

CARDINALS BOOST LEAD AS YANKEES HAVE ROUGH TIME

American League Leaders Finally Beat Down Tribe But Mackmen Win Again; Giants Turn Back Bruins

NEW YORK, Aug. 1.—A month ago the St. Louis Cardinals faced a stiff fight in staying off the rush of four rival clubs, while the New York Yankees enjoyed an apparently insurmountable lead in the junior circuit. Today the Cards are five games ahead of the second-place Reds, only half a game less than the margin which the Yanks hold over the Athletics. So if there is to be a runaway pennant race this year, it probably will be in the National League and not in the American.

The Yankees finally stopped Cleveland yesterday, 12 to 9, but there was little balm in the victory for Manager Huggins. Hoyt was knocked out of the box and had to be rescued by Pennoch, the only pitcher on the team who can consistently go nine innings at present.

To add to the woes of Huggins, the Athletics chalked up their eighth straight win by outslugging the Browns, 8 to 4. Six home runs were made, including two by young Haas. The Browns have lost their last nine games with the Mackmen.

The Cardinals capped a refreshing visit to Philadelphia, easily of the National League, by sacking three Quaker twirlers for 10 hits and winning 18 to 5. Dohart collected five hits.

Dazzy Vance beat Cincinnati, 3 to 2, enabling the Dodgers to square the series and regain fifth place from the Pirates, who took an 11 to 5 shellacking at the hands of the Brooklyn Jakes. Flowers, who has clinched the second base berth on the Brooklyn team by his batmaning, made three hits and drove in two runs.

A five run rally in the ninth, during which six Giants bit safely after two were out, threw 30,000 New York fans into hysterics as the McGraw maudlers nosed out the Cubs, 8 to 7. But Charley Root stopped the Giants in the nightcap, 10 to 4.

Charley Ruffing, Red Sox hurler, tried to beat Detroit single-handed by clouting a Homer and a double but his mates collected only two other hits off Vic Sorrell and lost, 7 to 2. Gehrig and Rice each had a perfect day at bat.

Washington's four-run rally in the eighth fell short and the Nats lost their third straight game to the White Sox, 7 to 5.

Gibson Quits One Day, Returns Next

NEW YORK, Aug. 1.—(INS) — The retirement of Billy Gibson from boxing was one of the shortest absences on record. On Monday afternoon Gib announced he was quitting with Tunney but now he asks not to be held to that promise if he gets a grip on another good heavyweight prospect.

"I only said I was quitting," William explained "because my stable has been pulled out from under me."

Gibson is the only manager who ever had two champions retire undefeated on him. The retired in his lightweight title bout with Benny Leonard who four years ago.

THURSDAY, AUGUST 2.

BIBLE VERSE FOR TODAY

THE DELIVERER — Quicken me, O Lord, for thy name's sake for thy righteousness' sake bring my soul out of trouble—Psalm 143: 7.

PRAYER—Deliver us, our God, from evil.

A POEM

In the Midland—
"Sister, how
Does love begin ?"
With a silence
As of sin ?
"Brother, that's
The end of love;
The beginning
None knows of—
Only that
You wake and are
Like the haze
Around a star."
By G. J. Neuman

Palm Beach building permits for the month of July totaled a half million. Doesn't sound much like a dull summer down there.

Another thing we have noticed lately besides the heat is the fact that our shirts bought at odd times, all seem to wear out at the same time.

Among those who have just retired are James Joseph Tunney and John J. Raskob. Among those who will retire soon is Mr. Calvin Coolidge.

Doris Carlton, the Tampa Tribune informs us, is keeping busy these days. Somehow or other we've been pretty regular at that ourselves.

"Rooster Ordinance Will Be Enforced," announces the Bradenton Herald. Does that mean some of the birds are getting wild down there?

The Republicans have raised the ante to four million dollars. They are beginning to realize they have more than just another tax sign to wage.

Headline says "Cow Which Caused Epidemic Will Live." Now that that's settled will some little boy in the class tell us why it always rains when you wear white clothes.

The three big railroads of the state have shown their attitude toward the clearing house association by giving financial assistance. That makes it almost unanimous.

Hillsborough county's sheriff has taken to flying in preparation for using the airplane extensively when he takes office. We're to understand that Mr. Jackson is "all up in the air" over the prospects?

Ruth Bryan Owen will stump the state for Al Smith. Like her illustrious father, Mrs. Owen campaigns vigorously for what she believes in and her proposed speaking trip in behalf of the Democratic nominee should prove a most interesting feature of the contest in Florida.

Parker Henderson, young Miami man, says he "was doing a favor" for Scarface Al Capone when he procured guns which were later used in the slaying of Frankie Yale, Brooklyn gangster. Our idea of doing a favor for Scarface Al would be to give him just as wide a berth as possible.

The governor of Florida receives one thousand dollars a year, the state attorney-general six thousand dollars, while Sanford's City Attorney gets twenty thousand annually. Are the services of Mr. DeCotes worth that much more to Sanford than those of the governor and attorney general to the state?

Despite the City Commissioners' efforts to disprove The Herald's statements about the amount of money being paid to the City Attorney, the recent audit shows that the City has turned over to Mr. DeCotes over a five-year period an average of twenty thousand dollars a year. The city attorney of Jacksonville gets a flat salary of \$5,000 and the entire legal expenses of that city, with all its utilities, amount to \$21,500 a year, while the legal expenses for the City of Sanford have run up to \$7,000 in the past nine months.

The University's New President

In the selection of Dr. John J. Tigert as president of the University of Florida, succeeding the late Dr. Murphree, the state Board of Control is to be congratulated for bringing to Florida one of the outstanding educators of the United States. Acceptance of the appointment by Dr. Tigert, we believe, can be taken as a recognition of the high scholastic standing of the state university and of the possibilities it holds for future development.

In becoming head of the Gainesville institution, Dr. Tigert relinquishes the post of United States Commissioner of Education, an office which he has filled with great credit since 1921. Aside from his outstanding work in Washington, Dr. Tigert has had other practical experiences which particularly qualify him for the duties which he is about to assume. He was the first Rhodes scholar from Tennessee and holds both a bachelor's and a master's degree from Oxford. He is a Vanderbilt graduate and also has numerous honorary degrees, including those of doctor of laws from the University of Kentucky and Bates College.

Dr. Tigert has been a professor of philosophy at Central College and the University of Kentucky and also occupied the chair of psychology in the latter institution. For two years he was president of Kentucky Wesleyan, a Methodist college. In addition to these activities, the new University of Florida president is a lecturer and an author of note. As federal Commissioner of Education he has been given credit for doing more for the advancement of rural schools than any other individual in the country.

A man of rare attainments, Dr. Tigert will bring to the University of Florida the benefits of an experience broad in its scope and influence. Under his guidance the institution can be expected to continue the rapid strides which it has made in the past few years. Already in the front ranks of southern institutions of higher learning, the University is destined for a particularly bright future with Dr. Tigert at its helm.

Thousands of Floridians, particularly alumni of the University, will welcome the new president with assurances of support and best wishes for success. The Herald salutes Dr. Tigert, a most worthy successor to Albert A. Murphree.

Freight Rate Reduction

The recent announcement of the Interstate Commerce Commission that freight rates on citrus fruits to all points in the United States and Canada will be reduced, thereby saving the fruit grower an estimated sum of \$3,177,000 per year, seems to presage a period of prosperity for the owners of groves in this state. Just what the result will be of this beneficial action, it is not possible to foretell but it is reasonable to suppose that a great impetus will be given to the grapefruit and orange industry which will add materially in bringing Florida to the front as an agricultural state.

This announcement coupled with the recent efforts to organize a clearing house for Florida's citrus crops in order to facilitate marketing should suggest to the minds of the people that not so far ahead are days of good fortune. These are evidences that the need for developing our resources has been realized; and the fact that action is being taken reflects credit on the progressive spirit of our citizens. It is not irrational to presume that the recent activities to promote the successful cultivation of our soil will attract many outsiders with capital to participate in the benefits which are sure to come.

Furthermore, as production increases new markets will be found for consumption. Advertising campaigns conducted on a large scale will stimulate the demand for Florida products which will take care of an enormous output. The possibilities for building up a large market in Europe are unlimited, what with refrigeration boats transporting fresh vegetables and fruits to the doors of Britishers and Continentals in the heart of winter.

YOUNG BOB LAFOLLETTE
PHILADELPHIA PUBLIC LEDGER

Young Bob La Follette is a candidate for election of the senator and everybody from Wisconsin tells me that no one can beat him either for the republican nomination or in November. The first time he was elected as a sort of compliment to fill the vacancy left by the death of his father, as widows of congressmen are sometimes elected to fill vacancies left by the death of their husbands. He is established. So much has been accomplished. A couple of years ago he had never made a public speech and had had no idea of a political career.

One thing that has helped him is the pleasure everyone feels in finding that the son of a remarkable man turns out himself to have unusual capacity. As a matter of fact, we are all skeptical of the sons of great men, and when one of them proves to be somebody in his own account we are pleased perhaps because it furnishes a bit of evidence that our sons may prove worthy of their distinguished fathers. I suppose that feeling

warmed the hearts of the elderly delegates on the republican convention floor to the attractive figure of young Bob on the platform.

But as a matter of fact young Bob has one extraordinary quality—great good sense. I don't know anybody in the senate who has a more level head than he has. His judgement is extraordinarily sound. And he has an unusual gift for getting on with men. He disagrees with his fellow republicans of the senate or, at any rate, with most of them, but they all like and respect him. He holds to his convictions firmly, but he always tactfully admits the right of other men to have other convictions. He never irritates his opponents. He never overstates or overemphasizes his views, and on the other hand he never apologizes for them. He does not talk too much in the senate. Whatever egotism he has does not lead him to thrust himself forward unduly. He is modest without being shrinking, aggressive without being offensive. He may go far.

Philadelphia Public Ledger.

MALMGREN'S MOTHER BELIEVES
NEW YORK HERALD-TRIBUNE

What happened to Malmgren? It seems likely that mystery will always shroud this dramatic episode of the Arctic. The world has nothing, and in all probability will have nothing to go on but Captain Zappi's report that the Swedish meteorologist laid down his life that his comrade might win through to safety and to their objective of summoning aid for the main party of the Italia's survivors. Zappi's word stands against the guesses and rumors of a prejudiced and scandal-mongering public.

But who, under the circumstances, could be a better judge of Zappi's sincerity than Malmgren's mother? The mere fact that he made a special effort to confront the one person on earth whose grief would command the sacred truth should reassure all doubting Thomases. And the further fact that his recital of the story has convinced her of its genuineness should dispel the ridiculous suspicions which have sur-

AFTER THE VOTE/SLACKER
DAYTONA NEWS-JOURNAL

While scarcely 50 per cent of the eligible voters of the United States exercise the right of franchise, the first is yet to be discovered who does not take the fullest advantage of the inalienable right of every American citizen to growl at the faults of omission and commission of public servants and law-making bodies. One's failure to vote does not disqualify him from criticizing his administration.

But this year another serious nation-wide effort is to be made to get out the vote. Several organizations are co-operating and have pledged themselves to make the movement non-partisan. The American Legion is joining

non-partisan vote-getters shall fill the voting booths with men and women qualified by education and good moral training for participating in the sacred process of self-government and the government of their fellow men.

Hoover Ends 5-Day Mountain Vacation; Returning On Train

WOODLAND, Cal., Aug. 2.—(INS)—Enroute to San Francisco with Herbert Hoover went back to his duties as Republican nominee for president today with a firm conviction that the federal government and the states must take heroic steps to save the forests of America.

After a five-day vacation in northern California and southern Oregon, Hoover returns from rugged mountains, icy streams, giant redwood trees and tree-lined ranges with a thorough knowledge of forest conditions on the Pacific slope. He idled away all of yesterday on the 100-mile tour of forests and waterfalls in the vicinity of Mount Shasta, the snow topped daddy of all Pacific coast mountains.

The candidate time and again halted his party to converse with forest rangers. He showed extraordinary interest in their efforts to check forest fires in reforestation. He told one ranger he was disappointed with the small amount of reforestation undertaken in northern California he learned incidentally, that private lumber companies had reforested greater areas in the west than had the government.

Paper With Story Washington Rites Is Discovered Here

(continued from page one)

put in possession of London papers to the 20th of October, inclusive, from which we make the following selection:

Friends of Dr. J. N. Robinson will learn that his brother, Frank Robinson of Charleston, is critically ill at the Riverside Hospital in Charleston.

Mrs. Wallace Wright is expected to return home next Tuesday from Hot Springs, N. C., where she and her mother, Mrs. Howard Quincy, have spent several weeks.

Miss Lenabelle Hagan returned home Wednesday afternoon from Daytona Beach where she spent the past 10 days as the guest of Mrs. Zada Burdine.

The back page carries some of the earliest attempts at display advertising. One of them offers for sale a sawmill in Rochester, including in a description of the property "A Stout Healthy, Active, Negro Wench." The last two words are in bold, black type.

Another advertisement announces: "For Sale, a neat, elegant, well finished Measure Sleigh." Still another declares that: "Cash given at the Printing Office for Rag."

The two inside pages are lined in heavy black border approximately half an inch wide. Apparently, this was a mark of respect for Washington. The paper had been published for some two years prior to the issue found by Mrs. Takach because the issue bears the information: "Vol. II" and "Num. 84".

Across the top of the front page are the words: "Ulster County Gazette" in large type, and below: "Published at Kingston, (Ulster County,) by Samuel Froom and Son."

The headlines over the stories are set in capital letters, only slightly larger than the reading matter in contrast with the bold, black headlines used throughout the United States today.

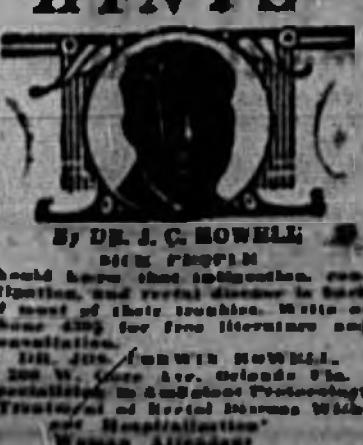

Mrs. Takach said she does not know why the paper was kept and did not even know it was in her father's possession.

Delightful! Wholesome! Nutritious! Perfect for Family or Company use.

Deliciously Different!

SERGEANT TURNS DOWN \$1500 BID FOR ARMY BUGLE

Soldier Retains Instrument That He Used To Blow Tape For Unknown Soldier And Used Over Other Notables

KANSAS CITY, Mo., August 1.—(INS)—Fifteen hundred dollars for a bugle! Off hand this would seem a bit high for a maker of military music even though it does weigh with gold plate and is smartly initialed.

It does appear too, as though the price tag might have been marked up, when you consider that the same twisted horn was purchased from Uncle Sam for \$3.50 less than ten years ago.

But fifteen hundred dollars is Staff Sergeant Frank Witschey, of the third cavalry was offered for his shrill voiced sheep breaker, less than a year ago. Since that time Sergeant Witschey has been told to name his price. But Sergeant Frank, the gleam of pride in his clear eyes outshining the luster of his prized golden horn, always has been significantly bumb on those occasions.

The reason for the boom in Sergeant Frank's own private bugle market is simple. Praised in the light powdered lips of the stiffly dressed Sergeant, the golden colored horn has won the mournful wobbling notes of tape out upon the harsh air on many notable occasions.

Sergeant Frank blew tape at the grave of the unknown soldier at Arlington Cemetery. He sounded the military dirge at the funeral of Woodrow Wilson, in Washington, and at the graves of Lieutenant-General Nelson A. Miles, and H. B. Young, and the late William Jennings Bryan and Major-General Leonard Wood. After services for the unknown soldier, Sergeant Frank bought the bugle from the Government for the stock price of \$2.50.

Born in Kansas City in 1900, Witschey enlisted in the third cavalry in 1908 at Fort Clark, Texas. He has served continuously in this regiment, "the brave rifles" of the Mexican War fame. He was made a corporal in 1911 and has been a non-commissioned officer ever since. He served overseas twenty-three months with the regiment in the World War.

And though collectors continue to bid for Sergeant Frank's historic music maker, the most famous bugle in the American army is not for sale.

Mrs. J. L. Maronette and daughter, Miss Helen Maronette, returned home Wednesday afternoon from Daytona Beach where they have had a cottage for the past month.

Judge and Mrs. J. G. Sharpe, daughter, Miss Jane Sharpe, and sons, Chandler and Alex, returned home Wednesday from Quincy where they spent some time visiting relatives.

Mrs. J. W. Hill and children, Pauline and L. D. of Gaugh, arrived here Sunday to spend a month with Mr. and Mrs. J. E. Howland at their home on East Fourth Street.

Mrs. George H. Cairns, her daughter Lucille and her father, G. A. Colclough, recently joined City Manager George H. Cairns here. They are living at 220 West Eighteenth Street.

Miss Olive Newman is expected to return home Sunday from Pensacola where she has spent the past two weeks visiting the Misses Margaret Louise and Lucy Young, who will accompany her home and to her guests.

Mrs. C. A. Haines and daughter, Miss Dorothy Haines, of Homestead have joined Mr. Haines and are spending the remainder of the summer in Sanford. They are pleasantly located at the Langley Apartments on Park Avenue.

THE MILANE

"Head Man" And "Ransom" Feature Double Bill Today At Milane Theater

ture — let the spectator judge!

"All we need to make this story a comedy knockout is a cast of real troopers," said Charlie Murray when he finished reading the "script" of "The Head Man," adapted from Harry Leon Wilson's novel, "The Boys of Little Araby."

So Eddie (Eugene) — famous comedy director who was to make the picture — and various First National officials consulted with the comedians on the selection of the players who would support him in his latest mirth offering. The result was the fine cast seen in "The Head Man," showing at the Milane Theater today.

Loretta Young, the newest and one of the most promising leading ladies, had just finished a picture opposite Leo Chancy. Her work was so fine that she was chosen for the ingenuous lead in "The Head Man." Opposite her in the romance of the whimsical, appealing story is Larry Kent, also a comparative newcomer and a rising star.

The rest of the cast includes the distinguished service on stage and screen list. Lucien Littlefield has one of the best roles of his colorful career in Ed Balmer, crazy at the here. El J. Hatchette, Irving Bacon and Harvey Clark are small-town politicians.

Mark Halligan and Anna Gare made up as twins more like in appearance than the proverbial two rats, are feminine high spots in "The Head Man." Dot Farley, veteran comedienne, and Sylvia Ash have other roles taken with comedy responsibility.

From these players down to the last extra, two Charlie Murray's idea of a "real cast of troopers." How well they succeed in the pic-

ENGLISH Flier COMPELLED TO LAND IN OCEAN

(continued from page one)

Harris, is probably own would be sighted by passing seafarers. It was in the same region that Ruth Elder's plane was forced down last year while she and George Haldeman, her pilot, were attempting a flight from America to Europe.

They were in sight of a Dutch tankship bound for a Tokyo port when they were forced down and were picked up immediately.

When the Courtney flying boat left the Arctic it was heavily fuelled and, in addition to the weight carried four persons. In addition to Courtney and the wireless operator the personnel aboard included E. Hoerner, a Montreal banker and financial sponsor of the flight, and Fred Moore, a mechanician.

"This might easily be called a voyage of race," laughed Edmund Burns who was the leading man in the role.

The rest of the cast includes the star of the east, was born in Shang-hai and away from the screen practices Chinese medicine. He is the master of many native herbs remedies which are much in demand. While he has been busy with film ever since he began his trans-Atlantic attempt last year.

Eduard Washington, in whose hands rests the comedy touches of the production, represents the negro race. He has the role of the matador at the chemical laboratory. Washington is regarded as one of the best educated colored men in pictures. He is an attorney, chemist, singer of renown and a master of six different musical instruments.

The Indian extra was educated on a reservation and initiated into the mysteries of the Medicine Man of the Indians.

Former Governor Of Kentucky Succumbs

INDIANAPOLIS, Ind., Aug. 2.—(UPI)—William E. Taylor, 76, former Governor of Kentucky, died early today after a illness of two months from cancer trouble.

Taylor had been in Indiana since shortly after the consolidation of Governorhood of Kentucky. His health had been failing for some time. His wife, Mrs. Taylor, accompanied him to Indianapolis with the family. Mrs. Taylor died in 1926. Taylor had no children. After trial in Kentucky because of political conditions, there refused to house extradition requests.

CORONADO BEACH—400 feet solitary waves last on Palmetto and Smith Streets.

It costs very little to recondition a MODEL T FORD

FOR nearly twenty years, the Model T Ford led the motor industry and it still is used by more people than any other automobile. More than eight million Model T Fords are in active service today—an indication of their sturdy worth, reliability and economy.

The cost of reconditioning the Model T Ford is small because of the low cost of Ford parts and the established Ford policy of charging all labor at a standard flat rate.

For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. This price includes new bearings, reducing cylinders and any other work necessary. Parts are extra.

Valves can be ground and carbon removed for \$3 to \$4. The cost of tightening all main bearings is only \$6. The labor charge for overhauling the front axle is \$4.50 to \$5—rear axle assembly, \$5.75 to \$7.

New universal joint will be installed for a labor charge of \$3. Brake shoes relined for \$1.50. Rear spring and perches rebushed for \$1.75. The cost of overhauling the starting motor is \$3. A labor charge of approximately \$2.50 covers the overhauling of the generator.

Repainting runs from \$10 to \$25. Taking dents out of body panels and doors runs from \$3 to \$16 for labor. A fender can be replaced for a labor charge of \$1 to \$2.50. The cost of fenders runs from \$3.50 to \$5.

It will pay you, therefore, to see your Ford dealer and have him put your Model T in good running order. By doing so you will protect and maintain the investment you have in your car and get months and years of pleasant, reliable transportation at a very low cost per mile.

FORD MOTOR COMPANY

Sunshine soil and water

Florida possesses all three in an abundance and with a diversity and a combination of natural advantages that is unmatched on any other spot on earth

FLORIDA'S extraordinary natural advantages to a considerable extent are generally known. Yet their real tangible value to the economic welfare of the State is too seldom realized and are only just beginning to be utilized.

Florida's unfailing, life giving sunshine, aside from its health advantages, provides a year-round growing season. The State's fertile soil grows an unequalled variety of plant life and covers a wealth of rare minerals. Its plentiful waters add life to its soil and abound with an endless variety of fish and sea food.

Florida deposits of phosphate, one of the most essential minerals for plant and animal life, are the most extensive in the world. Florida is second among the States in the production of naval stores and is one of the nation's greatest lumber producers.

No other state equals Florida in the production of grapefruit and celery. Sixty-one per cent of the country's peppers, 57% of its eggplant, 24% of its tomatoes, 21% of its watermelons, and a large percentage of many other fruits and vegetables come from Florida. During its 10-month shipping season each year Florida sends out nearly one hundred thousand carloads of fruits and vegetables, or

an average of eight solid train loads per day. The Sunshine State ships one-tenth of all the fresh fruits and vegetables marketed in the United States.

Yet, the land now under cultivation in Florida amounts to only one-half of one per cent of the crop land of the entire country. The growth of the State's agricultural importance is evidenced by the fact that since 1922 the average value of Florida farm land has increased from \$64.00 to \$100.00. No other state shows an increase that is even half as great.

Today the progress in farm development in Florida is greater than ever before. A rapidly growing highway system is opening up new territory and making it more accessible to markets. More land is coming under cultivation and more and more people are realizing the unequalled advantages Florida offers from an agricultural standpoint. More intensive and more efficient marketing methods are increasing the value of Florida crops.

Year in and year out—when the Northern demand is greatest—when prices are highest—each new harvest from its sunshine and soil and water brings increasing wealth and prosperity to the Sunshine State—wealth and pros-

perity that will grow with increasing momentum as the years go by.
