TY OF SEMINOLE, FLORIDA REGULATING THE TRANSPORT.

PROVISIONS OF THIS ACT.

The above Act was published in full in the issue of The Sanford Heriald published September 11th, 1925 and reference can be had to said proposed Act upon inspection of the files of the Sanford Heraid.

By order of the Board of County, Commissioners of Seminole County,

Commissioners of Seminole Coun-

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ gruntle.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and calds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the atomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth

of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or tlu-Money refunded if any cough or cold is not relieved after taking according to directions. CONSIDER ITS

In selecting a name for Sanford's newest and finest development we urge all our friends who expect to submit suggestions to bear in mind the outstanding features of this property, which has so many wonderful advantages, that are lacking in other developments.

When you drive out to look at the tract under development, turn left on the road going south from the DeForest home. Notice the many beautiful trees, the elevation of the land, the beauty of the lakes, and the possibilities of development.

Then when you are trying to think up a suitable name, bear the following points in mind.

Location

Near the Sanford Country Club and golf course, situated on paved roads, within easy reach of the heart of the city, in what is destined to quickly become Sanford's most desirable home center.

Elevation

High, dry land, well drained by a series of lake, which when connected by a series of canals will give many miles of waterway.

BeautifulSurroundings

Nowhere in this part of Florida is there more natural beauty to be found. A land having exceptionally attractive trees bordering numerous lakes, gives our tract unusual scenic beauty.

Development Plans

The property is no win the rough. It is the plan to spare no expense in creating another Florida paradise as quickly as manpower and machinery can make this possible. The improvement plan is an elaborate one. The owners of the property expect to make this into a development of character and individuality, second to more.

All suggestions for names must be sent to The Sanford Herald office by Tuesday, November 10. Accompanying the name suggested must be short article of less than 100 words explaining why the name was chosen. \$250 in eash, with no strings tied to it, will be presented to that individual who is successful in selecting the most appropriate name for the greatest development Sanford has ever had.

Coke, English authority, mys murder is killing "any reasonable creature." Killing this poor, deformed, weak-minded daughter was therefore not murder. She was not "reasonable."

That's a new kind, among the many different kinds of murder,

would be a fine backgrount for business.

When a man visits a tertain place where a certain cron is grown he wants time of that particular fruit or vegetable or fish or oysters. If we to to the beach we want see foods and are usually fed ham and eggs. The same thing holds true of Florida. When visitors come here to Sanford they want plenty of fresh vegetables and fruits and we should have them. The small farmer ould supply this need with a curb market. Some day in the near future Sanford will realize this need and again establish a curb market.

TAMPUA TELEGRAPH

Florida Outdoors is a Florida magazine published in Sanford and it has some interesting articles on this state in the November number to be issued next week. If you want to set your northern friends straight send a copy of Florida Outdoors to them. This is not an advertisement but plain state-

I said last year that no man could look ahead and state accurately what property here was worth. Just think of farming land and swamp land on the lake shore bringing \$4,090 per acre. Can you beat it?

A fund is being started in Orlando to give Walter Johnson a club of his own. Not knowing which club they want to give Walter and being a friends of his I would suggest that he be given the Sanford club. At one thousand dollars a

The Orlando Reporter Star says that life in their new "tent city" will be no hardship. It should be anything but a hardship and folks can be just as comfortable in the right kind of tent as they can in an ordinary house. We will watch Orlando's tent city with much interest.

Was up in old Ohio last week and while there saw some of the beautiful snow that poets rave about. It might be all right in its place but seeing it in Ohio made me long to get back to Sanford where it might get cold but it never snows.

And upon my return here yesterday I find Charlie Parrish at the Chamber of Commerce meeting and being introduced as one of the prominent bankers of Hamilton, Ohio. Charlie and I went to school together in Hamilton some forty years ago and we enjoyed a few minutes talking over old times.

There are thousands of good people in the great central states that never heard of Sanford and it is to them that the Chamber of Commerce must carry its message of the City Substantial for they will come here with money and make good citizens. As Charlie Parrish said, "Sanford has something to show in the way of producing things to eat' and this appeals to the folks in the middle and western states where they depend upon farming and industries,

Barron Collier who lives in New York and owns the county of Collier in south Florida sent mo a special copy of the Literary Digest this week containing some good articles on Florida. Barron Collier is writing and working for Florida every day in the year and is the kind of citizen that Florida

Maybe it sounds funny to some people but honestly I not live anywhere outside of the good old state of Florida and every time I get away from the state it seems good to get back on the old job of boosting the greatest place in the world.

At the Realtor's meeting in Lakeland they passed among other resolutions one asking for city zoning and planning Sanford was one of the first cities in Florida to have an act passed in the legislature giving us the zoning and planning commission. So while the Realtors were adopting such a fine plan Sanford realtors could have told them that our city already had adopted this plan. We are usually ahead of the state about three jumps.

Another land fraud his been discovered near Gainesvville, Florida, and as usual the fakirs live in Chicago. All of this stuff hurts our state but i seems that there is no way to keep Chicago from being crooked and when they decide to operate in Florida lands it is diffcult to keep them from selling to soft marks in the north. The government is after these birds and will put them in jail but meantime the dupes will sing a song about Florida and give the folks down here the blame for their troubles when we really knew nothing about the operation of these sharks.

Glad to see The Sanford Herald asking for a curb mar ket. We had a curb market here many years ago but it languished and died for various reasons chiefly because some of the merchants did not want the farmers to come to town and sell vegetables. It was a nistaken idea and if Sanford could establish a curb market ind make it what it should be the entire city would profit by it. The small farmer would also profit and we could build us a community of small farms that

Armistice Day

AGAIN---

The Only Real Answer To High Rents Is HOME OWNERSHIP

And the Majestic Homes Corporation invites you to call at the office of Miami Shores and become acquainted with the plan that is solving the high rental problem for Miami Shores property owners right now. If you are an owner of property at Miami Shores and want a home built thereon, call at the Miami Shores office, 125 East Flagler Street, and ask for Samuel F. Lloyd, or Robert Moody.

It Is the Law of

Supply and Demand

That Is Taking Hold of Miami Shores

This great, beautiful property, comprising approximately 2,800 acres, and which we really believed would require a five-year selling campaign, shows signs of being sold out on or before the first anniversary of the announcement of Miami Shores, December 4th next.

DAY BY DAY the available number of lots is decreasing.

DAY BY DAY there seems to be an added momentum to sales, because

DAY BY DAY folks are beginning to realize that the opportunity of purchasing this magnificent property is coming near to an end, inasmuch as the last unit—that magnificent Miami Shores Island is now being offered to the public and is being rapidly absorbed by Miami investors.

Of course, it goes without saying that the interest of Shoreland Company in its investors is increasing all the time. The fact that Miami Shores is largely sold out means only an added impetus to the improvement, development and building program, which Shoreland Company and such splendid institutions are the Majestic Homes Corporation, which is now rapidly getting its organization under way to handle a building program of a house a day, are carrying out.

Then, too, the Miami Shores sales and publicity organization will continue to function 100% for the benefit of Miami Shores investors.
