables. The drainage is correctly poised to take care of all surplus water and.

**You Have Six Years Time In Which to Pay**

For the land. This allows you to place your money in betterments, instead of in land payments. You of course can readily appreciate the value of this feature.

**Things Are Picking Up In Fine Shape Here.**

I will keep you fully posted as to developments here and in the mean time you had better send to Title Bond & Guarantee Co., for their book "We Feed The Nation Without Competition." It will show you how to proceed in the matter of vegetable growing here.

Your loving Father

P. S.—I have just had a conversation with Mr. F. Irving Bond, of Brooklyn, N. Y., who says he has investigated the many five acre propositions in Florida and also those in California, and he has decided that Sanford is the best, and has greater possibilities than any that have been called to his attention.

# THE SANFORD HERALD

IN SANFORD—Life is Worth Living

Number 8

SANFORD, FLORIDA, FRIDAY, OCTOBER 7, 1910

Volume III

## ALL AROUND FLORIDA

### The General News of "The Land of Flowers."

### CULLED FROM THE STATE PRESS

#### An Epitome of the Week's Most Important Happenings in the State's Domain.

Will Rice, a white mill, was found dead with a bullet hole through his head in a ditch in front of the house of Nellie Lancaster on the outskirts of Punta Gorda early Sunday morning. Nellie Lancaster has been arrested charged with complicity in the affair. Much mystery surrounds the shooting, as there were no eye witnesses, and the first the authorities knew of the supposed murder was when Rice's cold body was found lying in the ditch.

At 2 o'clock Sunday morning fire was discovered in the second story of the Tribune building. Prompt work prevented a total destruction of the building. Investigation by officials indicates that the fire was of incendiary origin. The Tribune has consistently opposed the cigarmakers' strike. The damage was about \$2,000.

President Taft has signed the appointment of William H. Northrup to be collector of customs at Pensacola, in place of J. E. Stillman, long a Republican leader of Florida. Stillman's scalp was taken by Postmaster General Hitchcock, it is said. The latter did not consider Stillman the right man for the place, which he had held five years and stood for Northrup.

One of the most encouraging and interesting reports ever made comes from the University of Florida, Gainesville, where already the enrollment is far in excess of last year and the prospects are very bright for the term now opening. President Murphree is a most popular and well known instructor, and the great increase is thought to be in part on account of his splendid management. The attendance at the university is said to exceed by 125 per cent that of two years ago and more than 75 per cent that of last year's enrollment.

That the Pensacola navy yard may be selected as one of the fuel oil supply depots of the gulf is suggested by the Journal, and the reason for this, anticipating the government's purposes is said to be the inquiries recently made concerning the tank capacity at the yards. Including a barge, Pensacola has a storage capacity at the navy yards of over 100,000 gallons. A number of the oil burning vessels of the navy will be sent to the gulf during the coming winter, and it is natural to suppose that Pensacola will be the point designated for replenishing oil supply.

With an unusually large enrollment for the first day, the Florida State College for Women reopened Wednesday, and has brought to the capital city of the state the customary swarm of young women students who are receiving their usual welcome by the people of hospitable Tallahassee. The new term begins with a very auspicious outlook, the number of room reservations indicating that the enrollment will far exceed that of any previous year.

Rumors drifting from Tampa during the past few days strongly indicate that an acute stage has been reached in connection with the disastrous and long drawn out cigarmakers' strike, and before the end of the present week citizens may resort to deportation or even more effective methods in ending the strike and the reign of lawlessness among the foreign element. In fact those conversant with affairs in the cigar metropolis intimate that bloodshed may be expected at any moment.

The strike of the tobacco working trades of Tampa is having a very bad effect on the business of the saloonists, as is evidenced by the fact that twenty of the sixty-odd saloons that are now doing business in the city will not seek re-licensure.

One of the many new industries established at the thriving phosphate city and railroad center of Dunnellon is the immense new plant of the Dunnellon Ice, Storage & Machine Company. The company is composed strictly of local capital and local men compose the officers and board of directors. The company is capitalized at only \$25,000, but their buildings and plant when all complete, will represent nearly twice that amount of capital invested.

## SANFORD SCHOOLS OPEN

### Large Attendance and Most Successful Year Is Expected

The opening of the public schools is always an event in which the majority of the people of a town are greatly interested, and in this particular town it is also a time when every good citizen rejoices in the knowledge that Sanford has one of the best school systems in the state. Prof. N. J. Perkins, the efficient Superintendent of Sanford Schools is again in his place, and with his splendid corps of teachers it goes without saying that another year of successful school work, which has just begun, will be added to those that have passed. The schools opened Monday morning with a larger enrollment than ever before, showing an increase of forty-five over the beginning last year. The enrollment of pupils was as follows: High School 85, Grammar School 267, Primary 183, making a total of 535.

The High School building not being completed, the High School students are attending an afternoon session in the Grammar School, the session beginning at 12:30 and closing at 4 o'clock. These crowded conditions will be relieved, however, in a few weeks, as the handsome new building will soon be completed.

There are vacancies in the teachers' places, but they will be supplied. The County School Board has authorized the Sanford School Board to secure a science teacher for the High School, but a teacher to fill this place has not yet been appointed.

Principal of the High School, Miss Clara Louise Guild; Assistant Principal of the High School, Miss Alice Tetherly; Drawing and Music, also High School Assistant, Miss Edith Savage.

Grammar School: Eighth grade girls, Miss Flora Walker; seventh and eighth grade boys, Miss Gertrude Speer; seventh grade girls, Mrs. G. B. Dickinson; sixth grade, Miss Nellie Furey; an extra fifth and sixth grade teacher to be supplied, fifth grade, Miss Lucile Richards; fourth, Miss Carrie Essinger; and Mrs. Charles Polk.

Primary School: Third grade, Miss Nita Moore and Miss Clara Millen; second grade, Mrs. E. W. P. Dunn and Miss Edith Fair Smith; first grade, Miss Lillie Farnsworth and Miss Peacha Leffer.

## FERRY BOAT SINKS

### Automobile and Wagon Consigned to The Deep

Again the gondola that transports the people from Orange to Volusia counties has become waterlogged and sank to the depths with all on board. This time B. T. Williams loses his valuable automobile and a man from Osteen lost a cargo of meat. The boat seemed to sink rapidly and the wagon and automobile almost submerged.

Mr. Williams was making the trip from Daytona and was unable to get his car for several days.

This ferry boat and crossing is a disgrace to civilization and demonstrate how the people of this end of the county are treated in the matter of improvements. The people who suffer losses by the ferry expect to make the county suffer and before the matter is ended, the exchequer of the county will be depleted for enough to build a good bridge across this part of the river.

The ferry has never been satisfactory and never will be and some day the commissioners will wake up to the fact that this end of the county must have recognition.

## A Message to the People

On or about the 15th inst. a job printing office will make its debut into the business society of Sanford. A building is now under course of erection on Palmetto avenue, between 6th and 7th Sts. to be occupied for this purpose. It is a little out of the commercial zone, but the city is expanding and steadily growing in this direction. The plant when completed will be modernly equipped, and placed in efficient hands. It will be a print shop of quality known as The Abbey Press, where courteous treatment to all and strict attention to business will be the paramount features. Like all new enterprises it starts trying a little light and immediately needs some business ballast—in other words a little financial accommodation in the way of patronage. I wish to employ the "Missouri" plan of convincing you the merits of The Abbey Press.

Yours for business,

8-11-c

CHAS. L. WING.

## N. B. BROWARD IS DEAD

### Ex-Governor and U. S. Senator Elect Passes Away Saturday

### A FIGURE IN MODERN POLITICS

#### Having Just Won a High Position the Stalwart Floridian Dies at the Threshold of Career

The news that Napoleon B. Broward, ex-Governor and U. S. Senator elect was dead fell like a thunderbolt from a clear sky last Saturday and his legion of friends in this vicinity were grief stricken for the man who was U. S. Senator and belonged to them all regardless of party or factional opinions.

Mr. Broward was taken ill several days while on a visit to Ft. George and taken ago from there to his home in Jacksonville. As a last resort an operation was thought to be best and the patient was rushed to the hospital but died before he reached the operating table. He had been a sufferer for years from kidney trouble but paid little attention to the matter in his strenuous days, and the insidious disease crept upon the stalwart frame with but little warning and laid him low.

The sensational rise of Mr. Broward from a deck hand to the highest position in the gift of the people of Florida and his arduous campaign against Hon. J. P. Tallaferr several months ago, in which he was successful, had made him a prominent figure in national politics and the name of Broward was mentioned as a possible favorite upon the Democratic ticket in 1912. Big of heart as well as of body, Mr. Broward had won a place in the hearts of the people seldom equalled in the annals of history.

Mr. Broward was a man of powerful physique and rugged character. He lacked the polish given by schools, but of shrewd instinct, of thorough knowledge of human nature, of foresight into the course of events, he had enough for a team of statesmen. He was pertinacious, self-confident and never knew when he was beaten. But even the steam engine to which he has been so often likened cannot sustain unending toil. He taxed himself beyond his remarkable strength and endurance, and during the past year his vital powers had been sapped, by an insidious disease which came stealing upon him unawares, neither awakening him to his danger nor giving notice of its certain fatality unless checked at the beginning.

A few days ago he succumbed, and was taken to his home in Jacksonville, and then to the hospital. But it was too late. He had hardly entered its portals before his spirit passed away. His unexpected death has caused a universal grief throughout the state. As a man he had thousands of personal friends, as politician he had come to be recognized and relied upon as one who would accomplish much for his state when he should have entered the senate. His election had in a large measure disposed of the problems that had vexed Florida politics, and the people believed that there would be a long term of political peace and quiet before them. The grief for the man is reinforced and widened by the consciousness that political rancor and rivalry may revive.

Mr. Broward married early in life a most estimable woman, strong in character and a fitting helpmate to a man who lived the strenuous life. He became the father of eight daughters and one son, the latter the youngest of the family. To them will go out the sympathy of all the people of Florida.

## To Destroy Tampa Papers

The attempt to burn the building occupied by the Tampa Morning Tribune during the early hours of Sunday morning, an attempt which had it been delayed an hour, might have been entirely successful, has been followed, it is alleged, by veiled threats to destroy not only the Tribune plant but also that of the Times as well. Both of these newspapers have been very outspoken in their condemnation of the leadership which has held the cigarmakers out of work for weeks after the strike has been known to be absolutely hopeless, and at the same time threatening the city with the loss of a considerable part of its main industry. The attempt to burn the Tribune building followed a few hours after the incendiary fire which destroyed the three story frame building used by Balbin Bros. as a cigar factory. There have been no arrests as yet.

## SANFORD BUSINESS CHANGES

### Removals and Changes in The Business District

Fall trade is starting in with renewed vigor and Sanford merchants are getting ready for one of the best and busiest seasons in the history of the Celery City. Many changes have taken place in business location made necessary by the rapid growth of the city. Last week the furniture house of Williams & Milteer moved into the two store rooms of the Rand building made vacant recently by the Sanford Grocery Co. They will occupy two rooms on the first floor and one above making one of the largest furniture stores in Orange County.

D. A. Caldwell & Sons will occupy the room recently vacated by Williams & Milteer and will enlarge their department stores and give ample room to the various departments. N. P. Yowell & Co., will soon occupy their fine new store room now in the course of construction and when settled in new quarters expect to add to their already mammoth stock. One of the new rooms in the Garner & Woodruff building will be occupied by R. G. Stockton & Co., who will open up a first class grocery.

The other room will be occupied by J. Lawson & Co. who will conduct a first class cold drink and confectionary establishment.

One of the store rooms in the Bishop Block will be occupied by a Spanish restaurant. The one recently occupied by the Herald will contain a grocery. The Herald has moved into its new building on Magnolia avenue.

The large lodge room occupied by the Commercial Club and the Eagles in the Stone-Gove Block it is rumored will be given over to a large cigar factory.

Chas. Tate has taken the building recently occupied by M. P. Lipe and is conducting a barber shop under the able management of Mr. Richey. The frame building of the Sanford House on First street has been remodeled and is occupied by the Sanford Pressing Club and Green & Platt's barber shop.

Hanson's Shoe Shop has been removed from the Leffer Block to the room in the Hynes Block recently occupied by F. J. Powers.

There will be many changes in offices when the Yowell buildings and the Garner & Woodruff building are completed and a general exodus and moving day will take place about November first.

With all the many new business blocks the demand for stores and offices seems as brisk as ever and a number of new firms are expected to start during the next few months.

## ANOTHER CIGAR FACTORY

### Sanford Is The Location For Making Clear Havanas

Another factory comes to Sanford this week not because any great inducements were opened in the way of city block but because this city presents more inducements as a factory site than any other city outside of Tampa, the former home of the cigar industry. The third floor of the city hall has recently been remodeled for a factory being occupied by Berriman Bros., but finding it inadequate for their large cigar business the whole second floor of the Stone-Gove block will be given over to Berriman and will make a fine factory. This building occupies an entire half block and will have light and ventilation on four sides. The room in the city hall formerly occupied by Berriman's will be used by Menendez Bros. & Verplank who expect to operate a force of about fifty men.

These two factories expects to establish permanent branches in Sanford in order to take care of the trade regardless of conditions in Tampa.

There are other factories looking Sanford way and will be welcomed for factories are something that is needed here and the cigar industry has proved to be one of the most lucrative of any manufacturing business known.

The cigar strike at Tampa will be settled in a few weeks, but the Sanford branches will manufacture clear Havanas just the same.

## New Bakery

C. A. McGlon has established a new bakery in the Clark Building to be known as the White Front Bakery and will carry a full line of bread, pies and cakes, confectionary and cigars. The wagon will make a quick delivery to any part of city and a share of the public patronage is solicited.

## NEWS OF THE WORLD

### Items of Interest Gleaned From Various Sources

### HAPPENINGS DURING THE WEEK

#### Here the Readers Will Find a Brief Historical Spring Flowing For Hurred Readers

Nineteen men in the newspaper plant of the Los Angeles Times were burned to death last Sunday. The fire was caused by a dynamite bomb placed in the building by enemies of the paper. The entire plant was destroyed, but will be rebuilt.

As a result of two negro employes of the Hagenback-Wallace circus trying to rob other employes of the company, on the first section of the train coming into Augusta from Columbia Sunday night, one white man is known to be dead, another is missing and is believed to have jumped from the moving train and been injured or killed, and a missing negro is believed to be dead, though no trace of him can be found.

The New Orleans Times-Democrat, following the disastrous fire in its building Sunday night, and which practically wiped out the plant, is being issued from another office. Not an issue will be missed. The fire, which started in the paper stock room on the ground floor, practically destroyed the building and contents. The loss is about \$125,000, partially insured.

The average condition of the cotton crop on September 25 was 65.9 per cent, of the normal, compared with 72.1 per cent, a month ago, 58.5 per cent, a year ago, 69.7 in 1908 and 65.6 the past ten years on September 25, as estimated by the crop reporting board, department of agriculture.

## SANFORD BELT LINE

### Traction Company Will Assist in Making Greater Sanford

Sanford grows by leaps and bounds and foremost in the development of the city in the Sanford Traction Company. Started several months ago and backed solely by home capital, this line extends for several miles through the Celery Delta to Cameron City and a car makes the trip every thirty minutes. Few people realize the significance of such a service but the world at large in quick to do so and every visitor to the city is amazed at the idea of a suburban service of this kind. Yet there are greater things in store for Sanford in the quick transit service service for the Traction Co., will install one of the latest model Edison cars that generate its own electric power in transit and this car will belt the city using the tracks of the A. C. L. on the Lake Charm branch. The line will also reach to Mecca Station or Sanford Avenue and or by the way of Palmville to Cameron City and back to Sanford. The regular cars will make the suburban run but the new car will be used for the city service and will give the employees of the shops, the school children and those who reside in the suburbs one of the best cars services to be had, with such a line in operation. Sanford should expand into the largest city in South Florida. The present Traction line to Cameron City will also be extended to take in Silver Lake, Onora and Ft. Reed and in conjunction with the Sanford & Everglades Railway will carry freight and passengers and give the people of that section a good service both passenger and freight.

The man who now owns a few acres near the car line can count himself fortunate indeed for he will have all the benefits of a country home with a quick service to Sanford at all times.

This admirable arrangement simply places Sanford lands in the front rank as a place to locate whether it be to operate a truck farm, chicken ranch or a place to live just to enjoy life.

There is no other section in the world that offers more inducements to real prospective residents than Sanford and the Celery Delta.

## Catholic Church

Sunday school 9 a. m., mass and sermon 10 a. m., subject, Christian Combat and Christian Armor. Rosary, sermon and benediction 7:30 p. m., subject, The Reason Why I am a Catholic. All are cordially invited to these last services of the pastor.

**EVEN THE GATE POST NOT IN IT**

**A Chief is Among Ye Taking Notes, and Faith, He'll Prent 'Em'— So Says Saunterer.**

*Special Correspondence to The Herald.*

¶ The demands of the day are for a more thorough and practical training in the common English branches. There is too much soaring 'mong stars, delving 'mong the rocks and attempting to resurrect the dead language to the exclusion of something more practical and useful. Too much gilded show, dress parade and superficial knowledge of common things to be of any use in the ordinary routine of life where ninety-nine one hundredths of us are destined to flop out an existence. Too little practical application of what really ought to be known to get a superficial knowledge of something that cannot be utilized after it is known. There is more eagerness to get to the end than there is a desire to know what there is between the beginning and the end. What we want is less show and pretension and more downright actual knowledge of what we ought to practically know to meet the every day exigencies of life. These hints are free and need only be taken where applicable.

¶ Young man! be at your best. With in you are the latent powers which, if developed, would make you master of any situation. They are no more gifted than yourself, the only difference is they have "stirred up the gift within them", will you? Various avenues are open to assist you in the cultivation of your talents. To those of this vicinity the High School holds forth the golden opportunity. Soon it will throw open its doors. How many will be ready to enter and seize the proffered opportunity that will enable you to be at "your best." Get ready now. The tuition is a mere trifle, board cheap and Sanford the model, moral place of the whole country.

¶ If you wish to succeed as a teacher, you must at once and forever abandon the old, tiresome, monotonous methods of instruction. The world is tired of too conservative instructors. Don't be one of that class, but imbibe plenty of good, healthy twentieth century ideas and inhale the educational breezes of 1910, which you will find far more conducive to schoolroom work than the vapors which emanate from the tomb of Socrates. Be original. Cultivate the organs of construction and identity more than that of imitation. Study to be yourself, and be sure you have yourself as near right as possible. Be in earnest. Wake up before you enter the school room; and when before a class disseminate rays of electrified vivacity in every direction. Be sociable. Allow an occasional smile to gleam out from behind the chaos of an assumed dignity. If the sunshine of a real, whole-souled laugh, woukd, in your estimation, prove disastrous in the extreme, you can, at least, venture to contract the serenity of your features until a smile penetrates the cobweb curtains which enclose your true nature. Be progressive. If you have conducted a recitation without learning something new, without coming to entertain clearer views of the subject in hand, or without discovering some manner in which you can improve upon your present methods, then reverberate in a highly pitched key, that you ought to be labeled as an excavation from the ruins of Pompeii.

¶ To make our schools eminently successful there should be the cooperation of teachers, scholars and parents. The first two we have. Will the parents now do their duty?

¶ The poorest policy and the worst economy is to keep the children out of school. Every day lost has its manifold effort; the knowledge gained on that day is missed, the pupil is thrown behind, becomes discouraged, has a bad effect on the class and the very habit is to be avoided.

¶ The ladies are still bending their energies toward cleaning up the city parks and their efforts in this direction are bearing fruit. I have never seen the parks in better shape and they now look like oases instead of deserts. I always contended that all we needed was the help of the ladies and we now have hopes of a better road to the cemetery and a beautiful lake front, two features badly needed at this present time.

¶ That last raise in city taxes has caused a howl to go up among the taxpayer and the end is not yet. Just why the many improvements should cost so

much money is a question that is agitating the public, and many and divers opinions are floating around about the causes and remedies. Here's hoping they won't go any higher.

¶ Alderman Calhoun seems to be an insurgent these days if all reports are true. Dick is not pulling with the "stand patters" at all and has deserted his post in the council chamber. It seems that some of the members did not agree with him on several measures and tiring of being sat upon at every meeting Dick has "insurged" and he is not attending or having any voice in city affairs, whatsoever. Dick claims there is too much Cannonism in the present council to suit him and he will have none of it. Just what the outcome will be is a matter of conjecture, specially as Dick is mentioned for Mayor and may shy his cantor in the ring at any time. He has plenty of friends and may cause the stand pats to sit up and take notice.

¶ Well, the cigar factories are coming and I understand the next one will take Eagle's Hall and that ere long there will be several hundred workers here with a large pay roll every week. Let them come! They are welcome for if a place ever needed factories Sanford is the one best bet. We cannot afford to put all our eggs in one basket or all celery either and these branch factories may be the means of attracting other industries to our city. There is no other city in the south that has any better location for a manufacturing place than has Sanford. Let the Commercial Club get a hump on and use more time and money toward locating factories and less time in locating celery farmers.

¶ I see a notice in the Herald for an election on October 25 for school trustees for this school district. Regardless of whether the present trustees are persona non grata with the majority of voters or not I wish to say that at present the trustees should be continued in office. They are all good men and have tried to do their duty as they saw it. They have certainly brought out the school system and they have a number of plans yet unfinished. They should be elected for another term in order to carry out these projects which mean so much for the advancement of educational work. Our present trustees are L. R. Philips, C. R. Walker and B. F. Whitner. You all know these gentlemen and it is useless for me to dilate at length upon their merits. —THE SAUNTERER.

# A FEW WORDS ABOUT OUR COLONY

There isn't a thing in this world done by anybody that hasn't its critics. Really too it's a good thing because publicity is the great agent in correcting all evil. The greatest agent in this line is the country paper because it appeals to people with a conscience. We offer this preface to a few remarks: First we have good land, we offered 10,000 acres at \$25 an acre, paying railroad fares to buyers and other concessions. Why? because we've got 60,000 acres of land and we want 1,000 families to settle on our land before January 1st, 1910.

Well, then what? We have sold now, September 1st 8,550 acres of the 10,000 and we've just begun. That's pretty good isn't it, from July 5th. That means a lot of people close to Sanford who will be

## People of Florida

We don't care for the fellow with the anvil and the hammer. He does no good for his own proposition or the city of Sanford. We know we are going to bring a lot of people to Sanford's vicinity; that's enough.

We want at Celery City, now listed as a station on the Florida East Coast Railway, a lot of business people. We want grocery and general store; hardware and agricultural implements, lumber yards, portable houses, tent dealers, men with teams for plowing, carpenters, small trades of all kinds. We will give a lot free for one year to anyone putting in a business place in Celery City. We need a new hotel, a big boarding house, and a lot of things that people want NOW. We offer these opportunities to Sanford first.

Don't wait until to-morrow. Opportunity comes but once. A community, brand new with money ready to pay at your doors. Branch houses for furniture, hardware, and all sorts of goods will pay. - You may have to loaf a few days but you'll be there ready to sell. Write us today.

October 1st, all our propositions for concessions, low prices and special rates close in accordance with our previous statements.

**Miss Munson's Dance.**  
Miss Mercedes Munson entertained some of her young friends at a dance Thursday evening at the home of her aunt, Mrs. Fannie Munson. This pretty affair was given in honor of two charming young ladies, Miss Belle Smith and Miss Lillie Fair Smith, of Montgomery Ala., who will be the guests of their aunt, Mrs. W. N. Leffler during the winter.

The Munson home, with its spacious rooms and verandas is an ideal place for entertaining; and for this occasion was decorated with palms, ferns and cut flowers, also many Japanese lanterns that lent a charm to the pretty scene. Dainty refreshments were served during the intermission by little Miss Fannie Reba Munson and Miss Carolyn Spencer. Those who enjoyed Miss Munson's hospitality were Miss Zoah Munson, Miss Belle Smith, Miss Lillie Fair Smith, Miss Peachie Leffler, Miss Linda Leffler, Miss Levia Evans, Miss Nell Evans, Miss May Hamilton, Miss Mabel Bowler, Miss Jessie Butt, Miss Veda Ward, Miss Madge Ward, Miss St. Johns, Carl Hamilton, Eugene Roumillat, Meade Fox, W. J. Thigpen, J. A. Thigpen, J. D. Roberts, George Lovell, W. A. Leffler, Ernest Betts, Bryan Higgins, Willie Hill and Nixon Butt.

**Shower For Orphanage.**  
The kitchen and dining room shower for the benefit of the Methodist Orphanage at Enterprise, given at the home of Mr and Mrs. L. R. Phillips on Tuesday evening of last week was a decided success. The people of Sanford responded generously and about one hundred and eighty-five useful and ornamental articles were contributed that will add greatly to the comfort and convenience of the inmates of that worthy institution. Miss Emma Tucker was present and addressed the company very interestingly about the Orphanage.

**Mrs. T. A. Newlan Entertains.**  
Mrs. T. A. Newlan entertained very prettily last Wednesday afternoon for her daughter, Macy, who was nine years old on that day. The decorations used for the pretty party were quantities of exquisite Mitchell Neil roses, the birthday gift from Mrs. F. E. Roumillat. The little guests were first entertained with a guessing contest, at which Izza Kanner received first prize for guessing nearest the right number in a sealed envelope. Little Miss Newlan then took her guests to the Imperial where they enjoyed the moving pictures, after which they returned to the Newlan home and dainty refreshments were served. Those invited were Mary Howard, Almira Howard, Kathleen Brady, Edna Williams, Lillian Shinholser, Gussie Sharpe, Clarice Hand, May Thrasher, Nelson Price, Izza Kanner, Carl Hand and Henry McLaulin.

The members of the Welaka Club enjoyed a delightful bridge party in their pretty club rooms Tuesday afternoon, which was the beginning of what promises to be a very gay social season with the society set of this place. Miss Mell Whitner was the fortunate one to make highest score and received the prize, a dainty work bag. Delicious refreshment were served at the close of the game. The house committee for the month is composed of the following ladies: Mrs. J. L. Hurst, Miss Mell Whitner, and Miss Mabel Bowler.

Sanford's Musical Club held its opening meeting last Saturday afternoon at the studio of Mrs. Fannie Munson, with an attendance of nearly all of the resident members.

The club has taken up the study of the History of Music for the new year, and the members have already entered very enthusiastically into the work. A short business session was held and several new members elected.

Mrs. D. L. Thrasher had charge of the program for the afternoon, which proved very interesting.

paper on "Countries With a Musical Past." Mrs. Homrighous gave a very interesting paper on "Early Music and Musical Instruments." She began at the beginning, when the voice, "The Instrument of the Soul" was the first instrument and showed the progress of the instruments, which at first were merely made to keep time, down to the present or modern instruments with drawings of the earlier ones. The early scales were illustrated by Miss Madge Ward and the

talk closed with two songs of the earlier centuries beautifully sung by Miss Veda Ward

Mrs. Munson gave a most pleasing and instructive talk on Harmony, which was illustrated by Miss Madge Ward at the piano, and the vocal parts sung by Misses Bowler, Ward, Butt and St. John. The Misses Ward gave a duet "The Anvil Chorus" (Tannhauser), which was enjoyed by all.

The committee has prepared a most interesting program for the year, and the year books will soon be ready.

**Burn Tampa Cigar Factory**

The three story wooden cigar factory owned by Dalbin Brothers, the cigar manufacturer, who were the first to establish a factory out of Tampa when the present cigar strike became acute, was burned to the ground last Sunday night. The factory was located in West Tampa, and was valued at approximately \$15,000. It is said to have been partially insured.

The fire was evidently of incendiary origin, and the whole structure was breaking into flames when the alarm of fire called the West Tampa fire department. By hard work neighboring cottages and a restaurant building was saved. None of the buildings are in Tampa. Their factory and the factory of Celestino Vego & Co. were the first two factories on which a strike was ordered by the tobacco working trades. Shortly after being forced to close down, they opened a branch factory in St. Augustine, where they are now. It is said that considerable tobacco was destroyed in the fire.

The cigar strike situation itself remains unchanged. Both sides to the controversy are merely marking time, while the town generally suffers. With the loss of payrolls amounting to approximately \$200,000 a week, business naturally is considerably curtailed.

There seems to be no plan of settlement. The unions declare they must have some recognitions of their existence as organized bodies or they will never return to work there, while the manufacturers are equally firm in insisting that they will never open their factories to admit union labor as an organization. With them it is the open shop or no work.

**Make Sanford Beautiful**

Why not make Sanford beautiful? It can be done, and it should be done.

With the ceaseless grind for the necessary wherewithal to keep soul and body together, the average man has neither the time nor the inclination to dwell very long on esthetics; so it is for woman to step in and take the initiative along these lines. She can create sentiment, stir up enthusiasm, and make plans whereby the wonderful gifts that Nature has freely bestowed on Sanford can be used to best advantage, and incidentally assist in spending some of the golden shekels the men are so busy gathering, in carrying out the same plans. There is much to be done, and it cannot all be done at once; but step by step the good work will go on and results will be seen. Unsightly objects will be removed, the streets and parks cleared of the splendid growth of weeds, and the town will be made so attractive, the careless, indifferent citizen will sit up and take notice, wondering why it was not done before. Every woman in Sanford should join the S. L. A. and have a hand in making Sanford beautiful. S. L. A.

**Chappell—Witten**

Miss Francis L. Chappell of Sanford, sister of Mrs. J. Lawton Moon was married at the parsonage at 2 p. m. to Wm. H. H. Witten of Inverness, in the presence of members of the family. Rev. J. Lawton Moon performed the ceremony in simple but impressive manner.

The bride made many friends during her brief stay in Fort Meade and they unite in the wish that she will make frequent visits to our city.

Mr. Witten, a man of culture and means has extensive estates in Florida and Virginia.

The happy couple left on the three o'clock train for Inverness where they will reside. The best wishes of a wide circle of Fort Meade friends go with them.—Fort Meade Leader.

**Week of Prayer**

The members of the Woman's Missionary Society of the Baptist church will observe their week of prayer for state missions and state-wide prohibition next week at 3 o'clock Monday, Tuesday and Wednesday in the church. Mrs. J. W. Wildman will conduct the first service. Tuesday the Ladies' Auxiliary of the Anti-Saloon League will unite by holding their weekly meeting in this church, when Mrs. Henry Wight will be leader. Wednesday afternoon the last of the series of prayer services will be held, conducted by Mrs. J. K. Johnson. A cordial invitation is extended to all.

The new Church of the Immaculate Conception, which is being erected in Jacksonville, is rapidly nearing completion and the dedication services will probably be held in December.

**Budget For 1910.**

Council Chamber, Sanford, Fla., Sept. 19, 1910.

Be it resolved by the Council of the City of Sanford, Florida, that the amounts to be raised by taxation for the year 1910 shall be as follows:

Lighting streets	\$3,800	
Water	2,400	
Fire	2,000	8,000
Streets and sewers		6,000

**An Ordinance**

An ordinance to provide for a license for the sale of spirituous or malt beverages containing an amount of alcohol insufficient to produce intoxication, and commonly called "near beer."

Sec. 1. Any person, firm or corporation, engaged in the business or sale of spirituous, vinous, malt or other liquors containing an amount of alcohol insufficient to produce intoxication, which said spirituous, vinous or malt liquor, is commonly known as and called "near beer," shall pay a license tax annually of \$300.00.

Sec. 2. Any violation of the above section shall be punished by a fine not exceeding \$300.00, or imprisonment not exceeding ninety days, or both at the discretion of the Mayor.

Sec. 3. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

I hereby certify that the foregoing ordinance was duly passed by the city council in session Sept. 19, 1910.

City Clerk R. C. MAXWELL.

Approved by me this 20th day of September, A. D. 1910. FURREST LARK, Mayor.

6-41

**Notice of Application for Tax Deed Under Section 8 of Chapter 4888, Laws of Florida**

Notice is hereby given that Wm Bothamly of Sanford, Fla., purchaser of Tax Certificate No. 377, dated the 6th day of July, A. D. 1908, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Orange county, Florida, to-wit: Begip 8.40 chs, S 87 deg. E of NE cor of Sec 10, T 20, S R 30 E, run S 80 deg. W 48 chs, N 50 deg W 10 chs, N 60 deg. E 48 chs, S 30 deg. E 10 chs in Sec 2, T. 10 and 11. 48 acres. The said land being assessed at the date of the issuance of such certificate in the name of E. W. Hope. Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 24th day of October A. D. 1910.

Witness my official signature and seal this the 23rd day of September, A. D. 1910.

(Seal) B. M. ROBINSON, Clerk Circuit Court, Orange County, Fla.

# VIRGINIA THE AIR

By HERBERT QUICK

these men. My compliments to Major Flathers, and say to him that I have confined three men who ran the guard in an airship, with bombs or cameras, as the case may be; that I have the airship under guard and await his instructions at headquarters."

And Captain Bolger hippety-hopped to headquarters, followed by a soldier with a camera. The three interlopers went into the guardhouse, while Captain Bolger's message went to Major Flathers, commandant in the absence of Colonel Krimnitz.

"I won't stand it!" Mr. Waddy shouted. "I want to wire John H. Gunn! I want to wire Washington, I tell you—John H. Gunn, speaker of the house! He'll make somebody chew hay for this!"

Mr. Craighead began humming "It's Twenty Miles to Vassar," evidently a West Point ditty, paced the guardhouse, turning corners with military precision or stood accurately with certain fingers on certain seams of his trousers as precise as a tin soldier. The atmosphere had permeated his system, and when a corporal's guard called for them his stride might have been offered as a model.

Access to Major Flathers' desk was opened for them by orderlies described by Mr. Waddy as state's prison looking fellows, armed to the teeth. The major was thin, solemn, billious looking, as if he had a bad liver from service in the tropics; haughty, as if the liver had overflowed his temper.

"Who are you?" said Major Flathers. "Who are we?" cried Mr. Waddy. "Who are we? American citizens, sir! Citizens and taxpayers before you was ever born, sir! Wire John H. Gunn at Washington that Cyrus Waddy's shut up in jail, and you'll find out! You'll!"

"It would seem an economy of time, Mr. Waddy," said the major, after quelling him with a yellow growler, "not to trouble Mr. Gunn or the president, who might find it inconvenient to attend for purposes of identification. What can you say, sir?"

This query was directed at Craighead.

"Most high and illustrious one," said he, "the world is wide, its population some sixteen hundred millions. Of this considerable force we are but three. You ask us, O serenity, to set ourselves apart from the others by brands and marks. How can the thing be proved? It is a hard saying, and yet didst ever see that serrated nose? Give me a pen, and let me mark it 'Exhibit A'!"

The major arose with pronounced absence of haste, adjusted a pair of rimless glasses to his precipitous beak by a clasp of special construction, examined Craighead's nose critically and impersonally, as if looking at a specimen in a case, slowly removed the glasses and deliberately resented himself.

"I have observed such a nose in but one case," said he, "but its introduction in evidence does not establish its identity with the only snout of similar symmetry recorded. 'Exhibit A' will be considered for what it is worth—no evidence. Proceed."

"I will now render a song, which I beg this honorable body to receive as 'Exhibit B.'"

Though this declaration made a distinct sensation among the officers and orderlies, and though the sergeant, who was a shorthand reporter, broke three pencils in his agitation, Major Flathers never let down by even one degree the saturnine dignity of his presence. Craighead sang with a fine independence of tune, but with an air and style of tone emission which reminded all hearers of a basso profundo laboring in the trough of the heaviest vocal sea.

Oh, it's twenty miles to Vassar, and the Hudson for to cross!  
There's regulations to be broke at both ends of the route,  
But Belinda's eyes are like the sky, Belinda's hair is nose,  
And Jim is black and plagued with love and doesn't care a hoot.

Oh, it's twenty miles to Vassar,  
But it's fifty smiles at Vassar,  
And it's other love-dovey things in hosts beyond compare!

Oh, the love of dear Belinda burns his heart into a cinder,  
And Jim will be at Vassar ere the morning!

A slight redness crept up under the tan of Major Flathers' cheek; a slight quiver of the thin nostril betrayed the fact that Craighead's song had touched some spot that thrilled. Mr. Craighead asked if it would be necessary to adduce more proof of his identity.

"Possibly," said the major, with unabated dignity. "I shall hear the case in private."

The major rose and passed out without a glance at the intruders. The

# OF A Romance Of Flying LANCES

Copyright, 1909, by the Bobbs-Merrill Company

squad took them to his quarters, where he received them in frozen stiffness and stood aside to let them into a library rather well furnished with books.

The major sat like a graven image until the receding footsteps were lost to the ear. Then he rushed at Craighead, shook him until his teeth chattered, laughing, slapping him on the back.

"Craig! Craig!" said he. "You confounded old scapgrace! I've an infernal good mind to throw you in for ten years! And that Belinda song you made up about me! And sober too! Introduce your friends!"

"With Mr. Waddy's name," said Craighead, "you are familiar. He is the billionaire owner of Spenser Gunn."

"Confoundedly sorry," said the major. "But if this reprobate," indicating Craighead, "had hinted that he was our West Point disgrace, I should have issued passes!"

"And this," said Craighead, "is the inventor and builder of our airship. Theodore Carson, M. A."

"Quite so," replied the major, shaking hands again. "But it was soundly irregular to run the guard, you know."

"We didn't intend!"

"Not a word!" said the major. "You must dine with me. Mrs. Flathers will waive ceremony. She isn't Belinda. Craig, you disgusting old dog, disguised as a sober man! Could he be hanged as a spy? 'Twenty Miles to Vassar' in headquarters! Nobody but Craig—let's write a letter to Bill Alexander—in Gunn."

The major was as complaisant as he had been unyielding. The party was allowed to depart.

Mrs. Graybill met them when they alighted from the Virginia, with a letter in her hand for Mr. Carson and a troubled look on her face. Carson turned white as he tore it open and read:

I am going away with my aunt, who has kindly found me and told me of your deception in allowing me to live with you, thinking you my uncle. There are many things I might say, many I should like to say, but I might use expressions for which I should be sorry. As for the promising of myself, of which my aunt has spoken, I care nothing. Other things count for so much more. I want our parting to be without bitterness, so, with the assurance that I shall watch over you and pray for your success and with thanks for the many, many good and kind things you have done for me, I bid you goodbye forever. We can never meet again.  
VIRGINIA SUAREZ

Craighead caught Theodore as he staggered.

"When did they go?" said he.

"About noon," replied Mrs. Graybill. Carson groaned, thinking bitterly of the hours wasted at Fort Morgan, and asked for Mrs. Stott. She had gone home on the Roc.

"They went north, then," said Carson.

"So must we," rejoined Craighead.

"Yes," said Mr. Waddy, who seemed to consider the Virginia incident closed. "I'll go home and push the work in the west, you boys to New York to start the injunctions and things."

"Mr. Carson," said Mrs. Graybill quietly, "don't give up. I kept the fragments of the letters she tore up. Put them together. They will cheer you up. What a woman wants to say and doesn't dare means much, much more than what she says."

### CHAPTER XV.

#### A RETREAT FROM BABELION.

THE date when the Virginia left the dunes of the Alabama coast for her first long voyage is now history. It placed man as a flying animal on an equality with the birds and bats and insects. The gas bag of the aerostat and the aeronefs of the first decade of the century went the way of the tentacle and imperfect with the steam engine of Hero and the war rams of Archimedes, Callimachus and Demetrius. The new era is one of great flying engines beside which the Virginia was as a hummingbird to a hawk, but which are, every one, built on the Virginia's principles—the direct thrust of the blades, and the balancing by the automatic distribution of power by means of light gyroscopes. The new hero was the miserable young man who looked like one with his death wound and maneuvered the new machine like a veteran—Theodore Carson. Every schoolboy knows these things.

But every one does not know of her difficulty in getting off. At least three times did Carson turn back to allow Craighead to converse in farewell with Mrs. Graybill and Mr. Waddy. Finally Craighead consented to be separated from the alighting Mrs. Graybill, and, passing over the bay with a wide west-

erly detour, the Virginia came in over Spring hill and alighted softly at the aeronef landing at Mobile. From a hundred sally ports—streets, alleys and wharfs—poured a throng of people attracted by the strange craft that had made port.

"Howdy, folks?" said Craighead. "Take a good look; for even when ye wist not we vanish. Out of the great deep we come, into the great deep we go. The elementals who send us are the powerfulest spirits what there is. But a brief space have we to warn Mobile. Repent! Repent! Yet a few mo' days an' Mobile shall be done destroyed!"

"Dan Thomas," said Carson to an old negro with a whip in his hand, "come here!"

"Yes, Mistah Cahson," responded the negro.

"Fetch me at once one No. 2 can of A quality methanose, and get me a list of the aeronef clearings for the last two days."

"Yes, suh."

Thomas darted away. "Pardon me," said a man who had a withered arm drawn up to his side in such a way as to give one the impression that he was holding his breath, "but are you going far so short hand ed?"

"Not far—in time," replied Theodore.

"Only to Alaska," added Craighead. "We meet a Russian admiral in St. Michael at 3. If that nigger doesn't hurry we shall be late, general, and what will Admiral Phlaskovodka say then?"

The man lifted his sailor hat, bowed politely and stepped back, unveiling a face behind him which Carson knew—the foxy, suspicious face of Wizner, the inventor of the lost helioceptor. Carson stooped as if for some casual purpose and laid hold on a spanner.

With the spanner in his hand he rose, and with an angry snap he stood in the midst of the crowd. Wizner had fled, but through the thinned crowd Theodore saw his wiry figure, with the arm that Virginia's bullet had reached hanging in a sling. Carson gave chase. Some one cried, "Stop him!" and an officer, seeing in Carson the only fugitive in sight, stopped him.

"Let me go!" cried Carson, struggling. "Come with me and arrest a man for attempt to murder."

A boy in a messenger cap interrupted the colloquy by calling "Mr. Cahson, Mr. Cahson!" as if "paging" a man in a hotel.

"I'm Carson," said Theodore. "What do you want?"

"Somebody on the wire for you at the telephone booth in the hotel," replied the messenger.

Wondering who in Mobile might desire speech with him, Carson said, "Who's this?" into the transmitter.

"Your old friend Wizner," said the receiver. "Crazy as ever. Never mind where I am. I'll tell that after I've talked if you want me, to you pup!" Carson glared fiercely into the receiver.

"I didn't get that," said Carson.

"You can have me plinched, but I can prove an alibi. And while I'm proving things I'll fix you fellows for smuggling and put Harrod where the dogs won't bite him and you too!"

"I don't know anything about smuggling," protested Theodore.

"Well," went on Wizner, "if you dig into the big sand hill with the steel buoy on it, you will. You'll find what'll put you in a better trade than putting me in prison for a frolic with your aeronef. Oh, don't talk so innocent! How did you finance your airship, except by free trade?"

Carson had nothing to say. He remembered Captain Harrod's expression when Wizner had called him an old wiggling fool. He remembered a thousand mysterious things now made plain by the hypothesis of Harrod's having yielded to the coastwise temptation of smuggling. Wizner uttered into the instrument a sly, sinister, exasperating chuckle.

"Lost your tongue?" he taunted.

"Well, arrest me. Any one can tell you where I am. But will the girl leave Silberberg to come and testify? The courtship's just getting good now. Too bad to disturb them!"

Carson hurried the receiver away and strode back to the Virginia. He found Thomas, the negro, with two men, holding the can of methanose aboard.

Thomas gave him the list of aeronef clearings.

The sailings were not many—the Tern for Memphis, the Long Tom for St. Andrews Bay, and, yes, the Roc departing the morning before "for northern points."

"We can overhaul the Tern," said Craighead, with a judicial air, "at, say, Jackson and take on our friends for Alaska. I do hope the president can join us at Omaha. Gentlemen," addressing the crowd, "here you see a new aeronef invented by me. By reaching Alaska before nightfall we win a million dollars. This is a sure thing, as the sun will not set there for three months. The bet is with a Brazilian who forgot about the days coming quarterly at Nome. But we shall be honorable and pay him the million on the nail if we fail to make it before sunset in Rio, the real locus. Tomorrow we shall win five hundred thousand from Rothschild by leaving

**THE SANFORD HERALD**

Published Every Friday Morning at Sanford, Fla.  
R. J. HOLLY, Editor and Proprietor

Subscription Price, \$2.00 a Year in Advance

Entered as second-class mail matter August 22nd, 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office First Floor in the Bishop Block, First Street Telephone No. 146.

**HON. N. B. BROWARD**

Florida mourns for her statesman son, Hon. N. B. Broward, ex-governor, senator elect and one of the most prominent figures in American politics at the time of his death. From deck hand to governor, from governor to U. S. Senator where had his life been spared fresh honors awaited him, such is the remarkable record of the man for whom the state is mourning.

Senator-elect Broward was a native Floridian. He was born in Duval county, April 19, 1857, and was therefore more than fifty-three years of age. From his early life hard lines were drawn about him by poverty and misfortune. He was born on the farm but when a small boy he began rafting logs for a living and from this beginning of life on the water he passed up through through the various stages of cabin boy, and cook and sailor until finally he became the owner of a tug boat on the St. Johns river and first became known to fame as the captain of the *Three Friends*, which had several narrow escapes during the war with Spain from the Spanish gunboats while engaged in the business of filibustering in the aid of the Cuban patriots.

Captain Broward held the office of Sheriff of Duval county for several terms and became prominent in his race for governor. This was in 1904. He made a memorable campaign and was elected to the great wonder of all of his political opponents and many of his own friends and supporters. He made the issue which resulted in the beginning of the drainage of the Everglades.

As Governor he became a prominent figure and started the work of reclaiming the Everglades. Several months ago he won a hard fought campaign for the seat of U. S. Senator. While on a visit to his brother a few days ago he was stricken and despite the efforts of skilled physicians the vital spark fled and his career was cut short almost upon the eve of his life work.

One of the beautiful sides of Broward's life was his devotion to his home circle and his unflinching affection for his friends. Generous by nature, forceful in character, rugged from toil, Broward occupied a niche in the hearts of the people that can never be filled by another.

He could not live to see his dreams of a greater state come true, but under Florida soil he sleeps—her favorite son—an honored one—the greatest in the hall of fame.

**EDITOR WILSON DEAD**

Editor Wilson of the Sarasota Times died last Wednesday. He was one of the oldest members of the Florida press gang and his demise will be regretted by his many newspaper friends over the state. Mr. Wilson moved to Florida in 1885, engaging in the newspaper business at Longwood. In this county, then at Brudentown and then at Manatee, where he edited the *Mantee County Advocate* for twelve years. For eleven years he has been the editor of the *Sarasota Times*. He was unquestionably the nestor of the Florida press, having been in continuous service since 1885, without being absent from his office as much as a week throughout the entire time.

Hugh Sparkman having sold out the *Perry Herald* has lit again, this time at Lake City where he has purchased the *Index*. Hugh is a live one and will bring out the *Index* as no other can do. His salutary is characteristic and regarding his policy has the following:

"So far as the editorial policy of the paper is concerned I deem no announcement necessary, as my position upon questions of public importance will be made unmistakably plain as they may arise. The paper will not be controlled by any man or set of men, and when I think a thing is right the *Index* will be for it, and when I think a thing is wrong the *Index* will be against it."

How many people in this section have taken the boat trip between Sanford and Jacksonville? There is not a more picturesque trip in the country, and it is, moreover, inexpensive and comfortable. Floridians do not know enough of the beauties of their own state. Try this trip next time you go north.—*Lakeland News*.

The colonist who comes to Florida to show the Cracker how to make a fortune on ten acres of cut-over pine land on which even the gophers will not live, generally is soon taking up a subscription to get back home on.—*Gainesville Sun*.

More cigar factories for Sanford and a weekly pay roll of several thousand dollars.

The Florida Vegetable Growers association is an assured fact and our growers are correspondingly happy.

If the cigar strike continues in Tampa the city will go dry before the fall election. Ten saloons closed last week for lack of patronage.

They are building a new town down in South Florida called "Celery City." But the real celery city will continue to be Sanford.—*Tallahassee Democrat*.

The city council of Orlando has had a civil engineer at work for some time making plats of the city and also gathering estimates in reference to a municipal sewerage, water and light plant.

The Herald has moved into the new building and in a few weeks presses will be adjusted, the bats in our bellfry will stop flying and the birds will not go to Chautahoochee will remain and get out *The Herald* as usual.

The Sanford Herald, speaking of the location of a branch cigar factory in that city by Berriman Brothers, who are large manufacturers of Tampa cigars, says that while Sanford never expects to pose as a cigar center, she will welcome all the factories that wish to locate there, especially such firms as that mentioned.

The Berriman company makes only fine goods and being now crowded with orders for holiday goods, must get to work. *Orders* have been found for the factory and about fifty hands will be employed.—*Times Union*.

Geo. C. Keller and E. C. Walton have purchased the plant of the *Orlando Reporter Star* and in the future will control the destinies of the paper. Mr. Keller is already well known to the fraternity having been editor of the *Reporter Star* for the past year. Mr. Walton is a new member in the Florida field although well known in his home state of Kentucky. Messrs. Walton and Keller will infuse new life into the *Reporter Star* and expect to make it better in every way. The Herald welcomes the new editors and proprietors and wishes both long life and prosperity.

**DISGRACE TO CIVILIZATION**

The sinking of the ferry boat this week and subsequent delay of all traffic via East Coast is enough to cause the people of this section of the county to renounce allegiance to the county of Orange. Just why the county commissioners allow this ferry to be operated in such a manner is beyond human comprehension. Such a state of affairs is a disgrace to civilization and entirely obliterates all attempts of Orange county to pose as a good roads center. All the good roads built for the past ten years and the next ten to come would avail the people little if this ferry is allowed to continue.

Will the commissioners please sit up and take notice?

**Local Option and Personal Liberty Meeting**

On Thursday, October 13th at 2:30 p. m. there will be held at the San Juan Hotel, Orlando, a meeting of the Orange County Local Option Executive and Precinct Committeemen and all friends of the cause, to thoroughly discuss the situation, form plans and adopt resolutions for the carrying out of the campaign to a successful end.

If you are in favor of Home Rule and Personal Liberty your presence is absolutely necessary. Invite any one opposed to the Constitutional Amendment of Article XIX to attend this meeting.

W. C. TEMPLE,  
CHAS. LURD,  
W. D. HOLDEN,  
County Ex. Committeemen.  
H. L. Beeman, Chairman Orange County Precinct Committee. 8-11-c

**Robbed The Marshal**

Following out the plans of Barefoot Bill of Jacksonville, a daring burglar on last Tuesday night entered the residence of Marshal Greene Smith and while that doughty official slept the bold, bad burglar swiped his pants from the hook and made off with all they contained. The burglar was kind enough to leave a watch and several smaller articles but \$85 was needed in his business and Marshal Smith is just out that much. These light figured gentry will be calling frequently now and Sanford will be visited by them during the winter. It would be well for the police to watch the trains daily and keep suspicious characters under strict surveillance.

**A Narrow Escape**

Geo. Fox, Jr. while speeding along in a little white Buick had his attention directed from the road ahead by a party who called to him. The car skidded and narrowly escaped climbing a nearby telegraph pole. We hope Mr. Fox will soon recover from the effects of his fright.

**Will Move in New Quarters**  
The department store of D. A. Caldwell & Sons has grown so rapidly since establishment that larger quarters were deemed necessary. The two store rooms in the DeForest building lately vacated by Williams & Milteer have been secured and are now being put in shape for this enterprising firm. In order to facilitate removal they have inaugurated a mammoth sale and will some special bargains. Look at their "ad" in this week's Herald.

**Blount for the Senate**

I announced today my candidacy for the United States Senate to succeed Senator Tallaferra. I prefer running in a primary to be held before April next, but if that be impracticable will be in the contest before the legislature.

W. A. BLOUNT.

**Notice**

Meeting of the Executive Committee "Thursday" Oct. 13th, at 3 p. m. in the band stand.

The committee with Officers of the association shall constitute the executive committee.

Mrs. W. N. LEFFLER,  
Sec. pro tem. S. I. A.

**Good Roads Meeting**

Next Tuesday night a good roads meeting will be held in the new Eagles Hall in the Welborne Block. Hon. J. M. Cheney, Hon. M. O. Overstreet and other prominent speakers will address the people of Sanford and vicinity on the bond issue for brick county roads. All those interested should be present, especially the people who are opposed to bonds, for the question will be made clear and many doubts dispelled. The bond issue is rather vague at present and explanations of the modus operandi will be given. Everyone should attend the meeting next Tuesday night.

**Presbyterian Church**  
The pastor, Rev. J. F. McKinnon, will preach morning and evening. Special music. All are cordially invited.

**SANFORD LODGES**  
Sanford Lodge No. 27, I. O. O. F.

Yours for Honest Treatment

**D. L. Thrasher**

### JOKE OF THE METROPOLIS

Poses As a Friend of Florida Growers When Aid is Not Needed.

A recent issue of the Jacksonville Metropolis, contains the announcement that a department for the growers is to be inaugurated "in response to the widespread demand for a paper that will represent the interests of the people truthfully, fearlessly and devoid of all favoritism."

To the people acquainted with the Jacksonville Metropolis this will afford cause for a smile. The announcement continues that the growers have discovered that they must devote some time to reading. "Every grower in the State would like to subscribe to a newspaper, if he could feel convinced that the paper was edited and published 'on the square' and not controlled by some hidden influence antagonistic to his welfare and success." Then the Jacksonville paper asserts its innocence of corporation or trust control.

The growers of Florida are at liberty to help any institution they want to, but such a patronizing bid for their support ought to receive a most decisive repulse.

The Jacksonville paper has never represented the interests of the people, but on the other hand has consistently represented the interests of the interests, and by the interests has it grown fat.

It says that the growers have discovered that they must keep posted and subscribe for a newspaper. This is surely a most condescending way of approaching the most intelligent class of people in the State. "They have discovered," says the Jacksonville paper. The growers discovered that long ago, but the Jacksonville paper is just beginning to discover that the growers are entitled to some consideration, but that paper never offered it until it is seen that the growers are in a way to become valuable contributors to its capacious maw. It may occur to some of the growers to inquire how all of this "truthful and fearless" espousal of their claims was used by the Jacksonville paper when the growers had the fight of their lives on last year for a reduction of rates, and the truthful and fearless work that it speaks of giving would have been of some real account. Where has it been on all occasions when it was needed? Perhaps some of the growers will have the forethought question the "truthful and fearless" protestations before falling victim to this new scheme.—Miami Metropolis.

### Orlando's Experimental Road

In company with Superintendent R. M. Bennett, the editor made an inspection of the experimental strip of brick road, built for the county at the northwest terminal of Mark's street in North Orlando, fronting the C. B. Thornton place.

The commissioners will examine the road today, and it will be formally turned over to them.

This brick road is built to demonstrate the feasibility of the plan. The entire length of the span is 525 feet, a run of ample length to test it.

The construction is varied as follows: The south end is laid within sixteen feet of brick with the curbing next to the brick, making a wide, but gradual curve at the Thornton corner, the road having a four inch crown until it strikes the curve, when it slopes eight inches one way. At the end of the curve, the brick portion of the road is reduced to the nine feet in width as proposed for the county roads, with the curb on the outside. After running about 200 feet there is the same construction with the curbing next to the brick for some distance, terminating in a stretch without any curbing, the clay being built up next to the brick, the sides are tapered off with a heavy shoulder upon which the Bermuda grass will grow to hold the road from washing.

It is really surprising to see how roomy the nine feet with the brick is. It is fully the width of the average traveled clay county road as now constructed, and with the six feet of clay added, is much wider than any county road.

Unless a man is so full of prejudice he cannot see straight, this experimental road will surely convince him of its practicability, however he may stand on the band wagon.

Everybody in the county should make a trip to the point indicated and try it.—Orlando Citizen.

### Miss Tucker Addresses League

Miss Emma Tucker addressed the ladies of Sanford in the Park Tuesday afternoon, under the auspices of the Ladies Auxiliary to the Auto-Saloon League. The meeting was well attended; and those who availed themselves of this opportunity to hear Miss Tucker greatly appreciated the earnest address of this noble woman. Her wide experience in evangelistic work and on all lines pertaining to reform make her a valuable assistant in the present movement. The next meeting of the Ladies Auxiliary will be held in the Baptist Church Tuesday, Oct. 11th at 3 o'clock.

**PAOLA POINTS**

Special Correspondence to The Herald:  
After a fine season for haying we are beginning to need a good rain, and the last few days promise to bring it along without much delay.

One of the late pleasant events was the surprise party tendered Miss Mabel Schmelz recently. A delightful evening was spent by the merry crowd assembled. A good time is always assured in that hospitable home.

Mrs. W. H. Taylor returned recently from her summer trip to North Carolina and Georgia.

Dr. J. N. Bishop of New York is making a short visit to his sister, Mrs. A. V. McGuin and looking over his Paola property.

T. E. Wilson is down from Phoenix, N. Y., for a few days on a business trip. L. P. Hagan of Markham has been quite sick with fever, but is now improving.

B. C. and John Hartley came up from Carters Friday and are both on the sick list at their home here.

Miss Mamie McLain of Geneva, teacher of Paola and Sylvan Lake school for the ensuing term, arrived Saturday evening and is staying with Mr. and Mrs. J. B. Thompson. School opened Monday, Oct. 3rd, with a good attendance.

**GENEVA JOTTINGS**

Special Correspondence to The Herald:  
Miss Blanche Pattishall has returned to school at Tallahassee.

Mrs. A. A. Moran and children have gone to Lake Mary to visit relatives for a month.

Mr and Mrs. Ernest Tolar of Port Tampa recently visited relatives in Geneva.

Mrs. J. A. Worthy left last Saturday for Americus Ga., on a visit of some length.

Many friends welcome Mrs. C. A. Raulerson back to Geneva after a summer pleasantly spent in Ohio.

The meeting at the Methodist church is still in progress and will in all probability continue through the week.

Harold Pattishall left Monday to again enter the dental college in Nashville, Tenn.

Miss Olle Peters returned to Jacksonville Sunday after spending a month with her parents and other relative.

Chase & Co., have begun packing grape fruit from the Raulerson grove. The report is that this fruit is unusually fine this year.

Dan Hart and Herbert Simmons visited Geneva last Sunday.

Mrs. Ernest Leon and children have recently returned from a visit to North Carolina.

The meeting at the Baptist church was postponed until next Sunday on account of the protracted services at the Methodist.

On last Friday afternoon Mr V. T. Peters and Miss Pearle Worthy rode over to the residence of Rev. Saunders and were quietly married. This was no surprise to their friends as all had been expecting it for some time. This popular young couple have many friends here who wish them much joy and happiness.

**ENTERPRISE ETCHINGS**

Special Correspondence to The Herald:  
The formal opening of Livingstone College occurred at ten o'clock on the morning of September 29th. A large audience was present and the exercises were of the deepest interest. The preliminary services consisted of songs and prayers, followed by an address by Dr. B. F. Haynes, president. He reviewed the history leading up to the founding of the institution, which began with the purchase of the old Brock House three years ago, by the Misses Tucker, the plan culminating in the founding of Livingstone College.

The president stressed his special convictions on educational questions. He contends earnestly for the education of the heart as well as the head and deprecates the frequent neglect of the moral and spiritual training of the pupil in school life. He announced that Livingstone College stood preeminently for the whole Bible, untouched and untarnished by the iconoclastic hand of modern Higher Criticism. He advocated, strongly a line of Christian and spiritual education which would not trend the student from home and mother and God but bind him closer to these.

He announced that the attendance of students on this the opening hour, was three times as large as that which greeted Mr. Moody on the opening day of Northfield twenty-three years ago. Also that it was as large as the number present at the opening of two other institutions of learning in this country, some years ago, one of which, has now reached an enrollment of 1000 and the other an enrollment of 300. The address was well received and created a fine impression. Miss Emma L. Tucker followed President Haynes with a splendid Bible Reading on the "Word of God" which was delivered with great power and with her characteristic earnestness and directness. Miss Tucker is profoundly interested in the college and is putting her heart and soul into the work.

Livingstone College opening was altogether a great success. The institution started up under encouraging auspices and promises to be a great and growing success.

Rev. E. M. Stanton from the North Georgia Conference has arrived and located his family in Enterprise and entered his son and daughter in the college. Other families are coming to augment the population of our beautiful village and swell the attendance of Livingstone College.

Miss Ethel Quackenbos is spending two weeks with her sister Mrs. C. R. M. Sheppard of Daytona.

Rev. Damond Palmer of Altoona held his regular month service at the school house. The Baptist held a business meeting after morning service and called Rev. Palmer for another year.

**WEST SIDE ITEMS**

Special Correspondence to The Herald:  
The passage of the old familiar school bus, with its two lines of happy young faces, on their way to school was a pleasing sight last Monday morning.

J. N. Stenstrom has moved his family into his beautiful new home, now completed just west of the Crystal Ice Factory.

Miss Martha Massey of Macon Ga., is visiting her sister Mrs. J. A. Smith.

We are very sorry to hear of the illness of Miss Mayme Rabun and hope to soon welcome her smiling face among us once more.

Mrs. J. A. Allison of Charlotte, N. C., is looking after interests and visiting her many friends in Sanford, where she is always welcome.

Mrs. S. C. Denmark is spending a few weeks in Jacksonville.

Mrs. Kaiser has returned from her trip abroad, much improved in health and quite delighted with her journey.

We note with much satisfaction the general improvement in "Brady's store", under the new management of Mr. Davids, a gentleman of clean character and sterling worth.

E. Brevier's mother and sister of Pennsylvania are spending a few weeks in the "Sunny South".

**Demand For Primaries**

The principal topic of political discussion is whether a primary will be called to select a senatorial nominee, or the legislature be allowed to act independently. Many telegrams and personal interviews secured by the Metropolis demand that the state committee call a primary and the expense be cut down by citizens volunteering to act as election officers without pay.

Chairman W. H. Price of the state committee expressed himself as favoring a primary if funds can be raised. Governor Gilchrist says a primary should be held if possible, to prevent "wire pulling" and political chicanery during the legislative session at Tallahassee. In case the state committeemen do not show a disposition to arrange for a primary, a movement is to be inaugurated to force action. The Metropolis suggests December 6 and 27 as the best dates for two primaries, as a primary cannot be held on the general election day.

Among the possibilities mentioned are Nathan P. Bryan, John Stockton, Park Trammell, Frank Adams, Governor Gilchrist, W. A. Blount, W. B. Lamar and W. H. Milton.—Jacksonville Metropolis.

**Died**

After praying to depart from this earth to her heavenly home Mrs. G. Lundquist fell asleep in Jesus Sept. 14, 1910, at the home of her daughter, Mrs. E. Peterson, at Holly Hill, Fla., just eleven months after her husband's death. She was born in Vatebo, Sweden, in 1838. They came to this country in 1880 and spent their years in Florida. Three little children were buried in Sweden and four grown children died in this country. The eldest, Mrs. D. Houston, died in 1886. Three weeks after, Mrs. Clair Vihlen was badly burned and died the following morning. One year later their son, Andrew, drowned in Lake Monroe, and in 1894 the death of their son, Eric, followed. In general they have had a very sad life. Mrs. Lundquist

leaves three daughters and one son. Those to mourn her death are Mrs. E. Sjoblom of Knoxville, Tenn., Mrs. V. Palmquist of Hallandale, Fla., and Mr. H. Peterson of Upsala, Fla.; besides a number of grandchildren and one great grandchild, Sydney Houston Jamies.

**Regrets**

From the Sanford Herald we learn that the cigar manufacturers who were looking around Orlando have decided to locate in Sanford. It is said the factory will bring a hundred families to Sanford. If Orlando cares to increase her population one hundred families strong, which means \$100,000 more money per year, she must be ready to grasp the opportunity when it presents itself.—Orlando Citizen.

**Notice to the Public**

Effective Monday, October 10th, Sanford Traction Co. will sell round trip labor tickets for 90 cents, good only going south 5 to 6 a. m., north 5 to 6 p. m.

A. P. CONNELLY, Manager.

**Planet Jr.**  
Planet Jr implements are the greatest time-savers and labor-savers ever invented for the farm and garden. They frequently do six men's work, and do it better than by ordinary methods. Over two million farmers and gardeners have found this out by actual use. You can't afford to be without a Planet Jr.

No. 17 Planet Jr Single-Wheel Hoe is a most handy and effective tool for garden cultivation. A fine tool for working close to crops, especially in late work.

New No. 81 Planet Jr Horse-Hoe, Cultivator and Furrower is a great implement for cultivating and hilling crops up to 4 feet apart. Compact, strong, and steady-running. Does just the kind of work you want.

Come and see our full line of Planet Jr labor-savers.

**A. E. HILL**

## Volusia Farms Just Across the River from Famous Sanford

It has been our privilege during the past few months to watch pretty carefully the tendency of the public, both North and South, and East and West, to make investments in lands, especially in Southern lands; and, on the other hand, to note the systematic and persistent efforts of bankers and financial institutions to prevent this vast movement of both capital and people southward. It is naturally to the interest of bankers and financiers in the North and West to want to keep both their people and their people's money at home, and we have known of a number of typical instances where our prospective purchasers have gone to their bankers for advice as to an investment in lands in Florida and have almost invariably been advised not to make such an investment. This advice is natural. For your banker is willing to pay you two to four per cent on long time deposits and is dependant upon your money to a large extent for his own living, and in turn loans your money for six to ten per cent, and pays you two

to four per cent and gets the difference for himself. The natural thing for him to do, therefore, would be to advise you not to invest in Southern real estate. But if you were to ask this same banker where he got sufficient capital to start in the banking business and he answered you truthfully, he would in almost every instance be compelled to state that he made his money in the advance in price of real estate which he purchased years ago. This is particularly true of the West. It is a fact that the next ten years will witness the most remarkable advance in good farm lands in Florida that has ever been known in any state in the union. By making an investment in a tract of our Volusia Farm land you will not only get the benefit of this advance, but if for any reason you do not desire to retain the land after completing your payments, you get your money back with six per cent interest. This is better than your money on deposit in the banks at from two to four per cent interest. A safer proposition could not be made to you.

## NEWSLETS

In the Interest of Progress and Development

Transportation is  
the key that opens  
the treasure chest  
of Palm Ham-  
mock. No farm  
more than one-  
fourth mile from  
the street car  
tracks

### Mr. Reader of this Paper You are Going to Learn a Few Things About Palm Hammock

#### Palm Hammock, the Garden Spot of the Sanford Celery Delta

Is now being tapped by the extension of the Sanford Street Car Line. Not a farm in Palm Hammock will be more than one quarter mile from the Street Car line.

#### Those Who Reside in the Country

Are best able to appreciate the advantages of Rapid Transit. The facilities for getting in and out are now enabling the workers of the large cities to reside miles and miles away from their work, own their gardens and yet enjoy all the advantages of the advanced condition of things in the city.

#### You Will Be Able to Do the Same Thing Here

If you purchase a Palm Hammock Vegetable and Celery Farm. While enjoying the Peace, Happiness, Comfort and Contentment of country life, you will at the same time be able to partake of the Educational, Commercial and Social life as developed in Sanford with ease and little expense and the transportation afforded you will be the cause of it.

#### The Round Trip Fare From Sanford to Palm Hammock

Is only twenty five cents and commutation tickets will be sold at still more reasonable prices. Those building homes in Palm Hammock will enjoy all the advantages of city life. You will have no trouble in marketing your crops. Transportation right at your door and progress all about you.

#### It is Not Like Establishing a Home in the Wilderness

In Palm Hammock you will have neighbors on every side. You will live in the vicinity of cultivated farms. Your neighbors will be ready to give you the benefit of their experience in growing vegetables. You will live next door to information that less favored sections cannot purchase with money.

#### The Owners of Palm Hammock

Are old residents of the Sanford Celery Delta. They know where the best land lies and that is why they purchased the

#### Very Heart of the Garden of Eden

They were here soon enough to take their choice of all the land in the Celery Delta. After looking the situation over carefully

#### They Selected Palm Hammock As Being Better Adapted

By nature to the growth of vegetables during the winter months than any other section of the Celery Delta. To make this land available a street car line is now being constructed through the property. As a result of their far reaching research they now offer vegetable farms

#### On Terms That Are So Reasonable That You Can Make

The land pay for itself if you have a small initial working capital to begin on. When this land has been placed in good tilth it will be easily worth Eight Hundred Dollars an acre.

We have some splendid ten acre farms in Palm Hammock

We have some splendid five acre farms in Palm Hammock

We have some splendid two acre farms in Palm Hammock

We have some farms fronting the street car tracks

We have some farms a tier or so back from the street cars

We have the farm you have been looking for

We have the farm that will enable you to make good

Take our word for it. We have been here long enough to know

Write us for terms of sale

Write us for general information

Write us about the successes that have been achieved here

There is only one Sanford Celery Delta. We want to tell you about it

You will be in direct touch with Sanford when you make a home in Palm Hammock. Your children can attend school in Sanford. A big advantage

Sanford, Florida

Palm Hammock is 15 minutes from Sanford by hard road. The Grower with a big crop can best appreciate good roads. Palm Hammock soil will make bumper crops

**OVERDRAFTS ARE DANGEROUS**

**Comptroller Writes Letter About Evils of This System**

The following letter from Comptroller Croom regarding overdrafts is published by request of President Smith of the People Bank.

It appears that a large percentage of the state banks are in the habit of allowing overdrafts and judging from the amount of such overdrafts, in a number of instances, loans are being made by overdraft. An overdraft of any kind is an uncertain and dangerous asset as, if it becomes necessary to enforce the payment thereof by legal proceedings the bank would have to prove every item of the account of the depositor in order to a verdict from a jury. Even then it would be extremely doubtful as to whether or not the verdict would be in favor of the bank, because the jurors might take the view that the depositor must have had a balance to his credit or the bank would have turned down his check.

The officers and directors of a bank have no right to loan money by overdraft or to habitually allow overdrafts. An occasional temporary overdraft, due to the carelessness of the depositor or both the depositor and the officials of the bank, seems to be difficult to prevent but there can be no reason for loaning money by overdraft or habitually allowing overdrafts.

A note properly executed by a responsible person or firm is a negotiable asset and if the necessity arises can be re-discounted but an overdraft is not even an asset except in a prospective sense, dependent almost entirely on the absolute honesty and financial ability of the person or firm who made the overdraft, as to whether or not it will at some future time he made a real asset of the bank. The Act of 1905, Chapter 5468, of the Laws of Florida, prohibits the issuing of a check on a bank when the person issuing the check does not have on deposit in the bank sufficient funds to pay such check and declares that the person so offending shall be guilty of a felony. In paying checks so drawn you, in a sense, become a party to a violation of a law that was passed for the protection of banks as well as of individuals.

In many of the banks overdrafts are not shown on the daily statements that the President and Directors usually rely upon to ascertain the condition of the bank. This is altogether wrong as the daily statements should correspond with the books and have every resource and liability clearly shown so that the statement will not be misleading. I shall instruct the Bank examiners hereafter to refuse to consider an overdraft over 90 days old as representing an asset and will require each bank having overdrafts more than 90 days old to charge them off. When a person or firm is considered good for an overdraft then there can be no doubt that in such case he would be good for a note and notes should be taken in all cases in preference to allowing even a temporary overdraft. Certainly every person or firm that you would allow to overdraw could cover the overdraft with cash or a good note within 90 days.

The law does not authorize overdrafts and a bank official assumes personal responsibility for every overdraft he allows.

The temporary overdrafts must consist solely of overdrafts made by regular depositors by mistake for only a moderate sum. No large overdraft will ever be drawn on your bank by mistake or through negligence on the part of the depositor in keeping his bank account correctly. Even a person who fails to keep an account will know within a limited amount how much he has on deposit.

**N. P. Bryan, a Candidate**

Former United States Senator W. H. Milton of Marianna has announced the candidacy of Hon. Nathan P. Bryan of Jacksonville for the position of United States Senator from Florida.

Senator Milton says that Hon. H. H. Lewis says that he (Lewis) has been authorized by the state Democratic executive committee, to announce that he will call a meeting of the committee within ten days, at which time the date for the primary election will be announced.

While the announcement of Mr. Bryan's candidacy is the first to be made officially there will probably be other candidates, among them Congressman S. M. Sparkman of Tampa and Attorney General Park M. Trammell of Tallahassee.

**Spouting Well**

Quite a little excitement was caused last week when the drainage well on the McNeil and Davis farm took a notion to "spout." Some thought it was a hot spring; some an oil well; some an artesian flow. But it seems to be simply a break in the wall between the well and the lake, the water from the latter spouting up as it does in the natural fountain of the lake, with the assistance of the air pressure. At any rate 'tis a very pretty fountain sending the water up at intervals thirty feet high.—Orlando Citizen.

TITLE BOND & GUARANTEE CO.

Volume 1

SANFORD, FLORIDA, OCTOBER 7, 1910

Number 36

Sanford Farms News Notes

Mr. Lingo, who purchased fifteen acres from Title Bond & Guarantee Company has arrived at Sanford for the purpose of improving his property. He will improve five acres at once, build a house and make all necessary improvements for a comfortable home.

Mr. R. C. Shaffer of Camden, Ohio, purchaser of a five acre tract in Sanford Farms, has made out a list of materials for the construction of a residence on his property. He is expected in Sanford in the near future.

The growers in the vicinity of Sanford Farms are now busy with their crops. Quite a large acreage of strawberries have been set. Those who have fall tomatoes will do well on them and the crop looks very fine. Preparation is being made for the usual acreage of celery. Mr. Vorce, who purchased fifteen acres from the Title Bond & Guarantee Co., has a fine bed of cauliflower plants ready to set and his cabbage plants are coming on in great shape.

Mr. J. E. Pace, the "Celery King," who has a nice truck garden at Sanford Farms is getting things in shape for his fall crops. He will have seventy-five acres in celery, thirty acres in lettuce and ten acres in cabbage this season. Mr. Pace began truck growing in the Sanford Celery Delta some years ago on less than one-eighth of an acre. He is now the largest grower of vegetables in the Celery Delta.

The store building erected by J. W. Bell is completed and ready for a tenant. Mr. Bell is anxious to get a wide-awake merchant to put in a general stock of goods and will lease the building very reasonable. Mr. Moffatt, an old resident of West Sanford, has opened a store and carries a nice stock of goods, but the old saying is, "Competition is the life of trade," even if it does occasionally kill the trader. Mr. Bell provided five commodious rooms over the store which is a two story building and is prepared to entertain purchasers in the latest approved fashion.

Mr. Vorce's house has arrived and this hustling gentleman is now busy getting it together. His family will be down shortly and will add much to the community.

Mr. Prather has in a crop of sweet potatoes on a portion of his improved five acres. The crop is looking very good. He has also tilled a portion of his farm, planted a nice area of strawberries and is making very good headway.

Mr. Gamble has had five acres cleared, plowed, harrowed and put in shape for a first crop of cabbage.

We have word from many purchasers of Sanford Farms that they will be down this fall and get busy with their development work. From all indications there will be at least 40 families living on Sanford Farms next spring.

If you have interests in Sanford and want a reliable firm to look after them write Title Bond & Guarantee Co.

Captain Smith, has rented the Oglesby property and will put in a two acre crop while clearing and improving Sanford Farm. He will have Mr. Richard Tingle of Greshamville, Ga., associated with him. These gentlemen brought a handsome pair of mules from Georgia with them and are prepared to do plowing, hauling, and all kinds of teaming. Orders may be left for them at the office of the Title Bond & Guarantee Co.

From the way Sanford Farms are moving there is little doubt but what every five acre tract will be sold by the first of January. If you want to locate in a progressive community, now is the time for you to let us make a selection for you.

Title Bond & Guarantee Co. will sell your property, will rent your property, and will do the square thing to you.

Notice

There will be a special meeting of the stockholders of the Title Bond & Guarantee Co., October 22nd, 1910, at 8 o'clock p. m., at the company's offices in Sanford, Florida.

THOMAS K. BATES,  
Secretary.

LETTER NO. 4.

The Father Explains to His Son, the Reward Awaiting the Dishonest Man Who Vends Worthless Sandy Acres.

My Dear Son:

Last week I made mention to you of the cavortings around of that old Celebrity, Diogenes, in his effort to locate an honest real estate dealer. I neglected to mention to you the experience of

Little Napoleon

Who made new paths for the French Army and new laurels for his own morrow head. The head of Napoleon's commissary department has given a contract for furnishing

Fresh Pork, Mutton, Goat and Raw Beef

To a certain Butcher who had an international rep for vending embalmed foods and giving short weights to his patrons. This fellow took advantage of his extensive operations in furnishing food for the

French Murderers

And palmed off on them large quantities of poor and spoiled meats, the consumption of which began to mow down the ranks of the French Army to a greater extent than the

Bullets of the Enemy

This dope finally leaked through to the Little Chief and he sent for the successful Meat Contractor and placed him on the rack as to his pernicious methods which were resulting in

Poisoning Napoleon's Army

The Fakir began by explaining that he always furnished the very best meats for the officers messes. He looked after the officer's portions in person. He did not take so much care with the supplies of the

Rank and File

Because he did not believe they amounted to much and a little spoiled meat would do them no harm. The Milk of Hygiea Kindness in

Napoleon's Belfry Began to Curdle

His blood surged and boiled. His temper went up to white heat. His body shook with emotion and he

Bawled Out to the Watch of the Hour

Take thou, this thing here, who is the Strychnine of Our Camp, to the Guard House for an hour's prayer. At the end of that time take him to the

Execution Post

Accompanied by Eight Men and shoot him so full of holes that a Pound of Bologna Sausage will run out of him as easily as Dry Sand will chase through a coarse sieve

The Fakir was Killed Entirely

And your old father deplores the fact that we have no Napoleon to place in charge of the sale of Florida Land, as crimes are now being committed in the name of Profit and Progress that are destined to become cankerous sores in the breasts of the duped purchasers and a stench in the nostrils of the

Ethics of Common Decency

A relapse will take place, an awakening will come, an accounting will be demanded, the Truth Will Become Generally Known and a howl will go up out of Florida that will cause the erstwhile Howl of Rome to sound as a chant at a funeral of a potentate in comparison thereto

You Know My Son That I Believe in Doing the Square Thing

And from the testimonials now being gathered from the people of prominence, respect and honor in our community, you will agree with me that there are many others who also

Believe in Doing the Square Thing As the Following Statement Shows:

"I have lived in Florida for the past 26 years and for the past 7 years in Orange county. From experience and personal observation, I know it to be an utter impossibility for a man to grow winter vegetables for market without proper irrigation and drainage of his land. Since my residence here I have been in a position to note the progress of those of my acquaintances who have attempted farming without irrigation and failure has always attended their efforts.

Yours truly, N. H. GARNER, Sanford, Florida.

The Line of Demarcation

Between the Arid and Irrigated land is so plain that Mr. Garner, told your father that he could sit in his buggy and toss a penny on land that worth from \$150 to \$1500 on the one side while on the other side of the buggy he could toss a penny on land that was worth from \$25 an acre down to nothing.

The Difference

Is caused by the elevation and the height to which the following artesian wells will rise to or above the surface. If you will send to the Title Bond & Guarantee Company you can get a book telling you all about artesian wells and irrigating land. This book is of untold value to the man looking for a location in which to establish a home that can be made to sustain itself. Be good and save your money. I will write next week.

Your loving Father.

P. S: There are now 52 indictments in the Federal Court against companies who have fraudulently filched purchasers of Florida Land.

Father.

P. S. No. 2: Brains can not be made of putty. Hair does not make a good head. Be careful of the gilly with the tiny roving black eye and looking for the professional who jams a handle on both ends of his name.

Dad.

# THE SANFORD HERALD

IN SANFORD—Life is Worth Living

Number 9

SANFORD, FLORIDA, FRIDAY, OCTOBER 14, 1910

Volume III

## ALL AROUND FLORIDA

The General News of "The Land of Flowers."

### CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

Never before have Florida colleges opened with such large attendance, and with such bright prospects. These institutions, several of which are attended by students from many other States, and several foreign countries, are indeed a credit to the State.

Contract has been awarded J. F. Olmstead for the erection of a new school building, at a cost of \$64,495, at Miami. The contract calls for completion of the building in time for occupancy at the beginning of the next school year. The building will be constructed of reinforced concrete, three stories high and will contain twenty-four class rooms and a commodious auditorium with a seating capacity of one thousand. All floors, walls and partitions will be constructed of concrete and the building will be made as nearly fireproof as possible.

Florida's thousands of summer tourists are returning to the Land of Flowers, looking worse than they did before leaving in the summer. After all, the twelve-months-in-the-year lives the longest and gets more enjoyment out of life.

General Orders No. 7, containing the announcement that Miss Clifton Byrd, of Tallahassee, has been named as maid of honor to the division sponsor at the reunion of Confederate Veterans at Bartow, and containing valuable information regarding transportation, etc., have been issued by Maj. Davant, commander of the Florida division, United Confederate Veterans.

Trains on the Palatka and Ocala Railway ran for the first time on Wednesday, Mr. Reutz, the owner, has secured the right of way of the Palatka & Anclote Railway, which has already been graded for thirteen miles out from Palatka. Mr. Reutz states that trains will be running from Ocala to Palatka not later than March 1st.

Green fruit is being shipped from the state this year, but in smaller quantities than heretofore, for which a song of praise should go up all over the state. No practice has so demoralized the great industry in Florida. Let the growers get together through the medium of the Citrus Exchange.

The sixteen page edition of the Miami Metropolis of the 8th was one of the best and handsomest papers ever printed in Florida. It was not a spurt, but a regular issue in the course of business, with a due proportion of excellent and appropriate reading matter to the advertisements carried.

Enterprising business men from the various towns of Polk county, with a large number of progressive citizens of other vocations, met in Bartow and organized a Polk County Publicity club. The county commissioners have contributed a thousand dollars to the object, and it is intended to enter upon a great advertising campaign to induce settlers and development. Polk is a great county, and too much can hardly be said in support of its resources and attractions.

C. J. McCrane, formerly game warden of Marion county, who with William C. Ayers was given a preliminary hearing Saturday before Judge Bell on the charge of murdering Nicholas P. Myers, a couple of weeks ago, near Weirsdale, was released, as the evidence was insufficient to hold him. Ayers was bound over to the grand jury, and his bond placed at \$7,000 which, so far, he has been unable to raise. The evidence against Ayers seems purely circumstantial, and hinges on the fact that tracks near the body of the murdered man, corresponded to the track of Ayers.

J. Ira Gore, one of the able and best known young newspaper men of Florida, who has for some time past devoted his attention to his real estate interests, has returned to the journalistic field, and is now state news editor of the Metropolis, which position he filled so acceptably for a long time on the staff of the Atlanta Constitution. Probably no newspaper writer in the state has a wider acquaintance than Mr. Gore, who will bend his energies toward making the state news service of the Metropolis equal to that of the largest cities in the country.

## FLORIDA VEGETABLE GROWERS' ASSOCIATION

### MANAGER SMITH TAKES THE FIELD IN AN ACTIVE CAMPAIGN

#### Every Grower in the Entire Sanford Section Should Become a Member of this Splendid Organization Without Delay

After six months of strenuous effort on the part of the vegetable growers of Sanford and the Celery delta and after having overcome many obstacles and neutralized and brought to a common view, various differences, the Florida Vegetable Growers' Association, is now a perfected organization, the working facilities of which are gradually being extended and brought into being.

The membership now consists of 150 growers who have under their immediate control 800 tiled acres in addition to a considerable untiled area of which little consideration is taken. The board of directors and its various committees are to be congratulated over their conquest of what at times seemed to be insurmountable difficulties, and words of praise are extended them on every hand, not only by the growers but by laymen and business men in every line of commerce as well as the professions.

At the board meeting last Saturday night, Mr. William G. Smith, of Cape Charles, Virginia, was elected manager of the association for the ensuing season. This gentleman has had twenty years experience as an f. o. b., a specialist and comes well recommended as a hustler, a man of broad experience and one who will be able to keep under proper control every phase of the marketing project. Mr. Smith will work under the executive committee appointed at Saturday night's meeting. This committee is composed of B. A. Howard, W. D. Holden and Harry Ward, all of whom are deeply interested in every phase of the development of the Celery Delta.

It will be the endeavor of the executive board and Manager Smith, to bring buyers of vegetables in large quantities to Sanford to offset their prejudice, if they should have any regarding the Sanford pack and to exemplify by personal contact the merits of the products of the Celery Delta, just as buyers are taken care of in large manufacturing centers where special products are made and placed on the market. To do this and begin from the very bottom as the executive committee will necessarily have to begin, is a herculean task of no small proportions and at once command the hearty endorsement of the entire community.

As a further inducement to bring buyers to Sanford and to have the pack of celery as nearly uniform as possible throughout the state the organization will adopt the 12 inch crate (size 12x20x24 inches) as it is believed that this will prove the popular package. Those having a stock of 8 inches or ten inches crate on hand will be permitted to use what they have. There are a few markets that prefer the smaller crate and of course will be supplied with the package preferred, but the idea of having every package uniform in size will finally be worked up to, even though a bit of educational work will have to be done.

The lettuce hamper as now used here will be displaced by a crate measuring 8x20x24 and holding approximately the same number of heads as hampers formerly used. Careful inquiry in the markets has established beyond question that the crate has many advantages over the hamper. It is more easily inspected, refrigerates better, looks 100 per cent nicer and brings a premium of 25 cents per package over the hamper.

Preparatory to and during the cropping season there will be many obstacles to overcome and it should be the desire and effort of each member to co-operate with the board of directors in every way possible. The association is not a one man proposition and no one man can dominate or control it. It is a collective organization to promote the general welfare of the growers and should have every assistance commensurate with sensible and conservative business judgment.

The history of all singular organizations records the many false and malicious reports circulated, usually by the minority for the purpose of resolving the membership back into its former chaotic state, and it is imperatively essential that any derogatory rumors affecting the success of the organization in any of its various branches be discredited at once. Doubtless there will be some differences of opinion as to many minor details, but if they are allowed to work themselves out they will prove self adjusting, and meet market conditions and each member should be willing to concede as much to the association as they have had, so to do, with individuals in the past. Each member

should feel it is his duty to do missionary work among his neighbors who have not joined the association and all work with a harmonious object of purpose that will make the crop grow as though it were grown by a single man and sell as though it were a single stalk. The directors are using every means within their province to increase the membership to 250 by the time the selling season opens, and from all visible indications and with the active aid of each individual member the task will be an easy one.

Just as soon as the marketing details have been worked out a growers' meeting will be held and a general discussion of each point in any way affecting the crop of the grower will be had, and from which much valuable assistance is hoped to be secured, and a solidarity of organization perfected that will mean a minimum of losses and always a maximum of profits to the producers. In the mean time any information desired may be had by calling on Manager Smith at the association offices in the Peoples Bank building. The association for the time will occupy half of the palatial offices of the Title Bond & Guarantee Company, which are on the first floor, centrally located and right next to the postoffice.

Too much importance cannot be attached to the fact that every celery grower in the Celery Delta should become a member of this organization, and should make immediate application. This is an association of the people and each citizen of Sanford and community should become a booster for it, for upon the successful marketing of this and future seasons' crops depends the prosperity and expansion of Sanford, the success of its commercial enterprises, the growth of its industries, its success means good roads, fine schools, beautiful homes, a greater Sanford and a financial solidity that has also attended intelligent, agricultural effort, no matter in what clime or section the initiative has taken place.

The officers of the Florida Vegetable Growers' Association of Sanford are G. R. Calloun, president, E. T. Woodruff, secretary. These two gentlemen, in connection with B. A. Howard, W. D. Holden, A. T. Rossetter, Harry Ward, J. H. Mitchell and H. H. Chappell compose the directorate.

## THE IRISH POTATO CROP

### Sanford Planters Can Raise Spuds For Profit

Among our planters we find manifested a wide spreading interest in the culture of Early Irish potatoes. Although last season, owing to continued damp cold weather during January was unpropitious for early plantings, some of the seed lying dormant for four weeks. Yet the success was so marked in many instances, and the money value of this staple crop, grown under favorable conditions and with proper methods so apparent that the coming season will see a largely increased area of the toothsome "murphy" planted in Sanford Celery Delta.

Good yields of this important member of the vegetable kingdom cannot be obtained by haphazard methods the land must be properly drained, prepared, fertilized and cultivated and last but not least the best of seed planted. Opinions differ as to the best seed, both as to variety and nativity, fine crops have been made here from both Western and Eastern seed. While the Hastings farmers use almost exclusively the eastern grower, Maine preferred, and consider the crop of Aroostook county, superior to that of any other county in that state, authentic reports from that county report a large yield for this season of extra fine seed, free from blight or disease of any kind.

Good yields were obtained here last season of the "Flamich" variety and "Spalding Rose Four," this last named potato is the favorite variety at Hastings—no appreciable quantity of any other kind is grown there. A few of our Sanford growers planted, at the suggestion of H. H. Deane, sample patches of the Polaris, and all are loud in their praise of this fine variety, of early maturity, uniformly large size, fine quality and a wonderful cropper.

A large grower at Hastings reports a yield on one acre of tiled land from this potato, season of 1909, 128 barrels, beside 4 barrels culls, total of 132 barrels; while the past season his yield on five acres was 596 barrels, 90 per cent No. 1, only 10 per cent of 2s.

As will be seen from a full page advertisement elsewhere in this paper, Mr. Deane is now booking orders for the Polaris and other well known varieties of seed potatoes, all grown in Aroostook county, Maine, guaranteed free from disease.

When Hastings enters the market with her 200,000 barrel crop, shipping a train load daily, Sanford and other smaller potato plants had better clear the track. They begin planting January 10th and commence shipping April 10th. It is suggested that for this territory seed potatoes should be shipped say November 15th, arriving here by December 1st, holding them in our barns for two weeks. Our mild climate will have caused the eyes to sprout, so that when planted, say December 15th, growth will be immediate and rapid. The experience last season of shipments made during blizzard weather proved that the chilling of the potatoes retarded materially their early growth and consequent maturity. Planted as above suggested our crops may be dug and marketed before Hastings begins, thus realizing the highest prices.

The early potato crop for Sanford seems a safe proposition. We are 70 miles further south than Hastings, that place has an unbroken record of crops for eighteen years, and is now the largest early potato section in the world. Our location and admirable system of drainage and sub-irrigation will enable us to head the list as to net profits per acre from early potatoes.

Next week we will give some suggestions as to the best methods of planting and cultivating.

## TOLD TO MOVE ON

### Agitators of Labor Troubles Have No Place in Sanford

The present strike in Tampa is being kept alive by the paid labor agitators who know that when the strike ends their job will end. Since several cigar factories have located in Sanford the agitators naturally drifted to the city in order to stir up trouble. Learning that they were in the city Mayor Lake went to their hotel and told them that two trains left that night one going north and one going south and not to let the sunshine on them in Sanford again.

Needless to add the gentleman in question left at the appointed time and it is safe to assert that their kind will not molest the manufacturers in the city again.

### Episcopal Church Service

The hour for Sunday evening service has been changed in the Episcopal Church to five o'clock. This to take the place of the service that has been held at 7:30. There will be the regular Yeapors Service, with short talk by the Rector, not to exceed 10 minutes, the whole service to occupy about an hour. This change is made with the idea of it most convenient for the greatest number of people. The service will be made as bright and helpful as possible, and all will be made welcome. On and after Sunday October 16th, service at the Episcopal church at 5 p. m., instead of 7:30 as heretofore.

### A Beacon Window

The Boston store has a fine display this week of Beacon shoes. This is one of the best brands on the market and the people who make them believe in advertising, as is evidenced by the window at the Boston. A large display advertisement will also be carried in The Herald for the Beacon shoes and The Boston.

### HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurred Readers

Fred Hall was shot dead and Policeman James Culpepper is dying as the result of a pistol duel fought on the streets of Meridian Miss., early Monday morning. The officer was trying to arrest Hall.

Wheat is easy in Chicago and from three-quarters to seven-eighths lower. Provisions are firm and higher. Cattle are strong and hogs steady.

Fearing that the strike on the Great Northern railroad will spread to the state railways and completely paralyze traffic throughout France, the cable is in session for the purpose of planning some way to deal with the situation.

Two hundred square miles of territory in northern Minnesota and southern Ontario is a smoking funeral pyre. Through the night fire raged, driven fast by high winds, and today it still surges on, taking its human toll and destroying property everywhere. Over one thousand are dead and from three to four thousand are missing. Twelve towns and villages are wiped out and eight thousand men, women and children are homeless. The property loss will exceed one hundred million dollars.

Turpentine men of Georgia are very much put out by the rule of the Federal board of appraisers to the effect that the prohibitive tariff on imported rosins is not legal, and that rosins from other countries will be admitted to the United States free of duty.

### LEFT SANFORD OFF THE MAP

Collier's Atlas and Gazette Seems to be Very Faulty

Harry Papworth who formerly resided in Sanford and was one of the most prominent and progressive citizens still has the same love for the old town. Recently P. F. Collier & Sons published an Atlas and Gazette and looking over the work for his old town Mr. Papworth discovered that Sanford and Lake Monroe were not even on the map.

It is not like Harry Papworth to allow any such slight to Sanford and he immediately penned the following:

Messrs. F. P. Collier & Son, 410 West 15th Street, New York City:

Gentlemen—I recently received a copy of your new Encyclopedic Atlas and Gazette of the World, and in looking at the map of the state of Florida I was simply astounded to note that one of the principal towns, Sanford, Orange county, and one of the largest lakes, Lake Monroe, on which Sanford is located, the head of navigation of the St. Johns river, Sanford being the largest truck and fruit producing town in the entire state, were not shown on the map and yet all the small villages, such as Geneva, Oviedo, Lake Mary, Longwood, Paola, Enterprise, etc., surrounding the town in which my boyhood days were very conspicuously in view. Will you kindly inform me what caused such an extraordinary oversight and if may construe that the balance of your maps are as faulty as the one in question.

Awaiting your reply,

Yours very truly,

H. M. PAPWORTH.

### Ladies' Auxillary

The Ladies Auxillary to the Anti-Saloon League, which is a temporary organization started by the ladies of Sanford for the purpose of lending a helping hand in the present campaign for state-wide prohibition, has proven a popular movement with the ladies of this place. A large number have enlisted as members and are actively at work. The weekly meeting of the Auxillary was held in the Baptist church Tuesday afternoon; the president, Mrs. Henry Wight, in the chair. Splendid reports were heard from the various committees, showing that they had been at work along the lines assigned to them. Gifted temperance speakers are booked for Sanford at an early date. The Auxillary will meet Tuesday afternoon, Oct. 18th, in the Presbyterian church.

Miss Armstrong, who was the efficient music and drawing teacher in the school last year has returned to Sanford, and is filling the vacancy in the fifth and sixth grades.
