

"Insurance At A Savings"
 Our Five Year Annual Renewal Plan
 All fire and windstorm insurance policies which may be written for a term of 5 years, we attach the following renewal endorsement:
 "This insurance may be continued in force for successive years by paying 80% of the annual premium per annum."
 In addition to the reduction in the renewal premium, we pay you a dividend each year, which has never been less than 20%. You save in two ways—reduction in premium and yearly dividends.

Court Rules Talmadge Is Georgia Head

Judge Says General Assembly Did Not Exceed Rights By Electing Governor

MCDONOUGH, Ga., Feb. 12, (AP)—A Georgia Superior Court Judge ruled today that Herman Talmadge is the legal governor of Georgia.

He said that the legislature was within its constitutional rights when it elected Talmadge to the, four year term of his father, the late Eugene Talmadge. The decision is in direct opposition to the finding of another Superior Court Judge. Last Friday, Judge Claude Porter ruled that the legislature had exceeded its authority and that Talmadge's election was invalid.

Today, Judge Hendrix, sitting in McDonough, dismissed a suit brought by Lieut. Governor M. E. Thompson for a judgment ousting Talmadge. The judge said it is clear that the general assembly has the right to decide when there was no election by the people and that it did decide that on account of the death of the elder Talmadge, there had been no election by the people.

Thompson's attorneys said they would immediately appeal Judge Hendrix's decision to the Georgia supreme court.

Police Plan To Aid Prisoner Recaptured After 1933 Escape

MOBILE, Ala., Feb. 12, (AP)—Two Alabama sheriff's deputies who arrested a 35-year-old combat veteran as an escaped life termer from Florida now are planning to aid the man they captured.

Deputies J. C. Holcombe and H. C. Hall said they are going to give James Soles their \$25 reward and do everything they possibly can to help Soles gain his freedom. The deputies identified Soles as a convict who escaped from a Florida prison camp in 1939 while serving a term for murder.

But since that time, the deputies said, Soles served 39 months in the Army, including combat duty with the late General George Patton's Third Army.

The Alabama officials said they found Soles living in Mobile under the name of James Rogers and earning \$100 a week as a foreman for an engineering firm.

Truman Is Urged To Send Coal To Britain

NEW YORK, Feb. 12, (AP)—Former New York Governor Herbert Lehman urged President Truman today to have the United States dispatch the maximum amount of coal possible to Britain. In a telegram to Mr. Truman, Lehman expressed bitter disappointment at the British attitude toward Palestine. But he added that he could not allow this disappointment to blind him to the needs of Britishers suffering from lack of fuel.

Dr. Frank Quillman To Address Jaycees

Dr. Frank L. Quillman will speak at the Junior Chamber of Commerce luncheon meeting tomorrow on the development of viable health progress and the work of the Public Health Unit of Seminole County. Dr. Quillman is the director of the Seminole County Health Unit.

GRAND JURY CONVENES

The Grand Jury of the Circuit Court will convene tomorrow morning at 10:00 o'clock to consider certain matters brought before it. O. P. Herndon, clerk of the court, announced this morning.

Doe Makes Herself Right At Home

Although "Bally," a year old dog, was given her freedom by Mrs. William H. Russell when she was two months old, the grateful dog returns regularly to the Russell home at Lake Denmark, N. H. and makes herself right at home with two other pets. On her return visits, the dog never brings her (own) to the house "Bally" is shown standing on her hind legs as Mrs. Russell offers her a favorite treat.

Kiwanians Enjoy Luncheon Address By Lee Ragsdale

Western Union Executive Tells Story Of Communication

Kiwanians got a real treat today in the form of rapid fire wit, humor or optimistic forecast of the future when they were addressed by Lee Ragsdale, past president of the Chicago Rotary Club, present assistant to the vice president of the Western Union Telegraph Company and nationally known lecturer, humorist and philosopher. He was introduced by Dr. Luther J. Doss, and was afterward thanked for his talk by Lester Sharp, club president.

Mr. Ragsdale got his listeners in good humor by declaring that he was slightly frostbitten, told of the many Kiwanis clubs at which he had talked and said that he believed that his travels had been exceeded by no man and by only one woman.

Reverting to more serious vein, he told of the rapid improvement in modern communication, which for 2000 years was no faster than the ox-cart that carried the bearer of news. Stressing the slowness of conveying messages in the day prior to Samuel Morse, inventor of the telegraph, he said that the Battle of New Orleans was fought and 700 lives lost, 15 days after the treaty of peace had been signed.

Enemy Weapons Of Last War Exhibited

An interesting display of bombs, torpedoes and weapons used during World War II by the Japanese, Nazis and Italians was shown yesterday in a huge truck parked in front of the Krummelt and Anderson Drug Store.

Of particular interest was an Italian man-guided torpedo with a dummy diver in the pilot in his divers' clothes. This torpedo, guided under water, was fastened to the hull of the doomed ship; then the pilot made his getaway. Other exhibits included a large Nazi radio-guided bomb dropped from a plane, in order to explode various types of gas, including the Nazi burp gun and Jap knee mortars, a 600 horsepower jet power German motor of amazing compactness, and various types of machine guns, cameras and equipment used by enemy forces.

Stern Says Signing Contract With CIO Guild Was Mistake

Suspension Of Paper Is Explained By Former Publisher

WASHINGTON, Feb. 12, (AP)—J. David Stern told the House Labor Committee today that by becoming the first publisher to sign a contract with the American Newspaper Guild (CIO) 10 years ago, he had put newspapermen "in the straight-jacket of a union pressure group."

"All my aims have turned to dust," he said in an emotion choked voice. "I have done more to harm the position of the working newspaperman than to benefit him."

Stern testified at hearings on a Guild-management dispute that developed into a strike November 7 and ended January 31 when he announced the sale of his Philadelphia Record and Camden, N. J. Courier-Post and radio station WCAU to the Philadelphia Bulletin. The committee is not seeking to fix responsibility, but is looking for guidance in its study of proposed changes in labor laws.

Facts Wanted About St. Johns River Boats

Any information concerning former St. Johns River steamboat mail service history and operation has been requested in a letter to The Herald by Vernon L. Arditt, Sr., whose address is care of W. W. Lipscomb, East Second Street, Farnville, Va. He would like to know when the old boat routes were established or discontinued, information about operating companies, mileage, routes and all about boats, former personnel etc. He would also like old steamboat stationery, envelopes. In fact a whole history of central Florida water mail routes.

Retired from the Naval service by injury, Mr. Arditt is making a hobby of collecting this kind of information which some Sanford "pioneer" may be able to supply.

Reduction In Regular Army Is Anticipated

Plan Depends On Universal Training; Additional M-day Force To Be Ready

WASHINGTON, Feb. 12, (AP)—Members of the House Armed Services Committee today disclosed War Department plans for a reduction of almost \$200,000 in the regular Army. The plan also calls for the establishment of an M-day force of 1,750,000 trained men. By an M-day force is meant troops ready for immediate mobilization should the need arise.

Committee members said the plan depends upon a universal training program to build up the National Guard and the organized reserves so that within one year from M-day the force could be expanded to 5,500,000 men. The congressman said that just how quickly the reduction of the regular Army will be effective depends largely on international developments.

Pilot Club Reveals Milk Pool In Need Of Additional Funds

A report from Mr. Edward Kitcher, general chairman for the Milk Pool sponsored by the Pilot Club at the meeting of the club held in the Tourist Center last night revealed that funds thus far promised can furnish milk for only four needy persons, whereas the need is far greater.

Mr. Kitcher stated that there are more than 65 persons in Seminole County in need of milk. These figures resulted from a survey of the State and County Welfare Organizations, the Tuberculosis Association and the Seminole County Health Unit. This, however, is not complete, he said.

The Pilot Club contributes \$15 monthly toward this pool and an appeal has been made to various church groups, fraternal organizations and civic clubs to assist in this worthwhile project.

Mr. Mary Rawlins, president, announced plans for the "young council" which will be held at the Marston Hotel in Ocala on April 26-27. She urged as many as could to attend and to make their reservations early.

A committee composed of Mrs. Frank MacNeill, Mrs. B. E. Chapman, Mrs. C. L. Powell and Mrs. Maude Ramsey was appointed to work out plans to refurbish the room which the club maintains at the hospital and the amount of \$75 was allocated for this purpose. The club plans to participate in the hospital drive which will be underway sometime this month.

Canfield Cook, author and lecturer, visited the club and talked briefly on aviation and the part Sanford can play in the future with "its wonderful facilities for aviation."

Plans were completed for the official visit of Miss Allie Lee Rush, district governor of District Four, from Ocala, who will be here on Feb. 25. All committee chairman were requested to bring written yearly reports to this meeting.

The resignation of Mrs. O. M. Harrison was accepted with regret and three new members were proposed. There were 21 members present.

Hoover Reviews Guard Of Honor In Germany

FORMER PRESIDENT Herbert Hoover (center), accompanied by Gen. J. T. McNarney (right), head of U. S. Occupation Forces, reviews the guard of honor which met him on his arrival at the Frankfurt, Germany, airport. Hoover is touring Germany and Austria to investigate the food situation there. (International)

Proclamation By Mayor Gut Names Feb. 16 Hospital Day

Campaign For Membership And Funds To Start Sunday

Next Sunday has been proclaimed as Hospital Day by Mayor H. James Gut and a campaign to induce many citizens of the county to become members of the Fernald Loughton Memorial Hospital Association and to contribute toward the building of the new hospital will be started with A. B. Peterson as chairman.

The Fernald Loughton Memorial Hospital Association operates the only hospital in Seminole County and is a non-profit organization. It is not a charitable organization and its operations are not subject to revenue received from hospital services and medical fees. Mr. Peterson pointed out.

The following articles are needed to equip completely the new hospital: In the nursery, 7 baby cribs, 20 basket lamps, 75 baby beds, 40 wood baby blankets, 75 wood baby beds.

General needs include 500 yards of red rubber tubing for soundproofing, 1000 feet of walking floor matting, 2000 feet of electric chime, 1000 feet of electric tubing, 1000 feet of electric tubing, 1000 feet of electric tubing, 1000 feet of electric tubing.

Needed in the ward are 40 gillow coves, 150 sheets, 150 draw sheets, 150 dress scarfs, 150 face towels, 150 tray cloths, 100 blankets, 100 tray covers, 100 napkins, also hospital gowns.

COMMISSION MEETS

The City Commission, which on Monday evening was unable to hold its regular meeting due to cold weather and lack of heating in the Commissioners' room at the City Hall, will meet tonight at 7:30 o'clock, according to H. N. Sayer, city manager.

PROCLAMATION

In the interest of all of our citizens and tourists, and to promote the upbuilding of our hospital facilities in this city in their new location at the Sanford Municipal Airport, I, H. James Gut, Mayor of the City of Sanford, Florida, do hereby proclaim Sunday, February 16th, 1947 as Sanford Hospital Day.

I urge all of our citizens and visitors, if they have not already done so, to become members of the Fernald Loughton Memorial Hospital Association as in so doing they are helping to increase hospital protection to their families.

H. JAMES GUT
Mayor

Plans Announced For Jaycee Meeting In Palatka Feb. 15, 16

Plans for the annual meeting of the Junior Chamber of Commerce and the Jaycee Club will be held at Palatka, Fla., Feb. 15 and 16. The meeting will be held at the Palatka Hotel and will include a luncheon, a dinner and a dance.

George Mitchell, chairman of the Jaycee Club, stated that the Jaycee Club meeting will be held at the Palatka Hotel at 2:00 P. M. Feb. 15. The Jaycee Club has been organized by the Junior Chamber of Commerce and is a non-profit organization.

Joe Crabb, festival chairman, stated that reservations are being made for the weekly meeting and club activities. The club will be organized in the Palatka Hotel at 7:00 P. M. Feb. 16.

At that time the 1947 Jaycee Club will be elected from a group of girls representing various Jaycee clubs over the state. Bill Carter, associate editor of the Florida Newspaper News, will give a master of ceremonies during the dinner contest. The Jaycee Club will receive a banquet and the Jaycee Club will receive a banquet.

Reveal War Plan To Protect Documents

SPRINGFIELD, Ill., Feb. 12, (AP)—A wartime plan to remove government historical documents from the nation's capital to Springfield, for safe keeping, has been disclosed today. The disclosure was made by the Illinois Secretary of State, Edward Barrett, who said that in a favorable military situation in 1943 resulted in cancellation of the project.

Barrett said that the documents, including Abraham Lincoln's emancipation proclamation, had been packed and crated for shipment prior to the cancellation order. Springfield was chosen, the state secretary explained, because of the city's fire-proof state archives and because of its remoteness from the danger of coastal bombing attacks.

Celery Feds Drop Game To Bulldogs

Seminole High School basketball split a twin bill in DeLand with the Bulldogs last night. The varsity dropped a 38 to 28 decision while the Baby Feds topped a 42 to 12 contest.

Harold Kastner, Willis Anderson and Buck Gammage paced the Fed attack by scoring 7 points each. Lloyd Swain tallied four points and Clarence Grantham scored three.

Crop Damage Is Estimated At \$50,000,000

Federal Bureau Releases Figures; 7 Day Embargo Effective Last Night

WASHINGTON, Feb. 12, (AP)—The first monetary estimate of the total damage to Florida citrus and vegetable crops in last week's bitter freezing weather was made today by the Federal Weather Bureau in Washington who said the damage will amount to \$50,000,000.

Sources in Florida have not announced a general figure, but observers agreed that the damage was the most severe in many years. The weather bureau said the cold weather struck sharply at unprotected citrus groves, except in the Indian River, lower East Coast and West-Central coastal areas.

The bureau report said losses to the vegetable crop were very heavy except in the Bradenton-Egmont area, where the damage was light.

At Lakeland, a court order will be sought to permit citrus grove plants to operate during the seven-day embargo on citrus shipments.

The Florida Citrus Commission ordered the shut-down in order to prevent fruit affected by the past week's freezing weather from leaving the state.

After the embargo has been lifted, growers will face what has been described as the toughest shipping regulations since imposed after the Federal marketing committee have recommended that oranges shipped in the so-called combination grade must contain 65 percent number one quality and 35 percent number two grades.

H. M. Eddy, head of the Florida Citrus Inspection Commission and George Copeland, supervisor of state inspections, said that rigid inspections would be made to detect and eliminate fruit damaged by the freeze.

The embargo against fruit leaving the state goes into effect at 12:01 a. m. fruit production on all citrus markets. Buyers, acting in anticipation of an embargo, paid the highest prices for citrus fruit since last October.

The immediate effect of the embargo is the temporary discontinuance of advanced perishable train operations. The Atlantic Coastline, Florida East Coast and the Seaboard Airline Railroads announced that operations known as "third morning" trains would be stopped for the week.

Safety Award To Be Given W. M. Black

W. M. Black, division superintendent of the Atlantic Coast Line Railroad, will receive one of the annual Safety Awards for 1946 in a ceremony on Feb. 14 to supervisory officers of the railroad whose departments achieved the best safety records on chargeable injuries per million train hours.

Director of Safety and Insurance Robert Scott will make the presentations in Savannah following a luncheon held in connection with the railroad's annual System Loss and Damage Prevention meeting. More than 150 employees of the Coast Line and their families are expected to witness the ceremony.

SHIRNER DINNER
A dinner meeting of the Sanford Shrine Club will be held at the Seminole Country Club on Friday night at 7:30 o'clock. All members are urged to be present according to Roy E. Wright, Jr., secretary of the club.

Over Half Of Nation's Farms Have Electricity

By JANE EADS
WASHINGTON—The prospect of keeping the young people down on the farm is growing brighter with the development of better living conditions in the rural areas, according to agricultural officials.

Now 52 percent of the nation's 6,000,000 farms have electricity. It is expected that by 1955 expansion of the power lines will up this figure to 90 percent.

Since 1936 the percentage of farms homes served by the Rural Electrification Administration (REA) and private utilities has grown from 10.9 to 52.9.

An unofficial REA year-end report states that during the 1946 calendar year approximately 265,000 new consumers were added to REA-financed power lines. This was 50 percent greater than calendar 1945. In addition 24 my systems were established.

And the Rural Electrification Administration Exchange, a fact-finding outfit sponsored by private utilities companies, reports a budget of \$300,000,000 has been set up to finance construction of new lines.

Many farms now have good water supply, bathrooms, refrigerators, radios, frozen food lockers and modern household equipment.

The Rural Electrification Administration, which makes loans to local cooperatives, enabling the farms themselves to build the lines and operate the systems, was established in 1935 as an independent agency.

It became a part of the Department of Agriculture in 1939. Borrowers of REA loan funds are electrified about half of the rural areas which have been electrified in this country since 1935.

For the two years ending July 1947, some \$550,000,000 was authorized by Congress for REA loans—more than the total sum made available in the organization's previous nine years of operation.

Stern Says Signing Contract With CIO Guild Was Mistake

(Continued from page 1)
Harris, president of the Philadelphia Industrial Council of the CIO, testified yesterday that the real reason behind the dispute was Stern's "troubled personality."

Stern said that Eubank's assertion was "such a childish and obvious lie that I feel demeaned by answering it."

"I am making statement for the discharge I have rendered this great institution (journalism) as the first publisher who recognized the newspaper guild," he said. "I have retired from business at heavy personal loss. I saw no other way to warn this Nation against the cancerous growth that jeopardizes the great institution to which I have devoted my life."

Stern said that when he signed his first contract with the guild, he believed it would operate as a craft union for writers, photographers and artists, and he hoped it would raise journalism to the same standard as medicine and law.

But, he said, it "backed" a few years later to discover that the guild had become an industrial union which included clerks, stenographers and telephone solicitors.

He claimed that the wage demands presented to him would cost more than \$1,500,000 a year, that the guild knew that he had suffered heavy financial losses because of the 1946 newspaper shortage, and that "it was common talk among the guild members that because of my weakened financial position I would be a pushover."

Representative McConnell (R., Pa.) sponsored Stern about a suggestion made yesterday by a committee member that the guild "tough" in its negotiations after Stern began "hampering" away at communism. Stern replied that he began his attacks on communism in 1936 and that the guild started to "pull and heckle" him in 1937, but that he couldn't draw such a parallel.

"I have no proof of what that outside force is," he said, "I have a great idea."

He told the committee that CIO President Philip Murray had "palmed" with the Communists, and that the country's labor movement was "led by leaders and technicians, to storn the bias of British inanity."

He spare moments between being a janitor and waiting after his constituency, Christopher Shawcross is re-forming the Communist Channel Tunnel Committee, bringing its members on all the answers to objections it will have to face.

The Defense Factor
Prime among these is the belief that a passageway from Britain to France would jeopardize the island's defense plans.

A number of tabs were awarded to Kiwanians for perfect yearly attendance by Martin Sitcheppoff, who in turn received an award from Pres. Tharp. F. Hasky Wright in attendance during seven years record. Awards were also given to B. B. Crumley, Dr. Luther Doss, E. C. Kipatric, Roy Mass, R. A. Smith, J. W. Hall and Judge R. W. Ware.

Plan Is Revived To Dig Tunnel Under English Channel

By HAROLD G. LAYCOCK
AP Newsmasters
LONDON, Feb. 12—Plans to dig a tunnel under the English Channel and link England and France with direct rail service, a dream that was conceived half a century ago, have been revived in British parliamentary and industrial circles with up-to-date arguments including American dollars as prime bait.

Proponents of the project see the hole they wish to dig as a tunnel or trade when the cabinet of American tourists bulging bill-folds begins to swirl over the continent.

They point out that in times past many Americans used to sidetrack Britain to save themselves the trouble of leaving, and unhappy, over the gradual of an erratic little steamer making the worst of the English Channel.

"Air travel, with its seasonal uncertainties, say the tunnel sponsors, has not overcome this American prejudice against calling on Britain.

This is one of the reasons the Channel Tunnel Committee of the House of Commons is stirring in its chambers and preparing skilled industrialists and technicians, to storn the bias of British inanity.

Leader of the attack, hammering Prime Minister Clement R. Attlee's slogan "We must now be regarded as part of the Continent of Europe," Labour Member of Parliament Christopher Shawcross, brother of Attorney General Sir Hartley.

He spare moments between being a janitor and waiting after his constituency, Christopher Shawcross is re-forming the Communist Channel Tunnel Committee, bringing its members on all the answers to objections it will have to face.

The Defense Factor
Prime among these is the belief that a passageway from Britain to France would jeopardize the island's defense plans.

The opposition claims that particularly in these days of paratroop warfare, our end could be captured before we'd have time to blow it up. But there are plenty of good strategic arguments against that, said Shawcross, who was an officer in the Royal Navy's intelligence and a member of the Post-Hastings Planning Staff of the War Cabinet.

"No, the best trump the opposition holds are shortages of materials," he admitted. Though an experimental 2000-yard bore, burrowed nearly 50 years ago near Dover, had shown solid chalk the whole way and still remains dry today, Shawcross said people might be "nervous" if the eventual tunnel were not lined, and that would mean a lot of steel.

Success Of Tourist Program Stressed At Commerce Meeting

(Continued from page 1)
Plans for the Southeastern States Gilder Contest which will be held in Sanford on Mar. 1 and 2 were explained to the board by Jack Hattigan, president of the Junior Chamber of Commerce, who said that from 18 to 25 planes with 30 to 40 pilots are expected to participate.

Trophies for the event, he added, have been ordered and will soon be placed on display. It is hoped that more than 10,000 persons will attend the meet.

Manager Higgins reported that work is expected to begin soon on the deepening of the St. Johns River and revealed that more than \$1,000,000 has been spent on Seminole County roads within the past year. Road 202 is nearly completed, he said. Road 203 have always fought. Now, at Long Wilton, Roland Dean, H. J. Lohr, and too late for my own name, H. H. Coleman, R. L. Corley, and too late for my own name, J. C. Hutchison and J. C. Green of Longwood.

Others present at the meet included B. B. Crumley, John Brunley, E. G. Kilbee, J. L. Ingley, W. A. Morrison, Fred Wilson, Roland Dean, H. J. Lohr, and too late for my own name, H. H. Coleman, R. L. Corley, and too late for my own name, J. C. Hutchison and J. C. Green of Longwood.

CITRUS SPREADS
By Isabelle S. Thibault
Extension Food Economist
Now is a good time for making citrus spreads and preserves of our abundant citrus crop. Citrus spreads and preserves not only add sparkle and flavor to hot biscuits and toast but they also pack sandwiches with a real nutritional punch.

That is, if Florida cane syrup, spreads that are beautiful in color and delicious in flavor, possessing real food value, may be made. That is, if Florida cane syrup, honey, and other syrups are substituted for sugar. They will not be of that same pre-war jelly consistency, but, nutritionally speaking, they may be even more valuable than those made with sugar in pre-war days.

Sugar Stretchers
Many a home-maker has learned how to substitute cane syrup, honey, and sweet corn syrup for part or all of the sugar desired for her fruit jam and butter spread. She has learned how to make the most of sugar found naturally in the fruit and which fruits give the most desirable results with such sugar stretchers.

Of these products, only honey make as sweet a product as sugar. If only the mildest honey is used, the flavor of the fruit will not be submerged in the honey flavor. Use of half honey and half sugar, if sugar can be spared, gives a more natural fruit flavor and better texture in the finished product.

If mild-flavored citrus fruits are used, 1 1/2 cups are required to equal 1 cup of sugar in sweetening values.

Spreads in which syrups or honeys are used require somewhat longer cooking than those made entirely with sugar.

High-flavored citrus fruits with high acidity are particularly suitable for making spreads or preserves with honey or cane syrup, as they offset the distinctive flavors of the sugar substitutes.

Steel Wage Pact Extension | Deway-Taft Ticket Talked Strategic Move by Murray | Though Convention Far Off

WASHINGTON—CIO President Philip Murray's decision to extend the steel wage contract to May 1 adds up to a neat bit of strategy...

Murray's contract would have expired Feb. 15—right in the middle of congressional consideration of new labor legislation...

Another industry-throttling strike—such as steel—would have fired congressional tempers and brought drastic labor legislation down on the head of the CIO...

Murray adroitly stepped, however, and put Lewis on the spot. The miners have been ordered to stay at work until March 31...

If the union-operator talks fall, the miners will be obligated to lay down their tools at midnight March 31. In such a situation, Lewis would be the target of Congress...

SOME OF THE MOST ardent backers of Gov. Thomas E. Dewey for the Republican presidential nomination already are planning to offer a compromise to Ohio's Senator Robert Taft...

These Dewey supporters see Taft as the man most likely to beat their candidate in his bid for a second chance to head the ticket...

However, they also figure that Taft might be influenced to throw his weight behind Dewey and release the Ohio delegation in event a deadlock develops which would otherwise pave the way for a "dark horse" candidate...

This compromise would be in the form of the vice presidential nomination. But it must be remembered that the Dewey backers plan to offer the vice presidential nomination to Taft only as a eleventh-hour strategy...

There is considerable doubt whether Taft would consider second place on the GOP ticket. He still smarts under losing the nomination to Wendell Willkie in Philadelphia in 1940...

THE REPUBLICAN BILL TO REDUCE personal income taxes 20 per cent is sure to be thoroughly rewritten before it is ever passed by Congress...

Rep. Carl T. Curtis (R) of Nebraska, a member of the House ways and means committee, predicts the committee will change the bill to give low-income taxpayers a larger percentage tax cut than those in higher-income brackets...

In the Senate, Senator Taft (R) of Ohio has thrown out suggestions that taxpayers earning up to \$3,000 might be given special consideration...

PORTAL TO PORTAL

WASHINGTON LETTER

By JANE EADS

WASHINGTON—The people in Siam hadn't seen an American magazine in five years. Then State Department officials in Bangkok, the Siamese capital, learned that thousands of bags of U. S. mail, most of it magazines...

They wangled 150 bags of the mail—five tons in all—and had it shipped to Siam. They set about to issue it with the compliments of the U. S. Information Service...

Assisting our people in Bangkok were about 20 of their Siamese friends. "Siamese princesses worked side by side with their hairdressers," one American official reported...

The magazines were sorted into three general classifications: A full list of all periodicals received for higher officials...

A partial list to be given lesser officials. A special list for schools and libraries...

"Compliments of USIS—not to be sold" was stamped on each magazine, both in English and Siamese...

Complete packets went to the editors of the 55 publications in Bangkok—the Siamese, English and Chinese language papers...

Packets were sent to the 31 government ministers, offices, officials and government libraries in Bangkok...

Twenty-five packets, especially selected for library use, were sent to schools and other libraries...

The governors general of Siam's five provincial districts received complete packets, as did the governors of about 70 other communities out in the "sticks."

Schools and hospitals, military and naval bases, the American

legation and the American University Association received other packets. More than 4,000 magazines were distributed. Officials in Bangkok reported

that as the distribution to the approved lists progressed they were swamped with requests for "some of the magazines that USIS is giving away."

Communism In America

Florida Times - Union

Communism is an enemy that the United States should stamp out, and the job should be done quickly and thoroughly. With the elimination should go every individual and every organization that has anything to do with spreading this vicious theory of government in America...

No Patriotic American can read the articles that have been appearing on this page during the past several days about the Red Canadian spy ring and testimony before the House Committee on Un-American Activities about the activities in the United States of one Gerhard Eisler, who refused to take an oath that he would tell the committee the truth about what he has been doing in America for many years...

Two years later the negro said he met Eisler in Detroit when he himself was working on propaganda agitation for the Communist Party and helping organize the American Negro Congress. In this information we get an accurate picture of the kind of government America is dealing with in Moscow—a government the people of America are urged to try to understand and be friendly with...

Americans could be friendly with the Russian people, indeed they are their friends, but obviously they cannot and will not be friends with the Government of the Russians—the Government that is trying to force Communism, with all its vicious evils, upon the United States. And it cannot be too strongly emphasized that anyone in this country who calls himself an American that tries to further the Politburo's program here is an enemy of the United States, and should be treated as such.

Now in Production—the 1947 Model. Marked by smart new innovations in both exterior and interior design—the 1947 Cadillac is now on display. It is the most handsome, the smoothest, finest performing Cadillac ever built...

THE HESSE CROWN JEWELS, allegedly stolen by Col. Jack W. Durant and his wife, are carried from a plane in Washington by two alert MPs after their arrival from Frankfurt, Germany. The \$1,500,000 jewels were brought to the U.S., after it was decided to hold Col. Durant's court-martial in America instead of in Germany, to permit persons in this country to appear as witnesses. (International Soundphoto)

Spring Football Practice Begins At Local School

Kettles Announces Bright Outlook For Coming Year

Seminole High School has opened Spring football drills and prospects show that the Feels will field another powerful aggregation this Fall.

Approximately 30 prospective players have answered coach Carl Kettles' call, among whom are many stalwarts from last year's team.

Opening sessions consisted of issuing equipment, setting up exercises and some fundamental drills.

"Our prospects for a good season are better than those of last year," Kettles states.

The loss of such stalwarts as Harold Kastner and Bill Ludwig in the forward wall will surely be felt, but there are many fine replacements.

Kettles announced that Bill Ludwig and Willis Anderson had received certificates from The Miami Herald naming them on the Little All-Star team. Harold Kastner received honorable mention and a certificate.

Fishing Made Easy - Just Read A Book

GROVE, OKLA. (AP)—Fishing at Grand River in northeastern Oklahoma is being made a simple as reading a book.

Come next spring when fishermen start dropping their line in the 55,000-acre reservoir, they will be handed sketch maps showing the location of fish concentration shelters now being constructed.

It's all part of a program by the Grand River dam authority and the Oklahoma Game and Fish Commission "to bring fish and fishermen together."

The gathering places, to be numbered on both maps and shore posts, are made of brush and logs securely tied together and anchored with large stones in spot selected by a trained biologist.

Some will be under several feet of water and others will run out from the shoreline like rail fences.

The commission said that when an angler wants to get a few fish for dinner, all he will have to do is decide what kind he wants and refer to the booklet. It will read something like this:

"Number 17, 40 yards straight out from shore marker, an overhanging bank for both crappie and bass. Use deep-running plugs or fish with live minnows over and around shelter."

To make sure cat fish will be easily caught, large catfish pens are being constructed of stone. O'Reilly Sandoz, the commissioner's senior biologist, said that the brush shelter is not an experiment but has been proven. "The fish will be there," he promises anglers.

SPORTS ODDITY

By Associated Press

There are pitchers in baseball who often give away the pitch they are going to make by certain tell-tale signs.

Listen to Willie Papp's description of how Babe Ruth used to tip his hand when pitching for the Boston Red Sox.

Papp, at that time Yankee first baseman, says: "I always knew when the Babe was going to throw a curve ball. He invariably stuck out the tip of his tongue."

How To Get Clipped At A Race Track

HALLANDALE, Fla. (AP)—Gulfstream Park, which opens its winter season of racing on March 5, is making many improvements for its patrons.

One of them include a modern, well-equipped barber shop on the mezzanine. For those clubhouse patrons who want to get clipped at Gulfstream's honorial parlor, the mezzanine promenade may be reached through a new entrance at the south end of the main grandstand.

HE STUDIES, TOO

ST. LOUIS, (AP)—George Munroe of the St. Louis Bombers of the Basketball Association of America, acquired Phi Beta Kappa rank at Dartmouth, and then ranked first in a 1,200 man class at Columbia University Middlemen's School. He will enter Harvard Law School at the end of the basketball season.

ALL-AROUND HELP

By Jack Sords

JACK LANDON,
BRILLIANT ALL-AROUND GUARD OF THE UNIVERSITY OF OKLAHOMA FIVE

INSIDE SPORTS REPORT

By ARTHUR BECKWITH, JR.

Palatka's Skipper

Johnny Loncoff has been signed to manage the Palatka Azalea entry in the Florida State League during 1947. It was announced recently by the directors of the Palatka organization.

Johnny is a popular fellow in the Azalea City and his taking over the reins of the Palatka club sends the hopes of the Palatka people a little higher to ward the thoughts of pennant winning.

Johnny graduated from the University of Illinois, and was immediately signed by the New York Giants. The Giants shipped him to Dothan, Ala. in the Alabama Florida League. He moved about from club to club and came to rest with the Jacksonville Tars in the Sally League in 1942.

He played with Jersey City of the International League in 1944 and 1945. In 1946 he started the season with Shreveport of the Texas League and remained there until purchased by the Azaleas.

Johnny's ability to handle men was noticed immediately after having arrived in the Palatka camp last July. He intervened in many squabbles that may have otherwise been drawn had he not been on hand.

The new skipper found Florida State League pitching to his liking last season, and completed the year with a .308 average to place him among the best hitters in the league.

Loop Rule Change
It seems as though John Ganzel and his 'Chain Store' managers were soundly defeated in their rookie rule that was proposed at the recent league directors meeting held in Orlando.

The Orlando general manager

Wanted the 1946 rookie rule, which stipulated that there be four rookies on each club roster, be changed and hiked to six in this classification.

Teams, like the one Ganzel represents, has the backing of a large chain of teams. Why should the independently owned and operated clubs jeopardize their very existence by supporting a rule such as this one?

Dode Fuller, president of the Daytona Beach Islanders paced the attack on increasing the rookie rule.

Willis Anderson

We received in the mail Saturday a letter from Willis Anderson which read as follows:

"I received a letter from Ash Wing, president of the Florida State Sports Writers Association. In the letter he mentioned you in regard to the fine information that you sent him during the current football season. This information helped him greatly in helping him to work on the selection of the most outstanding high school football player in 1946.

"I wish to thank you for all the troubles and efforts that this information must have been to you. So, again I sincerely thank you, and I will hope that I can repay you in some way at any time."

There are but very few lads of high school age that would appreciate the help that was given him in securing honors on the grid iron enough to let anyone know about it. He is a good athlete and an exceptional student. We wish him well in his future football career, and may it be a prosperous and successful one.

YOU'RE TELLING ME!

By WILLIAM RITT, Central Press Writer

"STAR LIGHT, STAR BRIGHT—" ASTRONOMERS have found a stellar object they say is 200,000 times hotter than the sun. Though Old Sol can get pretty well steamed up along about July and August, this new star makes him seem little more than a round tea caddy.

A confirmed winter hater, we wouldn't trade Old Sol for this new hopped-up sun—unless Earth could stay 20,000 times farther away from it than we are from our celestial Papa.

Soth, as a satellite of such a super-heater, would have about as much chance of a snowflake trying to get friendly with a blow torch.

"A star," sky students say, "tosses off its mass and energy

in radiation." In plain English, this new sun is throwing its weight around like a celestial lumb in a stellar barroom.

Let's just hope that Old Sol, who is making the rounds of space (and us with him) has sense enough to stay out of those precincts where the temps—and temperatures—are more than slightly terrible.

Hey, Mudd! Get your head out from under those blankets and turn off the light. We couldn't reach that hot-body star in 10 times quadrillion years!

In fact, that torrid twinkler is so far away that even with a king-size telescope it looks no bigger than a spark from a cigaret lighter that's about to go out by business.

YOUR HOME MERCHANTS ASK YOU TO "BUY AT HOME"

THE CLUBHOUSE

By JIM BECKER, AP Newsfeatures Sports Writer

NEW YORK—The boss turns to me and asks: "How'd you like to be a movie critic?"

I think how wonderful it would be to write about Jane Russell for a change instead of her husband, Bob Waterfield, and I think that this movie reviewing racket is a good way to get hob-nobbing with Miss Russell and away from the smoky Garden, the frigid football stadiums and all them gnats at Ebbets Field and into the nice, wholesome air of a movie theater.

So I jump at the chance. "Give me the ticket and I'm the movie critic as of now," I say. The ticket reads "Hotel Commodore" which is no movie theater but is a high class hotel about half a buck's cab ride from here.

But I go anyway because I think maybe it will lead to something better.

I arrive to begin my new life of refinement and who do I see but the same old free-loading sports writers from the smoky Garden, the frigid stadiums and the Ebbets Field gnats. All are movie reviewers for a day, and it turns out that the picture is a job produced by the American and National Leagues and was written and directed by Lew Fonseca, who managed the Chicago White Sox in 1932 and '33. Both teams finished in the second division. His pictures are doing much better.

I sit down at the table with the same guys as usual. There aren't any speeches, which is unusual for one of these things. Pretty soon they show the movie and it is a pretty good job despite a few weak spots.

The first film runs 30 minutes. It's about batting stars and designed for 16 millimeter showings to high school players, amateurs and minor leaguers. I think it would have been a better movie if the film had concentrated on the two great baseball hitters—Ted Williams and Stan Musial—and spent a lot less time on some guys who field their positions like ratty nicking machines but don't hit their weight. The batting styles

of a bunch of guys who hit around .275 when the wind is right, are shown.

The second part of the picture is about the All-Star game and the World Series. It is the best of the two. However, the most important play in the Series—when Slaughter runs all the way from first to home with the winning run in the eighth inning of the seventh game—is glossed over very rapidly. This could have been slowed down for more careful study.

The films can be obtained for high schools, colleges, clubs, etc., by writing Lew Fonseca, American and National Leagues of Professional Baseball Clubs, Room 907, 64 E. Jackson Blvd., Chicago (4) Illinois. Furnish a desired date for the showing and an alternate.

Now my movie reviewing days are over, and it's back to Waterfield, the smoky Garden, the frigid arenas, and those Ebbets Field gnats.

ERNE BONHAM,
FORMER NEW YORK YANKEE PITCHING ACE, RECOVERED FROM A BACK AILMENT AND READY TO GO ALL OUT FOR HIS NEW OWNERS, THE PITTSBURGH PIRATES

THE YOUNGEST prospect ever to be signed up in organized baseball, little Paul Frederick Weiser, Jr., gets the feel of the ol' apple at his home in St. Louis, Mo. The lot was signed by the St. Louis Cardinals to play with their Omaha minor league club in 1944. Sam Bresdon negotiated the deal when Bob Hall, president of the Omaha club, requested it as a token of his friendship for Paul, Jr.'s grandfather. The contract is for \$5,000. (International Soundphoto)

READY TO GO

By Jack Sords

ERNE BONHAM,

to the sidelines as Owen raged. The bewildered Soar said: "Gosh, Steve, I passed because I thought that guy said, 'Serve it up.'"

Owen growled: "Whatcha think we're playing, tennis?"

SPORTS LAUGH

By Associated Press

The New York professional football Giants were playing an exhibition game against an all-star team a few seasons back and were leading 10 to 0 with a minute left to play. They were driving toward the all-star goal, when coach Steve Owen sent in a substitute with orders to "slow it up."

On the next play Hank Soar threw a forward pass that was intercepted and ran almost the length of the field for a touchdown.

Soar was immediately called

Feature Ninth Race To Be Run Over 3-8 Mile This Evening

Shick Westerner and Gabby Jack formed a 4.5 ticket on the daily double at the Sanford Orlando Kennel Club last night to pay \$150.00 at the mutuels.

Betty Orchid and Switchman Pete returned \$92.20 on a 3-1 combination in the fifth race quintola.

Tonight's races include six events over the future distance, three over the 3/16 mile and the feature ninth's control will be run from the 2.8 mile box.

Tonight's entries are:
First race—Purity (4th mile race)
Navy Pilot, Jolly Jungle, Krene, Chickadee, Fortune, Hot Spurs, Ho Pletter, Truly By.

Second race—Purity (4th mile race)
Rocky Ridge, Retribution, Booker, Deans Copper, Serves U Right, Kiowa Ace, Time Limit, Your Telling Me.

Third race—Purity (4th mile race)
Swing Sister, Country Sue, Ben Lucky, Chances R, Krispy Kracker, Flat Bush, Fair Lark, Let Him Ward Me.

Fourth race—Purity (4th mile race)
Dawns Light, Kelly O'Brien, Rock Island, Johnny Walker, Plash Mar, Gosmore, Mar Ben.

Fifth race—Purity (4th mile race)
H. D's Lady, Our Label, Miney Mo, Taunton Girl, Sparkle Matron, Chanco, Whirlwin, Arrow Point.

Sixth race—Purity (4th mile race)
Flat Bush, Fair Lark, Let Him By, Lee Roy, Dark Thoughts, Cassina, Susie Bell, Pavot.

Seventh race—5/16 mile (1/16 mile race)
Captain Hagen, Pauline Shelby, Chans Fortus, Rural Speck, Passer By, Idian Blanket, Belloma, Hell's Boy.

Eighth race—Purity (4th mile race)
Billions, Trail Boss, Chans First Beachhead, Without A Doubt, Reddy Kilowatt, Mister Kay, Chans Chance.

Russia Makes Concession To Small Nations

12 Allied Countries In Europe To Participate In Drafting Peace Treaty

LONDON, Feb. 13, (AP)—Russia made an important concession in the Deputy Foreign Ministers meeting today. She dropped her objections to letting 12 smaller allied nations in Europe take part in the drafting of peace terms for Germany, American, French and British deputies all welcomed the concession. But there's one more point they hope Russia will agree to.

Russia does not want allied nations outside of Europe to have much to do with the drafting of Germany's peace. She objects to Canada, Brazil and Australia having anything but secondary roles. But American sources said they've argued strongly for equal representation of allies outside of Europe. American Deputy Robert Murphy said he doesn't see how a country like Canada can be shut out of any central committee, since she fought in the war from its very beginning.

A Soviet deputy proposed that countries occupied by Germany be admitted to a central standing committee. The committee will be set up by the foreign ministers when they meet in Moscow next month. It would send commissions all over Europe to look into all questions involved in the treaty, including territorial demands and reparations.

Embargo Officer Is Expected To Appeal Case To High Court

JACKSONVILLE, Feb. 13, (AP)—The citrus industry is waiting today to see the effect of a circuit court ruling which on its face has completely voided the seven-day citrus embargo insofar as it applies to canning operations.

Circuit Judge D. O. Ross of Bartow created the situation yesterday when he granted the Pasco Packing Company of Dade City a temporary injunction relieving them of obeying the canning provisions of the embargo.

Plans Are Changed For Byrd Expedition

ABOARD THE S. S. MT. OLYMPUS, Feb. 13, (AP)—The accident that crippled the U. S. transport Merrick has forced a complete change in the schedule of the Byrd Polar Expedition. It was announced today. The expedition commander, Rear Admiral Richard E. Byrd, said the Merrick will be towed to Wallingford, New Zealand, as soon as the very stormy weather calms down. Another transport, the Yancey, and the icebreaker North Wind have the job.

Grand Jury Reconvicts

The Grand Jury of the Circuit Court reconvicted this morning at 10:00 o'clock, and a record of cases to be tried was scheduled to take place at about 2:00 P. M., according to O. P. Harrison, clerk of the court.

Mark Meeting With Icy Surf Dip

MEMBERS OF THE ICEBERG CLUB mark their annual mid-winter meeting with a dip in the surf at Coney Island, N. Y. Although the water registers at 32 degrees and the air around the 12-degree mark, these hardy swimmers stayed in the chilly water for half an hour. (International)

City Baseball Club Makes Proposal At Commission Meeting

Plan Suggests Leasing Ball Park For Full Year Period

A proposal that the Sanford Baseball Association lease the Municipal Ball Park for a full year instead of from April to October as last season was made to the City Commission last evening by John Krider, vice president of the association. Action was deferred by the Commission until the next meeting. Commissioners Lea R. Lester and George Bishop were unable to be present last evening.

Mr. Krider, who was accompanied to the meeting by J. C. Mitchell and M. B. (T-Bone) Smith, stated that by the Association making its own arrangements in regard to team training here in the winter season, backing to the City Commission last evening by John Krider, vice president of the association. Action was deferred by the Commission until the next meeting. Commissioners Lea R. Lester and George Bishop were unable to be present last evening.

Following the request of the local posts of the American Legion and of the Veterans of Foreign Wars that additional lots be set aside in Evergreen Cemetery for burial of veterans, the Commission allocated eight additional lots with 64 grave spaces. The City had previously given 96 grave spaces in which 20 veterans are now buried, said City Manager H. N. Sayer. The request of the veterans organizations is designed to take care of space for burial of veterans of both World Wars, Sidney Richard of the American Legion told the Commission.

Survey Of Workers Made By Committee

WASHINGTON, Feb. 13, (AP)—A Republican congressman from Westchester County, N. Y., was back in Washington today with the results of a flying survey of workingmen's opinions, taken at the work-bench level. Rep. Ralph Gwinn, of Bronxville, N. Y., said rank and file jobholders are strongly in favor of improving the Wagner Labor Relations Act. Gwinn said he found the workers favoring a ban on wage bargaining on an industry wide basis. As for the closed shop, highly skilled workers in large plants lean away from required union membership. Gwinn, who is sounding out the ordinary workman's opinions for the House Labor Committee, summed up his survey in these words: "I don't find a one who didn't feel some corrective legislation is needed, something to clarify the Wagner Act and see to it that labor and employer are subject to the same law."

Sheriff Ill

Sheriff Charles Hand is confined by illness at Fernald-Laughton Memorial Hospital, and his condition is satisfactory, according to Dr. Harry Sibley, attending physician.

Witness Blames Plane Crashes On Family Friction

Insurance Man Says Air Travel Safety Shows Improvement

WASHINGTON, Feb. 13, (AP)—The House Commerce Committee heard testimony today that a lot of things can be called contributing factors to plane disasters. Such things as family friction, crying babies and tailors' bills, for example.

These seemingly irrelevant points were mentioned by the assistant manager for the Aero Insurance Underwriters of New York City, Jerome Ledeter. He said that they cause fatigue and emotional disturbances among pilots, with resulting carelessness or recklessness.

Ledeter maintained that married pilots, when off duty, should stay at home with the little woman, but should put aside his domestic troubles at flight time. With out mentioning names, the witness told of one pilot who never opened his cockpit window to obtain better visibility even in a rainy weather for fear of getting his uniform wet. Another pilot is said to have boasted that thunderstorms never had forced him to change course.

Hoover Finished With German Food Survey

BERLIN, Feb. 13, (AP)—Former President Herbert Hoover is in Austria today after completing his food-study tour of western Germany. He is in Vienna to confer with various Allied and Austrian officials before starting on the next leg of his journey which will take him to Rome.

Boy Pleads Innocent To Charge Of Murder

(AP)—A 23-year old Dartmouth college sophomore pleaded innocent today to a charge of murder in connection with the death of a train conductor on the Boston and Main railroad. The accusation was made against Donald Mead, son of a well-to-do manufacturer who is said to have fought with conductor Richard Boucher when the trainmen tried to stop the student from smoking. Boucher died after his struggle with Mead.

British Head Is Replaced In Jerusalem

MacMillan Is Named New Commander; Explosions Occur In Haifa Harbor

JERUSALEM, Feb. 13, (AP)—The British government changed commanders today in the midst of a new outbreak of violence in Palestine. Maj. Gen. G. H. A. MacMillan has succeeded Lieut. Gen. Sir Evelyn Barker. MacMillan led the 51st Highland Division during the storming of the Rhine. Barker has been criticized by Jews for curfew, searches and other measures he ordered for the avowed purpose of curbing the Jewish underground movement.

Seven Jews were wounded and four kidnapped in skirmishes between Arabs and Jews in Palestine. Police said a government fisheries launch was sunk and a police barge damaged by two explosions in Haifa Harbor.

The usually well-informed Tel Aviv newspaper, Mishmar, said the British Cabinet will receive a new plan for Palestine. The newspaper declined to identify the source but said the plan calls for a federated state of Palestine with a setup similar to the Federated Malay States. The federation is said to embrace two states Jewish and Arab, with independent governments and a federal area under the British high commissioner.

In London, a foreign office spokesman said Britain's proposals for a Palestine settlement had been sent to the State Department in Washington. He reported that so far, the only reply from Secretary of State Marshall has been a statement that he appreciates "the information."

1200 Miners Stage Sympathy Walkout

LANSFORD, Penn., Feb. 13, (AP)—The sit-down strike by 14 miners 600 feet underground at the Lansford Colliery resulted today in a sympathy walkout by 1,200 fellow miners. The anthracite miners refused to enter the shaft after they learned that the 14 miners were sitting it out in the sub-surface cold and dampness.

The sit-down strikers are protesting the Jewish Navigation Company's policy of docking their pay when they fail to work a full day.

Survey Of Workers Made By Committee

WASHINGTON, Feb. 13, (AP)—A Republican congressman from Westchester County, N. Y., was back in Washington today with the results of a flying survey of workingmen's opinions, taken at the work-bench level. Rep. Ralph Gwinn, of Bronxville, N. Y., said rank and file jobholders are strongly in favor of improving the Wagner Labor Relations Act. Gwinn said he found the workers favoring a ban on wage bargaining on an industry wide basis. As for the closed shop, highly skilled workers in large plants lean away from required union membership. Gwinn, who is sounding out the ordinary workman's opinions for the House Labor Committee, summed up his survey in these words: "I don't find a one who didn't feel some corrective legislation is needed, something to clarify the Wagner Act and see to it that labor and employer are subject to the same law."

Sheriff Ill

Sheriff Charles Hand is confined by illness at Fernald-Laughton Memorial Hospital, and his condition is satisfactory, according to Dr. Harry Sibley, attending physician.

President To Remain Firm On Lillenthal

3 Senators Add Support To Nominee; Hearings Are Temporarily Recessed

WASHINGTON, Feb. 13, (AP)—The White House confirmed today that President Truman is standing firm on his nomination of Lillenthal to head the Atomic Energy Commission. The announcement said that Mr. Truman hasn't the "faintest intention" of withdrawing the nomination.

Meanwhile, three more senators have pledged their support to Lillenthal in the battle over his confirmation. The Senators are John Sparkman of Alabama, Carl Hatch of New Mexico, both Democrats, and Wayne Morse of Oregon, a Republican.

Sparkman said he regarded the testimony against Lillenthal as a smoke screen without substance. Morse declared that Lillenthal had clearly demonstrated a record of able public service. Meanwhile the nomination hearings are in recess while Senator Kenneth McKellar seeks additional witnesses to prove his charge that Lillenthal maintained Leftist activities in TVA.

Meanwhile, an organization known as the Reserve Officers of the Naval Services asked congress to grant Lillenthal a full, complete public hearing on the charges of Communism which have been leveled against him. The group said if the allegations are unfounded it is an unwarranted blot on the record of a patriotic citizen.

Report Says Crops Damaged By Cold

ORLANDO, Feb. 13, (AP)—Florida was not the only state to receive a working check on the recent temperature drop, according to Florida Farm Bureau reports which reveal that Texas truck as well as Louisiana strawberries were set back heavily in some areas.

Bureau of Agriculture Economic figures analyzed by American Farm Bureau Federation officials indicate that such beans, potatoes, tomatoes, peppers, peas, lima beans, cucumbers, and egg plant acreages in the state formed the bulk of the damaged truck crops. Citrus in low and unprotected areas suffered some damage.

Snap beans, according to figures, were damaged as high as 90 percent in the Everglades section and in Dade county, with a loss figure of 60 percent recorded at Pompano. Little damage was done potatoes in Dade County, but top growth on early plantings in north Florida was completely destroyed, according to government reports.

MILWAUKEE VISITOR

W. J. Hayden, member of the Milwaukee, Wisconsin Fire Department for the past 15 years, is staying at the Montezuma Hotel. He yesterday visited the Sanford Fire Department and also the department at the Sanford Municipal Airport. At Tampa he was unable to find a room with any heat, and said that he found accommodations here more comfortable.

Kiss And A Cross For Truman

AFTER PRESENTING President Harry S. Truman with a gold cross emblem of the Order of the Holy Sepulchre, the Most Rev. H. G. Athanasopoulos, Archbishop of the Greek Orthodox Church in America, bestows the symbolic kiss on the President's forehead in Washington. The Order was established by the Emperor Constantine in 312 A. D. (International)

Dr. Quillman Cites Need For Adequate Disposal Of Sewage

Many City Residents Have No Access To System Facilities

The greatest need in public health in Sanford is an adequate sewage disposal plant for our people, declared Dr. Frank Quillman at the weekly luncheon at the Junior Chamber of Commerce at the Motor Inn today.

Only one-third of Sanford's population have access to sewage disposal facilities. The system that is available is vastly inadequate and a menace to public health, Dr. Quillman stated. He pointed out that this method of disposal is a menace to public health, the director of the Seminole County Health Unit asserted.

Dr. Quillman outlined the duties of the unit which included checking water supplies, inspecting food supplies and restaurants, assisting in the maintenance of sanitary garbage collections and aiding in the control of communicable diseases.

All children are offered physical inspections by the unit as well as immunizations against diphtheria, whooping cough and lock jaw, he added.

The local unit consists of the director, one clerk, one stenographer, one sanitary officer and three nurses.

Finances for the unit are derived from the County School Board, the County Commission, the City and from State and Federal Governments. Last year the school board furnished \$4,200, the City of Sanford contributed \$600 and Seminole County gave \$4,000 toward the operation of the organization. The state and federal governments completed the \$23,700 budget.

A. B. Peterson outlined the background of the Fernald-Laughton Memorial Hospital. Mr. Peterson stated that by moving from the old location to the airport the facilities have been increased from 32 beds to 125 and an additional 80 are available for emergencies.

Truman Urges Aid To Britain In Coal Crisis

President Orders Inquiry Into Exports To Determine Possibility Of Relief

WASHINGTON, Feb. 13, (AP)—President Truman has directed the coordinator of Emergency Export Programs, Captain Granville Conway, to determine at once how quickly coal can be landed at British ports in an effort to relieve the plight of the British people in their fuel-shortage emergency. The president said that it may be possible to divert to Britain a number of coal ships now at sea in the vicinity of the British Isles. Mr. Truman declared that he had received no request from London for aid. But he added: "This government stands ready to do everything within its power to relieve the plight of the British people in their present fuel emergency."

Meanwhile the coal crisis in Britain is growing graver by the hour despite government attempts to save fuel under wartime restrictions. Prime Minister Attlee told Parliament today that the power brownout now in effect throughout the island has saved 78,000 tons of coal in three days but the situation remains very critical. London's big power stations have only one week's supply of fuel on hand and there are warnings that a gas shortage also is imminent. Attlee is staking his hopes on improved weather, but those hopes seem to be in vain. Last night temperatures in Britain dropped to 23 degrees and forecasters could see no immediate relief in sight.

LONDON, Feb. 13, (AP)—A Royal Air Force plane crashed today while flying supplies to war-torn villages in Staffordshire. Six persons aboard the rescue plane were killed and the seventh was injured.

The plane should not have been in the air as the weather was very bad, but the rescue flight had been attempted, despite the weather, because some of the snow-bound villages are in desperate need of supplies.

March Of Dimes Has Raised \$1800

The March of Dimes campaign in Seminole County has raised more than \$1,800, it was revealed by a recent report today. A final report will be made within the next few days, according to Randolph H. Hodge, county chairman of the drive. The budget are being taken to combat infantile paralysis. Schools have contributed greatly to the campaign, he stated. On Feb. 5, the sum of \$226 from this source was deposited and on Feb. 7, \$184 out of the \$237 deposited on that day. School donations were as follows: South Side Primary, \$63; Forest City \$9; Lyman, \$22; West Side, \$32; Lake Monroe, \$21; Altamonte Springs, \$13; Geneva, \$21; Geneva colored, \$19; Wilson (Paula) \$6; Lake Monroe, \$17.

Other school contributions were: Seminole High, \$56; Oviedo High, \$32; Sanford Grammar, \$58; Hopper (colored) \$17; Goldboro Primary \$15 and miscellaneous schools, \$4.

Individual Sanford donors were: George Speer, Jr.; J. E. Andrews and Mrs. C. P. Rabun, Rev. and Mrs. Mark T. Carpenter, Cecil Carlton, Robert H. Reely, J. E. Hobby, Mrs. Jeanie Putnam, C. C. Priest, The Sanford Woman's Club; Charles H. Shaffer, John F. Butler, Mrs. E. D. Mobley, E. P. Hair and H. H. Newman. Geneva donors included Mrs. E. Dor Curlett and Mrs. E. H. Keebee.
