Thousands Injured By Severe Tremors Which Raze Capital Of 1 Of Provinces

AUCKLAND, New Zealand, Feb. 3 (AP)—With hundreds reported killed and thousands injured by a tremendous earthquake which levelled the capital city of Hawke's Bay province, Napier this morning was a shambles of ruin and desolation. Aftershocks continued furiously in various sections.

Coming without warning, the quake made its first appearance at about 11:00 o'clock this morning when a large portion of the coastal region of the province was shaken with such force as to rattle the windows of the coast line. Moments later a terrific shock struck Napier and the surrounding community. Four nearby towns were completely wrecked. Hastings, a small town near Napier, reported that 21 persons were known to have been killed, while hundreds were injured. All reports of casualties were expected to be exceeded, and frantic efforts were made to repair broken telephone and telegraph lines in order that relief workers may ascertain what supplies, food and medical equipment are needed.

The residents of Napier were virtually helpless to control the sea, for the quake had cut off all water mains. The stunned populace stood by unable to count its dead, and without an effective

BIG BILL'S RACE FOR MAYOR GETS STARTED NOISILY

CHICAGO, Feb. 3 (AP)—A brass band, a horse-mule-burro parade, hissing, his opponents, a burst of fiery oratory, and Mayor William Hale Thompson had opened another campaign yesterday.

The showmanship that carried "Big Bill" Thompson to international renown as an "America first" adherent, a foe of King George and a flood control agitator, blossomed out in all its glory as he started his drive for re-nomination on the Republican ticket and for the honor of being the "World's Fair mayor."

Callope, and a truck bearing a brass band threaded through the Loop proclaiming the fact that Chicago's mayor was speaking yesterday. Up and down the canyons of stone and steel rode the mayor's well-advertised messenger—a mule and burro.

Astride the horse was a large and handsome cowboy, representing "Big Bill." On the mule was a bespectacled man with a halter around his neck and with a placard dubbing him as "Municipal Judge John H. Lyle." The squat burro carried a placard "Little Art" and a short, fat boy representing Alderman Arthur E. Albert. These two are the mayor's Republican opponents.

The police department loaned its quarter and a mounted squad of officers quickly filled the street outside the Loop theatre and it was necessary to close the whole block to traffic. Loud speakers carried in the overflow the glowing praise of Thompson's following and his own biting quips as he flayed his opponents and the Chicago newspapers.

The mayor opened with a reference to the celebrated Springfield furore in which a Chicago politician loaned and lost \$50,000, allegedly on the promise he would receive \$10,000 of a furore player's winnings.

YOUNG CALLED TO GIVE VIEWS ON BONUS BILL

Heads Of Large Corporations Will Assist House Committee In Advisory Capacity

WASHINGTON, Feb. 3 (AP)—The House committee on veterans' bonus certificates today called Monday night to counsel the House way and means committee on plans to pay cash on veterans' bonus certificates.

Chairman Hawley announced the heads of General Motors, the American Radiator Company, the Metropolitan Life Insurance Company and others would appear in prolonged hearings, while chairman Smoot called the Senate Finance committee to meet in executive session Tuesday.

Hawley's action drew instant complaint of "delay" and one-sidedness" from Minority Leader Garner. It came at the end of a day of new warnings, at both ends of the capital, that economic disaster would follow the floating of a \$3,500,000,000 bond issue to cover the cost. The House committee also heard advocates forecast beneficial results to business from enactment of the proposals.

There was talk, meanwhile, of a compromise that would succeed at this session. Representative Patman of Texas, a Democratic sponsor of immediate redemption, said Senator Vandenberg (R-Mich.), had expressed belief, after a visit to the White House that a 50 per cent increase in loans allowed on certificates and a reduction of interest would be acceptable to the administration.

Charles E. Mitchell, chairman of the National City Bank of New York, said he would support the bill.

SENATE VOTES FOR LIMIT ON MEDICAL RUM

However, Bill For Unlimited Authority To Doctors Is Given Extensive Support

WASHINGTON, Feb. 3 (AP)—The Senate today refused to give Washington physicians unlimited authority to issue prescriptions for liquor but the proposal mustered more votes than any move to liberalize enforcement laws has received in the Senate since the Eighteenth Amendment was adopted.

Twenty-five Senators, mostly Republicans, voted to carry out in the District of Columbia the recommendations of the Wickersham prohibition report that restrictions surrounding the issuance of prescriptions by physicians be removed.

The amendment, proposed by Senator Hawes (D-Minn.), to the Howell bill for a District of Columbia enforcement law, was defeated 45-25, but a move to reconsider the vote was beaten only 39-29.

After agreeing to resume consideration of the Howell bill, the Senate also struck out, without a record vote, the drastic provisions for home search and seizure, but substituted words which some of the anti-prohibitionists considered almost as far reaching.

The approved provision would allow search of private homes used for manufacture or storage of liquor for sale.

Senators Hawes and Tydings (D-Md.), urged adoption of the amendment to liberalize the issuance of prescriptions Tydings said the Wickersham Commission had

BAD WEATHER DELAYS TRIALS OF CAMPBELL

British Racing Driver Makes Unofficial Speed Of 240 Miles An Hour Yesterday

DAYTONA BEACH, Feb. 3 (AP)—Poor visibility and strong wind today prevented Captain Malcolm Campbell, British race driver from making an official assault upon the world's land speed record of 231 miles an hour.

Having attained an unofficial speed of 240 miles an hour Monday, Captain Malcolm Campbell, veteran British race car driver, announced he would make his official trial for the world's land speed record Tuesday.

In one tremendous burst of speed, the slender, iron-nerved driver drove his trim, Blue Bird racing car over the nine-mile stretch of wave-lapped sand at a clip of approximately four miles a minute and afterward declared he was "ticked to death" with the machine's performance.

"It was simply wonderful and I can hardly find words to express my joy," the 46-year-old driver as he removed his goggles and climbed out of the huge racing car after his test run, while a crowd of spectators gathered about and cheered him noisily. "The beach was the best I have ever seen it and if it is still good Tuesday, I shall go for the official record then."

Although Campbell's speed Monday exceeded by approximately nine miles an hour the present

In that the subjects to be discussed are everyday problems of each farmer.

Growers who wish to have soil tested may be interested to learn that complete and new testing apparatus has been received by Mr. Johnson. He will test without charge any samples of soil at the Thursday meeting.

Tampa Police Nab Slayer Of Leading Automobile Dealer

TAMPA, Feb. 3 (AP)—Victor Palmer, 26, a boilermaker, was arrested Monday and charged with the slaying two weeks ago of Joe B. Johnson, prominent Tampa automobile man, during an attempted holdup.

State's Attorney C. H. Parkhill said Palmer made a full confession to him, implicating Louis Levine and Norman "Bubber" Heidt, for whom a search was being conducted throughout the State. Palmer was spirited away by officers to an unannounced jail for safekeeping.

Parkhill said Palmer blamed Heidt and Levine for planning the robbery. He said they borrowed a car and a pistol and took him from his house.

He lay in wait for Johnson, he related and shot him when he became nervous and afraid. His two companions waited for him nearby in the automobile, but speeded away when he shot, his confession said. He ran, and hid under a nearby house, he continued.

JUDGE DIMS HOPE OF NEW HEARING FOR DAISY DEBOE

Former Secretary To Clara Bow Stoically Accepts Decision

LOS ANGELES, Feb. 3 (AP)—With a stoic acceptance of defeat in a fight for a new trial, Daisy DeBoe threw herself on the mercy of the court Monday and ended her fight to escape a conviction of stealing \$825 from Clara Bow.

A hope that she might gain another chance to fight the grand theft charge filed against her by the flapper film star, whom she served two years as secretary in a decision by Superior Judge William Doran, denying her a new trial.

Judge Doran's decision followed two hours of argument by his counsel, William Beirne, in which he tried unsuccessfully to show her verdict was reached by "let or chance." The defense, prepared for an adverse ruling, immediately

LOVE RULES LIFE OF YOUNG PRINCE OF SWEDISH LINE

Renounces Royal Pomp In Decision To Wed Youthful Commoner

STOCKHOLM, Sweden, Feb. 3 (AP)—Young Prince Lennart of Sweden chose Monday between love in the comparatively humble company of a gentleman farmer and a life of pomp in a royal palace.

His choice was for love.

He formally announced his engagement to Miss Karin Nisavand, a commoner and daughter of a Swedish business man, despite the disapproval of his grandfather, King Gustave.

To marry a commoner meant that he would lose his title as prince and must renounce succession to the throne, for Swedish law prohibits a marriage between prince and commoner without the knowledge and consent of the king.

King Gustave announced Monday, in a message from the palace, that "after serious consideration, and with deep regret," he was unable to sanction Lennart's choice of the girl who has been his sweetheart since childhood days.

Lennart did not hesitate. He chose to announce his engagement although the marriage was postponed until next year to permit love to find a way for the young couple to establish themselves for life without the aid of the royal family.

On the wedding day the prince will become simply Master Lennart Wilhelmson, although it is possible that the courtesy title of count will be granted him.

The road of true love, for this young couple will not in reality be so rough, as Miss Nisavand is the daughter of a wealthy business man and the prince will have all the property left in trust for him by his mother, the Grand Duchess Marie of Russia.

The prince will be free to indulge an old ambition to become a farmer. He will lose all rights to

PRESIDENT TELLS WHY HE OPPOSES U. S. RELIEF SUM

Says Measure Strikes At Very Roots Of Self Government

WASHINGTON, Feb. 3 (AP)—President Hoover today opposed appropriations for relief as measures which would strike at the very root of self government. While the President expressed confidence that the Red Cross, together with local aid, could take care of both the drought and unemployment situation, he said he was willing to pledge himself to ask the aid of every resource of the federal government in the event other means should fail.

The President said the present problem did not present the question so much as to whether people would go hungry or cold but rather the question of the best method of preventing hunger and cold. The friendliness and charity of the American people, he said, can be relied upon to take care of its fellow citizens in distress. He emphasized that there was a real problem involved, namely that help now extended by agencies and neighbors of those in need throughout the country is many times larger than that of any fund yet proposed.

With a fervor seldom exhibited in Senate debate, leaders of the Senate coalition Monday assailed the "no compromise" stand of the House Republicans against the \$25,000,000 Red Cross relief fund.

Senator Borah, of Idaho, a spokesman of the Republican independents, drew a roster of applicants from the determined Democratic forces and from the galleries as he shouted an acceptance of the House challenge, and declared for an all-Summer fight. If necessary, on the relief issue against the administration.

It was a scene unparalleled in recent history of the dignified Senate as Borah brought the Democratic leaders across the aisle to shake his hands amid applause from the galleries.

Silent throughout the assault by the Idahoan and during a more personal attack upon President Hoover and the House Republican

THE STORY OF THE FIGHT

Yvonne, the young girl, was sitting in her room, looking out the window. She was thinking of the fight that had taken place between her and the young man who had been watching her. She was feeling a little better now, but she was still a little nervous.

She was looking at the clock on the wall. It was 11:00. She was still sitting there, looking out the window. She was thinking of the fight that had taken place between her and the young man who had been watching her. She was feeling a little better now, but she was still a little nervous.

Bishop Cannon Is Ill On Eve Of Church Quiz

WASHINGTON, Feb. 3.—(AP)—Bishop James Cannon, was in a hospital here yesterday on the eve of hearings to be conducted by the Methodist Episcopal church into charges against him, but his family said he would leave the hospital today to defend himself.

The southern Methodist dry leader recently returned from Texas where he recuperated from an illness. His recovery is not complete.

His present trip to the hospital was to rest from the Texas journey. Today twelve elders of the church will sit as an investigating body to hear charges filed against the Bishop by four ministers.

PLANE MANUFACTURER Dies In Sudden Crash

CHICAGO, Feb. 3.—(AP)—Edward Hebb, designer and manufacturer of the Hebb parasol airplane, was killed Sunday when a biplane he was piloting crashed near suburban Morton Grove.

Hebb's planes were of the high winged monoplane type, powered by rebuilt motorcycle engines.

One of the pioneer light plane designers and manufacturers in this country, hundreds of the tiny, single-seater craft which he turned out are in use. Their cheapness, both in original cost and in upkeep, attracted the attention of embryo fliers.

His latest experiments concerned the use of pontoons on his planes, enabling them to alight on and take off from small bodies of water.
