## Deputy Charged With Armed Burglary

By Susan Loden  
Herald Staff Writer

A 14-year veteran Seminole County sheriff's deputy charged with armed burglary and grand theft has been released from jail without posting bond.

Seminole County sheriff's spokesman John Spolski said deputy Wallace Jackson "Jack" Starr, 46, was arrested at the sheriff's department at about 11:05 a.m. Monday.

Starr is accused of stealing 17 bottles of liquor from the closed Chappy's Studio Club, 1900 U.S.

Highway 17-92 in Fern Park. He was charged with armed burglary because, Spolski said, at the time of the alleged burglary Starr was in uniform and armed with a sheriff's department .357-magnum service revolver.

"This is a serious charge," Spolski said, and he added that although there would be an internal investigation into the allegations the criminal investigation will take precedence over that.

Starr, who if convicted could face life in prison, Spolski said, has been suspended without pay.

The arrest came after a woman witness who

lives near Chappy's reported to the sheriff's department that at 7:30 a.m. Tuesday, May 13, she saw a uniformed sheriff's deputy enter and exit Chappy's twice. The woman said she heard bottles rattling and she saw the suspect put a white box and a garbage bag containing the rattling items into the trunk of the sheriff's patrol car.

The bottles had been taken from the second floor office area of the club, a sheriff's report said.

The woman, who had noted an identification number on the patrol car, immediately reported

the apparent theft to Maitland police who referred her to the sheriff's department.

Starr was just beginning his work day at the time of the theft, Spolski said. About three hours after the burglary the trunk of the car assigned to Starr was searched at the sheriff's department and 17 bottles of liquor found in a white box and a garbage bag were taken from the vehicle, Spolski said.

The investigation continued and at day's end Sunday, as deputies returned to the sheriff's

## Residents Question Need For MTA Tax

By Sarah Fischer  
Herald Staff Writer

Homeowners questioned the need for "another layer of bureaucracy," which they said they fear will address only developer's needs, in a discussion on the Mass Transit Authority tax plan Monday night. They also criticized the authority's road building plan for not addressing mass transportation.

Proponents and opponents of the MTA plan squared off during a debate sponsored by the Seminole League of Homeowners Associations.

League members representing 42 local homeowners groups listened to arguments by Tom Sells, a representative of the Greenlight Committee promoting MTA, and Cheryl Moore, president of the Orange County Homeowners Association, which opposes the MTA.

The homeowners were then able to ask questions about the June 3 referendum, in which voters will decide for or against the implementation of a four-cent gas tax and a \$1 per \$1,000 assessed value property tax to finance road projects in Seminole, Orange and Osceola Counties.

"MTA is not the answer," Ms. Moore insisted, while Sells said the voters "will decide if MTA is a good idea or a bad idea."

"We have three choices," Sells told the group. "We can do nothing, do something, or hope that somebody else will take action."

"We need improved roads and we need them now," he said. "The choice is simple."

Highlighting her group's slogan, "Don't be misled," Ms. Moore called on residents to defeat the MTA plan.

**Cheryl Moore**  
...If the MTA hadn't included a property tax, we might have changed our position.

**Tom Sells**  
...We need improved roads and we need them now. The choice is simple.

She called MTA a "collection agency" to fund plans which elected officials have already put in place. Ms. Moore said those against MTA "fully intend to begin looking at and lobbying the legislature to do something we can live with as taxpayers" following the referendum.

The most vocal opposition to the plan by the homeowners was toward using property taxes to address what they said are state and federal, rather than local, road needs.

Rather, they suggested a tourist tax, increased gas or state sales tax, and impact fees to finance the projects.

Ms. Moore said residents in Orange County oppose the use of property taxes to fund transportation projects.

"If the MTA hadn't included a

property tax, we might have changed our position," she said. "The tourists and apartment owners are out there too, but it always comes back to the property owner. Why is it always falling on them?" asked one Seminole County homeowner.

Sells, however, called the property tax the "only way we have to raise the funds necessary to do certain projects and provide essential services such as roads."

He said the MTA will raise funds for \$680 million worth of road projects, which translates into about \$7 per month per family.

"We feel it should be a mix of roads and public transportation. They must enhance each other," Ms. Moore said. "We can't just

## Horner Resigns

### Chamber President Retiring After 15 Years

By Deane Jordan  
Herald Staff Writer

President of the Greater Sanford Chamber of Commerce, Jack Horner, stunned two dozen chamber board members today by announcing his resignation during a special meeting at the chamber.

Horner, 65 and head of the chamber since 1973, said he is resigning so he and his wife, Peggy, can travel and visit friends. The resignation is effective June 30.

"We are going to share in what we have accomplished," said Horner who said he has worked steadily since age 12.

"Everything I have ever gotten I have had to work for. It is time to enjoy some of this, and not just me, but my wife, too. She raised a family... I have decided to take advantage of our present good health by traveling throughout the county and 'smelling the roses.'"

"I'm not tired. I'm not burned out. I love every day I have been here. It has been a very difficult decision to make. I think the family is going to take precedence in this," Horner said.

Shirley Schilke, chairman of the eight-member executive committee, said she was devastated by Horner's decision to leave.

"My jaw just fell down to my knees when he told me. I really think he has contributed so much to the chamber and to the growth of the chamber and the city. I think it is a great loss. He has been loyal to the chamber and to the city."

She said finding a replacement for Horner will be difficult. "A hard act to follow." She said the chamber's executive committee would meet today to discuss the matter. The first thing the committee will probably do is reassign responsibilities in the office — such as transferring authorizing to sign and approve matters — to facilitate a transition and then begin advertising for another chamber president, she said.

Several members of the board said they were shocked at Horner's announcement.

"I see some long faces and some near tears," said Sanford Mayor Betty Smith.

"I think we should be happy for Jack. We are going to miss you. I really wish you well. I am

Herald Photo by Tommy Vincent

Shirley Schilke, Greater Sanford Chamber of Commerce chairman, praises the accomplishments of resigning chamber president Jack Horner, right, who announced his resignation today.

proud of you for being able to make the decision," she said.

"It was absolutely a shock," said Sanford Commissioner Milton Smith who praised Horner for his interest and passion for the chamber and the city. Brent Carl, a Sanford Planning and Zoning commissioner, agreed that the announcement was a shock.

Horner told the members at the special meeting that he thinks the chamber is in good shape and reminded them it is the largest chamber in the state for a city the size of Sanford. He also thanked them for their support during his 15 years.

"You came through for me when I needed it... There is nothing on earth I wouldn't do for you," he said.

See HORNER, page 8A

## City To Inspect More Than 100 Multi-Family Homes

By Karen Talley  
Herald Staff Writer

Sanford commissioners have called for the inspection of more than 100 multi-family homes in the city's oldest district to determine whether the structures are in compliance with safety standards set 2½-years ago.

In 1983 the near-downtown area of the city was rezoned from multi-family to single-family residential. Health, building, fire and police department representatives will conduct the inspections, commissioners decided Monday.

Under the 1983 rezoning, the area's existing multi-family dwellings were allowed to remain in operation, although their owners were given until October of 1985 to meet off-street parking requirements, which call for 1.5 spaces for every dwelling unit, and install safety measures, such as fire walls, smoke detectors and additional lighting.

While city engineers have determined that off-street parking requirements have not been met at 10 of these

structures, some of the area's residents question whether all of the district's multi-family dwellings have been brought up to standard with the required safety measures.

At Monday's work session, commissioners called for all multi-family homes in the district to be inspected to determine whether the safety features have been installed.

Commissioners also decided the parking matter, which was initially taken up last month. Acting on recommendations from city engineers, it was decided that one of the 10 properties will have to provide all required parking spaces, while four of the properties will not be required to provide any off street parking due to lack of available area. At the other five sites, less than the required amount of off street parking will be called for due to insufficient area and the trees that would have to be felled to achieve full compliance.

If the nine property owners fail to provide the number of spaces commissioners have called for, the sites will

lose their permit to operate as multi-family dwellings, said City Engineering and Planning Director Bill Simmons.

The inspection of more than 100 multi-family homes will specifically target adherence to the safety features called for under the 1983 rezoning and include "judgement calls" regarding whether the structures' overall operation is safe for tenants, commissioners said.

"If the (multi-family) property owners can't afford to make their structures safe, then they shouldn't be in business. It's that simple," said Commissioner Milton Smith.

Commissioners raised the possibility that study of the inspections' results could lead to considerations of whether certain city building ordinances should be beefed-up. Further discussion of the matter may be pursued with city counsel once the results are received, commissioners said.

Violations found during the inspections will be submitted to the city's code enforcement board.

If property owners fail to bring their

structures into compliance within a specified time the city can levy a \$250 a day fine against the owners and ultimately move for condemnation of structures, said City Attorney William Colbert.

The multi-family dwellings are located in a nine block area that runs between Sanford and Laurel avenues and Fourth and 14th Streets. The call for inspections was in response to concerns area residents raised last month when commissioners began discussion of the parking considerations.

At their April 21 meeting commissioners tabled the parking matter after several residents presented petitions with more than 100 signatures and requested that the city not only deny the parking considerations, but also "uphold all ordinances, codes and policies" in the rezoned area.

One of the residents, Joyce Malone, said the vigilance was necessary as a means of supplementing the original intent of the rezoning.

At Monday's work session, she suggested commissioners consider the formation of a task force to assist in the preservation of the city's oldest residential district. She said she and her neighbors are concerned with the degradation of "one of the most beautiful sections of the city" and that crime is one of their main concerns.

Mrs. Malone said her Maple Avenue home has been broken into 11 times during the last four years and has blamed "transients" lured to the area by its "rooming houses."

Exterior restorations, interior safety measures and an overall clean-up of properties and alley ways, where deemed necessary, could be spearheaded by the task force, Mrs. Malone said.

After the work session, Mrs. Malone said the move toward inspection of the multi-family properties "certainly indicates the commissioners' willingness and interest in addressing the situation" and that she hoped "they intend to follow this thing through."

### 'High Frontier' Seeks Earthly Locale

## Central Florida Eyed For Space Academy

By United Press International  
A conservative organization based in Washington, D.C., hopes to open by next year a university that would offer master's degrees in fields related to space exploration, and Central Florida is one of the sites being considered.

The non-profit High Frontier Inc., headed by the team on whose research President Reagan's Strategic Defense Initiative was based, is attempting to secure \$500,000 in steady corporate donations for planning and development of the private space school.

"An international space academy would be a good catalyst to train students for commercial and strategic applications of ... space technologies," said Reop Mohnkell, project director for High Frontier.

"We're looking at many factors for a location," Mohnkell said. "We would like to see the university started by the fall of 1987."

He identified as potential college sites the Orlando-Cape Canaveral area, Houston, Huntsville, Ala., Colorado Springs, Colo., Orange and Los Angeles counties in

California and San Diego.

Mohnkell said the non-profit High Frontier is a conservative group with about 50 employees. Prior to incorporation, the group worked under the auspices of the Heritage Foundation, a conservative research agency in Washington, D.C.

City officials said high-tech, space-related facilities would be desired in the space academy, and there would be high. Programs could be developed from other universities. Florida would come primarily

### Power Lines Downed

Approximately 50 homes in Sanford were without electricity for from several moments to 30 minutes as the result of power lines downed during Monday night's storm. Florida Power and Light District Engineer Bruce Stephenson said this morning.

Electricity outages were predominantly reported in the Loch Arbor community, due to a line down on South Crystal View, and at homes in the area of Locust and Celery avenues, from a line that fell near Celery Avenue, Stephenson said.

Sparks were reported when branches blew into a Grandview Avenue power line, although an FPL field supervisor said the incident resulted in no outages.

# WORLD IN BRIEF

## Vigilantes Burn Black Youth; Shantytown Violence Continues

JOHANNESBURG, South Africa (UPI) — Conservative vigilantes today burned a black youth to death with a gasoline-filled tire "necklace" as fierce fighting continued at Cape Town's Crossroads shantytown.

Community workers said about 2,000 wood, tin and plastic shanties had been burned down since Saturday and about 20,000 blacks were homeless.

In Pretoria, police shot and killed a black man late Monday when he tried to torch a house near the Orange Free State town of Sasolburg, authorities said.

The latest killings raised the death toll in racial violence to 42 since Saturday, making it the worst four-day period of bloodshed since the seven-month state of emergency ended March 7.

## Democracy For Chile Demanded

SANTIAGO, Chile (UPI) — Sixty-five members of 12 European and South American parliaments, ignoring warnings from the military government that they could be targets of terrorist attacks, met in Santiago to demand the return of democracy to Chile.

Delegates at the opening of the three-day meeting Monday urged that diplomatic and trade relations with the 12-year-old government of President Augusto Pinochet be broken to press demands for change.

Police, citing security reasons, cordoned off a four-block area around a downtown Santiago hotel where the lawmakers were meeting. The foreign delegates complained they had trouble getting to the meeting and were vexed by police, who rerouted traffic and barred pedestrians from the area.

## China-Taiwan Agree On Jet

HONG KONG (UPI) — China said today it would send a hijacked Taiwan cargo jet to Hong Kong this week but a three-hour meeting with Taiwanese officials failed to produce a date for the return.

China broke a deadlock Monday in the first direct negotiations between Taiwan and Peking since 1949 when it backed down on its demand that the jet be handed over in the southern Chinese city of Canton, where it was diverted by its defecting pilot early this month.

The meeting Tuesday between airline officials from China and Taiwan was the fourth session in four days and the two sides were only able to agree that the turnover in Hong Kong should be completed by Saturday.

## Soviets Say Warning Received

MOSCOW (UPI) — Prime Minister Nikolai Ryzhkov said the Chernobyl nuclear accident provided "ample warning to mankind" of the danger of nuclear weapons but would not affect Soviet plans to double nuclear power output in five years.

The government evening newspaper Izvestia, in a front-page editorial Monday — just three weeks after the Chernobyl accident was announced — said the disaster must provide lessons for further development of nuclear power "so that similar tragedies never occur anywhere again."

# FLORIDA IN BRIEF

## Suspect Arrested For Mailing Threats On Graham Stationery

TALLAHASSEE (UPI) — A 62-year-old St. Petersburg was being held on \$25,000 bond on charges he used paper resembling Gov. Bob Graham's stationery to write threatening letters to at least 48 people, including two judges.

The letters warned that the paper had been treated with special "protozoan cells" that would be absorbed through the skin and would kill anyone handling them.

Florida Department of Law Enforcement officers arrested Thomas Joseph Smith on Monday and booked him into the Pinellas County jail. He was charged with one count of threatening a public official and a separate count of making a written threat to kill or do bodily injury, said Jamie McLaughlin, chief of Executive Investigations for the Florida Department of Law Enforcement.

The letters said there was no cure and death would occur within 48 hours.

McLaughlin said lab tests showed no sign of any toxin on the letters.

## Marathon Man Escapes Taiwan

MIAMI (UPI) — A businessman from the Florida Keys has escaped from Taiwan, where he had been held nearly a year on fraud charges his wife claims were "trumped up" by competitors, a family friend reported Monday.

Charles Wheeler, 42, Marathon, was due to arrive at Miami International Airport late Monday on a commercial flight, said Barry Epstein, a friend and public relations consultant who has helped the family publicize Wheeler's plight.

Wheeler had been under "island arrest" since June 1985, and was convicted March 27 on fraud charges. Epstein would not say how Wheeler escaped from Taiwan except that "he went out probably by water."

## Bush: Hawkins Return A Priority

TALLAHASSEE (UPI) — Vice President George Bush has declared the re-election of Sen. Paula Hawkins a top priority for both the Republican Party and the "Reagan Revolution."

Bush arrived in the capital city of the Sunshine State on Monday, during a brief lull in the rain and drizzle that broke the drought north Florida has suffered since March. He spent the early afternoon meeting with members of the Republican Victory Committee, each of whom has given \$5,000 or more in personal or corporate contributions to the state party.

## Millions In Drug Money Seized

MIAMI (UPI) — An temporary tactic in the fight against illegal drugs has been so successful, seizing \$29.4 million in drug profits, that Customs Commissioner William Van Raab said "Operation Buckatop" will now become permanent.

The operation began as a crackdown on currency being smuggled through Miami to narcotics source countries, and was scheduled to run three months.

# House Passes Mandatory Seat Belts

By Michael McClelland  
TALLAHASSEE (UPI) Rep. Fred Lippman says Florida will prevent 500 highway deaths and as many as 40,000 injuries by forcing drivers and front seat passengers to buckle up before they hit the road.

Lippman, D-Hollywood, sponsored the mandatory seat belt bill passed by the House Monday. The bill (CS-HB 40) would make non-compliance by any driver or front seat passen-

ger 16 or older a non-criminal traffic violation, punishable by a fine of \$20. It would not apply to school buses, farm vehicles, trucks larger than 5,000 pounds, or newspaper delivery persons.

The bill calls for law enforcement officers to issue warnings only until Jan. 1, 1987.

The bill passed 68-50, over the objections of legislators who charged it was an unfair in-

trusion of government into private lives.

"It is a freedom to be foolish if you want to," argued Rep. Hamilton Upchurch, D-St. Augustine. "Government should not force you to make wise decisions if you prefer to be foolish."

Lippman countered that non-belt users who lose control of their car during an accident and hit bystanders unfairly in-

fract their foolishness on innocent victims.

"It isn't a right to drive with license in Florida. It's a privilege," Lippman said. "You're going to reduce the death rate in Florida by 400 to 500 next year; you're going to reduce injuries by nearly 40,000."

The bill goes next to the Senate for final approval. Lippman predicted it would pass into law.

## House Panel Passes Revised Insurance, Tort Reform Bill

TALLAHASSEE (UPI) — The House Appropriations committee passed and sent to the full House a revised insurance and tort reform bill calling for a six-month freeze on insurance rates, a 40 percent rate reduction, and a modified doctrine of joint and several liability.

Committee chairman Sam Bell said the bill would provide the basis for compromise between the House and Senate.

"This is the proper vehicle to get us into conference," Bell said. "It's a broad-based bill that gives us a lot to work with."

The bill includes most aspects of a bill adopted by the Health Care and Insurance committee earlier this session. The most important aspect of the bill, Bell said, is a section giving the Insurance Commissioner far-ranging authority to regulate rates, including the authority to order rebates on unfair excessive charges.

Insurance Commissioner Bill Gunter, however, objected that the bill would not allow him to consider income insurance companies make from their investments when deciding whether

they had made excess profits. The revised bill also does not address property insurance. Gunter complained, and is not as stringent as a bill proposed by him and passed by Health Care and Insurance.

The bill, which passed 32-1, would:

—Roll back insurance rates 40 percent on July 1, and enact a freeze on rate increases and policy cancellations. The freeze would remain in place for six months while the commissioner's office perfected the details of his review procedure. Rate increases after Jan. 1, 1987, would be subject review by the commissioner.

—Create an excess profits law that would allow the commissioner to return unfair profits to policy holders.

—Set a \$250,000 cap on non-economic legal awards. That cap could be exceeded if a litigant could convince a judge a larger award was fair and not excessive.

—Require insurance companies to form a joint underwriting agency to insure hard-to-cover and high-risk businesses.

# South African Raids Spur Anger

By Brendan Boyle

JOHANNESBURG, South Africa (UPI) — South Africa today faced growing anger and indignation over air and ground attacks it launched into Zambia, Zimbabwe and Botswana in search of African National Congress guerrillas.

At least three people were killed early Monday as South African security forces bombed what officials said was an ANC camp in Zambia, attacked an alleged rebel stronghold in Botswana and set off explosives in two buildings in the Zimbabwean capital of Harare.

All three countries lie to the north of South Africa.

Officials in Washington said U.S. Ambassador Herman Nickel must be recalled. Nickel was recalled last June to protest South Africa's raid on alleged ANC bases in Botswana.

In London, British officials called the raids "deplorable" and summoned a South African diplomat to hear a formal protest.

The attacks into Zambia, Zimbabwe and Botswana marked the Pretoria government's biggest operation against suspected ANC targets since the exiled black nationalist movement launched its guerrilla campaign against white rule in 1960.

"The blood spilt here today will be avenged, somewhere, somehow," Zambian President Kenneth Kaunda told a news conference in capital city of

Lusaka.

Kaunda said two warplanes strafed and bombed a refugee camp on the southern outskirts of Lusaka, killing two people and wounding at least 10 others. He said two buildings were leveled and called the attack "dastardly and cowardly."

Recalling the U.S. attack on Libya, Kaunda likened South African President Pieter Botha to President Reagan, calling both "savages who bomb children."

"President Reagan's state terrorism has been emulated by the (South African) racists in Lusaka and Zimbabwe and Botswana," Kaunda said.

In Gaborone, capital of Botswana, President Quett Masire said South African troops arrived in helicopters and cars, attacking a military barracks and a housing complex.

Masire said the "typically treacherous" South African assault killed only one person, Janulani Masilele, a civil servant and local soccer star.

"He was only a soccer player," said an angry police inspector examining Masilele's bloodied bedroom hours later. "And he was sleeping."

Inside the compound, an open-ended square of two-roomed houses on red earth studded with dusty trees, sullen and suspicious people piled meager household goods in the shade.

Around them the South African commandos' work was evident. Bullet holes stitched most

walls. Iron roofing sheets were peeled apart by explosions, most houses had broken windows, and shrapnel pock-marked two twisted door frames.

Officials threw sand on the floor of Masilele's blasted room to soak up his blood as sunlight poured through huge holes in mortar walls.

In Harare, Zimbabwean Prime

Minister Robert Mugabe condemned the raid by ground forces on a downtown office block and a house in the city suburbs.

Mugabe said four of the raiders were arrested during the attack and that no one was injured. Two buildings were severely damaged.

## Gasoline Firm Seeks Lease Payment Delay

A request for a one-year moratorium on lease payments by Amerettec, a Lake Buena Vista company, will be considered by the Seminole County Port Authority when it meets Wednesday at 4 p.m.

Amerettec, which leases the gas tank farm at the local port authority, is asking for a delay in the startup of its lease payments. However, Port Authority Administrator Dennis Dolgner is recommending the extension only be for 90 days.

In a letter to Dolgner, Amerettec President Gary Stevens said falling oil prices led to delays in the repair and operation of the facility.

In December, Amerettec began leasing the 3.5 million gallon gasoline terminal, which supplies fuel to gas stations.

The company is in the process of making extensive repairs to

the facility, which was abandoned after being previously leased by several petroleum companies.

Amerettec is asking that the startup of the first year's lease payments be delayed for one year and added to the termination date of the contract.

However, Dolgner replied, "In approving (the) request we would be converting a current asset into a non-productive, quasi-liability for the period of one year, a move I feel would not be in the best interest of the authority."

In other business Wednesday, the port authority will consider approving a 1986/87 budget of \$577,647, slightly up from last year's budget of \$575,513.

The budget will go before the county commission for approval in August.

—Sarah Fischer

## WEATHER

**NATIONAL REPORT:** Thunderstorms doused parts of the Northeast today after drenching the lower Great Lakes and the Atlantic coastal states, and spawning at least two tornadoes in North Carolina that injured four people. The storms that blasted Schenectady, N.Y., with 80-mph winds Monday and dumped up to 1 1/2 inches of rain on parched Alabama soil had dissipated by early today, said Bill Barlow of the National Weather Service. "They've weakened quite a bit," Barlow said. "There are still a few around the New England area, especially New York State, Vermont and New Hampshire, but they're nowhere near severe levels." Showers and thunderstorms were also scattered along the Atlantic Coast, through the lower Great Lakes and in parts of the west central Plains. It was a cold morning today in the Great Lakes, where readings fell to the 30s and 40s. A frost and freeze warning was posted for upper Michigan. Four people were slightly injured by a twister that touched down near Red Springs, N.C., Monday, damaging mobile homes, power lines and trees. A second tornado hit east of Raeford, but apparently caused no injuries or damage. "I saw a tornado twist-

ing up above the trees, rising over the trees," said Tammy Bullard, a Red Springs area resident. "It sounded real fast, and the wind was blowing real hard, and it was raining real hard." The storms blew down trees and power lines in Cumberland County, N.C., and pelted Speculator, N.Y., and Bethel and Barre, Vt., with marble-size hail. Western New York State was hit hard by the rain. Streets, viaducts and basements were flooded in Erie County, and Buffalo was drenched with 3 1/2 inches of rain Monday, breaking the record for the most rainfall in a 24-hour period in May. The previous record was 2.15 inches in 1894. The Alabama rain was a welcome sight for farmers and residents who have not seen a significant rainfall for almost two months. "This had to be a \$10 million rain because time is running out for the Alabama farmers, especially the peanut and the cotton grower," said Bubba Trotman.

**WEDNESDAY TIDES:** Daytona Beach: highs, 5:28 a.m., 6:56 p.m.; low, 12:18 a.m.; Port Canaveral: highs, 5:48 a.m., 7:16 p.m.; low, 12:38 a.m.; Baysport: highs, 6:09 a.m., 7:17 p.m.; lows, 12:32 a.m., 12:32 p.m.

**EXTENDED FORECAST:** Partly cloudy with a chance of showers mainly central and south through the period. Lows averaging from upper 50s extreme north to 60s elsewhere except low 70s in the Keys. Highs in the low to mid 80s except near 80 extreme north.

**AREA FORECAST:** Today...mostly cloudy with thunderstorms likely. High near 80. Wind south 10 to 15 mph. Rain chance 70 percent. Tonight...mostly cloudy with a chance of evening thunderstorms. Low in the upper 60s. Wind southwest 10 to 15

mph. Rain chance 30 percent. Wednesday...partly cloudy. A chance of afternoon thunderstorms. High in the mid 80s. Wind becoming west 10 to 15 mph. Rain chance 30 percent.

**BOATING REPORT:** St. Augustine to Jupiter Inlet out 50 miles — Today...south wind around 15 knots. Sea 3 to 5 feet. Bay and inland waters a moderate chop. Wind and sea higher in scattered thunderstorms. Tonight and Wednesday...wind south to southwest near 15 knots. Sea 3 to 5 feet. Bay and inland waters a moderate chop. Widely scattered showers and thunderstorms.

# Woman Burned After Declining Loan

Seminole County sheriff's investigator Greg Barnett on Monday had the name of a possible suspect, a woman who allegedly doused an Altamonte Springs woman with gasoline and set her afire Saturday, but an arrest had not been made early in the day.

Bernica Mae Getter, 22, who lives near North and Marker streets in Altamonte Springs, suffered second degree burns on her face, neck, chest and arms after she was assaulted by the suspect who had asked to borrow \$10 from her.

Ms. Getter, who was treated and released from Florida Hospital-Altamonte following the 7 p.m. Saturday burn, told sheriff's deputies she was standing alone inside Floyd's Pool Room on North Street at County Road 427, when the suspect entered and asked to borrow \$10.

When Ms. Getter said she didn't have \$10 the suspect reportedly became enraged, went out to her car, returned with gasoline and threw it and a lit match on Ms. Getter, a sheriff's report said.

The suspect fled and Ms. Getter ripped her burning clothes off and ran home for help. Sheriff's deputies were called to the scene and Ms. Getter was transported to the hospital by rescue workers.

Barnett said the Ms. Getter knows the suspect who is being sought and at this point he has no reason for the attack other than the request for \$10 having been denied.

## VIOLENT DEMAND

A former employee of Richard Hayes, 60, of 2075 Richardson Lane, Lake Mary, who went to Hayes' home and demanded \$30 owed him, ended up in jail charged with armed burglary after Seminole County sheriff's deputies broke up a confrontation between Hayes and the suspect.

When deputy Daniel LaFleur arrived at Hayes' home at about 8 p.m. he reported seeing Hayes armed with a level and the suspect armed with a hoe handle.

Hayes alleged that the suspect had been invited into his home before he started making a demand for money and reportedly became violent. He was ordered out, but allegedly tried to force re-entry and beat on windows and doors of the home with a hoe handle. He also allegedly tried to hit Hayes with the handle and Hayes went outside where the dispute continued until LaFleur arrived, a sheriff's report said.

Stephen Randolph Cruz, 33, of Orlando has been charged with armed burglary to an occupied dwelling and was being held in lieu of \$8,000 bond.

## GUN IN CAR

A man stopped by Longwood police, after police were told by another motorist that the suspect was armed with a gun, has been charged with carrying a concealed weapon.

The man was stopped on U.S. Highway 17-92 at Dogtrack Road, Longwood. A .22-caliber handgun was reportedly found

## Action Reports

- ★ Police

on the floor of his vehicle. George Lawrence King was arrested at 1:52 p.m. Sunday and was being held in lieu of \$1,000 bond.

## PASSENGER POT

The passenger in a car stopped by Longwood police because the license tag on the vehicle was not assigned was charged with possession of less than 20 grams of marijuana and drug paraphernalia after he was allegedly found to have contraband.

Michael Edward Kilroy, 27, of 1062 Reams St., Longwood, was arrested at 8 p.m. Sunday on State Road 434 at Sheriden Avenue, Longwood. He was being held in lieu of \$500 bond.

## TIP TO ARRESTS

Oviedo police, who received a tip that burglars who hit Oviedo High School on King Street on May 12 would be back again Friday night, reported spotting two suspects in the school at about midnight.

The suspects ran from police, but were traced and police ended up at the home of a 16-year-old suspect, where police reported finding three glass beakers that had been reported stolen from a science room at the school on May 12.

Burglary tools were also found

in a car belonging to that suspect's family and he reportedly had a small knife and a flashlight in his possession, a police report said.

Arrested along with the juvenile, who was turned over to juvenile authorities, was James Charles Irwin, 19, of 375 Valencia Circle, Oviedo, who was charged with burglary and trespassing at 2:51 a.m. Saturday at Palmetto and Divisions streets in Oviedo. Bond was set at \$3,500 and he was released.

## PLANT PILFER

A man who reportedly ran behind a home at 103 Hazel Blvd., Sanford, when spotted by Sanford police in front of the new home, has been charged with theft of plants from the property as well as trespassing and loitering and prowling.

Gary LeRoy Omev, 36, of 196 Str Lawrence Drive, Sanford, was arrested at about 4 a.m. Monday. Bond was set at \$1,000 and he was released.

## BURGLARIES & THEFTS

Golf gear valued at \$750 was stolen from the garage of Elizabeth W. Blanchard, 64, of 1870 Barton St., Longwood, on Saturday or Sunday, a sheriff's report said.

A VCR player worth \$1,000 was reportedly taken from the 2001 Magnolia Avenue home of John Fleischman, 24, on Tuesday, between 1:30 and 5 p.m., a Sanford police report said. Entry was reportedly gained through a rear window.

John Robert Parry, 42, of 1264

Marty Blvd., Forest City, reported to sheriff's deputies three temple vases with a combined value of \$10,000, which he left at his former home at 704 Blue Lake Drive between August 15 and Feb. 15, were stolen. The theft was reported Monday.

Tools, a model airplane, a radio transmitter and an engine with a total value of about \$600 were stolen from Thomas D. Carmell, 28, of 357 Sterling Oaks Drive, Casselberry. The theft was reported to sheriff's deputies Monday.

Earlene J. Talley of 104 Lisa Lane, Longwood, reported to sheriff's deputies that a \$600

motorcycle and other items with a total value of about \$1,000 were stolen from her home when she was away around March 28. The loss was reported Wednesday.

## BODY FOUND

The body of an 88-year-old Lake Mary woman was discovered in her home by a neighbor Saturday, according to a police report. She was last seen alive between 4:30 and 5 p.m. Friday, the report said.

A neighbor found the body of Lucy Turner Murphy in the kitchen of her 221 South Third Street home Saturday morning at 7:30 a.m. She died of natural causes, the report said.

## FIRE CALLS

The Sanford Fire Department has responded to the following calls:

### SATURDAY

—2:25 p.m., 1301 Silver Lake Road, Mobilite Corp., fire alarm. The call was determined to be a false alarm caused by men working on the building's sprinkler system.

—2:53 p.m., 301 East Fifth Street, Charles Place Hotel, fire. A mattress was reportedly ignited by a tenant smoking in bed. Firemen reported no injuries and that fire and smoke damage were confined to the first floor bedroom where the fire ignited. The extent of damage to the room was not included in the fire report.

—7:07 a.m., 609 Palmetto Ave. rescue. A 64-year-old woman was reportedly suffering from pain in her right leg. She received on-scene treatment from firemen and reportedly declined hospital transport.

—11:05 a.m., 3770 Orlando Drive, Sanford Fire Station #2, injury. A 15-year-old boy with a cut on his forehead was brought to the station by his parents. After firemen washed the wound, the boy's parents reportedly took him to the hospital for further treatment.

### SUNDAY

—1:05 a.m., 126 Krider Road, rescue. A 13-year-old boy had reportedly gone into a diabetic coma. He was transported to the hospital.

—7:07 a.m., 609 Palmetto Ave. rescue. A 64-year-old woman was reportedly suffering from pain in her right leg. She received on-scene treatment from firemen and reportedly declined hospital transport.

—11:05 a.m., 3770 Orlando Drive, Sanford Fire Station #2, injury. A 15-year-old boy with a cut on his forehead was brought to the station by his parents. After firemen washed the wound, the boy's parents reportedly took him to the hospital for further treatment.

# Stolen Items Surface In Store

Although items taken in a Geneva burglary were recovered at the Geneva Grocery, Avenue C, Geneva, Seminole County sheriff's investigator Donald Dreggers said he is confident that the store owner would not knowingly accept or sell stolen goods.

Owner of the store, Amanda Ensor, who said about two months ago one of her employees took a few trinkets from a man, who said he wanted her to sell some of the items to benefit a cancer fund, said she put the items aside, not on display in the store.

Ms. Ensor said she reported to the Seminole County Sheriff's

Department that she had the items, and was told she could do what she wanted with them.

On May 1, the owner of some of the items, Rollan Douglas Webb, of P.O. Box 209, Geneva, reported to sheriff's deputies that between March 7 and May 1 items, including costume jewelry, a diamond ring valued at \$150, a \$200 chainsaw and a \$300 belt buckle, had been stolen from his home.

When Webb inquired about his property at the Geneva Grocery on May 1, Ms. Ensor said it took her six hours to find the trinkets the donor had left. The items had been stored on top of a refrigerator. Once they

were found, a sheriff's report said Webb identified six items as his.

Ms. Ensor said she still doesn't know to whom the rest of the trinkets belong but they are of little value. She still has the remaining items.

Webb's finding those trinkets led to a suspect who was charged with burglary and grand theft on May 2. It also led to recovery of other goods that had been stolen from Webb's home.

According to Seminole County sheriff's report Webb's \$200 chainsaw was recovered, Glenn Williams Jr. of P.O. Box 98, Geneva, according to a state-

ment Williams made to sheriff's deputies, paid \$20 for the saw.

A \$300 silver belt buckle was recovered from Ronnie Ratliff of Geneva, who told sheriff's deputies the man arrested had given him the buckle, a sheriff's report said.

The recovered items were returned to Webb and no one who received his property was charged in connection with having those goods, deputies said.

Donald Ray Chambers, 22, of P.O. Box 540, E. State Road 46, Geneva, was charged in connection with the burglary and theft.

## CALENDAR

### TUESDAY, MAY 20

TOPS Chapter 79, 6:15-8:15 p.m., new CIA building, Lake Mary.

24-Hour AA group beginners open discussion, 8 p.m., Second and Bay Streets, Sanford.

17-92 Group AA, 8 p.m., closed, Messiah Lutheran Church, 17-92 and Dogtrack Road.

Overeaters Anonymous, open, 7:30 p.m., Florida Power & Light, 301 S. Myrtle Ave., Sanford.

Freedom House AA (women only), 8 p.m. (closed), Lake Minnie Road, Sanford.

Alcoholics Anonymous, 8 p.m. (closed), West Lake Hospital, State Road 434, Longwood.

### WEDNESDAY, MAY 21

Full Gospel Business Men's Fellowship International breakfast meeting, 6:30 a.m., Holiday Inn, State Road 436 and Wymore Road, Altamonte Springs. For details call 656-4255.

Casselberry Rotary breakfast, 7:30 a.m., Casselberry Senior Center, 200 N. Lake Triplet Drive.

Sanford Rotary-Breakfast Club, 7 a.m., Skyport Restaurant, Sanford Airport.

Free classes on diabetes offered at Central Florida Regional Hospital, Sanford begins today and continues through June 25 7-8:30 p.m. To pre-register call Nursing Education at 321-4500.

Cardiovascular screening for Seminole County residents, 8 a.m. to 5 p.m., County Health Department, 240 W. Airport Blvd., Sanford. Call 322-2724 Ex. 370 for appointment.

Manna Haven serves free lunch for the hungry, 11 a.m. to 1 p.m., Monday through Friday, at 519 Palmetto Ave., Sanford.

Central Florida Blood Bank Seminole County Branch, 1302 E. Second St., Sanford, 9 a.m. to 5 p.m.

Free Seafood Cooking Class, 10:30-11:30 a.m., Russell's Seafood, 3801 E. State Road 46, Sanford. Demonstration, recipes and tasting. For information call 321-8112.

Sanford Optimist Club, 11:45 a.m., Western Sizzlin Restaurant, Sanford.

Sanford Kiwanis Club, noon, Sanford Civic Center.

REBOS AA, noon and 5:30 and

8 p.m. (closed), Reboas Club, 130 Normandy Lane, Casselberry.

Sanford Serenaders Dance for seniors, 2:30-4:30 p.m., Sanford Civic Center. Free live band.

Sanford Born to Win AA, 8 p.m., open discussion, 1201 W. First St.

COPE support group for families of mental health patients, 7:30 p.m., Crane's Roost Office Park, S-377, Altamonte Springs.

Altamonte Springs AA, 8 p.m., (closed), Altamonte Community Chapel, 825 State Road 436.

Casselberry AA, 8 p.m., (closed), Ascension Lutheran Church, Ascension Drive, Casselberry.

### THURSDAY, MAY 22

Employment help for senior citizens, 10 a.m., Casselberry Senior Center, 200 N. Lake Triplet Drive, Casselberry.

Non-denominational Bible study and prayer, noon, Cavalier Inn Restaurant, Highway 17-92, Sanford.

REBOS AA, noon and 5:30 (closed), Reboas Club, 130 Normandy Lane, Casselberry.

Free blood pressure checks, 9 a.m. to 1 p.m., American Red Cross Seminole Service Center, 705 W. State Road 434, Suite C., Longwood. Tuesdays and Thursdays.

Free classes on diabetes offered at Central Florida Regional Hospital, Sanford begins today and continues through June 26 2:30-4 p.m. To pre-register call Nursing Education at 321-4500.

Seminole Chapter Florida Audubon Society will hold a covered dish picnic, noon, Fort Lane Park on Lake Harney, Geneva.

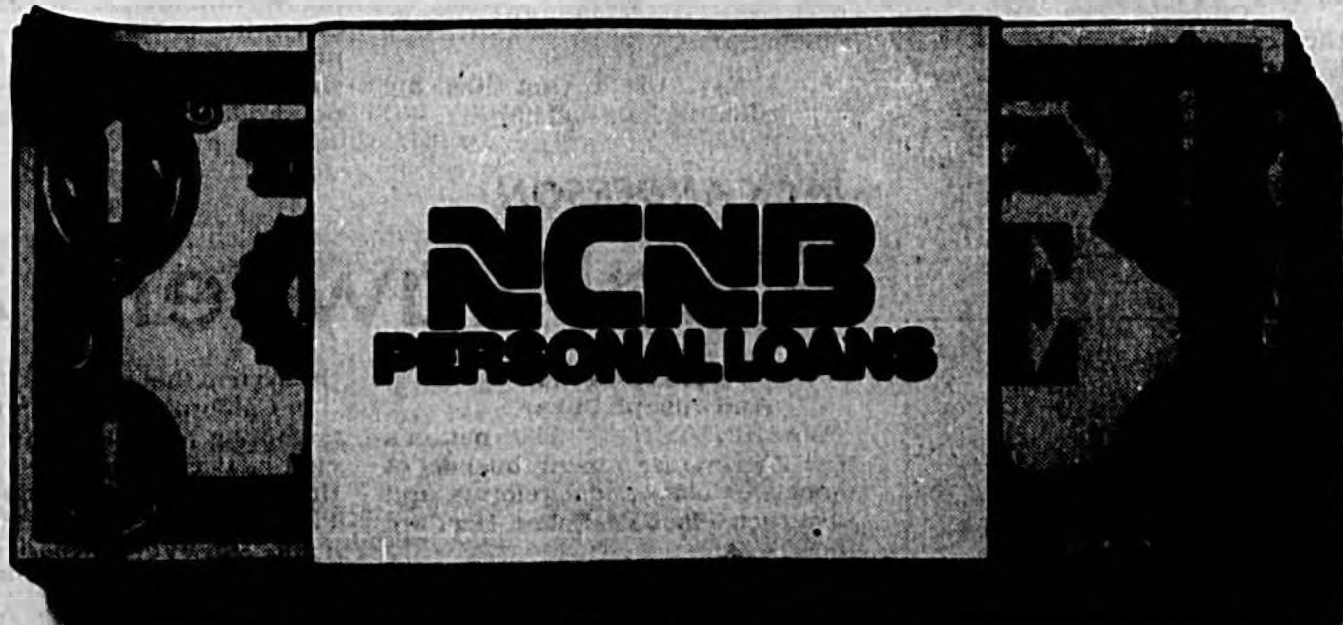

Alzheimer's Support Group, 7 p.m., Howell Place, 200 W. Airport Boulevard, Sanford.

Sanford AA, 1201 W. First St., 5:30 p.m., closed discussion, and 8 p.m., open.

Sweet Adelines, 7:30 p.m., Casselberry Senior Center, 200 N. Lake Triplet Drive, Casselberry.

Overeaters Anonymous, open, 7:30 p.m., Community United Methodist Church, Highway 17-92, Casselberry. Newcomers meeting, 7 p.m. Call Jean at 830-0995. Also, 7:30 p.m., in the annex behind Florida Hospital-Altamonte, State Road 456, Altamonte Springs.

## Bishops Lose Halo With Latest Letter

As expected, the Council of Bishops of the United Methodist Church unanimously endorsed a pastoral letter renouncing the use and even the possession of nuclear weapons.

In other words, the bishops would cancel the U.S. threat of retaliation in the event of a nuclear attack; they would forfeit the concept of deterrence that has held the Soviet Union at bay for more than 40 years. This goes far beyond what the nation's Roman Catholic bishops advocated in their pastoral letter on nuclear weapons in 1983. The Catholic document held nuclear deterrence to be ethically justified while arms negotiations are continuing.

What the Methodist bishops advocate is unilateral disarmament. They want the United States to be defenseless before an implacable communist enemy who has openly proclaimed intentions of communizing the world; they would reduce strong Samson to blind helplessness in Gaza. Behind their pious idealism, the bishops, in effect, advocate U.S. capitulation to the Soviet Union. Their unthinkable bottom line is unmistakable: "Better Red than dead."

This, of course, is high-level lunacy. The nuclear genie is loose in the world and cannot be put away, even by a Council of Bishops. In addition to the United States, the Soviet Union, France, Britain, and China, four other nations are reliably reported either to have nuclear weapons capability or be close to it: India, Israel, South Africa, and Pakistan. A rogue nation such as Iraq would surely have nuclear bombs today but for Israel's surgical air strike in 1981 that destroyed its nuclear reactor.

Authorities in this field believe it will be only a matter of time before the Ayatollah Khomeini's Iran and Moammar Khadafy's Libya gain possession of atomic bombs. Yet the Methodist bishops urge Americans to dwell in this den of lions without sword or buckler.

Not unexpectedly, the bishops also oppose the Reagan administration's Strategic Defense Initiative ("Star Wars") that could shield much of the nation from nuclear destruction and thus so complicate the equations of a Soviet first-strike as to be the ultimate deterrent.

Although the bishops say they are not speaking to the 9.4 million-member church in an authoritarian way, there is room for doubt about this. C. Dale White, the United Methodist Bishop of New York and a leader in drafting the controversial pastoral letter, publicly expressed the hope that leaders and members of the United Methodist Church, now armed with the documents, "will make their voices heard" in Congress and elsewhere around the nation.

Some leftist Methodist clergy will undoubtedly "make their voices heard" abroad in the land, but the predominantly conservative membership will be appalled and opposed to the bishops' stand. A national poll of Protestant denominations after the 1984 election confirmed their conservatism; the Methodists voted for Ronald Reagan by 65 percent — a margin similar to that of other mainline congregations.

Last year, Assistant Secretary of State Langhorne A. Motley admonished church leaders against trying to play the role of Caesar. What he said then is particularly applicable to the bishops' outrageous summons to unilateral disarmament and surrender: "Religious persons should not use the credibility they enjoy because of their religious roles to market personal secular ideological and philosophical beliefs..."

Amen.

## Tanning Away From The Sun's Harmful Rays

WASHINGTON (UPI) — I was reading the other day that a business enterprise once listed as the sixth fastest-growing company in America had taken over a firm from Inertia Dynamics. Which figures.

One of this company's fast-growing specialties is indoor tanning. And it doesn't require much get-up-and-go, orertia, to acquire a tan.

I don't care how inertially dynamic you might be, all it takes is a little sunshine. Or, as is the case of the SCA Health & Fitness Corp., the aforementioned company, a "tanning bed."

SCA, incidentally, wasn't included on the latest list of America's 100 fastest-growers compiled by INC. magazine. Maybe it has now achieved conglomerate status.

An SCA spokesman says, "Indoor tanning has joined fitness as the new national lifestyle trend." I certainly can believe that.

Anyone who is tanned more than nature intended is automatically assumed to be physically fit.

A lot of attention has been given in recent years to the sun's harmful effect on human skin.

So it is no mystery why indoor tanning has become popular.

An indoor tan presumably enables its wearer to project a health image without all that exercise. It does, however, require a spot of cash, or at least a good credit card.

I am told that some of SCA's wealthier customers spend \$7,000 from a tanning bed. No wonder it grew so fast.

If you don't have that much money to sunburn, however, you can buy a home tanning unit for as little as \$600.

I also am told there are about 10,000 "indoor tanning salons" now in operation and that more than 20,000 gyms and health clubs have tanning equipment. If you pay your health club dues, your skin can become as charred as it would be if you had a \$7,000 tanning bed next to an indoor hot tub.

"Today's home-athlete wants the most advanced training system he or she can get," avowed an SCA executive upon taking over an exercise-equipment firm from Inertia.

Yes, and if advanced training includes looking like you have been exercising in the sunshine, he can fix you for there, too.

Company products, according to an SCA brochure, range from an "upper body tanner" to units that will give you a healthy look all over.

"Home tanning is in its infancy," says the aforementioned executive, and for some of us it wasn't born any too soon.

Not that the concept is all that new. I have in my attic a "sun lamp" obtained many years ago. Compared to the models show in the brochure, however, it looks dreadfully unadvanced.

Although I personally get plenty of exercise at home, there are some bodily areas, especially around the left elbow, that look decidedly unhealthy when I have my sleeves rolled up.

I attribute this condition to relative penance. My left elbow just doesn't catch its share of the sun's beams. But thanks to home tanning, if only I had the cash, I could match elbows with health nuts everywhere.

### JEFFREY HART

## Looking Red-Eyed At World

The love of communism appears to have a longer half life than plutonium, the half life of which is 24,000 years. In fact today in America communism has become the love that dare not speak its name. Nevertheless, in an active minority, it burns brightly.

Congressional researcher Frank Gregorsky finds that there are some 100 leftwing Democratic congressmen who never vote in favor of a measure that would be troubling to communists abroad — whether it be this or that weapons system, something like Radio Marti, aid to the embattled democratic government of El Salvador, or aid to the anti-communist insurgents in Angola or Nicaragua. They also criticize all attacks against communist regimes, as in Grenada, or against Soviet clients, as in Libya.

Mr. Gregorsky offers no information about the personal beliefs of such congressmen, but he has more important matters to disclose. In his opinion they are continually subjected to intense lobbying, which includes money and political threats, by American leftist groups. Such lobbying goes far beyond anything attempted by the far less numerous and less organized anti-communist groups and individuals.

Who and what are these leftist groups? My friend and colleague Tom Bethel, writing in the current American Spectator, does not mince words.

"We are talking," he says, "about a group of people — a small minority, to be sure, compared with the whole population — who yearn and ache for the communist ideal and who, at the level of practical organization, far outnumber those who actively oppose communism. It could be put this way: There are today far more activists who believe in and are willing to work for faraway communism than there are active opponents of it."

"Indigenous Communist sympathizers who have been lobbying and phoning Congress are true believers. They have a faith, a 'vision' (as it is always said) of a 'new society'; one day there will be an entirely new order that will displace the day-to-day reality that they mostly find intolerable. What keeps them going is the hope of changing it. Sure, the Soviet Union didn't work out, Cuba didn't work out, China didn't work out, Vietnam, Mozambique, Angola didn't work out, but now there is once again a vision of a new society, this time in Nicaragua, New Managua Man."

As I say, the dream has an extraordinarily long half life.

### JACK ANDERSON

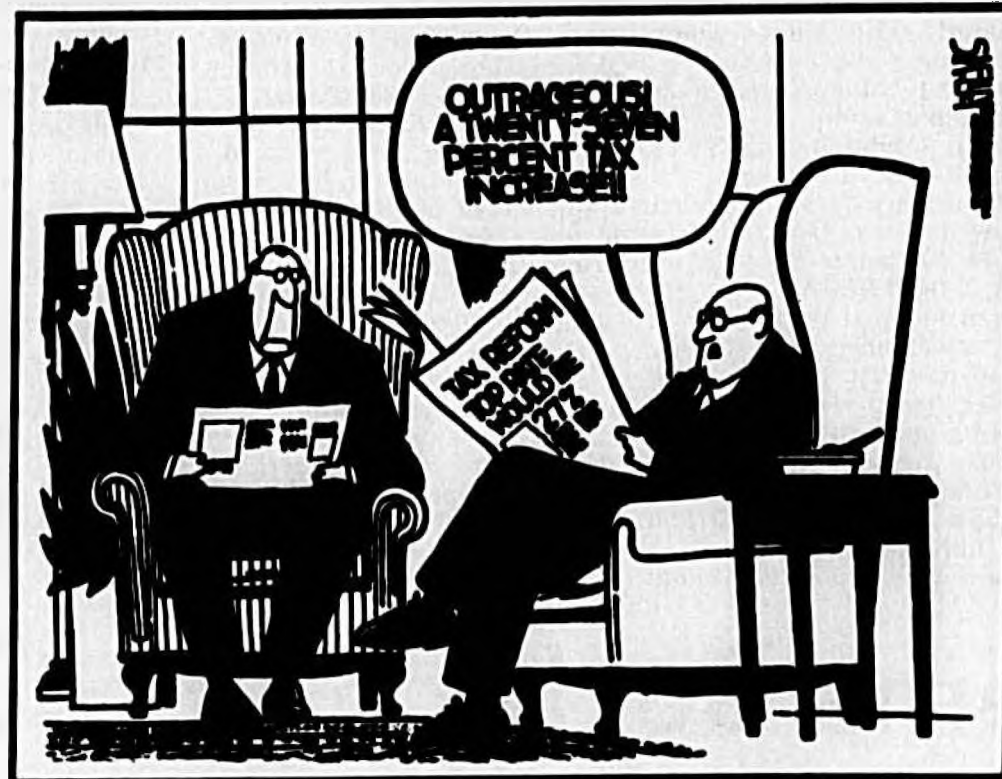

## Trial Lawyers Attack Legal Reform

By Jack Anderson  
And Joseph Spear

WASHINGTON — The nation's trial lawyers are raising bushels of money to block legal reforms and save their Pikes Peak fees. Here are the details:

Proliferating lawsuits have caused such havoc across America that voters are demanding reforms. Millions of organizations, ranging from the American Medical Association to the Boy Scouts of America, have joined forces to stop the lawsuits that have disrupted their activities.

This has forced many state legislatures, dominated though they are by lawyers, to review the civil justice system. Any restrictions that might hamper lawsuits, of course, would hit the trial lawyers right in their bank accounts. So the American Trial Lawyers Association has mounted a counterattack to save

### ANTHONY HARRIGAN

## A Threat To Growth

The so-called tax reform approved by the Senate Finance Committee would be more aptly described as a Disinvest in America tax bill. It creates disincentives for investment, savings, employment and economic growth.

This proposed legislation has a strong appeal in an election year as the tax cuts and the transfer of tax burdens to corporations are supposed to promote fairness. The authors of this legislation undoubtedly regard it as politically painless. However, the pain will be felt by the American people when investment diminishes and business has to pay an extra \$100 billion in taxes — money that won't be available for job creation. Today, it takes \$50,000 or more to create each new job and provide a worker with tools and facilities.

Consider some of the effects of the misnamed tax reform bill:

Manufacturers, already severely injured by subsidized and guided foreign competition, will lose credits for investment in new plants and equipment.

Elimination of tax-sheltered investments will devastate the construction industry and related businesses. The National Association of Homebuilders reports that this change would reduce 1987 housing starts by 400,000 units at a cost of 377,000 jobs. It adds that the market value of already-built units will fall 20 percent. Communities will be deprived of needed industrial parks, apartment complexes and commercial malls.

The imposition of a minimum tax on corporations will be another disincentive for investment in industry. Investors will take their funds out of useful commercial projects and put their money into tax-free municipal bonds, thereby benefiting public agencies, not the private sector economy. Cities and states are likely to take on more nonproductive capital projects.

The feature of the plan which calls for an increase in the capital gains levy will do additional injury to investors in real property.

Finally, the so-called tax reform will curtail individual retirement accounts for approximately 25 million Americans, ending the deductibility of payments on an IRA. The IRAs came into existence as an important way to increase the nation's depleted supply of savings.

In sum, the Senate Finance Committee's tax reform plan will retard business and industry modernization, eliminate much real estate development, reduce savings, and slow growth.

It's a tragedy that the Senate Finance Committee became obsessed with tax reform. Simplification of taxes isn't as important as shaping the tax law in such a way as to encourage savings and investment, industrial modernization and the strengthening of key business sectors. The drive for "reform" was mistaken from the start. As *Oil & Gas Journal* said in an editorial, Congress should acknowledge "that tax laws can't be made simple, revenue-neutral, fair, and economically cumulative at one stroke." In attempting an impossible task, the Senate Finance Committee has come up with a bad tax law. It has made an historic mistake.

Can this mistake be remedied on the floor of the U.S. Senate? One earnestly hopes so. The task will be difficult, however, because the liberal proponents of "fairness" — meaning sock business — will be working in tandem with the extreme supply-siders who think that reducing tax rates is more important than anything else. At this point, it appears that they will have strong White House support. Business will face an uphill battle, trying to convince Congress in an election year that the tax laws should encourage savings for investment purposes.

### SCIENCE WORLD

## Stunted Childhood Growth

By Rob Stein  
UPI Science Writer

BOSTON (UPI) — Prehistoric skeletons have provided researchers with evidence that stunted growth during early childhood could dramatically influence adult health, causing a variety of illnesses and reducing lifespans.

By measuring the bones, anthropologists say they found strong indications that those whose growth was inhibited during childhood tended to develop into sickly adults who were more likely to die young.

"The broad implications of this are potentially profound," said Dr. George A. Clark, a research anthropologist at Boston University School of Medicine who headed the study.

The research suggests that making sure children grow as much as they were intended to could lead to healthier adulthood and longer lifespan, said Clark, whose study will be published in the June edition of the *American Journal of Physical Anthropology*.

"Childhood nutrition programs are targeted by federal budget cutbacks. This could be very counterproductive. This short-term economic effort may lead to dramatic costs in later years," he said.

Other studies have shown a link between early childhood growth and later childhood health problems. But the study using prehistoric skeletons extends that link into adulthood, Clark said.

"This is the first one to show that these effects may be permanent," he said.

For the study, researchers measured the skeletal remains of 80 prehistoric humans who lived between 950 AD and 1300 AD unearthed by archeologists in Illinois.

They measured a part of the vertebrae that housed the spine, known as the spinal canal, which completes its growth by about age 4. Anyone whose growth was stunted before that age would have an abnormally small spinal canal.

The researchers used standard forensic measurements to determine the age of the specimens when they died. To get an indication of whether the subjects had been ill, they measured bone loss in different parts of the skeleton. Bone loss can result from a sedentary life, an indication of illness.

After comparing the data, they found that those with small spinal canals were much more likely to have had evidence of adult illness and premature death, Clark said.

The average age of death for the entire group was 45 years while the average lifespan for those with small spinal canals was 10 years shorter, Clark said.

contributed as much as \$300,000."

Hinton claims that the reformers are trying to reverse "centuries of law which state that the first consideration in the tort system is to make the innocent injured party whole."

He is disputed by James Coyne, president of the American Tort Reform Association, which is leading the battle to change the system. Coyne contends that U.S. courts, "with limited exceptions," held for 200 years that "a person suing could recover only if he proved that the defendant was at fault ... that one only obtained redress for cases of true negligence, not for the personal risks of everyday life."

All this changed, according to Coyne, in the 1980s. "The tort system we have today," he told us, "is vastly different. Our generation has overturned 200 years of legal

tradition."

The result has been an explosion of lawsuits. This has raised the risk for those who make decisions; many no longer will serve on corporate boards, school boards, town councils, athletic leagues or other business-civic-volunteer groups.

Those who are still willing to take the risk have been forced to change the way they make decisions. They don't dare decide whether to market a new product, approve an innovation, publish an important story or take some other action based on the merits. The first question they must now ask is, "What's the chance I'll get sued?"

As Coyne put it, "In this stifling climate of anxiety over unknown risk, our economic growth, perhaps even our spirit of adventure and pioneering, will be reduced."

## Maples' No-Hitter Cuts Down Sun Bank

By Sam Cook  
Herald Sports Editor

When you look at what Mike Maples did at the plate Monday night for Adcock Roofing, you know why Sun Bank was on the short end of a 13-0 Little American League setback at Sanford's Westside Field.

Maples drilled a two-run homer, tripled home another run and singled while scoring three times in three at-bats.

Maples' hitting, however, was just half the story Monday. The hard-throwing Adcock Roofing righthander hurled a no-hit, no-run game while striking out nine in a contest which was stopped after four innings due to the slaughter rule.

Adcock Roofing, 9-2, remains one game behind Cardinal Industries in the red-hot Little American League pennant chase. Cardinal bopped Atlantic

Bank, 13-0, Monday to keep its lead. In one other game, Seminole Petroleum upended Seminole Ford, 14-10.

Coach Mike Watson's Adcock club played long ball with losing pitcher Tony Duncan. Arthur "Jap" Polk clubbed an inside-the-park homer to start a four-run first inning. Maples and Al Holt singled before Corey Williams tripled them home and scored on a wild pitch.

In the second, Tony Holly and Maples clobbered solo homers one batter apart for a 6-0 lead. Williams tripled and scored again in the third before Adcock put the game out of reach with six runs in the fourth. Chad Ansley led off the frame with a single and scored on Polk's single. Polk then scored on Maples' triple. Holt singled home Maples and Williams doubled to score Holt.

Maples, who walked five, struck out

### Baseball

two in the first, second and third before finishing with a flourish by whiffing the side in the fourth.

In Cardinal's win, Anthony "Redman" Roberts continued his fine hurling with a one-hit shutout as the league's top club needed just four innings to derail Atlantic Bank.

Roberts, who tossed a no-hitter last week, struck out 10, including the last six hitters in a row. James Salmon's third-inning single spoiled the no-hit bid.

Roberts also carried a big bat for Cardinal as he tripled home two runs in the first inning as part of a 10-run outburst. Matt Wilk, Willie Williams, Craig Merksorn and Britt Henderson also had singles in the big inning.

Jamie King popped a three-run homer in the third to initiate the 10-run rule.

In Petroleum's victory, Daniel Anderson relieved Doug Wilson in the second inning to pick up the win. Petroleum took advantage of 15 walks by Ford pitchers Corey Redding and Jermaine Hartasfield.

Ric Perez had a key single in Petroleum's four-run fourth inning when it took a 12-8 lead.

Johnny Dennis socked three singles and scored three runs for the losers. Redding had two hits.

In Sanford Junior League action Monday night, Moose came up with four runs in the fifth inning to overhaul Knights of Columbus, 7-4.

Moose took advantage of five walks by loser Anton Reid in the first inning to score two runs. Jeff Derr and Mike Merthle drew free passes and scored on

two more walks to Tony Chavers and Ray Lewis.

KOC came back with one in the second on a walk to Derrick Frison and a single by Floyd Henderson. In the second, KOC took a 3-2 edge as Reid and Fritton singled, moved up a wild pitch and scored on consecutive balks by winning pitcher Merthle.

Moose regrouped, though, to push across four runs in the fifth. Jeff Byrd and Darrell Canada walked before Harvey Clinger reached on an error by the right fielder to score two runs. Derr and Tony Pritchard followed with singles to bring home two more.

In the seventh, Reed reached on a dropped third strike, stole second and third and scored on a base hit by Fritton. Merthle, though, struck out the last hitter looking to close down the rally.

## Tyson, Green On HBO

NEW YORK (UPI) — Mike Tyson's stamina was tested in his last fight when he went 10 rounds for the first time. Tonight's opponent, Mitch Green, has put Tyson's psyche to the test.

Green has ranted whenever he and Tyson have been in public together since the fight was announced two weeks ago. Green went a step further at Monday's weigh-in when he threatened to pull out of the fight because he will receive less than one-sixth of the lucrative purse guaranteed Tyson.

"I'd be highly ticked off at Mitch (if he pulled out) because it's unprofessional to do that," said Tyson, who watched quietly through all of Green's outbursts. "I'm glad he's drawing attention, too bad he's not going to win. The only way you have a chance to win is with your fists."

Green flew into a rage at the morning weigh-in, screaming that he has been mistreated by promoter Don King and King's son, Carl, who is Green's manager.

Green calmed down a few hours later and said he would go ahead with the bout, but wants to break his contract with the Kings.

Green, 29, of New York, was upset to learn he was to get paid \$30,000 plus \$5,000 in expenses compared to more than \$200,000 for Tyson. Green's purse is to be paid by Don King, while Tyson is being paid as part of a three-fight deal with Home Box Office, which will televise the bout from Madison Square Garden at 10 p.m.

"He said he's been fighting for six years and doesn't have a dime to show for it," said Tyson, who at 19 is the biggest attraction in the division. "That's his problem, I'm not gonna give him any of my money. Why is he worried about what I'm getting paid?"

"There's more to this than being a good fighter. It's how you conduct yourself. You never see that with Mike Tyson, yelling at my trainer and manager."

Tyson's trainer, Kevin Rooney, was upset Green brought Tyson's purse into the dispute.

"Don King, Carl King, Mitch Green ... whatever problems they have over in Ohio (King lives in Cleveland), that's their problems," Rooney said. "Don't take us into it."

The promoters — King and Madison Square Garden — were ready to bring Reggie Groom in as a substitute if Green withdrew. Green, however, says he'll fight and win.

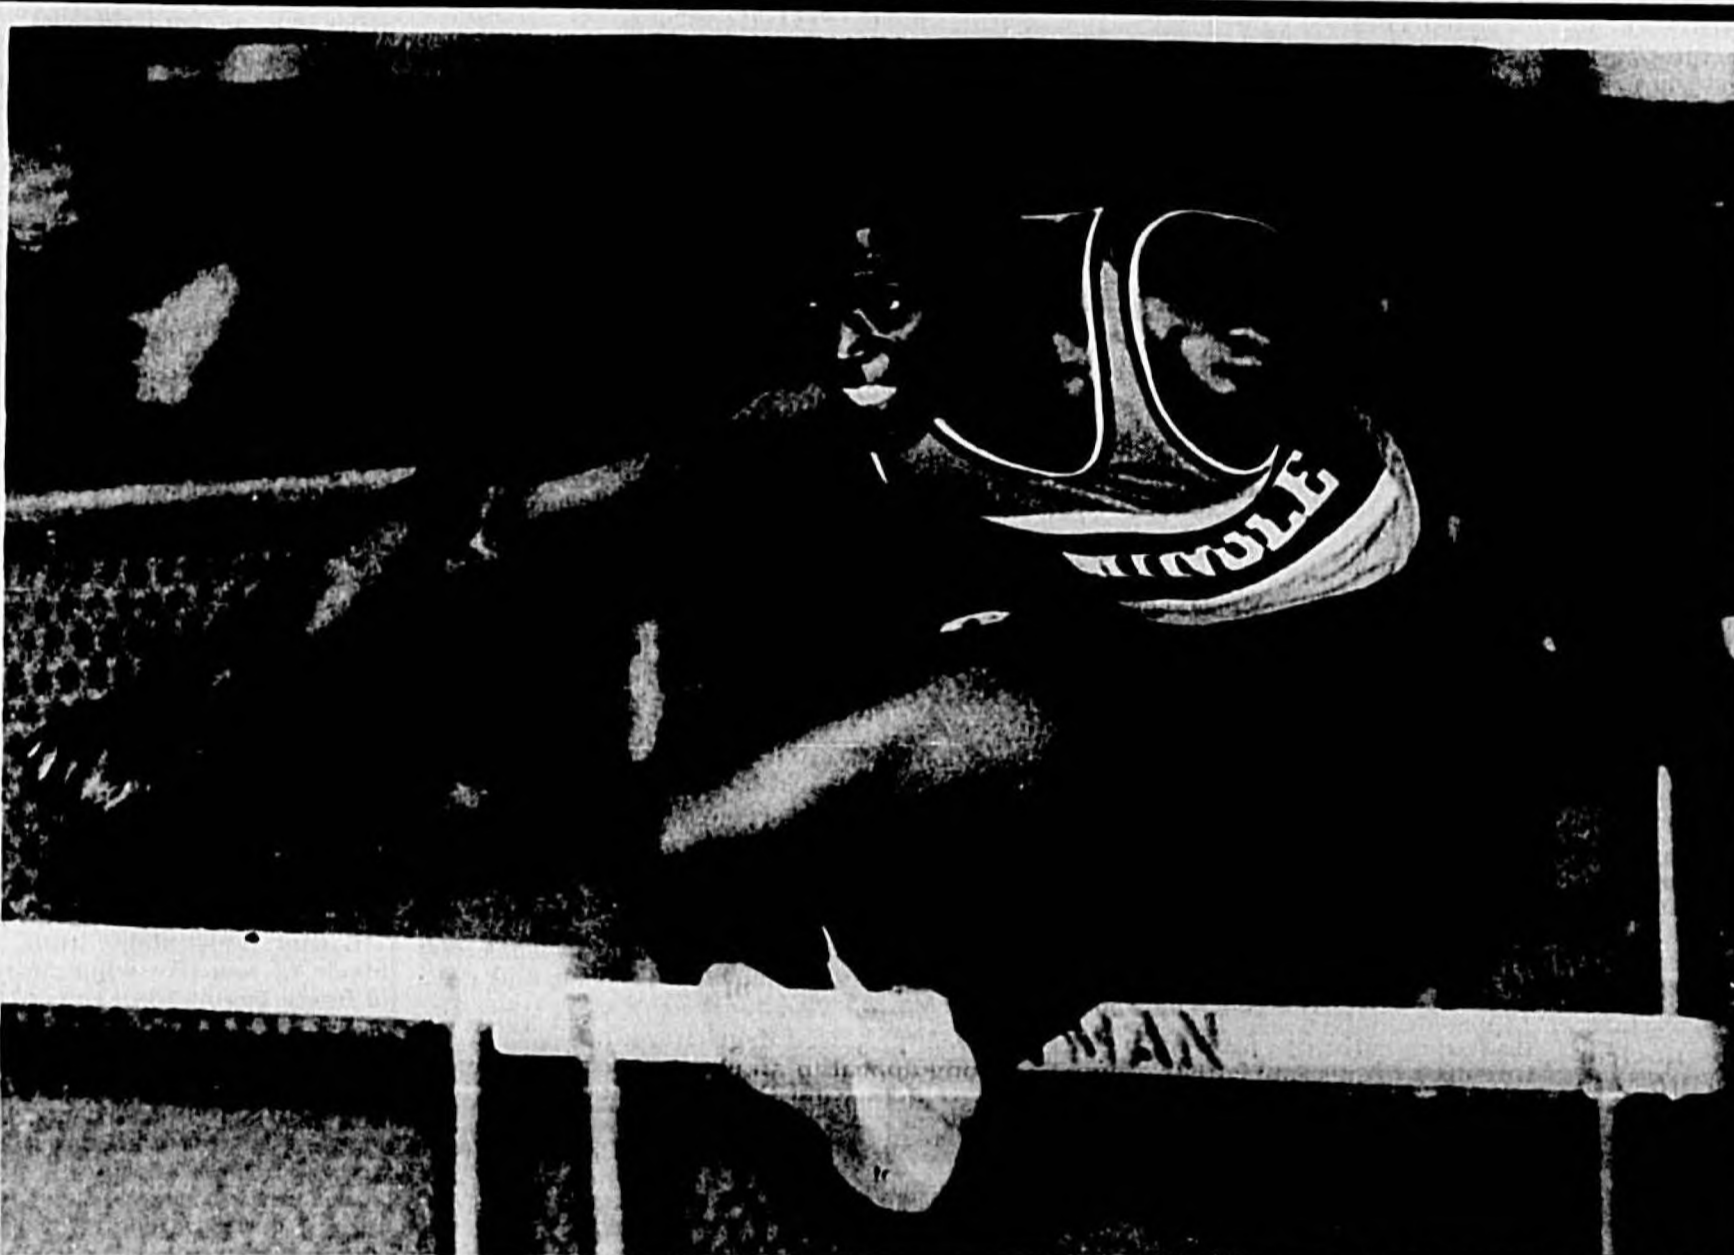

"Once I get into the ring, I'll block out everything," he said.

Tyson has been blocking out Green's histrionics for two weeks. Whenever they've been together, Green has told Tyson he will beat him badly, and questioned the caliber of Tyson's 20 pro opponents.

Tyson, whose knockout streak ended at 19 when James Tillis took him 10 rounds May 3, thinks Green has been trying to unnerve him.

"All the things he's saying he'll do to me, I'd like to see him do them," Tyson said. "Who did he fight? Trevor Berbick? Big deal."

Berbick won a 10-round decision over Green, 16-1-1, last August. Berbick went on to win the World Boxing Council title in March and may make his first defense against the winner of tonight's fight.

Herald Photo by Tommy Vincent

Former Seminole Frank Barnett steps over a hurdle. Barnett qualified for the NCAA meet Saturday.

## Barnett Qualifies For NCAA Meet

By Chris Pieter  
Herald Sports Writer

Frank Barnett, a freshman at Arizona University, was running in some pretty impressive company Saturday afternoon but he more than held his own.

Barnett, a 1985 Seminole High graduate, competed in the 110 meter high hurdles in the Pepsi Invitational at Los Angeles and came away with sixth place with a time of 13.73. That time also qualified him for the 1986 NCAA Track and Field Championships.

### Track/Field

Barnett's sixth place finish Saturday may not seem like much, but consider whom he was running against. First place went to Olympian Greg Foster, running for the World Class Track Club, with a time of 13.27.

Following Foster was fellow Olympian Roger Kingdom, unattached, with a 13.40 clocking. In third was another Olympian, Tonic Campbell, at 13.47.

Fourth place went to Sam Turner, the first alternate on the 1984 Olympic team while University of Houston standout Cletis Clark finished fifth. Needless to say, Barnett was the youngest competitor in the race.

"For Frank (Barnett) to finish sixth in a strong field like that is really something," Seminole High coach Ken Brauman said. "He ran a tremendous time for a freshman, especially considering the college high hurdles are three inches higher than the high school high."

## Hall Of Fame Inducts 5 — Salutes Bell, Gooden

Kerwin Bell and Dwight Gooden were honored for their 1985 athletic excellence while Bobby Allison, Rowdy Gaines, Hal McRae, Ron Fraser and Tom Nugent were inducted into the Florida Sports Hall of Fame Monday night at the Marriott Orlando World Center.

Bell, Allison, Fraser and Nugent attended the fete at the Marriott Orlando World Center while Gooden, Gaines and McRae sent representatives.

Bell was named Florida's Amateur Athlete of the Year and Gooden was honored as Florida's Professional Athlete of the Year.

Bell, a quarterback from Day, was an All-SEC first-team quarterback along with being Superstation WTBS' National Collegiate Player of the Year.

"This is the highlight of my career," Bell, a former walk-on at Florida, said Monday. "The last two years have been unbelievable. Two people made this possible for me. Coach Galen Hall brought me along at Florida, and I wouldn't be there at quarterback without him. My dad taught me the values I have in life, and gave me confidence and support."

Gooden's father, Dan, who lives in Tampa, accepted for his son. "I had a dream of making it in major league baseball," he said. "And I made it through him (Dwight)."

Gooden won the Cy Young Award last season with a sparkling 24-4 record, a 1.53 earned run average and 268 strikeouts. Gooden led the league in all three categories and became only the ninth pitcher to be unanimously voted the award. He was also the youngest.

Jake Gaither, Florida A&M's athletic

director, accepted for McRae, who is currently serving as designated hitter for the Kansas City Royals. "We are very proud to have Hal McRae as a product of our institution," he said.

Allison was next and he gave credit to his parents — Kitty and Ed "Pop" Allison — for his success. "It's their fault I'm so competitive," he laughed. "They gave me nine brothers and sisters."

Allison also talked about starting his career at the south Florida tracks, as well as two tracks in Orlando, before moving onto Alabama for higher paying purses.

"At 48 (years old), I still feel very competitive," Allison, who just won the Winston 500 on May 4, added. He has been voted most popular driver by racing fans on seven occasions.

"Baseball is not an easy sell in Miami of Florida, because of football," Fraser said. Fraser, who enters his 23rd season, has been NCAA Division College Baseball Coach of the Year four times. His teams won World Series titles in '82 and '85. Fraser had 632 wins entering this year.

Nugent, 73, was credited with bring Florida State's football program to prominence during his tour as head coach from 1963-68. He coached Burt (then Buddy) Reynolds and was the creator of the I-formation. Nugent's record was 34-28-1.

"Coaching isn't recruiting, it's making speeches. You're always asked to speak to someone (or group)," Nugent, who expressed appreciation to his wife, Peggy, and family for their contributions. "I am very flattered and grateful to be inducted."

## Rozelle Welcomes A Change

NEW YORK (UPI) — NFL Commissioner Pete Rozelle, who spent three days testifying as the USFL's reluctant witness in its \$1.3 billion antitrust case against the NFL, will be cross-examined today by his own attorneys.

USFL attorney Harvey Myerson said he intends to follow Rozelle's testimony by calling other NFL executives — NFL executive vice president Jay Moyer, and Jack Donlan, executive director of the NFL Management Council, the league's labor negotiating arm.

Each is author of a memo the USFL claims is a "smoking gun" supporting its argument the older league has plotted to shut out its competition.

Rozelle completed his third day of testimony Monday by denying knowledge of, or involvement in any of the three "smoking guns" the USFL has produced.

Rozelle said in testimony last week he had ignored the first — a 1973 memo from Moyer — and did not know about the second — a seminar for NFL executives and staff in 1984 that included a discussion of "How to Conquer the USFL."

Rozelle stuck to those positions Monday, and disavowed knowledge the seminar because its advice was "either wrong, or stupid, or bad from a business standpoint."

The commissioner admitted he later met with the Harvard Business School professor who planned the "conquering" seminar. Rozelle said he had a drink with the professor, Michael Porter.

Rozelle conceded he took the opportunity of the June 1985 meeting with Porter — some eight months after the USFL filed its suit against the NFL — to ask him if he was going to be a witness in the trial.

UPI Photo

## Dimarco Wins Optimist Golf

Lake Brantley High School senior Chris Dimarco, representing the Sanford Optimist Club, has qualified for the Optimists International Junior World Golf Tournament by winning the state competition this past weekend at Sun Air Country Club in Haines City.

Dimarco won the state competition on the second hole of a sudden death playoff after three players tied at the end of regulation. The 17-year-old Dimarco gets a free trip to the international tournament in San Diego in late July. The journey will be played on the Andy Williams course in San Diego.

Another Sanford Optimist competitor, Paul Tynan, was runnerup in the boys division while Kelly Kinner, also representing Sanford, was runnerup in the girls division.

Dimarco's victory marks the third straight year a Sanford representative has qualified for the national event. In 1984, Ovidio's Cheryl Morley qualified in the girls division and Louis Matwiczak in the boys and, in 1985, David Hyman represented Sanford.

"We're a small club and there's a lot of big clubs in the nation," Sanford Optimist Club spokesman Enzo Butler said. "It's quite an accomplishment for us to send a player to national three years in a row."

— Chris Pieter

Hal McRae, right, has a few words with son Brian during a workout at the Royals' spring training camp at Fort Myers. The Kansas City designated hitter was inducted into the Florida Sports Hall of Fame Monday night.

# Hawthorne Christens Jones' Pontiac With Thunder Car Win

**Special to the Herald**  
NEW SMYRNA BEACH — As a Shriner's initiation present to car owner Ray Jones, 20-year-old Casey Hawthorne of Sanford drove Jones' 1986 Buick Pontiac Firebird to victory in the Second Annual Armed Forces 100 Thunder Car Championship on Saturday night at New Smyrna Speedway.

For his victory, Hawthorne pocketed \$725, including \$225 in lap money from Coastal Tires Co.

LeRoy Porter led all the way to win the 25-lap late-model feature. Joe Middleton was second, followed by

Buzzy Berry, Tommy Patterson and Don Hessel. Heat winner/fastest qualifier was David Rogers.

Hawthorne, who in four short years, grew from a baseball star in the Seminole Pony League to one of the top stock car drivers in Florida, took over first place for good on lap 38. The lead change came on a restart, when pole sitter/early front runner Pete Starr burned out his clutch.

Starr held on for second, with another veteran, Ronnie Quarno, finishing third and also completing the 100-lap distance. Fourth and fifth were Harry Barzee and John Cochran.

## Auto Racing

Twelve cars were still running at the finish out of the full 24-car starting field.

Gene Van Alstine won the four cylinder finale, with Mike Kubanek doing the same in the roadrunner division.

The I.M.C.A. Modifieds also made an appearance on the high banked half-mile of pavement. Buddy Meyer in a '38 Ford Mustang, bested Denzil Cormican's Maverick in the 15-lap feature.

### LATE MODELS

Fastest Qualifier: David Rogers, Orlando, 18.507 sec.

First heat (10 laps): 1. Rogers  
Feature (25 laps): 1. LeRoy Porter, Orlando; 2. Joe Middleton, So. Daytona; 3. Buzzy Berry, Orlando; 4. Tommy Patterson, Seaside; 5. Don Hessel, So. Daytona; 6. David Rogers, Orlando; 7. Dick Cornell, Cocoa; 8. Hal Perry, Mims; 9. Loren Bailey, Cocoa; 10. Leo Faulk, Orlando.

### THUNDER CARS

Fastest Qualifier: Pete Starr, Cocoa, 19.93 sec.  
Awarded Forces Thundercar Championship (100 laps) Shoving driver and laps completed: 1. Casey Hawthorne, Sanford, 100; 2. Pete Starr, Cocoa, 100; 3. Ronnie Quarno, Cocoa, 100; 4. Harry Barzee, Winter Springs, 99; 5. John Cochran, Oak Hill, 99; 6. Buddy Meyer, Orlando, 99; 7. Mike Berfield, Daytona Beach, 91; 8. Howard Turner, Orlando, 89; 9. Granny Tatroe, Ormond Beach, 84; 10. T.J. Roop, Orlando, 79; 11. Buddy Whitford, Daytona Beach, 75; 12. Bill Kinley, Osteen, 67; 13. Nick Brandt, Orlando, 59; 14.

### FOUR CYLINDERS

Heat (6 laps): 1. Mike Kubanek, Longwood; 2. Gary Salvatore, Daytona Beach; 3. Tommy Ellis, Edgewater; 4. Don Ewen Jr., DeBary; 5. Lenard DeHoff, New Smyrna Beach; 6. Jeff Rinehart, Daytona Beach.

### ROADRUNNERS

Heat (6 laps): 1. Mike Kubanek, Longwood; 2. Gary Salvatore, Daytona Beach; 3. Tommy Ellis, Edgewater; 4. Don Ewen Jr., DeBary; 5. Lenard DeHoff, New Smyrna Beach; 6. Jeff Rinehart, Daytona Beach.

### I.M.C.A. MODIFIEDS

Heat (6 laps): 1. Buddy Meyer, Bronson; 2. Denzil Cormican, Sparr; 3. Sidney Jones, Ocala; 4. Al Brachard, Williston.

# Bad Luck Continues To Plague Andretti

INDIANAPOLIS (UPI) — Misfortune has plagued Mario Andretti at the Indianapolis 500 since his 1969 victory, and this year is no exception.

Andretti was forced to the back of the 33-car lineup Monday after pulling his qualified Lola-Cosworth from its starting spot in the middle of the second row. The car could not be repaired after a practice-session crash last Wednesday, so Andretti will drive his backup car Sunday when he makes his 21st start at the Indianapolis Motor Speedway.

Andretti was forced to start at the back two previous times at Indianapolis, both times because he was driving Formula One races during qualifications. The Italian-born veteran started 33rd, and placed 12th in 1978. In 1981, he started in 32nd position, and finished second after a controversial five-month battle with eventual winner Bobby Unser over a penalty for passing during a caution period.

Accidents eliminated Andretti in 1982, 1983 and 1984, with the most notable being the 1982 crash at the start of the race involving Kevin Cogan and A.J. Foyt.

In addition, a 1982 practice-session crash at the Michigan 500 cost Andretti the pole. His backup car started next-to-last, and finished second.

Andretti, who suffered injured knees and a cut left foot in the

## Auto Racing

crash, tested another car Monday at Milwaukee.

"I don't think you are going to pass 20 cars in five laps like I did one time," Andretti said last week when first faced with the possibility of losing his main car. "You're going to get turbulence and traffic and no place to go for a long time. It's no fun.

"This is not something I'm looking forward to, but there is no alternative," Andretti said in a news release Monday. "Fortunately, I had some time in the backup car before the accident, and we were able to work on a race setup during the last weekend."

Andretti's knees have healed, his feet are improving, and he expects to be fully recovered by race day, said Michael Knight, a spokesman for the Paul Newman-Carl Haas racing team that sponsors Andretti.

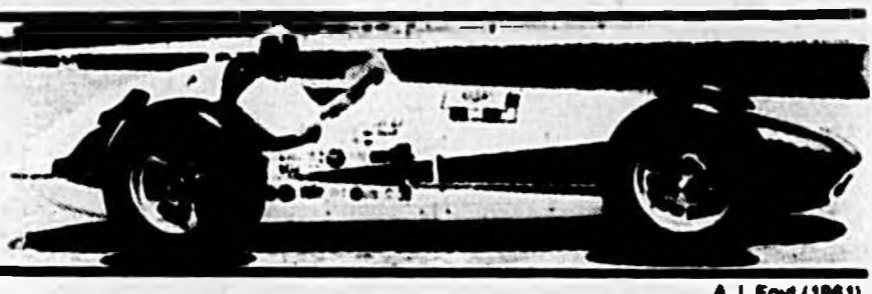

"I'd describe his attitude as accepting the reality of the situation," Knight said. Andretti qualified at 212.300 mph May 10, but last week's third-turn crash caused extensive damage to the tub and chassis of the car. Workers at the Lola factory in England spent the past four days trying to fix the vehicle, but there was too much damage and too little time.

# INDIANAPOLIS 500

A.J. Foyt (1977)

TRIVIA PURSUIT	
Most wins	4, A.J. Foyt (1961, '64, '67, '77)
Most consecutive wins	2, Wilbur Shaw (1939-40), Mauri Rose (1947-48), Bill Vukovich (1963-64), Al Unser Sr. (1970-71)
Fastest winning speed	163.612 mph, Rick Mears (1984)
Slowest winning speed	74.69 mph, Ray Harroun (1911)
Biggest winning margin	13:08, Jules Goux (1913)
Smallest winning margin	0.16 seconds, Gordon Johncock (1982)
Most laps led, winner	168, Billy Arnold (1930)
Fewest laps led, winner	2, Joe Dawson (1912)
Youngest winner	22 years old, Troy Ruttman (1982)
Oldest winner	47 years old, Bobby Unser (1981)

A.J. Foyt (1981)  
Defending champ Danny Sullivan isn't listed in any of these Indianapolis 500 categories. In 1984, though, Rick Mears had the fastest winning time ever. This year's Indy 500 is Sunday, May 25 (on ABC-TV).

# Rookies Drive Past Indy 500's Roadblock

INDIANAPOLIS (UPI) — The four rookies competing in Sunday's Indianapolis 500 each overcame a major roadblock to make the starting grid.

For Randy Lanier, Jacques Villeneuve, Roberto Moreno and Phil Krueger, just starting the race will be a positive sign.

Lanier became the fastest rookie qualifier in race history, averaging 209.964 mph in a March-Cosworth around the 2 1/2-mile Indianapolis Motor Speedway oval. Last year, Lanier passed a rookie test, but was not allowed to practice by speedway officials until he gained more Indy car experience.

"I was very disappointed last year, but I've logged quite a few laps since then," Lanier said. "I felt I could have qualified. I'll do a better job this year than I would have done last year."

Lanier, 31, of Davie, Fla., competed much of last season on the Indy car circuit. This year, Lanier was asked to drive extra laps under observation after passing his rookie test. He did so, then showed his experience had paid off by breaking Michael Andretti's rookie mark of 207.805 mph.

"I didn't come here to set any records," he said. "I came here to get in the race and get experience. I was just shooting to get in the field."

Lanier will start from the inside of row five while Moreno of Brazil begins from the outside

## Auto Racing

of the same line. Moreno was asked to stay below 200 mph during his rookie orientation and consistently improved his speeds as practice continued. He qualified a Lola-Cosworth at 209.469 mph.

"It's like a dream come true to be here," Moreno said. "I have built up speed slowly because you have to adjust as a driver to the high speeds."

Moreno, 27, is making only his second start on an oval course. This year's CART race in Arizona, where he placed 20th, was the first.

"I was nervous at Phoenix, but not really here," Moreno said. "After the first, I have some confidence. I'm beginning to feel at home here."

The same is true for Villeneuve, 30, whose sports dream other than racing is to play goaltender for his hometown hockey team, the NHL's Montreal Canadiens.

In 1984, Villeneuve was the slowest qualifier for the race, but suffered head injuries in a practice crash that left him unable to drive. Last year, Villeneuve crashed twice in four days and gave up his car to veteran Johnny Parsons.

## TIDBITS

Last year, the Boston Red Sox led the majors in hitting with 143 hits a game. This year, they have hit 143 in 26 games.

Last season, the Detroit Tigers made 143 errors and finished last in the AL in fielding with 22 leading mistakes in 34 games.

Tigers are on a pace of making 143 errors.

Last year, the Toronto Blue Jays led the American League with a night ERA of 3.29. This year, the Toronto staff has a 3.62 ERA.

Last season, Seattle Mariners hitters struck out 143 times, most in the American League. This year, Seattle batters have fanned 143 times, a pace of 143 for the year.

Baseball Commissioner Peter Ueberroth says the Players Association and management are getting closer to an agreement on drug testing.

"It seems to me it's clear, but it's not a done deal," Ueberroth said.

Ueberroth said sports agents of a senior manager of San Diego Padres are being sued by the club for allegedly helping the manager cover up his drug use.

Ueberroth said he did not put on ban after game beer in the clubhouse, and halted the Padres' beer drinking company for its efforts to encourage drug use.

"It's smart to care," Ueberroth said. "If you're in the business, you'd better care, or you may not be in the business long."

## WINLESS STIEB BLAMES UMP, FIELDERS FOR LATEST SETBACK

### United Press International

Dave Stieb's ego has gotten as big as his earned run average.

The Toronto Blue Jays right-hander was quick to place the blame on everybody but himself Monday after he lost for the sixth straight time and had his ERA soar to 6.33.

After the Cleveland Indians pounded Stieb for five runs on 10 hits in seven innings en route to a 6-4 triumph, the Toronto pitcher blamed plate umpire Rich Garcia and his own fielders for his latest setback that left him with an 0-6 record.

"I don't know what kind of defense we're playing against these teams, but it sure as hell wasn't working," said Stieb, who last won Sept. 27 of last season. "If you pitch a guy outside and they play (him) to pull ... I don't know what they're doing. They can see the signs."

Stieb was even less charitable with Garcia. "I'm not getting the calls," Stieb squawked. "I don't want to be given anything. I just want what's there. I wasn't that wild. I pitched five or six innings and didn't complain. I'm not trying to show him up, but I can only take so much."

Stieb won the American League's ERA title last year, but has been wild this season and hit hard on several occasions.

Mel Hall pummeled Stieb Monday with a 4-for-4 performance that included a triple, an RBI double, two singles and a walk.

"He's not as sharp as he usually is, that was evident by the way he swung the bat against me," said Indians manager Pat Corrales. "We'd heard that his location hasn't been as good as it was in the past."

Phil Niekro, 3-3, won his 303rd career game by allowing four runs on 10 hits over eight innings.

The veteran knuckleballer struck out four and walked three before allowing a leadoff double to Tony Fernandez in the ninth. Scott Bailes came on to notch his third save.

Elsewhere in the American League, Boston edged Minnesota 8-7, and Kansas City topped Texas 6-4. California at Baltimore was rained out. There were no games scheduled in the National League.

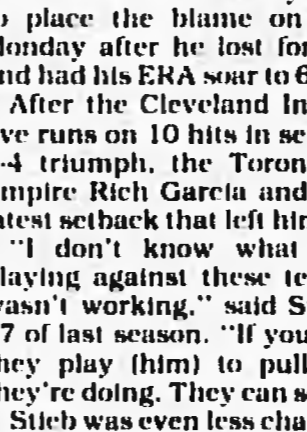

**Red Sox 6, Twins 7**  
At Boston, relief pitcher Ron Davis walked home the tying run with two outs in the ninth inning, then hit Marc Sullivan with a pitch to force home the winning run, giving the Red Sox their victory. Joe Sambitto, 1-0, pitched one inning in relief to pick up the triumph. Kent Hrbek and Tom Brunansky homered for Minnesota, and Bill Buckner connected for Boston.

Unlike Stieb, Davis completely shouldered the blame for the loss.

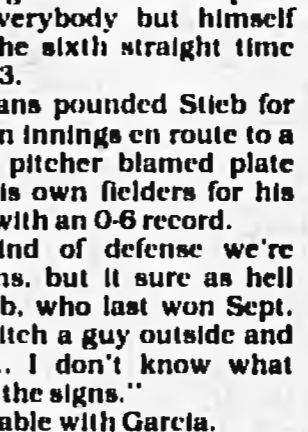

"I just screwed up," said Davis. "It's all my fault. I thought I pitched good, but he got me to a walk. I let the team down."

# Winless Stieb Blames Ump, Fielders For Latest Setback

## Baseball

Dave Stieb

Phil Niekro

unanimously approved a proposal to have the Chicago Cubs play postseason home games at Busch Stadium in St. Louis because of the prohibition of night baseball at Wrigley Field, the league announced Monday.

The action, taken May 13 at a meeting in New York, was intended to fulfill the major league's contractual obligations for night telecasts of postseason games. City and state laws currently prohibit night baseball at Wrigley Field, the only major-league stadium without lights.

"This is an unfortunate situation but given the lack of lights at Wrigley Field the best alternative is to have the Cubs play in the nearest N.L. Eastern Division city," league president Chub Feeney said.

Cubs president-general manager Dallas Green, who warned opponents of lights at the stadium last year that the club would be forced to move to another ball park, said he was not surprised by the decision.

"I've been saying this for four years that it was going to happen unless something would be worked out," Green said.

Asked if he thought the Cubs could install lights by the end of the regular season, Green said: "No, the deadline was May 1. I don't think it can be done. It would take a small miracle."

Two years ago, the Illinois legislature enacted an ordinance prohibiting lights at the NL's oldest ballpark, as a result of opposition from local residents. Green asked that lights be installed for use in 18 games a year to guarantee that if the club made the playoffs, it would not have to move to another site.

In 1984, when the Cubs won the Eastern Division title, the major leagues agreed to switch the order of the World Series games so that the team could play the third, fourth and fifth games at home on the weekend, instead of the night games. The Cubs were eliminated by the San Diego Padres in the National League Championship Series.

The Cubs, in fifth place and 10 games out of first in the NL East with a 14-20 record, have entered into an agreement in principle with the Civic Center Corporation in St. Louis to use Busch Stadium if they make the playoffs this year.

# CUBS' POSTSEASON AT ST. LOUIS

## NEW YORK (UPI) — National League owners

The Cubs, in fifth place and 10 games out of first in the NL East with a 14-20 record, have entered into an agreement in principle with the Civic Center Corporation in St. Louis to use Busch Stadium if they make the playoffs this year.

# SPORTS IN BRIEF

## FSU, Miami To Play Host Roles, But No Bid For Central Florida

MIAMI (UPI) — Florida State and the Miami Hurricanes both received bids to host regional NCAA baseball tournaments this week.

It will be the fourth straight year the Seminoles have been the host of a regional and the second straight for the defending national champion Hurricanes.

The University of Central Florida, which posted a 46-13 record under coach Jay Bergman, did not receive a bid.

Florida State will be joined at Tallahassee's Seminole Stadium beginning Thursday by South Florida, Texas A&M and North Carolina State.

The Atlantic Regional Tournament at Mark Light Field in Coral Gables has drawn, in addition to the top-seeded Hurricanes, Georgia Tech, Alabama, South Carolina, Navy and Western Carolina.

In the first round, the Hurricanes will play sixth seeded Western Carolina; second-seed Georgia Tech meets fifth-seed Navy; and Alabama, seeded third, takes on No. 4 South Carolina.

Georgia Tech (42-21) won the Atlantic Coast Conference tournament at Durham, N.C., with a five-game sweep last weekend.

Alabama (40-18) got the bid by defeating top-ranked LSU two out of three in a weekend series.

## Scott Hurls Indians To 2 Wins

In Altamonte Little League Major's Division action last week, the Indians took home their 11th and 12th wins of the season. In the first game the Indians belted out 11 hits to take a 21-0 victory over the Astros and came back to beat the Yankees 9-5.

Kevin Scott pitched both games allowing only four hits, while shutting out the Astros he only allowed one hit and struck out three and walking just one. It was Mike Elliot leading the offensive power in the game hitting two singles and a grand slam home run to bring in five runs. Brian Dangel and Chris Lubinskas had two hits each and hit in four more runs, respectively. Tim Graham and Eddie Storey each came out of their hitting slumps to pace the win.

In the Indians' win over the Yankees they used the first three innings to score all their runs and were able to hold a comeback threat by the Yankees. Scott and Lubinskas combined to pitch a three hitter while striking out 13 and walking three.

Elliot hit another homer to pace a well balanced hitting attack as Shane Odom, Scotty Brushwood, Dangle, and Scott all got into the hitting column. Scott helped his cause belting out two doubles and bringing in two runs while scoring twice also.

## Thigpen Helps Sox Drop Cubs

CHICAGO (UPI) — Bobby Bonilla's two-out RBI double in the sixth inning snapped a scoreless tie Monday and helped the Chicago White Sox to a 3-0 victory over the Chicago Cubs in an exhibition game at Wrigley Field.

The victory gave the White Sox a sweep of the two-game series. They beat the Cubs 7-4 at Comiskey Park last year.

Joe Cowley, who scattered four hits over the first five innings, earned the victory. Bobby Thigpen, recalled from Birmingham, pitched two scoreless innings and Bryan Clark, recalled from Buffalo, pitched the final two innings to record the save. Thigpen played at Seminole Community College two years before going on to a fine career at Mississippi State.

## Smith, Twins Sweep Columbus

Robbie Smith limited Columbus to five hits as the Orlando Twins swept their first double-header of the year, 5-4, and 4-1, in Southern League baseball before 2,198 fans on Seminole County Night at Tinker Field.

Bob Parker, a Longwood Lyman High School and Seminole Community College product, played shortstop in both games. Parker was 0 for 2 in the first game and 0 for 3 in the second game.

Orlando's Gene Larkin singled home the winning run to cap a two-run rally which won the first game. Smith, who struck out six and walked two, benefitted from a four-run fourth inning to pick up his fourth win in six decisions in the second game.

## Lyman Selects Cheerleaders

Lyman High School has chosen its cheerleading squads for the upcoming football season recently by sponsor Cathy Keaton.

The varsity squad will be lead by captain Laurie Blancfield and co-captain Holly Grinnell. Other members include: Tami Bellevue, Dione Clary, Julie Crosby, Carrie Haines, Kim Mitchell, Chandra Roberts, and Linda Schultheis.

The junior varsity members are Renee Laurendine (captain), Christie Phelps (co-captain) Karen Bierman, Beverly Hatcher, Debi Nanus, Kathy Walton, Amy Whitworth, and Teresa Yurchison.

The freshman squad members are Shannon Bernard, Kristy Dunlap, Tammy Fulaang, Debbie Gennarelli, Cindy Luke, Aimee Riggie, Kim Robinson, and Kim Wagner.

## Byrd Slugs Rotary Past Kiwanis

Laquanca Byrd belted a home run and three singles as Rotary Breakfast Club hammered Kiwanis, 22-7, in Sanford Junior League Softball Monday night at Fort Mellon Park.

Talamisha King adeed two singles, a double and a triple while Katherin Williams collected four singles for the winners. Dede Irwin had three singles and a double while Tiffany Jones had a trio of singles.

Latonya Farmer slugged a homer and a single for Kiwanis. Nakia Riggins stroked three singles while Anita Brown and Tricha Bryant each slapped two hits.

Green Bay — Released linebacker Rich Wingo.  
New Orleans — Placed running back Tyrone Anthony on waivers after he failed to pass a physical of the team's mini camp.  
NY Jets — Traded tackle Marvin Powell to Tampa Bay for a conditional eighth round pick in 1987.  
St. Louis — Signed 17 players to free-agent contracts; wide receivers David Wilson, Wade Lockett, Thomas Brown, Tim O'Byrne, Kevin Vinters, defensive ends Michael Willis and Victor Burnett; linemen Stacy Price, Darren White and Mark Michaels; kicker Danny Miller; nose tackle Trey Starnach and Steve Latta; defensive back James Newsum; tight end Richard Siler; running back Bradrick Sargent; offensive tackle Eric Hanson.  
Hockey  
Minnesota — Traded left wing Tom Iles, center to Boston for a second and third-round choice in the entry draft.  
Soccer  
Major Indoor Soccer League — Named Bill Kuntzing, general manager of Wichita, coach.

# Collins Next For Bulls? Ewing Voted Top Rookie

## NBA Roundup

CHICAGO (UPI) — Former NBA guard Doug Collins is in line to become the ninth coach in the last 10 years for the Chicago Bulls, succeeding Stan Albeck, who was fired Monday.

Collins and the Bulls hope to conclude negotiations by week's end, Bulls' owner Jerry Reinsdorf said Monday.

Albeck was dismissed after the injury-plagued Bulls went 30-52 in the regular season, and were eliminated in three straight games by the Boston Celtics.

Reinsdorf, who reportedly was set to fire Albeck earlier this month, had postponed the decision after the flap concerning retaining Tony LaRussa as manager of the Chicago White Sox. Reinsdorf is chairman of the board of the American League club.

"When we hired him, we thought we had an understanding as to the way we wanted basketball to be played, but during the year it became obvious there wasn't," said Reinsdorf, who said he wanted to get away from "one-on-one" and "isolation" basketball. "I want us to play like the Celtics and Lakers."

Reinsdorf said he still believes Albeck is a "competent" NBA coach, but added Collins would be a better one.

"We're looking at someone who could be a coach in the next 10 years for us," Reinsdorf said. "We still have some things to work out, but we hope to have it concluded by the end of the week."

Albeck insisted he wasn't bitter, but fired a parting salvo at

general manager Jerry Krause and Reinsdorf.

"It's not bitterness, but all you have to do is look and see what has happened in this organization," Albeck said. "I'm just sorry I didn't get a chance to bring Stan Albeck-style basketball here."

Albeck, who has one year remaining on a two-year pact estimated at \$250,000 a year, likened his plight to that of the White Sox.

"The way they handled it was with a lack of dignity, respect or much sensitivity. The parallels to the LaRussa-Harrelson thing are uncanny."

PATRICK BY WIDE MARGIN  
NEW YORK (UPI) — New York Knicks center Patrick Ewing, who missed 32 games in an injury-plagued first season, Monday was named the NBA's Rookie of the Year by a wide margin.

Ewing was the top scorer and rebounder among all first-year players after being the No. 1 pick in the June college draft. The 7-foot former Georgetown All-America was the only rookie to play in the NBA All-Star Game.

Ewing received 36 of a possible 78 votes from sports writers and broadcasters across the country. Forwards Xavier McDaniel of Seattle and Karl Malone of Utah finished with 16 1/2 and 14 1/2 points, respectively. Atlanta's Spud Webb, the league's slam-dunk champion at 5-7, received four votes. Washington's 7-7 Manute Bol and Chicago forward Charles Oakley were each named on four ballots. Los Angeles Clippers center Benoit Benjamin got the remaining vote.

Patrick Ewing slams home two points. Ewing was named the NBA Rookie of the Year Monday.

# Player: Thomson's 9 Titles Out Of Reach

MALVERN, Pa. (UPI) — Gary Player says no one can match Peter Thomson's record of nine PGA Senior titles in a year.

Player, in his first year on the Senior circuit, notched his third triumph Sunday, a one-stroke victory in the tournament at Chester Valley Golf Club, but does not have his eyes on Thomson's mark.

"There are too many good players out there for that to happen," he said. "The field has increased tremendously since Peter Thomson won those nine tournaments. If you win four, that's as good as winning nine."

Player's victory boosted his yearly earnings to \$158,238, tops on the tour.

"I'm very excited to have won the tournament," said Player, who raised both

arms in triumph after clinching his win with a five-foot putt for par on the 10th hole. "I have three Senior wins in seven tournaments. I've also had a second and a third, so it's been a nice start for my Senior career."

Player, 50, has changed very little since his days on the PGA tour. He still often wears black clothing, although he chooses lighter shades in hot weather, and his trademark baseball cap has been replaced by a wide-brimmed fedora that gives his face more protection from the sun.

He remains in excellent physical condition, watching his diet carefully and work-

ing out regularly in the gym.

"I love food," he said. "Eating is an enjoyable thing. I make a sacrifice at what I eat, and I think it pays off."

"It's very rewarding to come out here and feel strong and win after working so hard," he said, adding he worked out for an hour in the gym after the first two rounds of the tournament.

"Most people, unfortunately, think they're going downhill when they reach 50," he said. "That is not the case at all. If you look after your body, you can be going uphill at 50. My strength is going uphill. Next year, when I'm 51, I will be stronger than I am at 50. When I'm 52, I will be stronger than I am at 51."

# Flames Need 'W' At Forum

MONTREAL (UPI) — The Calgary Flames must win at least once more in the Montreal Forum this season if they are to drink from the Stanley Cup.

The Canadiens will have their home-ice superiority severely tested when they host the Flames in Games 3 and 4 of the best-of-seven series, beginning tonight. They are 8-1 in the Forum during the playoffs, but the Flames have posted the best postseason road record in the league, 5-3.

Montreal earned a split of the opening two games in Calgary's Olympic Saddledome with a victory Sunday night. The teams split their two regular-season games in the Forum this season; Calgary winning 5-3 March 15 and, Montreal winning 4-3 Nov. 23.

"We've played well at the Forum," Calgary defenseman Al MacInnis said. "We've played well on the road throughout the playoffs (topping the Edmonton Oilers in Edmonton). The experienced guys on this team will make a difference."

So far for Montreal, the inexperienced guys have made a difference. The Canadiens play numerous rookies, including Brian Skrudland, whose winning goal in Game 2 gave Montreal a 3-2 triumph, and set an NHL record for the quickest score in overtime — nine seconds.

"Hopefully, we'll be 9-1, then 10-1 at home by the end of the week," said Skrudland, who broke the record set by J.P. Parise with the New York Islanders in 1975.

"The Rocket" couldn't do it. Canadian Bobby Smith kidded Skrudland during the flight home from Calgary, referring to former Montreal legend Maurice "Rocket" Richard. "Bobby Hull never did it."

"But who scored a goal nine seconds into overtime? It was Brian Skrudland who did it."

The Canadiens are loose, happy to be home, and happier yet with a victory behind them.

"I thought either team could have won last night," Skrudland said.

Montreal dominated, but was held at bay by Calgary goalie Mike Vernon, who said, "I don't think there was any way we should have won that game."

Skrudland continued: "The biggest thing (about the goal) is that it gave us home-ice advantage. Now we gotta make sure we take advantage of it."

"I'm sure they're going to want to get on us early. I'm sure (former Canadian) Doug Riebhorn explained to them about how our crowd, they fire us up of course, and what it's like in our rink."

"What it's like" is imposing, with 22 Stanley Cup banners hanging overhead.

As far as seven-year Calgary veteran Mike Eaves is concerned, the tradition is going strong.

"Well, they've got new names, but the same type personnel. They're still peaky, still come at you. Their goaltending? Well (rookie phenom Patrick) Roy's good, but he has to show me a lot more before I compare him to what they used to have here — guys like (Ken) Dryden."

Roy's 1.91 goals-against average and 12-5 record are the best in the playoffs. His counterpart, Vernon, is 12-6 with a 2.61 goals-against average, making the battle of rookie goaltenders the focal point of the series.

Vernon and Calgary coach Bob Johnson maintained the Canadiens interfered with Vernon in Game 2, running him in the crease.

To which Montreal coach Jean Perron responded: "There is an unwritten law that you don't touch the other goalie. One of their defencemen pushed our player (Chris Nilan) into the crease. There's not much we can do about it."

"A lot of things are going on after the whistle."

# NATION IN BRIEF

## Suit Says Snuff Maker Ignored Cancer Studies

OKLAHOMA CITY (UPI) — A smokeless tobacco maker spent millions on salesmanship but never tried to protect youths such as a snuff-dipping 19-year-old track star who died of mouth cancer, his mother's lawyer said.

Attorney Dania Braley said Monday in opening statements of the first jury trial of a suit blaming a smokeless tobacco company for a cancer death that U.S. Tobacco Co. ignored studies linking snuff such as the company's Copenhagen brand to cancer.

"They spent millions — not trying to make their products safer — but in marketing research to find the best way to make the public use their product," said Braley, who represents Betty Ann Marsee of Ada, Okla., in her \$147 million suit.

"U.S. Tobacco made the decision to exploit health issues over cigarettes," Braley said, asserting that the company played on the public's fear of cigarettes by pushing chewing tobacco as a safe alternative.

Marsee charges that Copenhagen snuff caused the tongue cancer that killed her son, Sean, in February 1984.

Marsee, the first witness in the case, told jurors that Sean told her he thought snuff was safe because it had no warning label and athletes would not advertise it if it were dangerous.

## Military Mishandled Toxic Waste

WASHINGTON (UPI) — Twelve of 14 military facilities examined by congressional investigators carelessly handled toxic chemicals, possibly allowing cancer-causing agents to seep into the water, ground and air, officials say.

The chemicals in facilities probed by the General Accounting Office include cancer-causing PCBs, paints, acids and sludge from repairs of military vehicles that could seep into the environment.

Military personnel were found to have stored poisonous waste in leaky containers and improperly packaged and labeled waste containers prepared for transport, the GAO, congress's investigative arm, reported Monday.

The facilities with the most reported offenses were all Navy sites: the Mare Island Naval Shipyard in Vallejo, Calif.; the Naval Air Station in Alameda, Calif.; the Philadelphia Naval Shipyard in Philadelphia; and the Marine Corps Air Station in Cherry Point, N.C.

## Stall Advised On Saudi Vote

WASHINGTON (UPI) — President Reagan, advised to stall for time, is waiting to see if he has won any support before deciding whether to veto congressional rejection of an arms sale to Saudi Arabia today or wait until midnight Wednesday.

The president arranged to meet with a group of 35 Jewish leaders late this afternoon to "explain Middle East policy to them," deputy press secretary Larry Speakes said.

Some Jewish groups have displayed resentment, fearing they have been set up by the administration to take the blame for the expected defeat of the weapons sale at the hands of Congress.

## Reagan Signs Gun Bill Into Law

WASHINGTON (UPI) — President Reagan signed into law a controversial bill allowing gun owners to buy and transport rifles and shotguns across state lines — a measure opponents claimed would weaken the nation's gun laws.

Reagan signed the bill Monday at a private ceremony attended by key supporters and sponsors of the legislation, which makes the first change in the gun laws since the 1968 Gun Control Act. The press was not allowed to attend the ceremony.

The legislation, approved by both the Senate and House recently, ends an 18-year battle by the gun lobby to weaken the gun control law, enacted after the assassinations of Martin Luther King Jr. and Robert Kennedy.

## Search On For Ship's Crew

BALTIMORE (UPI) — Freak winds up to 100 mph came off the Atlantic Ocean with "lightning speed," topping the clipper ship *Pride of Baltimore* before its crew could react, officials said.

Eight of its 12 crew members were rescued by a Japanese tanker Monday from a life raft that drifted at sea four and a half days, and the Coast Guard planned to transport them today to Puerto Rico.

The Coast Guard continued searching for four missing crew members, but one survivor told *Pride of Baltimore* officials over the telephone that the bodies of two crew members were seen floating in the water.

## 5 Dead, 5 Missing After Storm

LIVINGSTON, Texas (UPI) — Rescuers pulled five bodies from an east Texas lake and searched for five more people missing since a violent storm struck last weekend, tossing motorboats around "like match sticks."

The death toll at Lake Livingston, where a storm packing 90-mph winds capsized boats and damaged buildings Saturday, rose to five Monday with the discovery of the bodies of three Houston-area residents beneath their capsized fishing boat.

Polk County officials said they would continue to search today for five missing boaters at the lake north of Houston.

# Sewer Rate Increases Adopted Unanimously

By Jane Casselberry  
Herald Staff Writer

Longwood City Commission unanimously adopted sewer rates for customers of the city's Skylark and Columbus Harbour treatment plants Monday night after two weeks delay and work sessions to answer residents' questions on the past, present and future of the sewer system.

In addition to raising residential sewer rates from a flat \$12 to \$24 a month and commercial rates to 300 percent of the water bill or \$24, which ever is most, rates were increased for the dog track.

The monthly fee for a residential or commercial establishment which is vacant, but for which capacity in the system is retained, is now \$4 a month.

As an incentive to developers and homeowners to install or

convert to a "gray water" system, sewer fees will be reduced by 25 percent per month and sewer connection fees will be reduced \$100 for those residential and commercial customers installing or converting to a "gray water" system.

A "gray water" system is one which retains waste from showers, bathtubs, laundries and sinks on site in a drainage field or in a recirculating retention tank. Only waste from toilets and garbage disposal units goes in to the city's sewage disposal system when a "gray water" system is used.

To reassure Skylark residents, a stipulation was added to the ordinance stating at no time will the plant be permitted to exceed its capacity and any commissioner who votes to do so will be guilty of malfeasance and misfeasance of office.

In the past the sewage treatment system has been subsidized by the water revenue, and rate increases were required, officials said, by the lending institutions from which the city hopes to borrow \$2.5 million to build a new sewage treatment facility next to the city cemetery to replace the inadequate package plants at Skylark and Columbus Harbour. Columbus Harbour plant will be phased out completely and a force main installed to take sewage now being treated there to the Skylark plant.

An ordinance revising the five geographical commission districts to compensate for growth in the past three years and bring more equal distribution of the population passed unanimously.

The mid-term budget amendments were tentatively approved and a public hearing was scheduled for June 2. The commissioners have questions on the budget changes and are planning a work session on the revisions with department heads at 7 p.m. today in city hall.

## ...Deputy

Continued from page 1A

department for a shift change, the witness was at the department and reportedly singled out a suspect.

When confronted Monday about the items found in his patrol car, Starr reportedly told investigators that it was being treated as abandoned and reserved, to be turned into the department, Spolski said.

The owner of Chappy's told sheriff's investigators that the liquor missing from his club had not been abandoned and no one had permission to enter his property or to take any items from that club, Spolski said.

The woman witness told sheriff's investigators that she had also seen the same suspect and another man at Chappy's on Monday, May 12, the

day before the liquor was taken from the building.

Spolski said the second man has been identified as Starr's brother-in-law who was riding on patrol with him, but who is not a sheriff's deputy. The brother-in-law has not been charged and was not seen at Chappy's at the time of the burglary, he said.

Starr, a DeLand resident, is scheduled to appear in court June 9.

"We're not aware of anything else at this time" that might link Starr to any other illegal activity, Spolski said. However, a probe continues, he said. Spolski said he doesn't see that the charges filed against Starr will have any bearing on the position of Starr's wife, Pat Starr, who works in the sheriff's department records division. She has taken a few days off, he said, but there has been no discussion of her position within the department.

## ...Horner

Continued from page 1A

When Horner assumed the top position in the chamber in 1973, it had 320 members and Sanford had a population of 22,000. Today, the chamber boasts a membership of 1,133 and the city has grown to 27,500. In 1973, the chamber had eight committees. Today it has 17 working on topics from beautification to sports to roads and bridge.

Horner joined the chamber after 13 years with Martin-Marietta Corp. in Orlando where he was Employee Relations Administrator. He has lived in Sanford since 1957 when he was stationed at the Naval Air Station now site of the Sanford Airport. He was a flight engineer and public relations officer for the station until he retired from the Navy in 1960. He joined the Navy after deciding he didn't want to work his entire life in a Pennsylvania steel mill, which also employed 38 of his relatives.

Horner told the *Evening Herald* that while he is proud of many accomplishments during his 15 years at the chamber's helm at the top of the list is the Golden Age Games.

The games have had a significant economic to Sanford and brought the city recognition, Horner said. Since the first games in 1975, at least a dozen other cities, and perhaps as many as 50 cities, now hold the Olympic-like contest for people 55 and older. In 1985, the games in Sanford drew participants from 21 states and four foreign countries.

Horner also said he was pleased with the chamber's in-

volvement in the obtaining the railroad overpass (Sidney O. Chase Jr. Bridge) west of Sanford and the Douglas Stenstrom Bridge east of Sanford to Osteen. He included participation in Seminole County's bicentennial celebration and Sanford's centennial celebration in 1977 on the list of accomplishments as well as the naming and beautification of Centennial Park and the tradition since 1974 of having a fireworks display on the Fourth of July. Also during his tenure, Sanford was named by the state and federal officials as a historic commercial district.

"It takes a strong business community to support a chamber," said Horner. He said it is the same business community which also provides the financial basis for the "good things" in a community such as youth programs, sports, music and other cultural activities.

"If the businesses are not making it, the fine things won't," he said. He said he thinks he accomplished his goal of making the Sanford area an attractive place for businesses and families to locate.

Horner, who lists participation in 34 civic organizations and projects, said that after he and his wife are through wheeling around the U.S. and Canada in their newly acquired motorhome, they will return to Sanford and again become involved in community but on a volunteer basis.

The Horners have two children, Desta Lee, a teacher at Lake Mary High School and John Jr., supervisor of production control at Martin Marietta Corp., Orlando.

"I have lived in Sanford longer than anywhere else. Even my home town, I expect we'll be around for a long time," he said.

## Business Expansion Seen

WASHINGTON (UPI) — The nation's output of goods and services increased at a brisk annual rate of 3.7 percent in the first quarter of 1986, the Commerce Department said today, the result of revised figures that boosted the GNP to its best three months in a year.

The real Gross National Product, adjusted for seasonal variations and expressed in constant 1982 dollars at an annual rate, grew \$32.7 billion in the first three months of this year to \$3,623 trillion, according to a revised report prepared by the Bureau of Economic Analysis.

A preliminary report last month had set first quarter GNP growth at 3.2 percent, a \$28.4 billion advance over the final quarter of 1985.

Department analysts said the upward revision, which came as a surprise to most private economists, was attributable to a larger than expected increase in business inventories — \$33 billion compared with \$28 billion in the preliminary report — and a \$3 billion smaller decrease — \$29.3 billion — in federal government purchases.

The positive changes were partly offset by a downward revision in residential fixed in-

vestment and net exports, the analysts said.

The revised first quarter economic growth rate was the largest since the first quarter of 1985, when GNP also expanded by 3.7 percent. It was last exceeded by the 5.1 percent pace of growth recorded in the second quarter of 1984.

Inflation for the period was at an annual rate of 2.5 percent, according to the GNP implicit price deflator, the report said, an upward revision from 2.3 percent.

Even with the revision, the implicit deflator is smaller than it has been since 1967.

Residential investment, thought by government economists to be among the strongest areas of the economy because of a brisk pace of housing starts, increased only \$2.3 billion last quarter, compared with \$4.1 in the early report.

Net exports of goods and services, buoyed by a sharp decline in the value of the dollar, increased \$10.5 billion for the period, compared with \$14.8 billion in the preliminary report.

Personal consumption gained \$23.9 billion.

## ...School

Continued from page 1A

through corporate grants, he said.

The director and founder of High Frontier is Lt. Gen. Daniel Graham, who created the organization after finishing research in 1982 that became the basis for the Star Wars defense plan.

The school would offer general degrees in space management

and engineering in addition to degrees in specialties such as space mapping, communications and asteroid mining.

Mohunlall would not say how much money has been raised for the project, but he did say an academy founder's board will be appointed by this fall. The board will decide where to locate the college.

The winning site probably will have an existing base of technology companies, he said.

## ...MTA

Continued from page 1A

solve the problem with roads."

She echoed local residents' concern over the MTA's accountability to the people it wants to tax. Of the MTA's nine-member board, five members are appointed by the governor, while four are elected officials, including county commission chairmen from each of the three counties.

Sells also said a major consideration is accountability, but that the MTA road building plan

addresses the issue.

"Everything is in writing up front, what's going to happen to this money, who's going to spend it and where it's going to be spent," he said.

Stressing the successfulness of other appointed authorities in Central Florida, Sells said, "They are appointed by elected officials and they know what needs to be done and how to get it done."

Both sides agreed the area's road problem is an unavoidable one, and that voter turnout at the polls next month will decide the fate of one approach to

## Legal Notice

**NOTICE OF FICTITIOUS NAME**  
Notice is hereby given that I am engaged in business at 301 E. 20th Place, Sanford, Seminole County, Florida 32771 under the fictitious name of **WOODY'S AUTO/MARINE**, and that I intend to register said name with the Clerk of the Circuit Court, Seminole County, Florida in accordance with the provisions of the Fictitious Name Statutes, to-wit: Section 685.09 Florida Statutes 1987.  
John L. Graves  
Publish: May 13, 20, 27 & June 3, 1986.  
DEC 97

**CITY OF LAKE MARY, FLORIDA**  
**NOTICE OF PUBLIC HEARING**  
TO WHOM IT MAY CONCERN:  
NOTICE IS HEREBY GIVEN by the City Commission of the City of Lake Mary, Florida, that said Commission will hold a public hearing on June 5, 1986, at 7:30 P.M., or as soon thereafter as possible, to:  
a) Consider a request from Primera that the City of Lake Mary, Florida, vacate and annul the following described Plat:  
Indefinite Industrial Plat, as recorded in Plat Book 10, Page

78, of the Public Records of Seminole County, Florida, more commonly described as west of Rinehart Road and north of Lake Emma.  
The Public Hearing will be held in the City Hall, 158 N. Country Club Road, Lake Mary, Florida, on June 5, 1986, at 7:30 P.M., or as soon thereafter as possible, at which time interested parties for and against the request stated above will be heard. Said hearing may be continued from time to time until final decision is made by the City Commission.

This Notice shall be posted in three (3) public places within the City of Lake Mary, and published in the *Evening Herald*, a newspaper of general circulation in the City of Lake Mary, in two weekly issues at least fifteen (15) days prior to the date of the Public Hearing, and the owners of the real property which is affected hereby shall be mailed a copy of this notice as their address may appear on the latest ad valorem tax records.  
A taped record of this meeting is made by the City for its convenience. This record may not constitute an adequate record for the purpose of appeal

from a decision made by the City Commission with respect to the foregoing matter. Any person wishing to ensure that an adequate record of the proceedings is maintained for appellate purposes is advised to make the necessary arrangements at his or her own expense.

## Marriage Bridging Cultures Needs A Strong Foundation

**DEAR ABBY:** This concerns the American woman signed "Moonstruck," who was in love with an Iranian man and wanted to marry him. I married a man from a Middle Eastern country so perhaps I can give her some advice.

Dear Abby

We have been married for 15 years and I couldn't want a better husband, but not all American women have been as lucky with men from foreign countries. Here are some things to consider:

1. What kind of visa does he have? If he already has a green card, he's probably a good bet. Some men marry American women just to get permanent resident status in this country. An American woman should be cautious about marrying someone who is on a tourist or student visa. She should also be aware that if she does marry a foreigner with a criminal record or who is considered to be an undesirable alien, he could be deported even if he is already married to an American.

2. How long have you known each other? Marrying someone from a different country, especially if there are language barriers and vast cultural differences, can create serious problems. Don't rush into marriage. Get to know each other very, very well. If it's love, the waiting won't hurt.

3. Could you be happy living in his country? You may have to if things don't work out for him

here. Although most Americans think this is the greatest country in the world, many immigrants cannot adjust to living here. And if the political situation in his country changes for the better, he may want to return and take you with him. How would you feel about that?

### THE VOICE OF EXPERIENCE

**DEAR VOICE:** Thank you for a valuable letter.

**DEAR ABBY:** A few years ago I wrote to you requesting a copy of your booklet titled "What Every Teen-Ager Ought to Know." This booklet has been very popular; in fact, one of the health teachers here at school uses it in her class.

For that reason I am requesting six more copies. I agree, it contains what every teen-ager ought to know.

**BONNIE L. RAASCH, LIBRARIAN, C.B. VERNON MIDDLE SCHOOL, MARION, IOWA**

**DEAR MS. RAASCH:** Thank you for what I consider high praise. The teen booklet has also

been used at both Baptist and Catholic summer camps. Many teachers have suggested that it would be even more helpful if it were given to children ages 10 to 12. Our children are maturing physically much earlier today than they did 25 years ago. To order, send a check or money order for \$2.50 and a long, stamped (39 cents), self-addressed envelope to: Dear Abby, Teen Booklet, P.O. Box 38923, Hollywood, Calif. 90038.

**DEAR ABBY:** I used to dream of being a doctor. But somehow that dream has changed. Now I want to become a registered nurse, perhaps specializing in pediatric nursing.

My parents are not very happy about my decision. It's my future. If I can only make them understand that I will not be happy studying medicine. My heart is set on taking care of people in a way that nurses do.

I am a high school senior and must make some decisions about my career. Can you help me? I am a male, if that makes a difference.

R.N. OR M.D.?

**DEAR R.N.:** It makes no difference whatsoever. Follow your heart; the world needs more nurses with your dedication and enthusiasm. Tell your parents what you have expressed so well in your letter to me.

### Gamma Lambda Installs Officers

Gamma Lambda Chapter of Beta Sigma Phi installed its 1985-86 officers during a meeting at Countryside Holiday Inn, Sanford. New officers are, from left, Sandie Blount,

president; Eileen Sturm, vice president; Margie Ketcham, recording secretary; Carol Larson, corresponding secretary; and Genele Haynes, treasurer.

## 'Hands On' Teaching Museum Reviewed For Woman's Club

At the May luncheon meeting of the Woman's Club of Sanford, guest speaker Leslie Blau announced that "The School Board of Seminole County Student Museum — A Center For Social Studies" is a name for an old building, the former Sanford Grammar School.

Mrs. Blau, the resource teacher at the museum, said that the primary goal of the museum is to support the teaching of social studies throughout the schools in Seminole County.

Mrs. Blau was introduced by Hazel Cash, chairman of public affairs. Originally from Chicago, Mrs. Blau holds a master's degree in history and one in administration and supervision and taught for six years in Seminole County schools before beginning her present job. Last summer Mrs. Blau was selected to attend a seminar for historical administrators sponsored by the Colonial Williamsburg Foundation of America and the Association for State and Local History. She is currently considering spending this summer attending a seminar for historical archeology.

Mrs. Blau explained that the School Board of Seminole County Museum for Social Studies is a teaching museum — a "hands on" place where students can see and use the "turn-of-the-century" classroom — one of three restoration projects already completed.

The classroom has been reconstructed to look the way it did when the school first opened in 1902. Here students find the original refinished pine floors, the slate boards, a flag with 45 stars and fastened down double desks. Classes taught here use 1902 and 1965 Sears' catalogues to compare prices, learn about inflation and note progress in technology. Students can read from McCuffey's readers and become acquainted with Horatio Alger's "rags to riches" books.

Another completed area, Mrs. Blau mentioned, is the Timucuan Indian Village which recreates the way the Indians in this area lived a thousand

years ago. It includes a summer, winter, and guard hut, all open for exploration. In this area students have an opportunity to weave, make pottery and create a tool from natural resources. The life-size murals on the walls have been copied from Le Moyne's drawings of Indian life.

The lobby houses a collection of historic documents, old photographs, post cards, school memorabilia, posters, etc., dating from about 1870 to 1950. These allow students an opportunity to see first-hand what the county was like when the grammar school was first occupied.

Mrs. Blau concluded her talk by outlining summer plans for the museum. These include completion of the "Pioneer Exhibit" and the "Geography Lab." Both of these will be open for the 1986-87 school year.

The regular business meeting was conducted by Ann Brisson, president. Mayor Bettye Smith, president-elect, presented Vivian and Richard Buck with a plaque in recognition of the many services donated and rendered to the Woman's Club of Sanford.

Mayor Smith also announced that Martha Yancey had won the "Historical Sanford" quilt which was raffled at the Club's annual May brunch. Mrs. Yancey stated that the quilt will be framed and hung somewhere in the first floor of City Hall for everyone to enjoy.

Bill Gielow, chairman of the May Day Brunch, reported that the attendance was the best as far as he thanked all those who made it possible.

Ann Brisson announced that the club donation to sponsor a young person attending the Hugh O'Brien Youth Seminar was used by Laura Kay Splatt from Lake Mary High School.

It was announced that the Woman's Club of Sanford will host the District VII Workshop at the clubhouse on May 22.

A highlight of the meeting was a medley of songs presented by the Woman's Club Chorus before the luncheon.

**Never Too Late To Learn  
To Dance At 'Dancing'**

It's never too late to learn ballroom and ballroom dancing at "Dancing", a full service studio and dance club with rates anyone can afford.

Whether you want to brush up or have never danced in your life, Dancing is for you. Everything from the cha cha and waltz to disco and country western is taught.

They teach a natural system that enables students to dance with anyone whether the partner is a good or bad dancer and to any kind of music.

The studio, located just 15 minutes from Sanford on Highway 17-92 (across from Four Townes) in Orange City, is owned by Gary A. Brook, who specializes in "hopeless cases."

"In more than 15 years as an instructor, I have never had anyone come in who couldn't learn to dance," said Gary, who at one time couldn't dance a step. He considered himself hopeless until he answered a studio ad and learned to relax while dancing.

"I specialize in helping new people get a good foundation, relax and enjoy their dancing. When they are 'up-tight' it is hard to learn."

The staff members each have from 10 to 25 years experience. One department specializes in competition and exhibition dancing. Charles Sanders studied in England international style of dancing.

Individual lessons are taught Monday through Saturday, morning, afternoon, and evening hours.

**Student June Lindstrum practices with Dancing instructor Charles Sanders**

There are two dance parties every week where refreshments are served. On Tuesday nights there is a practice party for regular students and on Saturday afternoon there is a tea dance and newcomers party.

Students range from 19 to 90 and beyond. Some of their most accomplished students took up dancing at retirement age. One was an invalid for 17 years before taking up dancing a year ago. Recently she took second in both exhibition tango and swing categories at the Southern States Ballroom dance championships in New Orleans.

June Lindstrum, who has been dancing for only a year, was the top bronze medal student at the last showcase and will compete in the U.S. Ballroom Championships.

Age is no obstacle, several of the students took up dancing in their 70s. Neither is not having a partner.

There is a pretty equal mix of men and women from Sanford, DeLand, DeBary, and Deltona in the group.

Several times a year inter-studio competitions are held with Gary's other studio in Tavares. Area nightclub parties, weekend getaways and extended foreign tours are offered for staff and students.

A dance weekend is planned for June 1 in Melbourne, where students and teachers will be dancing in competition.

For an appointment or information call (904) 775-9800.

**Roy Mixon, owner of Mixon Auto Supply**

**Mixon Auto Supply Has Quality Parts And Tools**

Good news for auto repair shops and shade tree mechanicals: Roy is back and raring to go and invites his old friends and customers to drop in at his new location.

Roy Mixon with 40 years experience in auto parts has come out of retirement with the Jan. 1 opening of Mixon Auto Supply in Country Club Square, 2489 S. Airport Boulevard (at 25th Street) in Sanford.

Before his retirement, the Seminole County

native had operated an auto supply store in downtown Sanford for 15 years and gained a reputation for friendly, efficient and dependable service.

Roy has mechanical experience and expertise to help diagnose your problem, supply the proper parts and, if necessary, steer you to an honest, dependable mechanic for repairs.

"In the past, women weren't supposed to know anything about cars, but now women are learning about their car and that's great," said Roy. "If they don't know who to take their car to for repairs, I can suggest someone to take it to who won't rip them off."

Mixon Auto Supply carries a complete line of auto parts, foreign or domestic. If they don't have it in stock, they will have it for you the next day.

Among the quality brands they stock are Standard Ignition, Eis Brake Parts, a full line of Milton and Cal-Van tools, AC Delco and Gold Bond batteries, Moog suspension parts, and Dayco belts and hoses.

Mixon sells at wholesale prices and offers parts delivery to garages.

They are open Monday through Saturday 8 a.m. to 6 p.m. and 9 a.m. to 4 p.m. on Sunday, call 323-8101.

**NOTICE TO ALL VETERANS**  
Who Have Honorably Served Their Country In Time Of War or Peace

Because of the lack of burial space and the distance of the National Cemetery in Florida, we are assigning grave spaces in Veterans Garden of Valor, Oaklawn Memorial Park. As an honorably discharged veteran of the United States Armed Forces, you may be qualified for Free Burial Space. However, you must register for this. You must be able to show proof of Honorable Discharge. There are a limited number of Veterans spaces available. Certificates for spaces will be issued on a first come first served basis. To assure reservation, mail the coupon below to:

Children in school-age program enjoy treehouse at A Child's World.

# Summer Day Camp Offered Youngsters

School-age children will enjoy their summers with an excellent program of summer day camp activities designed especially for six to 12 year olds and offered by four outstanding Sanford child care centers.

The four weekly field trips include skating, swimming, bowling, movies and miniature golf. Ball games, picnics, cookouts, trips to area parks,

to Central Florida attractions, historical sites and many other trips are also a part of the exciting program.

In-center activities include arts and crafts, music and drama, indoor and outdoor games, reading, and free play in a lovely, large, well-equipped playground.

A nutritious breakfast, lunch, and snack are provided at no extra charge.

For more information, you may call or visit any of the four locations:

- Happy Acres, 830 Riverview Ave., 323-2005;
- Sanford Child Development, Hickory & Celery, 323-5690;
- Sanford Early Childhood Center, 801 E. 25th St., 322-6645;
- A Child's World, 2854 S. Sanford Ave., 323-8424.

They're celebrating childhood!

# Libido And Hysterectomy

**DEAR DR. GOTT** — In a recent column you responded to a reader's question by stating that hysterectomy plays no role in causing the loss of sexual interest. In my case, I had a real falloff in sex drive following my hysterectomy; in fact, I went through an early menopause. Don't you want to modify your position?

**DEAR READER** — I have received letters from several women who lost their libido (sexual interest) after hysterectomy. While I am not inclined to alter my position, some further explanation is in order.

Hysterectomy refers to removal of the uterus and cervix, neither of which is necessary for sexual gratification. Female hormones appear to aid sexual fulfillment, and these substances are produced by the ovaries. Therefore, when the ovaries are left in place, there is no physical basis for the loss of sexual desire after surgery.

On the other hand, sometimes the ovaries are removed, too. This produces a hormone deficiency that may affect sex drive. Under these circumstances, the surgeon usually will prescribe hormone pills to restore proper levels in the body. This is not always the case, however, especially if the woman required a total hysterectomy for a tumor of the reproductive tract.

Most post-hysterectomy patients (those with ovaries) experience no loss of libido. Of course, some individual variation is bound to occur, but loss of sex drive is not a common result after an operation by a skilled surgeon. Those women who have had hysterectomies (with ovaries removed) may undergo changes in sexual interest; this can usually be successfully treated with hormone pills.

**DEAR DR. GOTT** — My wife acquired Tourette's syndrome and kleptomania after she took an old country medicine (cow's urine) when she was very young. Is there a cure for this condition?

**DEAR READER** — Gilles de la Tourette's syndrome is an unusual neurological disease that ordinarily begins in childhood. It

is characterized by facial twitching and involuntary vocalizations (grunts, snorts and obscene words). It is treated using clonidine, clonazepam or haloperidol. The syndrome may go into remission (disappear) for long periods. Kleptomania (uncontrollable stealing) is not usually a part of the disease. I doubt that the cow's urine caused your wife's difficulties; it more likely, it was given at the

time the disease began in her childhood. I think she needs an examination and medical supervision by a neurologist, a specialist in nerve disorders. For more information, contact the Tourette Syndrome Association, 41-02 Bell Blvd., Bayside, NY 11361; the phone number is (718) 224-2999.

**WIN AT BRIDGE**

By James Jacoby

North didn't have a full-fledged opening bid, but 4-4-4-1 shape lends itself to aggressive action, and the vulnerability was favorable. So at his first turn to bid, he made a takeout double after East and West had each bid a suit. South then competed with two spades, but the bidding was at the four-heart level when it was his turn again. He didn't know that the opponents could make four hearts, and he certainly didn't think he could make four spades, but the price was right. He would receive non-vulnerable penalties, even doubled; on the other hand, the East-West bonus for making a vulnerable game was large. So he bid four spades. When East doubled, declarer drew the right conclusions.

West opened the ace of diamonds and continued the suit. South ruffed in dummy and played the king of spades. East won with the ace and led his singleton club, but declarer was on the right track. He went right up with the club ace, ruffed his last diamond with dummy's 10 of spades, and led dummy's last spade, finessing against the jack of trumps in the East hand. He then drew the last trump and conceded a trick to the king of clubs. Making four spades doubled was a great result, but even down one would have been OK, since East-West were always going to make four hearts.

## HOROSCOPE

### What The Day Will Bring...

**YOUR BIRTHDAY MAY 21, 1986**

Your instincts and hunches pertaining to sound investments will be astute in the year ahead. When you get good feelings about a specific deal, check it out thoroughly.

**GEMINI (May 21-June 20)**  
This is a good day to launch that pet project you've been contemplating. Big strides will be made if you're working on something you enjoy. Major changes are ahead for Gemini in the coming year. Send for your Astro-Graph predictions today. Mail \$1 to Astro-Graph, c/o this newspaper, Box 1846, Cincinnati, OH 45201. Be sure to state your zodiac sign.

**CANCER (June 21-July 22)**  
The results will be gratifying if you're involved in something today where getting along with others is the primary ingredient.

**LEO (July 23-Aug. 22)**  
Today you'll be able to iron out the wrinkles that created friction on the home front recently. Now, once again, harmony can permeate your household.

**VIRGO (Aug. 23-Sept. 22)**  
Your wit, poise and sense of humor are three big pluses you have going for you today. You'll use them smartly to make new friends.

**LIBRA (Sept. 23-Oct. 23)**  
You're in a good financial trend at this time. Make the most of your opportunities so that you can clear up old debts.

**SCORPIO (Oct. 24-Nov. 22)**  
Happy developments are in the offing through a connection you have with a small but friendly group. They're the type of pals who really look out for each other.

**SAGITTARIUS (Nov. 23-Dec. 21)**  
A situation may develop today where you won't be free to act openly. But a dependable associate will cover for you and protect your position.

**CAPRICORN (Dec. 22-Jan. 19)**  
You have the marvelous ability today to use someone else's idea in a more productive manner than the person who first conceived it.

**AQUARIUS (Jan. 20-Feb. 19)**  
The results you've been hoping for could come to you now in matters that offer not only recognition, but financial compensation as well.

**PISCES (Feb. 20-March 20)**  
Your behavior today will be motivated by the idealistic aspects of your nature. These will prove to be the best urges to draw from.

**ARIES (March 21-April 19)**  
Your financial picture is changing for the better today. You might even reap profits from two situations that appeared to be without promise.

**TAUROS (April 20-May 20)**  
A valued personal relationship will be drawn closer today through strong, new mutual interests. Collectively, you may do something grand.
