The first planary taught the lesson that, there instead being fairly aven, the most of finish is decided by

Government Ownership

Believers in socialism, or government ownership of rafiroads, power and light systems, banks, and other great industries or commercial organizations, should read the address of Mr. Z. G. Hopkins, chairman of the Western Railways' Committee on Public Relations before the go-round, which only goes to off, but it seldom can be done Junior Association of Commerce in Chicago yesterday. If prove that "Virtue is always re- Caldwell tried it four years ago the government had owned the railroads during the past warded." five years, Mr. Hopkins said, their annual deficits would have added more than a billion dollars a year to the already exorbitant federal deficit.

This would have been true, Mr. Hopkins said, even if all the water in the railroads had been squeezed out by the process of acquisition by the government. "If the govern- and let somebody count that knows ment had acquired the railroads at the end of 1930 at a price one-half their property investment, and paid for them with bonds bearing three per cent interest, a price representing less than one-fourth more than the capital expenditures for improvement of railroad property since the end ish Inquisition didn't have a thing of the World War, government ownership and operation on what a Florida gubernatorial of railroads would have added more than \$1,000,000,000 to candidate has to go through. Per-

Mr. Hopkins comes to this conclusion only after asamorised press which is exclusively entitled to the use for reabout the state of the suming that the government would have acted as private tion proved: the public is all fed management has in not increasing transportation rates, up on blah, bull, baloney and apple in not reducing wages paid railroad labor, and in not reduc- sauce. Not one single candidate ing the load of taxation which is now imposed on the rail- who tried to win the voters' favor would simply mean that other taxpayers would have to make up the loss of revenue which the government otherwise would suffer.

"At an interest rate of three per cent," Mr. Hopkins the only thing the Sovereign Fish stated, "the carrying charges on United States bonds was nterested in was honesty, abiliequaling one-half the property investment of the railroads. as reported by the Interstate Commerce Commission, would approximate \$400,000,000 annually. In the five-year period beginning with 1931, the annual net railway operat- officer, and by this time it must ing income, or the gross revenues less actual operating expenses and taxes, averaged less than \$200,000,000 a year. In face of these facts, it is obvious that the railroads, under the than hocus-pocus and clown-private management, have been doing a rough better ich private management, have been doing a much better job than they are given credit for generally. If their record, is a mess of votes outstanding that with respect to reductions in operating costs to meet a de- must be swung this way or that cline in revenues approaching fifty per cent, had been no and while Mr. Pettewny has the toss it out alongside a filly pad and other departments, it is evident that the country's railroad problem would be even more perplexing than it is today. better than that of the post officer arms pechaps some odge he's a long way from bein' problem would be even more perplexing than it is today. him a sweet race, for they are tion for line and rod smashin' let
