

60th Birthday

Nixon Hopes 'Great Things'

By FRANCES LEWINE Associated Press Writer WASHINGTON (AP)—President Nixon, observing his milestone 60th birthday today, says he "hopes to do great things" in the first four years of his seventh decade.

And to keep thinking young he suggests looking to the future, the past, and staying in contact with younger people. Nixon granted a birthday interview to two news-service reporters, provided the discussion was limited solely to his birthday reflections. He took

time out from working on his inaugural address for a 25-minute talk in his Executive Office Building hallway. The President said he doesn't like observing birthdays annually anymore and prefers to make note of them only on the decades—"every 10 years."

He cited his 10-year milestones starting at age 20 when he was "a junior in college, majoring in history and English, going out for football—"but I never made the team."

At 30, he was in Bougainville in the South Pacific in World War II. At 40, he had just been elected vice president. At 50, he was just defeated for the govern-

ment of California and at 60, just re-elected for a second presidential term. Never in those decades, "least of all at 50, did I expect to be here at this time at 60," Nixon commented.

The President plans to celebrate his birthday tonight with his wife, Pat, daughters Tricia and Julie, Eisenhower, his long-time personal secretary, Rose Mary Woods, and close Florida friend C.G. "Bebe" Rebozo.

He said he expects his daughters and Rebozo, who recently turned 60 himself, will give him a "pretty good kidding" about passing the milestone.

McGovern's Next 'Try' To Differ

By MARGARET SCHERF Associated Press Writer WASHINGTON (AP)—If he could do it over again, Sen. George McGovern says, his presidential campaign would be different: less travel, more television, less openness with the press, and more "no comments."

"My confidence in the ability to get to people with appeals based on simple, old-fashioned virtues like trust and decency has been shattered," said the Democratic party's 1972 presidential nominee, who was overwhelmed by President Nixon in last November's election.

McGovern's somber mood extended to the subject that propelled him into presidential politics—the Vietnam war.

"I'd conduct a cooler campaign," McGovern said. "Campaigning in three or four cities a day is a thing of the past. I don't know if anyone will ever run for president that way again."

McGovern added: "I had thought that, at an underdog, it would impress people with my determination and sincerity. But it didn't work that way."

His advice for anyone contemplating a presidential campaign: Do less traveling and depend more on television—"fireside chats"—to carry your message to the voters.

Naval Academy Director Named

J. P. Schreiber of Mattland, Florida has been appointed to the new post of Director of Development at the Sanford Naval Academy.

A resident of Florida since 1960, Schreiber has served as an executive in a wide variety of manufacturing and publishing firms. He is financial secretary for Senator Edward J. Gurney in his last two campaigns.

Born and educated in Wisconsin, Schreiber, after graduation from the University of Wisconsin, was associated with a large accounting firm in Chicago, attended the Naval Supply School at Harvard University and was an officer aboard an aircraft carrier in World War II.

At The Sanford Naval Academy, Schreiber will supervise all activities involving enrollment, public relations and fund-raising. The academy, now in its 10th year, has misdeeds from 20 states and 12 foreign countries. It is sponsored by the Bernard Macfadden Foundation which also sponsors Castle Heights, the year-old military school in Lebanon, Tennessee.

McGovern says the press did a poor job of covering the campaign. "I wouldn't be as open with the press," McGovern said. "I'd be more discreet, more cautious about baring my soul. There would be more 'no comments.'"

"I don't think the American people got a true picture," he said. "That was partly my fault and partly the fault of the press."

Should Seat Belts Be Mandatory?

By JON THOMPSON Copy News Service

A large portion of the American public has decried the fact that since the beginning of the U. S. involvement in Vietnam, something on the order of 55,000 Americans have lost their lives there. "Tragic?" Of course it is. But what is really shocking is that the same number of Americans lose their lives EVERY YEAR in what is beginning to look like a situation of ever higher risk than war. And those unfortunate are not just robust young men. They're elderly people, small children and young mothers, too. But perhaps the ones that die are the lucky ones. Because in addition to them, 3.6 million people are involved every year, and many carry their disabilities for life. What horribly dangerous activity are they all involved in? What frightening thing must they do that brings such a terrible price to bear on them? They drive or ride in a car. The federal government has been embroiled in a program to save us from ourselves is no big secret, what with the large amounts of press given the Experimental Safety Vehicle (ESV) project and the airbag. But it doesn't take too close an inspection of the super expensive ESV or the almost laughable airbag that magically pops up and cushions you in case of a crash, right? To conclude that there just has to be a better way. Well, Chester Pulley and the Australian government think they've found that better way. The name of the game is mandatory seat belt usage. Pulley is behind it because he's president of the American Safety Belt Council. Australia is behind it because since mandatory belt laws have gone into effect there, seat belt usage has risen 65 per cent and traffic fatalities are down—actually down—20 per cent. This figure, applied to the annual U. S. traffic death statistic, would mean approximately 11,000 fewer deaths each year. Pulley says that during a recent trip to study the Australian plan he visited Austin General Hospital in Melbourne. He says he was told there that before the belt laws, 17 per cent of all accident victims admitted to the hospital died. With mandatory belt usage, the hospital records showed that figure is now down to 3 per cent, a drop of 15 per cent. The simplicity of the idea, Pulley says, is beautiful. Most cars here are already equipped with not only belts but shoulder harnesses as well. A mandatory belt usage law could work in the United States, Pulley says, because first of all, he believes most Americans are willing to obey the law. For those who aren't, all the police would have to watch for would be an amused shoulder strap. Certainly a mandatory seat belt law raises some grave questions in the field of personal liberties. But on the other hand the benefits of such legislation are rather obvious. Q. My steel-belted radial tires seem to be wearing rather quickly on their outside edges. What would the problem be? A. Could be your tires are underinflated. H. T., San Diego, Calif. Automotive questions of general interest will be answered in this column. If you have a question about your car, motorcycle or recreational vehicle write to Motorways, Copy News Service, in care of this newspaper.

Lets Reminisce

Turn On Faucet For Water

Hot water, cold water, hard water, soft water—just turn on the right faucet and there it is, all you want. But it wasn't always like that. Faucets were something you heard about but very seldom saw in houses fifty or sixty years ago. On the bench beside the sink, if you were lucky enough to have a sink (and it might surprise the modern generation to know how many people managed to be happy without one) stood the water pall. It might be just a tin pall. But most people had a granite one—white inside and either blue or dark red flecked with white outside. There was usually a long-handled dipper to match the pall hanging on a nail beside it. This was for drinking water. And how did the water get into the pall? Why, somebody carried the pall to the pump in the backyard, hung it on the spout and then worked the long pump handle up and down. (This was excellent exercise for strengthening back muscles.) It was necessary to pump for some time before any water appeared, but finally the pall was filled and then you carried it back to the house—using both hands if you were about ten years old, and stopping for frequent rests thereafter. And you knew better than to throw any water away, because you knew perfectly well who was likely to be the one to carry the pall out to the pump for a refill.

Political Notebook

HST: Big Crises, Firm Decisions

By BRUCE BOSSAT

WASHINGTON, D.C. (NEA) For all the lavishness of the eulogies heaped upon the fallen Harry Truman, many don't quite capture the uniqueness and full magnitude of his accomplishments. Left out of his country's highest war and foreign policy secrets before he took office in 1945, he plunged into the turbulence of World War II and its aftermath and gained immense stature as a "foreign policy president."

The unconditional surrender of Germany and Japan gave him the unprecedented task of steering to govern two great enemy lands. He used the victor's resources, far-sightedly, to rebuild them. This went side by side with reconstruction aid to our western European allies, justly celebrated for its massive generosity. And with the picking up of burdens dropped by others (aid to Greece and Turkey).

Little remembered is the fact that Truman chose to damp down rising suspicions over our most potent ally, the Soviet Union, and extend the offer of help to the whole of Eastern Europe as well. The Kremlin spurned it, for itself and the lands its armies controlled. Even without the inclusion of Russia and its compulsory allies, what Truman undertook was the greatest managerial assignment in history. He may have failed as a haberdasher, but he rebuilt much of a war-shattered world.

When the Kremlin smothered Czechoslovakia's last free breath in 1948, Truman rammed through America's first peacetime draft. Then he put together the country's first peacetime defensive alliance—the NATO pact. With the East-West struggle on in force, Russia tried to strangle West Berlin, an allied enclave in Red Territory. Truman used American power with subtle precision, breaking a stubborn, 11-month economic blockade with a dramatic airlift.

But the Kremlin was not through pushing. It inspired and supported the crude North Korean invasion of South Korea. Whereupon Harry Truman moved uniquely again, quickly thrusting this nation—without United Nations backing—into what was then the largest and costliest "limited war" in U.S. history. Not many recall that he accurately. It was not the "stalemate" often portrayed. After our terrible retreat before North Korea's newfound Chinese allies, we drove the enemy slowly but steadily back into North Korean zones. Though once more applying our power with restraint, we were menacing the capitol city a second time when a Russian tapped an American on the shoulder at the U.N. and asked for armistice talks. Today's "truce" takes a good deal longer to reach.

Did all these things "save the free world," as Truman's eulogizers say? "Revisionist" historians now argue we imagined the danger, or that we drove Russia to aggressive acts. They are wrong. The peril was real, and what is most memorable about Harry Truman is not just that he met it with decisive courage but that this "ordinary man from Missouri" acted with such impressive imagination in dilemmas, unlike any ever faced by the leader of a great nation.

One Man's Opinion U.S. Should Quit Pretense on Bombs

By DON OAKLEY

It is tragic enough that some of America's erstwhile allies and friends have compared the non-suspended bombing campaign against Hanoi and Haiphong with the Nazi's destruction of Rotterdam or Coventry in World War II. The administration compounds the situation when it maintains, in the face of any number of eyewitness reports by Western observers on the scene, that only strictly military targets have ever been struck. True, the Pentagon has backed off from previous outright denials and conceded that U.S. bombs may have damaged the city. But then the Pentagon backed off from the concession by ringing in the well-worn suggestion that part of the damage may be attributable to errant North Vietnamese missiles or to falling aircraft.

This sort of thing does not allay the uneasiness or uncertainty felt by many Americans. It only adds to the growing suspicion that the Nixon administration, like the Johnson administration before it, has not played straight with the people. It does not take an expert in aerial ordnance to know that the intense, saturation-type bombing carried out in December, the "carpet" patterns laid down by formations of B-52s—then the so-called "surge" strikes by individual fighter-bombers—must inevitably result in civilian deaths and damage to civilian facilities.

War is hell, any kind of war, but especially the modern remote-controlled kind. Why does not the administration acknowledge this, and instead of trying to fool the American, if not world, opinion, remind its critics that North Vietnam is only feeling the other edge of the sword it has not hesitated to use against the population of South Vietnam?

Council Board Actions

By DONNA ESTES

Election of the city's new Council Chairman appeared cut and dried Monday night as the 1972 chairman, Edith Duerr, announced she was not a candidate for re-election to the post she has held for two years. New Councilman Thomas Embree nominated John Leighty and Councilman Richard Wirz for the sake of keeping the election from being one-sided.

The new chairman immediately named various committees to serve during the forthcoming year. His first appointment of Wirz on the garbage committee met with resistance from the councilman who insisted there were other committees to be named. He did accept the appointment, however, and he and Zacco were instructed to have a report on the current garbage situation before Council at its meeting next week.

Zacco said there has been no improvement in the garbage situation for months. The city has an exclusive franchise with Reliable Garbage Company of Orlando for the service for the citizens of the city. City Manager Ron Bergman said the time has come for definitive action toward the franchise. He said he has threatened the company time and again and threats no longer mean anything. Perhaps the company, he said, should be called before Council and its bond forfeited.

Other committees named were street lighting, Dr. Duerr and Embree; annexation, Zacco and Wirz; paving, Zacco and Embree; Civil Service ordinance review, Wirz and Dr. Duerr with assistance from Mel Paris and Bergman; determination of ways to provide better efficiency and save money in city operations, but he rebuffed much of a war-shattered world.

Dog Pound Animals

A horse and two, a couple gerbils, a few snakes in addition to the regular dog and cat population have resided of late in the Casselberry dog pound and many of the creatures are available for adoption, Council Vice-chairman Edith Duerr pointed out. Mayor Bill Grier said the city's animal control officer, Vicky Shook, is doing an excellent job. During the month of December, the city received 82 dog and animal complaints and impounded 102 creatures.

In other reports at the meeting, the city received \$16,115.34 in cigarette taxes in December, \$7,108 in fines and bond forfeitures in city court; \$3,563 in building permit fees; \$63 in dog licenses; \$190 in animal control fees with total revenue for the month at \$72,301.33.

County Action Opposed

Majority of the city council went on record Monday night opposing any county ordinance which gives the Board of County Commissioners authority to take action within the City without prior approval of such action by the City Council. Referred to in the conversation among members of the board was the county's pollution control law. Councilman Duerr insisted direct control by the county within city limits is not in the best interests of the city. He said the county with authority could use it to halt building in the city. She said in addition she has not found the county government in the past receptive to helping the city.

Wirz maintained that in his opinion the county does not intend to abridge the city's rights and Zacco added that the city should not take a negative stand toward the county government. Embree said he didn't think it was Dr. Duerr's intention to pound back the County Commissioners ears, but rather to protect the city. All the members of the board said it is their desire to protect the city. City Attorney Kenneth McIntosh said the county's only power over the city would be by action through state authority. McIntosh and Bergman were instructed to look into the matter.

Money Asked For Movies

TALLAHASSEE, Fla. (AP)—Lt. Gov. Tom Adams says Florida should go into the movie business to update its promotional films and prevent tourism in the state from flagging. Adams told Gov. Reubin Askew Tuesday that the state Commerce Department, where he serves as secretary, was seeking \$20,000 next fiscal year to produce and distribute four new movies in Florida.

BOOM DAMAGE

Some of the historic frescoes attributed to Giotto (1267-1336), founder of the Florentine school, and of other 13th and 14th Century artists in the Basilica of St. Francis of Assisi in Rome have been damaged by super-sonic booms caused by military aircraft, it was claimed recently.

MELVIN R. ZIEGENFUS, new president of First Bank of Deltona and Chief Executive Officer, is former vice president, Correspondent Bank of Miami and has over 36 years of banking experience. (Charles Edwards Photo)

Open House Held By Deltona Bank

DELTONA — The First Bank of Deltona will hold "Open House," Thursday, Jan. 11 from 9 a.m. to 2 p.m. for the public to meet the new president of the bank, Melvin R. Ziegenfuss. Refreshments will be served and registration for a free U.S. Savings Bond, to be given away that afternoon.

Ziegenfuss served as executive vice-president of the First National Bank of Lewistown, Pa. and joined the First National Bank of Miami in April of 1956. Here he has served as president and director of other affiliates of Southeast Banking Corp. He also served as vice-president in the Florida Correspondent Banking Department of the First National Bank of Miami, Fla. and as vice president of the Southeast Banking Corp. He is a graduate of the University of Pennsylvania, Wharton School of Accounts and Finance, the American Bankers Assn. Graduate School of Banking, Rutgers University and served as an instructor for the American Institute of Banking Courses in Miami Chapter.

The new president is looking forward to meeting and greeting the bank's depositors.

He returned to Wilkes-Barre in 1946 accepted a position as secretary-treasurer of the Stroudsburg (Pa.) Trust Co.,

Federal Aid Asked For Sewage Lines

By MARION BETHA

ALTAMONTE SPRINGS — The city received official notification Monday that it is the recipient of a federal grant for \$3,400,000 for expansion of the sewage plant in which the city will have a regional plant for the area. Subsequently City Council yesterday authorized the city attorney to prepare a resolution accepting the offer and further authorized application to the Environmental Protection Agency for a grant for construction of an interceptor system to the regional plant for an approximate cost of \$2,600,000.

City Engineer Harold Radcliffe was authorized to prepare plans for the new treatment plant and to accept the offer of the city will advertise for bids in June for the 7.5 million gallon daily structure. Radcliffe reported to council that the regional plant should be completed within two years and will serve all the west of U. S. 17-92, Eatonville on the south; Longwood on the north and on the west to the county line. Package plans, he said, will be placed on a schedule by the state for phasing out. Radcliffe revealed this is the first time in south Seminole County that there will be a true regional plant. However, Radcliffe said he pointed out to EPA that if Altamonte extends its sewage facilities, new interceptor lines would be necessary. These, he said, would encompass northeast from Longwood and the west Altamonte plant, and would be phased out. Also encompassed is a portion of Orange County. Radcliffe continued that Longwood would construct an interceptor system from SR 434 to the north end of Douglas Avenue and there will be a master lift station at the north end of Douglas Avenue and force mains to the plant. Radcliffe disclosed the plant will have advanced waste treatment capable of removing nutrients to the highest available state. The effluent will be of better quality, he said, than drinking water standards. Further, he said, the EPA has requested by-passing, Spring Lake and discharging the effluent into the Little Wekiva River.

Radcliffe noted the city is eligible for a \$2 million grant for the interceptor facilities and therefore only approximately \$650,000 usual remain to be financed by the city. Application deadline is Jan. 15 and Mayor Lawrence Swofford and Mayor Lawrence Swofford and Radcliffe plan to transmit

Sanford Commission Won't Accept Ditch

By BOB LLOYD

Sanford city commissioners say they will not accept drainage Wick Austin's open ditch drainage of a portion of San Lanta subdivision as a "temporary" measure until permanent piped drainage is installed in approximately one year. "I'm not interested in a 'temporary' open ditch along the railroad tracks," declared Mayor Lee P. Moore. Senabrook Coast Line Railroad officials said today they are investigating to see if the ditch is on their property. Milton Smith said, "To my knowledge, Austin didn't have our permission" to bulldoze an old ditch open and deepen it.

Last week Moore and Commissioners Graham Meyer, Julian Stenstrom and A. A. McClanahan inspected a ditch bulldozed by Austin Development Company along a railroad right-of-way located in San Lanta subdivision, south of Colera Avenue, west of Melvinville Avenue and east of Locust Avenue, has become controversial in recent months because of flooding of incomplete Valencia Court West in front of five houses, four of them occupied.

Last week the city commission agreed the city will refuse to issue building permits or connect utilities to new homes in the subdivision until the developer constructs the permanent storm drainage estimated to cost \$100,000. Monday night Commissioner Stenstrom reported a misplaced "dike" to prevent flooding the street had been removed. Last week City Manager Warren Knowles called the dike "stupid" and said it was in the wrong place and would actually hold water in front of the homes instead of keeping it out of the street.

Moore said Austin "knew he would have drainage problems" before he purchased the San Lanta property for development two years ago. "And still nothing's been done," he said. "This is the time the line should be drawn," Moore stated.

Meyer, Stenstrom and Commissioner John Morris agreed with Moore that the dike should not be allowed. McClanahan agreed also and asked that any further contact between the city and Austin be

carefully documented in writing. Stenstrom said he has been receiving complaints from Hossilia Drive property owners on the opening of the railroad right of way ditch by Austin. Rosalia Drive is south of the railroad and a number of the homes adjoin the right of way. Austin had moved into a home at 804 East 14th Street after the city banned new utility connections in San Lanta "has been taken care of at his (Austin's) expense."

Bachelor Views 'Sunshine' Fault

(Continued From Page 1)

Bachelor said they proceeded to look out zoning plans and discussed them, which he considered "a violation of the 'sunshine' law." "This, he said, was indicative of doing things without public awareness."

However, Bachelor said, he did not press the issue on the outside chance that it was accidental. Bachelor noted that Pland has consistently pressed for advertisement for police patrolmen and the chief's position was formerly advertised. However, Bachelor was appointed without much public awareness and Bachelor said the matter was discussed in advance of the meeting. All of the councilmen, Bachelor said, were aware that the mayor was not going to reappoint him and were also aware that Dobson would not accept the position for less than \$4,800.

Bachelor said he spoke with Pland who admitted he was aware of the situation but that

inappropriate time, Bachelor said Mayor Brown replied, "I don't have to give a reason, it's your prerogative." Further, Mayor Brown said, "I just thought you'd like to know" Bachelor replied, "thanks for ruining my holidays."

Bachelor said he retired from Seminole County police force after 23 years to come to Central Florida. "I took the job at long hours and low pay," Bachelor said, "because I thought there was a future here."

Bachelor related he worked 90 hours weekly as Winter Springs only full-time policeman and that if he had not had civic interest he would not have done so. Bachelor said his first eruption of conflict with the mayor came as a result of a recommendation that Scott Kenneth be promoted to sergeant establishing a chain of command. The mayor deemed it unnecessary.

REPRESENTATIVES OF Seminole municipalities met Tuesday with the Seminole County Commission and discussed the county's controversial new Air and Water Pollution Control ordinance. Led by Winter Springs Mayor Granville Brown, the cities again strenuously objected to portions of the ordinance. Shown above with Langley Adair, Seminole Pollution Control officer, are from left, Sanford City Commissioner John Morris, Longwood Mayor-elect Eugene Jaques, Brown, and Longwood Councilman Louis Koslosky. Loch Arbor Group Meets

By ANN SIECZKOWSKI

The question of which better—annexation to the City of Sanford or inclusion in Lake Mary incorporation will be thoroughly examined tonight at a meeting to be held at the Upsilon Presbyterian Church at 30. The meeting will be attended by members of the Loch Arbor Civic Association members of the Loch Arbor Chamber of Commerce and Incorporation Committee, headed by Sam Pratt and Donald Jackson. Also invited to participate in this program are Representative Eugene Mooney, Vince Fechtel; Pete Knowles, city of Sanford; County Commission Chairman Sidney

Vihlen and District Commissioner John Kimbrough. Residents in Loch Arbor have presented their petition noting their position against being included in the incorporation boundaries of Lake Mary as described by the incorporation committee. Also voicing their wishes to remain outside the corporate limits of Lake Mary were residents of Tee 'N Green Estates, Park Ridge and Suburban Estates.

Residents in several of the surrounding areas which are included in the boundaries as outlined by Pratt's committee, have complained on a number of occasions that they have not received sufficient notice of meetings where the in-

corporation has been discussed. It has been reported that notices were sent out on the meeting to be held tonight. All interested residents in Lake Mary are invited to attend and let their opinions be heard.

Lawsuits From Nixon's Spending Clamps

By TOM RALPH
Associated Press Writer
TALLAHASSEE, Fla. (AP) — Lawsuits across the country have been filed in reaction to President Nixon's spending clamps on federal programs — but legal advisers to Gov. Reubin Askew are urging him to take a go-slow approach.

They are a little wary of possible ramifications of a court order stripping the President of his power to withhold funds appropriated by Congress.

The reason? The same power Nixon used in holding back some \$250 million in pollution funds and \$22 million in highway funds earmarked for Florida was the power he used two years ago to halt action on the Cross Florida Barge Canal.

A legal source in Askew's office said it was feared that a successful challenge to the current rash of Nixon holdbacks could give supporters of the canal the legal assumption needed to force a resumption of the project.

Construction on the 16-mile canal was halted by Nixon in January 1971, after environmentalists rallied against the \$250 million project.

Askew said direct court challenges of Nixon cutbacks have been considered by him, but rejected on advice of his legal staff.

However, an indirect challenge was filed — unknown to the governor's office at the time —

by the State Department of Transportation involving Nixon's action in holding back highway funds.

The department filed a friend-of-the-court brief in a lawsuit filed by the State of Missouri challenging the Nixon action.

"The bill will have to be re-introduced, of course," said Chiles. "But I think chances are better than ever that it will pass."

He said in his new position as a member of the Senate Appropriations Committee he

hopes to be able to exert more pressure on the Senate to adopt the legislation. But Chiles said even more important was the naming of Rep. James Haley, a Sarasota, Democrat, to head the House Interior and Insular Affairs Committee.

Haley, 73, a 20-year congressional veteran, was elevated to the post after former chairman Rep. Wayne Aspinall, D-Colo., was defeated in his bid for reelection.

Furniture for the new \$1.5-

million House office wing, dubbed a "palace for the political potentates" by ex-Gov. Claude Kirk, will cost taxpayers \$78,175, reported Fort Lauderdale News-Tallahassee correspondent Bill Cox.

Cox said a check of records maintained by the joint legislative purchasing division showed that figure would include \$4 "executive desks" costing from \$762 to \$771 each.

Legislative purchasing agent Paul Messer was quoted as explaining that the desks would

have been even more expensive if specifications hadn't been changed to substitute walnut for the originally ordered teak finishes.

Five Cities Give Views To County

By ANN SIECZKOWSKI

Representatives of the six municipalities in Seminole County were present to inject their views regarding the recently passed ordinance governing air and water pollution in the County. The ordinance passed by the Board of County Commissioners a week ago; city representatives had been expected to attend the meeting but none came until after the action was taken.

According to Mayor Granville Brown of Winter Springs, the major objection to the ordinance is the inclusion of the word "incorporated."

Brown said that he could not see the necessity of a county ordinance if Adair (Langley Adair, County Pollution Control Officer) and representative of the Department of Pollution Control is a representative of the state, he is welcome in my town at any time. We object strenuously to the word "incorporated."

When queried by Commissioner Mike Hittaway as to the reason for objection to the use of the word, Brown said that he felt it violated the sovereignty of his city.

Adair pointed out that his only authority within a municipality would be as an arm of the State and that the County Commission would be in no way involved. He said that his reports would go directly to the State and Regional supervisors without any county regulations at all.

WAR IS SUCH A WAY OF LIFE in South Vietnam that these two Tay Ninh youngsters don't seem to pay any notice to the soldier equipment beside them.

Vietnam Air Losses Continue

By GEORGE ESPER
Associated Press Writer
SAIGON (AP) — The U. S. Command announced today the loss of another fighter-bomber over North Vietnam and a helicopter in South Vietnam just below the demilitarized zone.

This raised to 35 the number of U.S. aircraft the Command has reported lost in Indochina since Dec. 18, when the two-week aerial blitz on Hanoi and Haiphong was launched. The U.S. Command in daily communiques has reported a total of 107 Americans killed, captured or missing in these crashes, the costliest air losses of the war.

While the bombing halt above the 20th parallel continued, the U.S. Command reported continuing heavy B-52 and fighter-bomber strikes in the four provinces of the North Vietnam mesa panhandle.

A total of 45 B-52 strikes that dropped

about 1,200 tons of bombs and 140 fighter-bomber strikes were reported flown against North Vietnam during the 24 hours ending at 8 a.m. today.

An A-6 fighter-bomber was shot down early today about 35 miles northwest of Vinh and the two crewmen are missing, the Command reported.

The second aircraft loss was an Army UH1 helicopter that disappeared Monday evening over enemy territory in eastern Quang Tri province just below the DMZ. Four crewmen and two U.S. advisers to the South Vietnamese paratrooper division were aboard.

The South Vietnamese military command reported another round of Communist terrorist attacks had raised civilian casualties to more than 100 in South Vietnam in the past four days.

Hanoi, meanwhile, broadcast new charges of "extermination bombing" by U.S. B-52s in the southern third of North Vietnam below the 20th parallel.

Utility Director Decision Coming

By DONNA ESTES
CASSELLBERY — The Civil Service Board has "more or less" given a commitment it will take action on recommending one or more applicants for appointment as the city's first utility director.

Mayor Bill Greer reported to the Council last night that the Council last night might take action within 15 days thereafter.

Councilman John Zaccaro laid the blame for the city's Civil Service Board not having recommended an applicant on Bergman. He termed it a "lack of communication" between the city manager and the board that Bergman had not placed advertisements for the position as instructed by the Civil Service Board.

Bergman said in December it seemed "all right" to place advertisements when the possibility was at hand that the Council would be taking action to fill the post.

Rowell's Door Open For Future Politics

By MARION BETHA
WINTER SPRINGS — Retiring Councilman Charles Rowell has left an open door for future political aspirations in a capacity to City Council and a capacity audience Monday.

Rowell said he was leaving office after close to eight years of service to the city and that during that time "I did what I thought was right."

Rowell continued "There is always a lot of things in life going to take a year's vacation. There are a lot of things in life going to take a year's vacation. There are a lot of things in life going to take a year's vacation."

In business of council, Miller gave a financial report of a balance of \$24,896 in the general fund and \$5,227 in the road and bridge fund.

Mayor Granville Brown announced he planned to attend a meeting of the County

Drummond Advises

Commissioner Greg Drummond commented the entire situation regarding the ordinance had been generated through the misinterpretation and faulty advice of one of the city attorneys "who should have known better."

In an attempt to clarify the intent of the ordinance, Assistant Attorney Howard Marsee said, "the Board, in passing the ordinance, simply gave a county employee, (Adair) permission to go into the municipalities for the State. They gave 'permission' not 'authority' to the State."

Marsee responded to a question posed by Eugene Jacques of Longwood, as to state instruction in the word "incorporated," saying that the intent of Chapter 403 of the Florida Statutes is clear that the word be included in the document.

Jacques remarked that in Longwood, they were concerned about the phrasing dealing with "a staff for the pollution control officer, a staff which would be appointed by the County commission."

"Where the county has the responsibility to man this 'arm of the State', the Board of Commissioners can actually form a committee and for what purpose? For this reason, we wish the word 'incorporated' to be removed from the document," he added.

"Why is a dual system necessary?" queried Pete Knowles, manager of the City of Sanford.

Sniper Gun Tied To Policeman's Death

By RICHARD E. MEYER
Associated Press Writer
NEW ORLEANS (AP) — Police have identified the sniper who shot and killed a young policeman in New Orleans on New Year's Eve.

Supt. Clarence Giarrusso told a news conference Tuesday that the sniper was Mark J. Essex, 23, of Emporia and Essex.

"There's some evidence of a conspiracy by other people, but I cannot positively tell you yet."

Six persons were shot to death and 17 injured in the sniping incident.

Giarrusso also said: — Ballistics prove a .44 magnum carbine found next to Essex' body was the same yet... (but conspiracy in the sense that it may have been two, three or four people; a small number, you know, it doesn't take many to form a conspiracy — who were intent to kill people. And that's the sun and essence of it.")

On the basis of that information, during the sniping he deployed extra officers at the hospital, where following a brief connection with a theft at a gun shop was arrested.

Police identified the arrested man as Robert G. Peters, 18, of New Orleans, a black laborer. He was charged with carrying a loaded shotgun, disturbing the peace and criminal mischief.

Giarrusso said police aren't certain what the motives of the two men were.

In Essex' hometown of Emporia, the Rev. W. A. Chambers, his family's minister, said, "We had some information that a militant dist for whites would be coming home from the Navy."

Nixon's Decision On Controls Due

By BILL NEIKIRK
Associated Press Writer
WASHINGTON (AP) — President Nixon is nearing a final decision on the new wage-price controls amid indications the new economic rules may be imposed before April 30, when the old ones expire.

In fact, some officials hinted that the President may decide to put Phase 3 into effect within a few weeks, around the time that a new budget and his new economic message go to Congress.

The White House said Nixon, after receiving recommendations from his economic advisers Tuesday morning, "very possibly" will make a final decision on the new wage-price control system this week.

Presidential Press Secretary Ronald L. Ziegler ruled out any controls at the farm-produce level, but otherwise gave no details on how the new system would work.

In past weeks, administration economic policy-makers have hinted that rent controls might be dropped in Phase 3 because they are too burdensome, that the profit-margin restraint would be lightened on businesses, and that coverage of the program might be limited to the nation's largest businesses and labor unions.

But officials, after learning of Nixon's intentions to make an announcement on the new program soon, said the President may go in a different direction.

While Phase 3 controls probably will be no lighter as far as food prices are concerned, the administration is expected to launch a vigorous effort to step up food supplies, thus putting downward pressure on prices.

Food prices are controlled now at the wholesale and retail level.

The administration has pledged that it will make a special effort to cut food prices this year. The enormity of the problem was demonstrated again Tuesday with the release of December's Wholesale Price Index.

The Bureau of Labor Statistics reported that wholesale prices went up by a sharp 1.8 per cent last month, the biggest increase since January 1951. Food prices were responsible for most of that increase.

As for the economic-stabilization law, the administration is reported leaning to a one-year extension, with no major changes in the law. It has reasoned that the control program must be thought of as temporary, and that a permanent system would make labor and business react differently to wages and prices and force up inflationary pressures.

Changing of the Guard

CHANGING OF THE GUARD finds outgoing Defense Secretary Melvin Laird gesturing as he gives incoming Defense Secretary Elliot Richardson a guided tour of the Pentagon. Richardson switches from the Health, Education and Welfare post.

Burglary Squad Strikes

By GARY TAYLOR

A Seminole County detective had to be treated for injuries after an Altamonte Springs suspect resisted arrest in his residence at 317 Teakwood Lane.

Sheriff John Polk said Ulyses

Micclendon, 18, was charged with buying, receiving and concealing stolen property in connection with a theft at Captain Threads on SR 436. Micclendon was also charged with resisting arrest with a knife.

Total bond was set at \$10,000. Det. Jerry Capshaw and Det. Robert Kunkler, members of the sheriff's department burglary squad, made the arrest. Kunkler was injured when Micclendon resisted arrest.

Micclendon had previously been arrested in connection with a theft at the Altamonte Tire Company.

The burglary squad also arrested two men on charges of grand larceny. John Adam Ilessee, 26, and Horace Flowers, both of Orlando, were arrested in that city by Abguy, with cooperation from Det. Charles King and Det. Art Willis of the Orlando Police Department.

Reese posted \$5,000 bond at the Seminole County jail.

No Tax Legislation Expected By Senator

By JOE HALL
Associated Press Writer
WASHINGTON (AP) — Sen. Hubert H. Humphrey, chairman of the tax-writing Finance Committee, says he expects the 93rd Congress to pass no major tax reform legislation.

Long said in an interview that expectations of some members of Congress that tax reform could raise \$15 billion to \$20 billion in revenue are highly unrealistic.

He said it would be much more realistic to forecast that his committee and its House counterpart, Ways and Means, might try to pass tax relief that could raise \$1 billion to \$2 billion.

"And," he went on, "I am willing to bet that if we vote to increase taxes on anybody that amount, there will be a majority who will want to cut taxes for someone else by at least \$1 billion more than we raise from tax reform."

"That is exactly what happened the last time we had a big tax reform bill, in 1969. We ended up giving more tax relief than we gained in new revenue."

Demoted, Pressured Rule Returns To Table

WASHINGTON (AP) — Demoted and under pressure to return to the table, the so-called military-industrial complex.

Other senators say that one of the most promising tax-reform areas is the minimum tax enacted in 1969 to try to require wealthy persons to pay some income tax even though all their income is sheltered in various tax preferences.

There is little opposition among tax reform advocates that the 27½-per-cent depletion allowance for oil and gas can be cut again this year, because of domestic shortages of oil and natural gas.

In his previous appearance, Rule said Truman Aircraft Corp. had been all but permitted to "buy into" a huge contract to produce F-14 jet fighters for the Navy and that the \$500 million in new seeks in increased costs approximates the amount of the low bid.

He said also that Lockheed has mismanaged large ship-building contracts with the Navy and recommended that if the firm fails to meet contract deadlines by February, the contracts be terminated for "default."

And he said President Nixon made a mistake in appointing a committee to study the military-industrial complex.

Proxmire demanded the four-star admiral who heads the Navy Materiel Command change his mind.

Proxmire said if Kidd is permitted to avoid testifying, "all the good work done before committees will be nothing more than a record of what was done but not done."

Proxmire said that the Executive Department wants Congress to know "it is in his previous appearance,

Vihlen Explains

Commission Chairman Sidney Vihlen answered, "originally, when the State called upon me to provide a pollution service on a problem, one man was responsible for eight to 12 counties with only qualified service men on his staff, and had to try to fit another problem on his already crowded work schedule."

"After several months of problems and no cooperation from the State, we found the state was willing to provide a contract, which would not give active county control but would also mean having an arm of the state right here in the county, to give the local man authority of the state to act in pollution investigation and control matters."

"The contract provides a local representative with a laboratory 'not to punish but to assist the cities in fighting pollution,'" he said.

The county and the state provide the space and the funds for the service, which is an active pollution fighting service, that means better and more immediate local service to the municipalities as well as to the county," Vihlen explained.

The county has no authority at all within the municipalities, he said.

In the News

NEW CIA CHIEF is James R. Schlesinger, appointed by President Nixon to succeed Richard Helms, successor was AEC chairman.

State Help Needed

Marsee pointed out that most people are losing sight of the fact that only two people working in twelve counties, the municipalities with problems had to approach the state for help. Now, a state representative in the person of Adair, is right here in the county and available to the municipalities at their "beck and call" as well as to the state and county.

"The ordinance is only a technically — the county has been carrying this service out since June — the ordinance is a legal 'catch-up' which complies with state requirements, and it is an actual arm of the state with no more or less power since June," he added.

Adair said if he were to find a violation of pollution control regulations within a municipality, he would first approach the offending individual or entity and attempt to get voluntary compliance with the law. If this fails, a report would be sent to district engineer who again try for voluntary compliance by the offender. Only after these two efforts failed, would the officials in Tallahassee be involved, he explained.

John Morris, City of Sanford Commissioner, stated he was speaking for the City, and did not believe the ordinance in itself was a problem, but did believe that "it is a very small step toward state over county and municipality government."

"We believe that it is a forerunner of future similar ordinances in other areas of operation; however, we are in accordance with the goals of this ordinance," he added.

Chairman Vihlen said that Adair is not some evil arm of the county government. "The ordinance can be as much a help to the municipalities as to the county," he said.

Adair's Authority

Marsee again pointed out to those present that Adair's authority to go into the municipalities comes from the state not the county. He said that removing the objectionable word "incorporated" from the ordinance would not affect Adair's authority, but would affect the authority of the board over Adair.

"The State asked for this ordinance and Chapter 403 gives Adair authority as an officer of the state with county permission to act as an arm of the state. The law says that he 'MAY' — not that he 'SHALL' act."

"If the municipalities are worried about Adair's association with the Board of County Commissioners, they could join with the county and make him a county pollution officer with joint funding by the county and the municipalities. Perhaps this type of interlocal agreement might solve their concern."

There were no backers for the joint funding suggestion by Marsee.

Fall To 4-8 Tribe Unable To Stop Winter Haven

By GARY TAYLOR
Herald Staff Writer

Playing at a big height disadvantage, the Sanford Seminoles dropped an 8-45 Big Eight Conference cage tilt to the Winter Haven Blue Devils last night. The game left the Seminoles 4-8 on the season and 6-3 in loop play. Winter Haven, on the other hand, overpowered their mark to 8-2 overall and 2-1 in the conference.

For most of the first period, the Seminoles battled Winter Haven on equal terms, with the score tied 11-11 at 1:40 left in the initial period after Jim Clements converted a three-point play. But the Blue Devils scored six points in the final 1:30 of action and took a 17-11 margin into the second period. Winter Haven scored the first six points of the second period, giving them 12 consecutive points and a 23-11 margin. By the time the first half ended, the visitors had put seven more points on their margin and led 47-28 as the two teams went to the dressing rooms.

Winter Haven outscored the Tribe 19-11 in the third period, on one time scoring six straight points. As the game entered the final frame, Sanford was down 66-38. The Seminoles outscored the Blue Devils 26-22 in the final quarter, as both teams emptied their benches to let all players see action. Tommy Wheaton snapped a scoring slump as he accounted for 30 Seminoles points, nearly half of their combined effort. And he did that in spite of missing five minutes, 14 seconds of action when he left the game midway through the first period with an injury. Wheaton had nine field goals and had a near perfect 12 for 13 performance at the charity stripe.

Three other Seminoles finished the game in double figures. Clements had 13 points while Clifford Manley and John Zeuli each scored 10 points. Clements, Manley and Zeuli had five field goals apiece. Otis Burdick, the top scorer in the Big Eight Conference, averaged nearly 30 points per game, scored 33 points against Sanford. He hit for 15 field goals, including seven in the final period.

Game time is 8 p.m., with the winter varsity tipoff scheduled for 6:15 p.m.

HERALD SCOREBOARD

Sanford	10	24	38	15	38

Third Loss In Row For Greyhounds

By HERKY CUSH
Herald Sports Editor

ORLANDO — Well the morose part of the Lyman basketball schedule is past, at least for the time being. The Hounds were soundly belted for the third straight game last night when they handed an 81-47 pasting by the Wildcats of Winter Park.

It was nothing that wasn't expected since the Greyhounds of Bill Moore had to battle Edgewater, Evans and Winter Park in successive games and to boot all three encounters were played away from the Lyman high gym.

It's doubtful that even a homecourt advantage could have helped the Greyhounds last night but they did give a good account of themselves for the first two sessions only to falter in the second half. With John Williams able to penetrate the Wildcat tight defense, the Greyhounds were only two points behind when the first period came to a close. The Greyhounds continued to play the same kind of offense in the second period but their defense was a little more porous and permitted the Parkers to rip the cards for 22 points. This put the local quintet behind by a 36-26 count when the first half came to a close.

Florida Tech Quint Faces Memphis St.

By HERKY CUSH
Herald Sports Editor

Tonight the Florida Tech University Knights will battle the Tigers of Memphis State at the Mid-South Coliseum in Memphis, Tennessee and many followers of college cage action are comparing the meeting to David and Goliath or even worse. At least David didn't have to meet Goliath in the "giant" backyard.

FTU coach, Gene "Torchy" Clark is not kidding himself nor is he trying to kid his players. The job tonight will be tough. And it was made a little tougher last week when 6-8 senior center Eddie Fluit underwent an operation for removal of a knee cartilage. Fluit will be lost for the remainder of the season.

While both teams were committing many fouls the Parkers dropped somewhat of an edge in this department since most of the fouls committed by the Greyhounds resulted in free throws. Meanwhile the Hounds would just get possession and were unable to capitalize. Adding insult to injury perhaps was the hard to take triple overtime defeat in which the Lyman net in Memphis, Tennessee and many followers of college cage action are comparing the meeting to David and Goliath or even worse.

Middle Periods Ruin Brantley Win Attempt

By HERKY CUSH
Herald Sports Editor

SARASOTA — The start was perfect and the finish was equally fine but what happened to the Lake Brantley Patriots "in between" was more than enough to spell defeat for Seminole County's newest high school cagers.

The Patriots had visions of an upset after their first period play in which they held the "upper hand" over Cardinal Mooney but wound down to lose their sixth game of the campaign, a 48-36 decision. Thanks to a ball control type offense in which they played very deliberate the Patriots were able to maintain the slimmest of leads over the West Coast power. The Patriots were on top of a 5-4 count when time expired at the end of the initial period.

There was no delaying the slimmest of leads over the West Coast power. The Patriots were on top of a 5-4 count when time expired at the end of the initial period. There was no delaying the slimmest of leads over the West Coast power. The Patriots were on top of a 5-4 count when time expired at the end of the initial period.

ORLANDO — Big time boxing returns to Orlando tonight for what may be the start of a new era for Central Florida as far as the fight game is concerned. The future of boxing in Orlando appears with the fans tonight and they have what appears to be a top notch light-heavy battle all "set up" for them.

Headlining the program tonight, which will be held at Pete Ashlock's Orlando Sports Stadium, are Mike Quarry and Paul "Nasty" Kasper. Promoter Malcolm Tait believes he has put together a headline that should draw the die-hard fight fan. Tait says he has something for "everyone" since the feature match pits the better Quarry against the fighter (Kasper).

Others are calling it the battle of the shamoorks with both fighters being of Irish descent. One thing is certain, when the two light-heavies come into the ring they will not be seeking inquiries as to each other's family tree.

James Edmonds Paces Florida State Bank

By HERKY CUSH
Herald Sports Editor

James Edmonds had 14 points to lead the Eagles. Robert Smith chipped in with 12, Kenneth Southard had 10, Kevin Epps hit four and Terry Smith added two.

Mark Russi and Glenn Godwin had eight each for the Vikings while Leon Jenkins had six, and Donald McCoy hit two.

Colts remain undefeated for the season with only four games to go. Rafoed Clarke was again high man for the Colts with 12 points. James Rose added seven, Jim MacGregor six, John Doyle five, David McCook four and Danny Mann two.

Randy Harvey had his best day of the season in the Westside Junior Boys League as he scored 24 points for Tip Top. Wayne Watson hit for 14 points. Anthony McIntyre had eight and Theophilus Williams scored four.

Tyrone Hayes led McCoy's with 14 points. Henry Gallagher and Kevin Sheppard each scored seven points. Greg Ligon had two.

Eagles 42—Vikings 27. Eagles were never in trouble as they outscored the Vikings in every quarter.

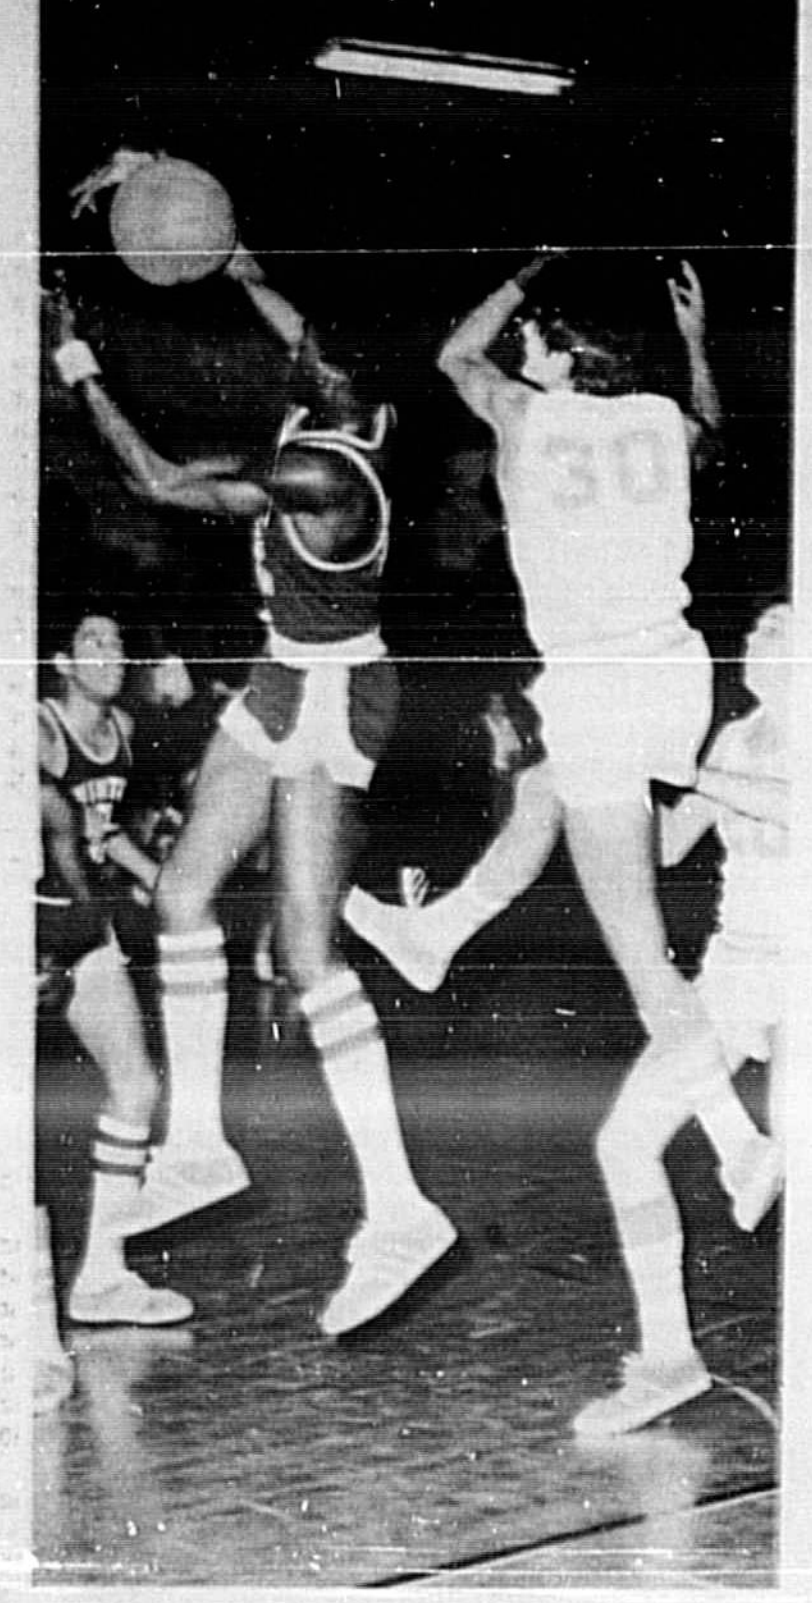

Sportsmen To Meet Tomorrow

By HERKY CUSH
Herald Sports Editor

A huge turnout is expected for the first meeting of the Seminole County Gun and Archery Association Thursday night (Jan. 11) at Otis H. Braun House in Sanford. Area sportsmen have shown great interest in the formation of the organization.

This first official meeting will have Robert L. Joerg, territorial director of the National Rifle Association on hand as well as State Representative Eugene C. Mooney.

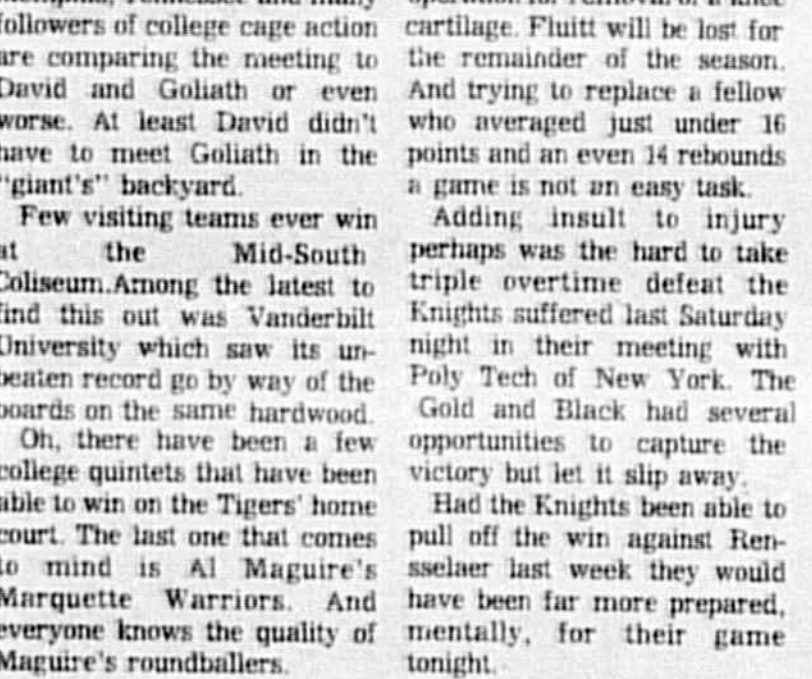

Representative Mooney will bring out items of wide interest regarding the possession of firearms by hunters and shooters. Joerg is in charge of all National Rifle Association activities in the South Eastern United States. He will show a movie on the efforts of the NRA to teach proper gun handling especially to children.

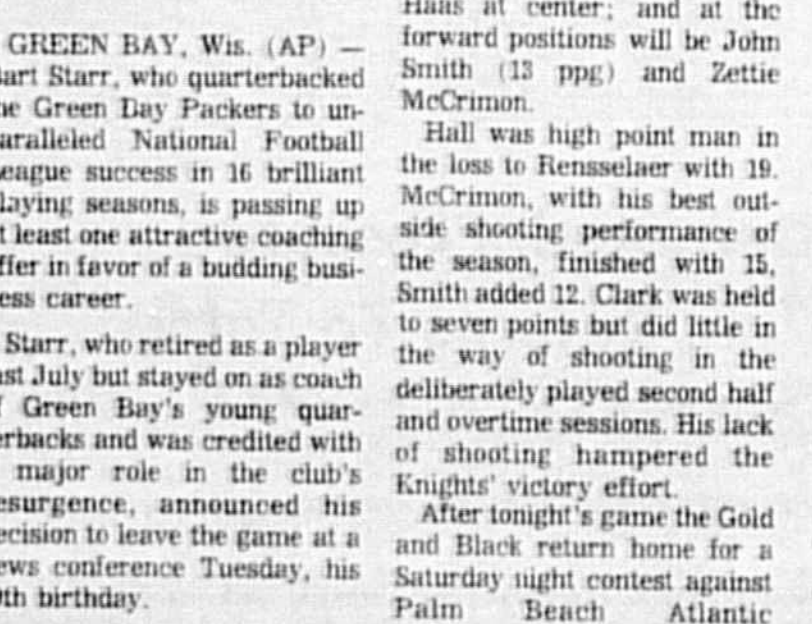

ALL THUMBS but still able to haul down this rebound is Winter Haven's Otis Burdick as Sanford's John Corso (30) makes valiant effort to get ball. Sanford lost its eighth game of the season last night, 88-65.

'Eyes' Warriors Pro Scout Bothers Al McGuire

By KEN HATPOSPORT
Associated Press Sports Writer

Al McGuire would prefer that his Marquette basketball team pay attention to him rather than Wayne Embury. He's really sensitive about it, fellow Warriors, it didn't come easy. Five of the Warrior contests have been decided by five points or less.

The victorious forward scored turnovers as Marquette tried to freeze the ball in the final four minutes and cut the margin to 78-75 on Paul Cohen's tip-in with 39 seconds left.

Len Sizmore scored 19 points and grabbed 17 rebounds to lead Maryland to its 14th straight victory, dating back to last season. The Terps scored to a 52-22 triumph over Virginia. "I think we came back a little tonight, there were signs of it," said Coach McGuire.

Couple Marries In Double Ring Ceremony

Julie Ganas, A.L. Aten Exchange Vows

MISS BOBBIE DARLIENE MASON

Miss Bobbie Mason, G.S. Stadthagen To Marry

Mrs. Doris Mason, 2004 Adams Ave., Sanford, is announcing the engagement and forthcoming marriage of her daughter, Miss Bobbie Darliene Mason, to Gregory Scott Stadthagen, son of Mr. and Mrs. H. Stadthagen, Chicago Falls, Minn.

Miss Julie Irene Ganas, daughter of Mr. and Mrs. E. F. Ganas, Banana Lake, Sanford, became the bride of Allen Leroy Aten II, son of Mr. and Mrs. Noel P. Hamilton of Longwood, Dec. 22 in the Rolling Hills Moravian Church, Longwood.

MR. AND MRS. ALLEN LEROY ATEN II (Bob Orwig Photo)

The groom's mother chose a rose chignon formal-length gown trimmed with lace at the neck and waistline with a double row of white camellias.

Her two-tiered chapel veil, outlined with lace, formed a train and was attached to a headpiece of bridal pearl with a Dur low trimmed with seed pearls in an intricate design.

Her only jewelry was a diamond engagement ring of her great-grandmother on a golden chain and she carried the delicate linen handkerchief used in her grandmother's wedding.

Mrs. Sharan Hedin, matron of honor and sister of the bride, wore a formal-length crimson velvet gown with a scooped neckline outlined with a double ruffle of lace which also terminated the long sleeves.

The gown of Miss Tina Aten, bridesmaid and sister of the groom, was identical to that of the matron of honor with the exception of the color, which was forest green.

Best man for the groom was Daniel Cannon, home on

Following the ceremony the reception was held in Fellowship Hall of the church. The bride's table was overlaid with white net embellished with doves and wedding bells over green satin. Crimson roses in a silver epergne flanked with tall tapers in two silver candelabra centered the table.

The Magnolia Circle of Sanford Garden Club is sponsoring a benefit card party Jan. 25 at the Garden Center on 17-92, from 10 a. m. to 4 p. m.

Mrs. V. M. Smith is general chairman. Tickets may be purchased from her or any member of the Magnolia Circle. There will be prizes for every table and you may play any game of your choice.

Reservations are preferred but not compulsory. For reservations or further information, call Mrs. Smith at (Geneva) 348-4337 or Mrs. Fred Harris (Sanford) 322-7866.

Proceeds will be added to the building fund.

well as the floral arrangements at the reception. Both are aunts of the bride.

Out-of-town guests were from New Jersey, Sarasota and Tampa.

For traveling Mrs. Aten chose a multi-colored full length gown with long sleeves and neckline trimmed with white collar and cuffs.

Following a wedding trip in Florida the couple are now at their home on Banana Lake.

Reservations are preferred but not compulsory. For reservations or further information, call Mrs. Smith at (Geneva) 348-4337 or Mrs. Fred Harris (Sanford) 322-7866.

Dear Abby

Force at four A.M. DEAR ABBY: My husband falls into bed dead tired without even kissing me goodnight. Then about 4 o'clock in the morning he wakes me up and forces himself on me without saying a word. After he has satisfied himself he turns over and goes to sleep. All the while I am lying there like a statue. Would you call this statutory rape?

CURIOUS IN FRISCO DEAR CURIOUS: No. It's more like STATIONARY rape.

DEAR ABBY: In one of your columns you told a girl it was all right for her to smile and wave at truck drivers. Thanks a lot! My husband is a truck driver and all he needs is good looking girls waving and smiling at him all day. He's a good-looking guy, and it doesn't take much to turn him on, and I'm proud of him. Maybe most people aren't aware of this, but 70 per cent of the food they eat and the clothes they wear are delivered by trucks.

DEAR THELMA: I'll watch it, Thelma.

DEAR ABBY: Never thought I'd be writing to Dear Abby, but after reading the letter from that young girl who asked if it was okay to smile and wave at truck drivers, I had to put in my 2 cents' worth.

DEAR ABBY: My daughter's husband thinks he is a man and insists on hanging his hands in less medicore "works of art" all over every lovely home.

DEAR DISGUSTED: If your daughter were to ask me how to tactfully tell her husband she doesn't want her walls covered with his "hideous pictures," I'd try to help her. In the meantime, it's HER house and HER problem.

Problem? You'll feel better if you get it off your chest. For a personal reply, write to Abby, Box 6970, N. L. A., Calif. 90008. Enclose stamped, self-addressed envelope, please.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abby, Box 8700, Los Angeles, Calif. 90008.

Forecast for Thursday, January 11, 1973

GENERAL TENDENCIES: The early morning is fine for making decisions and for getting ahead in the ways that are most vital to your welfare and happiness. The afternoon and evening are good for taking chances and it is then best to build up your health and vitality by taking treatment for your chronic ailments.

ARIES (Mar. 21 to Apr. 19) It is wise to handle important affairs in the morning since others are not so receptive after you meet with many delays. Make your plans early and follow through cleverly. Be firm and advance.

TAURUS (Apr. 20 to May 20) Make the right arrangements so that you can carry through with a special plan you have successfully. Don't expect to do your shopping. Keep an eye on your wallet or portfolio as you change your mind.

GEMINI (May 21 to June 21) Contact close ties and gain their cooperation for the plans you have. Avoid the social side for the time being. Concentrate only on the material side of life today. Think constructively and advance.

MOON CHILDREN (June 22 to July 21) If you contact an influential person you know, you get the right slant on how to become more successful. You can get the data you need confidentially. Use more cheerfulness at home tonight.

LEO (July 22 to Aug. 21) A higher-up can inspire you to get going on a new course of action that can be successful, so see this person early. Study carefully data given you in the evening.

VIRGO (Aug. 22 to Sept. 22) The morning is best time to get tasks completed that you started yesterday. Since co-workers are very cooperative. Your hunches are helpful during the day, but don't rely on them tonight. Be cheerful.

LIBRA (Sept. 23 to Oct. 22) The mid-morning is the best time to discuss with an associate how to improve a mutual project. Don't wait until the afternoon to do this when the aspects are not so good. Get cooperation early.

Highlights TV Time Previews

WEDNESDAY, JAN. 10, 1973 8:30-9:00 (NBC) — Adams-12, "Clear With a Civilian" (Part 1). Malloy and Reed discuss gun-wielding pedestrian and another man with a knife, but the big surprise is in store for them when they learn the identity of a woman driver they've given a ticket for making an illegal turn. Tune in next week, for the continuing saga of the mysterious woman.

8:30-9:00 (ABC) — The Paul Lynde Show, "Howie's Inheritance." Righteous Howie learns he has inherited \$10,000 but, much to his father-in-law's chagrin, he spurs it because his uncle who left him the money owned a firm which is a big polluter. Among other things, Paul confers with Howie's parents, then enlists a psychiatrist to aid to try to sway Howie. When Howie is about to change his mind, it's because he discovers the money can be put to humanitarian use.

9:00-9:30 (NBC) — NBC Wednesday Mystery Movie, "Banacek: Ten Thousand Dollars a Page." David Wayne plays a wheelchair-confined big industrialist whose valuable body disappears just before he's to display it at an exhibit. Banacek runs into complications with an uncooperative insurance investigator, but nevertheless solves the mystery.

9:00-9:30 (ABC) — The Paul Lynde Show, "Howie's Inheritance." Righteous Howie learns he has inherited \$10,000 but, much to his father-in-law's chagrin, he spurs it because his uncle who left him the money owned a firm which is a big polluter.

9:00-9:30 (NBC) — NBC Wednesday Mystery Movie, "Banacek: Ten Thousand Dollars a Page." David Wayne plays a wheelchair-confined big industrialist whose valuable body disappears just before he's to display it at an exhibit.

Past Presidents Honored At Woman's Club Luncheon

A covered dish luncheon honoring past presidents of the Sanford Woman's Club was held at the club house on Wednesday, Jan. 3.

The general business meeting followed with five of the past presidents who attended being presented with lovely gifts of corsages and corsages of camellias.

William Wray, Mrs. Burch Cornelius, Mrs. Art Brown, Mrs. L. Paul Whitley, Mrs. Arnold Williams and Mrs. Wilfred H. Conrad.

Camellias for the lovely table decorations and corsages were donated by Mrs. Jay Braden.

The following nominating committee was selected: Mrs. M. E. Smith, Mrs. Burch Cornelius, Mrs. W. B. Wray, Mrs. A. Hunt and Mrs. Kenneth Copeland.

Mr. and Mrs. Charles Stein, 636 Semoran Blvd., Winter Park, are announcing the birth of their first child, a daughter, Elysa Renee, who weighed in at a healthy seven pounds, 14 ounces, on Jan. 4, 1973.

Mrs. Marcia Lynn Goldstein, daughter of Mr. and Mrs. Jack Goldstein of Milledgeville, Ga. Paternal grandmother is Mrs. Doris Stein of Sanford.

Attention, please! Tell us your story. We welcome your news! Engagement and wedding forms, available at The Herald office, should be accompanied by a black and white glossy studio photo at least five days before desired publication date.

Coffee and dessert will be served. Tickets may be obtained by calling Mrs. David, 94-1866.

COOKING IS FUN AFTERNOON TEA NUT BALLS Orange and lemon add delightful flavor to a favorite recipe.

CHINESE SUPPER 1/2 cup butter 1/4 cup sugar 1 egg, separated 2 teaspoons grated orange rind 2 teaspoons fresh lemon juice 1/2 teaspoon vanilla 1 cup unsifted flour, stir well to aerate before measuring 1/2 cup (about) finely chopped walnuts

SUNDAY NIGHT SUPPER Clam Chowder Crackers Chef's Salad French Bread Pears with Ice Cream Quick and easy to prepare. 6 canned pear halves 1/2 cup syrup from pears Honey and nutmeg 1 1/2 pint vanilla ice cream

FAMILY SUPPER Rangoon Macaroni and Cheese Crisp Bacon Salad Bowl Fruit and Cookies Beverage BANQUET MACARONI AND CHEESE Easy to make just before eating. 8 ounces (2 cups) elbow macaroni 1/4 cup butter 2 cups (about 1 1/2 pound) grated processed cheddar cheese 1 small onion, finely grated (pulp and juice) Cook the macaroni according to package directions, turn into a colander to drain, return to clean cooking pot and add the remaining ingredients. Place over low heat and stir gently until butter and cheese melt. Serve at once. Makes 4 servings.

SNACK PARTY Cheese and Crackers Pastries Beverage From Dutch cuisine 1 tablespoon butter 2 tablespoons chopped onion 1 chicken bouillon cube dissolved in 1/2 cup hot water 1 cup finely chopped cooked chicken 1/4 cup finely chopped cooked shrimp 2 tablespoons chopped celery Pepper to taste 2 teaspoons cornstarch 1 tablespoon water Pastry, see below 1/4 cup (about) corn oil Melt butter in skillet over medium heat. Add onion and cook until tender. Add bouillon, chicken, shrimp, celery and pepper. Mix cornstarch and water until smooth and stir into chicken mixture. Bring to boil, stirring constantly, and boil 1 minute. Chill several hours or overnight. Cut Pastry into 3-inch rounds. Place filling in middle of round and fold over; seal edges with fork tines. Deep-fat fry, 1 layer at a time, in corn oil heated to 375 degrees until brown - about 3 minutes. Drain on absorbent paper. Makes 28.

Gelatin Dessert Is Fine Climax For Big Dinner

By SUSAN DELIGHT
Clay News Service

A molded light-as-a-feather gelatin dessert is a fitting climax for a heavy dinner. This type of dessert can be prepared well in advance of the meal, then unmolded just before serving time. It requires little or no cooking and very little preparation time. Unmolding need not pose a problem, just dip the mold into a bowl of warm water to the depth of its contents and run a small paring knife around the rim. Or lay a towel dipped in hot water over the bottom of mold for a short time, renewing until the gelatin is soft enough on bottom to leave the mold when inverted on a platter and shaken.

EGGNOG WREATH
1 envelope unflavored gelatin
1/4 cup sugar, divided
2 teaspoons salt
2 eggs, separated
1 1/2 cups milk
2 teaspoons rum extract
1/4 teaspoon nutmeg
1 cup heavy cream
Whipped cream
Angelica
Maraschino cherries

Mix together gelatin, 1/4 cup of the sugar and salt in medium saucepan. Beat together egg yolks and milk; stir into gelatin mixture. Place over low heat, stirring constantly, until mixture thickens slightly, about 1 minute. Remove from heat; stir in rum extract and nutmeg. Chill until mixture mounds slightly when dropped from a spoon. Beat egg whites until stiff, but not dry. Gradually add remaining 1/4 cup sugar and beat until very stiff. Fold into gelatin mixture. Whip 1 cup heavy cream; fold in. Turn into 8-cup mold; chill until firm. When ready to serve, unmold on serving platter. To make "wreath" top mold with spoonfuls of whipped cream and garnish with halved maraschino cherries and Angelica "holly leaves."

Yield: Six to eight servings. (Recipe may be doubled, if desired.)
Note: Commercial eggnog may be used. Sprinkle two envelopes unflavored gelatin evenly on 1/2 cup water in a medium saucepan to soften. Place over low heat, stirring constantly, until gelatin is dissolved. Remove from heat; stir in 2 1/2 cups commercial eggnog. Chill until mixture is the consistency of unbeaten egg whites. Fold in one cup heavy cream, whipped. Continue as directed in above recipe.

ORANGE MOUSSE DELLA ROBBIA
1 envelope unflavored gelatin
1/4 cup sugar, divided
1/2 teaspoon salt
2 eggs, separated
1/2 cup cold water
1 can (6 ounces) frozen orange juice concentrate, kept frozen
1 cup heavy cream, whipped
Orange sections
Maraschino cherries, halved

Mix gelatin, 1/4 cup sugar and salt in medium saucepan. Beat together egg yolks and water; stir into gelatin mixture. Place over low heat; stir constantly until gelatin dissolves and mixture thickens slightly, about five minutes. Remove from heat; add frozen orange juice concentrate and stir until melted. Mixture should mound slightly when dropped from spoon; if not, chill a few minutes. Beat egg whites until stiff but not dry.

SUNDAY NIGHT SUPPER
Waffles with Turkey Sauce
Salad Bowl
Fruit and Cookies Beverage
WAFFLES WITH TURKEY SAUCE

Good way to use leftover turkey:
1/4 cup butter or margarine
1/4 cup flour
1 teaspoon salt
2 cups milk
1 egg yolk, slightly beaten
2 cups diced cooked turkey
1 package (10 ounces) frozen waffles
1/2 cup toasted slivered almonds

Gradually add remaining 1/4 cup sugar and beat until very stiff. Fold into gelatin mixture. Fold in whipped cream.

Turn into five-cup mold. Chill until firm. Unmold. Garnish with orange sections and cherries. Serve with Cold Chocolate Sauce.

Chocolate Sauce (Note): Yield: Eight servings. (Note) Cold Chocolate Sauce

1 package (1 cup) semi-sweet chocolate morsels
1 1/4 cups

evaporated milk
1/4 cup light corn syrup
1 1/2 teaspoons vanilla

Combine semi-sweet chocolate morsels, evaporated milk and corn syrup in saucepan. Stir over medium heat until

chocolate melts and mixture is smooth. Remove from heat; stir in vanilla. Chill. Yield: Two cups.

Irish Ranked Highly For Hearty Food And Drink

According to the World Health Organization the Irish rank high on the list of well-fed peoples. This is probably due to the large agricultural

population and the plain but wholesome and cheerful food that Irish prepare so well. Irish soda bread, heather honey and stew are well

known all over the world. And so is Irish Coffee, with a Jig of fine Irish Whiskey in it. Irish whiskey is made from the same grains as Scotch but

is fuller-bodied and without a smoky flavor, a good heart-warmer for a cold Fall day. T. M. Coleman, director of Paddy's Irish Whiskey which

is distilled and bottled in the Republic of Ireland, describes his product as "smooth to the tongue, down-to-earth whiskey for down-to-earth people."

Coleman has an unusual family recipe for Irish coffee passed down for generations and a marvelous Irish chicken dish flamed in whiskey, fine for

company. Serves the chicken with Colemann, a delectable mixture the Irish make with buttered green potatoes.

COCK OF THE NORTH
3 lbs. cut up chicken with giblets
1/2 cup flour, salt and pepper
1/2 cup butter
1 lb. bacon, sliced
1/2 cup water
1/2 cup Paddy's Irish Whiskey
1/2 cup onion, sliced
1/2 cup celery
1/2 cup dry red wine
1/2 cup water
1 egg yolk
1 1/2 lbs. light cream

Apple Cake Snack

Next time you invite guests in for morning coffee, or refreshments after an evening of card games, serve them this Cranberry Apple Tea Cake. The tart-sweet flavor of the fresh red cranberries combines with apple slices for a flavor that will be pleasing to all at any time of day.

CRANBERRY APPLE TEA CAKE
(Makes 1 9" x 13" cake)
3 cups sifted all-purpose flour

1 1/2 teaspoons baking powder
1/2 teaspoon salt
1/2 teaspoon baking soda
1/2 cup vegetable shortening
1 1/2 cups sugar
2 eggs
1 1/2 cups mashed ripe bananas

1/2 cup milk
2 cups fresh cranberry sauce made according to directions on Ocean Spray fresh cranberry package
3 large cooking apples
1/2 cup sugar

Sift flour, baking powder, salt and baking soda together. Cream shortening and gradually beat in sugar. Add eggs, one at a time, beating well. Beat in ingredients alternately with bananas and milk, beginning and ending with dry ingredients. Pour batter into well-greased and floured 9"x13" pan. Spoon cranberry sauce evenly over top of batter. Peel and core apples and cut into 3/4-inch thick wedges. Put apples in rows over cranberry sauce and sprinkle with sugar. Bake in moderate oven 350° F. 50 to 60 minutes. Cut into squares and serve warm.

GOOD DINNER
Grilled Pork Chops and Sausages with Coddled Apples
Potatoes Green Beans
Salad Bowl Bread Tray
Coffee Jelly with Custard Sauce

CUDDLED APPLES
Our adaptation of a prize-winning recipe:
4 Golden Delicious apples
1/4 cup orange marmalade
1 tablespoon light brown sugar
1 tablespoon lemon juice
1 teaspoon vanilla

Cut apples in half. Core and peel. Sprinkle with sugar and lemon juice. Cook, covered, over very low heat without stirring until apples are soft through. Cool partly and sprinkle with vanilla, carefully folding it in. Serve warm or cold. Makes 4 to 6 servings de-

To Headline The Menu Turkey And Ham Are Excellent

By SUSAN DELIGHT
Copy News Service

Whether the holiday entrée was poultry or meat, there is a pretty good chance that it will make a second — or maybe more — appearance in post-holiday meals.

The second-time-around entrées can be just as impressive and tasty as the first-run headlines. They can even initiate company meals.

Any one of the entrées which follow are worthy of company status.

BROCCOLI 'N HAM
Two 10-2 packages cut broccoli frozen in cheese sauce.
6 hard-cooked eggs, quartered lengthwise.
2 cups diced ham.
One 10 1/2-oz. can condensed cheddar cheese soup.
1/2 cup milk.
1/4 cup butter, melted.
1/4 cup water.
2 cups herb-seasoned stuffing mix.

Cook broccoli according to package directions; spread in bottom of 9 x 12 x 1 1/2-inch bake and serve pan. Place eggs on broccoli; add ham. Combine soup and milk until smooth; pour over top of broccoli, eggs and ham. Bake in a preheated 400-degree oven for 15 minutes. Combine melted butter, water and stuffing mix; sprinkle over casserole. Bake an additional 15 minutes. Serves six to eight.

TURKEY CASSEROLE
(12 oz. package)

16 oz. (each) tomatoes
1 1/2 cups sliced carrots, 1/4-inch slices
1 can (10 1/2 oz.) cream of mushroom soup
1 can (10 1/2 oz.) cream of chicken soup
1 teaspoon seasoned salt
2 teaspoons dill weed
1/2 teaspoon fresh ground white pepper
1/2 teaspoon Dijon mustard
1 tablespoon capers

With Olive Bar B-Q Sauce Flavor Your Chuck Steak

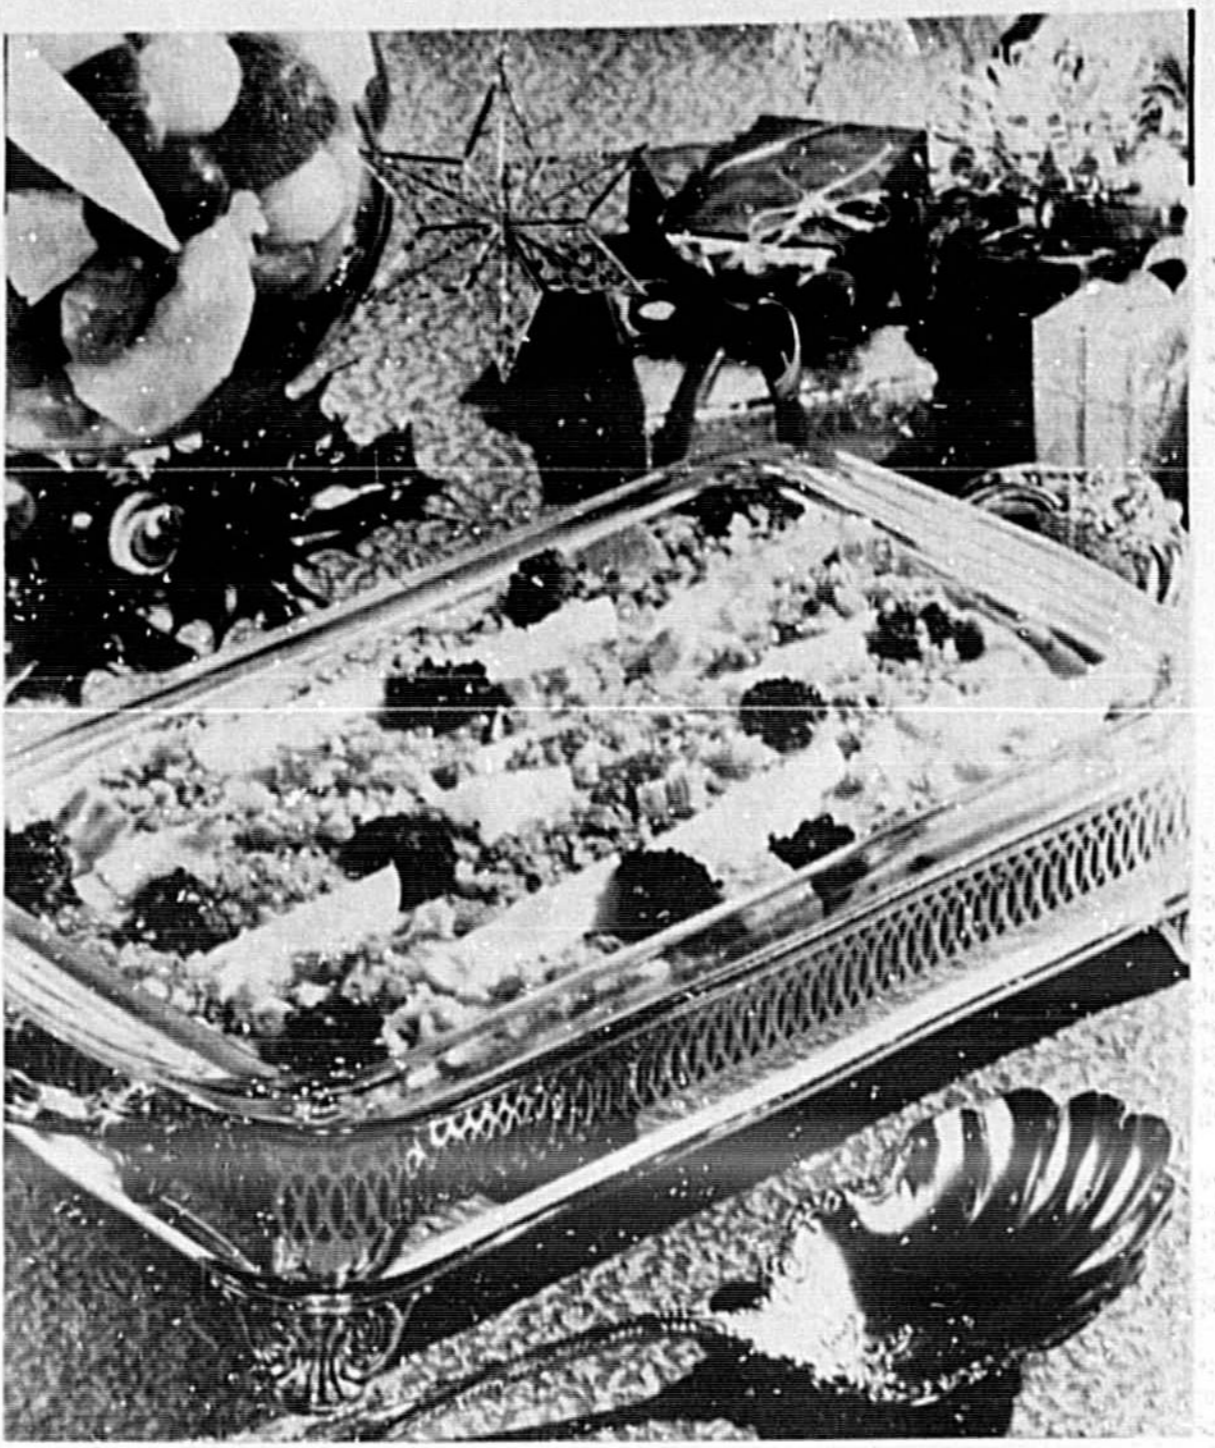

By CECILY BROWNSTONE
Associated Press Food Editor

Here's a main course that's blissfully easy to make and is good enough to serve to company. Thick chunk steak is baked in a generous amount of olive barbecue sauce and served with hot cooked rice. A green vegetable and a salad, or just one of these, complete the menu plus dessert.

One tip: Be careful when you remove the baked steak from the oven so the sauce doesn't run over. And we found that if there is steak and sauce left over, the meat (cut away from any bone) reheats beautifully in the sauce.

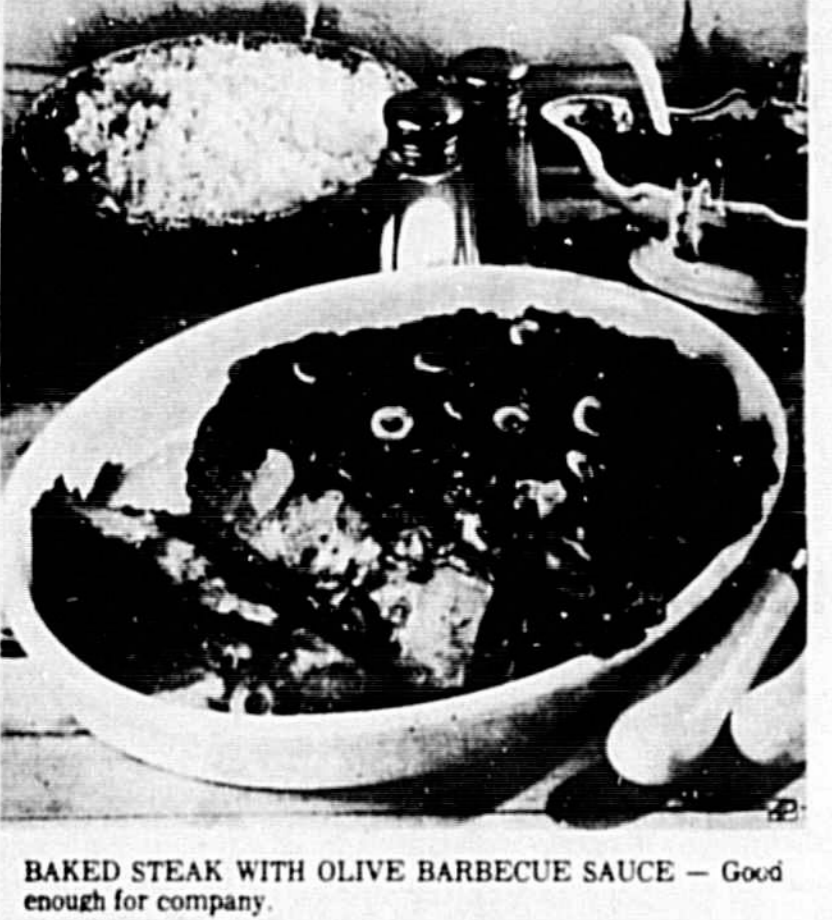

3 tablespoons Worcestershire sauce
1 1/2 cups catchup
1/8 teaspoon tobacco sauce
1 bay leaf
3/4 teaspoon coarsely ground black pepper
1 to 2 tablespoons sugar
1 medium onion, chopped
1 cup sliced pimiento-stuffed green olives
1/4 pound fresh mushrooms, sliced
Water
1 chuck steak (about 5 pounds) cut about 1 1/2 inches thick
3 tablespoons cornstarch

Combine noodles and turkey in large mixing bowl. Remove stems from mushrooms and stem in chicken bouillon for 15 minutes. Slice mushrooms caps and brown quickly with onions in butter. Add to noodles. Mix crumbs into remaining butter. Let stand until ready to use. Add chestnuts, green beans and tomatoes to noodles. Discard mushroom stems. Cook carrots in bouillon for no more than four minutes. They will still be crisp. Remove from bouillon. Add to noodles. Mix bouillon with soups and seasonings. Add to noodles. Mix well but carefully. Spoon into two shallow casseroles. Top with buttered crumbs. Bake for 40 minutes in a preheated 350 degree oven or until brown and bubbly. Yield: approximately 12 servings.

STILL A STAR --- Broccoli 'n Ham, a second time around entrée, can star with assurance at either a family or company meal.

BAKED STEAK WITH OLIVE BARBECUE SAUCE

TOPS from the BOTTOM

Are you looking for something out of the ordinary? The Florida Department of Natural Resources recommends Snapper Delmonico. This simply delicious recipe is easily prepared, high in nutrition and elegantly tempting. Seasoned with lemon juice, onion and hot pepper sauce, the rich full flavor of snapper is enhanced during baking. To complete this epicurean delight serve with whole cranberry sauce and garnish with parsley. For a flavor and color combination sure to make any meal seem like a holiday spectacular serve Snapper Delmonico tonight.

Snapper Delmonico
2 pounds snapper filets or other fish filets, fresh or frozen
3/4 cup butter or margarine, melted
2 tablespoons lemon juice
1 teaspoon grated onion
These frozen filets, skin fillets. Cut into serving-size portions and place in a well-greased baking dish, 12 1/2 x 2 inches. Combine butter, lemon juice, onion and seasonings; pour over fish. Bake in a moderate oven, 350 degrees F., for 25 to 30 minutes or until fish flakes easily when tested with a fork. Sprinkle with parsley and serve with cranberry sauce. Serves 6.

U.S. Bonds Sales Are Increased

Florida sales of Series E & H United States Savings Bonds in November were \$10.7 million — up \$1.2 million over November 1971. The state attained 112.1 percent of its 1972 sales goal November 30. Savings Bonds purchased by Florida residents during the eleven month period totaled \$124 million — up \$17.4 million over last year.

C.H. McNulty, Seminole County Volunteer Savings Bonds Chairman, reported that county residents purchased \$45,248 in Savings Bonds during November. The county reached 103.9 percent of its 1972 sales goal the end of November.

Is Aim Of Low-Fat Candies Protection For Your Health And Your Waistline

Candy making has always been a favorite pastime for long winter evenings. Try these tasty polysaturated candies — your family will love them and they'll be good for you, as well.

POLYUNSATURATED FUNDANT
One-third cup salt tub polysaturated margarine
One-third cup light corn syrup
1 teaspoon vanilla
1 teaspoon salt
1 pound confectioners' sugar, sifted

Whites in large bowl with electric mixer until stiff peaks form when beater is raised. Beating constantly at high speed, pour hot syrup in fine stream over egg whites. Beat in vanilla and orange extract. Continue beating until mixture begins to lose its gloss and a small amount of mixture holds its shape when dropped from spoon. (If mixture becomes too stiff for mixer, beat with wooden spoon.) Drop by teaspoonfuls onto waxed paper. Insert a nut half or candied cherry into center of each. Let stand until set. Makes about one pound.

OLD FASHIONED PEANUT BUTTER FUDGE
One-third cup soft tub polysaturated margarine
1/2 cup light corn syrup
3/4 cup (creamy or chunk) old-fashioned peanut butter
1 pound confectioners' sugar, sifted
1/4 cup chopped walnuts
1 teaspoon vanilla

Blend margarine, corn syrup, vanilla and salt. Add confectioners' sugar all at once and mix in, first with spoon, then kneading with hands. Turn out onto board and knead until mixture is well blended and smooth. Store in cool place. Shape as desired. Makes one and one-third pounds.

Bons Bons: Flavor and tint fondant as desired. Shape balls with nut piece in center. Roll in colored or white sugar, or in cocoa or multicolor sprinkles for decorating.

Filled Fruit or Nuts: Fill center of puffed prunes, dates or apricots with fondant or place fondant between nut halves. Roll in sugar.

DIVINY DRUMPS
2 1/2 cups sugar
1/2 cup water
1/2 cup light corn syrup
Walnut halves or candied cherries

1/4 teaspoon lemon extract
Into a heavy medium saucepan turn all the ingredients except the lemon extract. Cook over low heat, stirring constantly, until sugar is dissolved and mixture comes to a boil. Continue cooking, stirring occasionally, to 250 degrees on a candy thermometer or when a little of the mixture, dropped into very cold water, forms a stone firm ball. Continue cooking, stirring slowly but constantly, to 290 degrees on a candy thermometer or when a little of the mixture, dropped into very cold water, becomes hard and brittle. Remove from heat, add lemon extract, blending well. Pour quickly into a buttered pan (13 by 9 by 2 inches). Cut into irregular pieces. Makes 1 pound.

400 recipes are given in the illustrated "Cecily Brownstone's Associated Press Cookbook" available by sending \$4.95 (check or money order payable to "The Associated Press") to this newspaper in care of AP COOKBOOK, Box G4, Teaneck, N.J. 07666.

Molasses Taffy Called 'Crackin' Candy' Also

By CECILY BROWNSTONE
Associated Press Food Editor

A friend sent us some homemade candy that we had never tasted before. Curious about it, we asked for the recipe and here it is along with the donor's note about its origin:

"When I was a little girl growing up in Scranton, Pennsylvania a lot of our neighbors were immigrants from Wales and the women in these families loved to make candy. One of the most popular recipes was for a molasses taffy. After it had been poured into a pan and had set, it was cracked — usually with the good solid handle of an old-fashioned kitchen utensil — into irregular pieces. We children used to suck on it to get the full molasses flavor.

Because we were fascinated at seeing it hammered, not cut, we always called it 'crackin' candy'."

MOLASSES TAFFY
2 cups sugar
1/3 cup butter
1/4 cup light molasses
1/2 teaspoon baking soda
1/4 teaspoon salt
1/2 cup water

1/4 teaspoon lemon extract
Into a heavy medium saucepan turn all the ingredients except the lemon extract. Cook over low heat, stirring constantly, until sugar is dissolved and mixture comes to a boil. Continue cooking, stirring occasionally, to 250 degrees on a candy thermometer or when a little of the mixture, dropped into very cold water, forms a stone firm ball. Continue cooking, stirring slowly but constantly, to 290 degrees on a candy thermometer or when a little of the mixture, dropped into very cold water, becomes hard and brittle. Remove from heat, add lemon extract, blending well. Pour quickly into a buttered pan (13 by 9 by 2 inches). Cut into irregular pieces. Makes 1 pound.

MOLASSES TAFFY — It's cracked, not cut, into irregular pieces.

U.S. 'Icebox' North, South, East, West; Cold, Snow Chills Nation

By THE ASSOCIATED PRESS

Snow, freezing rain and sleet chilled the South from Texas to the Carolinas today while the North, from the Rockies to the Atlantic, remained in the grip of cold but mostly fair weather.

Six inches of snow was dumped on parts of north-central Texas during the night. Freezing rain and sleet hit south-central and southeastern Texas, sparing only the immediate coastal area.

Heavy-snow warnings were posted for north-central Texas. Ice-storm warnings were in effect as far south as San Antonio and Beaumont.

Travel advisories were issued for the central Gulf states, Louisiana, Arkansas, Mississippi and northern and central Alabama.

Rain and drizzle dampened southeast Georgia and Florida while freezing rain and sleet glazed coastal areas of the Carolinas.

The Far West had snow in the mountains of Washington, Nevada, Oregon and northern

Argentina Tornado Claims 46 Lives; 300 Injured

SAN JUSTO, Argentina (AP) — Rescue teams continued their search today for more victims of the tornado that cut like a giant scythe through this placid farm city.

Forty-six bodies had been found and at least 300 persons were injured. But the death toll was expected to rise.

The twister struck Wednesday afternoon and raged for 15 to 20 minutes, leaving in its wake a path of destruction 200 yards wide across the city of 50,000.

Communications and electricity were cut off and a heavy rain followed the tornado. Rescue teams had to bring in emergency generators and flood lamps.

Police headquarters became a temporary morgue. A dozen bodies of men, women and children were placed on the floor under blankets.

Cars were hoisted over like kites as the tornado roared in at 120 m.p.h. One auto was swept down a main avenue and flung through the wall of a downtown hotel.

An estimated 30 per cent of the buildings, mainly one and two-story homes and shops, were damaged or destroyed.

San Justo, a grain belt city 300 miles north of Buenos Aires, was isolated from the rest of the country for nearly two hours.

In one of the first reports that got out a ham radio operator said the storm "struck very hard and fast."

"Many people ran into the street just as the wind hit, trying to find some place secure," he said.

Church Thefts Reported

THE ARMY is about to streamline its command structure for the first time in 11 years. The plan is aimed at strengthening readiness and efficiency, trimming manpower and saving an estimated \$150 million to \$200 million a year.

THE DISPUTE building between President Nixon and Congress can be traced to the rule that an election victor's mandate is just what he says it is — for as long as he can make it stick.

THE BSE COMMANDER who refused to fly any more combat missions says he'd rather go to prison than face continued mass destruction and killing by bombing.

THE PARENTS of slain sniper Marl J. Essex say they blame society for their son's death and say the incident is "a clear signal for white America to get off the seat of its pants and do something."

THE SOLE SURVIVOR from the flight deck of an Eastern Airlines Tri Star jet that plunged into the Everglades killing 100 persons says he believes the cockpit crew did without ever knowing a crash was imminent.

THE DAY IT SNOWED IN ST. AUGUSTINE

Florida. An unscheduled stop of approximately 15 minutes permitted one and all to "touch the white stuff," including the construction of a snowman (located left-center in photo, just to the left and rear of the parking meter). This view is of the Old Slave Market, looking east towards the Bridge of Lions.

NEWS DIGEST

By John A. Spolski

Weather

Yesterday's high 55 with this morning 46 with 1.29 of an inch of rain. The extended outlook is partly cloudy. Quite cold north and central and cool extreme southern part of the state Saturday and Sunday.

Lows Saturday in the 30s with the highs in the low to mid 50s. Warm Sunday night and Monday with highs Monday mainly upper 60s.

Seven Televisions Taken

By GARY TAYLOR

Sanford Police Det. Sgt. Eddie Hughes is investigating the theft of seven portable color televisions from Penneys in the Sanford Plaza after someone apparently took a large section of concrete and threw it through a glass door to gain entry this morning.

Store officials discovered the theft shortly before 7 a.m. Det. Lt. William Lykens said the door was at the side of the building, facing U.S. 17-92.

Sheriff's deputies are also investigating several thefts. Clifton Shadron, of Rt. 1 Box 249, Oviedo, reported the theft of four guns, valued at \$445. He said Deputy Dave Zorian that the guns taken were a Browning automatic, a 22 magnum Marlin, a 22 automatic rifle and a Savage 20 gauge pump shotgun.

Joan Rudnicki, 22, of Apartment 19-D, St. Johns Village, Fern Park, reported the theft of a color television worth \$361, Margaret H. Crawford, Rt. 2 Box 4524, West Lake Brantley, told Deputy James Stanley that someone entered her residence and removed a color television worth \$350 and a portable sewing machine valued at \$130. She said earlier this week a 10-speed bicycle worth \$110 was taken.

Deputy L. M. Ford reported a hand saw worth \$50 taken from Raymond H. White, 2 West Steel Street, Orlando.

A Sanford man was arrested by the combined Seminole County-Sanford Police vice squad on charges of carrying a concealed firearm. Agents arrested Charles Metcalf Smith, 25, of 1324 1/2 Second Street, and lodged him in the county jail under \$5,000 bond. Around the county, law en-

March 13 Referendum School Board Asks 4 Mills

By BILL SCOTT

School Board Wednesday night voted to call for a March 13 millage election to ask county voters for a four mill tax to raise money for new school construction, as was first predicted in The Herald Tuesday.

The board action came after Seminole County School Supt. William Laker asked for approval of a resolution setting the millage election and an accompanying resolution, he asked the board to request the State Education Department to sell state bonds under provisions passed by the voters in August Four.

The two board actions are designed to bring in a grand total of just over \$11 million, most of which will be used to build seven new schools in the South Seminole area.

The millage referendum is needed, Laker said, in order for the voters to trigger a four mill tax to expire this year.

If approved, the levy would start next year and is designed to bring in an estimated \$12 million.

The sale of School Board Education (SBE) bonds would produce slightly over another \$5 million, when the bonds are sold by the state, thus approximately \$11 million total funding.

William Legg, school economist, told the board he had studied the population growth patterns and determined the total funds could construct seven new schools at various "pressure points" in South Seminole.

He cited these new middle school for K-3 grades at Tusawallow, four new elementary schools and a new high school on Dike Road near Tusawallow Road. The four new elementary schools would be built with two each on the east and west sides of 17-92, all in south county areas.

Walter Teague estimated at today's construction costs the total seven schools would cost approximately \$9.6 million. There is a possibility that the remaining \$1.3 million might go toward updating some of the delapidated Sanford schools, which according to the State School Survey report ought to be removed from service due to their condition, but this is uncertain until after a work session scheduled for next Wednesday night at 7:30 p.m. Board member Dave Sims suggested utilizing some of the \$1.3 million for additions to new Lake Brantley High School, but Laker advised "there must be some soul searching about renovating schools in the north end of the county."

Chairman Select Method Change Expected Tonight

By DONNA ESTES

The Shevin opinion says, "The phrase, 'at all times,' indicates that the meeting shall be open to the public and the media continuously during the period of the meeting. If at any time during the meeting the proceedings become covered, secret or not wholly exposed to the view and hearing of the public media, then that portion of the meetings becomes violative of the statutory requirement imposed by the phrase 'at all times.'"

At the Council's reorganizational meeting in January, 1972, at which time Councilman Eugene Jaques was named County Chairman by secret ballot, the city was either unaware of the Shevin opinion or chose to ignore it. At tonight's meeting, Jaques is to receive his oath of office as mayor while Burbon Ferrell and B. L. Helms are to be sworn in as councilmen and Mrs. Onnie Shemate is to begin her eighth consecutive term as city clerk.

On the agenda for the final meeting of the 1972 Council is action on the petition for an-

Bulletin

WASHINGTON (AP) — Watergate defendant E. Howard Hunt Jr. pleaded guilty for a second time today, and this time the government accepted his plea, removing him from the trial of seven men charged with burglarizing Democratic party headquarters. Earlier story on page 1B.
