THAW PREDICTS COURTS WILL SOON FREE HIM

(Continued from page 1.)

Effect Released.

Asked as to the probable effect upon Thaw if released, Dr. Weisenburg said he would in all probability revert to the same practices he had called on before. He would unquestionably be dangerous to himself.

"Would you commit Thaw to an asylum as a lunatic?" asked Mr. Patterson, in cross examination.

"No, I would not commit him on the record of the past six years alone," was the reply.

"Do you consider Thaw's case incurable?"

"No, I do not. I base my whole opinion on the records."

"In the last six years has Thaw shown any sign of moral insanity?"

"No, sir, he has not," was the reply.

Mr. Dickson, opposing counsel, asserted that "Thaw's case is the best of Thaw to declare him insane when he wanted to be insane, and to describe him as sane when he wanted to be sane."

"These methods," Mr. Dickson declared, "allowed him to escape the consequences of killing Stanford White on the grounds that he was insane."

Mr. Dickson referred also to Thaw's alleged whipping of Frederic Gump, Kansas City high school boy, in a New York hotel, and pointed out that Thaw "never did deny the Gump affair."

Chairman Houston Supports Testimony

(Continued from page 1.)

nation surrounding the Montana indictment of Senator Wheeler, its "prosecutor," the committee was told by Robert S. Glenn, of Nashville, Tenn., that a justice agent had asked him for facts as to Wheeler last March, and had endeavored to induce him to arrange a personal conference between the senator and Mr. Daugherty, "to call Wheeler off of Daugherty."

Chairman Thompson's testimony first dealt with conditions in the tobacco industry during 1922 and ensuing years. The commission had recommended to Mr. Daugherty that criminal prosecutions be instituted on the ground that combinations existed, both to hold up prices of manufactured tobacco to consumers, and to hold down prices of the raw material from farmers. It was ten months before the commission could get an answer from Mr. Daugherty, the witness said, and the answer did not come until impeachment proceedings had been instituted in the house in 1922 against Daugherty.

This was the first inquiry to be taken up, but the trade commission member said he had several other cases affecting other industries to present. He declared that no criminal prosecutions had been instituted on the commission's information or recommendations.

"Talk of 'Drug Trafficking'."

Y. E. Wilkins, prison guard and school superintendent at Atlanta until April 10, when he was suspended, was then heard and touched on drug trafficking in the institution. Geo. Remus, an Ohio headmaster, Wilkins said, had a private room and bath at the prison and along with two or three other special dining room service and com or wealthy inmates, was given special dining room service and comforts designed to alleviate the monotony. He said it was the impression that they were given consideration because they had money, but he did not know to whom the funds so applied may have gone.

Adjournment was taken at the call of the chairman.

PRESIDENT IS SUPPORTER OF ARMS PARLEY

(Continued from page 1.)

There is an exceedingly healthy disposition to uproot it altogether, and administer punishment wherever competent evidence of guilt can be produced. That I am doing and propose to continue."

The law of service, Mr. Coolidge contended, also demands strong resistance against "the most determined assaults upon the public treasury by 'minority groups of one kind or another, and organizations, sometimes almost nationwide in their ramifications.'"

"A final adjustment for the liquidation of reparations ought to be the beginning of a new era of peace and good will."

"In the event that such a condition develops," he went on, "it becomes pertinent to examine what can be done by our own country, in co-operation with others, further to rid ourselves and the rest of the world of the menace and burden of competitive armaments and more effectively insure the settlement of differences between nations, not by a recourse to arms, but by a recourse to reason; not by action leading to war, but by action leading to justice. Our past experience should warn us not to be overconfident in the fact of so many failures, but it also justifies the hope that something may be done where already there has been some success, and at least we can demonstrate that we have done all that we can."

Concluding, he reminded his audience that "on what nations are at home depends what they will be abroad," and added:

"The world knows that we do not seek to rule by force of arms, our strength is in our moral power. We increase the desire for peace everywhere by being peaceful. We maintain a military force for our defense, but our offensive lies in the justice of our cause. We are against war because it is destructive. We are for peace because it is constructive. We seek concord with all nations through mutual understanding. We believe in treaties and covenants and international law as a permanent record for a reliable determination of action. All these are evidences of a right intention. But something more than these is required to maintain the peace of the world."

The final establishment of peace, the complete maintenance of good will toward men, will be found only in the righteousness of the people of the earth. Wars will cease when they will that they shall cease. Peace will reign when they will that it shall reign."

and thus be in a position to protect this State.

This case must not be confused with the efforts that are now being made to secure reduction on perishable products which have been absorbing the attention of practically the entire state. Rates affecting shipments into Florida are equally as important, for the reason that this volume, despite the general belief to the contrary, exceeds out-bound shipments. They affect the growers equally as much as they do the merchants and should receive the same attention as do the rates on perishables. The Sanford Chamber of Commerce as a result of the meeting of Apr. 21, will take the initiative in an endeavor to organize commercial bodies into an Association which will present a united front to secure just and equitable rates for Florida. This association will be represented at all subsequent hearings pertaining to any rates that affect Florida.

Celery Special To Miami, Coral Gables Plan of Company

Of interest to many in Sanford and Seminole county is the announcement made by the "Celery Special" to leave Sanford Monday on a sight seeing trip to Miami. The purpose of the "Celery Special" is to not only give the people of this section an opportunity to make the trip down the east coast but also to advertise this progressive county in other parts of the state. The special busses will be fittingly decorated in order to best advertise this section of the state.

Ralph U. Greene who has in charge 12 members of the Coral Gables flying squadron, was in the city Tuesday making preliminary arrangements for this special trip. The other members will spend the balance of the week in Sanford working out the details.

The special busses will leave Sanford Monday morning, driving leisurely down the coast, spending two days and three nights in Miami, sightseeing there and will return to this city on Saturday.

Transportation is furnished free by the Coral Gables company, and special rates secured in the various hotels in which the party will stop. It is estimated that the total cost for the week will be about \$20 for each person.

R. Claud Whitten Has Announced For Office Constable District 1

In another column of this issue appears the announcement of R. Claud Whitten for the office of constable of district number one which comprises the precincts of Sanford, Paola and Monroe. Mr. Whitten is seeking re-election to the office which he has held for the past 12 years, two years of which he served when Sanford was a part of Orange county. During the four years when E. E. Brady was sheriff of this county, Mr. Whitten was his office deputy having charge of the books and records. In seeking re-election, Mr. Whitten believes that he is fully qualified to fill the duties of the office by reason of his past experience.

Senate Will Hasten Bonus Bill by Means Of Night Sessions

(Continued from page 1.)

declarations of Senators Watson, Indiana; Lodge, Massachusetts; Curtis, Kansas; and Willis, Ohio, Republicans, that they would vote to sustain a presidential veto of such a bill but would vote to override a veto of the straight insurance measure showed that it would be impossible for a cash and insurance measure to become law now. He thought it wise, therefore, he said, to first get a bonus law and then seek to amend it.

Defending the pending bill in the face of the attacks by Democrats favoring a cash payment option, Senator Curtis pointed out that the measure was practically the same

Senators Will Hasten Bonus Bill by Means Of Night Sessions

as the bill passed last session except that two of the four options were eliminated. The old law provided as does the pending measure, he pointed out, for cash payments only to veterans not entitled to more than \$50 in adjusted service compensation. The present bill would provide 20 year endowment insurance policies for other veterans.

Senator Norris said he did not object to the insurance provision but thought the beneficiaries ought to be given the right to choose whether they should receive cash or insurance. If a cash and insurance bill were finally approved, he said, he would urge add veterans to choose the insurance feature.

The proposal offered by Senator Cope land provides for issuance of \$1,500,000 in additional Second Liberty loan bonds to provide funds for payment of the cash to those choosing it.

## STOP RECORD IN FLORIDA STUDEBAKER

PA, Fla., Apr. 23.—A real seven-day, 168-hour, non-stop record in 2,401 miles, just completed by a Studebaker Light-Six, is causing wide comment among motorists in this vicinity.

Seven drivers handled the car during the run. Taking out the time for changing drivers, the Studebaker actually covered 2,401 miles in 147 hours. Consumption averaged 21 gallons and more than 300 quart of oil were observed during the run.

The car was driven continuously day in and day out, except for a few hours forced to idle down because of congested traffic, the radiator thirsted for only a minimal teacup of water.

The original owner, Monroe Tamm, of Tampa, Fla., drove the Studebaker for his daily express schedule on his newspaper route, for miles. He averaged 3,500 miles in the 15 months. Records show an average of 20 gallons of gas, eight tires in service for 44,000 miles, total cost of operation, including expense, was less than 1 cent a mile.

48,000 miles on this gruelling work, the Studebaker has in the Peninsular Corporation, Tampa, who 7,000 miles, making a total of 55,000 miles the car had been driven, without tuning up, the Studebaker was started on the record-breaking run. Adjustments were necessary in the motor and in excellent running condition at the termination of the run.

This record, it has never before been attempted in the south.

## "You Can Do It Too, Lad"

P. E. Crowley, who worked up from a messenger boy to president of the New York Central Railroad, tells Johnny Powers, who also started as a messenger and is now a junior clerk, that he has the same chance to be president some day. ## Oakland Official States Conditions Are Unusually Good

"Business conditions are fundamentally sound."

"Not a single permanent factor did we encounter that would militate against motor car sales at least as large as last year."

"The unseasonable weather of March, which has probably been more nation-wide than in years, is the only outstanding factor that prevented as large a sale in this month as was expected."

"We now expect brisk, quick buying from now on."

C. J. Necher, general sales manager of Oakland, who has returned with George H. Hannum, president of the company gave these conclusions after a three weeks trip through the large cities of the northwest and west.

"When we arrived in Minneapolis on our return trip," Mr. Necher explained, "we found 14 inches of snow. This condition has been pretty general throughout the country."

"Car dealers made tremendously large sales in January and February, many of them for delivery in March. The unseasonable March weather prevented delivery in March and also stopped a considerable number of sales in this month."

"No branch or distributor in the widely scattered territory complained of lack of business—their whole story was their inability to deliver cars until the weather warmed up."

The lumber industry of the northwest has been good; the varied crops and industries on the Pacific coast are good; Texas is optimistic over the prospects of a good cotton crop; sales in Florida have been good during the entire winter, the chief selling season in that section."

## Buick Value—The Measure of Automobile Values

People now-a-days measure automobile values on the basis of Buick value. How often you hear such remarks as: "It's not nearly as good as Buick". People make these remarks both consciously and unconsciously. Consciously, because they actually know Buick value either from their own experience or that of their friends; unconsciously, because for twenty years Buick has been the accepted standard of the industry. Good reasons, both, why you should own a Buick.

## NEW METHODS AVAILABLE FOR FORD SAVE WOOD

New methods new to large scale lumbering and woodworking the Ford Motor Company has installed wood saving system which has demonstrated savings of from 10 to 15 per cent in the cutting of wood for automobile parts by sawing them direct from the log.

The system is also being used in the production of beams for the building of houses and other structures.

## measured up according to the boards which could be obtained under the old edging and trimming method and the number of available parts in each computed.

All parts were reduced to board feet in actual lumber content. The edging and trimming method gave 127 board feet of body parts. Under the Ford system the same planks yielded 204, a gain of 77 board feet or 32 per cent. The limbs and top—hitherto considered worthless except for distillation or fuel, gave 170 board feet additional making a total of 374 board feet of parts as against 127 board feet of lumber under the old method.

A sample tree was cut up into body parts under the new method and the results compared with the amount of parts which the old method of edging and sawing would have given. The results were so startling that the system was put into effect at the various Ford plants as soon as possible.

most body parts have been cut from kiln dried boards, sawn to uniform size and much of the youngest wood was wasted in this process, and in cases where the wood was curved or irregularly shaped often exceeded merchantable timber obtained. Ford system is absurdly simple. Planks with the bark left on are cut from a log in parallel strips according to the shape of the log. These are sent to the planing mill where irregularities, such as knots, are taken care of in trying out curved parts. Instead of trying to get a large piece to avoid a knot or check, the layout men go around it. This method is the utilization of nearly all the wood, the scrap being very small. The various parts

## Your Next Car

### Will be this Light-Six, if you learn the truth

WHEN you buy a car in the "thousand-dollar" class, here are some things you should know.

We made a canvass of men who bought rival cars in this class. And we found that 96 in each 100 bought without knowing these facts.

So, for your sake and our sake, we want to present them to you.

### Save \$200 to \$400

Studebaker builds 150,000 fine cars yearly. It builds in model factories, modernly equipped. It has spent \$38,000,000 in the past five years on new-day plants and equipment.

By quantity and up-to-dateness it saves large sums per car. A car like this Light-Six, built under ordinary conditions, would cost \$200 to \$400 more.

### 11.4% less to run

This supreme quality means lower operating cost. Owners of fleets of cars in this class made audited records to prove this.

They compared 329 cars, running up to 25,000 miles each. And they found that the Studebaker Light-Six cost 11.4% less to operate than the average of its rivals. This includes depreciation. The saving was nearly one cent per mile.

### The reasons are these

The Studebaker Light-Six, in its chassis, represents the best we know. In steel and in workmanship it is identical with the costliest cars we build.

It is designed and superintended by an engineering department which costs us \$500,000 yearly.

Each steel formula has been proved the best for its purpose by years of tests. On some we pay 15% premium to makers to get them exactly right.

Each car in the building gets 32,000 tests and inspections.

The crankshafts are machined on

inch. And 122 are exact to one-half that.

Genuine leather cushions, ten inches deep. Unusual equipment. Scores of extra values.

### Made by the leaders

This is one of the cars which has made Studebaker the leader in quality cars. Our sales have almost trebled in three years. The trend toward Studebakers has become a sensation.

Last year 145,167 people paid \$201,000,000 for Studebaker cars.

Back of this car is an honored name, which for 72 years has stood for high ideals.

Behind it are \$90,000,000 of assets, staked on pleasing you better than others.

Before you pay \$1,000 or more for a car, these are facts you should know and compare. You owe that to yourself.

### Send for the book

Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car. For instance: It will enable you to look at any car and tell whether it's been cheapened to meet a price or offers true quality. It will tell you why some cars rattle at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free—clip the coupon below.

### MR. AND MRS. FORREST LAKE GIVE LOVELY BRIDGE PARTY TUESDAY

The largest and most elaborate bridge party ever held in Sanford was the party Tuesday evening at the Woman's Club. Mr. and Mrs. Forrest Lake entertained.

The brilliantly lighted club rooms presented a scene of gaiety and beauty when there assembled about 80 couples who were received by the cordial host and charming hostess, Mr. and Mrs. Lake, Miss Sartis Lake most popular among the younger set received with her father and mother, with Mrs. Donald Whitcomb always lovely and Calvin Teague assisting.

As the guests were welcomed, they were passed dainty tallies, which were arranged in pretty baskets, Mrs. Whitcomb carrying the women's and Miss Lake the men's tallies.

The entire lower floor of the club rooms and the stage were attractively decorated. All spring flowers, which were quantities of roses, snap dragons, gladiolus and fern were used. Effective baskets and holders of bamboo were used throughout the hall, the stage was outlined in bamboo and jardinières of cut flowers and baskets of gorgeous pink roses with groups of palms, placed so as to form a setting for the costumes of the guests which harmonized in coloring with the spring flowers, almost all of them being in dainty white or delicate pastel shades.

A novel feature in the way of bridge was arranged for the occasion, called elimination. Placed on the balcony were 20 tables, representing the North or winning side, on the lower floor were 16 tables with three on the stage, representing the South or losing side. The tallies had all the information as to where you were to start. This was a game of cards with no lagging in any instance, "pep" being the slogan. After a round of four hands, the head table on the north side, rang a bell, and all stopped playing immediately and progressed, the winners going to corresponding tables on the north side and the losers coming to the south side, bringing with them, tables, chairs, tallies and pencils, this leaving only winners on the balcony. This constant plan of action and the constant moving about was the cause of a great deal of mirth and fun.

At the end of the game all four players remained on the winning side to fight the battle, R. R. Deas, Mrs. Ed Bates, and Mr. and Mrs. A. P. Connelly. Mrs. Betta and Mr. Deas were the champions of the evening.

At the conclusion of the bridge game, the pep grew instead of waning for the ball sang with lively music furnished by Mr. George Brocksham, pianist and Joe Kuzenstein, violinist.

Assisting Mrs. Lake in obtaining the score and in serving were Mrs. J. D. Woodruff, Mrs. Raymond Phillips, Mrs. A. P. Connelly, Mrs. Robert Newman, Mrs. Barrett Puleston, Mrs. Langley, and Mrs. Holly and the Misses Fern Ward, Ruba Williams and Abbie Dodney.

During the musical program, a refreshment course was served, buffet style and another novel feature was presented, each gentleman carrying to his partner and self, a plate of delicious chicken salad, pickle, crackers, ice cream and coffee.

Mr. Lake then awarded the prizes, the elimination going to Mrs. Betta, a handsome hand-painted vase, and Mrs. R. R. Deas, four exceptionally handsome golf balls. High score to Mr. A. P. Connelly, Fortune Fool by Sabastini and Mrs. C. R. Kirtley, a pair of handsome brass candle sticks, second high to Mrs. Reginald Holly, a set of four decorative bridge scores with 16 tallies and Mr. Roy Chittenden a set of handsome playing cards.

### Woman's Auxiliary Holds Regular Meet

The Woman's Auxiliary of the Presbyterian Church held their regular social meeting in the brotherhood rooms of the church at 8:30 o'clock Monday afternoon.

A new and unusual feature of entertainment was provided. All members came dressed in Japanese costumes and the Oriental method of seating and cushions was used for the guests to sit on. Oriental decorations were also in evidence.

The meeting opened as is customary with the devotional exercises and a Japanese program followed. Violin solo very suitable to the occasion by little Japanese lady, a resident of Sanford, Mrs. Quichida, accompanist, Miss Fern Ward. Duet by Mrs. Ed Higgins and Mrs. Frank Woodruff. Four little girls then sang a song, written in Japanese, and they carried out the Japanese idea throughout with their little costumes of the orient. These little girls were Maloria DuBose, Bettie McKinnon, Sarah Maxwell and Mary Maxwell.

A Japanese pageant followed in which eight or ten ladies of the auxiliary took part. The pageant ended with four young ladies in the attitude of prayer and Mrs. Herbert Russell, singing "The Beautiful Garden of Prayer," accompanied by Mrs. Donald Whitcomb. The four young ladies taking part were Bertha and Virginia Earl, Camilla Puleston, and Elizabeth Turnbull.

### Mrs. Lewis Hostess To Thirteen Club

The Thirteen Club was entertained by Mrs. H. B. Lewis Thursday afternoon. Tables were arranged for twelve players and a very pleasant afternoon was spent. There were only four members present, Mrs. Claude Howard, Mrs. A. B. Wallace, Mrs. M. S. Wiggins and Mrs. Eugene Roumillat. The guests were Mrs. Julia Schultz Benson, Mrs. Roy Chittenden, Mrs. McPherson, Mrs. Sam Young, Mrs. Walter Coleman, and Mrs. Mommel and Miss Kathryn Wilkie.

The club prize was won by Mrs. Claude Howard, one of the late books, Prudence Daughters.

Covers were then laid for the twelve guests and in the center of each table was a little dish of yellow and lavender mints, and as favors little yellow biddies were used. The refreshments were chicken salad, crackers, potato chips and ice tea.

Mrs. Lewis' attractive home was made even more so by the addition of spring flowers which were used in the decorations.

Shopping in Sanford Tuesday were Mrs. C. M. Dewitt and Mrs. C. A. Miller of Ocala.

### Castor Oil? Never Again!

That's what numbers of mothers are saying since they have tried Liv-o-lax for the bilious attacks, indigestion and similar disorders of their children.

Mother dears giving castor oil just as much as the baby fears, taking it and the same applies to school.

It was because the common family medicine failed to act on the liver that W. E. Hand began experimenting to derive a remedy that would act on both liver and bowels and take the place of calomel and castor oil, and the Liv-o-lax formula, as has been proven in thousands of households, meets this need.

Liv-o-lax is purely vegetable and is a liquid remedy, so pleasant to taste that the children love to take it.

It is just as good for bilious conditions and disorders of digestion in adults. You can get Liv-o-lax now at your favorite drug store.

### Blinding Headaches

"For about twenty years," says Mr. P. A. Walker, of Newburg, Ky., "one of our family remedies has been Black-Draught, the old reliable. . . . I use it for colds, biliousness, sour stomach and indigestion. I was subject to headaches when my liver would get out of order. I would have blinding headaches and just couldn't go. I used Black-Draught."

### BLACK-DRAUGHT

"About eight years ago my wife got down with liver and stomach trouble. . . . We tried all week to help her, . . . but she didn't get any better. She was unmanageable and couldn't eat or rest. She began taking Black-Draught and in two days she was greatly improved and in a week she was up and about."

# Sixteen Hundred Miles of Cows

IMAGINE a procession of cows passing your home, one after the other, stretching from New York to New Orleans—or from Boston to Dallas, Texas,—a distance of 1,600 miles.

If these cows passed you at the rate of one per minute, you would sit watching them for 16,666 hours—or for 1389 days—or for nearly four years.

IF SUCH an exhibition could be arranged, you would then admire the magnificent herd of over one million cows owned entirely by the Dairyman's League Co-operative Association—the 70,000 progressive farmers who send direct to you their famous DAIRYLEA Brand Evaporated Milk.

These are the farmers who have made it possible for you to have a richer, a creamier evaporated milk, with a flavor like cream. That is why DAIRYLEA contains more nutritious milk fats and solids.

WHEN YOU buy DAIRYLEA, you are buying direct from the farmers who produce it, and each can has the combined guarantee of 70,000 progressive farmers.

To secure this rich, delicious milk, merely ask your grocer for DAIRYLEA. This is the can:

## SMOKER HURLERS ARE HIT HARD BY ST. PETE AND LOSE

Recruit Pitcher For Tampa Scored Upon Four Times in First Inning—Growers Win From Daytona.

TAMPA, April 23.—With two bad innings the Smokers lost the second game of the series here with St. Petersburg Tuesday by the score of 6 to 9. Southlaw Kellers, a Tampa recruit, pitched his first game for the Smokers. He allowed four runs in the first inning, but steadied after that until the fifth, when he let in three more tallies. A short lived rally in the ninth by the locals brought in two runs. Little was forced from the box in the first frame by Tampa.
