Interstate Hi-Way System Pontential Gold Mine For Billboard Advertisers

tem means many things to many people. now earning their livelihood from the To the construction industry it means contracts and jobs. To the military it means that there is a possibility that there will be a network of good roads that could be, in cases of emergency, invaluable as a means to funnel people into billeting areas.

To the constant traveler it means a swifter, easier alleyway to zoom from one section of the state to another at breakneck speeds with no regard for the beauty of Fiorida's

tropica! countryside. And then, to the billboard advertising industry it means a potential gold minea vast mileage of roadside display area for outdoor signs. The billboard people are d and set against any federal control over the amount and placement of advertising alongside the new interstate highway system. Their well organized campaign in Congress threatens to prevent the passage of bills which would give the federal government some say as to the kind if advertising that would be permitted along these

ing 90 per cent of the cost. Interested citizens have been led to believe that no signs will be permitted along the new 300 foot right-of-way that will divide counties and cities as the roads are laid out "as the crow flies," from one "big

roadways for which federal funds are pay-

city" to another. If the billboard lobby is successful, advertising restrictions along the new interstate highways are likely to be weak and erratic where they exist at all. Highway travelers' instead of being able to see the wonderful panorama of the American countryside, will in many areas catch only glimpses of it strained through a sieve of exhortations to buy this or that productand "don't stop" until you reach this or

that city. Billhoards have become established, over many years, as a legitimate and accepted form of advertising. But billboard advertising along the nation's new road system should be subject to reasonable and fair regulations as to size, frequency and place-

ment of signs. And while the subject of interstate system biliboard signs is being discussedsome statements have been made relative to the location of filling stations, motels, restaurants, rest rooms, et cetera, along the

rights of ways of the much-discussed and controversial highway system. Thousands upon thousands of filling sta-

Freedom Of Speach

All Americans, whether they realize it or not, are daily beneficiaries of the constitutional freedom to speak and write as we please. Every one of us enjoy a better and more rewarding life because succeeding generations of Americans have cherished and strengthened this basic freedom.

To cherish and strengthen this freedom must be a continuing process; we cannot rest on the achievements of those who went before. It is in the light of this fact that one must consider the declaration on "Freedom to Write" now being circulated national being circ tionally among members of the Authors

League of America. The declaration was applauded by those There are indications that a big Peiping, the Chinese Communist governments individually must attending the first national assembly of China and Soviet Russia on the At that time, Man accepted an ples. the league in its forty-five years of ex-proper relationships tetween invitation from Cyranklewicz to Soviet leaders have reason to istance. Power Package for Going

You never before handled a car like this Buick!

CIAY you like to grip the wheel of a really nimble handler.

Say you like to push the treadle on a sweet and lively performer.

And say that along with this kind of going-you like your stopping neat, solid, and sure.

If such is the case, then this beauty comes giftwrapped for you.

package first class - with performance that's a joy, a thrill, pure pleasure all the way.

It's the 1957 Buick we're talking about-power

a car like this.

With its new 364-cubic-inch V8 - with its new instant Dynaflow - with its new brakes, new ride, new steering, new roadability, new everything-this one makes driving more wonderful than you've ever known it.

It's like silk. Like honey. Like a lark on the wing or an arrow on its way. It's like nothing else on 4 wheels.

So come try this dream car to drive. Even the good news on price will make you happy. See your Buick dealer today.

New Advanced Vertable Pitch Dyneffers is the only Dynafies Butch builds today. It is standard on Resident's Super and Contary-optional of modest extra root on the Special

Now from the world's most advanced refinery—

Greater AMOCO-GAS

Greater for every car...yet no increase in price!

A GAIN | new-car | compression ratios and their power needs have set record highs. And, again millions of motorists look to Amoco for maximum premium gasoline power without the use of lead. In response to the growing demand for America's only unleaded premium motor fuel, Amoco now announces the opening of the world's most modern, most advanced gasoline refinery at Yorktown, Vuginia.

Amoco's magnificent new Yorktown refinery and new facilities at the present great Texas City refinery make possible Greater Amoco-Gas . . . the highest natural octane gasoline in history, yet available at no increase in price!

Greater Amoco-Gas is the anly high-octane gasoline of its kind. Every other premium

gasoline, regardless of fancy color, fancy pump or fancy name, is actually a lowoctane gasoline artificially boosted to premium rating by lead. But lead docsn't burn! Instead, it leaves fouling deposits on spark plugs, pistons and valves . . . causes preignition and an ever-increasing thirst for more gasoline.

That's why only clear-white, unleaded Greater Amoco-Gas guarantees longer car life ... no lead fouling ... greater mileage per gallon than ever before possible... 100% power for every car on the road!

Amoco's modern Yorktown refinery is also responsible for other famous, high quality Amoco products including

American Gas — the Big Buy of all the Regulars!

By JAMES W. DOUTHAT WASHINGTON - The Congress

onal economy bloc has issued a new appeal for help from the voters in the crucial battle to slash the \$71.8 billion budget.

They are fearful that a letdown in demands from the people for economy will weaken the economy sentiment now prevailing in Congress.

The big spenders are using all of the tricks of the legislative trade to defeat the campaign on the verge of success - to make substantial cuts in the bud

They claim that government services will be crippled. But economy-bloc leaders say all budget proposals are padded.

Another trick of the big spenders is to promote defeatism - they say any cuts in appropriation bills will be "phony"

But leaders in the economy effort in defense of his budget. and will continue to be made in bloc leaders have been able to the future.
