## SMOOTH RUNNING MACHINE IS TO BE BUILT BY REPUBLICANS

WASHINGTON, July 15.—Having deferred opening of the active national campaign until Aug. 15, Republican leaders declared Tuesday they planned to use the intervening month in building up a smoothly-running party machine.

The frame work of the party organization as turned over by John T. Adams, the retiring national chairman, is to be strengthened and rounded out under present plans; additional headquarters are to be opened; any existing factional differences will be eliminated so far as possible and the whole situation brought to a point where the campaign can be energetically put under way immediately.

## Former Secretary Of Interior Enters Plea "Not Guilty"

EL PASO, Tex., July 16.—Albert B. Fall, former secretary of the interior, Tuesday pleaded not guilty, waived preliminary argument when he was arraigned before United States Commissioner A. J. W. Schmid on charges growing out of indictments returned by a special grand jury in the District of Columbia.

It is understood that due to the large increase in the freight handled by the Clyde Company here it has become necessary to increase their facilities for handling shipments.

Mrs. J. B. Calder, who is a representative of the company here, stated that she did not know the exact plans in regard to the addition, but said that the offices and the waiting rooms will be moved into the new part of the building when it is completed and the part they now occupy will be used for storage and warehouse room.

## FIVE BIG GRAIN COMPANIES ARE CONSOLIDATED

CHICAGO, July 15.—American farmers were given the opportunity to own the largest grain marketing company in the United States through the merger of five large grain companies, four in Chicago and one in Kansas City, effected here Tuesday.

The Grain Marketing Company, the name of the merger concern, is capitalized at \$38,000,000 and eventually is intended to be farmed or owned, controlled and operated by the companies merged are the Armour Grain Company, Rosaborn Grain Corporation, J. C. Shaffer and Company, Rosenbaum Brothers and the Davis, Noland, Merrill Grain Company, the latter of Kansas City.

Under the financial plan for the merger, 1,000,000 shares of common stock of \$1, par value, 1,000,000 shares of \$2, par value, and 500,000 shares of \$5, par value, are to be issued.

The "A" preferred will be sold only to farmers, who will be given an opportunity to buy an equal number of shares of common stock, the common stock not to be disposed of in any other manner.

## Republicans Meet To Name Ticket

PALATKA, July 16.—The Florida Republican Convention got under way here at noon today for the nomination of a full state ticket to be voted in the general election this fall. It was intimated that J. R. O'Neal of Orlando has been agreed upon to head the ticket as candidate for governor.

## Fifty-two Persons Believed Dead In Raging Forest Fire

SAN FRANCISCO, July 16.—Fifty-two persons are unaccounted for and believed to have perished within the past 24 hours in the forest fires which are sweeping all sections of the Pacific coast.

It is understood that due to the large increase in the freight handled by the Clyde Company here it has become necessary to increase their facilities for handling shipments.

Mrs. J. B. NORFOLK, Va., July 16.—The authorities will search a cluster of woods near a negro settlement on the right hand side of the detour out of Enfield, N. C., toward Halifax, Mrs. Edward Allen Tuesday night told a representative of the Associated Press.

## Six Are Killed in Hindu Disturbance

DELHI, British India, July 16.—Six persons were killed and more than 100 wounded in rioting Tuesday between Mohammedans and Hindus. The disturbance was caused by what is described as the aggressive attitude of Mohammedans persisted in carrying bows for sacrifice through the prohibited area where the Hindus live.

## Insufficient Air Is Cause of Explosion Aboard Battleship

WASHINGTON, July 16.—The turret explosion aboard the battleship Mississippi off the California coast last June 12, in which 46 men and three officers were killed, resulted from insufficient air pressure used in cleaning the bore of the big gun, according to findings of the naval court of inquiry.

It is understood that due to the large increase in the freight handled by the Clyde Company here it has become necessary to increase their facilities for handling shipments.

Mrs. J. B. Calder, who is a representative of the company here, stated that she did not know the exact plans in regard to the addition, but said that the offices and the waiting rooms will be moved into the new part of the building when it is completed and the part they now occupy will be used for storage and warehouse room.

## Democrat Chairman Uncertain

Party Nominee Has Not Recommended Anyone Yet To Be Campaign Manager

Leaders Are Still Holding Confabs

No Decision Is Made As To the Location Of Headquarters

NEW YORK, July 16.—When John W. Davis, Democratic candidate for president, stepped into his motor car last night for the 80 miles drive to his country home at Locust Valley, he was apparently no nearer a decision as to the choice of a national chairman or the location of the main and subsidiary headquarters for the campaign than he was Monday morning, when refreshed by a week-end to tackle this first great problem of his contest for the presidency.

## PLANS MUNICIPAL HALL ADOPTED BY CITY CIVIC BODY

### PRINCE WALES GIVES TALK TO AD CONVENTION

His Appearance Is Greeted With Uproar When He Appears Before World Advertising Meeting

LONDON, July 13.—Men and women who make advertising their business in 22 countries of the world Monday opened their first international convention in the heart of the British government's greatest advertising attempt, the exhibition at Wembley.

There were 4,500 delegates from those countries who attempted to enter the hall yesterday morning, 1,800 of whom had crossed the water from the United States and another 500 who are counted as foreign to the British Isles. The next largest delegation to that of the United States was from Scotland, Ireland and Wales, with their representation of almost a half thousand. Last year at Atlantic City there were 3,000 men and women present at the convention.

**Noisy Greetings to Prince**

Long before the conference began Monday the seats were all filled and the adjoining conference rooms had been opened for overflow meetings. The appearance of the Prince of Wales to declare the convention open allowed the Americans a chance to indulge in 10 minutes of cheering and singing. After the noise had subsided the prince delivered his speech of welcome and announced the convention was open.

Frank B. Kellogg, the American ambassador, then delivered an address in which he expressed confidence that the work of the conference would tend to bring about international accord. Viscount Barnham, owner of the London Daily Telegraph, presided at the opening session.

The afternoon session still required the use of additional conference rooms for the delegates, to whom speeches from the main platform were broadcast. F. H. Slason, vice-president of the Guaranty Trust Company of New York, in an address on the subject of advertising as the creator of public standards of business, said that in the case of the United States advertising had raised the standard of American manufactured products to a higher level than ever before. Advertising, he added, had been more beneficial to the public than any single industrial advancement of the twentieth century.

**Other Speakers**

Sir Charles Higham, the author and publisher; Sir Lawrence Weaver, director of the United Kingdom exhibits at the empire exhibition; and John E. Clynes, lord privy seal, were among others who delivered speeches.

Today a series of 25 sectional meetings will begin, the delegates dividing to discuss questions and exchange information on matters in which they are most vitally interested.

In anticipation of the prince's arrival, America's 2,000 delegates were present long before the meeting was scheduled to begin. When the British heir appeared, wearing a lounge suit, a convention button on the lapel of his coat, the American delegates broke into enthusiastic cheering, stamped the platform and kept up their ovation for 10 minutes. Then the prince delivered a short address declaring the convention open.

Keynotes of Speeches

Advertising and international relations were the keynotes of the speeches.

"I hope," said the prince at the conclusion of his address, "that during your sessions and during the hospitalities that will accompany them, many lasting friendships will be formed—friendships that will help fulfill the true aim of every advertising convention, namely, the permanent increase of international accord."

The hospitality side of the convention is as full as the business one, and Ambassador Kellogg got a laugh from the entire audience when, pretending to make a slip of the tongue, he spoke of the "city of luncheons" instead of the "city of London."

to Mr. Murphy throughout the latter period of his chiefdom. The new leader is likewise intimate with Gov. Smith, who is reported to have expressed the hope that Olvany would be named. He is liked by the rank and file and knows the workings of the organization inside and out.

**Election a Compromise**

The election of Judge Olvany was a compromise between an active leader upon whom the district chiefs insisted, and a man from the ranks, as advocated by those who caused Surrogate Foley's election in May. That it also was a compromise between the forces of Gov. Alfred E. Smith, who appointed Judge Olvany to the bench, and the forces of Mayor John F. Hylan and W. R. Hearst was seen in this paragraph of the new grand chief's acceptance speech:

"Mayor Hylan has stood faithfully for the principles he advocated in the last municipal campaign, in which he received an extraordinary vote of public confidence. We should fully support him in carrying out these principles."

Judge Olvany's elevation to the Tammany throne gives him the most coveted place of unofficial political power in New York City, and puts him in a position which carries considerable authority in Democratic party circles of the state, and, to a lesser degree, of the nation.

had already descended and were ready to take off just as they received word of the Russians' decision. This experience, according to Lieut. Wade, showed the value of forththought in having a supply boat on the spot.

"Fog and rain hindered us a lot when approaching Japan," he continued. "We were obliged to take to American and Japanese destroyers, leaving our planes to bob on the high seas like corks for twenty-four hours. They resisted the strain splendidly, and when the tempest went down, we got aboard again and took off."

"After changing engines at Tokyo we made up a good deal of time, but had another hard experience in a sandstorm in India, which forced us to skim the ground at a height of only 400 feet."

"This morning we all got up with the same bright idea in our heads that we were going to get to Paris before the day was over. Our welcome was more than we dreamed of. Everybody has been good to us, excepting the weather, and even in that respect we had better luck than Dolsy, for the sun only cracked the paint on our machines in the desert region, while it almost ruined Dolsy's flight."

### Wife of John Drexel Will Sue for Divorce

NEW YORK, July 15.—Injury of John R. Drexel, Jr., of Philadelphia, who was struck over the head by the iron support of canopy which fell on him as he was passing along Madison Avenue, has revealed that Mrs. Drexel is in Reno preparing to sue for a divorce, says the New York Times.

Drexel, while still stunned from the blow, told a policeman, his wife was in Reno and subsequent inquiries brought from her admission she would ask for a divorce. She said she would base the suit on grounds of mental cruelty.

"I asked a man the other day to define a progressive and after he had finished I said: 'You have told me nothing new; you have defined a Democrat.'"

Cordell Hull, Democratic national chairman, arrived from Washington for another meeting with the nominee tonight.

Among those who spent some time with him today were Norman H. Davis, former undersecretary of state, who is no relative of the nominee; Clem Shaver, Isadore Dockweller of California and Edmund D. Moore, of Ohio.

**To Speak Wednesday Night**

Mr. Davis will deliver his first public address since his nomination on Wednesday night when his neighbors of Locust Valley will hold a reception for him in the town hall.

The nominee, being an experienced legal pleader, prefers to speak extemporaneously and many of his campaign addresses will be of that informal type.

### CITY PLANNING TO START WORK ON MUNICIPAL HALL

(Continued from page 1)

These men state that the building of the bulkhead and the lakefront boulevard will mean more than any other one project or proposed project as a drawing card for winter tourists of the better class. They say that with work on the bulkhead extension begun, they will have an extraordinary inducement to desirable visitors and property buyers.

The question of moving the Vaughn home from its present location so that Park Avenue may be extended was brought up and the commission discussed means of moving a house for the occupants during the removal and the damage that will result from falling plaster, etc.

Rev. F. D. King appeared before the commission and in the interest of the young people of Sanford asked that the tennis court at the Ninth Street Park be filled in with clay so that water will not form a pool there after a rain. The city manager was instructed to have the place filled in with clay and to have it rolled well.

The paving of certain streets was discussed and committees and the city engineer were appointed to look after these matters more thoroughly and to ascertain what may be done in such instances.

# OIL DIVISION TO BE CONSOLIDATED WITH 4 OTHERS

TALLAHASSEE, Fla., July 16.—Nathan Mayo, commissioner of agriculture, announces that on Aug. 1 the oil division of the department of agriculture will be consolidated with the pure food and drugs, stock feed, fertilizer and citrus fruit division of the department. The consolidation, he states, is recommended by the budget commission to the last legislature, "which recommendation was accepted and adopted by the legislature as shown by Chapter 9121, Acts of 1923, otherwise known as the general appropriation bill."

In a statement regarding the consolidation, Commissioner Mayo said: "It seems that the commission of the oil inspectors, provided for under Chapter 7905, Acts of 1919, were cancelled by the repealing clause of the general appropriation bill, Chapter 9121, Acts of 1923, and that the Pure Food and Drug, Stock Feed and Fertilizer Inspectors, three in number, together with one additional inspector provided for by the 1923 session of the legislature, making a total of four in number, were commissioned, after the adjournment of the legislature as Pure Food and Drug, Stock Feed, Fertilizer and Oil Inspectors, in keeping with the provisions of Chapter 9121, Acts of 1923."

"No attention was given to the inspection of gasoline oils and service stations as required by law, from July 1, 1923, to Nov. 1, 1923, but immediately upon assuming the responsibilities of the department when I became commissioner on Nov. 1, 1923, plans were made and put into operation on Dec. 1, 1923, to have proper and frequent inspection made by the inspectors provided for that purpose, of all gasoline and oil, subject to inspection, found in the state, as well as all gasoline service stations located in each and every county."

"Consolidation of the two divisions as well as the inspectorships was directed by an Act of the Legislature, and of course, the commissioner of agriculture cannot do other than comply with the law. As to whether or not the legislature acted wisely in making this consolidation without providing an adequate number of inspectors, I am, of course, not prepared to say at this time, but will say, however, that the work incident to the operation of the two divisions will not be neglected by reason of such consolidation."

"The following figures will show the sums of money saved by the consolidation of the two divisions: Salary three inspectors at \$1,800 each, \$5,400; traveling expense three inspectors at \$1,700 each, \$5,100; salary one clerk at \$1,500; salary one clerk at \$1,500; office expense and extra printing, about \$200. Total, \$12,600. Salary of the clerk last named was not paid since 1921. Employment of an extra clerk in the oil division, a needless expenditure of public funds, was discontinued in 1921, upon recommendation of the state auditor, in his report to the governor, covering an audit of the oil division."

## Advertising Raises Standard of Living Experts Are Told

LONDON, July 15.—James D. Mooney, vice-president and director of General Motors Corporation, in charge of Export Companies, told the convention of Associated Advertising Clubs of the World today that rebuilding of industrial and commercial structures provided leaders who would provide for workers sound economic programs that would hasten the day—all had expected with peace. "The tools are available and the laborer is ready to work," he said. "The need is for leaders, organizers with mental and moral courage who will place the tools in the hands of the laborer, finance the laborer to the extent of providing him with tools and materials, and finance the exchange of the laborer's products. This leadership must come out of the ranks of such men as are represented here at this convention. The present day is the day of the industrial and commercial leader."

Mr. Mooney asserted advertising must be counted on to play a great part in reconstruction and rehabilitation, because it could be made so important a factor in distribution. "The world today is standing in great need of having its distribution systems re-created and re-vivified," he said. "The production facilities, although somewhat impaired by the great stresses imposed upon them during the war, stand generally ready; men are eager to work. However, markets are needed for the products; means of facilitating their exchange are needed. The old channels of distribution through which goods flowed prior to the war are gradually being reestablished and new channels, made necessary by new political conditions, are being constructed. Advertising can very effectively increase the rate of growth of these national and international distributive systems."

## Central, Southern Parts of Florida Have Best Roads

TALLAHASSEE, July 15.—If the voting of bonds for improvements of various sorts may be taken as a criterion, the people of Florida, especially in the central and southern sections of the state, are optimistic as to the future of their counties and cities. Calls for bond elections now pending involve upwards of \$3,000,000. Issues recently voted call for \$1,500,000 more, in round numbers, and negotiations now are under way for other elections, the largest of which is in Pinellas county, amounting to \$1,250,000.

The largest single issue proposed is that in Dade county, where the freeholders will go to the polls on August 19 to vote on \$2,070,000 for road work. In the Fort Meade road and bridge district of Polk, an issue of half a million dollars will be passed upon on August 2, the proceeds to be used in the construction of fifty miles of roads. At Ocala, the citizens will go to the polls on August 5 to decide whether or not \$320,000 shall be issued there for civic improvements. That election will follow closely upon the heels of the recent Marion county election when it was decided to spend on million dollars for county road improvements.

Another Polk county issue was recently voted in Commissioner's District No. 1, for the construction of 31 miles of roads to cost \$600,000, and still another was approved at Lakeland for civic improvements that will cost more than a million dollars.

### Advertising Makes Press, States State of Peace

July 16.—A free international peace as advertising was urged Edward A. Filene, of eminent peace advocate, as delivered before the advertising convention. Associated Advertising the World. "Advertising is everywhere, the free from the commercial interests," will be for the peace of the advertising, it was "tends to make the dependent and thus enable to go straight" in his facts and truth." It was said at the meeting last night that plans were being made whereby the county and the city might combine and build a jail that will be adequate for both. It will probably be built behind the city hall, it was learned.

### PLANS MUNICIPAL HALL ADOPTED BY PLANNING BODY

(Continued from page 1.) city manager, the city engineer, a large room which will serve miscellaneous purposes, a vault for the clerk's records, the mayor's office, a utilities office, etc. The front part of the second floor, a space of about 13 by 60 feet, will serve as sleeping quarters, a reading room and an exercising room for the members of the fire department. Behind this will be the auditorium which will have a seating capacity of 1,000. This will also serve as the city's court room, it was said, and the place of the City Commission meetings when necessary. Plans for the city jail are not included in the municipal building and will be built separately. It was said at the meeting last night that plans were being made whereby the county and the city might combine and build a jail that will be adequate for both. It will probably be built behind the city hall, it was learned.

### WOMAN IS SURE THAT SHE SAW MISSING MAJOR

(Continued from page 1) two men got out. They were the red-haired man and the negro with the shiny face that we had seen twice already that day. I peered into the car to see what had become of the man wearing the army officer's cap. He wasn't in the car. This car didn't look like the one we had seen earlier, and I recalled that I had seen nothing of the army officer while we were watching the two men move the long bundle from the car near Enfield. It was not until she reached Norfolk, Mrs. Allen said, that she heard of Major McLeary's disappearance. She then linked up the trio who had met on the road near Battleboro and the two who had been later at Enfield with the case. She said she did not know the brand of car nor observe the license tag.

### Have Graded Sixty Miles New Railroad

WEST PALM BEACH, July 16.—According to the latest information received here, sixty miles of the Florida Western and Northern railroad have been graded and fifteen miles of track laid. Forces of men and machines are said to be busy over practically all of the 120 miles to be traversed by the line between West Palm Beach and Coleman, Sumter county. It is stated that the construction company building the road is earnestly trying to have it ready for trains by January 1, next.

### Insufficient Air Is Cause of Explosion Aboard Battleship

(Continued from page 1) however, that all men then in the turret were dead. "The casualty in question occurred during the firing of the eighth salvo. Prior to that time, namely upon the completion of the load for the third salvo, the left gun of number two turret fired prematurely while the firing circuit was open and while the gun was in loading position. As the muzzle was closed no damage was done."

### FIVE BIG GRAIN COMPANIES ARE CONSOLIDATED

(Continued from page 1) the five companies, according to their plan, will work on a salary basis, the new company being run by a board of directors with the farmers in control of two-thirds of the directorate. On the board it is planned to have men representing the elevator companies, grain dealers, bankers and railroads. The announcement of the offer of the five big grain companies to merge and become a farmer-owned and operated enterprise was made some time ago when committees representing the farmers' organizations and the co-operative elevator companies were named to study the plan. The two classes of preferred stock to be issued each will bear three per cent dividends and will be identical as to assets and other features, but the "B" preferred is not to be offered to the public. Part of it, according to the plan, is to be used in paying for the elevators and intangible assets of the selling companies and the balance is to remain in the treasury to be used as working capital. Among results anticipated by those involved, according to the announcement Tuesday are: Absolute ownership by farmers of their own marketing agency, control of ample credit for any transactions the company may undertake, participation in economics resulting from the taking over of the concern, adoption in a practical way of the principle of co-operation and participation in the earnings of the company, both in investment dividends and patronage dividends.

### May Reduce Millage on Miami Property

MIAMI, July 16.—City Manager Wharton, of this city, announces that with an unexpended surplus of approximately \$100,000 to \$125,000, and on the basis of the increased assessed valuation on city property, there is a possible reduction in the city's millage from 22 to 19 in the budget for the fiscal year of 1924-25. The budget for the year shows an increase of \$190,326.75 over 1923-24.

### CLYDE COMPANY WILL INCREASE DOCK FACILITIES

(Continued from page 1) pancy in a few days, it was learned this morning. The building comprises three store spaces which, it is understood, will be equipped with many modern conveniences. On Palmetto Avenue between First Street and Commercial Street a large addition to the Ford garage is being constructed. This is understood, is to take care of the steadily increasing business of this concern.

### Admit Croker Will To Probate In West Palm Beach Court

WEST PALM BEACH, July 16.—The will of Richard Croker, former Tammany Hall leader made at Glencairn, Sandford County, Dublin, Ireland, on October 12, 1919, was admitted to probate here Tuesday by County Judge R. P. Robbins, as the last will and testament of the dead man. In it all previous wills were evoked and all real and personal property was bequeathed and devised to Bula E. Croker, the wife. At the same time there was admitted to probate the codicil written at Glencairn on November 15, 1919, in which the former political leader said: "I am writing this note for you to keep, and in case you survive me I wish you would give my daughter, Florence ten thousand pounds. She is the only one of my surviving children that has ever shown any gratitude to me." Crawford Serves Entry of Appeal. J. T. G. Crawford, Jacksonville, representing Richard Croker, Jr., Edward Croker and Ethel Croker, children of the dead man who are contesting the will, served an entry of appeal. It was expected that the case will go into the circuit court and eventually would reach the Florida state supreme court. Attorneys for Mrs. Croker declared that today's action opened the way for the widow to take out ancillary papers of administration to supersede the New York Trust Company, as administrators of the estate. A temporary bond of \$10,000 was set for Mrs. Croker as sole executor of the will. She expects to qualify and file the bond tomorrow, leaving for New York city tomorrow night, and sailing for Ireland on July 10, accompanied by her mother.

WEDNESDAY, JULY 16, 1924

DIBLE THOUGHT FOR TODAY THE ONLY CREATOR.—In the beginning was the Word, and the Word was with God, and the Word was God.

THE HOUSE BY THE SIDE OF THE ROAD. With apples to a man Walter Pam Oh, I live in a house by the side of the road.

I see from my house, by the side of the highway to town, A tenement towering high in the air, A laundry of Chinese so brown.

Where the trucks go tearing by, Where the stores crowd in and apartments loom up, And shut off my view of the sky.

What have you done for Sanford today? If credit is worth having it is worth keeping.

Johnny says it's getting to be a tight town when no one will even lose money anymore.

Usually the fellow who is "stuck on himself" has to be for no one else is able to recognize his charm or ability.

The trouble with the so-called "love nest" is that when the husband or wife of one of the involved parties, appears on the scene, it becomes a "hall-nest."

There is some little argument as to whether John W. Davis is a New Yorker or West Virginian, but the New York Herald-Tribune solves the matter by declaring the nominee is a Democrat of West Virginia and a lawyer of New York.

Are you boosting Sanford this summer? By sending The Herald to your friends in the north you may be able to interest them in what is being done in this city.

There are 2,000,000 acres of force in the United States man could familiarize himself with 10 of them each day, he is qualified to act as a citizen in the short space of years.—Southern Lumberman.

1000 (The Booze Buyer A Criminal)

We talk a lot about the bootlegger who smuggles liquor into the country. We call him all kinds of names and heap upon him denunciation no other person receives. But isn't the buyer of the bootleg booze equally guilty of violating the country's laws?

Perhaps it is because some of the supposedly best people patronize the bootlegger. Perhaps it is because of their standing in business and social circles that little is said about them. It may be because their bank accounts are large.

The Literary Digest tells of thirty prominent citizens of Hartford, Connecticut, who were brought before him. The names of these thirty men, all prominent, doctors, lawyers, bankers and business men, all of the most respectable social and business standing were found on the trade lists of two arrested bootleggers.

What About The Bluffer?

Are you good at bluffing? Do you get what you go after largely on the strength of the "front" you put on? It might be a good idea to think a little bit about bluff, what it is and what its use is.

According to a conservative definition, bluff means to deceive by manner, speech or expression, so as to accomplish some hidden purpose or ward off some danger. It may be used without a person being conscious of it, yet it may mean the gain or loss of prestige, power or money.

Who among your friends are the biggest bluffers? Who among your business associates are good at the game? How many of them are successful? Do you yourself practice it and is bluff becoming a part of your life?

SELF SERVICE

The Kingdom of Heaven is within you. For that matter the kingdom of earth is within you also. If for any reason you begin the day with the conviction that everything is rotten, and this conviction is advertised by the expression of your face, the members of your family and the persons with whom you do business will greet you with countenances as cheerless as your own and this intensify your woe.

SOMETHING STILL WRONG

The Star-Telegram is in receipt of a letter from Lakeland friends written from Baltimore, where they purchased some Florida oranges. They were so ashamed of the oranges that they sent a purchase of a sample and sent six of them to this paper to show what is being sold.

As Brisbane Sees It

Sweet Harmony, Wicked Bob LaFollette, The K. K. Brand, Japan's Hate Day.

EVERYTHING is harmony in the political camps, at least on the outside. Everybody loves everybody else, and will work to elect him.

JUST HOW Americans of Catholic faith feel about the religious fight in the Democratic convention remains to be seen.

NEWSPAPERS of high finance tell you solemnly that LaFollette will raise a campaign fund of five millions. Is it not shocking to think of LaFollette "buying his way into the White House?"

LA FOLLETTE'S choice of a vice-presidential candidate is puzzling him and his friends. It's amazing how few among 112,000,000 names can be mentioned that would add strength to a ticket—any ticket.

TODAY A clergyman of Berkeley, near Detroit, is found after several days' absence, dazed, unable to give an account of himself, with the letters K K K branded on his back. How they were branded, whether with fire or merely painted on, is not told.

THE JAPANESE will seek to shift trade from the United States to Mexico. This is revenge for our law against Asiatic immigration. Let the trade shift. This country will not resent it.

A RELIGIOUS paper, the Christian Century, is worried because the Japanese have set a national "hate day," devoted to teaching Japanese children to hate the United States, because of a national insult. Says the religious paper, "There will be a good many Americans who will hardly feel proud of the course of their nation, for whatever cause, has given birth to such a day of direful protest."

IT IS NOT QUITE as bad as all that. Guy Fawkes day in England does not mean much now, although they do explore the House of Commons once a year for gunpowder. And the German taught us according to superheated patriotism, that hymns or days of hate do not pay.

UNITED STATES athletes have secured the track and field championship in the Olympic games. Those are the most important events, since they indicate possession of the most intense nervous and mental concentration.

THE IMPORTANCE of caring for the eyes and teeth of school children has been emphasized here and in 1,000 other places within a year. Usually you are told that it is no part of the taxpayer's duty to care for the eyes and teeth of other men's children.

There are 2,000,000 acres of force in the United States man could familiarize himself with 10 of them each day, he is qualified to act as a citizen in the short space of years.—Southern Lumberman.

THE DEMOCRATIC DELEGATES ARRIVE HOME

KNICKERS BARRED

Oklahoma women tourists wearing knickerbockers are turned back when they attempt to pass the blushing guards of the border-line at Matamoros, in Mexico, but there is still hope for Matamoros. There was for Oklahoma.

CENSORING THE RADIO

It was, of course, only a question of time. One of the easiest predictions to be made about the radio was that, sooner or later, some one would want to censor it, and the demand appears to have arrived sooner than later.

THE EGO

Nearly all adverse criticism means, "I could have done it much better." All praise of the gushing variety means, "I couldn't have done better myself." "These criticisms this work for me" usually means, "Please give me the once-over and then praise me."

PROPER SPEED

Frenchman has established a new record in driving an automobile a mile in a little less than twenty-six seconds. That is at the rate of approximately one hundred feet per second, or about 220 miles an hour, though it would be impossible to doubt that it would be possible to retain such speed for any considerable length of time.

Wrap

The ideal summer wrap affords slight protection and much charm, thus the shawl fills the bill perfectly. This one gives the effect of the hand-embroidered and very expensive Spanish shawl, but it is really made of printed silk fringed with deep fringe, and is comparatively inexpensive. It may be worn over any type of evening gown and is much in evidence at summer resorts.

## PERSONALS

## "Necessity, Is the Mother, Etc."

How are they going to bob 'em out in the woods? That question might have suggested itself to many girls going to summer camps, but this picture answers it. The girls are their own camp barbers in the resort outside of Atlanta, Fa., where this picture was taken.

Mrs. E. F. Householder and son Carlisle leave today on the boat for Jacksonville to meet Judge Householder, who will arrive there Friday morning on the Mohawk from Boston.

Mrs. C. L. Goodhue, Mrs. Stanley Walker and son, and Mrs. Vance Douglass and children leave tonight for Bainbridge, New York, to spend three months.

## OVER 7,000,000 BOLTS MADE IN PLANT IN 1 DAY

Requires 115 Tons of Steel Wire—Has Record of 8,500,000 During One Day—Machine Makes 500 Each Minute

Converting 115 tons of steel wire into more than 7,000,000 bolts and screws a day is the task accomplished in one department at the Highland Park Plant of the Ford Motor Company.

Indeed, the production schedule calls for 7,000,000 bolts and screws daily and the department itself boasts a record of 8,500,000.

To the average person the name of this interesting manufacturing unit of the great factory is a misnomer. It is called the Cold Heading Department from the fact that in the manufacturing process of making bolts and screws the principal operations are cutting bolt and screw parts from steel wire and putting so-called "heads" on them without heating.

Machines employed in doing this work are almost uncanny in their speed and accuracy.

Operations are so rapid the human eye cannot catch them. Steel wire is fed in, slipped the proper length, the cut piece automatically shifted to a die where, under pressure, it is shortened, part of the metal gathering at one end. Another automatic change, the head is formed and slipped an ejector dross the complete bolt into a container. It all happens in the fraction of a second, for these machines have a capacity of 500 bolts a minute and exert a pressure varying from 8,000 to 150,000 pounds, according to the

size of the bolt or screw part. If a hexagon head is to be put on the bolt it is sent to the trimming machine where with a rapidity almost unbelievable the bolts are automatically placed in a die and the head trimmed to the proper shape. Next the bolts are fed into automatic thread rollers, where they are put between a stationary and rolling die, the operation cutting the thread on the bolt with surprising speed and accuracy. The department produces 335 different "jobs," the bolts and screws which vary in size from 1-16 of an inch to 2 of an inch in diameter. The average die is used about 34,000 times, but in some cases where the operation is rapid it is necessary to replace old dies with new ones three times a day, for the manufacturing limits are close, being, in the majority of cases, two one-thousandths of an inch.

## Clearwater Shuts Out Lakeland 6 to 0 In Tuesday's Game

LAKELAND, July 16.—When the ex-orphan of the League, now the Clearwater Baseball Club, shut out the Highlanders Tuesday 6 to 0, Red Craig accomplished something which no other pitcher has done this season. Leach's two errors, followed by McLean's two triples proved Luther's downfall. McLean batted in all six Clearwater runs.

Score by innings:  
Clearwater ..... 202 000 002—6 9 0  
Lakeland ..... 000 000 000—0 4 2  
Craig and Sims; Luther and Nance.

Bradentown 4; St. Petersburg 3  
BRADENTOWN, July 16.—Johnson was wild but effective in the pinches Tuesday. Elliott's hit, Rick's walk, Welch's hit and Dewey's overthrow of third gave the Growers two in the first.

## American Girls Are Winners In Swimming Games

PARIS, July 16.—American women ruled such waves as splashed about the sides of Paris Monumental Olympic swimming pool in tropical weather Sunday afternoon when the Misses Martha Norrell, Helen Wainright and Gertrude Eders, off of the Women's Swimming Association of New York, finished in the order named in the final of the 400 metre swim in free style.

The American mermaids piled 19 Olympic points to add to the imposing total garnered by America's track and field athletes last week at the Colombes Stadium.

The individual stellar performer was young Andrew Charlton, the Australian aquatic performer, who clipped a considerable chunk out of the world's record established on Sunday by Arne Borge of Sweden. In the 1,500 metres swim, free style, Charlton's time of 22 minutes, 8.5 seconds was a new world's mark.

The American plain high divers fared badly. Ben Thrash of San Francisco, finishing fourth; Pete Des Jardens of Miami, Fla., taking sixth place, and Clarence Pinkston of San Francisco, finishing a weak last.

Sweden, won this event and indicated that in the water competition Australia took the place that Finland had taken in the track and field events last week. Jansen of Sweden was second and Clark of Great Britain third.

ALASKA SALMON PLENTIFUL  
CORDOVA, Alaska, July 16.—Every cannery in this district is running night and day to keep pace with one of the largest runs of red salmon seen for many years. In the first ten days of June two canning companies caught 40,000 salmon each, or approximately one-half of the entire number taken during the 1923 season. Fishermen say large runs occur in cycles of five years.

## NEW AIR BOMBER

SOUTHAMPTON, Eng., July 16.—Successful tests have occurred with a new air-marine bomber built for the Spanish government by an aircraft firm here. The plane easily "took off" as well as came to anchor on rough water. Pilot, gunner and observer are accommodated in the forward position of the boat and the bombs are carried in the hull.

## Find Stolen Money Sack Woman's Home

TAMPA, July 16.—Officers Monday found the money sack in the home of Mrs. Edith M. Conway here, while searching for evidence in connection with arrests yesterday of five persons in connection with a robbery last April of \$24,000 from A. C. Clewis, Tampa banker. The money sack and watch are said to have been identified by the banker as contents for money he was transferring at the time. A grand jury was called to investigate charges against the prisoners on Thursday. Besides Mrs. Conway, who was a former policewoman, those arrested are E. D. Hogue, former fingerprint expert of the police department, Charles D. Killingsworth, deputy sheriff, of Sulphur Springs, Byrd Conway and son, Mrs. Conway and Ted Albany. They were held under \$25,000 bond each.

## "Celery Feds" Play St. Cloud Thursday

The "Celery Feds" will meet the last team from St. Cloud at the local Ninth Street Park next Thursday afternoon at 4 o'clock. It was definitely announced today.

The locals won over the St. Cloud team last Thursday at that place but the defeated team threatens to give Sanford a drubbing in the second game if the Sanford players are not top in the notch.

Manager C. A. Whidden asks that the team win.

## SENATORS WIN FOUR GAMES OF SERIES IN ROW

Cobb Makes Unassisted Double Play to End Detroit-Philadelphia Game—Yankees and White Sox Win

WASHINGTON, July 16.—Walter Johnson held Cleveland to five hits Tuesday and Washington scored its fourth straight win of the five-game series, 4 to 2.

Score by innings:  
Cleveland ..... 000 001 010—2 5 1  
Washington ..... 200 002 00x—4 8 1  
Covaleski and Myatt; Johnson and Ruel.

Detroit 11; Philadelphia 9  
PHILADELPHIA, July 16.—Detroit came from behind and beat Philadelphia Tuesday, 11 to 9, in a hard hitting contest. Seven pitchers were used during the battle.

In the third inning the Athletics had seven straight hits off Collins and Holloway. In the ninth Cobb made an unassisted double play to end the game.

Score by innings:  
Detroit ..... 004 041 020—11 16 0  
Philadelphia ..... 005 400 000—9 11 2  
Collins, Dauko and Basser; Burns, Meeker, Harris, Rommel and Perkins.

NEW YORK 5; St. Louis 4  
NEW YORK, July 16.—The New York Yankees made it four out of five from St. Louis here Tuesday, winning the last game of the series 5 to 4. The game was held up for 15 minutes in the eighth inning by a protested or suspended game.

With Dugan on third, Ruth on first and none out, Meusel hit a low liner to left, which Bennett scooped in a low bound. Dugan scored and Ruth reached third. The St. Louis club claimed that Bennett caught the ball and Ruth was doubled off first. This claim was sustained by Evans, who ruled both Meusel and Ruth out. New York took the protest to Owens, the base umpire, who stuck to his original decision that the ball had not been caught, and Meusel and Ruth were returned to the bases.

St. Louis refused to take the field after that for seven more minutes. The decision cost St. Louis the game, as New York scored the run after play was resumed. Williams of St. Louis turned his right ankle and gave way to Bennett.

Score by innings:  
St. Louis ..... 110 000 200—4 10 0  
New York ..... 010 100 03x—5 9 1  
Shoaker, Bayne and Severoid; Hoyt, Mammarux, Gaston and Schang.

Chicago 8; Boston 6  
BOSTON, July 16.—Chicago cleaned up the three-game series with Boston by winning Tuesday 8 to 6. Fuhr was hit hard and so was Leverette, but the hitting of Mostil and Eddie Collins helped to make up the winning margin for the visitors.

Score by innings:  
Chicago ..... 004 010 201—8 12 4  
Boston ..... 100 003 200—6 10 1  
Leverette, Lyons and Grabowski; Fuhr, Murray, Fullerton and Heving.

## Polk To Decide Golf Championship Soon

LAKELAND, July 16.—The golf championship of Polk county is to be decided in an inter-city tournament that will begin at Winter Haven next Thursday, July 17. It is announced here. Teams participating in the play will be made up of ten men each representing Bartow, Winter Haven and Lakeland, and will compete on the following schedule:

July 17, Winter Haven at Bartow; July 24, Winter Haven at Lakeland; July 31, Lakeland at Winter Haven; August 21, Bartow at Lakeland. A trophy cup will be presented the winning team and will be competed for each summer until, was three consecutive times, when it will become the permanent property of the winning team.

## RED SOX BLANK BOSTON BRAVES 7 TO 0 TUESDAY

Giants Defeat Chicago Cubs 9 to 4—Dodgers Win Over Cardinals—Pirates Trim Phillies

CINCINNATI, July 16.—Cincinnati made it two out of three from Boston by shutting out the Braves for the second consecutive time and winning the last game of the series Tuesday, 7 to 0. Lucas was knocked out of the box and Cooney also was hit freely.

Score by innings:  
Boston ..... 000 000 000—0 7 3  
Cincinnati ..... 013 011 10x—7 13 0  
Lucas, Cooney, Wilson, North and Gibson; Mays and Hargrave.

NEW YORK 9; Chicago 4  
CHICAGO, July 16.—Hard hitting and the wildness of Ken in the seventh gave the New York Giants the final game Tuesday with Chicago, 9 to 4. Nehf, relieving Dean in the fifth, held the Cubs safe excepting for a homer by Hartnett in the 7th. Kelly and Dean also contributed home runs.

Score by innings:  
New York ..... 100 012 500—9 4  
Chicago ..... 000 030 100—4  
Dean, Nehf and Snyder; Kauffmann, Keen, Wheeler and Hartnett.

BROOKLYN 7; St. Louis 4  
ST. LOUIS, July 16.—The Brooklyn Robins hammered Sothorn and Bell from the start and the visitors defeated the Cardinals Tuesday 7 to 4 in the final game of the series. Hornsby increased his season home run string to 11 by slugging out circuit drives in the sixth and eighth innings. No one was on base either time.

Score by innings:  
Brooklyn ..... 520 000 000—7 11 0  
St. Louis ..... 000 002 011—4 10 0  
Roberts, Doak and DeBerry; Sothorn, Bell, Sherdel and Vicks.

PITTSBURGH 3; Philadelphia 1  
PITTSBURGH, July 16.—Pittsburgh made it three out of four in winning the final game of the series from Philadelphia Tuesday 3 to 1. Smith, obtained this week from the Boston Nationals, made his first appearance behind the plate in a Pirate uniform.

Score by innings:  
Philadelphia ..... 000 100 050—1 6 0  
Pittsburgh ..... 201 000 00x—3 9 0

CARDUI  
The Woman's Tonic  
I felt better after my first bottle. I had a better appetite. It seemed to strengthen me and build me up. I am so glad to recommend Cardui for what it did for me. I haven't needed any medicine since I took Cardui, and I am feeling fine.  
Nervousness, restlessness, sleeplessness—these symptoms so often are the result of a weak, run-down condition, and may develop more seriously if not treated in time.  
Take Cardui. Sold everywhere.
