"I know  
the value  
of extra  
nitrogen!"

I may be an "old timer" yet I keep in touch with new things. And when any new thing is better, that's what I want.

Ever since I learned the Department of Agriculture and Immigration of Virginia reported that

**ARCADIAN, THE AMERICAN  
NITRATE OF SODA**

contained extra nitrogen over the guaranteed 16% with an extra cash value as high as 88c per ton, I have used no other.

I know the value of extra nitrogen and I make sure to get that extra value.

For truck, fruit and all crops it is now proved that ARCADIAN, THE AMERICAN NITRATE OF SODA brings the farmer big value.

**Boy Scout Week**

During the present week the Boy Scouts of America have been celebrating with fitting ceremonies their 25th anniversary, and on last Saturday night over a million Scouts and Scout leaders all over the country re-dedicated themselves to the Scout Oath.

The Scout Oath is one that should be memorized by everyone, young and old alike. It contains in the briefest words and sentences a creed which if lived up to would leave little wanting in a man's character, for it says: "On my honor, I will do my best to do my duty to God and my country, and to obey the Scout Law; to help other people at all times; to keep myself physically strong, mentally awake, and morally straight."

It is appropriate that those who grew into maturity before the Scout movement was born, should ponder at this time what a great contribution to the welfare of the nation this movement is making when it teaches young boys, our future citizens, to keep themselves "physically strong, mentally awake and morally straight."

Calvin Coolidge once said: "If every boy in the United States between the ages of 12 and 17 could be placed under the wholesome influences of the Scout program and should live up to the Scout Oath and Law, we would hear fewer pessimistic words as to the future of the nation."

During the past 26 years, approximately 7,000,000 boys and men have been connected with Scouting. Of these 1,300,000 are now active. The graduates, or veterans are thus becoming an increasingly large group—there are almost 6,000,000 of them. Within the past year various programs have been devised to re-establish or further their contacts with Scouting and its ideals.

It is well that the movement is growing, that more people each year are becoming interested in it, to the end that the training ground of a fine citizenry may be increasingly effective.

**Hauptmann Foolishness**

The unsavory turn, which the Hauptmann kidnap case has taken with the reprieve granted by Governor Hoffman, has made the entire country disgusted with America's system of dealing with criminals. It is beginning to appear as though Bruno will go free, just because someone feels that there were other persons connected with the crime. Every kind of flimsy excuse is being heard in Hauptmann's behalf. In pointing out all this silliness, the Miami Herald says:

"Experience is a costly teacher, especially when one fails to learn and profit by it. Mrs. Evelyn Walsh McLean, Washington society leader, whose 'Father Struck It Rich,' leaped into the Lindbergh kidnaping case and kindly presented Gaston B. Means with \$104,000 to ransom the child. Means had a questionable reputation previously and only a person easily influenced would have fallen for his line of conversation. Means was a fraud and is serving time for his hoax."

"Mrs. McLean explained she was interested in trying to protect childhood from such brutal kidnapings and serve the Lindberghs. But now she has concerned herself in saving Bruno Richard Hauptmann, the convicted kidnap-killer of the baby, the enemy of childhood, who brought tragedy to the Lindberghs. She is helping to finance the defense movement and probably is being taken for another currency ride, but now on the other side."

"The hereafter of the latest Hauptmann fight may be seen in the fact that astrologers are consulted, that the stars indicate the innocence of the former German criminal. Probably palmists, fortune tellers, readers of bumps on the head, lie detectors and all the other film-film hocus pocus will be utilized. What with the stars in Heaven, the earthly stars, such as Governor Hoffman of New Jersey in politics, Mrs. McLean, with money; publishers of magazines; and many attorneys assisting the poor, persecuted kidnap-er, Bruno may be right in his prediction that he will never be executed."

**FLORIDA HIGHLIGHTS**

Associated with the history of the South, the man in the illustration is J. Ray Dickson, nationally known archaeologist, who says that "no where else in the United States is there an Indian burial ground that shows such a marked degree of 'Christian influence'." A building similar to those Le Moyne drew of Florida Indian structures back in 1664 now houses this outstanding scientific attraction.

Soap from trees? Yes sir, almost anything is possible in Florida! All you have to do to work up a good lather is to pick a few fruits of the SOAPBERRY, a native Florida tree, and put the pulp in water. The pulp of the fruit is said to contain some 90% saponin and has often been successfully used as a soap substitute. That isn't all either! The seeds are exceptionally hard and have been utilized as buttons and beads.

**Borah's Entry In Ohio Race Has Tactical Significance**

By BYRON PRICE  
 WASHINGTON, Feb. 12. — (AP)—There are special reasons why the dominant leaders of the Republican party are so deeply interested, indeed, in Senator Borah's decision to enter the presidential primary in Ohio.

If it merely were a question of delegates—of a few votes, more or less, in the national convention—no one would be greatly concerned. But what Mr. Borah is after amounts to a great deal more than that.

Ohio is a proud state in Republican tradition. This year it will entertain, at Cleveland, the national convention. It commands almost the largest bloc of electoral votes in that Mid-Western sector where many politicians believe the election of 1936 will be decided.

Against that background Mr. Borah proposes to submit to a popular test his demand that the present leadership of the party be repudiated by the rank and file.

Particularly, he asks for a popular verdict against the convention plan of the old-line leaders. These plans, as announced in the various states, contemplate the selection of untried delegates. In the East and Mid-West, including Ohio, in sufficient numbers to hold the balance of power with respect to the nomination.

Senator Borah wins his case for the kind of the Republican party of that crucial state. What he asks is the plan of the party, morally and psychologically, and what becomes of their leadership.

The move need not involve, though indirectly, the much discussed question whether Borah actually is a candidate, or whether he has any real chance of being nominated.

He has said quite directly that his first concern is the breaking down of the present leadership, which he regards as reactionary. That this is exactly what he has done in the past is demonstrated by his record of votes when in the seat of

verdict he is seeking would be foreclosed.

His lingering progress toward an actual announcement obviously has not resembled the usual courses of presidential aspirants. His tentative and cautious footsteps have been more like those of a wise pedestrian crossing an ice-covered street in traffic.

A candidate who expects to be nominated must go out after delegates wherever there is any outside chance of gathering in even a few. Mr. Borah has had long experience in politics, and must know the difficulties which stand between him and the nomination. He chooses to strike only where the psychological effect promises to be greatest.

Whatever the immediate effect of the Ohio venture, by way of forcing the hands of other candidates, it is the more remote possibilities of which the senator obviously is thinking.

If he wins in Ohio, but has too small a total of delegates strength to make him a serious contender for the nomination, what will be his role in the convention?

Many guesses are possible, but the circumstances keep bringing back to mind a scene in another national convention many years ago. At Baltimore, in 1852, the leading candidate in a deadlock was Champ Clark. In a single dramatic speech, William Jennings Bryan blasted forever Clark's vision of the White House. The burden of that speech was that Clark had the support of West Virginia.

In Borah's speaking, similarly, to assume the mantle of spokesman for the rank and file, is that he can spend the chance of some other candidate? And if so, what candidate?

**Race Track Money Is Sent To Each County**

TALLAHASSEE, Feb. 15.—(AP)—County today received \$2,500 each as their share of the second distribution to be made from state taxes on race track admissions and wagering.

The total apportionment was \$147,500, the same amount also was in the first apportionment made several days ago.

The state law legalizing pari-mutuel wagering at race tracks provided for tax collections to be distributed equally among the state's 67 counties.

**Retail Food Cost Is Now A Little Lower**

WASHINGTON, Feb. 15.—(AP)—The Labor Department report that retail food costs in the two weeks ended Jan. 29 continued to slide downward.

The cost of stocking the family leader those two weeks was 80.7 percent of the average cost in 1922-25, compared with 83.7 percent of the previous two weeks and 82.5 percent the two weeks before that. A year ago the cost was 79.9 percent; three years ago 82.5 percent.

Nathan Reedy Fleming, North Carolina legislator member from Rowan county, was killed in the battle of the Wilderness during the Civil War.

**House Passes Big Appropriation Bill For Army Defense**

(Continued from Page One)

Money to increase the National Guard strength by 5,000 officers and men and to step up modernization of its heavy artillery, give it more gas and oil for army shells and more caretakers to guard its property.

Funds totaling \$1,824,818 for a year's active duty for 1,000 Reserve Officers Training Corps graduates annually, 50 of the 1,000 to be assigned finally to the Army.

Elimination of 10 percent on profits of contractors and subcontractors supplying the Army with airplanes, arms and ammunition and the like.

Provision of \$108,677,500 for rivers and harbors projects, of which \$100,000,000 is for actual work and allowance of \$10,000,000 for flood control.

Debit of \$29,000,000 for the Panama-Colony Tidewater Dam, Florida Ship Canal and other New Deal projects not previously specifically authorized by Congress.

All attempts to pare down the defense outlay were squelched by the defense-minded House, which even refused to back its appropriations committee on the office training item, which was the final big fight.

Representative Woodrum (D., Va.) of the appropriations committee which had refused the allowance asserted that "The President doesn't want it." Representative Dockweiler (D., Calif.) of the same committee said it was equivalent to spending \$40,000 each to provide the half hundred more officers. Nevertheless, the House responded to the pleas of the well-organized McGraw bill with a 176 to 61 vote for the additional money.

The big bill, before the House continuously since last Monday, would give the Army 565 new airplanes; provide that its enlisted strength be brought up to at least 150,000 men by June 30, 1937, and allow \$700,000 for new defense expenditures on the West Coast, in Hawaii and at Panama.

reached with the holders of the City's bonds whereby an adjustment of back taxes will be permitted he hopes the people will take advantage of the opportunity and clean up the tax rolls.

City Commissioners voting for the resolution setting up tax adjustment board had hoped to get it into operation in time to work in conjunction with the County Commissioners sitting as an adjustment board. However, sessions of the County adjustment board will not be held after Feb. 20 and therefore the hoped for co-operation will not be possible.

When notice of the proposed City adjustment board was first made several weeks ago, Attorney Shanda hurried to Sanford and called on Mayor T. L. Dumas, City Clerk F. S. Lamson and City Attorney F. R. Wilson. He advised at that time that the bondholders would insist on full collection of taxes, and cited two instances in Florida (Tavares and Marianna) where the courts had issued injunctions restraining the operation of tax adjustment boards similar to that proposed for Sanford. As a result of the attorney's visit at that time the City clerk cancelled publication of legal notices asking delinquent property owners to apply for a compromising of their debts to the municipality, and while the board was called into session for its first meeting last Monday night it decided to take no action until an agreement has been reached with the bondholders.

## Rotary Dance Held At Mayfair Hotel

Prominent among events during Sanford's winter social season was the annual Valentine dance given last night at the Mayfair Hotel by the Rotary Club with a large number of persons in attendance.

Dancing was enjoyed to music furnished by the Noctambulators in the large ballroom of the hotel which was decorated with Rotary emblems and Valentine novelties. The large windows overlooking the lake were covered with red paper hearts and festoons of red and white crepe paper were arranged over them. Late in the evening several hundred balloons were released and added much merriment to the occasion.

H. H. Coleman, H. B. Pope, E. E. Bludworth, and Roy Holler, members of the club, were in charge of arrangements for the dance.

Among those seen dancing were Mr. and Mrs. J. E. Abernathy, Mr. and Mrs. W. A. Adams, Mr. and Mrs. J. S. Adams, the Rev. and Mrs. Martin Bram, Mr. and Mrs. A. L. Betting, Mr. and Mrs. Arthur Branham, Mr. and Mrs. Gordon Barnett, Mr. and Mrs. Walter H. Bach, Mr. and Mrs. Dave Boniske, Mr. and Mrs. H. H. Coleman, Mr. and Mrs. Walter S. Coleman, Dr. and Mrs. B. ## IT'S TRUE! By Wiley Padan

New York, N. Y.—"IT'S TRUE!" that Ronald Colman told a magazine interviewer in 1928 that he believed the finest possible role for talking pictures was that of Sydney Carton in "A Tale of Two Cities," and that he hoped some day to play it," says Wiley Padan. "Now, after seven years, he plays that very role, for Metro-Goldwyn-Mayer!"

## FIRST DAY AS SENATOR A BUSY ONE FOR MRS. HUEY P. LONG

Mrs. Rose McConnell Long, who had never made a speech in her life, had a busy day when she came to Washington and was sworn in to fill the unexpired senate term of her slain husband, the late Senator Huey P. Long of Louisiana. Left, Daughter Rose and Mrs. Long (right) are shown arriving at the Capitol. In the center Mrs. Long (left) and Mrs. Hattie Caraway of Arkansas, the two worst members of the senate, are seen in a Capitol corridor. At the right are Vice President Garner and Senator Long re-enacting the swearing-in ceremony. (Associated Press Photos)

## LIONESS LEAPS INTO AUDIENCE AT THEATRE

Ruthie, a lioness, literally panicked 'em at her first (and last) performance in a Baltimore theatre. Slipping from her cage behind the scenes, she leaped from the stage into the laps of four boys in the audience, slightly injuring Edward Poluzny (left), 15. A policeman shot and wounded her in the lobby after she waded through 2,000 terrorized spectators. Mad with pain and fear, Ruthie is seen snarling in her cage at an animal hospital. ## Great Victory Is Claimed By Italian Arms

### 5,000 Ethiopians Are Reported Slain In Six Day Battle On The Northern Front

### 300 Square Miles Of Land Occupied

### Early Capitulation Of Haile Selassie Predicted In Rome

The Associated Press claims of a great Fascist victory in northern Ethiopia were put forward in Rome today as the Italian government announced the most sweeping advance of its troops in the month since the early days of the war. The Italians said they captured 300 square miles of new territory in a six day battle which brought death to 5,000 Ethiopians and wounds to 1,500 of which less than 500 were killed.

The Italians claim the victory brings closer the capitulation of Emperor Haile Selassie. Italy's high command saw far-reaching possibilities as a result of the victory. Mule's army was the chief northern barrier to an advance and was in its strongest position.

Ethiopia had numerous defensive advantages because of the terrain but Italy had superior armament and equipment. The movement involved several Italian divisions and two army corps, a total of 65,000 men, all white. They pre-empted terrific fighting with the casualties still uncertain.

Italian estimates of their own dead, all white troops, are under 500 with about 1000 badly wounded. An estimate of Ethiopian casualties was 4000 to 5000 and 15,000 wounded.

The movement was carried out despite a heavy rain during all of the six days. This added greatly to the difficulties of the tortuous mountainous terrain.

## Tremendous Sum Asked For British Fighting Forces

LONDON, Feb. 17. (AP)—Great Britain's fighting forces asked the House of Commons today for an additional appropriation for this year of 7,811,000 pounds or about \$39,550,000, most of which would be expended in special measures taken in connection with the Italian-Ethiopian dispute. The sums requested, which must be approved by the House of Commons, would be in addition to appropriations for fighting services provided by last spring's budget.

## Autos Kill Three In Florida Sunday

SEBRING, Feb. 17. (AP)—Two men were killed and another seriously injured near here Sunday when their automobile was demolished by a train. The dead are Dr. A. Dean Odell Sobring, 18, Lake Placid. The injured man is Ben Lee, 23, of Bradenton. Lee told a coroner's jury that the car, going about 45 miles an hour, rolled up on the crossing at Lakemont, four miles from here. Dr. Odell was driving, he said, and apparently failed to see the warning signals.

## Mayor T. L. Dumas Condition Stated As Very Critical

The condition of Mayor T. L. Dumas was reported by Dr. C. L. Park, his physician, this afternoon as being "very critical." The mayor rallied perceptibly Saturday and attendants at his bedside in Fernald-Laughton Memorial Hospital were cheered by his apparent improvement shown. He suffered a severe relapse Sunday morning and his lying in the balance for several hours, but toward evening a slight improvement was shown. Another relapse was suffered last night.

Mayor Dumas is ill from an infection caused a week ago Saturday (his 70th birthday) when the lid of a couple fell on his hand, breaking the skin. He was taken to the hospital two days later.

The mayor's two daughters, Mrs. Raymond C. Phillips of Gainesville, and Mrs. F. A. Hazard of Augusta, Ga., have been here since their father's condition became serious several days ago.

## Engineers Would Find Uses For Saw Palmetto, Spanish Moss And Everglades Peat

### Fred Williams Back Of Movement Here; State Fund Needed

Establishment of an engineering experiment station for the purpose of trying to find out how Florida products can be utilized and disadvantageous conditions eliminated will be asked of the next state Legislature when preliminary engineers for an appropriation to start a laboratory. Fred T. Williams, Sanford City engineer, reports he has received considerable local encouragement, and hopes to organize a committee to help put the proposed appropriation measure through the Legislature when it convenes next year.

Mr. Williams said that there are 14 agricultural experiment stations in Florida, but that while the value of manufactured products is more than twice that of agricultural and that more people are employed in the mechanical industries than in agriculture, the state has never done anything toward establishing an engineering experiment station.

He lists many typical problems which an engineering experiment station would attempt to solve, among these being the finding of an economical way to use Everglades peat as a fuel, a more rapid and cheaper method of curing Spanish moss for industrial uses, and the perfecting of a method of manufacture of useful products from scrub palmetto.

Such an experiment station, Mr. Williams said, would make other studies along these lines: Effect of silica content in Florida water on their suitability for steam raising purposes, possible methods of removing silica from natural waters, improvement in the uses and application of Tung oil for that new industry, beach erosion, lower cost air-conditioning systems suitable for the Florida climate, elimination of radio static, failure of transmission line insulators in Florida, and study of hurricanes and other atmospheric disturbances by means of direction finding radio equipment.

## \$2,609,751,000 Bill Passed By The Senate

WASHINGTON, Feb. 17. (AP)—The Senate passed today an appropriation bill carrying \$2,609,751,000 including \$1,730,000, 000 to pay the soldiers' bonus and \$879,000,000 to run independent offices of the government in the next fiscal year. The measure which now goes back to the House for action on the bonus amendment carries one of the largest peacetime regular and emergency expenditures of government departments.

## Paving Operations On West First Resumed

Paving operations were resumed on West First Street, between Park and Oak Avenues, this morning, though with a smaller crew than has been employed on the WPA project during the winter. Today's work was the first WPA labor on the streets since a 10-day holiday was declared following a request by City officials for a slackening of such work due to the need of labor in the celery fields.

## Only Loquots In County Stolen On Eve Of Big Fair

H. M. Papworth, president of the Seminole County Chamber of Commerce which is sponsoring this county's exhibit in the Central Florida Exposition in Orlando tomorrow, said today that he is "so mad he can't spit." It seems that Mr. Papworth has a loquat tree in the yard at his home on Park Avenue, the only loquots in the County, he said. There were several excellent specimens of fruit on the tree and these he has been watching carefully, intending to take them to the fair. He inspected the fruit Sunday morning, but decided to allow it to remain on the tree one more day to ripen. But during the church hour Sunday morning while the family was away from home some person unknown entered the yard and stole "every blasted fruit" off the tree, Mr. Papworth reported.

## City Hall Clerks Busy Filling Out Business Permits

### Few If Any Business Men Will Be Taken Before City Court

Clerks in the office of City Clerk E. S. Lamson were busy today issuing occupational license and business men who have been delinquent since last Oct. 1 and upon whom had been served summonses to appear before Judge S. A. B. Wilkinson in Municipal Court at 4 o'clock this afternoon. Lieutenant C. H. Shaffer of the police department served summonses last week on approximately 100 business men who had failed to obtain permits for this fiscal year, but after the call at City Hall this morning he said he doubted if any would be asked to "fill in the judge" as it appeared that all would have been anxious to forego the deal.

A few truck owners have not as yet obtained this year's licenses, but every time an unlicensed truck comes to town and the police know about it the driver is advised to procure the necessary permit before he makes another trip.

## State Postpones Setting Date For Hauptmann Death

TRENTON, Feb. 17. (AP)—The state delayed seeking fixing a new death date for Hauptmann today to give Governor Hoffman, until he makes any possible moves he may be considering. Assistant Attorney General Langdon said he would not ask Supreme Court Justice Trenchard before tomorrow at the earliest to fix a new date for the execution of the man convicted of the Landisberg baby murder.

## County Exhibit In Place For Orlando Fair

### Varied Program Will Be Ready Tonight; Fair Opens Tuesday To Continue Week

Seminole County's extensive exhibit in the Central Florida Exposition opening in Orlando tomorrow for a week's run will be in place tonight, and there will not be even a minor detail left over to be attended to after the formal opening. County Agent C. R. Dawson declared. Most of the exhibit was taken to Orlando over the weekend, but a few items were taken this morning when Mr. Dawson and committee members went to the exposition city to complete arrangements of the varied display of agricultural, horticultural and industrial products of the county.

The Seminole exhibit will occupy the entire stage in the auditorium, and there is to be a large Neon sign on the front of the building advising visitors of the fact. Because of the location granted this county it was stated that numbers of persons did not see the exhibit last year, but it is hoped that the large sign will attract more visitors this year.

The fair management has announced that a building especially for county exhibits will be erected before next year's exposition. A. G. Wagner of Chuluota, chairman of the exhibit committee of the Seminole County Chamber of Commerce which is putting the county's display in the Central Florida Exposition, and County Agent Dawson have gathered a complete and extensive array of fruits, vegetables and industrial products. In addition to these displays Miss Josephine Boydston, county home demonstration agent, is putting in the big exhibit of canned goods and crystallized fruits prepared by women of the county. The next display prepared by the Future Farmers of America and which won a prize at the state fair at Tampa will also be in the Orlando fair.

The "celery progress" exhibit the Future Farmers placed in the Tampa fair will not be repeated in the Orlando fair as it would have to be rebuilt and the Chamber of Commerce has not sufficient funds to cover the expense.

Next Thursday is to be Seminole County Day at the fair. It will also be Governor's Day and Farmer's Day. Brevard, Lake and Marion counties are to have their day tomorrow, and Wednesday will be Orange County and All-States Visitors Day. School children of Seminole and Orange counties will be admitted to the fair free of charge on Friday in the afternoon, and a broken ride for white schools of both counties. Free tickets of admission will be given to negro children on Saturday.

## A 'Whatisit?' Not Human, Not Beast?

When "Ditto," valuable chimpanzee, caught the flu in Los Angeles, he was rushed to a veterinarian. But the latter said the chimp was too much like a human and would not accept the case. Then doctors refused to administer treatment because "Ditto" isn't human in the accepted sense. A specialist finally solved the question by admitting the monkey and here we find him in care of Dr. John J. Durkin and Nurse Lela Strickland. (Associated Press Photo)

## Nudist Ship Sails Out Of Tampa For Caribbean Island

TAMPA, Feb. 17. (AP)—The nudist ship Fleetwood sailed into the harbor last night in search of a land where Captain Maurice Allard and his European followers can live in peace some clothes.

His battered, 50-year-old hull, planned in the summer, the Fleetwood sailed down Tampa Bay, headed for some unpopulated island in the Caribbean where nudism can be practiced under a tropical sun.

The ship's quartermaster was Allard, California nudist organizer, headed up on a report. By his side was Eugene Johannson, Norwegian nudist, and Tom Mohle, who agreed to guide the Europeans in their destination if they would allow him to keep his shirt on.

Allard finally left a colonnade of delay caused by rough weather on the Gulf which chilled the nudists' ardor, and a broken ride for the nudist ship.

Louise last night the nudist ship sailed from Tampa Bay in darkness to go to the Caribbean. Allard would have left for West, then sailing south into the Caribbean toward Utopia.

Allard's ultimate destination was a mystery. He first announced he would establish his colony on St. Johns Island in the Virgin Islands.

Later, Allard said the colony would be established on any island in the Caribbean which would be hospitable as warm as the tropical climate. Allard felt he needed such a warm welcome and a warm climate if nudism is to thrive.

Captain Allard, despite the fact he is an amateur, was confident he could lead his Vana Vana Society of "Tolerants" to whatever island they desire. Waterfront workers were skeptical, however. On his first departure for Utopia two weeks ago, Allard and the Fleetwood went aground ten miles down the bay, the ship developed engine trouble and the Vana Vana came limping back in a gulf storm, glad to return to Tampa and stoves.

## Supreme Court Upholds TVA By 8 To 1 Vote

### Surplus Power Made At Muscle Shoals Can Be Disposed Of By Government

### Decision Limited To Only One Case

### Dismissal Of Action Was Favored By 4 Members Of Court

WASHINGTON, Feb. 17. (AP)—The government won a major victory in the Supreme Court today when the justices by a vote of eight to one held that TVA could dispose of surplus power manufactured at Wilson Dam at Muscle Shoals. Chief Justice Hughes handed down the detailed ruling before a crowd of prominent lawyers and members of Congress.

Only power from Wilson Dam had been sold by the TVA. The justices held that federal disposition of power was a question for Congress to answer, not the courts. The Court upheld the rights of the government to dispose of all surplus power made at dams intended to promote navigation or aid national defense. The government owned the property, said Hughes, and there was nothing in the Constitution to limit the government's disposition of power.

The general purposes of TVA, it was decided, present no "justifiable question." "The Tennessee river is a navigable stream," said Hughes, in developing the (Continued On Page Three)

## Water Craft To Move Into Lake County On Friday

EUTHR, Feb. 17. (AP)—Cruisers and speedboats from Jacksonville and other points in Florida will form a water caravan into Lake County Feb. 21-22, bringing representatives to a meeting of major waterway interests of Florida.

Herbert W. Carse of Green Cove Springs, chairman of the waterway committee of the state chamber of commerce, announced plans for the meeting, but said a decision had not been made whether it would be held at Euthr or Mount Dora.

Carse is chairman of a state-wide committee for arrangements, while R. G. Grassfield of Jacksonville and Karl Lehmann of Tallahassee are secretaries. Members include George W. Gibbo, Francis P. L'Engle, J. I. Doggett, Frank P. Buckins, P. G. Howe Edward Hall, and Don Barnett, all of Jacksonville; Commodore O'Brien of New Smyrna; Commodore A. H. Brown of Fort Lauderdale; Carl Ray and H. L. Smith of Ocala; L. J. Penney, Jr., of Green Cove Springs; George Tighman of Palatka; Noah DeCoteau and John Humbley of Sanford; L. H. Poulos of Gainesville; B. S. Redder of Mount Dora; J. J. Banks of Orlando; H. C. Brown of Clermont; and James H. Christie of Ocala.

## Free Marriages For Girls Who Propose

JACKSONVILLE, Ill., Feb. 17. (AP)—The leap year matrimonial business received another boost here when Justice of the Peace C. S. Smith offered to perform wedding ceremonies for couples, where the prospective bride made the proposal, free.

Smith said his offer is good for all of leap year and all that he demands is that the prospective bride sign an affidavit to the effect that she proposed.

## Mill Town Destroyed By Washington Blaze

ASTORIA, Ore., Feb. 17. (AP)—Fire virtually destroyed the mill town of Knappton, Wash., yesterday.

Handicapped by an icy wind and temperature below freezing, firemen were unable to control the flames which started in a defective flue.

Knappton is nine miles north of here, on the Columbia River. The Coast Guard cutter Onondaga left here to help fight the fire. No loss of life was reported immediately, but 100 residents were being cared for in nearby towns.

The United States quarantine station was converted into a receiving hospital for the homeless, many of whom were suffering from exposure.
