### U. S. Crime Hits All-Time High

WASHINGTON (UPI)—FBI Director J. Edgar Hoover reported today that United States crime reached an all-time high last year. He urged communities to hire more policemen. Hoover said that while the national crime rate continued to climb faster than the population, the nation's police force remained at virtually the same strength. The 1960 uniform crime report, made public by Hoover today, showed that 1,861,300 serious crimes—or one every 15 seconds—were committed last year. This was an increase of 14 per cent over 1959.

### Cuban Red Carpet Expected For Yuri

GANDER, Nfld. (UPI)—Soviet cosmonaut Maj. Yuri Gagarin, making his first visit to the "New World," leaves today for Cuba and a red carpet welcome usually reserved for heads of state. Gagarin and his party of 13 were scheduled to fly from Gander aboard a Soviet Ilyushin-18. They arrived Sunday night from Moscow for a 14-hour stopover en route to Cuba. The full state reception awaiting the young spaceman at Havana's International Airport has been given only two other men—President Sekou Toure of Guinea and President Sukarno of Indonesia. Gagarin's trip to Cuba is in honor of the 8th anniversary of the start of Premier Fidel Castro's 20th of July revolutionary movement. As one of the featured guests, the Soviet space man is expected to join Castro in addressing a huge rally the night of July 26 after reviewing military parades. The spaceman's brief stop in Newfoundland was far from exciting. No representatives of the Canadian or provincial governments were on hand to greet the

IMPORTED AUSTRALIAN beauty Sandra Hirt feels right at home with this blossom from one of the Australian Bottle-Brush trees which thrives at Cypress Gardens.

### Third Astronaut Trip Slated Late August?

CAPE CANAVERAL (UPI)—Scientists studied astronaut Gus Grissom today to decide whether to send another man on a sub-orbital rocket ride. If they decide "yes," the next American spaceman will be John H. Glenn Jr., a 40-year-old marine. The flight probably would come in late August or September. If they decide "no," the nation's \$400 million "Project Mercury" will shift its attention fulltime to send one of its seven astronauts on a rocket flight into orbit early in 1962. If the emphasis is shifted 100 per cent to an orbital flight, Grissom, No. 1 U. S. spaceman Alan

### Six Airmen Die As Auto Strikes Tree

SANTA BARBARA, Calif. (UPI)—Six airmen died Sunday as the result of what an ambulance driver called the worst accident he had ever seen. The men, all stationed at nearby Vandenberg Air Force Base, were in a car which struck a tree, flew into the air and exploded about 10 feet off the ground. The California highway patrol said. Five of the servicemen died at the scene and the sixth died hours later at Cottage Hospital here. The Air Force identified five of the victims as George W. Royalty, 32, New Orleans; Marvin M. Anderson, 23, Akron, Ohio; James Frazier, 21, Savannah, Ga.; Milton Friday, 19, Detroit, and Aljanna Smith, 19, Chicago. Smith died in the hospital after the accident and the sixth body was not at once identified. Police said the car must have been going about 100 miles an hour when it hit the tree. "It appeared to have actually taken off the ground after striking the tree and exploded about 10 feet in the air," one officer said.

### STOCK HOLDINGS NEW YORK (UPI)—Common stock holdings at the end of 1960 amounted to \$0.5 billion and comprised one-third of corporate pension fund assets, based on book value, according to the Hoover Bank.

### 'Scorching' Weather Grips East

By United Press International  
Thunderstorms in the offing from Texas to New England offered little relief today for Eastern states gripped in a sultry mid-summer heat spell. The U. S. Weather Bureau at week's beginning said the East was "in for another scorcher." New York City's Jones Beach, one of the nation's largest, closed its gates at mid-afternoon Sunday with a capacity crowd. Other New Yorkers swarmed by the thousands to beaches on Long Island and New Jersey. Metropolitan New York chalked up a high of 93 degrees Sunday following Saturday's high of 97, a four-year top for the day. The weather picture was the same in Washington as capital forecasters announced "above normal" temperatures since July 13. The capital's lowest high temperature since July 13 was a humid 87. About 75 persons were treated for heat exhaustion in a crowd of 40,000 at a Civil War battle reenactment at nearby Manassas, Va. Unofficial reports put the temperature at 102. Washington's temperature dipped to 79 degrees, around midnight. By contrast, the Great Plains experienced record-breaking chill over the weekend. Thunderstorms and heavy winds raked Missouri and Indiana. The mercury dipped to 49 degrees, 15 degrees below normal Sunday at Valentine, Neb. Kansas City's high of 73 Saturday was a record for the date. Severe rains and lightning hit the Kansas City area about midnight. Storms severed utility lines and felled trees north of St. Joseph, Mo., and more than an inch of rain fell in brief periods at Concordia, Kan., and Waterloo, Iowa.

# Passenger Return Okayed

MIAMI (UPI) — Pan American World Airways said today the Cuban government had given permission for the airline to send a special flight to Havana today to pick up the 33 persons who were aboard a hijacked Eastern Air Lines plane.

A Pan American spokesman said the special flight would depart from Miami International Airport at 2 p. m. EST. He said he did not know if any Cuban refugees would be allowed to board the plane in Havana.

The Cuban government made the arrangement by contacting Pan American officials in Havana, who relayed the information here.

Pan American is the only U. S. passenger line operating between Miami and Havana.

The special flight will be the third plane Pan American will fly between Miami and Havana today. The other two flights had already been scheduled.

Meanwhile, special security measures were established today for commercial planes serving Florida to block a reported plot by pro-Castro agents to hijack additional U. S. airlines.

Informed sources said Monday's hijacking of an Eastern Air Lines Electra was part of a plot possibly to "avenge" seizure of a number of Cuban airlines for unpaid bills in the United States.

They said the operation apparently was timed to coincide with Cuba's 20th of July revolutionary anniversary.

The 33 persons aboard the Electra, which was commandeered during a Miami - Dallas flight, were being held incommunicado in Havana today despite State Department demands that they and the \$3.5 million aircraft be promptly released.

Eastern announced from its New York headquarters today "All possible precautions have been taken to prevent another incident."

Strict security surrounded security measures. The federal government, however, has authority to place armed guards aboard commercial airplanes if considered necessary to protect the U. S. mail carried on passenger flights.

Airline officials generally declined comment on measures to protect their flights other than to say normal service was being continued.

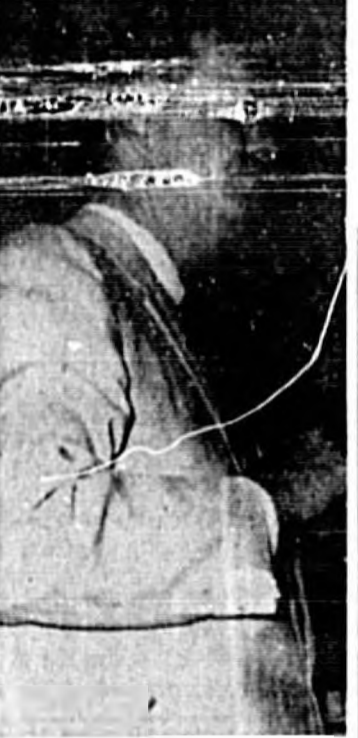

It appeared there would be technical as well as diplomatic complications over Monday's incident. Airline sources doubted if the Cubans have special equipment required for servicing and starting the turbo-prop engines of the EAL Electra.

## Chamber Asks City For More \$\$

The Chamber of Commerce made its pitch for an additional \$5,000 in appropriations from the city Monday night with commissioners promising to do as much.

RICHARD DEAS ... Reached Our Limit

Led by George Touhy of the chamber's executive and finance committee, the chamber asked for \$15,000 this fiscal year and proposed a budget of \$42,275 as compared with \$32,000 last year.

"This raise in funds is justified," Touhy said, citing the intense competition between cities for industry and emphasizing that the day is passed when "we can live on tourism."

Andrew Caraway said the amount the chamber is asking for is "mighty modest" considering "the work we do."

Mayor J. H. (Jimmy) Crapps said that the commission would take the request under advisement and "we'll do everything possible for the chamber."

# Citizens Group Set To Probe Courthouse

The County Commission today named an eight man committee to determine the needs for a new courthouse and heard District 4 Commissioner Vernon Dunn say he couldn't find anyone from his district to serve with the group because "everyone I asked pointed out to me that the board is attempting to pass the buck."

REAR ADM. J. M. CARSON

## Fleet Commander To Inspect NAS

Rear Adm. Joseph M. Carson, fleet air commander from Jacksonville, will pay his first visit to the Sanford Naval Air Station Wednesday as part of his familiarization tour of naval air bases under his command.

Adm. Carson will arrive at 10 a. m. for an inspection tour of the station, to be followed by briefing by the station and Heavy Attack Wing One Staff.

He will be greeted by Capt. Robert W. Slay, commanding officer of the Naval Air Station, and Capt. Joseph M. Tully, Jr., commander of the wing.

Following his inspection and briefing, Adm. Carson will be honored at a luncheon given by the Central Florida Council, Navy League of the U. S., at the Capri Restaurant.

## African Workers Defy Strike Call

RAISBURY, Southern Rhodesia (UPI)—Armored cars and heavily armed troops escorted thousands of Africans streaming to work today in defiance of a strike call.

Government sources said the strike, now in its second day, appeared to be a failure.

Prime Minister Sir Edgar Whitehead of Southern Rhodesia warned in a pre-dawn broadcast that his government would put down any attempts to intimidate Africans.

Whitehead also hinted legal action against the National Democratic party leaders if it could be proved they were behind attempts to enforce the strike which erupted into violence Monday night.

Two Africans were killed and four were wounded when police opened fire on gangs attacking workers in the African townships of Harare and Highfields as they returned to their jobs.

## City Commission Okays Pay Hike For Employes

The City Commission Monday night agreed to give 117 "low pay bracket" employes a two percent cost of living increase during the next fiscal year and said it would consider the higher paid employes.

The salary hike would be for all employes making less than \$4,200 a year.

The total number of employes is 149 and the salary total, according to City Manager W. E. Knowles, is \$641,905.

At the same time, the commission authorized Knowles to set up a meeting between the city and employes to study the possibility of establishing a pension system with the city participating in the pension plan by matching three percent of the funds.

The police and fire departments now have their own pension system and the proposed one would only cover some 105 persons.

The proposal is to set up an actuarially sound system with the employes paying their share.

According to Knowles, the plan would include all present employes who so desire, but would not be compulsory. The program would be keyed to social security benefits and age, maximum benefits after 30 years service and eligibility for benefits after 10 years.

## Dealers Charge Bids Restrictive

The County Commission today rejected all bids on furniture for the new County Jail after two Sanford office supply dealers said that the specifications were "discriminative and restrictive."

The board ordered all bids submitted to be rejected and agreed to readvertise even though Chief Deputy Jim Singletary said that time was of the essence and that the furniture would not be ready when the new jail is opened.

District 3 Commissioner John Fitzpatrick quipped "I'm sure we can open the jail without a desk or filing cabinet."

Gordon Sweeney of Sweeney's Office Supplies, in a letter to the board said that in preparing the bids, "we were confronted with difficulties which stem from restrictive, discriminative and extravagant specifications of items."

Sweeney said that some of the items were "odd balls" and that it would be "impossible for any dealer in Sanford to bid on them."

Sonty Powell of Powell's Office Supply said that the bidding company they made up the specifications did a " thorough job whereby competing bidders did not stand a chance of quoting on all the items specified."

The board questioned Singletary on whether local dealers were asked to submit bids and the chief deputy said that they were invited to do so.

However, the board agreed to call in some of the local dealers to discuss specifications and to readvertise.

## UN Orders Troops To Elisabethville

LEOPOLDVILLE, The Congo (UPI)—The United Nations ordered a company of tough Indian Gurkha troops into Elisabethville today in reaction to announcement that Katanga Province was seeking help from the Communist bloc.

The action was considered more a token show of force than any real military maneuver. Many officials doubted the province was seriously seeking Communist aid as announced Monday by Provincial Interior Minister Godefroid Munongo.

JOHN IVEY ... 'Share Work Load'

## No Bids On Courthouse Roof Received By Board

It looks like contractors aren't interested in re-roofing the county courthouse.

Bids on re-roofing the facility were supposed to be opened today but no bids were received at the County Commission meeting this morning.

The board appointed District 3 County Commissioner John Fitzpatrick to look into the matter and find out why contractors weren't interested in the job.

Maybe the specifications were out of line," District 2 Commissioner Ted Williams said.

The board discussed the possibility of meeting with some of the contractors but no action was taken.

## Casselberry Asks Precinct Change

A delegation of residents from Casselberry, led by Mayor Joseph Laird appeared before the County Commission today asking that the newly created Vale Precinct 17 be called the Casselberry precinct.

However, the board refused to take any action on the request and turned the matter over to the redistricting committee for study and recommendations.

Laird said that it was logical that the precinct be called Casselberry because 90 percent of the residents who vote there live in that town.

District 4 County Commissioner Vernon Dunn, who represents that district on the board said "I don't care what you name the precinct" and District 3 Commissioner James P. Avery said that names didn't mean much, it was the number that mattered.

In other business, the commission agreed to study the feasibility of state welfare funds for indigents at the county home after Mrs. Carmela Ray, supervisor of State Welfare explained the program.

## 52 Cuban Exiles Arrive Monday

KEY WEST (UPI)—A total of 52 Cuban exiles arrived here by boat from their homeland Monday and sought political asylum.

One boat carried 49 persons, the other boat contained three. All were turned over to U. S. Immigration authorities, who declined to release any of their names.

The new arrivals brought to 83 the number of refugees that have landed here since last Friday.

## Church Men To Meet

The Presbyterian Men of the Church will hold a 7 p. m. dinner meeting today in the church's Educational Hall.

## Crackdown Asked On Open Fruit Stands In City

City Manager W. E. Knowles was authorized Monday night by the City Commission to crack down on open, truck type fruit and vegetable stands in the city.

The board asked Knowles, with the aid of Police Chief Roy Williams, to make these stand operators clean house and eliminate any "unsanitary conditions" in the area.

Knowles explained there were many stands of this type along French Ave.

In other business, the board denied a request for a beer and wine license transfer at 1410 W. 13th St.

Approved a request for beer and wine license at the Seven-Eleven Store under construction at 1955 Country Club Rd.

Agreed to annex the Grace Methodist Church in the South Pinecrest Area.

Approved the low bid of Machinery Service Co. of Tampa for sewer lift station equipment at a cost of \$3,700.

Authorized investing \$10,000 of meter deposit funds in government bonds.

## Kennedy Previews 'Toughen-Up' Plan

WASHINGTON (UPI)— President Kennedy called in Democratic congressional leaders today to preview the military and economic toughen-up program he will unveil to the American people tonight.

Kennedy scheduled a breakfast meeting with House and Senate leaders. The weekly legislative session gave him an opportunity to discuss with his Capitol Hill lieutenants the radio-television address he will deliver to the nation at 10 p. m. EDT.

The president's preparedness program to meet the mounting Soviet threat on Berlin was reported to call for a sharp military buildup, but no new taxes at this time. However, administration sources did not rule out a tax increase later if inflation should threaten.

## New School Policy Set

WASHINGTON (UPI)— Secretary of Interior Stewart L. Udall today announced a new policy which he said will be of major aid in reducing school construction costs in 16 states.

Alabama, Florida, Louisiana and Arkansas are among the 16 but are not likely to use the policy widely because schools built under it must be completely integrated.

Under the new policy, states, local governments, and non-profit private organizations may obtain public land for school construction for \$2.50 an acre, with a limit of 660 acres within any single year.

Formerly, those seeking school sites were required to pay up to 50 per cent of normal market price for the public land.

## Sunshine Parkway To Be Extended

TALLAHASSEE (UPI)— The State Turnpike Authority hopes to announce plans for extending the Sunshine State Parkway to Wildwood within a week or 10 days, Chairman John Hammer said Monday.

Hammer said the authority was determined to extend the toll road to Wildwood even if the federal government refused to shift the proposed route of Interstate Highway 75 to meet it there.

## news... BRIEFS

**Two Escape**  
VIENNA (UPI)—Two uniformed Hungarian soldiers escaped into Austria Sunday and asked for political asylum, officials reported Monday night.

**Filming Set**  
BANGKOK, Thailand (UPI)— Filming of the novel "The Ugly American" will begin here Aug. 8, producer George England announced Monday.

**No Action Planned**  
TALLAHASSEE (UPI)— Secretary of State Tom Adams said Monday he would take no part in any move to unseat State Democratic Chairman James M. Milligan of Orlando.

**Electrocution Set**  
RAIFORD (UPI)— Norman J. Mackiewicz of New Britain, Conn., is scheduled to die in the electric chair at Raiford State Prison at 8:30 a. m. Aug. 7 for the murder of Bal Harbour Police Lt. Robert Staab.

**Forgery Charged**  
LOS ANGELES (UPI)—Ex-child actor Bobby Driscoll must appear in Superior Court Sept. 6 to be sentenced for forging an endorsement on a stolen check. Driscoll, 24, pleaded guilty Monday. He was arrested May 1 when he tried to cash the stolen check for \$45 at a liquor store.

**Less Prisoners**  
TALLAHASSEE (UPI)— Florida's prison population decreased by two to 7,338 last month, the first such decline this year. Raiford State Prison holds 3,120 of the convicts. Raiford camps hold 1,887. Fifty-two are in the State Mental Hospital, classified as criminally insane.

**Mass Testing**  
FT. MONMOUTH, N. J. (UPI)— The Army has put into operation a \$125 million gadget that can test 11,200 batteries at the same time. It will be used to test a random sampling of 20 million batteries purchased annually at a cost of \$13.5 million for the Army, Navy, Air Force and Marines.

**Soviet Takes Ship**  
SHOGAMA, Japan (UPI)— A Soviet patrol ship captured the Japanese survey ship No. 10 Gyoei Maru and its crew of 20. It was reported today. The Japanese Maritime Safety Agency said the 83-ton ship was conducting a survey of fish resources Sunday off the northern Kuriles, which Russia occupies.

**Condition Good**  
HOLLYWOOD (UPI)— Actress Madyen Rhue was reported in good condition today at Mt. Sinai Hospital, where she is recovering from facial injuries incurred in a two-car collision. A spokesman for Paramount Studios, where Miss Rhue is playing opposite Yul Brynner in "Escape from Zahrain," did not know if Monday's accident would delay production of the film.

CDR. Bud Gear, left, Friday will relieve Commander F. Dan Milner, right, as commanding officer of Heavy Attack Squadron Seven at the Sanford Naval Air Station.

Cdr. Milner will depart for duty in the office of chief of Naval Operations. Gear is former executive officer of VAII-11.

## 'Angry' Commission Raps Health Board

An angry City Commission Monday night authorized City Manager W. E. Knowles to tell the State Board of Health that Sanford is ready to go to court if necessary regarding a sewage treatment plant here.

The commission expressed its anger over a news release from the Health department board asking the health officer to write Sanford a letter threatening legal action if the city did not provide a sewage treatment plant.

City Manager W. E. Knowles said "apparently the State Board of Health has not kept pace with happenings regarding our plant. Since steps already are underway for a plant here such threats of legal action only cause hard feelings, confusion, and disruption of cooperative efforts."

Commissioner Earl Higginbotham, calling the State Board a "bunch of cunts" told the commission "we ought to make them apologize."

However, the board asked Knowles to call Jacksonville to set the matter straight and "so that there would be no doubts, tell them if they want to press their case we are ready," Higginbotham said.

## Lavender Tells Board: 650 Roads In County

County Road Superintendent J. C. Lavender today presented the County Commission with a list of all the paved and unpaved roads in the county.

District 4 Commissioner Vernon Dunn said "this is something I have been requesting for many years" while District 3 Commissioner James P. Avery complimented Lavender and County Engineer Carlton Bliss for a job well done in compiling the data.

The board adopted the road survey pending a check of deeds for all the roads involved.

According to Lavender, there are 363 paved roads in the county running to 184.19 miles and 307 unpaved roads totaling 155.28 miles.

The total number of roads in the county is 650 adding up to 339.47 miles.

A breakdown of roads in each district shows:

District 1-31 paved roads,	65
unpaved roads;	
District 2-56 paved roads,	51
unpaved roads;	
District 3-115 paved roads,	65
unpaved;	
District 4-87 paved roads,	48
unpaved.	
District 5-51 paved roads,	74
unpaved.

# all round town!

WITH... Dottie Higginbotham

SO MANY nice Navy people are leaving our fair community for scattered parts of the world. It seems that nearly every day someone else disappears from the local scene.

And they leave quite a vacancy behind them, too, with Girl Scout and Boy Scout activities, church groups and leadership in Sunday School, civic organizations, charity drives and clubs all having benefitted from their presence among us.

Their neighbors will miss them, too, and the friendships formed between the adults mean some sad partings are taking place.

In talking to some of those who are leaving, it has been the expressed hope of most of them that they may some day return to Sanford and many add, "the sooner the better."

**TWO BACHELORS.** Lt. Cdr. Bob Tucker and Lt. Marlin Ribble held a party recently at the BOQ for four of the couples who are leaving. The honored guests were Ledr. and Mrs. Jack Langford, Ledr. and Mrs. Richard Andrus, Ledr. and Mrs. Doc Faulkner and Lt. and Mrs. Robert Anderson. They have all likewise been fitted with parties, luncheons, dinners and cocktails by their friends and neighbors and the many other local groups in which the men and their wives and children have been active during their tour of duty here.

BACK ON THE BEAT, all round the town with your reporter re-uses this week. My desk is so clean, I can't find anything, but it won't be long until I have it piled high again with vast conglomeration of notes, papers, notebooks, pictures, assignments and programs.

With a vow of doing today's work today, no procrastination, no manana, I am able to start off with a clean slate, high hopes and the very best of intentions. (I remember hearing that the road to somewhere is paved with these!)

And this seems as good a time as any to inject a bit of information which I have been longing to impart to "my public."

Namely this: my duties at the Herald consist of far more than just dashing off this column several times a week. In fact, it would be easier to list what I don't cover, than to tell what I may be called upon to do. During the summer months when vacation time comes upon us, everyone in the editorial department covers and fills in for each other, adding to the fields of news reporting.

At any rate, besides being a columnist, my duties are that of a regular newspaper reporter and as such I am listed on the occupational questionnaires.

which Dr. Blais has been closely affiliated. By his intense interest and concern, he has been able, through speeches and talks to various groups to bring the plight of the mentally retarded in the county to the attention of many citizens who would have otherwise known little or nothing of the need of these handicapped people.

A series of articles on the facts and figures, needs and progress of the mentally retarded program, the story of the establishment of the Little Red School for the training of these children, was the work of the good doctor, who researched and studied the problem, writing a thesis couched in phrases that the lay person could easily understand.

This series of articles ran in serial form in the Herald recently, drawing a clear and concise picture for newspaper readers of the present status of the mentally handicapped in the county.

Dr. Blais has left his mark in the community and through his tour of duty here has surely helped to open the eyes of others who will step up and offer their services, because of the interest and sympathy stirred in those with whom the doctor has come in contact.

With a vow of doing today's work today, no procrastination, no manana, I am able to start off with a clean slate, high hopes and the very best of intentions.

## Good Grooming Is Good For Housewives Too

By ALICIA HART, NEA  
Housewives who feel that career girls have it all over them in the matter of making themselves attractive should take stock of the situation. It's true that the girl with a job needs more clothes, more time to devote to her appearance. Actually, this isn't always so.

She may have others dependent on her for care and support who need a good bit of her time. So even though you're anchored to your home much of the time, you still can look your best. In fact, you have the advantage. You can shampoo and set your hair anytime during the day. You can make repairs in and press your clothes when it suits you. And thus you can make a small wardrobe do a tremendous job.

And remember: your clothes should be right for your job. No tacky dresses or rundown house slippers. You can also take time to tint your own hair at home. You can apply make-up before your husband arrives in the evening. In short, you may not have the income of the career girl to spend on your appearance, but you can match her by making clever use of your time at home.

## Oviedo

### Personals

By MARIAN R. JONES

Mr. and Mrs. Johnny Jones and Mrs. L. V. Hart attended the wedding of William Hart, Mrs. Jones' brother, to Miss Rita Chambers at the Baptist Church in Chuluota recently.

Mr. and Mrs. Ben Jones and Mary leave this week for Highland, N. C. for a week's stay.

Mr. and Mrs. Tom Daniell, who have been vacationing in Alabama and Georgia, returned home last Tuesday evening accompanied by their little granddaughter, Pam, who will remain with them for a four weeks visit. Pam's parents, Mr. and Mrs. Tom Daniell and little brother, Ray, will arrive Aug. 6 for a week's stay.

Miss Cheryl Hansen, of Jacksonville, is enjoying an extended visit with her aunt, Mrs. Eddie Parker, Mr. Parker and Charles B. F. Ward Jr., T. L. Lingo Jr. and Bob Ward enjoyed their annual trip to North Carolina to play golf for a week.

Mr. and Mrs. J. C. Mitchell and granddaughter, Miss Joan Kirkland, of Orlando, have returned from a two week vacation in the mountains of North Carolina and points of interest in Georgia.

Mr. and Mrs. Jack Goodman and son, Mark, are among other Oviedoans returning home from vacation. The Goodmans spent their time in Birmingham and Tennessee.

George Morgan enjoyed a class reunion in observance of the fiftieth anniversary of his graduation from Southwestern College at Winfield, Kan. His sister was also a member of the 1911 graduating class and attended the reunion with George. He flew to Kansas for the celebration.

Mr. and Mrs. John Duda Sr. and daughter, Katherine, are enjoying a tour of the Western United States.

Rev. and Mrs. Stephen M. Tuby have been enjoying a two weeks stay at Cocoa Beach.

Also headed North is Steven Sidlik on a three-week vacation, visiting relatives at Cudahy, Wis. Mr. and Mrs. Jerry Armit and children have been enjoying a visit with relatives and friends at Shelbyville, Mich. Gertrude and Billy Jo Lukas have been experiencing the novelty of running a supermarket, being in charge of the Arndt supermarket here during their absence.

Katherine and Joe Mikler are elated at having Raymond home from Japan after an absence of three years. Glad to see you home, Raymond!

The percentage of alligator bags over other types for fall is running so high you wonder what's left in the swamps.

MISS ELIZABETH LEE JACKSON

## Jackson - Matz Wedding Planned

Rear Admiral Robert Woods Jackson, United States Navy (retired) and Mrs. Jackson, of Sanford, announce the engagement of their daughter Elizabeth Lee to Richard Charles Matz, Mr. Matz is the son of Mr. and Mrs. Norman James Matz of Pittsburgh, Pa.

Miss Jackson was graduated from Seminole High School in 1957. She received her Bachelor of Arts degree in elementary education from Davis and Elkins College in Elkins, W. Va., in June of this year.

At Davis and Elkins she was a member of the Student National Education Association, a biology laboratory assistant and an active member of her social sorority, Chi Omega.

Mr. Matz attended Davis and Elkins College where he was an officer in the United States Air Force Reserve Officers Training Corps. He was president of his freshman class, a member of the college track team, and a member of Sigma Phi Epsilon fraternity. He is presently attending Kent State University School of Architecture.

A December wedding is planned.

Mr. and Mrs. J. C. Mitchell and granddaughter, Miss Joan Kirkland, of Orlando, have returned from a two week vacation in the mountains of North Carolina and points of interest in Georgia.

Mr. and Mrs. Jack Goodman and son, Mark, are among other Oviedoans returning home from vacation. The Goodmans spent their time in Birmingham and Tennessee.

George Morgan enjoyed a class reunion in observance of the fiftieth anniversary of his graduation from Southwestern College at Winfield, Kan. His sister was also a member of the 1911 graduating class and attended the reunion with George. He flew to Kansas for the celebration.

Mr. and Mrs. John Duda Sr. and daughter, Katherine, are enjoying a tour of the Western United States.

Rev. and Mrs. Stephen M. Tuby have been enjoying a two weeks stay at Cocoa Beach.

The percentage of alligator bags over other types for fall is running so high you wonder what's left in the swamps.

## Miss Janet Duda Celebrates Fourth Birthday

Janet Duda, daughter of Mr. and Mrs. John L. Duda Jr., was honored with a birthday party on her fourth birthday recently at her home on the Mikler Road. Games were enjoyed by the honoree and guests, after which birthday cake and ice cream were served by her mother, assisted by Mrs. Ferdinand Duda, Mrs. Jim Colbert, C. Land and Mrs. Walter Duda.

Those invited to enjoy the occasion with Janet included her sisters, Beth, Linda and Pam; Abo Christine and Mary Jane Mikler, Stephen and Philip Colbert, Elaine Duda, Stephanie Dinda, Drew Duda, and Gretchen and Carl Lang.

## Enlisted Wives Of VAH-13 Hold Final Meeting

The VAH-13 Enlisted Wives Club met Friday at the Aces Ducey Club for the last meeting outside their base to Whitley Island, Wash.

Mrs. M. W. Steiner resigned as membership chairman and Mrs. S. B. Anderson resigned as treasurer. Mrs. G. M. Poole was elected as new treasurer and a membership chairman will be named at the next club meeting.

Guest speaker for the day was Ledr. R. E. Osterholm. Following his talk a question and answer period was conducted.

A social hour was enjoyed by the group with Mrs. Poole, Mrs. R. J. McDermott and Mrs. R. W. Conrad acting as hostesses.

## Church Calendar

TUESDAY  
The Mizpah Circle of Grace Methodist WMSWS meets at the home of Mrs. R. V. Thompson, 2617 Laurel Ave. at 8 p.m.

The men of the First Presbyterian Church will meet at 7 p.m. at the church for supper and the monthly program.

## FAVORITE RECIPE

By Mrs. C. C. Wells  
**POUND CAKE**

1 box confectioner's sugar, 6 large eggs, 1 stick margarine, 3 cups and 3 tablespoons cake flour, 1 teaspoon lemon or almond rum flavoring.

Mix margarine (which has been at room temperature for 2 hours), add eggs, sugar and flavoring, then add flour and mix well. Put in large tube pan and bake at 325 degrees for 1 hour and 20 minutes.

## Miss Rowell Feted With Beach Party

Miss Judy Rowell was guest of honor at a surprise beach party Saturday, given by three of her friends. Hostesses were Miss Cherie Pennington, Miss Melanie Williams and Miss Peggy Miller.

They were assisted by their mothers, Mrs. Eugene Pennington, Mrs. J. R. Williams and Mrs. Al Case. Miss Rowell is the daughter of Cdr. and Mrs. Kenneth F. Rowell, Lake Mary, who will soon be moving to Middleton, R.I., to make their home. Cdr. Rowell will be stationed at Newport and Judy's new address will be 182 Indian Ave., Middleton, R. I.

JUDY ROWELL

The honoree thought she had started to the show, but was surprised to find over 20 friends at the Case home. From there the group proceeded to New Smyrna Beach for the day. They enjoyed hot dogs, baked beans, cookies, watermelon and plenty of cold drinks during the afternoon.

She was presented with two farewell gifts, one was a large stuffed dog and the other a beautiful charm bracelet with "Judy" engraved on the side and "The Sanford Gang of 41" on the other. Cupcakes for the party were Mr. and Mrs. A. Case, Mr. and Mrs. John Casey, Mrs. Jim Spencer and Mrs. Eugene Pennington. Guests included the honoree, Tommy Fay, Pam Hamilton, Rusty McAllister, Janet Riley, Danny Brumley, Faye Karnes, Leroy Nupper, Barbara Smith, Johnny Cannavino, Susan Pierce, Tommy Crow, Eddie Kelly, Paula Brooks.

## Oviedo Club Plans Open House Thursday

Members of the Oviedo Woman's Club are holding open house Thursday evening from 8 to 10 p.m. at their new club house.

The recently completed building, located on King Street, is quite an asset to the community and members invite all who are interested to attend the celebration.

## Aides Cancel August Meetings

The Reddi Kilowatt Aides of Enterprise met for the regular session Thursday morning.

Members decided to cancel further meetings until Sept. 1 when everyone will be home from vacations and could settle down to work.

DR. BLAIS

ANOTHER OFFICER and his wife who will be sorely missed in Sanford is Dr. Bernie Blais, who is leaving for the Naval Hospital at Philadelphia and further studies in his specialty, eye surgery. ## Joint Meeting Held By Church Circles

The Ethel Root Circle and Friendship League met recently in the Fellowship Hall of the Congregational Christian Church for their meeting which is held jointly each quarter.

The meeting was opened by the president of the host circle, Mrs. Howard Rollins and the devotion was given by Mrs. Ralph Lossing. Both circles discussed their annual fall bazaar and supper but the date was not decided. The Friendship League announced they have been sewing all year, making pretty things that have been so popular in the past and promise several new surprise items for this fall.

Members enjoyed some beautiful slides of the Petrified Forest, Painted Desert, Disneyland, Grand Canyon, Carlsbad Caverns

and the Hoover Dam. They were made by Mr. and Mrs. Rollins and family while on an extended vacation trip out west.

Hostesses, Mrs. Bea Allford and Mrs. Maurice Corbett used the fourth of July as the decorative theme for the day and served red, white and blue sandwiches, ted punch and cup cakes topped with miniature flags.

Others present were Mrs. Edward Simpson, Mrs. Norma Cook, Mrs. Helen Remusat, Mrs. William Bailey, Mrs. James Bedenbaugh, Mrs. Bonner Carter, Mrs. G. O. Nordgren, Mrs. Merrill Robinson, Miss Dorothy Heath, Mrs. Ralph Hamman, Mrs. Walter Koeller and Mrs. W. W. Lutz. Miss Shirley Robinson was welcomed as a guest.

The next regular meeting of the Ethel Root Circle is scheduled for Aug. 7 at 7:45 p.m. at the home of Mrs. Bonner Carter, 104 South Sunland Drive.

**PORTABLES POPULAR**  
NEW YORK (UPI) — More than 10 million portable radios will be sold in the United States this year, according to a study prepared for a battery maker. Tiny transistor radios are the best sellers and current estimates indicate transistor portables will outsell vacuum tube models 7 to 1 this year.

# Battle Of Newburgh

Let's take a look at the Battle of Newburgh, N. Y., which now is joined in earnest after weeks of noisy skirmishing. There may be some lessons for a lot of communities.

To City Manager Joseph Mitchell and the four of five councilmen who back him up, much more is at stake than just the Newburgh-New York state differences over the city's 13 tough new rules designed to weed out loafers and chislers from welfare rolls.

An Mitchell and others see it, the question is whether Newburgh, or perhaps any city, shall have reasonable command of its own destiny or must surrender to rules, administered from a distance, which might help in the end to "wreck the city."

What, specifically, are they talking about when they pose that question? This is the answer:

1. Newburgh, historically a city of action, mounted an across-the-board attack on its large and growing blighted area, a sector found in 1958 and 1960-61 surveys to be heavily seeped with crime and violence, disease, illegitimacy, fire hazard, deteriorating housing, the flight of retail business.

The attack embraced fire law and housing inspections, a new fire code, zoning changes, buildings renovated or condemned, renewal programs, sanitation measures, street cleaning.

2. This same blighted area is also Newburgh's welfare area. The welfare office has paid out an annual \$1 million in welfare payments. But Mitchell says local welfare officials declined all co-operation with the city's broad assault and held fast to existing loose rules governing payments and eligibility.

These rules are set by the state and also are affected by conditions the federal government fixes in allotting welfare aid.

3. The two Newburgh studies, supplemented by review of the city's welfare cases, convinced Mitchell and supporting leaders that welfare payments were in fact so carelessly made that they were feeding the spread of crime, illegitimacy, bad housing and other unsatisfactory conditions.

4. Local welfare officials' resistance to appeals for tighter rules led the city manager to conclude Newburgh had "lost control" of the so-called welfare area. Without change, city leaders therefore believed they were powerless to arrest the damaging growth of blight.

In this circumstance, the new rules were drafted and made effective in defiance of state welfare authorities.

(Next: What is the link between blight and welfare payments? What does the state say, and what is the battle outlook?)

## From Rome Henry McLemore

ROME, Italy.—One of the things an American man coming to live in Italy for a while should be sure to bring with him is a small blackjack.

He will need it every time he goes to the barbershop.

Nothing short of a few taps on the head, or behind the ears, will prevent an Italian barber from giving an American the same treatment that he does his native customers. And there haven't been ten Americans since George Washington's time until now who would willingly undergo this torture.

Well, to begin at the end of a haircut, the barber gives the customer a wave. Italian men demand this. They wouldn't think of leaving a shop until their hair was contoured like a washboard.

The barber places a net over the customer's head—it is black and resembles a large square of fishing net—and knots it tight. Then he sprays it with what appears to be a mixture of hot varnish and reeking perfume.

Then he presses here and there with the back of a comb, and at the same time applies a blast of hot air from a hand dryer.

I had this treatment the first time I went into a shop because I didn't know what it was. And by the time I realized what was happening the fumes from the varnish had me so giddy I couldn't put up any resistance.

I got up from the chair looking like a beat-up matinee idol of horror pictures.

The American in an Italian barbershop has to put up a valiant fight for his eyebrows. The

barber will pluck them unless forcibly restrained. He'll do things to the eyebrows, too, and will pat one's cheeks (to restore the color) until one is groggy from slaps.

There is no known perfume that isn't on tap. A blackjack—and nothing softer—is needed to keep an Italian barber from sloshing it on in great handfuls.

Lilac for the neck. Lavender for the ears. Sweet pea for the forehead. Geranium, hibiscus, peonia, and lily of the valley for the top of the head.

The barber accosts at your instructions to use no perfume whatsoever. Most of his customers want to leave the shop smelling like a combination funeral parlor and hothouse.

Once on, there is no getting the perfume off. It has a cement base, or something. I got this aromatic bath once, months ago and I still leave a wake that would suffocate the man in the iron mask.

The barber will give one a shampoo before one knows what is coming. And a massage.

The Italian male gets the full treatment every time. A direct descendant of the peacock, the Italian male spends hours each day preening himself, half the time in public. He is twice as vain as the Italian woman, and that's saying a lot.

## Nationalist China Sending Top Men To Mongolia Talk

WASHINGTON (UPI)—Nationalist China is sending two top officials to see President Kennedy in a last-ditch appeal against U. S. recognition of Communist Outer Mongolia and U. N. admission of Red China.

The weekend White House at Hyannis Port, Mass., announced Sunday that Nationalist Premier Chen Cheng and Foreign Minister Shen Chang-juung would arrive July 31 to meet with Kennedy.

The White House did not disclose the topics to be discussed. But it was learned from sources in Formosa that Generalissimo Chiang Kai-shek wants the two emissaries to "impress upon the U. S. President the Republic of China's determination against aggression and to reaffirm our national policy."

Chairman J. William Fulbright, (D-Ark.), of the Senate Foreign Relations Committee said in a TV interview Sunday it would be "rather wise" for the United States to recognize Outer Mongolia.

Fulbright said the United States would give up nothing of particular importance by recognizing Mongolia.

## New Space Era Nears

CAPE CANAVERAL (UPI)—The United States will open a new era in its exploration of the moon within a few days by attempting to put a launching platform into orbit and then use it to hurl a probe more than 300,000 miles into space.

The shot, dubbed "Ranger 1," ranks as probably the most complex ever tried by the United States.

When a ship travels eastward or westward across the International Date Line, change of time is made in its clocks at night regardless of the moment of crossing.

## Dr. Crane's Worry Clinic

CASE J-450: Horace G., aged 33, teaches history in high school. "Dr. Crane," he grumbled, "I've been taking summer courses at our state university, working on my advanced degree. "But some of my profs seem to sneer at early American patriotism. They depreciate nationalism and think it is 'provincial' to laud our heroes of the past. "Is this a case of communitistic infiltration? Or just a snobbish disdain for those of us who oppose a One World Welfare State?"

lower taxes are laughed at as "provincial." "We are still urged to borrow and spend our way out of debt. And with all the billions of aid to foreign nations, Pettengill adds that "there are more hungry people in the world today than before foreign aid began. "What kind of government," he asks, "can cope with millions of

hungry people, except a police state. "Take food away from any peaceful community (your own, for instance), for three days, and the law of the jungle takes over." As regards North America's interest in world peace, he concludes: "About all we ever get to see of the dove of peace is the bill."

## To The Editor

Editor Sanford Herald Sanford, Florida

It seems to me that one of the simpler ways of doing this would be for the County and City

Canada and the U.S.A. have been the mecca for freedom loving individuals who fled socialistic Europe. Samuel Pettengill, who helped prevent the passing of the Supreme Court, generation after generation, charges, as follows: "A new two volume history of the United States, 1073 pages long, published by the University of Michigan Press, does not have room to mention Nathan Hale or the immortal Captain Lawrence (Don't give up the ship), or to quote the flaming words of John Paul Jones 'I have just begun to fight.' "Another recent history, 'The American Past,' also has no room for John Paul Jones, but . . . says of Savco and Vanrett that they were 'electrocuted on a trumped up murder charge,' which is that author's opinion, but not history."

Are such professors subtly trying to brainwash Americans so they will stand in abnormal awe of Europe or even Asia? Thus, in many economics and history departments of leading universities, the rugged pioneer virtues that made Canada and the U.S.A. the envy of all the rest of the world, are often lightly treated by a patronizing type of professor.

A balanced budget, the gold standard, thrift and a desire for

If Mr. Verahel had firmly placed a period after the third word of his, "Around the Clock" item concerning public criticism of forthcoming tax increases, he might have saved himself from a bad case of hoof "in" mouth disease.

A study of the past three years does not lead one to have great faith in the fiscal shenanigans and policies of our Boards and Commissions. County tax payers are suffering from an inadequate amateurish appraisal of real property which was conducted in 1939 and placed in force in 1960.

I am certain that it brings no joy to the hearts of Sanford residents to know that the rate of foreclosure of residential property for white residents is among the high group of communities on a per capita basis. Tax payers have traditionally been willing to bear tax loads when shown that it is necessary and in the public interest to do so. However, they have always reserved the right to criticize when public officials fail to justify tax increases by not keeping them completely informed with detailed information.

audit of income and expenditures annually. How many tax dollars were taken in? How much was spent? For what and by whom? I am sure your paper would be willing to publish the report as a public service.

Concerning the foreclosure rate, I am sure that a significant percentage can be attributed to residents who budgeted for a certain monthly payment with taxes and insurance included, and suddenly were faced with relatively large lump sum payments and increased monthly payments because of tax increases and or community incorporation. This was particularly harmful since it occurred in 1960, a year of general income decline and increased unemployment.

I am not sure that I am receiving the maximum tax dollar return for school construction and operation and I think it is the obligation of responsible officials to completely inform the public on these matters if they wish to be free of the nuisance of criticism.

Very truly yours,  
Ned N. Julian

## Social Security Taxes Boosted

WASHINGTON (UPI)—The administration today boosted by 10 per cent the increase it recommended in Social Security taxes to finance a proposed program of medical care for the aged.

Abraham Ribicoff, secretary of health, education and welfare, announced the change in cost estimates of the program at the opening of congressional hearings on the controversial issue.

### Q's and A's

Q—Which of Raphael's masterpieces was not completed?  
A—The "Transfiguration."

Q—How does the tax on gasoline compare with its retail price?  
A—Taxes are nearly 50 per cent of the retail price.

Q—Which section of the nation had the greatest increase in population?  
A—The South which grew in size from 24.5 million in 1900 to 54.9 million in 1960.

Q—What incident inspired Francis Scott Key to compose "The Star Spangled Banner"?  
A—The American Flag, still waving over Fort Mifflin after a 23-hour bombardment by the British in 1814.

Q—How long does it take subsoil to turn into topsoil?  
A—It may take nature from 200 to 1,000 years to build a single inch of topsoil.

ribicoff was the first witness as the House Ways and Means Committee opened two weeks of public hearings. No action was slated on the legislation this year. The administration is attempting, however, to lay the groundwork for victory when the showdown comes next year. The outcome is uncertain.

Open Talks  
ELISABETHVILLE, The Congo (UPI)—Katanga Interior Minister Godefroid Munongo announced today his government has opened negotiations for help from the Communist bloc. He said the Soviet Union has offered aid.

One of the most important causes of heart attacks is said to be the lack of exercise.

# Revenge Sweet For Jay

United Press International  
Revenge is always sweet — and Joy Jay's may be as sweet that the Cincinnati Reds will taste a World Series meal.

Discarded as a pitcher "who'd never make it" by the Milwaukee Braves last winter, Jay has emerged as the key pitcher in the Reds' surprising battle for the National League pennant. And he's rubbed salt in the Braves' wound by whipping them three times this season.

Jay scored his most important victory of the season Monday night when he hurled a 9-3 victory that snapped the Braves' five-game winning streak and increased the Reds' first-place lead to three games over the Braves.

Jay, who went with Juan Pizarro to the Reds in exchange for shortstop Roy McMillan in the winter deal that was supposed to "clinch the pennant" for the Braves, limited his former teammates to nine hits; he seemed to grow stronger after rain interrupted the games for 28 minutes in the sixth inning and held the Braves to three hits the rest of the way.

Frank Robinson drove in three runs with his 20th homer and two singles and stretched his hitting streak to 19 games. Cenzo Cardenas, Vada Pinson, Gene Freese and Gordon Coleman had two hits each in the Reds' 14-hit attack that routed old nemesis Warren Spahn.

Spahn, the gallant old southpaw who is closing in on the mighty 500-victory mark, was ragged for six hits and three runs in four innings to suffer his 12th defeat against one victory this season. He was trying for the 238th win of his career against a team over which he had a 57-21 edge at the start of the season. The Reds have beaten Spahn five times this year.

The Reds led, 5-2, after six innings but broke open the game with two runs in the seventh and four more in the eighth against relief pitcher Tony Cloninger. Robinson connected for a two-run homer in the seventh to boost the margin to 5-2 and the Reds added four more in the eighth during which Cardenas hit his homer and Robinson connected for a key double.

The Detroit Tigers lengthened their American League lead over the idle New York Yankees to one game when they beat the Los Angeles Angels, 3-2, in the only other major league action of the day or night.

their runs and made it easy for Jim Bunning to win his 11th game of the season. Angel starter Jim Donohue held the Tigers to two

hits until the sixth inning when he hit well on his way to becoming the Cincinnati star of the summer since Fred Blackwell posted a 2-5 record in 1961.

Jay, who went with Juan Pizarro to the Reds in exchange for shortstop Roy McMillan in the winter deal that was supposed to "clinch the pennant" for the Braves, limited his former teammates to nine hits; he seemed to grow stronger after rain interrupted the games for 28 minutes in the sixth inning and held the Braves to three hits the rest of the way.

McAuliffe connected for his two-run homer in the top of the ninth to give Bunning a couple of unneeded insurance tallies.

GOOD CATCHES were the order of the day for these four fishing in Lake Jessup north of Bird Island Sunday. The four, left to right, Bill and David Brown, Wayne Smith and Levin Hackett caught 44 shellcrackers and blue gills. (Herald Photo)

## Sneed Complains About PGA Course

CHICAGO (UPI)—Sam Sneed, three-time winner of the PGA championship, complained loudly today about the course where he will bid for a fourth title this week, the North Course at Olympia Fields.

"Tough," he said after a practice round. "I'll say it's tough who ever put those traps out in the middle of the fairway ought to have his head examined. And who grew that rough?"

Sneed actually did better on the course—672 yards and par 10 than most of the rest of the contestants who played practice rounds Monday. He said he was "one under."

The back tees make this course play awfully long," he said. "But they've got the fairways so narrow, they're hard to hit. Why, on one hole, the 15th I guess, Cary Middlecott was in the middle of the fairway on his drive, and he didn't have a direct line at the green. He had to swing his club to get it in."

quert about the thick rough, narrow fairways and the length, there was nothing but praise for the greens.

"They're smooth," one contestant said. "Not fast, but good speed, and they'll get faster as the week goes on."

## Only Fooling

PHILADELPHIA (UPI)—First baseman Norm Larker of the Los Angeles Dodgers said today he has "no hard feelings" over being pushed fully clothed into a Cooperstown, N. Y., hotel pool by teammate Dick Farrell.

"I was a little mad at the time because I didn't expect to be pushed into the water when I had all my clothes on," said Larker. "But then I realized we were just fooling around and Farrell and I shook hands. We'll just go on playing ball now like we always have."

Larker's plunge off a diving board climaxed some Dodger merry-making after Monday's 6-2 victory over the Baltimore Orioles in the annual Hall of Fame game at Cooperstown. Larker, Farrell, shortstop Maury Wills and pitcher Don Drysdale were engaging in the horsing-play when Larker ventured onto a diving board and took his plunge.

Manager Walt Alton made light of the incident although he conceded he "talked to" the four players. "There'll be no fines and there's really nothing to it," Alton said.

## Local Swimmers Place 12th In Meet

The Seminole Swim Assn. was in the middle of the field of teams from 24 Florida cities at the Tampa AAU swimming meet during the weekend.

Tampa, St. Petersburg, Orlando, and Fort Myers were the big scorers, but the Seminole youngsters were placing in enough events to keep them in 12th place among the field. Coach John Colbert reported.

Some of the places listed included a sixth place by Lynn Davies in the 400 yard free style; a fifth in the 200 yard medley relay and a fifth in the 200 yard free style relay by Owenby, Mayer, Stephens and Davies, all in 19" men's division.

## Suppliers Hold Lead In Loop

With three more weeks of league play to go, Powell's Office Supply has a four point lead in the Thursday Nile Mixed League.

DeBary Pharmacy holds second with 27, Fryar's State Farm Ins., Appleby's Restaurant and Steiner-Roeling are all tied in third with 23, Union Park Pharmacy is next followed by Sanford Mig. Co. and Piero's Mig.

Carl Von Herbulis was top man with a 600 scratch series, while Mike Accord had the next largest series in the league this week. Ellen Betts, Karmiet Carter, Steve Holly and Betty Cullen all made the 3-10 split, while Carter also picked up the 3-10. Pat Foster got the 3-7, as did Gloria Accord and Carl Nicholson. Dot Powell made the 3-6-10 with Ron Robinson picking up the 3-8.

## Sanford Loses

The Sanford American League Little Loop All-Stars were defeated by Ocala in the first round of district play here Monday night by the score of 7-3.

# 53 Hurt As Trains Crash

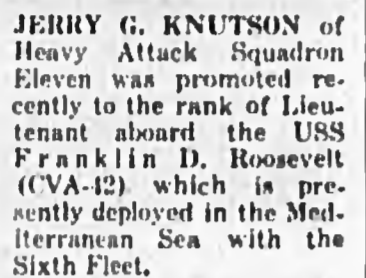

MACON, Ga. (UPI) — A fleet of Central of Georgia passenger trains skidded into a 35-car freight train just 200 feet from a passing track Monday night, injuring 53 persons, one seriously.

The scene of the accident was a small switch station at Griswoldville, 10 miles east of here, a virtual ghost town since the Civil War.

All but 22 of the injured were treated at Macon General Hospital and released early today. In serious condition with undetermined injuries was George B. Wheeler, 66, of Savannah, Ga., engineer of the passenger train "Nancy Hanks."

Albert Kelly Sr. of Macon, a crewman aboard the freight, said his train was speeding toward the passing track and a flagman had been sent ahead to warn the approaching passenger train.

He said warning "torpedoes, which resemble firecrackers and which a train passes over them, had been placed along the

## New Madison Square Garden Set

NEW YORK (UPI) — A new Madison Square Garden will be built on top of the city's huge Pennsylvania Railroad Station in a \$100 million project, it was revealed Monday night.

A 750-room hotel and an office building also were included in the project confirmed by the Pennsylvania Railroad.

The new Garden and other buildings, which will include convention halls and a restaurant, were scheduled to be completed by the time the World's Fair opens in 1964. The Garden would seat 25,000 persons and probably include an area to park 3,000 cars.

## Congress Assured Of SAC Power

WASHINGTON (UPI) — Gen. Thomas S. Power Monday reassured Congress on present Strategic Air Command power, but suggested that Russia may be speeding development of orbiting space weapons.

Chairman John C. Stennis, (D-Miss.), reported on Power's testimony after a closed hearing of the Senate preparedness subcommittee. Stennis said the testimony about U. S. striking power was "quite reassuring."

But he said Power's testimony "pointedly alerted us to the need for continuing our effort toward maintaining a 'second-to-none' military force utilizing both manned and unmanned weapons systems."

"Gen. Power clearly stated the problems of the present and the future regarding the Strategic Air Command, one problem being the possibility that the Russian might be accelerating their ability to orbit a satellite which could be used as a launching pad to launch earth-destroying weapons," Stennis said.

## Eleven Perish In 3 Accidents

By United Press International

Eleven men, women and children died in three automobile collisions Monday.

Two girls were driving a convertible in scenic west-central Wisconsin. Their car crashed head-on into a semi-trailer truck. The two girls and two men in the truck were killed.

A Wyoming couple with two relatives and a friend were driving on the Lincoln Highway in western Nebraska returning home from a family funeral. Their car was struck from the rear by another car and then a cement truck crashed into the wreckage. All but one of the five persons in the Wyoming car were killed. Nine persons were hurt, one critically.

Three more persons were killed in a Nevada accident.

## Art Demonstration Set In DeBary

Eugene White, artist in residence at the DeBary Mansion House Florida Federation of Art Headquarters, has scheduled another demonstration for Wednesday at 1:30 p. m.

His first demonstration at the Mansion House was held July 12 when he painted a landscape and small water color.

The instructional sessions are open to all persons interested in creative art.

## Business Briefs

Mr. and Mrs. Paul D. Boggs, whose home is on Naranja Rd. in DeBary, will open the DeBary Restaurant on Hwy 17-92 this week.

They have operated restaurants in Sarasota and in Veedersburg, Ind., where Mr. Boggs was a bridge engineer with the Indiana State Road Dept.

Home style cooking will be the specialty in the new restaurant with Mrs. Boggs featuring her own homemade pastries.

## New Austerity Set In Britain

LONDON (UPI) — British taxpayers get the bill today for the best years of their lives—the last decade of "Tory prosperity."

Chancellor of the Exchequer Selwyn Lloyd was expected to announce new austerity measures to cure what he called the "very, very severe" economic ills that have plagued Britain during the most prosperous years in her history.

Politicians, economists and Britons down to the man in the local pub almost unanimously predicted the chancellor would call for greatly increased taxes, higher bank interest rates, reduced government spending and possibly orders to keep wages and profits down.

In the decade since Sir Winston Churchill led the Conservative party back into parliamentary power, Britons enjoyed an unprecedented fattening of the average man's wallet.

# Cambodia Road Defects To Be Investigated

WASHINGTON (UPI) — Rep. Frank Clark (D-Pa.) was en route to Cambodia today to see the defects in the Cambodian-American friendship highway which he said were "improperly and unfairly" blamed on one of his constituents.

The highway, built two years ago as America's No. 1 foreign aid contribution to the Southeast Asian country, is falling apart.

Clark, who is traveling at taxpayers' expense, said in a statement announcing his departure that he planned to return later this week and make a report. He is making the trip as a member of the House public works subcommittee on roads.

His constituent is the Michael Baker Engineering Co., of Rochester, Pa., which performed the work on the highway.

A representative of the company was reported accompanying him.

Congressional investigators led by Rep. Porter W. Hardy Jr. (D-Va.) have been inquiring into charges that poor construction and engineering by the Baker firm and the contractor, A. L. Dougherty & Co., of Hammond, Ind., caused the trouble. The road originally was designed to cost \$15 million but more than \$20 million has been spent on it.

As Clark left for Cambodia, it was learned that the International

Cooperation Administration (ICA) has been holding talks with the Justice Department to see whether legal action could be taken.

ICA Director Henry R. Labouisse said in testimony released by the House Foreign Affairs Committee that the building of the road was a "very strong page"

in the history of the foreign aid program.

"I just cannot believe that something wasn't pretty undehanded," Labouisse said. "A road would not deteriorate this way. I think there may have been some negligence also on the part of ICA..."

Investigators say sections of the road have as many cracks as a sun-baked mud flat and are crumbling fast.

The administration has asked Congress for \$2.7 million to repair the road, and President Kennedy personally has ordered the ICA to give the project top priority.

# Kennedy Asks Congress For \$3.5 Billion To Beef Up Armed Forces

WASHINGTON (UPI) — President Kennedy today asked Congress for \$3.5 billion needed to step up U. S. military preparations for a stiff stand against Russia over Berlin.

The funds requested by the president will be used for additional manpower and equipment to increase the non-nuclear capabilities of American ground, sea and air forces plus extra civil defense funds to protect the civilian population should nuclear war begin.

The chief executive submitted to the House and Senate a brief, formal request for increasing the

Democratic and Republican congressional leaders promised today to approve President Kennedy's plan for a military build-up by next Tuesday as a show of united backing for a tough U. S. stand on Berlin.

Defense Department budget in the current fiscal year by \$2,454,600,000.

The White House estimated that of the extra funds, about \$2,740 billion will be spent before next July 1. Of the total request, \$751 million was for military personnel, \$743 million for operation and maintenance, \$1.75 billion for procurement and \$207 million for civil defense.

The president was assured of

speedy congressional action on his military buildup which he revealed to the nation Tuesday night in a dramatic radio-TV speech. He said that while the United States was prepared to negotiate a peaceful settlement, Russian policy necessitated preparation for possible war.

The steps he outlined included

doubled and tripled draft calls, the calling of some reservists to active duty and the buildup of vast supplies of non-nuclear weapons.

Much of his new budget request will pay for adding 217,000 men to the armed forces. Included in the extra funds was \$207 million for civil defense to prepare the nation "if bombs begin to fall."

The first Soviet reaction to the president's speech came from the official Tass news agency which declared this morning that his address was "an excuse to justify the arms race."

In presenting a stark picture of possible war over Berlin to his fellow countrymen, Kennedy said, "We do not want to fight, but we

have fought before." He called West Berlin "the great testing place of Western courage and will, a focal point where our solemn commitments and Soviet ambitions now meet in basic confrontation."

With the Communist threat stretching to other areas of the world, Kennedy said, it was necessary to increase military manpower and conventional weapons to give the West "a wider choice than humiliation or all-out nuclear action."

In a 21-minute speech carried from his office across the nation by television and around the globe by shortwave radio, the president spoke of possible war, but he also emphasized U. S. willingness to negotiate.

"We are willing to consider any arrangement or treaty in Germany consistent with the maintenance of peace and freedom, and with the legitimate security interests of all nations," he said.

But he also said, "We cannot and will not permit the Communists to drive us out of Berlin, either gradually or by force." And, "We will at all times be ready to talk, if talk will help. But we must also be ready to resist with force, if force is used upon us."

## Enlistments Extended?

WASHINGTON (UPI) — President Kennedy asked Congress today for authority to order up to 250,000 ready reservists for a year of active duty and asked authority until July 1, 1962, to extend enlistments and periods of active duty expiring before that deadline in any branch of the armed forces or the National Guard. This authority, too, would be limited to not more than 12 months.

The requested budget increase to add 217,000 men to the armed forces and equip them for non-nuclear fighting was contained in a relatively brief and formal amendment to the Defense Department budget. It was submitted in writing by the President.

Then Kennedy sent to Congress the suggested draft of a joint resolution authorizing him to order units and members of the ready reserve to active duty.

No more than 25,000 members of the ready reserve would be on active duty other than for training at any one time and without their consent.

The President, in gearing the nation to meet a world-wide Communist threat, announced Tuesday night that draft calls also would be doubled and tripled in coming months.

White House press secretary Pierre Salinger reported that public reaction to Kennedy's sober speech was "unprecedented" in the six months of this administration. Salinger said close to 1,000 telegrams reached the White House in the first 12 hours were overwhelmingly in favor of the President's stand.

The funds asked by the President would swell the total military budget to \$47,596,113,000 — the second highest in peacetime history.

## Castro Agents Seized In Canal Plot

NEW YORK (UPI) — The New York World-Telegram said today it had learned that Fidel Castro agents in Panama had been seized in a plot to observe today's 26th of July anniversary by dynamiting the Panama Canal and the U. S. embassy there.

The newspaper said it learned from "highly reputable sources"

in the United States and Panama that although most of the plotters have been arrested, the canal zone is on military alert status.

"Details of the fantastic plot revealed by American and Panamanian officials in New York and Washington were confirmed today by Rep. Daniel J. Flood, (D-Pa.), member of the House Appropriations Committee and a subcommittee handling defense appropriations," the newspaper said.

Castro extremists in Panama City planned to set off a "red night of terror" and violence, it was said, and bomb the American embassy, sabotage several locks on the canal, incite mob attacks on U. S. installations, assassinate anti-Communist officials in Panamanian government and stage riots all over Panama in the hope of keeping police and soldiers as busy as possible.

## War Fears Break Out Over Berlin

BERLIN (UPI) — Fear that war may break out over Berlin is beginning to grip East Germany and is causing a new groundswell of anti-Communism.

The East German Communist regime has acknowledged the fear exists. It is trying to counteract it but appears to be having little success.

The daily flow of refugees to West Berlin is one proof of the unrest caused in East Germany by Soviet Premier Nikita S. Khrushchev's threat to sign a peace treaty that will end Western rights in Berlin.

Many of the refugees want to be on the Western side of the Iron Curtain if trouble breaks out.

A close examination of the Communist press discloses that East Germans are openly expressing fear of war and are blaming the Communists for creating the situation.

The newspaper "Volkszeitung" in Leipzig, East Germany, said in an editorial: "You are at a loss of words when, for example, as in the party organization in the factory in Treben the view is expressed that there will be a war if a peace treaty is signed with the German Democratic Republic."

## Son Of DeBary Pastor Hurt

Word has been received in DeBary that Edgar Allan Scott, son of Rev. and Mrs. Damon Scott of the DeBary Community Methodist Church, was injured in an automobile accident which occurred sometime Tuesday in Miami and completely demolished young Scott's automobile.

He is listed in critical condition today at the Jackson Memorial Hospital where he is a patient in the Skages Bldg. Scott is a student at the University of Miami.

## Congo Parliament Opens Session

LEOPOLDVILLE (UPI) — The Congolese parliament has held its first session in nearly a year, the United Nations announced today.

## FBI To Charge Latin Gunman In Hijacking

MIAMI (UPI) — The FBI today will charge a slim Latin gunman with theft of an aircraft kidnapping and assault in the hijacking of an Eastern Air Lines passenger plane with 37 passengers and crewmen on board.

The federal agents said they would go before a U. S. commissioner to place the multiple charges in absentia against Jose Marin later today.

The plane's five crew members and 32 passengers returned here from Cuba Tuesday aboard a Pan American World Airways plane. But Premier Fidel Castro kept the \$15 million Electra and Marin.

The FBI described Marin as about 35 years old, five feet nine inches tall and weighing about 160 pounds, with an olive complexion and dark hair. They said Marin may not be his real name but indicated he had lived in this country about 18 years.

Marin will be charged specifically with theft of an aircraft in foreign commerce, kidnapping the plane's pilot, Capt. William E. Buchanan, assault to commit a felony, and assault with a deadly weapon.

Many of the passengers who returned Tuesday wore Cuban straw hats and brought with them boxes of cigars and bottles of rum purchased at the Jose Marti Airport in Havana.

Mrs. William Cohn of Coral Gables, Fla., said the Americans were "treated wonderfully" during their two-day stay in Cuba. "We didn't even have to pay for the hotel," she said. "It is just an experience you don't get every day."

AIR FORCE Capt. H. J. Hynes, steps from the F102 fighter plane, in which he chased a hijacked Eastern Airlines Electra to Cuba, at Homestead Air Force Base. The commercial airliner was hijacked shortly after it took off from Miami en route to Tampa.

## Sanford Suppliers Protest Bid Specifications

Local office suppliers Tuesday afternoon followed up their letters of protest on specifications for office furniture for the new county jail by objecting in person to the County Commission.

Earlier in the day, the board heard letters from Gordon Sweeney and Sonny Powell stating that the specifications were "discriminative" and "restrictive."

During the morning session the board agreed to call in the suppliers for an afternoon conference. At that time, the local mechanics claimed that the specifications for an outside desk and a special type filing cabinet were restrictive and unusual and prohibited the filing of a single bid on all equipment as specified in the call for bids.

Deputy Jim Singletary said that

Sherrif J. L. Hobbly, presently out of town, was the only one who could be consulted on the changing of bid specifications.

The commissioners voted to let the specifications stand as originally advertised and re-advertise for the same equipment, despite the objections of Sweeney, who pointed out that to do so changed nothing and merely delayed the

ordering of the equipment. An out of town supplier, Bishop of Bishop Office Supply of Orlando, countered the local suppliers' charges with the assertion that his bid covers all the equipment, exactly as specified and that he would guarantee every piece of equipment as being of finest quality and declared that it was not premium-priced.

By LARRY VERSHEL

Poling the City Commissioners after Monday's night meeting revealed that the city would be paying an additional \$5,000 a month for the city's new clock tower. The reason for the increase is due to the fact that the tower is being built on a site that is not level.

The courtroom in the courthouse won't be air conditioned for quite awhile yet. Last week the county commission okayed the air conditioning project but Tuesday, District 2 Commissioner Ted Williams said that the cost would be too high at this time and recommended that the needed funds be put in next year's budget.

If you see about 15 guys working on the roads in what appears to be space like uniforms—don't worry—it's just that the County Commission agreed to purchase 15 safety vests for county road workers working in heavily congested areas. Cost per vest—\$3.50 each.

Speaking of the County Commission—it's been quite a week for them but at least they'll get away from the stuffy vault for awhile. The board has been meeting in the vault in the courthouse basement to probe the new budget. They met for four hours last Friday and for more than six hours Monday.

However, Thursday they will hop a flight to Atlanta to meet with Federal authorities on why planning funds for this county were turned down. Greyhound Bus Co. will start routing its buses using First and Third St. instead of Park Ave. next week.

Although a public hearing is scheduled Aug. 14 on revoking the license for the Palma Hotel, we hear that it won't be necessary. Looks like the state is clamping down on the hotel and it is reported that if the hotel wants to stay in business it must make repairs estimated at close to \$20,000.

The Junior Chamber of Commerce tourist information center on French Ave. must be a busy place. Last year the building handled 3,500 inquiries ranging from "how is the employment picture here" to "what kind of town is this."

## Deputies Raid Two Taverns

The Sheriff's Office and State Beverage Agents cracked down on two taverns Tuesday night and early this morning and rounded up four persons in violation of state beverage laws, deputies reported.

Deputies raided Duffy's Tavern on Hwy. 17-92 and arrested Richard Vico for permitting the sale of alcohol to minors and Anna Bell Graves for selling liquor to minors.

Both were released under \$500 bond each. Early this morning, agents raided Annetta's Tavern and arrested Doris Adams for permitting the sale of alcohol to minors and Thomas Whitley for selling to minors.

Both Mrs. Adams and Whitley were released today under \$500 bond.

## Sea Scouts Schedule Meet

Members of Sea Scout Ship 308 will meet from 7 p. m. to 9 p. m. today at the Fleet Reserve building on Seminole Blvd. Main item on the program will be a lecture on navigation. The Sea Scouts will with east Thursday to raise funds for their activities. They will wash cars from 8 a. m. until 6 p. m. at Kniffin's Texaco station at the corner of French Ave. and 25th St.

## Suit Filed

MONTGOMERY, Ala. (UPI)—The Justice Department today filed suit to desegregate the airport facilities at Dannelly Field, the municipal airport here.

## 'Everyone's Business, Health Director Says

The County Commission, by a 4-1 majority vote, Tuesday afternoon agreed to submit the County Health Department's budget to the County Medical Society's Public Health Committee for study and recommendations.

District 4 Commissioner Vernon Dunn opposed the move saying "I feel our health director is qualified to know what he needs in his budget."

Dr. Brothers, when told of the commission's decision, today, said that "public health is everyone's business and I would be happy for them to scrutinize the budget all their life."

Health Director Dr. Clyde Brothers submitted his 1961-62 budget three weeks ago asking for an increase of some \$15,000 to operate his office and requesting the department's mill levy be raised from 12 to 20.

In his budget, Brothers asked for \$8,000 in additional funds to operate his department; \$4,000 more to hire a public health nurse and \$3,000 for additional salaries. District 3 Commissioner James P. Avery suggested that the doctors scrutinize the budget, saying, "I can't see any harm from getting this learned medical opinion—we might get some fine ideas."

Chairman J. C. Hutchison suggested that the budget be submitted to the doctors as soon as possible. "We must get started at once on these budgets," Hutchison advised.

## Youngster Found After Being Locked In Trunk

A three-year-old youngster was found early this morning by law enforcement officers after he was locked in a car trunk for more than four hours.

The youngster, Scouter Hylman, apparently had been playing near a neighbor's home on Summerlin Ave. and opened the trunk of the car—locking himself in.

The boy was reported missing at about 8 p. m. and was found by officers at a little after midnight. Police said the youngster was in good condition.

## Commission Defers Plat Law Action

For the second week in a row the County Commission Tuesday deferred action on a resolution to strengthen the county's plat laws after District 3 Commissioner James P. Avery said that the new enforcement would be a violation of an individual's right to appeal.

Avery protested that persons in violation of the law only would have 10 days to file an appeal with the commission. The resolution cites the obvious efforts on the part of certain parties to circumvent and ignore the county's plat law and says that such efforts must be stopped and eliminated.

The resolution orders the zoning director not to issue building permits to any individual who appears in intent to break or violate a portion of the law and allows only a 10 day period to file a petition protesting any action by the zoning director.

In other business, the board agreed to look into improvements at Cameron Park.

## McCloy, Nikita Open Talks

MOSCOW (UPI) — Soviet Premier Nikita S. Khrushchev met on the balmy shores of the Black Sea today with John J. McCloy, President Kennedy's top disarmament expert.

## 10:30 ... Car Missing; 10:40 ... Car Wrecked

At 10:30 p. m. Tuesday the Florida Highway Patrol received a report that a car had been stolen in Lake Mary — 10 minutes later, the Highway Patrol got another call that the car was wrecked. Trooper J. L. Sikes said that the automobile was owned by E. W. Smith of Lake Mary who reported his car missing. Later the car was found at Five Points off Hwy. 17-92, wrecked. Estimated damage to the vehicle, according to Sikes, was \$75.

Sikes also reported that at 5 p. m. John Fortune of Park Ave. apparently lost control of his car on Lake Mary Rd. and turned over. Damage was estimated at \$200 and Fortune was charged with speeding too great for conditions.

## Avery Recommends Special Districts For Improvements

County Attorney Mark Cleveland Jr. Tuesday was authorized by the County Commission to check the legality of establishing special improvement districts in Seminole County and arresting the property in the districts to pave roads or install street lights.

District 3 Commissioner James P. Avery suggested that Cleveland look into the matter after Avery read a petition from some 400 residents of the Mobile Manor area in South Seminole saying that they are willing to be taxed if they can get a road paved.

"We can't put in our budget all these roads that need paving in the county, and this would be one way we could solve these residents' problems as well as our own," Avery said.

He emphasized that if residents really want improvements in their areas they certainly won't mind slight tax increases.

In other business Avery also asked Cleveland to look into the matter on whether the county has the authority to set aside funds for non-profit libraries in the county.

Avery, with reference to the Altamonte Springs Library said "these people have worked hard to set up their facility and maybe the county could help them."

## Courthouse Roof Meet Set Tuesday

The County Commission Tuesday afternoon agreed to meet with contractors next Tuesday night to discuss the re-roofing of the courthouse after earlier in the day the board received no bids for the job.

The purpose of the meeting Tuesday will be to determine whether or not the specifications called for were "restrictive."

Following the meeting on Tuesday, the bids will be re-advertised and Hal Harris, architect who drew up the specifications on the re-roofing was instructed to contact all roofing contractors in the area and invite their bids.

Harris told the commissioners that he was at a loss to explain the absence of any bids on the job. Commissioner Ted Williams wondered aloud if business were so good in the area that no work was needed.
