

WORLD FLIERS QUIT MOSCOW 10 HOURS LATE

Pangborn, Herndon Expect, However, To Make Up For Time Lost On Map So Far

(By The Associated Press)
MOSCOW, July 31.—(A.P.)—Crews Pangborn and Hugh Herndon on a world circling trip stopped here five hours today, then roared away toward Siberia planning the next stop in Irkutsk. They are nine hours and 58 minutes behind the time of Post and Gatty at Moscow, while yesterday at Berlin they were 31 hours and 26 minutes behind. They hope to get ahead of the Post and Gatty record on the flight from Irkutsk to Nome, Alaska.

Berry Growers In Sarasota, Manatee Counties Confer

SARASOTA, July 31.—Representatives of the strawberry growing industry in Sarasota and Manatee counties heard the subject discussed in all of its phases by experts on the subject at a meeting of growers and farmers of the two counties yesterday afternoon at the Chamber of Commerce auditorium. The meeting was presided over by the representative of the chamber committee on agriculture, E. A. Smith, president of the Sarasota County Chamber of Commerce.

The discussion was opened by R. K. Thompson of the Palmer corporation. Mr. Thompson outlined in detail the history of strawberry growing in Sarasota county. Three years ago, Mr. Thompson said, it was conclusively demonstrated that berries could be grown successfully here. Due to the fact that a sufficient acreage to insure carload shipments was not under cultivation, the undertaking was abandoned. To insure a steady supply of berries, Mr. Thompson said, it is necessary to have a sufficient acreage under cultivation to have carload shipments to take advantage of the northern market. In closing his remarks, he urged that Sarasota county farmers put in at least 150 acres to strawberries.

NEW YORK UP IN ARMS OVER CHILD SLAYING

(Continued From Page One) Bruno of the Bronx. More delving into records revealed that Bruno was known to police circles as a beer runner—formerly associated with "Dutch" Schultz.

"Bring Bruno to me," was Mulrooney's next command. To this end a dozen detectives went into the Bronx but without immediate success. Bruno was not at his home and nobody there could say where he was or where he had been at sunset Tuesday.

The commissioner called his deputies into a conference. Their discussion was secret and its first result was the dispatching of several scores of detectives and a half a hundred patrolmen, their uniforms changed to plain clothes, into the neighborhood to try to break down the silence that had spread over the Sicilian community.

Each of the officer's spoke Italian. His special job was to listen—to pick up any scrap of conversation which might furnish a lead for other detectives to follow.

The twenty-four hours had yielded no word from the hundreds who, driven from their shabby and stifling homes, were in the street when the gunmen rolled through on their death spree.

"We have met a typical Sicilian reception in every move to trace the murderers," Mr. Mulrooney declared. "We've got to break their silence."

The street was lined with its residents, he declared, when the gangsters opened fire. Shouts leaned from the windows, yet none would admit seeing or recognizing the car's occupants.

To ballistic experts, the commissioner last night deigned the difficult task of drawing possible clues from flattened slugs found in the street. There was little chance of progress in that quarter. The bullets were all fired from shot guns and automatics, however, and not from machine guns as first reported, the experts agreed.

While the police were conducting their search, two newspapers posted rewards of \$15,000 for information leading to the arrest and conviction of the killers. One (The American) offered \$10,000 and another (The World-Telegram) offered \$5,000. Governor Franklin D. Roosevelt, at Albany, commented that

Boardman's Plane Has Landed Safely In Istanbul, Turkey

(Continued From Page One) from London to Tokyo. News that the two trans-Atlantic planes had landed was the first word received from them since their takeoff. Both had been reported battling thick fogs over the ocean.

CARDIGAN, Wales, July 30.—(A.P.)—Prevented by fog from making Moscow the first stop of their projected round-the-world flight, Hugh Herndon, Jr., and Cyril Pangborn, American aviators, brought their plane safely down at 7 o'clock last night on a sloping farm field at Moyfergrove, five miles from here, after a successful trans-Atlantic crossing from New York.

The ocean crossing was made difficult by persistent fog all the way, and the fog forced the aviators down when they still had a supply of fuel sufficient for eight hours more of flying.

Meanwhile, no word was heard from the other American trans-Atlantic plane, piloted by Russell Boardman and John Polando, who took off from New York at almost the same time as Herndon and Pangborn.

New York Cops Hold To Shoot Books On Sight

(Continued from Page One)

They refused to say what the nature of their secret mission was. Early plainclothes men who yesterday night were sent out to Joseph Raol, alleged ally of Schultz in underworld activities, had not yet been recalled. Importance was attached to the information to police headquarters during the day of John and Michael, whose 3-year-old victims. The wife of a bookkeeper who witnessed the shooting reported to have told Mrs. Ravilaqua she could identify all the men, but has since refused to do so.

Police Commissioner Mulrooney, talking to 1200 members of the department at a mass meeting, added the shooting "a dastardly killing and maiming of children," and told his men: "In the first six months of this year the police have killed 16 racketeers and holdup men and wounded six, but apparently this is not enough. I don't want you to exhibit any hesitation when you come upon a man known to be a racketeer. Don't be the last on the draw. If it should happen we know who is responsible for the 107 th street killing and we should come upon him, have no hesitation in giving it to him, and giving it to him above the waist. If I meet him I will not hesitate."

Mayor Walker told the bluecoats to "call on the Almighty to give you superhuman power to bring to justice the dogs responsible for this killing." Meanwhile, the wave of indignation over the shooting was growing. It was branded outrageous and heinous from the tenements of the east side to the governor's office.

A. J. Engelman, former secretary of the cooperative board of safety, in a letter to Commissioner Mulrooney, charged police methods as antiquated and urged that "authorities bring their methods of battling for law and order up to a scale far superior to those used by gangsterdom in overthrowing them."

Charles Francis Coe, writer, made a radio appeal urging citizens to send concerted demands to congressmen, and senators, insisting that the control of gangs "be made a federal job."

In a telegram to President Hoover, Rep. Representative Andrew J. Somers, Democrat of the sixth congressional district, called the "shooting orgy" an "eloquent evidence of the benefits of prohibition."

Meanwhile, in a second-floor apartment near the scene of the shooting, neighbors and friends paraded past the coffin in which lay Michael Venneghalo, who died a few hours after the gunman's attack. Out on the street two of the four children who had recovered sufficiently to leave the hospital were proudly displaying their bandaged wounds to playmates.

Bethlehem Cuts Stock Dividend Fifty Percent

(Continued from Page One)

Bethlehem directors ordered a quarterly dividend of 50 cents a share on the common stock, against \$1 paid in the previous quarter. At their April meeting they had reduced the boom-time quarterly payment of \$1.50 to \$1. In contrast to Tuesday's action of the United States Steel corporation directors who slashed their boom-time quarterly common dividend from \$1.75 to \$1, when a disbursement of \$1.25 was being widely predicted, the action of the Bethlehem directors was, if anything, more favorable than anticipated.

Bethlehem's quarterly earnings statement was also more favorable than widely expected. Earnings amounted to \$1.46 a share on the 7 percent preferred stock, on which the regular quarterly payment of \$1.75 was ordered. United States Steel, on the other hand, actually earned from operations only 6 cents toward its quarterly payment of \$1.75 on the preferred. Net income for the second quarter of this year was announced at \$1,482,743, the lowest since the third quarter of 1924. It compares with \$1,941,942 in the preceding quarter, and \$7,691,495 in the like period of last year. Charges for depreciation and depletion were little smaller during the second quarter, amounting to \$3,180,275, a reduction of \$637,506 from the similar charge-off in the first quarter.

Total income, after costs but before interest and depreciation charges, amounted to \$6,294,667, as reduced from \$7,551,997 in previous quarter, and \$13,025,558 in the same period of last year. The net income was \$297,257 less than the preferred dividend requirement. Provision for the 50-cent common dividend in addition left a deficit of \$1,897,257 to be taken from surplus. Net income for the entire first half of the year amounted to \$3,394,685, or \$3.39 per share of preferred stock. After payment of both preferred and common dividends for the six months, this left a deficit of \$4,905,315 to be taken from surplus.

3 Persons Survive Hardships Arising On Desert Journey

NOGALES, Sonora, Mexico, July 31. (A.P.)—Four unmarked graves in the shifting sands of the Mexican desert and the incoherent jabbering of three men yesterday wrote another tragic chapter in desert history begun by the Argonauts of 1849.

Seven persons, including a woman and her seven weeks old daughter, left here five days ago by automobile stage for Mexicali. Three are alive, two of them insane from thirst and heat. Bands shift over the graves of the others. The stage broke down under under terrific heat 250 miles from the nearest habitation. Day by day they waited for help. Their water and food supply diminished. The desert became torrid. In desperation they set off down an ill-marked trail at foot.

The infant, Consuela Ojeda died first in her mother's arms. Overcome by thirst, Mrs. Rufina M. Ojeda, the mother, crumpled by the trail still clutching her daughter's body. The men struggled on but first Jesus Orantes, then Ramon Orantes, dropped by the wayside. Jesus Ojeda, father of the infant; Vicente Gutierrez, and his son, Vicente, Jr., trudged a mile but became exhausted and they sought shelter under mesquite grasswoods. Sunday, Austine Pino, Mexicali businessman, found the abandoned stage. Miles farther he discovered the bodies of the woman and child. Next he found the Orantes over whose bodies huddled Ojeda and Gutierrez, mad from their experience.

German Dirigible Arrives In Berlin After Arctic Trip

BERLIN, July 31. (A.P.)—The Graf Zeppelin, Germany's widely traveled dirigible, landed at Tempelhof airbase yesterday evening from its Arctic cruise amid the lusty cheers of thousands of Berliners.

As soon as the landing crew had hauled the ship down to the ground, a band burst into "Deutschland Uber Alles" and the 45 men who made the trip paraded to set foot on land for the first time since the Graf stopped at Leningrad on its way to the north. Among the group were a

number of scientists, including two Americans. Commander Eckener related over the radio some of the experiences of the journey. "It was a splendid and highly successful cruise," Dr. Eckener said. "I hope this cruise will have a two-fold result, namely, that we may soon make another journey to the Arctic, when we get the necessary funds together, and that the Graf Zeppelin will become a favorite with tourists who feel the call of the north."

Advance In Prices Of Cigarettes Has Precipitated Quiz

WASHINGTON, July 31. (A.P.)—A simultaneous advance in the price of popular cigarette brands has precipitated an investigation by the anti-trust division of the justice department to determine if price fixing in restraint of trade is involved.

Although formal announcement was withheld, it was disclosed in high official sources yesterday that the inquiry had been in progress for several days. It could not be determined at this time, officials said, whether

action would be taken. Four of the world's largest tobacco firms are involved in the litigation. The P. Lorillard Tobacco company, the P. Lorillard company, Liggett & Myers, and the R. J. Reynolds Tobacco company. On June 24 all four firms announced almost simultaneously that the price to jobbers of their popular brands would be raised 45 cents a thousand. The price charged by all four was set at \$6.85 a thousand. It was learned that no complaint had been made to the department concerning the price raise, but that anti-trust division lawyers had become suspicious of a possible agreement to fix prices when all

four firms acted in concert. Anti-trust officials declined to discuss what, if anything, they had learned thus far. WIGGIN TO STUDY FINANCES NEW YORK, July 31. (A.P.)—Albert H. Miami Factious Protest Against Building Island

(Continued from Page One)
It would be used as an anchorage for large yachts. A. J. Cleary, president of the corporation, and W. M. Ward, its attorney, also spoke in favor of the project and filed briefs.

The resolutions presented from the two Chambers of Commerce were alike in wording. W. B. Leddy spoke for the Miami Beach organization and Capt. Clark D. Stearns spoke for the Miami chamber. Both pointed out that the Orleans Corporation project, if consummated, would seriously interfere with further widening of the present ship channel, because of the present ship channel with 200 feet of the present southern limits of the channel. The channel can be widened only by extending it southward, as the north line is bounded by the county causeway. Captain Stearns, a retired Naval officer, enlarged upon this theme from the standpoint of a marine authority, declaring that presence of the island just inside the harbor entrance would impair construction ultimately of a great aviation center and would, in fact, be wholly undesirable for a yacht anchorage, anyhow.

Mr. Sewell outlined 14 reasons why he opposed construction of the island, among them being the fact that adequate yacht anchorage is available elsewhere in Biscayne Bay in places that do not interfere with harbor development plans; that the Orleans Corporation proposed to dredge to only 12-foot depth between the present channel and the proposed island; that the proposed island might be used for warehouses, oil tanks and other unsightly buildings or structures that might detract from the island to the mainland might follow to the detriment of shipping; that instead of building more islands in the bay, the present spoil banks paralleling the channel should be removed.

No protests were received from other sources, and proponents of the project contended that the island for the most part was already above water, and most of the work would consist of bulkheading. The Peninsular Terminal Company, the Florida Power and Light Company and the Southern Bell Telephone and Telegraph Company filed appeals that the Orleans Corporation be required to furnish bond in an amount sufficient to indemnify them for any damage which might accrue because of the island's construction.

HERBES NUMBER 156

PARIS, July 31.—(A.P.)—One hundred and fifty-six Frenchmen lost their lives at Yorktown fighting for the cause of American independence instead of only 62 as previously listed at Washington.

Twins Death Victim

BALTIMORE, July 31.—(A.P.)—Death of the second "Siamese twin" yesterday brought an end to one of Baltimore's strangest medical cases.

Dorothy Forster, the surviving one of the pair, died at the Mercy hospital, where she and her sister Mary were born July 7, to Mrs. Albert Forster. Mary died last week.

Death came to both of the children when they were reported to be gaining strength for a second operation, planned to restore them to normalcy.

When born, Mary and Dorothy were joined by a common intestinal tract. It was severed and the baby girls reared by one of the two mothers. They were normal, four and a half pounds in weight, except for the common intestinal tract, and the "second operation" had been planned to place the tract in its proper position in 1927.

ATLANTA, July 31.—(A.P.)—A substantial gain in contract awards was recorded in the sixth (Atlanta) federal reserve district in June over May, the monthly review of the district issued yesterday shows.

Total value of buildings for which permits were issued last month at 20 reporting cities amounted to \$1,814,593.

Weather conditions have been unfavorable in most parts of the district, but July estimates by the United States department of agriculture, indicate increases of cotton, wheat, oats, hay, white potatoes and fruits. A substantial decrease in tobacco was indicated.

Cotton acreage is 3.3 percent smaller than a year ago, and fertilizer tag sales from August through June have been 30.4 percent less than in that part of the preceding season.

Retail trade was 2.6 percent and wholesale trade 18.2 percent smaller than in June, 1935. Retail trade averaged smaller in the first six months of 1935 than during a corresponding period last year.

MARTIAL LAW IN HANKOW

We've counted the number of times food is delivered to our stores. The stores we checked up on were receiving new supplies of fresh groceries sixty-two fifteen a week—about once every hour.

Of course, some stores get fewer deliveries. Just as others get more. But all of our stores receive new supplies so often that their food simply has to be fresh.

Local Agencies Of Red Cross May Aid In Unemployment

WASHINGTON, July 31.—(A.P.)—Local Red Cross chapters may cooperate extensively with other agencies in unemployment relief this winter.

This prospect appeared yesterday when it became known that requests for the attitude of national headquarters toward such participation had been received and that officials regard the decision as one for the local chapters to make.

National headquarters is barred under its charter from participating in unemployment relief. Heretofore, most local chapters have adopted the attitude of the central organization, although a few have done general relief work. The queries, however, are from chapters, some of them in the large cities, which previously had viewed the situation growing out of the industrial depression from

the standpoint of headquarters. Judge John Barton Payne, national chairman, said yesterday the ban on assisting in unemployment relief was not regarded as extending to cooperation in such work by local chapters.

He added, however, that consultations with local chapters were still going on and that officials would insist that they should not pledge the national organization in any way.

He emphasized that the work local chapters may do does not mean a change in viewpoint on the

part of headquarters. Chairman Payne said indications of a change in attitude on the part of local chapters had not been numerous.

The majority of the funds of the Red Cross, aside from reserves, is in the hands of the local chapters.

OH YEAH?

By PETER SCHAAL

At least the Feds went down in the pitching duel and not the usual way attributable to a brace of errors. Yesterday the Parkers defeated them 2 to 1, only after a great hurrying duel between Al Rogers and Joe Chubb. It was one of the fastest games played this year, being done in one hour and thirty five minutes, and the Feds got four hits to the Parkers' six.

The Cocoa outfit staggered through an alleged game with the Islanders, who were also as shocked as they ever have been, by the score of 9 to 6. It was a game in which 45 errors were chalked up with equally as many not scored because it would have been a shame to put them down. Price, Hinton and Everett did all the Indian hitting, while Hutto and Pert starred for the Islanders.

Over at DeLand, that team and the Saints also engaged in a comedy of errors from which the DeLand outfit emerged victorious by an 8 to 7 score, only because Link Blaby was able to hold the enemy at bay when he went in with the bases full and one out in the ninth. Roberson, Beck, and McGowan found their batting eyes, but blasted the offerings of three Saint hurlers to the far corners.

The wins and losses in the league yesterday today find three more, the Delanders, the Indians, and the Islanders in a three way tie for first place, Sunday that tie can be split into a two-way one, Daytona plays at Sanford, St. Augustine at Cocoa, and DeLand at Winter Park.

Only four games were played in the big show yesterday, two in each league, because of the fact that teams were traveling back to their own parks there to begin new series with other invaders. In the American, the Athletics swept on to new honors, defeating the Browns 8 to 0 with ease. Waite Hoyt won his fifth game since becoming a

Mackman, and let the Browns off with nine hits. The Macka got 15 off Gray and Coffman, including two homers by Cochran. Burns and Golin hit homers too.

The Senators managed to keep atop with the Macks by winning a 6 to 1 game from the Indians. It was the first game Fischer has started and finished in weeks, and he let the Indians down with five hits. Sammy West hit a homer with two on in the fourth.

Oh Yeah, having learned that a rumor which he had heard concerning Pitcher Atkinson of the Cocoa Club was entirely without foundation, hastens to make a correction of a resume of a recent Sanford-Coc. game in which that player was referred to as a "former pitcher for the Halford penitentiary team". That information, now established as being untrue, was given us at the game, and it was repeated in this column, not intentionally in a disparaging manner, but merely as a side comment. The man mentioned, since his appearance in Central Florida Baseball circles, has established a reputation as a sportsmanlike and clean-cut athlete of which many players could well be proud. His pitching performances have at all times been models of play, and he is without doubt one of the mainstays of the Cocoa Club, now deservedly in the leading position as second half champions.

The Cards stepped out in front by nine full games when they defeated the Cubs 10 to 3 in nine long innings. It was Grimes' 13th win of the season, but he had great help from Collins and Adams. Collins got four hits, including a double, homer, and two singles. As an added feature, Frankie Frisch, who has been out of the game for weeks because of a leg injury, was ordered from the game for arguing over the ump's decision.

Larry French held the Giants to four hits and shut them out by a 9 to 0 score as his mates battled Chaplin, Morrell, and Schumacher hard. Grantham, L. Waner, and Jensen led the attack, and the Pirates scored early and often. The Giants also lost the services of their speedy outfielder, Mel Ott, who injured his shoulder while going after a fly ball, and may be out for two weeks.

FED ERRORS AID IN 2 TO 1 DEFEAT BY WINTER PARK

Great Pitcher's Duel Is Lost By Sanford As Errors Come Across

By E. H. CULLUM
Sanford's Celery-Feds went down to a 2 to 1 defeat yesterday afternoon at Winter Park in a pitcher's duel staged by Tige Minor for Winter Park and Al Rogers of Sanford.

For four innings both pitchers had complete control of the situation and neither team could produce the necessary scoring punch. In the fifth inning, Sams, first up, hit a long fly to left field which was good for two bases; Higgins singled, which, by-the-way, was his second successive hit, same going to third. Higgins out attempting to steal second. Deetch hit a long sacrifice fly to center, scoring Sams. Rogers flew out in the inning.

In the seventh inning, Mosely, catcher for Winter Park, first up, grounded out. Deetch to Peters; Minor hit a line drive to center field good for one base. Rogers, playing for Minor at first threw the ball away. Minor going to second; Hall hit a high fly to left field; Harrison, who was playing deep, came in, fast and caught the ball; however Harrison lost his balance as he made the catch, Mosely's coming into contact with the ground, causing him to drop the ball; before the ball could be relayed to the plate Minor had scored, tying the game into a hard knot. Gufford fouled out to Schirard; Tinker walked, stole second. Chubb doubled to center, scoring Tinker; Chubb caught off second for the third out.

In the eighth inning, Minor, who had already pitched practically shutout ball for the entire game, bore down in earnest, striking out Deetch, Rogers and Harrison in succession. In the ninth Schirard popped out to first; Britt, batting for Peters, out on three strikes, the last one, which seemed to be rather low, called on him. Martin flew out to center, to end the game, with another loss chalked up against Sanford.

It was a hard fought game from start to finish, both teams putting forth their best efforts to cope, and it was a heart-breaking game to lose, especially as Rogers let his former team mates down with only four hits. Double plays on the part of both teams featured in the game.

STORM DESTROYS CAMPS

BRIDGETON, Me., July 31.—(A.P.)—A violent windstorm which residents said was of tornado strength, ripped through this village tonight, uprooted large elm trees, tore out a 10-foot section of concrete sidewalk and destroyed all the sleeping tents at three summer camps in the vicinity.

HOLLYWOOD—Facade additions to beautify Sea Breeze Hotel, northwest corner Van Buren St. and 19th Ave., will be underway soon.

Seminole Laundry Girls Beat Grocery Girls 30 To Three

By E. H. CULLUM

The Seminole Laundry girls team slaughtered the Piggy-Wiggly girls last night 30 to 3. In the first inning neither team was able to score. However, in the second, the Seminole girls got down to business, putting over nine runs in this inning, and from then on it was simply a matter of just how many they could pile up before the game was over.

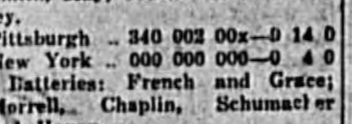

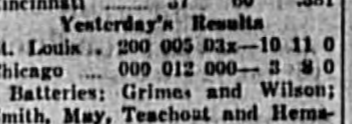

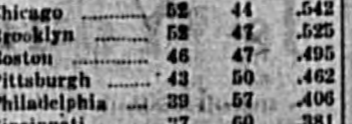

The Piggy-Wiggly girls were not able to come through until the fifth inning, when they scored their three runs.

This was the first time the P-W girls had ever played together as a team, and although the score

News Comedy Caricatures Saturday

BRIDGETON, Me., July 31.—(A.P.)—A violent windstorm which residents said was of tornado strength, ripped through this village tonight, uprooted large elm trees, tore out a 10-foot section of concrete sidewalk and destroyed all the sleeping tents at three summer camps in the vicinity.

CONVICTS IN FATAL FIGHT

JOLIET, Ill., July 31.—(A.P.)—Two negro convicts battled on the fifth floor catwalk of the west cell block at the old prison yesterday and one, Joseph Green, was pushed to death on the floor below. The other, Eugene Blunt, was placed in solitary confinement. Both were serving terms for robbery.

PALMETTO—Theodore Monahan and Mike Karas opened shoe repair, and hat cleaning shop on Main St.

WORLD AIRLINES QUIT MOSCOW 10 HOURS LATE

(Continued from Page One)
them over the Canadian wilds which lie in their path to the Orient. Time for resuming the flight was not announced but the pilots said they would not take off before tomorrow.

ISTANBUL, July 31.—(A.P.)—Fortified by a night's sleep in borrowed pajamas and breakfast with American coffee, Russell Woodman and John Polando, American Atlantic fliers, stepped out for a day of welcome today. They, like Lindbergh, borrowed the pajamas from the American ambassador after landing yesterday with a new non-stop flight record of over 5000 miles. Mustafa Kemal Paasha, president of Turkey, invited the fliers to his summer palace and they will probably go there tomorrow to meet the ruler.

They were greeted at the air-drome by United States Ambassador Grew, by Turkish aviation heads and other officials, as well as by the French aviator, Cousteau.

Cousteau, with a group of other French aviators, is in Istanbul on an air tour.

The two fliers were given an ovation which, for the moment, almost made them forget their insistent desire to sleep. Cousteau was one of the first to shake their hands, congratulating them upon their feat.

The aviators were assisted from the cockpit by Ambassador Grew, who introduced them to the governor of Istanbul while a squad of Turkish police presented arms. Obviously tired, but smiling happily, the aviators expressed delight at having reached their goal.

"It was a fine trip," Boardman said, "and naturally we are very happy at having accomplished our purpose of beating the world's non-stop record. The hardest part of the journey was last night's flying over the Alps."

"The trip over the Atlantic was fine. We had no storms or bad winds, but we did encounter a great deal of fog. As a matter of fact, we saw the water only once, near Newfoundland, but after that we just floated along in a sea of fog which totally obscured the ocean."

Polando sketched the route from New York. "It was over New York, Newfoundland, Ireland, London, Paris and the Alps," he said. "Between the Alps and Istanbul we crossed, during the night, a lot of places which ourselves could not distinguish, but two of which may have been Belgrade and Sofia. Our first sight of land after crossing the Atlantic was Ireland, which we sighted Wednesday at 1

JUDGE ALLOWS A L CAPONE TO AMEND HIS PLEA

(Continued from Page One)
today, promising to rule on the motion to withdraw the plea at 2 P. M.

The heavy-set gangster, beads of sweat rolling down his swarthy face, stood nervously twitching his hands before the bench, manifestly taken aback by the turn of the proceedings. He had anticipated a quick sentence, a night perhaps in the county jail and departure for Leavenworth prison Friday night with the regular contingent of federal prisoners. Attorney Ahern made it clear Capone would not have pleaded guilty without assurance the government had agreed to a light sentence.

Capone's counsel asserted the department of justice had sanctioned a proposal of George E. Q. Johnson, district attorney, that leniency be suggested. Questioned by the court, Johnson said he had conferred with the defense, agreed to certain recommendations and received the approval of Washington. He submitted the correspondence with the attorney general to Judge Wilkerson, who said he would hold it confidential.

Ahern declared the government and defense had agreed on a stipulated prison term and to have all sentences run concurrently.

"It's up to the officer who made the deal to carry it out," commented Judge Wilkerson, expressing his own confidence in the district attorney. "Executive officials have pardoning power but they cannot transfer to the court a judgment which doesn't represent the cold, sober record. The secretary of the treasury has

power to compromise on civil and criminal liability. All recommendations will be considered, but in the end the court must rule on the record."

The court, he said, must hear all evidence to determine for himself the degree of guilt. The government has said it is ready to prove Capone broke the dry laws 5000 times between 1924 and 1929, and that from 1924 to 1929 his income was more than \$1,000,000. The defense emphasized that the government had agreed there would be no submission of evidence and no questions asked of Capone.

Squads of police and detectives surrounded the federal building and guarded its corridors against disorder while the world's most notorious gangster made his swift entrance and exit. Capone drove his own automobile to the loop for the morning session, but arrived in a cab with his attorney, after luncheon.

He was jovial in the courtroom, albeit uncomfortably hot. He answered the salutes of his neighbors with general good humor. He was feeling fine, he insisted. "Oh, a trifle, of course. I'm only human."

Over Forty Persons Poisoned At Picnic

READING, Pa., July 31.—(A.P.)—More than two score persons were removed from Sarsonia park, an amusement center, yesterday, when they became ill and collapsed from ptomaine poisoning.

The victims were found in all sections of the park, which was the scene of a picnic held by the Lancaster Automobile club. Officials of the park immediately closed all food stands until an investigation could be made.

Style Dictators In Paris Decree Lines Tending To Flare

PARIS, July 31.—(A.P.)—Silhouettes recalling grandmother's bustle and basque burst upon the style world yesterday as dress-makers displayed fall evening and daytime dresses with snug bodices and puffs in the back over the hips.

Although the new bustle effects did not follow the exaggerated lines of 1870, they showed a marked tendency to draw the fullness away from the front of the gown and accent the back over the hips with ruffles, loops and puffs.

One white satin evening gown with plain skirt in front had a series of three four-inch puffs over the back of the hips (finished with a bouquet of half a dozen crimson roses above).

A black and sapphire blue, printed lace had a plain front and a cluster of full ruffles covering the hips in back. Many evening gowns thus designed gathered the fullness together just behind the knees and held it in place with a bow or a heavy tulle cord.

Even day-time dresses reflected the bustle influence although they were less extreme in silhouette than the evening models. A velvet-dotted black roman frock with long, tight sleeves finished with a puff at the shoulder line had three flat loops suspended from the waist in back.

Several day-frocks had close-fitting basque-like bodices buttoning down the front while others recalled the old-fashioned silhouette with little standing white lace or net collars, shoulders accented by an outstanding two-inch ruffle.

DIES IN AUTO CRASH

JACKSONVILLE, July 31.—(A.P.)—H. A. English, 31, drug-store clerk, was killed yesterday when his automobile crashed into a concrete safety zone for street cars in the business section here. His widow survives.

DR. HENRY LYLE WINTER
NEWBURGH, N. Y., July 31.—(A.P.)—Dr. Henry Lyle Winter, 64 New York neurologist, died from heart disease yesterday at his home here.
