

WILL BUILD PAVILION ON SHORES LAKE MONROE WORK STARTS AT ONCE

Contractors and Men Will Donate One Day's Work

WHITE WAY ADDED

THAT WILL INCLUDE NINETEEN POSTS AND SIDEWALKS AND STREETS WILL BE BUILT

The Tourist and Convention committee of the Chamber of Commerce met at the Hotel Valdez last night and went carefully over the plans for the pavilion that will be built on the lake front at the foot of Park avenue. Several of the contractors were present and promised to donate as many of their men as they could spare for one day's work free on the pavilion the men having agreed to do this after their regular hours. The business men of the city will either donate the supplies, any or all of them, or will make special cheap prices on all of the materials and the pavilion promises to be built very cheaply and very well for the carpenters will make it as attractive as possible. The pavilion will be 40x80 feet and will serve as a place for the tourists and visitors to rest and recreate on the shores of our beautiful lake and will also serve as a band stand for concerts and as a general meeting place for the whole city. It was decided last night to floor the pavilion provided that sufficient funds could be collected aside from what the Chamber can give and provided a special committee for that purpose can raise the money. The pavilion will be built of palmetto logs and cypress and will be on the rustic order and will do very well for the purpose until the city will be able to erect a concrete or stucco building later. J. D. Hood, of the Lakefront Improvement Co., is lending his co-operation and that of his company and is furnishing the palmetto logs and will assist in the great work of improving the lake front by building sidewalks, streets and putting in a white way.

The Clyde Line and other property owners affected have promised to do their part in street and sidewalk building and the white way and this means paved streets and sidewalks and a white way from the court house to the lake on Park, from Park to Palmetto on the lake front and from the Clyde dock to Wight's grocery on Palmetto making nineteen white way posts in all.

This will also include parkways, ornamentals and trees and shrubs and flowers and a real lake front with all the improvements and a nice pavilion to allow the visitors and the home people a chance to rest and to enjoy the band. City Manager Ryan was present at the meeting and promised to investigate the improvements on the city dock and Manager Morse, of the Southern Utilities Co., promised his help on the white way projects.

The great spirit of co-operation among the carpenters and contractors and the city and the Utilities Co., and the Woman's Club and other organizations in this great work started by the Chamber of Commerce shows the spirit that is building a great city here.

California Police Are Looking For Missing Arbuckle Witness

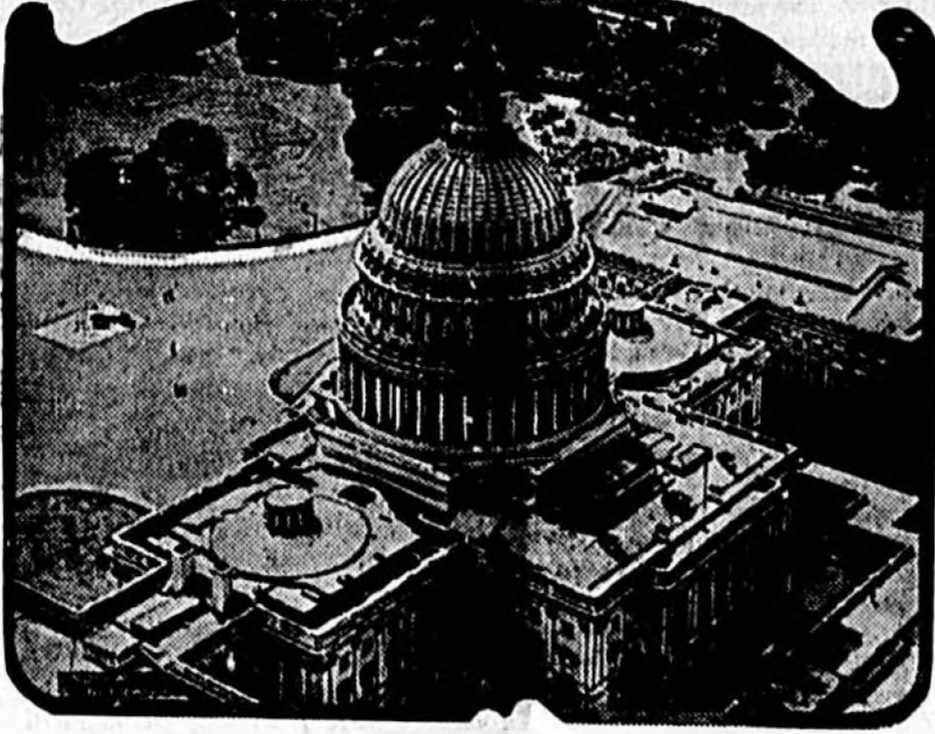

Was Among the Guests at the Party When Miss Rappe Died

(By The Associated Press) SAN FRANCISCO, Nov. 4.—California police today were requested to find Alice Blake, one of the main witnesses for the state in the manslaughter charge against Fatty Arbuckle due for trial November fourteen. Miss Blake, who was among the guests at Arbuckle's party in a local hotel here Labor day, has disappeared.

"The guy that's always kicking 'Bout what other folks should do, is the one that's always missing when his turn to do is due."

ORDER SPECIAL INVESTIGATION INTO WATSON'S CHARGES REGARDING SOLDIERS.

(By The Associated Press) WASHINGTON, Nov. 4.—A new resolution ordering a special committee to investigate charges of Senator Watson regarding the treatment of privates in the American expeditionary forces, was adopted unanimously by the senate today.

It also adopted another resolution authorizing the committee to subpoena witnesses and documents, but left unsettled the question as to the exact charges of Senator Watson, which were to be investigated.

LOYD GEORGE HAS HOPES OF BEING HERE

TO TAKE LEADERSHIP OF THE BRITISH DELEGATION AT CONFERENCE

(By The Associated Press) LONDON, Nov. 4.—Prime Minister Lloyd George still hopes it will be possible to carry out before long his intention of going to Washington and taking the leadership of the British delegation at the armament conference, declared Austin Chamberlain, government leader, in the House of Commons today.

BOLSHEVIKS NOT BOUND BY ARMAMENT CONFERENCE CAN DO AS THEY PLEASE.

UNITED STATES WILL GO LIMIT DISARMAMENT

WILL PRESENT CONCRETE PLAN AT BEGINNING OF THE CONVENTION

(By The Associated Press) WASHINGTON, Nov. 4.—The policies and program of the American delegation to the armament conference are beginning to assume definite outline and if the expectations of official Washington are realized the opening days of the conference will see a sequence of developments something like this:

Presentation, at the outset, of a concrete American plan for far-reaching reduction of naval armament.

Consideration, along with this plan, of such troublesome problems of the Far East as may naturally project themselves into the picture.

In the meantime an effort by the United States to keep the negotiations in the open so that public opinion may exert its pressure toward practical accomplishment.

Salient features of the American naval armaments proposed already have been established, and although details remain to be fixed, there is reason to believe the reductions suggested will be sweeping enough to convince the whole world that the United States meant business when it called the powers into conference.

It would cause no surprise if the leading naval powers found it necessary to submit the plan of this government to long and careful study before they determined on their course

CLASH IN THE SENATE OVER WATSON'S CHARGES OF SOLDIERS BEING HANGED

Without Trial in France—General Pershing Says Outrageous and Untrue Accusation

(By The Associated Press) WASHINGTON, Nov. 4.—Another clash in the senate today over Senator Watson's charges that American soldiers were hanged without trial in France. Watson told the senate his charges that twenty-one men were hanged was based on a statement of a soldier who said he had seen the gallows and had been told by a scaffold guard that number was hanged. The clash was between Edge, of New Jersey, and Watson. Edge opened with severe criticism of the Georgia senator for attempting to place in the Congressional Record yesterday a

photo of the gallows said to have been used by the army in France.

The committee favorably reported the resolution authorizing a special committee to inquire into Senator Watson's charges.

NASHVILLE, Nov. 4.—"It is the most outrageous and untrue accusation that could possibly be made and General Pershing said here today in his absolutely without foundation," reference to Watson's charge that American soldiers were hanged in France without trial.

PUTNAM INN DESTROYED BY FIRE THIS MORNING, ONE OF DELAND'S BEST

Guests Were Rescued With Difficulty—Many Lost Their Personal Effects

(By The Associated Press) DELAND, Nov. 4.—Several guests were rescued with difficulty, others lost all their personal effects when Putnam Inn was destroyed by fire here today with a loss of \$65,000 to the building and contents. All guests escaped without injury. The flames originated shortly before 9 o'clock in the furnace room and leaping upward through the elevator shaft, the three story frame structure was ablaze on all floors when the fire apparatus ar-

rived. One motor truck of the Daytona department made the twenty-two mile run to Deland but arrived too late to assist. V. H. Reed, an aged guest on the second floor, was bedridden, but the firemen rescued him. His nurse, Miss Eva Huff, of Danville, Ind., was rescued a few moments previously. The inn was erected in 1885 and was a landmark of this section. The management said \$40,000 insurance was carried.

Ship by Water Movement Made This Work Necessary

WORK WILL START

NEXT WEEK AND NEW BUILDING WILL GIVE CLYDE LINE TWICE THE WAREHOUSE SPACE

As a result of the efforts of the Florida Water Traffic League the ship by water movement has gained such a momentum and so much freight is being consigned and being shipped by the Clyde Line that their freight house here will have to be doubled.

Contractor S. O. Shinholser, of this city, has the contract to build at once an addition to the present freight house of the Clyde Line here at the docks that will give the Clyde Line twice as much space for the freight that is now being shipped here.

The Clyde Line built new buildings and docks here several years ago and thought they were building with a capacity that would take care of the freight for many years to come. Their present quarters were large enough until the ship by water committee of the Sanford Chamber of Commerce started the water traffic to moving and the large addition to the Clyde docks in this city is the result.

The Clyde Line has ever been ready to meet the shippers more than half way and not only will they enlarge their facilities here but they are also putting on a daily service on the St. Johns river in a few days. The work of the new dock and warehouse will begin at once and the driving of piles will start next week.

ERIE RAILWAY LOSES MILLIONS BY BIG FIRE

WEEHAWKER PIERS LOADED WITH FREIGHT GOES UP IN SMOKE

(By The Associated Press) WEEHAWKEN, N. J., Nov. 4.—The Erie railroad's Weehawken piers and waterfront yards laid waste early today by one of the most spectacular fires the metropolitan area has witnessed in years. Five piers, all heavily laden with freight, a five story flour warehouse, thirty loaded barges, thirty loaded freight cars, five loaded oil tank cars were destroyed. Early estimates placed the loss from one million dollars up. Fire was discovered shortly before midnight and within an hour had swept over nearly half a mile on the waterfront illuminating the sky line for miles around.

WHEAT BACK TO OLD TIME NORMAL PRICE OF AN EVEN \$1 A BUSHEL.

CHICAGO, Nov. 4.—What long ago used to be considered normal was reached today by the Chicago Board of Trade—wheat at \$1 a bushel. The December delivery fell to that price, the lowest since 1915. The absence of demand rather than any unusual selling pressure characterized today's market. The dollar-a-bushel price led to comparisons of more than double that figure that obtained during the great war and also was a reminder that the market for May delivery was down to 84 1/2 cents a bushel in 1914 and to 83 1/2 cents in 1911.

Before trading was ended December wheat declined a full cent more and closed at the bottom figures of the season, 99 cents a bushel to 99 1/2 cents, a loss of 23-4 to 21-4 cents, compared with twenty-four before. December corn closed at 44 5/8 44 3/4 cents, the lowest level touched in the last eleven years.

Member of The Associated Press

Good afternoon, Mr. Winter.

Everything picking up—even the street cleaner.

Big doings in Orlando today. The state meeting of the Rotary Clubs is taking place.

Suppose that earthquake shock at Lima yesterday shook off all the Lima Beans and the price will now go up in consequence.

Orlando is starting their new million dollar hotel. And Harry Boeman is back from New York with plans for a million dollar addition to his hotel.

It sounds big at first, but what Sanford really needs is a MILLION DOLLAR BOND ISSUE to take care of all our needs and pay off the outstanding indebtedness and put it all into one big loan, long time.

Now is the time for Sanford to start our million dollar hotel. If any place in Florida offers more to the tourists, we have yet to see it. We mean natural resources. We must supplement these with the big hotel, with golf links, with the country club, with the boat basin, with amusements of all kinds.

The many improvements contemplated in Sanford will make some of the best reading that has ever been published in the Herald. Sanford is making more improvements, contemplates more improvements and will in the future make more improvements that ever before in the history of the city. Let's go.

Our big twelve page weekly goes out to the thousands of subscribers in this and other counties, and in other countries. The Sanford Weekly Herald has a great circulation, and those who place advertisements in the weekly are surprised at getting replies from foreign countries for the weekly circulates even in Switzerland. Many daily papers abandon their weekly edition or send out the Friday edition for the weekly, but the Herald management believes there is a good field here for the weekly and makes a special effort to keep it bigger and better all the time. We are proud of the Weekly Herald that we started here in 1908, and have been with ever since. The daily has not superseded it in any way for there are many people who still cling to the old Weekly Herald and like it better than ever.

MUNICIPAL COURTESY

What is the most courteous city in America. The Roswell (N. M.) Evening News thinks it is Denver. Let a visitor ask anybody from the Sandwich man to the bank president as a question, says the News, and it will be answered promptly and courteously.

What is the cause of this enviable distinction? The admiring editor quotes a rule which is displayed in nearly all of the business houses of Denver:

"Answer all questions promptly and courteously. If you don't know, find out. Any violation of this rule will be reason for discharge."
Moreover, the Denver press, the

Denver pulpit and Denver civic institutions are always preaching the principle of courtesy. As a result of all the great cities of the country Denver is the most pleasant to visit."

The Denver citizens are probably no different fundamentally from those of other cities. Education has done it. The rule has made them think about being courteous. And—Denver has found that courtesy is profitable. It brings people to the city, and makes them feel like spending money there. That may not be the best of reasons for being courteous, but it is worth thinking about by any city or citizen.—Pensacola News.

THE INCOME TAX PUZZLE.

An originator of ingenious puzzles, some of our national legislators are entitled to the first prize. Take the income tax regulations, for example. Their puzzle intricacies have been the cause of a whole dictionary of "cuss" words.

In many cases parties have been perplexed beyond measure in their efforts to make head or tail out of the regulations. Their experience reminds one of the man who applied to a railway office for sleeping car reservations. The Memphis (Tenn.) Commercial Appeal thus relates the circumstance:

"Let me have sleeping car accommodations on the train for New York," said the man, approaching the clerk cautiously.

"For a single passenger," asked the clerk, smiling.

"No," replied the man. "I am married, but I am not taking anybody with me. A single shelf will answer I suppose."

"Upper or lower?" again asked the clerk.

"What's the difference?" asked the passenger.

"A difference of about \$4" answered the clerk.

The passenger paused, as he fumbled his money, and the clerk explained:

"You understand, of course, the lower is higher than the upper. The higher price is for the lower berth. If you want it lower, you will have to go higher. We sell the upper lower than the lower. In other words, the higher the lower."

"Why do they all ask for the lower?" asked the man.

"On account of its convenience," replied the clerk hastily. "Most persons don't like the upper, although it's lower, on account of it being higher, and because when you occupy an upper, you have got to get up to your bed and then get down when you get up. I would advise you to take the lower, although it's higher than the upper, for the reason I have stated, that the upper is lower than the lower, because it is higher. You have the lower if you pay higher; but if you are willing to go higher it will be lower."

For a time it seemed it would be necessary to call an ambulance and send the bewildered customer to a hospital.

THE PARENTS PRAYER.

I have a boy to bring up. Help me to perform my task with wisdom and kindness and good cheer. Help me always see him clearly, as he is: Let not my pride in him hide his faults. Let not my fear for him magnify my doubts and fears, until I make him doubting and fearful in his turn.

Quicken my judgment so that I shall know to train him to think as a child, to be in all things pure and simple as a child.

I have a boy to bring up. Give me great patience and a long memory. Let me remember the hard places in my own youth, so that I may help when I see him struggling as I struggled then.

Let me remember the things that made me glad, lest I sweating in the toil and strain of life, forget that a little child's laughter is the light of life.

I have a boy to bring up. Teach me that love that understandeth all things; the Love that knows no weakness, tolerates no selfishness. Keep me from weakening my son though granting him pleasure that ends in pain, ease of body that must bring sickness of soul; a vision of life that must end in death. Grant that I love my son wisely and myself not at all.

I have a boy to bring up. Give him the values and beauty and just rewards of industry. Give him an understanding brain and hands that are cunning, to work out his happiness.

I have a boy to bring up. Help me to send him into the world with a mission of service. Strengthen my mind and heart and I may teach him that he is his brother's keeper. Grant that he may serve those who know not the need of service, and not knowing, need it the most.

I have a boy to bring up. So, guide and direct me that I may do this service to the glory of God,

the service of my country and to my son's happiness. Amen.—Angelo Patri in "The Delinquent."

CONCERTED EFFORT.

Concerted effort gets the results every time.

This is clearly shown in the "ship by water" movement inaugurated some time ago by the Sanford Chamber of Commerce and taken up by the trade bodies and shippers all over this district. The result is apparent in the increased water shipments. The result is apparent in the daily sailings to the north by the steamship line and the daily boat on the St. Johns river. The result is apparent in the rumors that freight rates will be reduced. The result was even apparent in the recent strike situation when both sides realized that when ever ship by water movement grew to large proportions there would be but little left for the railroads to haul after the smoke of battle cleared away.

Our water is the greatest asset that we have here on the St. Johns river at the head of navigation. We have never thought much about it but when it was brought forcibly to our attention we rallied to the call and under the banner of the Chamber of Commerce obtained that concerted effort that every big movement takes to put it over. There is nothing gained by individual effort. There is nothing gained by standing back to let the other fellow do it. A pull altogether is what is needed and we are getting just that from our Chamber of Commerce.

WE ARE MOVING FORWARD.

Go anywhere in the city of Sanford and suburbs, and you will see the signs of a growing city. Not a bubble city or one that is on a boom, but a consistent growth. Houses being built by home people who intend to occupy them if possible or to rent them or to sell them, but built by Sanford people, who have this great faith in their own city. In the business portion you can see the same activity, and you will also note that Sanford people are building business houses. They know that the city is going forward and they have the faith in their city knowing that regardless of the amount of money spent it will return to them a hundred fold.

Let nothing stop this forward movement. Let everybody put their shoulder to the wheel and help to push. We have the greatest location in the south for a big city with everything that nature could provide to make it such. All we need is the assistance of man to make it the greatest tourist resort, the greatest business and the greatest manufacturing city in the state.

Put it over, you men of Sanford. You are doing it now. Keep it up.

HUGE CORN CRIBS ARE PLANNED BY WAR FINANCE CO.

WASHINGTON, Nov. 4.—Investigation and development of plans for warehousing corn on a large scale is to be undertaken by a committee, appointed by the war finance corporation.

Announcement of this step was made today by the finance corporation which said the proposals had the approval of Secretaries Mellon and Wallace.

"It will be recalled," the corporation said, that years ago, when there was a temporarily large surplus cribbing of corn was successfully undertaken in carrying forward the surplus. It is believed that ways and means may be found by which a considerable part of the large surplus now on hand may be safely stored and financed on a sound business basis until it can be marketed or utilized, with benefit to the farmers in the corn belt as well as to the entire nation.

"Crop records show that unusual yields do not continue indefinitely and the preservation of a surplus against a time of diminished production is in line with sound economic and financial policies.

The membership of the committee will be announced shortly, the corporation added.

The surplus of the committee, Manager Director Meyer explained, is to enable farmers to hold their corn until a fair price can be realized for the crop. The corporation, he said, plans to advance funds through the banks to the farmers on the security of corn warehouses which would enable the farmers to hold their crops for better prices.

NO WORRY TO HIM.

A father admonished his young son upon coming to the dining table with soiled hands and face—and then added: "What would you think of me if I should appear likewise?" The child promptly replied: "I'd be satisfied."

WAKE UP, MAN.

Tell us, you are advertising in the same old foolish way That your grand-dad did before you, And persist "it doesn't pay!"

Think the whole world knows your address

"Cause it hasn't changed in years," Wouldn't the paths of such logic Drive a billy goat to tears?

"Just a card" is all you care for Hidden, lonesome and unroad Like the sign upon a tombstone Telling folks that you are dead.

Wake up, man, and take a tonic, Bunch your hits and make a drive, Run a page, and change your copy, ADVERTISE and keep alive! —Smith Center, Kas., Pioneer.

BOARDING WITH ONE'S WIFE

Remarkable Plan Adopted by Shrewd Jersey Man May Have Something to Recommend It.

The story of the seventy-five-year-old Jersey man who has just renewed a nine-year signed contract to board with his wife (her age is forty-five) at a fixed figure, and not to speak to her unless the house is burning down, stirs in old-timers' minds the refrain of a favorite song of Sol Smith Russell:

Oh, Old like to know Who runs this show: Is it me or Flanagan, the lodger? But, really, there isn't any lodger in the Jersey case, nor any "star-boarder," but the husband. The children are grown up. Three sons support the mother. If the aged father pays his board, he has no further responsibility. And he has still a good job and is content. Also his wife is content.

Our reasonable guess is that she is a mighty good housekeeper, observes the Brooklyn Eagle. Nine years with no complaint possible, without contract-breaking, and a renewal at the end of the term is excellent evidence of that. There are no flies on her coffee and none in it. The steak is broiled and not fried. The bacon and chops are done to a turn. Even the hash must be edible. Beds are properly aired and carefully made up. The boarder doesn't have to wait half an hour when he wants to take a bath. Hot water is available at all hours. Smoking in your room is permitted, probably encouraged.

Perhaps the habit of speaking to a wife, or having a wife speak to a wife, or having a wife speak to a wife, is its disadvantage. It often develops acrimony, sometimes alimony. Every sociological experiment, such as the Jersey one, is entitled to be judged on its merits. The human race must live and learn by experimentation.

Daniel Boone's Mark.

That Daniel Boone, famed Kentucky hunter, made an expedition into Wayne and Lincoln county during his career is the belief of a party of lumberjacks who recently discovered the name "D. Boone" chiseled in a large rock at the mouth of a cave on Pond Fork of Four Mile creek, Lincoln county, near the Wayne line. The forms of the letters are said to correspond with the name of Boone which is found carved in the rocks of Kentucky. The rock bearing the name in Lincoln county is located in a remote and wild section.—Huntington (W. Va.) Advertiser.

Flowers Preserved in Ice.

A wreath of western Australian wild flowers recently arrived in England to be placed on the Unknown Warrior's grave in Westminster abbey. The wreath was frozen in a solid block of ice, and when the flowers were thawed they proved to be just as fresh as when they were gathered, in spite of their six weeks' journey through the tropics.

HENRY FORD'S RAILROAD

SHIPPERS GET SERVICE THAT IS OUT OF THE ORDINARY

JOHN W. RAPER, in Tampa Times

TOURING ON HENRY FORD'S RAILROAD, Nov. 3.—"Lizzie's Big Sister" is the nickname railroad workers—the men out along the line—have given it. Officially, in the records of the Interstate Commerce Commission and in the railroad guides and wherever it must be spoken of from here to the Detroit, Toledo & Ironville, it is the Detroit, Toledo & Ironville Railroad Co. In all that the eye can see along the road, from one end of it to the other, it answers the description of what is commonly known in this country as a "jerk-water railroad." But—

It's Henry Ford's railroad. And that makes it something else.

Henry Ford's railroad is the mystery of the transportation world. You hear more stories about it than a child hears about Santa Claus. But there have been no stories told about how his line is serving the shippers who use it, and to learn what kind of service Henry Ford is giving the public I made a trip over his road and questioned scores of men who transact business with his company. And everywhere the shippers were cheering Henry Ford and the Detroit, Toledo & Ironville. Can you imagine it—shippers cheering a railroad and its owner? I found, too, that Henry Ford had started bonfires under the big trunk lines that cross his little "jerk-water railroad" and were hopping around with a speed unknown to them before, to the consequent advantage of the shipper.

Bainbridge, O., tells with completeness the story of the Henry Ford railroad service. I single out this town because it has not quite 1,000 population is not a place of importance to the railroad, is dependent entirely upon the D., T. & I., its next closest railroad being the Baltimore & Ohio at Greenfield, 11 miles away. A place of this character, where there is no competition, undoubtedly makes the test of service more severe than important points where there is competition.

"Great!" Everyone of the eight shippers answered when I asked him how service was.

Here is a composite interview with these men:

"Before Henry Ford bought the road its freight service was so bad that nobody shipped anything over the road if he could help it. It was a joke. If a man ordered package goods from Columbus it came on an electric line to Chillicothe and then to Bainbridge, 20 miles, on an auto truck. And service was poor. It took two and three days and often longer for a package to make the trip. Now our shipments leave Columbus one day and arrive in Bainbridge the next. They come via the Pennsylvania to South Charleston and from there over the D., T. & I. Freight from Cincinnati now makes the trip to Bainbridge via the B. & O. and D., T. & I. in a third the time it used to take.

"I used to ship grain over the D., T. & I., and either the N. & W. or C. & O., and it took a car five to six weeks to reach salt water. Now it takes only four and five days for a car of grain to go from Bainbridge to Baltimore. It goes to Greenfield, where the B. & O. always has an engine in waiting when a D., T. & I., train with either east or westbound freight arrives.

"The B. & O. agent at Thrifton telephoned me not long ago that the road was going to time one of my cars of grain. I told him I had just finished loading it and that the D.,

T. & I. local would pick it up the next morning.

"You watch it and see if it leaves," said the B. & O. man.

"Young fellow, I don't have to watch that car," I told him, "I know that it's going to leave tomorrow morning."

The stories of the Bainbridge shippers are typical of the stories told all along the line. Take, for instance, Springfield, O. Shippers have the assurance that a car of freight will reach Chicago in from 24 to 36 hours and reach New York in 72 hours when shipped over the D., T. & I. They used to use the Big Four before Ford bought the D., T. & I., and heaven only know when a car to either point would reach its destination. Ford's road promised them efficient service and made good the promise, with the result that a heavy tonnage now leaves Springfield for Chicago over the D., T. & I., which turns it over to the Nickel Plate at Leipsic and for New York over the D., T. & I., Nickel Plate to Buffalo and Lackawanna to New York.

A manufacturer told his experience in shipping pig iron from Ironton to Springfield.

"I used to ship pig iron over either the N. & W., or C. & D. to Columbus and from Columbus to Springfield over the Big Four," he said. "I had a shipper's usual experiences in waiting day after day. Not long ago I had a car shipped over the D., T. & I. That shipment was two days in making the trip and I saved \$40 on the freight on that car. The D., T. & I. turned it over, here in Springfield to the road on which my factory is located and hanged if it didn't take that road longer to deliver it than it took the D., T. & I. to haul it from Ironton."

FLORIDA METROPOLIS WILL COVER CONFERENCE WITH FINE STAFF

The Florida Metropolis, at Jacksonville, is planning to cover the disarmament conference with a staff of the greatest living writers, according to an announcement made by Quimby Melton, vice president and general manager of the Metropolis, today.

Included in the list are I. G. Wells, Mary Roberts Reinhart, William Jennings Bryan, Norman Hapgood, Gabriel D'Annunzio, David Lawrence, Rear Admiral Fiske and others. In addition to these, the Metropolis announces, full reports of the Associated Press, the United Press, the International News Service, the Universal News Service, the Consolidated Press and the Newspaper Enterprise Association will be carried daily.

"In offering this service to the people of Florida," Mr. Melton says in his announcement, "we are trying to outdo any other southern newspaper. The coming conference is the biggest thing since the war and it is our intention to cover it in every respect. In styling itself as Florida's Greatest Newspaper the Metropolis believes it has a reputation to live up to, and is going to do it without consideration of expense in giving our readers the best news and views of the disarmament conference."

Tools and implements left in the open through the winter can be depended to deteriorate very much before the spring work begins.

DEATH OF MR. L. A. MICKEY

Mr. L. A. Mickey died at his home near Silver Lake, Sanford, Fla., at 1:38 a. m., October 23, 1921, at the age of 56 years. His death was caused by typhoid fever, connected with stomach trouble, that had affected him a number of years. He suffered great pain until about six days before his death when he became dormant and remained so until the end. He was attended during his illness by his wife, daughters, and the best medical attention of Sanford.

Lewis Augustus Mickey was born in Cumberland county, Pa., August 24, 1865, and moved with his parents, Mr. and Mrs. L. W. Mickey to Vinton, Iowa, and from there to Rooks county, Plainesville, Kansas, in 1879. He married Miss Harriette Elizabeth Combs, March 25, 1888, at Stockton, Kans. Seven children were born to them (one son died in infancy). The children living are Harold E. Mickey, of Sharon Springs, Kans.; Victor I. Mickey, of Zurich, Kans.; Faye, Flo, Dorothea Mickey and Mrs. Eula McClelland, of Sanford, Fla.

For a number of years Mr. Mickey was active in Christian work, sacrificing his own personal interests for the cause he loved. He was devoted to his family and was happy when they were happy. He moved to Sanford eight years ago, where he lived until his death.

G. E. Mickey was detained at home, and the daughter, Faye was ill with typhoid fever and were unable to attend the funeral. Besides his immediate family, he leaves seven brothers, one sister and a host of friends to mourn his loss.

The funeral services were held at the Methodist church of Sanford at 10 a. m., October 26, 1921, conducted by Dr. Walker and assisted by Dr. Brownlee of the Presbyterian church. Interment was made at the Lakeview cemetery.

RUTHLESS WORK OF HUNTERS

Lovers of Wild Life Aroused Over the Wholesale Slaughter of Large Antelope Herd.

Indignation has been aroused among those interested in the conservation of wild animals, over the slaughter by hunters of at least half the antelope in a large herd that makes its home in the open country northwest of Swift Current, Saskatchewan.

The herd lived unmolested for years and at its maximum numbered 300 animals. Hunters began to make clandestine raids on the herd last fall and kept up their depredations during the winter. At the opening of spring not more than 150 antelope were left.

Prong-horn antelope, once rivals of the bison in number on the plains of North America, have been almost exterminated. This is one of the few wild herds remaining on the continent. When the Hudson's Bay company was the sovereign power on the prairies the land which is now rapidly selling to farm settlers swarmed with antelope. Now only a few hundreds are left of the hoards.

The antelope of the United States have shared the fate of those of Canada. Except for a few fugitive bands in desert wastes all the wild antelope have disappeared. The greatest herd left on the continent is in Yellowstone park under government protection. Small herds also are flourishing in government parks in Montana and Oklahoma. Antelope are prolific and multiply rapidly under favorable conditions.

The Canadian government has been notified of the declination of the Swift Current herd by hunters and asked to take immediate steps to save the antelope from extermination.

INSIST ON CLOSED WINDOWS

Antipathy of Europeans to Anything Like Fresh Air Strikes Americans as Astonishing.

The most difficult thing for an American traveling in Europe, outside of England, is to have a window opened in the dining room of a hotel or on a train. I saw an aged French buron at Mentone enter the dining room of a hotel with two valets and a tame waiter who was engaged specially to keep out the slightest draught.

It is pretty warm in the south of France in May and the sun was striking on the glass sides of the dining room, but the buron felt a chill. The waiter went to each window and plugged up imaginary crevices with serviettes and a mallet, but still his patron called out at intervals: "Il y a un courant d'air." The two valets at his side fed him with the choicest tidbits from the table, but he was not satisfied. Just before I left the energetic waiter found a keyhole which had not been used for a quarter of a century and plugged it up.

When I was at the Krupp factory in Essen in May, the chief engineer took me from one building to another in a limousine car belonging to one of the directors. It was a very hot day and I suggested that we might have a window opened. The chief engineer tried them all without success, and then spoke to the chauffeur. He said they had never been opened since the car came from the factory. The director had only had it two years, he added.—New York Times.

Testing Values of Wood.

Nine Brazilian woods, tested at the forest products laboratory, at Madison, Wis., to determine their value for furniture, have been found to have the following characteristics: cabreuva, resistance to saw similar to American larch, no stain needed; cedro, resistance to saw similar to Spanish cedar; aniluh, similar to Spanish cedar; embuva, resistance to saw similar to birch, with dark stain would resemble walnut; ipe, resistance to saw similar to greenheart, no stain needed; jacaranda, resistance to saw similar to walnut; jatayu, resistance to saw similar to American elm, could be substituted for mahogany unstained; jacuotiba, resistance to saw similar to rock elm, could be stained to imitate mahogany; nyrilm, resistance to saw similar to greenheart, requires color; peroba, resistance to saw similar to walnut, might be used unstained in place of rosewood.—Popular Mechanics Magazine.

Misunderstood the Doctor.

Lawrence, age ten, had been slightly ailing for a few days, but not ill enough to affect his appetite seriously.

In his mother's absence, the grandmother had been carefully dieting him, much to his annoyance. Finally, in desperation, Lawrence appealed to the family physician for a list of foods he might safely eat. The physician named a long list of light foods, and Lawrence's joy was unbounded. However, the fates were against him and a "horrible conspiracy" was revealed at the next meal, when he learned that the doctor meant that not all of the list, but only a few articles from the list were to be eaten at one meal. He had anticipated a meal consisting of each and everything the doctor had named.

Ice Cream for China.

Thousands of gallons of ice cream are being shipped every month from Vancouver to China, the frozen dairy being forwarded in specially constructed containers holding about 500 gallons each. This fact was brought out in the course of an investigation to discover whether the prohibition era had any effect on the sale of ice cream and soft drinks.

They say there never was so many wild duck this early in the season as seen now on the lakes and rivers about Sanford.

A five foot diamond back rattle snake struck D. A. Mitchell's dog on the nose but the dog lived several hours, but the snake died at once from an ax in the hands of a wood chopper.

JAX PUTS \$3,000 IN BUDGET FOR BASEBALL DIAMOND.

Amateur baseball teams of the city scored a victory in the city council about one o'clock this morning when the council voted to include \$3,000 in the budget for baseball grounds for the use of amateur players. The sum, which is not considered entirely adequate for the needs, is a step in the right direction, according to those interested and is but a forerunner of what the city plans doing for the amateur when conditions are deemed more favorable.—Jacksonville Metropolitan.

MORE SIDEWALKS FOR CITY, GREAT IMPROVEMENT

FROM COMMERCIAL TO LAKE ON PARK AND PALMETTO AND SOUTH PALMETTO

Among the many improvements in Sanford is the laying of good sidewalks everywhere. The most important are the sidewalks now being laid by the Lakefront Improvement Co., on their lake front property from the court house on Park avenue to the lake shore. The Clyde Line will lay a sidewalk from the Wight Grocery Co., property on Palmetto to the Clyde Line docks and these two sidewalks will be of the greatest convenience to the people going to the lake shore on these two popular thoroughfares. These sidewalks are not being forced on the property owners by any means but the Lakefront Improvement Co. and the Clyde Line are doing this because they know the sidewalks are needed and will improve their property.

Other needed sidewalks are being laid on Palmetto avenue from Tenth street south to Thirteenth street where so many new buildings are being erected and will be a great convenience to the people living in this excellent addition to the city.

HARRIS—HURCH CASE ON AT BRADENTOWN.

BRADENTOWN, Nov. 4.—Positive identification of Mrs. Albert W. Harris of Mrs. Flora Wills Burch, as the person who shot her down on the Harris front porch on the evening of July 16, and Mr. Harris' denial of any relations with the defendant, Mrs. Burch, coupled with the sudden decision of the defense that a new angle had developed, necessitating an adjournment until tomorrow, featured the first but brief session of the trial of Mrs. Burch for shooting Mrs. Harris here today.

The morning was taken up with the selection of a jury, not as much time as was anticipated being required for this purpose, and from announcements today, it is believed the case will go to the jury by nightfall Friday.

NEW TABLE BETTERS POSTAL EFFICIENCY.

CLERMONT, Nov. 3.—H. E. Hooks, the retiring postmaster of Clermont, has a letter from the third assistant postmaster general, complimenting him upon adding to the efficiency of the postoffice department through the invention, or compilation of a table of ready reckoning in the matter of

destined to foreign countries multiply the weight of the parcel by 12, as for zone 8, above.

"There is nothing mysterious or cabalistic about the table we have compiled," said Mr. Hooks. "The figures may be found in the more complicated tables sent out by the general postoffice department governing parcels post shipments, if one will

EVERY WEEK BRIDE CLUB

Mrs. W. J. Thigpen entertained the members of the Every Week Bride Club very delightfully yesterday afternoon at her home on Park avenue, there being two tables of players.

Lovely pink roses were effectively used in decorating the rooms where the card tables were placed.

An absorbing game of bridge was played, high score among the club members was made by Mrs. J. E. Barrett, while Mrs. L. C. Kolb won the prize for having made high score among the guests. Both prizes were dainty ribbon corsages.

At the conclusion of the card game Mrs. Thigpen served oyster patties, fruit salad, sandwiches and coffee as refreshments. Those enjoying Mrs. Thigpen's cor-

play in the window of the store during the day.

At 5:30 the DeVoe factory expert, the only person who knew the actual number of bristles in the brush, announced the exact number. The task of comparing this number with the guessing was soon accomplished and the prize, a generous quantity of DeVoe Velouh Finish, was awarded to Mrs. Paul Biggers.

A new brush will be displayed in Ball Hardware Co., window tomorrow and the contest held over again to give another opportunity to those who wish to guess again. Contest blanks can be had at the store.

FORMER SANFORD MAN RECEIVES PROMOTION WITH A. C. L., AT LAKE LAND.

Effective the first of November the Atlantic Coast Line, as a consequence of the establishment on that date of a new transportation district, the Tampa division, with headquarters in Lakeland, established a new mechanical district in South Florida also with headquarters in Lakeland, this making the fourth in this state of that line. S. G. Kennedy, who, for the last three years, has been general foreman of the Lakeland shops, has been appointed master mechanic of this district with jurisdiction over all branches from Haines City south, this including the Haines City to Moore Haven branch, the Palmdale to Imokalee branch, the Lakeland to Fort Myers line, the Bartow branch, the Winston to Fort Meade branch, the Tampa Southern from Tampa to Bradentown, the Thonotosassa branch, Lakeland to Ocala passenger equipment, the Lakeland terminals, the Tampa terminals, the Lakeland and Port Tampa shops.

Mr. Kennedy's friends here and all over the Coast Line system will be delighted at his promotion.—Lakeland Telegram.

REDISCOUNT RATES CUT AGAIN TO 5-1-2 PERCENT THIS DISTRICT.

WASHINGTON, Nov. 4.—Reductions of 1 per cent in rediscount rates of Federal Reserve's banks at Chicago, St. Louis and Kansas City, and of 1-2 per cent at the reserve banks at New York, Philadelphia, Richmond, Atlanta, and San Francisco were announced today by the Federal Reserve Board.

New rates at the eight banks making reductions are as follows: 4 1-2 per cent, Chicago, St. Louis, Kansas City and San Francisco, and 5 1-2 per cent, Richmond and Atlanta.

The rates in force at the banks which have not been changed as yet are: 5 per cent, Boston; 5 1-2 per cent, Cleveland, and 6 per cent, Minneapolis and Dallas.

The reductions were accomplished through applications made by the various banks, and the directors of the Boston, Cleveland, Minneapolis and Dallas banks are expected soon to file such applications.

Condition of the reserves of the banks and the general situation in the money market were said to be responsible for the reductions.

Success of the treasury in floating its new issue of 4 1-4 and 4 1-2 per cent certificates, for which more than \$800,000,000 was subscribed to a com-

puted offering of about \$250,000,000 was indicated to have acted as a factor for the banks in determining conditions in the money markets with respect to the proper levels for rediscount rates.

The difference between hard times and good times is that man makes the opportunity instead of opportunity making the man.

TINY MORNING FROCK

Figured dainty declares a new originality, both of pattern and style in this frock of pale yellow dotted with dark green. The skirt is deeply hemmed, then stitched with a narrow green cord, to carry out the trimming of the yoke, which tries to be a waist as well. Front and back are laid in tiny plaits, while yoke and sleeves are cut in one. Medium size requires 2 1/4 yards 36-inch material. Pictorial Review Child's Dress No. 9482. Size, 4 to 10 years. computing parcels post charges. The unique table follows:

To find amount of charges to points in
Zone 1—Add 4 to the weight of the parcel, in pounds, omitting fractions of pounds, except when the fraction is in excess of one-half pound, when take next highest pound weight.
Zone 2—Same as for Zone 1.
Zone 3—Multiply weight of parcel by 4 and add 4.
Zone 4—Multiply weight of parcel by 8 and add 2.
Zone 5—Multiply weight of parcel by 8 and add 1.
Zone 6—Multiply weight of parcel by 10 and add 1.
Zone 7—Multiply weight of parcel by 12 and add 1.
Zone 8—Multiply weight of parcel by 12.

take the time to look for them. We simply took the time and dug out the combinations. Our table has no merit, except, perhaps, that it is a wonderful time-saver when we are handling numerous packages. It is compact and convenient and enables us to make the mails even when shipments are offered at the proverbial 'last moment.' I don't know that the general postoffice will issue the table for use in all offices, but I have had a very nice letter complimenting me on having added to the efficiency of the department by digging out the combinations which make up our table."

THE WEATHER

For Florida: Fair tonight and Saturday; slightly warmer extreme north portion tonight.

SANFORD'S TEMPERATURE

Old Winter came to town last night. This is Winter as we know it here. Our northern neighbors would not call it winter at 88 but according to our weather reporter there was a light frost this morning. It must have been so light that he saw it with a search light while the dew was on the pumpkin but no doubt it was there. It has been chilly today, just enough of the real winter tang in the air to make people feel good, to make them want to buy winter stuff and put the proper pep into their systems. Let's go.

Col. and Mrs. Thomas Emmett Wilson have returned from a pleasant visit of several months in the Adirondacks. They also visited New York City and other points of interest while away and return greatly refreshed by the outing. Mr. Wilson said he read about the big storm in the metropolitan newspapers and since no news was good news he knew that Sanford was safe as Sanford was not quoted in the despatches. This can be accounted for by the fact that the editor of the Herald wired that little damage had occurred in the Sanford section.

LAKE MONROE

The community center, Lake Monroe school, was a scene of gaiety and festivity Friday evening when the Halloween party, school entertainment and cooked food sale were carried out upon schedule time. Of course the crowd was present and the most of them on mask, the many different costumes typical of the characters represented. The timely ghosts, spooks, black cats, and other Halloween suggestions were much in evidence, others noted were Indians, Latin, Chinese, Japs, negroes, etc. One of the best and one worthy of special mention, was Ben Lake, as a character from Adolphus Cohen's Alabama "Nigger" stories. The make up was perfect and entire and mirth provoking in the extreme. The school entertainment opened with the grand march, and soon a line of grotesque figures clad in every conceivable costume appeared and drilled around the auditorium. The entertainment consisted of Halloween songs, drills, recitations, etc., and was well rendered and seemed to be greatly enjoyed. After the stage affair, the food sale was held. All present bought generously and fell upon the nice ham sandwiches, pies, cakes, cold drinks, etc., with gusto. Among the other attractions of the evening were the fortune wheel, the picture gallery and the shiver corner. A nice sum of money was realized from the sale of food so generously contributed by the patrons of the school in such abundance. Much appreciation and many thanks are extended the school patrons and the community at large for their kindness and their generous spirit in making the food sale possible and the Halloween party a great success.

Monday night, Halloween proper was celebrated by the young folks of the community in the usual pranks and revels. Whoops, shrieks and shouts of laughter followed the happy youngsters as they paraded forth as goblins, spooks, etc. Many of the girls disguised as boys, while boys aped the girls with skirts, ribbons, wigs, and other demonstrations of femininity. It was all great fun but a trifle alarming when the ghosts were greeted in some quarters by explosions of guns, warning to be wary.

Mr. and Mrs. A. Doyle and little son, Daniel, have returned to their home in Philadelphia after a visit to relatives here.

Mr. and Mrs. Albert Draper and son, Tom, have moved to town. Mr. Draper has been a resident of this section for several years and the community regrets his leaving.

Mr. Cruse Barnes was taken suddenly ill Tuesday, of lung trouble, and removed to the Fernald-Laughton hospital early in the morning.

Mrs. Charles Bell, who has been

confined to her home by illness, is now improving. Ernest Bell, who is also sick, suffered a relapse and is again confined to his bed.

Miss Antonette Tarbell, a popular trained nurse of Sanford, visited relatives here Sunday. Miss Tarbell has just returned from a pleasant visit to friends at Tampa.

The stork visited the home of Mr. and Mrs. Will Stafford and left a fine girl baby.

Among those who attended the Halloween party here were Mrs. John Bolly, of the West Side, Mrs. Cutts of Sanford, and Mrs. J. Dan Talbot, of the east side.

MADISON HIGH REINSTATED IN ASSOCIATION.

GAINEVILLE, Nov. 4.—Announcement was made here last night that the Madison high school team declared ineligible at a recent meeting of the board of control of high school athletics has been re-instated by the board, its action being subject to approval by the executive committee.

Madison high, which was recently turned out of the Florida High School Athletic Association at a meeting in Gainesville, has been reinstated. The action is subject to the approval of the executive board but is assured of carrying in that body.

According to the information coming from Madison that school was not given a chance to defend itself in the meeting in Gainesville. Not knowing that charges were to be preferred against it no representative was sent as officials of the school were busy with other matters from which they could not divert their attention.

The reinstatement of Madison will meet with the approval of all members of the Association because of the manner in which the school was thrown out and a number of members are said to be in favor of an apology for the board's action in putting the high on the ineligible list. The feeling in Madison is that the school has been done an injustice.

ORLANDO AND SANFORD HIGH SCHOOL TEAMS WILL PLAY HERE MONDAY.

What promises to be one of the best football games of the season will be played here Monday afternoon when the Sanford high and Orlando high will match strength at Rose Court. Orlando and Sanford started the season with a game in Orlando but both teams were new and young and on account of rain was stopped after the first half with no one actual winner. Since that time the teams have been trying to stage a return engagement and as they are evenly matched, are playing only high school pupils, are playing a clean game, and the people here are very anxious to see them at it again.

Go out Monday afternoon and help the Sanford boys win the game and help them by purchasing tickets.

Mrs. J. S. Dinkel and Miss Olive were visitors in Sanford Thursday afternoon.

NOT GUILTY OF PEONAGE.

GREENWOOD, S. C., Nov. 4.—William Bedenbaugh, farmer of Saluda county, was found not guilty of peonage yesterday afternoon by a jury in federal court here. Bedenbaugh was charged with having detained on his farm by force, Odell Brooks a young negro. In January, 1920. The defense claimed that Brooks was brought back to the Bedenbaugh farm on a warrant charging the theft of chickens. The prosecution contended that the warrant was only a subterfuge to bring Brooks back to work.

ASK FOR YOUR RECEIPT.

Subscribers to the Daily Herald should ask for a receipt when the carrier boys collect from you. It is the only protection you have in case the carrier changes or there happens to be a mistake in the account. Each carrier boy is supplied with receipt books, and is commanded to give a receipt by the Herald. See that you get your receipt at the end of each week if you are paying that way.

Dr. Wm. Kermode CHIROPRACTOR

Wishes to announce the opening of an office in Sanford for the practice of Chiropractic or Spinal Adjustments.

CHIROPRACTIC WILL HELP YOU

If you are weak, worn and nervous. Their adjustments will lead you to health. If you are nervous or fretful, if you are run down or anemic let us show you our easy natural method of correction by chiropractic adjustments. You can once more know the precious satisfaction of looking young, feeling young, and the fullness of life.

Why suffer with backache and headache all the time? Why be so nervous, weak, deficient and don't know what to do? Weak, nervous men and women make unhappy homes. Your condition irritates your children. Nine-tenths of the nervous prostration, nervous despondency, the blues, irritability and backache arise from the displacement or derangement of the spinal system. Our method of correcting the misplaced vertebrae of the spine, giving the nerves a free access to the different parts of the body, will make you feel young and the fullness of life.

Hew to the Line

Let the chips fall where they may. If you have been intending to build this year don't let a few pessimists and calamity howlers scare you away from a great opportunity. You never will have another chance to buy lumber at present prices. Experts agree that rock bottom has been reached. Use your own good judgment and start your building now. You will never regret it. We will get a better price for our lumber if you wait—but our advice is to build now.

H. G. WELLS

Has Come to America to Write His Views of the Washington Armament Conference for Readers of The Florida Metropolis

FLORIDA'S GREATEST NEWSPAPER JACKSONVILLE, FLORIDA

The Price of Bread—The Length of the Working Day—The Government Tax on Earnings—The Well-Being of the Race—The Salvation of the Country—The Education of the Children—The Fate of Future Generations—The Sacrifice of Humanity—The Destruction of Civilization—

These are just a few of the human problems that are hanging in the balance at the Washington Conference on Limitation of Armaments. Upon the outcome of this conference depends the answer to the questions which were the underlying causes of the World War and which the Peace Conference at Versailles failed to solve.

But H. G. WELLS will not be the only expert who will write of the Disarmament Conference for readers of The Metropolis. The management of Florida's Greatest Newspaper has lined up what it believes is the strongest staff of special writers to cover this big event. The following are included:

- DAVID LAWRENCE, Washington's Foremost Political Writer. WILLIAM JENNINGS BRYAN, resident of Florida, thrice candidate for president. MARY ROBERTS RINEHART, one of the world's greatest women writers. PETER B. KYNE, one of the country's greatest novelists. NORMAN HAPGOOD, REAR ADMIRAL FISKE, JAMES W. GERARD, GABRIEL D'ANNUNZIO and others.

The Metropolis will also publish the reports of THE ASSOCIATED PRESS, THE UNITED PRESS, THE INTERNATIONAL NEWS SERVICE, THE UNIVERSAL NEWS SERVICE, THE CONSOLIDATED PRESS, THE NEWSPAPER ENTERPRISE ASSOCIATION.

NO SOUTHERN PAPER CAN BEAT THIS LINEUP OF EXPERTS. NOTHING BUT THE BEST IS GOOD ENOUGH FOR METROPOLIS READERS

FLORIDA METROPOLIS, Jacksonville, Fla. Please send me The Florida Metropolis for ... months, starting with the H. G. WELLS' series. SANFORD, FLORIDA. 1 month 65c; 3 months \$1.85; Six Months \$3.75

Order the paper NOW from your news-dealer, as his supply on this important series will be limited to advance orders only or mail your check direct to

The Florida Metropolis, Jacksonville, Florida

spent Sunday with her sister, Mrs. R. W. Lawton. Mr. and Mrs. Clifton Brown have taken rooms at the Argo hotel for the winter.

Mr. John Robertson was a business visitor to Sanford Wednesday. Mr. and Mrs. Tilden Jacobs, of Monroe, spent Saturday in Oviedo.

Dr. and Mrs. C. J. Marshall, of Sanford, visited Oviedo Sunday. The Nelson packing house and the McCall packing house both began work Monday morning and have been running full force all the week.

The exchange packing house opened last week but did not run all the week, this week it has, like the others, been working full force.

Mr. and Mrs. R. W. Lawton spent Wednesday morning in Sanford. Miss Ruth Young spent the week-end with friends in Sanford last week.

GOOD CHANCE TO GO FISHING.

Mr. R. J. Holly, Editor Sanford Herald.

Dear Sir:—I have heard that you like to fish, and if you really do, here is a fine opportunity for you. You know where the Paola school house is, don't you? Well, on the twelfth (12) night of this month, at 7:30, there is going to be the best little "fish pond" there you ever saw.

As the following ladies will have charge, we are assured of a grand success:

- MRS. STAFFORD, MRS. MINCHEW, MRS. B. STENSTROM.

"A cheese that was aged and gray Was walking and talking one day; Said the cheese: 'Kindly note My mamma was a goat And I'm made out of curds, by the whey.'"

WILL BOOST HOME PAPERS

Week of November 7-12 Set for Nation-Wide Endeavor

"Subscribe to your home town paper." This is the slogan of a new nationwide movement backed by the National Editorial Association and other agencies.

The movement has back of it far more than a selfish desire on the part of newspapers to acquire increased circulation, for it is, in effect, a step toward the perfect unification of America by the strengthening of ties that bind everyone to his native soil.

The campaign is, moreover, an excellent opportunity to boost the home town. The men and women who were born and reared here, have, some of them, been away for many years and many important changes have taken place—changes in which they would be greatly interested. It is more often the case than not that private correspondence overlooks these changes, however carefully one might attempt to write "the news" in a letter.

The newspapers, on the other hand, prints all the items of interest, large and small, and is the ideal medium through which to keep in touch with in the old home town.

In order to stimulate this movement we are this week offering an extra copy of The Weekly Herald to every subscriber who calls or writes for it. This extra can be sent, with a special subscription blank which we will furnish, to any member of the family who is away from home. Or, if preferred, we will mail a copy free of charge to anyone you designate.

Office supplies of all kinds at The Herald Printing Co. When you want anything in this line see The Herald. We have it or can get it.
