No. 261.

Capt. Jackson Says SNAAS Only Master Heavy Attack Base

Captain Robert W. Jackson, Commanding Officer of the Sanford Naval Auxiliary Air Station, told the Seminole County Junior Chamber of Commerce today that the local air station is the "Master Heavy Attack Base" and the only one in the nation.

And then he pointed out that it is the only station that he knows of that doesn't have bus service from the adjacent city to the station's gates. "We don't have trouble getting the Navy men to town," he said, "but we do have trouble getting them back to the station at night."

Captain Jackson said, "There are many rumors running rampant that the Sanford Naval Auxiliary Air Station would be closed

again. I think I can bring you a brighter picture today."

"Every station has a Master Shore Station Master Plan, and we have one at the Sanford base," the Captain explained. And he commented further that "The Master Plan is a comprehensive study in tabular, narrative and graphic form which depicts the ultimate growth of the station. It is a planner's dream world. Upon these plans we have a well founded program for expansion."

Captain Jackson told the Jaycees, "Today, 12 years after the Sanford Naval Auxiliary Air Station was activated, we have the same physical layout and the same buildings with which the station started."

Humorously, he said, "Even the termite know each of us by name."

For practical construction and for future building, permanent buildings will be erected. Only the wartime structures will be temporary," said Captain Jackson.

"And our Master Plan," the Captain told the group, "includes permanent structures."

The SNAAS Commanding officer explained to the Jaycees and their guests the many offices and commands through which each request must be submitted when recommendations for future buildings and expansion are made. And then Captain Jackson said, "Congress considers each item and it is either approved or turned down and then allocated directly to the station and not through each military office through which the request was channeled."

The Sanford Naval Auxiliary Air Station has been favored twice since its reactivation. In 1953, Captain Jackson commented, authorization was received to expand the East-West runway to 8,000 feet to take care of the newer type planes.

We were favored once again with an appropriation of \$100,000 for housing.

"What we have planned for next year will be 23 projects," Captain Jackson emphasized. "Taken from our Master Plan, which for obvious reasons cannot be described," he added, "I don't think I'd be amiss to tell you our greatest need is for a large, huge hangar to take care of our squadrons." Captain Jackson remarked, "I'm sure that Congress will be looking at this for next year."

The Sanford Naval Auxiliary Air Station has been provided with limited funds with which to operate, and we try to get the most out of every dollar given to us." This operating fund, he said, is for the payroll, utilities, and the money is spent right here in Sanford. Our operating funds for this year, he said, are 14 per cent greater than last year."

Captain Jackson outlined for the Jaycees at their noon luncheon meeting today the proposed spending of \$100,000 for repairs and additions to the present structures and facilities at the local station. He explained that a \$10,000 advance fund has been received for the architectural planning for 40 by 100 Butler Type building to provide shop space for the squadrons stationed at the local base. "This indicates to me," he said, "that we'll get the rest of the money when plans are completed."

"The individual man in the Navy is the best weapons we have. For the welfare of these men we have received funds to provide greater recreation facilities at Golden Lake."

"I have every reason to believe that we will get more projects approved before next July," he added smiling, "we've asked for them."

"One expression of our expansion program is the monthly payroll. \$270,000 is distributed every month to the military and civilian personnel, which doesn't take checks received by dependent families and local banks for deposit to personal accounts."

Captain Jackson, summarizing his explanation of the station expansion program, told the Jaycees that the Sanford Naval Auxiliary Air Station is a \$9,000,000 plant and that "We do have an orderly expansion program." He explained that "I have every reason to believe that some major construction will be starting at the local station by July of 1957."

"We're delighted to be here in Sanford," Captain Jackson said as he concluded his informal talk.

He explained to the group that there are approximately 1,200 on-duty men and officers at the local station. And he concluded, "A good thermometer is when you see permanent structures getting underway. For all intents and purposes," he said, "We are a permanent station."

7th-Day Adventist Registration Set For School Year

Next Monday and Tuesday, Aug. 29 and 30, are registration days at the Sanford Seventh-day Adventist Elementary Church school located at Seventh St. and Elm Ave. Grades one through eight are being offered this year, whereas, last year only grades one through six were available to patrons of the church and community.

"Children and parents alike are looking forward with eagerness for the opening of the school on Sept. 6. They have a new school!" It was brought out by the Rev. W. J. Ostman.

A. H. Waterman, builder for the Florida Conference of Seventh-day Adventists who is in charge of construction, is pushing completion of the building in order to have the educational program ready by the opening date of school.

This new educational and welfare building is a two-room concrete-block structure of modern design with floor space of 1,876 feet. One room is to be used for a school room; the other room will serve as welfare center and recreational purposes.

This building, says the Rev. Ostman, is being made possible by contributions of members and friends.

Car Is Completely Destroyed By Fire

At 6:30 p.m. Tuesday a 1951 Cadillac Coupe DeVille was completely destroyed about one-half mile off highway 17-92 on State Road 419.

Owner of the car is Leslie Merle Foster, Oviedo.

The car had reportedly caught fire on the inside front and burned all the way back.

Three fire extinguishers and a water truck were used to try to save it.

Investigating were Ptlm. Carl Williams, Ptlm. T. Mark Mack; Deputy Sheriff Kubanka and the Forestry Service.

Grandfather Says Child Too Noisy; Girl Fatally Beaten

TEXAS CITY, Tex. (AP)—A 78-year-old man was charged with murder last night after beating his 9-year-old granddaughter to death with a hammer because "she was making too much noise."

Robert Wallace told Asst. Dist. Atty. A. A. Alexander and Police Chief O. C. Beard that he smashed Frances Jean Wallace's skull as she sat coloring pictures. He said she had been "singing and hollering" while he was trying to sleep. The child was struck some 20 times.

The parents, Mr. and Mrs. Glenn W. Wallace, were at work.

Relatives said the grandfather had been mentally depressed recently and had attempted suicide.

17-92 Four-Laning Is Stalemated Until Right-Of-Ways Are Cleared

Natural Gas Lines Are Nearer; Houston Firm Asks Permit

Newcomers Appear At Coffee Club's Morning Meeting

Newcomers and Chamber of Commerce members drank coffee and ate doughnuts this morning at the Seminole County Chamber of Commerce third "Coffee Club" program.

Program emcee Don Riba greeted the guests with president-elect George Touhy bringing the group up-to-date on Chamber activities during the past month.

Touhy said, "There isn't enough to be said about the 17-92 highway four-laning project and its importance to Seminole County. You can imagine the present road running off the bridge by-passing Sanford."

Touhy told the chamber members and guests that the "Coffee Club" idea is catching on with West Palm Beach and Lakeland following suit.

Sanford Naval Auxiliary Air Station's Commanding Officer, Captain Robert W. Jackson, said that "We're getting a great influx of new personnel at the station." He also reported that the monthly payroll averages approximately \$270,000 with additional amounts coming directly to families and dependents.

Captain John Blackburn, Commanding Officer of the 1st Wing, introduced by Captain Jackson, told the group that "We're happy to be here." And continuing, "I hope relations with the Navy in Sanford and Seminole County will continue to be as good as reported to me and will improve in the future."

Captain Blackburn added, "We will appreciate your tolerance with the noise problem which will be an increasing one in the future."

R. C. Friend Dies In Ormond Beach

ORMOND BEACH (AP)—Richard C. Friend, 81, investor and former employee of the U. S. Steel Corp., died yesterday. He lived here 16 years.

Friend had been superintendent of the forging department of the U. S. Steel at Pittsburgh Pa. and, while there, invented a safety wrench, which was named for him, and 49 other articles the corporation is still using.

\$110 Million Plan Eyed By Gas Firm

Dusky Boots Sets Gala Festivities For Labor Day Here

Approximately 125 horses will parade down First St. on Labor Day with members of the Dusky Boots Riding Club. The time for the event has been set at 10 a.m.

The parade will act as the lead-off for a slate of activities scheduled to run throughout the day and will be immediately followed by a fish fry at the Farmers' Auction Market.

At the Club's Arena at 2 p.m. a rodeo will get underway with calf roping, wild cow milking, greasy pig catching, and other events. Prizes will be awarded.

Starting at 8:30 will be a square dance at the Sanford Armory with music furnished by the Hoedowners. All proceeds of the dance will go to the Crippled Children's Home.

Included in the featured events are to be 25 mounted children organized into a drill team. They are from the Baimell Ranch in Indiana.

FATAL COLLISION
MIAMI (AP)—Mrs. James D. Cook, 19, was killed yesterday when her automobile collided with another at a street intersection.

Private Fish Ponds Will Be Restocked With Better Fish

Don Wiggins, soil conservationist for the Seminole Soil Conservation District reported his monthly activities to members of the board recently.

He said that "Three basic farm plans were worked out with John Higgins, H. H. Hunter, and J. C. Hutchings." In addition, he added in his report, "Two initial conservation plans were worked out with Jack Smith and E. M. Liles."

"The major portion of one week was spent," Wiggins told the board members, "in killing out private fish ponds. Ponds were killed out for O. C. Saban, Curtis Green, Glenn Norman, A. G. Frame, B. C. Dodd, and P. A. Dwyer, according to the report."

"Most of these ponds were out of balance and contained rough fish. The ponds will be properly restocked with bluegill, bream and black bass by the Seminole Soil Conservation District."

The report stated that "One pond, in the Geneva area, was sampled under the guidance of State Soil Conservation Service Biologist Howard Husland, and the results showed that the lake contained a large number of garfish and suckers and very few bream and bass."

The final item of the report made by Wiggins brought out that William West, secretary to the local district, has developed a good FFA television program dealing with conservation and will be presented at noon on Sept. 1."

'True Spirit' Test To Get Going Over

WASHINGTON (AP)—Secretary of State Dulles said today that East-West negotiations at the forthcoming Big Four foreign ministers meeting will put to the test the "true spirit" of amity developed at the summit conference at Geneva last month.

Dulles told newsmen that this was a point intended to be made in President Eisenhower's foreign policy speech before the American Bar Assn. at Philadelphia yesterday. Dulles said there was no new policy in the speech.

The secretary of state spoke with reporters before flying from Washington to New York where he will address the Council on Foreign Relations tomorrow.

CITRUS JUICE PLANT
PORT CANAVERAL (AP)—Fruit Industries Inc. of Bradenton signed a 10-year lease for 20 acres with the Canaveral Port Authority yesterday. It said the land will be used for a citrus juice plant and a bottling center.

Bombshell Explodes At Meet

Dial Unleashes Barrage Of Words

The Seminole County Chamber of Commerce Long Range Highway Planning Committee, headed by J. Paul Dial, was brought on its feet last night on all details completed by the plans for four-laning 17-92 from the Sanford City limits to the Orange County line.

Meeting with the 17-member committee last night were Road Board member William Dial of Orlando, District Engineer Ritchie Green and Assistant District Engineer C. A. Hendrick.

After Seminole County Commissioner Chairman John Metzger brought the members up to the minute on the county's work on the widening of right-of-way, information, Assistant District Engineer Hendrick told the group that deeds for parcels of property from the Fire Points intersection to the Orange County line will be completed next week.

Dial pointedly told the Chamber's Highway Planning Committee, "I'm a little bit confused on the 17-92 deal." Then he added, "I am surprised that there are Seminole County people who doubted that Orange County would not complete its end of 17-92."

Dial emphasized to the citizens' group that "all engineers in the Road Department in this District have 17-92 as their top project." He stated that, "There's never been any doubt as far as Orange County is concerned."

"We have a vital interest in these arterial highways, and quite frankly," he added, "there's \$800,000 in the budget for 17-92."

Commenting on the progress of preliminary work on the four-laning project Dial told the highway group, "Why it has taken all summer long to complete the abstracts, I don't know. It's a terrific job to get a Federal project planned, budgeted, approved and all details worked out."

And then, like a bombshell during the meeting, Dial fairly shouted, "I'm not sure you want this road!"

"I can tell you this," he said, "Unless the \$800,000 is spent on this road there is not another road in the county with a priority that this one has, and there are other places in the district that want additional money badly."

"Until you people get together and get this right of way completed, we can't do a thing," he added.

Dial warned, "Unless the people along the highway begin to realize that until they begin to consider this project a civic one and a lot of people begin giving priority to the right of way, it will never be completed. I haven't any sympathy with these people. If we don't spend the budgeted money on this highway this year, it will be charged against the district next year and we will be left with much longer getting the project completed."

To questions piled in Dial by Chairman Brainerd Odham and City Commissioner Earl Higgins, Dial said, "The fear expressed already is this—If money is spent on right-of-ways—how are you going to have money left for the connect-up?"

"It's going to take a civic drive to make the people along this route realize that it's their duty to assist," Dial related.

The bombshell in the meeting fell when Dial, listening to bated discussion among the committee members, spoke up and told the group, "If the right-of-way isn't solved, then it stands to reason that the road will necessitate a cheaper route from the bridge, by-passing Sanford." And he added, "Surveys have been made."

Dial pointed out to the group that he wasn't threatening the group, that the statement was mere fact. "We don't do business on the Road Board that way," he said.

James A. Wright, one of the leaders in the French Ave. project, told the group that "This road is much more valuable to Orange County than it is to Sanford. Orange County has got to exemplify and show that they want this road too." As an afterthought he added, "I'm not sure you want this road."

Jaycees Are Asked To Help Prepare For Fishing Rodeo

More than 600 fishing poles will be put in readiness tonight at the City Shops to be used by the children next Wednesday during the annual Jaycee Fishing Rodeo at Trout Pond.

Bob Kilpatrick, chairman for the event, said today, that poles, lines, lead sinkers, hooks, and floats will be renewed and put into tip-top shape so that youngsters will have every advantage in catching the biggest fish.

Fish are being trapped by the Game and Fresh Water Fish Commission to be used in restocking Trout Pond. Porter Lansing, local sports enthusiast, said that the fish will be larger this year than in the previous rodeos.

Numerous prizes are being planned and prepared for youngsters in each age group participating in the fishing event. Children 14 years old and younger are allowed to take part and will be given poles, lines, bait, and all paraphernalia necessary to catch the big ones. In addition, ice cream and cold drinks will be served to those participating in the Jaycee Fishing Rodeo.

Buses will operate on a regular schedule to pick up children in every area for the trek to Trout Pond next Wednesday afternoon. The number of buses, stops, and routes will be announced later, Kilpatrick said today.

Jaycees are urged to report tonight to the City Shops to help Ed Richard, in charge of preparing the poles, put the more than 600 cracker poles in readiness for next Wednesday. "It is a big task," Kilpatrick said today, "but we will get them all in readiness tonight."

Panel Discussion Scheduled At SHS

Friday morning Aug. 26 at 8:30 a.m. in Seminole High School a panel discussion will be held on the subject of "Better Schools for Children."

Devotions will be given by the Rev. Perry Stone of the First Christian Church.

The panel will consist of a moderator, D. E. Williams, three students representing senior, junior and elementary schools; two parents Mrs. Roy Mann and Mrs. Jimmy Pearson; a teacher, Mrs. Rachael Brinson, the SHS assistant principal, Andy Bracken and a legislator, Volle Williams Jr.

Howard Gordie will sing a solo as entertainment. Reports and announcements will also be made.

The public is invited to attend and especially parents who are interested in better schools for their children.

'John Wesley' Film To Be Shown Friday

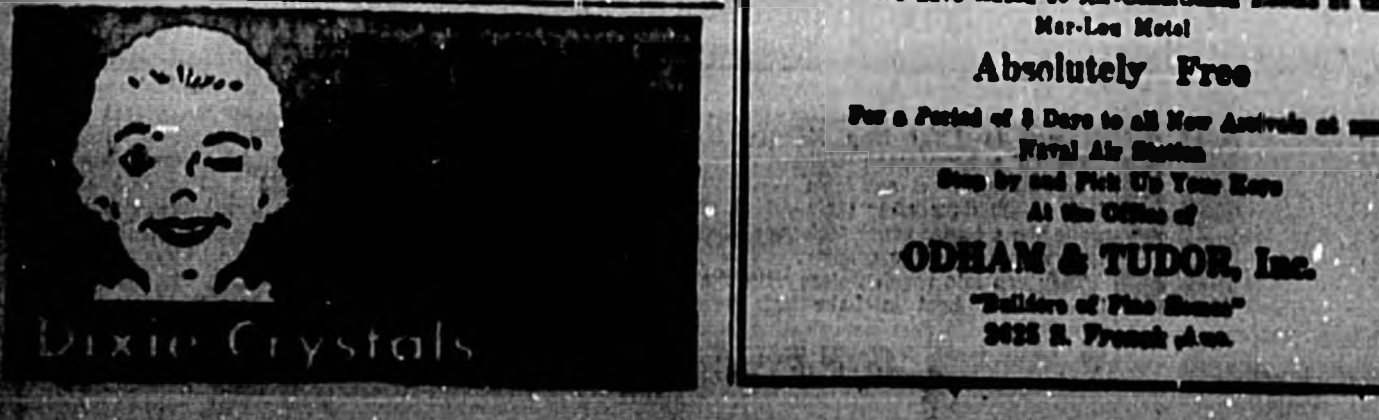

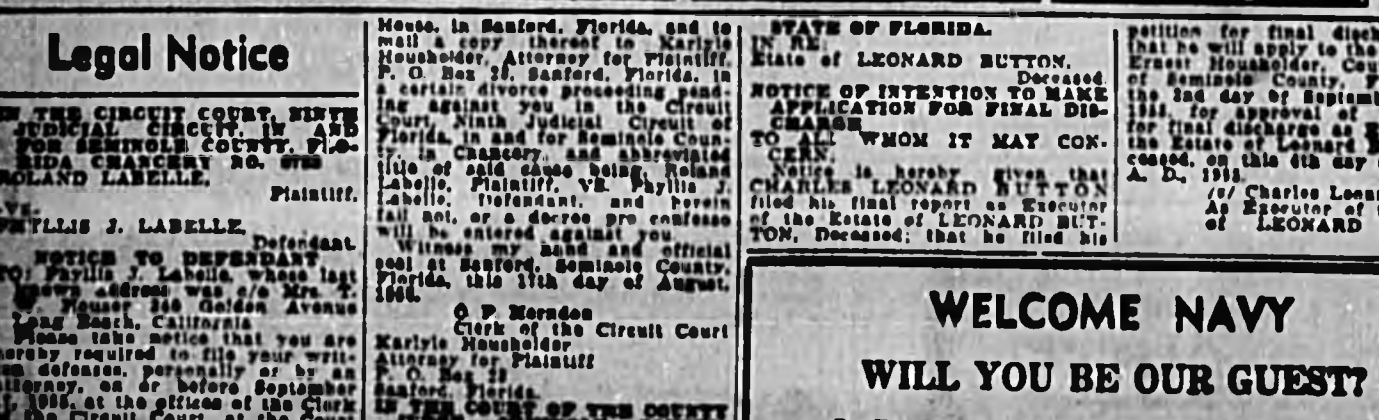

The motion picture "John Wesley" will be shown tomorrow at McKinley Hall at 7 and 8:30 p.m. All friends of the church are invited to attend, stated the Rev. Milton Wyatt.

The film deals with the life story of the founder of the Methodist Church. A free-will offering will be taken.

FORMAL WIVES FILED
TALLAHASSEE (AP)—Bryant of Marion County is the 7th legislator to file a formal waiver of expense and mileage allowances during the current session in the extraordinary reorganization session. Wives have been filed by 10 House members and two senators.

PRESIDENT-ELECT George Touhy greets Captain Robert W. Jackson and Captain John Blackburn at this morning's Chamber of Commerce Coffee Club. (Staff Photo)

THE MAIN STREET OF Winfield, Conn., is a mass of rubble (top) with concrete manhole columns (left) reaching up to the original street level. In foreground is a wrecked 1935 car, smashed beyond recognition. Martial law has been declared. In nearby Waterbury, a masked salvage worker (bottom, left) takes a breather in a similar scene of destruction that includes a house (background) that was swept a block from its foundation by the raging Naugatuck River. At right, Linda Synkiewicz, 6, receives a typhoid shot as the town fights to prevent disease from possibly-polluted water.

Optimism Halt Is Reported

NEW YORK (A)—The New York Times said today that the Eisenhower administration has reached a policy decision "to put a brake on the optimism created by the Big Four conference last month at Geneva."

That is the meaning of the speech President Eisenhower's speech before the American Bar Assn. at Philadelphia yesterday, said a Washington dispatch to the Times by James Reston.

The story noted that the speech emphasized that the "spirit of Geneva" is to be "genuine and not spurious," must not be used to justify the division of Germany, the enslavement of the satellites or the activities of subversive communism.

The story continued: Eisenhower's theme was agreed upon in the National Security Council after widespread indications that the "Geneva spirit" was being regarded in some Allied and neutral countries, not as a means to a general European settlement, but as an end in itself.

Accordingly, Eisenhower and Secretary of State Dulles decided that it was time for a public warning.

That warning was that the United States government regarded the more friendly attitude at Geneva as a first step toward the reunification of Germany, the extension of freedoms to the satellites and the abolition of anti-American propaganda by the Communist apparatus.

Officials Refuse To Give Comment While Under Oath

TAVARES (A)—Five children of Allen Platt were dropped from Mount Dora white schools because of suspicions they had Negro blood, three Lake County school officials said.

But the school officials refused to say under oath that they know the Platts are part Negro.

The testimony, taken at a closed hearing Aug. 10, was made public yesterday by Circuit Judge Truman G. Futch. Testimony was given by Kendall R. Jones, former school board member; C. A. Vaughn Jr., county superintendent, and D. D. Roseborough, Mount Dora principal.

Sheriff Willis V. McCall, who had recommended the Platt children be taken out of white schools but was not called to the hearing, told newsmen he was not sure of the Platts' race. He said he had information "because they asked the wrong parties."

McCall said "the evidence will be presented at the proper time to prove they have Negro blood."

Platt says his family is of Cherokee Indian and Irish-American descent and attended white schools in South Carolina. He is suing to force the school board to accept his children.

A letter to Roseborough from G. E. Brant, superintendent of schools at Holly Hill, S.C., introduced at the hearing, said the children attended an elementary

school for Croats. Children from this school are admitted to Holly Hill's white high school, Brant wrote.

He added: "They (Croats) do not associate with Negroes and become highly insulted if anyone suggests they are part Negro. I would rather think they are not. They live in a community to themselves."

He added: "They (Croats) do not associate with Negroes and become highly insulted if anyone suggests they are part Negro. I would rather think they are not. They live in a community to themselves."

He added: "They (Croats) do not associate with Negroes and become highly insulted if anyone suggests they are part Negro. I would rather think they are not. They live in a community to themselves."

He added: "They (Croats) do not associate with Negroes and become highly insulted if anyone suggests they are part Negro. I would rather think they are not. They live in a community to themselves."

He added: "They (Croats) do not associate with Negroes and become highly insulted if anyone suggests they are part Negro. I would rather think they are not. They live in a community to themselves."

He added: "They (Croats) do not associate with Negroes and become highly insulted if anyone suggests they are part Negro. I would rather think they are not. They live in a community to themselves."

He added: "They (Croats) do not associate with Negroes and become highly insulted if anyone suggests they are part Negro. I would rather think they are not. They live in a community to themselves."

He added: "They (Croats) do not associate with Negroes and become highly insulted if anyone suggests they are part Negro. I would rather think they are not. They live in a community to themselves."

A FRIEND leads Mrs. Agnes Elfr from the scene where her grandson, Richard Shamblin, 20, 6 foot three inches and weighing 200 pounds, was fatally shot by Deputy Sheriff H. W. Trail in Los Angeles. The shooting was touched off when Trail was sent to arrest the youth for violation of his three-year probation. The officer seized Shamblin without hesitating. According to the police, Shamblin took advantage of that. After three calls to halt and warning bullets over head, Trail shot the youth dead.

Arizona Farmer Reports On Tour

NEW YORK (A)—An Arizona farmer returned today from a tour of Russian agricultural areas and said that Russian farm production "is not up to ours either in quantity or quality."

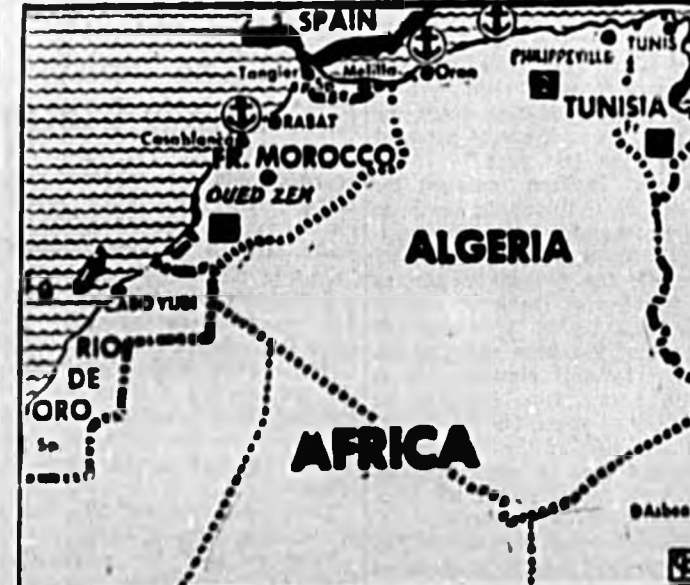

John M. Jacobs of Phoenix said, however, the Russians are doing a "pretty good job of cotton raising and about 35 per cent of it is mechanically picked."

Jacobs was one of a group of American farmers who spent six weeks in the Soviet Union.

GOVERNMENT TAKES OVER BOGOTA, Colombia (A)—President Gustavo Rojas Pinilla's government has announced it is taking over control of the price and distribution of newspaper.

A smoldering government feud with the press was climaxed two weeks ago when authorities slapped censorship on all newspapers in the country for criticizing handling of guerrillas in Tolima state.

SCENE OF N. AFRICAN VIOLENCE

THIS MAP shows where violence erupted in North Africa, leaving almost 1,000 revolutionaries and Frenchmen dead. The first outbreak in Tunisia (1) was soon quelled by French Legionnaires. The next violence occurred in Philippeville, Algeria (2), where 60 Frenchmen and 400 terrorists were killed. Hardest hit from the French standpoint was the small mining town of Oued Zem (3), where 4,000 Barber tribesmen came down from the hills shooting and burning the colonists. A meeting of Arab and French leaders was called in the French resort of Aix les Bains to seek a settlement.

First Official Faster-Than-Sound Flight Recorded

WASHINGTON, Aug. 24 (AP)—Air Force Col. Horace A. Hanes has been credited with the first official record for faster-than-sound flight.

The National Aeronautics Assn. yesterday confirmed that a North American F100C Super Sabre jet fighter piloted by Hanes topped 800 miles an hour last Saturday over southern California. Hanes' flight reportedly was made at 35,000 feet where the speed of sound is 660.

In recognition of his achievement, Col. Hanes, director of flight tests at an Air Force Base in California, will receive the Thompson trophy at the National Aircraft Show in Philadelphia next month.

Many jets previously had broken the sound barrier, but this was the first time special equipment was available to time the flight accurately.

CAROL GROWWALD, ten months old, of Hoboken, N. J., sips from her bottle after winning the 13th annual baby-crawling derby at Palisades Park, N. J. She covered the 60-foot straightaway course in 28.8 seconds, which is six seconds better than last year's winner. (International)

Spectacular Chase Ends In Tragedy For Fleeing Soldier

ISLAMORADA, Fla.—A spectacular chase at 100 miles an hour ended in the death of a fleeing soldier last night and blocked traffic on the Overseas Highway between Miami and Key West.

Hundreds of automobiles, buses and trucks were stranded on both sides of the Indian Key full bridge after a car driven by Pvt. John J. Vaccarella, 19, smashed into the draw as it started to rise to let a boat through.

Vaccarella, identified from a driver's license, lived at Union City, N. J., and was stationed at Camp Gordon, Ga. His body was badly mangled.

Florida Highway Patrolman

George Bennett said the chase began at a full moon near Key West when the soldier pulled in for gasoline and fled without paying for it.

Bennett was alerted and chased the car to a point near Marathon where Cpl. S. M. Walker joined in. Bennett said he and Walker pulled their cars alongside the fleeing soldier more than once and that the soldier "tried to wreck us by zigging all over the road."

Heavy beams were twisted out of shape by the crash and workers had to use acetylene torches to cut away the wreckage and remove the body.

Bennett said the automobile Vac-

carella was driving was reported stolen from Irvin Katz, principal of Miami Beach High School.

"LAST" EXTENSION

SINGAPORE (AP)—The Legislative Assembly today voted its "last" three-month extension of a state of emergency declared in 1948 to combat Communist subversion.

Assembly spokesmen said new "peace-time" laws aimed at controlling Communist activities in the British crown colony will be enacted at the end of the extension period.

However, the mainland Federal government of Malaya is continuing its state of emergency.

Southeast Farmers' School Bus Tragedy Deeper In Debt Toll Rises To 11

ATLANTA (AP)—Farmers in the Southeast are 30 million dollars deeper in debt this year than last, a Department of Commerce survey revealed today.

Farm mortgages in the seven state area have risen to \$657,363,000, third largest of any region in the United States.

A breakdown of the indebtedness showed Alabama mortgages rose from \$37,322,000 in 1954 to \$61,241,000 this year. In Florida, the debt went from \$28,334,000 to \$29,007,000. Georgia, \$83,103,000 to \$102,200,000.

House member Russell D. Moore, a graduate from Penn State Uni-

versity as an engineer.

Several others are still listed in serious condition at hospitals at Rockwood and Chattanooga. Ten were killed when the Rhea County bus taking 40 children from the Spring City elementary school to their homes, was struck Monday by a freight train just two blocks from the school at a cross-

ing.

Nashua is the fourth horse in the series to be killed by a train.

School Bells Ring Out Warning For Motorists To Be Careful

It's everywhere now! "Back to school" is being heard from every direction. What we don't hear is the important warning "It's time to be careful."

Children will be dashing across intersections, trying to reach school on time. The youngsters will be playing along the way, chasing one another with not a thought of automobile traffic and the dangers that lie therein.

It stands to reason that as the cry resounds... "Back to School"... motorists must take a little extra precaution wherever they might be.

Children are everywhere. Before school, during school hours, after school, and in the evening they are here, there and everywhere.

There's not a single motorist, who, after flitting about with untold energy, an accident, would not look back and say, "I just wish I had been more careful." It is before the accident that thoughts must be turned toward the dangers that lay ahead. Perhaps it is a group of children waiting

for a school bus, a group of children on the way home from school, a bicycle rider, a high school student on a motor scooter, from one side of town to the other, from one end of the county to another, children are everywhere.

This is the time to start practicing good driving habits. School warning signs are being renewed and repainted, school bus drivers are being given instructions, law enforcement officials are studying and pondering the problems ahead. The automobile driver can make the task of "safety for our children" much easier by starting now to obey all signs, regulations and traffic ordinances.

Don't let an accident slip up on you. Get the jump on trouble and stop before the accident happens.

Our school children are important. They are future citizens. We cannot afford to allow them to become involved in automobile accidents, injuries and deaths.

Drive carefully.

Fifteen more shopping days until school opens. And Sanford stores are crammed full of pre-school bargains.

A single rosebud transmits millions of words. A blossom is the conveyor of untold messages.

The Seminole High School Band is again slated to be one of the biggest and finest in the State this coming year.

Beautiful highways and approaches to any city are an asset to the State and its communities. It's a dismal feeling to find that ones work has been destroyed.

Vacation soon comes to an end. Children will go back to school and proud parents begin plans anew for next summer. Sanford merchants display their "back-to-school" apparel.

Try and Stop Me

By BENNETT CERF

IN THEIR FASCINATING BOOK about the pawn-broking business, "Hockshop," Mr. and Mrs. William Simpson tell how an ancestor from England founded the business in New York in 1822.

Expanding operations prompted him to send for two nephews to help run the show. Later two more nephews were impressed into service.

Thereafter, when any unfortunate turned up to hock a treasure, one of the nephews would inevitably conclude the bargaining by saying, "I'll have to ask Uncle." And that's how pawnbrokers came to be called "Uncle" all over the country.

A Memphis housewife tells of the day she brought home a modernistic new lampshade and opened it without warning on her poor husband, trying to read his evening paper. "How do you like it?" she cooed. The husband recoiled in horror. "You wear that contraption to church Sunday," he threatened, "and you go alone!"

HAE BOYLE

Small Newspaper Happy That Way

MARTHA'S VINEYARD, Mass.—If success lies in the art of seeing the world in a grain of sand, Henry Beetle Hough and his wife Betty are two of the most successful people in America.

Their "grain of sand" is this island resort, the birthplace of the U.S. whaling industry and now the summer home of many artist, intellectual and business notables.

In 1890, fresh out of Columbia University, Henry and Betty had to decide whether to seek fame and fortune in the big city or look for them in that hardest of all places to earn a living—a small town.

They chose the small town. In a shoestring venture they bought the Vineyard Gazette, a small, decrepit, 8-column weekly newspaper with a circulation of less than 500.

Thirty-five years later they still have the shoestring, and perhaps not too much more in the way of ready cash. But they have built the Gazette up to a circulation of 8,000—the island has only about 8,000 year-round residents—that is now world-wide. Its mailing list ranges from Tokyo to Trinidad.

Hough, a tall, balding, sensitive version of William Allen White with a New England accent, takes a quiet pride in his far-flung readership.

"Not long ago a professor wrote us that while traveling in India he found a copy of the Gazette

on a train seat," said Hough, "and a British aviator also came across a copy in the ruins of Tripoli."

The Gazette, affectionately nicknamed "The Thunderer," is issued from a weathered, gray-shingled house built in 1780.

Despite its nickname, the Gazette rarely lifts its voice. It takes a firm but reasonable stand on local crusades, leaves the latest news about the hydrogen bomb to other journals. Its gist is the small news of life in small towns everywhere—births, deaths, comings and goings, the changing seasons, fishermen's talk. Some readers far away find this endlessly fascinating.

There is little crime news. Hough has covered only two murder cases in 35 years.

"Before those," he remarked mildly, "there hadn't been a murder on the island in 100 years."

The biggest story of the year is the annual town meeting.

"We'll carry 7 to 10 columns on it," said Hough. "Every word said at a town meeting is important to our readers. A town meeting is the purest form of democracy and we try to record them exactly as they happen."

Both Henry and Betty dislike printing court cases in which bitterness often arises.

"After all, we are not writing about strangers but friends we meet every day," said Hough. But whether a court case embar-

asses a poor Portuguese fisherman or a wealthy advertiser, the Gazette carries it as a matter of policy.

"Once a man threatened to shoot the editor and another time a fellow said he was coming down with a razor," said Betty. "But actually few people seem to want to kill the editor, although"—she smiled over at her husband—"I suspect many would like to kick him."

Both Henry and Betty have given up any dream of wealth they had. "You just don't make money running a country newspaper," said Henry. "You have to settle for the 45-cent plate of spaghetti instead of the \$2.50 steak."

U. S., Red China Can't Hit Treaty

GENEVA (AP)—The United States and Communist China failed again to agree on a formula for freeing 41 Americans detained on the Chinese mainland.

U. S. Alexis Johnson, U. S. Ambassador to Prague, and Wang Ping-nan, Red China's envoy in Warsaw, met for two hours and five minutes in the Palace of Nations. They emerged to announce only that another meeting would be held Saturday.

Bin Steel Magnate Dies In Germany

HEIDELBERG, Germany, (AP)—Dr. Hermann Roehling, greatest steel magnate in the rich Saar valley, died at a hospital last night after a long illness. He was 81.

He was formerly general director of the Roehling iron and steel works at Voelklingen and head of a German family which dominated the Saar's heavy industry for generations.

The Roehling family was ousted from its holdings in 1945, when

American troops turned the Saar over to France.

LEAVES FOR HOME

WASHINGTON (AP)—Sen. Lyndon Johnson, the Senate Democratic leader, left by air for his home in Texas today.

He has made a rapid recovery from the heart attack he suffered July 2. He planned to spend most of the autumn at his Johnson City, Tex., home and return to his Senate duties next January.

YOU'RE TELLING ME!

By MOY KING
Central Press Writer

NEWEST thing in the fashion world is yarn and thread that reflects light, for making fabric glow in the dark. That's so you can go home lit.

The FBI is worried about possibilities of racketeers infiltrating the bomb shelter business. Those fellows have a way of making people feel the need of that kind of shelter.

The government took over a Cleveland conserving firm's machinery for taxes. Now who's going to dig up the money?

A Soviet scientist said at Geneva: "The launching of an artificial satellite to circle the earth is being prepared in the Soviet

Union." Those Communists will try to get around anything.

The government says the Commodity Credit Corporation made a deal which gave chessmasters nearly \$5,000,000 in windfall profits. Is sure gold standard when chess is involved in a windfall.

The Commodity Credit attorney says the chess was bought and sold at a price differential to keep dollar prices from shooting. So, surely you can do chess business in areas as well as in cash.

Mary Truman said she was going to "tear into the Republicans with their own ammunition." Well, they do have a mighty big gun.

Summer Insect Pests

By NORMAN H. BURGESS, D.D.

WHAT is the worst summer-time pest? That's easy, it is the mosquito. I don't think many of you will agree with me when I say that. From what all our readers' letters tell me, the mosquito is the worst pest of all. It is the one that keeps us up at night and makes us miserable.

So, how do we get rid of it? The answer is simple. We must use mosquito coils, mosquito candles, mosquito incense, and mosquito spray. These will keep the mosquitoes away from us and our families.

Remember, though, that these products are not for use in bedrooms. They are for use in living rooms, dining rooms, and other areas where you can leave the room if necessary.

Remember, though, that these products are not for use in bedrooms. They are for use in living rooms, dining rooms, and other areas where you can leave the room if necessary.

Last-Minute Attack Is Too Late For Win

THE SANFORD HERALD
Page 6 Thurs. Aug. 25, 1955

Parker Breathes Easier

MOBILE, Ala. (U-P)—Coach Buddy Parker of the Detroit Lions, worried over star quarterback Bobby Layne's injuries, breathed easier today after watching Harry Gilmer run and pass his team to a 17-14 exhibition over the Washington Redskins.

Gilmer, former University of Alabama tailback, completed a pass to rookie Dave Middleton from Auburn for a 35-yard touchdown in the first quarter of last night's game, and ran around right end from the four for a third-quarter score.

A 27-yard punt return by Middleton and a 26-yard pass from Gilmer to Jug Girard set up the third period score.

Washington's two sub-quarterbacks, Al Dorow and Ralph Guglielmi, accounted for one touchdown each. Dorow, who played most of the first three quarters, led the Redskins to the seven and then passed to Norb Hecker in the end zone in the first quarter.

Guglielmi scored in the final two minutes of the game on a 8-yard dash. He had completed a 28-yard pass to end Johnny Carson three plays before.

Doak Walker booted a 45-yard field goal early in the first period. Gilmer picked up 180 yards by completing 13 of 21 passes.

Layne returned to Detroit yesterday for treatment of an old shoulder injury which has given him more trouble this year than previously.

Washington Coach Joe Kuharich let his No. 1 quarterback, Eddie LeBaron, sit out the game so the coach could watch Dorow and Guglielmi perform.

Comfortable Lead Slowly Diminishes

By THE ASSOCIATED PRESS
Jenny Birmingham, 16, back to the wall after blowing most of a comfortable Southern team lead, awaited the troublesome Mobile Bears today and hoped for a swift recovery by the slumping Baron hitters.

Birmingham scored only six runs in 37 innings against the Memphis Chicks as the young club saw all but half a game of its 34 game lead destroyed by the rampaging Tribes. Last night Chick left-hander Tom Flanagan held the Bears to a lone tally, a home run by Hal Grose, as Memphis scored a 5-1 triumph.

Chattanooga cemented its third place rating by tripping New Orleans 5-2. Little Rock blanked Atlanta 5-0 in the first game of a twin bill, but the Travelers bowed to the Crackers 4-3 in the nightcap. Mobile and Nashville were not scheduled.

First Woman Wins Rifle Championship

CAMP PERRY, Ohio (U-P)—A woman won the National Small Bore Rifle Championship Wednesday for the first time in history.

Mrs. Viola Pollam, a 48-year-old dress shop operator from Brookville, Pa., missed only 10 bullets in 600 shots to beat a field of 300.

MEMPHIS, Tenn. (U-P)—The East, staving off a desperate last-minute aerial attack, defeated the West 20-14 last night in the seventh annual "All-American" high school football game.

The West, hungry for victory after five defeats and one tie in the series, scored first on an 18-yard pass in the first quarter. Quarterback Vince Mathews, Houston, Tex., hit G. B. Albrook, Galveston, Tex., for the score.

Bob Lohr, Sikeson, Mo., converted to give the West a temporary lead.

A pass interception by Gene Littleton, Moultrie, Ga., set up the East's first score early in the second period. Halfback Nicholas Pletrosante, Ansonia, Conn., bulldozed over from the one four plays later.

Later in the quarter East quarterback Bobby Jackson, Mobile, Ala., connected on a beautiful 19-yard pass to Bobby Craven, Owensboro, Ky., for the East's second touchdown. Dave Sington, Birmingham, Ala., tackled, kicked the point to make the score 13-7.

A recovered fumble on the West 30 gave the East its last scoring opportunity. Quarterback Jackson scored on a 20-yard keep play in the third quarter.

Washington's two sub-quarterbacks, Al Dorow and Ralph Guglielmi, accounted for one touchdown each. Dorow, who played most of the first three quarters, led the Redskins to the seven and then passed to Norb Hecker in the end zone in the first quarter.

Guglielmi scored in the final two minutes of the game on a 8-yard dash. He had completed a 28-yard pass to end Johnny Carson three plays before.

Doak Walker booted a 45-yard field goal early in the first period. Gilmer picked up 180 yards by completing 13 of 21 passes.

Layne returned to Detroit yesterday for treatment of an old shoulder injury which has given him more trouble this year than previously.

Washington Coach Joe Kuharich let his No. 1 quarterback, Eddie LeBaron, sit out the game so the coach could watch Dorow and Guglielmi perform.

MAJOR ACCOMPLISHMENT By Alan Mayer

Gator Newcomers Get Load Of Responsibility

GAINESVILLE—A lot of responsibility will fall to a pair of sophomore tackles from Miami—Charles Mitchell and Don Hicks—during the 1955 season, a time of great need for experienced help at that position for Florida's Gators.

With the loss of four lettermen tackles through graduation, returning lettermen Buster Hill, also of Miami, and Larry Wesley, Fernandina, will need considerable help if the Florida team is to stand up under a rugged schedule.

Considered most promising of the varsity-bound members of last year's freshman squad are Mitchell and Hicks.

Members of the Florida coaching staff feel that Mitchell is probably the best lineman prospect coming up from the freshman team this year. Hicks, too, is held in high esteem by Coach Woodruff and his staff.

Mitchell, who stands six feet and weighs 208 pounds, is considered a good blocker, can use his hands well, has agility, and is smart. He has a football sense that comes from a natural ability, and therefore is quick to react to playing situations.

Hicks, six feet five and 245 pounds, is exceedingly strong and hard to move from his post. He moves well defensively and can block. The coaches say he "takes well to coaching," implying that he is learning fast and has promising future with the Gators.

Hicks and Mitchell were teammates on Miami Edison's state championship team of 1952, and both were named All-City.

Don, who is the son of Henry S. Hicks, 626 N. W. 42 Terrace, Miami, plans to study civil engineering at Florida, while Charles, son of Mrs. Thelma M. Kelly, 3445 Kerwood, Indianapolis, Ind., will study business administration.

Quarterback newcomers
Another pair of newcomers to the Florida varsity this season will be quarterback candidates Jon May, Chipley, and Don Schmidt, Grosse Point, Mich.

Lending their support to lettermen Bobby Lance and Richard Allen, both Schmidt and May are considered to be among the leading quarterback candidates on the team.

May, who was selected to All-Northwest Conference in 1952 and 1953 as member of Washington County High's team, stands six feet two and weighs 185 pounds.

He quarterbacked the winning team in the Annual Orange and Blue Intraquad game at the end of spring drills this year, contributing one long run and throwing the winning touchdown pass.

Schmidt, six feet tall and 185 pounds, was an all-round athlete for Grosse Point High, playing quarterback on offense and guard on defense in football. He won all-state honors in basketball and played infield for the baseball team.

Cardinals At Daytona Tonite In Attempt To Even Up Score

By THE ASSOCIATED PRESS
The pesky clincher for the Florida State League title eluded the Orlando Flyers last night but they will try again tonight against Gainesville, the only team that can keep them from taking the second half bunting alongside that for the first half.

The Flyers put their 22-game winner, Alex Gorday, on the mound last night and he tossed a seven-hitter. But Gainesville slipped across an unearned run in the first inning and an earned one in the fourth for a 2-1 victory. Norman Hughes permitted only eight well spaced Orlando hits to the disappointment of an Orlando crowd of 498.

Daytona Beach and Cocoa held their positions in the first division with lopsided victories, Daytona Beach beating Sanford 20-4 and Cocoa whipping Lakeland 14-0. St. Petersburg took sixth place away from West Palm Beach by beating the Braves 4-3.

Bob Arendt became a 20-game winner for the Daytona Beach Islanders on a six-hitter. His mates made it easy with a 25-hit attack on three Sanford pitchers. Dan Keith had five of them, a home run, two doubles and two singles.

Cocoa's Joe Drach blanked Lakeland on five hits and the Indians backed him with three four-run innings. Jerry Cline led Cocoa's 14-hit attack with a homer and single, driving in five runs. A crowd of 975 ran Cocoa's season attendance past 33,000 for an all-time high.

St. Petersburg won on Lenny Pecou's homer with one on in the top of the ninth and a bit of luck in the bottom of the ninth. West Palm Beach pinch hitter Warren Kilmer's grounder, headed for a base hit, struck a base runner.

Horsemen Compete For Big Stakes

MIAMI (U-P)—Horsemen will compete for two million dollars in purses and stakes money during the 1956 race meeting at Hialeah Park.

President Eugene Mori said yesterday the track will distribute \$510,000 in added money—the same figure as in 1955—and the remainder will be in overnight purses for the 40-day meeting Jan. 17 through March 2.

One-Hitters Mark Softball Tourney

OCALA (U-P)—A pair of one-hitters marked the State Softball Tournament last night with Pensacola Flyers defeating the Gainesville Gators 1-0 and Tampa Silver Bar whipping the Fort Lauderdale Hardriders by the same score.

Pensacola meets Tampa and Gainesville Fort Lauderdale tomorrow night.

"B" squad while waiting out a season of ineptitude because of the transfer rule.

Jon is the son of Mr. and Mrs. Sam D. May of Chipley, and Don is the son of Ottmar E. Schmidt of Grosse Point.

'Speaker Predicts Changes In Opinion

TALLAHASSEE (AP)—A crumbling of the Senate majority bloc is predicted by House Speaker David when the Legislature returns Sept. 26 from its long recess. "I believe two or more of the senators will change their positions through local pressure," David said in an interview.

The Legislature spent 65 days in fruitless attempts to reapportion the 34 state senatorial districts before it recessed Aug. 10. The 20-man Senate majority stood firm against any redistricting plan which would create new senatorial districts for more than Bay and Monroe counties.

The Senate minority, House majority and Gov. Collins have been insisting that Manatee and Sarasota as well must get a senator each.

Leaders Say France Is Using Borrowed U. S. Helicopters

WASHINGTON (AP)—Government officials said today France is using eight borrowed U. S. helicopters in combatting insurgents in North Africa.

Walter Reuther, head of the CIO, protested against the use of the Air Force machines as inconsistent with this nation's outspoken opposition to colonialism. The State Department had no immediate comment on the protest by Reuther, who said in a statement that "direct military aid" to the French in North Africa makes the U. S. appear "as the main support of French colonialism."

France ordered some helicopters earlier this summer from U. S. manufacturers. France also requested and got a loan of eight helicopters pending delivery of those on order.

The French request posed a critical problem to U. S. officials. The decision was based on grounds it would be impossible to deny such a request from an ally experiencing difficulties within its own territories.

British Gates Are Opened To Soviets

HARWELL, England (AP)—Britain opened the gates of its top secret atomic center today to Soviet scientists.

Fifteen Russian physicists were among other foreign scientists flown into the closely guarded research station from Geneva for an inspection tour.

"They will be shown as much as possible within the bounds of security," a spokesman said.

Invitations for the visit were extended at the 70-nation Geneva conference. There were 100 acceptances.

CHARLES J. HAGAN, of Cedar Falls, Iowa, poses in his newsworthy "atomic" suit in New York. Hagan and 11 other American farmers returned from a month-long agricultural tour of the Soviet Union. Hagan said American farms require 30 times as much fertilizer per acre as those in America, but the yield is less. He added, while the Reds use more workers, "our land is more productive." LAKELAND, FLA.—Coming off the way from McQueen, Texas is Joe Mueller who will try to break the present jumping record of 116 feet, held by Alfredo Mendon of Cypress Gardens, in the jumping event of the National Ski Tournament being held Sunday at Lakeland.

Austria's Doctors March In Protest Of Planned Law

VIENNA, Austria (AP)—Austria's 13,000 doctors and dentists began a two-day nationwide strike today.

The doctors refused treatment to all but emergency cases and 200 white-clad physicians marched through Vienna's streets in a protest demonstration.

The strike was called by Austria's Medical Assn. in protest against a planned draft law which they claim will threaten their independence.

The draft law provides national health insurance for the entire population, instead of only to persons employed. The doctors maintain that the law would limit their private practices and leave them at the mercy of the state-run health insurance companies.

Youth Said Cause Of Orlando Blaze

ORLANDO (AP)—Fire Chief Paul Pennington said yesterday a mentally retarded boy of 16 admitted setting the fire which did \$75,000 damage at Louis L. Jacob Inc. citrus packing house Saturday.

The boy, who could give no reason for his act of lighting a piece of paper and throwing it into the building, has been turned over to juvenile authorities, the chief said.

Authorities Reveal Remorino Resigns Argentine Job

BUENOS AIRES (AP)—Authorities said today that Jeronimo Remorino has resigned as Argentina's minister of foreign affairs and worship.

Remorino has been in poor health for several years and now is under treatment in a Buenos Aires hospital.

The same sources said Hilefonso Felix Cavagna Martinez will be named to succeed Remorino.

Cavagna Martinez, holding the rank of ambassador, has been head of a mission trying to create an economic union of Argentina and its neighbors, especially Chile, Ecuador, Bolivia and Paraguay.

Another change in President Juan D. Peron's government was predicted today by unofficial sources who said Peron has decided to give control of internal security forces to Gen. Felix Maria Robles.

Harman Wehmeler, Philadelphia Phillies pitcher, likes to hurl against the Pittsburgh Pirates. He has won 16 of his last 17 starts against the Huccs.

SECRETARY OF AGRICULTURE Ezra Taft Benson (left), is shown presenting a picture of his family to Vladimir Matskevich, the First Deputy Minister of Agriculture for Russia, as the 12-man Soviet farm delegation visited Benson in Washington. The Reds have made a 20,000-mile, 12-state fact-finding tour of Western and Mid-Western farming areas. Matskevich promised to send a picture of his family to Benson after the Russians return home. (International)

Female Lure Works Ambulance Driver But Not For Long Accused Of Theft From Dying Woman

TAMPA (AP)—An ambulance driver who accompanied a dying Tampa woman to a hospital has been charged with stealing two diamond rings from her.

A warrant charging grand larceny was issued by Peace Justice W. Marion Hendry Tuesday against Jack Blanco, 35, who drove Mrs. Minnie Whitaker to the hospital Sunday night. Mrs. Whitaker was pronounced dead upon arrival at the hospital.

Detective Inspector O. C. Beynon said the arrest was made after an investigation and lie detector tests.

No value was placed on the rings. Blanco was released from county jail on \$1,500 bond.

Mrs. Whitaker was the mother of three prominent Tampa attorneys, Pat, Tom and D. B.

Hunter Plane Eyes Area Of Suspicion

JACKSONVILLE (AP)—A Navy hurricane hunter plane took off here at 6 a. m. today to probe an area of suspicion in the Gulf of Mexico about 130 miles northwest of Cuba.

The Navy said the Neptune was

Stock Market Today Moderately Active

NEW YORK (AP)—The stock market was moderately active and higher in early trading today.

Gains ran to about a point at most as trading slowed somewhat after an active flurry at the start.

Steels and chemicals were about the strongest among the major groups while rails were unchanged to lower.

Of the opening blocks U. S. Steel was up 1/4 at 34 on 4,000 shares. Firestone up 1/4 at 6 1/2 on 1,000. Westinghouse up 1/4 at 67 on 1,300. 2,000 and International Nickel up General Electric up 1/4 at 31 1/2 on 1/4 at 8 1/2 on 1,500.

Other gainers included Bethlehem, General Motors, Sears Roebuck, Douglas Aircraft, and Southern Pacific.

Market Service Still Gets Blamed For Higher Prices

CAMP MEQUARRIE (AP)—The Market News Service, which doesn't set prices, still gets blamed by buyers for high prices and by sellers for low prices.

F. W. Fisher, assistant commissioner of the State Marketing Bureau in Jacksonville, told Florida's 14th annual poultry institute yesterday.

The market service never has established a price, he said, it merely reports the results of sales on a marketable basis.

Dealers are at liberty to use the quoted prices but "it seems unreasonable that members of an important industry should expect the Market News Service to decide for them the price at which their products should sell," Fisher said.

Officers Widows To Get Settlement

OCALA (AP)—Three widows of law enforcement officers will get \$3,000 each in settlement of damage suits against an aged couple accused of slaying the three men.

Circuit Judge Truman G. Fitch yesterday signed an order for the settlement to Mrs. Agnes Wooten, Mrs. Hazel Tuck and Mrs. Johnnie L. Youngblood.

Edward S. Lindley, 72, who was indicted for first degree murder in the slayings, has been held insane and committed to the Florida State Hospital at Chattahoochee. His wife, Bertha, 70, is free on bond in the custody of relative.

Associated Press Leased Wire

No. 262

Weather

Mostly cloudy with scattered showers and thunderstorms today and tonight over north portion.

Mother, Children Hurt As Car Goes Into Lake

A Navy wife and her two infant children were injured yesterday, shortly before noon, when her car skidded out of control during a blinding rain and wind storm.

The 1950 Oldsmobile sedan, driven by Mrs. Dorothy Johnson Drake, whose home address is given as the Park Avenue Trailer Court, skidded for 100 feet and then turned over two complete times before hitting the seawall and plunging into Lake Monroe.

The automobile, a total loss, according to Florida Highway patrol

Trooper T. Mark Mack who investigated the accident, landed on its wheels in about one foot of water. Mrs. Drake, 31-year-old wife of Sanford Naval Auxiliary Air Station Composite Squadron Nine's Keland Drake, was traveling east on State Road 600 about a quarter mile west of the city limits on the lakefront, at approximately 45 miles per hour when the accident occurred.

The Navy wife was accompanied by her two infant daughters, Patricia, three months old and Darlene, who is 19 months old. The three-month-old child was thrown from the car before it plunged over the seawall into the lake.

S. R. Clinkscales and Malen White, both of Deland, were traveling behind Mrs. Drake's car and observed the accident. The two men jumped from their car and pulled Mrs. Drake and her daughter from the car and lifted them over the seawall onto the highway shoulder.

Mrs. Drake received a broken pelvis, the three months old daughter Patricia suffered contusions and abrasions to the head and back while 19 month old Darlene received lacerations to the head. The three were taken to the Fernald-Laughton Memorial Hospital for treatment.

Mrs. Glenn Says Lunch Room Set For School Opening

Seminole County School's lunch rooms are in readiness to begin operation on Sept. 6, according to the School Lunch Department secretary Mrs. Betty Glenn.

Mrs. Glenn today pointed out that the 16 lunchrooms in the Seminole County school system, 11 white lunchrooms and five colored lunchrooms, have been put in tip-top shape for the school opening.

Lunches meeting Type "A" requirements are served in all schools, Mrs. Glenn said. However, she explained that menus in each school are different though they all meet the absolute requirements.

The entire group of lunch room managers and workers will attend a sanitation meeting next Wednesday to complete their pre-school work preliminary to being ready for the first day of the 1955-56 school season.

Mrs. Fred Muir is the only new manager in the school lunch department this year, Mrs. Glenn said. Mrs. Muir is at the Lyman School lunch room.

The managers and workers in the entire system of county schools are members of the Seminole County School Food Service Association, the school lunch department secretary explained, to further enable the members to exchange ideas and to plan for the excellence of the food program in the local schools.

Orlando Residents Involved In Mishap At Park, Second St.

An Orlando radio-TV director was charged with "careless and negligent driving" Wednesday night shortly before 11 o'clock when his car smashed into the rear of another at the intersection of Park Ave. and Second St.

According to Sanford Police Department reports, the 1953 Ford sedan, traveling south on Park Ave., and driven by Charles Frederick Fry, 29-year-old radio-TV director of 184 W. Basal St., Orlando, smashed into the rear of a 1952 Mercury, stopped at the traffic light at Park Ave. and Second St. The Mercury was driven by James McDonald Higginbotham 22-year-old white teacher of 1614 Pinehill, Orlando. Higginbotham was accompanied by Sarah Jane Higginbotham and Grace P. Williams. The party undoubtedly was returning from the District FEA meeting at Daytona Beach.

No damage was given on the accident report following investigation by Sanford Police Department patrolman Joe Nickman.

Newsreel To Show Hurricane Damage

A graphic newsreel of the recent hurricane, hurricane damage, and debris left in its wake will be shown at the Ritz Theatre next week, according to manager Herb Roller.

"The gigantic news story is important at this time, Roller said, as it points to the terrible toll of property, injuries, and deaths in the hurricane area."

Fortunately, the theatre manager said, the newsreel story is being shown at a time when people are being made aware of the human suffering in the hurricane area.

Seminole County American Red Cross Chapter officials urge Sanford citizens to see the newsreel and gauge their contributions to the fund drive with the damage and suffering seen. The Rev. Milton Wyatt, chairman, said yesterday that contributions would be received at either of Sanford's banks.

Social Security Amendment Told

An amendment to the social security law, of importance to men and women in the Armed Services, was enacted by a recent session of Congress, Paul K. Weaver, district manager of the Orlando Social Security office, pointed out today.

Under this amendment, he said, social security wage credits for active service in any branch of the Armed Forces is extended to April 1956. Under the old law, the period when \$160 a month social security wage credits could be earned while in active service ended on July 1 of this year. These military wage credits can count toward old-age and survivors insurance payments just as if the servicemen or servicewomen had been employed in a job covered by social security for wages of \$160 per month.

As heretofore, at least 90 days of service are required, except for those who die in service or are discharged because of service-connected disability.

Officials Discuss Proposed Budget; Goal Has Been Set

The Board of Sanford City Commissioners last night began its discussions surrounding the proposed budget for General Government and set a goal prior to beginning its study and scanning of the entire budget for the city.

Warren E. Knowles, Sanford City manager, in his budget message to the commissioners, pointed out that the city will complete its 1954-55 fiscal year operations with an expenditure equal to the revenue. Knowles also stressed the fact that the proposed budget for the 1955-56 fiscal year includes the final payment of slightly more than \$20,000 for the stadium bonds.

In presenting the proposed budget for the forthcoming fiscal year, Knowles reminded the Board of City Commissioners that the Goldboro Recreational area needs consideration as to future appropriations, plus the possibilities of a swimming pool for the same area at a cost of approximately \$80,000.

Also under consideration in the proposed budget is a list of city streets that are considered most in need for resurfacing. A total length of 1.18 miles of street resurfacing is proposed at an approximate cost of \$42,000.

The street lighting of French Ave. will necessarily be considered, according to City Manager Knowles' proposed budget. Other items listed in the budget message are traffic lights for French Ave., a pension plan contribution for the police and fire departments, construction of a municipal parking area and the moving of the softball diamond, and the installation of a modern and workable toll system for the Sanford Police Department.

The budget proposed by Knowles for the 1955-56 year amounts to \$646,713.44, an increase of \$6,400.00 over the 1954-55 budget.

The Commissioners last night were looking to cut between 24 and 30 thousand dollars from the proposed budget to keep the tax millage as low as possible and to be able to provide capital improvements such as street paving and the problem of street lights on French Avenue.

Working until after 11 o'clock last night as they considered the proposed budget department by department and item by item with in each department, the commissioners failed to cut any money from the proposal and added \$200 to the police department operating needs for the repair of telephone and telegraph facilities.

The Board of Sanford City Commissioners will again tackle the budget problem Monday night at their adjourned meeting.

Coleman Released Under Bond Of \$200

A motorist identified by Sheriff's Department records as Marvin W. Coleman, was arrested last night by Florida Highway Patrolman Carl Williams and charged with operating an automobile "under the influence of intoxicating liquors."

The arrest was made 11 miles south of Sanford on State Road 600, near Canaberry.

Coleman was released from jail under a \$200 bond.

Red Cross Relief Heavily Relied On By Stricken Areas

The Rev. Milton Wyatt, Chairman of the Seminole County Chapter of the American Red Cross received the following telegram from E. Roland Harriman, chairman of the American Red Cross, with national headquarters in Washington, D. C.:

"I have just returned to disaster headquarters from meeting with President Eisenhower and the governors of the flood states in Hartford. The President and the governors spoke in glowing terms of the work of the Red Cross so far and made it quite clear they all were relying on the Red Cross to carry on its relief to families since by law the government cannot assist them directly."

"After the meeting the President made the most compassionate public appeal I have ever heard urging the American people to come to the aid of their fellow citizens through the Red Cross. He used the phrase that everyone would sleep better tonight if they contributed to the best of their ability before nightfall. At the close of the session he suited his words by handing me his personal generous contribution."

The Governors also individually and collectively promised their full support and told me they were turning over to the Red Cross substantial gifts already in their hands.

"In spite of this heartwarming experience I fully realize that to accomplish our purpose we must work jointly and severally with our disaster fund drive. The need is great. Our chapters in the disaster area are doing us proud in meeting that need."

"It is up to the rest of us to furnish U. S. financial resources they must have to carry on. The present is not yet known."

"To every chapter chairman I believe every chapter must take steps to insure that a successful campaign is on its way. Won't you let me hear from you your year's progress is coming on?"

In response to the telegram, Seminole County Chapter of the American Red Cross was called to discuss ways and means to meet the appeal for the "Combie-Diane" flood relief funds. Members of the board offered their individual services in making contacts with various groups and organizations in Seminole County. According to a release from the group, "The board feels sure that the community at large will respond generously and that adequate relief will be forthcoming for their share in the emergency."

Besides the chapter headquarters at 122 1/2 South Palm Street, P. O. Box 598, Phone 80, the following places and individuals have assumed responsibility of accepting all contributions toward this fund:

Sanford — The Sanford Atlantic National Bank, The Florida State Bank.

Lake Monroe — Mrs. W. U. Class, Phone 2227-R.

Oviedo — Citizens Bank of Oviedo.

Slavia — Rev. Stephen M. Tuhy, phone Oviedo 4901.

Geneva — Mrs. J. W. Yarbrough, phone Geneva 2351.

Lake Monroe — Mrs. Paul Morris, phone 119-W.

Chulueta — Mrs. Marni Farnsworth, phone Oviedo 2347.

Altamonte Springs — Homer Sewell, phone Winter Park 26-2071.

Longwood — Homer Sewell, phone Winter Park 26-2071.

Casselberry and Fern Park — Mrs. R. J. Gilpin, phone Winter Park 27-2132.

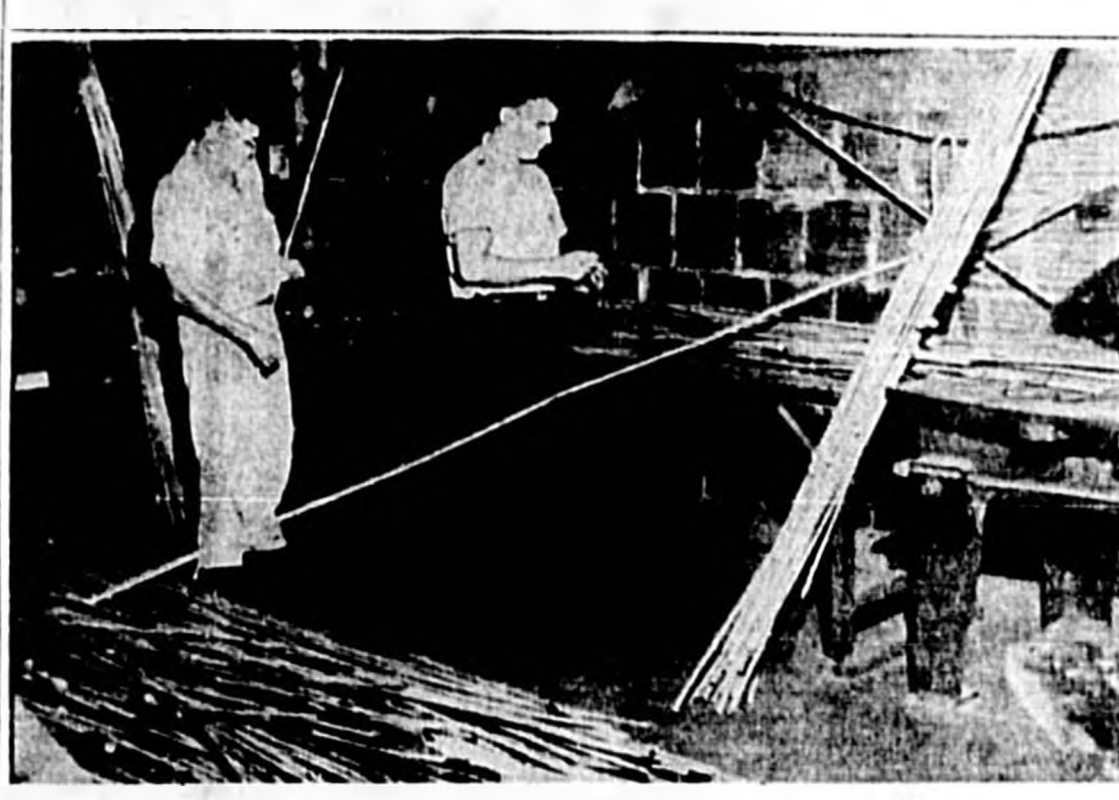

A special notice was received by the local Chapter of the American Red Cross and issued by the National Office, that no clothing be accepted for this present emergency as there is plenty of clothing in the affected and surrounding area to meet the present needs.

Hutchison Selected Attorney For City

William C. Hutchison Jr., prominent local attorney, was appointed City Attorney last night by the Board of Sanford City Commissioners to replace City Attorney Edwin Shinkholder who has resigned.

Hutchison's appointment is effective October 1 at the beginning of the city's fiscal year. An informal meeting of the Sanford city commissioners was held last night but with all commissioners present they were able to waive the 24-hour notice for a special meeting and could therefore take official action in the appointment of Hutchison as city attorney.

Flight Operations Completed By VC-5 On Ticonderoga

A week of flight operations aboard the USS Ticonderoga saw Composite Squadron Five complete the first phase of its carrier qualification exercises and return to the Naval Auxiliary Air Station.

With Comdr. Paul H. Spelts, VC-5 commanding officer aboard ship to supervise operations, four pilots fulfilled their necessary quota of landings. An early return of the ship on Thursday terminated operations.

Under U. S. Navy directives, in order for a pilot newly assigned to an aircraft to qualify for carrier duty, he must make 18 deck landings. An experienced aviator in a particular aircraft need only make 6.

Comdr. James B. Stafford, squadron executive officer, re-qualified while Lt. Comdr. Cy Fittor was the first newly attached pilot to qualify.

The week's highlight occurred when Lt. Comdr. Charles R. Tucker, squadron electronics officer, made the USS Ticonderoga's 5000th landing. Having recently reported aboard following duty in a patrol squadron flying multi-engine seaplanes, these operations were Tucker's first aboard an aircraft carrier since 1948.

Upon completion of his 18th landing, Tucker was presented with a cake and congratulated by Rear Admiral Dale Harris, Commander Carrier Division Four and Capt. William A. Schock, the Ticonderoga's commanding officer.

The colorful red and blue AJ "Savage" aircraft presented a thrilling spectacle to Air Force officers aboard ship observing operations and to officers and men of the US Naval Reserve Components aboard for their 10 day summer cruise. Officers and men of VC-5 were under a constant barrage of questions concerning the aircraft and its specifications as well as queries about the Navy's flight training program.

Property Damage Estimated At \$700 In Auto Collision

Approximately \$700 in property damage and no injuries were reported in an automobile collision which occurred at the intersection of Oak Ave. and Fifth St. yesterday about 12:24 p. m.

The accident, investigated by Sanford Police Department Patrolman Arnold Williams, involved a 1947 Dodge sedan, driven south on Oak Ave. by Edward R. Wilkins, 33-year-old Sanford carpenter of 2500 1/2 Sanford Ave. and a 1950 Dodge Truck driven north on Oak Ave. by Clarence Lloyd Wynn, 48-year-old painter of 3008 Grandview Ave.

According to the police department report, the two cars crashed head-on when Wilkins allegedly made a left turn into the path of the approaching car driven by Wynn.

The report stated that the accident occurred 34 feet north of the center of the intersection and 12 feet out from the east side of the curb.

Teachers' Workshop Winds Up Next Week

The Seminole County Teacher's Workshop completed two-thirds of its work during the past week and will complete the study course next week with teachers in their various schools and consultants available to iron out problems coming up before the school season gets underway.

The past week's workshop began with the showing of an encyclopedic Britannica film called "For Teachers Only."

A 13-mile tour of Seminole County was made with the teachers traveling in four buses. The nearly 150 teachers visited Sanford, Lake Monroe, Lake Mary, Longwood, Oviedo and Geneva. Their first stop was at the Sanford Naval Auxiliary Air Station where station guides conducted the party over the base. A helicopter demonstration was shown to the teachers at the KNAAS hangar with a take-off, air rescue, returning the rescued and a landing in the novel demonstration. Guides showed the teachers through the station's library and mess hall before completing the tour.

Sanlando Springs was included in the tour where lunch was served after being prepared and individually packed by Mrs. Gertrude Hasty of the Seminole High School Cafeteria.

Teachers from Seminole County attended the District Florida Education Association meeting in Daytona Beach Wednesday where 27 group meetings on various educational problems were held for all teachers from the five counties attending.

Official reports from FEA were heard when Floyd Christian, president, Thomas D. Bailey, State School Superintendent, and Ed Henderson, FEA's executive secretary, spoke to the group. The principal address was made by the National Education Association representative Miss Mary T. Tinsley, who stressed "our importance as teachers," and then pointed out that teachers should be proud of their profession and "it is even harder to do a better job."

Final discussions of the week's workshop were conducted by Mrs. Lucy Buckles, elementary education consultant from the State Department of Education.

New Location Set For Drivers Tests

Examinations for drivers licenses will take place at a new location beginning with Sept. 1, according to Florida Highway Patrol Trooper T. Mark Mack.

Heretofore, examinations have been given at the Sanford Police Station. Beginning with Sept. 1, the Trooper said the examinations would be given at the American Legion Hut on Seminole Boulevard.

The American Legion Post in Sanford, said Mack, has generously allowed the Florida Highway Patrol to use the legion hut for the examinations which are given on Tuesday afternoons between 1 and 5 and on Friday morning from 9 to 12.

The hours and days remain the same, Trooper Mack pointed out, but the location is being changed to the American Legion Hut.

Group Leader Chosen

Bruce Odham, chairman of the Seminole County Chapter of the Citizens Committee for the Planning Commission, accepted the chairmanship of the Citizens Committee to secure right-of-way along 17-92 through contributions of property.

The first move was to employ a full-time secretary, with office at the Chamber of Commerce Building, for property owners along the highway to walk in themselves to contribute property and to seek reports about the progress of the project.

Odham said this morning that Mrs. J. K. Telle has been employed, as of today, and will devote her full time in the coordination of Chamber of Commerce and Citizens Committee efforts in the securing of these right-of-ways.

Odham, this morning, said, "I've accepted the job of chairman of the Citizens Committee realizing that I had too much to do myself and will need the help of every property owner along the highway."

Odham emphasized, "In my opinion, at stake in this project is the future program and growth of Seminole County."

"We have a Road Board that has provided the money in the budget for the project, if we will secure the right-of-way, and construction will be started before Christmas of the middle one-third of 1956."

"It's further said," Odham pointed out, "that the one-third this year and you'll get the other two-thirds next year. Failure to get the right-of-way will mean loss of one-third of it this year and no assurance of the other two-thirds once at the end of next year no one knows who will be Governor or who will be the Road Board member."

"This job can be done, with the cooperation of the property owners, in 90 days."

Odham stated that, "In accepting this responsibility of heading the Citizens Committee to acquire the right-of-way on active pride basis, I expect to do the job in 90 days or tell the State Road Department that, as far as I am concerned, the job cannot be done."

"Each week we will ask the local newspaper to give the people a narrative on the progress of the highway project—designating the names of people who have contributed right-of-way property—the names of those who are considering the contribution of right-of-way property—and the names of those who refuse—so that all might know of the progress of the project and the degree of civic pride of the property holders along the highway."

Odham explained, "Naturally, there will be some buildings and some property that will be destroyed. To acquire this property will be the responsibility and problem of men whose business is appraising and acquiring property. These men will be appointed by the Seminole County Commissioners and approved by the State Road Department."

Further explaining, Odham said, "The job of the Citizens Committee will be, primarily through civic cooperation, to acquire without cost, properties that will be improved by the highway construction without any loss to the property owner."

A meeting will be held Monday night at 7:30, Odham said, at the Prairie Lake American Legion Building.

"The meeting will be primarily to organize workers whose names have been submitted by various people," Odham pointed out.

"In addition to these people," Odham said, "I want to urge and invite every person who is a property owner along the highway, or citizens who would like to help on this project, to be present at the meeting Monday night."

Odham added, "Don't feel that you as a citizen, must receive an individual invitation to the meeting. Consider this," he said, "as a personal, special and urgent invitation to meet with us and help put over the 'not important' project for Seminole County."

REPORT TO GRAMMAR SCHOOL

It was announced today that all fifth and sixth grade children are to report to Sanford Grammar School unless they live within walking distance of Pinckney School.
