

## MACDONALD IS VIRTUAL CZAR OF HIS EMPIRE

### Prime Minister Calls First Cabinet Meeting Of New Regime To Work On Finance

LONDON, Aug. 26.—(A.P.)—Ramsay MacDonald became in a manner of speaking the British dictator today as he presided over the first cabinet meeting of the new non-partisan government which is preparing to cut \$800,000,000 from budget expenditures. The program he laid out for the ministers is not much different from that he and Chancellor Philip Snowden tried to force through with the labor government.

LONDON, Aug. 26.—(A.P.)—Great Britain's new "government of individuals" took over power last night and plunged into the task of pulling the nation through its financial crisis.

The new cabinet, composed of only 10 members, was presented by Prime Minister Ramsay MacDonald to King George yesterday afternoon and received the approval of the throne. Today the members of MacDonald's old labor government handed in their seals of office and the new national government, headed by MacDonald and participated in by laborites, liberals and conservatives, held its first meeting.

After he had been present at the death of his second labor ministry, MacDonald, speaking from his official residence at 10 Downing Street, last night told the nation over the radio why it was impossible for him any longer to carry on with the labor ministers who, he said, had no common ground.

There is no danger whatever if the treatment is given, but it must be immediate. It cannot be trifled with. It is essential that the confidence of the world in our credit should be restored. Otherwise we shall not be able to maintain.

## Altamonte Editor Principal Speaker At Rotary Meeting

Frank Kay Anderson, editor of "Altamonte," a Florida magazine devoted to the advancement of the state's largest industry, was the principal speaker at yesterday's luncheon of the Sanford Rotary Club, held at the Walden Hotel.

His subject concerned the need of the Florida Clearing House, and he urged his hearers to further its advancement at all times, declaring it to be the most essential organization in Florida today. A steady increase in membership, so that the organization might be composed of practically all growers in Florida, was his hope.

## U. S. Author In Death In France

WASH., Aug. 26.—(A.P.)—George S. Messersmith, author of "The Story of the United States," died in France today. He was 65 years old. He was a member of the United States Army and served in World War I. He was a member of the United States Army and served in World War I. He was a member of the United States Army and served in World War I.

## REPORTED ILL

Edward Deale McLean, above, owner of the Washington Post and the Cincinnati Enquirer, is reported seriously ill at his home in Washington. His estranged wife, who has sued him for divorce, has rushed to his bedside.

## FEDERAL JUDGES HEARING CASE OF CITRUS RAISERS

JACKSONVILLE, Aug. 26.—(A.P.)—Three federal judges yesterday heard and took under advisement a case brought by citrus growers to test the constitutionality of the state law prohibiting use of arsenic in grove sprays.

The plaintiffs, who ask that Commissioner of Agriculture Mayo be enjoined from enforcing the law on the ground that it violates the constitution of the United States as well as Florida, are: Bernard Kilgore, Clearwater; K. D. Keene, Dunedin; L. Maxey, Frontstreet, and Ed Wells, Ardena.

Judge Nathan P. Bryan, presiding justice of the fifth district United States court of appeals; Judge Samuel Sibley, also of appeals court, and Judge Alexander of the southern Florida district court, heard the case.

Denying allegations of the complaints, state counsel, headed by Attorney General Landis, contended provisions of the law were aimed at "the prevention of fraud and the protection of health."

Plaintiff's counsel argued the act was unconstitutional, citing three reasons: Delegation of legislative authority to the commissioner of agriculture; that use of arsenic sprays does not render the fruit injurious to health and that the law sets up an arbitrary standard.

H. M. Hampton, Ocala, of plaintiff's counsel, asserted that "if the law is strictly enforced, it will annihilate the citrus industry in Florida."

On the other hand, an affidavit from Dr. Wilson Newell, state plant commissioner, set forth that the law had been prepared and passed at the request of fruit men "as a means of maintaining and preserving the integrity of the citrus industry of Florida."

## California Weather Continues To Be Hot

LOS ANGELES, Aug. 26.—(A.P.)—Weather bureau today forecast a continuation of high temperatures which visited Los Angeles and the vicinity yesterday. Surf bathing as a means of avoiding heat was made unattractive to many because of the possibility of a recurrence of rip tides.

## SLEMP TELLS ABOUT BISHOP CANNON DEALS

### Ex-G.O.P. Committeeman Is First Witness At Resumption Of Senate Inquiry

WASHINGTON, Aug. 26.—(A.P.)—The senate campaign funds committee yesterday received testimony from C. Dawson Slemp, republican national committeeman for Virginia, that he had paved the way for a \$62,500 contribution to the Virginia anti-Smith fund in 1928 by introducing E. C. Jameson, New York capitalist, to Bishop James Cannon J.

Slemp, who was secretary to former President Coolidge, was the first witness as the committee resumed its inquiry into the disposition by Bishop Cannon of the funds contributed by Jameson to oppose the presidential candidacy of Alfred E. Smith.

In his capacity as republican national committeeman, Slemp testified, he raised funds for the Virginia republican campaign. "I went to New York," he said, "and was introduced to Mr. Jameson and advised him of the campaign in our state. I did bring about a meeting between Bishop Cannon, who headed the Virginia anti-Smith committee, and Mr. Jameson."

Chairman Nye and Senator Dill, democrat, Washington, who were the only committee members present, questioned Slemp closely about a statement in a letter from Bishop Cannon to Jameson that "Slemp has already paid the quarters of his pledge." However, the witness said he had no recollection whatever of any "pledge" of contribution to Bishop Cannon. He said he contributed \$500 to the late Joseph Brady of Richmond, a district chairman of the republican organization.

He said the bishop asked him in 1927 when the senate campaign funds committee was looking into campaign expenditures whether he should govern himself by the requirements only of the federal corrupt practices act or by whatever the senate committee asked him to give any information asked of him.

Chairman Nye asked Slemp whether he consulted with Bishop Cannon at the time the churchman defied the senate lobby committee. The witness replied he had but protested that the Nye committee was "going far afield" in this line of inquiry. Senator Nye did not press the questioning in this direction.

Before Slemp testified Woodward Winburn, one of Bishop Cannon's attorneys, asked permission to present a cablegram received from the southern Methodist churchman from London protesting against the investigation. Chairman Nye of the committee held him his request would be considered later.

The protest, made public earlier in the day, charged that the committee's inquiry was a "purely personal attack by a vindictive congressman under Roman Catholic domination" and not an attempt to get information.

## Oviedo Merchant Is Confident Of Future

Anticipating a winter business which will almost equal that of the more prosperous days of 1926 and 1927, Charles L. West, pioneer Oviedo merchant and civic leader, is now busily engaged in removing his large stock of groceries, clothing and hardware from its old location into the newly decorated Lawton building on Oviedo's main thoroughfare.

Mr. West, who has recently returned from an enjoyable vacation spent at Daytona Beach, declared that he is confident that Oviedo will be one of the busiest spots in the county within the next few months. He was particularly elated over the decision of Karl Lehmann to become this county's trade body secretary and contact man. "It's the best step we've ever taken," he said.

The West store is patronized by practically all the community and residents of the surrounding communities, and has enjoyed a marked increase in business during the past several seasons.

## HOOVER, III

Herbert Hoover, III, above, grandson of President and Mrs. Hoover, has been confined to his room with a severe cold. He is under the care of Dr. Boone, the President's physician.

## BRUTAL METHODS CHARGED AGAINST CAPITAL POLICE

### Four Victims Of Mis- treatment In Jail Issue Statements

WASHINGTON, Aug. 26.—(A.P.)—Charged by four prisoners that policemen had employed brutal third degree methods in an effort to extort confessions, yesterday orders from city officials went for an investigation in which "there must be no attempt to cover anything up."

Signed statements by two of the prisoners were made public yesterday. One of them, charged with murder, said a detective had "pulled out a handful of hair" while beating him. The other said detectives beat him with their fists and threatened him with a club.

Dr. Luther Rebehrer, president of the board of commissioners of the District of Columbia, issued an order that these charges be investigated to the bottom.

If true, he said, it would appear that Washington police "are using their muscles instead of their brains."

Charges by the four prisoners were substantiated here by the report of the Washington commission, asserting its duty to lay before the public the "brutal, ugly facts" that the police, by policy of "physical brutality, illegal detention and refusal to allow access of counsel to the prisoner is common."

The first case to stir capital authorities came last Saturday, when Henry Harker, 21, charged with robbery, appeared with a black eye, bruised and cut chin, and a line of red welts along his back. He named a detective and three patrolmen as being present when he was beaten.

Judge Robert E. Mattingly of the city police court, when the youth was brought before him, said "nobody approves of such tactics, if they were used, and in view of the recent report of the Wickham commission I expect that the grand jury will go thoroughly into these charges."

## J. B. Jones Sees Less Fruit, More Celery

A short orange crop and a slightly larger celery crop are predicted in the Oviedo section by Postmaster J. B. Jones, pioneer resident of Oviedo, and member of the school board for more than 15 years.

Active in every civic improvement, and with a circle of friends that numbers every resident of that section, Mr. Jones sees prosperous times in that community as being within sight, and evidence on all sides to prove his belief. He asserted that a short orange crop this year would prove beneficial to all, and that although celery would be plentiful, Oviedo celery, because of its quality and flavor, would command fancy figures throughout the country.

Mr. Jones, a lover of the outdoors, spoke highly in favor of the surrounding territory as being one of the most beautiful sections of the county. "I can't imagine a more pleasurable afternoon than a drive through the wooded areas here, particularly near the beautiful Bronckhathree River," he said, "and I'd like to suggest to Sanford and Seminole County residents that if they are looking for something different to see, they pay a visit to our community some Sunday or Thursday afternoon."

## LUKE LEA GETS 6 TO 10 YEARS IN BANK CASE

### His Son Receives Fine Of 25,000 Dollars; President Of Bank Gets 5 To 7 Years

ASHEVILLE, N. C., Aug. 26.—(A.P.)—Col. Luke Lea, Tennessee newspaper publisher and former United States senator, yesterday was sentenced to serve from six to 10 years in the state prison upon conviction of defrauding the Central Bank & Trust company here of \$150,000.

Luke Lea, Jr., convicted with his father in the trial which has been under way here for more than four weeks, was fined \$25,000 after Solicitor John V. Nottley had made a plea for his son on the grounds of his age, 21, and the fact that he was merely doing as instructed by his father.

Wallace R. Davis, president of the bank, who already faces a five to seven-year sentence in connection with its failure, was given four to six years in prison. E. P. Charlet, business associate of the Leas, was acquitted by the jury and discharged by the court.

Judge M. V. Barnhill passed sentence yesterday after over a week of defense motions for a new trial. Notice of appeal was given on behalf of the defendants and they were given 90 days in which to perfect their appeals.

Colonel Lea, one time commander of an artillery regiment in the World war, appeared to lose some of his color when the jury returned its verdict yesterday morning at 11:15 o'clock. The jurors had received the case Monday afternoon at 1:25 o'clock.

A crowd of spectators stood in silence as Judge Barnhill passed sentence. Mrs. Lea, who had been sitting near her husband, side during the trial, showed the effects of strain.

The defendants were tried on six counts of conspiracy to defraud the bank and one count of misappropriation of its funds pursuant to the conspiracy.

The Leas were convicted on four counts and Davis on three, but Judge Barnhill, who presided over the special term of superior court called by Gov. O. Max Gardner to try them, set aside the verdict on the count in which the Leas alone were convicted, as it charged conspiracy of which they could not have been guilty, the judge said, except in connection with an officer of the bank.

They were sentenced as follows: First count, charging conspiracy to misapply \$100,000 worth of the bank's certificates of deposit to Davis, two to three years; Luke Lea, three to five years; Luke Lea, Jr., fined \$10,000.

Fourth count, charging conspiracy to misapply \$100,000 worth of certificates of deposit—Davis, two to three years, to be served at the expiration of the first term; Luke Lea, three to five years, to be served likewise; Luke Lea, Jr., to pay Buncombe county \$2,000 towards the costs of the case.

## AT JOURNEY'S END

Colonel and Mrs. Charles A. Lindbergh, the avia vacationists who yesterday afternoon set their points on the Lockwood Stratum, following a long trip across the waters of Tokyo bay, after a leisurely 2122 mile trip across the barren wastes of Canada and northern Siberia. They are shown in front of their plane on their arrival, where they were given a tumultuous ovation.

## TOKYO CROWDS HAIL LINDYS ON THEIR ARRIVAL

### Surging Throngs Are Held Off Noted Pair With Big Difficulty By Battling Police

TOKYO, Aug. 26.—(A.P.)—Men, women, and children fought police here today in a wild scramble to get a glimpse of Colonel and Mrs. Charles Lindbergh. The famous couple entered Tokyo by train this evening after landing at Kasumigaura naval base 50 miles distant.

Several times while the liners were being steered in limousines the crowd became unmanageable and for a time it looked like the Lindberghs would be overran. Col. and Mrs. Lindbergh today reached their official terminus of their 7100-mile flight from New York landing at Kasumigaura naval base and a throng of cheers.

The hop was 614 miles from Norway. The Lindberghs stepped ashore after landing their seaplane to receive the first official greetings from Atsuna Abe, minister of the navy.

The crowd surged forward hoping for a close-up view of the famous couple but sailors held it back. Admiral Abe praised Lindbergh for his flight across the Atlantic in 1927 and, smiling, paid tribute to Anne for being the first woman to fly across the North Pacific.

## LIBRARY REPORT LEHMANN MAKES FOR YEAR CLOSED ROSY PREDICTION IS GIVEN TO CITY FOR THIS COUNTY

### Records Disclose Its Most Active Season Since Inauguration

Although closed for its open top were curtailed and the office of assistant librarian absorbed at the institution of the city's economy program some months ago, the Sanford Public Library, under the management of Mrs. Elsa H. Knight, had the most active year in its history, a report to the city commissioners revealed today.

The library's fiscal year ended June 30, 1931, and during the year ending on that date, 50,000 books and magazines were loaned to the nearly 2500 subscribers. That figure was an increase of nearly 1900 over the circulation during 1929-1930.

Mrs. Knight's report to the commissioners reads as follows: "I have the honor to present herewith my second annual report as librarian of the work done at the Sanford Public Library for the year ending June 30, 1931.

"We are indeed proud of this year's work considering the many handicaps, two of the principle ones being lack of funds, and the dismissal of the assistant, as the past year has been the most active one in the history of the library. During the twelve months ending June 30, 1931, 50,000 books and magazines were loaned, whereas the circulation for the preceding year was 32,626.

"The total number of members is 2735. Of this number, 1931 are adult, 802 are juveniles, and 11 non-resident. Not included in this were nine temporary resident cards.

"It is difficult to estimate the exact number of books in the library. (Continued on Page Two)

## Cary Landis Will Get Assistance In Gas Tax Litigation

GAINESVILLE, Aug. 26.—(A.P.)—Members of the small county club fighting the suit against the 1931 gasoline tax distribution are informed that legal aid had been employed for Attorney General Cary Landis.

The firm of Cooper, Adair, Knight, Cooper and Osborne of Jacksonville has been employed by assistant R. A. Henderson, who said the attorney general had him at Tallahassee but he decided not to press for a continuation of the hearing which has been set for Friday before Judge E. C. Lova.

More than 150 county commissioners and legislators from throughout the county are attending the meeting here today. John E. Matthews, Duval county legislator, seeks to test the constitutionality of the new law. The act covers six of the present seven cents of the gas tax.

## Agricultural Club To Meet Tomorrow

Arthur M. Smith, who is connected with the Synthetic Nitrogen Corporation will be the principal speaker at the Seminole Agricultural Club meeting to be held at the Seminole High School tomorrow night at 8:00 o'clock.

Mr. Smith is director of the research department of the southeastern states, and is in charge of all crop research work for his company. For eight years he was soil chemist at the Maryland State experiment station, later becoming affiliated with the Florida State experiment station. At one time he was soil fertility expert at the University of Illinois.

His subject will be "Plowing Under of Cover Crops." He will base much of his talk on several years' experience as an experimenter in that branch of farming, and will use considerable material from booklets and bulletins he has written.

## Conner Is Elected Mississippi Chief

JACKSON, Miss., Aug. 26.—(A.P.)—"Mike" Conner, 40, won the governorship in yesterday's runoff primary by a majority which may reach 25,000 over Hugh White millionaire lumberman. Conner took a commanding lead from the outset of the count. It is really a democratic nomination which is tantamount to election in this state.

EX-GOVERNOR DIES  
LOUISVILLE, Ky., Aug. 25.—(A.P.)—Former Governor Augustus Everett Wilson, 84, died at his home here yesterday after an attack of pneumonia. He was elected governor in 1907.

## DOX REACHES NORFOLK

NORFOLK, Aug. 26.—(A.P.)—The DOX arrived safely from Charleston where it went yesterday from Miami after linking four Atlantic continents by air. Plans called for a stop here last night and resumption of the journey to New York tomorrow.

Prof. East, Harvard university, predicts that population of the United States will become stationary at 200,000,000 before 2000 A. D.

# OH YEAH?

By PETER SCHAALE

The first day's battle for the National League ended without a decision yesterday when the Giants and Cubs split a double bill. Bob Smith, aided by some timely hitting, smothered the Giants under an 8 to 4 score in the first game. The Cubs got five and three runs in the fourth and fifth frames, sending Mitchell, and Parmelee to the showers. Terry, Hartnett, and Ott hit homers. . . . The second game was bitterly fought and tensely played, ending in a ninth inning win for the Giants who put over one run making the score, 2 to 1. Terry, whose homer had scored two runs in the fifth, was the hero. First baseman allowed the Cubs to get five hits, while the Giants got 8 off Bush.

Goose Goslin's 20th homer of the year was the only thing that prevented Roy Mahaffey from scoring a 5 to 0 shutout over the Browns, as he won his 14th game of the year. The Athletics are now 14 and one half games ahead of anybody, coasting along so regally. The Macks got 11 hits off Gaby and Braxton. Mickey Cochran was not in the line up, having been granted a 10 day vacation by the old fox, to sort of get himself in shape for the series.

With Red Sweeney getting five hits in six tries for the Red Sox, and Johnny Burnet getting four out of five for the Indians, you might expect that plenty of slugging was done in their game yesterday. There was. The Indians got 15 hits, the Red Sox 16, in a battle of hits which resulted in a 11 to 7 Indian win. Eddie Morgan got his 10th homer of the year. Two of Burnet's hits were doubles.

Had up for six long innings, Dan Alexander doubled for the Tigers in the ninth to score Stank, and the Tigers beat the Senators 6 to 5 after some mighty exciting playing. It was another two hitting game, the Tigers pushing over 14 hits in winning, including Johnson's homer. The Tigers came from behind in winning too.

Lefty Gomez won his 17th game of the year for the Yanks who defeated the White Sox 5 to 3. They made 17 hits too, with Babe Ruth getting four for four, including his 37th homer of the year, putting him three up on Lou Gehrig. It was the Yanks' sixth straight win, the longest winning streak they have put over this season. At present they are trying to knock out the Senators out of second place, and if Babe and Lou keep going as they have during the past few days, they'll do just that.

Just to be different, as well as let you fans in on some early season information, glance at this list of my idea how the University of Florida is going to come out

## TRUCK GROWERS BEATEN BY CHASE AT DIAMOND BALL

### Interesting Contest Last Night Ends In 14 To Nine Victory

By E. H. CULLUM.

Chase & Company defeated the Sanford/Oviedo Truck Growers diamond ball team last night 14 to 9 in one of the most interesting games played this year.

W. Kinlaw was on the mound for the Truck Growers and up through the fourth inning the Truck Growers were in the lead, the score at the end of the 4th being 6 to 3 in their favor. In the fifth inning, Lake first up for Chase, hit one to short who fumbled the ball, Lake safe on the error; Dennis struck out; Bryan secured his base on balls; Spencer hit to short, who again fumbled the ball but finally made the play to get Bryan safe, Lake scoring; Corderl hit for the circuit, bringing in Citter and Ravenel ahead of him, Stine struck out to end the inning, total six runs Chase added one more in the 6th and four in the 7th to bring their total for the evening to 14.

Bryan pitched for the winners, and with the exception of the first inning did not have much difficulty in curbing the Truck Growers. Knight, first up for the Truck Growers, hit a high fly to center field which McLellan let get away from him, Knight circling the bags for the Growers' first run; Rutledge popped out; Tillis and Bolly walked; Thurston struck out; Kinlaw hit a two bagger, bringing in Tillis and Bolly; Moss got life through an error, as also did Pippin, Kinlaw scoring. Wilkins popped out, the inning ending with 4 runs to the credit of the Truck Growers. They added one in the second, one in the 4th, two in the fifth and one in the seventh, bringing their total to 9.

The Truck Growers got only 5

hits in its games with various foes this fall. Without reading any of this pre-season press stuff that is sent out by the various college publicity agencies, and relying solely, (I've found that they go farther than picking teams on form), I predict the following scores:

Florida	24	N. C. State	6
Florida	18	North Carolina	6
Florida	13	Syracuse	7
Florida	24	Auburn	12
Florida	13	Georgia	10
Florida	12	Alabama	12
Florida	21	S. Carolina	6
Florida	24	Ge. Tech	13
Florida	14	California	7
Florida	18	Kentucky	12

In other words, I pick Florida to win the conference honors this year. Laugh that off. Seriously, I can't see that there is any necessity in worrying over the usual leaders, Alabama, Tennessee, Vanderbilt, Georgia Tech, and North Carolina. Only one, Georgia, needs worrying over, but you know darn well that those Gators will never let the Bulldogs walk away with a victory in their new bowl. Let's have some predictions from you fans.

## HOOVER GIVEN REPORT TODAY ON U. S. CRIME

(Continued From Page One)

The internal revenue bureau and the prohibition bureau were planning to move together on criminals, following word from President Hoover's Rapidan camp. Federal Attorney Medalla will direct this offensive. Dozens of government agents are already working on the accounts of gangsters and racketeers, with the hope of striking at the gunmen's leaders through charges of income tax frauds.

Two patrolmen slain in Friday's 6-mile gun fight with two reckless young bandits were buried with honors usually accorded only and Chase and with both teams going into the affray with the grim determination of winning the game tonight should be the most interesting one that has ever been played on the local lot.

## HOOVER GIVEN REPORT TODAY ON U. S. CRIME

(Continued From Page One)

At the hier, a police chaplain in his eulogy said they had died like "soldiers on a battlefield, heedless of the sacrifice they were making for the public weal."

The youngest victim, Gloria Lopez, 3-year-old daughter of a fireman, will be buried today. One of the two men executed by police bullets as the chase came to an end was buried secretly Sunday, an undertaker disclosed last night.

A strange story of a gunman so anxious to see his victims die that he stepped into the line of fire of his own execution squad was told by Brooklyn police yesterday as they attempted to explain a shooting Sunday night which at first had seemed like a gang massacre.

After an all night investigation detectives filed a homicide charge against Murray Leonard, 21-year-old ex-convict.

## NOTICE OF APPLICATION FOR TAX DEED UNDER SECTION 323 OF THE GENERAL STATUTES OF THE STATE OF FLORIDA

Notice is hereby given that FAY DONNELL, purchaser of Tax Certificate No. 1121, dated the 15th day of July A. D. 1927, has filed in my office, and has made application for tax deed in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit:

Lot 31, Block 21, Addition to Black Hammock, Colours Brothers Co's Addition to Black Hammock. The said land being assessed at \$100.00. The date of the assessment of such certificate in the name of Florida State Co. Union said certificate shall be redeemed according to law tax deed will issue thereon on the 15th day of Sept. A. D. 1931.

Witness my official signature and seal this 15th day of July, A. D. 1931.

V. E. DOUGLASS, Clerk Circuit Court Seminole County, Florida. By: A. M. WEEKES, Deputy Clerk.

NOTICE: Notice is hereby given that the Board of County Commissioners of Seminole County, Florida, will offer for sale in the highest bidder, the tract of land, located near Oviedo, Fla. to be received at their next Regular Meeting to be held on
