## Transfer Of Title Within 3 Weeks?

By FRED VAN PELT

Question of transfer of title for the Sanford Airport property from the U.S. government to the City of Sanford may be resolved within three weeks. This was the word telephoned this morning to The Sanford Herald by Congressman William W. Chappell from Washington, D.C.

The lawmaker quoted Hart T. Mankin, general counsel for General Services Administration, title holder of all federal properties, that "the problem is about to be solved" and "we hope and plan to transfer" the account "within three weeks."

Transfer of deed for the former Navy base site has been held in limbo since a July 7 letter by Mankin refusing to allow the City of Sanford to have the property "for \$1 and other considerations."

Mankin and other federal officials have maintained the 108-acre improved portion of the property is worth \$800,000 approximately, and hoped to have the city pay that amount in return for the 1,650-acre total property.

W. E. Knowles, city manager, returned from a Washington trek a couple weeks ago amid the air base property with a report that "a decision would be reached within 30 days."

## Was Citizen's Big Donation Refused?

# Confusion Reigns On Zoo Removal

By BILL SCOTT

Apparently there is some confusion over what was actually contained in the motion made by City Commissioner Earl Higginbotham two weeks ago that called for the moving of the Sanford Zoo to one of two city-owned locations on Lake Monroe.

This was revealed in an interpretation of Higginbotham's motion as related by City Manager W. E. Knowles, in a letter from Mayor Lee P. Moore to an interested citizen who offered to fund some of the cost of relocating the zoo. The commissioner was confused today by The Herald in explaining the apparent confusion that resulted in a letter from Mayor Lee P. Moore to an interested citizen who offered to fund some of the cost of relocating the zoo. The commissioner was confused today by The Herald in explaining the apparent confusion that resulted in a letter from Mayor Lee P. Moore to an interested citizen who offered to fund some of the cost of relocating the zoo.

## What Is The Thought Behind 'Cut' Actions?

By TOM ALEXANDER

What is the thought behind the Seminole County Commission's action to cut \$2,000,000 annually from the Seminole County Chamber of Commerce and to two county juvenile organizations. The Chamber receives \$21,000 per year to use for advertising and promoting the county. This is approximately one-third of the Chamber's entire annual budget. Some \$3,000 per annum has been allotted to the South Seminole Jaycees and the Sanford-Seminole Jaycees to operate two tourist information centers for the benefit of the county.

## Funds Seen For Canal

By CHARLES LEONE

Action to obtain an advance of \$4,000,000 preliminary engineering and design was taken by the St. Johns-Indian River Canal District directors in meeting yesterday at Titusville.

The directors approved a resolution agreeing to correspond more with U. S. Department of Housing and Urban Development (HUD) regulations. When HUD receives the resolution, Chairman John Krider said, it will release the \$4,000,000 advance.

## 'Vintage' Is Set To Roll

The sound of tools is evident at the Sanford Airport these days as workmen construct jigs for use in the building of eight different Vintage Mobile Home models.

Fred Key, Vintage's general manager, said production at Sanford's newest industry will begin in approximately two weeks or when enough supplies become available.

Vintage is employing nine local people and with the same company workers brought here, the three 129 by 180 foot former Navy buildings will be hunched with activity with the building of mobile homes ranging from one, two or three bedrooms to one and three-quarter baths.

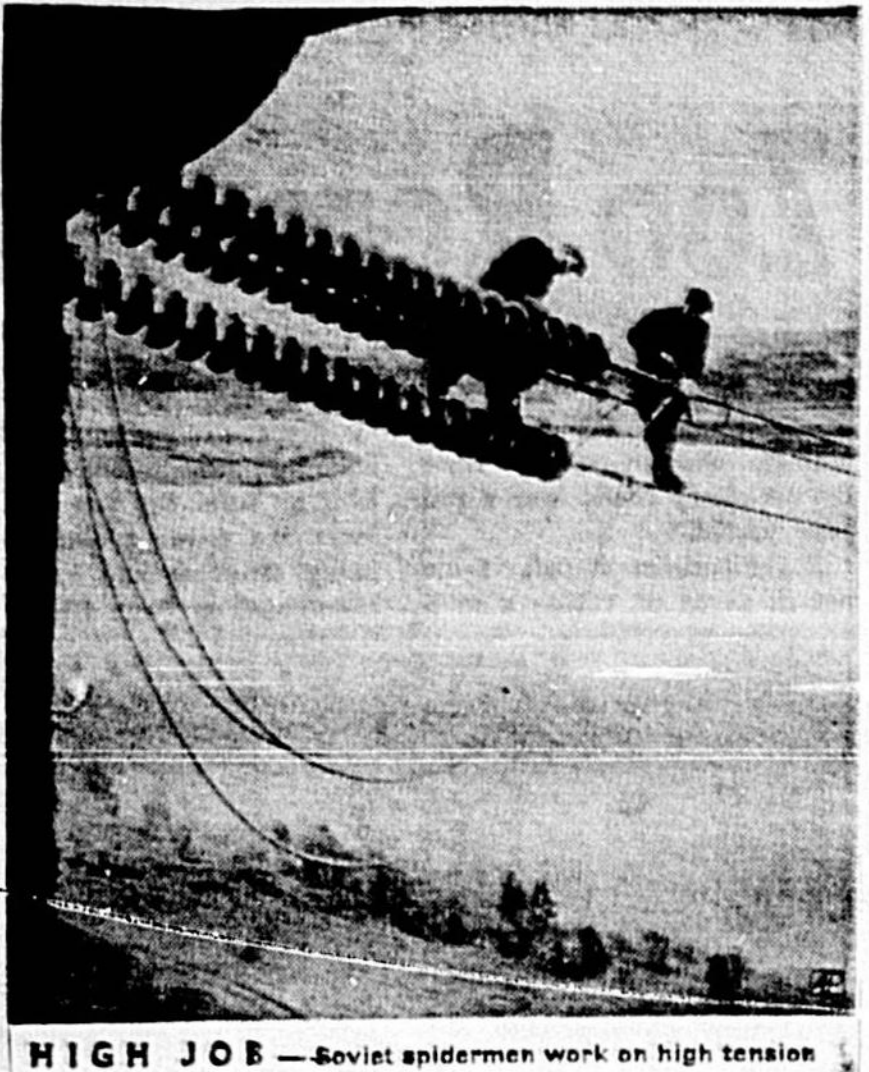

Key said the units to be built here are 58 to 69 foot long and 12 feet wide.

### 'Flavets' Are Home To Married Students

GAINESVILLE, Fla. (AP)—The days of the nickel soda pop and the 10 cent hot dog may be long past here, but for a sizable chunk of this college town's married students, a furnished apartment for \$29.50 a month is still a welcome reality.

Married couples — and in many cases, small children — are filling up the Flavets just the way they did a generation ago when young veterans went to school on the GI Bill.

The Flavets, green, wooden shingled apartments, arrived on the University of Florida campus in 1946 when they were changed from "Temporary" Army barracks to apartments because of the student influx immediately after World War II.

Today the 52 buildings, which contain 428 apartments, are sheltering 1,206 residents from the spiraling cost of plusher apartments and higher expenses.

If the residents have their way the Flavets will be up for many more years.

A lot of people wouldn't be able to go to school if not for the Flavets," said pretty Terzie Waddell, 21, mother of two.

Mrs. Waddell, like most wives who live in the Flavets village, is helping put her husband through school.

For Waddell, son of Brevard County Circuit Judge Tom Waddell of Eau Gallie living in the Flavets was a homecoming. He lived there as a child in 1947 while his father was getting his law degree.

Built-in luxuries are ignored in the Flavets. But each apartment is stocked with kitchen facilities (except a refrigerator), beds, a couch, two living room chairs, gas heater, kitchen table and chairs, end tables, chest, dresser and a desk.

Free paint is supplied by the village for students who want to change color schemes.

Rent for a two-bedroom apartment, complete with furniture, water, and up to 67 kilowatts of electricity, is \$29.50. Cost per month for a one-bedroom is \$26.75.

Waddell serves as the village fire chief and has a volunteer staff of 11 village firemen. Most of them are certified by the Florida State Fire College.

The Flavets elected mayor, David Glasburn, said there's a great amount of closeness here because of our mutual interests. Everyone's going through the same thing."

### Jurors To Probe Bribery

ORLANDO, Fla. (AP)—A state attorney is gathering a grand jury to investigate two bribery cases. One concerns the Orange County solicitor who allegedly demanded a bribe from a businessman. The other involves the businessman who allegedly bribed the county solicitor.

The solicitor, Callie White, was arrested Monday as he and Herb Waters, his chief deputy, accepted \$5,000 in marked bills from Glenn Turner, president of Kosco Interiplinary Corp., Florida Bureau of Law Enforcement officers said.

Turner claimed White had twice asked him for a bribe, and that Turner contacted the FBI to set a trap for White and Waters.

The solicitor and his deputy were jailed and released on \$5,000 bond.

White immediately filed a bribery charge against Turner, who also arrested and released on \$5,000 bond. White has since been suspended from office by Gov. Claude Kirk.

James Powers, a former assistant solicitor, was named interim solicitor, but refused to prosecute the case. He cited a "conflict of interest" in prosecuting his old boss.

### IRS Sets Test Date

JACKSONVILLE, Fla.—Florida residents who are not certified public accountants or attorneys but want to qualify to represent clients in tax matters before the Internal Revenue Service must submit their examination application before August 21, 1969.

District Director of Internal Revenue A. J. O'Donnell, Jr., said that the Special Enrollment Examination in the Florida District will be given in Jacksonville, Tampa, and Miami on September 29 and 30, 1969.

O'Donnell said interested persons can secure applications and additional information from their local IRS office.

Applications, accompanied by a fee of \$25 payable to the Internal Revenue Service, should be mailed to the Director, Audit Division, Internal Revenue Service, Washington, D.C. 20261.

## Wife Is Charged In Plot

POMPANO BEACH, Fla. (AP)—John Gerardi swore out an affidavit Wednesday that his wife is "dangerous to others and needs to be confined" after police informed him she had been charged with trying to plot his murder.

Genevieve Gerardi was arrested after the officers searched her home. Police arrested her on charges of plotting the murder of her husband, John Gerardi, 42, a Pompano Beach car salesman.

Broward deputies said Mrs. Gerardi met with two men in her home on Tuesday night and told them of her plan to murder her husband. Officers said the woman offered the men \$500 to kill him.

The two men, who were unidentified, contacted the sheriff's department and George

was assigned to accompany the men to a Tuesday night rendezvous with Mrs. Gerardi in the parking lot of a department store.

At the meeting, the men introduced George as a man who "knows about these things."

Police refused to disclose details or motive of the alleged murder plot.

In his affidavit, Gerardi contended his wife was "mentally confused, hallucinating, threatens to be someone else, harasses people and is incompetent."

More than four-fifths of earth's animals live in the sea.

### Insurance Company Is Probed

MIAMI (AP)—A House subcommittee launched a probe of the insurance industry in Florida today as a controversy flared over the financial condition of Sen. L. A. "Skip" Ballew's First American Insurance Company.

Calling for the records of First American, Rep. Gerald Lewis, a Miami Democrat, said there were "serious questions about the company's financial structure" and a possibility of a "recurrence of the State Fire calamity."

Rep. Jerome Pratt, D-Palm Beach, planned to investigate the California Plan rating law under which insurance costs have risen sharply in Florida. Pratt said it also would inquire into whether there was negligence in the office of Insurance Commissioner or Broward Williams in connection with a series of insurance bankruptcies.

The biggest of these was the recent collapse of State Fire & Casualty Co., which left thousands of Florida policyholders without protection.

Lewis, a member of the subcommittee, asked Williams to bring the records of First American to the hearing "to assure the policyholders of the company that they are being protected and to allay the fears now being expressed in the industry" over the company's condition.

Ballew, a Palm Beach Republican and a leading rival of Gov. Claude Kirk for the GOP nomination for governor in 1970, retaliated by accusing Lewis of making "irresponsible statements based entirely on hearsay."

"First American Insurance Company is not only financially solvent, but has a fine investment portfolio and furthermore has had an excellent claim loss ratio," Ballew said in a statement telephoned to The Associated Press from Fort Lauderdale.

The subcommittee, headed by

### Lone State Educator To Heed Maddox Call

FORT MYERS, Fla. (AP)—Establish "integration without hurting education so much. At a meeting of southern school board officials in Gatlinburg, Tenn., a little while ago we asked Georgia Gov. Lester Maddox to introduce legislation to investigate the condition of education in the South. We want them to see what has happened to quality education under their federal guidelines."

The cool reception Maddox received from persons he invited to the conference is puzzling, Moore stated.

"I know the governors of Mississippi and Alabama expressed interest in it, but I'm surprised a lot of educators from southern states aren't going to attend," he said. "The school board people are the ones I'd like to see there."

Lee County is under a federal court order to fully integrate its schools by the time they open this fall.

The school board earlier in the year tried to appeal the court order and substitute a freedom-of-choice integration plan. The appeal was blocked by the board attorney who called it a waste of money and refused to handle it in court.

Moore said he planned to introduce a motion in Atlanta asking the federal government to take a hard look at integration programs in northern states.

### Started With Paregoric, Now 'Graduated'

## Teenage Drug Abuse On Upswing

By CHARLES LEONE  
"Teenage drug abuse got started here one or two years ago, and is steadily rising now," said Sergeant Tom Simmons, of the Sheriff's Department. They started with paregoric, but now they've "graduated."

Seminole County is in a unique situation, he pointed out. We are located between two metropolitan centers—Orlando and Volusia Counties, and they each have a big drug problem.

But in Seminole County there are not many "hangouts" where narcotics are easily passed as the young people congregate.

Parties are a likely spot for passing narcotics, but rumors of "Pill Parties" where the teens lose their pills in a common pot and draw some to take seem to have more basis in imagination than in fact, said C. D. Henley, principal of Lyman High School.

Surveillance of such parties is one of the methods used by the Sheriff's Department in an attempt to curb illegal traffic in narcotics in the county.

Venturing a guess, Simmons said that the number of arrests by his department alone had about doubled in the last year to about 100 to 150. But official figures have not been compiled by any of the law enforcement agencies because of a shortage of clerical help.

Jessie Court, Judge for this county, Wallace Hall, recalled that very few of these young people are ever brought to court. (Fewer than ten.)

"We've had very few cases where the individual was actually charged with possession of narcotics," he added. "But there are a lot of kids who, in counseling, admit to taking narcotics occasionally."

Judge Hall pointed out that the police are trying to get at the higher level of drug abuse—the passers.

Many of the youthful offenders are put on "strict probation" for their first offense. "Depending on their previous record, and the overall picture," said Hall, "And many that have not been picked up for possession of narcotics were caught for crimes directly related to it—either under the influence or to obtain the drugs. And some of these teens have been jailed for the offense."

Well! feeling from the stimulants, but they can be emotionally and physically (not psychologically) addictive. This alleviates some of the fears, as a tolerance develops and the central nervous system reacts less and less to them.

They can get an extensive calm feeling with depressants (barbiturates) and a real kick if they combine them with alcohol. But this can result in death, and pneumonia is an ever-present danger if an overdose produces a coma. They are addictive, and withdrawal is painful and death is a distinct possibility.

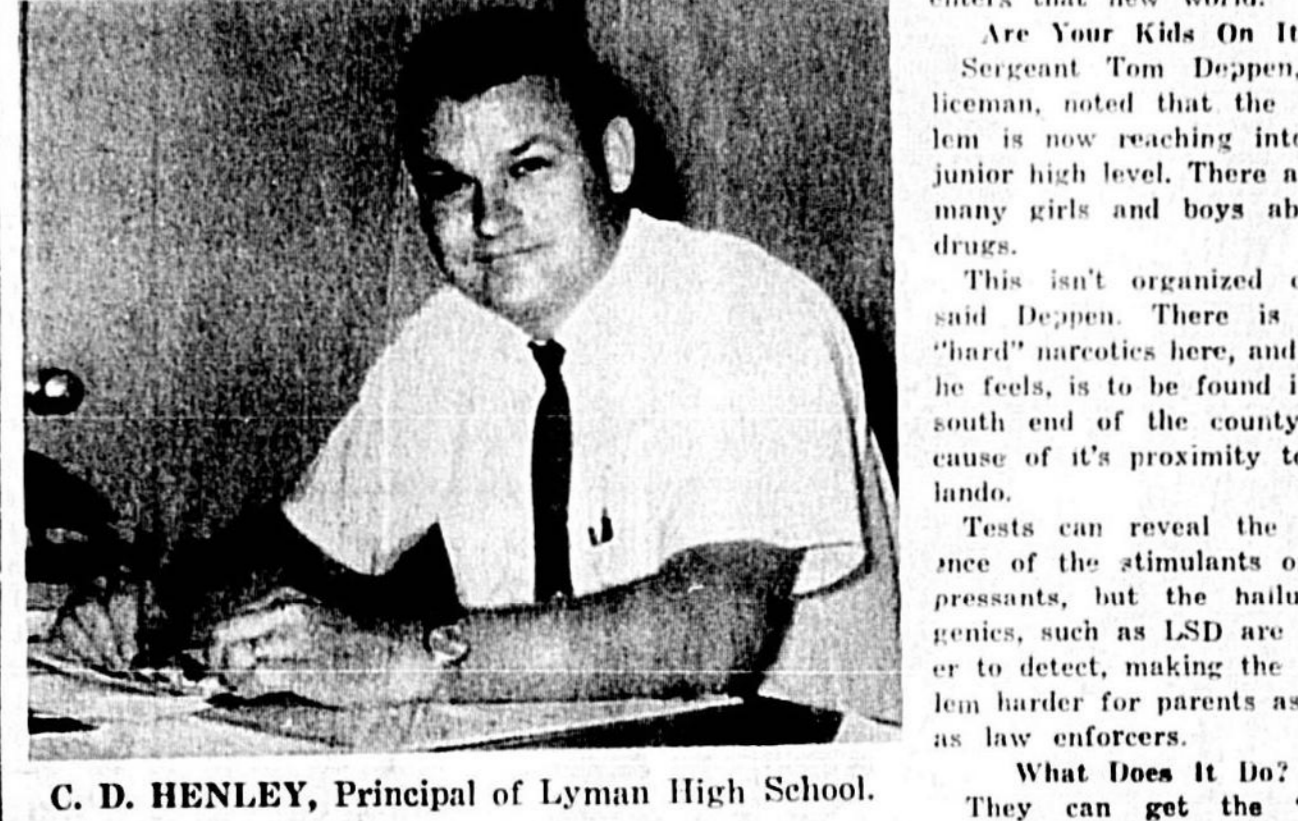

They can achieve an euphoric state on the hallucinogens, like LSD, STP and DMT. Marijuana is also included in this group. The dreamy state gives chronic users a constant lethargic feeling, and they often neglect their personal affairs. This group of narcotics is essentially not addictive, but there are reports of crimes being committed while under the influence.

Many start here. A few joints of marijuana gives them a "friend" (one cigarette can take two or three on a much longer trip than he had planned on).

The amphetamines (stimulants) are important medical drugs. The hallucinogens are being experimented with in psychological tests.

Some of our teens end up in the local hospitals. Some won't be so lucky. There haven't been deaths attributed to drug abuse yet, but the abuse is on the rise in Seminole County.

Euphoria for a few hours—is it worth it?

C. D. HENLEY, Principal of Lyman High School.

### Bridge Club Winners Named

Nine tables of the Delray Duplicate Bridge Club met Tuesday under the direction of Miss Ethel Johnson. The north-south winners were: first, Dr. and Mrs. Leonard Munson; second, Mrs. Ruth Blatt and Mrs. W. O. Bennett; third, Mrs. Arthur Wheatley and Mrs. Constance Hillechuk; and fourth, Mrs. Edna Reilly and Arthur Wheatley.

The east-west winners were: first, Mrs. Ruth Gallagher and Mrs. Janet Leon; second, Mrs. Louella Thompson and Charles Douglas; third, Mr. and Mrs. John Beavers; and fourth, Mrs. Gladys Wolf and W. G. Lutz.

Editorial Comment

Unanswered Questions Need Direct Replies!

Holding of a public hearing on the 1970 budget proposed by the Seminole County Commission has produced information which needs immediate consideration by everyone in our county.

Obviously the question arises: "Why, then, this drastic change?" What motivation prompted this action which Mr. Alexander had announced as a "bombshell"?

law and must believe that our commissioners are well aware of that strong arm which holds the placard aloft: "The Public Must Know!"

Up With Art!

There really is no season when culture and art is out-of-season. This is as it should be for this solid support for the life of a community never should be over-human endeavor.

Let that in what does take place when the drums are not beaten and the bugles blared in the world of culture promotion which does breathe new life in the summer.

Local attention is being given to the artist in the community who wants to contribute his talents in whatever art media is used.

But very much on hand are the very important intangibles which are the assets continuing year after year, in good times and bad times and creating that kind of climate which can match the delightful climate which nature has endowed our lake and river-laced community.

Spock Un-docked

Regardless of their politics, parents should be thankful that the conspiracy conviction of Dr. Benjamin Spock has been reversed.

## Collegian Faces Murder Charge

By LOWELL MCKIRGAN  
 Associated Press Writer  
 YPSILANTI, Mich. (AP) — The prosecution read a preliminary presentation of evidence against 22-year-old John N. Collins today on a charge of murdering a pretty coed.

The foreman hearing in District Court was to determine whether Collins, a senior in elementary education at Eastern Michigan University, should be sent to trial.

His attorneys had announced in advance that they would ask the judge to transfer the hearing out of this area, where several young women have been slain and their bodies left in the countryside since the summer of 1967.

Collins faced a pretrial examination as a first-degree murder charge in the strangulation death of an Eastern Michigan freshman, Karen Sue Beineman, 19, whose nude and battered body was found July 26.

Meanwhile, Andrew J. Manuel, 25, a friend of Collins, was being held at the federal detention center in Florence, Ariz., on a charge of interstate flight to avoid prosecution in Michigan for larceny. He was arrested in Phoenix Wednesday.

Michigan authorities planned to question Manuel about the Michigan slayings, and California officials said he was wanted as a material witness in the strangulation death of a teenage Oregon girl, near Salinas in June.

Mrs. Beineman was last seen riding from a Ypsilanti jewelry shop with a young man on a motorcycle. Her body was found in a ravine north of the city.

The cases of six other girls and young women slain in the area in the past two years remain unsolved. Five of the killings were committed in the last five months.

## New Desegregation Fight Looms In D. C.

By G. C. THELEN Jr.  
 Associated Press Writer  
 WASHINGTON (AP) — Liberal Republican senators are expected to press the administration to take a clear stand against a House-passed rider which would restrict the government's efforts to bring school desegregation.

Capitol Hill sources say these senators are angry over reports that Atty. Gen. John N. Mitchell dictated a hands-off administration position when the House passed the rider by a narrow 17-vote margin. Some congressmen think the outcome would have been different if the rider had been opposed by the administration.

Shaping up is a civil rights suit pending as crucial for the Nixon administration as the recent school desegregation guidelines. Civil rights leaders have criticized the President's new emphasis on court-ordered plans as a step backward from strong antidiscrimination enforcement.

The new issue is an amendment sponsored by Rep. Jamie Whitten, D-Miss., and strongly supported by southern Democrats. It would stop the government from assisting the school districts in the housing of pupils, closing of buildings, or assignment of students against parental wishes to achieve desegregation.

Its effect would be to legalize freedom-of-choice desegregation plans, which the courts have ruled unacceptable unless they speed integration.

# 8 Tornadoes Rake Minnesota

By PAT THOMPSON  
 Associated Press Writer  
 OUTING, Minn. (AP) — At least eight tornadoes lashed through farms, forests and lakeside resorts in northern Minnesota late Wednesday. The death toll was estimated at more than 12. Hundreds were injured.

There were fears the death toll might rise because of fishermen unaccounted for on many lakes.

One of the worst hit spots was a resort community, a town of 200 that triples in size each summer as vacationers flock to area lakes.

One twister shredded homes and summer cottages on Roosevelt Lake, just outside Outing.

"It's a mess, it's plain level," said a sheriff's deputy who surveyed the lakeside area.

Jane Tyler, 17, of Cambridge, Iowa, staying at a resort on Roosevelt Lake, said she heard a whistling sound and lay down on the floor of the cabin. The bed started jumping up and down. All of a sudden she was under a pile of wood.

At least four of the known dead were vacationers at a resort operated by the Bethany Fellowship, a Minneapolis church group. The sheriff's office said that in the vicinity of Outing there were "seven or eight dead and three known missing."

Two more victims died in the Island Lake area, north of Duluth, at the northeastern tip of a 100-mile path ripped by the twisters.

National Guardsmen sealed off the heavily hit areas around Outing and nearby Emily.

The Weather Bureau said it was the worst loss of life from tornadoes in history for the northern Minnesota area.

The twisters were spawned in black thunderclouds that followed a day of stifling heat and high humidity.

The Weather Bureau estimated that at least eight wind funnels were involved. Also hurt were the Hibbing, Floodwood and Duluth regions.

Ten persons were brought to hospitals in the Hibbing-Childs-Virginia area. Another six were taken to hospitals in Duluth.

Ralph S. Moore, a power company employee staying at Island Lake near Duluth, said the storm hit with a "pure white curtain of wind-driven rain."

MRS. GRACE McDONALD, committee member has worked diligently for the Deltona Summer Day Camp sponsored by the Methodist Church of Deltona and the Campbell Park Shuffleboard Club, displays a number of the projects the children will work on during the coming weeks. All children are welcome to attend the classes held Monday through Friday, 9-11:30 a.m. at the Campbell Park recreation grounds. For information call 668-6032. (Mildred Haney Photo)

# FOOTPRINTS ON THE MOON

Never again will there be a first landing on the moon. And never again will there be such a volume as this.

Written by John Barber, an outstanding journalist who has been helping cover the thrust into space from the start, its 70,000 word text includes much new material and is complemented by more than a hundred of the most dramatic color photographs ever taken.

To make sure that you get your copy of a first edition that doubtless will become a collector's item, you should make your reservation now.

You and your children and your children's children will find it a volume to treasure.

The book contains:  
 • 224 pages, 9 1/4" x 12 1/4" hard bound edition, with dust-jacket.  
 • 70,000 word manuscript by AP space specialist John Barber.  
 • More than 100 full color illustrations, from the first space efforts in 1960s through to Apollo 11.  
 • Edited and produced by the world's largest news gathering organization, The Associated Press.

# Carefree Canines Count Cash, Complete Castle

FORT LAUDERDALE Fla. (AP) — Eleanor Ritchey loved dogs. For years, she combed the local pound and took home strays nobody else wanted. When she died last fall, the 58-year-old spinster had 150 mutts on her ranch at West Delray Beach, north of here. She also had an estate valued at \$4.3 million and a will providing up to \$125,000 a year for the care of her dogs.

After all those terms have been met, the estate of the Quaker State Oil heiress will go to Auburn University where the money is to be used for research on the diseases of small animals. Probate of the will went along without a hitch from October 11 to June as the Broward National Bank, as trustee of the es-

tate, continued operating the ranch and building the swanky kennel. The bank estimated it would spend \$30,000 a year on the dogs with the rest of the money accumulating. But in June, two half-sisters, Lois Levy of Embleton, Pa., and Marion Boyer, of Cranberry, Pa., and a half-brother, John Ritchey of Embleton, filed petitions to have the will revoked. The three — none of whom had ever met her dogs from her home — said the will did not correspond with Miss Ritchey's intent. The will did not conform with Florida law

and asked to be named heirs. After receiving notice of the suit, three maternal cousins and an uncle of Miss Ritchey answered the petitions with a counter-claim of their own. They said Miss Ritchey had "fast touch with reality" in 1963 when her will was written. Their suit contended she drew up the will at a time when she was being threatened with litigation to move her dogs from her home, then at the community of Tamarrac, just west of Fort Lauderdale.

Her Tamarrac neighbors complained that the yelping dogs caused them "sleepless nights and nervous indigestion." In 1967 Miss Ritchey moved to her Delray Beach home. The cousins, Reed, John and Dorothy Gruden, and the uncle, William Bayer, all of Erie, Pa., or its suburbs, said they were the lawful heirs to an ancestral estate. Their suit said the bulk of the estate \$3.5 million, is in the hands of the Annapolis Industries, which once camped north of the city.

common relative and Miss Ritchey's grandfather, Philip Bayer. They said the estate would have gone to them had Miss Ritchey died before her mother. Both suits are being contested by the bank and the university.

# Safeguard Missile Program Wins OK

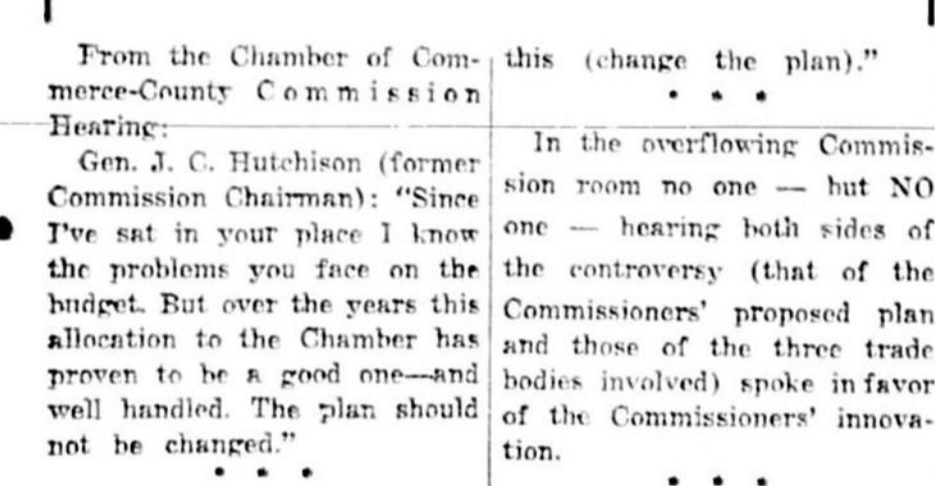

## Senate Gives Nixon Narrow-Margin Victory

WASHINGTON (AP) — Two dramatic Senate votes have given President Nixon a narrow victory for his Safeguard program — but one Republican opponent says he still doesn't think the missile defense system will be deployed. "I seriously doubt that Safeguard will ever be deployed," Sen. Clifford P. Case of New Jersey said after Wednesday's showdown voting. And Sen. John Sherman Cooper, R-Ky., one of the leaders of the anti-Safeguard forces, said he doubts the Pentagon expects to be able to deploy Safeguard soon. Cooper told reporters the Pentagon plans to spend \$120 million this year on an advanced anti-ballistic missile—ARM—research, beyond Safeguard, al-

though the sum is not mentioned in the report on the legislation currently before the Senate. The decisive ARM votes after months of controversy and weeks of debate, came Wednesday on two somewhat similar amendments aimed at barring deployment of the Safeguard system but continuing ARM research. Neither would have eliminated any of the \$120 million earmarked for the ARM in the \$30-billion military procurement authorization bill. The first, offered by Sen. Margaret Chase Smith, R-Maine, failed on a 50-50 tie. Vice President Spiro T. Agnew cast a 51st but unnecessary negative vote. Mrs. Smith's proposal was to bar any further spending except for components such as radars and computers.

Then the Senate voted 51-49 against the amendment by Sens. Cooper and Philip A. Hart, D-Mich., who have led the year-long fight against ARM. Their proposal would have limited the Safeguard program to research and development with no deployment or site acquisition. Sens. Clinton D. Anderson, D-N.M., and John J. Williams, R-Del., ended their silence on the ARM to join the administration in opposing the amendments. A White House spokesman said after the voting that President Nixon "is very pleased, of course." But he said no statement would be issued. The Senate is the big test for the ARM program, since the House is considered to have a substantial majority favoring Safeguard.

### BERRY'S WORLD

### Chamber Comments

From the Chamber of Commerce-County Commission Hearing: Gen. J. C. Hutcheon (former Commission Chairman): "Since I've sat in your place I know the problems you face on the budget. But over the years this allocation to the Chamber has proven to be a good one—and well handled. The plan should not be changed."

Harold Kautner (Member Sanford Port Authority, President Broker, C of C Director): "It has just dawned on me that what you're telling me in this new idea of an Advisory Committee to tell the C of C how to spend the money is that as a Director when we approve an annual budget, I may have to say an increased part of it myself. So, for giving my time to the Chamber you're going to force me to pay for it."

Howard Hodges (Bank President): "This idea of an Advisory Committee now it must spend the funds allocated to it is an affront to me and other business men serving on the C of C Board. You are saying, as I understand it, that the judgment I and other Directors exercise in setting the Chamber budget is to be subject to revocation by some people who do not even know the operation of the organization for which the funds are given. That's an insult."

Randall Chase (Head of diversified industrial firm): "This idea of putting strings on the funds given the Chamber and of an Advisory Committee to oversee their use, is a mistake. You should not do

THAT THE ABM SYSTEM MIGHT BE OBSOLETE BEFORE IT'S BUILT, BUT SO WHAT? ISN'T EVERYTHING?"

### Astronauts Near Quarantine End

By HOWARD BENEDETT AP Aerospace Writer. SPACE CENTER, Houston (AP) — With less than four days of quarantine left, Apollo 11's astronauts today planned to relax and work on individual projects on their moon-landing mission. Neil A. Armstrong, Edwin E. Aldrin Jr. and Michael Collins have been writing the reports off and on since entering the lunar receiving laboratory July 27. But most of their time has been claimed by debriefing sessions in which they discussed various aspects of the flight with experts. The final debriefing was held Wednesday when Armstrong and Aldrin talked with 40 scientists and geologists over closed-circuit television from their isolation ward. "What they represent is a mystery," he said. "They don't consistently remember bringing any back, but we hope to find at least one in the returned samples."

### Hearing Set For Mother

A preliminary hearing in charges that an 18-year-old Sanford mother tormented and tortured her 14-month-old son has been set for 3 p.m. Friday before County Judge Wallace Hall.

### Shoes For Needy

INDIANAPOLIS (AP) — A Michigan shoe concern has given 10,000 pairs of shoes to the Christ Church (Disciples) for distribution to the needy through missions centers at home and abroad. They were delivered to church headquarters here by truck.

### FUNNY BUSINESS

By Roger Bollen. Moore said total costs could run in excess of \$100,000, and added that the city has a reserve fund of \$30,951 toward this project. Higginbotham acknowledged the reserve fund and added the

### VCs Blast American Hospital

By GEORGE ESPER Associated Press Writer. SAIGON (AP) — About 20 Viet Cong commandos snatched guards at the "most secure" American base in Vietnam before dawn today, rampaged through a block-long Army convalescent hospital, burning bombs and firing rifles at patients, and then escaped through a back door. The U.S. Command in Saigon said two Americans were killed and 57 wounded in the attack at Cam Ranh Bay, 165 miles north of Saigon. All were patients; except four of the wounded; they were members of the hospital staff. Associated Press photographer Rick Merron reported from the hospital that more than a dozen buildings were destroyed or damaged, including

several wards, two officers' barracks and the chapel. There were 732 patients in the hospital, most of them recovering from illnesses rather than battle wounds. First reports said 99 Americans were wounded and 10 others were missing. Later the wounded toll was reduced, and a U.S. Command spokesman said he had no reports of any missing. The huge coastal base at Cam Ranh Bay has been considered the American installation in Vietnam least vulnerable to attack. It was for that reason that it was picked as the site for President Lyndon B. Johnson's two visits to Vietnam, in October 1966 and December 1967. The U.S. Command said it was the first time the hospital had been attacked in three years it has been operating and

### Grid System Proves To Be Helping Hand

Thanks to the "grid system" of transmitting electricity, Sanford was able to lead a helping hand during Tuesday's electrical "blackout" along Florida's Gold Coast. The 200-mile strip, extending from the Keys to Fort Pierce was cut off from the rest of the state as the result of a power plant explosion. The interconnecting lines of the Grid System enable the sta-

tion of Florida Power and Light Corporation to join with Orlando Utilities, the City of Jacksonville and Tampa Electric to "lend" electricity to cities within their web as it is needed. Automatically, the generators of the electric company are transfer power from one area to another. The local plants are capable of generating more electricity than can be used locally. According to Scott Burns, manager of the Sanford office of Florida Power and Light, the network covers the state from Live Oak to Miami, and along the coast up to Tampa.

### Elks Quarterly Meeting

On Saturday afternoon, Aug. 16, 1969, the Hospital Committee of the Florida Elks Crippled Children's Hospital will meet in Unimatta for its quarterly business session at 2:00 p.m. to hear progress reports from the Hospital Board and from the Administrator, George Garver.

### Confusion Reigns On Removal Of Zoo Site

(Continued From Page 1) Higginbotham said, "We voted to relocate and build this zoo on one of two city-owned locations. Either near the present sewer plant or further up on old landfill property close to the Police Department building. He continued, "The finances would be worked out by the City Commission in regular meeting and there are ways to handle this without too great a problem."

### Deaths In The Area

H. J. BISBEE Hamilton J. Bisbee Sr., 65, of 1118 Magnolia Avenue, died Wednesday morning after a long illness. Born in New York and raised in Jacksonville, he came to Sanford in 1923. He was a member of All Souls Catholic Church of Sanford. He is survived by his wife, Mrs. Elmina H. Bisbee; one son, Hamilton J. Bisbee Jr., West Hartford, Conn.; daughter, Mrs. Robert T. Gish, Windsor, Conn.; four grandchildren, brother, C. Robson Bisbee, Keystone Heights, and a sister, Mrs. H. W. Russell, both in Jacksonville. Burial will be in Lakewood Cemetery, Granfork Funeral Home in charge.

Funeral services for Hamilton J. Bisbee Sr., 65, 1118 Magnolia Ave., who died Wednesday morning after a long illness, will be held at 2 p.m. Friday at All Souls Catholic Church. Burial will be in Lakewood Cemetery. The Rev. William Keane officiating. In lieu of flowers the family requests that donation be made to All Souls Parochial School.

Funeral services for Mrs. H. A. Heck of Sanford, died Aug. 2 in Jacksonville, will be held at 2 p.m. Friday in the Granfork Funeral Home with the Rev. William Keane officiating. Burial will be at the Oaklawn Memorial Park, Lakewood Cemetery, Granfork Funeral Home in charge.

Funeral services for Mrs. J. C. McPhail, grandmother of Mrs. H. A. Heck of Sanford, died Aug. 2 in Jacksonville, will be held at 2 p.m. Friday in the Granfork Funeral Home with the Rev. William Keane officiating. Burial will be at the Oaklawn Memorial Park, Lakewood Cemetery, Granfork Funeral Home in charge.

Funeral services for Mrs. J. C. McPhail, grandmother of Mrs. H. A. Heck of Sanford, died Aug. 2 in Jacksonville, will be held at 2 p.m. Friday in the Granfork Funeral Home with the Rev. William Keane officiating. Burial will be at the Oaklawn Memorial Park, Lakewood Cemetery, Granfork Funeral Home in charge.

Funeral services for Mrs. J. C. McPhail, grandmother of Mrs. H. A. Heck of Sanford, died Aug. 2 in Jacksonville, will be held at 2 p.m. Friday in the Granfork Funeral Home with the Rev. William Keane officiating. Burial will be at the Oaklawn Memorial Park, Lakewood Cemetery, Granfork Funeral Home in charge.

12 Inning Struggle

# Ft. Walton Beach Stops Sanford Stars

By GARY TAYLOR

SANFORD WOMEN'S BOWLING ASSOCIATION OFFICERS held their installation banquet on Tuesday evening with Barbara Kelly (seated center) incoming president accepting gavel from outgoing President Alice Best (extreme right). The remainder of the slate are Margie Ferris (seated) secretary-treasurer; back row (l to r) Dot Lee — sergeant at arms, Marie Holzer — 1st vice president and Jo Ann Wright — 2nd V.P.

## Figure Eight Drivers

### State Auto Action Set

Figure 8 stock car drivers are readying their rugged and rugged racers for the first Florida State Championship Saturday night Aug. 16 at Sunshine Speedway.

The 20-lap race on the fast third mile oval track will be dedicated to Don Fieger, a figure 8 driver who is serving with the U.S. Army in Hong Kong, Vietnam. Fieger is coming home in his week.

Top contenders for the first state title race on the double oval include four year high point champion and winter national winner Dan Daugherty, along with Tom Brown, Denny Meyer, Elmer Seffert, Nate Peters, Bill McCoy, Lester Sloan, Aaron Collier, Hutch Johnston and Harry Padgett.

Seven records were set in the recent All-Star tilt in Washington. Two of the new records went to Willie Mays, while four went to Brooks Robinson and one went to the NL. Mays set a new career record for the most at bats at 67 and for the most times playing on a winning team at 14. Robinson set new career records for the most games played by a third baseman at 12, for the most career putouts by a third baseman at 8; for the most career assists by a third baseman at 24; and for the most chances accepted by a third baseman in a career at 32. The NL set the record for the most consecutive errorless games at seven.

The Jets came out on top of a 26-24 score with the College All-Stars, but it is my feeling that they lost. To think that four men who had never even played together before, came within two points of matching the World Champion Jets. If it hadn't been for the deadly foot of Jim Turner, the Jets would have been upset.

Greg Cook, of Cincinnati, showed the Jets a little of his quarterbacking abilities as he led the Stars to the near upset. But the person who started the All-Stars' attack was Albie Taylor, who spurred them to life with a 78 yard kick-off return in the third quarter.

But the Jets scored 16 points in the first half whereas the Stars scored all 24 points in one half.

Vince Lombardi opened up in Washington with a big bang. The Redskins dropped the Chicago Bears 137 before a crowd of 45,988 in the Nation's Capital. Baltimore beat San Diego 26-6. Kansas City downed Oakland 29-17. Minnesota routed Miami 43-0 while Houston defeated Buffalo 24-7.

This week's exhibition action features Dallas at Los Angeles and Washington at Buffalo on Friday. On Saturday it will be Detroit at Kansas City, Atlanta vs. Philadelphia at Portland, Oregon; Baltimore at Oakland; Chicago at Miami; Green Bay at New York (NFL); Denver at Minnesota; New Orleans at San Diego; and New York (AFL) at St. Louis. Sunday's action will feature Cleveland vs. San Francisco at Seattle and Boston vs. Cincinnati at Bowling Green, Ohio.

Johnny Unitas put his arm to a test in the 26-Coli romp over San Diego, and that means trouble for Coli Coach Don Shula. Unitas completed seven of eight for 36 yards.

That spells trouble for Shula, who eventually will have to choose either the 35-year-old, 14 year NFL veteran who sat out most of the 1968 season, or 35-year-old Earl Morrall, who led the Colts to the NFL title last season.

Unitas saw only 11 minutes of play while Morrall quarterbacked the entire first quarter, and then came back to lead the fourth quarter.

We'll have to wait and see, but I think Shula will pick the veteran Unitas to quarterback his team if his arm proves to be as strong as it is in the opening game.

12th inning on a base on balls coupled with a single to send Sanford down to defeat in the seventh trailing one to lead of the Florida Junior League State Championship. The tournament was played on wet ground was delayed two days by heavy rain.

Fort Walton Beach went on all-stars pushed a single run across in the bottom of the first.

last over the center field fence in the bottom of the third inning by William Knowles. Things looked bleak for Sanford as the batter in the top of the seventh trailing one to nothing. With two out Dick Deas reached first on an error by the second baseman, and then Ronnie Butler, a pinch runner stole second. Jimmy LeCuyer then stroked a single to right field, scoring Butler with the tying run.

Sanford threatened in the eleventh when Mike Koffel reached first on an error, then stole second. The next two batters failed to end the inning and Sanford's final threat.

With two away in the bottom of the 12th Fort Walton Beach leftfielder Don Murray walked, stole second, and came home with the winning run on a single to right field by Paul Kwozek.

LeCuyer was the only Sanford player who had two hits. Koffel, Brent Baborn, Deas, and Willie Wall accounted for the other five Sanford hits. Bill Prescott, Knowles, Kwozek, and Paul Abbel each collected two hits for Ft. Walton Beach.

Pascal Odom started on the mound for Ft. Walton Beach. He was relieved in the tenth inning by Bill McSwain. The

Winter Haven, Dodgers Jim Williams and John Gamble each had three hits to lead the Daytona Beach Wednesday night game as the Expos gobbled up Miami 15-2 in the opener of their Florida State League twinning.

Miami rallied in the nine inning nightcap for a 3-2 split. Dayton Beach scored early and coasted to a 13-1 victory over Central Division leader

# Streaking Reds Take Over First As SF Falls

By HERSCHEL NISSINSON  
Associated Press Sports Writer

Over the years, Juan Marichal has slipped many a losing streak for the San Francisco Giants. Now he'd like to stop one for Juan Marichal. He hasn't won since July 19—Marichal's brilliant right-hander served up four home run balls to the Philadelphia Phillies Wednesday and sent down to a 4-4 setback, his fourth consecutive defeat—most in his career. The latest loss left Marichal with a 12-6 record and dropped

the Giants from first to third place in the Pacific National League West. They trail Cincinnati by eight percentage points and Atlanta by three.

Despite his troubles, he hasn't won since July 19—Marichal thinks he can be a 20 game winner for the sixth time in seven years.

We have two months ahead of us and I think I can do it, he said. I'm gonna try to do it. I think I've been throwing the ball good.

While the Giants slip, the Chicago Cubs shaded into the lead with a 3-2 victory over the New York Mets and Atlanta surged into second by stopping Pittsburgh 7-5.

ACE SAN FRANCISCO hurler Juan Marichal has now lost his last four starts in a row. Marichal, in previous seasons has been a 20 game winner. Doubts are now arising that he will not reach the 20 game mark this year.

In the American League, Minnesota topped Detroit 3-1. Oakland took Cleveland 6-4 in 11 innings. Baltimore edged Kansas City 2-1. Seattle outlasted Boston 6-3 in 10 innings. Washington squeaked by the Chicago White Sox 4-3 and the New York Yankees beat California 3-1.

If Marichal wants to know what went wrong Wednesday night, all he has to do is ask Johnny Callison, who hammered two of the Phil's homers, his 12th and 13th, both solo shots.

"I hit two inside fast balls," Callison said. "But Marichal did hang some curve balls against the right-handed hitters, which he usually doesn't do."

Cookie Rojas, No. 3, and Don Money, No. 5, both right-handers, were the other home-runners. Willie McCovey r slugged No. 31 for the Giants. Still, Callison doesn't see much difference between Marichal as a winner and a loser.

"He stays out there and bats his eye," Callison said. "He knows how to pitch and he throws strikes. The second time I was looking for the screw ball, because it's the toughest pitch to hit off him, but I guess he was mad after I hit the homer and he came back with two-run homer, Orlando Cepeda

### GOLF'S ELUSIVE PRIZE - By Alan Mauer

THE 516-PSA CHAMPIONSHIP WILL BE HELD AUG. 14-17 IN ANTIPOLO, CALIF. WHOEVER HOLDS IT IS DEPENDENT ON CHAMP.

FROM 1937 FIVE MEN WERE ABLE TO WIN THE PSA TROPHY FOR MORE IN A ROW, BUT WALTER HAGEN WAS THE KING. HE WON IT FIVE TIMES FOUR OF THEM IN A ROW.

AMERICAN SATISFACTION

By DAVE MINTHORN

AUGSBURG, Germany (AP)—Both American head coaches said during a banquet following Wednesday night's track meet with West Germany that they were basically satisfied with their combined 199-105 victory.

But men's team coach Alex Francis was also anxious to discuss the protest action started Tuesday by the American men against the AAU's handling of the Augsburg meet. The men's team won 122-101.

"The kids were trying to get a point across," the Fort Hays Kansas coach said. "I don't understand all of it and I don't think they do, either." He added that the athletes had a right to protest against what they called inadequate hotel accommodations and transportation mixups that hampered their pre-meet training.

"I think there was a communication failure," he said. "But I also believe that when you have governing body like the AAU, it's like the policeman on the corner—nobody is for him."

Men's team captain Neil Steinhilber said before the wind up of the two-day meet that the athletes plan to draft an appeal to President Nixon.

He said the letter will ask the government to oversee national track teams to insure the athletes are receiving good treatment.

Fred Jones, head coach of the American women's team which lost 98-56 to West Germany, said "two injuries and a couple of second places made the difference in the meet." He said 400-meter runner Ester Stray had to be scratched from Tuesday night's race because of a sinus infection.

Jones said Miss Stray would probably have given the U.S. a vital second place.

Polly's Pointers By Polly Cramer

DEAR POLLY: Please tell Kathryn the best way to put lotion on one's own back when there is no one around to help is to take a plastic huck-sawer the kind with little fingers on it, wrap plenty of cotton around it and then pour on the lotion until the cotton is well-saturated. Go ahead and spread it on your back.

Beauty After Forty by Edyth Thornton McLeod

A very interesting woman has been visiting New York, an art teacher from Los Angeles, Mary Sheridan is a most gifted teacher. Five of her pupils have won in the St. Regis Collegiate Packaging Design Contest.

Horoscope Forecast

FRIDAY, AUGUST 8, 1969 GENERAL TENDENCIES: Today brings upsets of all kinds. Don't be surprised if what you had planned and started out to do requires drastic changes in order for you to realize your objectives.

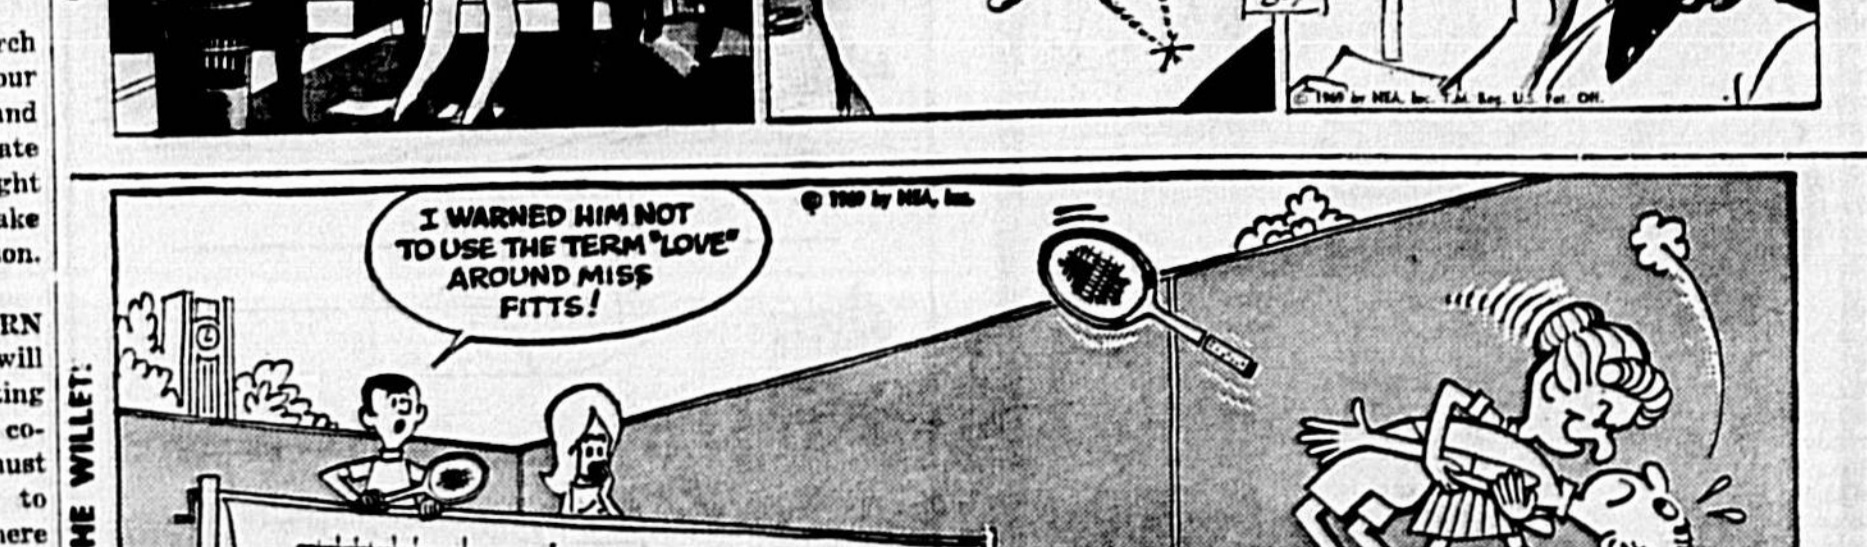

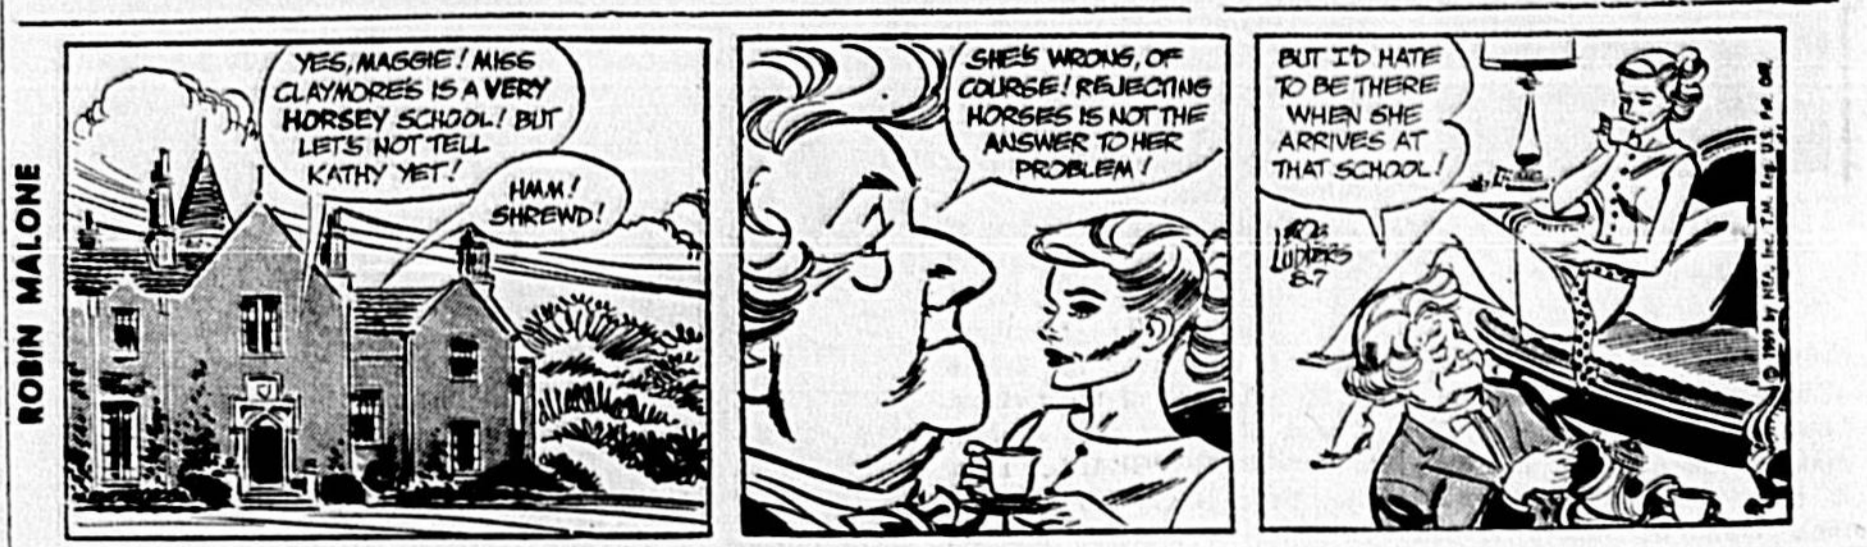

ARIES (March 21 to Apr. 19): Be the peacemaker in an argument between a family tie and an outsider, or it could become a serious matter. Otherwise, it will soon blow over.

TAURUS (Apr. 20 to May 20): It is necessary to schedule your time wisely to prevent confusion regarding your most important job and other activities. Avoid arguments with your co-workers.

LIBRA (Sept. 23 to Oct. 23): Do whatever you think will help you to extend your sphere of influence. Take care of that private task wisely and well. Get the information at the right source now. Then use it cleverly.

SCORPIO (Oct. 23 to Nov. 21): Do whatever you think will help you to extend your sphere of influence. Take care of that private task wisely and well. Get the information at the right source now. Then use it cleverly.

LOUISVILLE, Ky. (AP) - After she lost a tooth, 19-year-old Mary Head asked her mother about the possibility of the Good Fairy leaving a coin under her pillow to compensate for the missing tooth.
