Lucas Says U. S. May Talk Itself Into Depression

Republicans Announce Plans To Sponsor Public Works Bill

WASHINGTON, June 16—(AP)—Senator Lucas of Illinois, the Democratic leader, said today people had better quit gabbling about a depression or the country may talk itself into one.

"I might go back to 1933 and repeat the words of Franklin D. Roosevelt to say that 'the only thing we have to fear is fear itself'—they are just as true today as they were then," Lucas told a reporter.

The Senator's comment came in response to an announcement by Senator Brewster (R-Mo.) that Republicans soon will sponsor a \$50,000,000 public works and relief planning program "to meet the growing Democratic depression."

The measure would not provide money for public works but would look forward to starting them when deemed advisable.

Lucas said he doesn't think the Republicans are doing the country any good by talking about a depression at a time when the Democratic leader said the nation seems merely to be going through a "lulling off" process.

"All of the talk a couple of months or so ago was that prices were too high," he said. "Now, when they have begun lulling off, the Republicans are raising a great cry about depression."

Chairman Taft of Ohio said he placed before the Republican policy committee yesterday a suggestion that the GOP foster a bill to set up a framework for a relief program to be administered by the states.

He said he had been mulling over in his mind a proposal under which the federal government would make grants to states when the number of relief cases reached a certain percentage of the population.

"We don't want another WPA like Harry Hopkins ran," Taft said. "If relief becomes necessary, it should be handled by the states at the local level."

He said he doesn't think too much of the idea of setting up a public works planning program, commenting that bills of that sort already have been done in that line.

He noted in this connection that public works planning has been underway for some time. The Federal Works Administration has devoted considerable time to such planning, without predicting a depression.

Democrats generally have shied away from suggestions that the country might be on the brink of a slump, although the Americans for Democratic Action, a separate organization, has said the country is on the thin ice of a recession.

Senator Murray (D-Mont) and seven colleagues have offered a bill to set up a reserve of non-federal public works projects to cost about \$18,000,000,000.

Their measure also would furnish federal money direct to industry to spur production, make grants to communities when unemployment is heaviest and provide loans for workers to move where they can get jobs.

Advertising Position Survey Is Conducted On Small Newspapers

By PROF. PHILIP WARD HURTON
School of Journalism, State University of Iowa

Can small town advertisers be argued out of their position phobias—their persistent clamor for certain positions?

There's no sure answer to the question but a study just conducted on 38 newspapers of over 30,000 circulation should provide some ammunition to fire at the merchant who says, "Give me that position, or else!"

The idea for this study arose last January at one of the special sessions of the Newspaper Advertising Executives Association in Chicago.

Until position was discussed the meeting was placid. During the uproar there were mutterings from the managers that perhaps it would be good to number every page "3" since "That's the only page advertisers want anyway." Some managers thought an extra charge should be made for special position. Others thought there should be no positions—that advertisers should be treated on a "first come, first served" basis.

Rather general agreement was given to the idea that local advertisers should be "educated" in the proper position. Suggested "educational" devices were the Continuing Study of Newspaper Reading Reports—also, readership surveys made on individual newspapers by schools of journalism. The educational process would consist of

International Rotarians Meet

MORE THAN 20,000 Rotarians from 50 nations have gathered in New York for the Rotary International's fourth annual convention. In this typical group four lands are represented. They are (l. to r.) Jose Torresillo, Havana, Cuba; Mrs. P. N. Kotak, Madras, India; Christian Lanzendorf, Luxembourg; Dr. Hsien Wen Hu, of China. (International)

Poland Promised Rosy Future In Six-Year Program

Increase In Income, Home Production And Fleet Studied

WARSAW, June 16—(AP)—The Polish government is painting a rosy future for this country.

From President Boleslaw Bierut on down, everyone who has anything to do with running Poland fairly gushes with enthusiasm over the new six-year economic recovery program.

The program is scheduled to start Dec. 1. That's the tentative date fixed for completion of the first three-year plan which started in 1948.

The government now claims all production targets have been reached or exceeded and the next months should show national recovery far in advance of what was originally anticipated. So now the accent is on what comes next.

The Communist-dominated government predicts that by 1955 these things, among others will have happened:

National income will be 97 per cent higher than in 1949.

Production in state-owned industries will rise by 114 per cent.

Agricultural output will increase by 46 per cent.

Poland will be producing 110,000 motor vehicles annually, including 60,000 trucks.

Production of sugar will jump from an expected high of 620,000 tons in 1949 to 900,000 tons.

Six hundred thousand new homes will be built at a cost of \$725,000,000.

Educational facilities will be extended by 181 per cent. Radio receiving apparatus will be increased from the present 1,000,000 sets to 2,000,000. The Polish merchant fleet is to be tripled. Health centers will be increased from 1,200 to 3,100 and Polish hospitals equipped with 10,000 beds.

Whatever Poland needs in the form of capital goods for expanding industrial recovery, she expects to get largely from Soviet Russia during the next six years. Under the existing trade pact with the Soviets, goods are to be supplied to the Poles valued at \$450,000,000.

President Bierut told the recent trade unions congress in Warsaw that by 1955, the nation's production would be three and one-half times the last prewar figures. He said the government's investments in industrial and economic expansion would quadruple any figure.

North Arizona Covered By Atom Age Prospectors

Uranium Is Object Of New Search By New Era Of '49ers

FLAGSTAFF, Ariz., June 16—(AP)—Atom age '49ers armed with Geiger counters and pick axes have launched a new gold rush in northern Arizona. This time the "gold" is uranium.

Prospectors are swarming in droves over canyons and across pointing their counters at anything that resembles uranium. This is one of about 100 mineral ores containing uranium.

In its purest state uranium contains 60 per cent uranium and 20 per cent vanadium, the Arizona Department of Mineral Resources reported.

Charles H. Dunning, director of the department, said the rush resulted from publicity given recent strikes.

"The possibilities of finding and developing uranium sources in northern Arizona are enormous," Dunning says.

Already the towns of Ashfork, Seligman, Williams, Flagstaff, Winslow and Holbrook have noted the influx of prospectors ranging from the grizzled experienced soundings to college student spending a summer vacation.

Edith Platt Cline of the Arizona Daily Sun here said Flagstaff prospectors had circled the Geiger counter market and were renting the instruments by the hour.

The uranium "field" in Arizona extends from almost the southern edge of the Grand Canyon east through parts of the Navajo Indian reservation.

Strikes of importance have been made in the state's northern counties.

Most publicized of these is the Maggie Riley claim. A few months ago Mrs. Riley stumbled on some uranium ore. She was fairly and apparently not what she wanted in the way of specimens to publish and sell to tourists.

However, she mailed samples to the Mineral Resources Department and discovered her find was worth \$10,000. Log found on her claim are being shipped to the Atomic Energy commission's plant at Monticello, Utah.

Dunning said another strike in an area in Navajo and Apache counties was important. Three persons, Frank Gardner, Joe Terrio and Frank McElroy, have staked out 23 claims there.

The Vanadium Corporation of America is working free claims in the Navajo reservation.

Trade Agreement Between Britain, Argentina Rapped

2 Nations Turn Cold Shoulder To U. S. Over 5-Year Pact

WASHINGTON, June 16 (AP)—Undersecretary of State Webb said today the United States hopes Britain and Argentina will carefully consider American objections before they sign a newly-negotiated five-year trade agreement.

At a news conference Webb said the American government has objected to the agreement on the ground of (1) its five-year duration, (2) its effect on free international trade and (3) its impact on trade between the United States and Argentina.

Furthermore, he said, Britain has been told that the United States considers the proposed pact inconsistent with a general agreement on trade and trade to which both the United States and Britain belong.

State Department officials believe that the agreement, which was negotiated at Buenos Aires last month, should cause a virtual shutting off of American trade with Argentina in such important fields as oil and farm machinery.

At his news conference, Webb said:

"It will be late next month before the United States can set to work on a peace treaty with Bulgaria, Hungary and Rumania."

He reported that United States and Mexican representatives are still discussing a Mexican proposal for a loan of about \$200,000,000 for Mexican oil development. Webb said the final decision will be up to the Export-Import Bank.

He kept the front of official secrecy over a row between the U. S. and Czech governments on establishment of peace in Palestine. Webb refused to say even whether the United States had replied to the latest Czech note to the government.

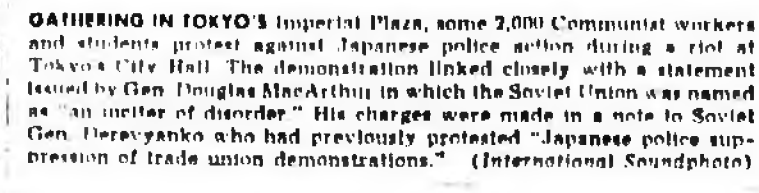

He said administration work on a program for developing economically backward areas of the world has reached the point where only a few questions remain to be determined and they are up to the president himself. The program may go to Congress in one to the week.

He said the Argentine-British trade treaty situation. Webb said the United States had made representations to the Argentine name for a bill passed in both countries.

He declared that American officials have not yet come to the end of their efforts but also disclosed that Britain and Argentina have not made any commitment not to sign the treaty.

The treaty, he said, is to balance British and Argentine trade at a level of about \$200,000,000 a year on both sides. The British could furnish the Argentine oil and manufactured products, and the Argentine would supply the British with meat.

Reds Hold Tokyo Protest Rally

GATHERING IN TOKYO: Imperial Plaza, some 2,000 Communist workers and students protest against Japanese police action during a riot at Tokyo City Hall. The demonstration linked closely with a statement issued by Gen. Douglas MacArthur in which the Soviet Union was named as an "instigator of disorder." His charges were made in a note to Soviet Gen. Beria-yanko who had previously protested "Japanese police suppression of trade union demonstrations." (International Soundphoto)

Teamsters Leader All-Time Record Is Set By State Beverage Dept.

WASHINGTON, June 16—(AP)—Daniel J. Tobin, head of the AFL Teamsters, today broadly today that organized labor might today to the Republican next year because of the "all-time" far of the Democratic-dominated AFL Congress.

The AFL, along with CIO and most other big union groups, supported Democratic candidates for Congress, who were pledged to support the Taft-Hartley Act last fall.

Tobin said in the current issue of the "Teamster" that "the Democratic forces say labor must stay with us because they can't go over to the Republicans."

"That is just exactly what I'm looking for," Tobin said when he called "Teamsters" individually and party leaders believed that they (Continued On Page Four Sec. 2)

Yeshiva University To Honor Dr. Miller

NEW YORK, N. Y., June 16—(Special)—Dr. J. Hillis Miller, president, University of Florida at Gainesville, will be the recipient of an honorary degree here Friday at the annual commencement exercises of Yeshiva University, it was announced here by Dr. Samuel Berlin, president of America's first University under Jewish auspices.

Mr. Miller will receive the degree of Doctor of Humane Letters and also address the Dedication Dinner of the University, Sunday evening, in New York. Hotel Waldorf-Astoria which will bring to a close the Dedication Week exercises, a week-long program of events to celebrate the physical and educational progress of Yeshiva University during the past year.

Stetson Starts New Quarter On Monday

DELAND, June 16—(Special)—Stetson University's summer quarter will open Monday with an estimated attendance of 900, according to T. A. Whitman, director of admissions.

Special short courses have been arranged for the convenience of teachers who must be on duty ten months of the year in accordance with recently enacted Florida law. In addition to these courses, there will be six regular courses starting July 5 and three weeks courses starting June 28, July 11, and August 1. In the two-week courses the student and teacher are given time to read and discuss the course material and make reports in their work. Two papers will be required in a six-week course.

Teachers' Exams To Be Held July 14-15

TALLAHASSEE, June 16—(Special)—National teachers' examinations for Florida school teachers who want to cross their teaching socks and pocket a higher pay will be held at four Florida universities July 14 and 15.

Teachers passing the tests can qualify for ranks 6, 7, 8 or 9 teaching certificates without the usual college training.

State School Superintendent Thomas D. Bailey said the exams will be held at Florida State University, University of Florida, University of Miami, and Florida A & M College.

Deadline for applications to the State Department of Education to take the exams is June 25.

New Schedule Is Planned For State

WASHINGTON, June 16—(AP)—Army engineers have recommended that a new channel be built to link Big Lagoon and Pensacola Bay in Florida, Senator Holland (D-Fla.) said yesterday.

The existing channel would be closed. The new one would be 18 feet deep and 125 feet wide.

The project would cost \$80,000, said General Lewis A. Pick, chief of engineers, has sent a project report to Governor Fuller Warren of Florida for his approval before asking Congress to authorize the work and to appropriate money for it.

The word "artillery" was first used for all engines used to discharge missiles, but in more recent times it has been used only for firearms of long range capable of discharging a bursting projectile.

Seville "Peps Up" High School Grounds

SEVILLE, June 16 (AP)—Just a few weeks ago the Seville High School grounds were pretty barren. Only a few shrubs and some scraggly grass grew there.

Next came the Volusia County Junior Red Cross with funds to buy plants. The Seville 4-H girls club wanted to lend a hand and offered to set out new grass.

More than 150 pupils of the school, the 4-H club, P-TA members and a pair of helpful farmers with their equipment got to work in one day did a landscaping job on the grounds.

Some work remains to be done, but the 4-H club say they'll take care of the finishing touches.

Bambo plants have been known to grow as much as 16 inches in a single day.

4 Chicagoans Die In Crash Of Plane

SOUTH BEND, Ind., June 16 (AP)—Four persons believed to have been from Chicago died today in an airplane crash 15 miles south of here.

The plane caught fire after the crash and the four bodies were burned badly.

Executives Predict

(Continued From Page One Sec 2) Southern Democrats.

These union people say too that most of organized labor would probably favor the vote. Here's why:

Many labor leaders, if they can't get rid of most of the Taft-Hartley Act, would prefer to keep it "as is" under its present name in order to have a trial-and-error fighting issue for the 1950 congressional elections. They used the "down-with-Taft-Hartley" battlecry in the 1948 campaign.

Notable: When Mr. Truman vetoed Taft-Hartley in 1947, Congress overrode the veto. The present Congress would be less likely to override.

SOCIALIST SCOUTS
WARSAW (AP)—Polish Boy Scouts now are being educated in the Socialist way.

Their whole organization has been converted into an "active subsidiary" of the Communist-controlled Polish Youth association.

Both Polish Boy Scouts and Girl Guides organizations have withdrawn from the World Scouts Association because of its alleged reactionary and hostile attitude towards Poland.

SOAP RATIONING EASED
COPENHAGEN (AP)—The latest restriction to be lifted in Denmark is the rationing of shaving soap. It is officially predicted that soap rationing will be lifted entirely during the summer.

Some species of bamboo blossom grow only about every 32 years.

Mr. and Mrs. John Poulain entertained the graduating class of Winter Park at their home in Fern Park with a picnic and swimming party.

Mr. and Mrs. John Hotis spent Monday at Daytona Beach.

Mr. Robert Mason has gone to Summit, N. J. to spend a short vacation.

Mrs. A. E. Barnett has gone north to visit her son, Stewart's family in Hadonfield, N. J. She will also visit her daughter Ghisly in Dover Plains, N. Y.

Mr. and Mrs. A. Kemp, of Crestview were the week-end guests at the home of Mr. and Mrs. Bud Fisher.

Frank Bell left Wednesday on a business trip for St. Petersburg, Tampa, Ft. Meyers, and Sebring. He will return to his home at Lake Concord Motor Court Saturday.

Miss Louise B. Carter a teacher of Spanish and English at the Palatka high school, was the week-end guest at the home of her sister and brother-in-law, Mr. and Mrs. O. E. Weaver.

Miss Joan Duxan received the "Good Deed Award" last week at the Hi-Hi Theatre. She saved two eight year old boys from drowning in Lake Ellen.

Mrs. E. Frohm was the Winter Haven last week-end.

Mr. and Mrs. Melvin Crawford returned home after a two weeks vacation in New York state. They are owners and operators of the Prairie Inn.

Mrs. Mary Vale of Titusville, 87 year old grandmother of Mr. Ralph Miller of Orlando, were the guests of Mr. and Mrs. T. M. Dolan.

Free x-rays were given a large number of people Monday morning by the state mobile unit of the State Health Board. The unit was parked by the Post Office and the Polyanth Court. The work was aided by volunteers, all members of the Community Woman's Club.

Robeson Expresses His Love For Soviet

LONDON, June 16 (AP)—The Moscow radio today quoted Paul Robeson as calling Russia the "country I love above all."

The American negro singer, who is at present in Russia, was described as telling an interviewer from the official Tass news agency:

"I am truly happy that I am able to travel from time to time to the U. S. S. R.—the country I love above all."

The interviewer continued: "I always have been, I am now and will always be a loyal friend of the Soviet Union. I am taking away with me now ideas, new sentiments and strength newly acquired here. And all this will serve me as a new weapon in the struggle for the cause of peace."

Robeson told Tass he will "name aloud the real criminals against peace" when he serves as a defense witness at the New York trial of Communist leaders.

Robeson left Moscow today. He said in Moscow he would return directly to the United States.

Retail Grocers To Study How To Cut Costs For State's Housewives

MIAMI, June 16.—(Special)—How to cut operating costs for greater savings to housewives will spotlight the Florida state retail grocers convention here Sept. 25-26, it was announced Monday by E. F. Rock Arnold, Miami, chairman for the gathering.

"Florida grocers," said Arnold, a director of the Florida State Association of Retail Grocers, "are well aware that housewives this year are operating on reduced budgets, and that solution to the problem is a matter for the entire trade."

The convention chairman called attention to how the old-fashioned grocery store with the exposed cracker and pickle barrels has been supplanted by today's efficient food market.

"While new grocery store methods have reduced food costs, and although prices of food stuffs were first to feel the postwar adjustment," Arnold said, "the time has come to take further steps to ease family budgets."

"We intend to make a thorough canvass of ways to lower operating costs in an effort to achieve this end."

About 2,000 grocers from all parts of the state are expected to attend the convention, with headquarters at municipal auditorium, Bayfront park.

Other panel discussions will include personnel problems, when self-service is profitable, how to package for self-service and pointers on merchandising displays. Arnold revealed that more than 60 booths will be set up for displays by manufacturers and processors.

One manufacturer, it was reported, will offer as a display a complete self-service store, with packaged meats, produce, frozen

foods and fish. Ray Delaney and Ted Moreland of Miami will assist Arnold in making arrangements for the convention.

Officers of the Florida State Association of Retail Grocers are E. V. Marsh, St. Petersburg, president; A. W. D. Harris, Ft. Myers, first vice president; F. A. Chunderson, St. Petersburg, second vice president; F. M. Sumner, St. Petersburg, third vice president; T. B. Moonhead, Miami, fourth vice president; W. N. Munroe, Largo, secretary-manager, and T. F. Brown, St. Petersburg, treasurer.

LIPSTICK PREVENTS FIRE

LUCYEN, Okla.—(AP)—A. D. Schmittman found a new use for lipstick—and prevented a train fire.

While on the station platform here, he saw fire shooting from the journal box on one of the wheels of a freight train.

He quickly took his girl friend's lipstick, picked up a piece of cardboard and scraped "fire" Engineer Otto Brannmer and Conductor Dan Wright saw the warning sign and stopped the train in time.

Different forms of the Hausu language are spoken by tribes native of Africa south of the Equator.

ANEMIA DRUGS

BUFFALO, N. Y.—(AP)—A new test shows how and why certain drugs work against pernicious anemia in humans.

The test promises to aid in better treatment of the disease. It is reported by Dr. Oliver J. Jones, assistant dean of the University of Buffalo Medical School, and Adolph Smith of the department of anatomy.

Anemia is due to the body's failure to make enough red blood cells in its bone marrow factories. The cells that form there don't divide and grow in the normal way. The failure comes from lack of a chemical usually supplied by the liver.

Drugs like liver extract, iron, and the new vitamin B-12 usually overcome the trouble. Just how they do their work hasn't been clear. It is said to get at some marrow in animals to see what is happening, so Dr. Jones turned to primitive man.

At this time resemble the cells in the bone marrow of humans with pernicious anemia.

By feeding anti-anemia drugs to the mother rats, he can see what effect the drug has on the blood cells themselves. The test also can show whether there is anything in a new drug that would work against anemia.

BUTTERFLIES ON A BAT NEW ORLEANS—George Borg, who has a collection of 15,000 butterflies, says he caught most of the insects by getting them drunk. He sets out rotting fruit for bait, the fruit juices ferment, and the butterflies that drink it get too tipsy to fly away.

Seminole Soil Conservation District News

U. S. Soil Conservation Service
By Lea Jacobson
U. S. Soil Conservation Service

Some 1750 acres of land was mapped for soil type and land capability in Seminole County last week.

Millard S. Morgan, Soil Scientist with the Soil Conservation Service, completed maps for the following landowners who had filed applications for technical assistance in soil and water conservation with the Seminole Soil Conservation District: M. L. Cullum, F. T. Meriwether, Geo. C. Harden, R. F. Cooper, R. U. Hutchison, A. B. Tedford, J. B. Brown, Rudolph Lloyd, L. T. Bryan, William Melcher, St. Clair White, Gwynne McGrum and Mrs. Ruth Kelly.

Morgan points out that the soil maps are called conservation survey maps and are used as a basis for preparing soil and water conservation plans.

The maps are prepared on aerial photographs and indicate the soil type, the slope of the land, the type of ground cover and degree of erosion as well as other pertinent information such as flowing wells, lakes, streams, etc. As Morgan says, "The photos tell a fairly complete story about the land. Individual enlargements of the photographs are prepared for the landowner together with a legend which places the soils in their proper land capability classes. Description of the soils' adaptation, condition, characteristics and required management are included in the legend.

Using the information on the conservation survey maps, planning technicians of the Soil Conservation Service assist landowners, without charge, in preparing complete plans for soil and water conservation. In solving particularly difficult problems specialists are available in the fields of drainage, irrigation, biology and wildlife management, forestry and agronomy.

R. F. Cooper, chairman of the Seminole Soil Conservation District Board of Supervisors, announces that the District has on hand 65 applications for technical assistance. Priority is given to applications, wherever practical, according to order received. Mr. Cooper stated.

Roundtree's Release Confirmed By FIC

TALLAHASSEE, June 16 (AP)—Dismissal of Walter E. Roundtree as State director of workmen's compensation was confirmed yesterday by the Florida Industrial Commission.

Two of the three members—Chairman Raymond E. Barnes and James H. Allen—signed the order upholding Barnes' action in discharging Roundtree for alleged falsification of travel expense statements.

The third commission, James A. Harper, was disqualified because he was a witness to one of the complaints against Roundtree.

The commission order followed a month system hearing Apr. 13 of the accusations, which Roundtree denied.

Although the sun is much larger than the moon, the difference in distance is so great that from the earth they appear to be about the same size.

Some types of bananas must be cooked before they can be eaten. In ancient Egypt and Babylon, temples often were also banks.

Longwood

By MRS. J. H. MENICK

Lyman commencement week for seven graduates was a full program for the seven members, Eugene Sexton, Vera Biggs, Estle Hawkins, Helen Farina, Don Carder, June Malstrup, Marie Poole.

There was a humorous program for class night and the Senior class gift to the school was presented by Rayburn Milwee.

The Baccalaureate sermon was delivered by Rev. M. D. Jackson.

At commencement Thursday night Superintendent T. W. Lawton introduced the speaker, Dr. R. V. Sowers, of Stetson University. Presentation of diplomas was by E. J. Laney, principal of Lyman school.

The Lyman school Glee Club, directed by Mrs. Milwee sang at both programs. Mrs. Ruth Watson accompanied.

The Glee Club and their guests had a splendid time at Daytona Beach Friday when a special sea food dinner was served.

Home from U. of F. are Jack Searcy from scientific course, now a Junior. Ray Voorhies completed his third year in Forestry. Pat Hinckley who graduates in July in Forestry.

From F. S. U. are Mrs. Catherine Crawford and Miss Lucy Pilleian graduated recently. Mrs. B. R. Gray attended the Commencement.

Mrs. Thel Ayers is visiting her son and family Dr. Don Misener in Toronto. Dr. Misener has lately received an award from the Canadian Royal Society. He is noted Physician.

The Senior Presbyterian Business Woman's Circle met with Mrs. W. J. Hartley, Mrs. J. A. Blaine and Mrs. Rayburn Milwee at the latter's home in Longwood Monday night.

Rev. H. L. Zimmerman gave the invocation at the two evening programs of Lyman commencement.

Longwood Card Club of 12 members was entertained by Mr. and Mrs. Menick Saturday night.

Longwood Hotel has had many large parties lately. Saturday night the Orlando Linnen and Supply Company had a very large crowd at a banquet and dance.

Boat Explodes, But Men Swim Out Safely

MOBILE, Ala., June 16 (AP)—Three men swam to safety when an open motorboat exploded and burned in Dog River near here late today, but one had to leave his artificial leg behind.

The occupants were Paul A. Peck, Hollinger's Island, Franklin Pearce, Mobile, and Frank Jarrett, Detroit, Mich. Pearce suffered burns about the legs, Peck said.

Peck, the boat owner, said they had been fishing near the Bay Bridge road. When they cranked the motor to move to another spot, "everything exploded."

A fire extinguisher was aboard, but the flames were between it and the occupants. They went overboard and swam ashore. Peck said Jarrett whose lower left leg had been removed, had to take his artificial limb and leave it in the boat to swim.

Colored News

Mrs. Mattie M. Merritt entertained Friday evening at her home at 1815 Sheppard Street honoring six graduates from Croon's Academy. The living room was beautifully decorated with red, white and blue crepe paper and bouquets of cut flowers. Mrs. Merritt introduced several old fashioned plays. She also told the group of her school days of 50 years ago.

At the close of the last play Miss Thelma Barnes, a student of F. A. M. C., suddenly appeared in a dark room, after which colored lights were turned on as she gave future events for all present. The affair was highly enjoyed by all.

Refreshments, ice cream and cake, were served from the dining room table which was covered with a beautiful ecru lace cloth, centered with large beautiful sinias carrying out the class colors of yellow and maroon.

Those attending were the Misses Hazel Brown, Lella Larkins and

Gladys Barnes. Also Zedekiah L. Grady, Curley S. Jackson, Melvin S. Preston. Assisting Mrs. Merritt were Mrs. Marie Barnes, Thelma and Naomi Barnes, Beatrice and Verdelle and Richard Miller.

From where I sit... by Joe Marsh

Don't Fence Yourself In

Every spring, Handy Peterson and Kary Roberts patch up the stone wall that separates their farms. They walk along talking—Easy on one side, Handy on the other—picking up the fallen stones and putting them back.

Afterwards, over a friendly glass of beer, Easy says, "You know, wall-mending is a nice neighborly custom, but we really don't need that wall. We keep it up just because it happens to be there."

"Yes," says Handy, "a lot of walls and fences and boundaries keep on separating people for no good reason. Maybe we'd all be better off if some of them were torn down, instead of kept standing."

From where I sit, Handy said a mouthful, the "walls of intolerance" that people build up against each other. I like a transparent glass of beer now and then, you may prefer hot toddy, but that's no reason for me to criticize you, or you, or me. Let's live and let live together—making more friends and fewer "walls."

Senator Raps Pipeline Plan As "Needless"

National Emergency Strike Injunction Decision Argued On Senate Floor

WASHINGTON, June 17 (AP)—Senator Hickenlooper (R-Iowa), pounding away on his charge that Chairman David E. Lilienthal mishandled the Atomic Energy Commission, criticized the AEC today for going ahead with construction of a \$10,000,000 natural gas pipeline to serve its Oak Ridge, Tenn., plant.

Hickenlooper said the pipe line project is "needless and wasteful." Sinner Pike, a member of the commission, countered that the government will save about \$1,250,000 a year by switching from coal to gas for its main boiler fuel at Oak Ridge.

The pipe line is being built by a privately owned company, but the commission has contracted to buy gas from it.

Earlier, Lilienthal had announced that the commission will ask the FBI to check an article on atomic security in the magazine "Nation's Business." He said it was accurate, reckless and irresponsible. Among other things, the article said that the U. S. "should have" about 400 new model atomic bombs now.

A bill to raise the pay of most members of the Armed Services ran into some trouble in the Senate Armed Services Committee. Senator Byrd (D-Wa) complained.

Randall Chase Is Elected Head Of Shippers Group

Randall Chase, president of the Chase Investment Co., was elected head of the Sanford Shippers Association at the group's annual meeting in Orlando, and succeeds E. D. Keene, Orlando.

Chase, who has been in the head of the organization since the death of J. J. Parrish, Titusville, a year and a half ago.

Mr. Chase today declared that he will serve the association to the best of his ability and described it as a "service organization that is a bulwark against bureaucracy and regimentation in the citrus industry."

The main objective of the group, said Mr. Chase, "is the preservation of free enterprise."

Mr. Keene was elected president of the board, a position formerly held by Mr. Chase.

J. J. Parrish, Jr., Titusville, was elected first vice-president; Jules Brajin, Clearwater, second vice-president and L. F. Roper, Winter Garden, secretary-treasurer. Muri E. Pace was re-elected general manager and C. Roger Walls was retained as general counsel and Miss Gladys McLeod as assistant secretary-treasurer.

The following directors were elected: F. F. Ehlers, Weirsdale; J. E. Evans, Dade City; Charles C. Fosgate, Orlando; C. V. Griffin, Howey; James Heller, Winter Garden; J. V. D'Albora, Cocoa; O. L. Pascoe, Fort Pierce; H. A. Ward, Oviedo, and John Campbell and A. Parks Williams, Leesburg.

Running Track Is Constructed In Park

A 180 by 280 foot running track to be used in connection with the City's youth recreation program, has been completed at the east end of Ft. Mellon Park under the direction of Mr. Richard Bick, superintendent.

Low and high hurdles are ready for use on the track. Nearby is a track for the running broad jump, high jump and shot put. Track meets are planned for later in the summer, said Mrs. F. M. Glasgow, recreation director, and will be sponsored by civic organizations.

At the play center, located in the park, are new swings and sandboxes. Nearby is the hobby house where crafts can be taught. These include sewing, painting of felt figures, finger painting, decorating turtles and toy models.

Members of the Sanford Recreation Department are located in the Tourist Center. Here rest room facilities will be available to children.

ATLANTA, June 17 (AP)—The Civil Aeronautics Board will hold a hearing in Washington June 18 on applications of 16 new airlines to operate service to Columbia, Fla.

Florida Airlines, Jacksonville, applied to Jacksonville, Fla. Florida Airlines, Jacksonville, applied to Jacksonville, Fla. Florida Airlines, Jacksonville, applied to Jacksonville, Fla.

"Most Promising Citizen of Tomorrow" Contest Winner

Little Penny Pulver, four and a half year old daughter of Mr. and Mrs. C. E. Nolan, 114 Maple Avenue, was judged by many citizens as Sanford's "Most Promising Citizen of Tomorrow" in a contest which closed today. She was one of five runners-up who included Linda Carol Harvey, final runner-up in the contest. Other winners were Dorothy Alice Jardine and Sara Katherine King.

Attempts Made To Crack Deadlock In Coal Dispute

BLUEFIELD, W. Va., June 17 (AP)—Southern operators tried again today to crack the deadlock in their three-week-old soft coal contract talks with the United Mine Workers.

Inked at the UMW's refusal to show its cards, the operators implied that John L. Lewis' bargaining team is purposely stalling the conference.

Blocking a new agreement is the aim of the operators.

Aerial Maps Of County Received

Aerial photographs of Seminole County which were made on Nov. 25 by the Production and Marketing Administration were today received by Oris Mathieux, county officer of the administration.

The photographs, which are about 24 inches square include a composite map of the county and 101 sections. In order to more easily locate these sections in order to find fields and acreages of different farms and groves, Mr. Mathieux is marking the index numbers on a large printed map on the wall in the office of County Agent C. R. Dawson.

Two of the photographs, placed together, reveal most of the immediate Sanford area. Although taken at considerable elevation they reveal clearly such buildings as the Sanford State Farmers Market, buildings at the airport, and baseball diamonds, the fields and plowed portions of which are clearly defined. Each photograph map covers approximately three square miles.

Inquest On Fantasia's Death Slated Tuesday

County Judge O. Douglas Stensness will conduct an inquest Tuesday morning at 10:00 o'clock into the death of Fantasia, a 10-year-old girl who died on June 8, of Forest J. Fantasia, one of three benefits was attempted a husband of the Seminole Club at Altamonte Springs from the county line.

A trip to sea was planned and the body was transported from the hospital to the County Jail and is expected to be able to return, said Sheriff Jones.

Catholic Head Held Prisoner By Czech Reds

PRAGUE, Czechoslovakia, June 17 (AP)—Archbishop Josef Beran, head of Czechoslovakia's 9,000,000 Roman Catholics, was a virtual prisoner in his own palace today, as the Communist government's war on the church appeared nearing a climax.

A reliable informant described the Prague Archbishop's status as "house arrest."

Two priests from Archbishop Beran's consistory have been arrested and taken away by police after a raid on the consistory section of the Archbishop's palace in which police tried to seize the church records.

Neither priests nor laymen could get in to see the Archbishop without undergoing a police identification.

The customary armed guard stood outside Archbishop Beran's palace.

More significantly, the reception and telephone switchboard inside the palace gate were manned by secret police.

Two Associated Press correspondents who tried to see the Archbishop were told by personnel at the reception desk that "the Archbishop says no."

At the same time a Czech in clerical garb was attempting to gain admission. The reception personnel demanded from him full identification papers and other data before they would consent to telephone the Archbishop.

There was no way of knowing whether they were actually phoning to him.

This close surveillance of his office tended to confirm reports that in the past two days even high diplomatic officials have been unable to gain entrance to the Archbishop's office.

It was known, however, that two days ago all the bishops of the country were gathered in the full conference with the Archbishop.

Archbishop Beran for some months has fought against a government campaign to take over the schools and abolish church papers.

In recent weeks he has sent out a number of clerical letters breathing defiance of government decrees.

(Continued On Page Two)

Negroes Will Be Allowed To Attend Kentucky School

LEXINGTON, Ky., June 17 (AP)—Negroes will be permitted to attend the University of Kentucky.

The decision was announced by U. K. President Dr. H. L. Donovan last night. The step is being taken, he said, to comply fully with a federal court mandate.

Dr. Donovan said the school had decided the federal order prevailed over the state law, which provides that whites and negroes cannot go to the same school in Kentucky.

Any application of the day law would put the university in contempt of federal court, Dr. Donovan said.

In some specific instances, he said, there might be a case where a negro student could be admitted.

(Continued On Page Two)

Jaycees Present Robert Williams With Certificate

Former Mayor Robert A. Williams was presented an honorary membership in the Seminole County Junior Chamber of Commerce at the organization's luncheon yesterday at the Tourist Center as a token of appreciation for his work while a City Commissioner.

(Continued On Page Two)

Worker Rebellion Slows Firms' Drive For Increased Production

NEW YORK, June 17 (AP)—Many companies face the delicate task right now of getting more output per man hour without risking worker rebellion. Some companies report success, mostly by detouring around the main trouble spot.

Trouble often arises when management, trying to strengthen the company's position in the present highly competitive market, seeks to change work standards, by order from the front office, with a view to reducing fixed labor costs per unit. Labor insists it should control, or have a hand in, the setting of such standards.

There you run into the conflict—as in the recent Ford Motor case—with management saying it must have more productivity and labor crying speed-up. John L. Lewis has his own twist: the mine workers are "stabilizing" coal production by going fishing this week.

Two opposite tendencies in productivity have been reported of late by American firms workers, noting the drop in the company's output, have been accused by management of slowing down to secure employment while longer other workers, hearing of layoffs in nearby plants, have increased their own output a little to demonstrate their personal worth.

But here are two examples of

Loyalty To U.S. Is Affirmed By Judith Coplon

WASHINGTON, June 17 (AP)—Judith Coplon swore today that "I have always been loyal to the United States."

Appearing as her own star witness in defense against espionage charges, she was asked if she signed a loyalty pledge while working as a political analyst in the Justice Department.

She said that she did and added the avowal of loyalty.

Defense Attorney Archibald Palmer asked her if there was any other country that she wanted to go to.

"No, except on a vacation," she replied.

"Here is where you want to live and the and have and raise your children?"

The testimony was an extension of Miss Coplon's denial yesterday that she was a Communist or ever gave government secrets to Valentine A. Gubichev, the Russian with whom she was arrested in New York May 4.

Federal agents said they found secret counter-espionage material from Justice Department files in her purse.

And in New York the government rested its case against Alger Hiss, former State Department official accused of perjury to conceal evidence of espionage. The prosecution completed its presentation in 14 trial days.

The only witness called this morning was Benjamin H. Fitch, a stenographer who testified that he misinterpreted testimony which Whitaker Chambers made before the House Un-American Activities Committee Aug. 25, 1948. Chambers, a sometime Communist courier, was the key prosecution witness in the trial.

Fitch said he was the "surprise" witness with whom the prosecution had announced it would wind up its case. He was the 33rd person to testify for the government.

The House Committee testimony filed in the searching cross-examination of Chambers by Lloyd Paul Stryker, Hiss' attorney.

(Continued On Page Six)

Chief Of Tampa's Police Hits Judge's Ruling On Mashers

TAMPA, June 17 (AP)—Police Chief J. L. Edgington today warned sidewalk lotharios not to regard an invitation to get together as an invitation to get together with a girl.

Municipal Judge R. J. Putter yesterday set free two men accused of molesting an 18-year-old theater exhibitor, Paul Comander.

The girl accused Leo Morrell and Leon Arduengo of following her late at night.

In freeing the pair Judge Putter said he was "not a policeman who see a pretty girl walking along the street to try to get acquainted with her." The judge also said that a girl should provide a date, and Mr. Dawson said that when working late at night.

Chief Edgington took this view of the court's decision today: "I do not feel that women who are alone at night should be treated as if they were."

(Continued On Page 8)

Soil Conservation Meet Called July 12

Any landowner in Seminole County is eligible for nomination as a member of the five-man board of supervisors for the Seminole Soil Conservation District, election of whom will take place at 9:00 A. M. to 5:00 P. M. on July 15. County Agent C. R. Dawson announced today.

Nominations may be placed with Mr. Dawson. Only one name, J. T. McLean of Geneva has been registered to date, said Mr. Dawson this morning. Voting will take place at the county agents office at Lyman School, Longwood, and at the City Hall, Oviedo.

DAY CONVENTION JACKSONVILLE, June 17 (AP)—Disabled American war veterans

Florida met here today in convention and to seek an increase in their benefits.

Charles E. Foster of Washington, assistant national legislative officer, said "one of our prime objectives this year will be to obtain a 25 per cent across the board increase in disabled compensation and death pensions.

"We are going to speak strongly against the apparent attitude of Congress to effect economy in government at the expense of the disabled war veteran."

Warren Sets Aug. 1 As Deadline To Call Extra Tax Session

ASHEVILLE, N. C., June 17 (AP)—Rising taxes, already levied at many points, caused more families to desert their homelands today.

The rivers swollen by heavy rains this week, have wrought heavy highway damage throughout North Carolina, eastern Tennessee and northeast Georgia.

Crops and dwellings in lowlands have been washed out, causing scores of families to seek safety on higher ground.

Asheville was practically cut off today from the west as the mountain streams surged over highways and swept away bridges. One highway official said that more than 15 bridges in his area alone had been washed out.

Earth slides, resulting from the steady downpour, blocked roadways in numerous places.

The rainfall, reaching more than nine inches in 18 hours in northeast Georgia, flooded the rivers near Clayton, Ga. Twenty families were left homeless. Rabun County Sheriff Lamon Queen reported that a tourist camp was partly swept away at Lakemont. The surging waters also carried away bridges and railway tracks in that area.

E. K. Arrowood, 53, who lived high up in the mountains, had been cut off from the world for several days.

Sgt. E. H. Ratliff Is Buried With Military Honors

Funeral services for Sgt. Ernest Harold Ratliff, son of Mr. and Mrs. Thomas Ratliff, were held Thursday afternoon at the First Methodist Church with the Rev. A. G. McInnis, Dr. E. D. Browder and the Rev. W. F. Brooks, Jr. officiating. Services with full military honors were conducted at the graveside in Evergreen cemetery by members of Campbell-Lossing Post 53, the American Legion.

Sgt. Ratliff was killed in action Mar. 2, 1945 near Mendin, Germany. The body, brought here from the National Cemetery at Arlington, Va., arrived Wednesday morning at the A. C. L. Depot and was accompanied by Sgt. Sukodolski of the regular Army Legionnaires who met the train. Accompanying him were J. Q. Galloway, Joel S. Field, past commander, John H. Pope, Ben F. Steele and Capt. E. T. Long.

Full bearers at the funeral were: Ralph B. Wright II, W. Southward, Ralph Ray, Lee H. Huger, Clifford Muffley and E. J. Kennedy.

At the Legion services at the cemetery, the color bearers were Past Commander Field, holding the national colors and Com. (Continued On Page Six)

John Bredlin Visits Relatives In City

John Kolb Bredlin, radio commentator and columnist whose "Spectator Letters" are used by newspapers throughout the country recently spent two days here visiting his brother-in-law and sister, Dr. and Mrs. J. N. Robson.

A former professor of history at the Citadel, Charleston, S. C., Mr. Bredlin during World War I was field director of extension work of the AEF in France under the general staff. Following the war he served as director general of the government of Peru. He and Mrs. Bredlin left yesterday for Tampa. Dr. and Mrs. Robson will celebrate their 40th wedding anniversary together tomorrow and during next week Dr. Robson, still active in his profession, will celebrate his 77th birthday.

SCOUT PROGRAM

Harry Kudell, pianist, will be heard Monday night at 7:30-8:00 o'clock over Station WTRB in connection with a program devoted to Boy Scouts. On Tuesday evening during the same hours he will play in behalf of the Elks.

On Thursday night, the Elks have invited the public to attend a barbecue at 7:00 o'clock on the Elk grounds, said Mr. Kudell. Proceeds will go to the Fernald-Laughton Memorial Hospital fund, he declared.
