The deeper you dig . . . the more you stir. And the more you mix all the facts, the clearer the mud. Sound confusing? It's inadequate to cover the mess sur rounding the Sanford Municipal Stadium. First of all, there's one thing abundantly clear that "jewel" is costing us a pretty penny each and every day simply because it's not being used.

Last week I was convinced that the City was goofing off, along with a couple of other groups. Now I'm certain that it's more than just a few groups involved. And probably as important, we'd better get 'em all together for a pow wow and talk this thing out. Spoke with City Manager Pete Knowles and he's all for a meeting.

Pete also filled-me-in on cost factors and brought home one unalterable fact . . . YAH GOTTA DROP THE SLUG INTO THE JUKE TO HEAR THE NOISE. Look, no one is going to get that field without someone paying the freight!

As it stands presently, the City is already absorbing over a thousand dollars annually for the maintenance costs. And that doesn't include a grandstand paint job coming-up, which'll cost \$650 for the paint alone. Add another light pole which has to be replaced (and there are 12 of 'em at the field) at a cost of \$900 . . . and you soon start to understand why it's costing the School Board \$2,500 a year to rent it for 17 football games. These include Seminole High varsity and JV games. Crooms High and the junior high football encounters.

You say that's a lot of loot? I thought so too, until I was told that the board could rent it for \$1 a year . . . PROVIDING THEY MAINTAIN-ED THE FIELD. They worked under this arrangement for one year (back in '63 I think) and then turned it back to the City. But I'm still not convinced. So I ask, "Why can't the

school board pick-up this tab, without passing it on to the Stand by for this one taxpayer! Football isn't considered a school event, but rather an association project or some such play on words. Can you be-
