## Grand Jury Says Evidence Beyond Question, Asks Penalty

MIAMI, Nov. 6.—(AP)—The Grand Jury today recommended "disciplinary punishment" for police officers responsible for "inhuman conduct" in not permitting W. Vance Harrell to communicate with his family while his three year old son was dying.

The Grand Jury report, which also absolved police of blame in the fatal shooting of Stafford G. Dames, Jr., a negro altar boy, said the evidence showed "beyond question" that Detective L. O. Scarborough was informed of Harrell's desire to get aid to his child. Harrell has claimed the police held him incommunicado 19 hours despite his story that a prescription waiting at a drug store might have saved the life of young Charles Harrell who was suffering from diphtheria.

## Duke Planning Delayed Tour For Next Year

### Hopes Public Opinion In U. S. Regarding His Motives Will Change Before Long

PARIS, Nov. 6.—(AP)—Members of the Duke of Windsor's suite disclosed today the royal party was studying the possibility of making a postponed tour of the United States early next year.

They declared the project was "definitely not cancelled" and described the former British monarch as hopeful that public opinion in America would "change" within a few months opening the way for the trip which was to have started today but was postponed by Windsor because of "grave misconceptions" of his motives.

The decision was made after two days of trans-Atlantic cabling and telephoning during which the Duke attempted to gauge the extent of resentment in American labor circles against his personal representative, Charles E. Beaudaux.

Beaudaux, an industrial engineer accused by American labor groups of being an advocate of the "stretchout" system, called the Duke today from New York, offering to sever all connection with the tour.

The following brief statement was issued in a bar from the nine-room suite which the duke and duchess occupy in the Hotel Majestic:

## Engineer Missing Is Believed Dead

## Fireman Is Found After Three Hours, Alive, Rushed To Hospital

LOVEJOY, Ga., Nov. 6.—(AP)—Three persons were killed and an engineer and fireman were pinned under the wreckage in the derailment of the Central of Georgia Limited passenger train, "Southland," as it struck a truck at a crossing today.

The pullman conductor, William A. Rankin, said none of the 27 passengers on the four pullman cars was hurt. Trainmen said the dead were occupants of the truck.

James Brown, of Rex, Ga., a farmer, said the dead were James Allen, 29, Mrs. Allen, 18, and their two year old child, James Jr. Brown said he had lent them the truck to move some furniture.

Locomotive fireman, Jim Henry of Macon, Ga., was trapped in the wreckage along with Engineer D. C. Wolf of Atlanta. Henry was removed alive and conscious by rescuers, who cut their way through with acetylene torches nearly three hours after the wreck.

The fireman was hurried to an Atlanta hospital. Rescuers said they found no trace of the engineer and feared he was dead.

Railroad officials said the tracks parallel the highway at the point where the accident occurred within the city limits here, 30 miles south of Atlanta.

The train was from the Florida West Coast enroute to Cincinnati. The truck was attempting to cross on a side road. The engine, tender, baggage car, mail car and two coaches of the train were overturned.
