The Church is the greatest factor on earth for the building of character and good citizenship. It is a store-house of spiritual values. Without a

strong Church, neither democracy nor civilization can survive. There are four sound reasons why every

person should attend services regu-lerly and support the Church. They are: (1) For his com sake. (2) For his children's sake, (3) For the sake

of his community and nation. (4) For the sake of the Church itself,

which needs his nared and materia support. Plan to go to church regu-larly and read your Bible delly.

more than others? Just about everything these days comes in a variety of sizes, types, and prices, and drycleaning is no exception. In the low-price range cleaning can be done in coin-operated machines with the customer doing the work herself. Or you might find a drycleaner who offers the same "clean-only" service in a professional plant, selling it for a comparable price. Neither service includes spot removal or finishing. Most spots don't

come out in drycleaning and must be removed by a But prices vary even in the complete conventional drycleaning services different cleaners offer. The complete service means your garments are inspected and classified as to fabric type and shade, prespotted if necessary, drycleaned under professional supervision for controlled periods of time, dried under proper conditions for each fabric and garment, spotted after drycleaning if necessary, finished and shaped, packaged on hangers or in boxes with plastic or paper covering. Sometimes they are picked up and delivered at your door. Believe it or not, this is the minimum of work required to give your garments complete professional care.

House armed services subcommittee
was excellent and convincing.

Behind Heriong was a group of
Seminole County men who supplied
him with facts and figures proving
it is economically feasible to keep
the Navy in Sanford.

This group, headed by Sen. Mack
N. Cleveland Jr., did a tremendous
job. It went to Washington Jan. 28
and worked with Congressman Herlong for two days prior to his presentation.

sentation.

The Seminole delegation attended the opening hearing last Tuesday when the Department of Defense made its case for moving the facility to Turner Air Force Base, Georgia. The delegation provided Heriong with some strong rebuttal and some

fense Department.

The Defense Department's case proved surprisingly weak and Herlong, aided by these men from the Seminole County Chamber of Commerce, came on loud and clear.

The whole episode had the effect of making Secretary of Defense Mc-Namara look rather ridiculous.

We feel certain that the Congress is going to force the Department of Defense to take a second look at its

doing.
McNamara's justification for clos ing the base did not and will not stand up under close scrutiny.

The justification report made by
the Seminole County Chamber of Commerce was much more factful and very convincing. We believe we have the truth on

our side. We believe we have the committee on our side. We believe Congress will be on our side. We hope Mr. McNamara will rec ognize this and realize the error of his ways in including Sanford Naval Air Station on his closing order. Again we compliment Congress-man Herlong, Senator Cleveland, John Krider, Andy Carraway and A. K. Shoemaker for their hard work.

Thought For Today And Joseph remembered the dreams which he had dreamed of them; and he said to them, "You are spies, you have come to see the weak-ness of the land."—Genesis 42:9.

One of the most tragic things know about human nature is that all of tend to put off living. We are all dreaming of some magical rose over the horizon-instead of enjoying the roses that are blooming outside our windows today. — Dale Carnegie, American biographer and writer.

integral part of standard American bidding and used by nearly all American bridge players. There is one glaring exception. The top playes don't use it. In the recent team trials 35 of the 36 pairs used weak two bids; the other pair used ACOL two bids. All 36 used the opening two clubs as an artificial forcing bid. These experts have found that weak two bids are ef-

fective and that the artificial two club opening fully handles all forcing situations.

an immediate meeting of the United Nations Security Couneil in a new effort to bring the Vietnam war to the conference table.

The Chief Executive made the request during a brief, televised report to the nation on his decision to resume U. S. bombing raids on Communist North Vietnam. Johnson said resumption

of the raids, which had been suspended since last Christmas Eve, was necessary because of continued Communist aggression. He said the United States

and others working for peace had met only continued violence and continued aggres-

ernment, Johnson said, "It is plain that there is no readiness to talk-no readiness for peace-in that regime today. "The end of the pause does not mean the end of our own pursuit of peace," Johnson said. "That pursuit will be as as the pressure of our mil. tary strength on the field of

But the President said that in view of continued Communist violence against South Vietnamese and American forces, any further extension of the U. S. bombing pause might have led to a great of the Communist to South Vietnam.
