## **Body Worth More Today**

EVANSTON, III. (AP) - Like many other things newadays, the stuff that makes up the human body has risen steeply in price. Dr. Donald T. Forman estimated weighing 150 pounds are now worth about \$5.60 in inflated dollars. The Northwestern University biochemist in 1969 figured the value at \$3.50. In 1936 it was estimated at 98 cents. More than 60 per cent of body weight is water. About a third is fat and protein. Ash and minerals in the skeleton and body fluids make up about 5.7 per cent of the body's weight, Forman calculates.

## Give Busing A Chance

CHARLOTTE, N.C. (AP) - In a Southern city where busing has been a controversial issue for years, a group of both black and white students is writing to a Boston newspaper urging Bostonians to "give integration a chance to work." About half the 10 students are white and are bused to school under a court-ordered desegregation plan. All attend a previously all-black school. The letters are being mailed today. The letterwriting campaign developed after news reports about the violence in Boston as a result of court-ordered busing.

(AP) - With a hand-operated buttonmaking machine, the Jaycees chapter in this Los Angeles suburb is punching out WIN buttons to help stir a nationwide feeling of "super patriotism" for President Ford's anti-inflation program. Jaycees spokesman Budd Hoaas said the button-making program started the day after Ford announced his economic program.

## Wilson Seeks 'War' Backing

LONDON (AP) - Prime Minister Harold Wilson meets separately today with representatives of British labor and business in an effort to win support for his declared war on Britain's economic crisis. The talks come the day after Wilson called for a partnership between his newly reciected Labor government and "the whole of our national family." The labor representatives said they will press Wilson to maintain a close watch on prices and to ward off any rise in unemployment. The industry leaders are expected to seek relaxation of price controls, arguing that earlier Laborite measures have drastically cut profits and have forced many companies into bankrupcy.

ROME, Italy (AP) - The man who will try to forge Italy's 37th postwar government from the country's squabbling political parties comes equipped with a back-ground in economics, a taste for political warfare and an aversion to communism. There's an old saying that "heroes are made, not born" meaning that heroes arise out or circumstances usually beyond the control of the

There are very few people who go around courting death; every man, if given the opportunity will, by instinct, avoid danger and pain.

But respectful as we may be of death and as aware as we all are of pain there is something deep within each of us that elevates the welfare of others TOM TIEDE above and beyond our own safety.

Maybe that's why, cynical as we might be at times, we've never really lost our faith in the basic

There's nothing about them that would make them stand out in a crowd or be selected as possible or probable heroes.

And that's really the beauty of it all. We don't the supermarkets and hope to the hogpens of the think we care to live in a world where the heroes land. The policies of this man - "Butz Bungles," and the non-heroes were readily identifiable: it as they are called by his own lieutenants - have would constitute an intolerable burden for those played a fertilizing part in elevating many labeled heroes and constitute a serious mental handicap for those of us labeled "non-heroes."

## **Energy Problem**

In a week's time eight electric utilities canceled programs for new power plant construction in the East and Midwest. We can take this as the first warning of an energy crisis that could bring power brownouts and blackouts in the future. They will have nothing to do with shortages of oil or the whims of the

It is a shortage of money that is derailing efforts by the utility ndustry to provide the generating capacity to meet anticipated demand for electricity in the late 1970s and 1980s. Utilities are beginning to shelve expansion plans because of difficulty in financing new plants in the current tight money market and delays in getting their rates increased to cover higher prices for

Power shortages could occur in the more immediate future for another reason. The financial squeeze is also leading to curtailment of maintenance work by many utilities. Plant breakdowns are thus more likely, putting unusual demands on the national grid for distribution of available power.

## Kissinger 'Tilted' Nixon To Whites

that Henry Kissinger guided President Nixon in January, 1970, along a tightrope between black and white Africa, with a secret tilt toward the white supremacist nations. It was Kissinger's first big "tilt."

The Kissinger proposals were submitted to the former President as part of a massive review of U.S. policy toward southern Africa, our sources say. Prepared by Kissinger's National Security Council staff and stamped SECRET on every page, the review is known formally as 'National Security Study Memorandum 39." Its existence has been previously reported, but we

> The secretary has never admitted erring on the wheat sale, naturally. His tactic since has been to blame higher prices on consumers. When checkout stand conditions became so gloomy last year that desperate housewives staged a national boycott, Butz called the women "stupid" and "crazed" and said they were upsetting delicate forces of economic realities in the farm industry. His clumsiness with the ladies resulted not only in his loss of plausibility with civilians but with his own civil servants as well. During the boycott, one Agriculture staffer wrote Butz that "the absurdities of your rule have brought shame and denigration to our if possible: then make a choice.

The shame has not since evaporated. There is no less credible organ of government today than this giant countrified bureaucracy. At Butz's direction it has misled the nation so often (in 1973, Agriculture predicted a 6 per cent food rise: it turned out to be 14), one petition has recommended "it be ground up, including the staff, and thrown out in the fields with the rest of the

But weak as Butz's past leadership has been, his present statesmanship in a food worried world is even more disconcerting. While many starve in the sub-Sahara and Indians wait at the brink of drought disaster, Butz glibly brushes caution aside to assure one and ali, the fed and the unfed, "there is no reason to panic."

It must be reassuring for that large portion of mankind that is perpetually hungry to hear that the U.S. Agriculture secretary is optimistic. ## Rockefeller Gifts Were Wide Spread

Ordinarily this column doesn't engage in direct reportage, preferring to stick to analysis and leave the keyhole stuff to the boys clustered at the bar in Washington's famed National Press Club. **HOUSTON ROCKETS** 

NBA — Central Division

Rebounding was the Rockets' biggest disappointment last season, and Ceach Johnny Egan plans to remedy the situation with greater employment of 7-0 Kevin Kunnert and the addition

Buffalo, was used sparingly during his rookie campaign. lawes, formerly of the University of Washington, has been playing professionally in Europe. Egan hopes that together they will lift the Rockets from the last place in league rebounding, a

FORWARDS: Muscular Rudy Tomjanovich has been called the most popular item in Houston since the barbecue - and perhaps rightfully so. He was the Rockets' scoring leader (24.5) and only All-Star representative last season. He is strong, tough and works hard in all phases of the game. Unfortunately, he deesn't get much help up front, unless Hawes, who averaged 24 points and 16 rebounds for a team in Venice, Italy last season, supplies it. Cliff Meely is the top reserve. Rating: B.

could become No. 1 quickly. Smith is big and rugged, but his shooting is erratic, his defense weak and his speed negligible. Kunnert lacks experience and his shooting is questionable.

20-point scorer, a magician with the ball, and swift as lightning. Offensively, he is sensational. And then there is defense. That's where he hurts the club. At 5-10 - or shorter - he is victimized because of his lack of size, a size considered small only in basketball. Mike Newlin is basketball's version of baseball's Pete Rose, "Charley Hustle." Like Rose, Newlin is not an exceptionally gifted athlete, but he reaches great heights with sheer determination, guittiness, guile, cunning and fortitude, Ed Ratleff, in his second pro year, is a rapid learner, while Dave Wohl is a serviceable reserve. Rating: B.

PREDICTION: Whatever hopes the rockets have for improvement hinge on the performances of Kunnert and Hawes or someone else - under the boards. Tomjanovich, Newlin and Murphy are seasoned pros, but it's the other two positions that are causes for concern — and it's problematical whether either Kunnert or Hawes or both are the answers. alone. Besides, I have no special training, so I guess I'll just have to go on as I have even though my husband and I have little in common except our children.

So in order to be supported, and keep the high regard of our children (now married), I'll continue to allow my husband the intimacies I no longer enjoy. Talk about prostitution! I honestly think that with all the changes taking place today

women will eventually get a break, and have the sexual freedom

DEAR BORN: I'm sure you're not alone, I hear from thousands of women your age who feel trapped in dull, tired marriages, but they ask how to improve those marriages. HOUSTON ROCKETS

NBA — Central Division 1973-74 finish: W 32, L 50 - 3rd place

Rebounding was the Rockets' biggest disappointment last season, and Ceach Johnny Egan plans to remedy the situation

of 6-9 Steve Hawes. Kunnert, acquired in the middle of the 1973-74 season from Buffalo, was used sparingly during his rookie campaign. Hawes, formerly of the University of Washington, has been playing professionally in Europe. Egan hopes that together they will lift the Rockets from the last place in league rebounding, a position they finished last season.

with greater employment of 7-0 Kevin Kunnert and the addition

FORWARDS: Muscular Rudy Tomjanovich has been called the most popular item in Houston since the barbecue - and perhaps rightfully so. He was the Rockets' scoring leader (24.5) and only All-Star representative last season. He is strong, tough and works hard in all phases of the game. Univrtunately, he doesn't get much help up front, unless Hawes, who averaged 24 points and 16 rebounds for a team in Venice, Italy last season, supplies it. Cliff Meely is the top reserve, Rating: B.

CENTERS: Don Smith is the incumbent starter, but Kunnert could become No. 1 quickly. Smith is big and rugged, but his shooting is erratic, his defense weak and his speed negligible. Kunnert lacks experience and his shooting is questionable.

GUARDS: Diminutive Calvin Murphy is a whirling dervish, a 20-point scorer, a magician with the ball, and swift as lightning. Offensively, he is sensational. And then there is defense. That's where he hurts the club. At 5-10 - or shorter - he is victimized because of his lack of size, a size considered small only in basketball. Mike Newlin is basketball's version of baseball's Pete Rose, "Charley Hustle." Like Rose, Newlin is not an exceptionally gifted athlete, but he reaches great heights with sheer determination, grittiness, guile, cunning and fortitude. Ed Ratleff, in his second pro year, is a rapid learner, while Dave Wohl is a serviceable reserve. Rating: B.

PREDICTION: Whatever hopes the rockets have for in provement hinge on the performances of Kunnert and Hawes or someone else - under the boards. Tomjanovich, Newlin and Murphy are seasoned pros, but it's the other two positions tha are causes for concern - and it's problematical whether either Kunnert or Hawes or both are the answers. HOROSCOPE For Wednesday, October 16,1974

By CARROLL RIGHTER

GENERAL TENDENCIES: You can investigate new ideas today and tonight but it's not the time to commit yourself to a definite course of action since all the factors involved are not yet fully understood. Postpone the signing of any documents. ARIES (Mar. 21 to Apr. 19) If you study your responsibilities early, you will be able to handle them efficiently. Strive for more harmony with loved one.

TAURUS (Apr. 20 to May 20) Don't let it bother you if you don't agree with the ideas of associates. Be silent with one who is in a most irate mood. Relax tonight. GEMINI (May 21 to June 21) Although you have many duties to perform, don't expect aid from others, since it will not be forthcoming. Show that you are sensible.

MOON CHILDREN (June 22 to July 21) You can enjoy yourself most now by sticking to pleasures that are wholesome and inexpensive. Put more zip into your life.

LEO (July 22 to Aug. 21) Try to cooperate more with family and strive for a firmer foundation. Get at the source of any friction and eliminate it

VIRGO (Aug. 22 to Sept. 22) You should be careful in motion today if you want to avoid the unhappy influences. Don't criticize LIBRA (Sept. 23 to Oct. 22) Elevate your consciousnes to a greater degree and you will be on the road to success. Listen to

advice of a clever business expert. SCORPIO (Oct. 23 to Nov. 21) Try to please good friends in a social way and you find this opens new avenues of success to you. Sidestep a depressing activity. SAGITTARIUS (Nov. 22 to Dec. 21) You may want to renege on a promise you've made, but it would be wise to carry through with your commitment. Be cheerful.

CAPRICORN (Dec. 22 to Jan. 20) Show that you will cooperate with a plan a friend proposes that could gain mutual success. Take time for mediation tonight AQUARIUS (Jan. 21 to Feb. 19) Engage in a civic affair and gain the respect of a higher-up. Show you are conscientious in

PISCES (Feb. 20 to Mar. 20) Be careful of stumbling blocks in a new project you have in mind. Don't permit a new contact to lead you astray. Be confident. IF YOUR CHILD IS BORN TODAY...he or she may become impatient when the going gets rough and many want to turn to something else. Teach to persevere and to figure out how to get around pitfalls and complete whatever is started. Make sure as

parents to have only the finest influences around. Give ethical training early in life. "The Stars impel, they do not compel." What you make of your life is largely up to YOU! Carroll Righter's Individual Forecast for your sign for November is

civic improvement. Follow hunches.
