

LARGE REAL ESTATE DEVELOPMENT ON SHORES LAKE MONROE TO FOLLOW SALE OF PROPERTY

NORTHERN COMPANY INVESTS IN SANFORD REAL ESTATE

SPEND LARGE SUM

High Class Residential Subdivisions to be Developed East of City—Pace Homestead Bought For Purpose

One of the largest and most important real estate developments in the history of Sanford has been assured in the sale of the old Pace homestead, on Lake Monroe, to the Bodwell Realty Company, of Providence, R. I. Large sums of money will be spent in transforming the property into one of the highest class residential subdivisions in the state.

This announcement was made Friday morning following the closing of a deal for the property. Harry Bodwell, president of the Bodwell Realty Company, who has been in the city for several days has returned to Providence and it is understood that work will begin at an early date.

Mr. Bodwell was first interested in Sanford by Mrs. Eva Herndon, while visiting at Daytona. It was his intention to invest in property on the east coast, but Mrs. Herndon was able to convince him of the still greater possibilities of Sanford. After several visits here, a decision was reached by his firm, following his recommendation, to buy the old Pace homestead from Mrs. Herndon, the owner, and to develop it into a high class residential section.

The deal was closed in the office of A. P. Connelly and Sons and the consideration is said to have been \$50,000. The old Pace Homestead is located on the shores of Lake Monroe, at the end of Union avenue, east of the city. The property is high and dry and commands a wonderful view of Lake Monroe and the St. Johns river. It contains 80 acres.

It is announced that work will begin within a few weeks on the actual development of the property although the company will not come into possession of the entire estate at once due to the fact that some leases are still effective.

Mrs. Herndon is enthusiastic over the great possibilities for development of this property and believes that the coming of Mr. Bodwell's company will mark another important step in the growth and development of the city.

Motion Picture Plants To Leave Los Angeles

(By The Associated Press)
SAN FRANCISCO, Cal., Dec. 7.—Motion picture plants of Los Angeles are ready to pull up stakes and go elsewhere according to Joseph Schenck, motion picture producer and husband of Norma Talmadge, who was in this city today. He declared producers were not wholly influenced by the attitude of the Los Angeles city government but that many of them had been thinking of moving for some time.

McCreedy Attempts Altitude Record

DAYTON, Ohio, Dec. 7.—John A. McCreedy in a lapere biplane hopped off at 10 o'clock from McCook Field in an attempt to set a new world's altitude record.

\$500,000 Buildings Destroyed by Fire

NEW ORLEANS, Dec. 7.—United cotton building, a three story structure on Gravier street between Baronne and Dryades streets and several small adjoining buildings, were destroyed by fire this morning. It is believed the loss would reach \$500,000.

Freight Train Kills Two And Injures One

PITTSBURG, Kans., Dec. 7.—Two men were killed and two injured when a San Francisco freight train struck the car in which they were riding at Zircville near Car Junction, Missouri, this morning.

What will you give your husband for Christmas. Let us suggest three dozen ash trays.

LOSING POWER

President Alvaro Obregon, whose power as head of the Mexican republic is waning, according to press dispatches. Five Mexican states are now in open rebellion against his government.

MONEY WAS RAISED LAST NIGHT FOR SCOUT MOVEMENT

Seminole County's Quota is \$1,000—Will Attempt to Raise Rest in Next Two Days

At the banquet given at the Valdez Hotel last night by the Rotary and Kiwanis Clubs and the Chamber of Commerce, \$205 of Seminole County's quota of \$1,100, was raised for the Boy Scout Movement.

Col. George W. Knight presided over the banquet which was attended by a small number of business men. What was lacking in numbers, however, was more than made up in enthusiasm. Mr. Knight introduced as the first speaker of the evening J. C. Morris, scout executive of Orlando. Following Mr. Morris was Karl Lehmann, secretary of the Orange County Chamber of Commerce.

Mr. Lehmann's remarks were taken up with the importance of boy scout work and what is being done by the central Florida Council of which Mr. Morris is the executive head and which comprises the six counties of Seminole, Orange, Brevard, Lake, Volusia and Osceola.

Mr. Lehmann further pointed out that the budget for carrying on the work of this council for 15 months is \$8,500. Orange County's quota is \$3,100 but it was voluntarily raised to \$4,000 and in two days one half of that amount was raised.

According to Mr. Lehmann several of the larger cities in the state such as Tampa, Jacksonville and Miami have councils of their own but because of the amount of money involved and the lack of a sufficient number of boys to carry on the work in any one town or county, the six counties already mentioned were grouped together. The work carried on in these counties thus far has been very good and results obtained have been the best, he further said.

More Subscribers to Church Building Fund

The following additional subscriptions to the building fund of the Holy Cross Episcopal Church were reported by the committee this morning:

For the church fund: Class B, S. E. Barret; Class C, S. A. Houston; Class D, E. D. Mobley.

For the Parish House only: Class A, C. W. Stokes.

Three-Year Sentence Urged For C. Griffis

MOSBACH, BADEN, Dec. 7.—A sentence of three years for Corllas Griffis, of Hamilton, Ohio, was recommended by states attorney Nebel for an attempt to kidnap Grover Cleveland Bergdoll. He declared the American government was back of the attempt and that Griffis should be thankful he was not lynched by infuriated citizens in the night of the attempt. Bergdoll's special counsel urged an even heavier sentence.

JIGGS AND MAGGIE ARRIVE MONDAY TO MAKE FOLKS LAUGH

Readers of The Sanford Herald Will Be Entertained By "Bringing Up Father" Comic Strip That Made McManus Famous

Jiggs and Maggie are coming to Sanford!

Readers of The Sanford Herald will officially meet these celebrities next Monday on the Classified page of this newspaper.

Jiggs the world famous comic character will bring laughs galore to Herald readers. George McManus, creator of "Bringing Up Father" receives a princely sum each year for directing these daily laughs.

Next Monday Jiggs and Maggie will make their bow to the people of Sanford who are readers of The Herald. The Story of "Jiggs"

A quarter of a century ago, a teacher in the St. Louis, Mo., high school stuck out her hand, and timidly 13-year-old George McManus, advanced up the aisle of the schoolroom with a picture he had just drawn of a youngster with a turned up nose and a generous sprinkling of freckles.

That was the first time the famous creator of "Bringing Up Father" drew public attention to his work.

"I expected a whole of a licking from the school Ma'am," said the cartoonist the other day, "but apparently she felt my dad could give me a sounder thrashing, and so she sent this bit of art with a few others she found in my desk to my father.

"He was very quiet during supper, and I fancied the strap would get its workout just before bedtime. Instead he quietly asked:

"Did you do that?"

"I admitted it, and without a word, he went out of the house. The next morning my father told me to get on my hat and coat and go down to the St. Louis Republic to work. He had brought the freckled drawing to the editor, and it made a hit. I worked for a year at \$5 a week, and then was given a dollar raise. That was 24 years ago, and I've been drawing cartoons ever since.

"When I was 21, I came to New York, and drew comics for the New York World. You remember 'Punch and Pete,' 'Let George Do It,' and twenty other comics that I drew during that time and since. The others pass out of memory of the average readers of funny page. They all ask: 'How did you strike the popular characters of Jiggs and Maggie?'"

"It was this way: Indelibly in my mind since childhood remains the picture of old Billy Barry, the Irish comedian of his day. My dad was in the show business, and I used to see Barry in his play quite often. I remember every detail of that play. It is practically the same as 'The Auctioneer' of today with the change of the leading character. The character portrayed by Barry is the Jiggs of today, and his wife Maggie is the same leading actress in that play. They used to have a poker game every night at 9:15, and there were people in St. Louis who would flock into that house just to see the real poker that was played. It was one of those games where the players carried bricks and axes for emergencies.

"It's the public which makes a comic successful. I tried out a dozen, until 'Bringing Up Father' struck the popular fancy. That was a few years ago when I joined the Hearst organization."

"Jiggs" and "Maggie" now make millions laugh in both hemispheres. It is even published in Shanghai, China. The man who is responsible for it is the highest-paid comic artist in the world. He makes his home in New York, and is at his desk regularly every day. He enjoys the profession of amusing people. His conversation bubbles with the same humor that characterizes his cartoons. He sees fun in everything, even in the many penalties of the reputation he has gained, as the world's greatest cartoonist.

"This is the latest," he said the other day, selecting a letter from a pile of correspondence on his desk. "The New York American has just been asked by this chap to decide a wager. He bet that George McManus is a horse-thief and a murderer, serving a life term, and is sending his daily comic strips from the jug."

Three Greatest Needs of Sanford

1. Municipal ownership of public utilities.
2. Establishment of a park at Mill Creek.
3. A large number of first-class apartment houses.

BIG REDUCTION IN TAXES IS URGED BY SECRETARY MELLON

Makes Annual Report to Congress And Advocates Sharp Reduction in Income Taxes—Facts and Figures Given

WASHINGTON, Dec. 7.—Secretary Mellon, in his annual report transmitted to Congress today, described Treasury operations under which the nation's foreign debt had been reduced \$618,674,348 in the fiscal year 1923, and again urged sharp reduction in taxation based on rigid economy and having "authorizations for new and unexpected expenditures." The report contained a copy of Mr. Mellon's letter to Acting Chairman Green, of the House Ways and Means Committee, in which the Secretary said "a soldiers' bonus would postpone tax reduction not for one but for many years to come."

To the usual review of official activities under his direction, Mr. Mellon attached additional argument for the general reduction in income taxes which he has urged. He particularly stressed the advantage which he has predicted would come from cutting the surtax rates upon large incomes to a maximum of 25 per cent, on the ground that it would actually increase government income, as well as indirectly benefit the public at large by reducing burdens on productive operation.

The government, "firmly established on the basis of balancing its budget each year," Mr. Mellon said, brought the national debt, once at a figure of over \$95,000,000,000, down to a total of \$22,082,209,000 on October 31. The record, he said was one brought about "only by the most rigid economy and the application of business principles to the government's finance." On the present basis of taxation and expenditure, he cited an estimated Treasury surplus next July of about \$320,000,000, and a possible surplus in the year after of \$395,000,000.

"High taxation," the report continued, "even if levied upon an economic basis affects the prosperity of the country, because in its ultimate analysis the burden of all taxes rests only in part upon the individual or property taxed. It is borne by the ultimate consumer. High taxation means a high price level and high cost of living. It can safely be said that reduction in the income tax reduces expenses not only of the 7,000,000 income taxpayers but of the entire 110,000,000 people of the United States."

As to the reduction in the surtax rate, Mr. Mellon said that the history of taxation throughout the world indicated that "means have always been found by the ingenuity of the citizen to avoid taxes inherently excessive." It was significant, he said, that the large incomes reported for taxation were decreasing in number each year, those over \$300,000 being 246 in 1921 as compared with 395 the year before. The estates of the wealthy, he pointed out, were flowing into tax exempt securities. The Treasury actuary, he continued, estimated that the reduction of the surtax to the 25 per cent maximum against a present maximum ranging up to 50 per cent, would actually increase by 1926 the amounts which the government receives, the lesser rate being more than compensated for by the additional volume of tax paid.

Mr. Mellon advocated also the reduction of federal taxation on estates after death, on the ground that this tax was taken "not out of income but out of capital," with cumulative.

Watch for Your Name

If it appears on the want ad page of The Herald today, you will receive two free tickets to the performance at The Milan Theatre tonight. You may be the lucky one. Read thoroughly the little want ads.

GOVERNMENT PARTY SUSTAINS HEAVY LOSSES IN ENGLISH ELECTIONS; CONSERVATIVES STILL LEAD

CITRUS MOVEMENT IS HEAVIEST FOR THIS TIME YEAR

Business Manager of Citrus Exchange Announces that More Than Four Million Boxes Have Already Been Shipped

TAMPA, Dec. 7.—"Movement of 11,614 cars of citrus fruit from Florida thus far this season is the heaviest on record for this time of the year and is equivalent to approximately 4,181,040 boxes," says Business Manager C. E. Stewart of the Florida Citrus Exchange, in his monthly report on citrus crop and the market conditions. "This volume of shipments constitutes about one-fifth of the estimated production of 20,000,000 boxes for the entire season, and shipments have been moving only about sixty days."

Florida's citrus shipments up to the first of December are reported by Manager Stewart to be 6,076 cars oranges and 4,239 grapefruit, a total movement of 11,614 cars. Shipments from the state in the same period last year were 3,932 cars oranges and 4,161 cars grapefruit, a total of 8,093 cars. The total increase in this season's shipments over those of last year is 3,521 cars. Reporting on the condition of the fruit crop now on the trees and transportation facilities for moving it to market, the Exchange's business manager says:

"The condition of Florida's citrus crop has been greatly improved during November. Cool, dry weather reported generally throughout the state has served to rapidly color and shape up the fruit, so that its keeping and carrying qualities are now vastly better than they were earlier in the season. The crop still to be moved from the state is not only the largest, but one of the best in quality that Florida has ever had.

"The supply of refrigerator cars has not been sufficient to meet the heavy demand for this class of equipment, occasioned by the increased volume of the Florida citrus movement during the latter part of November. Shippers in many instances are being compelled to accept ventilated cars. Several northern railroads have announced their annual embargoes on citrus shipments in ventilated box cars in territories subject to freeze, and this ruling has necessitated the transfer of many shipments from ventilated to refrigerator cars on the road to market, a situation which invariably works to the detriment of the shippers."

"Exceptionally heavy citrus fruit shipments for this time of the year have served to flood many markets, resulting in a marked decrease in prices," says Mr. Stewart in discussing present citrus market conditions. "This condition is particularly true with reference to oranges, approximately 5,700 cars of which were shipped from the state during November, an extraordinary record.

"During the middle of the past month grape fruit prices suffered greatly because of the inability of jobbers and dealers to move the greenish and immature fruit shipped early in the season. This situation is slowly clearing up, and there is now a slightly improved inquiry for fruit, which may result in a better demand and higher prices, provided shipments are not materially increased in the next few weeks.

"The general range of prices for Florida oranges at the close of November was about \$2 to \$4 per box delivered with practically no demand from auction centers and very few market sales. The general range of prices for grapefruit was from \$2.25 to \$4 per box delivered and for tangerines at the close of the month \$2.75 to \$1.50 delivered.

"Considering the great volume of fruit it has been called upon to handle and the inability of retailers to move their stocks with sufficient rapidity, the trade generally has cooperated very well in the marketing of Florida citrus crop. The improved color, maturity and keeping qualities of the fruit shipped during the latter part of November have greatly lessened the complaints of the trade in these respects noted earlier in the season."

Turkeys have been in cold storage 12 months so it isn't too late to have your last year's turkey.

CREATOR OF JIGGS

George McManus, who makes millions happy every day by his creation of "Bringing Up Father." Jiggs and Maggie will entertain readers of The Sanford Herald beginning next Monday.

COUNTY AND STATE TAXES COLLECTED TOTAL \$48,376.57

Total Amount to be Collected This Year is \$342,260.98—Books Close April 1

According to figures given out today by John D. Jinkins, county tax collector, the amount of state and month of November including money received from the issuance of licenses, was \$48,376.57. During the corresponding month of last year the amount received was \$32,420.28.

The total assessed valuation of property in Seminole County for the year 1923 amounts to \$5,492,207 and the amount of taxes to be collected totals \$342,260.98. Many people took advantage of the two per cent discount offered to those who paid their taxes during November. During December, Mr. Jinkins said, a discount of one per cent will be given on all taxes paid.

Mr. Jinkins further announced today that the tax books will close April 1 as required by law.

Liquor Smugglers Draw Fines And Prison Terms

SAVANNAH, Dec. 7.—Fines totaling \$150,500 were assessed and terms of imprisonment were given 25 defendants in the recent liquor smuggling clean up. Fred Haar, Sr., was fined \$10,000 and sentenced to one year in federal penitentiary; Fred Haar, Jr., William H. Haar, Carl Haar, Richard Bailey, C. C. Tuten, J. F. Williams, Sam Goldberg, J. H. Thomas, Homer Evans were fined \$10,000 each and sentenced two years imprisonment. C. Graham Baughn, attorney, was fined \$15,000 and sentenced two years. Others were given penalties.

Popham Is Denied Use Of Mails By The Gov.

ATLANTA, Dec. 7.—William Lee Popham, Mayor of Apalachicola and self styled oyster king of Florida, has been denied all mail privileges according to order received by local postal officials from the postmaster-general at Washington. Popham is under federal indictment charged with using mails to defraud.

Lone Bandit Gets Away With Big Sum of Money

PETERSBURG, Va., Dec. 7.—A check up today revealed that \$37,083 was secured by the lone bandit, who was secured by the lone bandit, who late yesterday robbed the express car on the Norfolk and Western train en route from Norfolk to Richmond.

MARKET REPORT

NEW YORK, Dec. 7.—Foreign exchanges broke sharply at the opening of today's stock market on British election returns. Demand sterling dropped nearly four cents to 4.33 and French francs slumped 10 1-2 points to 5.32 cents. Other continental exchanges yielded in sympathy.

CICAGO, Dec. 7.—Wheat, December 1.04 7-8; May, 1.10 5-8 to 3-4; corn May, 75 to 1-8; Oats, May 46 to 1-8.

PRIME MINISTER BALDWIN WAS RE-ELECTED FOR LLOYD-GEORGE

Churchill and Henderson Go Down in Defeat—Textile Districts Vote Overwhelmingly Against Protection Proposal

(By The Associated Press)
LONDON, Dec. 7.—Prime Minister Baldwin and J. Ramsay MacDonald, labor leader were re-elected in the English elections yesterday. Winston Spencer Churchill and Arthur Henderson, prominent laborites, were defeated. Lady Astor won. The Lancashire textile manufacturing center voted overwhelmingly against government's protection proposal. Herbert Asquith, former premier, and now leader of Liberal party barely re-elected. The government party sustained heavy losses. Lloyd George was re-elected. The standing of parties this afternoon was, Conservatives, 201; Labor, 131; Liberals, 100; Independents, 9; Nationals, 1.

LONDON, Dec. 7.—Protection met its Waterloo in the British elections yesterday if the returns from 168 constituencies, including fifty where the candidates were unopposed, prove a true indication of the final results. The labor and liberal parties are running neck and neck. In the earlier reports the liberal gains figured notably, but later in the evening labor began to pull ahead. Competent political authorities assert that the conservatives can hope for nothing better than a three-cornered house, which would be equivalent to defeat. The minister of labor, Sir Montague Barlow, was defeated by the labor candidate and Rear Admiral Sir Reginald Hall, chief organizer of the conservative party, also had to haul down his flag. Churchill loses. On the other side, Winston Churchill's powerful influence in the liberal party, lost his game fight at Leicester to a laborite. Lady Astor will again represent the Sutton division of Plymouth in parliament. She defeated her old opponent, Capt. Brennan, by nearly 3,000 votes. Several of the other women candidates, however, were defeated. Last night's returns have been from the cities where the labor unions are strong. Today's reports from the country may change the complexion of the contest. The country voters generally lean to conservatism. Thus far there has been no chance to judge as to what effect Premier Baldwin's promised subsidies to the farmers has had. Henderson loses. Arthur Henderson secretary of the labor party, lost his seat for East Newcastle, to Sir R. W. Aske, liberal. This is one of the most significant liberal gains, as Newcastle is a labor stronghold. Henderson's majority in the bye-election of 1923 was 4,281. Asquith Returns Seat. LONDON, Dec. 7.—Herbert H. Asquith, leader of the reunited liberal party, weathered the storm which seemed to threaten to unseat him at Paisley, retaining his membership in the house by a vote of 6,723 against 7,977 polled by J. M. Biggar, labor. Mr. Asquith's victory was due to the labor vote being split, the second labor candidate polling 3,685. Otherwise Mr. Asquith would have been defeated. The fourth candidate, the conservative, Shaw, polled 7,758. Too Much Fog. LONDON, Dec. 7.—The man in the street could not learn how the elections came out last night because there was too much fog. Tens of thousands turned out to see the returns flashed on screens and moving electric ticker tapes. But just as the first returns were coming in vast clouds of the heaviest fog in years settled down upon the entire metropolis, and in a few minutes the man in the street could hardly recognize his wife at the end of his arm, let alone the screen on the building across the way. What will you give your wife? We suggest a spool of silk thread to match your silk socks.

KARL LEHMANN IS TO BE SPEAKER AT BANQUET TONIGHT

Banquet Being Given to Stimulate Interest in Boy Scout Movement—George W. Knight Will Preside

Everything is in readiness for the Boy Scout banquet that is to be given tonight at 7.30 o'clock at the Valdes Hotel.

The meeting is being sponsored by the Rotary Club assisted by the Kiwanis Club and the Chamber of Commerce. It is being given in an effort to stimulate interest in behalf of the Boy Scout movement and to start the ball to rolling for Seminole County to go over the top in raising its quota of \$1,100 for the organization.

Col. George W. Knight, president of the Rotary Club, will preside. The principal speaker for the evening will be Karl Lehmann, of Orlando, secretary of the Orange County Chamber of Commerce, who is very much interested in this work and who will speak upon that subject.

State University Is to Have First Class Normal School

UNIVERSITY OF FLORIDA, Dec. 5.—The University of Florida soon will have a first class Normal School on the campus running six school sessions a year, according to information given out by J. W. Norman, Dean of the Teachers' College. The winter term will consist of four semesters of nine weeks each, and the summer term of two semesters of six weeks each.

"To carry this program into effect," says Dean Norman, "it will be necessary to effect the following changes: (a) Remodel Peabody Hall, making use of all space available. (b) Provide separate instructors for freshmen and sophomores in all departments. (c) Build a \$150,000 dormitory for women between Peabody Hall and the A. T. O. house. (d) Make the Teachers' College co-educational.

"When the library moves into its new quarters, and the attic in Peabody Hall is completed," continued Dr. Norman, "the teachers' college will have sixteen class rooms, making it possible to accommodate from 750 to 1,000 students."

"The urgent need for a first class Normal School in Florida is only too obvious when we consider the startling fact that the 1923 Research Bulletin of the National Education Association places Florida lower than any other state in percentage of trained teachers—certainly an unenviable position," say those here who have given the matter much thought.

Although all members of the faculty and a majority of the students are in favor of co-education, the plan has not yet met approval of the directors. Since 90 per cent of the school teachers in Florida are women, a non-co-educational normal school would be of little value, it is believed here.

Commission Orders Motor Ladder Truck

The City Commission has ordered a brand new motor ladder truck for the fire department of this city at a cost of approximately \$5,500. The machine, one of the latest types of ladder trucks, was ordered from the American LaFrance Fire Company.

The new addition to the fire equipment of Sanford will arrive here about February 1, it was announced today and when it is added to the equipment now owned by the city, will make the Sanford fire fighting apparatus one of the best in the state for a city of this size.

Along with its endeavor to keep the Sanford fire department well equipped with adequate apparatus, the commission ordered, and has received 500 feet of fire hose at a cost of \$700.

Sanford-Mt. Dora Road to Be Improved Soon

The Sanford-Mt. Dora road will be widened, making a road bed 24 feet with the road 15 feet in width, as a clay or shell shoulder three feet on each side of the asphalt will be added, according to the Lake County Citizen. The holes in the asphalt are being repaired now, and as soon as the clay road leading out of Sorrento to the Orange county line is complete the thirty-three convicts will be transferred to the Sanford-Mt. Dora road and will stay on the job until this stretch of road from Mount Dora to the Wekiwa river is completed. It will then be up to Seminole county to put shoulders on their 8-foot brick road from the river on to the Deland turn, and when that is accomplished we will have a fine road from Mount Dora to Sanford, which will do wonders to develop the country in between these two thriving cities.

COOLIDGE SPEAKS

Continued from page 1.

of the Treasury which has my unqualified approval. A very great service could be rendered through immediate enactment of legislation relieving the people of some of the burden of taxation. Of all services which the Congress can render to the country, I have no hesitation in declaring this one to be paramount."

The President prefaced his message with a tribute to President Harding, declaring "the world knew his kindness and his humanity, his greatness and his character," and that "he has made justice more certain and peace more secure."

"He is gone," Mr. Coolidge said, "We remain. It is our duty under the inspiration of his example to take up the burdens which he was permitted to lay down, and to develop and support the wise principles of government which he represented."

From this basis the President then launched upon his recommendations which, in addition to those relative to taxation, world court, transportation and soldier, legislation included: Government operation of the war-built merchant marine until shipping conditions are such as to allow it to be disposed of advantageously.

Strengthening of the Coast Guard to combat rum smuggling; rigid regulation of the major sources of liquor production; suppression of interstate traffic in liquor and promotion of respect for law.

Continuation of the policy of restrictive immigration, with immigrants to be selected abroad, and the immediate registration of all aliens. Strengthening rather than weakening of the army and navy, with additional airplanes for the army; more submarines for the navy, and increased defenses for the Panama Canal.

Action under private ownership of coal mines that will obtain greater continuity of production and greater public protection against "unbearably high" prices along the lines of the recommendations laid down by the Federal Coal Commission.

Relief for the farmer through lower taxes and freight rates; cheaper fertilizers, greater organization which would permit reduction of the wheat acreage; diversification of farming; encouragement in the formation of co-operative marketing organizations; continuation of government loans, and assistance in exportation through the War Finance Corporation.

Sale of Muscle Shoals together with a location for an auxiliary steam plant and rights of way for a power line so that the agriculture of the nation may get greater supply and lower cost of fertilizer, with the sale price of the properties not a major consideration.

Anti-lynching legislation, additional appropriations for vocational training in agriculture for negroes, and creation of a commission of whites and negroes "to formulate a better policy for mutual understanding and confidence."

Extension of Civil Service to the prohibition enforcement field forces exclusive of the members of the present force and placing in the classified civil service of postmasters of the first, second and third classes.

Opening of intra-coastal waterways; control of the flood waters of the Mississippi and Colorado Rivers; construction of the Great Lakes-St. Lawrence waterway and power project, and promotion of the super-power development of the Northeastern state.

Creation of a commission of judges and lawyers to simplify federal court procedure.

Limitation on child labor through constitutional amendment.

Regulation of highway construction and reforestation.

Relief to occupants of reclamation projects by empowering the Secretary of the Interior to suspend, readjust and reassess all charges against water users.

In addition to these and a score more of recommendations, relatively of less importance, Mr. Coolidge discussed foreign debts, declaring himself against cancellation and for a reasonable adjustment in accordance with the principle adopted for the British debt, and announced he would oppose recognition of Russia so long as the ruling regime refuses to recognize the right of private ownership and the debt contracted by Russia after the overthrow of the Czar.

Who gets Wight's Ford?

AMUSEMENTS

AT THE MILANE.

The Stetson Glee Club, accompanied by the Stetson orchestra, will give an entertainment at the Milane tonight for the benefit of the Brotherhood of St. Andrew. There will be more than 100 voices in the chorus and the management of the Milane is furnishing the theatre without cost for the benefit of the organization.

BIDS FOR \$160,000 BOND ISSUE ARE TO BE OPENED DEC. 12

Important Issue Includes Provision for Golf Course, Athletic Field and Sewerage Extension

The \$160,000 bond issue for the city of Sanford which was voted upon and passed on October 9, will be offered for sale next Wednesday, December 12, it was announced today.

This issue of bonds is to provide funds as follows: \$40,000 for purchase of the 9-acre golf course which at present is owned by the Sanford Country Club, \$35,000 for the construction of an athletic field, \$70,000 for the extension of the sewerage system and \$5,000 to reimburse the city for money advanced to purchase the library site.

It is believed that there will be a number of bidders for this issue number of bidders for this issue bonds will bring a good price. A peculiar fact about the recent election which was carried by a large majority was that in both ballot boxes provided for the election the vote was carried 3-1. Two ballot boxes were necessary in order to make the election valid. The state law on the subject states that only freeholders should vote while the Sanford charter states that every voter may cast a ballot. In order to clear the matter of any legal entanglement, two votes were taken with the result that both were carried by the same ratio.

As soon as the money is available following the purchase of the bonds, steps will be taken immediately to carry out the program mapped out by the city for the acquiring of an athletic field, golf course and the extension of the sewerage system.

LATE WIRES

(By The Associated Press)

BERLIN, Dec. 6.—The Reichstag voted articles first and second of the government's full power bill separately and then the Nationalists announced that before the bill as a whole was put up for vote they would leave the Reichstag. A discussion ensued as to whether the final vote should be postponed.

BRADENTOWN, Dec. 6.—Rev. Isaac C. Jenkins, of Gainesville, was elected secretary of the Florida Methodist conference, which opened formally today. Bishop Almsworth presiding. Submission of various committee reports occupied a large part of the session.

INDIANAPOLIS, Dec. 6.—Governor McCray's retirement from office will be sought as a result of his involved financial affairs, Clyde Walb, state chairman, declared, after a number of conferences with party leaders.

NEW YORK, Dec. 6.—William J. Jackson, of San Antonio, Texas, former secretary of the Ajax Rubber Company, who was indicted last Tuesday on charge of stealing stock certificates with face value of \$175,000, has returned to town and will surrender this afternoon to district attorney, his counsel said.

Among the many suggested remedies for seasickness is the drinking of a glass of sea water.

Company D. Receives Turck Loving Cup

At its regular weekly drill formation held on Monday night, Company D, Florida National Guard, was presented on that occasion by the donor, Col. Raymond C. Turck, of Jacksonville, commander of the 154 Florida regiment.

The cup given for the highest company marksmanship in machine gun firing, is to become the permanent possession of the first company in the regiment, that wins it for three years. In 1921 during the summer encampment, the Sanford Company won the award. The following year it went to company H., of Lake City and last year was again won by company D, of this city.

Should the Sanford company win it again next year, it will come into permanent possession of the cup. Joe C. Hutchinson, captain of D, company, believes that Sanford will win the award next summer.

This Feed Makes Heavy Pullers

For more than fifteen years successful team owners in the South have pinned their faith to

Old Beck Sweet Feed

Experience has proven it to be the feed which perfectly supplies the energy and power for heavy pulling teams. It's just good corn, oats, alfalfa and molasses.

Old Beck is now of bright green color due to using a special sugar cane molasses which is better than either blackstrap or beet syrup. It won't get sour.

It is made by Edgar-Morgan Company of Memphis. We sell it. Phone or call for prices and the latest advice on feeding.

BIBLE THOUGHT FOR TODAY: SEEK TODAY—Seek ye the Lord while he may be found, call ye upon him while he is near.—Isiah 55:6.

Miami and St. Petersburg are flooded with tourists. Sanford should be ready to take care of the overflow.

Considering the state of Germany's finances there is something perfectly appalling in selecting a chancellor named Marx.—New York Tribune.

The dispatches say that Coolidge will base his race on his record alone. Now wouldn't that be a baseless thing to do?

Every man wants the top down when he rides in an automobile. Every woman wants it up. You almost never see an automobile with the top down.—Ed Howe.

There have been just enough announcements for the gubernatorial race to make the vote dangerously divided. The winner may be a dark horse or a black sheep.

Keep a record of all the improvements being made in Sanford. Can you realize what they all mean to this city? With a yacht basin, larger docking facilities for the Clyde Line, improved lake front, how fast will this city grow?

Lake County is doing the wise thing by employing an engineer to keep up their road system. It's poor policy for a county to spend a fortune on good roads and then let them take care of themselves.

The Orlando Reporter-Star pays a compliment to R. J. Holly and Forrest Lake when it says: "On the north Orange county is lauded by Bob Holly and Forrest Lake. Bob is not only the man who discovered Seminole county, but he, too, is a man of letters and a word caricaturist who could even paint beauty into celery fields, and by his argumentative force bring lettuce to a head. Forrest-Lake put Seminole county on the map after Bob Holly discovered it. But both of them love to come to Orlando, the metropolis of south central Florida."

Here's the collection to date. Can you add to it? I envy Adam For his Eve; She never giggled In her sleeve.—St. Augustine Record.

I envy Noah For his ark; It never lacked A place to park.—Macon Telegraph.

I envy Balam For his ass; He never had to Buy it gas.—Tampa Tribune.

And Moses, how I Envy him, When Pharaoh's daughter Came to swim.—R. H. T.

I envy Cleo For her barge; She never faced A speeding charge.—Hyde Park Girl.

I envy Ben Hur For his four; He never had to Slam the door.—Another H. P. G.

And Paul Revere You must admire; He never got a Busted tire.—Jacksonville Times-Union.

And there's Quixote With his nag; He never bought a License tag.—Tampa Tribune.

And Androcles, Whose faithful lion A rug would make For me to lie on.

Law Factories Expensive

Senator Arthur Capper of Kansas is reported by the Times-Union to be out of patience with the law factories of the country "working over time," and figures are given to show that 179,908 new laws have been proposed to congress during the last sixteen years and that 132,000 new laws have been enacted by congress and state legislatures during this period.

The cost of this legislation is figured at four billion dollars per year, a large sum for the tax payers to pay. Senator Capper says:

We are the greatest law-creating nation in the world, and at the present time, perhaps, are the least law-abiding. The one fact may in a measure be the reason for the other. As a further consequence, every tenth person in the United States, we are told, holds some kind of a federal, state, county or local job. Largely on account of the multiplicity of laws and the effort to enforce them, we are taxed four billion dollars a year to pay the salaries of public officials. Which should indicate to us that the more expensive of the two processes is the enforcing, not the making, of laws. Better enforcement of the laws we have, and far fewer new laws is another and most potent way to save the taxpayer's money and to enjoy more efficient government.

Taxpayers will agree with the senator but just the same this congress will not doubt pass hundreds of laws. The next state legislature will do likewise and the taxpayer will pay the bill.

Law enforcement should be the serious question for consideration today, but just how far will this congress go in this direction?

Protect Your Signature

Several days ago The Herald published an Associated Press dispatch giving a story of the high cost of forgery to the United States and the information also that Florida stands near the top of the list in numbers of forged checks passed.

Swindlers are organized on a nation-wide basis and business men should be most careful in protecting themselves. Confidence men and wire-tappers are likewise organized and are active in Florida during the "season," working hand in hand with forgers.

The depositor, not the bank is responsible when forgers occur. The banks are however warning their clients with statements such as the following recently sent out by a New York bank:

Lock up blank checks and cancelled vouchers. Write checks with safety ink or with checkwriter that shreds and impregnates the paper with the amount in acid-proof ink in two colors.

Start the written amount of check as close as possible to the left hand margin, drawing heavy parallel lines through unfilled space, and a minimum of space between figures. Use only alteration-proof check paper. Destroy all checks marred in drawing. Never issue checks to unvouched for strangers, or to "cash" or "bearer."

Do not sign blank checks. Scrutinize all certified checks. Be careful how and where you sign checks. Endorse checks you deposit to the order of bank of deposit, making it impossible for them to be checked by a thief without alteration.

A little precaution which soon becomes routine may save you a great deal of trouble—and money.

THE GOVERNMENT will not be doing right by the Nation or by the farmers if it does not give Ford a chance to develop Muscle Shoals and the fertilizer plant which is needed to smash the Fertilizer Trust—one trust we should not tolerate a moment longer. Ford is the one man in the world best prepared to do this, and the only man who has offered to do it. The Government's duty is plain.—Exchange.

THE PROTECTION of American labor against the injurious competition of foreign labor, so far, at least, as respects general handicraft productions, is known historically to have been one end designed to be obtained by establishing the Constitution; and this object, and the constitutional power to accomplish it, ought never in any way degree to be surrendered or compromised.—Daniel Webster.

Tax payers are interested in Secretary Mellon's proposal to make a sharp reduction in the income tax schedule for the coming year, although it is stated in some quarters that this matter is being used by the administration to beat the bonus.

"I LOVE peace and am anxious that we should show the world other modes of punishing injuries than by war, which is as much a punishment to the punisher as to the sufferer."—Thomas Jefferson.

WHEN THE INTELLIGENT, the patriotic, the well-to-do, as well as the plain people, face the real issue. When they see whither we are tending in making fun of the (prohibition) law and of its violations, I believe we shall rouse ourselves and create a public opinion through self-discipline.—Chief Justice Taft.

As the Stars Come Out

Palm Beach Post

The stars take added luster these fine December nights. East or west, north or south, it seems that Nature in her contemplative mood when first she chose the garments that the earth should wear in her recurring seasons, provided that as one passed by a new-seen glory should delight the eyes. And so it is that in declining days that shorten quickly when the equinox of all is past, when all the jesting humor of flowers turns sad over much of the land, stars come early and stay late and all the while they wear a blaze unnoticed on a Summer's night. Pleasant it is to watch the sun go down, to see the richness of the western sky that waning daylight makes, to understand that down the slope the sun is coming up, and that the morning beam is someone's evening good-bye.

As morning breaks, it is the time to rouse and stir; but in the paling day, when countless numbers of the starry vast burn through Night's pitchy roof, it is a time of rest, of thought, of ponder and of retrospect. Each day the gold of Croesus melts; each day the silver and the polished brass, the turquoise and the emerald, the rosy red of ripened rubies and the opal's orange, meet somewhere in the west, and melting, run down the earth's horizon. Somewhere strain they gather for the evening star has seized upon the gold, the slender crescent all the silver wears; and Night, crystallizing the flower cryons at the rainbow ends, scatters them in jewels of every color that a gem has known.

The stars come out exultant in their luster, flashing their diamond rays, flaring like beacon fires upon the mountain top and soothe the soul to restful reverie. It kindles up the embers of dying youth; it tunes the mind of memory to recollections old. If you will listen you may hear the orioles at vesper song, and hear the hum of the homing honey bees back from their orchard search of blossomed sweets.

There is a cabin in the woods; and from its ridge's crest floats out the whip-poor-will's sad dirge of dying day. It makes you better, as the days go by, to watch the stars come out. It makes you better as the flowers fade to know that as they die, their hues are gathered up and added to the stars, the moon, the evening's color scheme.

It makes you better to recall the memories that you thought were dead, to realize that nothing dies, to know because you know, that while all things must fade, the END OF LIFE, just like the end of some fair season's day surrounded by the richest skies, is but our sun's Good Night the while it waits to bid Good Morning on some fairer shore.

Where Do You Stand?

Asheville Citizen

American citizens who refuse to take seriously the efforts of Federal and State Governments to enforce the prohibition laws will find material for sober thought in Commissioner Haynes' report on the number of officers killed and injured while attempting to uphold the law. In 15 months ending with September 13, 15 prohibition agents lost their lives and 58 were wounded in battles with blockaders and bootleggers.

Fifteen men went to their deaths in line of duty against the virtual rebellion of other citizens against the law of the nation; they gave their lives for freedom and self-government, although their sacrifices were made in time of peace.

Are you giving aid and comfort to open enemies of your town, city, state or National Government? You may believe that the prohibition amendment is a bad law and that the Volstead Act should be amended. But, until it is amended, the line is clearly drawn between those who stand for law and those who resort to lawlessness. On which side of the line are you?

Railroads Working up "Sentiment"

Capper's Weekly

Although they continue to make a poor mouth and say they really can't help anybody, the railroads will make enough this year to pay 8.9 per cent on every share of stock they have outstanding, if business continues as good for the final months. That is what their reports to the Interstate Commerce Commission indicate. At the same time the carriers are spending a quarter of a billion dollars more for maintenance than they have ever spent before in the same length of time. And still the roads are leaving no stone unturned to fasten their excessive rates on the public for a long time to come, if not indefinitely.

Large and small-town chambers of commerce are being asked by the roads to pass a prepared set of resolutions in which this paragraph contains the real milk in the cocoanut: "We believe that the present act of Congress, known as the Transportation Act, has not been given a sufficient trial, and that it is the belief of this chamber that a trial of at least two years more should be given before any material amendments to the act are made."

Business men are told they are in real danger of having government ownership thrust upon them if they do not sign these resolutions on the dotted line and mail copies to their representatives—that serving as well as any other bogey.

But what the trustful commercial bodies, which amiably add up these resolutions, fail to see apparently is that by subscribing to them they are signing up for two more years of higher-than-war freight rates and at the same time are giving their tacit approval to a continuance of the so-called guaranty clause of the act, section 15-A, by which these high rates, based on a very liberal valuation, are maintained.

This is a slap in the face for every country town's best customer, the farmer, who at terrible sacrifice to himself has for nearly three years paid these excessive rates to ship his less-than-cost products to market, when he could actually save money by letting them rot. He has done this to help the railroads to their feet which now are so reluctant to help him.

Chambers of Commerce with interest in the welfare of the town's best customer—the farmer—will not become cat's-paws to drag railroad chestnuts out of the fire.

Friday is one of the seven days on which it is considered unlucky to buy too much stuff on credit. Dancing develops the muscles. That's settled. Now if it would only develop discretion.

In this auto age the hen may cross the road because she is despondent over continued bad health. For quick results try a want ad. Read the Want Ads regularly. Try a want ad—they get results.

State Press Comment

Orlando Reporter Star: When Orlando reads of the total loss by fire, in Sanford, of the Church of the Holy Cross, with its handsome parish house and rectory, the entire town will unite in sympathy with Father Peck and his mother, for both are well known here, and both have many friends won by their wonderful mesmeric natures.

Father Peck is a man whom all respect and honor and many deeply love, and his mother is enshrined in every heart, for there are few women who give love and receive love as she does.

Mrs. Peck was an illustration of the lavender and old lace, for her charm was set off by her surroundings of ancestral heirlooms that antedated the Revolution. Her mahogany paintings and collection of china are not rivalled in the state; indeed, few museums have their equal. Some of these priceless things were saved, but many were lost in the flames.

Mrs. Peck is eighty-two years old and in spite of the fact that she carries her years like a crown of glory, she is feeble, and this loss of her treasures as well as the nervous shock will tell heavily against her.

The sympathy of the entire state will be with Father Peck and his mother, and with all the Episcopal community of Sanford in this terrible loss, a loss that may and will be made good to the church, but which is irreparable to Father and Mrs. Peck, for their loss is of the things they have treasured from youth up, as they were treasured by a long line of ancestry before them.

These shortest days are the longest to the boy waiting for Santa. A brisk demand for whiskbrooms will be the natural result of drinking holiday bootleg.

It is estimated 45,000,000 people will stumble over toys on the floor this Christmas. A manicuring set is a good gift even if you don't know what all the funny looking things are.

A scuttle of coal is a nice Christmas present, but too expensive. Coal is getting so heavy some dealers think 1900 pounds make a ton.

Doesn't take much more than three feet to make a coal yard. Thousands of people will get strong and healthy this winter exercising to keep warm.

The human race is getting so fat it is a regular balloon race.

SOCIAL CALENDAR

Friday—Salle Harrison Chapter, D. A. R., will give benefit card party at Woman's Club, at 3:00.

Saturday—Cecilian Music Club meets at the Studio of Mrs. Fannie S. Munson, on Myrtle avenue, at 3:15 p. m.

Monday—Westminster Club meets at the home of Mrs. E. D. Brownlee, on Palmetto avenue, 3:30.

Monday—St. Agnes Guild meets at the home of Mrs. Raymond Key, on Park avenue, at 3:30 p. m.

Monday—The monthly meeting of the Holy Cross Parish Guild will be held at the residence of Mrs. M. Martin, at the Comfort Cottage, Monday at 3 p. m. A large attendance is desired.

THOUGHT FOR THE DAY
 "I would be true, for there are those who trust me;
 I would be strong, for there is much to suffer;
 I would be brave, for there is much to dare."

"I would be friend to all—the foe—the friendless;
 I would be giving and forget the gift;
 I would be humble, for I know my weakness
 I would look up—and laugh—and love—and lift."

It is a good safe rule to sojourn in every place as if you meant to spend your life there, never omitting an opportunity of doing a kindness, or speaking a true word, or making a friend.—Ruskin.

The responsibility of tolerance lies with those who have the larger vision.—George Eliot.

Green ways or gay,
 Labor or play,
 There's sweetness somewhere
 In each passing day.

—Anon.
 Mrs. Alice Landman, of St. Petersburg, is the charming guest of Mrs. Fred Walsma, at her home on Cameron avenue.

Heights and Nellie Turner Circles hold Bazaar Friday and Saturday near First National Bank.

Mrs. R. J. Holly will motor to Orlando this evening and will chaperon the S. H. S. girls, who play Orlando High school tonight.

John Leonard left yesterday for a business trip in the southern part of the state. During his absence Mrs. Leonard is the guest of Mrs. B. J. Starling.

Mrs. Henry B. Purdon and little daughter, Louise, are expected to arrive this afternoon after an extended visit in Waynesboro, Ga., as the guest of her father, John Mount and sister, Mrs. Jack Hewitt.

The many friends of Mr. and Mrs. Walter Wight and family will be interested to learn that they have returned to Sanford and have rented the Savage home on Park avenue. Mrs. Wight has as her house guests, her mother, Mrs. S. D. Chittenden, and Mrs. Van Duzee, of Cairo, Ga.

The result of the Lakeland-Hillsborough football game in Tampa this afternoon will be announced by the Herald right after the game. A bulletin will be posted in front of the office. This will be free to all and every one is invited.

In Turkish Society

New photo of first and second ladies of Turkey. Standing is wife of President Mustafa Kemal, and seated we see Galibeh Hanoum, Turkish writer, wife of the president of the Turkish Assembly. One will have too long and hard to find two more beautiful women.

EVERY WEEK BRIDGE CLUB

Mrs. L. P. McCuller was the charming hostess yesterday afternoon, when she entertained the members of her bridge club at her home on Ninth street, there being two tables of players.

Lovely vases of Coleandulas and roses combined with greenery were effectively used in the rooms where the card tables were placed.

Of exceptional interest was the game of bridge played during the afternoon. The prize for high score, an attractive hand-bag, was won by Mrs. Raymond Key.

Following the awarding of the prize, Mrs. McCuller served a tempting salad course, followed by an ice course.

Mrs. John Sneed and Miss Katherine Wilkey acted as substitutes for absent club members. Club members present were Mrs. Raymond Key, Mrs. W. J. Thigpen, Mrs. G. F. Smith, Mrs. A. M. DeForrest, Mrs. James G. Sharon, and Mrs. Walter Wight.

NEELS AT SARASOTA.

The friends of Mr. and Mrs. Harry Neel, will be interested to learn that they have decided to make Sarasota their home. It is with sincere regret that we bid these people good-bye, but wish them every success in their new home.

Mr. Neel was business manager here for the Sanford Herald, and now holds a similar position with the paper at Sarasota. They have rented their home here to Mr. and Mrs. J. M. Dawson, the former being the advertising manager for the Sanford Herald.

ENTERTAINS AT DINNER.

Mrs. G. Harry Baumer was hostess Thursday evening at a birthday supper, at the Welaka Apartments, entertaining in honor of her mother, Mrs. R. Columbus Keen. Covers were laid for eight.

DEPENDABLE CLASS MEETS

The regular monthly business meeting of "The Dependables" was held Tuesday night at the beautiful home of Mrs. Harman Middleton.

The meeting was called to order by the president, Miss Marion Hand. Plans were made and committees appointed for the Bazaar the 14th and 15th of December and the "Dependables" will have the most attractive candy booth ever seen at a bazaar. The meeting was turned over to the hostess who, assisted by her mother, Mrs. Hart, served delicious nut loaf cake and hot chocolate.

The time came too soon to say "good night" and all voted, Mrs. Middleton an ideal hostess and hope to have this pleasure again very soon.

Methodist Missionary Meeting

The business meeting of "Woman's Missionary Society" was called to order by Mrs. D. A. Kelly, president.

After singing "Blessed Assurance" Mrs. A. V. McGuin then took charge of the "devotional" and gave a beautiful word picture of the 23rd Psalm. Mrs. L. R. Phillips led in prayer. The regular order of business was taken up, followed by the annual election of officers.

The following are the officers for the year 1924: Mrs. G. W. Spencer, president; Mrs. J. D. Parker, vice-president; Mrs. U. P. Fields, treasurer; Mrs. Ben Munroe, recording secretary; Mrs. A. D. Shoemaker, corresponding secretary; Mrs. Jno. Sneed, superintendent Juniors; Mrs. S. O. Shiholser, superintendent Social Service; Mrs. H. H. Chappel, superintendent Study and Literature; Mrs. L. Allen, superintendent supplies; Mrs. W. S. Thornton, local superintendent; Mrs. Eugene Higgins, local treasurer; Mrs. McCauley, agent for the Missionary Voice.

The meeting closed by all repeating the Lord's prayer.

Mr. and Mrs. Victor Check are spending today at Daytona the guests of Mr. and Mrs. Tommy Mullen and The Sparks circus.

The Mullins are northern intimate friends of the Checks and expect to return to Florida by the winter months.

Mrs. L. F. Buttolph and baby, leave this afternoon for Miami, where they will join Mr. Buttolph and make that city their future home. Mr. and Mrs. Buttolph have scores of friends here, who regret their leaving Sanford, but wish them every future happiness in their new home.

OSCEOLA ITEMS

Mrs. Thompson entertained her sister, Mrs. Clark Corwin, at a dance Friday.

Mr. J. J. Frith was called away Monday to the bedside of his sister, at Perry, Fla.

Mr. and Mrs. R. D. Sedwick have moved into their new home on Pine street.

Mrs. Ed Fletcher left Monday, to visit her parents at Perry, Fla.

Mr. J. William Halt and Mr. Munson Doremus, of Newark, N. J., are visiting Mr. and Mrs. Feitner on the

SELLING WHILE IN TRANSIT CARLOTS OF FRUIT AND VEGETABLES
 F. O. B. LOADING POINT, ON GOVERNMENT INSPECTION

Why Should Oranges and Grapefruit BE SOLD F. O. B. IN A NATION-WIDE AUCTION?

When a grower pays the fertilizer bills—pays the spray bills—pays the fumigation bills—pays the labor and irrigation bills—and takes his chances on the weather—it seems like he has his fair share of risk!

Why should he be asked to take chances on delay—decay—freezing in transit—deterioration—market decline—and finally perhaps be forced to pay the freight?

Every car sold by the National F. O. B. Auction is sold strictly F. O. B. Every car carries Government Inspection Certificate. Every buyer knows when he buys he has no comeback—no chance to "kick over" the car. A \$5,000,000.00 insurance policy guarantees he will accept the car!

In addition to the F. O. B. feature the National F. O. B. Auction offers a nation-wide competition for every car. No other system of selling can possibly place you: car before so many buyers at once—all bidding on every car at the same moment over the National F. O. B. Auction's private leased wires extending from coast to coast.

Cash returns are made direct—the real money is handed to shipper 48 hours after car is loaded.

Does your shipper use the National F. O. B. Auction?

"FIGHTING 'GATORS" RANKED SECOND BY ED DANFORTH BECAUSE OF LAST VICTORY

By ED DANFORTH

SPORTS Editor, Atlanta Georgian. ATLANTA, Ga., Dec. 7.—As far as producing an outstanding Southern Conference the season which died Saturday was not a howling success. Alabama, the fairest flower of the lot, stumbled on the last hurdle and in losing to the University of Florida showed clearly that theirs was not the title. Florida nipped Alabama just at the wire and proved the claims of Gainesville folk that they had a real football team were not unfounded.

Vanderbilt, Florida, Georgia Tech and Washington and Lee beaten by "outsiders" were undefeated by a conference foe. Each has blots on its record. Vandy lost to Texas University and barely defeated Sewanee on Thanksgiving. Right at home, too, the Commodores were held to a scoreless tie by the Mississippi Aggies.

Florida allowed Georgia Tech to batter through their defense for a tying touchdown after they had held an early lead of seven points due principally to an intercepted forward

pass. The 'Gators unfortunately were not provided with a stiff conference schedule and their mid-season games with "soft" opposition did not help the team a bit. They came back into the race and met the Mississippi Aggies, a fast coming aggregation which just had tied Vanderbilt and by its sheer fight Florida managed to tie the Farmers, 13 to 13. This game put them in shape and Thanksgiving they defeated Alabama convincingly.

Tech Had Queer Season. Georgia Tech had a queer season. The club was the best defensive aggregation the South produced, but lacked a sustained punch on attack. However, they defeated one of the finest teams in the conference, V. M. I., and were tied by Florida, Alabama, Kentucky and Auburn. Four tie games is remarkable, especially in view of the difficult schedule undertaken. Tech never had a let-up from start to finish. They were forced to point for every week-end. The difficulty of their schedule warrants more consideration than many of the others.

FLORIDA TRACK AND FIELD ATHLETES WILL TRY OUT FOR OLYMPIC GAMES NEXT MAY

WINTER PARK, Fla., Dec. 7.—Athletes who will represent the United States of America in these branches of sport," and adds that the A. A. U. will do its part to insure the fairest and most efficient selection possible. Those qualifying in the sectional contests will be put to a further test in tryouts to be held at the Harvard stadium June 11, 1924, Mr. Greene says, to the end that every possible contender for the American Olympic team may have an opportunity of making his place on it and a widespread "participation in the Olympic games may result." Every association in the A. A. U. will hold preliminary tryouts in their respective territories at a time not later than June 7.

"It occurs to me," Mr. Greene says in his letter to Professor Wilbur, "that our High School coaches as they train their teams for the track and field meet to be held at the University of Florida; the Aquatic Meet to be held at Rollins College and the Tennis Meet to be held at Stetson University might bear in mind that Florida might furnish some material for the Olympic games. State records are lowered each year and officials at these meets will be able to determine whether or not any of these contests of the Florida schools would be possible contenders."

Mr. Greene suggests that sport lovers in Florida should "do everything in their power to discover promising material," and requests Professor Wilbur to urge, in his correspondence with high school principals and coaches throughout the state, that they "use every available means to discover any boys or girls who may be able to qualify for the coming tryouts."

"On To Orlando" Is Slogan Sanford High

All the yellin', hootin' and hollerin' will begin tonight when the girl's basketball team sets sail for Orlando, to play the Memorial High girl's team. Of course all the boys are going, too. They couldn't miss it for anything! Just think, Sanford High's Girl Basketball team undefeated so far this season. And going to Orlando to meet the girl "Tigers!"

Yep, it's a fact, the girls of Sanford High are going to meet the girls of Memorial High in Orlando! Sanford High has one of the best girl's basketball teams this year that she has ever had. They are full of pep, good experienced players, with the "do or die" slogan on their lips. So look out Orlando!

A big cheering squad will accompany the team to Orlando tonight (in company WITH the chaperones) and everybody might as well count on a

big time. Sanford High's cheering squad has some very good yells and combined with the classy playing of the girl's quintet, a victory can be looked for tonight.

GAINESVILLE, Fla., Dec. 7.—Gaining consistently around the end positions, the freshmen yesterday afternoon triumphed over the seniors by a 12 to 0 score in the second of the final inter-class grid games now being staged on Fleming Field under the supervision of Dr. R. G. Manchester, director of minor sports.

George Merrin was the victors' individual star, the speedy young quarter dashing around the outer posts for telling gains. The "near-grads" were forced to play a defensive game throughout, holding the yearlings gridders well during the second and third quarters.

By virtue of their win yesterday the freshmen meet the juniors on Thursday to decide the inter-class grid title for '23.

Star Quarterback of Florida Team Is Great Athlete

Edgar Jones Excels in Three Major Sports—Product or Duval High.

GAINESVILLE, Fla., Dec. 7.—Charles Edgar Jones is a name that will be foremost in the annals of Florida's history till the end of time. As a quarterback, he was one of the varsity grid team's best in this, his sophomore year, and is a three-sport man. His 175 pounds is packed in solidly, and his sturdy body is topped with blonde hair.

Jones is a product of Duval (Jacksonville) High, where he excelled in football, basketball, and track. He played football there for three years, and performed spectacularly at half on Duval's great 1921 undefeated team, conquerors of Steele High, the Middle Western and New England champions.

Last year Ed made a name for himself on the Florida "rat" team, champions of the South. He con-

Florida Football Squad Will Name Captain Soon

GAINESVILLE, Fla., Dec. 7.—Florida University will elect its 1924 football captain at the annual banquet at the White House in Gainesville next Tuesday, it was reported in athletic circles here this afternoon. Letters will be awarded at this time. President A. A. Murrephy will be host to the gridders on this occasion.

tinued his brilliant performance in football, and in basketball was captain and manager of the freshman team. In the dashes, high hurdles, and shotput he he carved his name in track records.

In his first varsity season he was shifted from half to quarter, and has won the team like a veteran, keeping a cool, clear head even in the tightest places. His open field running is beautiful, but he is just as apt at hitting the line, passing, kicking, or interfering. He was regular punter last year on the freshman team, but an injured knee has stopped his kicking temporarily. He is expected to show an even better game next season.

This Valuable Book FREE! This valuable, interesting, compelling book will be sent absolutely without charge or obligation on your part. It tells, in plain language, how vegetable growers can increase their profits. Tells how to dispose of goods in a market that consumes 8,415,200,000 lbs. of food stuffs annually. Explains selling methods employed by most of the large shippers. Tells how some concerns increased sales 200% or more. Points out how to receive the full market price for your vegetables. Explains how to get your money within twenty-four hours after sale. Tells how to eliminate rejected cars, etc. More Dollars for Fruit Growers is the title of this interesting book. It is a veritable encyclopedia on the subject of selling farm products. No matter whether you are a grower, a shipper, a receiver or a dealer, you will find this as instructive as a text book. Our only reason for sending this book without charge is because it also tells why public sale is the best method of disposing of your goods. This edition is limited. A RESOLUTION PROVIDING FOR THE PAVING, RE-PAVING, HARD SURFACING AND RE-HARD SURFACING OF PALMETTO AVENUE A WIDTH OF 24 FEET FROM FIFTEENTH STREET SOUTH TO CENTRAL STREET.

Whereas, the City Commission of the City of Sanford, Florida, deems it advisable to improve, grade, construct, re-construct, pave and re-pave with vitrified brick or other hard-surface material the following street in the City of Sanford, Florida, to-wit:

PALMETTO AVENUE: From Fifteenth Street South to Central Street.

All of said improving, grading, construction, re-construction, paving and re-paving to be done in compliance with plans, specifications, profiles and estimates of said proposed improvement of Palmetto Avenue from Fifteenth Street South to Central Street, now on file in the office of the City Manager of the City of Sanford, Florida, which said plans, specifications, profiles and estimates have been heretofore approved by the City Commission and constitute the plans and specifications for said work, therefore,

BE IT RESOLVED, That the City Commission of the City of Sanford, Florida, deems it advisable, as a necessary public improvement, to pave, re-pave, hard surface and re-hard surface with vitrified brick or other hard surface material, Palmetto Avenue from Fifteenth Street South to Central Street to a width of 24 feet; that all of said paving, re-paving, hard surfacing and re-hard surfacing of Palmetto Avenue, as aforesaid, shall be done in strict compliance with the plans, specifications, profiles and estimates therefor, now on file in the office of the City Manager of the City of Sanford, Florida, which said plans, specifications, profiles and estimates have been heretofore approved by the City Commission and constitute the plans and specifications for said proposed improvement of Palmetto Avenue between Fifteenth Street and Central Street, a width of 24 feet, and this Commission hereby declares the necessity for the paving, re-paving, hard surfacing and re-hard surfacing of said portion of Palmetto Avenue as aforesaid, as a necessary public improvement.

BE IT FURTHER RESOLVED, that a total expenditure not exceeding Eight Thousand Seven Hundred and Seventy (\$8,770.00) Dollars, is hereby authorized to cover the cost of paving, re-paving, hard surfacing and re-hard surfacing Palmetto Avenue between Fifteenth Street and Central Street, a width of 24 feet, which said sum of Eight Thousand Seven Hundred and Seventy (\$8,770.00) Dollars, is the total estimated cost of said improvement; that the entire cost of the improvement aforesaid, shall be assessed against all property abutting and fronting upon that portion of Palmetto Avenue be-

Joining and contiguous or bounding or abutting upon said improvement; the sum of \$4,650.8 is the estimated cost per front foot for said improvement.

BE IT FURTHER RESOLVED, that it is the determination of this Commission that all lots and lands adjoining and contiguous or bounding and abutting upon Palmetto Avenue between Fifteenth Street and Central Street will be benefited by the improvement provided for by this resolution, and that the special assessments to be made and entered against all lots and lands adjoining and contiguous or bounding and abutting upon such contemplated improvement shall be made upon a foot frontage basis. That is to say, that in the preparation of the special assessment roll covering the contemplated improvement, such special assessments shall be determined and prorated according to the foot frontage of the respective properties specially benefited by said improvement.

BE IT FURTHER RESOLVED, that the Tax Assessor and the City Clerk of the City of Sanford, Florida, in accordance with the provisions of Section 101 and 102 of the Charter of the City of Sanford, Florida, shall proceed without delay to make a special assessment roll, assessing the special benefits to be received as the result of the improvement contemplated against all lots and lands adjoining and contiguous or bounding and abutting upon such improvement, and upon the completion of said assessment roll to cause a copy thereof to be published two times consecutively, once each week in a newspaper published in Sanford, Florida, attaching to said special assessment roll so published a notice directed to all property owners interested in said special assessments, stating in accordance with the provisions of the

Charter of the City of Sanford, Florida, a definite time and place where complaints will be heard and when said special assessment roll will be finally confirmed by the City Commission sitting as an Equalizing Board.

BE IT FURTHER RESOLVED, that the special assessments provided for by this resolution to be made and entered against the property bounding and abutting upon said improvement shall be payable at the option of the property owners owning property bounding and abutting upon such improvement as follows: either in full within thirty days after said assessments shall stand equalized, approved and confirmed, or in ten equal annual installments with interest at the rate of eight per cent. per annum upon all deferred payments from and after the time said special assessments shall be and stand finally equalized, approved and confirmed, and,

BE IT FURTHER RESOLVED, that this resolution shall be and become effective immediately from and after its passage and adoption.

Adopted this 26th day of November, A. D. 1923.

VAN FLEET WILL REMAIN
GAINESVILLE Dec. 5.—Great satisfaction is felt here over the unofficial information that Major J. A. Van Fleet, who has led the victorious University of Florida 'Gators' this season, probably will remain here through next season. He has been

here three years and before coming to Florida was with the Kansas 'Aggies' for one year, but it is understood that through an arrangement whereby army officers are allowed three months vacation after four years duty, he hopes to coach the 'Gators' again next fall.

BIG REDUCTION

Continued from page 1.

To general business aspects Mr. Mellon directed the comment that improvement from the 1921 depression had been noted for a year. Sufficient credit at reasonable rates had been available through banks, and he concluded that present activity presented the appearance of being "sound and stable." The failure of agricultural sections to share in the betterment, however, was noted.

Federal land banks, the Secretary said, had loaned \$214,712,000 during the year on land mortgages. Their total of loans outstanding was placed at \$789,703,104, while farm land associations, through which their business is primarily conducted had increased in number during the fiscal year from 4,388 to 4,538.

Taking up the liquor question, Mr. Mellon said that the nation which formerly had consumed 130,000,000 gallons of whiskey a year, had now in bonded warehouses only 35,000,000 gallons altogether. Withdrawal from the supply during the past year was only 1,700,000 gallons. The Treasury's request for a \$28,000,000 appropriation to increase the Coast Guard, the Secretary said, might assist to "cut down to a minimum" the operation of the rum-smugglers who seek to replace the vanished home product with the spirits of other lands.

Public building needs, in the count Public building needs, in the country at large, and in Washington, the report said, required "a carefully considered building program." The postponement of construction because of recent high costs in erection enterprises could not always be continued, added, with annual federal expenditures for rentals amounting to \$20,000,000 and increasing. Construction planning that would eliminate any tendency to distribute buildings on a political basis was urged.

The recently established system of pensions for retirement of federal civil service employes was described as showing sufficient cash reserve to justify an increase in the rates paid to the dependents. The limiting of retirement benefits to persons over 70, likewise, Mr. Mellon said, was unnecessary and he advocated lowering it to 68 years.

FIRST STREET NOW OPEN FOR TRAVEL

First Street, which has been closed for some time while being paved from Holly Avenue to the city limits, was yesterday opened for travel.

By completing the work and opening the street for travel Thursday, the Hutton Engineering Co., finished eight days ahead of its contract with the city, which provided that should be completed by December 15.

The pavement estimated to have cost in the neighborhood of \$25,000 is composed of relaid brick covered with an asphalt filler making it one of the most durable streets in the city, according to John D. McNamara, superintendent of the work.

Work on the bridge over Cloud Creek will be completed by Tuesday, Mr. McNamara said. Upon its completion, his company will begin construction on its third contract which includes the paving of the following

CONCERT A SUCCESS.

Approximately \$250 was realized from the concert given last night at the Milane Theatre by the Station Glee Club, assisted by the Station Orchestra, for the benefit of the Brotherhood of St. Andrew.

The program rendered by these two organizations under the direction of Miss Marian Dove Kenebeck, was well rendered and much enjoyed by the large audience.

VACATION PERIOD.

The public schools of Sanford are to close on December 21 for the Christmas vacation, according to an announcement made Friday. The school children will enjoy a 16-day vacation this year, the schools reopening on Monday, January 7.

The fire department was called out shortly after 9 o'clock Thursday night to answer a call from the DeForest building, at Second street and Sanford avenue. Persons passing the building observed a column of smoke rising from the top of the building and thinking that it was on fire, promptly turned in the alarm. The smoke proved to be coming from a chimney.

Jimmie Collins is a business visitor in Sanford today. Mr. Collins will be remembered as the one who directed the Orlando DeMolay minstrel in Sanford during the past summer.

W. K. Brokaw, former manager of McCroy's Five and Ten Cent Store in Sanford, has been a visitor to his many Sanford friends in the past few days. He is engaged in the insurance business in Fort Myers.

RECOMMENDS FOLEY KIDNEY PILLS.

"Your medicine worked a miracle for me," writes Mrs. C. Biron, 140 Fayette Street, Lynn, Mass. "I was all run down, had a cough all winter, also kidney trouble and after taking a few boxes of your medicine my cough and backache left me. I can eat and sleep well. I canvass and recommend it at every house I enter." Prompt relief secured from kidney and bladder irritation, rheumatic pains through using Foley Kidney Pills. Insist on the genuine—refuse substitutes. Sold everywhere.—12-1

streets: Sanford, French, Sixth, Seventh, Milonville; Commercial Park. The amount of this contract is approximately.

Who pays you or the insurance company?

Are you prepared to pay for the garage or any other outbuilding that goes up in flames? A dependable insurance company is prepared to pay at all times.

It is good business to be insured against fire loss, because if fire comes, you are able to start rebuilding without delay. A Federal Insurance policy gives you absolute security against financial loss by fire.

This agency is ready to tell you about protection.

Robs Calomel of Nausea and Danger

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected Tablet Called "Calotab"

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotab" Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headache and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.

RESOLUTION

BE IT RESOLVED, by the City Commission of the City of Sanford, Florida, that a Sidewalk shall be constructed along and in front of the following described property in the City of Sanford, Florida: Lot 4, Blk. 8, Tr. 1, E. R. Trafford's Map, Sanford, Florida. Itly Little, Owner, on West side of Sanford Ave., N. 32', Lot 7, Blk. 7, Tr. A., E. R. Trafford's Map, Sanford, Florida. C. H. Moore, Owner, on East side of Sanford Ave. Lot 1, Blk. C., Markham Park Heights, on W. Side Magnolia Ave. Sheridan Jewett, owner, that such sidewalk shall be constructed of Cement and shall be 6 feet in width, and shall

be constructed in accordance with the Ordinances of the City of Sanford, Florida, covering the construction of Sidewalks, and.

BE IT FURTHER RESOLVED, that the City Manager shall cause written notice of the Passage and Adoption of this Resolution, together with a certified copy of this Resolution, to be served in the manner required by the Ordinances of the City of Sanford, Florida, upon the owner, or agent of the owner, of the property hereinabove described, and,

BE IT FURTHER RESOLVED, that if the said Sidewalk hereinabove described be not constructed within Sixty (60) Days after the service of notice provided for in the preceding paragraph, the City of Sanford, Florida, shall proceed by contract to construct such Sidewalk at the expense of the owner of the property abutting thereon.

Adopted this 31st day of October, A. D. 1923.

JUDGE ELLIS IN ADDRESS BEFORE UTILITIES MEET

Friendly Spirit of Cooperation With the Interstate Commerce Commission is Urged By Florida Jurist

Attorney General Makes Interesting Report to Congress—Litigations on the Increase

MIAMI, Fla., Dec. 7.—Exercise of a spirit of friendly co-operation with the Interstate Commerce Commission of the United States was urged by Justice William E. Ellis, of the Florida Supreme Court, in an address here recently before the opening session of a four days convention of the National Association of Railroad and Utilities Commissioners. The keynote of the address was state relations to interstate commerce.

The speaker painted a word picture for the delegates to the convention, here from all parts of the country, directing attention to the state's place in history, her enterprises and industries and economic and intellectual development, "her good roads and beautiful homes and hotels, and greatness in the character and loyalty of her citizenry."

"Florida with all her good things and great opportunities welcomes you," said Justice Ellis. "May you find here the intellectual food you desire and the inspiration you need to help you to the solution of your problems."

"Just what those problems are I shall not presume to suggest," he continued. "It would, perhaps be easier to say what they are not. Whatever they may be should be taken up and worked out in a spirit of friendliness and co-operation with other bodies and organizations affected by your activities to the end that by your services the people may have and enjoy the benefits and advantages."

Justice Ellis suggested that there is left to the states a vast field for activities of railroads and public utilities commissions without spending energies in vain discussions about so called federal usurpation of power and advised consideration of "our necessities at home and give ear to the demands of the people among whom we live against local abuses of state powers."

"Is the matter of taxation at home a thing of such trivial importance that we need not consider it," he asked, "although a large number of our people hesitate about acquiring homes of their own because of the tax burdens to which they are subjected, out of all proportion to the value of their holdings and the actual need of the state?"

Other activities suggested for consideration were "exploitation of the people by private corporations and cities and towns in the matter of dispensing water and lights and fuel; abuse of the right to use our hard surfaced roads which cost the people so much money."

"Cannot some system be devised under which these public highways may be controlled and the people's rights upon them protected from abuse by the lawless and reckless to the end that interstate commerce and transportation may be secured and benefited?" he asked.

Service upon interstate railroads, street car lines, canals and other inland waterways, telephone and telegraph lines were also mentioned as items for regulatory consideration.

"The whole forest of state sovereignty has not been explored and mastered and brought under control," Justice Ellis declared; "and only a small portion has been given over to congress in which to exercise authority. Let us work together therefore in the spirit of friendliness and not antagonism, in friendly criticism and not fretful and captious objection to end that America may set and maintain an example of peace to the nations of the earth."

Problem of Price Level

"Undoubtedly one of the most disturbing factors in the situation is the problem of price level. Until uncertainty is largely removed business men will avoid large commitments, and as long as they feel inclined to pronounced conservatism, resumption and expansion are certain to be somewhat retarded."

Mr. Hunter shows that the United States is becoming more and more the center of the world's dependence, that prosperity in the South is just beginning and that, as he puts it, "the achievements of the future are certain to outrival those of the past."

BOUGHT MAN'S ASHES IN URN

INGLEBY, Eng., Dec. 5.—Opening a brass box which he bought a year ago as part of a miscellaneous collection of articles, a dealer was astonished to find an urn with an inscription indicating that it contained the ashes of a man named Abraham Knowles who was cremated in Philadelphia in 1898.

OSCEOLA ROAD TO BE REPAIRED SOON BY COUNTY BOARD

Two Miles of Road Is To Be Put In Good Condition—Eight Inch Marl Surface Is Ordered

A most important step was taken by the County Commissioners at their regular monthly meeting held on Monday when they authorized the advertisement for bids for the surfacing of the Osceola road, which for some time has been in an almost impassible condition.

The stretch of road which is to be repaired is about two miles in length. Bids will be opened at the next meeting of the board to be held in January and the advertisement calls for an 8-inch marl surface to be put on the roadbed.

Hon. Forest Lake appeared before the board with a petition signed by the taxpayers of that district asking for aid on this road and he urged that the board immediately take steps to have it put into good repair.

That it will mean much to Sanford is shown by the fact that many people in that vicinity have been going to New Smyrna for their supplies because of the bad condition of the road but when it is put into good shape, this business will come to Sanford.

Other important business taken up by the board was the agreement to issue to the Seaboard Air Line Railroad Company a franchise in perpetuity.

Mrs. Inez Meredith appeared before the board to ask for aid in connection with the road from Forest City to Palm Springs. The matter was referred to C. W. Entzinger.

H. C. DuBose appeared in behalf of Mrs. W. F. Geiger for financial assistance. The board authorized the issuance of a warrant for the sum of \$25 for her aid.

E. L. Kilbee and Mrs. Raulerson asked the board for permission to charge a 50 cent toll over the Titusville ferry and the money that is derived from that source to go to repairing that road which is in bad condition. The board granted them this privilege, the same taking effect yesterday and the road is to be kept in good condition on a 50-50 basis with Volusia county.

Notary public bonds of the following were approved: Virgil L. Smith, R. C. Phillips and Tunis P. Lewis.

County depositories for the coming year were named as follows: Seminole County Bank of Sanford, First National Bank of Sanford, People's Bank of Sanford and Bank of Ovidio.

Resolutions were passed that Volusia county is to acquire legal title to the bridge known as Monroe Bridge over the St. Johns river.

A full attendance of the commissioners were present. Those present were: John Meisch, chairman; G. L. Bledsoe, C. W. Entzinger, B. F. Wheeler, E. Curlett and E. V. Douglas, deputy clerk.

Co-Ed Normal Session Is not to Be Given at U. of F. Next Year

UNIVERSITY OF FLORIDA, Dec. 5.—"Due to the contributing factors of inadequate funds and scarcity of rooming facilities for women, the University of Florida will be unable to offer a co-ed normal session next spring," according to Dean J. W. Norman of the Teachers' College.

"This decision was reached only after the most strenuous efforts to make the spring session possible," Dr. Norman states, "but until larger appropriations are procured with which to employ instructors and until dormitory facilities for women are added, it now appears that this work cannot be again undertaken."

"The summer session will, however, be conducted as usual," he adds, "beginning on or about June 11."

Further information concerning the regular summer school session may be found in a bulletin which will be issued early in the year.

The co-ed normal session last spring was regarded by everyone as a marked success, and its discontinuance will come as a great disappointment to large numbers of prospective students. It is also a disappointment to many of the University students who always welcome the presence of the feminine contingent to the campus.

The number enrolled for the spring session last year, it was stated, approximated almost a hundred, most of them being women teachers from schools which closed early in the spring.

The five longest national highways are: The Lincoln, the National Old Trails Road, the Roosevelt National Highway, the Dixie Overland Highway and the Pikes Peak Ocean to Ocean Highway.

South Is Enjoying A Big Building Boom

ATLANTA, Ga., Dec. 7.—Southern construction work for 1923 promises to establish a new record, according to reports received in building construction circles in Atlanta. Already it has exceeded for the first nine months of the year the very extensive building activity of 1922 and is far above the 1921 figures for the same period.

Contracts awarded for building and other construction projects in the sixteen Southern states in the first nine months of 1923 had a total valuation of more than \$421,750,000, according to figures made public here by the Adair Realty and Trust Company, which is financing southern structures. This compares with \$409,997,000 in contracts awarded for the corresponding period of the preceding year and with the total of \$330,000,000 for the whole of 1921.

Contracts to be let covering definitely planned construction projects total \$1,069,400,000, compared with \$808,280,000 for the nine months period of 1922 and with \$715,155,000 for the first nine months of 1921.

The total of \$81,400,000 representing contracts to be awarded as announced in September and \$140,268,000 for similar reports given out in August afford an idea of the big volume of work in prospect for fall and the early winter months of 1924.

Road Paving and Bridges
From the standpoint of the amount of money involved in contracts let, reports show that road paving and bridge work holds first place, the total for the nine months' period being \$131,298,000, as compared with \$111,372,000 for the similar period of the preceding year.

Next comes miscellaneous enterprise contracts with a total valuation of \$79,348,000. This classification includes such projects as garages, piers, hydro-electric and steam-electric plants, hospitals, railroad shops, grain elevators, water and rail terminal facilities, and all such work not covered specifically in the other classifications.

A RESOLUTION REQUIRING THE WIDENING, GRADING AND PAVING OF PALMETTO AVENUE FROM CENTRAL STREET TO HUGHEY STREET TO A WIDTH OF 24 FEET INSTEAD OF 16 FEET, AS HERETOFORE AUTHORIZED.

Whereas, heretofore appropriate proceedings have been had providing for the grading and paving of Palmetto Avenue a width of 16 feet from Central Street to Hughey Street, and

Whereas, it is now deemed advisable that Palmetto Avenue should be paved to a width of 24 feet from Central Street to Hughey Street, therefore,

BE IT RESOLVED, that the City Commission of the City of Sanford, Florida, deems it advisable as a necessary public improvement, in addition to the improvement by the paving of Palmetto Avenue between Central Street and Hughey Street to a width of 16 feet, that said pavement should be increased to a width of 24 feet, and

BE IT FURTHER RESOLVED, that Palmetto Avenue between Central Street and Hughey Street shall be paved with asphalt on a rock base to a width of 24 feet instead of a width of 16 feet as authorized; all of said widening, improving, grading and paving of Palmetto Avenue between Central Street and Hughey Street to a width of 24 feet instead of 16 feet shall be done in compliance with the completed plans, specifications, profiles and estimates therefor, now on file in the office of the City Manager of the City of Sanford, Florida, which said plans, specifications, profiles and estimates have been heretofore approved by the City Commission and constitute the plans and specifications for said widening, improving and paving of Palmetto Avenue between Central Street and Hughey Street from a width of 16 feet to a width of 24 feet, and this Commission hereby declares the necessity for the widening and paving of said portion of Palmetto Avenue as aforesaid, as a necessary public improvement.

BE IT FURTHER RESOLVED, that a total expenditure not exceeding Two Thousand Four Hundred and Eighty-eight (\$2,488.00) Dollars is hereby authorized to cover the cost of widening the asphalt pavement on Palmetto Avenue between Central Street and Hughey Street from a width of 16 feet to a width of 24 feet, which said sum of Two Thousand Four Hundred and Eighty-eight (\$2,488.00) Dollars is the total estimated cost of said improvement; that one-third of the total cost of the improvement aforesaid shall be borne by the City of Sanford, Florida, and shall be apportioned to be paid from the General Improvement Fund of the City of Sanford, Florida, out of any moneys available therefor, and

the remaining two-thirds of the cost of said improvement shall be assessed against all property abutting and fronting upon that portion of Palmetto Avenue between Central Street and Hughey Street to be so improved by the widening of said portion of Palmetto Avenue between Central Street and Hughey Street from a width of 16 feet to 24 feet, and against all lots and lands adjoining and contiguous or bounding and abutting upon said improvement.

BE IT FURTHER RESOLVED, that the total cost of widening the asphalt pavement on Palmetto Avenue between Central Street and Hughey Street from a width of 16 feet to a width of 24 feet, is the sum of Two Thousand Four Hundred and Eighty-eight (\$2,488.00) Dollars; that the portion of the total estimated cost of the contemplated improvement of Palmetto Avenue between Central Street and Hughey Street to be borne and paid for by abutting property owners is the sum of One Thousand Six Hundred and Fifty-eight and 67/100 (\$1,658.67), which said sum is to be specially assessed against all lots and lands adjoining and contiguous or bounding and abutting upon said improvement; that the part or portion of the total estimated cost of said contemplated improvement of Palmetto Avenue between Central Street and Hughey Street to be paid for by the City of Sanford, Florida, is the sum of Eight Hundred and Twenty-nine Dollars and 33/100 (\$829.33), and the sum of \$1,279.5 is the estimated cost per front foot for said improvement.

BE IT FURTHER RESOLVED, that it is the determination of this Commission that all lots and lands adjoining and contiguous or bounding and abutting upon Palmetto Avenue between Central Street and Hughey Street will be benefited by the improvement provided for by this resolution, and that the special assessments to be made and entered against all lots and lands adjoining and contiguous or bounding and abutting upon such contemplated improvement shall be made upon foot frontage basis; that is to say, that in the preparation of the special assessment roll covering the contemplated improvement, such special assessments shall be determined and prorated according to the foot frontage of the respective properties benefited by said improvement.

BE IT FURTHER RESOLVED, that the Tax Assessor and the City Clerk of the City of Sanford, Florida, in accordance with the provisions of Section 101 and 102 of the Charter of the City of Sanford, Florida, shall proceed without delay to make a special assessment roll, assessing the special benefits to be received as the result of the improvement contemplated against all lots and lands adjoining and contiguous or bounding and abutting upon such improvement, and upon the completion of said assessment roll to cause a copy thereof to be published two times consecutively once each week in a newspaper published in Sanford, Florida, attaching to said special assessment roll so published a notice directed to all property owners interested in said special assessments, stating in accordance with the provisions of the Charter of the City of Sanford, Florida, a definite time and place where complaints will be heard and when said special assessment roll will be finally confirmed by the City Commission sitting as an Equalizing Board.

BE IT FURTHER RESOLVED, that the special assessments provided for by this resolution to be made and entered against the property bounding and abutting upon said improvement shall be payable at the option of the property owners owning property bounding and abutting upon such improvement as follows: either in full within thirty days after said assessments shall stand equalized, approved and confirmed, or in ten equal annual installments with interest at the rate of eight per cent. per annum upon all deferred payments from and after the time said special assessments shall be and stand finally equalized, approved and confirmed, and

BE IT FURTHER RESOLVED, that this resolution shall be and become effective immediately from and after its passage and adoption.

Adopted this 26th day of November, A. D. 1923.

A RESOLUTION REQUIRING THE WIDENING, GRADING AND PAVING OF SEVENTH STREET FROM MAGNOLIA AVENUE EAST TO PINE AVENUE, TO A WIDTH OF 24 FEET, INSTEAD OF 16 FEET, AS HERETOFORE AUTHORIZED.

Whereas, heretofore appropriate proceedings have been had providing for the grading and paving of Seventh Street, a width of 16 feet from Magnolia Avenue east to Pine Ave, and

Whereas, it is now deemed advisable that Seventh Street should be paved to a width of 24 feet from Magnolia Avenue east to Pine Avenue, therefore,

BE IT RESOLVED, that the City Commission of the City of Sanford, Florida, deems it advisable as a necessary public improvement, in addition to the improvement by the paving of Seventh Street, between Magnolia Avenue and Pine Avenue to a width of 16 feet, that said pavement should be increased to a width of 24 feet, and

BE IT FURTHER RESOLVED, that Seventh Street between Magnolia Avenue and Pine Avenue shall be paved with asphalt on a rock base to a width of 24 feet instead of a width of 16 feet, as authorized; all of said widening, improving, grading and paving of Seventh Street between Magnolia Avenue and Pine Avenue to a width of 24 feet shall be done in compliance with the completed plans, specifications, profiles and estimates therefor, now on file in the office of the City Manager of the City of Sanford, Florida, which said plans, specifications, profiles and estimates have been heretofore approved by the City Commission and constitute the plans and specifications for said widening, improving and paving of Seventh Street between Magnolia Avenue and Pine Avenue from a width of 16 feet to a width of 24 feet, and this Commission hereby declares the necessity for the widening and paving of said portion of Seventh Street as aforesaid, as a necessary public improvement, and

BE IT FURTHER RESOLVED, that a total expenditure not exceeding Three thousand, eight hundred sixty-four (\$3,864.00) Dollars, is hereby authorized to cover the cost of widening the asphalt pavement on Seventh Street between Magnolia Avenue and Pine Avenue, from a width of 16 feet to a width of 24 feet, which said sum of Three thousand eight hundred and sixty-four (\$3,864.00) Dollars, is the total estimated cost of said improvement; that the entire cost of the improvement aforesaid, shall be assessed against all property abutting and fronting upon that portion of Seventh Street between Magnolia Avenue and Pine Avenue to be so improved by the widening of said portion of Seventh Street between Magnolia Avenue and Pine Avenue to a width of 24 feet, and against all lots and lands adjoining and contiguous or bounding and abutting upon such contemplated improvement shall be made upon foot frontage basis. That is to say, that in the preparation of the special assessment roll covering the contemplated improvement, such special assessments shall be determined and prorated according to the foot frontage of the respective properties specially benefited by said improvement, and

BE IT FURTHER RESOLVED, that the Tax Assessor and the City Clerk of the City of Sanford, Florida, in accordance with the provisions of Section 101 and 102 of the Charter of the City of Sanford, Florida, shall proceed without delay to make a special assessment roll, assessing the special benefits to be received as the result of the improvement contemplated against all lots and lands adjoining and contiguous or bounding and abutting upon said improvement; the sum of \$2,046 is the estimated cost per front foot for said improvement, and

BE IT FURTHER RESOLVED, that it is the determination of this Commission that all lots and lands adjoining and contiguous or bounding and abutting upon Commercial Street between Park Avenue and Palmetto Avenue from a width of 16 feet to a width of 40 feet, and this Commission hereby declares the necessity for the widening and paving of said portion of Commercial Street as aforesaid, as a necessary public improvement, and

BE IT FURTHER RESOLVED, that a total expenditure not exceeding Three Thousand nine hundred and ninety-eight (\$3,998.00) Dollars, is hereby authorized to cover the cost of widening the asphalt pavement on Commercial Street between Park Avenue and Palmetto Avenue from a width of 16 feet to a width of 40 feet, and against all lots and lands adjoining and contiguous or bounding and abutting upon said improvement; that \$3,998.00 is the total estimated cost of said contemplated improvement in the widening of said portion of Commercial Street to be specially assessed against all lots and lands adjoining and contiguous or bounding and abutting upon said improvement; the sum of \$2,788 is the estimated cost per front foot for said improvement, and

BE IT FURTHER RESOLVED, that it is the determination of this Commission that all lots and lands adjoining and contiguous or bounding and abutting upon Commercial Street between Park Avenue and Palmetto Avenue will be benefited by the improvement provided for by this resolution, and that the special assessments to be made and entered against all lots and lands adjoining and contiguous or bounding and abutting upon such contemplated improvement shall be made upon foot frontage basis. That is to say, that in the preparation of the special assessment roll covering the contemplated improvement, such special assessments shall be determined and prorated according to the foot frontage of the respective properties specially benefited by said improvement, and

BE IT FURTHER RESOLVED, that the Tax Assessor and the City Clerk of the City of Sanford, Florida, in accordance with the provisions of Section 101 and 102 of the Charter of the City of Sanford, Florida, shall proceed without delay to make a special assessment roll, assessing the special benefits to be received as the result of the improvement contemplated against all lots and lands adjoining and contiguous or bounding and abutting upon such improvement, and upon the completion of said assessment roll to cause a copy thereof to be published two times consecutively once each week in a newspaper published in Sanford, Florida, attaching to said special assessment roll so published a notice directed to all property owners interested in said special assessments, stating in accordance with the provisions of the Charter of the City of Sanford, Florida, a definite time and place where complaints will be heard and when said special assessment roll will be finally confirmed by the City Commission sitting as an Equalizing Board, and

BE IT FURTHER RESOLVED, that this resolution shall be and become effective immediately from and after its passage and adoption.

Adopted this 26th day of November, A. D. 1923.

FORREST LAKE,
S. O. CHASE,
C. J. MARSHALL,
As the City Commission of
Sanford, Florida.

Attest:
L. R. PHILLIPS, (SEAL)
City Clerk.

A RESOLUTION REQUIRING THE WIDENING, GRADING AND PAVING OF COMMERCIAL STREET FROM PARK AVENUE EAST TO PALMETTO AVENUE, TO A WIDTH OF 40 FEET INSTEAD OF 16 FEET, AS HERETOFORE AUTHORIZED.

Whereas, heretofore appropriate proceedings have been had providing for the grading and paving of Commercial Street, a width of 16 feet from Park Avenue east to Palmetto Avenue, and

Whereas, it is now deemed advisable that Commercial Street should be paved to a width of 40 feet from Park Avenue east to Palmetto Avenue, therefore,

BE IT RESOLVED, that the City Commission of the City of Sanford, Florida, deems it advisable as a necessary public improvement, in addition to the improvement by the paving of Commercial Street between Park Avenue and Palmetto Avenue to a width of 16 feet, that said pavement should be increased to a width of 40 feet, and

BE IT FURTHER RESOLVED, that this resolution shall be and become effective immediately from and after its passage and adoption.

Adopted this 26th day of November, A. D. 1923.

A RESOLUTION REQUIRING THE WIDENING, GRADING AND PAVING OF COMMERCIAL STREET FROM PARK AVENUE EAST TO PALMETTO AVENUE, TO A WIDTH OF 40 FEET INSTEAD OF 16 FEET, AS HERETOFORE AUTHORIZED.

Whereas, heretofore appropriate proceedings have been had providing for the grading and paving of Commercial Street, a width of 16 feet from Park Avenue east to Palmetto Avenue, and

Whereas, it is now deemed advisable that Commercial Street should be paved to a width of 40 feet from Park Avenue east to Palmetto Avenue, therefore,

BE IT RESOLVED, that the City Commission of the City of Sanford, Florida, deems it advisable as a necessary public improvement, in addition to the improvement by the paving of Commercial Street between Park Avenue and Palmetto Avenue to a width of 16 feet, that said pavement should be increased to a width of 40 feet, and

BE IT FURTHER RESOLVED, that Commercial Street between Park Avenue and Palmetto Avenue shall be paved with asphalt on a rock base to a width of 40 feet instead of a width of 16 feet, as authorized; all of said widening, grading and paving of Commercial Street between Park Avenue and Palmetto Avenue to a width of 40 feet shall be done in compliance with the completed plans, specifications, profiles and estimates therefor, now on file in the office of the City Manager of the City of Sanford, Florida, which said plans, specifications, profiles and estimates have been heretofore approved by the City Commission and constitute the plans and specifications for said widening, improving and paving of Commercial Street between Park Avenue and Palmetto Avenue from a width of 16 feet to a width of 40 feet, and this Commission hereby declares the necessity for the widening and paving of said portion of Commercial Street as aforesaid, as a necessary public improvement, and

BE IT FURTHER RESOLVED, that a total expenditure not exceeding Three thousand, eight hundred and sixty-four (\$3,864.00) Dollars, is hereby authorized to cover the cost of widening the asphalt pavement on Commercial Street between Park Avenue and Palmetto Avenue, from a width of 16 feet to a width of 40 feet, which said sum of Three thousand eight hundred and sixty-four (\$3,864.00) Dollars, is the total estimated cost of said improvement; that the entire cost of the improvement aforesaid, shall be assessed against all property abutting and fronting upon that portion of Commercial Street between Park Avenue and Palmetto Avenue to be so improved by the widening of said portion of Commercial Street between Park Avenue and Palmetto Avenue to a width of 40 feet, and against all lots and lands adjoining and contiguous or bounding and abutting upon such contemplated improvement shall be made upon foot frontage basis. That is to say, that in the preparation of the special assessment roll covering the contemplated improvement, such special assessments shall be determined and prorated according to the foot frontage of the respective properties specially benefited by said improvement, and
