this crowded world will live in Eu-

West" as of its eclipse.

It is not that Europe's population is stagmant. Excluding the Soviet Union, it stands at some 430 million today and is expected to increase to 600 million by the end of the century. Total world population by then,

Both the present and projected populations of Europe far exceed those of either the United States or the U.S.S.R. Yet even considered as a whole, the power and influence of the continent which once governed the affairs of the world rank well behind those of either the giant of the East or of the West. This is true even in science and technology, two things which once transformed Europe and in turn made her mid-wife to the birth of the modern world.

In 1962, says Science magazine,

FIRST CHURCH OF CHRIST SCIENTIST Wednesday Service ... 8:00 p. m. Reading Room: 101 W. First Weekdays: 10:30 a.m.—4:30 p.m.

Our artist is not experiment-ing with his brush! There is a profound difference between these two days... MOTHER'S Day - with the end Sunday in May, when we honor Motherhood, and express our deep affection for Mother. Mother's DAY - with the accent on Day - is every day of the year. It is Mother's unending labor of love. It is Monday's beds to be made, the bruises to se healed and the prayers to be

Church. With its effective pro-gram of religious education and worship the Church can supply the spiritual needs in Mother's DAY . . . and in your
