

U. S. Starts Suit For \$1,275,644 From Mitchell

(Continued from page one) three million dollars, he brought back stock from his wife at the original "purchase price" of \$212, although the market was then \$45. Attention is called to the fact that when Mitchell was a witness before the Senate Committee on Banking and Currency, he admitted that the sale was merely "a sale of convenience." The government also claims that a like sale in 1930 of 8,500 shares of Anaconda Copper stock was likewise fraudulent and that the sum of \$666,666.67 received by him from the National City Company's management fund in July, 1930, was income and that his failure to pay the income tax likewise constituted fraud.

"The government claims that Mitchell arranged it so that the board of directors of the National City Company took action which permitted him to treat this large payment merely as an advance, to be repaid only out of future payments from the management fund. At a later date Mitchell received \$50,000 from the management fund and had his salary increased by \$50,000 a year, but nevertheless did not repay any of this so-called advance, and the National City Company took no steps to collect payment from Mitchell.

Borah Lambasts Bureaucracy In Anti-NRA Drive

(continued from page one) laws and monopoly was never more unrestrained or more ruthless than at the present time.

"Now the defeated party, looking about for some issues, seems wholly unwilling to touch this vital issue. Neither in the statement at Chicago, nor in recent statements, has there been the slightest reference to an issue which affects every home in the United States.

North Dakota, who presented so strongly to the NRA against the effect of some of its codes on little business that the National Recovery review board, headed by Clarence Darrow was named. The board subsequently reported that the NRA code had fostered monopoly.

Borah said a free press was essential and warned of the danger of a bureaucratic control of the press. He said: "If the government can take away the right to grow cotton and force the grower to plant according to some bureau's judgment and thereby force thousands to the point of starvation, it is only a question of time, and it always has been so, until this creeping paralysis of bureaucracy benumbs the hand of the editor. I do not call this nationalism. God forbid. I do not claim it is fascism or communism. It is none of these.

BANK DEPOSITS INCREASE FROM FEDERAL LOANS

Figures Show Borrowings Help To Raise Deposits 3 Billions

NEW YORK, July 5.—(AP)—Mid-year banking figures reveal the striking extent to which government expenditures have combined with certain abnormal monetary factors to expand the nation's bank deposits in the past six months.

Snake Gets Train Ride

TEMPLE, Tex., July 5.—(AP)—Railroad engineer J. B. Pruitt and Fireman J. C. McCoy will tell you about a "hitch-hiking" snake. The cabmen stopped their freight train on a siding at Heidenheimer. Again opening the throttle, Pruitt looked out his cab window and into the eyes of a serpent. It crawled up the running board and over the air pump housing. The two men slammed and locked the window to keep the serpent out. It fell off as the locomotive started across a curve.

JUMPS FROM WINDOW

LOS ANGELES, July 5.—(AP)—Attractive 19-year-old Mrs. Betty Walker Amaness jumped from a second story window of an apartment last week and was injured perhaps fatally, police said. Two friends said they tried to stop her.

SCIENCE SAVES PUP

MACON, July 5.—(AP)—A blood transfusion has saved Polly, a black and white mongrel, from a premature trip to dog heaven, thanks to the chivalry of a pedigreed Spitz.

Preferred to mayonnaise by millions! ... yet it costs less

Miracle Whip Salad Dressing

MADE FROM THE CHOICEST EGGS, VINEGAR AND SPICES BLEND TO CREAMY SMOOTHNESS IN THE EXCLUSIVE KRAFT MIRACLE WHIP.

"It is simply that meddlesome, irritating, confusing, undermining, destructive thing called bureaucracy. It is that form of government which steals away man's rights in the name of public interests and taxes him to death in the name of recovery. It is that form of government which has ever been permitted to torture the human family, the most burdensome, the most expensive and the most destructive of human values is a bureaucracy.

How Much Do You Spend For Food In A Year!

If you can answer that question, you are an exceptional housekeeper. Very few women can tell how much it costs to feed their families for a year.

Yet food is the largest expense most families have. About a third of the average income is spent for food.

Six million women have found that at A & P they can get the best quality food at prices that save many dollars on the annual food bill. Small amounts saved on daily purchases run into a great deal of money in the course of a year.

W RIST WATCH REFRIGERATOR COOLS THE BODY

New Device Using Dry Ice Takes Heat From Artery And Cools

LAFAYETTE, Ind., July 6.—A new "wrist watch" which will keep the whole body cool in hot weather has been announced at Purdue University.

The device looks like a watch, but instead of keeping time, it contains a pellet of dry ice, or solid carbon dioxide, at 109 degrees below zero. The effects are the same as dipping the wrists in cold water, a favorite hot weather trick, or of keeping a stream of cold water running over the body.

Dry ice burns the skin almost instantly wherever it makes direct contact. The Purdue invention insulates the ice, so that only a normally cooling stream of cold air and cold carbon dioxide gas flows

over the sensitive spot on the wrist where the radial artery is close to the surface.

One small pellet of the dry ice lasts about an hour in the "watch" case. The effects of cool gas flowing out of the container continue for about twenty minutes in addition.

There is nothing messy about this cooler, for the melting ice forms no trace of liquid. It evaporates into an invisible gas. The Purdue studies show that this cold carbon dioxide has a somewhat soothing effect on the heart, especially during high temperatures.

The same device can be made in other forms, to fit any portion of the body where cooling may be effective. It can be formed as a bracelet and worn either on wrist or ankle. It can be set in a close fitting necklace.

"The dry ice," a description states, "maintains a cool spot and extracts heat from the blood flowing in the subcutaneous artery."

"This is found to be a cooling of the entire body, as the cooled blood circulates through the body, and is usually sufficient to make a person wholly comfortable even in the hottest weather."

"The same cooling device and

Fair Flags Fly Over Visiting Florida Editors

Publishers, editors, and reporters of 32 Florida newspapers, pictured on the steps of the Administration building of the new Chicago World's Fair, just before the arrival of the guests of the World's Fair Commission last Tuesday.

MINERAL MILLIONS

for FLORIDA

SURPRISING to those who think of Florida as the "playground of America" is the fact that this state produces minerals averaging \$15,000,000 in value annually. Rich deposits, scarcely touched, await the development that must come with increased population, new capital investment and expanded markets.

Florida has four metallic and thirteen non-metallic minerals in commercial quantity and quality. Of these, the most important is phosphate, used in over half of this country's consumption of commercial fertilizer. Florida mines 80 per cent of the phosphate produced in the United States and one-third of the world supply.

Other important mineral products include lime, limestone, sand, gravel, clays, Fuller's earth, kaolin, ilmenite, zircon, ruble, monazite and peat. Fifty per cent of this country's Fuller's earth comes from Florida. The finest kaolin, used for porcelain, and diatomaceous earth, applied in dozens of commercial uses, is mined here. The peat supply is tremendous, but undeveloped; a single Everglades fire has wasted enough peat fuel to illuminate the city of Tampa for several years.

Unusual opportunities are offered in the many allied mineral industries that can and will be developed if the world is informed of the value and availability of these rich deposits. Capital will be invested, payments increased, homes built, population doubled and trebled — when our real resources are known.

Let's turn the white light of publicity on the hidden resources of Florida, illuminating the story of our potential advantages. Let's unify our efforts, combine our forces, weld together our interests in a Florida promoting program — mobilized for the benefit of all sections of the state. It's an investment that will pay dividends in RESULTS!

The All Florida Committee is a non-partisan, non-profit organization for the promotion of Florida's welfare as a whole. Study these weekly announcements carefully so that you may know Florida and thus be better fitted to cooperate in its prosperity.

Central Florida League Feds Win 5-4 Depended Upon Advice Of Over Indians Club President Roby Laing

The Central Florida Baseball League closed down its 1934 season yesterday afternoon after having existed since May 17. Withdrawal of Klammees, and Ocala's admitted reluctance to continue further play this season among strong teams, such as DeLand and Daytona Beach, might be expected to return to the old league. The prime reason for bringing the season to an end at this time was authorized by League President Roby Laing after a conference with Manager Bill Headley of the Cocoa team. This conference revealed the fact that Klammees was planning to return from the league at the end of the first half of the season, July 19, and that Cocoa fans failed to turn out for games played between their team and teams from Vero Beach and Klammees.

Quoting President Laing: "With Klammees having withdrawn from the league, and the league-leading Cocoa Indians apparent winners of the first half pennant, I considered it wise to recommend that the league close down for the season now rather than have it drag along and have its present clubs and any others be left to stand in limbo as to their financial status."

It was in agreement with Mr. Headley's opinion that it would be desirable to try and recruit a team from Winter Park, Orlando, Gainesville, Ft. Pierce, or some other smaller towns. I do not believe that the fan in this city or in Cocoa, or Daytona Beach will respond to a reorganized league unless it includes Daytona Beach and DeLand. It is regrettable that after nearly four years of play, it has been found necessary to give up play at this time. We are hopeful of stronger representation next season, and we have reason to believe that DeLand may lead the way in returning into our league."

League Secretary Peter Schaal visited DeLand and Daytona Beach last night in an effort to induce club officials in those cities to return to the Central Florida League, which would include Sanford and Cocoa, DeLand and Daytona Beach.

W. J. Faye, DeLand club president, appeared interested in the proposition, and stated that if the Klammees favored the proposition, he would not stand in the way of re-organization of the Central Florida League.

However, Dr. Kenneth J. West, director of the Daytona Beach Club stated that under no conditions would his club consider a change at this time. "We are satisfied where we are," he said. "We finally have a good ball club and we're going to win the second half pennant. Our fans would raise the dinkens if we returned to the Central Florida Baseball League. They like this class B baseball we are giving them. They don't want anything less than Class B ball, and we're going to give it to them."

Telegrams were sent to Manager Bill Headley at Cocoa and Manager Jimmy Barrett at Vero Beach this morning, advising them officially of the action taken.

Several Cocoa players are scheduled to step back into the North-eastern League, it was understood yesterday. Special Coach Ed Kinsey Provost may be DeLand head before the week is over, while Eddie Harrell also is dickering for a place with DeLand or Daytona Beach.

Manager Sid Rive stated this morning that while he regretted that it is necessary to disband at this time, he considered it wise to give all of his players with one exception are local boys, and the problem of settling with them will not be as difficult as it might be in other cities.

The Sanford Celeryfeds scored their first and last victory over the league-leading Cocoa Indians at Municipal Park yesterday afternoon by a score of 8 to 4.

Nine Cocoa errors played a major part in the Fed victory, for only one Fed run was earned, and with one out in the second inning, Paul Mansfield singled toward third base and he pulled up at second, when Edge threw wide of first base. Britt hit to Edge at third who muffed up the play by letting the ball get away from him and Britt reached second on the play while Mansfield was held at third, Homer Tillis doubled to left field, scoring both runners.

The Indians picked up a run off Lefty Joe Sparkman in the fourth. With one out, Provost walked and stole second before Edge fled out. Crum singled over third, scoring Provost.

The Feds' final runs came in the fifth. Evans opened with a single past third. He was sacrificed to second by Schirard. Rines hit to Rubin who threw to Edge to get Evans. Edge failed to hold the ball and both runners were safe. Paul Mansfield bunted in front of the plate, scoring Evans, and before the play was completed, Rines had scored and Mansfield had reached third.

This happened because Silby, who recovered the bunt, threw the ball into right field, and catcher Autry failed to hold the ball after it had been recovered and thrown to the plate by Crum. Britt dumped a bunt in front of Silby, scoring Mansfield. Britt was out trying to make second on the hit. Tillis walked but Kelly fled out, ending all Fed scoring.

The Indians earned their second run in the seventh which Crum opened with a long double to left. He was held on the bases while Autry and Headley went out, but Silby singled through the box, scoring Crum.

The Indians staged another rally in the eighth, and Lefty Joe Sparkman was removed from the mound as a result. Kinsey singled through the box to open the inning. Rubin fled out to Evans who threw the ball wide of first, permitting Kinsey to reach second. Provost singled to left, scoring Kinsey. Provost went to second on the throw to the plate and he stole third just before Edge walked.

Lee Mansfield took over hurling duties here. Crum, first to face him, hit to Smith who threw home too late to get Provost. Schirard, however, threw Edge out off second, and Autry fled out.

The Feds had a final scare in the ninth. Headley struck out, but Silby drew a walk. He went to second on Harrell's infield out, and he went to third on Kinsey's single. Kinsey stole second on the first pitch to Rubin. With the tying and probable winning runs on third and second, respectively, Rubin struck out.

The Box Score:

Errors Play Part In Locals' 1st Victory Over Cocoa Players

Georgia watermelons, cantaloupes, peaches, are plentiful in Ovidio now brought in by truck. C. R. Dawson of Sanford was a business visitor in Ovidio Monday.

W. D. Stine and family spent the Fourth in Daytona.

Mr. and Mrs. J. P. Cox were called to Almore, Sunday due to the illness of their stepfather.

Mr. and Mrs. C. T. Niblack and Jim Partin have returned to their home in Ovidio after a two weeks' vacation.

Mr. and Mrs. T. L. Lingo and children, Sparks Lee, and T. L. have gone to Daytona Beach where they will spend several weeks.

Mr. and Mrs. H. F. McGowan and son, Jimmie, and Miss Sarah McGowan are spending several weeks in South Carolina.

Mr. and Mrs. Henry Lee of Tampa are visiting their father, Th. Lee on Lake Charm.

The electric set is not an eel, but a fish, and it is four-fifths tall.

OVIEDO

Dr. J. A. Sutton of Orlando was a visitor in Ovidio Wednesday night, and also delivered the Wednesday night sermon at the First Baptist Church where a ten day meeting is in progress. Thursday night Dr. Adcock of Orlando preached to the congregation and on Friday night Rev. M. J. Bourque will be present to preach to the Ovidio people, thus the meeting will close.

L. H. Gore and family left Thursday by motor for Chicago where they will visit the World's Fair.
