

## STEEL FILES ETHICS CODE WITH JOHNSON

Belief Is Held That  
95 Percent Of Industry Is Represented In Accord

WASHINGTON, July 15.—(A.P.)—The steel industry today filed with the recovery administration a code of fair competition to increase wages and spread employment through major portions of this fundamental trade.

Robert Lamont, head of the iron and steel institute brought the agreement to Hugh Johnson, industrial administrator. It is definitely understood that well in excess of 90 percent of the steel production of the country is represented in the agreement.

Actual terms were not disclosed but Johnson and Lamont immediately began scrutiny of the important document.

The administration regards steel as one of the most vital industries in the movement to increase the purchasing power of working men.

WASHINGTON, July 15.—(A.P.)—The need for a blanket order fixing minimum wages and maximum hours, pending establishment of industrial codes, will be taken up by President Roosevelt with Hugh S. Johnson, the industrial administrator on Sunday.

Word that Mr. Roosevelt expects then to receive from Johnson a report on the necessity for broad federal action and the means of accomplishing it, came yesterday after two more industries had stepped into position in quick acquiescence to the expressed desire of the government for a voluntary holding of wages and curtailment of working hours, pending the formal completion of the codes to govern competition.

The President is uncertain whether the broad federal action can be made compulsory, although realising a mandatory order would be more effective. Secretary Roper, after yesterday's cabinet meeting, said he was working on a plan of federal action to cope with those industries which are lagging in bringing their codes into operation.

Meanwhile, Mr. Roosevelt designated Secretary Ickes to enforce the federal ban on interstate shipments of oil produced in violation of state regulations.

Acting upon the government's desire for voluntary action the cement industry put forward an offer to set 40 cents an hour as minimum wages and 56 hours as the maximum working week. Virtually the entire rayon industry.

## Dempsey Says He Doesn't Know Date Of Coming Wedding

BALT LAKE CITY, July 15.—(A.P.)—Jack Dempsey, former boxing champion, told newspaper reporters here yesterday he does not know when he and Hannah Williams, musical comedy actress, will be married.

There are no definite plans, he added.

He said Miss Williams will arrive here today for a stay of 10 days or so, and he expects to prolong his own visit with his mother, Mrs. Cecelia Dempsey, that long.

Dempsey came here yesterday with Max Baer, heavyweight boxer, for an exhibition. Baer will go to Sacramento he said, for trial of his divorce suit there, and then will proceed to Hollywood to make a picture.

The former champion does not expect Baer will meet Primo Carner, present heavyweight champion, before next July when Carner's contract with Madison Square Garden expires.

Baer has been invited to meet Primo Carner in Spain next month, Baer said.

## Railroad Executives Told By Federal Co-Ordinator Salaries Are Too Large

### STATE, GEORGIA TOBACCO RAISERS TO GET BOUNTIES

WASHINGTON, July 15.—(A.P.)—Georgia and Florida growers of cigar leaf tobacco will be paid cash bounties of \$60 per acre for carrying out the farm administrators' plan for acreage reduction, the campaign for which was scheduled yesterday to start Monday and continue about a month.

The growers of cigar leaf tobacco in all sections of the country will be asked to share in the plan to reduce this year's harvest 60 percent.

While the plan of paying farmers who destroy portions of their growing crop is the same for all sections, other phases of the plan vary in each of the growing districts because of the difference in grades of tobacco.

A processing tax, to become effective probably about Oct. 1, will finance the program.

The growing districts are New York and Pennsylvania, Wisconsin and Minnesota; New England and Georgia and Florida.

Between \$5,000,000 and \$8,000,000 is expected to be collected by the processing tax which will be paid by cigar manufacturers on all types of tobacco. The collections are to be handled by the bureau of internal revenue, which already has established a system of collecting internal revenue taxes on tobacco at these factories.

The Georgia-Florida reduction plan provides that compensation will be paid to farmers who leave unharvested an acreage of four stalk leaves of each tobacco plant grown. Too, the farmer in these two states must agree not to market more than an average of 500 pounds of this year's crop per acre harvested.

Payment of the bounty for carrying out the plan will be made in two installments—\$30 per acre between Sept. 1 and Nov. 1, and the remaining \$30 per acre 60 days after proof that the grower.

## State Crops Have Been Benefited By Recent Inundation

ORLANDO, July 15.—(A.P.)—Condition of staple crops in west Florida was low because of continued lack of moisture, but groves, pastures and field crops showed improvements as rains fell plentifully in the north, south and central sections, the federal crop reporting bureau said yesterday.

Acreage of staple crops, except cotton and tobacco, was the same as or less than that of 1932. Cotton and tobacco showed decided increases.

Rains over the citrus belt during June improved the condition of trees.

Condition of oranges as of July 1 was reported at 70 percent of normal compared with 39 percent on the same day in 1932. Grapefruit gained 2 percent since June 1 to 20 percent of normal. 8 percent better than July 1, 1932.

A three percent reduction in condition since June 1 left tangerines two percent better than last year.

Peach and grape conditions showed some improvement over last year but pear production dropped sharply because of dry weather and freezing temperatures since last winter.

## Will Be Paid 60 Dollars An Acre For Effecting Reduction

WASHINGTON, July 15.—(A.P.)—Twenty-one of the ranking railroad presidents and executives of the country stood personally by to hear from the lips of the co-ordinator what the administration thinks are the steps that should be taken to improve the transportation industry.

Several of the men in the group, named to represent the railroads under the emergency act, now receiving salaries in excess of or near \$100,000 a year.

The men conferring with Eastman represent the southern, eastern and western sections of the country. Seven were elected from each region. They will work with Eastman and his regional coordinators in an effort to bring about a reduction of rail expenses.

"The salaries to which many executives attained were a symptom of the boom era," said Eastman. "I am putting the question up to you as I must do in the first instance under the law, because I believe very sincerely that there must be an adjustment of this matter of salaries before the railroads will stand right with the shippers, investors and labor under the conditions that now exist. The executives have much more to gain by such an adjustment than they can possibly lose."

Railroad presidents, now serving as receivers, were not mentioned by Eastman, since their (Continued On Page Six)

## Five Youths Held For Attempting To Loot News Stand

Five young Sanford youths, caught in the act of ransacking Dr. L. R. Phillips' Atlantic Bank lobby news stand at about 1:30 o'clock this morning were placed in jail where they were scheduled to remain until 4:30 o'clock this afternoon.

The boys are: Hollis Ferguson, 22; his brother, Wilbur Ferguson, 16; Ormon Woods, 18; Robert "Bobbie" Burns, 14, and Harold Doker, 16.

They were to be taken before the Juvenile Court Judge J. G. Sharon this afternoon for a hearing. Wilbur Ferguson was charged on the police blotter with "illegal entering." A key which unlocked cash cases and a soft-drink cabinet was found on his person. The other boys were held for investigation.

Officer George Gray this morning stated that Wilbur Ferguson was arrested at his home on Elm Avenue shortly after the attempted robbery. The youth, seeing that he was about to be taken when officers closed in on the lobby entrance in the bank building, ran up stairs and jumped out of a window to the roof of the Spear building. He made his way across this roof and came to the ground at the rear of the Spear store by climbing down a small oak tree.

## Captain And Two Men Die On Burning Ship

NEW YORK, July 15.—(A.P.)—Captain F. L. Searl and two men went down with the burning tanker "Petrol" in the Atlantic late last night while two other vessels stood by and rescued 34 members of the crew. The Petrol caught fire and sank in flames with Searl alive at his post, refusing to leave the burning ship. The crew was rescued from heavy seas.

## European Peace Pact Signed By 4 Nations

ROME, July 15.—(A.P.)—A four-power European peace pact was signed today by Premier Mussolini and representatives of France, Germany and Great Britain.

The accord is designed to guarantee tranquility among European countries for a period of 10 years, facilitate reduction of armaments and lead to improvement in economic conditions.

## PUBLIC WORKS PROGRAM WILL BE SPEEDED UP

### Roosevelt Intends To Employ Job Making Possibilities To Limit Of Program

WASHINGTON, July 15.—(A.P.)—President Roosevelt intends to employ the job-making public works program to the full extent of the \$3,300,000,000 authorized by Congress.

He will take up a special list of flood control and rivers and harbors projects at a conference on the Potomac River Sunday with Secretary Ickes, the public works administrator.

In determining on full speed for the program, Mr. Roosevelt laid down the rule that as much of the fund as possible would be devoted to projects which will return some of the outlay to the treasury. However, a great amount of the money, about \$600,000,000 must go to federal projects already authorized which will bring in no return to the government.

Another \$1,300,000,000 has been earmarked for special work such as highways, naval construction, crop loans, home loans and similar work.

This leaves about \$1,400,000,000 for other federal and local projects. On the latter, the administration plans to advance a gift 30 percent of the cost of a project.

On proper security 70 percent of the cost of labor and materials for the project might be borrowed from the federal government. Because the cost of labor and material might not represent all of the outlay going into a job, it has been estimated the community, city or state will thus be required to put up some money.

## Rain Interferes With County Day At Camp Foster

Rain interrupted probably the most important feature of "Seminole County Day" at Camp Foster near Jacksonville yesterday afternoon—the regimental parade to have been staged at 5:25 o'clock.

However, the rain did not dampen the enthusiasm of the more than 100 local men and women who motored to the Camp yesterday upon the invitation of Major J. C. Hutchison, commander of the First Battalion, Florida National Guard, including the three units from this county.

All of the visitors had returned home today to declare that they were royally entertained and given every opportunity to inspect Camp Foster and its personnel. The 130 officers and men from Sanford and Seminole County and to that it was reported today, and the visitors now say that they have had first-hand knowledge of what transpires in a well equipped army camp where hundreds of men are encamped for a two-weeks' training period.

Today was the last day of the camp, and tomorrow morning at 7:30 o'clock, the Sanford units will board a special train which is scheduled to arrive here shortly before noon.

Among those visiting the camp yesterday were John Meisler, Sr., V. E. Douglass, I. P. Mills, Osvelo, S. F. Long, of Chuluota, H. J. Lehman and Mrs. Lehman, C. E. Adams, Peter Thurston, Mr. and Mrs. Carl Lehmann, Mr. George W. Melroy, Mrs. W. D. Hoffman, and several others.

## Relief Maps Still On Display At City Hall

The two large relief maps of Western Florida, or that area through which it is proposed to build a cross-state ship canal, which went on display in the City Hall Saturday afternoon, were still being displayed this morning.

Scores of persons had visited the City Hall last Saturday and Monday to view these unique and costly maps. Many others who wished to see them but were unable to call at the City Hall these days, can still avail themselves of an opportunity, for it is almost certain that the maps will be on display until late Monday.

## ENGLAND WON'T SIDE WITH U. S. ON INFLATION

### Intends To "Go Slow" In Matter Of Raising Level Of Prices In United Kingdom

LONDON, July 15.—(A.P.)—The American delegation was considering today a final effort to forward President Roosevelt's plan of a worldwide price raising as the economic conference recessed for the week-end.

A tentative draft of the resolution outlining monetary and commercial policies to achieve this end is under discussion by some American experts and delegates.

The delegation had not yet decided, however, whether it will be any use to introduce such a measure in the final fortnight of the parley, as July 27 was set yesterday by the leaders for cessation of deliberations.

By ALVIN HALLMAN  
LONDON, July 15.—(A.P.)—British economists, it was learned from the highest quarters last night, while undoubtedly exerting strong pressure on the other country, to follow the example of the United States in an inflationary policy, will be unable to move the present settled policy unless there are definite indications within the other country itself that such a move is demanded.

These indications, it was said, are lacking at present.

"We are going slow in the direction toward an increase in price values," this informant said. "America is going fast in a different fashion. But you can't combine the two. A slow motion (Continued On Page Six)

## Bernard Schirard Has Thrilling Time With Large Shark

Bernard "Pete" Schirard, son of Mr. and Mrs. John Schirard of Sanford, underwent an unusual and thrilling experience while a member of a clamming party which spent last weekend in the Gulf of Mexico near Cedar Key, it was learned here today.

While Mr. Schirard, his friend, Emory Bryan, star Gator football player, and a party of friends were enjoying clam fishing out in the Gulf, a nine-foot shark made an attack upon the boats which carried the party.

Neither Mr. Schirard nor Mr. Bryan sustained injury, but they spent some anxious moments during the attack which was reported as the most of the party while fishing clam racks with tugging effort.

The shark, which came in while the party was encircling clam fishing which spent last weekend in the Gulf of Mexico near Cedar Key, it was learned here today.

Other members of the party were Miss Harriet Whitford, Miss Doris Delano, and Webster Johnson, of Cedar Key, and Mrs. Elias Rowland, of Tulsa, Okla.

## County Figures Upon Welfare Work Shown

During the 18-month period beginning Jan. 1, 1932, appropriations totaling \$650,000 were transferred from the county treasury to that of the Seminole County Welfare board, it was revealed in a report tendered the County Commissioners during the past week.

The report indicates that the balance on hand on Jan. 1, 1932 was \$27,298. Donations from the county totaled \$649,660, donations from the School Board amounted to \$150, while incidental donations reached \$397.11, or a total of receipts from Jan. 1, 1932 to July 1, 1933, of \$650,109.

This sum was expended as follows: Groceries, drug, nursing and allowances, \$397,110; transportation, board and care of indigent persons, \$274; office expenses, telephone and telephone, \$228; area of welfare workers, \$228; and incidental expenses, \$228. The Welfare Board treasury contained \$26.16 on June 30, 1933, the report concludes.

# Two Airplanes Roar Toward Europe Upon Spectacular Flights

## COTTON RAISERS WILL BEGIN TO PLOW UP CROPS

### Nine Million Acres Of Growing Product Will Be Destroyed

WASHINGTON, July 15.—(A.P.)—The plows on around 700,000 farms in 10 states next week will begin to turn back into the ground more than 9,000,000 acres of growing cotton as a result of the proclamation yesterday of Secretary Wallace of adoption of the cotton acreage reduction program.

From what appeared to be a potential crop of about 13,000,000 bales Wallace estimated there would be subtracted by the administration's program around 3,500,000 bales.

The agriculture secretary said he would accept most of the contract offers signed by growers to curtail their crop from 25 to 50 percent and in return for cash payments and options on 2,000,000 bales of government held cotton.

At the same time he announced approval by President Roosevelt on all processing of the staple beginning Aug. 1. He estimated the yield of the levy at from \$115,000,000 to \$120,000,000, which will be used to finance the payments to farmers. No tax will be collected on the cotton exported—normally about one half of the American crop.

At the same time a compensatory import tax equal to the processing tax will go into effect to put importations of cotton on the same basis as the domestic product. Taxes will be levied also on the processing of competing products, including rayon and silk tax from providing a special handicap to its sale and consumption.

Hearings to determine the extent of the tax on products competing with cotton will be held in a few days. The tax on these would be paid by the processors who handle them in their first (Continued On Page Six)

## Doubt Expressed That Kidnaped Man May Still Be Alive

ALTON, Ill., July 15.—(A.P.)—While two ransom demands have been received for the release of August Luer, elderly and wealthy banker, the absence of proof that the banker is alive and held by the authors of the ransom notes, was given by two agents of the Luer family yesterday as the principal obstacle to further negotiations.

The agents, Orville S. Catt and Lawrence Keller, Jr., said at an afternoon conference yesterday they still were negotiating "but the kidnapers have not met our demands."

"Then the implication seems plain that you have been in communication with the kidnapers," a reporter suggested.

But Catt and Keller, added that the kidnapers had not sent them a note from Luer, and said this was one of the hitches in pursuing the negotiations further.

Mayor Thomas Butler, considered ordering the police again to take hold of the case but observed that he feared the investigation will soon become "a search for Mr. Luer's body."

"Because the kidnapers have failed to send the family a message written by him, I have grave fears for his life," said the mayor. Luer, a sufferer from heart attacks, was considered to be in fragile health and the effects of captivity or rough handling might cause death, his physicians said.

Two St. Louis men, father and son, arrested there Thursday afternoon, were taken to Chicago, older of the pair telephoned him suggestions concerning ransom payment were questioned yesterday.

## COUNTY BOARD IS OCCUPIED WITH 1933-34 BUDGET

### Presented With List Of Estimates Made By Various Officials

The 1933-34 budget was occupying the attention of the Board of County Commissioners today.

They met at 10:00 o'clock to be presented a long list of estimates given them by various county officials. They were working on the budget early this afternoon. Clerk V. E. Douglass indicated that it would be ready for publication early next week.

Among the various estimates which lay on the Commissioners' table for their perusal was one from the State Board of Administration headed by Governor Sholtz.

This letter contained information which was aimed at assisting the Commissioners in preparing their budget. The information was in the form of a statement of the interest, principal, and ordinary sinking fund requirements of the county and special district road of road and bridge bonds for the period, May 1, 1933 to Oct. 1, 1934.

During that time bonds totaling \$41,000 and interest totaling \$193,783.75 will fall due, the statement shows.

The statement also indicates that while the requisite reserve to Oct. 1, 1934 totals \$381,332, the actual reserves for bond investments, future interest accretions thereon, and credit for bonds received will total \$106,577.50. A deficit of \$274,755.25 will be shown on Oct. 1, 1934, as a result.

Adding the deficit to the bonds and interest which will come due by Oct. 1, 1934, a total of \$569,539.25 must be raised in this county.

The State Board estimates that this sum is to be raised in part from the following sources: \$83,117.29 representing the estimated gasoline tax receipts to Oct. 1, 1934; \$23,301.53, representing the estimated balance of 1932 state and county taxes that will be collected, and \$107,314.47, representing the estimated automobile transportation mileage tax to Oct. 1, 1934.

These figures, added to \$57,378.39 which was reported in the County treasury as of May 1, which it is estimated will be raised to apply on the \$509,839.85 needed.

Therefore, the State Board figures a total of \$344,514.87 must be raised by taxation.

## Tropical Storm Is South Of San Domingo

WASHINGTON, July 15.—(A.P.)—The Weather Bureau today issued a storm warning that a tropical disturbance of apparently slight intensity is central about 100 miles southeast of Santo Domingo city. It is moving almost directly westward about 14 miles an hour.

## Cubans Will Get Back Constitutional Right

HAVANA, July 15.—(A.P.)—Constitutional guarantees will be re-established after a two-year suspension in Havana province for 24 hours beginning at midnight tonight. This was done to enable provincial electors to go to the polls for a complementary election in several districts Sunday.

## National Guard May Join In Kidnap Hunt

ALBANY, July 15.—(A.P.)—National guardsmen were ready today in 100 hamlets and cities to throw their full force into the manhunt for the kidnaped officer, Lieutenant John J. O'Connell, Jr. As the search crisscrossed the ninth day, fellow officers and guardsmen of O'Connell awaited only the nod of Governor Lehman.

## One Ship Is Bound On Attempt To Break Round-World Market Balbo Nears Goal

(By The Associated Press)

Two airplanes roared over the Atlantic today from New York, One, the Winnie Mae, was piloted by Wiley Post, who seeks to break the eight days, 16 hours round the world record he made in 1931 with Harold Gatty.

The other was the Lithuania, jointly piloted by Captain Stephen Darius and Darius Girenas, which headed for Lithuania 4900 miles away.

They went without passport in defiance of orders from Washington and took off under the ruse of taking the field authorities wanted to make a load toss.

Post planned his first stop at Berlin. His plane is equipped with a mechanical apparatus designed to keep the plane on its course and maintain altitude and lateral stability without human aid which Post said would enable him to doze while flying at high altitude.

Meanwhile General Balbo, headed off from Montreal by the trans-Atlantic Italian, left an armada on the last stage of its flight to Chicago. He expects to reach his destination late today.

The flying Lindberghs are so Carveright, Labrador inventor, gaining landing base possibilities before continuing their mapping of an aerial passenger route from America to Europe.

America's second largest city prepared to place itself-world's fair and all—at the disposal of General Balbo and his 60 fellow officers from Italy.

A crowd of half a million persons is expected to witness the arrival from Montreal of the air armada today off the end of navy pier, which extends half a mile out into Lake Michigan at north end of the downtown district.

From the minute of their arrival there will be an almost continuous round of entertainment for the men completing the greatest mass flight ever attempted—6100 miles in 24 airplanes over the northern Atlantic route.

Officials of city, state and nation will join 110,000 of Chicago's populace—all its largest amphitheater will hold-in according to them a formal welcome shortly after they land. The spot money will be in Soldier field adjoining the world's fair grounds.

The facilities, with Chicago society, Italian-American organizations, and civic groups playing a leading part, will continue until the airman depart, probably next Wednesday, to return to Rome on the southern Atlantic route by way of the Azores islands.

Strengthening the fliers' need of rest during their stay in Chicago, Balbo yesterday sent the following telegram to Genoa's Castrocio, Italian consul general here: "I shall be glad to receive in Chicago for the first time (four days) if it is impossible to stay less. However, I ask you to give me as much peace as possible. For we need rest."

Castrocilio said in comments, "I don't believe he will get any rest—no peace either."

Sixty double rooms have been reserved for the fliers at a hotel. Every hour of their stay has been mapped out in advance. Their only expedition from Chicago would be a trip to the village of Lake Geneva, Wis., 110 miles to the north, where arrangements have been made to land and moor the seaplanes if fog or wind makes a landing on Lake Michigan hazardous.

Officials contacted with the flight, however, said they regarded a landing at Lake Geneva as extremely unlikely. Favorable weather was forecast for Chicago.

Main table with columns: Description of Land, Owner, and various numerical columns. It lists numerous land parcels with their descriptions and owners.

EVANGELIST Wm. F. McPherson Speaks On "THE COMING CRISES AND THE COMING CRIST" at the FULL GOSPEL TABERNAACLE On the New Orlando Road Near Geneva 7:45 O'clock

# News From Seminole County

## LONGWOOD

Mrs. J. H. MENICK

Principal W. J. Wells, Jr. and Mrs. Wells of Lyman School, who are spending the summer at Lake Harney, Geneva, entertained the faculty of the school there with a fish fry on Friday. Those from Longwood attending were: Mr. and Mrs. L. J. North, Miss Aldia LaVigne, Mr. and Mrs. E. W. McCalley, and Mr. and Mrs. R. S. Thornton.

Mrs. J. Fred Scholfeld is entertaining her sister Mrs. Elizabeth Taylor, of Murray, Kentucky. The Women's Missionary Society of the Baptist Church held their monthly meeting on Monday afternoon when the appointed topic was Africa. Mrs. J. H.

Avent was in charge of the program. Among those present were: Mrs. J. P. Hearst, president, Mrs. Robert Entzinger, Miss Florence Lovell, Mrs. William Hartley and guest, and Mrs. L. Entzinger. Mrs. B. R. Grey and children have returned from a visit of several weeks with relatives in Terra Ceia and Lakeland.

Mrs. L. Cramer has returned from Fort Myers where she attended her brother who has been very ill.

The July meeting of the Civic League met with the Sewing Club at the library on Wednesday afternoon.

Mr. and Mrs. C. B. Searcy attended the funeral services of Frederic H. Rand in Orlando on Friday morning.

The former golf factory has been leased for a crate mill by an Orlando firm which is having machinery installed in the plant.

## OVIEDO

Those attending the "Young People's Christian Adventure Assembly" held at Wewa Camp near Orlando were: the Misses Clara Lee Wheeler, Joyce Wainright, Charlotte Lee, Louise Wheeler, and Curtis Mitchem, Roy Clontz, John Luddy and Spencer Wainright, Jr.

Mr. and Mrs. Doc Malcolm are the proud parents of a fine daughter born Saturday, July 8th.

Mr. and Mrs. A. D. Sauer and son, A. D. Jr., left for Waynesville, N. C. Monday where they expect to spend the summer.

Mr. and Mrs. P. E. Bond and children left this week for their old home in Mississippi where they will visit friends and relatives.

Mr. and Mrs. T. L. Lingo and children are spending several weeks at Daytona Beach.

Mrs. Scott, of Arcadia, is visiting her brother, Mayor L. P. Mills, and other relatives this week.

Miss Agnes Herring left recently for a visit with her father and brother in Georgia. Mr. Herring has recently moved to Georgia from Alabama.

Oliver Cromwell, of Chuluota, was a Sunday visitor here.

Mr. and Mrs. W. A. Meek and daughter, Mrs. Gary, and Mr. and Mrs. C. R. Clontz and family returned this week from Daytona Beach where they were visiting.

Miss Catherine Young was hostess to the Young Women's Circle on Monday afternoon.

Mr. and Mrs. G. W. Morgan returned to their home Thursday after a three weeks' visit in Kansas and Chicago.

Miss Lavon Tanner assistant post mistress has returned from her vacation, and resumed her duties at the post-office.

Mrs. Mary Jacobs is spending some time with her son, J. Tilden Jacobs and Mrs. Jacobs in Chuluota.

Mr. Aric, of Oviedo, is driving several wells in or near Slavia.

Mr. and Mrs. Roland Dann, of Sanford, were in Oviedo Friday.

Miss Adrienne Waites, of Longwood, was a recent guest of Miss Catherine Young.

The Town Equalization Board met Monday to adjust all tax complaints.

Mr. and Mrs. R. L. Wheeler have returned from Boca Grande where they spent the Fourth.

Several Oviedo people attended the B. Y. P. U. District meeting at Geneva Thursday of last week.

Among the parents visiting Camp Wewa during the week were: Mrs. B. F. Wheeler, Mrs. T. W. Lawton, Monday afternoon; Mr. and Mrs. C. R. Clontz Wednesday afternoon; and Dr. Carpenter, Mrs. Emory Mitchem, Mrs. Lunday, and Mrs. Wainright on Thursday afternoon.

The recent good prices of celery caused quite a little activity here.

The respective homes of C. R. Miss Wylie is spending her vacation in Orlando after which she will return to Hollywood.

Mr. and Mrs. King, of Tampa, were guests at Mrs. Le Countes last Sunday.

Mrs. Le Countes and son, Clarence, have gone to Sanford to make their home.

Fred Cummings, locally known as "Skets" Cummings, and Miss Anna Jones were married in Sanford, July 1st. A party was given for them in the Chamber of Commerce Building last Monday night.

Clontz and Doc Malcolm have recently undergone repairs. Mr. Cole has finished a poultry plant. Among the farmers who have let contracts for clearing celery land are Morgan and Wheeler, D. Daniel, L. H. Gore, B. F. Ward, Raymond Estes, W. T. Walker, C. R. Clontz, and Thomas Wheaton. A number of others are tilling land and driving wells.

## GENEVA

Prof. and Mrs. W. J. Wells entertained the faculty of the Lyman school and a few other friends with a fish fry at Lake Harney Friday.

Mrs. Mable Raulerson has returned from a visit in Ocala.

Mrs. Floy Miller spent the week-end with Mrs. Giese at her home at Turkey Gulley on the St. Johns River.

Mr. and Mrs. A. E. Moran, of Sanford, spent several days in Geneva this week.

Luther David, who is attending the National Guard Camp at Camp Foster, spent the week-end here with his family.

Mrs. L. A. Sheldon and Mrs. Jenetta Marshall entertained with a shower Wednesday afternoon in honor of Mrs. Calvin Oldham. Many gifts were received. Those present were: Mrs. T. W. Prevatt, Mrs. Larue Alderman, Mrs. A. A. Moran, Mrs. A. E. Moran, Mrs. Frank Thomas, Mrs. N. C. Leflis, Mrs. D. B. Levy, Mrs. J. V. Toole, Mrs. George Geiger, Mrs. Mable Raulerson, Mrs. Endor Curlett, Mrs. George Peters, Mrs. P. B. Dooley, Mrs. J. C. Bills, and the Misses Lucia Grant, Alexia Mees, and Rose Edith Zauderer.

Mrs. D. B. Levy entertained in honor of her daughter, Selma, Tuesday afternoon with a birthday party. Games and contests were enjoyed after which refreshments of ice cream and cake were served.

Prof. and Mrs. W. J. Wells and daughter, Betty Ann, plan to leave Saturday for a trip to Chicago.

Do you know why she wasn't welcome? She, herself, didn't. Halitosis (bad breath), the social fault no one forgives, was the reason. Yet no one need have halitosis. Gargling with Listerine instantly destroys mouth odors and checks infection. Use it daily. Recent tests show that Listerine promptly overcomes odors ordinary antiseptics can't hide in 4 days. Lambert Pharmaceutical Company, St. Louis, Mo., U.S.A.

## Discovery Is Made In Regard To Rays By Doctor Johnson

PANAMA, July 15.—(AP)—Discovery that there are no electrons, but instead a rush of vastly charged positive particles in the

cago to attend the World's Fair. Mr. and Mrs. Claude Laveran and son, Claude, Jr., of Orlando, spent Saturday afternoon with Mr. and Mrs. W. B. Ballard.

Mrs. W. B. Ballard is attending the Baptist Assembly in Tampa this week.

Paul and Charles Dooley and Homer Ballard spent Tuesday on the East Coast on a fishing trip.

cosmic rays here was announced yesterday by Dr. Thomas H. Johnson.

He claimed undoubted evidence that 30 percent of the rays here are positive particles, of 3,000,000,000 to 50,000,000,000 volts apiece. The other 70 percent he said, by "favorable evidence," are and Dr. Arthur H. Compton, Millikan holds the rays are photons—Compton that they are charged particles.

But most of the scientists who agree to the particle theory, have said the mysterious rays were electrons. The non-existence of electrons in the air here is proven, Dr. Johnson holds, by the direct-photons—so called bullets of light.

Dr. Johnson is assistant director of the Bartol research foundation, Swarthmore, Pa. His studies were made at the Barro Colorado Island laboratory, Canal Zone, under auspices of the Carnegie Institution of Washington.

These findings may help reconcile the conflicting views of the two famous American cosmic ray experts, Dr. Robert A. Millikan

tion in which the charged particles travel. The direction is covered by the earth's magnetic field—one way for negative electrons, the opposite for positive charges.

## DAMAGE SUIT DISMISSED

NEW YORK, July 15.—(AP)—Federal Judge William Bondy late Thursday dismissed the \$1,000,000 damage suit brought by the Kellogg Company against the National Biscuit Company charging simulation of abraded wheat biscuits and unfair competition.
