Writes its Owner's Biography!

It states sage to say that there is no material possession which speaks more eloquently of the man who owns it than a Cadillac car.

Wherever it is driven, it offers authentic testi-mony as to its owner's good taste—his concern for the safety and comfort of his family and friends and his general standing in the field of endeavor in which he has chosen to make his contribution to the world's affairs. Indeed, if a complete list were published of those who own and drive this distinguished car-

it would be obvious that it has become a hallmark of achievement in almost every walk of life.

That this should have happened is entirely. logical-for Cadillac cars have been built, for almost half a century, to the most uncompromising standards of excellence. As a result, Cadillac stands alone in all the things that make, a motor car a distinction to possess and a pleasure to utilize.

The 1949 Cadillac is the grandest of them all, in every way. Why not visit our showrooms and see for yourself? You are welcome at any time.
