

Pollo Expenditures

(Continued From Page One) paid, and unpaid bills amount to \$230. Bills for the care of another child in the Orange General Hospital have not yet been received, it was ascertained on New Year's Day. In addition, braces for the two former patients have been purchased. The Harry-Anna patient will probably have to remain there two more years at a cost in excess of \$2,500. Costs for the other boy may easily amount to \$2,500 Dr. Ruprecht declared. "Whether or not we will be able to take care of these children and restore them to health and useful life depends on the generosity of every person in Seminole County," he asserted.

Lions Meeting

(Continued From Page One) pair of glasses had recently been given to underprivileged children by the club. Dr. Frank Quillman commented that this has resulted in much improvement in school grades, and given the children a "new lease on life." E. A. Ball and Claude Newman of Arcadia, N. Y. and Donat Fallo of Montreal, were welcomed as guests.

## Court Awards Judgment To Bund Leader

### Tribunal's Decision Gives Klapprott New Hearing On Citizenship Ruling

WASHINGTON, Jan. 17—(AP)—On grounds there had not been a fair trial, the Supreme Court today set aside a lower court judgment cancelling the American citizenship of August Klapprott, one-time president of the German-American Bund.

Justice Black wrote the majority opinion in the 5-4 decision. He was sharply critical of the handling of Klapprott's case, saying: "It is clear that for four and one-half years this petitioner was held on charges that the government was unable to sustain. No other conclusion can be drawn except that this long imprisonment was wrongful."

Justice Reed, dissenting, declared that any suggestion that Klapprott's trial "has been carried on in a way contrary to concepts of justice as understood in the United States and in a manner incompatible with the pattern of American justice falls far in view of the simple facts."

The effect of the high tribunal's decision is to give Klapprott a new hearing on the issue of whether his citizenship should be taken from him.

SIBLE VERSE TODAY

BARBARIANS REGARD STRANGERS AS ENEMIES AND TREAT THEM ACCORDINGLY. CIVILIZED PEOPLE LOOK ON FOREIGNERS AS GOD'S CHILDREN AND ENTITLED TO COURTESY AND KINDNESS.

Our new representative Syd Herling of Leesburg made Washington Merry Go Round without mud in his eye the other day when Drew Pearson, America's foremost mudlinger, said of him: "Great friend of the orange. Will steer middle-of-the-road course while squeezing last drop of political juice from his district's citrus crops."

Orlando merchants are planning a series of sales events extending throughout the current year and beginning with a "Spring opening" on Feb. 10 and designed to attract buyers from all over Central Florida. Competition is becoming keener for the customer's dollar.

Every citrus grower in Florida is being urged by Senator Pepper, Senator Holland and Governor Warren to join the Florida Citrus Mutual, an organization which will be entirely grower controlled, with each of the seven citrus districts represented by three directors on the board, and with a floor price for citrus to be fixed by the directors which will protect all the growers against price cutting.

The Seminole County Chapter of the National Foundation for Infantile Paralysis paid out more money in this county last year than it took in. There were only five cases in this county, but they cost \$3,233, and it was necessary to borrow \$1,650 from the National Foundation to provide treatment for these cases.

If you did not get down to the Camellia Show in Orlando over the weekend, you will have another chance to see thousands of camellias at their best when the Ninth Annual Camellia Show of the Mead Botanical Garden is held on the weekend of Jan. 29 and 30.

Undersecretary of State Lovett, who probably knows more about the Russian designs and purposes than anyone else in the United States, says that they will not attempt to wage war, to attack the United States, or any other country that will help them accomplish their aims and they feel reasonable sure they can win the war.

Record Revolution

The world of phonograph record collectors has been shaken by recent developments in record making. The first was the introduction of a new type of record by Columbia Records. Its use required adaptation of standard home record players by addition of a special pickup head and reduction of the turntable speed by half.

Apparently a race is in the making. Victory by either of the contestants now at the starting mark would lead customers to substantial investments in new equipment and records.

For Trade Agreements

One request of the President which deserves prompt attention by the Congress is in relation to the Reciprocal Trade Agreements Act. The President has asked that the act be renewed, on a three-year basis, and in such form as to give the State Department and the President adequate authority and freedom for making the reciprocal agreements.

The stimulation of foreign trade is especially important to the South as well as the rest of the country, which relies on export business for a substantial portion of the margin of profit in industrial production. American industry also is dependent to a large extent on imports of certain essential materials, available in this country either not at all or in inadequate amounts.

Further progress such as already has been made under the Reciprocal Trade Agreements Act can help to relieve the situation and to prevent recurrence of such an upset in the world exchange of goods.

Alcohol And Gasoline

Chemists persist in the search for a practical mixture of gasoline and alcohol which would make a satisfactory motor fuel for automobiles and trucks. The principal gain would be conservation of petroleum and lead supplies, both of which tend to be scarce.

The notion still is held that an alcohol-gasoline mixture is desirable to expand the market for agricultural products, chiefly grains from which alcohol can readily be made. Market supplies of grains have been larger than demand at various times, and tend to be so now.

In that future time an alcoholic fuel might not be of much help, but if a successful mixture can be perfected for use in the intervening period, perhaps the useful petroleum reserves can be spared to some degree.

President Speech

The Hoover Commission recently recommended that the President have authority to reorganize the government, subject to congressional veto, be restored. The commission, headed by former President Hoover, is studying ways to improve operations of the government.

Under the President's recommendation, reorganization plans submitted to Congress would become effective in 60 days unless rejected by both Senate and House.

The President said it is his intention to require that executives give the "highest degree of attention" to the need for improved management. "Increased efficiency and economy in the government's far-flung activities can be realized only if certain essentials of organization and operation are satisfied," the President said.

"There must be, first of all, a clear definition of the objectives of public programs. Second, organizational arrangements must be established which are consistent with those objectives and designed to produce responsible and effective administration. Third, suitable personnel must be obtained to administer the program. Fourth, the methods by which operations are conducted must be constantly reviewed and improved."

THE WORLD TODAY

By DEWITT MACKENZIE AP Foreign Affairs Analyst

We owe the United Nations a debt of gratitude for securing an armistice in the Kashmir crisis which threatened to plunge the Indian peninsula into conflict.

The warring dominions of India and Pakistan—both eager to absorb this huge, rich state—have grounded arms. There is to be a plebiscite to determine which dominion the people of Kashmir wish to join.

So the UN commission, having made its praiseworthy report at Lake Success, is heading back to supervise the voting. Good luck go with them! They'll need it.

While Lord Mountbatten still was viceroy of United India, before the great independence became effective, he urged the maharajah to consult the people of Kashmir to see which dominion they preferred.

The youthful prince then was heir of his uncle, who was ruler of Kashmir. Hari got framed in one of those "unhand my wife, you villain" plots which, as I recall, cost him about \$700,000 before he wisely called for help.

Well, conviction for blackmail was secured and the prince was relieved of further pressure from the gang. However, his succession to the throne hung in the balance for a considerable time. Finally Hari and his uncle forgave all and he was taken back into their good graces.

The princeling was carrying 11 crewmen and nine ground force men and their baggage. Two ships took off together for Iceland, on the first leg of the journey home, but one turned back because of bad weather.

The British Press Association said the bodies of six American fliers were found beside the twisted and burned wreckage of the plane in desolate Scotch Glen, hidden between 3,000-foot peaks.

Hugh Campbell, who accompanied a rescue party, said "multitudinous bodies were strewn among the wreckage on the hillside, and we searched about to see if there were any survivors, but found none."

Duncan MacLachlan, a forester who joined the rescue parties, told a police officer at Dunoon that the plane appeared to be American and there were 20 persons in it. He said some of the persons were injured and were being brought to a hospital after being carried two miles down the mountain to the only road crossing the area.

Any such plan by simple majority vote of both Houses. Meanwhile, Vice President-elect Barkley said after a conference that Congress will act soon to extend rent and export controls.

ELEPHANT BOY

Youths Arrested

Continued From Page One: (As saying the arrests are made "because the expenses of their officers were great and that fees were their only compensation.")

The children "never brought damage actions for false arrests," Hyster said, and the children's families were similarly unprejudiced because they are not familiar with legal procedure.

Terminating the fee system "vicious when applied to children," the survey team urged "that the necessary legislation be enacted to prohibit law enforcement officers and agencies from collecting fees for the processing of juvenile delinquents."

Sheriffs collect a \$5 fee for each arrest. The funds are used to help pay office expenses and deputy salaries. The fee is collected in court costs.

Commie Trial

Continued From Page One: (Previously had indicated he would not be present because of illness. Judge Medina also denied a motion by Harry M. Sacher, another defense attorney, seeking another 90-day postponement.)

After a roll call of the defendants, U. S. Attorney John P. X. McGohery moved to proceed with a trick which always worked. Sir Hari succeeded his uncle in 1926. Now he faces more trouble.

China War

Continued From Page One: (Continued From Page One: reported no major movement of Communist columns across the Hwai River. Small Red forces that infiltrated previously across the river are now advancing into the area vacated by the Nationalist Sixth Army group as this group completes its 70-mile withdrawal from the Hwai to new positions 30 miles north of Nanking.)

The main body of Communist troops in Central China is reported to be moving toward the north bank of the Yangtze. Red General Liu Po-Cheng's columns are said to be moving into assembly areas in the Mengcheng area. General Yih's Communist forces are reported moving toward the Huogtze Lake region. Those two areas are 60 miles northwest and 40 miles northeast of Pengpu, respectively.

The Sixth Army is augmenting Nationalist divisions stretched thinly from Shanghai westward to Wuhan, on the south bank of the Yangtze about 80 miles southwest of Nanking. Nanking also is on the Yangtze's south bank.

Supporting those forces are naval patrols on the river and the Chinese Air Force, the operational strength of which has been reduced by transfers to Formosa.

Some 60,000 troops of this total force hold a defense line north of the Yangtze anchored to Chubien. Foreign military circles refer to their dispositions as suicidal.

Those Nationalist divisions north of the river are said to be confronted by an overwhelming Communist force, and with an unfordable and unbridged river at their back.

There are more than 400 different species of rhododendrons and azaleas.

Holland Letter

(Continued From Page One) then is the major and first matter which the Congress should take up.

Holland said he believed these matters could be passed quickly: Federal aid to education, restoration of the reciprocal trade agreements structure, strengthening of the labor department, reamendment of the atomic energy commission act, flood control, water power development, rural electrification and construction of the new Johnsonville, Tenn., (TVA) steam plant.

Wood traded the fireworks. The Georgian, who is expected to become chairman of the House Un-American Activities Committee, sent a letter to fellow members of Congress asking delegates to a pre-inaugural "freedom crusade" by the Civil Rights Congress might resort to "violence and riot."

Len Goldsmith, national director of the Civil Rights Congress, said in a letter to Wood: "You, sir, should be an expert on Switzerland's neutrality and independence during the war only through acquittal. Ninety-nine fifth columnists were sentenced to varying terms of imprisonment, ranging from 20 years to six months. Those sentenced to prison were included several tried in absentia and still believed to be abroad."

When the Germans took over Taingtung, China, in 1938, they built the first motor roads in that country to recreation areas near this city.

SWISS TRY FIFTH COLUMNISTS BERN, Switzerland. (AP) — Since the end of the war, 102 American naval aviators prosecuted as members of the Nazi fifth column in Switzerland, according to a government report. Of the 102 persons charged with treason, collaboration with the Germans and undermining Switzerland's neutrality and independence during the war, only three were acquitted.

## Seminole Hi By JOANN GEISLER

This week committee members of the Junior Class play were getting properties for the stage. Joyce Hatts and Jackie Cameron were seen running around town trying to find a lake buzzer button; John Fox was seen hunting a desk calendar and other things from Dot Powell's Office Supply Store. The play has had to be put off a week, so the date is going to be Jan. 28, meanwhile, everybody is making hay while the sun is shining.

Usually during the end of a "Teen Times" radio broadcast, members of the staff can be seen running around trying to find "John" Jean Duns to play "John". So the time will come out right this week they had Joyce Cameron and Virginia Truss as guest stars. They played two well known classics "Evening Star" and "Clare de Lune" then Virginia sang "Bar John".

Mart Report

(Continued From Page One)
even larger spring acreage of tomatoes than previously reported is in prospect for the Fort Pierce area. Fields are reported in good shape and growing nicely. A comparison of the fall deal at this market with that of 1947 shows that through Dec. 31, 1947, 157,970 bushels were sold for \$669,238.75 and for the same period in 1948, 191,707 bushels and February this year show a total of 242,583 bushels at a revenue of \$1,153,855.00. These two months added to the 1948-49 fall season will bring the volume well up over 400,000

bushels or better than a 60 per cent increase. "Florida City market reports good growing weather, warm days and cool nights. During a three day period 550 bushel field crates of tomatoes sold for prices ranging from \$2.00 to \$3.00, averaging \$2.62. A few squash sold at \$7.00 and a light volume of beans brought prices from \$3.75 to \$4.00 per bushel. "Sanford Market reports unusually good trading all week. Over 3,000 crates of celery sold for \$5.00 to \$7.00 per crate. A good volume of lettuce brought \$7.50 to \$4.00 per crate. 20,000 bushels of cabbage moved at prices ranging from 85 cents to \$1.00 per bushel. Bunch vegetables such as turnips, onions, beets, radishes, broccoli and cauliflower moved slowly at a fair price. Cauliflower was

in good demand at \$3.50 to \$3.75 per crate. Indications for this week are for good volume of celery, cabbage, lettuce, cauliflower and bunch vegetables of good quality and demand. "Strawberry passings the last 6-day report period showed 204,300 pints handled through the Plant City State Farmers Market bringing a total revenue of \$69,333.82. Daily average price ranged from 27 1/2 cents to 31 1/2 cents per pint. "Business on the Wauchula Market is slow as the fall deal is almost over and the spring deal has not yet started. Pepper is the leading commodity with 643 crates averaging \$6.74. 257 field crates of eggplant averaged \$1.42. A small amount of cash and tomatoes were also handled over that market.
