

NEW WHOLESALE CONCERN SECURED FOR SANFORD BEL-JAR COFFEE COMPANY

Wholesale Coffee Roasting Plant Located Through C. of C.

WILL ADD TO CITY

IN THE WHOLESALE DISTRIBUTION AND MANUFACTURING PLANTS—START TODAY

W. A. Snyder, head of the Bel-Jar Coffee Co., with headquarters in New York, and a branch in Jacksonville and Miami, has decided on Sanford as the best possible location for a new branch of these business.

During a visit to Florida last winter, Mr. Snyder made a thorough investigation of the advantages the different cities in this section of the state had to offer.

Mr. Snyder is an experienced coffee man, having been in this business over thirty years.

The plant is equipped with up-to-date automatic roasting, grinding and packing machinery, and the blends of coffee packed under the brands of the Bel-Jar Co., are imported direct from Brazil and Central America in a raw state.

Mr. Snyder will immediately start two salesmen out to cover this territory and has secured the services of Jerome T. Kimble, of Petersburg, Va., a coffee salesman of considerable experience.

This concern is strictly wholesale but their product can be purchased from any of the local retail growers.

Mr. Snyder extends a cordial invitation to the people of Sanford who are interested to personally inspect and acquaint themselves with the different processes through which coffee passes from the raw state until it is packed and ready for the consumer.

THE LEAGUE DEMOCRATIC SLOGAN

Jimmy Cox Sounds the Keynote for Democracy

DEFEAT BETTER

THAN TO BOW TO EXPEDIENTS THAT WOULD CATCH THE POPULAR VOTE

WASHINGTON, Oct. 11.—Chairman George White of the Democratic National Committee last night issued a formal call for a meeting of that body in St. Louis, Tuesday, November 1. The meeting, the formal notification said, was for the purpose of discussing party policy and "to adopt plans for future operations."

DAYTON, O., Oct. 11.—The Democratic party stands "inflexibly as we did when the polls closed last November for the league of nations with the United States as a co-operative part of it," former Governor James M. Cox, Democratic presidential candidate last fall, declared in a message sent to the Democratic Club of the Southern California, banqueting last night at Los Angeles.

"History will record the abandonment of our allies as an unworthy episode," the message continued. "It would have been no worse if our troops had been withdrawn from France on the morning of the battle of Chateau Thierry."

The message follows: "Let me extend my felicitations to the members and guests of your organization. The events of the past year, notwithstanding they brought defeat at the polls, are heartening to the cause of democracy. In the midst of chaos internationally and uncertainty in Republican policy, we stand inflexibly as we did when the polls closed last November, for the league of Nations, with the United States as a co-operative part of it. It is infinitely better to maintain a vital principle even though it involve a temporary setback, than it is to surrender honor to expediency for the mere purpose of winning an election. History will record the abandonment of our allies as an unworthy episode. It would have been worse if our troops had been withdrawn from France on the morning of the battle of Chateau Thierry. The spectacle of regarding the Hay-Pauncefote treaty as a scrap of paper, just as we begin conference with a group of nations on disarmament, is a sad commentary on the behavior of a country whose life and traditions have been above reproach. Apparently the national administration is guided in its nondescript policies by the un-American elements that made its election possible. We are not a renegade nation and we will not for long permit ourselves to appear to others. Good faith in our relations will endure as a private and a national virtue. When sober reflection brings proper understanding to our pathetic status in world affairs, vindication of the Democracy will be expressed in no misleading terms. (Signed) 'JAMES M. COX.'"

Ninth Inning Giants up: Ptery now pitching for the Americans: Young up, ball one, singles to left field; Kelly up, strike one, call; ball one, ball two, foul back, strike two; foul back, fouls in the right field grand stand; ball three, fouls in the right field grand stand, ball three, fouls along third base line, out, strike three, fans; Young thrown out at second trying to steal; E. Meusel up, ball one, strike one, ball two, foul back, strike two, singles to right field; Rawlings up ball one, strike one, fan; foul back, strike two; strike three fans. No runs, two hits, no errors. Last half ninth: Yanks up: Fewster up, ball one, strike one, call; ball two, fouls back, strike two, flied out to second, second baseman makes nice catch in short right; Peckenpaugh up, ball one, fouls to right field stand, strike one, call; ball two, pop fly, out at second. No runs, no hits, no errors.

**Florida Wins Game From Rollins College**

The orange and blue of Florida triumphed over the blue and gold of Rollins yesterday afternoon on the fair grounds gridiron by a score of 33 to 0. After playing Florida to a standstill throughout the first half, holding the powerful 'Gator machine to eight hard earned points, the blue and gold defense weakened in the final half and was borne down fighting, buried beneath one of the most powerful 'Gator eleven to wear the colors of the orange and blue in history.

Carlton, the speedy backfield general of the 'Gators, with his 'Gator team-mates gradually offering a more organized interference, during the closing period of the game carried the ball time and again through the weakening blue and gold eleven. His broken-field running was the best ever cheered by the followers of the orange and blue. Rollins was on the defense in every quarter, only occasionally showing a flash of offensive play, and then when the Rollins general, resorting to overhead play, shot a number of long forward passes which took the 'Gator offense by surprise. From the whistle in the first quarter it could be seen that any attempt by Rollins to pierce the heavy Florida line would be in vain. The thin blue line of Rollins was borne back by an orange and blue clad line of giants, a line which tipped the scale from end to end over the two hundred pound mark, a slow moving, unwieldy line, but one which nevertheless was not to be resisted, prized open for a blue and gold gain.

Matching the great running of Carlton for the 'Gator was the defensive play of Captain "Tootie" Perry of the state eleven. The giant Florida lineman broke through the Rollins line like it was so much chaff and he showed a speed and shifty range of play for a big man that should cause the eyes of all-Southern dopsters to look over before the close of the 1921 season.

As an eleven, the Rollins machine of Coach Schlichter put up one of the gamiest and hardest fights ever witnessed on the local gridiron. The odds of weight and brawn, possessed by Florida, withered the stamina of the blue and gold. In choosing the man whose play stood out on the blue and gold eleven, and there were many whose work was worthy of mention, the eyes of all rested on "Goof" Bayle, the right end of the Rollins eleven. He was in every play. At times he was buried beneath orange jerseys but he came up to get into the next play. Where the ball rested it seemed somewhere near it rested the towlsy headed right end of Rollins. Wright, Wolfe, Teare and Ward also starred. —Orlando Sentinel.

**CLOSE DADE COUNTY'S SCHOOLS FOR LACK OF FUNDS TO PAY BILLS.**

MIAMI, Fla., Oct. 10.—Dade county schools were ordered closed for an indefinite period this afternoon by the county board of education, following a secret session when the entire situation confronting the board was carefully reviewed. The refusal of Governor Hardee to call a special session of the legislature to authorize a \$500,000 bond issue for which Dade county has a buyer, was given as the reason for the closing.

The board had felt assured that Governor Hardee would call the session, which Dade county was to bear the expenses of and his refusal means that the schools are faced with a hopeless situation, Chairman Filer of the board said following the announcement today.

All schools are ordered closed and the teachers and pupils have been requested to be present at the building Monday morning to remove their books and belongings. Mr. Filer said that the schools would not run on a tuition basis and that the board did not even have money to pay the teachers their past week's salaries.

**NEW RIFLE, EN BARBETTE, IS PROVED SUCCESS.**

Aberdeen Proving Grounds, Maryland, Oct. 10.—Eventual elimination of the disappearing carriage for more than a decade an outstanding of American coast defenses was forecast by army experts today, as a result of the initial test here of a 16-inch, 50-calibre rifle mounted on a barbette carriage.

While weather conditions in lower Chesapeake Bay prevented the carrying out of complete tests, military and civilian technicians who observed the trials, were agreed that the elements of increased range and augmented protection for the gun servicers, mad the new mount far superior to that now extensively used. The barbette mount permits a maximum elevation of the piece to 65 degrees, the heavy steel shield and apron at the same time affording material protection to the crew from aerial bombers and observers.

With a heavy haze reported over the bay, officers in charge of the program decided to postpone the tests for range since the 2300-pound projectile would have been sent into waters sccommonly traversed by shipping craft. With an elevation far short of the maximum, however, the new gun planted one of the steel shells more than twenty miles away.

The tests today were witnessed by about 900 members of the army ordnance association, members of the civilian engineering and automotive societies and official observers from the war and navy departments. In addition to the new coast defense rifles, the program in-cluding firing of mortars, improved machine guns of large calibre and aerial bombs of various sizes. Unfavorable weather conditions made it necessary, however, to postpone the dropping of several of the 4,000-pound bombs, described as the largest ever constructed.

The only time in history when the mark was worth so little was when Cain got his.

**REDUCTION IN FREIGHT RATE IS EXPECTED**

WASHINGTON, Oct. 10.—Developments which were declared to presage early reduction in railroad freight rates and a clearing of the railroad situation generally came here today from several quarters.

A group of prominent railroad executives conferred today with President Harding and Senator Cummins, Republican, Iowa, chairman of the Senate interstate commerce committee and discussed steps toward freight rate reductions preliminary to the executives meeting at Chicago October 14.

Rate reductions also was the principal topic on the program at a meeting tonight of Democratic and Republican senators comprising the unofficial agricultural "bloc." Senators attending the meeting said there was a wide and vigorous demand for rate cuts as imperative to the agricultural interests.

Senator Cummins, after his conference with the railway executives said he believed they would adopt at their Chicago meeting, his suggestions for an immediate reduction of freight rates. No definite or formal assurance to this effect were given him at today's conference, he explained, but he expressed the opinion that the reductions would be made by the carriers voluntarily.

The carriers then, Senator Cummins said, probably would ask the railroad labor board to reduce wages or appeal to Congress for legislation to meet the situation caused by the voluntary rate reduction.

(By The Associated Press) ATLANTA, Oct. 10.—Claude West, secretary to three governors of Georgia, and employed two months by Governor Hardwick to assist his secretary and clerks, is held at police headquarters this morning on a blanket charge of suspicion pending issuance of a warrant charging embezzlement of state funds which Hardwick had directed his secretary to obtain.

**SAVANNAH NEGRO HAS LARGEST FAMILY IN STATE OF GEORGIA.**

(By The Associated Press) SAVANNAH, Ga., Oct. 10.—A. B. Burgess, a Savannah negro employed by the Atlantic Coast Line Railway, probably has the largest family in Georgia. He is the father of thirty-two children and has had three wives. Twenty-six children are living. The negro is blessed with seven sets of twins, two sets of triplets; the oldest son is forty-five years old. Burgess has a score of grandchildren. When the last set of twins were born Burgess and his wife ran out of names and the children grew up nameless, finally selecting their own names when they entered public school. Burgess shied at selecting names when he found he had been doubling up, having two Williams and two Sallies in the flock.

The afternoon was pleasantly spent with needlework for the Christmas bazaar. Plans were perfected for a Harvest Moon party to be given Monday night at the home of Mr. and Mrs. T. W. Williams.

At the close of the meeting the hostesses served ice cream and delicious home made cake.

Those present were: Mesdames J. M. Moye, D. D. Newberry, E. G. Dan, R. P. Terrance, Brodie Williams, T. B. Dobbins, S. D. Parker, J. H. Spurling, O. T. May, P. M. Elder, Virginia Coney, R. L. Griffin, R. L. Shinholser, J. E. Coulter, H. L. Gibson and D. A. Kelly.

### Baptist Temple Issues Newspaper Every Month Now

The Baptist Temple among other good publicity stunts issues a four page newspaper every month called the "Temple Report" and while it is small in size it makes up in real news. There is everything that the members of the church want to know in the Temple Report. It takes up the finances, the attendance, the deacons' report, the Sunday School report, the building report and everything of interest and each month the members of the church have a complete and most comprehensive report laid before them. And aside from the facts and figures there are many other good items, much news, much live matter and on the back page the advertisements of four merchants of the city who make it possible for the Temple Report to come out in such fine form each month.

The number this month will be the Eighth Anniversary Number. Of course the Herald Printing Co., does the printing.

## GOOD AND BAD IN MOVING PICTURES

Dr. Walker preached to a packed house Sunday night at the Methodist church on, "The Good and Bad of the Moving Pictures."

Today if you would have young people educated reach them through the eye. Fifty per cent of all a boy will ever know, he knows at seven years of age, and some put it as low as three years. There is nothing so sensitive as the human brain. A thought never goes through the brain but it will stay there forever. The most sensitive thing in the world is the human brain and not only is the most wonderful and most tenacious thing. During the early years of the life of the boy or girl the whole soul is laid back to the world, and the world walks in and out, walks in largely and MAKES the boy or girl.

One of the tragedies of life is the unconscious things that creep in while we are not looking. The boy sleeps but the mind works on. Thought comes to the mind and grows and comes out full grown. Frequently men have thoughts in their minds they do not know anything about and later it will change their whole mind.

One great writer says if you tell a man often enough he will do the thing. When I was in California a very prominent family had three boys who one after another had gone to sea, the mother was very distressed over their sea life. A beautiful picture of a ship all set sent them all out sailors.

At my old home a young man had been courting a girl but he could not get anywhere. And everybody knew that the girl would never marry the fellow. He said she is made for me and she will be mine. And nobody believed she would marry him, but she did. It is remarkable, the power of suggestion. I want you to keep before your mind the power of suggestion sensitivity and the tenacity of your brain. When those pictures are thrown into such a thrilling mind, day after day, God only knows what will happen.

I presume most of you saw the article in the Pictorial Review written by one of the greatest moving picture men in the country. He said that he didn't want his children to go to the moving picture shows these days. I read a story recently of two 10-year-old boys who had held up a man and robbed him. They had met him on the corner of a lonely street, while one of

the boys held the pistol on him the other took his money. In court they admitted that they had seen it done in the picture shows and said it looked easy, and they thought they could do it too.

Some time ago I was talking to a leading business man of this city, not a member of my church, about some boys that had gotten in trouble. He asked me if I knew the reason and I told him I thought I did and asked did he. He said he thought he did. I said you speak first and he said, "It is the moving pictures." And you know one of the boys said to me, "We have seen those things in the moving pictures and it looked so easy, we thought we could do it." It is hard to realize the thought that will grasp the mind of the boy.

I don't see very many moving pictures. I approve of people going to a certain type of pictures but I haven't been to one that hasn't been about some man or woman being unfaithful to their marriage vows. When you undermine the homes you are undermining the whole city. You better know the pictures that will go before your child's eyes. It may be the thoughts that are going into that child's brain will hatch out and destroy life.

The crimes of the country are not committed by men, they are committed by the boys and girls and it is put in their minds by the suggestion of certain types of pictures they see. They will break down the lives and morals of our people, are you going to have it or not?

Moving pictures must be made a great blessing. We can see the wonders of the grand canyon and there are ten thousand things you can see in a moving picture that will improve your mind, that some of us might not get anywhere else, and that by the strong magnetic force in the mind they lift us up.

Many people are blind to the fact that today is the day of salvation, today is the accepted time. How many have fallen because they become blind? Although it has been said over and over this is the day of Salvation, can you see it now? Are you blind? Have you looked and don't see?

Some people here will be so blind as never to see the one supreme fact, Christ as Savior.

### Woman's Club Book And Year's Program Comes From Press

The Woman's Club book and annual program came from the press last week and is one of the neatest and best Year Books that the club has ever obtained from the printers. This year the copy was in early, the proof was read in time, the book was printed on time and the work was most satisfactory in every respect and called for many complimentary remarks from the club at their last meeting. Yes, the Herald Printing Co., did the work.

### LEXINGTON AUTO BEATS DIXIE FLYER RECORD IN ATLANTO-JAX DRIVE.

Hanging up an official record of ten hours and twenty-three minutes for the total time spent in negotiating good, bad and indifferent roads between Atlanta, Ga., and this city, a Lexington Lark Sport model automobile hurtled across the city limits line yesterday afternoon at 4 o'clock, just one hour and thirty-two minutes faster than the record run of the Dixie Flyer of eleven hours and fifty-five minutes. Chas. O'Connor, secretary-manager of the Jacksonville Automobile club, clocked the finish, while the start was recorded by officials of the Atlanta auto club, which makes the run one of official record.

The feat was accomplished without any apparent damage being done to the car, which came in from the city line to the Mason hotel, where it was parked to become immediately the center of attraction to many bystanders. Dr. H. N. Alford, Georgia state distributor for the Lexington, piloted the car, and was accompanied by C. D. Hatcher of the Atlanta Georgian and American.

Interesting as the eclipse of a record made by the famous railroad speedster was the rapid logging of the roads connecting the Georgia metropolis with Jacksonville. Compared with the monster locomotive's fast time made over a pair of smooth, exactly graded steel ribbons, the automobile's performance will be a revelation to the Northern tourist. It will prove that trunk highways coming into Jacksonville are decidedly passable as nothing else could.

While the two Atlanta men made some scathing comments in their quickly gathered data, the record they hung up speaks for itself. It seemed that the much-maligned Waycross road had to come in for some more rebuke. But when tourists learn that the speed of the car never dropped below eighteen miles and mounted to

seventy-five on good roads, the sting will be extracted from their remarks.

Leaving Atlanta at 8:15 a. m., central time, the two interstate speeders ran to Forsyth, Ga., where a five-minute stop was made after a ride over seventy-six miles of good road. Ten concrete and about fifteen miles right road told the tale to Macon, where another stop was made. Forty minutes for breakfast.

Eastman, Ga., about sixty miles farther on, was the next stop for oil and gas, the highway in between being found in excellent condition. A stop in McRae for coffee and road directions and on to the ferry at the Okmulgee river was their course laid, and then some deep sand was hit. Both good, hard-surfaced road and sand was encountered on into Douglas, and then a cannon ball drive for forty miles into Waycross, most of the road rated good.

Lunch was taken at Waycross, and their ensuing drive is what gave rise to some uncompromising remarks. For ten miles out of Waycross a good road lured them on to deep sand across the Charlton county line. They battled on through to within eleven miles of the St. Marys river, where hard surfaced road was again encountered. And on into Jacksonville.

The actual time spent on the run was thirteen hours and twenty-eight minutes, but an allowance of two hours and five minutes is taken out for necessary stops. There was no right of way specially granted for the record run through any of the cities or villages, Mr. Hatcher stated. The car was a stock model, carrying all of its regular equipment.—Times-Union.

**PEOPLES' FORUM**

TO THE PEOPLE OF SANFORD.

In order to defeat the effort to nominate and elect Hon. Forrest Lake to the office of City Commissioner, there are being circulated certain rumors and assertions that are unfounded.

First. It is being asserted that Mr. Lake's candidacy represents an effort to abolish the present commission form of government and return to the aldermanic form. The authors of this propaganda must be either very ignorant or have very little regard for the truth or falsity of what they assert. Mr. Lake, if nominated and elected City Commissioner, could not abolish the present form of city government, and those making such statements must know it, if they know anything. There are three City Commissioners and to say that one of them can do the things claimed that Mr. Lake will do is, to say the least, not very complimentary to the other two, who would constitute the majority. The present form of government can only be abolished by the legislature, or by a vote of the qualified electors of the city, and those trying to prejudice the people against the candidacy of Mr. Lake know it. The truth of the matter is that most of those who helped frame the present form of city government are not behind Mr. Lake's candidacy, and it is believed this will include all of them, except possibly those holding office under the present City Commissioners, and at their pleasure, to whom they owe allegiance.

Second. It is being asserted that Mr. Lake will throw the town wide open, whatever that may mean, and allow Sunday business, etc. Now, the older citizens of the town will not be effected by this stuff, since they well know that Mr. Lake as Mayor was the terror of law violators in the city. But to those who do not know, suffice it to repeat that to make such assertions ignores the other two commissioners and treats them as mere nonentities, which we think is unfair to them, and is entirely too complimentary to our candidate.

The truth of the whole matter is that none of these things are true. Mr. Lake's supporters will not stand for any more wide open town than we now have, and have had for the last two years, either on Sundays or week days. Mr. Lake's supporters will not stand for any effort to abolish the present form of government until the people themselves demand it. However, Mr. Lake's supporters believe that the present method of nominating candidates for City Commissioner should be changed to permit a more free expression of their wishes by the people. The present method is entirely too autocratic, is a relic of the old monarchical days when the people were forced to petition to the king upon his throne, in which case they must first get the ear of the privy council, and then of the spiritual advisor, before they could be heard. We believe that men and women ought to be allowed to run for office without having to get the consent of any one else, and they should not have to resort to such methods as we now have, as it is very difficult and confusing, creates a political machine, and destroys the secrecy and sacredness of the ballot.

Now, in conclusion, we ask that these matters be given mature consideration, and remember that it never becomes necessary to resort to misrepresentation or untrue propaganda unless those doing so fears to rely on the facts and conditions as they exist. Whenever it becomes necessary for our opponents to misrepresent our cause, it is an admission on their part that the truth about their is insufficient to sustain them. The people of Sanford may rest assured that there will be no misrepresentation from our side, and that none of the things circulated about Mr. Lake's supporters, or himself, are true, if they would be inimical to the future interest and progress of our city.

More Unfair Tactics.

It has later come to our attention that the opposition to Mr. Lake's candidacy is resorting to such unfair tactics as to try and persuade as many people as they can to sign their petition after signing Mr. Lake's, and telling those who do not know any better that it is alright to sign two petitions. Under the law a voter can only sign one petition, and if he signs two he is in the same position as if he did not sign any. Our opponents are doing this not to increase the

**CO-OPERATION ALONE CAN SOLVE PROBLEMS OF RURAL WORKERS.**

**GAINESVILLE, Fla., Oct. 10.**—The individualism that made the country what it is today now threatens to be the cause of rural life, in the opinion of C. A. Cobb, editor of the Southern Ruralist, Atlanta, Ga., who addressed the annual "Livestock roundup" here today. Mr. Cobb urged cooperative marketing on the part of the farmers. Many communities in the state, he asserted, should have co-operative Palatka, Tallahassee at Quincy, Ga., and Tampa markets alone could consume the output of ten such creameries operating through out the year. Better schools, churches, roads and stronger banks would follow the cooperative methods, he said.

The value of the Florida hog has increased on the average of \$5 during the last eleven years, according to L. M. Rhodes, state marketing commissioner, who also was of the opinion that the marketing solution lies in organization.

**AUTOMOBILE SPEEDER WOUNDED BY OFFICER.**

**ST. PETERSBURG, Oct. 7.**—John Nash, eighteen years old, has a bullet in his upper thigh and Patrolman Edwin Goodwin is under bond to answer before Magistrate E. M. Burk to a charge of aggravated assault with a deadly weapon as a result of an effort by Goodwin to arrest three young men on the recreation pier shortly before midnight last night. Nash, Paul Winterich and Ray Rhodes were in an automobile and admit that they were driving rapidly on the pier and mole. Goodwin was on duty on the pier. When the car passed him at the swash channel, he says he called to the driver to stop and that the command was not obeyed. He says he then drew his revolver and fired at the rear tire of the car and was much surprised to find, when the car was stopped that he had hit anybody. He declared he did not shoot at the occupants of the car. Nash was sitting on the rear seat and the bullet went through the back of the car and into Nash's thigh, making a severe flesh wound. After his wound was dressed he called up Magistrate Burk and the latter went to his office and issued a warrant for Goodwin, who came to the office and arranged bond. Goodwin was suspended from police duty by Mayor Mitchell this morning. The mayor said he had given strict orders to the police not to shoot at speeding automobiles and to use their revolvers only in necessary self-defense. He says it is a dangerous practice for police to shoot at tires on automobiles. Goodwin will be tried as soon as Nash is able to appear in court.

SANFORD DAILY HERALD

Published every afternoon except Sunday at The Herald Building, 171 Magnolia Avenue, Sanford, Florida.

THE HERALD PRINTING CO., Inc.

Editor: E. J. HOLLY; Secretary-Treasurer: M. J. LILLARD; General Manager: M. A. NEEL; Circulation Manager: ROBERT J. HOLLY, Jr.

Advertising Rates Made Known on Application; Subscription Price in Advance: One Year \$2.00, Six Months \$1.00, Delivered in City by Carrier: One Week .15 Cent.

The big 12- to 16-page Weekly Herald entirely covers Seminole County and is published every Friday. Advertising rates made known on application. Democratic in politics. \$2.00 per year, always in advance.

Member of The Associated Press

We want to congratulate the City Commissioners upon their purchase of a new fire truck with pumping apparatus. This will mean the right kind of fire protection and save the tax payers many dollars aside from reducing the fire insurance rates.

The Daily Herald is giving you the ball games play by play within a few minutes of the time they happen in New York. You get the same service that all the big metropolitan papers are giving you.

Nothing is too good for the subscribers of the Daily Herald. The management will make it a really daily paper in every sense of the word but it takes subscribers and advertising, and we expect that from the people of Sanford if the people of Sanford expect a real daily paper.

Unless the laws are changed in this and other counties, the making and selling of liquor will go merrily on. Of three cases in this county for selling and making liquor, none of the accused are on the road, and on account of that same old "technicality" the offenders are enjoying their freedom.

That "squawk" in the Tampa Tribune about the hunters being pulled in Seminole county for having high powered rifles on them is certainly funny. Their dogs were running deer, the men had rifles, they were pulled for having rifles in their possession and fined and yet they say they were not hunting. Well, that's what they at any, but they could not pull this stunt in Hillsboro or any other county in the State, and certainly they will not be allowed to pull it in Seminole.

Five more subscribers came in yesterday for the Daily Herald. We want fifteen more now to bring the list to the one thousand mark. Who will be the next lucky one? The Daily Herald is one of the best dailies in this part of the State; giving you every bit of the news of the world, of the State, of the county, and the city. You cannot get all of this news in any other paper in the State for the money. Help us to make it bigger and better.

What is the matter with Miami? asks the Tampa Times. We do not think there is anything the matter with Miami in the school closing episode. It is the Florida legislature that is to blame for not passing a law that would have relieved Miami schools and all the schools of the State. If the law prevents going over a certain millage for school purposes and a city doubles in population it is certain that the schools will need double the amount. If the amount is not forthcoming from the school fund—well, there you are.

"It takes Florida people to be lucky. A Jacksonville man threw his money belt containing twenty thousand

and dollars into a garbage can by mistake. A few hours afterward he went back and searched the can and got the money."—Perry Herald. How many of the get-rich-quick fellows who read the above item will proceed to search the garbage cans, hoping that some other man has been careless as to where he put his money?—DeLand News. We know a man who threw \$50,000 in an oil well and when he went back to look for it the money was gone. But of course this was in Texas, and not in Florida, where everyone is honest, yes.

ELECTION TIMES.

There is an air of expectancy in the air, the politicians scent the battle from afar and gather 'round the festive board to watch the turn of the wheel, some for the interests of good government, some for the political crumbs that they think they will pick from the table after election, some from the mere fun of being in another political campaign. Too much time is usually wasted on the elections in the city and county and state. Every man and every woman should post themselves on the various candidates and pick the man or woman who in their estimation would make the best official—and women will soon offer themselves in this city and county for office.

It should be a friendly race always. There is nothing in the whole political situation that calls for charges and counter charges in this city election that approaches. Both of the candidates are well known to most of the people of Sanford. Both of them have been in the public eye in politics and in private life. Both of them are financiers, successful in their chosen lines of endeavor, they have been in the high places and their works are known. They are residents, they are tax payers, they have received honors, they have served the city as aldermen, as mayors, and as private citizens in many ways that progressive citizens find to serve their city. There is no need for any adverse opinion to be passed upon either of them. As officials of the city, they will have their limitations just as any other man will have. Beyond certain lines they cannot go and if any of their supporters are looking for anything aside from service they will be sadly mistaken and no man should question the motives of either of the candidates or of their aspiring and perspiring friends.

It is just a friendly rivalry among two candidates and both of them are Sanford citizens. The election and the campaign should be short and sweet and clean and then get down to real business of making Sanford the great city that it should be. Politics can be played to the exclusion of everything else. Politics can be played unfair. Politics can be played in such a manner as to disgust the fair minded voters and cause them to eschew the right of franchise altogether. The Herald hopes there will be nothing said or done in this city election that will ruffle the tempers of the most ardent supporters of the commissioners in the race. The office belongs to the people and not to any man or set of men. Look them over. Weigh their qualifications. Think before you vote and then go quietly to the polls and vote as you please. It is your blessed privilege and no man's business but your own.

HAS THE WHOLE WORLD GONE MAD?

Crops have been gathered this season in many parts of the United States and Canada, and left to rot in the fields, simply because they could not be sold for enough in the markets to pay the cost of transportation, and leave a small modicum for the farmer. During this same season millions of human beings have died of hunger in China, and other millions in Russia are wandering from their homes and dying in the streets in a hopeless search for food. This has happened in a country which has long been known as "the granary of Europe." Our own country is overflowing with money; the banks are bursting with it; we have perhaps one-half the world's stock of gold in our coffers; we have millions of acres of undeveloped lands awaiting the plow of the farmer; we have millions of houses that should be built to shelter our people; we have miles of roads to construct and unnumbered bridges. Why should anyone be idle in this land of wonderful opportunities, of immense wealth, and a need of labor that approaches desperation? Yet we are told that six million men are walking the streets of our cities looking for jobs, with no jobs to be had; that the great railroad workers' organizations of the country are voting by large majorities for a "strike," rather than submit to a reduction of 12 per cent. in their wages, which are now, and always have been, the largest ever paid to labor in this or any other country. If the proposed strike

is pulled off it will add upwards of half a million idlers to the over full ranks of the unemployed. The 70 strikes now in progress will add their quota.

All these facts constitute a paradox which the average man finds it difficult to understand. As he looks the situation over in the calm, cold light of reason and common sense, he is tempted to believe the whole world has gone mad, that it is still suffering from the hysteria of war time, and indeed it looks so.—Tampa Times.

STOCK AND TRADE OF NEWSPAPER IS FACTS

If it is a sin to lie no newspaper editor will ever pass through the golden gate.—Eau Gallie Record.

This is, in all likelihood, an attempt at humor—a sort of poke at fellow editors, but some people really believe newspaper editors and reporters are by profession doomed to follow a path other than the straight and narrow one of veracity.

No conclusion was ever more removed from the truth than this, because the most valuable asset a newspaper possesses is the good will of its readers—the jury that is constantly sitting in judgment over the paper's reputation—and proof of this is established when a newspaper is sold, for "good will" is included in the sale price along with mechanical equipment and circulation.

However, the majority of critics fail to take cognizance of the fact that a newspaper is nothing more than an organization of individuals, each trained in his or her particular line, all working in complete harmony, with speed and accuracy as the driving forces. Mistakes are bound to occur, and do occur repeatedly, but every possible effort is made to prevent them, and, compared with other big businesses, the newspaper is the most efficient human machine in modern-day life. But the mistakes of the newspaper are published to the world. A bank or any other organization puts only its best foot forward, while with each edition a newspaper flings all its windows and door open, and the appearance of grievous errors are rife indeed. "Be accurate, be speedy," these are the first instructions the beginner in the game receives, and forty years afterward the same instructions are sounded in his ears.

The characteristic of yellow journalism is the practice of coloring the news. This form of journalism is fast passing. Publishers long since realized that, in the long run, it pays to play square with the public. Facts seldom are colored, and when done, in the great majority of cases, it is unintentional. The dramatization of details is regarded as coloring by some, yet this same class, although unconscious of it, demands a certain amount of drama in the handling of news.

A society editor will refer to a young lady as "lovely" and "attractive," when everybody knows she is as ugly as a mud fence. The heckler for truth may brand this as a form of misrepresentation, and carried down to a final but ridiculous analysis it is, but the same heckler will go out on a rainy day and say "Good morning!" to every friend he passes! Truth is always determined by the point of view. A newspaper is human and reflects human shortcomings, yet in the essential it is a seeker after facts, because the newspaper sells facts—facts are its stock and trade.—Florida Metropolis.

WHY BUILD A SWEET POTATO STORAGE HOUSE?

- 1. It will keep the potatoes at a minimum of loss from rot.
2. The curing process improves the flavor of the potatoes and makes them more salable.
3. The house can be entered and the potatoes removed during wet or cold weather. This is not practicable with dirt banks.
4. Sweet potatoes produce three times the feed value of corn to the acre. You build cribs for your corn. Why not build a house for your sweet potatoes?
5. Sweet potatoes are relished by all classes of livestock. A storage house will enable you to feed them the year round.
6. Sweet potatoes reduce the cost of production of milk and pork. A storage house enables you to feed them daily.
7. The storage house is simple and economical of construction and operation. Any farmer who is handy with a saw and hammer can build one.
Seven good reasons why every farmer, or at least every farming community, should have a modern sweet potato storage house. See your county agent, who will give you helpful information, or have it sent direct to you. If not convenient to consult a county agent, write to the College of Agriculture, University of Florida, Gainesville, and ask for copies of Farmers' Bulletins 970 and 847.

SENATOR TRAMMELL ACTIVE IN OBTAINING ASSISTANCE FOR CITRUS GROWERS.

WASHINGTON, Oct. 11.—Senator Park Trammell has been very active during the past week in an effort to assist in obtaining financial assistance for the citrus fruit growers of Florida. Senator Trammell arranged the conference for the representatives of the Citrus Exchange with the War Finance Corporation last week and appeared before the Board with these gentlemen to present the claim for assistance for the Florida growers. Senator Trammell is informed that the prospects are favorable for the growers. Several hundred thousand dollars will no doubt be advanced to banks in Florida upon the growers securities. This aid, Senator Trammell says, will be for the citrus fruit industry generally and not restricted to those affiliated with the Citrus Exchange. It seems that the plan of the War Finance Corporation is to make the advances to banks or a group of banks upon loans made to growers for the purpose of maintaining their groves and making the fruit crop.

STUNT FLYER NOW AUTO COP AT MIAMI.

MIAMI, Oct. 11.—Paul C. Latham, native of Toledo, Ohio, former a lieutenant in the Marine Corps, former flier in the aerial mail service, inventor of a self controlled bombing plane and the man who took the place of Lieutenant Omar Locklear in stunt flying after Locklear's death, has been appointed member of the motorcycle squad of the local traffic police. Latham rode a bicycle around the edge of the roofs of skyscrapers in the interest of recruiting and this feat led to the winning of his bride, Miss Lillian Scott, of Cleveland, Ohio, who saw him perform on top of a fourteen story building in that city. Latham and Miss Scott were married in an airplane 3,000 feet above the ground.

Contracts have been let for the erection of a \$10,000 new school building at Ponce de Leon, in Holmes county. Bonifay contractors have the contracts. With an active cotton market, at around 18 cents a pound, many farmers have sold both this and last year's crops. This has meant a great relief to many.

SANFORD'S TEMPERATURE

Well, the old bulb is trying to climb but the warm weather period is broken and never again will the 90 mark be reached this winter. Of course it could reach it but we don't think it will. However, all rules have been broken this summer, even the golden rule so one can never tell. But this is choice weather and the folks are coming down in car loads now getting away from the north before the cold wave hits them. Florida will get them this winter and it will be another real Florida winter says the weather man. What do you think of the World's Series: 5:40 A. M. The many friends of Mrs. O. L. Taylor are giving her a warm welcome to Sanford where she will spend the winter months. Mrs. Taylor is a former resident of Sanford and will be the guest of Dr. and Mrs. Brownlee for some time. Mrs. Taylor is now residing at Indianapolis.

Mr. and Mrs. N. J. Lillard returned this afternoon from Okeechobee City, where they spent several days the guests of H. A. Neel, editor of the Okeechobee News. Mr. Lillard was greatly surprised at the wonderful Okeechobee country and the wonderful new city of Okeechobee, and says that the News is being made into one of the best weekly papers in the state and has a wonderful future.

A. P. Haggard, of Twin Cities, Idaho, is in the city on a visit to his buddies, Dr. Ralph Stevens and Col. G. W. Knight. Mr. Haggard was in the engineer's corps in the world war and fought under Col. Knight and was with him and Dr. Stevens in many scrimmages and the boys are having a fine visit together. He is in love with Florida and especially with Sanford. He has been engaged in engineering work on government work on the big irrigation dams in the west.

KIWANIS CLUB MEETS FOR ORGANIZATION LAST NIGHT AT VALDEZ.

The movement in Sanford to organize a Kiwanis terminated last night in the perfection of the organization, when a meeting was held at the Valdez hotel under the direction of district secretary, T. Jeff Bailey, of Birmingham, Ala.

The first luncheon of the club will be held at the Valdez hotel Thursday, October 20, at 12:15 p. m., at which time all necessary details for procedure will be announced. The personnel of the club is of the very best, and Sanford can look for great things from the Kiwanis club in the future. Some special stunts are already being arranged for the meeting Thursday week, and among other features will be the direction of the singing by Secretary Reynolds of the Daytona Y. M. C. A., who is also a prominent member of the Kiwanis club of that city, and the presence of several of the members of the Orlando club, who will participate in the program.

Mr. Bailey left Sanford today for DeLand where he is engaged in perfecting a club also.

ENGINEER SCALDED BY STEAM DIES A FEW HOURS LATER SAD ACCIDENT AT OSCEOLA.

J. K. Stevens, an engineer at the plant of the Osceola Cypress Co., mill at Osceola, was so badly scalded by steam yesterday morning that he died a few hours later. It seems that a valve blew off while he was making some repairs on the immense boiler of the engine, and the escaping steam deluged him before he could get out of the way. The unfortunate young man was literally cooked from head to foot, and no medical aid could save him and death relieved him of his sufferings several hours after the accident happened. The remains were brought to this city by T. J. Miller & Son, and prepared for burial and sent to his old home at Welborne last night. The sad death of this young man has cast a gloom over Osceola where he was loved and esteemed by all who knew him.
