FIRST DIRECT NEWS OF JAP DISASTER

LEAGUE FACES FAILURE IN FIRST GREAT TEST

TOKIO AND YOKOHAMA TAKE STOCK AFTER QUAKE AND FIRE —WORK PROGRESSING SLOWLY

STREETS AND WATERFRONTS ARE FILLED WITH DEAD

STENCH FROM DEAD

Almost Unbearable and Seriously Delays Work

OSAKA, Sept. 6.—All money in the bank of Japan vault was saved from destruction in the fire which followed the earthquake and tidal wave. A recapitulation of the earthquake and fire area today showed Yokohama as the center and extending north and south about 100 miles and 140 miles east and west from that city. This area included 33 counties and five large cities, inhabited by seven million people. It is estimated that 70 per cent of the cities and towns within the stricken area were destroyed. Yokohama, according to reports received here is totally destroyed and only about one-fourth of Tokio remains.

WAKI, Sept. 6.—The Japanese home office took the first steps toward attempting to clear up the confusion and speculation regarding the actual number of dead and injured in the earthquake and fire at Tokio when it announced 30,000 dead, 100,000 injured and 350,000 homeless.

Colonel Sambrer, of New York, and Major William C. Crane, Jr., language officer of the American embassy and Mrs. Crane, all previously reported missing in Tokio are safe. Two thousand foreign refugees have arrived at Kobe from Yokohama and Tokio, several hundred of them Americans. The Protestant Episcopal National Council here reported Bishop McKinn, of Tokio, and his staff are safe. Father of J. B. Hawkes, Australian Davis Cup tennis star, who is now in the United States, is reported killed. Russell Kenys, prominent Australian tennis player, is also reported to have lost his life.

TOKIO, Sept. 6.—Tokio and Yokohama, separated by only a few miles of water, today lie crushed by the overpowering forces of an earthquake—a series of upheavals—that came with scant warning and brought crashing down the homes and business places of these great cities.

All around for many miles other cities, towns and villages have been dashed from their foundations, and what the vibrations of the quake failed to accomplish was completed by fire and tidal wave.

While entire sections of the Capital have been obliterated—all but the ruins—a very considerable extent of the city remains. Not so with Yokohama, refugees from which are beginning to find their way into Tokio. They tell of the terrific destruction wrought at that place, which has been for years of vast importance to the western world.

The street and water courses, the canals and sea-front are filled with dead, and among the dead are doubtless many injured, to whom it has been impossible to take succor. In Yokohama far more than in Tokio, foreign residents and visitors suffered loss of life or injury. It is estimated that no fewer than 200 foreigners perished in the city port but even yet no comprehensive account can be extracted from the refugees, who reached here in an almost exhausted condition.

The overwhelming effects of the first shock may be realized when it is told that thousands of Japanese, caught by the flames that swept thru

SANFORD SHOULD SEND DELEGATION TO ROAD MEETING

EXPENSE FOR ENTIRE TRIP ON BOAT WILL BE ONLY TEN DOLLARS.

The DeLand News says that at least 100 delegates from that city and section will attend the good roads rally to be held at Green Cove Springs on September 13. A special train will be chartered from DeLand and delegates from other communities all along the line will join the DeLand crowd. The steamer Osceola has been chartered to carry the delegation from Sanford, and the fare for the round trip, including meals and berth, has been placed at the low figure of \$10. Thursday being a half-holiday, there is absolutely no excuse for the business men of this city not attending. The people of Green Cove Springs are making all preparations to take care of visitors, and a fine program and lots of good eats have been provided for all. Sanford should be well represented, and should be accompanied by the Sanford band. This is an opportunity to put this section on the map, besides the great good that will be derived from securing this direct route through the city.

Make your preparations early and join the big bunch of boosters that will go that day.

PRESBYTERIAN MISSIONARIES ARE ALL SAFE

(By The Associated Press) NASHVILLE, Sept. 6.—All missionaries aboard the President Madison that arrived at Yokohama August 21st have reached Shanghai safely, according to a message received at headquarters of the mission here. All Southern Presbyterian missionaries in Japan are safe, too, a message from the executive committee of foreign missions said.

PRINCE OF WALES LEAVES FOR HIS CANADIAN RANCH

(By The Associated Press) LONDON, Sept. 6.—The Prince of Wales left London today for the great open spaces of his Canadian ranch, traveling as Lord Renfrow, just a plain peer, as his highness is going away to rough it a bit.

None of the members of his family went to the Waterloo station to bid him goodbye for royalty does not offer ceremonious farewells to a mere peer. He drove to the station alone, not as the prince who sets fashion for what the well dressed men will wear but just as a young nobleman in a grew overcoat which shows its age.

Thompson-Newkirk Motor Company of Jacksonville, is in the city today, conferring with Perry Jernigan, the local Hupmobile distributor, who will operate under the name of the Jernigan Motor Company, with sales and service rooms in the Park Avenue Garage. A complete line of the different models and a full stock of supplies will be carried. Read the announcement in this issue of the Herald.

ASSOCIATED DAILIES OF FLORIDA ARE MEETING HERE THIS AFTERNOON —MANY EDITORS ARE PRESENT

Business Meeting Only But Banquet Will Be Tendered Them Tonight at Valdez

The Associated Dailies of Florida are meeting in Sanford today and while it is vacation time and many of the editors are out of the state the meeting here promises to be one of the best attended of any that have been held in midsummer since the Daily Association was organized. This is apparent in the geographical location of Sanford that always draws a crowd for any convention as this city is centrally located from any part of the state. And then Sanford has a reputation for hospitality that the boys of the press recognize and they are all anxious to come to Sanford any time. The regular program of the Associated Dailies is always in the afternoon and for this reason the Chamber of Commerce was not expecting the big crowd this morning and no arrangements had been made to take the visitors around the city but this was easily remedied when it was discovered that the crowd was gathering early and a trip to the Country Club was arranged about eleven o'clock to take the visiting ladies around to various points of interest. The regular motorcade will be arranged for this afternoon at five o'clock at which time the visitors will be taken over the celery fields and to all points of interest. Sanford is also entertaining the Traffic Men of the A. C. L. Railway this morning as well as the editors.

The regular program of the Dailies will start at two o'clock this afternoon and will be going at full blast until five or after and is as follows subject to changes: Business meeting at two o'clock. Secretary's report and report of Legal committee, Clayton Codrington. General business. Talks by Herbert Felkel of St. Augustine Record, W. A. Elliott of Times-Union, Geo. Hosmer, Fort Myers Press, A. B. Codrington, DeLand News, M. T. Gaines, Daytona News. Ride around city at five p. m. Banquet given by Chamber of Commerce at seven o'clock. The following visitors together with their ladies are here this morning and many more are expected this afternoon: Ed Taylor, president of Associated Dailies, business manager of Miami Herald; Clayton Codrington, secretary, editor DeLand News; Ed Fitzgerald, editor Daytona Daily News; M. J. Leeds, business manager Daytona Journal; A. B. Codrington, advertising manager of DeLand Daily News; M. T. Gaines, managing editor of Daytona News; W. P. Arnold, business manager Gainesville Sun; W. A. Elliott, business manager Times-Union; W. T. McCall, Southern

SIX INDICTED FOR MURDER FOLLOWING TROUTON'S DEATH

NEWMAN, Ga., Sept. 6.—Six of the eight men held in connection with the death of Millard Trouton, who disappeared from his home here in August and whose body was found in Lime creek, 18 miles from here, four days later, have been indicted for murder by the Coweta county grand jury, in session here.

When Trouton's body was found by a negro woman, it contained five bullet wounds and the skull was crushed. More than a dozen men were arrested in connection with the death, but all but eight were released following an investigation.

Those indicted: J. W. Minter, father Trouton's alleged estranged wife; two of Minter's sons, Grady and Jeff; two sons-in-laws, Floyd Weldon and Goodrum and Walter Felman. Two men are held as accessories.

Solicitor Atkinson early today was undecided whether the cases would be called next Thursday or next Monday.

Just as boys are rushing off to college an Oregon professor quits to become a plasterer.

GREEK FLEET RETIRES IN ORDER TO AVOID CONFLICT

ATHENS, Sept. 6.—(By the Associated Press).—The Greek fleet has been ordered to retire to the Gulf of Volo to avoid contact with the Italian fleet it was learned on good authority today.

WARRANT CHARGES CLEVELAND WITH LOSSING'S DEATH

MOBILE, Ala., Sept. 5.—A warrant charging J. G. Cleveland, a member of the county board of revenue and road commissioners of Mobile county, with murder has been sworn out in the inferior criminal court charging him with killing Stephens S. Lossing, wealthy 89 year old resident of Delchamps, Ala., by shooting him with a shotgun or striking him with a spade. Lewis S. Lossing of Jacksonville, Fla., youngest son of the dead man, is the complainant signed to the warrant.

The warrant was placed in the hands of deputy sheriffs and Commissioner Cleveland is expected to come in and surrender at any time.

The swearing out of the warrant against Commissioner Cleveland marks the third one in the sensational killing of Friday afternoon August 24 last at the home of the aged man. Tom W. Cleveland, 31, and S. J. Cleveland, Jr., son and nephew of Commissioner Cleveland are in jail without bail charged with the murder of the aged man.

A. J. Lossing, of the Quick Service Transfer company, states that the Stephen S. Lossing mentioned in the above dispatch, is his uncle, and that one of his cousins, a son of the deceased, was a visitor to Sanford last winter.

DENY REPORTS OF RIOTING IN TOKIO STREETS

(By The Associated Press) MOSCOW, Sept. 6.—Dispatches today from Harbin and Peking say the Korean revolutionary elements in Japan are taking advantage of the recent catastrophe and have started an uprising in Tokio, where fighting is going on in the streets.

Although he announced martial law would be maintained until looting and plundering was stopped, General Fuduku, in command of Tokio denied last night there were any acts of violence of Koreans and he deprecated reports of revolution by them.

Chinese typhoons are almost as dangerous as American bootleg.

SUPERSTRUCTURE OF LEAGUE SHAKEN TO VERY FOUNDATION BY THE GREEK-ITALIAN CASE

VETS BELIEVE GERMANS ARE ABLE TO PAY

BRUSSELS, Sept. 6.—The congress of the Inter-Allied Veterans Federation concluded its session last evening with unanimous agreement by all seven delegations, representing the United States, Great Britain, France, Belgium, Serbia, Czechoslovakia, and Roumania, on every resolution drawn up by the various committees during the past four days and presented to the congress for approval. Last evening the resolution on German reparations and the occupation of the Ruhr, which had kept the committee deadlocked until late yesterday afternoon, finally was ironed out to the general satisfaction of all through the French delegation agreeing to elude all reference to the Ruhr and the British admitting that Germany was acting in bad faith and that she could and must pay reparations. The text of the resolution as finally adopted reads:

"The congress of the Inter-Allied Federation of War Veterans believe that Germany can pay with relatively short delay the amount of reparations agreed upon in common by all the Allies."

TWO ASSASSINS ITALIAN MISSION UNDER ARREST

AUTHORITIES ARE HOT ON THE TRAIL OF THE MURDERERS.

(By The Associated Press) MILAN, Sept. 6.—The Popolo Italia, the organ of Premier Mussolini, has received a dispatch from Trieste saying that telegrams from various sources confirm the news that the Greek government is on the track of the assassins of the Italian mission. Many suspects have been arrested at Janina and also along the Greco-Albanian frontier and among them are two of the assassins. The authorities are hunting the others and hope to shortly arrest them.

27 NEW SHOCKS IN TOKIO YESTERDAY

(By The Associated Press) TOKIO, Sept. 5.—(Delayed).—Twenty-seven new earthquake shocks occurred here during the night, but authorities expressed the belief that no further destructive ones are likely. Occasional outbreak of fire lighted the sky but are not considered dangerous. Temporary lighting systems have been established and parks where thousands are encamped are under rude shelter.

IMPERIAL HOTEL DESTROYED AT NARRAGANSETT

NARRAGANSETT, R. I., Sept. 6.—The Imperial Hotel was destroyed by fire today, 200 guests escaping scantily clad. The loss is estimated at \$500,000. The Hotel Massasoit also caught fire but was extinguished without serious damage.

The Imperial Hotel was the most elaborate in the summer colony. Guests are quartered in neighboring hostleries temporarily. Most of them lost many of their personal belongings.

CONSTERNATION AND SADNESS PREVAIL EVERYWHERE

But Refuse to Believe Dispute Can Disrupt the League

(By The Associated Press) GENEVA, Sept. 6.—The superstructure of the League of Nations, of which an American President was the chief architect, is imperilled, and in the British view the very foundations of present-day Europe are shaken. Such, briefly, is a summary of the situation at Geneva last night, because of Italy's refusal to recognize the right of the League of Nations to interfere in her dispute with Greece.

Consternation and a deal of sadness prevail everywhere, for it is generally, though reluctantly, admitted that the League has been unable to withstand the first test of its practical use as machinery for regulating differences between nations, since one of its leading members has declined to concede to its competence. Hence there is a growing sentiment among the smaller countries that, if the League covenant applies to them, it apparently does not bind the great powers of Europe.

All the more do they feel convinced of this because of the proportions which the Greek and Italian conflict has taken are deemed by them to be unjustified by the original cause of the controversy, serious and regrettable as was the murder of the Italian officers.

But hope is not abandoned; there are stout hearts among the statesmen of the half hundred countries represented at Geneva who, believers in the League and in the ideal of conciliation and arbitration which the League voices, refuse to accept that decision of any member, powerful or weak, can succeed in ruining the League as a power for good.

Signor Salandra's entire argument yesterday was that the question arising from the assassination of the Italian mission should be settled by the council of ambassadors and not by the League, because it was the ambassadorial body which had appointed the mission to fix the frontier between Albania and Greece. That body was the living organism of the great peace conference and was empowered with the execution of the terms of treaties.

Without taking action, the council adjourned, in order to permit the members to study the Italian statement. It is expected another meeting will be held within a day or two.

DELAND MAN IS KILLED IN AN AUTO ACCIDENT

Tromulent Druggist Dies When His Car Turns Turtle

(By The Associated Press) JACKSONVILLE, Sept. 6.—Edward D. Bowen, aged 40, owner of the G. W. Fisher Drug Company of DeLand, was killed this morning when the automobile in which he was riding turned turtle on the Lake City highway near Whitehouse. He was en route to visit his mother, Mrs. N. M. Bowen at Tallahassee. The man who witnessed the accident and another picked up the injured man and started for a Jacksonville hospital, but he died as they were entering outskirts of the city.

The Herald for first class job work.

Another Strand Across the Sea

Here is the start of the laying of the eighteenth cable connecting the United States and Europe at Rockaway, N. Y. Despite the increasing use of radio, popularity of the cable still grows. The new one will be the longest and fastest.

SOCIAL CALENDAR

Monday—St. Agnes Guild meets at the home of Mrs. Howard Overlin on Highland avenue, Sanford Heights at 3:30 p. m.

IN THE COUNTRY

When summer days get super-torrid, And perspiration beads your forehead, And everything in town is horrid, You're sure

You'd like to leave the sweltering city And go where all is cool and pretty and pure.

You think of country lanes and rivers, And foliage that sighs and quivers With winds that give you chilly shivers of joy;

You think of large and luscious berries With cream from cool and dripping dairies—Oh Boy!

And have you seen the rural cotter? His shirt is like an ancient blotter; He's grimmer than you, and hotter by far,

His sheep, that look so sweet and fleecy, You've no idea how rank and greasy they are!

The rooms are low and small and airless,

Of flies and screens they're rather careless; They seem to think of comfort there less than here.

They're no electric fans to cool you— You've let the rural poets fool you, I fear!

Here we have ice and tinkling glasses, And big, cool rooms, and thin clad lasses;

Our sprinkled lawns are green—their grasses are brown,

The country dwellers sweat and swelter— Oh, let me keep my cool, green shelter in town!

—Cleveland Plain Dealer.

Mrs. A. P. Connelly will leave October first for Washington, D. C., where she will spend some time.

Mr. and Mrs. Alfred Robson, of Orlando, were the guests of friends and relatives here last evening.

Miss Sarita Lake will leave Saturday for Gainesville, where she will visit friends.

Roger Holland, of Collins, Ga., arrived here yesterday and will spend several days here attending to business.

Miss Maud Lake will return home tomorrow from St. Augustine, where she has been the guest of Miss Elizabeth Puller.

Among those from Jacksonville registering at the Montezuma yesterday were A. W. Clarke, Dr. T. A. Blinn and M. A. Kelley.

Mrs. J. L. Baldwin, of Atlanta, was among the arrivals here yesterday

and is pleasantly located at the Montezuma for a brief sojourn.

Grady Deen, of Lakeland, head of the Non-Acid Fertilizer Co., is in the city today attending to business.

Misses Fannie Reba and Zoe Munson left Monday for Atlanta, Ga., where they will spend two weeks visiting friends and relatives.

Mr. and Mrs. W. A. Gosnell, Misses Peggy and Mary Gosnell arrived here yesterday from Chattanooga, Tenn., and are stopping at the Montezuma for a brief stay.

Mr. and Mrs. Forrest Gatchel and Master Stewart, have returned from a month's vacation spent at different points in Illinois. Miss Rose Gatchel, of St. Louis, accompanied them home.

The St. Agnes Guild will meet Monday afternoon at 3:30 o'clock at the home of Mrs. Howard Overlin on Highland Avenue, Sanford Heights. It is earnestly desired that all members be present.

A congenial party motoring to Longwood, Orlando and other places last evening were Misses Ida Bell Ryder of Columbus, Ga.; Gertrude Runge, Ted Runge and Joe Gary and Mrs. C. W. Speer.

Miss Ida Bell Ryder, of Columbus, Ga., arrived here yesterday and will spend a month as the guest of her grandmother, Mrs. C. W. Speer. They expect to visit relatives in West Palm Beach and St. Augustine during the latter's visit.

Mrs. L. Cramer, Miss Hettie Arnett, Mr. and Mrs. R. Register, Miss Nell Williams, Messrs. J. C. Spinks, George Levin, and B. J. Overstreet, of Longwood, were visitors in Sanford yesterday afternoon.

Mr. and Mrs. George DeCottes and Frederick Bell, who have been at the Montezuma for the past two months, are now occupying the Yountz residence on Magnolia avenue, until the completion of their new home on Park avenue and Hughly street.

Misses Mae Holly and Sarita Lake and Messrs. Allen Jones and G. W. Spencer, are attending a card party in Orlando this afternoon given by Miss Marion Sanderson, in honor of a bride-elect, Miss Agnes Musselwhite.

Mrs. W. B. Zachary, her daughter, Miss Claire Zachary, and son, Master Billy Zachary, left yesterday for their home in Sanford, after spending the past few weeks' delightfully in Pablo Beach and Jacksonville. While here they were guests of Mrs. Zachary's mother, Mrs. E. A. Flansburgh and family, of West Ashley street.—Jacksonville Times-Union.

The following from the Jacksonville Journal, will be of interest to the Tampa friends of Mrs. L. Y. Dempsey and her daughter, Miss Marjorie Dempsey: Mrs. L. Y. Dempsey and daughter, Miss Marjorie Dempsey left yesterday for Tallahassee. Miss

Dempsey will resume her studies at the Florida State College for Women, and her mother will spend some time with her.—Tampa Tribune.

The above notice is of interest to many Sanford people, as Miss Dempsey is a niece of Mrs. Joe Harrold, and both she and her mother have made scores of friends here during their frequent visits here.

MRS. CRAIG HOSTESS

Mrs. James A. Craig will entertain at luncheon today in her home on West Duval street, honoring her sister, Miss Ruth Rich, who will leave in the near future for New York city to become editor of the Independent Woman.

A number of friends of the hostess and her mother have been invited to be the guests of Mrs. Craig on this occasion.—Times-Union.

MASTERS-MYERS

W. Masters and Miss Myrtle Myers, both of Sanford, were united in holy matrimony at Orlando, on August 15th at high noon. After the ceremonies the happy couple motored to Palm Hammock where they enjoyed their honeymoon. After a delightful stay there they motored back to Sanford, the City Substantial, and will make their home here. Mr. Masters is the owner of the Sanford Sign Shop and has been in business here for some time and is giving the public his best in his chosen work.

Their many friends extend their best wishes.

IN COMPLIMENT TO MISS RICH
Complimenting Miss Ruth Rich, who will leave shortly for New York city to become editor of the Independent Woman, Mrs. Sheldon A. Morris entertained informally at auction bridge yesterday afternoon in her home on West Duval street.

Zinnias were used to advantage in decorating, and marking the places were hand-painted tallies done in floral design.

Several interesting rubbers of auction were indulged in, and at the conclusion the winners were presented with sets of ice tea sippers as prizes. Winning were Miss Irene Bacon, Mrs. Mamie Morris Webster and Miss Mildred Everett. The guest of honor received a traveling accessory as a memento of the delightful affair.

Following the awarding of prizes a delicious sweet course was served.

The affair was one of several informal parties being given in honor of Miss Rich prior to her departure, and was enjoyed by three tables of players, intimate friends of the honoree, and a number of tea guests.—Jacksonville Times-Union.

DEATHS

DEATH OF LITTLE BILLIE BRITT

The many friends of Mr. and Mrs. Charles L. Britt will be shocked to learn of the death of their adorable baby, little Billie J. Britt, which occurred last evening at nine o'clock, at the home of his grandparents, Mr. and Mrs. W. J. Britt, in Connellsville, Pa. where Mrs. Britt and the children had been visiting for the past two weeks.

In the telegram received this morning, it stated that Billie died last night from pneumonia, and that the funeral will be held in Connellsville. Mr. Britt left here Monday in their car to join his family and only reached there yesterday afternoon at six o'clock, and the baby died at nine o'clock.

The many friends join in extending them their heartfelt sympathy.

DUMAS SPEAKS KIWANIS MEET VALDEZ TODAY

(Continued from page 1)
tion that Tampa actually consumed more tobacco than is grown at the two mentioned points and then depends largely upon Cuba for enough of the weed to manufacture the millions of cigars that are turned out in that city each and every year. He could have also laid claim for Florida as holding the world's record for phosphate production, and last but not least, our Sanford territory as holding the world's record for celery production. Therefore, gentlemen, you can readily see that while other parts of the country find it necessary to cast about for the distinction of holding the world's record on any particular commodity, Florida has no trouble in laying claims to such records which cannot be disputed, and as time goes on she will add new laurels to those already justly won.

"In my various talks in the recent past I have endeavored to tell my friends in this territory something about what the great arteries of commerce of this country are trying to do to provide the public with the best transportation service in the world. What the railroads of today require is a better understanding with the public and thorough co-operation. The railroads cannot expect co-operation of a helpful nature unless they take the public into their confidence. We must learn each others' troubles and together

work out a remedy that will redound in inestimable benefit to the carriers and to the public. Florida would be in a sorry plight today except for the wonderful transportation facilities which she enjoys. Her thousands of carloads of fruits and vegetables must be transported to the consuming markets with dispatch to insure a return movement of money and manufactured articles for the use of her people and the development of this grand state.

"The Atlantic Coast Line is making every effort to give its patrons the very best service that money can buy. They have appropriated twenty-five millions of dollars to be utilized in providing better facilities, better locomotives, better rolling stock and better road bed. We expect 1923 will show the greatest volume of traffic that American railroads have ever been called upon to handle. In fact, from July 1st, 1922, to March 17, 1923, the railroads of the country did actually and successfully handle, in spite of the coal strike and our own labor troubles, the greatest number of cars of revenue freight ever handled. The traffic exceeded by far the peak movement during the world war, and with the co-operation of the public the transportation lines of this country will handle the peak load expected.

"This country had twenty-six months of government operation of railroads which was disastrous to the country and the railroads alike. During that time maintenance work was reduced to the danger point. Rolling stock scattered all over the country and was allowed to deteriorate to the point of collapse. The additions to equipment were less than half of normal. Last but not least, government operations cost the taxpayers \$2,280,000 for every day of government control. A total loss of \$1,800,000,000 and the railroads were returned to their owners with credit impaired and securities selling in the open market abnormally low.

"Since the end of government control the management of the railroads have effected economies totalling approximately one billion dollars a year. \$350,000,000 represents decreased wages. The remainder the result of increased efficiency and economy of operation.

"In conclusion, I want to say that the Atlantic Coast Line appreciates the splendid traffic given us in the Sanford section. We want to handle it expeditiously and satisfactorily. We are determined to do our part towards building up and developing the territory which we serve. We ask your co-operation, particularly in loading equipment to capacity. We solicit constructive suggestions and criticism which will tend to improve our service and cement the friendship between our line and our patrons, and I feel sure that my friends in this Kiwanis club will literally follow the mandates of the song we so heartily sing to our friends: 'We are with you to a man, we will help you all we can.' With such whole-hearted help the Atlantic Coast Line will give the people of Florida service second to no transportation line in this great and prosperous country, and this service means a great deal to the public which it is our pleasure to serve."

Moughton and Marshall, not content with a good thing, insisted on singing the Mummy Song. Moughton sang soprano and Marshall sang worse. They were heartily applauded—when they sat down.

McCaslin and McKinnon have charge of the entertainment features of the next meeting.

"Yes, We Have No Old Fossils, Today," a new song written by Secretary Pearman, of the local Chamber of Commerce, and sung here for the first time, made an instantaneous hit and it was decided to make it the official song at the shore dinner at Daytona.

FOR CONSTIPATION

Black-Draught Recommended by an Arkansas Farmer Who Has Used It, When Needed, for 25 Years.

Hatfield, Ark.—Mr. G. W. Parsons, a well-known farmer on Route 1, this place, says: "I keep Black-Draught in my home all the time. It is the best all-around medicine I have ever found for the liver and for constipation. We began using it 25 or more years ago and have used it whenever needed since. I have never found any other medicine as good for constipation, and that was what I suffered with till I began using Black-Draught. Black-Draught corrected this condition, and now we use it for the liver and for indigestion—a tight and sluggish feeling after meals, for bad taste in the mouth and sour stomach."

"My wife uses it for headache and biliousness. It sets on our shelf and we don't let it get out. It has been a great help to us. I believe a great deal of sickness is caused by hurried eating and constipation, and Black-Draught, if taken right, will correct this condition."

Get the original and only genuine Black-Draught powdered liver medicine. Sold everywhere. NC-150

LOCALS

T. W. Baxter, chief police, Atlantic Coast Line Railroad, is in Jacksonville for a few days on business.

George Shipp, who has been employed in Port Tampa for the past several weeks, is expected home Saturday.

If the party who advertised the loss of a cameo pin through the Daily Herald classified column will call he can secure the lost article. Herald want ad usually secure quick results.

J. R. Anthony, one of the most prominent bankers in the state, was in the city last night, the guest of Mr. and Mrs. W. H. Tunncliffe. He was en route south on a tour of inspection.

Mrs. Walter Wight and Mr. and Mrs. John Van Duzer, of Cairo, Ga., are in the city on a visit. Mrs. Wight is looking for a house and expects to come back in the early fall and put the children in school again.

Woodcock & Rigney take a "Thursday Flyer" in grocery prices and make it worth your while to call on them in the morning and lay in a supply of fresh groceries. Their prices are really interesting and will save the housewife some money.

S. A. Irwin, manager of the Sanford Dry Goods Company, has returned from a purchasing trip to New York and other Eastern markets, and states he purchased the largest stock of fall merchandise that he has ever brought to Sanford. He will tell you all about it in the advertising columns of the Daily Herald—so watch for his announcement.

Adjutant General J. Clifford R. Foster and Major J. H. Spender, of St. Augustine, were in the city today, guests of Majors Knight and Stevens and other officers of the local company. These gentlemen are en route home from Arcadia, where they mustered in a battery of field artillery. One more battery will fill the state's quota, and it is expected that this will soon be secured.

Hay crops in Hamilton county are making rapid growth, and range conditions were never better than now.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

There will be a big crowd of good roads boosters at the Green Cove Springs meeting and Sanford must be well represented, as the completion of this direct route means much to this city and section.

Fewer automobile accidents would occur if we had a law giving the driver on the right the right of way. When one comes up on the left of another it is his business to slack up, allow the other man to pass on. Such a law strictly enforced would be of incalculable advantage.

These smart alecs who drive at pell mell speed at night, with glaring headlights, are a public and private nuisance. Hundreds of drivers never dim their lights when meeting another car; in fact a few of them will turn a spot light in your eyes just for pure deviltry. A whipping post is a fine place for such up-starts.

Italy's frenzied flare-up at Greece because of the untoward thing that happened on Greek soil is reminiscent of mob action in our own country. The murderer of the Italian representatives is provocative of the strongest possible resentment, but the demands made and the quick action required without deliberation of any sort, show that the war spirit is still in the world.

Hillsboro county is making a reputation as a source of worry to motorists. Should you exceed thirty miles per hour on good clear roads where

another machine is not within a mile of you, the cop may get you. They hide out and catch the unwary. Some drivers going at a rate of 20 miles an hour are more dangerous than others travelling 35 or 40. But the Hillsboro cop makes no distinction at all between reckless driving and perfectly safe and sane driving at 35 miles per hour.

Frank Kay Anderson has retired from the management of the Florida Publisher and Business Printer, which has been taken over by John C. and Don M. Lochner, well known newspaper men of Clermont. The first issue under the editorship of John C. comes as a pleasant surprise, the magazine shows all the car marks of coming to stay—it is well printed, ably edited and contains much of interest to the fraternity. And by the way, the cover is the product of the Grass Fibre Pulp and Paper corporation's plant at Leesburg.

The man who drives a car while intoxicated should be heavily fined, imprisoned, and forever debarred from operating a car in the state. Such a man endangers his own life and also the life of every person he meets on the highway. He is reckless, does not care, is wholly indifferent, and is controlled by a dare-devil spirit. He is a greater enemy to the public than the average highwayman, who usually holds up one person without injury, but the drunken driver of an auto kills and maims more than one or two persons, sometimes ditching to their death five or six innocent people.

OUR PLATFORM.

Our candidate for governor must have a platform which will include a few things like this:

No taxation. None whatever.

Good roads everywhere without expense to the people.

Free loans by the banks.

Easy credits all along the line.

Free passes on the railroads.

A sixty per cent cut on the price of beef steak.

Gasoline at ten cents a gallon.

No more war.

No teaching in our schools about Darwin until we find out who Darwin is.—Col. Robert W. Davis, in Gainesville Sun.

SCHOOL DAYS.

The Bureau of Education at Washington sends out regularly to the press and probably to other sources of dissemination, news and suggestive letters concerning the rural schools. The September letter contains the following suggestions concerning the opening days of school:

"When school opens in the fall, rural children that have been playing or working out of doors should be watched rather carefully. The

change from a day of physical activity to one of seven or more hours of confinement is great and may bring on an illness unless a few precautions are taken. For a short time at least, the school day might well be broken up into more than the usual number of periods and the children given frequent recesses. They should be advised to eat less heartily of strong foods during the first two weeks of school so that the physical machine, considerably slowed down as it is, may have a chance to adjust itself.

"Moreover, the first assembling of large numbers of children from different homes may mean bringing in the germs of colds, measles, scarlet fever or other diseases. Proper foresight on the part of school authorities can nearly always keep these from being epidemic. The school should be the most healthful place we have for children."

APATHY AND INDIFFERENCE.

In the discussion of things of a public nature, especially in public, there is a universal disposition to overlook, and we take most utterances, the impassioned ones anyhow, "with a grain of salt." We have learned that the speakers or writers are somewhat like the lawyers when pleading in court for more than they expect that tranquil minds may give them as much as hoped for. But when staid, sober, philosophical folks meet in serious conclave to consider questions of the greatest present moment, it is time to give their deliberations full values.

The American Bar Association, composed of the leaders in that profession, and that embraces some of our greatest statesmen, have had a committee studying for some months crimes, their causes, and possible cures. This committee a few days ago made its report to the assembled association, and some things in that report are or should be appealing to all good citizens.

The committee finds that while the population of the United States increased 14.9 per cent for the twelve years from 1910 to 1922, the criminal population increased 16.6 per cent. The largest increase was in the major crimes like murder, robbery, etc. By a comparison, which was diligently made, the committee concludes that "the criminal situation in the United States, so far as crimes of violence are concerned, is worse than in any other civilized country."

By way of illustrating the contention, it shows that while there were only seventeen murders in London last year, all of them solved, there were 200 in New York and 137 in Chicago. In England and Wales there were only 63 murders committed. According to their estimates 7,850 murders were committed in the United States last year. The number charged to France in 1910—the last year with available statistics—was 588. The number of robberies in France in that year were only 121, while in each of a number of our larger cities the number was several times that. Other comparisons just as unfavorable were made.

Figures are also given to show the increase in the past few years in this country. In 1921 there were 9,500 homicides as compared with 9,000 in 1920. In no year during the last ten did the number fall below 8,500. In other words, since 1910 no less than 85,000 of our citizens have perished

by poison, the pistol, the knife or other unlawful and deadly injury.

The causes for this condition were sought by the committee and it found the failure of our laws pertaining to crime and governing criminal procedure largely chargeable with the situation. "But behind every defect in the enforcement of our laws," it is declared, "more dangerous than any other factor in accounting for the number of crimes committed in this country, is the pathy and indifference of the American people."

MUNICIPAL OWNERSHIP.

Here is something for Sanford people to think about. Mayor Brown, of Tampa, is making an effort to reduce the price of electricity to the people of his city. He goes after the Tampa Electric Company with hammer and tongs and, incidentally, furnishes other cities with food for serious thought.

Mr. Brown tells the people of Tampa, that Jacksonville owns its own lighting and power plant, and that the net earnings of the plant to Jacksonville were \$375,000 for last year, on a sliding scale of 7 cents per kilowatt hour down to 5½ per kilowatt hour, where large quantities were consumed. Tampa people pay a private corporation 12 cents per kilowatt with slight reduction to users of large quantities of juice. In other words the people of Jacksonville, where the city owns the lighting plant pay 5 cents less per kilowatt hour than the Tampa people pay a private corporation for the same service.

Is it not wise to create enough solid conviction on this matter upon the part of our people that we may get our lights cheaper? Why should Sanford pay a big price for its lights when other cities are getting the same service for about half as much? Gainesville, for instance, furnishes lights at 8 cents per kilowatt hour.

Jacksonville had a net profit of \$50,000 from their water works plant, and \$30,000 from the municipal docks. \$155,000 is a pretty good showing on a city's side of the ledger. Not only did the city make money but the people got their water and light much cheaper than in cities where corporations of a private nature own these utilities.

We Sanford people are taking great pleasure in paying 15 cents per kilowatt hour, more than twice as much as our relatives pay in Jacksonville. How long are we going to indulge this extravagance? Is money so plentiful that we get happy paying such prices for light?

LAKE COUNTY'S SELF-HELP RESULTS.

Lake county furnishes a very striking illustration of self-help and the results that follow, when people help themselves, "work out their own salvation," as is the expression sometimes used. The results of self-help clearly and convincingly, are presented in the annual report submitted, on Monday, to the Lake County Chamber of Commerce—a very gratifying report of development and growth, in that county, within a very few years, a period of time in which the people of Lake have devoted their efforts to helping themselves, thereby winning the active and practical help of others, the result, moreover, of substantial gains in developed

permanent resources that are a source of continuing growth and increasing prosperity.

Lake County Chamber of Commerce is able to report, on the fourth anniversary of the organization, an increase of 130 per cent in the resources of the banks of that county, the depositors and custodians of the people's money, accumulated through enterprise and thrift. These bank resources, in the brief period of four years, increased from \$2,600,001, in September, 1919, to \$6,233,017 in September, 1923—a magnificent showing, sure enough.

What, more than anything else, has enabled Lake county to forge ahead so remarkably, not only as illustrated in its accumulated wealth in banks, but in many and varied directions? Is it self-help, without any question? Can it be supposed, reasonably and

logically, that Lake county would have advanced, as the record shows, if the people of that county had not buckled to the task themselves, helped themselves to make progress, and then making such advancement as to attract people of other states and of other countries? Truly, this is the secret, if any there be, to account for Lake county's splendid, substantial advancement.

Lake County's Chamber of Commerce admits that just what has been said is the truth. In the report, as presented by the very efficient secretary, to whom labor for others is more than duty—is a pleasure—the report admits that the work that has been done is not all the doing by Lake county people, that by helping themselves they have won the help of others, and thus have advanced, untidily, to the present proud attainments, which give promise of more and greater ones to follow. The report says:

"But it would be vain to take all this credit—the Lake County Chamber of Commerce is an inspirational and energizing institution and its work and its optimism have been felt in every part of this great county. We have had the help of every citizen taxpayer, and non-resident taxpayers, and the personal service of many; the help of allied commercial bodies, the newspapers, the banks and the real estate men. It is a wonderful spirit of co-operation that has made our success so pronounced, our fame broadcast all over the country, until today Lake county stands out as an exemplar in many things. There is a just and proper acknowledgment of the aid that has come to Lake county, which, by helping itself, attracted attention to its advantages, to the wonderful and varied natural resources, and then enlisted the active co-operation of others, of those who admire self-help and desire to help those who help themselves.

There, in Lake county's work and progress, is example for other Florida counties and communities to follow. And while Lake county has busied itself with progress in material things it has not forgotten, or overlooked, the importance of practical manifestation of the 'kindle spirit, the spirit that proves itself in cordiality, in assistance where it is needed, in making people who come to Lake county "feel at home," and also, cementing the ties of friendship between the "home folks."

All Florida should feel as proud of Lake county's success as do the people of that county, themselves. And their pride is justified, abundantly.—Times-Union.

COUGHS DISTURB SCHOOL WORK

School teachers should give the same advice to children who have coughs as did this Florida teacher. "I recommend FOLEY'S HONEY AND TAR to the children in my school who had the 'flu' and good results came whenever it was used," writes Mrs. L. Armstrong, Okeechobee, Florida. Foley's Honey and Tar contains no opiates. Ingredients printed on the wrapper. Quickly relieves colds, coughs and croup. Sold everywhere.—Adv.

Things Worth While Picked Up Along the Way; Some From Pens Long Ago Laid Down; Some From Pens of Later Days.

IN THE VALLEY OF DREAMS

When the angel of dreams came down one night
From the mystical skies overhead,
As the world lay asleep 'neath the moon's yellow light,
And stopped at my trundle-bed,
The vision was strange that filled my brain
And it made my young heart glad;
Last night the same angel returned again,
But it left me lonely and sad.

For my dream was then of the days to be,
Of the wonderful things afar,
When the praise of the world came up to me,
And I stood where the victors are;
I had fought in the battle of life and had won,—
I had tasted its joys and its love;
I had store of rich gold from the lands of the sun;—
That's the dream that came down from above.

When in through the lattice a sunbeam crept
And kissing my sleepy eyes
The dream sped away that had come while I slept—
Went back to the mystical skies;
Then I cried in vain for the things I had seen,
For the manhood days I had brought,
And the pain in my heart was true and keen,
For gone was the vision I sought.

In the Valley of Dreams, as I wandered last night,
I came to the old home place,
And there in the shadows of dim firelight
I saw each familiar face;
But the trundle-bed I had known of old
Had been empty for years and years;—
Still over it rained the moonbeams gold,
And sometimes a fond mother's tears.

Though visions of childhood forever have flown—
Gone back to the mystical skies,
And I'm left in the world's weary battle alone
Brighter dreams, stronger hopes now arise;
For a new day is breaking—the white star of truth
Is brilliantly lighting life's sea;—
And again comes the courage, assurance of youth
As I face the unknown to be.

—By Clyde Edwin Tuck in National Republican.

EAST SANFORD

Rev. Joseph Wainwright preached at Moore's Station Sunday afternoon, and Herbert E. Squires in the evening. Mr. Wainwright was accompanied by a friend, Mr. Porter, of Palatka. There will be prayer meeting at the church this (Thursday) evening with Mr. Wainwright as leader it is stated.

The mens class of the Congregational church were hosts at a social gathering at the home of Mr. and Mrs. Reno last Thursday evening, at corner of Marquette and Ohio avenues. It was a very pleasant occasion.

Mrs. Richardson Hickson, of Celery avenue, was hostess last Friday afternoon to the Celery Avenue Circle No. 4, of Methodist ladies. As usual the meeting was a pleasant social event.

Mrs. J. C. Ellsworth, of Beardall avenue, was the guest of Mr. and Mrs. I. D. Martin, of Park avenue, on a motor trip to Lake Wales. The scenery about Mountain Lake, Lake Hamilton, Lake Wales and other points through Polk county is the finest throughout Florida, is the verdict of the party. They went Sunday morning returning Monday evening. Andrew Carraway was the man at the wheel as usual and visited an uncle in Lake Wales.

Mrs. C. B. Tyler left on the boat first of the week for Boston and other points in the northeastern states, expecting to remain for some time.

Mr. and Mrs. C. E. Chorpene and daughters Helen and Alya visited Mrs. Murrell and family in Plymouth Labor day.

Miss Georgia Johnson has completed her visit at the Corley home. Miss Johnson will go to Daytona to teach in the schools this year after eight years in Palatka school work.

Mrs. C. C. Morris and sons Alton and Robert arrived here last Wednesday from West Palm Beach to visit the former's sister, Mrs. W. R. Guerry and other friends. Alton has gone on to Gainesville for school work. The Morris family are former residents here.

After an absence of several months Hagood Warren arrived here last Thursday night with a truck, his wife and two little daughters and household goods all left same night with him for their new home, said to be on the lower east coast.

Plant setting in the fields has begun in good earnest this week. Celery, cabbage, cauliflower and peppers. It seems by the talk heard that there will be more of a diversified crop grown this season than for past few years.

The plant growers are having a good deal of trouble this season especially with celery plants, damp-off and red spiders are two troubles and another is too much fertilizer, eager for the plants to grow the commercial fertilizer is put on too heavy and the water turned on also too heavy, which cooks the tender little plants, and another thing noticed is keeping the plants too closely covered—not enough fresh air is allowed to get to them, the last remarks apply generally to the inexperienced growers.

DONATIONS FOR JAP RELIEF
TO BE SENT TO ATLANTA

ATLANTA, Ga., Sept. 5.—Orders to be prepared to receive and send to division headquarters all donations received for the relief of the Japanese earthquake sufferers have been issued from the American Red Cross southern division headquarters here to all local chapters in the South. This followed President Coolidge's appeal asking for public contributions. The quarterly conference of field representatives in session here this week expressed sympathy for the sufferers and endorsed the action of the national headquarters in extending all possible aid to the stricken people.

VIOLA DANA is a Star from "CRIMINAL MINDS" and "ROMANCE".
PRINCIPAL FRIDAY, SEPT. 13TH

CITY CONVENIENCES
FOR THE FARMER

What a blessing to the world is Electricity!

And what tremendous hardships the world would suffer, if this modern force were lost to us! Such a suggestion is silly, of course, for the world is not going to do without electricity. In the natural progress of events, we are going to use more and more of this magic "White Coal," someone has been pleased to call it, and people and whole communities are going to be blessed and benefited accordingly.

One of the important developments of the past half-dozen years has come with the introduction of electricity on to the farms of this country. Before that time, while cities were going ahead, using electricity in their industries and in their homes, farm homes were struggling along without its magic influence. With the invention and improvement of the individual farm electric plant, however, thousands and thousands of farm homes have come to know the advantages of electric lights and electric power, of running water and the other conveniences that stamp a home as modern.

The Delco-Light company, pioneers in the farm electric plant industry, who operate the largest factory in the world for the manufacture of these electric plants have just announced a new plan, which is bound to be of vital importance to every farmer and his family who have been longing and planning to have electricity in their own home.

This plan provides, it was explained, for the installation, complete, of an electric plant and battery, wiring of the house for ten lights, ten complete drop lights installed, with bulbs in place and a special electric socket for connecting up motors and other electric appliances.

While in the promotion of this plan they have specialized in several of the popular models, any of the many models can be secured under this broad, comprehensive arrangement, it is stated. The arguments in favor of this plan of purchase, it was pointed out are that the farmer knows, at the beginning, just what it will cost to

have electricity in his home. Everything is covered in one transaction. He does not have to calculate the cost of wiring his house then the cost of installation and the other items that enter into getting electricity into the farm home.

Here it is all worked out before hand and a low price named for everything complete, ready to snap a switch and turn on the lights. For those who desire it, there is a plan for financing the purchase of the entire installation, it was explained, so that only a small cash payment at the beginning is required. The whole plan, it was emphasized, is calculated to make it easy for the farmer to have electric lights and the other conveniences of electricity.

The appreciation of the benefits of electricity for the farm has spread amazingly since the Delco-Light company, seven years ago began the manufacture and distribution of farm electric plants. The increase, it is estimated, is 2,000 per cent of the number then in use, and there is plenty of evidence that this will grow in still greater proportion, during the coming months. Plans like this one just described will help, for plans like this make it easy for everybody to have electricity. Of course everybody will have electricity, some day, for it is a modern improvement which is being adopted everywhere. But its advantages are so great that it is important for those on the farms to get electrical conveniences as quickly as possible. The Delco-Light company is helping to this end by providing this simplified plan of distributing its products and it is easy to understand their prediction that many additional people will begin enjoying the benefits of electricity this fall.

HOOP SKIRTS CAUSE

VIOLA'S DOWNFALL.

Never have your riding habit designed with hoop skirts, is Viola Dana's advice to American girls.

There is sincerity behind that counsel, and experience. The little screen star recently lost her entire sense of humor, all her dignity and had her life threatened by ignorantly disregarding it.

The occasion came during a scene

for her new Metro picture, "Criminals and Romance," at the Princess tomorrow, wherein, all fluffed out in a flaming hoop skirt, twirling a lacy little parasol over one shoulder, the heroine jogs on a mule to witness an exhibition of broncho-busting, much on the order of one of the famous western rodeos. Viola had no idea that she was to be the most strenuous performer in the scene.

The mule's name was Ernest, and his temper was as vicious as one might expect from an animal who had been so branded.

"Camera!" shouted Director Harry Beaumont as the bout began. Ernest was as meek as a lamb all through the

scene. It seemed too good to be true. It was. When Mr. Beaumont ordered the scene to be shot again everything went wrong. Ernest offered no protest when Miss Dana again mounted him, but simultaneously with Mr. Beaumont's second order "Camera!" things began to happen. The mule pointed his nose earthward and elevated his heels skyward and brought them back to earth so fast and often that count was lost. Miss Dana's thinly veiled dignity vanished.

She grabbed Ernest's neck with both arms and had not the mule's owner rushed in and grasped the bride when he did Miss Dana must certainly have gone overboard.

A new chair that can be converted into a bed contains a locker for medicines or smokers' supplies, a bookshelf and an arm which can be turned to form a writing desk.

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-awake, "blue" and discouraged and think they are getting lary. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by

MILANE NEWS

"Rouged Lips."

Viola Dana tonight stars in "Rouged Lips."

A Metro production starring some of Filmdom's best—

Among them Tom Moore, Viola Dana, Nola Luxford, Sidney De Gray and others.

A Story of Life Behind the Footlights, swift in action, thrilling in intensity and full of delicious humor.

Better than "The Chorus Girl's Romance."

A tale of a Girl with a musical comedy soul.

The little butterfly who will have none of the gilded youth's gift but wants a lot of his love.

Viola Dana started late but tied her wagon to a star.

Norah MacPherson was a chorus lady—and a good one—too good for the youth who haunted the stage door—then she met Jimmy Patterson the Third.

Norah bought herself a car, didn't know how to drive it, but she managed in some way—to get caught by the speed cop!

Friday night is country store night. Lots of fun, good prizes and everything.

Friday night, Colleen Moore and Antonio Moreno in "Look Your Best."

A fun fest for the whole family! Laugh and grow thin in this side-splitting comedy.

Get the habit. Call Sanford Mattress Factory. We guarantee to care for all mattress troubles. Phone 402-M-1. 182-61c

REALM OF SPORTS

R. L. SHIPP, Editor

Celery Seed

By Editor

Another afternoon of strenuous practice yesterday. Coach was a little easier on the bunch though. But the "speedboard" was used frequently and it produced results.

Twenty-four men reported to Coach Wilkinson and Johnny Meisch, his assistant, yesterday afternoon. Two teams were made up and put through a pretty stiff workout.

This afternoon the candidates will report for action at 4:30, a little earlier than the regular time. Coach must be going to lay it on this afternoon.

According to the Orlando Sentinel, their High School football squad will start practice this afternoon for the first time. Shucks, they are starting rather late—if they expect to lick S. H. S.

The Orlando crew says that they expect to be in the running with the Duval Tigers, Gainesville's Purple Hurricane and the Tampa Terriers—must have made a mistake some where—they meant in running with Sanford High School, Miami Heyl-Cats and Gainesville Hurricane.

The Sentinel also gives forth the information that games will come thick and fast—yep, they will! Sanford High School will come down there in a thick bunch of Fords and fast Cadillacs on November 24th.

Gar Wood's Boat Beats Vincent's in 150-Mile Race

DETROIT, Sept. 6.—Gar Wood's speed boat Teddy, piloted by his brother, George Wood, finished first in the 150 mile international motorboat sweetstakes Sunday over a three mile course in the Detroit river.

Packard Christcraft II finished second and Packard Christcraft III finished third.

The Teddy traveled the final six laps without her hatches, a violation of the rules and the result may be protested.

The Teddy's official time was 2:59:55-25.

Col. J. G. Vincent, owner and pilot of the Christcraft II, announced that he would protest the Teddy's victory.

Sewanee Will Begin Practice September 10

SEWANEE, Tenn., Sept. 6.—Football practice for the 1923 season at Sewanee will begin September 10, it is announced. Coach Bennett is expected to arrive on the 7th and Coach Moore already is nearby, so things will begin to hum early in September.

The schedule makers have provided for a game on September 22 with Moore's alma mater, before they had acquainted themselves with the opening date at Sewanee and the coaches are going to find themselves hard put to whip a team into shape by that time.

There is a rumor that "Blood" Miller of Chattanooga may be lost to the Tigers this season, because of an insufficiency of units which might cause him to be declared ineligible. The loss of this sterling end, it is stated, would make a hole in the Tiger defense.

A call to about forty candidates to report September 10 is to be sent out and Coach Bennett will find on hand a "goodly" number of footballers who have had at least one year's experience.

The prospects of a freshman team are said to be very bright at Sewanee. Coach Harry Clark is saying little, but he has a satisfied smile. The reports from the University registration office are that the largest freshman class in its history will enter the school next month and already many prep school stars have remitted their entrance papers.

ANOTHER TRAIN WRECK

(By The Associated Press) BERLIN, Sept. 6.—Ten persons were killed and 15 injured in a collision between the Berlin and Amsterdam express train and the Dresden and Amsterdam train near Hanover today. Two coaches of the latter train were demolished.

The Daily Herald, 15c per week.

BASE BALL FOOT BALL BASKET BALL TRAP SHOOTING

Reds Can't Win When the Giants Are Idle

PITTSBURGH, Sept. 6.—By hitting Luque opportunely, Pittsburgh won the second game of the series of three with Cincinnati, winning by a score of 6 to 2. In the fifth inning the Pirates broke a 1 to 1 tie, scoring two runs when Luque threw wild. Meadows, though hit frequently, was tight in the pinches. Score: Cincinnati 100 000 100—2 12 2 Pittsburgh 010 020 21x—6 13 1 Luque and Hargrave; Meadows and Gooch.

PHILADELPHIA, Sept. 6.—New York made a clean sweep of the series with the Athletics yesterday, winning the final game of the season with the locals, 6 to 3. In the sixth Babe Ruth hit his 33rd home run of the season, tying Cy Williams of the Phillies. The score: New York 000 015 000—6 11 0 Philadelphia 010 000 020—3 9 2 Hoyt and Hoffmann; Hulvey, Naylor and Perkins.

BOSTON, Sept. 6.—Washington made it three out of four by defeating Boston 8 to 4 yesterday. The visitors hit Ferguson savagely in the first two innings, when they made six runs. The score: Washington 331 000 001—8 11 3 Boston 200 100 001—4 7 3 Mogridge and Gharitty; Ferguson, Howe, O'Doul and Picinich.

Seminole Athletic Club Meeting Last Night

The members of the Seminole Athletic Club held a very enthusiastic meeting last night in the Parish House. The purpose of the meeting was to organize a football team which was very successful.

Gus Schmah called the meeting to order and after explaining its purpose Johnny Meisch, popular among sport fans in the vicinity was elected Captain of the squad. It was decided to practice every afternoon at five o'clock on the Ninth Street baseball park. Weights were taken and it was found that the average weight of candidates reporting for the team last night was 153 pounds and among them were Charlie Anderson, Gale McAlexander, Oscar DuBose, John Gordon, John Meisch, Tommy Thompson, G. Hunter, Frank Purden, Colie Riggers, M. L. Tillis, Glenn Whittle, Bernard Black, Eddie Bender, Phillip Bach, Leonard McLucas and Gus Schmah.

The first game scheduled for the Seminole Athletic club will be with the Sanford High School on September 27th, Thursday.

ITALIANS OCCUPYING ADDITIONAL ISLANDS

(By The Associated Press) LONDON, Sept. 6.—A Central News dispatch from Rome says reports are current there that the Italian forces have occupied the Islands of Merlera Fano and Mathraki, northwest of Corfu.

The Daily Herald, 15c per week.

FOUR CHARGED WITH RIOTING.

(By The Associated Press) TULSA, Okla., Sept. 6.—Information charging four men of Broken Arrow, Okla., with conspiring to commit a riot was filed here yesterday by Assistant Attorney General King, following investigation by military authorities enforcing martial law in Tulsa county. They are accused of having attempted to whip Leonard Bagby on June 23, 1922.

The men are Marshall Moore, Henry Acers, Tom Mathews and George A. Bradshaw, former marshal of Broken Arrow.

All previously had been arrested on charges growing out of the Bagby incident, and are at liberty on bonds.

Quick service is obtainable from a miniature telephone directory consisting of index cards set in slots on a revolving hub that can be clamped to a transmitter.

FOR HOME AND STABLE

The extraordinary Borosone treatment for flesh wounds, cuts, sores, galls, burns and scalds is just as effective in the stable as in the home. Horse flesh heals with remarkable speed under its powerful influence. The treatment is the same for animals as for humans. First wash out infectious germs with liquid Borosone, and the Borosone Powder completes the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by

Miss Mildred McCann, 19, has been adjudged the prettiest girl in Cape May, N. J., and will represent that town in the Atlantic City Pageant.

YOKOHAMA A CHARNAL HOUSE

TOKIO, Sept. 6.—Kokohama is a charnal house, the canals and water front are filled with dead and the stench from decomposing bodies is unbearable, according to refugees arriving from the stricken city. It is estimated that more than 200 foreigners lost their lives there.

Most of the dead and injured among the Yokohama foreigners were those who were caught by the earthquake and fire while shopping in the downtown district. Thousands of the terror-stricken natives drowned in the canals when seeking safety from the raging inferno which followed the tremor.

The earthquake left great gaps in the pavements and wrecked most of the buildings. Fire, which started in numerous places at once completed the destruction.

The American and British residents of Yokohama who escaped the disaster are gathering the bodies of for-

eign victims for burial at sea.

The remnants of the Chinese population of the ruined city are gathered under the bluffs without food and shelter. Their condition is pitiable.

As far as is known now only one American lost his life in Tokio, he was W. T. Blume, of the General Electric Company, who was killed in the collapse of the company's building.

Americans who lost their lives in Yokohama include Captain MacDonald of the Grand Hotel, a Mrs. Rolandsen, recent arrivals and Max Kirinsoff, American consul.

FLORIDA'S QUOTA \$20,000 IN JAP RELIEF DRIVE

ST. PETERSBURG, Fla., Sept. 6.—Florida's quota in the drive for aid for the Japanese earthquake sufferers being conducted by the American Red Cross, was announced as \$20,000, in a telegram received by the local chapter last night. The St. Petersburg quota is fixed at \$200.

A. C. L. TO PUT ON ONE NEW TRAIN FOR WINTER RUN

And the Re-establishment of Several Others Is Announced Here.

The addition of one new train, re-establishment of several others and the operation of others in sections over the Atlantic Coast Line was announced yesterday by W. D. Stark, division passenger agent of that road.

The Dixie Limited will be the name of the new train which the A. C. L. will run over the route of the Dixie Flyer, beginning December 2. The schedule for the latest addition to the Coast Line service, designed especially to handle the volume of tourist trade, affords evening arrival in Jacksonville and departure the following morning. The first south-bound trip of the Dixie Limited will be made to this city on December 3 and after a night's stop-over the new train will return North.

Additional through Pullman service will also be established to points in Florida as follows: Eustis and Leesburg, on No. 85, leaving Jacksonville at 8:10 p. m., beginning October 15; Sebring on No. 83, leaving this city at 10 p. m., beginning December 17, and to Boca Grande on December 31.

The New York-Florida Special will make its first run south from New York on December 31, beginning its thirty-seventh consecutive year in operation. It will be run on the same schedule as in former years and will be continued until April 21, 1924, which is approximately three weeks longer than it is customary kept on. This is to co-operate with the people of Florida in prolonging the tourist season.

The Floridan, popular in its first season last winter, will be re-established on December 2. The popularity of this carrier has become such that it will be operated daily this season instead of tri-weekly as was the practice last winter. It will follow the route of the famous Seminole Limited.

The Havanna Special, all-year train will be operated in two sections daily effective October 15 and continuing through the tourist season. The Palmetto Limited, another all-year train, will also be run in sections when conditions warrant.

The Everglades Limited will be re-established on November 12 when it will make its first trip of the 1923-24 season, operating on the same schedule as last season. Excellent dining car and Pullman facilities have been provided for this train. There will also be a service to Detroit and Toledo via Washington on this schedule.

The Pinellas Special and Tampa Special will also be inaugurated this season. The former is run between Jacksonville and St. Petersburg while the latter is operated between this city and Tampa. Both will be put on the schedule on November 13 and will carry first class Pullman and coach equipment.

The action of the Coast Line in establishing many additional facilities for transporting tourists during the coming season presages a good year for Florida resorts. Every train which is announced in the A. C. L.'s new schedule will carry the best equipment which it is possible for this road to lend to the comfort of its passengers.—Times-Union.

The Herald for first class job work.

800 PATIENTS BURNED TO DEATH IN TOKIO

SHANGHAI, Sept. 6.—Eastern News Agency report from Haranomachi today said 800 patients in the Imperial University hospital at Tokio were burned to death and that the Imperial Palace had been opened to refugees.

The report said some large buildings had escaped damage, including the Department of Justice, Navy and Supreme Court and House of Representatives buildings and the Tokio prefectural office and the Imperial Hotel.

The buildings reported totally destroyed include the Bank of Japan, the Mitsu Bank, the Yasuda Bank, and the Tih Bank.

Princess Nagata Kuni and Hiko Kanin and Prince Kanin are reported safe.

Mr. and Mrs. S. O. Shinholser and family returned Tuesday from a delightful camping trip on Awastasia Island.
