

AVY DROP IN FLORIDA, GEORGIA GAMES REPORTED TO CLASH IN HOT U. S. STEEL GAME SATURDAY

787 Deficit Is Shown For Quarter; Output Now Gaining

NEW YORK, Oct. 31.—(AP)—The heavy drop in steel production and sales since June, when the United States Steel Corporation reported a 10 percent increase in output, is now being reversed. The corporation's September quarter statement, issued yesterday, showed a net loss of \$2,717,014 for the quarter, compared with a net loss of \$2,717,014 for the same quarter last year.

W. C. Taylor, chairman of the board, in a statement issued after the directors' meeting, said that while output had dropped to 75 percent of capacity during the first nine months of the year, it is now 85 percent with indications of betterment.

The board declared another dividend of 50 cents on the preferred stock, payable Nov. 23, to stockholders of record as of Oct. 15. The corporation has paid this amount on the senior shares each quarter since January, 1933, when the dividend rate was reduced from \$1.75 quarterly.

Operating earnings during the September quarter, after ordinary expenses, amounted to \$3,787,000.

Tampa Attorney Argues That Repeal Will Not End Activities Of Bootleggers

OCALA, Oct. 31.—Judge O. K. Reaves, Tampa, advocate of the retention of prohibition in the constitution of Florida, told a crowd at the civic center yesterday that to say legalized liquor will keep down the bootlegger is "just so much hogwash."

The former circuit judge said that bootlegging is good business because bootleggers do not have to pay taxes.

Declaring that prohibition is one of the great moral questions now before the people of Florida, Judge Reaves predicted that repeal would mean more whiskey, more women in the whiskey trade and more women drinking.

Repeal, he asserted, tends to social depravity and religious starvation. Conditions under repeal, he said, will be worse than they were prior to prohibition because of the change in the social industrial order.

Women having been placed on an equal social footing with men in economic and political life, will be tempted to drink as much as men, Judge Reaves said.

To show what condition existed before prohibition, the dry speaker pointed to Pittsburgh in 1901. Quoting from the Pittsburgh Press of that year, he said that there were "places in Pittsburgh where children can obtain beer and where many gambling dens of all descriptions are being operated in violation of the law."

Reading from the Pittsburgh Leader of 1900, Judge Reaves said "there are 2300 whiskey dealers in Allegheny county selling whiskey without a license."

He also quoted a Chicago Tribune of 1911 as saying that "there are blind pigs everywhere, there is no trouble to get whiskey or

club to be found on the sidelines with an injury unless the hurt is of such proportion that the player under no circumstances can perform. Broken arms or legs seem to be the only things that bar a boy from saying to his coach, "I'm ready, and how!"

Coaches Stanley, Clemons and Bowyer are spending extra time in the official huddle this week working on offense and defense for Georgia. There will not be an effort spared in Gatorland in the program to have the Gators at top speed by Saturday, mentally and physically. Usually the mental part of the preparations take care of themselves, for the very mention of the Georgia game puts the Gators "on edge."

Captain Chuck Rogers turned in a nice game at left end against Maryland, and likely will lead the Gators against Georgia, with Moye at right end, if he is not troubled with his bad hand. The tackle slots seem about the same, with the twin lads, Starbuck and Stark, slated for first duty. Welcome Shearer did not play at all against Maryland, but his faulty arch is responding nicely to the rest cure treatment, and it is possible that the senior snapper-back will be called on to resume his place with the first eleven. The guard situation continues to puzzle those who like to do everything out just so. Iron Man Art Shouse and Irrepressible Pug Bryan started the Maryland game, but Turner, Hughes and Root saw a good bit of service, and in addition there is Lane and McCampbell to be reckoned with.

The backfield situation will change little with major hopes resting in Wally Stovon, Billy Chase, Jack Beckwith, Charlie Stolz, Duke Warren and Walter Middlekauff. The Gators hope to have their running attack improved and a strong counterpart to their passing threat for Georgia.

Here's a look at past Georgia-Florida games:

1926 Florida 27, Georgia 27.
1927 Florida 21, Georgia 11.
1928 Florida 21, Georgia 11.
1929 Florida 21, Georgia 11.
1930 Florida 21, Georgia 11.
1931 Florida 21, Georgia 11.
1932 Florida 21, Georgia 11.
1933 Florida 21, Georgia 11.
1934 Florida 21, Georgia 11.
1935 Florida 21, Georgia 11.

1,544,000 New Autos Sold In 3 Months

DETROIT, Oct. 31.—(AP)—Statistics compiled by the Ford & Co. and other manufacturers show that 1,544,000 new automobiles were sold in the United States during the first three months of this year, compared with 1,400,000 in the same period last year.

In Michigan, the state with the largest number of new cars, 180,000 were sold in the first three months of this year, compared with 160,000 in the same period last year.

MODELS DENY ARGUES AGAINST INROADS OF DEBS

Society Buds Accused Of Taking Positions From Professionals

NEW YORK, Oct. 31.—New York's professional models, who strenuously before society's notables, are threatening to go on the picket line—against society itself.

Gertrude Mayer, titian-haired, Fifth Avenue model number, stepped a trimly shod foot indignantly as she protested against Park Avenue deb and snobs when she accused of taking jobs away from professionals.

Miss Mayer's complaint against these society girls is two-fold: 1. They are taking modeling jobs not only in charity fashion shows, she said, but in the shops as well, cutting into their professional means of livelihood.

2. They are not good models, and therefore they are lowering the standards of the business.

"They don't know how to do justice to the garments they are showing," said Miss Mayer. "They don't know how to walk. They have no balance. They don't know what to do with their hands. They don't know how to wear their clothes and show them off properly."

Miss Mayer, who came from Paris and eight years ago founded what she claimed was the first training school for models in the United States, said she planned to call a meeting of professional models next week for a discussion of plans to combat the "debutante menace."

She will propose a personal appeal to society leaders, and if that fails the professional models will be asked to picket the next fashion show.

Miss Mayer estimated that "essentially 1,000" jobs have been filled during the last year by society girls, "none of whom seems to realize that modeling has become a specialized field."

"They go into a retail store," she said, "and they say, 'Look here, now, I have a big following. I am well connected socially, I belong to various clubs, and I can bring you a good clientele, and the store hires them.'"

Only professional models, who have practiced walking long hours with the Manhattan telephone book on their heads, know that there is a different walk for each type of garment, said Miss Mayer.

Asked why society girls turned to modeling, she expressed a belief it was because they suddenly discovered it was "a lucrative business, they like to wear good clothes, and it gives them an opportunity to make new contacts."

Ratification Of Amendment Held As Unwise Move

(Continued From Page One)

of the Florida population owns property and questioned if the 85 percent, "the fact," he said, "who are voting for the amendment" have not been "affected" as to what "it will mean to them." They are the ones, he contended, "who will have to pay the influence and other taxes to make up the great loss in revenue."

He is particularly fearful as to the amount of money the ratification of the amendment will take away from the schools. "They are asking for \$2,000,000 more for the schools on the present school fund, and where will the needed money come from?" He said that if the state of expenditure to the amendment continues to stand as it has recently the amendment will be defeated in the Nov. 3 election.

MONARCH MIGHT BE ALIVE BUT FOR VANITY

Monarch Discarded Bullet-Proof Vest Just Before Death

By CHARLES E. MINTNER
(Associated Press Feature Staff)

WELLSVILLE, Oct. 31.—(AP)—King Alexander of Yugoslavia, assassinated recently in Marseille, owned two bullet-proof vests. The Associated Press learned that he put on a bullet-proof vest, and removed it at the last moment because an admiral's uniform fits better without it.

Previously he had worn his bullet-proof protection only under tunics of his army uniform. Experts told the Associated Press that had he worn his bullet-proof vest at Marseille he would have lived, since none of the bullets struck him in the head and the vest was sufficiently strong to have deflected those which ripped into his body.

Alexander himself rejected the idea of such protection when an agent came to him prior to his leaving his country to tell him the protection and insisted he should wear one.

The king then upon consented to witness a demonstration of the garment's impregnability. The agent donned one of the vests for a demonstration. One of the king's guards fired three rifle shots at the agent from a distance of 10 paces.

The shots went true but the agent was unharmed, the bullets glancing off the vest.

County Agent C. E. Dawson today calls the attention of all Seminole livestock owners and dairymen to the annual winter show, course, in Animal Husbandry at the University of Florida's College of Agriculture, scheduled to begin next Monday to continue through Saturday. There is no charge for registration, and meals and lodging are available at a low price during the entire week. Mr. Dawson will be in Gainesville next week also, attending the annual meeting of County Agents.

Members of the Publicity and Building Materials Committee of the Seminole County National Housing Administration Monday afternoon selected the property which is to be remodeled as a demonstration of what can be done under the National Housing Act plan. E. J. Moughton, Al Lee, C. E. Dawson, Ed Randall, and G. U. Stuart were appointed to make final arrangements for the remodeling demonstration, exhibition, and publicity. Others attending the meeting were: R. L. Dean, J. L. Marellotta, G. A. Speer, Jr., W. L. Cooper and Karl Lehmann.

A special Chamber of Commerce Committee appointed to study, referendums No. 67 of the Chamber of Commerce of the United States on National Expenditures voted in favor of 12 of the 14 questions submitted, and voted adversely on two of the questions. The committee recommendations will be presented to the Board of Directors at their next meeting. Those meeting Monday to discuss the subject included W. H. Schmidt, E. L. Dean, S. G. Gray, J. L. Ingley, B. F. Haines, W. H. Tunnell, John Meisch, Sr., H. M. Papworth, Fred R. Wilson, and Karl Lehmann.

FORD ORDERS FULL SPEED AHEAD IN 1935

New Production Schedule Set At Million Or More Units For 1st Time In 4 Years

DETROIT, Nov. 1.—(AP)—Henry Ford said today that the Ford Motor Company is out of the depression and that its 1935 production schedule will be set at 1,000,000 units or more for the first time in four years.

"The depression," Ford said in a statement, "would be over for the whole country very soon if American industrialists would just forget the alphabetical schemes and take hold of their industries and run them with good, sound, American business common sense. They should take hold of their country in the same way, and run it with good, sound American common sense."

Federal Employees Want More Money Than Is Offered

WASHINGTON, Nov. 1.—(AP)—Federal employees started a campaign today for more money than President Roosevelt has promised to pay them.

The President announced yesterday that plans are in the making to restore the remaining five percent wages cut next July 1.

Favoring a rise in prices he also said that it would mean a rise in values.

A drive to go beyond this restoration and increase salary rates for every grade of work was announced immediately by Claude E. Babcock, president of the American Federation of Government employees.

The national federation of federal employees seeks a reclassification of salaries so that thousands of employees said to be doing work above grades in which they rated will get more compensation.

Sinclairites Victors In Battle Of Votes

SAN FRANCISCO, Nov. 1.—(AP)—A legal move toward mass disqualification of 24,000 alleged fraudulently registered voters in Los Angeles County, stronghold of Upton Sinclair, Democratic gubernatorial nominee, was blocked yesterday by the state supreme court. Sinclairites hailed the ruling as a victory.

With election only five days away, a high court's decision was hailed by State Attorney General U. S. Walsh, a Republican, as preventing similar projected actions against other thousands of voters before Nov. 3.

Nepotism Banned In Florida FERA Set-Up

JACKSONVILLE, Nov. 1.—(AP)—The Florida Economic Recovery Administration yesterday prohibited nepotism in its organization closed at Sanford.

A general order to district administrators held down the following: "No person shall be employed in the organization who is related within the degree of consanguinity that will give employment, or is a member of the same family as any person who is employed in the organization."

Build Barracks For Vet Bridge Builders

KEY WEST, Nov. 1.—(AP)—A crew of 50 men yesterday started construction of barracks at lower Key West to house the 200 World War veterans who will build bridges in the construction of the Overseas Highway.

The barracks will be quarters for the men who will be working on the highway from Key West until the camp is completed, and the veterans, now at Camp Packer, near Jacksonville, will be brought to Key West by truck in about 10 days.

State Bans Sky Law Hold Down

JACKSONVILLE, Nov. 1.—(AP)—The Florida Department of Transportation yesterday held down the price of a new type of airplane, the "Sky Law," by 10 percent.

The department said the price of the airplane, which is used for mail delivery, had risen to \$1,000,000. The department said it had ordered the manufacturer to reduce the price to \$900,000.

Pennsylvania Rivals

HOPKINS HITS BACK AT NEW GOP CHARGES

Giving Maine Another Sum For Needy, Relief Head Denies Playing Of Politics

WASHINGTON, Nov. 1.—(AP)—Asserting that "hunger is not debatable," Harry L. Hopkins, the relief administrator, yesterday personally answered Republican charges that the Roosevelt Administration has been playing politics with relief funds.

Just before he spoke, the Administration advanced \$500,000 in relief funds to Maine along with another checkback at G. O. P. assertions the solitary omission of that state, which has voted, indicated political use of the money.

Aides to Hopkins asserted funds for the down-cast state had not been included with grants announced Tuesday for the other 47 because Governor Bran's estimates had not been complete.

Hopkins issued this statement: "With the smug complacency which apparently goes with the chairmanship of the National Republican Committee, Mr. Fletcher (Henry P. Fletcher), has seen fit to accuse me of playing politics because I am feeding the hungry, clothing the naked, and sheltering the destitute regardless of their sex, age, creed, color, race or place of residence.

"If that be politics, I plead guilty, but decline to enter into argument with Mr. Fletcher. Hunger is not debatable."

Chairman Farley, of the Democratic National Committee, also replied to the Republican charges in a speech at Wilmington, Del., last night, with an assertion that "human suffering is no less in campaign times than in other times."

"It happens that the payments are coincident with the imminence of an election," Farley said, "they are paid as they fall due. They were paid at approximately the same time last year when there was no election and they will be paid next year when there is no general election."

GERMAN BREAKS LONG SILENCE TO DENY COMPLICITY

Hauptmann Wants To Prove Innocence Talking With Jafise

FLEMINGTON, N. J., Nov. 1.—(AP)—Bruno Hauptmann broke his long silence yesterday in a statement made public by Harry Whitney, chief defense investigator, the taciturn German carpenter, accused of the abduction-murder of the Lindbergh baby, denied he was the man who received the \$50,000 ransom money and asked Dr. John F. Condon to come to the Hunterdon county jail again to give him a chance to talk more to him and prove his innocence.

Seminole High To Play In Ocala At 8 Tomorrow Night

Seeking a first victory of the 1934 season, Seminole High School's football team will leave for Ocala early tomorrow afternoon where, at 8:00 o'clock tomorrow night, the team will meet the Ocala Wildcats in a Northeastern Conference game.

Reports from Ocala indicate that the Wildcats, favored by only mediocre success so far, are primed for the Seminole eleven which it always fears. Ocala is said to be on the rebound after having been defeated, 6 to 0, by the Landon team last week-end, and Ocala players are declared ready to hand Seminoles its second defeat of the season.

Cabinet Fixes Nov. 12 As Legal Holiday

TALLAHASSEE, Nov. 1.—(AP)—The state cabinet yesterday fixed Nov. 12 as a holiday in observance of Armistice Day, which falls on Sunday. The capital will be closed.

In a proclamation, Governor Sholtz called for state-wide observance of Armistice Day on Sunday, Nov. 11, and he also asked that wherever possible public offices and business be closed on the day following.

Rotarians Defeat Kiwanians, 2 To 1, In First Game Of Burro Baseball Seen Here

Burro baseball, that gleeful sport which makes monkeys of the best of men, made a decidedly hilarious hit before a Sanford group, which gathered at Municipal Park for about an hour last night, when, here said, collectively, "That's the biggest quarter of amusement I've ever seen."

Although it was all new to them as well as their opponents, the team which represented the Rotarian Club was declared the winner over the Sanford Kiwanian Club team by 2 to 1 after a wild, noisy, and highly exciting game in which both men and boys participated over what was called a "burro" field.

Youth Talks For 4 Days Without Halt

RANDALL CITY, Nov. 1.—(AP)—A youth talk, held for four days, without stopping for sleep or food or drink, in the town of Randall City, Fla., ended yesterday.

The speaker, said to be a young man from the town of Randall City, Fla., was named "Steady."

BOTH PARTIES BACK LAFOLLETTE

Alabaman Dismisses Indictment Against Lumberman Who Violated His Code

BIRMINGHAM, Ala., Nov. 1.—(AP)—The National Industrial Recovery Act yesterday was held unconstitutional by U. S. Dist. Judge W. I. Grubb, who dismissed an indictment against a lumber dealer charging violation of the code of fair competition for the lumber and timber products industry.

The action of Judge Grubb was under an agreement by attorneys representing the government and the defendant to pave the way for an immediate appeal to the U. S. supreme court to determine the validity of the statute.

Judge Grubb handed down no written decision, but merely sustained the demurrer to the indictment offered by Jerome T. Fuller, attorney for Centerville, which was based on alleged unconstitutionality of the National Industrial Recovery Act and the code for the lumber industry.

The demurrer held that the NRA unlawfully delegates legislative and judicial powers to the President, and that it illegally deprived the defendant of his property without due process of law. The defendant also contended the government had no authority to regulate the production of lumber, since it is purely an intra-state activity.

The indictment in question charged W. E. Belcher, owner of a number of lumber mills in Alabama, with violating the lumber code by paying less than the prescribed 24 cents an hour minimum wage and working his employees more than the maximum 40 hours week.

Declaring that the operation of the cities, counties, and schools would be demoralized, and that prolonged court action would delay any settlement with bondholders for four of five years, Herman Lehman, well known Sanford farmer and city commissioner, in a public statement issued today took a stand against the Homestead Exemption Amendment and urged the voters to defeat it at the polls.

H. J. LEHMAN SAYS EXEMPTION PLAN IS DEMORALIZING

Sees Tax Structure Wrecked, Schools Hurt If Act Passes

Declaring that the operation of the cities, counties, and schools would be demoralized, and that prolonged court action would delay any settlement with bondholders for four of five years, Herman Lehman, well known Sanford farmer and city commissioner, in a public statement issued today took a stand against the Homestead Exemption Amendment and urged the voters to defeat it at the polls.

INSULL CRIES AS HE TELLS STORY OF EARLY CAREER

CHICAGO, Nov. 1.—(AP)—Tears flowed Samuel Insull's story to the jury trying him for mail fraud today as the Chicago utility executive recalled the kindnesses he received in his youth from Thomas Alva Edison, great American inventor, and Edison's wife.

Insull, appearing as the first witness against charges of stock swindling, prefaced his testimony with the familiar story of his success.

Settling down in the witness stand, Insull began a slow autobiography, beginning with his boyhood in London and leading up to his rise in American business.

Defense attorneys fired a salvo of opening statements in the \$100,000,000 mail fraud trial yesterday and cleared the way for Samuel Insull to testify today.

Led by Floyd Thompson, they collaborated in a picture of Insull and his aides as battling to retain control of his once utility empire for the protection of its thousands of employees and stockholders. They began their statements soon after Federal Judge Wilburson denied directed verdicts of acquittal for the 15 Insull associates on trial with their chief.

JUDGE HOLDS RECOVERY ACT AS INVALID

Alabaman Dismisses Indictment Against Lumberman Who Violated His Code

BIRMINGHAM, Ala., Nov. 1.—(AP)—The National Industrial Recovery Act yesterday was held unconstitutional by U. S. Dist. Judge W. I. Grubb, who dismissed an indictment against a lumber dealer charging violation of the code of fair competition for the lumber and timber products industry.

The action of Judge Grubb was under an agreement by attorneys representing the government and the defendant to pave the way for an immediate appeal to the U. S. supreme court to determine the validity of the statute.

Judge Grubb handed down no written decision, but merely sustained the demurrer to the indictment offered by Jerome T. Fuller, attorney for Centerville, which was based on alleged unconstitutionality of the National Industrial Recovery Act and the code for the lumber industry.

The demurrer held that the NRA unlawfully delegates legislative and judicial powers to the President, and that it illegally deprived the defendant of his property without due process of law. The defendant also contended the government had no authority to regulate the production of lumber, since it is purely an intra-state activity.

The indictment in question charged W. E. Belcher, owner of a number of lumber mills in Alabama, with violating the lumber code by paying less than the prescribed 24 cents an hour minimum wage and working his employees more than the maximum 40 hours week.

Georgia Attorney On Trial For Murder

FORT MYERS, Nov. 1.—E. W. Randell, attorney and land-owner of White Path, Ga., and Fort Myers will go on trial today at Ellijay, Ga., charged with the alleged murder of his wife, Mrs. Ruby Drew Randell, who was killed near Ellijay last July in what was reported as an automobile accident.

Randell was arrested after being released after a preliminary hearing, on a indictment by the Ollmer county jury. He was later released on a \$50,000 bond and has visited Fort Myers several times since.

Prohibitive License Put On Slot Machine

LAKELAND, Nov. 1.—The long discussed slot machine question was settled by the city commission Tuesday when a prohibitive license of \$500 was placed on the device. Another ordinance passed at the same time enclosed marble boards and similar gambling tables from the \$200 fee, and puts a \$25 license on them.

Weighing machines, peanut machines and the like are not included under either ordinance. Commissioner E. A. Goodwin said that he had information that at least four slot machines will continue to operate under the new setup.

Motor Oils To Be Made By New Plan

PHILADELPHIA, Nov. 1.—(AP)—A new method of making motor oils by "washing" crude petroleum, with prediction of savings to motorists, was announced yesterday by the Society-Vacuum Oil Company.

This is the first announcement of one of the greatest revolutions in the history of petroleum, which has been under way quietly more than a year in the laboratories of several of the Standard Oil companies.

Ministers Thankful For Herald's Service

Appreciation for The Herald's co-operation during Church Loyalty Month during October is expressed today by the Rev. E. D. Swanson, his secretary of the Sanford Minister's Association.

His letter is as follows: "The Sanford Minister's Association unanimously directed me to express to you our sincere appreciation for the publicity given the Church Loyalty Month during October. We appreciate the fine spirit of co-operation which you have always shown in every effort we make to improve religious and moral conditions of our community."

Governor Demands Grand Jury Probe Of Neal Lynching

Some Of Ring Leaders Of Mob Which Killed Negro To Be Believed Known

TALLAHASSEE, Nov. 1.—(A.P.)—A grand jury investigation of the lynching of Claude Neal, negro, was demanded today by Governor Dave Sholtz as he reported "Some of the ring leaders of the mob are supposed to be known."

The Governor's statement was made when he received a personal report from Sheriff W. F. Chablis of Jackson county that "I did everything I could to prevent the lynching."

State's Attorney John H. Carter, Jr., of the Marianna circuit who accompanied Sheriff Chablis here said the grand jury would be in session Monday so that it would investigate Neal's death.

National Guardsmen were ordered into Marianna Saturday by the Governor upon the request of civil authorities when a mob of 200 men gathered in the town.

Officer E. T. Hamill Picks Up Pair Of Highway Robbers

Motorcycle Officer E. T. Hamill luck still rides with him. Speeding toward Sanford early this morning from his home near Chuluota, Officer Hamill saw a Plymouth sedan parked on the road. He followed it to a place where W. Anderson, proprietor, and five men were walking around it.

Thinking that the car must be out of gasoline, he slowed down, stopped, and offered his assistance.

However, the two men, and their two women companions, acted suspiciously that he decided an investigation was in line.

Ordering one of the men to drive on to Sanford, Officer Hamill brought them to the Sheriff's office.

A short time later it was learned that the men had stolen the car in Orlando last night, from T. A. Cox, employee of the Pulford Transfer and Storage Co., and that both were criminals with full records.

They were locked up at once pending arrival of Orlando authorities including T. K. Holloway, finger print expert who identified the men as J. O. Bass, 28, of Orlando, and Jack Dial, also of Orlando.

Mr. Holloway stated that Bass has served a term in the federal prison in Atlanta, and that Dial once served time at Raiford in connection with a case originating in this county.

The women were identified as Mary Hilde and her niece, Mabel Riddle, residents of this area.

Officer Hamill, according to Mr. Holloway, is in line for a reward provided the automobile was recovered, which seemed certain.

The men not only robbed Mr. Cox of his automobile but left him holding, naked, on a highway, taking his clothing and a small amount of money.

The car was removed to the Orlando jail just before noon where Mr. Holloway said they will be held, the men on charges of highway robbery and the women on other charges.

THURSDAY, NOV. 1, 1934

"HELAVA FIX"

LAKE HAMILTON.—We say Sinclair is really sincere, the others say it's political belly-ache. We praise the homestead tax exemption, the others claim it shouldn't go through. We are in favor of a sales tax, the others take the opposition, they advocate the return of whiskey. The others are in favor of prohibition.

We will endorse our monetary system, the others want a standard of gold. We will order five at the time, the others fight for birth control. The good old Baptists believe in baptism, the Methodists claim they are right. A married man recommends matrimony today, he beats h—out of his wife to-night. The streets, and in the papers, we say you can, and some say you can't. Just about come to the conclusion that my grandpa's half aunt, the whole world looks like nuts with everything running to a mix. When you try to decide who is right, you find yourself in a helluva fix. Freeman.

Speaking of the Homestead Exemption Amendment the Miami News suggests, "Beware of bondholders bearing gifts." Dr. Cornish is successful in efforts at restoring life, our serious suicides will have to look of some other way of evading the issue. King Alexander of Yugoslavia was sooner laid away to following his assassination someone threw a bomb at Boris of Bulgaria. Uneasy on the head.

We see by the Miami News that George Merrick, one of Miami's timers, who lost a fortune in development of Coral Gables, is to open offices in Miami and Coral Gables where development projects will be undertaken. Things are surely being set to happen in Miami when George Merrick starts his comeback. Remember when we said that the convict, who tried to imitate the Dillinger by shooting his way out of prison with a soap pistol, did not get killed in the attempt. You thought we were kidding. Well, it has finally looked like Walter Winchell knew it all along, that when John Dillinger got out of that Crown Point with a wooden pistol, he used the bullets.

The Orlando Sentinel, one of the newspapers in the state, says the Homestead Exemption Amendment will exempt the state from taxation to pay bonds. It said, "Get this clear: The state continues to be levied for bonds for bond interest and principal. These are the only places special assessments are levied in other parts of the state. On all other bonds, the state is levied for interest and principal."

A "Gold Brick" Amendment

Appearing in a recent issue of the Florida Municipal Record, a monthly periodical which circulates primarily among city and county officials and their employees, is an article on the Homestead Exemption Amendment by Henry W. Adams, a city councilman at St. Petersburg, where they have had perhaps almost as much experience with bonds, bondholders' committees, and mandamus actions as we have here in Sanford. "The real estate men of Florida," says Mr. Adams, "are enthusiastic over the proposed amendment, but I notice that they are very careful in their talks and in their literature to refrain from informing present and prospective owners that debt service must be met, and in most of the progressive cities of Florida debt service is at least 50 percent of the city and county tax rolls. If, as they hope, the amendment would bring large numbers of people to Florida, those people will feel that they have been misled when they find that the major portion of the tax still remains. Northern people were loaded up with 'gold bricks' during the Florida real estate boom. Another 'gold brick' campaign will not be of any lasting help to the state. I cannot be convinced that any abnormal number of persons will come to Florida, leaving their present friends and neighbors and properties, for the sake of saving possibly \$100 a year in taxes.

"The proponents of this amendment freely admit that the revenue cut off by reason of the amendment will probably be replaced by a general sales tax. There can be no challenge to the claim that real estate has hitherto borne an unfair share of the burdens of government, and ways and means should be found to reduce these taxes in general, not single out one particular class for partial exemption.

"The greatest problem that most Florida communities and counties now face is the debt problem, and settlements have hitherto been impeded or defeated by reason of the refusal of minorities to accept settlements agreeable to the majority of creditors. After much hard work, Representative J. Mark Wilcox was rewarded by having Congress enact his bill in amended form. He did not get all he asked for but he got enough to provide an efficient means of subduing the greedy minority creditor. This law expires by limitation in two years after its passage. "If the Homestead-Exemption Amendment passes, there will be many questions which must be resolved by our Supreme Court and the Federal courts, and unless the question of security back of refunding bonds to be issued is settled in a manner satisfactory to bondholders there will be no refunding, and instead of a reasonable and orderly program for debt settlement being arrived at, the chaotic condition now existing will continue and may likely grow worse. This problem is infinitely more important than the partial exemption of homesteads."

The Need For Charity

Pointing out the need, in spite of tremendous governmental expenditures, of continuing private charity activities through community chests, the American Red Cross, the Salvation Army, and similar organizations, Newton D. Baker, chairman of the National Citizens' Committee for the Mobilization for Human Needs, lists the following facts, showing the need of generous giving by all who can afford to give: 1. It is true that billions are being spent by the Government in order that people may not die of cold and hunger. 2. But these billions, divided among the families in need, average for each family only about \$24 a month. 3. And 70% of the free hospital services in the United States for the needy sick are provided by voluntarily supported hospitals. The sick among the unemployed number 48% more than among the employed. 4. Likewise public health nurses, also supported by your voluntary gifts, report that 66% of all their visits in 1933 were in homes unable to pay for the service rendered. 5. 30% more children have had to be removed from their homes and cared for by voluntarily supported children's agencies. 6. Two-thirds of all the arrests for crime involve persons between the ages of 16 and 24 years. Millions of boys and girls living under conditions destructive to character need the character-building services of your recreation agencies. 7. A man may die of despair, as well as of hunger, for suicides, numbering 16,368 in 1928, grew to 20,927 in 1932. This shows that more and more people are ceasing to value the only kind of life they are able to attain. 8. America cannot be rebuilt by relief measures alone. 9. Your local community chest needs your support during this year of rebuilding human hope and morale. It supports hospitals, clinics, child-care organizations, character-building agencies and many other social services. 10. When you give in your city, you strengthen the forces of civilization in the neighborhood in which you live.

SANFORD TWENTY YEARS AGO

Little Miss Sarah Wheelless was the happy young hostess of a creepy, shivery ghost party Friday night in celebration of her birthday at the home of her parents, Mr. and Mrs. W. T. Wheelless, Oak Avenue. Sarah's guests were: Ruth and Addie Marshall, Virginia DeCoursey, Nan Paxton, Margaret Berner, Helen and Sidney Kennedy, Carolyn Shuman, Donald Brock, and William Wheelless. Mr. and Mrs. Archie Betts returned Sunday after a delightful wedding trip spent in Brooklyn, N. Y., Philadelphia, and Washington, D. C.

A congenial party of ladies that motored over to Orlando Friday were: Mrs. Roy Symes, Mrs. Deane Turner, and Mrs. B. A. Howard. Miss Nell Whitner returned Friday from a week's visit to Winter Park. Mr. and Mrs. John Malach entertained with a Halloween party Sunday evening in honor of the former's brother, Frank Malach. Dancing was enjoyed by the young people until 1:30 a'clock when there that Sunday was at hand.

A party of six, including the side in Gethsemane, returned from the home of Mrs. F. J. ...

WORLDSEND PLAN

The Townsend plan of old age pensions of \$200 per month, guaranteed to restore prosperity and put millions of ready cash in circulation, can and should be improved upon. If the Townsend plan of paying this to only those over 60 years of age will make this a better world to live in, why wouldn't paying a cash pension to everyone be a lot better? It would bring prosperity just that much quicker by putting a decent amount of money in circulation. Here's a plan. The Worldsend plan (down is too restricted a territory). Let Congress provide a monthly pension to every one on a sliding scale. Babies will come in to the world drawing a pension of \$10 a month; in their second year they will draw \$20; in their third year \$30, and so on. The paying taper would have little difficulty—just imagine the applicant's age multiply it by 10, and count out the cash. Then a man of 60 would draw \$600 a month, which common arithmetic tells us would do three times as much good on the money circulation end as the measly \$200 that old Doc Townsend would give us. Doc is tight. As long as Uncle

CHURCH LOYALTY

Loyalty to church and regular attendance should be inculcated in the young. I was required to go, was taken when small, the entire family went to church. In fact Sunday School and church, became and has always remained an integral part of my life. I left home for college at sixteen and lived in the old home very little afterwards, yet the habit of going to church had become so essential to my "peace of mind" that I never neglected that duty as I saw it, without a very good reason. As Dr. Campbell Morgan said recently in Westminster chapel, "The house of God is a living and spiritual entity and its building is a supreme necessity of our life on earth." He quotes the prophet Haggai's several reasons for people being derelict in their duty to the church, such as carelessness, steeped in comfort.

Lloyd George, one of the greatest men of our time said recently "I love to listen to good preaching and I have a profound belief in its efficacy in the service of mankind." I consider that pulpits are essential part of the equipment of a higher civilization. When the chariot of humanity gets stuck in the morass, as it has done now, nothing will lift it out except great preaching that goes straight to the heart as well as to the mind. I came from a country (Wales) that owes more to its preachers than to its warriors. The chairman of that meeting, a prominent Englishman said, "We are as far from 1914 as if a hundred years had passed. No one knows what lies ahead of our people but when the church is leading the nations will follow." If Europe goes to war again, another speaker said, she will commit suicide, and the East will claim its own right to carve out history as we (Great Britain) ourselves have done. Let us do our part to make our churches the leading force in our community and nation by attending regularly. FRED E. RUSSEL

AAA OFFICIALS SURE OF AIDING CITRUS INDUSTRY

Shipments Of Florida Crop Now Maturing Will Be Regulated WASHINGTON, Nov. 1.—(AP)—Nathaniel Standish, firm opposition met by the proposed marketing agreement for the Florida Citrus Industry, the Farm Administration appeared confident Monday its adjustment machinery will regulate shipments of the state's fruit crop now maturing. Meanwhile, however, aides to their plans in event growers and shippers declined to accept the pact already tentatively approved Secretary Wallace closely guarded by the secretary. Wallace, at the close of business Saturday, had received no communication from the group claiming to represent more than half the Florida crop which at Lakeland Thursday charged back faith by the agriculture chief and rejected the agreement.

To the contrary a batch of some 35 telegrams had arrived urging that the agreement be made effective immediately. They came from various sections of the state citrus belt. Until the protesting group formally makes known its position, Administration officials would yesterday. A field of 33 ran. Commander the Third was second, and Highlander finished third.

New York.—American holders of tickets in the Irish Free State Hospital Sweepstakes won a total which amounted to approximately \$2,572,000 as a result of the Cambridgehire handicap on which the sweepstakes is based. Three tickets were held on the winning horse and each paid \$150,000. Eight tickets, worth \$75,000 each, were held on the horse finishing second, and four worth \$50,000 each were held on the third finisher.

INSULL TELLS JURY OF TALES AGAINST HIM

Whispering Campaign Of 1930 Sought To Drive Down Stocks Of Firm, He Claims

CHICAGO, Nov. 2.—(A.P.)—A whispering campaign was directed at Samuel Insull's companies in 1930 and 1931, the utility man testified in his mail fraud trial today, in an effort to drive down the value of his stocks and hurt Insull's credit.

Insull told of rumors directed against him in that period, including one that J. P. Morgan and Company, New York financiers, "were out to do me up."

This testimony came after he had admitted that Insull companies dealt in stocks of other Insull companies in 1929, 1930, and 1931, but defended it as a way of supporting security values for stockholders and one practiced even by the federal government.

Raising his voice to a shouting pitch, Insull told the jury he fled across Europe in 1932 to avoid being prosecuted as part of a political campaign purely.

Thirteen salaries paid to Insull by his companies gave him a pay check of roughly \$500,000 in 1930 and 1931, he admitted.

Insull, yesterday absolved 16 defendants of responsibility for his fall from power.

Tears rolled down his rosy cheeks as he testified in federal court where he and his associates are charged with mail frauds aggregating \$148,000,000.

Insull protested that he was pursuing the "same economic theories as President Hoover and John D. Rockefeller, Sr.," when he utilized empire building last year.

"I feel some embarrassment sitting here," he said, "I feel it infinitely more for these younger men who have no responsibility whatever in this situation."

Bill Goldbeck To Be Professional At Country Club

Hill Goldbeck, one of Florida's better known professional golfers, will spend this winter in Sanford as pro at the Sanford Country Club, it was announced today by Andrew M. Carraway, manager of the Club.

This means, Mr. Carraway said, that not only will local golfers have the benefit of expert instruction but also that a host of Central Florida golfers will appear on the course all winter for Mr. Goldbeck has a wide following.

The new pro has spent the past six years a pro at the Osceola Gramatan Club which now is known as the Daytona Beach Country Club. He spends his summers at the Lawrence Farm Golf Club near Ft. Pierce, N. Y.

Mr. Goldbeck will arrive about Dec. 1 with his wife and family. Miami to appear in the rich Miami-Biltmore Open Tournament, and he will appear in this match as a representative of the Sanford Country Club.

Mr. Carraway announced today that the front nine of the course is in excellent condition, and that improvements now are being made on the back nine. The entire lay-out will be in tip-top shape when Mr. Goldbeck arrives. In addition, the Club-house may be renovated by that time, for the City Commission only recently appropriated a sum to take care of a new roof and repairs to walls, ceilings, and floors.

Log Angeles Official Indicted For Perjury

LOS ANGELES, Nov. 2.—Perjury indictments were returned yesterday against Pitts, state's attorney, and his secretary as a sequel to a Hollywood "girl case."

The indictments were upon statements by Pitts, sister, Mrs. Bertha Green, before a grand jury which tried the case in 1931.

Hull Warns That Extremes Of Nationalism Will Soon Wreck Western Civilization

NEW YORK, Nov. 2.—Full employment and return to pre-depression standards of living for Americans demand unhampered revival of foreign trade, Secretary of State Hull last night told a national foreign trade council dinner.

Not only will unemployment continue until we recover foreign markets, Hull warned, but production will become regimented according to imports allowed to be brought into each nation.

"If the trend toward this international regimentation and control of foreign commerce, and the close bilateral balancing of trade is not checked, the whole economic system will be forced over a period of years to make a violent structural shift in international division of labor. During this transition, economic conditions will necessarily be seriously disturbed."

"When, at last, this structural adjustment has been made, the inevitable result will be a materially lower standard of living than might have been achieved under a liberal commercial policy."

The secretary said advances should be made on many fronts before revived foreign trade could be called successful for the entire world. Included in these fronts he listed reestablishment of equilibrium in the international price structure; currency and exchange stability; and removal of current trade regulations of foreign trade through quotas, import licenses, exchange control and clearing and compensation agreements.

Hull said that the "merry game of boomer business by both selling on credit and buying from ourselves" had emphasized to American business that imports were as important as exports.

COUNTY ONLY ONE TO GET 2 AGENTS DURING THIS YEAR

Extension Service Is Available Free To All People In Area

By C. R. DAWSON,
Seminole County Agent

Seminole County is the only county in the State of Florida which saw the appointment of a County Agricultural Agent and a County Home Demonstration Agent this year.

The Board of County Commissioners selected as its agent a former principal and vocational agriculture teacher at Ocala, who Miss Josephine Boydston, former Home Economics teacher, was named as Home Demonstration Agent.

The two agents have formulated programs which are calculated to do the most good in the county. They have entered into their work with a will to accomplish their objectives.

Evidence of the wisdom which the Commissioners exhibited in accepting the advantages of the Agricultural Extension Service, is reflected in the work already done by Miss Boydston.

She started her work in this county on Aug. 1, 1931. Since then she has organized eight Women's Home Demonstration Clubs at Ocala, Geneva, Longwood, Lake Mary, Lake Monroe, Palm Bay, Chuluota, Altamonte Springs, and Forest City.

Members of these organizations meet twice monthly under the supervision of officers they elected. Girls' 4-H Clubs have been organized in each school for girls between the ages of 10 and 18, and they also hold bi-monthly meetings. Nine such clubs have been organized.

Miss Boydston has announced that each Club's program for the year will include practical discussions and work in food production, food nutrition and health, food preservation, home improvement, clothing, poultry, home dairying recreation and handicraft.

Indicating our desire to keep abreast of the times is the fact that both Miss Boydston and I will be at Gainesville all next week attending the Annual County Agents' meeting.

As Convenience For Workers, FERA Officials Have Prepared New Pay Plan

Effective tomorrow, a new schedule of pay-off hours will be put into effect for the convenience of FERA officials say, of men and women employees all over the country.

The new schedule, it was pointed out, will mean that only one pay-off will be in effect, and all concerned are urged to make every effort to be at their designated places on time.

FERA officials also announced that \$2,000,000 to be paid tomorrow to 1021 men and women workers representing the past week's work.

Here is the new schedule, effective tomorrow:

Men working on the following projects are to be paid as follows: Farmers' Market, 7:00 o'clock; tennis courts, 7:15 o'clock; sewers, 7:30 o'clock.

All women will be paid at the Mayfair Hotel at 8:00 o'clock; all white men not working will be paid at the Court House at 8:30 o'clock, and all colored men not working will be paid at the First Station at 9:00 o'clock.

Payroll hours around the county: Lake Mary, 10:15 A. M.; Longwood, 10:45 A. M.; Altamonte, 11:00 A. M.; Forest City, 11:30 A. M.; Ocala, 12:30 P. M.; Chuluota, 1:15 P. M.; Geneva, 1:30 P. M.

ICKES SAYS HE QUIT GOP SOME MONTHS AGO

WASHINGTON, Nov. 2.—(A.P.)—A "touching and pathetic spectacle" was Secretary Ickes' resignation yesterday of the action of the Cook county Republican central committee in making his resignation from the Republican party.

He said he had left the party months ago in "great" enthusiasm.

"It is all the more pathetic because the patient which for some time has been suffering from senile debility, is about to close its eyes in its final sleep. The mortician already lurks outside the door."

Warping Blasts Of Winter Heard Again

Washing blasts of advancing winter sent a cold wave over most of the United States today with some cities experiencing a drop of more than 20 degrees in their temperatures overnight.

The coldest point on the weather map early today was Cincinnati where a 22 degree temperature was registered as compared with a reading of 38 on Thursday.

An indication of the sweep of the cold wave into the South was seen in a drop at Atlanta from 60 degrees Thursday to 38 early in the game brought a decision to today.

EUROPEAN PEACE AGAIN THREATENED

Saar Territory Debate Causes Uneasiness In Germany, France, League Of Nations

By The Associated Press

Uneasiness over the question of the Saar Territory appeared increasing in Germany and France today with the citizens of each country denouncing the intentions of the other.

France made it apparent that she was prepared to send troops into the territory if they were needed to preserve peace.

Reichfuhrer Hitler's newspaper, the Volkischer Beobachter, in Germany warned that "The aggressor is one whose troops invade foreign soil."

Two months from now the people of the Saar will vote on whether they shall remain under control of the League of Nations, return to Germany, or become a part of France.

A reign of terror in Germany to keep the world ignorant of his feverish rearmament was the accusation Winston Churchill, Great Britain's former chancellor of the exchequer, leveled at the Nazi government Thursday as Europe's governments worried over the outlook for peace.

LONDON.—Churchill, addressing members of his constituency, asserted Germany was rearming "secretly, illegally, and rapidly" and assailed the national government for failing, he said, to speed up its program for air defense.

PARIS.—The fear of war overshadowed all other questions at the Chamber of Deputies today.

All-Union Day, on the government announced the necessity for national defense and made ready to throw troops into the Saar if the League's governing commission so requested.

BERLIN.—The government newspaper Deutsche Diplomatische Politische Korrespondenz warned France she "is playing with fire" and asserted discipline in the Saar is excellent.

H. J. Lehman Will Represent City On Mart Advisory Body

Commissioner H. J. Lehman has been appointed by the City Commission as its representative on the Supervisory and Advisory Board which will direct the policies of the new State Farmers' Wholesale Market.

The Commission met in an informal session yesterday and elected Mr. Lehman. The Commission is the first group which has announced its choice.

Other groups that will be represented on the Board include three members of the Seminole County Agricultural Association, and one member from the Board of County Commissioners, the Seminole County Chamber of Commerce, the local co-operative marketing agencies, local independent marketing agencies, and the State Marketing Board.

It was learned today that all appointments will be made before Monday night when the appointees will meet with Commissioner Mayo, Marketing Commissioner Rhodes, and S. W. Hiett of the Department to learn its duties.

U. S. DEFICIT HAS PASSED BILLION MARK

Roosevelt And Aides Turn To Big Task Of Balancing Next Year's Expenditures

WASHINGTON, Nov. 2.—(A.P.)—The big job of budgeting next year's governmental expenditures set President Roosevelt and his aides busily at work yesterday as they carried the deficit for the current year into the billion dollar class.

Harry L. Hopkins, in charge of the most uncertain item of all governmental disbursements—relief—lunched with the Chief Executive. The latter then went into conference with Secretary Morgenthau and Harold W. Hill, acting director of the budget.

The deficit month after month in figures, and stood at a point almost three times as great as a year ago, despite a slight increase in revenues and the fact that R.F.V. loan repayments were considerably greater than disbursements to new borrowers.

For the present, budget makers concentrated upon routine expenditures of the various departments and bureaus, in an effort to chip them to the lowest point compatible with efficiency, a procedure always attended by some sailing from the heads of the agencies affected.

Toward the end of the year, they said, accurate estimates of relief requirements will be available, and then it will be possible to shape the budget for transmission to Congress. How much would be spent for the fiscal year 1932, they said, would depend on the results of the current year's budgeting.

The Chief Executive has revealed just one item so far as next year's budget is concerned. This is the restoration of the 9 percent pay cut of government employees. Their salaries were trimmed by 13 percent originally and later two-thirds of that was restored. The 15 percent cut was estimated to have reduced government costs by \$100,000,000.

1st Stream-Lined Train In South To Be Operating Soon

MOBILE, Ala., Nov. 2.—(A.P.)—The South's first streamlined Diesel electric train will start from New Orleans for Jackson, Tenn., on a regular schedule beginning early in 1932, says the Mobile & Northern Gulf Railway.

Two new trains, built hurried but more conventional than the recent "roadrunners," will be put into service upon delivery. G. M. & N. officials said here yesterday.

Extensive track improvements, including the laying of heavier rails to meet completion of the New Orleans-Jackson route to within the zipping speed of the four-car trains, being built with arrangements for additional units as needed.

The trains will be air conditioned throughout the year and of the same weight as present passenger coaches, allowing full double berths in sleeping cars.

The dining room and mail and baggage compartments will be included in the fast coaches, followed by two day coaches, one of which will be a buffet. A sleeping car with state rooms, berths and a combination observation lounge will be at the rear.

HERALD INSTALLS LATEST TYPE OF PRINTING PRESS

Welching 24,000 Lbs., New Press Will Put Out 6,000 An Hour

This edition of The Sanford Herald is the first to be printed on the new press which the mechanical department of The Herald, under direction of C. A. Haines, has been busy installing this week.

The press arrived from Battle Creek, Mich., one week ago and the work of dismantling the old press was begun on Saturday.

Made by the Duplex Printing Press Company of Battle Creek, the Herald's press is the latest word in printing press equipment. It is known as a Duplex Flatbed Web-performing Model "E" press. It will print 12, 4, 6, or 8 pages at the rate of 6,000 an hour, weighing over 24,000 pounds, it is the heaviest flat bed press on the market.

The paper on which the newspaper is printed is fed into the press from large rolls fixed at one end of the press. The paper is fed at uniform speed, but during the brief period when each page is printed, that portion of the web that is to receive the impression remains stationary.

This is necessary because the type forms are held in station by belts, over which the impression cylinders are continually moving back and forth.

There is an equalizer mechanism.

Senior Trade Body Team Beats Junior Team 4 To 3 In 'Burro Baseball Game

Coming from behind after an early inning attempt to control their mounts the Seminole County Chamber of Commerce burro baseball team defeated the Sanford Junior Chamber of Commerce team 4 to 3 at Municipal Park last night.

It was the second game of a series of three, and a crowd of over 600 persons bowled with glee at the performance presented.

As a result, the senior team earned the right to meet a picked Kiwanis Club team at the park tonight to decide the burro baseball championship of Seminole County.

Mayor W. A. Leffer, captain of the Rotary Club team which defeated Kiwanis Wednesday night, definitely announced this morning that his players had "struck." Many of them were in the stands last night, some on crutches and others with other evidences of shock, and a hurried consultation under the stands after the game brought a decision to withdraw from further play. No reason was given.

Sheriff J. F. McClelland, Otto Caldwell, W. H. Schmidt, D. K. McNab, George Thurston and Andrew Carraway were credited as being the best players on the field last night. All hit the dirt more than once as they sought to mount their animals, but all came back for more and played jam-up games which delighted the fans.

Although Sheriff McClelland was the senior organization's best player, he had to share honors with George Fong, Monk Bennett's Chinese chef, whose play around first base and attempts to ride one or more donkeys had the stands in an uproar.

Tonight's game will start at 7:30 o'clock and Arthur Brannan will captain the Kiwanis team, matching wits against Bill Schmidt as captain of the Senior trade body team. Proceeds of the game goes toward the Zoo building fund.

Wilcox Express His Opposition To Exemption Measure

Chamber Of Commerce Has Existed In County In Some Form For Over 40 Years

By KARL LEHMANN

Sanford and Seminole County have had some form of Chamber of Commerce or community organization for the last 40 years. It has taken various names, running from Village Improvement Society and Board of Trade, etc. on up to the nationally recognized and established Chamber of Commerce.

Sanford and Seminole County have always had their faithful community builders who have found expression for their constructive enthusiasm through the activities of a Chamber of Commerce.

In the early years these organizations were small, consisting of but a few local optimistic citizens who wanted to do something for their city and county.

But the peak of membership and expenditures came during the period of the boom, as was true in all other communities and counties in the State of Florida.

During that period Sanford had a Chamber of Commerce that raised \$100,000 membership money one year and had in addition a substantial publicity fund provided by the city administration. During those days much constructive and effective work was done and the large sums expended were decidedly advantageous to Sanford, though they make the present program seem quite meagre when compared to the enormous sums of money available to the Chamber of Commerce.

Sheriff J. F. McClelland, Otto Caldwell, W. H. Schmidt, D. K. McNab, George Thurston and Andrew Carraway were credited as being the best players on the field last night. All hit the dirt more than once as they sought to mount their animals, but all came back for more and played jam-up games which delighted the fans.

Although Sheriff McClelland was the senior organization's best player, he had to share honors with George Fong, Monk Bennett's Chinese chef, whose play around first base and attempts to ride one or more donkeys had the stands in an uproar.

Tonight's game will start at 7:30 o'clock and Arthur Brannan will captain the Kiwanis team, matching wits against Bill Schmidt as captain of the Senior trade body team. Proceeds of the game goes toward the Zoo building fund.

Legion May Its Bonus D

WASHINGTON, Nov. 2.—Possibility the American Legion may limit its bonus at this session of Congress, in relation of the bonus on bonus loans, was President Roosevelt's Veterans' Administration. Returning from the convention, Hines informed that final settlement program departmental executive committee meet soon.
