President Of Poland Chosen By Parliament

Candidate Formerly Headed Soviet Influenced Regime; Seven Year Term

WARSAW, Feb. 5.—(AP)—The 54-year old son of a peasant, Boleslaw Bierut, today was elected president of Poland for a seven-year term. For the past 16 months, Bierut had headed the Moscow-born provisional government of Poland.

Bierut was the only candidate nominated for the presidency. The voting took place in the parliament which is controlled by the so-called government bloc parties. Bierut received 408 votes. Representatives of the Polish Peasant Party cast 25 votes against him. The Peasant Party has charged that the election forming the parliament was not free and unfettered. When most of the parliament members stood and cheered at Bierut's election, the Peasant Party representatives remained seated.

Bierut rode to Parliament in an open automobile through a heavy snowstorm to take the oath of office. He and his entire provisional regime had resigned yesterday to make way for the formation of a new government.

Bierut is expected to ask the secretary-general of the Socialist Party, Josef Cyrankiewicz, to form a new cabinet.

Court To Decide On W. C. King's Status

TALLAHASSEE, Feb. 5.—(AP)—The State Supreme Court will be asked to decide whether former Senator Wilbur C. King of Zolfo Springs may legally serve on the State Railroad Commission today. The court might also be asked to determine if Railroad Commissioner Jerry W. Carter and W. B. Douglas are entitled to a salary increase they have drawn since 1945.

The court ruled last week that State Senator Edwin G. Frazer was ineligible for the Comptroller's office to which he was elected because he was a member of the Senate which raised the Comptroller's salary. Governor Caldwell now has asked for a similar judgment on King, who was also in the Senate, which raised salaries.

Governor Caldwell pointed out that legal minds in the State are not agreed on whether the railroad commissioners' salaries were raised, left at the 1941 figure or abolished altogether.

When the 1945 legislature passed a pay raise bill, all mention of railroad commissioners was eliminated before passage. At the same time, the legislature passed a general appropriations act which provided more money for the railroad agency payroll without mentioning the commissioners by name or position. After the legislature adjourned, the railroad commissioners signed their own salaries with Budget Commission approval.

NOTICE

The Junior Chamber of Commerce luncheon will be held at Motor Inn tomorrow. Patrolman L. C. Bender and some of his associates will show a film strip devoted to safe driving. The film will also be shown to the Seminole High School Students. The meeting has been changed from a previous location.

Film Star And Her Husband-To-Be

MOVIE STAR Ella Raines and Mr. Robert Olds, former All-American grid ace at West Point, are in a happy mood after obtaining their marriage license in Santa Monica, Calif. They'll be married within a few days and will honeymoon in Hawaii. (International Soundphoto)

Temperatures Are Expected To Drop Lower Tonight

29 Degrees Recorded Last Evening

Some damage to tender crops of vegetables such as squash, sweet corn, beans and lettuce was forecast this morning by growers in the event that temperatures drop tonight to a lower degree than the 29 degree temperature officially recorded last night in Sanford by B. F. Whitner, weatherman and Dr. R. W. Ruprecht at the Central Florida Experiment Station on Cleary Avenue.

John Bell at Lake Monroe reported an early morning recording of 20 degrees.

Bad news for some growers is good news for others, particularly celery growers. According to County Agent C. R. Dawson, the cold will improve the quality of the celery, the yield of which he said has been reduced a lot due to stripping.

There will be no peak in celery shipments, said Mr. Dawson, as here and in the Glades, the supply has been cut from one-half to two-thirds due to hot, dry weather and insects and pests. He predicted that with the severity of celery will come a jump in prices.

The temperature started dropping late yesterday afternoon as the wind from the northwest began whipping in over Lake Monroe. By midnight, the wind had reached gale force. Some ice was reported this morning in Sanford and in outlying districts. Motorists passing through Casselberry reported seeing icicles hanging from pine trees. This had resulted from the use of sprayers for aralia beds, he said.

December average temperature as recorded by Mr. Whitner, was 67.7 degrees or just six degrees above the normal of 61.7. The January average was 68.4 degrees, by 5.8 degrees above the normal of 62.6. Rainfall for January was 1.47 inches as compared to a normal average of 2.35, a deficiency of .88 inch.

John Bell who grows small vegetable plants by the million at his farm at Lake Monroe, reported that he found no material damage this morning in spite of the fact that between 4:30 and 6:30 o'clock, the temperature took a 10 degree dive down to 20 degrees. He is taking every precaution against freezing of plants by covering as many as possible, he reported.

Dr. Ruprecht reported this morning that it is too early to determine losses to vegetables from the cold last evening.

Gen. C. P. Stivers Relates Story Of Pacific Campaign

Former Member Of MacArthur's Staff Is Vacationing Here

By WILLARD CONNOLLY
Major General Charles P. Stivers, former deputy chief of staff of the United States Army Forces in the Far East, charged with supervision of administration of troops in the Southwest Pacific, is getting a well earned rest at the Mayfair Inn after 30 years of active army life. He was retired from active duty last September for health reasons.

One of the most eventful days of his army career was on May 11, 1942, when as a member of General MacArthur's staff, he was ordered to leave Corregidor Island and proceed to Australia where MacArthur had been ordered by President Roosevelt to establish headquarters and to take command of the whole south west Pacific theater of war.

Bataan peninsula fell on April 8, and 10,000 American and 45,000 Filipino prisoners were taken and forced to march 120 miles in terrible heat; Corregidor fortress, terribly pounded by Japanese artillery, was surrendered by General Wainwright on May 6. The allied world, however, and Australia in particular, breathed a great sigh of relief to know that MacArthur and his staff had escaped. With General MacArthur were his wife, his small son Arthur and a Chinese lady attendant or nurse who took care of the boys. "Most people at the time thought that the escape of General MacArthur, his family and staff numbering in all about 20, was (Continued On Page Eight)

Filipino Guild Objects To U. S. Island Bases

MANILA, Feb. 5.—(AP)—The Philippine Lawyers' Guild today adopted a five-point resolution vigorously opposing the establishment of United States bases in the Philippines. The resolution said that such a move would be "highly improper and most detrimental to international peace efforts."

The guild declared it was the natural wish of the Filipino people to escape involvement in the event of a future war of extinction.

TAX NOTICE
Both white and colored residents who are seeking help with problems relating to income taxes are advised by the Bureau of Internal Revenue that two representatives will be on hand at the Tourist Center front room from 10:00 A. M. until 4:00 P. M. on Thursday and Friday, Feb. 13 and 14 to aid in this work.

Gore Starts Fight Against Knutson Bill

Democrat Declares Measure Returns To Tax Philosophy Of Middle Ages

WASHINGTON, Feb. 5.—(AP)—Tennessee's Democratic Rep. Albert Gore today led off the Democratic opposition to the Republican tax cutting measure of Harold Knutson. Gore declared that the 20 percent across-the-board cut departs from the principle of taxation according to ability to pay and returns to a tax philosophy of the Middle Ages.

Gore said Knutson's measure would give five percent of taxpayers with large incomes a tax cut of \$1,500,000,000. The remaining 95 percent of the taxpayers, he added, would receive reductions amounting to only \$1,940,000,000.

In a speech prepared for delivery in the House, the Tennessee asserted that the tax theory embodied in Knutson's bill comes right out of the Andrew Mellon primer of special privilege.

Mellon was Treasury Secretary during the administrations of Republican Presidents Coolidge and Hoover. Gore described Mellon's theory as one that worked so well that it brought on the panic of 1929 and the utter defeat of the Republican Party in 1930 and 1932.

Gore's speech and comments of Rep. John McCormack, the majority whip, indicated that House Democrats may rally behind a plan to give a larger tax slash to persons with small incomes.

Data On Newsprint Monopoly Requested

WASHINGTON, Feb. 5.—(AP)—Specific information has been demanded from the Commerce Department by Senator William Langer, Republican of North Dakota, on what he termed "the growth of this monopoly since 1936" in the newsprint industry.

Senator Langer, chairman of a judiciary subcommittee, said at a hearing that he was advised that only six major newsprint producing companies are left in this country.

He told Joseph L. Muller, acting chief of the Forest Products Division of International Trade for the Commerce Department.

"I want the names of the companies that were in business at that time (1936) and the dates when different companies went out of business."

"I also want to know," he said, "if these six have any outside officers or directors."

He also asked Mr. Muller for information whether Canadian companies are owned by United States citizens, and when the six companies "acquired ownership of various plants in Canada and the United States."

AFL Will Work Against Conscription

MIAMI, Feb. 5.—(AP)—The A F of L executive council said today that any form of military conscription would be a step toward regimentation of American youth. The 15 leaders of the federation have decided unanimously to work against any congressional proposals requiring youths to undergo a period of military training.

The council took up its survey of what it considers anti-Labor bills in Congress. It already has attacked a pending Senate measure to outlaw the closed shop, and the Senate omnibus bill restricting many Labor activities.

Incidentally, the secretary-treasurer, George Meany, reported that the A F of L now claims a record membership of 7,500,000. That's 1,500,000 more than the 6,000,000 members claimed by the CIO.

"Dig Out" After Milwaukee's Worst Blizzard

JOINING A SNOW-BRIGADE, residents of the snow-bound city of Milwaukee, Wis., begin the task of "digging out" from under the worst blizzard in the city's history. About 4,000 men and 60 heavy duty plows are being used to clear the main roads of huge snow drifts which had isolated the city. (International Soundphoto)

Experiment Head Tells Kiwanians Of Soil Work

Director Of Experimental Station Reveals Advances

The history and work of the national experimental station in Lakeland and the advances in soil plant production were what the Director of the station, Dr. H. H. Giddens, told the Kiwanians of Lakeland at a meeting last night.

Dr. Giddens said that the station was established in 1934 to study the soil conditions of the South and to determine the best way to improve them. He said that the station has made many advances in soil work, particularly in the use of fertilizers and in the control of soil erosion.

Freezing Weather Is Driven South By Northwest Winds

The cold wave which led a night ago to the coldest part of the winter season, with blizzards in the Midwest, is being driven south by the northwest winds.

The weather bureau predicted that the cold wave would remain in the Southeast today, with a slight drop expected tonight. Rain temperatures are expected to improve.

The weatherman said it should get a little warmer in the Midwest today and tomorrow. But there are signs that another cold wave is taking shape in the north, and all set to move down over the Great Lakes and into the Mississippi Valley tomorrow night and Friday.

The worst blizzard in 100 years has hit the industrial Midwest and northern England. There, tens of thousands have been thrown out of work because of a fuel shortage.

The weatherman said it should get a little warmer in the Midwest today and tomorrow. But there are signs that another cold wave is taking shape in the north, and all set to move down over the Great Lakes and into the Mississippi Valley tomorrow night and Friday.

The worst blizzard in 100 years has hit the industrial Midwest and northern England. There, tens of thousands have been thrown out of work because of a fuel shortage.

"House Of Magic" To Be Here Tomorrow

The "House of Magic" show, produced by the General Electric Company, will give a performance at the Seminole High School auditorium on Thursday evening at 7:30 o'clock. The show makes its appearance here as a result of the efforts of Herman E. Morris, principal of the school and the cooperation of H. H. Giddens, manager of the Florida Power Light Company and admission will be free.

Among the many sights to be shown are a lamp illuminated by electricity flowing through the body, music that travels on a beam of light and the world's first sunflower of its size and kind.

W. A. Glueck, director of the demonstrations, is a scientist and will explain the various procedures to the audience.

"Compared to the jet-propelled plane, the inventions we will see at this show will shortly change our way of living," commented Mr. Morris. Practically all of the astonishing demonstrations, he pointed out, are connected with the subjects of physics, chemistry and related sciences.

Because of the show's educational aspects, a special performance for school children will be held at 1:30 P. M. Thursday in the high school auditorium.

Chiang Kai-Shek Recalls Staff Member Of U.N.

Action Is Prompted By Breakdown Of Peace Negotiations

WASHINGTON, Feb. 5.—(AP)—Generalissimo Chiang Kai-Shek is said to have recalled his top military leader, General Ho Ying-Chin, from the United States. This action is said to have been prompted by the breakdown of Chinese peace negotiations.

Chinese officials said the general probably would leave for China this month. He currently is China's representative on the United Nations Staff Committee.

Meanwhile, it has been revealed that fifty million Chinese Communists will be living on the least productive region of China. They will be kept in a state of hunger while the Central Government institutes reforms aimed at developing the rest of the country.

If Chiang and his group are successful in their project, there will come a time when the Communists will have to be readmitted to the Chinese State. What will happen if Chiang Kai-Shek falls is another question. The plan is worth trying just the same. It will be a test of Chiang's sincerity.

Secession has been a fact for eight or ten years. The United States tried to bring the two factors together and failed. It is now up to the Chinese to prove that they can overcome the usual obstacles in the path of democracy. Curiously enough, this is not the first time that China has been divided on ideological matters. History records some such parting at the time of Confucius. History also records that both sides came together after living alone and not liking it.

Watchmakers To Hold Meeting Thursday

The Watchmakers of Central Florida will hold a district meeting in the Chamber of Commerce Building Thursday night at 7:00 o'clock, according to W. E. Kader, jeweler, vice president of the Florida Association.

Problem of the watchmakers and possible legislation requiring all watchmakers to be licensed will be the main topics, stated Mr. Kader. Moving pictures will be shown following the meeting and a supper will be provided, crediting it.

Sponsored by the Florida Watchmakers and Jewelers Association, it is expected that about 50 persons will be present for the meeting.

House Urged To Modify Wagner Act

Rep. Landis Accuses White House Advisors Of Playing Politics With Issue

WASHINGTON, Feb. 5.—(AP)—A plea for changes in the Wagner Labor Relations Act came before the House Labor Committee today as it opened hearings on labor-management problems. The plea came from Republican Rep. Gerald Landis of Indiana, who is author of a bill to amend the Wagner Act.

Landis hit out at what he called "White House advisers," accusing them of trying to play politics on the Labor issue. He said that this policy resulted in grave strikes which threatened the health, safety and security of the country and its citizens.

Landis charged that the National Labor Relations Board had created industrial strife and unrest in the United States. His proposed legislation would deny workers the protection of the Wagner Act when they strike for reasons not involving wages, hours and normal working conditions.

Landis also is the author of a measure to block strikes in essential industries through government seizure. However, the GOP representative from New Jersey opposed outlawing of the closed shop. He said that he had an open mind on the question of bargaining rights for foremen.

Meanwhile, a Committee Chairman from Kentucky, also of New Jersey, said that he will send a team of men into the field to get the views of workmen on labor problems.

Meanwhile, the president of General Motors, C. E. Wilson, called upon Congress today to outlaw the closed shop and to prohibit industry-wide bargaining in labor relations. Wilson told the Senate Labor Committee that a sword of Damocles will hang over our heads until Labor laws are fundamentally changed. He suggested for one thing that Congress change the Wagner Act to provide what Wilson called "equality and justice" for both workers and employers.

Standifer Home In Lake Mary Is Burned

The two-story home of J. H. Standifer, Jr., of Lake Mary, burned to the ground shortly before dark last evening while the family was away, according to J. H. Standifer, Sr., employee of the Smith Furniture Company, who said last evening that all possessions in the house, clothing included, had been lost. The home, which is located by Crystal Lake, was formerly owned by C. W. Hill.

The fire was discovered by Shealy Best around 6:00 P. M. when he noticed smoke pouring out of the windows. He entered the house with the intention of warning any occupants who might be asleep, but was unable to proceed upstairs because of the flames. He attempted to put out the blaze with a garden hose but the fire had gained too much headway.

PRESENT TREES

Six large palm trees, the gift of Mr. and Mrs. Percy Mero, are being planted at the front and side of the Tourist Center building by Sidney Richard and his City workmen. The trees were grown by Mr. and Mrs. Mero at their grounds at Silver Lake.

Report On China

James R. Young, famous newspaper correspondent and author on the Far East, speaking in Winter Park the other night, presented a discouraging picture of China and offered very little hope for any solution of the Chinese problem short of civil war.

Ten years of constant warfare with the Japanese have left the country with a population of an utterly demoralized and impoverished people.

It is hard to imagine a more primitive, disorganized and disorganizing society in modern times. Virtually no one is trying to produce anything.

Whether anybody else could do any better is extremely doubtful. Thousands of the finest characters and best brains of China have been killed by the Japanese in the last ten years.

When the civil war comes to China, as now seems inevitable, it will not be merely a civil war between Nationalists and Communists, between Right and Left, but between cities and towns, between one province and a neighboring province, between farmers and city workers, between father and son.

Should the United States buy Greenland? Reports in Danish newspapers are that the government would like to sell it for a billion dollars.

The best thing about Greenland, perhaps, is its location on direct air routes to Asia across the North Pole. Also in summer some parts of it have temperatures rising as high as 70 degrees.

We already have the right to air bases. What else is there to justify a billion dollars, especially when we are trying to balance the budget, reduce taxes and pay something on the national debt, all in the same year?

When Secretary William H. Seward bought Alaska for \$7,200,000, he was accused of extravagance, and Alaskan mining here the name of "Seward's Folly."

Did you note what the British foreign under-secretary said when a few Labor members of Parliament declared the Polish election was no different from any election in the state of Georgia?

WASHINGTON LETTER BY JANE EADS. The capital's "cocktail circuit" has its cap as for a young bachelor, John J. Kennedy, but it's in for some of the disappointment.

The handsome, 29-year-old, foot son of wealthy former Ambassador Joseph P. Kennedy is all engaged in the state of Georgia.

In Indianapolis a young man was fined \$25 the other day, not for killing anyone, not for setting a hotel on fire, but for burning up his sheets and blankets, but for smoking in bed.

To Thompson, Talmadge and Averbach is now added a fourth claimant to the title of Georgia governor. Defeated Candidate Frank Lawson says he is the only one with any legal right to the office since he was the only candidate to comply with the law by filing a report of his campaign expenses.

WASHINGTON LETTER BY JANE EADS. The capital's "cocktail circuit" has its cap as for a young bachelor, John J. Kennedy, but it's in for some of the disappointment.

Gen. C. P. Stivers Relates Story Of Pacific Campaign

(Continued from page 1) made by submarine. The run from Corregidor was, however, in four little 80 foot PT plywood speed boats," declared General Stivers.

He told of the run at night, and said that he was not on the same boat with General MacArthur. At daylight, said General Stivers, his boat anchored in the shelter of a small island and stayed all day in order to avoid being spotted by Jap planes. The natives were friendly. It took six weeks to refuel the boat from 20 fifty-gallon drums; then all the drums had to be sunk by holding under water while they slowly filled.

The second nightly run was to Cagayan on the north coast of Mindanao. There was an air strip about 30 miles inland and from there, they were taken in two Flying Fortresses to near Darwin on the north coast of Australia, or 2,000 miles in a westerly direction. This small settlement and air base had been under almost daily bombardment by Jap planes based 400 miles away on

the island of Timor, and so General MacArthur and his staff were taken immediately in other planes to south Australia.

General Stivers made the whole trip by air, a distance from Darwin to Melbourne which he compared to a flying trip from Duluth to Miami. General MacArthur had to confer with Australian leaders enroute, and so arrived in Melbourne by train on Saturday, Mar. 21, aboard the Adelaide-Express and was greeted with flags and cheers.

They remained in Melbourne for four months then went to Brisbane, which was General MacArthur's headquarters for the next two years, except for advanced headquarters in New Guinea which were visited at certain times by the combat staff.

In the summer of 1944, said General Stivers, headquarters were transferred to Hollandia, Dutch New Guinea. From here was launched the attack on the Philippines, the initial landing of which took place at Leyte on Oct. 20, 1944, with heavy air bombardment and pounding of Jap installations by Navy rockets and shells. He quoted a Jap commander as having later said that this was one of the decisive battles of the war, and during the Naval

A self lighting electric lamp and other scientific feats will be shown at the House of Magic demonstration at the High School auditorium tomorrow evening at 7:30 o'clock.

battle, the Jap fleet was broken. On the recovery of the Philippines, General Stivers was put in charge of reorganizing the Filipino forces numbering more than 100,000. This was difficult as so many records had been destroyed, he said. He later went to Japan and was on the Missouri to witness the Japanese surrender. He returned to Manila in November, 1945 and spent some time in the hospital.

General Stivers, who was born in Illinois, served with the Illinois National Guard on the Mexican border in 1916. He took examination and became a second Lieutenant. During World War I he served with the Sixth Division, 54th Infantry as assistant G-3 in France and was in the final Agence campaign. In 1940 in Pinar, he was made assistant chief, G-1 (personnel) of the Philippine Department. When General MacArthur assumed command, he went to his staff in the same capacity with the rank of colonel. One of his most vivid memories, he said, after arriving at Mindanao from Corregidor, where they had been on half rations, was the plentiful supply of pineapples at the Del Monte plantation. General MacArthur's staff and group included 15 Army officers, one Army enlisted man who was MacArthur's stenographer, two Navy officers, Mrs. MacArthur and son and attendant.

General Stivers said that he is greatly enjoying his stay at the Mayfair Inn, and is endeavoring to get strength back in his legs with daily rounds of golf at the Seminole Country Club.

Experiment Head Tells Kiwanians Of Soil Work

(Continued from page one) was the planting of seeds, he said, prior to that time he had to hunt in the wild for food. There was little development of agriculture for century after century, he said, but today a farmer needs definite knowledge of new advances.

In 1797 came the first iron plow and in 1840 the first agricultural experiment station was started in England with work on phosphates. In America in 1864, Congress passed the Murrell Act to establish an agricultural college with the view of learning how to produce more food during the Civil War. The Florida Experiment Station was established in 1888 at a cost of \$15,000.

He told of Florida's soil problems and of accepting plants from other states to grow here, of 80,000 acres of oats grown in Florida, of development of new species of corn, of use of celery wastes to feed chickens, of combating plant diseases and of growing new types of plants in Florida's seven experiment stations.

A number of growers and shippers attended the meeting as guests; these included General J. C. Hutchison, M. L. Cullum, Henry Thurston, E. J. Carruthers, Dr. R. W. Rupprecht and C. R. Dawson (county agent). Other guests introduced by Joel Field were: Tom Deen, L. Rowton, Pat Hurley, W. A. Hall, Leo White and Jan Jensen and Mrs. Mayme Hodakia. Tom Vaughn was congratulated on his birthday. Condolences to Roy Green concerning the death of Mrs. Laura P. Green, his wife, were read by Ed Shihoblen.

REVEREND J. W. Brouger, 77, of Glendale, Calif., is shown as he delivered his sensational sermon at the historic Tremont Baptist Church, Boston, Mass., denouncing the laxity of youthful morals in the Boston area. The sermon was the result of Rev. Brouger's tour of the city's night clubs, cafes and theatres. (International)

Rent Revision Rules Go Into Effect Feb. 15

New Regulation To Make It Easy For Owners To Qualify For Increases

WASHINGTON, Feb. 6.—(AP)—The revised regulations to make it easier for landlords to qualify for rent increases in hardship cases will become effective on Feb. 15.

The Office of Temporary Controls began work on the revisions more than two weeks ago, but did not announce the date they go into effect until today.

An OPA rent officer has said that the new provision will allow what he terms "A substantial number" of landlords to qualify for increases. But he added that "obviously most landlords can't qualify."

The new rule provides that for the purpose of comparing financial position, landlords may choose a two-year base period subsequent to Jan. 1939. The previous rule required that the base be a two-year period after that date, but prior to the time property was placed under rent ceilings.

To qualify for a hardship increase, OPA said "a landlord must show both a decrease in net income and an increase in property taxes or operating costs between the base period and the current year."

Low Temperature Of 20 Degrees Reported In Seminole County

Extensive damage to tender vegetable crops, and possibly some damage to celery may have resulted from the cold wave which in Sanford was recorded at 25 degrees this morning by B. F. Whitner, weatherman.

The effect of the sunshine today is expected to reveal how widespread the damage is, but this morning growers said it was too early to predict the effect on celery.

H. J. Lehman, manager of the Sanford State Farmers Market, said that Henry Schumacher, whose acreage is on the north shore of Lake Jessup, reported the loss of 10 acres of peppers when the temperature went down to 20 degrees according to his thermometer. The wind subsided at 4:00 A. M. and this made useless the smoke from hundreds of old tires he was burning.

"Anything like squash, tomatoes, corn or other tender vegetables were undoubtedly injured," said Mr. Lehman. In the case of corn a lot can be replanted, he declared. He quoted John Bell, Lake Monroe plant grower, as reporting the loss of large pepper plants in the field.

Celery cutting was light, and only one car of celery left Sanford yesterday, according to Market News Service. They stated it was too early to determine celery losses. J. C. Hutchison reported that celery cutting was resumed this morning and that the celery appeared to be in good condition, also that cabbage appeared to have survived the cold.

Mr. S. C. Dickerson reported a thermometer reading on a government issued instrument of 21 degrees and the loss of four acres of squash and three acres of corn, also damage to nursery plantings of azaleas at her farm at Mecca Hammock in South Sanford. They are already replanting corn and peppers she said.

City officials reported much damage to bloom of azaleas in Ft. Mellon Park. A. K. Rosetter, Celery Avenue florist, declared that many flowers had been damaged. These included gladioli not protected by firing, green rose buds and mature stalks. It will take a week or 10 days before recovery of plants is shown, he said.

A "Problem" In The Aleutians

THREE HEAVY TRACTORS were required to pull this 155 mm. gun from the stony tundra of Adak, where it had been placed in firing position during test maneuvers in the Aleutians by Task Force Willow. More than 200 Army teams, including clothing, guns and tanks were subjected to tests in the cold and wet chain of tiny islands where terrific winds, called williwaws, sweep with hurricane force. (International)

Anita Aiken Wins "Celery Queen" Title At Contest

Student Is Selected At Show Sponsored By Jaycees

The poised, beauty, grace and figure of Miss Anita Aiken, won for her the title of "Celery Queen" and a crowded audience at the Ritz Theater last evening applauded as Jack Ratigan, president of the Jaycees, who sponsored the beauty contest, placed a brilliant crown on her head after the three judges had unanimously proclaimed her the winner among 12 lovely contestants.

Miss Aiken had plenty of competition among the entries of Seminole County's most beautiful girls. These and their sponsors were: Elizabeth Maney, Lancy Drug Store; Sophia McDougal, Touchton Drug Co.; Michèle Blouning, Thorpe Furniture Co.; Helen Hayman, Sanford Paint and Glass Co.; Catherine McNeill, Holter Motor Sales; Ruby Anderson, George Barr's Empire School; Helen Hall, Hollywood, Shopp; Louise Lundquist, J. C. Peoney and Co.; Emily Matthews, Ivey's (Continued On Page Eight)

Picture On Natural History To Be Shown

Another of the Audubon Screen Tours will be presented by Boy Scout Troop No. 5, Monday evening at the South Side Grammar School Auditorium, and Bert Hartwell, lecturer, photographer, musician, poet and naturalist will lecture along with the colored motion picture on bird and natural life.

Not only is Mr. Hartwell known from coast to coast as a lecturer, but his whistling ability and imitation of birds have been featured on nation-wide radio broadcasts. A native of Berkeley, Calif., his tours have taken him to 47 states and Canada. He is a graduate of the University of California and western representative of the National Audubon Society.

Scoutmaster Jack Russell is in charge of the program. Tickets may be reserved by telephoning 167-J.

New Sugar Stamp To Be Validated Apr. 1

WASHINGTON, Feb. 6.—(AP)—The nation's housewives will get no extra sugar ration for coming this year. But the OPA announced today it will validate another sugar stamp on Apr. 1 and the stamp will be good for ten pounds of sugar instead of the usual five. This ration will cover both canned and home use.

The price agency also announced that stamp number 53, currently in use, will expire at midnight Mar. 31 instead of Apr. 30 as planned originally.

3 Youngsters Are Killed In Fire In Miami

Blaze Starts When Heater Explodes; Rest Of Family Is Seriously Burned

MIAMI, Feb. 6.—(AP)—The cold weather brought tragedy to a Miami family last night when three children were burned to death. The mother, father, and 13-year-old brother suffered critical burns when their house was destroyed by fire.

Police said the fire started when Mrs. Whitney Knowles spilled gasoline while filling a heater. The stove exploded, throwing flaming gasoline through the room.

The father and oldest boy managed to escape. Mrs. Knowles suffered serious burns. The three youngest children, ten-year-old Jimmy; four-year-old Kenneth; and one-year-old Larry, were burned to death in the flames.

CHARLESTON, W. V., Feb. 6.—(AP)—Two children died today in a fire which swept five homes in a row of houses in Charleston. Firemen were forced to battle the blaze with buckets of water, as the water lines failed to function in the sub-freezing weather.

The victims were identified as Paul Vickers, 4, and his 3-year-old brother, Tommy, children of Mr. and Mrs. Vickers.

Crop Damages From Cold May Run Into Millions

JACKSONVILLE, Feb. 6.—(AP)—The cold wave in Florida last night brought damages to crops which may reach millions of dollars. The county agent in Miami said some 40,000 acres of tender crops in the region were destroyed by the freezing weather.

About 50 per cent of the potato crop in the Miami area already has formed tubers and can be harvested, but the remainder of the potatoes are believed lost as a result of the freeze.

It is still too early to determine the extent of damage to the Florida citrus crop.

But the secretary-manager of the Florida Citrus Commission, Robert C. Evans, said there was some ice on the fruit in many areas.

The citrus official said there apparently is fairly widespread damage, especially in low ground. (Continued On Page Eight)

Mary Etta Long, 82, Dies In Chuluota

Mrs. Mary Etta Long, 82, died at her home in Chuluota at 4:50 A. M. Wednesday. Mrs. Long was born in Whitesville, N. C., on July 21, 1864, and lived in Chuluota for the last 80 years and was the widow of the late Gabriel Long. She was a member of the Chuluota Baptist Church having joined in 1891.

She is survived by one daughter, Mrs. Laurie Townsend of Cocoa; one son, George Long of Chuluota; six grandchildren, Mrs. Fred Pruitt of Wauchula, Mrs. Alva Veiniga-Gibson from Minnesota, Mrs. Shirley Frigby, Mrs. Harlie Bonner, Ivan Townsend and Lloyd Townsend of Cocoa; one sister in law, Mrs. N. C. Jacobs of Chuluota and ten great grandchildren.

Funeral services will be conducted at Chuluota Baptist Church at 2:00 P. M. Sunday under the direction of the Erickson Funeral Home with Rev. Wilson Finch officiating. The remains will lie in state at the church from 1:00 P. M. to 2:00 P. M. on Sunday and interment will be in the Chuluota Cemetery.

Two Sanford Teachers Named To Committee

TALLAHASSEE, Feb. 6. (ENS)—Two residents of Seminole County have been named to committee posts by Colin English, State Superintendent of Public Instruction, in preparation for the annual supervisors' conference to be held at Gainesville Feb. 11-13.

They were Miss Ruth Hand, conference report committee; and Mrs. Eneas Price, recreation committee. The five day conference will deal with discussion of all phases of education and with the supervisory program. Between 150 and 175 educators from throughout the state are expected to attend.

AT THE MAYFAIR
Eleven members of a group of players of the State Theater of Virginia, unable to find room accommodations in Winter Park where they are presenting plays, found sanctuary at the Mayfair Inn where they report they are very comfortable.

Bob Porterfield is the founder of the group, which under Kwan's sponsorship has been presenting G. B. Shaw's "Arms and the Men" and Shakespeare's "Much Ado About Nothing." The theater group has been making a tour of the southeastern states with their presentations.

Communist Agent Cited For Contempt

Witness Refuses To Take Oath Before Interrogation By House Committee

WASHINGTON, Feb. 6.—(AP)—The alleged chief Communist agent in the United States, Gerhard Eisler, was cited for contempt today by the House Committee on Un-American Activities. The citation came after he refused to take an oath.

Eisler, who was called as a witness in the committee's inquiry into Communist operations in America, was told to take the stand. Eisler immediately showed his defiance.

"No, I am not going to take the stand," he said.

Thomas then demanded that he raise his hand and take the oath to tell the truth.

Again Eisler refused, and finally said: "You will not swear me in before you hear a few remarks."

Thomas told Eisler to remember that he was in the United States as a guest of the country. Eisler yelled back: "I am an anarchist. I am not a guest of the country."

After a few minutes of this sort of exchange, during which Eisler fingered a sheet of paper from which he wanted to read his statement, and which he never got to read, the alleged Moscow agent raved on the table and exclaimed: "Now I have my will."

With that, Thomas ordered Eisler to step aside. The committee thereupon immediately voted to cite Eisler for contempt. That is a charge which must be tried before a jury and if the defendant is convicted, he is in line for a possible penalty of a \$1,000 fine and one year in jail.

After he was cited by the committee Eisler was led from the hearing room by Gemen, who said they were taking him back to Ellis Island in New York. He was arrested last week on charges of violating the immigration laws.

Fishing In St. Johns Reaps Large Catch

Dr. W. H. Gardner and J. W. Harris, of Atlanta, Ga., real estate broker, entered three large black bass in the Seminole County Junior Chamber of Commerce fishing tournament today.

The three fish were caught in the St. Johns River just north of the Ocoola bridge on Dr. Gardner's hand made menhaden aluminum lures at noon yesterday.

Mr. Harris' catch was a ten pound-four ounce specimen. Mr. Harris also caught a smaller fish, weighing slightly over eight pounds. Dr. Gardner also entered his nine pound catch in the contest.

Mr. Harris is in Sanford for a visit with Mrs. J. E. Spurling.

France To Support Small Nation's Plea

LONDON, Feb. 6. (AP)—France joined Great Britain and the United States today in supporting demands of small allied nations for a voice in drafting German and Austrian peace treaties.

The French delegate told the Big Four foreign ministers' deputies that France favored the formation of consultation committees which would supply full information to the little nations on matters involving their individual interest. But the Russians asked that the proposal be tabled.

Passengers' On "Queen Elizabeth"

AMONG THE 2,283 PASSENGERS aboard the Queen Elizabeth when she docked in New York were British actress Glynis Johns (left) and Eve Curie, noted author and lecturer. Miss Curie, daughter of France's famous Marie Curie, discoverer of radium, declared that the French government was "not going communistic." (International)

Army Officer Is Questioned For Possessing Loot

Colonel Found With \$210,000 Worth Of Japanese Diamonds

SAN FRANCISCO, Feb. 6.—(AP)—The Army colonel who brought a fortune in Japanese diamonds to the United States is said to be flying back to Japan today. The officer, Col. Edward J. Murray of Palo Alto, Calif., is under technical arrest under orders from General MacArthur.

Customs officials in San Francisco said Murray was carrying \$210,000 worth of diamonds when he arrived from Japan aboard the Westminister Victory on Monday.

Col. Murray, who has an excellent war record, was custodian of the \$2,600,000 treasure of Japanese diamonds held by the Allies in the vaults of the Bank of Japan. Frequent inventories have been made, and at no time have losses been revealed. Two experts from the Smithsonian Institution appraised the diamonds last summer and said the security measures were inadequate.

Customs official Paul Lenke asserted that Col. Murray was traced through a previous sale of \$20,000 worth of smuggled diamonds in San Francisco. Lenke said that the Army Colonel intimated, during questioning, that he regarded the \$210,000 worth of diamonds as "legitimate loot." Murray also said: "I am pleased to go back to Tokyo since I am sure my side of the story will be given full and just consideration."

Court To Pronounce Sentences On Friday

Robert Wilder, negro, was found guilty of manslaughter by the Circuit Court Jury Tuesday. On Wednesday, Otis Robinson, negro, was found guilty of attempted manslaughter. The court was adjourned on order of Circuit Judge M. H. Smith until Friday at which time he will pronounce sentence on Wilder and Robinson, also upon John Troutman, negro, who on Tuesday morning, was found guilty of manslaughter, according to O. P. Herndon, clerk of the court.

Wilder was charged with second degree murder in connection with the fatal stabbing of Wilma Metts, negro, on Nov. 6. Robinson was charged with assault with intent to commit murder in the first degree against J. C. Fraser, who was injured, but not fatally, at Geneva on July 15. It will be decided Friday when the court will reassemble.

At 4:00 o'clock the whole area between Palmetto Avenue and the Orlando Highway south of Twenty-fifth Street was burning. A house owned by Mrs. W. R. Russell, north of this fire, was threatened and the firemen lacked fire.

Firemen Collis Godwin and Ernest Lavey are credited with having saved the Full Gospel Tabernacle building when they arrived in time to arrest the flames which were about to engulf the structure.

American apple pie proved to be a top favorite dessert of United Nations delegates and staff members at Lake Success, New York.

Bright red holly berries grow on female holly trees but male trees usually have the finest foliage.

Max Gardner Dies Today Of Heart Attack

Announcement Concerning Death Of New Ambassador Grieves President

WASHINGTON, Feb. 6. (AP)—The new American ambassador to Great Britain, O. Max Gardner, died today in New York of a heart attack. Announcement of Gardner's death was made by the White House.

He was scheduled to leave today for Great Britain aboard the S. S. America. Gardner died at the St. Regis Hotel, where he was staying. Presidential Secretary Charles Ross said that President Truman is deeply grieved and shocked by the ambassador's death.

Gardner, who was 64, was named a month ago to succeed W. Averell Harriman in the important diplomatic post. He was undersecretary of the Treasury before his appointment.

Gardner was elected governor of North Carolina in 1928 for a four-year term. He was born in Shelby, N. C., and was the youngest of 12 children. His father was a country doctor and an anti-communist during the Civil War. At that time his father lost every penny he owned, but Max Gardner is reported to have made more than \$1,000,000 in the textile business.

When he was a young man, Gardner's ambition was to gain an appointment to West Point. But he studied at the University of North Carolina where he developed talent for public speaking, football and baseball. He was graduated with a law degree and practiced in Shelby, N. C., from 1907 until he became governor.

L. C. Bender Shows Traffic Violation Movie To Jaycees

Patrolman L. C. Bender and two of his associates showed an interesting film strip on many traffic violations at the weekly Junior Chamber of Commerce meeting at noon today.

Bender stated that the movie was shown to the Seminole High School students this morning, and that all high school students of Florida will see the film as soon as possible in an attempt to familiarize Florida's youths with correct driving regulations.

Charles Luke, manager of the local Mather Furniture store, reported on the preparations being made for local Jaycees to attend the State Convention in Palatka.

Luke stated the 100 crates of Seminole County celery will be distributed in Palatka during the two day festival. All restaurants and cafeterias will have the celery on their tables for meals during the convalescence. On each table will be folders, printed in green showing a large stalk of celery with the following inscription "The celery comes to you from Seminole County farms, its growers and shippers."

Appreciation on behalf of the members of the organization for the success of the Celery Queen contest was expressed by President Jack Ratigan to Guy Allen, committee chairman, Sam Martina, master of ceremonies, and Cliff Ables and Charles Luke for their participation in late entrants in the contest.

The organization will add in the drive to enlist memberships in the Sanford Hospital Association, and it was planned to canvass a city district for these memberships.

Guests Steve Bennis, S. W. Tooter and Arthur Beckwith, Jr., a new member, were introduced.
