## Teachers, Sanctions (Part 2)

There is an overdose of heat and a very dim light playing on the matter of teacher pay in Florida.

First consideration is for the school children in Florida and Seminole County — not the teachers.

Emotion has been unleashed at local teacher meetings as well as being trotted through the legislative halls in the Capitol.

The cry for "sanctions" and "strikes" is not being echoed by the rank and file of the teachers the Herald has talked to.

The Herald has said time and time again "Sanctions" are dishonorable.

If you work for a man, a company or a county or a state — the first obligation is loyalty. If you can't be loyal, quit.

Don't try to blackmail your employer in the eyes of future employees or his competitors.

A strike would at best be honest. Whether it would involve breach of contract is now being studied by the attorney general.

A strike would not be illegal. It would not affect the health or welfare.

The threats being shouted now are untimely.

Between 80 and 85 percent of the legislators in Tallahassee are new. They must feel their way through the maze of claims and counterclaims on dozens of matters before deciding what's best for Florida in all areas.

Education is but one of Florida's needs.

It is wrong for members of the state Legislature to be threatened and coerced before they have a real chance to see what should be done and what can be done.

To be competitive, Florida must up its teachers pay.

How much and by what means must be fitted into the overall picture of other needs.

We noted here recently the Florida Education Association is running scared because they say the AFL-CIO will move in if the FEAT doesn't get results — big results — this year, this session.

This may or may not be true.

The teachers have stated their case, clearly and firmly.

Now is the time to wait and see, not threaten.

## We're Against It!

Legislation which is bad at the local level does not improve any when it becomes of statewide general application.

Case in point is Senate Bill 190, authored by Sen. Jack Matthews.

Cutting through the first 104 pages of whereof and whereas to the section (f) of Section 10, Matthews' proposal would extend to all county commissions the authority to close up businesses and eliminate housing in conflict with zoning laws.

Time limits are not mentioned. Presumably, each county would set its own.

If the bill of general application passes, there is no reason to believe they would not try to exercise the authority Matthews' measure would give them.

We oppose it on the local level.

If it gets to the floor, we hope the entire Seminole-Orange delegation will vote against it in both houses.

## Analysis Of The News

WASHINGTON (AP) — A recent public opinion poll on the preference for president showed President Johnson even with Michigan's Republican Gov. George Romney although only a month ago in the same poll Johnson was trailing by 30 percentage points.

This indication of increased public confidence in him no doubt has roots in numerous reasons, but probably one of the most important is that Johnson is a changed man in personal appearance.

More self-confidence is a good explanation for that, along with the realization that he had been overdoing the personal appeal bit with his rhetoric and evasions.

He gave another example of the change at his news conference Thursday, play it in a low key, which is what he has been doing in almost every public appearance since the first of the Michigan's Republican Gov. George Romney although only a month ago in the same poll Johnson was trailing by 30 percentage points.

At his meeting with newsmen Thursday, he had nothing of outstanding importance to say, and he didn't try to make any of it sound that way. In fact, part of the time he was absent, and he took inner strength to remain as quiet as he was about the war and bear the abuse while seldom changing back. The Asian Communists may have realized this, as they watched Johnson intensify the war, before Americans did.

Meanwhile, because of the way he handled himself — perhaps mislabeled in the letter word — in other fields of government and the presidency, his public appeal went down, down, down in the polls.

Somewhere along the line Johnson apparently realized he would have to change both his style and his tactics. This realization may turn out to be one of the most fascinating chapters of Johnson's presidency when the full story of his White House years is written.

But change he did. It seems to have begun early last fall when he withdrew more into himself to further his work on the political campaigns of 1966. He then played a very small role in them.

When for the rest of the year, after the elections, he lapsed into almost total silence. In that time it would be no surprise to learn he got coaching on how to look on television, and how to act.

The change first showed at his news conference last Dec. 31 when he dead-panned his encounter with the press, playing it all straight, almost underplaying it.

He has been doing the same since, in one public appearance after another, and as the months passed his standing in the public opinion polls slowly went up.

It takes a lot more self-confidence, if that paradox is applied to Johnson now, can be said that after 3 1/2 years in the White House he is far more self-confident than when he first moved in.

New studies by Defense Department technical advisers stress that Mao Tse-tung's Communist China today is not likely to send its armies into South Vietnam.

The authors of these studies hold that Mao's caution against invasion will hold, however badly the war goes for North Vietnam's Ho Chi Minh and how much the United States bombs the north.

The studies show that Mao has a million men in Korea. Peng and his supporters had argued for professional armies and heavy weapons. Mao, and a majority of Peking's policy makers, opted for emphasizing guerrilla war and sucking "enemy" forces deep into the mainland where they could, in theory, be worn down, divided and cut up by tough, trained guerrilla forces.

This theory prevails today in Communist China despite the fact that the Red guerrillas against Japan's model, in advocating how Red China's armies should prepare for battle today, he does not advocate the Korean strategy.

As a result, Red China's armies are not organized, armed or logistically equipped to meet large well-armed modern U.S.-type conventional forces in field in sustained conventional battles 200 or more miles beyond the Red China border.

South Vietnam is by land route more than 850 miles beyond the Communist China southern boundary.

Large conventional Red Chinese armies fighting in narrow Vietnam at these distances from Red China would be slogging ducks for American air, land and sea weapons. The slaughter would be great. In such limited areas from large numbers of Red Chinese could not operate except as conventional armies.

Mao and his principal aides know these things.

The belief here also is that Mao knows he will be bombed if he does intervene. Bombing could not destroy China. But could destroy major industry, and his nuclear plants. This would strengthen internal dissatisfactions and give his major opponents a rallying cry.

## To The Editor

Sincere congratulations on your article of May 17 regarding the responsibility of subdivision developers for street construction. It is a great satisfaction to me that you will take a second look, investigate and correct erroneous or mistaken reporting when both sides are written.

While it is true that a considerable number of expensive homes have been constructed in the "Rolling Hills Golf Course" area of Sandalwood subdivisions and the county has constructed several good clay stabilized streets and paved others, it is not intended that the county wide tax funds be used to supplement the profits of subdivision developers.

Of subdivisions plotted and recorded prior to July, 1959, it was required that streets be constructed to county specifications either clay stabilized or paved, before acceptance into the county road system for maintenance. Subsequent to that date require paving and drainage by developers to meet required specifications. This return is paid for by the purchaser of the developed property.

Of the qualified clay stabilized streets of old subdivisions that have been accepted into the county road system, the Board of County Commissioners decide when public use justifies expenditure of tax funds for paving.

There are a great number of subdivisions similar to those in Sandalwood area that were recorded 20, 30, 40 or more years ago of which the (street?) If however, any are only bulldozed trails. However, even "emergency maintenance" in the cases may develop into full maintenance and construction by the county.

Again, congratulations fact and unbiased reporting of

## Dr. Crane's Worry Clinic

Lorna is smarter than thousands of college coeds. For campus young women are often like sheep and easily stampede when they are told "Everybody does it." Girls, since you are the middle link in a 3-link chain that involves your parents and your future unborn kiddies, don't sell out, like Beau, for a mess of pottage!

CASE C-549: Lorna Q. aged 22, is a secretary.

"Dr. Crane," she began, I met a very attractive man recently. "We went out together several nights and always seemed to have a jolly time together. "But on our third date, he wanted me to go to a motel and spend the night with him. I was quite insistent.

"I told him that I hoped somebody to be married and have children, so I didn't want to jeopardize my future happiness.

"He argued that if I loved him, that was all that mattered. "And he said that all the modern girls spend the night with their boy friends, so I was old-fashioned.

"But I still refused, so he angrily brought me home and didn't even see me to the door.

"Dr. Crane, don't you think I did the right thing?"

SMART LORNA

Yes, Lorna was very smart. College girls might well take a lesson from her.

For coeds have now emerged as the largest group of clients for aid by the Youth Consultation Service in New York, which handles pregnant, unmarried women.

Also, many college coeds are easily stampeded, like sheep, into smoking, drinking and submitting to amateurish sexual exploration by callow youths.

Just tell these girls that "Everybody's doing it," and they usually succumb to any high-pressure wooing or advertising.

Yet college students are supposed to have high I.Q. and use their brains.

Girls, if a man is not fond of you for your personality and intellect, he is not worth your time. Sell out merely for a night at a motel.

If all that attracts him is what lies below your neckline,

He mentioned H. R. 3798 (NARCE Omnibus Bill) as the first such bill to equalize retirement annuities, along with H. R. 3799.

Gurney spoke of conflicting opinions on H. R. 7523 by Clarence Farr and Roscoe Naugle urging members to write Congressman Syd Herlong in support of this bill aimed at increasing tax exemptions for retirees. He also mentioned three bills opposing state inheritance and federal estate taxes for the retired by the House.

Complaints were heard on the high rise in the price of drugs and Selje made the suggestion that the subject be studied and letters of protest submitted to the proper authorities.

There were 41 members present and 14 new members were added. Mr. Benice Penhollow.

Addressing a handful of parents and teachers who turned out for the semi-annual meeting of the Lyman High School Parent-Teacher Association, Principal Carlton Healy, stated "It is utterly ridiculous that teachers are having to carry the battle for your child and be ridiculed and condemned for taking a stand."

He charged the parents with having failed their children in demanding better education.

Healy concluded, "No longer can we endure what we have had for the past 20 years, which is less than the minimum standard."

## Fourth Grade Tours Cape

The fourth grade classes of Lake Mary School boarded Greyhound buses for a field trip to Kennedy Space Center recently. Teachers accompanying the children were Mrs. Barbara Hartwig, Mrs. Mary Maxwell, Mrs. Dorothy Webster and Jim Neville.

The Vehicle Assembly Building, one of particular interest to the children, here they saw where Saturn V is being assembled. They discovered the building covered some eight acres and that four Empire State Buildings could easily fit inside. Inside they were preparing to test a crane by lowering a 20-ton weight onto a raw egg—the weight was to crack the eggshell but not break the yolk!

Among other places the children visited was the Mobile Launcher, where giant machines carried assembled rockets from the assembly building to the launch pad. They saw the Astronaut Memorial erected to commemorate the original space exploration. Under the small monument a time capsule containing information about early space explorations

## Eddie Nuss Hurls No-Hitter

### Casselberry, Altamonte Hold Little Loop Leads

The Altamonte Twins and Casselberry Indians continued to lead the pack in the week-end Major League, while Casselberry remained undefeated in the Senior League in week-end action at Cooper Field in Coleman.

Eddie Nuss hurled a sparkling no-hitter for Coach Paul Branson's Twins on Saturday night to boost his record to 14 and 2. Just one-half game ahead of Coach Jim Lewis and his Casselberry team, which sports a 13 and 2 record.

Nuss allowed unearned runs in the third and fifth inning to the Longwood Braves on walks and errors, but gave him team-mates victory with a two run homer in the sixth, making the final score 3 to 2. Nuss struck out 11 while hurling six innings.

pair of doubles and a home run to lead the winners at the plate.

In other Major League play over the weekend, Forest City edged North Orlando 2-1 on Saturday night, as Bobby Keane hurled a two-hitter. Jim Keane doubled and 7 Copeland and White singled for the Pirates. Baker has now hurled 20 innings while allowing only three unearned runs and just five hits. Smith was brilliant in a losing effort for the Senators on Saturday, chalking up 12 strikeouts and allowing just two safeties in going the distance.

Second-place Lake Mary whipped Sunland 14-0 on Friday night. Mike Iudin fired blanks at the Yankees, limiting the losers to three hits and whiffing 16. Iudin, with two singles and a home run, and John Durham with three singles paced the Giants.

North Orlando edged Forest City 4-0 on Saturday afternoon. Billy Elders, with relief help from Steve Smart, was the winning hurler. Bobby Deane had two singles for Forest City.

Longwood slipped past the Altamonte Twins 6-2 on Saturday night with Larry Chumet scattering seven hits to earn the mound victory. Ricky Smith napped a double and Brian Brewer, Don Gano, and Richard Sturgall had singles for Longwood. Mark Neufeld belted a single and home run and Mike Headrick hit a triple and a double for the Twins.

The Sunland Yankees edged the Lake Mary Lions 15-0. Also in Farm League play, the Sunland Yankees edged the Altamonte Panthers 12-11 in a game pitched by the Sunland Bombers 12-11 with Randy Jackson the winning pitcher. Jackson paced the Panthers with a single and a home run.

bombed the Lake Mary Lions 21-2 in Minor League play.

The Altamonte Senators whipped the Casselberry Cubs 18-12 in Farm League play at Altamonte. Steve Bunn was the winning pitcher and Mike Elery hit a home run for the Senators. Kenny Lane and Gilbert Alexander combined for a no-hitter in Minor League play.

He and George Archer had entered the final round tied for the lead in the Preakness, but Archer's stroke bulge over the field. Archer shot a 68 to win the tournament. Stockton skied to a 74.

Damascus, owned by Mrs. William Woodward and her daughter, Mrs. Edith Bancroft, boosted his two-year racing record to seven victories in 10 starts.

Proud Clarion already is in New York and "the Belmont" will be his next race, said trainer Lloyd "Boo" Gentry. Gentry watched on television from a New York hospital bed while Fred Clarion made a belated effort to come from last place in the Preakness.

I thought he was a little too far back in the early part of the race and tired a little in the stretch, but Stockton didn't let the bad shots and bogey bother him.

Goody closed with the day—a 69 and won second place with 280 for 72 holes.

# Damascus To Belmont

BALTIMORE, Md. (AP) — "The winner of the Preakness is cordially invited to test his mettle at a mile and a half," reads a newspaper ad. "The Belmont, June 21, 1967." Damascus said Sunday through his trainer, Frank H. Whiteley Jr.

The Belmont winds up the Triple Crown for 3-year-olds. Damascus saw it Saturday with his authoritative victory in the Preakness that is another year without a colt sweeping all three of the Triple Crown races.

The triumph put Damascus firmly back in the running for election as the best 3-year-old of 1967. It was by 2 1/2 lengths over in Reality and 6 1/2 over Proud Clarion, the Kentucky Derby winner.

The time of 1:58 1/5 for the 1 1/2 miles was only three-fifths of a second slower than the Dan Patch record set by Nashua in the 1888 Preakness.

Damascus, aiming for his second Derby, started from eighth place in a field of 10 in the \$14,500, richest post in 62 minutes of the Preakness. It was a breathtaking move for the son of Sword Dancer put on by Jockey Willie Shoemaker.

# Yanks Snap Skien

SOMEWHERE in the middle of all the hitting that was going on at Tiger Stadium Sunday, there was Mickey Mantle's 80th career home run. Except to Mickey, it could hardly have mattered less.

But on a doubleheader afternoon during which some eight more singles, hit by Robert Amaro, that pulled the Yankees out of a four-game losing streak and gave them a game of solace after three of grief against Detroit.

The Tigers hammered four home runs—two by Dick McAuliffe—in winning the opening game 9-4. When Willie Horton blasted a three-run shot in the first inning of the second game his second of the afternoon, the 4,882 fans in attendance might have been forgiven for their thoughts of ending the day in first place.

But the Yankees came pecking back, tied the score on a three-run triple by Tom Tresh in the third and added two more in the same inning on singles by Joe Penitente and Charlie Smith.

Then, boom, Al Kaline hit another one out, tying the score

at 5-5 and that's the way it stayed until the eighth. Steve Whitaker and Smith then singled and then Amaro dropped a single into left field, winning the game 6-5.

Detroit stayed in second place, 1 percentage point behind the Yankees.

In other American League games, Boston swept a pair of games from Cleveland 4-3 and 6-2, Minnesota crushed California 12-3 and Kansas City outlasted Chicago 5-4.

Amaro's fourth homer in as many games came in the seventh inning of the first game and was preceded by a similar two-run shot by Horace Clarke, but Fred Gladding came in to put out the fire and save the victory for Earl Wilson.

It appeared unlikely he would be in the lineup at all. He used two Lotus Fords and a garage full of engines before qualifying at the third slowest speed of 163.377 m.p.h.

Jackie Stewart of Scotland, who had the 96 race season on the list, was fastest qualifier of the first two sessions with a run at 165.564 Saturday in an Eagle-Ford.

Dan Gurney, international racer from Santa Ana, Calif., came out of the trials doubly happy. His qualifying speed of 167.224 was second only to Andretti's record and six of his All American Eagle cars made the lineup.

# Seminole All Sports Presentations Set

A capacity crowd is expected for tonight's All Sports Banquet at Seminole High School at which time the 200 trophies will be presented to this year's outstanding athletes.

Athletic Director Ralph Stumpf announced that more than 300 trophies had been sold for this annual event and that there are only 20 more available. Stumpf stressed that there'll be no tickets sold at the door and those interested in attending should call him at the high school for the purchase of tickets.

The featured speaker will be Roy Robert M. Jenkins.

The banquet will start promptly at 7 p.m. with the actual awards presentation beginning around 8 p.m. The meal will be served in the high school cafeteria and the trophy presentations will be made in the auditorium.

Stumpf added, "Tonight is actually a good time to buy tickets for the game which will be played at the Municipal Stadium. The JV Interscholastic game will start at 6 p.m. while the seniors will challenge the varsity football unit next week."

Campbell, 44-year-old veteran from Huntington, W.Va., wants that title badly—and an current form he's the man to beat.

The British Amateur begins May 29 at Farnley near Liverpool in the north of England. And the prospects are that if Campbell doesn't win the victor will be another member of the U.S. Walker Cup squad.

**1-1 Tie** HAMILTON, Bermuda (AP) — Jack Kennedy scored in the 74th minute Sunday and brought the United States a 1-1 tie with Bermuda in the preliminary rounds of the Olympic soccer competition. # How Henry Aaron Proved His Point!

Hank Aaron heard he was only second best so he figured he'd better try harder.

That was the witty explanation Aaron had Sunday for his prolific day at the plate in which he lashed two homers, two singles, drove in four runs and scored three as Atlanta whipped Pittsburgh 7-2.

The Braves' righty pitcher referred to a controversy touched off by an Atlanta baseball broadcaster involving a comparison between Aaron and the Pirates' right fielder, Roberto Clemente.

"Introducing Clemente at a Braves' booster club luncheon last Friday, broadcaster Milo Hamilton said:

"We all know how great Hank Aaron is and what he has done, but when it comes to making the All-Star selection, right there is the right fielder."

Hamilton wasn't pointing to Aaron, he was indicating Clemente.

"I played left field in the All-Star Game because Walter Alton asked me if I'd mind playing there," Aaron said upon hearing about Hamilton's words.

"I could have played right field if I had wanted to because I got more votes than anybody out there."

Going into Sunday's game, Clemente was showing why Hamilton and numerous others think so highly of him. He was batting .400 with seven home runs and 27 runs batted in. However, he went zero-for-four, and his average dipped to .388.

Aaron, on the other hand, scored to .388 with his performance and raised his homer total to 31 and his RBI output to 28.

And to top off his exhibition, Aaron—who doesn't have the

Miss Barbara Ann Odham, daughter of Mr. and Mrs. Alvin Wilson Odham, 5517 Golf Club Parkway, Orlando and James Gary Johnson, son of Mr. and Mrs. James Arthur Johnson, 210 S. King St., Fayetteville, N. C. were united in holy matrimony May 4 at 8:30 a.m. at the First Baptist Church, in Sanford.

The groom is a nephew of Mr. and Mrs. M. R. DeKle, Sanford.

Rev. Fred B. Chance, pastor, officiated at the candlelight, double ring ceremony.

The church was decorated with two seven branched candles, two baskets of white snapdragons, gladiolus and calla lilies and a background of palms and fern.

Roger Harris, organist, presented a program of traditional wedding music before and during the ceremony.

Given in marriage by her father, Miss Odham was radiant in a formal length gown of white tulle de sole featuring a scalloped neckline, long sleeves and ampie of lace and seed pearls. Her veil of silk illusion fell from a tiara of seed pearls and she carried a bouquet of white roses on a white Bible.

The "Poetry Pinchers" held their monthly covered disk buffet dinner and pot-gether at noon in the Geneva Community Center, Tuesday, May 16. This marked the exact day six years ago that 10 couples of railroad retirees organized the club.

The menu, as usual, was a variety of many delicious dishes. A. J. Walker gave the invocation and 22 members were present.

R. E. Purdy held a brief business meeting following the dinner. The secretary, Mrs. Humphrey, kept a record of the meetings in "Candid Camera" shots which are most interesting to the members.

The hosts and hostesses for this month's meeting were Mr. and Mrs. T. T. Humphrey, Mr. and Mrs. H. B. Newman, and Mrs. Edith Rogers.

# Fish Fry Enjoyed By S. S. Class

The Dependable Sunday School Class of First Methodist Church held the monthly meeting at the home of Mrs. B. E. Chapman, in Losh Arbor.

The meeting was held at 8:00 a.m. so the members could enjoy a fish fry with tempting hush puppies, slaw and ice cream.

During the business meeting it was decided the class would prepare dinner on Wednesday during Youth Week, serving sloppy joe, salad and dessert.

Treasurer's report was given and a sunshine collection taken. Mrs. Virgil Smith was appointed in charge of memorial song books the class is soliciting.

Anyone interested in purchasing a book for a loved one or a baptism should contact a member of the class. They will record and have charge of purchasing of books. Sixteen members were present at the meeting. A former member who has returned to Sanford and Mrs. H. B. Newman, and Mrs. Edith Rogers, were welcomed back.

The wedding will be an event of July 22 at 8 a.m. at the First Baptist Church, Sanford.

**PAINT YOUR HOUSE THE SAFE WAY**  
The safest and most convenient way to paint a house is from a scaffold, according to the National Paint, Varnish and Lacquer Association. This will enable you to paint across the entire side of the building as you work downward. Try to finish a morning's or day's work at a corner or window so that rain and streaks will not occur, even in several days in severe weather. Scaffolding can be rented from many paint dealers.

**PAINTING SHUTTERS AND SCREENS**  
Shutters, screens and storm sashes are easier to paint if they are removed from the house and held flat on supports, suggests the National Paint, Varnish and Lacquer Association. Wipe off all dust and dirt before applying paint. Screen enamel is best applied with an applicator available from your paint dealer.

# Seaberg, Van Looven Vows Exchanged In Jacksonville

Miss Josephine Anne Seaberg, daughter of Mr. and Mrs. Harold F. Seaberg, Jacksonville and granddaughter of Mrs. George Shipps and the late Mr. Shipps, Sanford, and James Orville Van Looven Jr. were married May 6 at 4 p.m. in St. Andrew's Episcopal Church, Jacksonville.

The groom is the son of Mr. and Mrs. James Orville Van Looven Sr., Rev. Robert S. Small officiated at the ceremony.

The bride wore a linen and Venetian lace gown, with scoop neckline and long sleeves. Her veil of silk illusion was attached to a silk rose headpiece and she carried a cascade bouquet of daisies and sweetheart roses.

Mrs. Richard E. Kozol, Gainesville, was matron of honor and attendants were Mrs. Robert Brown, Melbourne Beach; Mrs. Sharon Gille, Sanford; and Mrs. Beverly Rowan, Debbie Scott and Mitchell Carney were flower girl and ring bearers.

Levin Safar, Orlando, was best man and usher-groomsman were Gary Van Looven, brother of the groom, J. B. Holt and Richard Kozol, Gainesville.

Following the ceremony a reception was held in the Parish Hall of the Church.

They left for a wedding trip to Miami and upon their return will reside at 902 SW Seventh Ave., Gainesville, where the groom is attending the University of Florida.

Among the out-of-town guests were the bride's grandmother, Mrs. George Shipps and several other relatives and friends from Sanford.

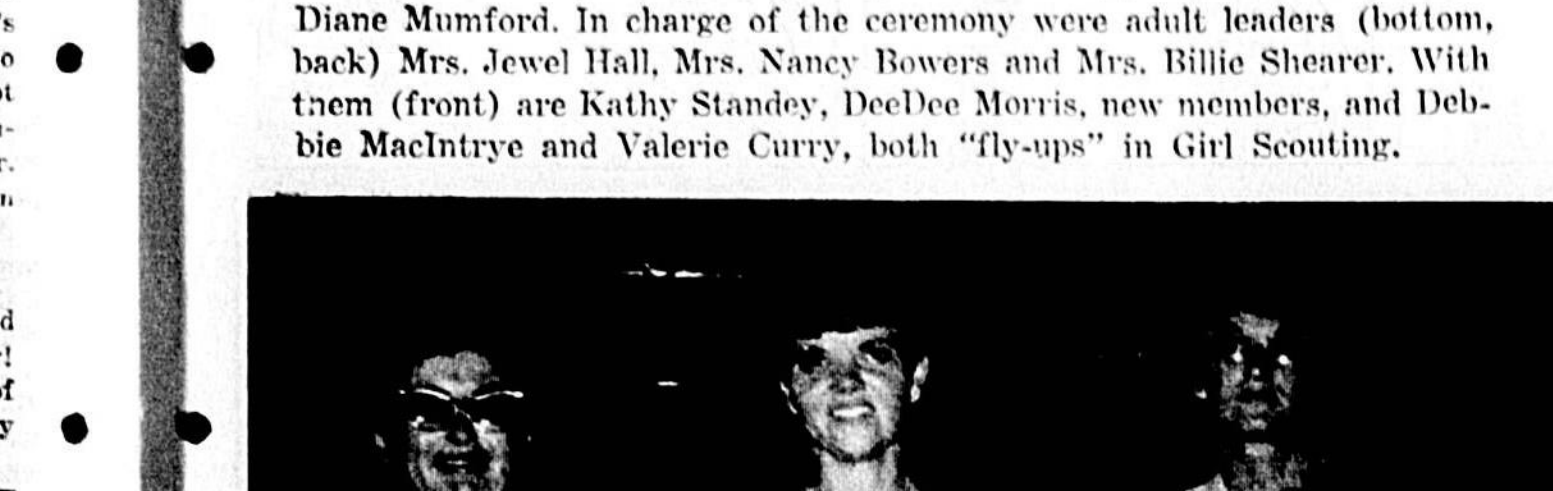

Don't hesitate to combine several varieties of cheese as a topping for pasta. It's a good way to use up small pieces of cheese that are in the refrigerator and the combined flavors add interest to bland spaghetti or noodles. Use varieties of cheese that can be grated and mixed together.

# 'Sidewinder IV'

ANGELS CAMP, Calif. (AP) — A bumblebee frog named after an Air Force missile has outjumped 2,000 of his conspecifics from around the world to become the new "celebrated jumping frog of Calaveras County."

With three mighty leaps before a crowd of 60,000 Sunday, Sidewinder IV showed his flickering webfeet to such also-rans as an Australian entry with a kangaroo jump, an invincible Hawaiian frog that disappeared into the stands and a human frog.

Sidewinder's long 7 1/2 feet, 11 inches makes him not only celebrated, but with the \$300 title money, about the richest frog around.

Owner Mike Voitch, Stockton, Calif., tavern owner and 25-year frog jump veteran, promised his entry such rewards as escape from the Monday morning frying pan, rest and all the bumblebees he can handle.

"I've been jumping frogs for 25 years," Voitch declared after the victory. "I've got my own pond. First you find them, then you feed them bumblebees, then you start training them two weeks ahead of time. I won't tell you the rest. It's a professional secret."

Grandson Mike Guido, the trainer, offered a hint to success: "You hit the floor behind him and if he won't jump, you tickle him."

A legal hassle swirls around Victor B. Bonamour of Berkeley, Calif., who claims to be the owner of the frog.

# Miami Beauty Wins 'Miss USA' Title

MIAMI BEACH, Fla. (AP) — Miss USA's boyfriend admits he's already asked her to marry him but says he's dated better looking girls.

And Miss USA, Sylvia Hitchcock, said her high school chums passed her over twice in choosing homecoming queens. Both times she was just a runner-up.

But the judges and an enthusiastic audience agreed Saturday night that the University of Alabama junior was the fairest of the contestants.

"Well," hedged the boyfriend, when asked if Sylvia was the most beautiful girl he has ever dated. "She's the most natural and down to earth girl I've ever dated."

A tall dark and handsome football player, Herbert (Skip) Hunter of Hainesville, Fla. (highly musically declined to discuss the question in any more detail. The proposal, he said, resulted in a "maybe eventually" answer.

Miss Hitchcock, who represented Alabama recently, was named in a "maybe eventually" answer. "I used to collect eggs," she said after she awakened Sunday morning surrounded by photographers and red roses. My uncle told me that the rooster laid eggs, too, so I went out to collect them. But he just scratched his head.

A striking 5'5 1/2, the 21-year-old art student played deaux, France, who appeared in an all-green outfit and jumped 10 feet, 10 inches.

"I've got a court writ from San Francisco attorney Melvin Bell that certifies I'm a frog," insisted Bonamour, a 22-year-old student at Hayward, Calif., Junior College.

"The fifth dictionary definition of a frog is a Frenchman — and I want to jump," he declared.

Officials said he wouldn't qualify unless he could stay under water for 15 minutes and leap from all fours. Bonamour, a scuba diver, offered to do so but his claim was disallowed.

Victor B. Bonamour of Berkeley, Calif., who claims to be the owner of the frog.

Believe it, Lady Richard makes it happen. Without Richard, and thousands of other Southern Bell people, you couldn't even call next door, much less New Jersey.

You say it all seems so automatic? Good. That's the way it should seem. We all (including Richard) want you to take smooth, fast, efficient telephone service for granted. But if you think it's not personal, you're wrong. It's very personal. If you don't believe it, ask Richard's mother.

any special legislation concerning urban renewal specifically for the City of Sanford was "mixed" this morning by State Sen. Robert Elrod, chairman of the Seminole-Orange legislative delegation.

He made the statement via telephone to The Sanford Herald when informed the Sanford City Commission is drafting specific legislation for urban renewal.

"The delegation," said the senator, "fixed a deadline of April 4 for the presentation of any special legislation and the City of Sanford failed to bring up this matter before that date. We have 'killed' other special legislation because of failure to meet the deadline and it would be unfair to consider this matter."

"However, if the city can show an 'emergency' exists," he added, "it may be that the delegation would look favorably on considering the measure."

Senator Elrod pointed out that the Legislature is considering general legislation covering urban renewal.

The legislation with a freeholder referendum attached to it, is expected to be submitted to the delegation early next week.

In other business during the meeting, the board:

TABLED action on appointing a replacement for Al Lee for the Zoning and planning board;

Approved a pay raise for Sid Richard Jr. after he received "A" certification for his 1967-69 biennium for general operating . . .

Withheld action on annexation of the Ranch House Restaurant on Hwy. 192 pending more study;

HEARD a protest from William Bush who owns two lots on 24th St. on establishing a special assessment district in the area. Bush said it would create a hardship.

Approved extending water line from six inch to eight inch for Celery Avenue Experiment station at a cost of \$5,465.

Thomas Freeman, association attorney, after stating "ownership carries with it responsibility" reminded the Commission Chairman John Alexander that the Lake Wildwood property of the county and urged the county "set a good example for other property owners by taking care of your property and eliminating this public nuisance."

He pointed out the lake is overgrown with water hyacinths and cattails and "the safety of neighborhood children is a grave concern. We are tired of waiting, we want something done before someone gets hurt. If a child should fall into the lake, he would drown before he could be found."

When J. C. Lavender, county superintendent remarked, "That will never be a permanent lake," Freeman answered, "Then fill it in."

The board agreed to investigate the problem fully before decision on proper action to be taken.

In other business, the board:

Authorized County Attorney Harold Johnson to notify the developer of St. Johns River Estates the time has elapsed for completion of the roads in the subdivision and notify the

bonding company as well. "It looks like the St. Johns River Estates roads are right back in the Commission's laps," said the Commission Chairman John Alexander.

Instructed the county engineer and superintendent to prepare a report on the problem of the water hyacinths in Bear Gulch Lake as presented by Col. Raymond A. Seifert;

Requested the county attorney to investigate and make recommendations of the proper course of action on request from W. J. Garnett that a park in Flamingo Springs Subdivision on U.S. 192, across from platted area off the Longwood Longwood Plaza be returned to his ownership;

Accepted Virginia Drive and Forest Slopes into the road system as well as the street paving and drainage in Eastbrook, Unit 12;

Ordered emergency maintenance on 300 feet of Blackwood Drive in Rolling Hills and 600 feet of Blackwood Drive in Forest Slopes on a request for road construction approval prior to a plat recording for development of some 52 acres near English Estates School by SR 435 and at the same time turned down a request for road construction approval in an un-platted area off the Longwood Markham Rd.

Guests of honor will be the Board of Seminole County Commissioners.

## Port Gets Boost; Committee Okays NAS Annexation

TALLAHASSEE (Sp.) — Capital corridor light vein gossip about "move the state capital to Sanford Naval Air Station" began to take on a serious note here today.

When proponents of the move-the-capital-to-Central Florida proposition first bronched the subject, some Capitol wags suggested the Navy base at Sanford since the Navy will be phasing out the station by July 1968 it was pointed out that in addition to sufficient land area and buildings, the site also has a ready-made airport.

This morning Sen. Robert Elrod, chairman of the Seminole-Orange legislative delegation, said a "new approach" has been formulated in the proposal to move the capital to Central Florida.

"Legislation is being drafted," he said, "that a feasibility study be conducted by the Florida Development Commission and report back to the 1969 Legislature."

He added one point in the criteria will be the need for tax-exempt land "and there is plenty of that at Sanford Naval Air Station." On the other hand, he stated that no one piece of correspondence has been received from the Sanford area promoting the use of the base area as a capital site.

"Sanford is missing a bet," the lawmaker said.

Seminole County Port Authority's legislation earmarking race track funds in the amount of \$60,000 was given a "boost" today when the House local government committee reported favorably on the bill and placed it on the House calendar for consideration, according to Rep. Jan Fortna.

The measure would earmark a part of the county's race track tax allocation for the purpose to serve as collateral for a \$900,000 loan from Jeno Paulucci, Sanford industrialist.

Fortna also reported action on these Seminole County legislative bills:

Measure permitting Sanford to annex Naval Air station land.

Bomb Blast

MIAMI (AP) — A time bomb today tore apart the office of a Cuban union group that hours earlier urged Cuban exile workers to drop plans for today's general strike.

Period checks for contamination are made of the lakes, according to Robbins. "And public pools are checked monthly."

There are no current plans to do tests of the St. Johns or Wekiva Rivers. However, the St. Johns is not considered suitable for swimming purposes.

## County Waters 'Satisfactory'

The waters of the lakes of Seminole County which are used to any extent for swimming purposes have been found "satisfactory," County Sanitarian Val Robbins told The Herald today.

Period checks for contamination are made of the lakes, according to Robbins. "And public pools are checked monthly."

There are no current plans to do tests of the St. Johns or Wekiva Rivers. However, the St. Johns is not considered suitable for swimming purposes.

## Monday's Brief Rainfall — It Came Too Late!

Monday afternoon's rainfall was welcome but came too late to save a goodly part of Seminole County's parched crops, in the opinion of growers.

Seminole Agriculture Center registered .7 of an inch of rain while Central Florida Experiment Station recorded .62 of an inch yesterday afternoon and evening.

"Cabbage and corn were too far gone for the rain to do them any good," said Dr. Gerald Greene, assistant entomologist at the experiment station.

"Too, we have been informed that next year's citrus crop has been severely damaged, young fruit already dropping for lack of moisture."
