

DELEGATION OF POWERS IN EXECUTIVE CONFERENCE ON LAND ARMAMENTS

Today With French Hoping for Formal Expression BEFORE DEPARTURE

BRAND WANTS POWERS TO SETTLE SUPPORT FOR FRANCE IN HER STAND

(By The Associated Press) WASHINGTON, Nov. 23.—Delegations of five powers went into their first executive conference on land armaments today with the French hoping the negotiations would be pressed to a point of formal expression of some character before departure of Premier Briand for France.

WASHINGTON, Nov. 23.—The negotiations relating to both the Far East and armament limitation moved more slowly yesterday as the attention of the arms delegates passed from general policies to specific details.

China's economic embarrassment formed the text of the Far Eastern discussions, which resulted in the appointment of a sub-committee of representatives of nine nations to study the whole subject of administrative autonomy for the Chinese republic, with particular reference to tariff and tax restrictions.

On the side of naval armaments, informal exchanges continued between individual delegates and naval experts with an air of growing confidence that details of the American plan, although requiring considerable time for determination, would eventually bring all the powers into agreement.

No definite declaration of the policy at today's land armament declarations.

PLENTY OF GAME REPORTED BY HUNTERS.

The hunters who have returned from the woods are bringing in the game and report more deer, turkey and duck, and squirrels and quail, than has been known in many years. It seems that the weather is too hot and the mosquitoes bad for the right kind of hunting. But they are getting the game just the same.

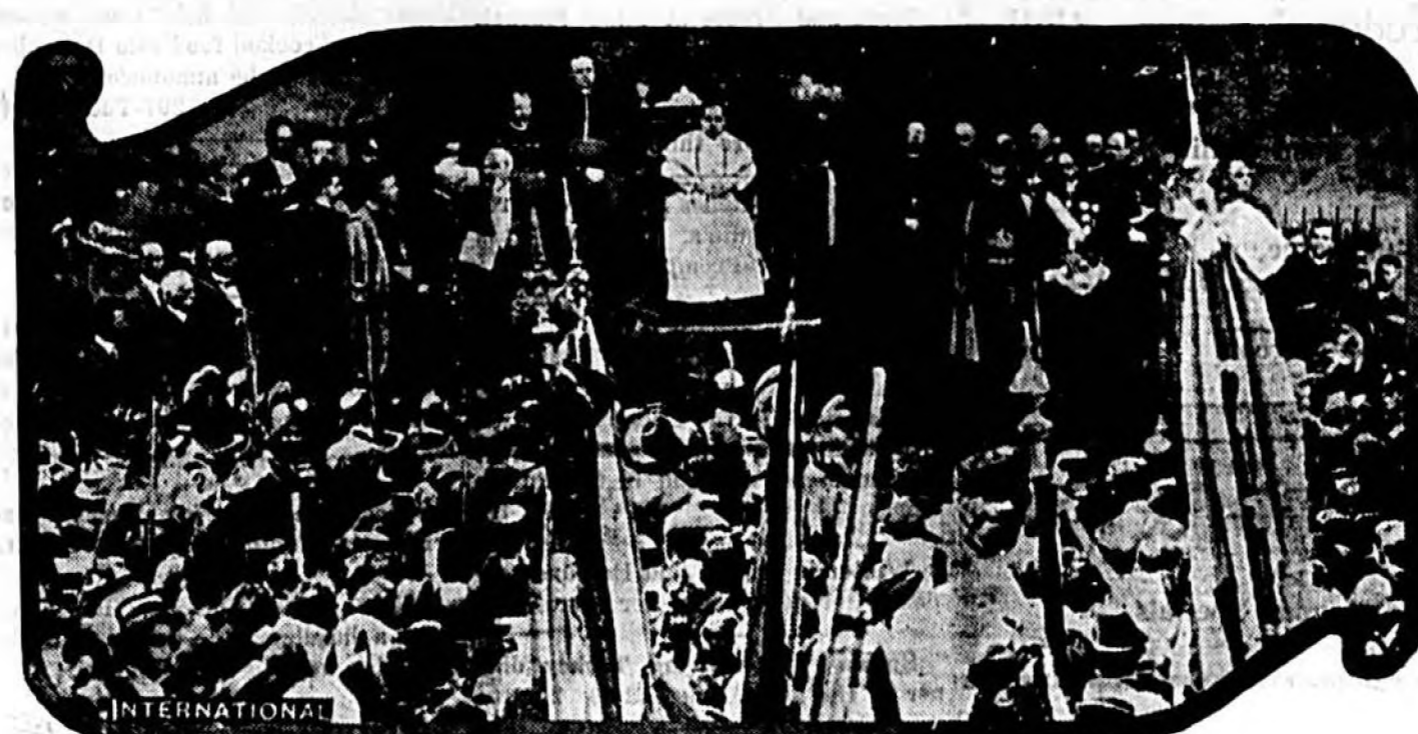

SELECT JURORS ON CLARKE CASE TAKES TIME

STATE USED SIX AND DEFENSE THREE PEREMPTORY CHALLENGES

(By The Associated Press) ORLANDO, Nov. 23.—The selection of the jurors to try Lona Clarke and Baxter Patterson charged with the murder of Fred Millmore proceeded slowly today and by noon recess the state had used six peremptory challenges, and the attorneys for Miss Clarke three, for Patterson two. This left the state with four challenges and the defense with a total of fifteen on account of the joint trial the defense had twice as many as usual. Seventeen men were rejected for cause. Court will be in session tomorrow.

Flying Automobile Latest Development in French Aero World

(By The Associated Press) PARIS, Nov. 23.—A flying automobile is the latest development in the French aero world. A successful demonstration of an ordinary automobile with folding wings, and two engines, one of ten horse power for land going and the other 300-horse power for air travel was held recently. The machine performed all the usual feats of an airplane and an automobile.

WILLIAMS AND WATSON ALMOST COME TO BLOWS OVER FORD-NEWBERRY

Heated Controversy in the Senate Last Night Caused Senators to Call Names

WASHINGTON, Nov. 23.—The Ford-Newberry senatorial election contest in Michigan was laid aside by the senate last night probably not to come formally before the body again for several weeks. After a day of discussion, in which Henry Ford, who is contesting the seating of Senator Newberry, was both denounced and defended and which was enlivened by a heated tilt between Senators Williams, of Mississippi and Watson of Georgia, Democrats, the election contest was sidetracked to make way for the conference report on the revenue bill.

No agreement as to a date for a vote was reached but the understanding developed that little further consideration would be given to the case until late in December.

The clash between Senators Williams and Watson developed when the latter attacked Mr. Ford and declared that "left over Wilsonites in the senate were seeking to retire Mr. Newberry because he had opposed the league of nations."

Mr. Williams said he regarded Mr. Ford as "so far superior in altruism, in world sense and in world vision to the senator from Georgia (Mr. Watson) and myself that I can hardly find words to express it."

NAVAL MEN DELIBERATE ON PROGRAM

Conference Wrapped in Mystery About Result Plain

WANT AGREEMENT

AND TO GIVE EVERY NATION A SQUARE DEAL IN DISARMAMENT MEET

WASHINGTON, Nov. 23.—Deliberation of the naval experts of the "big three" in the arms conference remain wrapped in mystery today so far as any official word of what is transpiring goes. Unofficially spokesmen in some cases give hints and half glimpses that reveal little but involving technical questions which only serve to confuse laymen in naval matters.

In the American viewpoint there is no good reason to bring into public view all the almost incomprehensible discussions of the experts. What is in progress, it was pointed out yesterday, is a conference of equals, of which the only product can come by a unanimous agreement and there is every reason to expect that such an agreement is to be reached soon that will not vary widely from the American proposals as to naval reductions and limitations.

In shaping their suggestions, the American delegation took into consideration many things besides the mere question of capital ship tonnage in terms of which the plan was finally set down.

Estimates of naval strength of each power included, it is said, estimates of the whole situation of each of its whole building program, of its financial ability and mechanical equipment to execute any building program it might desire if competitive building was to continue.

The "5-5-3" ratio of the American replacement scheme to end competitive building and all its evils and the fleet strength that would remain under the proposed immediate reduction on the eve of a ten-year complete building holiday both are understood to reflect this summary of matters not susceptible to mathematical treatment.

So in the American view the question understood to have been raised by the Japanese as to the exact state of completion of the battleship Matsushima, which Japan would be called on to scrap as a part of her abandoned program, is immaterial. If it is insisted that she be retained, her equivalent must be retained by the United States and Great Britain. For each of those powers it would mean more than a single additional ship.

ST. ANDREW BROTHERHOOD ENTERTAINED BOY SCOUTS FROM OTHER STATES HERE.

Tuesday evening the Brotherhood of Saint Andrew had the pleasure of entertaining three boy scouts, Noel Robertson, of Battle Creek, Mich., William Wingate, of Cleveland, Ohio, and James Cassidy, of Springfield, Ill. These boys are making a fifteen day tour of the State at the expense of the papers of their home towns. Upon arriving in Sanford the boys registered at the Valdez hotel and after taking in the sights, they were taken to the Brotherhood of Saint Andrew rooms, where they were given the run of the place. After looking over the Parish house, the Brotherhood assembly room, shower bath and the other Brotherhood equipment, the boys played a game of billiards and bowled for a time after which they were taken to the Brotherhood assembly room where hot dogs, jam, and other good things were served. The boys declared they had a fine time and that though they had heard quite a bit about the Brotherhood, they had no idea that it was such a wonderful organization.

## CROP ESTIMATE LOSS OF FRUIT CITRUS BELT

LOSS AMOUNTS TO 800,000 BOXES OF GRAPEFRUIT AND ORANGES

(By The Associated Press)  
GAINESVILLE, Nov. 22.—Final estimates of the reporters of the federal bureau of crop estimates places the loss of fruit in the Florida citrus belt from the storm of October 24-25 at around six per cent of this season's crop, according to Sam T. Fleming, agricultural statistician. The loss amounted to 800,000 boxes of fruit, about equally divided between oranges and grapefruit. Damage was reported to trees in some sections of the west coast and along the immediate coast salt spray scorched the foliage badly.

Severe storm losses occurred along the west coast, the final figures indicated, with Tampa as an approximate center. The loss by counties was estimated as follows: Citrus, 5 per cent; Hernando 20 per cent; Pasco, 55 per cent; Pinellas, 58 per cent; Hillsborough, 40 per cent; Manatee, 20 per cent; Sarasota, 12 per cent; Lee, 7 per cent; Monroe (principally limes) 15 per cent. Counties in the interior suffered much less with losses ranging: Marion, 1 per cent; Lake 5 per cent; Orange, 3 per cent; Sumter, 10 per cent; Seminole, 5 per cent; DeSoto, 7 per cent; Hardee, 5 per cent; Highlands, 4 per cent; Osceola, 11 per cent. On the East Coast the damage was reported exceedingly light, many sections reporting no storm at all. Estimates were Volusia 2 per cent, Brevard 4 per cent, St. Lucie 3 per cent; Palm Beach, 5 per cent and Dade, 1 per cent.

At the time of the storm less than 5 per cent of the crop had moved, the estimate continued, and of the fruit on trees, ten per cent was blown off, thorn stuck or otherwise damaged. It was estimated that about ten per cent of this was recovered and shipped. The loss will be still further reduced by the increase in the size of the fruit remaining on trees, the statistician continued and the average for the state probably will be 30 per cent.

Outside of the immediate stock of the storm the effect of wind and rain actually benefitted many sections by removing fruit that would have fallen in any way and furnishing needed rains.

## WORLD POWERS TO GUARANTEE CHINA OPEN DOOR

AND CUT OUT THE SPECIAL RIGHTS WITHIN ITS BOUNDARIES

WASHINGTON, Nov. 22.—A joint declaration of policy toward China, based on territorial and administrative integrity, economic opportunity, an enforced "open door" and the abolition of "special rights" was agreed upon yesterday by all the nations represented in the arms conference.

The first definite agreement to come out of the conference, the declaration touches in general terms most of the principles for which China asked in her "bill of rights," but does not provide in detail for the settlement of the specific problems with which she is confronted.

Ellhu Root of the American delegation proposed the declaratory resolution and two hours of debate preceded its adoption. During the discussion both Japan and China, as the most directly interested nations, asked many questions as to possible application of the suggested principles to specific problems, while all the other nations took a less active part in the debate.

"Perfect satisfaction" with the resolution was expressed last night by Admiral Baron Kato, head of the Japanese delegation, although he declined to suggest what changes the agreement might lead to in the Far East. These Chinese also declared themselves gratified at the development, and the delegates of the other nations generally voiced the view that the agreement was a good start toward a complete agreement on the most important of the Far Eastern problems.

### REVIVAL OF CLASSIC GREEK

Western Newspaper Welcomes Possibility of Its Becoming, in Time, a World Language.

Were one to judge from the fuss made from time to time, one would suppose there was real need of an international language. In the golden age of the English language the great queen addressed the ambassador at her court in Latin, and all diplomatic conversation and correspondence of Europe was in Latin. Erasmus, the great scholar and writer, who visited the court of Elizabeth's father, Henry VIII, wrote Latin works that produced an effect comparable to that produced by the writings of Voltaire two centuries later.

Much pains have been expended in fabricating artificial languages, such as Esperanto, to serve as the medium of communication. But such constructions have no chance of practical adoption, nor could they answer as well as actual language whether dead like Latin or living like English.

There is a language, however, which is gradually becoming again a living one, and which as a world language would be ideal. The Greek universities and Greek men of culture, including Venizelos himself, are engaged in an attempt to restore classical purity and perfection to modern Greek. It is said that the endeavor is by no means vain, and that gradually the ancient model is being approached. We may yet have the speech of Pericles, the written language of Plato, employed in social intercourse and commercial transactions, in contracts, in courts of law, in houses of assembly.—Minneapolis Journal.

### ALWAYS A WELCOME VISITOR

Occasionally Late, but Once Every Month She Was at the Door to Receive Him.

She waited patiently for his arrival, feeling that he wouldn't disappoint her. Sometimes he was a little early—sometimes a little late, but eventually he would come, bringing with him something dear to her heart.

Once every month for four years he had been a welcome visitor. How well she knew his voice—his smile—his cheery whistle!

At times when he passed the house without as much as a glance, she understood and made no effort to attract his attention. If he appeared distant now and then, she did not grieve, knowing the day would come a week, two weeks perhaps—when he would walk fearlessly up the walk with a smile and a cheery word of greeting.

After today she would never look for him again. At least his appearance would never again cause the delightful little heart throbs that were now nagging her.

At last she saw him. Her arms were outstretched to receive—the last War Risk Bureau allotment check, which the postman handed to her with a smile.—The Leatherneck.

### Obesity Undesirable.

Are you fat? Be on your guard if you are. Doctor Joslin of Boston has gathered striking statistics that show an undeniable association of obesity and diabetes, the condition in which sugar, the most common of food fuels, is not properly metabolized or stored in the body. There are in this country alone more than half a million diabetics. "The penalty of taking too much alcohol is well known, and a drunkard is looked upon with pity or contempt," says Doctor Joslin. "Rarely, persons who become fat deserve pity, because of a real tendency to put on weight despite moderate eating, but most of them should be placed in somewhat the same category as the alcoholic. In 1000 cases out of 1,000 being fat implies too much food or too little exercise, or both combined."—Science Service.

### Stone Mountain.

Stone mountain, on whose granite wall is to be sculptured a memorial to the Confederacy, is 16 miles from Atlanta, Ga. It will be the largest monument in the world. The space covered will be about eight hundred feet high and fifteen hundred feet wide.

The project first attracted attention in 1915, when Mrs. C. Helen Plante, then eighty-eight years of age, a leader of Southern women, sent for Glutzon Borglum, the sculptor, to come to Georgia, to consider the feasibility of a great sculptural monument to the Confederacy on the wall of the mountain. Mr. Borglum made a careful study of several plans. The plan adopted represents an army marching into battle. It will comprise portraits of all the Confederate leaders.

### Bulgarians Reduce Alphabet.

Simplification of the Bulgarian orthography by eliminating three letters of the alphabet, recently ordered by the cabinet council, has just been put into effect. The censorship, still existing here, will enforce the new spelling in all publications.

These three letters are remnants of the old Slav tongue. They do not exist in the Serbian language and they recently were ordered stricken from the Russian alphabet by the soviet ministry of public instruction. Their principal spelling is taken in some quarters to be an effort toward closer relations with the Serbs.

KU KLUX KLAN PROBE RECEIVES ITS QUIETUS.

WASHINGTON, Nov. 23.—The Ku Klux Klan investigation has received its quietus.

The resolution for the congressional probe lies in a stupor, if not dead, in the House erules committee. Colonel Simmons of Atlanta, Ga., the imperial wizard is to be permitted to do his promised house cleaning in his own time and way without interference by Congress.

Chairman Campbell of the House rules committee admitted today there was no present intention on the part of the committee to report any resolution favoring an investigation by Congress of the plan. In fact, the rules committee is not preparing any report of its own as a result of its preliminary investigation of the klan.

REAL DIFFICULTY IS TO FINANCE HOME BAND.

The band concert Sunday, given under the leadership of Bandmaster Ball, was appreciated by the large audience which greeted him and the home band which he has assembled. It shows what home talent can accomplish if given the leadership. To encourage this band organization means that finances must be arranged to make it possible. There is one proper and equitable way to finance a band and that is to have the expense borne by the municipality so that all will bear their proportionate share of the burden, and not place the load upon a few business men along Orange avenue. Such action this year seems to be out of the question. The only remaining alternative is the much unsatisfactory and unpopular system of solicitation. In view of conditions twenty-five public spirited citizens might underwrite the expenses of the new band and enter into a contract for, say 52 weeks, with one concert on Sunday and one during the week during the winter, and one each Sunday the rest of the year. This board of underwriters might then divide and apportion the city and receive subscriptions, none in excess of \$100, from business men.—Orlando Sentinel.

The officials of Wauchula are to call an election very soon to vote on the bonding of their city for \$80,000; \$70,000 of this amount will be used in paving the city and the additional \$10,000 for water works and park improvements.

OURS IS A FAVORED NATION

President Harding's proclamation designating Thursday, November 24, as a day of thanksgiving, devotion and prayer and urging the people to give thanks "for all that has been rendered unto them" and to pray "for continuance of the divine fortune which has been showered so generously upon this nation," is as follows:

"That season has come when, alike in pursuance of a devout people's time-honored custom in grateful recognition of favoring national fortunes. It is proper that the president should summon the nation to a day of devotion, of thanksgiving for blessings bestowed, and of prayer for guidance in modes of life that may deserve continuance of divine favor.

"Foremost our blessings is the return of peace, and the approach to normal ways again. The year has brought us again into relations of amity with all nations, after a long period of struggle and turbulence. In thankfulness therefore, we may well unite in the hope that providence will vouchsafe approval to the things we have done, the aims that have guided us, the aspirations which have inspired us. We shall be prospered as we shall deserve prosperity, seeking not alone for the material things but for those of the spirit as well; earnestly trying to help others; asking before all else the privilege of service. As we render thanks anew for the exaltation which came to us, we may fittingly petition that moderation and wisdom shall be granted to rest upon all who are in authority, in the tasks they must discharge. That hands will be stented, their purposes strengthened, in answer to our prayers.

"Ours has been a favored nation by the bounty which God has bestowed upon it. The great trial of humanity, though indeed we bore our part as well as we were able, left us comparatively little scarred. It is for us to recognize that we have been thus favored, and when we gather at our altars to offer up thanks, we will do well to pledge, in humility and all sincerity, our purpose to prove deserving. We have been raised up and preserved in national power and consequence, as part of a plan whose wisdom we cannot question. Thus believing, we can not less than hold our nation the willing instrument to the providence which has so wonderfully favored us. Opportunity for very great service awaits us if we shall prove equal to it. Let our powers be raised, for direction in the right paths. Under God, our responsibility is great; to our own first, to all men afterwards; to all mankind in God's own justice.

"Now, therefore, I, Warren G. Harding, president of the United States, hereby designate Thursday, the 24th of November, to be observed by the people as a day of thanksgiving, devotion and prayer, urging that at their altars they will give thanks for all that has been showered so generously upon this nation.

"In witness whereof I have hereunto set my hand and caused to be affixed the seal of the United States of America.

"Done at the capitol of the United States, this 31st day of October, in the year of our Lord, nineteen hundred and twenty-one and of the independence of the United States, one hundred and forty-six."

"WARREN G. HARDING."

TIMES-UNION ON A CHAMBER OF COMMERCE.

The Orlando Sentinel tells of a membership drive now being conducted for the Chamber of Commerce, and says that the proposed objective, three hundred new names, will very probably be reached before the drive is over. The Chamber had a membership of about 400 before the canvass was started to add new names, and if the desired list is secured the organization will have a splendid working force. To be effective a commercial organization should include some representation from every business concern and industry, besides having enrolled the professional men and those interested in agricultural pursuits near the city. The size of such a body is not necessarily its best recommendation or greatest strength, but it is desirable to have all interests represented, and in the abundance of material the men best suited for certain kinds of work can always be found and splendid results obtained.—Jacksonville Times-Union.

The new industry which was recently organized at Chipley for the purpose of tanning and manufacturing leather goods, are about ready to open and begin operating their plant, as practically all of the machinery has been installed. They will manufacture all of the products derived from leather and market same.—Arcadia Enterprise.

FOREST LAKE CANDIDATE FOR CITY COMMISSION

TO THE QUALIFIED ELECTORS OF SANFORD:

It is with a deep sense of duty that I have consented to become a candidate for the office of City Commissioner of the City of Sanford, but when 700 of my fellow-townsmen request it, I know of nothing else to do. Having been thus nominated I hereby announce that I am a candidate for the office of City Commissioner at the ensuing election to be held on the 8th day of December next, and pledge myself, if elected, to an impartial and conscientious performance of the duties of the office for the advancement of our city and the welfare of its people.

I want here to express my appreciation for the splendid petitions filed placing me in nomination.

Very sincerely, FOREST LAKE.

**THE WEATHER**

For Florida: Local rains tonight or Thursday.

**SANFORD'S TEMPERATURE**

76 is not so warm but it is not Thanksgiving weather. We are having too much moisture and not enough cold weather for Sanford crops and for Sanford trade. There is so much lettuce in the north that Sanford lettuce has not brought the price that our Thanksgiving lettuce usually brings. All on account of the warm and open winter so far in the north. But all things are due for a change—even the Republican party—and along about the first of December we can look for cold weather that will knock the green stuff in the green fields of Virginia and other parts of the United States and Georgia and then we will see what we will see. However, we wish you a merry Thanksgiving.

**SPLENDID CABARET IS IN BIG FITZMAURICE PRODUCTION "EXPERIENCE" NOV. 25-26TH**

No fashionable cabaret in New York, the City of Lights, can surpass in brilliance or color or extravagance of finish that which is used in George Fitzmaurice's Paramount production of "Experience" which is to be shown at the Star Theatre Friday and Saturday of this week. The scenario of this well-known play by George V. Hobart, called for a typical New York restaurant, after the manner of such institutions of pleasure before the days of prohibition. No expense was spared to make this scene realistic and beautiful.

The color scheme is black and gold with a background of gold metal cloth. Hugo ornate pillars, capped with metal domes, are set at intervals on the dining room floor.

A striking effect was obtained in this scene by the use of four little girls who soared above the dancers in swings and dropped rose-leaves on the crowd below. Five hundred pounds of artificial rose-leaves and two bushels of confetti were let loose from "snow" banks above the setting.

Although only one quarter of the cabaret was built it accommodated four hundred people. For richness of color and novelty, this has seldom been surpassed in any picture. Richard Barthelmess, a popular young screen player, has the leading role of "Youth."

**MAY ALLISON PLAYS IN MYSTERY PICTURE**

"The Last Card," which will be shown tonight at the Star Theatre has several features about it which make it stand out distinctly from the average eye of pictures.

It is a Bayard Veiller production, personally directed by the famous author of "Within the Law," "The Thirteenth Chair" and other stirring melodramas; it was adapted from "Dated," the story by Maxwell Smith, which created such a sensation when it appeared in the covers of the Saturday Evening Post; and last but not least, it is a picture with May Allison in the stellar role.

All of these elements go to make it a splendid picture, and critics in other cities have already voiced their praises. As Elsie Kirkwood, May Allison has a part well fitted to her histrionic power. Elsie is called on to solve a harrowing murder for which her husband is put in jail, and in some occult way she seizes on the woman next door as the person whose action had an influence on the murder.

An added attraction will be that frozen-faced comedian Buster Keaton in "Hard Luck."

Miss Margaret Huntley, of Jacksonville, is the charming guest of Mrs. J. Oscar DuBois, of West First street.

**TOMORROW**

is Thanksgiving day and you know it is not long after that until the holidays start. And there are so many people who get left by waiting till too late.

Merchant: Don't forget the big Christmas edition of the Daily and Weekly Herald. You can't afford to be out of it.

Dr. J. H. Wandler, the live wire manager of the Florida Publishing Co., at Winter Park, is in the city today on business connected with the Florida Post.

Mrs. Bob Holly, of Sanford, was among the prominent women attending the convention in this city, being the guest of her son, Reginald Holly and wife.—Gainesville Sun.

Thanksgiving is not a day to eat and knowing this, the Herald office will work right on, endeavoring to forget that turkeys roost so high they are not within the reach of printers.

Mrs. R. J. Holly and her guest, Mrs. Palmer, of Gainesville, and Mrs. I. P. Ingan, motored to Winter Park yesterday and were the guests of Mr. and Mrs. Roy Symes and also visited Orlando.

Legion men, don't forget the dinner dance at the Valdez hotel next Monday night at which time the official prizes will be distributed to the winners. Dinner and dance and vaudeville, Monday night, Nov. 28.

The Daily Herald will be published tomorrow (Thanksgiving) just the same. The Herald force has too much business to even take an hour off. We are helping to make Sanford, and in making Sanford, we are not losing any time in holidays.

Mayor H. R. Stevens and son, Dr. Ralph Stevens, left last night for Chapel Hill, N. C., where they will witness the big game of football between the University of North Carolina and the University of Virginia. They expect to return home Friday night.

If you know any news, let the Daily Herald have it. You know many items of interest but do not know them unless we get the item from you. Help us publish a newsy paper by giving us all the news. Phone

**ACCIDENT TO CHILD.**

Harold Davis, who resides on Sanford Heights, is recovering from an accident that happened to him Monday, when he was on his way to school on his wheel and was struck by an automobile and thrown from his wheel. He was injured on the leg and head, but is getting along nicely, and will soon be able to resume his studies. Dr. Langley is attending him.

**DANCE TOMORROW NIGHT.**

The American Legion will have a dance at the new pavilion tomorrow night. Good music and good floor and right on beautiful Lake Monroe. Everybody welcome to come out and enjoy a good time.

Post cards—local views—1c each at the Herald office.

**LEGION DINNER DANCE AND VAUDEVILLE.**

The American Legion will give a dinner dance and vaudeville attraction at the Valdez hotel Monday night, to which only Legion members and the Auxillary can be invited. The Lyman Twins have consented to put on a vaudeville attraction for the occasion, and many of the Sanford girls will participate in vocal and dancing numbers, and the affair promises to be one of the best ever attempted in this city. All members of the Legion are requested to let Frank Akers know about your seats tomorrow, or at least by Friday at noon, in order that tables can be arranged for the occasion, as the tickets are going fast. The Legion and the Auxillary are looking forward to a fine time that night—Monday night—don't forget the date. Call up Frank Akers over phone 447-w.
