BORAH PROPOSED TO OFFER AMENDMENT TO BILL SHOULD NECESSITY ARISE

BUT MEANTIME HE WILL WITHHOLD HIS PROPOSAL FOR CONFERENCE AS AN AMENDMENT

In Other Words It Will Be a Club to Use on Senate If they Fly the Track

(By The Associated Press) privately stating that he was prepared to offer it as an amendment to some other bill should the necessary arise, Senator Borah's decision to withhold the proposal for an international economic conference as to an amendment to the naval appropriation bill was regarded today as having finally disposed of it and settled the immediate issue which has held the senate in its grip nearly a week. Borah's announcement that he would withhold the proposal came as the climax of a administration assurance has been given by Senator Watson that the president was already sounding out the situation.

WASHINGTON, Dec. 30.—The fight over the proposal of Senator Borah that President Harding call an economic conference came to a sensational climax in the senate yesterday when the Idaho senator announced that he would withhold his proposed amendment to the navy appropriation bill on the administration assurance given by Senator Watson of Indiana that the president already was sounding out the situation in a way which might lead to some movement which would aid in the adjustment of conditions prevailing in Europe.

Senator Borah made known his decision during the debate after Senator Watson, one of the administration spokesmen, who was instrumental in lining up the administration forces in opposition to the proposal, appealed to the Idaho senator not to press his proposed resolution for substantially the same reasons as outlined in President Harding's letter of Thursday.

Senator Watson disclosed that administration "feelers" had been made as to European policy and referred to the statement in President Harding's letter that it was necessary first to conference would be "welcome."

"And I go so far as to say," said the Indiana senator, "that that has been done and that the things that have been undertaken may, if successfully continued, go so far as to result in the holding of a conference in the future."

Senator Watson then suggested that Senator Borah withhold his proposed amendment on the ground that the administration's course would be embarrassed.

Senator Borah asked whether the administration's "negotiations" were for the purpose of calling "this conference."

"No, not negotiations," Senator Watson replied. "What I said was that 'feelers' had been put out; that the foreign nations were being sounded with a view to finding out whether the United States may be helpful, and that in my opinion it might lead to a conference; that I had no authority whatever to say that. I speak purely for myself as an individual and give my personal views, representing the opinions of nobody in authority. At the same time, I am not entirely ignorant of the fact that these feelers have been put out just as the president in his letter states."

The administration position was further emphasized by Senator Lodge of Massachusetts and Senator McCormick of Illinois. The former declared that American ambassadors and ministers had been most inquiring as to the possibility of American action and contended that Senator Borah's amendment if adopted, would be harmful to the administration's efforts. Senator McCormick referred to negotiations for the Brussels conference but remained silent when Senator Borah pressed for information as to whether the United States proposed to participate in that conference.

MAN ACCUSED OF COMPLICITY IN MURDER

CASE IN LOUISIANA WILL BE RETURNED ON TUESDAY

(By The Associated Press) BALTIMORE, Dec. 30.—Special Deputy Calhoun of Morehouse Parish who has with him requisition on the governor of Maryland for the return to Louisiana of Dr. B. M. McKoin, is expected to arrive tomorrow. Owing to the holiday Monday it is believed Governor Ritchie will not act on the case until Tuesday.

Dr. McKoin is reported to be suffering from an attack of bronchitis at the city jail this morning. He was ordered to bed by the jail physician, who issued instructions that visitors be denied the patient, who was not, however, regarded as seriously ill.

FEDERAL CONTROL OF FUEL DISTRIBUTION EXTENDED A MONTH

WASHINGTON, Dec. 30.—President Harding has decided to continue the existing federal control of fuel distribution for at least another month, it was announced yesterday at the white house. Though Conrad E. Spens, the present head of the office has resigned and sent in a final report to the president upon the emergency measures taken since the end of the coal strike to assist the country in getting a coal supply, an organization will be maintained to continue such distribution activities as are considered still necessary and to act as an assurance against any stringency in the near future.

The bituminous coal supply of the country, Mr. Spens said, can be considered with no likelihood of shortage if weather conditions do not seriously hamper railroad operations.

TO DRAW STRAWS FOR CHIEF JUSTICESHIP

TALLAHASSEE, Dec. 30.—Justices of the Florida Supreme Court will observe the time honored custom and draw straws for the chief justiceship when the court reconvenes January 2. Chief Justice Jefferson B. Browne, who will relinquish the office when his term expires January 1, was re-elected and will draw with the other members.

The chief justice serves as such until the end of his term. Justices Taylor and Browne were elected last month to terms of six years. Justices Ellis and West have four more years to serve while the term of Justice Whitfield expires in 1925.

FOOTBALL PLAYER WAS KILLED BUT NOT IN PLAYING

(By The Associated Press) WOODBURY, N. J., Dec. 30.—Clarence Alexander Wray, former college football player and Lewis A. Brunner of Philadelphia, died here early today as a result of injuries received when a Pennsylvania railroad train struck their automobile here late last night. Miss Catherine M. Johnston, of Philadelphia, and Mrs. Elizabeth M. Price of Washington, were injured.

JAPANESE USING MORE GAS

(By The Associated Press) TOKIO, Dec. 29.—Japanese are becoming greater users of gas and gas cooking stoves and heaters are gradually replacing charcoal fires and braziers. The gas companies have thus far been unable to cope with the demand. The amount of gas distributed by the Tokio gas company increased from a billion and a half cubic feet in 1912 to nearly three billion cubic feet this year, despite the fact that the company has declined to install additional meters since 1914, owing to the city having refused its request to increase prices when the cost of coal went up.

However, the company is now erecting a new plant and at the end of this year, local gas consumers will have available a daily supply of four million cubic feet, according to officials of the company.

DISCLOSURE OF HUGHES IN NEW HAVEN SPEECH IN GOVERNMENT POLICY

THAT INTERNATIONAL C. OF FINANCIERS SHOULD BE CALLED ON REPARATIONS

And This Leaves the Next Move in the Matter to the Allied Premiers

(By The Associated Press) WASHINGTON, Dec. 30.—Disclosures by Secretary Hughes in his New Haven speech last night of the belief of the government that an international commission of financiers including Americans might well be called to recommend a method of settlement in the reparations crisis apparently leaves the next move to the Allied Premiers. The American suggestion, Secretary Hughes specified was offered as an alternative in the event the premiers at the Paris meeting Tuesday failed to find a basis for adjustment of views.

LONDON—Prime Minister Bonar Law will take to the Paris conference of premiers a complete plan up. (Continued on page 4)

BUSINESS AND SECURITIES IN 1923

Half Way Between Depression and Prosperity Says Babson—Famous Statistician Discusses Prices, Wages and Sales for Coming Year—Stocks and Bonds to Go Higher—You can Make Money during the next Twelve Months

WELLESLEY HILLS, Mass., Dec. 30.—"What's going to happen in 1923?" That question is uppermost in the minds of 1,000,000 American business men and investors who are facing the problem of making plans for the New Year.

Signs are not clear and the usual barometers seem to contradict one another.

In the face of this general confusion we had best fall back on the facts and figures. After a thorough study of the fundamental conditions that govern our market, Roger W. Babson today issued a statement which clears the air and furnishes a basis of fact for your plans.

"We are now at a point in the business cycle," says Mr. Babson, "where you can get almost as many different opinions as there are business men. Some are very bullish for the coming year, and others cannot see much hope for business. The reason for such a situation is that we are at present neither at the top of a boom nor at the depth of a depression. If we were at either of these extremes there would be no question of what the next move would be. As it is, we are about half way between them."

"During the past year United States business has steadily advanced, until the average for the whole country is what we usually call 'normal' business. Having advanced thus far, shall we immediately continue into a great prosperity period or shall we go into another period of depression and poor business as some predict?"

"If you will only remember the five years preceding 1921 and recall what an enormous orgy of expansion existed, you can see for yourself that it will take some time to get a proper foundation for really good business. We danced during those years, and now we must 'pay the fiddler' his complete bill. Business has really been like a convalescing patient. Everything will go well with the patient if he does not try to get out of bed too soon. If he tries to overdo he will have a relapse. We now have passed the most painful part of the readjustment. The crisis is over, but a process of cost reduction and re-balancing is necessary."

Price Spread is Wide
"Today a wide disparity exists between prices of different commodities, and particularly the spread between producers' and consumers' goods. This is a brake on trade. One-half of the people cannot earn enough to buy the goods that the other half has to sell. There are one hundred and six million people in the United States and fifty per cent of them get their living from producing or distributing raw materials. It has thus far been impossible to reduce the prices of finished consumers' goods to meet the cuts on these raw materials. The purchasing power of these people is out of its natural proportion."

LATE WIRES

(By The Associated Press) WASHINGTON, Dec. 30.—Federal government in brief filed in the supreme court held that appeals of foreign steamship lines against recent prohibition decision of Judge Hand at New York had failed to show that the United States had consented to be sued and cases could not therefore be prosecuted. The government also insisted that the court did not have jurisdiction for further reasons that appeals "do not present cause of action in equity under constitution of the United States."

WASHINGTON, Dec. 30.—Sentences of eight members of the Industrial Workers of the World, convicted in the Haywood case of conspiracy and violation of the war time laws were commuted by President Harding today to expire at once on condition that the prisoners leave the United States never to return.

OCALA, Dec. 30.—Under authority granted by the courts the Oklawaha Valley railroad from Ocala to Palatka suspended operations effective tonight.

MIAMI, Dec. 30.—Lloyd D. Heth, Chicago attorney employed by relatives of Mrs. Dorothy Frady to assist in the prosecution of Edgar G. Frady, charged with her murder, stated on his arrival here he will not insist that Frady go on trial January third if Frady is in as serious a condition as reported.

The penalty might be "Manslaughter" if you don't drive carefully.

OLD GUN KILLS GIRL

AUGUSTA, Ga., Dec. 30.—Daisy Lowen, 15-year-old girl, was shot and instantly killed here this afternoon when an old rusty pistol, supposedly unloaded, was discharged in her hands while she was playing with it.

OPTIMISM FOR NEW YEAR PERMEATED SUMMARIZATION FROM BUSINESS STANDPOINT

FARM CREDITS ARE PROVIDED IN NEW BILL

FRAMED BY HOOVER AND WALLACE AFTER DELIBERATION

(By The Associated Press) WASHINGTON, Dec. 30.—Secretaries Hoover and Wallace of the department of agriculture conferred with the senate banking committee on features of pending bills to extend short time farm marketing credits and to provide long time credits for the cattle industry. Members of the committee said the bill would be reported to the senate probably next week, embodying the features taken from the four farm credit measures on hearings had already been held.

HOLLIS, Okla., Dec. 30.—Frank Day, 38, a tenant farmer living six miles northwest of here, was taken from his bed last night by ten masked men, severely whipped and ordered to leave the community "before another sunset," according to the story he told county authorities today.

The farmer said the men accused him of manufacturing liquor and of other acts.

BEATEN BY MASKED MEN

WASHINGTON, Dec. 30.—Stock taking of the nation's domestic business for the past year gives "a feeling of satisfaction" as to the progress made, the department of commerce declared yesterday in an end-of-the-year statement, and from this day's position it added, "there are no serious obstacles in sight which should hinder further advances" in the early new year.

Optimism born of the accomplishments of the past months, which many officials of the government regard as a remarkable strengthening of the economic fabric, is evident throughout the statistics and details of the statement which noted the production of manufactured commodities averaged 50 per cent larger than in 1921. The farmer received approximately 17 per cent more for his products than in 1921.

"The unsettled conditions in foreign countries, particularly in Europe," the statement continued, "are still depressing our trade and to some extent have no doubt kept the prices of agricultural products below the level of other commodities. But within the past two months this latter condition has been relieved to some extent."

While dealing only briefly with foreign trade the review said that American exports had dropped 16 per cent as compared with last year, but the comparison was on a basis of eleven months, and, in addition, presented a long climb from a poor start according to officials. Imports to September 22 when the new tariff law was effective, were slightly above last year and indications are, it was stated unofficially, that the year's total may exceed last year's imports by a small margin.

The total volume of building, ordinarily a measure of the country's business health, was 52 per cent larger than in the same period last year and the prediction was made that the full year's record will exceed that of 1919. 1922 contracts for 11 months also represented a much larger expenditure of money than for the full year of 1921, it was said.

There was a genuine swell in the volume of the general trade, according to the summary, which mentioned a 6 per cent greater sale by mail order houses and a 13 per cent increase in business by chain stores as indicative of the business tide, declines appearing only in isolated lines.

Increases in production with the reduction of immigration were said to have taken care of the unemployment situation and labor shortages were reported in some localities. It was added, however, that work appeared to be waiting for most laborers who sought it.

CHARGED WITH MURDER

NEW YORK, Dec. 30.—While funeral services were held this morning for Theresa McCarthy, 10 years old, who was found dead with a bullet wound in her heart at her home in Brooklyn Tuesday, Benjamin Penderville, a postal clerk and boarder in the McCarthy home, was formally charged, with her murder. He previously had been held on a homicide charge.

CAN THE LIBRARY BUILDING BE PLACED IN THE PARKS? SUPREME COURT DECISION

Looks Like There Would Be Precedent Whereby Building Cannot Be Placed There

There has been so much said pro and con about the library building being placed in the city parks that it is well to bring out all the arguments before the building is placed at any particular spot. The majority of the people would like to have the library building placed in one of the parks on account of the central position of the same and also on account of the land being free and the money that would be spent buying a lot could be put in the building. However, the whole matter rests and will continue to rest on the legal phase of the matter. In another case of this kind, viz.: the Florida East Coast Ry. Co. vs. Worley, et al., in 1905 the Supreme Court rendered the following decision:

"1.—Where the owners of a tract of land make a town plat thereof laying the same out into lots and blocks with intervening streets separating the blocks clearly indicated upon the plat and sell and convey lots with reference to such plat they thereby evince an intention to dedicate the streets to public use as such, and their guarantee, as against them and those claiming under them, acquire the right to have streets kept open, even though no formal written instrument of dedication is ever executed. The rule applies that such parcel is dedicated to public use, but to parks and other public places designated upon the plat. The word 'park' written upon a parcel of land designated upon the plat implies that such parcel is dedicated to the public for park purposes, and the sale of lots with reference to such plat, especially where such lots abut the park or are separated from it only by a street carries with it the right on the part of the grantees to have the parcel used for public park purposes only."

GOOD PRICES FOR CELERY IN THE SANFORD SECTION CREATE OPTIMISTIC FEELING

Early Buyer Pays \$2.50 to \$3.00 per Crate for Fifty Cars of Good Celery

An augur for good prices for Sanford's celery is seen in a transaction recently completed by John C. Maurer, Jr., who has contracted for fifty cars of celery at F. O. B. prices ranging from \$2.50 to \$3.00 per crate. These cars will begin rolling the first week in January and the last shipments on this contract will be made not later than the 25th.

Mr. Maurer, who has visited this section for a number of years is a buyer of no mean repute, and it is his opinion that good prices on celery will hold throughout the season. He has made a careful survey of the crop and states that the yield this year will cut down the acreage to an extent that the total production will not be as large as was anticipated. He states that he quality of the celery this year is excellent and it is on this fact that he bases his statement that good prices will be obtained.

This initial transaction of Mr. Maurer's will effectively dispose of the usual pre-season pessimism brought to this section by certain buyers and should convince the growers that there is nothing to the rumors of low prices for "wild stuff" which is the new brand of gloom brought to Sanford this year by a few outside buyers.

Mr. Maurer left Sanford Friday evening for New York and will return on the third with his father, to spend the balance of the season in Sanford, as he has done in past years.

The Herald, 15c per week, delivered.

FOR VISITOR

Miss Eleanor Lytel, of Jacksonville, was the charming honoree, Wednesday evening when Mrs. R. E. Tolar entertained in her honor at bridge at her home on Magnolia ave. There being three tables of players.
The Christmas colors, red and green were emphasized in the decorations and details of this lovely affair.

After several interesting games of bridge were played, scores were counted and prizes awarded. Miss Maude Lake holding high score among the ladies was awarded a dainty box of powder. The men's prize, a silver pencil, went to Bill Lake. Miss Lytel, the honoree, was presented a box of powder.

At the conclusion of the card game, the hostess served banana split, devil's food and fruit cake, as refreshments.

Invited to meet this attractive visitor were Misses May and Mildred Holly, Maude Lake, Chalyce Wilson, Olive Newman, Messrs. Bill Lake, Bob Dodson, Jim Sharon, Robert Holby, Bill Moye and Robert Thrasher.

DINNER PARTY

Mrs. Raymond Phillips was the charming hostess last evening when she entertained at a dinner party at her home on Elm avenue, complimenting Mr. and Mrs. F. Arthur Hazzard, and Mr. and Mrs. C. T. Pond, of Augusta, Ga., the guests of her mother, Mrs. T. L. Dumas.

Covers were laid for seven, at the attractively appointed tables, which had as its centerpiece, a large silver vase of golden calendulas. At each place were dainty nut cups filled with salted nuts. At six o'clock a tempting six course dinner was served.

After dinner the guests were joined by Mr. and Mrs. Edward Lane, and Bridge was played until a late hour. When scores were counted, the prize for the ladies; an iridescent flower bowl was won by Mrs. C. T. Pond, while the men's prize, a pongee handkerchief went to Edward Lane.

Following the game, the hostess served Charlotte Russe and fruit cake.

The guests for the evening were Mr. and Mrs. F. Arthur Hazzard, Mr. and Mrs. C. T. Pond, Mrs. T. L. Dumas, Mr. and Mrs. Edward Lane and Raymond Phillips.

LOCALS

The beautiful yacht at the city dock yesterday shows that the tourists who love yachting in Florida waters all winter will come here when we give them accommodations. Hurry the yacht basin.

The Hill Lumber Company has just received another car of that celebrated Keystone lime and are now prepared to fill all orders for this well-known product. Call and get their prices.

The little Wallace boy who was knocked down and run over by a truck on Geley avenue yesterday is getting along nicely at the hospital. Mr. Nall who was knocked down by a car driven by Tom Terry and who suffered a broken leg and arm and other injuries is also reported much better and on the mend.

John Stemper has another quarter page advertisement in this issue quoting such remarkably low prices on meats and groceries that you will just have to patronize John tomorrow. John has a solid car load of meats and groceries coming in next week for his market page next Friday. Watch for his announcements.

The cold weather is making business better than has ever been known at the Christmas fag end of the season. The merchants all report a wonderful trade this week and they are making big preparations for next week and the entire month of January. They are putting on sales and they are realizing fine results from them. Advertising in the Daily Herald is bringing the results.

Billy Schmidt, the bass baker of Eustis sent us some cinnamon rolls and other fine baked goods by parcel post, or rather Sam Yountz received it by parcel post and brought it round. Sam brings us this weekly gift from our dear old German friend almost every week and we appreciate it more than words can tell. It keeps us in touch with Billy Schmidt, who we count as one of the best friends in the world—a friend of almost twenty-five years standing—all of which makes Billy at least 100 years.

AMEND GAME LAW TO ALLOW WILD FOWL RAISED ON THE FARM

TALLAHASSEE, Dec. 28.—The legislature in 1923 may be asked to amend the game laws of the state in order to permit raising of wild fowl on farms and their shipment to the markets.

W. A. McRae, commissioner of agriculture, has a letter from A. R. Austin, of Springfield, Mass., asking if the state law would permit him to establish such a farm, adding that

he operates farms in four other states and that he has \$15,000 to invest in such a project in Florida. Attorney General Buford, to whom the letter was referred, is understood to be of the opinion that the present laws would not permit the operation of such a farm. Mr. Austin explained that he plans to raise quail, wild duck and other game and to do a general mail order business in disposing of them.

OUTRAGE PLOTTED

COLUMBUS, Ga., Dec. 28.—What was described as a plot to destroy the homes of 11 members of the city commission, a large manufacturing plant and another plant was uncovered this afternoon.

About a dozen men met in a cemetery last night and mapped out plans for the attack, it was reported. They are known to have 100 pounds of T. N. T. in readiness, it was said.

The announcement of the contemplated outrage here was announced this afternoon at a citizens' meeting in a local hotel following a regular weekly meeting of one of the city's largest civic clubs. Commissioner Marshal Morton, of the city body, is authority for the statement of the plot.

FOR THE MOVIE FAN

Osborne has booked a real first class feature for Monday and Tuesday of this coming week.

A Cecil B. DeMille's production, "Manslaughter," a real New Year's day program.

"Sonny" and "My Lady Friends" are two more good ones for next week, with "Foolish Wives" the big week end feature.

"Manslaughter" is a dazzling masterpiece of the world's master-producer. A drama of the mad age. This is the greatest of all DeMille's productions.

Tears, thrills and smiles—that's what one will find in "Sonny."

Monday and Tuesday—"Manslaughter"; Wednesday, "Sonny"; Thursday—"My Lady Friends" and Friday and Saturday—"Foolish Wives". And take a tip from dad, that's some program for one week. Starting the New Year right, we'd say.

Centre Has Arranged for Seven 1923 Games

DANVILLE, Ky., Dec. 30.—Seven of the games on the 1923 schedule for the Centre College eleven definitely had been determined yesterday. From the lineup of games it was indicated that the Colonels probably would be idle on Thanksgiving day.

Games arranged were: Clemson at Danville, October 13; University of Pennsylvania at Philadelphia October 23; U. of Kentucky at Danville, November 3; Sewanee at Memphis, November 10; Auburn at Birmingham, Nov. 17; Washington & Lee at Danville, Nov. 24; Georgia at Athens, Ga., Dec. 1.

Kenyon college, of Ohio, was considered as a strong bidder for one of the three remaining games.

ANOTHER DAY TIME MARKING WHILE AWAITING FEDERAL OFFICERS INVESTIGATING LOUISIANA MYSTERY

Serves Only to Increase the Air of Expectancy Which Prevails

BASTROP, Dec. 30.—Another day of marking time while awaiting return of federal and state investigators who has been in New Orleans on Baton Rouge, conferring with the governor served today only to increase the air of expectancy in troubled Morehouse Parish. Investigators expected to return here within forty-eight hours. Civil and military officials would not predict what further arrests would be made in advance of open hearing to be conducted here next week.

DISCLOSURE OF HUGHES IN NEW HAVEN SPEECH IN GOVERNMENT POLICY

(Continued from Page One) on which the British cabinet passed judgment yesterday in the hope of obtaining a French agreement for final settlement of the reparations problem, it is announced.

NEW HAVEN, Conn. Dec. 30.—A suggestion that an independent commission of men, competent in financial affairs, could accomplish more than a general economic conference in the way of a solution of the reparations tangle, was put forward by Secretary Hughes last night in the first public pronouncement on the economic crisis to come from responsible officials of the administration at Washington.

The secretary, who spoke before the American Historical Association, added that he "had no doubt" distinguished Americans would be willing to serve on such commission, which he said might well be kept free from any responsibility to foreign officers or any duty to obey political instructions. Once advantage had been taken of the opportunities thus afforded he said, the avenues of American helpfulness cannot fail to open hopefully.

Referring to suggestions that the United States assume the role of arbitrator in the reparations dispute, Mr. Hughes said a sufficient answer to that was the fact "that we have not been asked." He went on to say that he did not believe that this government should take such a burden of responsibility.

Throughout his discussion the secretary recognized that the questions of German reparations lay at the root of any economic settlement. The prob-

lems abroad, he said, are world problems, and could not be disposed of "by calling them European." He declared the United States "views with disfavor measures which, instead of producing reparations, would threaten disaster," and said no one could foresee the "serious consequences" that might ensue if forcible means were adopted to obtain reparations from Germany.

REVISE HISTORIES TO TEACH BETTER RELATIONS

(By The Associated Press) TOKIO, Dec. 29.—Sweeping reform has been effected in the school histories. All militaristic ideas have been eliminated and lessons introduced to teach children a friendly understanding of foreign lands. The history is made up of biographies of national heroes and famous men in international history. Of 400 men whose life stories are told, fifty belong to foreign lands and include Washington, Lincoln, Edison, Marconi and Watt. The Washington conference results are described as they affect Japan and her part in insuring the peace in the Pacific.

See Cecil B. DeMille's greatest achievement "Manslaughter" at the Princess Monday and Tuesday.

Young woman of twenty in jail charged with "Manslaughter."

Special Sunday Dinner at the Seminole cafe, December 31st, One Dollar. 236-24c

Careless driving might put you behind the bars charged with "Manslaughter."

ALL SOULS CHURCH

Tomorrow, the Sunday within the Octave of the Nativity, divine services will be as follows:

Sunday school at 9:00 a. m.
Low Mass at 10:30 a. m.
Sermon on the gospel of the day.
Benediction after mass.

Owing to the fact that services will be held in Mineola and Groveland on New Years day, no services in Sanford.

Strangers welcome to all services.

Do you realize that it may mean a conviction of "Manslaughter" if you run down a person through reckless driving?

FOR SALE—At a sacrifice, 5 acres of land on Orlando road.—C. M. Lord. 273-3tp

FOR SALE

ORANGE GROVE BEARING 510 trees, grapefruit, tangerines and oranges, all in splendid condition, well taken care of; 8 room house in good condition; 4 acres muck, fine for truck farming; 2 acres cleared for additional grove. Price \$8,000. Balance terms. Consider trade.

SANFORD'S CHESS CLUB'S ACTIVITIES

The Sanford Chess Club, under the leadership of Mr. Bishop are holding some very interesting meetings every Thursday at Dr. Howard's residence. One of the most interesting meetings and Chess contests was held last night. George DeCottes wore his chess clothes and coming out of his battles victorious. He also wore a pleasant smile. Mr. Bishop demonstrated besides his winning personality he also possesses a winning intellect, as he won two games out of three, with one of the best players in the club. Mr. Scarlet, a prominent attorney, of DeLand, a very enthusiastic chess player, is coming over every week to participate in the meetings, he divided honors with Mr. Raffell, winning one and losing one. Mr. Fall playing with his usual skill, came out a winner in his game with Mr. Lassing. Dr. Solomon is learning the game very rapidly, and undoubtedly will be one of the best in the club.

CELERY SEED

Two more games tucked away by Sanford outfits.

And maybe Sanford hasn't a couple of real basket shooters in Holly and Spencer. And the way Spencer shoots from the middle of the floor is good for sore eyes.

The two centers, Echols and Hand, make life miserable for the visiting centers. On their toes all the time and they just romp all over the place.

Farraway was absent, but Cameron filled the gap with ease. Cameron and Maxwell both played a nice game last night.

As for the boys quintet—you should have seen them go. Had Seabreeze cut of wind and out of luck before the game was five minutes old.

Bunch, jumping center for Seabreeze, was "bunch." A few more "bunches" of his calibre added to the regular bunch would have made things look different last night.

But anyway, now that we have settled that, suppose some one makes a prediction or hands out some advance dope about next Friday's games in Jacksonville.

You bowlers take a peep at the averages published in this issue. You will notice one or two of the Champs slipping and some others going up. Looks like there will be something stirring in the second go round of this season's play.

For the benefit of the golfers, the Sanford Country Club has a professional to give you some lessons. Take advantage of it, and make a date with the "pro" at once.

STATE COLLEGE, Pa., Dec. 30.—The Pennsylvania State College—nine games and is considered one of the hardest ever arranged for the Nittany eleven. It includes contests with the University of West Virginia in New York City, North Carolina state and Georgia Tech, all new comers. The other opponents were played this fall.

SANFORD TEAMS TAKE BOTH GAMES OF DOUBLE BILL FROM SEABREEZE LAST NIGHT

Sanford Boys Still Little Weak on Shooting Baskets But Girls Forwards There With the Goods

Seabreeze breezed in, breezed about, were breezed off and breezed out, leaving a trail of smoke that was evidence of a hard fought battle, but they left behind two victories for the two snappy basket ball teams of the Sanford High.

The first game, between the Sanford and Seabreeze girls, was a real fight to the finish, both teams playing excellent basket ball, the first half ending a 14-14 tie. It was during the second half of play that the Sanford girls began picking up the slack and when the final whistle blew it found them winners of the spoils to the tune of 40-32.

The boys of the Sanford outfit did their best playing in the first half of their game, piling up 20 points to Seabreeze's 9, but the second half found the visitors closing the gap somewhat and when the game ended Sanford was sitting on the big end of a 38 to 28 score.

Holly and Spencer both played their usual good game, missing very few of their tries for goals, Holly getting 12 from the field and Spencer 7. The majority of the seven baskets secured by Spencer were of the spectacular type, being made on long shots. All the rest of the girls played their regular game, and Miss Cameron, taking the place of Capt. Carraway, played a good game considering the fact that this was her first full game.

For the boys we would state that the outstanding feature of the game was the shooting of Bunch of Seabreeze. Bunch, playing center, shot over half the goals made from the field and every one of them were shot from the middle of the floor.

Bill Moye made twenty-two of the thirty-eight points for Sanford and his all round playing was good. The only real weakness displayed by the

Sanford team last night was their inability to shoot, missing many chances that looked easy. However, they are getting better each game and it is hoped that next week will find them in the proper trim to trim Jacksonville.

Both games were played before a large crowd and it is gratifying to the coach of each team as well as all that are interested in the boys and girls athletic welfare, to see so many of the Sanford people turn out and lend their support.

The line-ups and summary for both games last night follows:

GIRLS	
Sanford (40)	Seabreeze (32)
Holly	F. Hutchinson
Spencer	F. Smith
Hand	C. Livingston
Echols	C. Laurie
Maxwell	G. Brennan
Cameron	G. Foster

Scoring for Sanford: Field goals, Spencer 7, Holly 12; free goals, Spencer 1, Holly 1. For Seabreeze, Field goals, Smith 12, Hutchinson 4, free goals, none.

Referee: Tillis. Time of halves, 15 minutes.

BOYS	
Sanford	Seabreeze
McLucas	F. Frazier
W. Moye	F. Campbell
McLaulin	C. Bunch
Smith	G. Johnson
Cowan	G. Sherman

Scoring for Sanford: Field goals, McLucas 4, W. Moye 10, McLaulin 2, Stone 1; free goals, McLucas 2, W. Moye 2. For Seabreeze: Field goals, Frazier 2, Bunch 3, Sherman 2; free goals, Campbell 1.

Substitutes: E. Moye for Smith, Stone for McLaulin, Peck for Cowan, Viell for Johnson. Referees: Lang and Gilbert.

INDIVIDUAL BOWLING AVERAGES INCLUDING THIS WEEK'S GAMES

Stevenson Still High—Amanns and Pennington in Second Place With May Nosing Up

The individual averages of the Sanford bowlers are published below, and not only contains the names of the best fifteen, but all players that have played in more than ten games throughout the season.

In compiling these averages it was found that in several places there were several players tied, each having the same averages, and in these cases the fractional points were taken into consideration and the players are placed in their proper order. In other words, Herbst and Betts each have an average of 148, but Herbst has the edge on Betts a little, needing a fewer number of pins to boost him up a point, and the same thing applies to all the players whose averages are tied with each other.

The best fifteen contains the names of six Congregationals, four Farmers, three Men's Club and two for the Rotas. The Merchants and Chase have none, but the Merchants have two players in Rive and Purdon that are outside by a very narrow margin and should get into the select list next week.

Name	G.	TP.	Ave.
Stevenson (Cong.)	18	3054	.169

Benton Sits Pretty With Baseball Judge

CHICAGO, Dec. 30.—Rube Benton, former Cub pitcher, was without fear today that K. M. Landis, commissioner of baseball, would prevent his return to major league baseball this spring with the Cincinnati Reds. "In view of the publicity caused by Benton's reported signing with the Cincinnati Reds and the connection of his name with the 1919 world's series scandal," Commissioner Landis said last night, "so far as the records in my office show there is no reason to keep Benton out of the majors." Benton was released by the Giants in July, 1921, and went with the St. Paul club of the American association.

And Monday will be New Years Day.

The Herald will endeavor to give you some good resolutions

Robbery at Tribby bank shows that the yeggmen are invading Florida and are picking on the smaller banks where they can get the money and get away. It behooves the officers to be vigilant at all times.

New York is wrapped in a mantle of snow and real winter is on, the reports say. This will make the people up there remember that Florida is still on the map and they will be coming here in great numbers in another week. Get that spare room ready for them and let the Chamber of Commerce know about it.

The business of the nation is all right, the reports say, and you should read it in this issue, and also what Roger Babson says about business in general. It gives you a much better feeling to know that the prospects for a wonderful year are just ahead of you. Maybe you have had a bad year and if so, look for brighter things ahead. Maybe you have had a good year and if so you can look for a much better one in 1923. All the prospects are bright at any rate and the financial sharks give us this advance information and they always know whereof they speak.

The Florida State Educational Association in meeting at St. Petersburg is against Fatty Arbuckle coming back into the movie world. There will be many such protests and we doubt it very much if the whitewashing recently given Fatty by Will Hayes will stick. The public has just naturally had enough of the Hollywood foolishness and they seem to have picked on Fatty for a victim on the supposition that "nobody loves a fat man." Unless we are badly mistaken Fatty Arbuckle as a movie star is a thing of the past and the star has waned.

WELCOME, DR. CARPENTER

The editor of the Herald takes an interest in all the churches here and counts ministers and church officers and members of the congregations of all of them as his friends. We want them to feel that the Herald is strictly non-sectarian when it comes to giving space for all worthy enterprises. It is therefore a pleasure to welcome our old friend, Dr. Carpenter, to Sanford. We have known him for the past twenty years or ever since he came to Florida and know him for what he is—a real man in every sense of the word. We hate to lose Dr. Walker from our midst but if we have to lose him we are extremely glad to welcome such a good man as Dr. Carpenter for his successor. And above all we want to see the Methodist church prosper—we want to see every church in Sanford prosper and grow rich in numbers and in well doing. May the New Year bring to all of them the rich blessings that they deserve and will have and this is our New Year wish to them.

AS A HEALTH MEASURE

Now that the mosquito campaign has been launched in the state it behooves all the different sections of Florida to assist in every way possible. Sanford was never bothered much by mosquitoes until the past season. Until the lake front was bulkheaded that part of the city was alive with mosquitoes in the summer time and the older residents can well remember when it was impossible to sit on the porch of the old Sanford house on account of the pests. Then the lake front was bulkheaded, the swampy places all cleared up and all standing water disappeared and the mosquitoes disappeared with the unsightly lake front, and this part of the city has been cleaned and benefited beyond measure. There were kicks on the expense of the bulkheading just as there are kicks on every improvement that has ever been contemplated in Sanford but there is no one now that will say the expense has not been offset by the great benefit of the new lake front. There is more of this lake front on each side of the central part of the city that could be bulkheaded and a broad boulevard built up and down the lake front for almost a mile, making the city much more healthful and more beautiful. It should be done properly, it should be done economically and it should be done with the consent of the property owners if possible. The future of the city of Sanford lies in these measures of safety and beautification and when it comes to such improvement no one should be allowed to stand in the way of progress. If a street needs opening the city should open it by the proper proceedings and start this city off on a proper basis. Sanford has passed the stage when a lot of foolish notions are allowed to overrule the wish to build a city and build it right and a city cannot be built without spending money. Streets should be opened, the lake front improved, and many other ideas for a cleaner and better city exploited. The Herald will take them up from time to time in order that they can be properly digested.

JOE EARMAN'S CHRISTMAS

According to the Palm Beach Post—and our own experience—Christmas to the Hon. Joe L. Earman of West Palm Beach, was a REAL ONE. Joe Earman not only believes, but also KNOWS, that it is more blessed to give than to receive, for he has been experimenting on the giving side ever since we can remember.

Here's a few that Joe Earman admits having helped to a Merry Christmas, according to the Palm Beach Post's list of the articles to be received by each:

- "Four hundred and forty-three children in West Palm Beach."
"Two hundred and sixty-one grown ups in West Palm Beach."
"Ninety-six children in other cities in the state of Florida."
"Sixty-four grownups in other cities in the state."
"One hundred and seven negro jubilee singers and preachers in West Palm Beach."
"Each child will receive six articles, a present, one jar of candy, one box of raisins, one French flower basket and an apple and an orange."
"The grown ups will receive same with the exception of a French flower basket."

That makes nine hundred and seventy-nine—as Joe himself would express it. Of course there are others. No one who knows him would believe for an instant that he stopped that close to a thousand.

As former newspaper owner and editor, politician, Good Samaritan, State official and no unimportant judge and private citizen, Joe Earman has probably as many friends as any man in the state, but even at that he has not all he deserves.

This Christmas' riot of making others happy, which he has just indulged in is a record set for others next year who think they have done all they could to make child or a grown-up happy.—Tampa Tribune.

FROM OTHER SANCTUMS

MAKING PAPER FROM FLORIDA SAW GRASS

The current issue of the Business Printer makes announcement that "news print made from Florida saw grass will be ready for distribution in January, 1923," and that in the first week in February "most of the publications in Florida will print an issue on the saw grass news print made in the south from a southern product." This is information that has been expected for a considerable period of time, not only by Florida people but by those of other states, those of all the reading world, in fact since it has become generally known that with the complete of the great pa-

per pulp making plant, recently constructed at Leesburg, in Lake county, saw grass would be used exclusively, and for the first time in the making of pulp from which paper is to be manufactured commercially.

The news of the beginning of operations by the Grass Fiber Pulp and Paper Corporation in its Leesburg mill, comes at an opportune time. In a commercial news dispatch sent to the American Press from Ottawa, Canada, under date of December 25, it was stated that in the month of November the pulp and paper exported from Canada was worth, in the market, \$11,342,002, not taking into account the value of that which was used in Canada.

Of the pulp and paper exported, as above stated, the United States took 1,312,121 hundredweight of wood pulp, 1,714,235 of news print and 6,000 of other paper, altogether valued at \$9,670,000—this amount paid by paper users in the United States, in a single month, to Canadian manufacturers.

More than this, and especially significant for Florida is the further statement, in the dispatch containing the figures just given, that "the year 1923 will witness a material advance in the value of pulp and paper exports," notwithstanding that the Canadian output will be greatly augmented through the opening of new mills.

Taking all the facts relative to paper, its manufacture and use, together with the growing scarcity of wood from which most paper now used is made, and the increasing demand for the product of the paper making mills, taking all the facts into consideration the starting of the paper making industry in Leesburg is among the very greatest events to mark the opening of the new year.

Forests are not to be touched for the supply of raw material for this Leesburg mill. The raw material will come from Florida marshes and lakes that are filled with an abundance of saw grass, which material, it has been demonstrated, practically, makes the most excellent pulp under the Grass Fiber Pulp and Paper Corporation processes, for the making of paper of every grade and for every known use. Here, in Florida, is a hitherto waste product which now is to be put into practical use, and at a time when there is urgent need for the finding of a substitute for wood, used in making paper.

The enormous output, and the ready markets, of the Canadian pulp and paper making industry answer the question whether there will be sufficient demand for the similar product to be manufactured in Florida. There is absolutely no question about the possibility of the Florida pulp and paper finding a market, especially when, as is confidently asserted by the projectors of the Leesburg enterprise, pulp and paper manufactured from saw grass, can be produced very much more economically than from wood.

Quality being equal, or better there is every reason why paper made from Florida saw grass may go into competition with the product made from wood. With the achievement of even a portion of what is believed to be possible, and all that is contemplated is reasonable and feasible, there is opening for Florida a new and very much needed industry, the development of which will be watched with the very keenest concern in and out of the state.—Times Union.

BUSINESS AND SECURITIES IN 1923

"should average somewhat better than in the year just passed. A survey of 100 leading industrial companies, recently made by my organization, showed that in 1919, 96 per cent of these companies made a net profit, while only 4 per cent showed a deficit. In 1921, the number of firms which could show a profit was cut down to 48 per cent. Over half, or 52 per cent of these industrial concerns lost money on their year's business. 1922 has witnessed a change from red ink figures into black ink figures, but the amount of net profits will not be large when the books are finally balanced. We are just getting back on to the right side of the ledger.

"The shortage of labor is one of the worst features of the 1923 outlook. The moment that business works up to average activity it becomes impossible to get sufficient workers. This raises costs and in turn increases commodity prices and the cost of living. The immigration law is largely the cause of this shortage. This law restricts the number of immigrants in a single year to 3 per cent of the total number of respective nationalities already in the United States. Before the war we had an addition of a million immigrants a year. Now we are receiving less than 300,000 and at least 60 per cent of these are women, children or other dependents. On the other hand, I doubt if the repeal of this 3 per cent immigration law is the proper solution of the present labor shortage. "The real solution is not the repeal of the present immigration law but rather the repeal of the Contract La-

bor Law for as long a period as the 3 per cent law remains in force. This would make it possible for employers to promise selected foreign workers employment before leaving their own homes. The moment that the immigration law is repealed the contract labor law can again be applied.

"There should be no great difficulty in getting ample supplies of bituminous coal this winter. The car shortage is diminishing somewhat. Ample supplies of bituminous coal are being produced, suggesting lower prices. The mischief of this situation lies in the fact that it will again be to the advantage of both miners and operators to close the mines for a time. The difficulties which brought on the strike last year have not been settled. There is serious danger of another strike in the soft coal fields.

"Everybody is worrying about the political situation. There is talk of radical legislation during the coming year. Most of this is merely the echo from campaign speeches. It may be a noisy year. But the conservatives and the radicals have a veto power, but neither is strong enough to push through any extreme measures of its own. The only kind of legislation that will really be enacted is that which will appeal to members of both groups. Already the Federal Reserve Board has issued a ruling, admitting a large amount of agricultural paper for rediscount in the Federal Reserve Banks. The Muscle Shoals problem will probably be settled, either by sale to Henry Ford or by development on the part of the government itself. The Soldier's Bonus will probably be enacted, although no agreement as to the terms or means of raising the money has yet been made. It is improbable that there will be any increase in the amount of business taxes.

"The political aspect has frightened many stockholders, but it is entirely too early to be worried. The thing to watch is fundamental conditions. We are still in a readjustment period. This means that sooner or later we shall work toward better prosperity. It is true that industrial stocks are much higher than a year ago and are certainly not the bargains that they were. However, as I have already stated, certain lines of industry are just getting ready to go forward. The industrial market will be 'spotty' but there are a great many issues that should do better in the coming year.

"The rail group is, relatively, not so far advanced as the industrials. I do not believe rails should be bought indiscriminately, but the rail average will follow up the general market. I am much more attracted to the long-haul roads than to the shorter lines. The motor truck is a feeder for the former but a competitor of the latter. Copper stocks have really not started yet, but the statistical position of the metal is far better than it has been for a long time. Coppers, certainly, are selling at bargain levels.

"Money conditions should continue good. There is no question that the banks are in a strong position. The Federal Reserve Banks today have reserves equal to about 76 per cent of their note and deposit liabilities. The reserve required is between 35 per cent and 40 per cent. It is true, that when foreign countries begin to get on their feet, it will be necessary to send much of this gold back. For the present, however, this gold represents the basis on which a considerable expansion of credit can be built. It guarantees to us a relatively easy money rate, until heavy gold exports are resumed. During the coming year, borrowers need have little fear of a lack of funds for all legitimate purposes, and this also applies to long term money, that is, capital for permanent investment. Mortgage rates during 1923 should work lower. Today, the average rate of real estate mortgages throughout the United States is between 6 per cent and 7 per cent. The time is not far away when this average will stand between 5 and 4 per cent.

"Of course, the case of the money market is distinctly favorable to long-time bonds. There is a point in the business cycle when industry becomes so active that money is absorbed by trade. When this occurs bonds are sold and develop a downward tendency. This point in the cycle has not yet appeared. Moreover, history shows that following the Civil War bonds prices, barring temporary fluctuations rose for a long period of years, the advance culminating about 1900. From this point, a descent was gradually made to a low point at the end of the European war. Since this low point, history is repeating itself, bonds having reached a middle ground, but still far below the 3.80 or 4 per cent basis of the 1900 period. All these factors suggest that well selected bonds, both municipal and corporation, are a distinct purchase.

"Bonds and money," concluded Mr. Babson, "are certainly sound factors in the situation. As for business as a whole, there is no doubt that it will average better this coming year than it did in 1922. This does not mean that there will be any boom, but that there will be plenty of money-making

opportunities for those who know fundamental conditions."

General business according to the index of the Babson chart stands at only 2 per cent below normal, the same as a week ago.

TWO EXECUTED

DUBLIN, Dec. 30.—Two men named Murphy and Whelan were executed at Kilkenny this morning.

Cloth is waterproofed in Bolivia by coating it with the fresh latex from rubber trees and then smoking it over a wood fire.

In the Circuit Court of the Seventh Judicial Circuit of Florida, in and for Seminole County, in Chancery

CITATION
L. C. Lewis, Complainant,
vs.
Benjamin L. Griffin, et al., Defendants
To Benjamin L. Griffin, if living, Henrietta E. Griffin, if living, his wife, William G. Anderson, if living, G. W. Steff, and wife, Emma A. Steff, if living, all the unknown heirs, if living, of the Estate of John W. Griffin, deceased, G. W. Cook and wife, Annie Cook, if living, Geo. W. Hawkins, if living, Charles C. Warwick, Trustee and his successors, if living, J. D. Wolverton, if living, Luther C. Porter, if living, L. O. Porter, if living, and Abel Griffin, if living, Administrators of the Estate of John W. Griffin, deceased, and if said parties are dead to all parties claiming interests under Benjamin L. Griffin, deceased, Henrietta E. Griffin, his wife, deceased, Wm G. Anderson, deceased, Wm G. Steff, and wife, Emma A. Steff, deceased, Geo. W. Hawkins, deceased, Charles C. Warwick, Trustee, deceased, and his successors, if living, J. D. Wolverton, deceased, Luther C. Porter, deceased, and Abel Griffin, deceased, Administrators of the Estate of John W. Griffin, deceased, or otherwise, in and to the following land situated in the County of Seminole, State of Florida, more particularly described, as follows:
The South Three-Quarters of the Northwest Quarter of the Southeast Quarter of Section Seven, Township Twenty and north of Range Thirty East, containing thirty acres more or less, appearing from the sworn bill of complaint filed in this cause against you, that you and each of you have or claim to have an interest in and to the land hereinabove described.

Therefore you, Benjamin L. Griffin, if living, Henrietta E. Griffin, if living, William G. Anderson, if living, G. W. Steff, and wife, Emma A. Steff, if living, all the unknown heirs, if living, of the Estate of John W. Griffin, deceased, G. W. Cook and wife, Annie Cook, if living, Geo. W. Hawkins, if living, Charles C. Warwick, Trustee and his successors, if living, J. D. Wolverton, if living, Luther C. Porter, if living, L. O. Porter, if living, and Abel Griffin, if living, Administrators of the Estate of John W. Griffin, deceased, and if otherwise, in and to the land hereinabove described, are required to be and appear before our said Circuit Court at the Court House in Sanford, Florida, on the 1st day of January, A. D. 1923, and then and there answer to the bill of complaint exhibited against you in this cause, otherwise decrees pro confesso will be entered against you and each of you.

It is ordered that this Citation be published in the Sanford Herald, a newspaper published in Sanford, Seminole County, Florida, once each week for eight successive weeks, beginning with my hand and the seal of said Circuit Court on this the 4th day of November, A. D. 1922. (SEAL) E. A. DOUGLASS, Clerk of the Circuit Court of the Seventh Judicial Circuit of Florida, in and for the County of Seminole.

GEO. A. DECOTTES, Solicitor of Counsel for Complainant. 11-11-19-25; 12-2-9-16-23-20-9t

Adapted Nurseries, Tampa, Fla. 214-5t on Sat.

STATE NEWS

It is with keen delight that the winter resident who has spent many winters in Kissimmee and who owns property here, on returning home finds so many improvements which add to the growth of the town and the value of his property.

The Bryson Live Stock Co., of Jacksonville was the successful bidder at \$88,375 for the building of the Lake Shore boulevard of some 11 miles exclusive of the approaches to the towns of Mount Dora and Eustis and through the town of Tavares.

The Polk county Poultry Association is making plans to hold sometime in January, a poultry show. According to N. Boger, of Lakeland, president of the county association, plans are already under way for this poultry show, though a date has not yet been set.

"Prospects are fine for a big strawberry crop" declares the Trenda News. Following the very rainy spell, the strawberry growers became busy, and now the plantings have been extended and excellent growth is shown. Planting is still going on, but there are many broad acres already growing nicely, and it is predicted that there will be some fine fruit for Thanksgiving day, and lots of big, red berries for the Christmas holidays.

Development of a tract of 160 acres of what is said to be some of the richest muck land in the state is expected to follow the purchase of this tract, two miles east of Avon Park. An option for twenty days at \$60,000 for the tract has been given capitalists at Sebring by G. L. Bryant, who homesteaded the quarter section ten years before there was a railroad into this section, and when there was no road within four miles of the property.

Purchase of a tract of 20,000 acres of virgin pine timber, three miles southeast of Avon Park by the Pittsburgh-Florida Fruit Growers Association is accompanied by the announcement of the first extensive reforestation scheme in the state. The association—a cooperative planting, growing and marketing fruit organization—plans to use the tract only to supply crates to handle the fruit from the 1,400 acres of citrus fruit it controls, and announces that for every tree cut another will be planted. And that that grow up will merely increase the stand.

There is a sentiment in all of Lake county against building any more of the sand clay roads because of the fact that in really bad weather they become impassable. When they are good no other roads are better but as soon as copious rains fall this class of highways become deep mudholes and ridged like a washboard. However it can be said with truthfulness that they are preferable to sand roads for it is possible to get over them in high when the sand road must be taken in low. Just now there is a cry for the brick and the asphalt block road. At the present some very good roads are being constructed in the county.

Big Dollar Dinner at the Seminole Cafe Sunday. Read about it in today's Herald. 236-2tc

TAKE OUR ADVICE—USE CALUMET The Economy BAKING POWDER WOODCOCK & RIGNEY

Consider the thrifty squirrel—how he stores away against a winter's need.
In the beauty of fall—in the plenty of harvest—in the energy of ambitious youth, do not fail in your provision against the uncertain days that will come later on.

DON'T BE PENNY WISE AND POUND FOOLISH!

What does this mean? Just this—you pay a few dollars more in initial cost in buying a "NU-TILE" Shingle roof, but these beautiful Tile Red, Snow White and Green Shingles do not curl up and they will give you a permanent roof that you will not have to repair or replace for years and years.

It is impossible to say how long they will last, but they have been in service more than twelve years and no signs of wear. They are as permanent in one climate as in another.

From past experience it looks as tho they will "never" wear out!
