Sheriff's Deputy Martin LaBrusciano explains composition of the bombs.

## 'Survivalist' Arrested

# Raid Reveals Champagne Bottle Bombs

By Deane Jordan  
Herald Staff Writer

Home-made bombs stuffed with nuts and bolts were seized at a Wekiwa River mobile home during a raid by federal agents and local deputies.

The crude bombs, three champagne bottles packed with an improvised gun powder and the hardware-store shrapnel, were designed to maim not to kill, officials said Thursday.

Resident of the trailer searched, Garth B. Kamerling, 30, of #14 Katie's Wekiwa River Landing in northwest Seminole County, was arrested Wednesday at 9:30 p.m. near the trailer. He was being held Friday without bond in the Seminole County jail on one federal charge of unlawful possession of unregistered destructive devices. No state charges have been filed. A government official said today a federal grand jury will be asked to indict Kamerling on several charges related to bomb manufacturing.

Agents of the Department of Alcohol, Tobacco and Firearms and Seminole County deputies

raided the home at 8:45 p.m. after a witness approached the Sanford Police and told them he saw Kamerling, a computer programmer, making the bombs earlier this month. Also confiscated during the raid, an official said, was a .380-caliber handgun, detailed "survivalist" plans, a blueprint of a building — including what appears to be a scheme for placing landmines about the perimeter — and a diagram of a vehicle's electrical ignition system as a source of energy for detonating devices.

Two of the bombs were concealed in a gym bag and a third bomb, bound with gray tape, was stored in a nearby cabinet.

Michael Hegerfeld, resident agent in charge of the Orlando office of the Bureau of Alcohol, Tobacco and Firearms, said investigators do not know if the material confiscated belongs just to Kamerling or was part of a larger group's cache.

He said even if it is an isolated activity, the federal agency will consider it a serious threat because such incidents are increasing na-

tionwide.

Hegerfeld said there is no apparent connection between Kamerling and the bombing of Paul Jewell, a boy in Orlando who was injured Christmas Day by a home-made explosive device left at a convenience store.

The champagne bottle bombs, plugged with a fiberglass-type resin, contained sophisticated detonating devices using flashbulb components for fuses. They contained about two pounds of explosive powder each.

Lt. Martin LaBrusciano, bomb expert of the Seminole County Sheriff's Department, said the pure silver wire ignition systems are so sensitive that current from a hearing aid battery or even static electricity could detonate the bombs.

"These are the epitome of an improvised explosive devices," LaBrusciano said. He explained that all of the items used to construct the bomb are legal by themselves, commonly

# Lake Mary Compromises On Pay Hike

By Roger Simmons  
Herald Staff Writer

A compromise proposal that would limit salary hikes to 25 percent of an employee's present pay was informally approved by Lake Mary City Commissioners Thursday night.

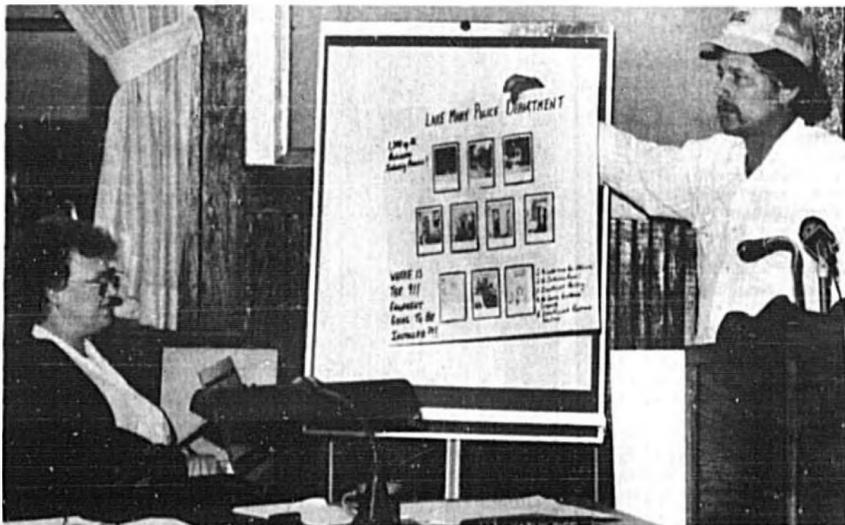

Meeting in a special workshop session to discuss the salary proposals, Commissioner Russ Megonegal presented the commission with the compromise.

Under a report given to commissioners by the city's personnel committee, city workers were recommended for pay hikes to bring them up to what other cities are paying their employees. The report called for, in some cases, dramatic raises such as a \$10,000 a year for the city manager.

"Under the 25 percent proposal there would be a reduction of cost and it would only affect six people," Megonegal said. He added that the proposal was "reasonable."

Only six Lake Mary workers were slated for raises of 25 percent or more — the city manager, city treasurer, public works superintendent, police chief and police lieutenant. The difference between the original salary recommendation and the new 25 percent proposal ranges from \$5,000 a year for the city manager's post to \$261 for the police lieutenant's job.

Commissioner Colin Keogh, one of the more outspoken critics of the proposed salary hikes, accepted the 25 percent plan. He said he respected the

Lake Mary resident Terry Hall shows police commissioners and City Manager Kathy Rice, left, pictures of the 1,200 square-foot

police facility which he termed inadequate, lacking locker room, secure evidence compound and sufficient parking.

city workers and would not switch jobs with them under any condition.

"You can't give them (city

workers) the increase they deserve," he said. But we need "to make equitable the increases that we do give."

Six speakers from the audience also gave their support to the proposed salary hikes.

See PAY HIKE, page 14A

# SR 46 Parking Ban Angers Auto Auction Manager

People who park their cars on state Road 46 when they go to the Sanford Auto Auction will have to find another place for their vehicles. The Sanford City Commission has passed a resolution banning the practice.

The resolution angered the auction's general manager who says it's none of the commission's business where people park. But a state Department of Transportation spokesman said the rule is needed to protect people from being hit as they get in and out of their automobiles near the auction.

After a year of receiving complaints from nearby residents and Seaboard

Coastline Railroad about cars parked in the median and shoulders of state Road 46 on auction nights, the DOT asked the Sanford City Commission to pass a resolution banning the practice since the auction is in the city. DOT spokesman Michael Beha said. The cars often line both sides of the road all the way up to the Chase overpass, Beha said.

The commission unanimously approved the resolution Monday, banning parking on the south side of the road from Persimmon Avenue west 240 feet. "No parking" signs will go up soon on the roadway.

The DOT also wanted the no-parking

ban to extend to the north side of the highway from Terwilliger Road west 250 feet, but the commission couldn't act on that portion of the DOT request since that part of the road is under the county's jurisdiction.

Dave Nicodemus of the county's traffic department said he doesn't know if the county has been approached by the DOT but he said the DOT doesn't need the county's permission to ban parking on the highway since it is a state road.

Sanford City Manager Warren "Pete" Knowles agreed and said the DOT requested the resolution out of courtesy to the city commission.

But the general manager of the Sanford Auto Auction, who would only give "Dunnick" as his name, said government officials should have more to do than worry about parking for an auction that's only held once a week for three hours.

"We would care less if they (customers) parked on top of each other as long as they got in here," the manager said.

But Beha said using the shoulders and medians of a roadway where cars are traveling 45 and 50 mph is "unsafe."

"The problem is you can run into these cars," he said. —Rick Brunson

# 'Riot' Sends 7 To Jail; Police Hurt

By Susan Loden  
Herald Staff Writer

A mini-riot sent three Sanford policemen to the hospital and seven Sanford residents landed in the slammer after the scuffle.

It all might have been avoided if a 19-year-old woman had produced identification requested by an officer.

The brawl broke out at about 11:30 p.m. Thursday when six persons, including a 17-year-old girl, reportedly came to the defense of Dawn Michelle Remus of #73 Shenandoah Village, U.S. Highway 17-92, when she was followed home from the lounge at the Cavalier Motel, 17-92, Sanford, by police Lt. Bill Bernosky. Bernosky had asked to see her identification at the bar but she couldn't produce it, a police report said.

Bernosky said he would follow Ms. Remus home to get her ID. After they arrived, Ms. Remus went inside, the police report said. Moments later Danny Ray Gill, 20, of #73 Shenandoah Village, came out and confronted Bernosky. Gill allegedly said, "Dawn's inside. You can't have her. Now what are you going to do about it?" Additional officers were called to the scene and Gill, who reportedly refused to allow them to see Ms. Remus, was arrested for disorderly conduct, the report said.

As Gill was being arrested, Ms. Remus came out of the

### Sorry, Snoopy

PORTLAND, Ore. (UPI) — Snoopy eat your heart out. Eight lucky beagles will get their chances at stardom when the Portland Opera begins rehearsals of "Martha" next week.

The pooches will be onstage twice during the second act of the romantic comedy, accompanying a hunting party which visits an inn. But the dogs have been warned they could be dropped for lack of a "stage presence."

The eight beagles, including Bagel, Leo, Scooter and Sir Sharkie, were chosen at a weekend audition and begin rehearsals Monday.

### With Social Security Plan

## Plunge Into Poverty Seen For Thousands Of Elderly

WASHINGTON (UPI) — Senior citizens gearing up to fight proposed cuts in Social Security payments have been handed ammunition from a Congressional Budget Office finding that shows the cutbacks would plunge 650,000 Americans — most of them elderly — into poverty.

Under the compromise budget agreed to last week by President Reagan and Senate Republican leaders, Social Security and other federal cost-of-living adjustments would be limited to a 2 percent increase next year. In the following two years, the 2 percent cap still would apply unless inflation topped 4 percent.

The non-partisan budget office, in the first independent study of the compromise, said Thursday two-thirds of the new poor would be elderly as a result of the cost-of-living changes in Social Security, railroad retirement, military retirement and civil service retirement benefits.

Supplemental Security Income payments, which go to the very poor, would be increased slightly, rather than cut.

The cost-of-living adjustments are central to the Senate-Reagan budget, which attempts to cut \$32 billion off the nearly \$230 billion deficit in fiscal 1986.

Senior citizen groups said a nationwide grassroots effort opposing the cuts is being launched this week while congressmen are in their home districts on recess.

In Los Angeles, Leon Kaplan, 72, chairman of the Save Our Social Security Committee, said of the effort, "We're going to fight this and Reagan, he's going to pay a price for it."

A spokesman for Senate Budget Committee chairman Pete Domenici, R-N.M., said Domenici "notes that people will be moving in and out of poverty. Even if we gave the full cost of living adjustment some people would move into poverty."

The spokesman said Domenici's "view is that because we have given a \$10 increase to SSI individuals and \$15 increase to SSI couples we are taking care of the truly needy and those that most Americans would classify as poor."

The Congressional Budget Office said if inflation stays at about 4 percent, 650,000 people would fall below the government's poverty level as a result of the loss of cost-of-living payments — 430,000 of them elderly.

The 1984 poverty line income level was \$10,610 for a family of four and \$6,280 for an elderly couple.

### Krayola Crooner

Bill Eland, 4, gives his rendition of Puff The Magic Dragon performing with his Krayola College classmates before a meeting of the local American Association of Retired Persons at the Sanford Civic Center. About 16 children sang for the retirees at the 2 p.m. get-together Thursday. They were directed by teacher Jean McLain.

## 2 Sanford Officers Apply For Chief's Job

By Rick Brunson  
Herald Staff Writer

Two Sanford police officers have applied for the police chief's job and three city officials have filed for the assistant city manager's position.

The chief's job is becoming available due to the surprise retirement announcement of Ben Butler. His retirement becomes effective April 30.

The city commission appointed Assistant City Manager Steve Harriett acting chief as of May 1, so the assistant city manager's post will be vacant. But if Harriett is not named permanent chief, he remains assistant city manager under civil service rules.

The officers who applied for the police chief's job Thursday are Charles Fagan, 48, a 20-year veteran of the department and William Hasson, sergeant in the investigations department.

Harriett has also applied for the job.

The city's Civil Service Board has been advertising the two positions among city employees this week. In-house advertising ends at 5 p.m. today.

Civil Service Board Chairman Dr. John Darby said today the board would draft a list of eligible applicants for both positions Monday or Tuesday and submit it to the city commission Monday or Tuesday. At that time, the commission may want to continue advertising nationally, statewide and locally for the slots. If not, Darby said they could interview the available applicants and fill both posts within a week.

If Harriett is selected permanent chief, the Civil Service

## Shuttle Blasts Off ... At Last

CAPE CANAVERAL (UPI) — Sen. Jake Garn and six crewmates rocketed smoothly into orbit today aboard the shuttle Discovery on a delayed mission to launch two satellites and put NASA's shuttle schedule back on track.

The flaming blastoff came 55 minutes late at 8:59 a.m., delayed because of a cargo ship in the launch danger area and rain in several layers of clouds above the launch pad.

Commander Karol Bobko, co-pilot Donald Williams and crew members Rhea Seddon, Jeffrey Hoffman, David Griggs, McDonnell Douglas engineer Charles Walker and Garn, R-Utah, chairman of the subcommittee that oversees NASA's budget, plan to spend five days in orbit.

# NATION

## IN BRIEF

### Health Director Gets The Ax In Midst Of Salmonella Crisis

SPRINGFIELD, Ill. (UPI) — Illinois' public health director was fired for vacationing in Mexico as the number of reported salmonella poisoning cases neared the 4,000 mark and a second brand of milk was found to be contaminated.

Gov. James R. Thompson fired Thomas Kirkpatrick Thursday night, saying he was not effectively handling the nation's largest reported outbreak of salmonella from a Mexican resort city.

Health officials Thursday said a second brand of milk, Hillfarm brand, produced at a Jewel Cos. Inc. dairy indicated salmonella contamination. They warned that all products from the dairy should be considered "unsafe."

At least two deaths have been linked to the nation's largest outbreak of salmonella with testing under way in the death of a third person — a 71-year-old Itasca, Ill. woman who was hospitalized after she allegedly drank milk from Jewel.

The total number of reported cases of salmonella in the outbreak stood at 3,902, with 2,923 of the cases confirmed. Illinois reported the most cases with 2,684, but cases were also confirmed in Iowa, Indiana, Michigan and Wisconsin.

### Jews Deplore Reagan Trip

SANTA BARBARA, Calif. (UPI) — President Reagan's plan to lay a wreath at a German war cemetery on his European trip next month, but not visit U.S. graves or Nazi death camps, "reopens old wounds," Jewish groups charge, and the White House says it may reconsider the decision.

The White House announced Thursday that Reagan will tour the Bitburg cemetery "in the spirit of reconciliation" at the start of his state visit to Germany following the economic summit in May. Bitburg, where German soldiers from the two World Wars are buried, was the staging area for the Battle of the Bulge in 1944-45.

Reagan, who visited U.S. gravesites during his trip to Normandy last year for the 40th anniversary of D-Day, does not plan to visit graves of American servicemen on the upcoming trip, aides said. The president also has rejected suggestions he visit the site of the Dachau concentration camp out of consideration of German sensitivities and to stress post-war unity.

### FCC: TV Smurfs Aren't Illegal

WASHINGTON (UPI) — The government, by letting "Pac Man" and "The Smurfs" keep their lead roles in popular children television shows, means it has "disowned American children and adopted the toy industry," opponents charge.

The FCC rejected a complaint Thursday that alleged it is unlawful for these and other toys to star in the programs that critics contend are actually program-length advertisements for the products.

By 4-0 with one abstention, the FCC dismissed the complaint brought by Action for Children's Television and the National Association for Better Broadcasting.

Commissioner Mimi Dawson said, "While I understand the concern of many for children's programming," the commission must not get involved in dictating program content.

The complaint was aimed at more than a half dozen Saturday morning children's programs that tell stories about characters based on such toys as the Pac-Man video game, He Man, the Smurfs and even the Rubik Cube puzzle.

# WORLD

## IN BRIEF

### U.S. Congressmen, Arafat Meet On Middle East Peace

AMMAN, Jordan (UPI) — Five U.S. congressmen shielded their faces from cameras to avoid publicity when they met with Palestine Liberation Organization leader Yasser Arafat for talks on reviving the Middle East peace process.

The delegation left Amman for Damascus today, but refused to comment on the talks. As they left their hotel, the congressmen and their aides again turned their backs to photographers and cameramen.

With the exception of Rep. David Obey, D-Wis., the leader of the U.S. delegation, the congressmen and three of their aides refused to identify themselves as they drove to meet the guerrilla chief Thursday evening.

Two other congressmen from the delegation did not attend the talks.

It was believed to be the first time in at least two years that a U.S. congressional delegation had met with Arafat. It is standing U.S. policy that government representatives have no contact with the PLO.

All seven legislators met earlier with King Hussein, who told them it was important the PLO and the Soviet Union be encouraged to join Middle East peace negotiations.

### Military OKs Civilian Cabinet

KHARTOUM, Sudan (UPI) — The new Military Council has agreed to the formation of a civilian-led Cabinet to help run the country for a one-year transition period, a spokesman for an alliance of unions and political parties said.

In another development, the General Command of the Armed Forces announced that Khartoum Airport, closed since April 4, would reopen today to internal and international flights.

The 15-man Military Council was sworn in Thursday at a private ceremony and later met with representatives of the Alliance of National Forces, which includes Sudan's trade unions and political parties.

The council agreed to the alliance's proposal that executive and legislative power during a transitional period be vested in a presidential council and a Cabinet, an alliance spokesman said.

# Comparable Worth

## Panel Says It's Not Worth The Trouble

WASHINGTON (UPI) — Opponents of using comparable worth measures to end wage discrimination against women have won a small battle in their war of ideas with a U.S. Commission on Civil Rights statement the notion is "unsound and misplaced."

But supporters of the concept, long prepared for the 5-2 commission vote Thursday adopting rejection of pay equity, were quick to attack the action.

Comparable worth — the idea that equal pay should be granted to women who hold jobs of comparable skill, knowledge and responsibility as men — frequently has been advanced as a way of overcoming the gap in wages between men and women. The concept is not the same as equal pay for the same job.

The rights panel acknowledged that an unexplained wage gap does exist between men and women, but said: "Since the wage gap is not entirely due to discrimination, it

is wrong to try to eradicate it in the name of anti-discrimination."

Eileen Stein, head of the national committee on pay equity, said the commission is "out of step with the rest of the country," and noted that 69 percent of U.S. workers think women are not paid as fairly as men for the work they do. The reason most often cited is sex discrimination, she said.

"Regardless of the civil rights commission's efforts to trivialize the problems of wage discrimination against women and minorities," she said, "the issue of pay equity will not go away."

Gerald McEntee, president of the American Federation of State, County and Municipal Employees, said the commission report "focuses on ... ideological opposition to the term comparable worth rather than concentrating on sex-based wage discrimination and its remedy."

The conservative-dominated commission's statement urged Congress and the

Justice Department to reject the concept in setting wages in either federal or private jobs.

"There are currently existing ways to remedy (sex-based discrimination) and the implementation of the unsound and misplaced concept of comparable worth would be a serious error," the commission said.

Commission Chairman Clarence Pendleton Jr., who once called the concept "the looniest idea since Looney Tunes," said its adoption would be "a disingenuous attempt to restructure our free enterprise system into a state-controlled economy under the guise of fairness."

In a dissenting statement, commissioners Mary Frances Berry and Blandina Cardenas Ramirez, said the concept "should be applied prudently with a full recognition of any limitations that might exist."

"But its use can be an important pool in the arsenal for attacking employment discrimination," they said.

Not In Time

This car appears to have smashed into this stop sign along U.S. Highway 17-92. But actually it's just an advertising gimmick for a Longwood brake and alignment shop.

Owner Donald Schmidt thought the display would be an effective way of stressing the need for auto safety and maintenance.

Herald Photo by Gregory Gehns

## No Fire Dues, No Protection

SALEM, Ark. (UPI) — A volunteer fire chief said he stopped firefighters from dousing a blaze that destroyed two furniture stores because the owners failed to pay their \$20 protection dues.

Ronnie Courtney, chief of the the Salem Volunteer Fire Department, said Thursday he ordered his men and other departments to stand by while a fire destroyed buildings housing the Discount Furniture and Hodge Podge stores in the town about 15 miles south of Little Rock.

Courtney said the department has a policy of refusing to fight fires at buildings whose owners have not paid membership dues of \$20 a year. Courtney's wife, Martha, said the owner of the buildings had let his membership lapse.

Courtney acknowledged he discouraged fire departments from neighboring communities from intervening.

"It would have been much easier and actually faster had we fought the fire," Courtney said of the Wednesday blaze that burned more than four hours.

"We could have had the situation under control and left within an hour," Courtney said.

In February, Salem firefighters watched as a private residence burned to the ground.

# Suicidal Inmate Has A Change Of Heart

A Seminole County jail inmate is in isolation under suicide watch today following a failed suicide attempt.

The man reportedly tried to hang himself, but thought better of it, yelled for help and was not injured.

The 32-year-old man, Raymond Kinlaw, of New Jersey, tied one end of a sheet to a sprinkler in the ceiling of his cell and the other around his neck at about 9:55 p.m. Thursday, a sheriff's report said. He tried to hang himself but apparently had a change of heart and yelled for other prisoners to call guards to get him out of the noose, the report said.

Jail medical personnel and Sanford Fire Department rescue workers examined Kinlaw within two minutes of the suicide try and determined he did not require medical treatment, the report said.

Kinlaw was arrested on Monday and charged with burglary into an occupied dwelling after police found him near the home of Diane A. Keller, of 537 Division St., Oviedo. She had heard someone trying to enter her home at about 10 p.m. Monday, a police report said.

Kinlaw was being held without bond, sheriff's spokesman John Spolski said, because he is also wanted in New Jersey.

**CHARGED AGAIN**  
A 39-year-old Sanford man charged with possession of cocaine on April 5 after police raided his home has been charged with grand theft in connection with the theft of two items reportedly found in the search.

The grand theft and possession of stolen goods charges in connection with a stolen 22-caliber revolver and a camera, which were reportedly found in the home during the search, were added at the Seminole County jail at 3:35 p.m. Wednesday, a Sanford police report said.

Charged was Oscar Redden, of 1010 Mellonville Ave., Sanford, who was being held without bond on the drug charge. Bond on the other charges was set at \$8,000.

**COKE SALE BUST**  
A 28-year-old Sanford man

### Action Reports

- ★ Fires
- ★ Courts
- ★ Police

who allegedly sold a 1/2-gram of cocaine for \$60 to undercover agents is being held in lieu of \$8,000 bond.

The deal was reportedly made on 7th Street in Sanford. Reggie G. Desausure of 260 E. Banana Ave. Sanford, was charged with possession and sale of cocaine at 11:35 a.m. Wednesday.

**DUI ARRESTS**  
The following persons have been arrested in Seminole County on a charge of driving under the influence:

—Franklin K. Baldrice Jr., 27, of 906 Santa Barbara Drive, Sanford, was arrested at 2:08 a.m. Thursday after he drove his car over a curb in a parking lot beside U.S. Highway 17-92, Sanford. He was also charged with driving with a suspended license.

—Braxton Scott Gordon, 28, of 920 S. U.S. Highway 17-92, Longwood, at 5:10 p.m. Wednesday after his car was involved in an accident on Osceola Road, near Geneva.

—William Thomas, 38, of 1400 Dodd Road, Goldenrod, at 11:23 p.m. Wednesday after his car failed to maintain a single lane on Geneva Drive, Oviedo.

—Al Roy Brooks, 29, of P.O. Box 303 Butler Boston Court, Oviedo, at 3:38 p.m. Sunday on state Road 46, Oviedo, after his car failed to maintain a single lane.

—Herschel Allison, 38, of 200 Pauline Road, Longwood, at 9:04 p.m. Saturday on Maitland Avenue, Altamonte Springs, after his car was clocked traveling 55 mph in a 35 mph zone.

**FIRE CALLS**  
The Sanford Fire Department responded to the following calls:

**Tuesday**  
—12:31 p.m., U.S. Highway 17-92 and Lake Mary Boulevard, rescue. Two people received minor injuries after the gas pedal of the car in which they were riding stuck, gunning the vehicle into a ditch. Robert Rich-

ardson, 16, of 2008 Lake Drive, Casselberry, and his sister, Annette, of the same address, refused treatment, according to a rescue report. Robert had back pains and Annette had a cut lip and pain in her nose.

—2:15 p.m., 20th Street and French Avenue, rescue. There was an auto accident but no injuries were reported.

—2:18 p.m., 1401 W. Seminole Blvd., emergency-related. Firefighters were on standby while a helicopter arrived at Central Florida Regional Hospital. The firefighters were on hand in case there was a crash or any other difficulties with the flight.

—5:42 p.m., Old Lake Mary Road and Country Club Road, rescue. Rescue workers responded to an auto accident but were called back after it was discovered the accident was being handled by the Seminole County Fire Department.

—7:46 p.m., 2540 S. Sanford Ave., emergency-related. An appliance that was overheating had cooled when firefighters arrived at the scene.

—10:29 p.m., 530 N. Palmetto Ave., rescue. A 53-year-old woman who had difficulty breathing was taken to the hospital.

**Wednesday**  
—11:39 a.m., 2414 Stevens Ave., rescue. A 79-year-old woman who fell and dislocated her hip was taken to the hospital.

—1:48 p.m., 300 S. Mellonville Ave., rescue. A 49-year-old woman fainted. She went to the hospital on her own.

—2:31 p.m., 519 E. First St., rescue. A 73-year-old woman who had a possible heart attack was taken to the hospital.

—6:38 p.m., 911 Orange Ave., rescue. An 82-year-old woman was in insulin shock. She was taken to the hospital.

—6:42 p.m., 25th Street and Airport Boulevard, rescue. A 51-year-old man had a seizure but seemed OK when rescue workers arrived.

—9:10 p.m., Seminole Community College, rescue. A 33-year-old man had a seizure but was

stable by the time rescue workers arrived.

**Thursday**  
—6:35 a.m., 1407 W. 12th St., rescue. A 34-year-old man who had a possible seizure was taken to the hospital.

—9:54 a.m., Seminole Community College, rescue. A 16-year-old girl passed out. She was released to the care of her mother.

—10:30 p.m., 819 E. First St., rescue. An 83-year-old man who had a possible heart attack refused transport to the hospital. He was taken by a relative.

**BURGLARIES & THEFTS**  
Margaret E. Nicks, 42, of P.O. Box 41, Maitland, reported to deputies her 1973 Toyota worth \$1,600 was stolen while it was parked at 2102 Southwest Road #12, Sanford, on Tuesday.

A thief who broke a kitchen window to enter stole a \$425 microwave oven from a home being built by Catalina Homes of Casselberry, at 192 North Post Way, Casselberry, on Tuesday or Wednesday, according to a report filed with deputies by supervisor John Harvey of Orlando.

Thieves stole 15 poinsettia plants valued at \$50 from a bathtub in the front yard of 108 Holly Ave., Sanford. The plants belong to Judy Bendrbaugh of the same address.

# FDR, The President Who Altered The Course Of U.S. Government, Died 40 Years Ago Today

By Arnold Sawalak  
UPI Senior Editor

As it does this year, April 12, 1945 fell on a Friday. At 1:15 p.m., in a small town in Georgia, a 63-year-old man lifted his left hand to his forehead. "I have a terrific headache," he said quietly. Then he died.

About three hours later, a young man walked into a classroom in downtown St. Paul, Minn. where a course in basic electronics was under way for high school seniors who hoped to get into the Navy's radar program. "The president died," he said in a level tone of voice.

The class was quickly dismissed and some students left not believing the report. One of them wandered to the nearby railroad depot where two black men, redcaps, were sitting on the steps, crying. Then the student believed it and he was frightened.

About the same time, in a suburb west of Chicago, a middle-aged minister greeted the news from Warm Springs, Ga. with a different reaction. Shouting with glee, he rushed out of the parsonage and had to be restrained from ringing the church bells in a peal of jubilation.

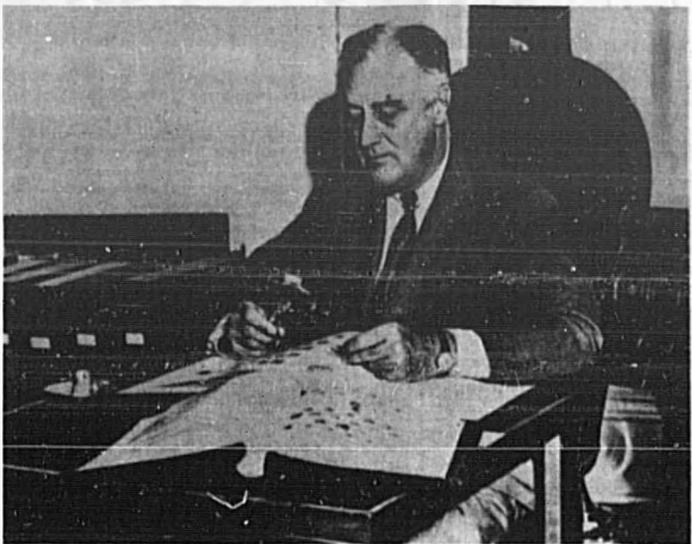

That was the way it was. Many people loved him and many hated him, but all felt they knew him. He had been a presence in the lives of everyone in the country for more than 12 years (the teenage student could only dimly remember anyone else as president), and without warning, he was gone.

Franklin Delano Roosevelt changed the United States as no other person in the 20th century.

He came to the presidency at a time when his country's economy was prostrate and its social fabric was unraveling. Many thought capitalism was ready to succumb to bloody revolution and either communism or fascism.

By trial and error, Roosevelt and the men and women he brought to Washington transformed the country's rough-and-tumble, boom-and-bust free enterprise society to a modified welfare state in which the market, the workplace and the counting house all became subject to government scrutiny and intervention.

The key word for FDR and his New Dealers was action. Where Washington in the past had avoided anything that could be interpreted as interference with the private sector or with other levels of government, now it moved aggressively to impose on them the program means that were hurriedly designed to serve its national policy ends.

Not only a hard worker, FDR was also a tireless collector. Here he is shown in the White House with his stamps.

There never has been such a time of government innovation in the United States as FDR's 100 Days. On one day, May 16, 1933, the Federal Deposit Insurance Corp., the Farm Credit Administration, the National Recovery Administration (with its Blue Eagle and its "We do our part" motto) and the Public Works Administration came into being.

Roosevelt forever changed the relationship of the average American with the president. He exploited the new medium of radio to forge an intense personal link between himself and people in their homes and shops. People really felt he was speaking to them.

He gave the country a new set of national values. It was, he said, the duty of the government — and through their support of it by their taxes, of the least citizen — to succor the poor, protect the weak, rein in the power and privilege of wealth.

Before FDR, the government had no such mandate. The alleviation of poverty was the

responsibility of private charity. Citizens were expected to protect and improve themselves and their own. And it was regarded as a fact of life that the rules for the rich were different than those for the common folk.

Since FDR, some presidents have attacked and rolled back parts of the social welfare structure Roosevelt and his inheritors built, but none have dared openly repudiate the basic tenets of humanitarian government he set down.

Today, 40 years after the Roosevelt era ended in that Georgia cottage, the most conservative national administration since Hoover's is firmly in the saddle and working hard to disengage the government from regulation, subsidy and aid programs for the poor and elements of the middle class.

But even its president, whose own family was fed by a New Deal job, feels it necessary to repeatedly and passionately declare his intention to maintain the "safety net" that FDR began weaving.

## Fired From 1 Job, Former Court Clerk Finds Another

Virginia "Ginny" Huff, one of three employees designated for dismissal by Clerk of the Circuit Court David Berrien before he assumed his office in January, has been appointed to a new job with Seminole County.

The county commission confirmed Mrs. Huff's appointment by Public Works Director Larry Sellers to the newly-created post of financial services manager in Sellers' department.

The effective date of her appointment is April 22 and her starting salary is \$31,024 a year. Salary range for the position is \$25,000 to \$35,000. Sellers said Mrs. Huff's salary in the clerk's office was \$40,000. Her last day on the job in Berrien's office was April 4.

Mrs. Huff, head of county finances in the clerk's office, went to work there in 1965. During her 20 years in the clerk's office, Mrs. Huff has continued going to school and is now in the master's program at Rollins College.

County Commissioner Bill Kirchhoff voted against Mrs. Huff's confirmation because, he said, the county's usual practice is to pay the starting wage — in this case \$25,000 — to a new employee and let that employee prove himself or herself before the salary is raised.

County Administrator Ken Hooper said Mrs. Huff has a great deal of knowledge about Seminole County. "If we would bring somebody in from the outside, it would

take that person six months to learn the county," he said.

Mrs. Huff was given 90 days notice by Berrien in December to get another job. Berrien assumed office in January after winning election against incumbent Arthur H. Beckwith Jr. in November.

The only reason Berrien gave for dismissing Mrs. Huff and two others — Eloise Pfeilau, chief deputy, and Ashby Jones, administrative assistant — was that "this is a new administration."

Mrs. Pfeilau was appointed in late January as chief deputy clerk of the circuit court in Pinellas County. Berrien re-elected with Jones, allowing him to stay on the job until his retirement with 24 years service in May.

Rick Holt, Seller's administrative assistant, said Mrs. Huff will be handling project accounting for the department.

"We will be doing more than \$21 million in gasoline tax projects and more than \$30 million in other projects over the next five years," Holt said. "Mrs. Huff will be keeping track of all the projects and all the dollars spent and labor and materials used on each project."

The new post is one step toward a refinement of the public works organizational structure, Holt said.

"With Mrs. Huff on board we will have a better financial management system. She will be assisting in development and control of the system," he said.

—Donna Estes

## A War That Is Ignored

With its population less than that of Czechoslovakia, Afghanistan was no threat to the giant Soviet Union when Red Army tanks and troops invaded its neighbor on Christmas Day 1979.

Since then the invaders have devastated the country, killing a million or more people, waging a scorched earth campaign that destroys crops, livestock and people and driving more than 4 million Afghans from their homeland.

Outsiders thought the war would end quickly.

Scattered tribesmen armed with single-shot rifles could not hold out long against immensely superior forces with the deadliest of modern war-making machinery.

From the war zone French doctors sent reports of booby-trap toys which explode, maiming children and forcing their fathers to abandon military service in order to care for them.

Yet the Mujaheddin, the Afghan freedom fighters with their ancient and captured weapons and practically no outside support, still control 90 percent of the country.

The Afghans' fight for liberty is one of history's most courageous and dramatic military feats. Few wars have been so unequal, so unjust.

Afghan independence is vital to U.S. strategic interest. A Soviet-controlled Afghanistan would be a staging zone for penetration of the Persian Gulf region and the encirclement of Asia. It would provide the Soviets with a wealth of mineral resources. It would give them airbases 350 miles from the Straits of Hormuz through which most free world oil must pass.

In spite of the natural drama, the human epic of bravery and tragedy is being strangely ignored.

In the whole first year after the invasion, the three major television networks spent an average of only 20 minutes each on what was happening in Afghanistan. Press news service coverage, compared to that of the Vietnam War, was a trickle.

There are some Americans who say that unless the tide is turned against the Soviets in Afghanistan, what is happening in Afghanistan will eventually happen to the rest of the world.

If Soviet armed forces are able to conquer a nation the size of Texas and a population of 14 million without arousing any more attention, anger or resistance than seen thus far, that prediction may well come true.

## A Grand Waste

General Electric Co. has been indicted for fraudulently billing the Air Force for an extra \$800,000 under a \$47 million contract to upgrade Minuteman re-entry vehicles. That, of course, is nickel-and-dime stuff by defense contract standards — a deviation so small it will be hard to prove in court that it wasn't just an error on GE's part. Nonetheless, if the evidence of deliberate falsification of records is there, the indictment was entirely appropriate. Fraud is fraud and should be treated as such. It's much better to have the Justice Department's new defense-procurement-fraud unit looking into such things than not.

In a world of multimillion-dollar cost overruns that are entirely legal, of \$8,000 coffee makers that the Pentagon buys with its eyes wide open, and of weapons that patently don't work but are purchased anyway, GE's alleged criminal behavior hardly can be considered to be the heart of the problem.

It's all to the good if embarrassing publicity about over-priced hammers and non-functioning missiles has convinced the administration to get serious about curbing waste and fraud in the defense procurement system itself. It remains largely uncompetitive, inefficient and uncontrolled.

### BERRY'S WORLD

### HELEN THOMAS

## Ranch Reagan's Fortress Of Solitude

SANTA BARBARA, Calif. (UPI) — When he goes on vacation, President Reagan enjoys seclusion and solitude that few other contemporary presidents have had.

The president rides horses, chops wood and does his ranch chores in total privacy far from the maddening crowd.

Other presidents have been more visible at their vacation spots. The most accessible was President Jimmy Carter, who made it a ritual to walk down Main Street in Plains, Ga., the day after his arrival to greet friends and relations.

At Vail, Colo., and at Palm Springs, Calif., President Gerald Ford was in sight on the ski

slopes and on the golf course. President Richard Nixon was at San Clemente, Calif., 15 miles from the press corps at Laguna Beach, and the reporters were often summoned to the Western White House during his vacation stays.

President John F. Kennedy, who went to Hyannis Port, Mass., and Palm Beach, Fla., wanted his privacy too, but he moved around so much that reporters and cameramen usually caught up with him.

In covering Reagan's daily activities, the press corps, 25 miles away from the president's "ranch in the sky," must rely on the word of his press spokesmen.

The word around Santa Barbara is that Reagan plans to spend five weeks at his ranch during the August-Labor Day congressional recess.

Regan is sympathetic with CIA Director William Casey, who wants his salary raised to Cabinet-level, around \$86,000 a year, from around \$75,000.

Regan says that since Casey has Cabinet-level rank, he should have the higher salary, but he adds that it is not in the 1986 budget.

Both Regan and Casey are multimillionaires who had to put their vast stock holdings in a blind trust.

### VIEWPOINT

## A Little Stress Is OK

By Jeannine E. Killen

SHREVEPORT, La. (UPI) — A little stress is healthy, according to a man who has spent the past several years developing a program to manage it.

"The good news is that not all stress is harmful. In fact, it gives us our excitement, enthusiasm for living, energy for getting things done. We enjoy it — if we can manage it," said associate psychiatry professor Ron Nathan, who directs a biofeedback clinic at Louisiana State University's medical center in Shreveport.

But it takes practice to relax and learn how to enjoy the challenge of stress, he said — something like learning to ride a bicycle.

Nathan, with fellow psychologist Edward Charlesworth of Houston, put together "Stress Management: A Comprehensive Guide to Wellness," a book with the ingredients for mental and physical well being.

"Stress is the body's fight or flight response to something perceived or seen as demanding or dangerous," Nathan said.

The problem today is that people have "clamped a lid on that response," and the bottled up turmoil takes its toll in the form of headaches, ulcers and heart disease, Nathan said. He estimates up to 75 percent of all visits to doctors are made by people with a stress-related problem.

The two authors drew on their years as practicing clinicians in the field of stress-related disorders to compile their self-help book. Nathan calls it "a cookbook" of various ways to deal with stress.

"What we try to do is combine the most effective ways. I think we have to find out what works for each of us," he said. "We're trying to help people gradually change."

"Exercise is the closest thing to fight or flight in modern life," Nathan said. "It's also one of nature's best tranquilizers."

Nathan suggests people find a type of exercise they can do consistently and comfortably the rest of their lives.

Little things can be done to ease stress, too — even the old adage about counting to 10. Silly as it seems, Nathan said, counting works well in stressful situations because it allows time to think and listen to others.

One of Nathan's favorite stress management tips — and one he uses frequently himself — is to allow the telephone to ring twice before answering. The pause lets you get your thoughts together and help you remain calm and confident, he said.

"Dr. Robert Eliot, a cardiologist at the University of Nebraska, has two rules. The first is 'Don't sweat the small stuff,' and the second is, 'It's all small stuff. If you can't fight and you can't flee, then flow.'"

Another important aspect of stress management is to have friends "you can trust enough to really share your innermost feelings with," Nathan said.

### JACK ANDERSON

## Former CIA Man Wages Anti-Soviet War

By Jack Anderson and Dale Van Atta

WASHINGTON — David Sullivan is a former CIA analyst whose friends call him "Mad Dog." He's a pivotal behind-the-scenes power in the fight over the MX missile and U.S.-Soviet arms control negotiations.

The story of Sullivan's rise to influence is a case history of the way things work in Washington.

Educated at Harvard, Sullivan served in Marine Corps combat intelligence in Vietnam and eventually wound up in one of the CIA's most sensitive jobs, analyzing Soviet strategy and nuclear force modernization. He soon discovered that the Soviets were violating SALT I and other treaties with the United States.

But when Sullivan presented his evidence, he was stonewalled by

### SCIENCE WORLD

## Polio Still A Concern

By Charles S. Taylor

WARM SPRINGS, Ga. (UPI) — Forty years after the death of Franklin D. Roosevelt, the town made famous by a president's struggle against polio prepares to meet new challenges posed by the crippling disease.

An estimated 300,000 survivors of the great 1940s-1950s polio epidemics are living in the United States today and experts estimate that as many as 25 percent will suffer from the late effects of polio.

And while vaccines have virtually wiped out polio in the United States and other western nations, the ailment has reached epidemic proportions in developing countries. Worldwide, polio strikes a half million children each year, killing 50,000.

Steps to assemble the tools and the organization needed to meet polio's renewed onslaught are being taken in Warm Springs where this country's battle against the crippler first started.

Next month a three-year \$61.5 million fund-raising campaign is scheduled to get under way to make the Roosevelt Warm Springs Institute for Rehabilitation a model facility and a living memorial to Roosevelt, who died in Warm Springs April 12, 1945.

Roosevelt began visiting Warm Springs in 1924 three years after being stricken with polio. He found the soothing spring waters beneficial to his own rehabilitation and decided that Warm Springs was ideally suited for a polio aftercare facility. Three years later, Roosevelt established the first center in America devoted to the care and treatment of polio patients.

Since an international symposium on the late effects of polio was held here in May 1984, foundation officials have received thousands of inquiries from former polio patients who fear they are experiencing a return of their symptoms — excruciating pain, new paralysis, fatigue and muscle weakness. Hundreds of other calls come from doctors who have never before seen a case of polio and are unfamiliar with the late effects syndrome.

Elles Moran, executive director of the institute and a board member of the Roosevelt Warm Springs Foundation, the two groups involved in the national drive, said the revitalized institute will have the facilities to deal with the late effects of the disease and possibly to serve as a catalyst in getting a worldwide polio immunization drive started.

"We need to take a hard look at educating physicians that polio is still a problem and a threat," he said.

Foundation officials have met with the U.S. surgeon general and with leaders of other countries where polio is epidemic. Other sessions are scheduled with the World Health Organization and officials of the national Centers for Disease Control.

A national polio registry, which already has about 4,000 names, will be moved from Atlanta to Warm Springs and expanded. "We hope to identify those who have had polio," said Moran.

"We want to serve as a clearing house so that when people call here we can say, yes, we understand, and then we can refer them to a (nearby) polio clinic," said Moran, who hopes that regional clinics can be established across the country. Clinics already have been set up in Arkansas, Wisconsin, Washington D.C., Ohio, Michigan and Texas.

Dr. Larry T. McKinstry, institute medical director, says former polio patients should get a medical evaluation if they think they are experiencing a return of symptoms.

### ANTHONY HARRIGAN

## Preserve Canadian Good Will

President Reagan's recent visit to Canada constituted much needed attention to a much neglected neighbor.

Americans have a thing about Canada: they take it for granted. Americans should be thankful that they have such a wonderful neighbor on their northern border. Americans and Canadians share the same civilizational values and many of the same political traditions, as both have institutions derived from Great Britain. The two countries share a virtually open border. While there are some restrictions, an extraordinary amount of two-way trade flows across the border. Both Americans and Canadians have abundant opportunities to invest in each other's economy and do so. The two countries have a history of cooperation and common effort in war and peace. U.S.-Canadian relations are a model for the world.

Only one thing is missing: adequate American interest in Canadian problems and concerns. Our giant northern neighbor, with a much smaller population, understandably is sensitive to every political, economic and cultural change in the United States. Americans, on the other hand, fail to realize how lucky they are to have a friendly, stable country to the north. On the south, Mexico is not quite so friendly and, certainly, not anywhere as stable as Canada.

The U.S. government should never forget the value of Canada as an ideal good neighbor. It should bear in mind that the strategic position of Canada insofar as position and natural resources are concerned. The American people should recognize the importance of maintaining good relations through personal diplomacy. One of the most important types of diplomacy is understanding of Canada and Canadians and respect for the country's culture and distinctiveness. This means that the history of Canada should be taught in American schools. The media should pay much more attention to Canadian news. Businessmen and government officials should be more mindful of the impact on Canadians of economic developments in the states.

In the 1960s, Canada was troubled by the separatist movement in Quebec. That movement has virtually disappeared, and Americans can be thankful. The last thing the United States needs is an unstable Latin republic on its northern frontier. But other problems may surface. Canada has its quota of hostile liberal-left ideologues who detest the United States, though they haven't been able to engender hostility in the Canadian public at large. Americans should do everything possible to prevent the surfacing of hostility beyond this limited circle of ideologues. The way to prevent that is to convince Canadians that Americans regard them as full partners in the development of the North American continent. Canadians need and deserve appreciation from their neighbors to the south.

Richard Perle, became a high official at the Pentagon.

Sullivan's "mad dog" pursuit of Soviet violations guaranteed that his tenure at the disarmament agency would be brief. Frustrated once more, he left for the more sympathetic environment of Capitol Hill, becoming a senior policy adviser to four conservative GOP senators, Steve Symms and James McClure of Idaho, and Jesse Helms and John East of North Carolina.

In this capacity, Sullivan has ghosted a series of letters from the Fearsome Four to their Senate colleagues, President Reagan, Defense Secretary Caspar Weinberger and CIA Director William Casey, reminding them of Kremlin perfidy. A recent campaign, for example, tried to get the Pentagon and the CIA to acknowledge that the Soviets now have more than 8,500 ICBM

nuclear warheads, instead of the 6,500 they profess to have.

Surprisingly, the Reagan administration, while fulminating about the "Evil Empire," was reluctant to reveal information it had on Soviet arms-treaty violations. The White House finally did so in a secret report early last year — after Symms (with Sullivan at his elbow) had done some high-powered prodding.

Sullivan, the consummate behind-the-scenes operator, has become an irascible and influential monkey wrench in the machinery of U.S.-Soviet arms-control negotiations. It's not just because he now has some committed ideological hardliners backing him; it's because his early warnings on Soviet weapon development turned out to be dead accurate.

## Will Seminole Dominance Continue?

### Records In Jeopardy At County Meet Tonight

**By Chris Flister  
Herald Sports Writer**  
Whoever has the Seminole County track record book had better bring it to tonight's meet. A number of the current records are in jeopardy in the 1985 Seminole County Championships, sponsored by the Optimist Club of Sanford, at Seminole High.

The meet starts at 4 p.m. with the field events, followed by the running preliminaries at 4:30. The running finals will begin at 6:30 p.m.

Sanford's Fighting Seminoles, the defending county champions, is the overwhelming favorite to repeat. Seminole has won every meet it has entered this season, most of the time by a wide margin.

"It makes a little bit of difference," Seminole coach Ken Brauman said of the fact his team is expected to win big. "We are heavily favored to win it. It's not a meet that we shaped our training around."

#### Track/Field

We've treated it just like any other meet during the season. In a lot of cases, the kids will be pushing each other. They'll try to push themselves to a better time."

Senior sprinter Cliff Campbell, who signed a grant in aid with Auburn University this week, will go after a pair of county records tonight. Campbell already holds the record in the 440 dash (48.7) but has run a season's best 48.1 this season. He will also go after the record in the 220 of 21.8 set in 1977. Campbell has run a 21.8 this year.

"Campbell's capable of running in the low 47s in the 440," Brauman said. "But he hasn't had to this year."

Campbell will also run a leg on both the 440 and mile relays. Barring a bad handoff or something the Tribe should break both of those records.

The mile relay record of 3:25.7 has stood since 1981 when the Seminole tandem of Ralph Byrd, Jim Voltoline, Mike Wooten and Vince Edwards won the county title.

This year, Seminole has already clipped 10 seconds off the 1981 time. The Tribe's time of 3:15.7, with the team of Deron Thompson, Ken Temple, Eric Martin and Campbell, ranks as the best in the state.

In the 440 relay, Seminole's team of Pat Davis, Campbell, Thompson and Frank Barnett has turned in a 42.0, which ranks second in the state. The county record is 43.1 by the Oviedo team of 1983.

Barnett, a senior who signed with the University of Arizona this week, will compete in his specialty, the 120 high hurdles, along with the 100 and 220 dashes. Barnett holds the county record of 14.1 set a year ago but he has already run a 13.5 this season.

In the 100, Barnett has tied the school record of 9.8 which

is also the county record. Giving Seminole a solid 1-2-3 punch in the 100 are Davis (10.0) and Dexter Jones (10.1).

In the distance events, junior Billy Penick leads the way. Penick's top time in the mile is 4:22.4 and his top two mile time is 9:44.2. Those two records seem to be pretty secure though as the mile mark is 4:14.8 by Lake Howell's Ken Cheeseman in 1984 and the two mile record is an incredible 9:19.9 by Lake Brantley's Rick Horton in 1977.

In the jumping events, Leo Peterson and Alvin Jones lead the way for the Tribe. Both will be going after the triple jump record which Peterson holds at 45-10. Peterson has gone 48.6 this season while Jones has gone 47-7. The two jumping jacks will also go after the long jump record of 22.8 set by Oviedo's Howard Lingard in last year's meet.

## Hallberg Backs Up Bold Talk

AUGUSTA, Ga. (UPI) — Gary Hallberg is beginning to play as well as he used to talk.

Just as he's been toting down his boasts, Hallberg finished fourth in the Tournament Players Championship two weeks ago, and today went into the second round of the even more prestigious Masters with a one-stroke lead over two-time champion Tom Watson and Payne Stewart.

His "Indiana Jones" fedora pulled down to shade his eyes, Hallberg had four back-nine birdies Thursday enroute to an opening 4-under-par 68.

"I've never been in the lead in a major event," said the 26-year-old former Wake Forest star who is in his sixth year on the PGA Tour. "The closest I've come was when I was leading after the first nine holes as an amateur at the U.S. Open in Atlanta (in 1976)."

"It's a stepping stone," Hallberg said. "I'll enjoy it now and go out tomorrow and start over again."

In the past, people were always asking me how I thought I'd do. Naturally, I wasn't going to be pessimistic. I predicted what I was going to do before I even teed up. I put a lot of pressure on myself.

"I've learned patience now," said Hallberg. "I used to think I had to win every tournament on the first hole, on the first shot."

Watson, who won the Masters in 1977 and 1981 and would like to keep his four-year cycle going, was 2-over after 10 holes Thursday, but had an eagle and three birdies over the next five to play the back nine in 5-under 31.

"The round was like night and day," said Watson. "Three of the first six pins were almost unfair. They put you on the defensive. I adjusted my putting midway through the round, but I'm still not comfortable."

Stewart, best known for those colorful plus-fours he's made his trademark the past three years, also came to life on the back nine where he birdied three of the last six holes.

The Masters had great first-round weather, but many of the golfers complained about too-fast greens and tough pin placements.

The results backed their complaints since only Hallberg, Watson and Stewart were able to break 70 and only 10 others broke par.

The biggest surprise on opening day was the play of two young amateurs — 20-year-old Sam Randolph of Southern Cal and 22-year-old John Inman, a recent University of North Carolina graduate. Both shot 70s and were tied for fourth with three big-name pros — defending champion Ben Crenshaw, PGA champ Lee Trevino and former Masters winner Ray Floyd.

Five-time champion Jack Nicklaus, looking for his first Masters victory in a decade, and South Africa's Gary Player, the only foreigner to win the Masters three times, were at 1-under 71 along with 54-year-old Billy Casper.

Riane Richardson tags out Barbara Silva as George Heisey makes the call.

## Lyman Makes Silent Move; Seminole Regroups For Win

**By Chris Flister  
Herald Sports Writer**  
Shh. If you listen real close, you can hear them coming on. Lyman's Lady Greyhounds didn't make a whole lot of noise in the first half of the season, in fact, they hung around the bottom of the Five Star Conference much of the way. But, in one week, the Lady Greyhounds have silently crept up the cellar stairs and moved into a pretty solid spot in the conference standings.

When the week started, Lyman was tied with Seabreeze for the next to last spot in the conference. Now, after two straight wins, the Lady Greyhounds have taken over sole possession of fifth place and they have clinched that spot and the fifth seed in the district tournament.

Kristie Kaiser's single provided the lone run of the game Thursday afternoon as Lyman slipped past Lake Mary's Lady Rams, 1-0, in Five Star action at Lake Mary High.

The Lady Greyhounds, 5-8 overall, concluded their conference slate with a 4-5 mark. They stand at 4-4 in the district, discounting a loss to Seabreeze which doesn't compete in the district.

Lake Mary, 11-10 overall, is 3-5 in the district and will end its conference schedule Tuesday against Seabreeze.

Lyman, which had seven hits in the game, pushed across the winning run in the top of the third. With two outs, Mary Ryan hit a fly ball between the left center and right center fielders which was misplayed for a three-base error. Kaiser then singled up the middle to drive in Ryan with what turned out to be the winning run.

Lake Mary's biggest threat came in the bottom of the fifth. With two outs, the Rams had runners on second and third with Beth Watkins coming to the plate. Lyman coach Annette Griffin made a gutsy move when she chose to walk Watkins to load the bases, bringing up cleanup hitter Kim Averill. It turned out to be the right move as Averill lined out to Ryan in left for the third out.

**TRIBE DEFENSE STIFLES SEABREEZE**  
After being soundly thrashed, 27-2, by Lake Howell on Wednesday, the outlook for the

#### Softball

remainder of the 1985 season for Sanford's Lady Seminoles was not a very bright one.

But, Seminole had a two-hour team meeting after the humiliating loss and regrouped for the remaining games.

With a vicious wind cracking off Lake Monroe, the Lady Tribe played its best defensive game of the season Thursday afternoon in a 5-2 victory over Seabreeze's Lady Sand Crabs in Five Star Conference action at Fort Mellon Field.

"We played real heads up ball," Seminole coach Beth Corso said. "We only had two errors in the whole game. It was a real good day for us, especially since we were coming off a disaster yesterday."

The win improved Seminole to 3-5 in the Five Star and the Lady Noles stand at 2-5 in the district. If Seminole can defeat Spruce Creek Tuesday it will avoid having to play Spruce Creek again in a playoff for the eighth seed in the district tournament. If Seminole wins Tuesday, Lake Brantley will play Spruce Creek for the eighth seed.

Seminole, 5-11 overall, jumped out to an early lead Thursday with one run in the first and two more in the second.

In the first, Jackie Farr drew a one-out walk and Barbara "Taco" Silva reached on an error. Sheri Peterson followed with a single to drive in Farr for a 1-0 lead. Seabreeze scored once in the top of the second to tie it at 1-1.

In the bottom of the second, Laura Burke coaxed a one-out walk and Jackie Suggs and Lisa Hartman both singled to load the bases. Burke then scored when Alycia "Fat" Dixon reached on an error and Hartman later scored when Farr got on via an error for a 3-1 Seminole lead.

The Lady Tribe added a pair of insurance runs in the fourth to make it 5-1. Shelly Sanders reached on another Seabreeze miscue to lead off and Showanda Walker followed with a double to chase home Sanders.

## Lady Hawks Lose Another Big One

**By Chris Flister  
Herald Sports Writer**

DELAND — In three days, Lake Howell's Lady Silver Hawks have gone from sole possession of first to a tie for third in the Five Star Conference. Lake Howell took a back seat to Apopka and Deland in the conference race Thursday as it dropped a 4-0 decision to an impressive Deland squad led by senior shortstop Robyn Swartz at the Deland Airport complex.

The Lady Hawks, 16-6 overall, now stand at 6-2 in the conference. Deland (14-1 overall) and Apopka (17-2) are tied at 7-1 and those two teams will get it in a showdown for first place Tuesday. Meanwhile, Lake Howell will go up against Mainland Tuesday in a playoff for third place in the conference and the third seed in the district tournament. Mainland is also 6-2 in the Five Star.

"I'm very impressed with Deland," Lake Howell coach Jo Luciano said. "They have a very solid, very sound team. I'm not completely disappointed, but I just hate not winning the ones you have to win."

Swartz, the Lady Bulldogs' leadoff hitter, and Shawn Lane, the number two hitter, combined to score three of the team's runs and drove in two each. Swartz also turned in a magnificent performance at shortstop. "She looked great at short," Luciano said of Swartz.

Lake Howell came out hitting hard Thursday but hit it right at someone in the first inning. Jaudon "Pee Wee" Jonas reached on the only Deland error of the game to lead off. Erin Hankins then hit a shot back toward the middle, but pitcher Debbie Underwood speared it and doubled Jonas off first. Sandy Gillies hit another shot right to Underwood for the third out.

Deland opened up a 2-0 lead in the bottom of the first. Swartz drilled a single to left to lead off and Lane followed with a long fly to right center. Beth Saunders took a step in at first and, by the time she started back the ball was over her head and both Swartz and Lane circled the bases for a 2-0 lead.

An excellent play by Swartz got Deland out of trouble in the top of the second. Eileen Thiebauth ripped a single up the middle to lead off and, one out later, Christy Tibbitts hit a hard grounder toward the middle. Swartz made a nice lunging stop of the grounder and flipped to Kim Reeves at second for the force on Thiebauth. Ava Gardner then bounced back to the mound for the third out.

Lake Howell put runners on first and second with one out in the third but again it was Swartz that turned back the Lady Hawks. Jonas hit a grounder toward left but Swartz got to it and threw to Lane at third for the force. Hankins flew out to right center for the third out.

Deland up its lead to 3-0 in the bottom of the third when Swartz scorched a shot down the left field line for a solo homer.

Lake Howell had a two-out threat in the fourth turned away when Gardner again bounced back to the mound. Gillies made

#### Softball

TEAM	Five Star Conference	5 Star	Overall
Deland	7	1	14-1
Apopka	7	1	17-2
Lake Howell	6	2	16-6
Mainland	6	2	10-4
Lyman	4	5	5-8
Lake Mary	3	5	11-10
Seminole	3	5	11-11
Lake Brantley	3	6	7-13
Seabreeze	2	6	7-10
Spruce Creek	1	7	4-9

Thursday's results  
Deland 4, Lake Howell 0  
Apopka 9, Lake Brantley 3  
Lyman 1, Lake Mary 0  
Seminole 3, Seabreeze 2

an outstanding defensive play in the bottom of the inning to halt a Deland uprising. With her back to the plate, Gillies ran down Reeves' blooper to right and doubled off Underwood at first for the inning ending double play.

The Lady Hawks went down in order in the top of the fifth and Deland added an insurance run in the bottom of the frame. Sonja Villetti singled to right center to lead off and took second on the play when the outfield bobbed the ball. With one out, Swartz smacked a single to right center to chase home Villetti. Swartz was 3 for 3 for the game with two RBIs and two runs scored.

Villetti, one of the premier outfielders in the state, returned to the Deland lineup after missing most of last season, the summer season with the Orlando Rebels and some of this season with an injury. Her presence gives Deland an even better shot at the conference and district titles.

Lake Howell had its best opportunity of the ballgame in the bottom of the sixth. Again, however, the rally was started with two outs. Gillies singled to right center to start it and both Thiebauth and Ley walked to load the bases. Tibbitts then hit a hard grounder, but right at Lane at third. Lane handled it and stepped on the bag for the force and the third out.

"We've got to get going before the sixth inning," Luciano said. In Tuesday's 5-3 loss to Apopka, the Lady Hawks were held scoreless until the sixth.

The Hawks put runners on first and second with two out in the seventh but Jonas grounded into a force play. Swartz to Reeves, for the final out.

See SOFTBALL, Page 7A

Oviedo's Cathy Bergman rapped three hits to help Oviedo top Jones Thursday.

# Step-Slow McEnroe Wins

DALLAS (UPI) — Normally, John McEnroe makes things sticky for opponents. Thursday in the semifinals of the World Cup Tennis tournament, Joakim Nystrom let McEnroe know how it feels.

"I just felt very flat. Like there was glue on my sneakers," said McEnroe after dropping a 6-4, 7-6 (7-5), 6-3 decision to Nystrom. "The match started earlier than I thought, and I was a step slow all night."

No. 4-seeded Mats Wilander fared equally as poorly in the \$500,000 tournament, the victim of the best game of Tim Mayotte's career.

Nystrom, ranked 12th in the world, breezed in the third set by breaking McEnroe's serve to go up 4-2. "Nystrom returned my serve well and guessed right," said McEnroe, who has won four WCT championships. "I served badly and didn't do the things I normally can do. I never felt I had a good feel for the ball, and kept changing racquets."

In the second set Nystrom had to come from behind in the tiebreaker, as he trailed 4-3. McEnroe, the world's top-ranked player, lost the set when his foot fault erased an ace. Nystrom won the point on his second serve.

"McEnroe started to play badly, and when he tried to come back in the second set I was playing as well as I can," said Nystrom. "Of course I'm surprised because the first time I played him I lost 6-4, 6-2."

## Tennis

**EXPERIENCE HELD CHRIS AVOID UPSET**  
HILTON HEAD ISLAND, S.C. (UPI) — Defending champion Chris Evert-Lloyd says experience has helped her avoid a string of upsets that have claimed three of the top six seeded players in a \$200,000 women's tennis tournament.

The tournament is sponsored by Family Circle Magazine.

Evert-Lloyd had little trouble Thursday beating unseeded Pam Casale, 6-1, 6-4. Evert-Lloyd appeared to be on her way to a rout after the first set, but Casale capitalized on several errors to tie the set at 4-4 before the top seed took control again.

Third-seeded Claudia Kohde-Kilsch of West Germany, fifth-seeded Zina Garrison of Houston and sixth-seeded Carling Bassett of Canada all lost to unseeded opponents.

"Because of all the 3-all, 4-all, and 5-all situations I've been in, I know what to expect," Evert-Lloyd said. "In those situations, I think I've got an advantage over the other players. Even when it was 4-all, I was confident I could close out the set."

Second-seeded Manuela Maleeva of Bulgaria won her third-round match, whipping Carina Carlsson of Sweden, 6-2, 6-2.

Herald Photo by Gregory Gohar

## Merthie Opts For Daytona

By Sam Cook  
Herald Sports Editor

Darryl Merthie, a four-year starter at Lake Mary High School, will play basketball at Daytona Beach Community College next year, announced Lake Mary coach Willie Richardson Friday morning.

The 6-1 swingman was debating among Eckerd College, Seminole Community College and Daytona before deciding to go with coach Ray Ridenour's Scots. Merthie averaged 19.9 points, 5.7 rebounds, four assists and 2.9 steals as one of the county's best all-around performers.

Merthie is the third county player to cast his lot with Daytona in the past two years. He joins former Seminole Willie Mitchell and ex-Ram Fred Miller. Both played key reserve roles as freshman as the Scots qualified for the state tournament.

## Mona Makes It Official

Mona Benton, middle, peruses the fine print of her basketball scholarship to Florida Junior College while coach Ron Merthie, right, and Seminole High Principal Wayne Epps assist. Mona liked what she saw and signed to play basketball for the Jacksonville school. Benton was a four-year starter for Merthie's Fighting Seminole and twice County Player of the Year.

## ...Records

Continued from 5A

formers for the Tribe include Anthony Hall in the shot (50-7) and Chuck Thomas in the discus (136-6).

Half-milers John Mondo (Lake Brantley) and Harold Pitts (Lake Mary) are expected to lock up in another battle tonight. Both turned in season's best times this past Thursday at the Winter Haven Invitational. Mondo improved on his county-leading time in the 880 with a career best 1:57.7 while Pitts ran a 1:59.1. The county record is 1:55.4 by Cheeseman in 1984.

Rekindling their race for the top girls spot in the county Friday will be Sanford's Lady Seminoles and Lake Howell's Lady Silver Hawks. The two teams have battled each other down to the wire in just about every meet this season.

Emory Blake's Lady Seminoles have an excellent blend of young and experienced talent. Seniors Katrina Walker and Glenda Bass and freshmen Shownda Martin and Dorchele Webster are the team leaders. Sprinter-long jumper

Charita Medlock will rejoin the team tonight to strengthen Seminole's chances.

Among the leaders for Lake Howell are distance standouts Lisa Samocki and Amy Ertel and the all-around talents of twin sisters Michelle and Rochelle Spearman.

The Lady Rams of Lake Mary High are coming off their best performance of the season as they took second in the Bartow Invitational and tied for second in the County Freshman-Sophomore meet on the same day (Thursday, March 28).

Even though they had just 11 girls, the Lady Rams came away with second place at Bartow led by a first place by the mile medley relay team of Jodie McCurdy, Anquetette Whack, Sonja Walker and Fran "Flash" Gordon.

Senior distance standout Jill Buddenhagen had an outstanding meet with a first place in the two mile and a fifth in the mile.

The county meet is the first of the championship meets. Following county is the Five Star Conference Meet on April 19 (at Apopka), the 4A-9 District Meet the 26th (at Lake Howell).

Billy Penick strains to cut down the time.

## ...Softball

Continued from 5A

**APOPKA KEEPS PACE**  
ALAMONTE SPRINGS — Apopka's Lady Blue Darters stayed in a tie for first place in the Five Star as they used a six-run seventh inning to claim a 9-3 victory over Lake Brantley's Lady Patriots Thursday at Lake Brantley High.

While Apopka kept pace with DeLand, Lake Brantley concluded its conference schedule at 3-6 in the Five Star and 2-6 in the district. Unless Seminole loses to last place Spruce Creek Tuesday, Brantley will play the Creek in a playoff for the eighth seed in the district tournament.

Lake Brantley, which fell to 7-13 overall, was held scoreless for four innings Thursday, but managed to stay within one run, 1-0. The Lady Patriots scored three times in the bottom of the fifth for a 3-1 lead.

Kim Robinson reached on an error to lead off but was forced at second on Angie May's grounder. Missy Tompkins followed with a walk and Kim Waln singled. An error on Waln's single enabled May to

score and, when the ball scooted into the dugout, Tompkins was awarded home. Waln, who went to third on the play, scored on a single off the bat of Laura Davis.

The Lady Darters came back to tie it at 3-3 with two runs in the top of the sixth. Judy Migliori led off with a single and Michelle McKinney reached on a two-base error to put runners on second and third.

Brantley intentionally walked the next hitter to load bases, but pitcher Robinson walked the next batter, too to force in a run. Sherry Tobias followed with a sacrifice fly scored McKinney for the tying run.

Apopka then exploded for six runs in the seventh to sew up the victory. A double by Migliori highlighted the inning while three walks also paved the way for the big inning.

The Lady Patriots had six hits in the game, two each by Davis and Waln and one each by Heather Meyer and Tompkins. Migliori was 3 for 3 to lead Apopka.

**LADY LIONS EDGE JONES**  
CASSELBERRY — A pair of big innings propelled Oviedo's Lady Lions to a 9-8 victory over Jones' Lady Tigers in Orange Belt Conference action at Red

Bug Park.

Oviedo, 12-7 overall, improved to 8-1 in the OBC. The Lady Lions will battle Osceola's Kowgirls Tuesday for first place in the conference.

Oviedo scored five times in the third Thursday and four more in the fifth to overcome a 8-5 Jones lead.

In the third, Cathy Bergman started off the rally with a single. Jessica Bradley followed with a single and Fran Foster smacked a double to drive in Bergman. A sacrifice fly by Caroline Chavis drove in Bradley with the second run. Mikki Eby followed with a walk and Jodie Switzer singled to chase home Foster. Dee Dee Beasley then unloaded the big hit of the inning, a two-run double that gave the Lions a 5-1 lead.

The Lady Lions came right back in the bottom of the fifth with four runs. Switzer reached on an error to lead off and Kelly Davidson followed with a triple to score Switzer. Davidson scored when Barbara Malone reached on an error and Malone went around to score on Debbie Cole's single. Bergman later singled to drive in Cole with the winning run.

Bergman was 3 for 4.

## Daniel, Bradley Tie For Lead

SAN DIEGO (UPI) — Beth Daniel doesn't think the back nine at Fairbanks Ranch was particularly tough Thursday despite the fact it was no fun for her and many others in the opening round of the Kyocera Inamori Classic.

Daniel goes into today's second round of the \$175,000 LPGA tourney tied for the lead at 2 under 70 with Pat Bradley.

Daniel, who started on the 10th, overcame three bogeys on par-4 holes on the second half of the course, including the first two holes of the day. Bradley bogeyed the par-3 12th and the par-4 2nd.

# Depressed Teenager Needs Help ... Fast

**Dr. Gott**  
venting headaches in many patients who have been incapacitated by migraine.  
Send your questions to Dr. Gott at P.O. Box 91428, Cleveland, Ohio 44101.

DEAR DR. GOTT: I am terribly worried about my grandson, age 13, taking antacid pills daily. His color isn't good — his appetite very poor — during his meal sometimes he stops eating a few seconds and then tries to clean up his plate. He looks very sad most of the time and seems very irritable or depressed at times. I don't see him very often, but when I do, it makes me feel very sorry for him. The child has had two stepmothers and the third is a sweetheart, having had two children of her own.

It is a safe technique and certainly couldn't be harmful. Biofeedback shows great promise in treating a wide variety of ailments: perhaps migraine will one day be included in that panoply. In the meantime, a class of drugs called beta-blockers appears useful in pre-

DEAR READER: Your grandson has probably experienced more emotional pain than most adults three times his age. When a youngster has lost a mother and gained three stepmothers, the dislocation and sense of loss must be hard to imagine. There are so many complexities to your question that I can answer only in generalities.

When a teenager is pale, depressed, sad and irritable, an alert parent (or grandparent) must consider the symptoms a cry for help. I would worry about drug use and potential suicide. And I would waste no time in getting him professional help in the form of psychological counseling. Almost always, "grown-up" problems contribute to a child's sense of loneliness and loss. So family therapy would be an appropriate option. Whether or not your son and new daughter-in-law agree to counseling, your first priority is to get your grandson to someone — fast.

DEAR DR. GOTT: I've been suffering for many years from migraine headaches. I've heard biofeedback can cure them. Is this so?

DEAR READER: Migraine is thought to be due to a vascular imbalance within the blood vessels of the brain covering. I am not aware that biofeedback is a particularly useful method of controlling these headaches but

## WIN AT BRIDGE

**By James Jacoby**  
Against five clubs, West quickly played the king and ace of diamonds. When he continued with the jack, East put up the club jack in hopes of promoting a trump trick. (It wasn't impossible for West to hold three clubs to the 10.)

South overruffed and played another high club. When East showed out, declarer had to decide how to play.

West was known to have six diamonds and three clubs. If he also held three hearts, declarer could play dummy's ace and queen of hearts, ruff a diamond back to his hand, and then ruff his small heart in dummy.

That wouldn't work if West held fewer than three hearts. South decided finally that with nine cards in diamonds and clubs, West did not have three hearts. So declarer cashed

dummy's A-Q of hearts, drew trumps, cashed the heart king and then played out all his trumps.

I'm sure you see the end position. On the last club led, West had to keep a high diamond and therefore had to blank his king of spades. The diamond was thrown from dummy, and it was now time for East to squirm. He had to keep a high heart, or declarer's low heart would be cashed. So he came down to a solitary queen of spades. Dummy took the last two tricks with the ace and 10 of spades.

Although the squeeze looks inevitable, there was a defensive counter. After cashing the A-K of diamonds, West should have switched to a spade. There would then have been no way for declarer to come to 11 tricks.

## HOROSCOPE

**What The Day Will Bring...**

**YOUR BIRTHDAY**  
**APRIL 13, 1985**  
 Conditions in the year ahead will be more hopeful for you than they have been in the past. Breaks will start coming in areas where you never seemed to be too lucky.

**ARIES** (March 21-April 19)  
 Try to involve yourself in some type of club work or group activity today. Special benefits can be derived from mixing with a friendly crowd. Trying to patch up a romance? The Matchmaker set can help you understand what it might take to make the relationship work. To get yours, mail #2 to Astro-Graph, Box 489, Radio City Station, New York, NY 10019.

**TAURUS** (April 20-May 20)  
 Conditions are favorable for you today and if you apply yourself, meaningful goals can be

achieved. Aim for targets that can help improve your lot in life.

**GEMINI** (May 21-June 20)  
 A friend could prove to be lucky for you today in helping you bring into reality something for which you've been hoping.

**CANCER** (June 21-July 22)  
 Your better qualities and capabilities will come to the fore today when you're called upon to manage situations too difficult for associates to handle.

**LEO** (July 23-Aug. 22)  
 Your judgment is exceptionally sharp today, especially in extremely significant matters. Serve as your own adviser.

**VIRGO** (Aug. 23-Sept. 22)  
 Try to devote your time today to the types of projects you truly enjoy doing. If you like your work, the results will be both productive and profitable.

**LIBRA** (Sept. 23-Oct. 23)  
 Make a concerted effort today to firm up important relationships. Benefits can be derived between you and these special people.

**SCORPIO** (Oct. 24-Nov. 22)  
 Good winds are stirring for your career. Be alert for a unique opportunity that can be put to immediate use.

**SAGITTARIUS** (Nov. 23-Dec. 21)  
 Your ego could get a big boost today because friends will find you extremely appealing and are likely to tell you so. Savor their compliments.

**CAPRICORN** (Dec. 22-Jan. 19)

## Haley-Brazee Vows Spoken

Theresa Charlotte Haley and Guy William Brazee are announcing their marriage today. Father Lyle Danen performed the ceremony at All Souls Catholic Church, Sanford.

Mrs. Grace O'Brien, Deltona, a longtime friend of the family, was the organist for the ceremony. Soloists were from the Music Department of the University of Central Florida, the bride's alma mater.

The bride is the daughter of Mr. and Mrs. Jerry Haley of Osteen. The bridegroom is the son of Mr. and Mrs. William Brazee of Ocoee.

Given in marriage by her father, the bride wore her mother's wedding gown and carried a cascading bouquet of ivory enchantment lilies, fuchsia and baby's breath.

Mary Schrenker of Orlando attended the bride as maid of honor.

Bridesmaids were Mrs. Daria Turner, Port St. Lucie, and Mrs. Cecelia Beechler, Edgewater, sisters of the bride; and Grace Laurendi, Deltona.

Dan Brown of Mt. Dora, served

Mr. and Mrs. Guy William Brazee

the bridegroom as best man. Ushers were Mark Ellison, Leesburg; Eddie Cowart, Leesburg; and Jeff Brown, Mt. Dora.

Ashley Marie Turner, niece of the bride from Port St. Lucie, was the flower girl.

The reception was held at the

Woman's Club of Sanford. Karen Luneberg attended the bride's book.

The couple are making their home in Clermont. The bridegroom is a pastry chef at Walt Disney World and the bride is office manager of Jerry Haley Inc.

## Gardening

# Poisonous Plants Can Be Problem In Florida

Many gardeners and homeowners, especially those coming south to live, are not aware that some of our common garden and landscape plants contain highly poisonous substances. Most of these plants have such an unpleasant taste that it is not likely anyone would want to chew them very long, much less swallow them. This usually applies to adults, but children are something else. They may eat small amounts of anything, especially if a dare is involved. Even a tiny tot in a playpen may reach out and pull in anything that is within reach.

Concerned parents should teach their children as soon as possible to avoid putting anything in their mouths except food. Smart adults, too, should refrain from chewing on leaves and twigs of plants as they walk through a garden or woods. Collecting and eating wild mushrooms, unless you positively know they are edible, is dangerous business in the south. And, unfortunately, there is no guide available for identification of edible wild mushrooms for our area.

Skin irritation or dermatitis is the most common form of plant poisoning, and is caused by contact with a plant you may not be aware of. If such problem arises, you should make an effort to remember which plant caused the difficulty and avoid it in the future. Not everyone is susceptible to all or any such plants, so those who are generally susceptible know to avoid the problem plants.

One of the most common poisonous plants you'll find, especially in the outlying areas, is poison-ivy. This noxious, blistering weed is a real problem for many people. If you're allergic to this one, and you think you can avoid it by staying home, you may be sadly mistaken.

If your home is on a wooded lot, or in a recently developed area, you could easily have a problem with poison-ivy. Remember the old saying, "leaflets three — let it be." Generally poison-ivy is found in wooded areas, climbing trees. It is also found in abundance as a ground plant, growing about a foot high.

If you're allergic to poison-ivy, you'll know it. You don't have to touch it to be affected. If you have a cat or dog that roams, they can pick it up on their fur, and when you pet them — you get a good case of poison-ivy.

Alfred Bessesen  
Urban Horticulturist  
323-2500  
Ext. 181

If you find poison-ivy growing in your landscape, don't try to pull it out by hand. First, you may get a good itch from it, and second, you may just propagate the plants as you break off the roots. The best control is to spray with a herbicide, such as Amitrole, Kleenup, Roundup or ammonium sulfamate. These can be sprayed on the bark of trees where poison-ivy is growing without affecting the trees. Avoid getting it on the foliage of desirable plants, though.

Carolina Jessamine, sometimes known as yellow-jessamine or yellow-jasmine is another plant that can cause severe dermatitis in some folks. It is a common climbing vine, rather pretty, with fragrant yellow blooms. But, it is poisonous. Its genus is Gelsemium, which tells you something as it contains an alkaloid, gelsemine. This alkaloid depresses and paralyzes nerve endings, and severe poisoning can result in respiratory arrest.

A more common plant, widely grown in our area, is the oleander. Because all parts of the plant are poisonous, this is one

to avoid. One leaf is reported to be sufficient to kill an adult human. And, the dry leaves are almost as poisonous as the green ones. Children may be poisoned by carrying flowers around in their mouths. Many unsuspecting individuals have been poisoned by making hot dog sticks from the straight stems at picnics. Inhaling smoke from burning oleander stems has caused poisoning, also. And, simply handling the plants with bare hands can cause dermatitis in susceptible individuals. Is it worth growing?

A relative of the oleander, and the Confederate jasmine, too, is the yellow allamanda. In spite of its beautiful flowers, the allamanda is poisonous. The bark, leaves, seeds and juice have been used for their cathartic effect.

The tropical mango is another plant that is botanically related to poison-ivy. And, folks susceptible to poison-ivy would do well to avoid mangoes. You may develop a dermatitis from handling any part of the plant. Cooking the fruit destroys the causal material that causes the irritation.

The best advice is to learn which plants may cause problems, and teach your child not to put any plant parts, seeds, or flowers into their mouths — stick to the meat and potatoes and fresh veggies from the garden!

Happy Gardening!

## Visiting With In-Laws Like A Weekend At Boot Camp

**DEAR ABBY:** Concerning "Heartbroken Parents," who blame their daughter-in-law for "stealing" their son from them, thank you, Abby, for saying the daughter-in-law may have influenced her husband, but the final choice was her son's.

We live only a few hours from my in-laws, but we visit less and less each year passes. I would enjoy a nice relaxing visit at their home, but it never happens. Please let me speak to them through you, Abby.

You turn every visit into a golden opportunity to impose your religious and political beliefs on us. They're not "discussions"; they're lectures on why your beliefs are right and ours are wrong.

Your son and I are forced to watch the painfully obvious favoritism you show toward your other grandchildren who live your town and therefore see you more often.

We are subjected to your entire schedule of television programs because you think yours are the only appropriate choices.

We, who are health-minded non-smokers, are subjected to a thick cloud of cigarette smoke during the entire visit.

In short, instead of making us feel as though you enjoy our company, we leave with the feeling that we have spent the weekend at boot camp.

**YOUR "THIEVING" DAUGHTER-IN-LAW**

**DEAR D-I-L:** Read on:

**DEAR ABBY:** This is for "Heartbroken Parents," who blamed their daughter-in-law because they no longer "had" a son.

It is a quote from "The Prophet," by Khalil Gibran: "Your children are not your children. They are the sons and daughters of life's longing for itself. And though they are with you, yet they belong not to you. You may house their bodies, but not their souls, for their souls

Dear Abby

dwell in the house of tomorrow, which you cannot visit even in your dreams."

MRS. C.,  
LAGUNA, CALIF.

**DEAR ABBY:** May I say a word about the "Heartbroken Parents" who blame their daughter-in-law for "stealing" their son from them?

I'm a daughter-in-law, too, and if it weren't for me, my in-laws would see a lot less of their son.

I'm the one who reminds my husband to call his mother. I'm the one who keeps track of the birthdays in his family. I'm the one who writes the letters, buys the cards and gifts for Mother's Day and Father's Day, and puts the pen in their son's hand to get him to sign the card. And I'll bet I'm not all that unusual.

No name or town, please. My mother-in-law thinks her son is perfect.

ANONYMOUS WIFE

**DEAR ABBY:** In one of your recent columns, you advised a lady to check with her neighbors before making wind chimes out of old keys.

Well, I have a comment to make on that subject. When my neighbors come to me and ask if I object to their cats digging in my flower beds, waking me up in the middle of the night fighting on top of my house and under my window, and walking all over my cars, leaving their dirty pawprints — then I will ask them if they object to my wind chimes.

## Search Is On For Outstanding Mom

May 12 is Mother's Day. We, at The Herald, are searching for the annual "Outstanding Mom" in the community, but we need the help of readers to find this special woman.

The "Outstanding Mom" will be selected from letters of nomination. To make sure your favorite mom gets the proper recognition, follow the simple instructions: First, write your full name, full address including city and state, and your telephone number at the top of the page. Underneath add the

name, full address and telephone number of the mom you are nominating. Next, write us a letter telling us in your own words why this mom is so outstanding. Please type or clearly print your letter.

Submit letters to PEOPLE Editor Doris Dietrich, P.O. Box 1657 (300 N. French Ave.), Sanford, FL 32771 no later than Friday, April 26, the deadline for judging.

Winners will be announced in The Herald on Mother's Day.

### 'Innocent' Rapist Sent Back To Jail

# 'I Lied ... I'm Telling The Truth Now'

MARKHAM, Ill. (UPI) — A woman who insists the man convicted of raping her six years ago is innocent sobbed "I'm telling the truth now." But the judge didn't believe her and ordered Gary Dotson back to jail.

"Tell Cathy ... I'll be all right," Dotson told his lawyer as he was handcuffed for his return to prison Thursday.

"Gary Dotson is innocent," Cathleen Crowell Webb, 23, cried as she was rushed from the Cook County courtroom she stunned a week earlier by testifying she had lied when she said Dotson raped her.

"I have told the truth," she said. "I lied in 1979, and I'm telling the truth now."

Dotson, 28, who was freed for the first time in six years on a \$100,000 bond after Webb's recantation last Thursday, was ordered back to the Joliet, Ill., Correctional Center by Circuit Judge Richard Samuels.

"I really don't know for what unfathomable reason Cathy recanted," said Samuels, who sentenced Dotson to a 25- to 50-year

**'Her (original) testimony itself was clear and convincing. The jury found her testimony to be credible. I would say the jury was correct.'**

**—Judge Richard Samuels**

prison term after his 1979 rape and kidnapping conviction. "That is best known to her."

Dotson pounded his fist on the defense table and his mother and sister cried in each other's arms as Samuels told a packed courtroom he could not believe Webb's new story.

"Her (original) testimony itself was clear and convincing," Samuels said after a daylong hearing in which Dotson also proclaimed his innocence. "The jury found her testimony to be credible. I would say the jury was correct."

Webb, who said she concocted the rape story because she feared she was pregnant after having sex with her boyfriend, burst into tears as Samuels said Dotson's attorney had failed to prove Webb lied at the

1979 trial.

Dotson, from the Chicago suburb of Country Club Hills, had won a hearing on a motion to vacate his conviction after Webb, who was 16 when she made the rape charge, came forward with a new version of the events in July 1977 that led to Dotson's imprisonment.

Webb, who now lives in New Hampshire with her husband and two children, testified she changed her story because of her faith in God.

"There was a small voice of the Lord saying, 'You need to make restitution,'" she said. "The voice got louder and louder and finally I said, 'Yes, Lord, I will make restitution.'"

Dotson denied he had raped

Webb, testifying he had been drinking with friends when the alleged rape occurred. But details in his account contradicted those provided by defense witness Bill Julian, a friend of Dotson.

Samuels said Julian had "wrought considerable havoc with the claim of alibi."

Dotson will be eligible for parole in 1988. His attorney, Warren Lupel, said he would continue to seek Dotson's freedom. Relatives of Dotson said they were hoping to obtain a pardon from Gov. James Thompson.

"He (Thompson) seems to be our only hope at this time," said Dotson's mother, Barbara. "How can they do this — carting him off to jail to a horrible life he doesn't deserve? He's a good boy. All he wants is a chance in life."

Thompson said he has been contacted by the Dotson family. An aide to the governor said Thompson would not be able to grant a pardon until a petition is filed with the state and a hearing is held by the Prison Review Board.

## Jarvik-7 Heart Recipient Alive ... And Dead

STOCKHOLM, Sweden (UPI) — The world's fourth recipient of a U.S.-made artificial heart was sitting up in bed today "full of fighting spirit" as legal experts debated whether he was technically dead under Swedish law and thus immune to tax prosecution.

Leif Stenberg, 52, became the fourth person to receive an artificial heart — a U.S.-made Jarvik-7 metal and plastic device — at Stockholm's Karolinska

Hospital on Sunday.

"He sat up Thursday for the first time and we have a feeling, if we had dared, he probably would have tolerated walking around," said Dr. Bjarne H. Semb, the Norwegian surgeon who performed the implant.

Stenberg, charged with with tax evasion and facing up to six years in prison if he is ever tried and convicted, was to be removed from the stationary compressor that pumps air into

his mechanical heart and attached to a portable drive unit. The unit is a shoulder-bag, battery-charged compressor.

"The next step is for the patient to move around," Semb told a news conference at the hospital.

Legal experts, meanwhile, discussed whether Stenberg was still alive under the technicalities of Swedish law, which says a person is dead the moment his heart stops beating.

The government plans to introduce a new law later this year making a person dead once the brain ceases to function. But under current law, Stenberg has no human heart and is technically dead, experts said.

Calling the debate "bureaucratic thinking," Semb said his heart implant patient "is more alive than many people. How can he be dead if he's sitting up in bed?"

Because there have been no complications so far in the recovery, Semb said it was "a realistic possibility" Stenberg might be discharged from the hospital sooner than the originally planned three to four weeks.

"He is witty, humorous and full of fighting spirit," Semb said. "He is very, very grateful for having undergone this procedure and for having survived it."

### Congressmen Dependent On PAC Money: Study

WASHINGTON (UPI) — Incumbent House members who sought re-election last year received a record high 44 percent of their campaign money from political action committees, according to a study by Common Cause.

Fred Wertheimer, president of the citizens lobby group, said the study shows that House members "are growing more and more dependent on PAC money and less and less free to respond to the needs of their constituents."

"This system must change ... if we expect 'representative' government to survive," Wertheimer said.

Political action committees are organized to raise campaign funds among specific special interests, such as business or professional groups. The committees direct most of their contributions to incumbent lawmakers who are in a position to influence legislation of interest to the PACs.

The Common Cause study said the PAC share of campaign contributions to House incumbents was 34 percent in 1980, and rose to 37 percent in 1982 and 44 percent in 1984.

For every \$4.60 incumbents received on the average from PACs last year, challengers raised one PAC dollar. "The greatest disparity in PAC giving to incumbents over challengers since the new PAC age began in 1974," Common Cause said.

Rep. Bill McCollum, R-Altamonte Springs, unopposed incumbent, reported \$174,035 in total receipts, \$75,377 in PAC receipts.

### Moral Dilemma: Use Laser To Generate Cheap Electricity Or Destroy The World

LIVERMORE, Calif. (UPI) — Scientists soon will begin testing the world's most powerful laser, a technological wonder that could benefit life by leading to a cheap, safe way of making electricity. Critics say it could also destroy the world.

Officials Thursday dedicated the giant laser capable of delivering up to 120 trillion watts of energy — about 200 times the nation's present electricity-generating capacity.

Should the laser help them succeed in harnessing nuclear fusion, it could open the way toward a limitless supply of inexpensive, clean power, scientists said at ceremonies at the Lawrence Livermore National Laboratory, one of the country's largest research facilities for designing nuclear weapons.

Proponents of developing fusion as an alternative energy source say the fuel for fusion, heavy hydrogen, is readily available to all nations from a universal resource: water.

On the other hand, the laser housed in Livermore's \$176 million Nova facility could be used to improve thermonuclear bombs by mimicking certain reactions in a controlled laboratory setting. Eventually, it also could be used in research for the "Star Wars" defense program.

Although acknowledging the laser

will "allow scientists to understand better the physics of nuclear weapons," lab spokesman Norris Smith said the scientific team will focus "more on the positive side of the coin."

In six weeks, researchers will begin their experiments, employing the laser's intense beam of light in an attempt to weld the nuclei of hydrogen atoms and release bursts of energy at temperatures exceeding those at the sun's center.

"Once we crack the problem of fusion, we have an assured source of energy for as long as you want to think about it," said John Emmett, associate director for lasers at Livermore. "It (energy) will cease to be a reason for war or an influence on foreign affairs."

Essentially, scientists are trying to light the fusion fuel with a "match," John Holzrichter, laser facility leader, said.

"In this case, our match is a laser. It gets the fuel hot, starts it burning, and we get more energy back than we put in. We have to show this concept works."

The laser system is held up by a massive, white, steel frame that fills four rooms, one of them as long as a football field, another, five stories high.

### Legal Notice

**NOTICE OF PUBLIC HEARING OF THE BOARD OF COMMISSIONERS**

will hold a public hearing in Room W10 of the Seminole County Services Building, Sanford, Florida on MAY 7, 1983 AT 7:00 P.M., or as soon thereafter as possible to consider the following:

**PUBLIC HEARING FOR CHANGE OF ZONING REGULATIONS**

**CITIC MURIZZI — SPECIFIC AMENDMENT FROM LOW DENSITY RESIDENTIAL TO MEDIUM DENSITY RESIDENTIAL AND REZONE FROM R1 SINGLE FAMILY DWELLING DISTRICT TO R2 ONE AND TWO FAMILY DWELLING DISTRICT — P214-381-43 — Lot 6, Block A, Pineview, PB 9 Pg. 72, in Sec. 22 305.30E (Further described as 1/2 acre located on Sunset Drive, just W of 1972) (DIST #2)**

**DONALD WEIGLE — SPECIFIC AMENDMENT FROM GENERAL RURAL TO INDUSTRIAL AND REZONE FROM A1 AGRICULTURE TO C1 GENERAL COMMERCIAL AND WHOLESALE DISTRICT — P214-381-44 — Lot 8, less the North 450 Feet of Slavia Colony and Slavia Farms, in Section 29 215 31E (Further described as 2.2 acres located on the west side of SR 426) (DIST #1)**

**POST PARTNER III, LTD. — SPECIFIC AMENDMENT FROM COMMERCIAL AND LOW DENSITY RESIDENTIAL TO PUD AND REZONE FROM B1A and B1A-A SINGLE FAMILY DWELLING DISTRICT TO PLANNED UNIT DEVELOPMENT — P214-381-45 — Lots 1, 2, 3, 4 and 5 of Forest Lake Subdivision, PB 4, Pg. 8, and also the part of the E1/2 of NW1/4 of Sec. 17 215 29E (lying S of SR 431), and that part of the E1/2 of SW1/4 of Sec. 8 215 28E (lying S of SR 431), (Further described as 22.6 acres located on the E side of Mirror Lake) (DIST #3)**

These in attendance will be heard and written comments may be filed with the Land Management Manager. Hearings may be continued from time to time as found necessary. Further details available by calling 221 1130, Ext. 441.

Persons are advised that if they decide to appeal any decision made at these meetings, they will need a record of the proceedings, and for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be made.

## Dade Medfly Spraying To Begin Next Week

MIAMI (UPI) — An all-out ground and aerial war against the Mediterranean fruit fly has begun in north Dade County, where three of the flies were found this week.

Officials say they plan to begin eradication efforts next week in hopes of eliminating a potential threat to the state's \$1 billion citrus industry. They say the pest could easily gain a foothold because there are so many fruit trees, mainly in back yards.

"We believe a population is getting started out there. They are prolific breeders," Linda Perry of the state Department of Agriculture's Division of Plant Industry, said Thursday.

Spraying of bait laced with the potent pesticide Malathion was scheduled for Monday, weather permitting, over two nine-square-mile sectors. A quarantine was placed on shipments of fruit from a 110-square-mile area although there is virtually no commercial citrus grown in

the vicinity.

Agriculture Commissioner Doyle Conner disclosed Wednesday that two male Medflies were trapped in North Miami about 2 1/2 miles southwest of where a female Medfly was found Feb. 25.

Conner said other steps will be taken in addition to the spraying of Malathion-treated bait over the area from a helicopter and the 90-day quarantine on shipments of fruit over a 110-square-mile area.

There will be house-to-house spraying of trees and shrubbery in the area where the flies were found, and an additional 500 traps will be placed in the area, bringing the total to 2,141.

The infestation would have no effect on the citrus crop or supermarket prices unless it spreads to the central Florida belt more nearly 200 miles to the north.

"It's a good place to have it if we had to have it," Perry said. But there are

more than 100 species of trees used by Medflies, and several are found in south Florida, making it easy for the insect to breed and spread.

"Because there are so many hosts it would be easy for the infestation to get well established and spread into an agricultural area further north," she said.

Bobby McKown, executive vice president of Florida Citrus Mutual, a growers' cooperative, said the efforts to control the insect should be sufficient.

"There's no threat to the commercial citrus industry right now," said Bobby McKown, executive vice president of Florida Citrus Mutual. "Our concern would be if the state and federal government didn't act immediately to eradicate it — which they are doing — and then it could move up north."

"The encouraging thing is that the trapping system they have in the Miami area is good and is working."

NOTICE. The St. Johns River Water Management District has received an application for Consumptive Water Use from CHARLES H. COX, 1307 GREENCOVE RD. WEST OF PARK, FL. 32709, application 02-117-0173AM, on 01/02/85. The applicant proposes to withdraw 138 AGD of GROUNDWATER FROM THE FLORIDA AQUIFER VIA 8 EXISTING WELLS FOR ORNAMENTALS AND FIELD TREES to serve 60 acres in Seminole County located in Section 11, Township 31 South, Range 31 East. The Governing Board of the District will take action to grant or deny the application(s) no sooner than 30 days from the date of this notice. Should you be interested in any of the listed applications, you should contact the St. Johns River Water Management District at P.O. Box 1429, Palatka, Florida 32978, 1429, or in person at its office on State Highway 100 West, Palatka, Florida, 904-326-4321. Written objection to the application may be made, but should be received no later than 14 days from the date of publication. Written objections should identify the objector by name and address, and fully describe the objection to the application. Filing a written objection does not entitle you to a Chapter 120, Florida Statutes, Administrative Hearing. Only those persons whose substantial interests are affected by the application and who file a petition meeting the requirements of Section 208.20(1), F.A.C., may obtain an Administrative Hearing. All timely filed written objections will be presented to the Board for its consideration in its deliberation on the application prior to the Board taking action on the application. Donovon T. Kemp, Director, Division of Records, St. Johns River Water Management District. Publish: April 12, 1985. DEE 79.

## IN BRIEF

### Smith: 'Pay For Death Appeals Before The Courts Tell Us To'

TALLAHASSEE (UPI) — On the advice of Attorney General Jim Smith, a House committee has voted to pay for lawyers to handle death row inmates' collateral appeals — before the courts order the state to do so.

During a meeting Thursday of the House Criminal Justice committee, Smith said the courts have not ruled inmates have a constitutional right to legal help on appeals challenging judges' legal decisions — as opposed to the right to trial counsel, which the courts insist on.

But he added that they might do so soon because no court has yet let an inmate go to the electric chair who has not had a lawyer for those post-conviction appeals. Smith said the Legislature should approve a measure (HB 582) by Rep. James Burke, D-Miami, to beat the courts to the punch and avoid getting "a black eye."

Smith said the alternative is continued appeals by death row inmates based on lack of counsel during collateral appeals.

### HBJ To Buy Cypress Gardens

WINTER HAVEN (UPI) — Textbook publisher Harcourt Brace Jovanovich, which already owns three Sea World parks, will buy Florida's historic Cypress Gardens for about \$23 million, or \$88 per share, officials say.

HBJ spokesman Jack O. Snyder said HBJ became interested in the attraction, renowned for its flowering gardens and water ski shows, "about a month ago."

"It's a magnificent place, in first class condition. They've been having attendance problems in recent years and we thought we could make a contribution and it would be good for everybody."

The announcement came only a few months after Cypress Gardens was the target of an attempted takeover by a disgruntled stockholder group.

HBJ moved its headquarters from New York to Orlando one year ago. The publisher already owns Sea World Enterprises, which has three marine animal parks in Orlando, San Diego and Cleveland, and is preparing to build a fourth \$100 million park in San Antonio, Texas.

The publisher recently announced it will undertake major expansions at Sea Worlds in Orlando and San Diego and build theme piers with water rides in an effort to attract more teenagers.

### CFRH Will Help You Quit Smoking

Freshstart, a series beginning Monday at Central Florida Regional Hospital, is designed to help smokers quit.

The free series will be held from 7:30 to 8:30 p.m. April 15, 18, 22, and 25th. A positive approach, using practical ac-

tions, are employed during the sessions. There is an emphasis on support.

Pre-registration is required. Call CFRH at 321-4500 or 668-4441, ext. 607 for additional information and to register.

### ...Pay Hike

Continued from page 1A

"Your people here are unhappy — I'm talking from the top to the help down at the road," Marty Bacon, a former Lake Mary commissioner, said. "Give the people a fair standard of living for a fair day's work."

Harold Dale said the city needed to increase the salaries of police officers to try to correct the high turnover rate in the department. "We've seen policemen come and go like fleas on a dog," he said. "Get the salary of policemen up so they can have a liveable salary."

Terry Hall said the pay Lake Mary police officers receive is so low it makes some of them eligible for food stamps. He said the poverty level for a family of four is \$12,950 a year and since Lake Mary's starting officers make \$12,717 annually, they could apply for food stamps.

A state official confirmed Friday that Lake Mary police officers could apply for food stamps. Persons with incomes less than \$13,260 a year who

support a family of four can get state assistance.

Terry Salabury agreed that the police aren't paid enough. "I had some thought about becoming a policeman but I've had second thoughts because of the pay," Salabury said. He added that the city has a quality people but the it has to pay for that quality. "If we have to pay them a little bit more, let's not talk about it, let's do it."

Although the commissioners liked the 25 percent proposal, there was disagreement on when the raises should go into effect. Megonegal wanted the pay hikes to be retroactive to April 1, while Keogh wants the raises to take effect July 1. Commissioner Harry Terry recommended that 10 percent of the raises could take effect on one date and the remaining 15 percent given later.

The commissioners decided to discuss when the hikes should take effect when they take up the new salary proposals at a regular meeting.

Megonegal said he would try to formulate the new 25 percent salary schedule and have it ready for the commissioners April 18 meeting.

### WEATHER

**AREA FORECAST:** Today mostly cloudy. Numerous showers and a few thunderstorms. High mid 70s to around 80. East wind 15 mph. Rain chance 70 percent. Tonight and Saturday variable cloudiness. A chance of showers or a thunderstorm. Low low to mid 60s. High in upper 70s. East wind 15 mph becoming southeast Saturday. Rain chance 50 percent tonight and 40 percent Saturday.

Continued from page 1A

available and nearly impossible to trace. He said the formula to make the explosive is readily available through various magazines and underground sources.

Besides the nuts and bolts, the dark green bottles — which would be more explosive than regular wine bottle because they are more sturdy — also contained screws and staples. One bomb, wrapped in duct tape, would be more destructive because it would temporarily contain the explosion and build power, LaBrusciano said.

Officials determined the schrapnel content of the bombs by X-ray.

LaBrusciano said he planned to break the bottles with a remote device and then analyze the contents. Federal agents also planned to have the bombs analyzed at their laboratory in Washington D.C.

Official said they also confiscated in Kamerling's trailer exceptionally detailed plans which included estimates on the food, money, materials, individuals and trades needed to run a commune for one year.

Hegerfeld said federal prosecutors will seek indictments against Kamerling on charges of manufacturing bombs, manufacturing items without serial numbers, possession of explosive devices and other charges.

According to court records, Kamerling was to appear in county court April 16 on separate charges of driving under the influence and possession of marijuana stemming from an arrests in December and January.

At a county court hearing this week, Kamerling was present but left the courtroom before his public defender, Jan Wichrowski, announced she was ready for trial.

It is not known why Kamerling left the hearing. Kamerling's pet cat and tarantula are being cared for in a Humane Society foster home.

### ...Jobs

Continued from page 1A

Board will continue its search for applicants for the assistant city manager's job. The board would advertise for about 30 days nationally, statewide and locally for the spot.

The qualifications for the police chief's position are a bachelor's degree in criminology or administration with five years of "progressively responsible" experience that includes supervisory and administrative responsibility. The job pays \$27,872 to \$39,991.

Harriett, who is a heavy favorite for the job, was a Sanford police officer for five years, during which he was a patrolman, crime scene technician and assistant chief. He has a bachelor's degree in criminology and a master's degree in criminal justice.

Fagan, of Cockran Road, Geneva, is a police captain and has more than 20 years of experience with the department. He started as a patrolman and moved up through the ranks: becoming a sergeant, lieutenant, then captain.

He has served as captain of operations, an administrative position that put him in charge of about 50 people. He also formed and headed the department's detective division. Before he joined the force in 1964 he was a Seminole County sheriff's deputy for five years.

His education includes an associate in science degree in criminal justice from Seminole Community College. He also teaches law enforcement classes at the college.

Hasson, no age or address listed, is a sergeant in the investigations department. He has been with the Sanford police department since 1973 when he started as jailor. He then moved up to patrolman and then a detective in 1979. In January, he was named assistant chief of detectives. He has an associate in arts degree from Seminole Community College and a bachelor of science degree from Rollins College. He did not indicate what fields his degrees are in and could not be reached for comment today.

Qualifications for the assistant city manager's position are a bachelor's degree in public administration or a related field and post-graduate training in public administration or a related field. Applicants must also have six months experience in municipal government. The three applicants are:

• Bettie Sonnenberg, 1804 Paloma Ave., Sanford, a city building inspector who has been a Sanford employee since 1981. She started as a customer service supervisor for the utility department and then moved to the building department where she handles site reviews and enforces the building codes.

Since 1951 she has had various experience as an art

instructor, retail sales manager and a geological draftsman.

She graduated with honors from the University of Georgia with a bachelor's degree in fine arts and is continuing post-graduate studies in public administration at the University of Central Florida.

• Francenia Diedrich, 30, of 895 Third St., Orange City. She is the city's personnel officer, a position she has held since November. Before that she was a licensing official and a customer service representative for the city. She has been employed with the city since Sept. 1982.

Prior to that she held numerous bookkeeping, customer service and clerical jobs with businesses in Orlando, Jacksonville and Atlanta.

She graduated from the University of Florida with a bachelor's degree in public relations and a minor in political science.

• Gary Larson, of 129 W. Airport Blvd., Sanford. He has been a building inspector for the city since January 1984. He was a school teacher in Brevard and Seminole counties for 10 years before that. From 1966 to 1974 he was a mechanical technician at the Kennedy Space Center.

He has an associate in arts degree in general education from Brevard Community College. He also has a bachelor's degree in elementary education from the University of Central Florida.

### ...Riot

Continued from page 1A

house, jumped on Bemosky's back and began hitting him on the back of the head, the report said. Darryl Edward Hull, 18, of Satsuma Drive, reportedly joined in the fight which by this time included officers Gary Harrell and Greg Smith as well as Bemosky, the report said.

As the officers tried to handcuff the combatants, Roger Lance McDonough, 23, of #73 Shenandoah Village, reportedly stepped into the melee in an attempt to keep them from being handcuffed, the report said.

He was arrested too and continued to scream, kick, punch and curse along with the other suspects. The four were eventually placed into a police car, but the juvenile girl, along with Joann Ruth Carr, 39, of #72 Shenandoah Village, and Kim Ann Kuybus, 21, of 114 Silver Maple Terrace, reportedly opened the patrol car and set the prisoners free.

The rioting continued as suspects attempted to run and all were recaptured within minutes, except McDonough, who was rearrested at 4:30 a.m. today when police returned to his home and found him hiding under a bed, the report said.

The females who reportedly aided in the escapes were also rounded up and arrested. Police reported that some of the suspects appeared to have been drinking.

During the brawl the officers were kicked, punched and bitten and the report said police cars were also kicked and damaged by some of the suspects. Police spokesman Keith Wright said the officers' injuries were not serious. They were treated at Central Florida Regional Hospital, Sanford, and released. None of the suspects were injured, Wright said.

All the suspects were charged with rioting. In addition, Ms. Remus was charged with not carrying her driver's license, escape, resisting arrest with violence and two counts of battery on a police officer.

Gill and McDonough were both charged with escape, battery on an officer, resisting with violence and disorderly conduct. Hull was charged with escape, disorderly conduct and criminal mischief.

Ms. Carr and Ms. Kuybus were charged with disorderly conduct and resisting arrest without violence. All except Ms. Kuybus were being held in the Seminole County jail in lieu of \$5,000 bond each. She has been released on \$5,000 bond and is scheduled to appear in court April 26.

The juvenile was turned over to juvenile authorities.

### Business Inflation Practically Nil

WASHINGTON (UPI) — Wholesale prices edged up just 0.2 percent in March, part of the best yearly performance in two decades for business inflation, the Labor Department said today.

Passenger car prices climbed only 0.3 percent and gasoline prices fell 0.8 percent, after seasonal adjustment.

Natural gas prices fell 2.5 percent. Food prices overall were down 0.2 percent, the third consecutive monthly drop, despite a 16.7 percent increase in vegetable prices. Fresh fruit

prices fell 8.3 percent. Since March 1984 the department's Producer Price Index, measuring nearly 3,400 kinds of goods sold in bulk, has climbed only 0.3 percent.

That is the least that wholesale prices have gone up in a year since the 12 months ended January 1965.

The wholesale price index went down in February by 0.1 percent and did not change at all in January.

### AREA DEATHS

**GLORIA J. BLACK**  
Mrs. Gloria J. Black, 54, of 431 Kentia Road, Casselberry, died Wednesday at Humana Lucerne Hospital, Orlando. Born Jan. 19, 1931 in Hunter, Ark., she moved to Casselberry from Lake Hiawatha, N.J. in 1957. She was an office manager and a member of Winter Park Presbyterian Church.

## In Praise Of Pizza Pie

By Britt Smith  
Herald Staff Writer

When the definitive *History of Man* is finally written, there will no doubt be an entire chapter devoted to the Italians. And deservedly so. After all, these are the people who gave us Christopher Columbus, Michelangelo, the Lamborghini Countach and Sophia Loren.

But for sheer delight and unflinching popularity through the ebbing and flowing fads of history, there is one Italian contribution that will stand above all the rest — pizza.

Yes, pizza. Here we have a gastronomic wonder rivaled in the annals of the culinary arts by no other, perhaps save the sandwich. Think about it. Pizza has it all. Everything from A to Z (anchovies to zucchinis). It's a meal in itself, served on a lush bed of amber dough with tomatoes, cheese, spices and an array of

toppings limited only by the preparer's imagination.

Ever since Neopolitan Gennaro Lombardi (an Italian) opened the first American pizza parlor in New York's Little Italy in 1905, this humble confection has inspired passionate regional debates.

Indeed, the only thing that inflames Americans more than insulting their hometown is demeaning their favorite pizza joint.

In the junk food kingdom there is no other food gobbled up so voraciously as the pizza, perhaps with the exception of the hamburger.

With apologies to Wheaties, some even call it the breakfast of champions. The University of Central Florida computer programming team, representing the best in the Southeast, last month came in 17th out of 24 teams from the U.S., Canada and England in the Association for Computing Machinery competition. And

ABC Tries But Fails With 'Mr. Belvedere' And 'Off The Rack' / p. 2  
MTM Was The Voice And Legs On Old 'Diamond' Series / p. 7

# More Silly Sitcoms

## 'Belvedere,' 'Rack' Too Predictable

By David Handler

ABC is taking a stab at some laughs on Friday nights with two new sitcoms, "Mr. Belvedere" and "Off the Rack." Not much freshness here. In fact, both shows are pretty obvious and predictable.

Still, considering that the network has failed outright with just about everything it has tried this season, a small nod of approval should be given for competence.

"Mr. Belvedere" springs from a series of late-'40s movies that starred the great Clifton Webb as an acid-tongued family domestic.

Christopher Hewett, the large, panda-like actor we last saw on "Fantasy Island," gets the nod here. His very proper, very British Belvedere runs the household of a boorish Pittsburgh sportswriter, George Owens (Bob Uecker).

George has a cowering wife named Marsha (Gene Graft) and three standard TV kids. He doesn't approve of Belvedere,

and thinks he's a bad influence on the kids.

One week, when younger son Wesley (Brice Beckham) isn't invited to a friend's birthday party, George blames it on Belvedere. "The kid was popular until you got here," fumes George.

Another week, at Belvedere's urging, Wesley chooses ballet lessons over Pop Warner football. George angrily denounces Belvedere as "some front man for the Bolshoi."

Naturally, George comes around at the end of each episode. But there are few real laughs along the way.

Bob Uecker, the former catcher who has developed into a funny beer pitchman, isn't ready to hold down a sitcom. He's stiff and uncertain. And Hewett is too soft and cuddly to be much of a rival.

The bottom line: "Mr. Belvedere" is "Hazel" in trousers.

"Off the Rack" is about the tug-of-war between a struggling

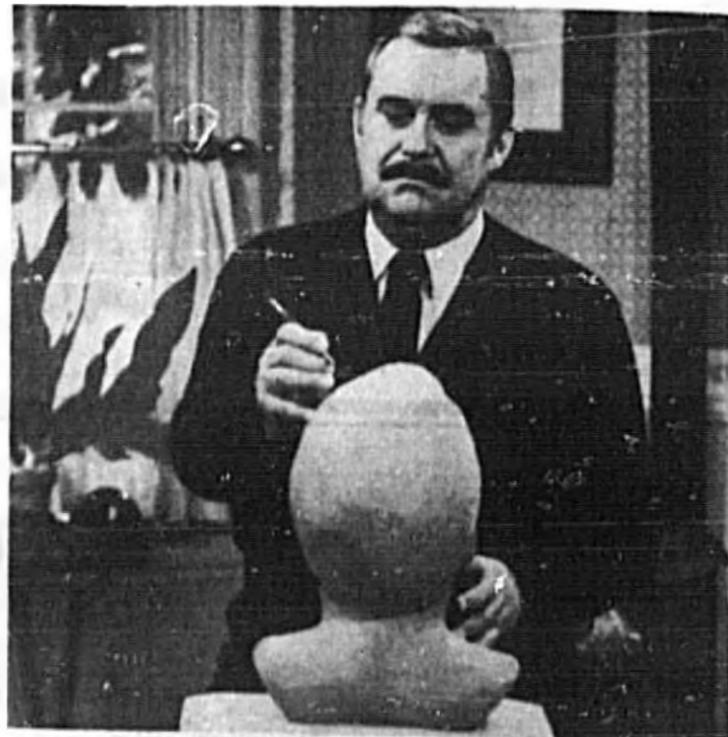

garment center manufacturer and his late partner's widow, who decides she wants to hold on to her end of the business.

Ed Asner is Sam Waltman, a gruff, conniving cigar-chomper. Eileen Brennan is Kate Halloran, a sincere, decent housewife and mother who's trying to find herself in the business world.

She drives him crazy. She's learning Spanish so she can communicate with the workers. She toils nights. She has one new idea after another that he doesn't want to hear.

"It'll take me two hours to tell you why it's stupid!" he explains in his customary bellow. "I've told you before," she fires back. "I can't hear you when you yell."

One week, Sam decides to get Kate off of his back by finding her a man. He secures a friend by telling him that Kate has hot pants for him, then arranges a chance meeting. "Sam, you're gutter slime," she snaps when she figures it out.

It's housekeeping or bust when Christopher Hewett stars as a live-in (and artistic) housekeeper in the new sitcom "Mr. Belvedere."

Another week, her son overhears Sam extolling the virtues of bribing public officials. So the kid tries to bribe a nun at school to get a good grade.

Kate is horrified. "One afternoon with you and he's ready to be investigated by '60

Minutes," she gasps.

You can count on good performances from Asner and Miss Brennan, but they're pitched a bit too high for my taste. "Off the Rack" has too much hostility, too much yelling. It's not clever. It's just loud.

## WMOD-TV Bringing 'The Honeyymooners' Out Of Retirement

"The Honeyymooners" are back and WMOD-TV has 'em.

Not only every Saturday and Sunday nights at 11, but now a special night of 12 of the funniest "Honeyymooners" ever. Saturday night, it's a 6-hour marathon of the zaniest times you'll ever spend with Ralph and Alice and Ed and Trixie ... "The Honeyymooners."

Together, they bungle their way through life on #82 a week, bowling nights, and plenty of sure-fire plans

that always fail. And it'll be bang, zoom, to the moon to anybody who thinks they'll be doing anything else from 6 to midnight on April 20.

Set in a time before the electronic-space age ruled our minds, the Kramerden and Norton world revolves around a simple kitchen in Brooklyn. And the humor is based simply on trying to get ahead in the world, using any means possible ... within the law.

Ralph, played by the hilarious Jackie Gleason, and Ed, portrayed by the equally funny Art Carney, are

always involved in some get-rich-quick scheme, from selling dog food as a new 'dip for chips' to Ralph's 'No-cal pizza.'

And on April 20 you'll be seeing 12 of these gems. Only 39 of those original episodes are thought to have been saved, but recently 75-80 new shows were discovered and will be coming your way on WMOD, channel 43, some time in 1986. The discovery of these new episodes is a very exciting thought ... what more could those two guys get into?

## ...Pizza

Continued from page 1

team members credited their success, in part, to lots of pizza.

There's probably more pizza eaten in the U.S. than there is in Italy. Pizza and drinking beer — it just goes with college life and football halftimes.

And it's so versatile. You can even have pizza for breakfast. Some prefer theirs thin and crispy; others, deep pan thick and chewy. In San Francisco you can even have gourmet pizza. Toppings range from the ridiculous (white truffles) to the sublime (artichoke hearts).

There are those who have tried to turn pizza into a health food by making the crust whole wheat (an unappealing brown) or adding broccoli, walnuts, bean sprouts and wheat germ.

Nutritionists already know that pizza is adequately healthful; it's high in protein and carbohydrates, but also, unfortunately, high in salt.

Some say the secret to a great pizza is in how it's cooked, in an old brick oven,

Fast-growing franchises are dominating the pizza restaurant industry, earning nearly half of its annual \$10 billion in sales. The top six chains — led by Pizza Hut, the General Motors of pizza — earn nearly 40 percent of all U.S. sales.

Without getting into a debate on just what makes the pizza de resistance, there are a few basic rules. Thin and crispy or thick and chewy makes no difference. Whichever you choose, the crust should be so light it seems to defy the laws of gravity. And with so many

pizza charlatans foisting poor imitations on us (break out the antacid) you should also check for traces of sawdust and third-degree burns.

The sauce is judged for spiciness, and the cheese for flavor and a certain amount of stringiness.

There is, among pizza devotees, something called the 5-second alither test: hold up a slice of your favorite pizza and if the ingredients slide off the crust like slush off a windshield, it's too greasy.

For the most part, pizza afficianados agree that independent pizza joints turn out the best pie. Most pizzacrias have no style of their own. They're a homogenous amalgam, devoid of individuality. There are even those (which here will go unnamed) that try to jazz up their pizza with a hefty dose of silliness. They're kiddie casinos featuring video games and automated animals like 'Chuck E. Cheese' and 'Mizzi Mozzarella.'

Strictly kid stuff. It's enough to make a tomato blush.

**...Wahl**

Continued from page 4

Wahl never acted as a kid. He never even thought about acting as a kid. He never studied acting.

"I don't know if I can act or not," says Wahl. "I just do it by gut reaction. I just do what I think the character I'm playing would do."

Because of his success, he supposes he has a knack for acting. So he's going to stick with it, at least for a while. People tell him he's pretty good at it, but he isn't buying that, totally.

Then again, he's not going to study acting either.

"You either have a knack for it or you don't," he says. "If you do have a knack for it, you don't need to study. And if you don't have a knack for it, studying won't help."

At the moment, Wahl is co-starring with Billy Dee Williams in "Double Dare," a new TV series Warner Brothers is making for CBS. It's about a San Francisco convict who, because of his knowledge of the streets and street people, is paroled to assist a San Francisco cop.

### 'A.D.' Pushes NBC To Top

NEW YORK (UPI) — NBC knocked CBS out of first place again last week in the prime time ratings competition, boosted by two installments of "A.D." in the Top 10 and a strong showing by "The A-Team."

The A.C. Nielsen Co. prime time ratings for the week ending April 7 gave NBC a 16.0 rating and a 26 percent share of the audience. CBS had a 15.4 rating and a 25 share, while ABC earned a 15.2 rating and a 25 share.

NBC recaptured first place despite the presence of five CBS shows in the Top 10, including the NCAA championship game between Villanova and Georgetown, which had the week's second highest rating.

A CBS spokesman attributed the slip to the absence of "Dynasty" and "Falcon Crest" in last week's lineup because of a movie.

Viewership for the Roman epic "A.D." peaked with Tuesday night's installment, which ranked fourth. The second episode, aired Monday night, checked in at ninth. The final episode ranked 16th.

The top prime time shows for the week ending April 7, according to the A.C. Nielsen Co., were:

1. The A-Team (NBC)
2. NCAA Championship Game (CBS)
3. Dynasty (ABC)
4. A.D. Part III (NBC)
5. Murder, She Wrote (CBS)
6. Simon & Simon (CBS)
7. Crazy Like a Fox (CBS)
8. Magnum, P.I. (CBS)
9. A.D. Part II (NBC)
10. Hotel (ABC)

# Who Was The Sexy Voice Behind The Legs?

**DEAR DICK** — Please settle a bet for me regarding the old "Richard Diamond" detective show on TV. We agree that the secretary was played by Mary Tyler Moore's legs. But we are unable to agree on the actor who played Richard Diamond and whether Mary Tyler Moore provided the secretary's sexy voice. — R.G.J., Copperas Cove, Texas.

That question may sound odd to young viewers but the gimmick on the show was that you never saw the secretary on the show, only heard her and saw her legs. David Janssen was Diamond and Mary Tyler Moore did both the legs and the voice.

**DEAR DICK** — They announced at the end of a recent "Guiding Light" that the woman who played Mrs. Bauer had died. A while back, she came back after being away for some time. She was much thinner and they never showed her walking. Then, in one story, she had to have her foot off. Did she really have her foot off in real life? She was always in a wheelchair after that. Could you tell me about her illness and death. — H.W. Rockville, S.C.

Charita Bauer — It was purely coincidental that her real last name was the same as her character's — died after a long fight against cancer. The amputation she suffered on the show was identical to what happened to her in reality but she returned to the show and carried on as best she could.

**DEAR DICK** — I taped, on my VCR, reruns of "Perry Mason," which are broadcast while I'm at work. In one episode, which I was listening to, more than watching, I heard a voice which sounded like Ellen Burstyn. My sister said it couldn't be but it sounded like her. The credits at the end said that the actress was Ellen McRae. Did Ellen Burstyn ever act under another name? — J.S. Joplin, Mo.

Yes, and you've just given her a new one. She has

Ask Dick Kleiner

used several names in her career including Ellen McRae, and it's Burstyn not Burnstyn.

**DEAR DICK** — Is the girl who plays Lauren on "The Young and the Restless" the same girl who was Don Craig's long-lost daughter a few years ago on "Days of Our Lives"? They look so much alike except for their hair color. — L.A.T., Hebron, N.D.

Same girl, just a dye job. Tracy E. Bregman was Donna Temple on "Days" and is now Lauren on "Y & R."

**DEAR DICK** — I miss seeing my favorite show "Hart to Hart" and I wonder when and where I will be able to see reruns. — E.B., Houston, Texas.

Reruns are a local issue. Individual stations and individual cities buy rerun packages (or don't buy them) and the only way to find the answer to your question is to check with all your local stations to see if they have plans to show "Hart to Hart."

**DEAR DICK** — Whatever happened to John Banner who played Schultz on "Hogan's Heroes" and whatever happened to Brad Dourif who played Billy in "One Flew Over the Cuckoo's Nest"? J.W.B., Shelby, Mich.

Banner died in 1973. Dourif is still acting and has been in quite a few recent movies. He's such a fine actor that he's difficult to recognize.

**DEAR DICK** — Could you please tell me if Richard Chamberlain ever receives his fan mail

letters. If so, what are my chances of him writing me back. — S.K., Sulphur Springs, Texas.

Most stars utilize fan mail service companies that receive all the mail and send out form replies. Only rarely will one of the service readers consider a letter important or unusual enough to send it on to the star. But it does occasionally happen.

**DEAR DICK** — Could you tell me what happened to Joan Davis, who starred in "I Married Joan." I'm 19 and I see reruns of it. I wonder how old she is today. — J.M. Amarillo, Texas.

Miss Davis died way back in 1961 some years before you were born.

**DEAR DICK** — Is Heather Locklear on "T.J. Hooker," the same girl who used to play Tabitha on the TV series, "Bewitched"? If not, does the girl who played Tabitha star in any TV series now? — G.M.M., Fort Hood, Texas.

Tabitha was played by a set of twins, Erin and Diane Murphy, as a little girl. They would be 19 or thereabouts today, and I've been unable to find any current information about them.

**DEAR DICK** — Please tell me where I can write to Jackie Cooper. — R.B., Negaunee, Mich.

One more time: To protect the stars, I don't give out addresses, even if I know them. In this case, I do know the address. I wrote Jackie's autobiography with him — it's called "Please Don't Shoot My Dog." If you send your letter to me, in care of your newspaper, I'll get it to him.

**DEAR DICK** — After watching "Evergreen" for three nights, I'd like to know when I can see Ian McShane again. — J.Y., Gilbertville, Pa.

He has a marvelous time with a sinister role as a suave drug pusher in a new movie, "Torchtlight," with Pamela Sue Martin.

# ...Pizza

Continued from page 2

For the real pizza lover, there is no shortage of pizza restaurants in Central Florida. Check the phone book, there are several pages under the 'Pizza' heading.

In the Sanford-Lake Mary area alone there are nine pizza purveyors, franchises and independents. And that doesn't even count the restaurants whose menus include pizza as just one of their many offerings.

About now you've probably developed this insatiable craving for ... (a drum roll, please) ... pizza. But you say you've had it with pepperoni and green peppers, onions, ground beef, anchovies, and mushrooms. And you're not quite hip enough for the truffles or artichoke hearts.

Well, try some of these out-of-the-ordinary pizza recipes. They've all earned 5-tomato ratings.

### PIZZA CUBED STEAKS

- 1 8-ounce can pizza sauce
- 1/4 cup chopped onion
- 1/4 cup chopped green pepper
- 1 teaspoon cornstarch
- 1/2 teaspoon sugar
- 1/4 teaspoon dried oregano, crushed
- 1/4 teaspoon dried basil, crushed
- 4 beef cubed steaks
- 1 slice Mozzarella cheese

In 12x7 1/2 x 2-inch glass baking dish, combining first 7 ingredients. Cover with waxed

paper. Cook in countertop microwave oven 3 minutes; stir. Add meat in single layer; sprinkle with 1/4 teaspoon salt and 1/4 teaspoon pepper. Cover; micro-cook 5 minutes. Turn meat over; micro-cook, covered, 3 minutes\* more, or until done. Remove from oven. Cut cheese in 4 triangles; place one triangle atop each steak. Let stand 1 minute to melt cheese. Serves 4.

\*The timings are approximate, as countertop microwave ovens vary by manufacturer. But after trying a few recipes, you will be able to adjust recipe timings to your microwave oven.

### PIZZA IN A BURGER

- 1 1/2 pounds ground beef
- 1/2 cup grated Parmesan cheese
- 1/4 cup finely chopped onion
- 1/4 cup chopped pitted ripe olives
- 1 teaspoon salt
- 1 teaspoon dried oregano, crushed
- 1 6-ounce can tomato paste
- 4 slices Mozzarella cheese, cut in strips
- 8 cherry tomatoes, halved
- 8 slices French bread, toasted

Combine first 7 ingredients and dash pepper; shape into 8 oval patties. Broil over medium coals 5 to 6 minutes. Turn and top each with cheese and tomatoes. Broil 5 minutes or to desired doneness. Serve on toasted French bread slices.

### PIZZA PORK CHOPS

- 6 double-rib pork chops, about 1 1/4 inches thick
- 1 cup packaged herb-seasoned stuffing mix

- 1/4 cup chopped onion
- 1/4 to 1/2 teaspoon dried oregano, crushed
- 1/2 cup water
- 2 tablespoons butter or margarine
- 1 10 1/2-ounce can pizza sauce
- 1 8-ounce can tomato sauce
- 3 slices sharp process American cheese, halved diagonally
- Oven 350°

Have pocket cut on bone side of pork chops. Trim off excess fat. Combine stuffing mix, onion, and oregano. Prepare stuffing mixture according to label directions, using only 1/2 cup water and 2 tablespoons butter or margarine. Lightly stuff pockets of chops. Season chops with salt and pepper. Place in 13x9x2-inch baking dish.

Combine pizza sauce and tomato sauce; pour over meat. Cover tightly with foil. Bake at 350° for 1 1/2 hours, or until well done. Remove foil. Top with halved cheese slices. Makes 6 servings.

### PIZZA NICOISE

Top frozen cheese pizza with drained flaked canned tuna, ripe olive halves and hard-cooked egg slices; heat ac-

ording to package directions. For more traditional pizza, try this classic recipe:

### PIZZA

- 4 cups sifted all-purpose flour
- 1 cake yeast in 1 1/2 cups 85° water
- 2 tablespoons vegetable or olive oil
- 1 teaspoon salt

Knead 10 minutes. Cover with damp cloth and let rise about 2 hours. Have ready two oiled 14-inch pizza pans. Sprinkle a little cornmeal over all. Pat and stretch the dough in the pans, pinching up a collar around the edge to hold the filling. Prick dough in about 6 places.

Preheat oven to 400°. Brush each pizza lightly with olive oil to prevent crust from becoming soggy. Spread with your preferred filling and rest it about 10 minutes. Bake about 25 minutes until light brown.
