HIGH FINANCING REVEALED IN CONTRACTS

Guaranteed Fifty Million Deal Without Knowing Of Continental Firm
Sinclair Tries To Trace U. S. Bonds
Sinclair Linked With Stewart In Carlson Tale Of Transaction

WASHINGTON, Feb. 1.—(INS)—A strange story of high finance, in which the Sinclair Oil Company approves a \$50,000,000 guarantee of the Continental Trading Company without ever having heard of the latter company, was told the Senate today.

Senator Walsh (D) of Montana, selected the examination of witnesses. He referred first to the fact that the Sinclair Oil Company and the Prairie Oil & Gas Company contracted to buy 23,372,233 barrels of oil from the Continental company at \$1.75 a barrel.

The Continental was entitled to \$200,000 profit on the purchase of the oil your company had contracted to buy from it," said Walsh.

Robert W. Stewart, chairman of the board of the Standard Oil of Indiana, attended the hearing. He returned from Havana over the week-end in response to a subpoena.

Senator Trammell and several candidates for governor are accusing me of spending more money than my predecessors. Which is true. The people of Florida wanted paved roads instead of the mudholes they had before and I have built them in three years. Certainly they cost money to build.

Fort Meyers—More than half-million dollars worth of building completed here in 1927.

Utility Expert Completes Visit Here In Interest Of Sanford Industrial Survey

H. I. Mossbacher, research and industrial engineer of the Florida Power and Light Company, today completed a week's visit in Sanford during which time he has been engaged in gathering data for an industrial survey, which is to be collaborated in accordance with an announcement recently made by Joe H. Gill, vice president and general manager of the utility corporation.

Several weeks will be required to arrange the data in the form that is contemplated. Mr. Mossbacher said today. The survey will consist of facts and figures interwoven with an interesting description of Sanford's possibilities. This method has been adopted in preference to a tabular form of figures, which Mr. Mossbacher pointed out has been found not to be as satisfactory as the story form of presentations.

FARRAR RECITAL PROGRAM GIVEN OUT BY THEATER

Announcement of the numbers which Geraldine Farrar will render here in concert on Friday night at the Milane Theater was made today by the management of the showhouse.

As usual Miss Farrar's program will be unconventional and artistic. She is a wonderful musician, as well as a singer, an artist who does not follow the paths of precedent, but is always quick to grasp that which is vital and interesting in the compositions of modern as well as classic composers.

The program is as follows:
1. Puppelle adagio, Handel.
Cazanova, Quagliati; Ich liebe dich, Beethoven; Wonnevoller Mai, Gluck.—Miss Farrar.

2. Widmung, Schumann; Lorelei, Schumann; Wohin, Schubert; O Dankte Nicht, Franz; Sterne mit den goldenen Fässchen, Franz; Ballade, Loewe.—Miss Farrar.

3. Soli for Piano: Scherzo, Brahms; Lento, Cyril Scott; Danse Rituelle du Feu, De Falla.—Miss Farrar.

4. AIR: Voi ce Sapete, Mozart. ("Nozze di Figaro").—Miss Farrar.

5. Les Friboues d'Automne, Coligny; Dites-Moi, Godard; L'Eventail, Vieille Chanson Francaise; Ouvrez yeux bleus, Massenet. Miss Farrar.

6. Leon thy Cheek, Jensen; Songs my Mother Taught Me, Dvorak; Rencontre, Grieg; Spring Idyll, Gretchenhoff.—Miss Farrar.

LYNNHAVEN Feb. 1.—Speaking before an audience of civil war veterans and people attending the chautauqua here, Gov. John W. Martin pointed to the nearly completed highway system of Florida as the reason for charges from his opponent and other candidates that he had spent more money than former governors.

He visited in St. Andrews this morning and tonight will speak in Millville, one of the largest precincts in this county, carrying on his campaign for the United States senate.

DAYTONA BANK PRESIDENT IS FOUND GUILTY

Howard G. Skiles Faces Term Of One To Ten Years In Pen Following Conviction For Misapplication Bank Funds

New Trial Is Asked By Defense Counsel
Banker's Dealings With Land Syndicate Basis For Conviction By Volusia Jury

DELAND, Fla., Feb. 1.—(INS)—Howard G. Skiles, former president of the American Bank and Trust company of Daytona Beach, now defunct, was found guilty of misapplication of funds of the institution late Monday afternoon and found not guilty on the third count by a jury in circuit court.

Under the two counts on which he was found guilty he is facing a sentence of from one to ten years in the penitentiary in each, or he can receive sentence in one, and the other disregarded at the request of the state's attorneys.

Immediately after the jury returned its verdict, E. Noble Calhoun, chief counsel for Mr. Skiles, moved for a new trial. The hearing of argument on the motion of a new trial will likely be held within the next two weeks, it is held.

Mr. Skiles' bond was placed at \$2,500 on suggestion of E. Noble Calhoun, after a conference with state's attorneys, J. McHenry Jones and Joseph Scarlett. Bond was made at once by Skiles' attorneys with W. B. Wright of Daytona Beach, who was in the courtroom, signing the bond.

The indictment against Mr. Skiles was covered in five counts, the first two of which charged misapplication of bank's funds, and the third and fourth abstraction of bank funds. The fourth count was abandoned by the state's attorneys because of the misspelling of Mr. Skiles' name. In this count, through a typographical error the name of H. G. Skiles appeared. The fifth count was nolle prosequed.

The fourth count was quite similar to the third, on which Mr. Skiles was not guilty. The first and second counts, on which he was found guilty, had to do with misapplication of bank funds, when it was proven, were converted to the use of Howard Stark syndicate, a land development in which Mr. Skiles was the promoter.

The state's case which finally resulted in Mr. Skiles' conviction, centered around an item of \$2,024.81, which was overdrawn on the Howard Park syndicate ledger account during the boom and which remained on the ledger as an overdraw when the bank closed on June, 1926, and was there when it reopened in August of the same year.

This overdraft on the ledger account was changed to a charge on the general ledger to trust funds advanced in November, 1926, a short while before Mr. Skiles resigned as president of the bank.

LIVESTOCK MARKETS

JACKSONVILLE, Fla., Feb. 1.—(INS)—Livestock: Hogs—receipts light mkt. steady heavy 3.50-5.75 mediums 6.75 lights 5.75 heavy pigs 4.75 light pigs 1.75 roughs 3.00-1.75 cattle receipts medium mkt steady steers 4.00 -6.00 cows & heifers 3.50-5.50 calves & cutters 1.00-3.00 calves 3.00-6.50 bulls 3.50-4.50.

WINTER PARK—Quarterly dividends paid by Winter Park Telephone Company.

CHICAGO, Feb. 1.—(INS)—Miss Sadie Holland, 80 1/2 in a critical condition today as a result of having both legs amputated above the knees. Two weeks ago, she submitted to an operation designed to straighten her legs, which were slightly bowed. Gangrene poisoning developed and the double amputation was resorted to in an effort to save her life.

Washington Stops Big Russian Loan

WASHINGTON, Feb. 1.—(INS)—The State Department today banned a \$30,000,000 private loan to Soviet Russia to finance railroad construction and improvements. Banks in New York, Chicago and San Francisco were interested in the proposal.

Divorce Report Links Name Of Harvester King

Mutual Action Soon To Close Match Between Ganna Walska And Harold McCormick; Settlement Delays Action

PARIS, Feb. 1.—(INS)—A mutual divorce action ending the romance of Ganna Walska, Polish singer, and Harold McCormick, Chicago multimillionaire, may be filed within the next six days, it was learned today from friends of the wife.

A financial settlement is holding up the action. Mme. Walska is understood to be demanding \$2,500,000 whereas McCormick seeks to settle upon a basis of half that sum.

When Mme. Walska was divorced from Alexander Cochrane, before her marriage to the Chicago manufacturer, she received \$2,500,000. "These divorce rumors are very amusing to me," Mme. Walska told International News Service. "I shall not deny this because I am tired of denying the same thing every week. Maybe it is true, maybe it is not. You may take your choice."

If the suit is filed by McCormick it probably will be heard by the Chicago courts, the charge being technical desertion because Mme. Walska refuses to live in the United States.

Water Shipments Will Be Discussed At Chamber Meet

The monthly meeting of the Chamber of Commerce will be held today noon at the Hotel Forrest Lake, according to an announcement today by Secretary E. J. Tamm. The chief business to be taken up at the meeting will be that of water shipments.

Recent changes in freight rates for water shipments to the southeast have caused a great deal of discussion. The chamber's position as a lobbyist center is materially affected, it was declared.

Association of more independent boat lines to connect with Sanford is regarded as one of the chief ways in which the problem can be met successfully. Discussion of such possibilities is expected to consume a greater part of the program. Docking facilities to handle the additional traffic will be another important matter to be considered.

Hughy Jennings Claimed By Death

SCRANTON, Pa., Feb. 1.—(INS)—Hugh A. (Hughy) Jennings, one of baseball's most picturesque figures, died at 1:15 A. M. today at his home here. He was 57 years old.

Jennings suffered an attack of meningitis last Saturday and his condition rapidly became worse. The colorful and aggressive manager made a gallant struggle against the disease after physicians had given up hope for his recovery. He had been ill for three years.

The end came peacefully. He became unconscious on Sunday, but regained consciousness later and chatted with relatives.

DRY LAW HEAD MAKES PUBLIC NEW DISTRICTS

Geographical Realignment Made In The Interests Of Efficiency, Grouping States Where Problems Are Same

Florida Area Comes In For Decided Change

Only Three Directors Get Permanent Appointments Others Will Come Later

WASHINGTON, Feb. 1.—(INS)—Federal prohibition enforcement went under a new geographical alignment today when boundary line charges involving seven districts were put into effect.

Prohibition Commissioner James M. Moran announced that the district shifts are in the interest of efficiency by placing together territories in which enforcement problems are virtually the same.

From the population standpoint the new district comprising Illinois, eastern Wisconsin and Iowa becomes the largest in the country, census figures giving over 11,161,000 individuals in this territory.

Indiana was removed from the Illinois jurisdiction and placed with Ohio, forming a dry zone of 9,800,000 population and probably more cities and towns than are found in any other district. Indiana and Ohio face a peculiar problem in the suppression of bootlegging among students because of the large number of schools and colleges in these states.

A new district was set up taking in Kansas, Oklahoma and Nebraska, with headquarters at Topeka. George W. Wark has been appointed administrator, the only permanent executive in the newly created districts. Other administrators are acting, not yet having been approved by the civil service commission.

Texas became a separate district with a large Mexican border smuggling problem. Western Florida, in the new set-up, is distributed to Louisiana, Mississippi and Alabama. The chief business to be taken up at the meeting will be that of water shipments.

The re-alignment becomes effective with but three permanent administrators for the entire country. Wark at Topeka, Thomas Stone at Detroit and George A. Parker at Boston.

The status of the 21 other administrators who are on temporary basis, depends upon the results of a certification of eligibles by the civil service commission. Several of them will leave their jobs, others will be transferred to minor posts, and a number will become permanent administrators.

Funeral Rites For Mrs. Echols Held Tuesday Afternoon

Funeral services for Mrs. Ada E. Echols, aged Sanford resident who passed away Tuesday morning at a local at the home of her son, Charles Echols, were held at 4 o'clock, Dr. E. D. King, pastor of the First Baptist Church, officiated at the services. Interment was in the Municipal Cemetery.

Youth Is Arraigned On 2nd Charge But Trial Is Continued

FLYING COLONEL FETTERED BY PEOPLE IN VIRGIN ISLANDS

Full Day's Entertainment Planned For Col. Lindbergh At St. Thomas; Will Fly To San Juan Thursday morning

ST. THOMAS, Virgin Islands, Feb. 1.—(INS)—Col. Charles A. Lindbergh was officially welcomed to the Virgin Islands today at a public reception in Emancipation Garden. This was the first of a series of functions arranged in honor of the young aviator, who will hop off tomorrow morning for Porto Rico.

Escorted to the field by a naval band and a detachment of U. S. Marines, Col. Lindbergh was greeted with a second salute of 21 guns. Governor Aldo Evers delivered an address lauding the "Lone Eagle" for his gallant achievements and his inspiring conduct in the face of the world's plaudits.

ST. THOMAS, Virgin Islands, Feb. 1.—(INS)—Following close on the heels of the marvelous reception accorded him on his arrival, numerous receptions and banquets were planned for Col. Charles A. Lindbergh today.

Among the functions scheduled in his honor were receptions by the Masonic bodies, the chamber of commerce, and the legislature. A special horse racing program and a motorcycle ball will wind up Col. Lindbergh's only full day here.

Tomorrow the Flying Colonel will fly over St. Croix and then on towards San Juan, Porto Rico. He is expected to arrive early in the morning.

The reception committee will make the 1,000 mile flight from Venezuela was unrecanted in a letter to the community.

Joe D. Chittenden Will Be Candidate For Tax Assessor

Joe D. Chittenden, well known Sanford man, today announced his candidacy for the office of county tax assessor in the Democratic primary of June 5.

Mr. Chittenden has resided in this city for 16 years, coming here from Endicott, N. Y. For the past six years he has been engaged in the real estate business and has been identified with several large developments of city property.

Mr. Chittenden has been an active worker in Chamber of Commerce activities and has been prominent in American Legion circles, both in Seminole County and the state. He is a former commander of the Campbell-Lossing Post.

Chicago Jail Break Results In Death Of Two Prisoners

CHICAGO, Feb. 1.—(INS)—A daring jailbreak of two young prisoners today resulted in their death and the wounding of a police officer.

E. H. Hickman Before Different Tribunal With Welby Hunt Drug Clerk Slaying

Ex-Teacher Thinks Accused Is Insane

Mrs. Eva Hickman To Be First Witness Actually To Testify

LOS ANGELES, Feb. 1.—(INS)—Edward Hickman was a gambler for his life a second time today. Within 50 feet of the courtroom where Hickman is on trial for the kidnaping and murder of Marion Parker, he faced another bar of justice this morning on a second murder charge.

With Welby Hunt, 16-year-old Kansas City youth, Hickman appeared before Superior Judge Carlos S. Hardy, to answer for the slaying of C. Ivy Thomas in a drug store holdup here on Christmas eve, 1926.

Because Hickman already is on trial for the kidnaping and slaying of the Parker girl, the case against him and Hunt was continued. Judge Hardy re-set the trial of Hickman and Hunt for Feb. 15.

The deposition of Miss Rebecca Fomlin, teacher at the Kansas City Central High School, was read to the jury by Walsh when the insanity hearing reopened.

Miss Fomlin, who coached Hickman and helped him in his research work for a national oratorical contest, stated Hickman "was a high strung to be an orator." He told me he wished he could be like him in the contest. He said he would be the money so badly," Hickman's teacher related.

Miss Tomlin said Hickman's high school year at high school here was the last time she saw him. "I don't know if he is insane," she said when presented with a photograph of Hickman.

Miss Tomlin described Hickman as a "quiet, thoughtful, motherly" man, who was "not a bit of a trouble maker" because she attributed to end her life and mentioned to kill her five children, will be the first witness actually to take the stand in defense of the confessed kidnaper-slayer of Marion Parker.

This was learned definitely today from Jerome Walsh, chief defense counsel.

Manufacturers Meet Friday At Nashville

NASHVILLE, Tenn., Feb. 1.—(INS)—The Tennessee Manufacturers' Association will convene here for its annual convention February 3 with Governor Henry Horton, J. E. Edgercott, and many other prominent industrial leaders of the state in attendance and on the program.

"Partnership between Agriculture and Industry" will be the subject of an address to be presented at a luncheon by Professor James S. Thomas, director of the extension division of the University of Alabama. "Power Development in Tennessee" will be the subject of an address by Dan E. McGinn, Dr. Gus W. Dyer of Vanderbilt University will be the feature speaker on the evening program.

Two Burned To Death In Minneapolis Fire
MINNEAPOLIS, Minn., Feb. 1.—(INS)—Two persons were burned to death and firemen were searching the ruins for the body of a man in the home of Frank J. Norrie, general manager of the Pure Oil Company, which was destroyed by fire here today. Two bodies have been recovered and although not positively identified are believed to be those of Norrie and Frank E. L. Barnes, department manager of the Pure Oil Company. The maid sleeping on the third floor is also believed to have perished.
MAN KILLS THREE
FRAMINGDALE, N. Y., Feb. 1.—(INS)—Mrs. Claude Priddy and her two children, James, 15, and John, 11, were murdered today with an axe by Claude Priddy, the husband and father, according to police.

Text Of Judge Wright's Order For Special Term Of Court Is Made Public

Following in the order issued late Monday afternoon by Judge Wallace W. Wright calling a special term of the circuit court for the consideration of cases in which he has been disqualified:

"WHEREAS, on the December A. D. 1927 fall term of the Circuit Court of Seminole County, Florida, there were pending certain criminal cases in which the Judge of said Court was, and is, legally disqualified from presiding, and whereas, at the time the other matters pending at said term of said Court were disposed of, it had not been definitely ascertained when it would be practicable to secure an official to preside in the trial of such disqualified cases, and whereas, under such conditions, and because of certain legal technicalities existing in connection therewith, it was deemed advisable by the State Attorney General and the presiding Judge to thereupon adjourn said term of said Court rather than to recess the same in as much as no greater expense would thereby be caused the county than by recessing said court to a later date, and to thereafter call a special term of said Court.

"And whereas, the next regular term of said Court does not convene until May A. D. 1928 at which time the same situation would exist with respect to said matters of disqualification making it then necessary to have another special term of said Court for the purpose of presiding therein.

"And whereas, it has been made

to appear to the Judge of said Court that it is expedient to hold a special term of said Court and in the judgment of this Court the public welfare and cause of justice requires that a special term of the Circuit Court for the Twenty-Third Judicial Circuit of the State of Florida, in and for Seminole County, be held, thereupon, upon consideration thereof, it is hereby:

"ORDERED and ADJUDGED that a special term of the Circuit Court for the Twenty-third Judicial Circuit of the State of Florida, in and for Seminole County, is hereby called to be held in and for the said County of Seminole, beginning at ten o'clock A. M. on the 6th day of February A. D. 1928.

"IT IS FURTHER ORDERED and ADJUDGED that the Clerk of this Court do issue a special venire for the jurors drawn at the adjournment of the fall A. D. 1927 term of this court to serve as jurors at the next succeeding regular or special term of this court, to serve as jurors for and at the special term of said court hereby called, and ordered, and that the Sheriff of Seminole County, Florida, do summon those named in said venire in the manner aforesaid to be in and ready to appear at said special term of said Court on the 6th day of February A. D. 1928.

"W. W. WRIGHT, Judge.

National Guard Units Will Sponsor Fight Program To Be Staged Wednesday Night

The first of a series of boxing attractions to be staged in Sanford during the next three months National Guard companies will be held Wednesday night at the armory on an announcement today.

Henry Godale, who has successfully promoted fights here on several other occasions, will have charge of the matchmaking. It was further stated, Godale has arranged an attractive card for his first evening's entertainment with Jack Persons and Red Ferris meeting in the main bout of the evening.

Both scrappers are clever fighters. They have been appearing recently in Orlando and Tampa where they have made favorable impressions. The two have never met before but have been anxious for an engagement for some time. Godale said today.

In his semi-final mixup, Godale has matched Kid Jerry and Mickey LaBelle, two bantamweights for eight rounds. This fight is expected to be almost as interesting as the main bout due to the enmity that is said to exist between the two. Jerry is certain of victory if LaBelle believes he can finish his opponent in five rounds.

Two rounds preliminary bouts will also be offered for the approval of the local boxing fans. The prize money will be \$100 for the winner of each bout. Popular interest will prevail.

At the same time, the National Guard units will sponsor a fight program to be staged Wednesday night at the armory on an announcement today.

HOUSTON AWED BY HONOR DONE BY DEMOCRATS

City Making Big Plans For National Convention In June To Select Nominee

HOUSTON, Jan. 31 (INS)—Although the announcement that this city will be host to the Democratic National Convention June 26, now is days and days old, Houstonians still speak of it with awe.

Even with the background of other large conventions, Houston just has to pinch itself to believe that the Democrats are really coming.

Just on the possibility that the dream might be true, however, business and civic leaders are preparing for one of the busiest programs this city ever tackled.

With about six months time in which to work officials realize that scores and scores of things must be done to care for the 25,000 visitors expected to attend the convention.

Mayor Holcomb has gone to New York and Washington where he will get initial suggestions as to what Houstonians must do from Louis H. Jones, new chairman of the convention, and arrangements for the national party.

Jones, it will be recalled, is the Houston capitalist who went to Washington and excited almost single-handed the biggest political event of recent years by bringing the convention here.

At present there is some question as to whether the long-eared leader who symbolizes the party will cavort about in a circus tent or in a frame building.

Until definite word is received from Jones, this decision is more or less up in the air. However, it is generally believed that the convention will not permit entertainment of the visitors in a tent. Such a condition would be a rude gesture, not indicative of the progress of the southwest, they claim.

A fund of about \$100,000 already is being raised for erection of a building on two city squares.

Raising Big Fund

At the same time officials face the task of raising between \$300,000 and \$400,000 for actual entertainment of the convention. It is planned to make the month of the convention a grand time for the city and to have no money will be spent in any quarter.

City officials are pushing to completion every improvement project, especially every being laid on beautification and street work.

Before he left for the East, Mayor Holcomb announced that he did not want the streets littered by a single excavation when the convention began.

Business here already reflect an upward trend on the strength of the fact that the convention will be here, even though it's six months away. Building set a high record the past week almost solely on the impetus furnished by the convention announcement and there is every indication that it will continue.

Southern Bell Extends Long Distance Service In Addition Of New Circuits

The long distance telephone system in the Southeastern States will be enlarged and improved by the addition of 134 new circuits during 1928, according to plans announced by the Southern Bell Telephone Company.

The expansion and reconstruction work will involve an expenditure of more than \$4,000,000. Approximately 11,385 miles of new circuit will be added which will make a total of 24,543 circuit miles of wire and 29,639 miles of pole line at the end of the year.

In Florida more than \$151,000 will be required for new circuits and reconstruction work and a total of four new circuits will be added, representing 248 circuit miles. This will give Florida a total of 27,187 miles of circuits and 3,000 miles of pole line at the end of the year.

All the new circuits and improvements are planned to care for the increasing volume of toll business and to extend the high speed service to additional points.

Telephone officials state that the developments in commercial long distance telephony last year were among the outstanding accomplishments of the Bell System Service was established between the United States and England, and between the United States and Mexico.

New improvements and inventions have speeded up the service so that the operators handle a great volume of calls almost as quickly as they are received.

The high speed service will be extended and that the new circuits will enable the company to care for the growth of the state.

French Government Reported Loss Of Heirlooms From Store

PARIS, Jan. 31 (INS)—More than 10,000 pieces of period furniture, priceless tapestries and national heirlooms which cannot be replaced have disappeared from the official storehouse of the French government within the last thirty-five years. Upon the demand of Senator Gaston de Kerguezec, Minister of Public Instruction Herriot has promised an investigation.

Ordinarily the furniture is used by the state only on rare occasions, for furnishing a Palace in preparation for receptions to foreign sovereigns, in embellishing ministerial offices for special occasions and for embellishing the Palace of Versailles for meetings of the National Assembly.

The last inventory of state furniture, supposed to be guarded and kept in repair by custodians of the National storehouse, was taken in 1894.

Since then, according to Senator de Kerguezec, backed up by Le Martin, piece after piece has been loaned out to individuals, to patriotic organizations born of the war and semi-official organizations.

Most of which have not been returned to the storehouse. In many cases furniture and furnishings actually returned to the storehouse were in such bad condition as to be beyond repair.

Custodians of the storehouse apparently hold no receipts for furniture thus loaned, hence they can make no demands to have the furniture returned. Minister Herriot has promised to take steps to prevent such disappearance of state property in the future.

The amount thus lost during the last thirty-five years is valued at more than \$250,000.

ST. PETERSBURG—Boyer & Hayward, Inc., St. Petersburg, with capitalization of \$50,000 chartered.

The demand for American walnut furniture and fittings requires fifty million feet of walnut lumber and \$25,000,000 feet of walnut veneer.

(Too Late To C) ACTIVE, reliable, magazine. Good position. Terms and Write Farm Journal, Orlando, Fla.

Feeling Between Army And Naval Academies Shown By Incident Occurring In N. Y.

By Davis J. Walsh, International News Service Sports Editor

NEW YORK, Jan. 31—Captain "Biff" Jones and Commander Jonas Ingram, respective head coaches of football at West Point and Annapolis, are following their own right and cordial in their personal relationship, refused to note together for a photograph at the Astor Hotel here, it was learned today. The incident was cited as showing the temper of the two academies on the question of their eligibility codes and as warning to congressmen who are trying, with some indication of impending success, to force the pair together next fall.

Army and navy football rivalry has been noted as a strictly recent pastime. Chain football is harder on the players, than the unwashed kind. The army and navy play clean football at that type when they like each other. They do not, at present, at least they seem to be hopelessly estranged by their respective eligibility and it might soon be the better part of good judgment to let them "cool off" for their lesson. A prominent term official informed the writer today that he might not care to handle the game if it is played this year.

"It might turn out to be one of the worst things that could happen to football," he said. "These fellows would all be wrong and if an official had to throw eight

of them out of the game it wouldn't look so good. I don't think I would want to be that official."

The Jones-Ingram incident is important only because it clearly indicates how keen the tensions are at West Point and Annapolis. These very good friends simply couldn't afford to pose together because they felt there might be a "kick back."

It developed at Philadelphia last Saturday night that the navy still entertains a faint hope that the game can be adapted for next fall. It holds the hope in the fact that Major General Wainwright, commander at West Point, is due for transfer to Manila. The navy regards Wainwright as the real de-facto of the entire controversy, and there is a strong feeling that what might happen in March before it definitely accepts. Promotion is a substitute for marking time for the same reason in its negotiations with several prospective opponents including Nebraska.

The policy of John Stry and Ingram, who is the President of the college, is to let the navy know that they know the president's word because he is a member of the legislature. Over an official who is a member of the legislature, the navy and the army are in a position to play the game this year.

"The high spot is expected when the commission on international law makes its report. The highly important matter of intervention is expected to be brought up for debate following the report of Dr. Victor Maurtua of Peru, a recognized authority on international law. The commission has as its chairman Dr. Gustavo Guerrero of Salvador, recognized as a critic of American policy in the Caribbean.

Sale Attracts Many Buyers To Local Store

An aggressive business plan for the first two days of their annual clearance sale staged at their store on First Street. The public reception exceeded expectations, the management reported. Regarding the bargain event W. E. Watson, member of the firm, said:

"Not in a mere way of formality, but in a true sense of gratitude, we wish to express to the people of Sanford and vicinity our appreciation for the liberal patronage given us during the first two days of our sale."

The pre-sending event will continue for several days longer and the public is cordially invited to visit the store and inspect the goods that are being offered. Everything has been reduced to give local buyers the advantage of what was declared to be the best bargain offered in Sanford for some time.

Blitish War Office Policy Will Change To One Of Economy

LONDON, Jan. 30—(INS)—British cuts in the British Regular and Territorial Armies will follow a new War Office policy of economy and reorganization during the present year.

These cuts have been dictated largely by the success of the "unhindered forces" during the manoeuvres at Salisbury Plain last fall.

As a result the process of reorganizing the British Army as to troops, tanks and tractors and to take the place of horses and men there will be a big reduction in military, cavalry will be almost entirely abolished. In consequence the estimate for the next budget is likely to show a large reduction.

It seems as though the present proposal, (abolition) force is likely to be almost abandoned. It was a significant nucleus for the British Army during the last war, but in peace time it is a very expensive luxury. In its place, it is likely that a selected group of officers and men are to be trained as instructors, so that if an emergency arose a civilian army could be trained rapidly along the lines of the latest and ever-changing military developments.

To keep a large Territorial Army in force at the present time, trained on lines which may be obsolete ten years hence—when all military science may be revolutionized—is realized as an unnecessary expense.

The new mechanical force will be small but very efficient.

Death Toll In Blast Is Increased To Six

NEWTON, Mass., Jan. 31—(INS)—The death toll of the blast which demolished the residence of Frank Gorgone in West Newton was today raised to six with the finding of another body in the ruins.

The explosion completely destroyed the house and grocery store and was believed to have been a dynamite blast. A still and two large vases were found in the cellar.

Taylor Talks Flood Aid To Committee

WASHINGTON, Jan. 30—(INS)—New Orleans must be protected at all costs in any flood control plan adopted by Congress, the Senate Commerce Committee was told today by Major General Harry Taylor, retired, former chief of army engineers.

The well being of the entire lower Mississippi valley depends upon this principle, he said. If New Orleans suffers from floods, the rest of the river states will also suffer because of the city's economic relationship to the rest of the lower valley.

"Somewhere along the line the people must sacrifice their lands for use as flood ways and spillways," he asserted, "in order that the valley as a whole may receive the maximum protection against floods."

Much Thunder In Winter

Thunderstorms occurred in winter in the according to a summary between October 1927 and 1928, for use of the time there were storms in the country on 36 days recorded, January storms, had the highest Great Britain and in November, with 18, in England. The districts were the central west coasts of Scotland. There were no whatever in many parts of East Midlands and parts of England.

Family Skeletons American Prestige Will Be Revealed Involved In Talk In Youth's Defense At Havana Session

LOS ANGELES, Cal., Jan. 31 (INS)—Family skeletons will be brought out of the Hickman case and paraded before the jury in the defense of the youth, Edward Hickman, on trial at the Laddington and market streets Marion Park.

This was his latest indignity. Defense attorneys announced both the mother and father of Hickman will be placed on the witness stand to bare their past lives.

Hickman's mother, Mrs. Eva M. Hickman, and Hickman's father, William Thomas Hickman, have been subpoenaed as defense witnesses. The parents, divorced, have been brought together, although not reconciled, in Hickman's hour of trial.

Not only will the father and mother tell of asserted traces of insanity, which the defense alleges runs back through three generations of the maternal branch of the family, but Hickman's parents will be called upon to disclose dark chapters of their own married life.

Mrs. Hickman, according to defense counsel, attempted to commit suicide and was confined in the Arkansas State Home for the Insane.

SOUTH JACKSONVILLE—Hendrick Memorial Church at Caldera Street and Hendricks Avenue to erect \$30,000 addition.

ST. AUGUSTINE—New Fullerwood school under construction.

Family Skeletons American Prestige Will Be Revealed Involved In Talk In Youth's Defense At Havana Session

WASHINGTON, Jan. 31 (INS)—The Republican president-elect will be the principal guest at the dinner here. The dinner marks the 45th anniversary of Kansas' admission to the union.

NICARAGUAN ISSUE DOOMED

HAVANA, Jan. 31—(INS)—Attempts of certain states to bring up the Nicaraguan issue in the Pan-American conference through the inclusion of a paragraph in the new code of public international law prohibiting intervention by one nation in the affairs of another, seemed doomed to failure today.

Mexico and Santo Domingo took the lead in attempting to force a paragraph into the code condemning intervention, while the United States is leading the opposition.

ONE KILLED IN BLAST

WEST HANOVER, Mass., Jan. 31—(INS)—One man was killed and 20 were reported to have been seriously injured in an explosion that destroyed the plant of the National Fireworks Company here today.

Curtis Boom To Be Launched Tonight

WASHINGTON, Jan. 31 (INS)—The Curtis boom will be launched tonight at the Washington Hotel. The boom will be a grand affair and will feature a variety of entertainment.

Detroit Ordinance Will Soon Place A Curb On Cabarets

DETROIT, Jan. 31 (INS)—Detroit's curb law has been passed by the city council and will be in effect soon. The ordinance will place a curb on cabarets and dancing in conjunction with food or soft drinks.

Sprague Will Speak To Local Kiwanians

Dr. R. J. Sprague, professor of economics and sociology at Rollins College, will be the principal speaker at the weekly luncheon Wednesday of the Sanford Kiwanis Club, according to an announcement today. The subject of the address will be "New Developments of Florida Communities."

France Repairing War Roads

France has started its "Programme des grands itineraires," the long awaited repairing damages caused to national roads by destruction and neglect that began with the outbreak of the World War in 1914. A schedule covering 6,000 miles of main roads has been started, and is expected that by the end of 1928 the first part of the post-war rehabilitation will have been completed. This will include improvements to highways between Paris and Dieppe, Paris and Cherbourg and Paris and Marseilles. Work on routes connecting Paris with the southwest of France and with the Belgian and Swiss frontiers will follow in a very short time.

Fruit Shortcakes

SHORTCAKE used to mean strawberry shortcake. Since the first strawberry festival was held in the Little Church Back Home, and Methodists with Presbyterians in creating the most delectable shortcakes—puffy as to taste and dripping with delectable juices of the red berry—strawberries have had a corner on shortcakes.

Some Good Shortcakes

Today, however, we realize there are all sorts of delectable fruit shortcakes—loganberry, blackberry, raspberry, peach and strawberry—and we need not wait till "festival time" if our kitchen shelves boast a supply of these

WEDNESDAY, FEB. 1, 1928

THE HIGHLANDS PROGRAM: Economy, city and county administration, sports, entertainment, news.

WIBLE YPSRE FOR TODAY: A SAFE GUIDE—In all thy ways acknowledge God, and he shall direct thy path.

PRAYER: "Guide me, O Thou Great Jehovah, Pilgrim Through this barren land."

YOUR TOWN AS YOU LIKE IT: If you want to live in the kind of a town...

Let somebody else get ahead. When everyone works and nobody thinks...

If you didn't get your tag yesterday look out for the police today.

Brunettes are more emotional than blondes, says a New York professor, which indicates what it indicates.

Insanity has been offered as a defense in so many recent murder trials, we tremble less the same move be resorted to by indicted bankers.

Headline says, "Navy Feels Relief Over Submarine S.S." Essentially there was no desire to jump from the frying pan into the fire.

If President Coolidge succeeded in getting any Florida sand in his shoes upon his recent visit, we have a good idea where he will spend his winters after he quits the White House.

The baby who takes after his father ceases to be beautiful—DeLand News. Our office boy says he takes after his mother and she takes after the old man—sometimes with a rolling pin.

Congress is in session again, and seems to have affected the temperature over the entire nation.

The famed potatoes of Hastings open their eyes these days upon a boy blazoned "Health, Wealth and Hathaway."

After chasing around all day trying to elude newspaper reporters, Tex Rickard was finally caught by the determined news hounds, and to them he spoke in wrath.

Uncle Benjamin of the Palm Beach Independent, referring to Martin and Hathaway, says that he has always voted for a candidate according to his ability, and not on account of the place where he was born.

Does Sidney intend that each county can legalize, if it will, street-walking and red light districts? Why not, if they are ever used as "amusements for tourists?"

Just where will Sidney draw the line? Does he mean that counties can decide or not, as they please, to allow or not to allow political demagogues to make speeches within their borders?

Whatever troubles a married man may have are more than offset by the feeling of security which he enjoys during the leap year.

Senator Thomas J. Heflin of Alabama has proven himself a disgrace to the United States senate and to the state he represents.

Hearty Support Is Needed

Sanford this week will hear the first of three celebrated artists who are scheduled to appear this season. On Friday evening the popular and versatile Geraldine Farrar, who has attained unusual success in opera and concert work...

Those who avail themselves of the opportunity to hear Miss Farrar will find a rare treat in store. Many of the selections which have brought her world wide fame in concert work are to be rendered in her appearance here.

It has seldom been Sanford's privilege to entertain such distinguished figures in the musical world and this fact makes the honor even more significant.

Sanford should not pass up the opportunity. There are hundreds of music lovers here who welcome it. The prices for the attractions are small in comparison with the entertainment and enjoyment that is to be derived.

All In A Life Time

Word comes from Paris designers and fashion creators that we may expect some early changes in milady's clothes. No drastic departure from present-day styles are anticipated, but the innovations are expected to add considerable attraction to the simplicity of reigning fashions.

1. Hips accentuated by moulded lines and girde or puff effects.

2. Waistlines rising perceptibly toward the normal waist.

3. Skirts an inch or two longer by day, but sweeping much lower at night.

4. Colors, richer, more various and more subdued. Some of the mysterious shades will be known as "laffy," "porridge," and "honey."

5. Smart details such as ingenious decorated sleeves, tiers and flares, fluttery bows, ties, and scarfs, elaborate shoes of exotic leathers or cloths and hats, mostly of straw, with some felt and straw combinations, many worn with new nose veil effect.

With all this knowledge at hand, we may prepare for the worst. While the women rave about this and that feature, the men will continue to be as perplexed as ever.

Responsibility of Lawyers

Lawyer's duty is to protect the innocent and to punish the guilty. He should not be swayed by the passions of the moment.

TALKING OF ARBOR DAY

Arbor day, Friday, February 3, should be a date remembered in Florida. Of course, almost every day ought to be Arbor day in this state, and Jacksonville has ample demonstration of the excellent custom of planting trees in various parts of the city.

Florida, among all the states, needs most to plant trees and take care of trees in every place where they can be placed, for beautifying the landscape and for the shade which the majority of them afford during the greater part of the year.

Florida, among all the states, needs most to plant trees and take care of trees in every place where they can be placed, for beautifying the landscape and for the shade which the majority of them afford during the greater part of the year.

Mrs. Lehman Hostess For Indiana Visitors

A very pretty social event
of the week was that of Tuesday
when Mrs. H. J. Lehman enter-
tained at luncheon at her home on
Palmetto Avenue, honoring Mrs.
B. A. Root and Mrs. A. A. Winstead,
wife of Crown Point, Ind., who are
visiting in Sanford for a short
time.

An abundance of sweet peas
and baby breath was artistically
used about the rooms of this cozy
home and also centered the at-
tractively appointed luncheon
table. Placed at either side of the
center piece were tall pink tapers,
flaming in silver holders. The
places of the guests were marked
with unusual cards done in sug-
gestions of Valentine Day. At 1
o'clock a tasty six course dinner
was served.

Mrs. Rounillat Gives Lovely Bridge Party

Of exceptional interest and
pleasure was the bridge party
given Tuesday afternoon when
Mrs. F. E. Rounillat entertained
the members of the Duplicate
Bridge club at her home on
Palmetto Avenue.

The rooms where the games
were played were adorned with
quantities of pastel tinted sweet
peas and ferns.

Refreshments consisting of a
tasty salad course with coffee were
served by the hostess at the con-
clusion of the games.

Mrs. Deane Turner Is Honored by Mrs. Krupp

Mrs. Deane Turner of Fort
Myers, who is visiting here in
Mrs. Ernest Krupp, was the guest
of honor at a delightful lunch
party given Tuesday afternoon
given by Mrs. Krupp at her home
on Park Avenue.

Boards of pink nap dragons were
used in decorating the living room,
while eucalyptus were used with
pleasing effect on the sun porch
and in the dining room.

Scores for the games of progres-
sive bridge were kept on unique
Valentines and when the usual num-
ber of games had been played,
scores were collected by Mrs. J. E.
Brouse and the first prize, a lovely
linen towel was won by Mrs. G.
Irvine Loucks. The guest of honor
was presented a dainty handkerchief
at the tea hour. The tables ne-
cessary were removed and the
hostess served a delicious refresh-
ment course with coffee.

Dr. Albert Durham of Toledo, N. C.

Dr. Albert Durham of Toledo,
N. C., who has been visiting his
brother L. E. Durham at the
Seminole Hotel, has returned to
his home.

Edith Juanita Gunter First Baby To Be Entered In American Legion Show

Baby Edith Juanita Gunter,
four year old daughter of Mrs.
Charlotte Gunter of 300 Park
Avenue, was the first little tot to
be entered in the Prize Baby Show
conducted by the local post of the
American Legion.

The baby show headquarters at
108 Magnolia Avenue, have been
open but one day, but more than
twenty youngsters have been af-
ficially registered for the physical
examinations and for the beauty
show. Every effort is being made
by the Legionaires to make these
events the equal of the baby show
recently held by the Legion in Or-
lando which received the enthu-
siasm and support of the mothers of Or-
ange county.

Amongst the first day's baby en-
tries were: Edith Juanita Gunter,
1 year 7 months, Harry Frank
Giovanni, 3 months, Raymond G.
Fox Jr., 1 year 4 months, Cath-
erine Lillian Clark, 9 months, Min-
nie Ruth Oldham, 8 months, Emily
Phillips, one year, two months.

Robert John Holly, one year three
months, Neil Price Stewart, three
years 11 months, Ruth Louise Ben-
lowood to seek her first job as an
extra girl her knowledge of the
world at large was confined to the

Here's the 2,000,000th Buick!

FLINT, Mich., Feb. 1.—Viewed in retrospect, the year 1923 stands out as one of the most satisfactory in Buick history...

The 2,000,000th Buick was built in November, heavy sale of the 1928 models advancing the date of its production considerably...

and Chicago will also see it. The contrast between this luxurious creation in maroon Duco, shining nickel and rich upholstery...

Figures kept by the Buick organization indicate that 1,500,000 of the 2,000,000 Buicks still are in active service today.

A huge program of expansion, necessitated by demand for Buicks and the desire to extend supervision over the product's quality...

STYLE HINTS FROM PARIS

PARIS, Feb. 1.—(INS)—A ring with six settings which even a child can change, is the latest crink in jewelry grown from the taste for a perfect ensemble in the costume.

Lavender-water, lavender-scented dusting powder and lavender soap form another ensemble in quite a different line.

All kinds of belts of curious designs make new accessories. There are metal snakes which can be worn with velvet or lame jumpers...

Dolls are not always intended for the children. Fascinating ones in the shape of bags for the bedroom or salon are used to hold the nightdress or sewing.

Upsala & Grapeville

Rev. Swanson of Orlando preached Sunday in Upsala supplying for Rev. Eckardt.

Mr. and Mrs. W. Swayne were in Formosa to consult Dr. Andrews on Tuesday.

Miss Maude Lake spent Wednesday as the guest of her friend, Miss Ann Wright.

Miss Westrick and her niece, Mrs. Hazel Edge and two little sons were guests Thursday at the home of Mrs. Harvey Beck.

Miss Westrick will keep the children, while the mother is in the hospital.

Elmer Lundquist was a guest here Sunday at the home of his parents, Mr. and Mrs. H. G. Lundquist.

A. J. Peterson was pleasantly surprised by a visit from his nephew, A. Lyons and Dr. Harry Quire, of St. Johns, Michigan.

Ohio Chamber Commerce Is Strongly Opposed To Big Boulder Dam Project

COLUMBUS, O., Feb. 1.—Declaring that Ohio is interested in the proposed construction of Boulder Canyon dam, on the Colorado river, because this state pays six times the taxes of the region to be directly benefited...

The statement, in support of a position taken by the chamber's board of directors, was accompanied by a printed report of a study made by Samuel S. Weyer, of Columbus, the Ohio Chamber's consulting engineer.

The Chamber's statement sets forth seven reasons for its stand: ONE.—The territory directly benefited involves the lower counties of California and parts of adjoining states.

TWO: The bill, now before Congress, empowers some future Secretary of the Interior, at his own discretion to engage the government in the manufacture and sale of electric power.

THREE: There is no hazard of life from floods in the Imperial Valley of California.

FOUR: The creation of the proposed dam in Boulder Canyon would serve to protect the Imperial Valley from floods originating above the point, but not below the point of the dam.

FIVE: The value of the dam for production of hydro-electric power is debatable.

production of hydro-electric power is debatable: Boulder Dam being situated in an arid, and sparsely settled region, about 250 miles from the nearest industrial center.

SEVEN: This is a typical instance of increasing centralization of authority and expenditure in federal bureaus.

"This is a far cry from ideas of the founders of this government," the chamber's statement concludes.

"The present tendency to centralization for all sorts of purposes is not checked, the states of the Union will be reduced to the position of mere countries within the next two or three generations."

In his technical report, Weyer declares there is "no economic Santa Claus" and that no governmental agency can spend a dollar that does not ultimately come from some individual.

"The government in no way makes money, but merely disperses it as it is collected from individuals," the engineer says.

"The hire of capital is just a disbursement of cost of the project, or cost of operating, as the hire of labor is paid with federal funds, the government must pay interest for the money and must set aside sinking funds to retire the loans."

Referring to irrigation of the Imperial valley, planned as a part

ENGLAND LEADS WHOLE WORLD WITH AIRCRAFT

Four World Record-Breaking Planes Have Been Built In Period Of Twelve Months

LONDON, Feb. 1.—(INS)—A year ago England was far behind the other Great Powers in the design and performance of her aviation.

Today England leads the rest of the world in the quality and speed of her aircraft.

Within the space of little more than four years, Britain has perfected four world record-breaking planes. Within this time her pioneer have gained an unrivaled, extensive knowledge of the air routes throughout Europe.

Under construction at the British naval base at two giant airfields are two more of the proposed federal project of the "All-American canal," which is included in the bill at the principal feature of the irrigation works.

Weyer declares a new treaty with Mexico would be necessary, thus adding international complications to the construction of the canal, the main flow of the water would be changed from the Mexican side of the border to the American side of the Imperial Valley.

Weyer declares a new treaty with Mexico would be necessary, thus adding international complications to the construction of the canal, the main flow of the water would be changed from the Mexican side of the border to the American side of the Imperial Valley.

Weyer declares a new treaty with Mexico would be necessary, thus adding international complications to the construction of the canal, the main flow of the water would be changed from the Mexican side of the border to the American side of the Imperial Valley.

Pan-American Golf Tourney Is Planned

Future Plans are concentrated on three main objectives:

1. The attainment of quality in aircraft.

2. Superiority in the development of commercial aviation.

3. Extensive efforts to increase public interest in air travel.

The only weak spot in Britain's air service is in the number of mechanics. But the British Air Ministry, fully aware that quantity can be secured, has borne out for the latter, and has attained it in the form of high-speed machines, which are nothing more than "flying-bullets," to twelve-ton searworthy flying boats.

During the past year the four planes, constructed and designed in England, which achieved fame as "super-breakers" were:

1. Supermarine-Napier S-5, winner of the Schneider Cup Trophy, and the last word in high-speed monoplane design.

2. Gloster-Napier IV, broke all records for biplanes.

3. Crusader—fastest machine with an air-cooled engine.

4. Tiger-Moth—attained a new speed record for light aeroplanes.

Another Tiger-Moth plane, piloted by a woman aviator, also made a new height record for light aeroplanes last October.

Receiving the finishing touches

Business Improvements Think S. M. Lloyd

A prediction that business conditions will improve materially within the next month was made by S. M. Lloyd today in commenting upon his shoe sale which has been in progress for a number of weeks.

"Increased buying where bargains are being offered is the key to business improvement," said Mr. Lloyd. "I believe we have been conducting a sale which has been profitable for the public and has proved that where good values are offered the public responds."

Mr. Lloyd's friends said he believed his sale was one of the best which has been held here during the last year.

Following the March 20 to 24 event for men, a Pan-American Amateur Golf Tournament, also sponsored by the association, will be held on the same course April 11 to 14.

at the Royal Aircraft Establishment, Farnborough, is a Bristol biplane with unusually large wings, and an air-cooled "Jupiter" engine, specially equipped for exploration flights in the upper air.

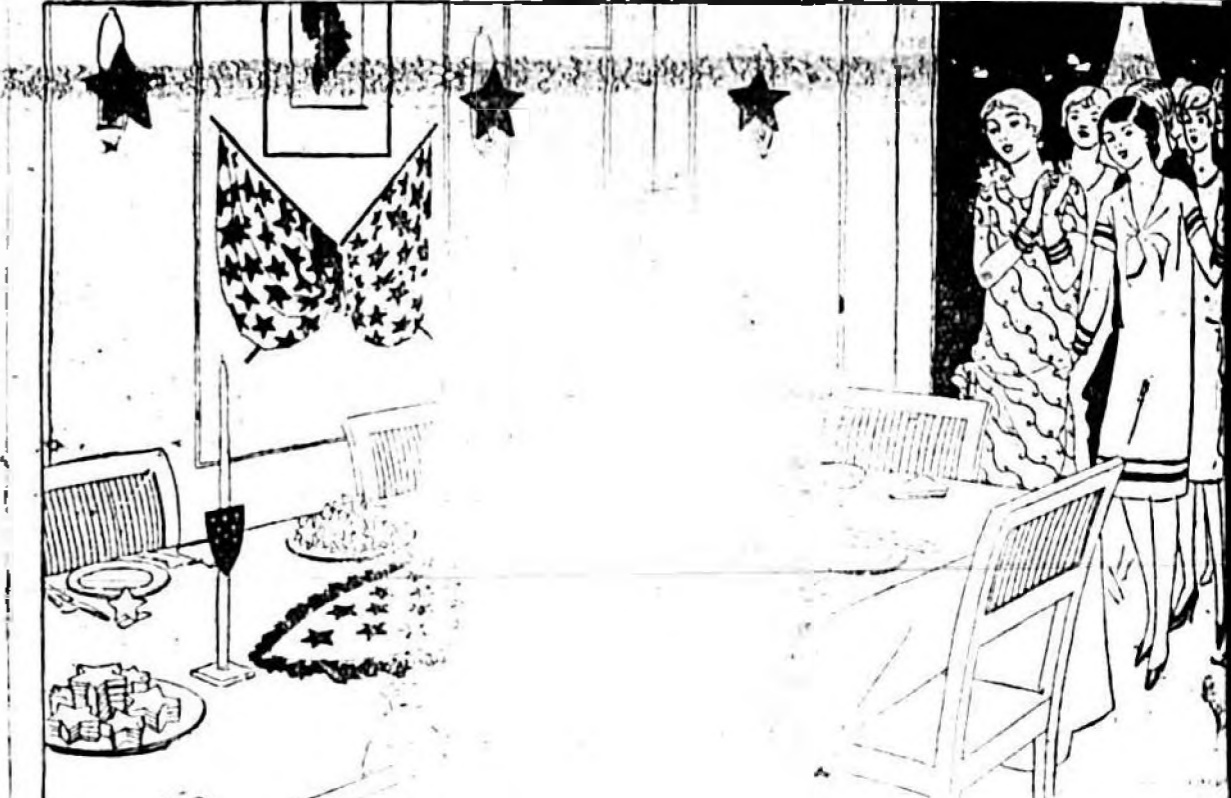

MADISON—Addition of second story being built to C. A. Blalock garage building at corner of Range and Marion.

KNOXVILLE, Tenn., Feb. 1.—(INS)—Wilson A. Weber, a Negro has been selected as a juror for the federal district court here and is expected to be called for jury service in cases this week. He is the first Negro qualified as a juror in a federal court for many years.

MADISON—State Highway 1 between Greenville and Concord in Jefferson County open.

A Patriotic Birthday Party

To give a patriotic party in February—the birth month of Washington and Lincoln—is a delightful idea. But to make it novel is not so easy.

As each guest enters she is seated and given a piece of paper and a pencil to each is assigned the name of some one famous in our history, such as Washington, Alexander Hamilton, Lafayette.

When the refreshments are served, a pretty sight meets the eye. In the middle of the table is a blue shield bearing the thirteen little stars, framing it is a band of red or ferns. Paper stars, torn blue cards. Refreshments carry out the star idea and are in red and white.

Star Refreshments: When the refreshments are served, a pretty sight meets the eye. In the middle of the table is a blue shield bearing the thirteen little stars, framing it is a band of red or ferns.

Star Salad: Shrimp, Spinach, Peas, Tomatoes, Dressing, Mayonnaise, Parsley, Chives, Lemon Juice, Salt, Pepper, Canned Peas, Canned Corn, Canned Beans, Canned Tomatoes, Canned Mushrooms, Canned Onions, Canned Peppers, Canned Apples, Canned Pineapples, Canned Oranges, Canned Lemons, Canned Limes, Canned Grapefruit, Canned Mangoes, Canned Guavas, Canned Passion Fruit, Canned Custard, Canned Ice Cream, Canned Sherbet, Canned Gelatin, Canned Fruit, Canned Nuts, Canned Raisins, Canned Currants, Canned Cranberries, Canned Blueberries, Canned Raspberries, Canned Blackberries, Canned Strawberries, Canned Applesauce, Canned Peach Sauce, Canned Cherry Sauce, Canned Plum Sauce, Canned Apricot Sauce, Canned Pear Sauce, Canned Orange Juice, Canned Lemon Juice, Canned Lime Juice, Canned Grapefruit Juice, Canned Mango Juice, Canned Guava Juice, Canned Passion Fruit Juice, Canned Custard, Canned Ice Cream, Canned Sherbet, Canned Gelatin, Canned Fruit, Canned Nuts, Canned Raisins, Canned Currants, Canned Cranberries, Canned Blueberries, Canned Raspberries, Canned Blackberries, Canned Strawberries.

Place two halves of canned pear

MODERNITY STRIKES HAWAII

THE modern woman has arrived in Hawaii. Albeit, bold, shameless Chinese girls are going around with their trousers cut short—can it be believed?—just below the knee.

The Chinese are an industrious race, a thrifty people. They look ahead and plan for the future. As a contrast, there is the Hawaiian, a disappearing element in the life of the Hawaiian Islands.

Hawaiian Can Drive The Hawaiian has his little home, with taro patch nearby, fish nets and an outigger canoe peering out to sea.

FOR INFORMAL PARTIES Smart for every social occasion from the luncheon hour to tea time is this design in figured velvet and satin.

When the missionaries arrived in Hawaii they found the natives by ignoring it. Without any dress the natives women gave away their valuations and dowry garments to a Mother Hubbard.

O, but a favor? Certainly. Work? Well, maybe. There is a shade of reluctance on the little brown face, but every Hawaiian is essentially polite and kindly, so he will do the hated work.

When the missionaries arrived in Hawaii they found the natives by ignoring it. Without any dress the natives women gave away their valuations and dowry garments to a Mother Hubbard.
