## DAIL EIREAN MEETING THIS MORNING ADJOURNED TO DISCUSS THE SITUATION

Created By Presentation DeValera's Alternative Proposal ON A SETTLEMENT

LOOKS LIKE PEACE MIGHT BE SECURED FOR OLD IRELAND SOMETIME SOON

(By The Associated Press) DUBLIN, Jan. 5.—The Dail Eireann met this morning and immediately adjourned until this afternoon. Adjournment was made to give members an opportunity of discussing the situation created by the presentation of DeValera's alternative proposals concerning the Irish settlement with England.

LONDON, Jan. 5.—J. J. Walsh, a member of the Dail Eireann was quoted in a Central News dispatch from Dublin today as saying in a statement he could definitely state that as the position now stands the treaty will be defeated by at least two votes.

DUBLIN, Jan. 5.—Eamon DeValera when the Dail Eireann rose yesterday evening, produced for the first time publicly his alternative proposals to the Irish treaty. A fortnight ago he was asked by Arthur Griffith to publish them and Mr. Griffith repented his challenge at yesterday's debate.

Mr. DeValera's original idea, as announced by himself, was to move his alternative propositions in the event of rejection of the treaty. But, he changed his mind, and now intends, if he is permitted, to move them as amendment to the resolution approving the treaty.

The document, whose secrecy has been carefully guarded, except for obscure hints by Dail members who saw it in the private sessions, was issued to the press, accompanied by an appeal by Mr. DeValera in a manifesto addressed to the Irish people, urging them not to be stampeded in the support of the treaty, which would not bring peace.

29,000 MOTOR CAR LICENSES ISSUED

TALLAHASSEE, Jan. 4.—(Special)—Probably the busiest place in Florida just at this time is the office of the state comptroller, where applications for automobile licenses are being handled. An idea of the speed with which the work is being done may be had when it is known that 3,200 licenses were handled through the mills and sent out today. All the incoming mails through Saturday night have been handled today and the only applications to be worked are those arriving Sunday and Monday.

The total number of Motor vehicles registered to date is, in round numbers, twenty-nine thousand. When it is understood that there are sixteen classes of licenses it is readily seen that the work is being dispatched with the utmost promptness. The comptroller has already circulated 150,000 application blanks printed on the multigraphing machine in his own office about 100,000 more during the season.

A number of the applications are coming in incomplete and are having to be returned for correction, some fail to state whether the vehicle is to be used "for hire", or not, some also in various other ways fail to give information which is absolutely necessary for classification. The work under the direction of Mr. Amos, the comptroller and Capt. R. A. Gray, chief clerk in the automobile license department, goes on night and day and applicants are receiving service which is splendid and prompt.

More than one hundred thousand vehicles were licensed last year and the number during the present year will no doubt go far in advance of the previous figure.

Well, well, it's fair enough. Some women roll their stocks, and some roll baby carriages.

Not all of the slate is used in anthracite coal. Some of it is used in cheap lead pencils.

## BANDITS KILLED BANK PRESIDENT SHOT MESSENGER

GAVE THEM NO CHANCE TO EVEN GET UP THEIR HANDS

(By The Associated Press) CHICAGO, Jan. 5.—John Soffel, president of the Maywood State Bank, was shot and killed and Louis Sweeney, chief of police of the suburb and Arthur Benson, bank messenger wounded today when five bandits robbed them of \$12,000 pay roll for the Maywood plant of the American Can Company. The bandits did not give the banker and his two guards a chance to hold up their hands. They ordered the pay roll car to stop and as it came to a halt they opened fire killing Soffel instantly. Benson's injuries are serious.

## Penrose Funeral Was Held This Morning in The Same Secrecy

That Surrounded Making of All Arrangements for the Funeral

(By The Associated Press) PHILADELPHIA, Jan. 5.—The funeral of Senator Penrose was held this morning, the same great secrecy that surrounded the making of arrangements for the funeral being maintained until the body was lowered in the grave in South Laurel Hill cemetery. No information as to whether any religious services at the house or at the cemetery. Newspaper reporters were not admitted to the burial ground, guards being stationed everywhere and reporters being informed they would enter at their own peril.

Later in the day Senator Penrose's secretary said there was some sort of service at the grave. Said he did not know who conducted it.

## Grand Embezzlement Has Been Charged Against Expressman

Who Said He Was Held Up and Robbed at Tampa

(By The Associated Press) TAMPA, Jan. 5.—A charge of grand embezzlement was filed in criminal court today against S. L. Smith, an employee of the American Express Co., who confessed Thursday he had invented the story that he had been held up and robbed of the company's funds he was taking to the bank and that he hid the money in a swamp. The money was recovered. Information filed against him charges that he attempted to rob the company of \$1,824.

## CRATE MILL BURNED AT SUMMERFIELD TODAY, FIFTY THOUSAND LOSS

SUMMERFIELD, Jan. 5.—The crate and box mill of the Sunset Crate & Lumber Company here was destroyed by a fire of undetermined origin early today. The loss was estimated at \$50,000, partly covered by insurance. Six cars on the Seaboard Air Line siding were burned.

## HAND CONCERT FRIDAY NIGHT

The hand concert will be given tomorrow night instead of tonight as the Chamber of Commerce banquet takes place tonight. The regular program will be published in tomorrow's Daily Herald.

## CATES IS IMPROVING

J. J. Cates who was badly injured yesterday by being knocked down and run over by a truck is resting easier at the hospital and the chances are good for his recovery the physicians think. It was rumored several times yesterday that he was dead but there seems to be an even chance now for him to pull through. His many friends are hoping for his recovery.

## POSTMASTER GENERAL HAYS MAY RESIGN HIS JOB FOR MOVING PICTURE OFFER

Has Been Offered \$150,000 a Year and Bid Been Increased

(By The Associated Press) WASHINGTON, Jan. 4.—Postmaster General Hays said today he has not yet decided whether to leave the cabinet and accept the new place of-

fered him in motion picture industry and it is not likely that he will make a decision within the next ten days. He will discuss details of offer with picture magnates January 14th. It is understood he was offered \$150,000 a year to begin with but this sum is now said to be somewhat under the sum now in prospect as bid had been increased upon Hays hitherto repeated refusals.

## INDICTMENTS CHARGE VIOLATION OF SHERMAN ANTI-TRUST LAW RETURNED BY FEDERAL JURY

(By The Associated Press) NEW YORK, Jan. 5.—Indictments charging violation of the Sherman anti-trust law, were returned by the federal grand jury against eleven corporations and ten individuals alleged to be members of the sewer pipe combine. Indictment returned secretly several weeks ago unsealed today.

WASHINGTON, Jan. 5.—Investiga-

tion by the Federal Trade Commission of the house furnishing goods industry was directed in a resolution adopted late yesterday by the senate. The resolution, sponsored by Senator Kanyon, Republican, Iowa, provides that the injury shall embrace the cause of factory, wholesale and retail price conditions in the industry. There was no record vote on the resolution.

## ITALY AGREES TO RESOLUTION ON SUBMARINES

PROVIDED FRENCH DELEGATION WILL AGREE TO THE SAME PROPOSITION

(By The Associated Press) WASHINGTON, Jan. 5.—Italy decided to accept the second Root resolution prohibiting attacks by submarines on merchantships provided the French delegation does the same, it was said in authoritative Italian circles. This decision will make possible to hold a session of the full naval committee today.

## SHIPPERS TO MEET IN JACKSONVILLE TO DISCUSS RATES

INVESTIGATION IS BEING CONDUCTED BY INTERSTATE COMMISSION

To the Shippers of Florida: The Railroad Commissioners of the State of Florida hereby call a conference of shippers to meet January 9th, 1922, at 11:00 a. m., in the City Council Chamber, Jacksonville, Florida, for the purpose of determining what, if any, action should be taken by the Railroad Commissioners, or representatives of shippers, in the general rate investigation which is now being conducted by the Interstate Commerce Commission at Washington.

These hearings opened on December 6th, and continued until the 14th, and hearings will be resumed on January 11th, and continued until completed, which will be some time in February.

It is earnestly hoped that the shippers will respond to this call, and attend the conference above referred to. The hearings being conducted by the Interstate Commerce Commission are as wide-spread as the investigations made in 1920, upon which the present rates were established.

Yours very truly,  
FLORIDA RAILROAD COMMISSION.

## Some Man! Some Man! Shot Off His Hand and Drove Car 40 Miles

Over Ice Covered Road to Get The Doctor

(By The Associated Press) SPOKANE, Jan. 5.—After losing his right hand in hunting accident yesterday, H. J. Jones, of Malden, Washington, stopped the flow of blood and then walked several miles to his automobile and then drove forty miles over ice covered roads to the doctor.

## MANY FAMILIES HOMELESS AT TULSA, OKLA., AFTER YESTERDAY'S BIG STORM

PREPARATIONS GO FORWARD FOR OPENING

ALLIED SUPREME COUNCIL AT CANNES, FRANCE—BIG THINGS TO HAPPEN

(By The Associated Press) CANNES, France, Jan. 5.—Preparations went forward today for the opening here tomorrow of the Allied Supreme Council. A meeting was held today at which reparations and proposed international economic conference was discussed.

Representatives from France, Great Britain, Italy, Belgium held two sessions during the day. With the arrival of Viscount Ishii, at the head of the Japanese delegation, and Premier Theunys, of Belgium, everything is ready for what increasingly emphasized as the most momentous assembly of the past two years struggle to set Europe aright and get Germany started on reparations payments.

CANNES, Jan. 5.—With the air full of talk of an alliance between France and Great Britain as the only means of keeping the entente intact, Premier Briand and Prime Minister Lloyd George yesterday resumed their conversations which were begun some days ago in London.

"The conversations are continuing" was the only comment the French premier would make after a two hours' talk with Lloyd George yesterday afternoon.

General reticence is being observed by the principals of the British delegation on the eve of the opening of the Allied Supreme Council meeting regarding such an alliance.

Premier Briand said before going to the British prime minister's villa that it might be putting it rather strongly to talk of a formal alliance. Yet, he said, the policy of France all along had been to strengthen her ties with her war allies, since this seemed essential to a settlement of European problems.

Members of both the French and British delegations are agreed that the situation is grave and that the entente powers must come closer together or they will drift more widely apart. The difference of opinion appears to center around the question of who ought to make a concession necessary to bring about closer accord. The atmosphere throughout the day was generally pessimistic.

Premier Bonomi, of Italy, arrived on the scene late yesterday afternoon and expected to see Premiers Briand and Lloyd George during the evening.

## WEATHER AND CROP CONDITIONS IN FLORIDA FOR THE WEEK ENDING JAN. 3, 1922

Temperature: The temperature was generally moderate, except the last two days, when the weather was much colder than the seasonal with freezing over the northern portion and frost or frost temperatures in the central division. There was a return to near normal temperature on the last day of the week.

Precipitation: The week was practically rainless, as only light and unimportant amounts occurred at a few stations. The absence of rain was unfavorable over most of the section, and it is needed, especially on uplands.

Condition of Crops: Citrus fruits were benefited by the comparatively low temperature during the last days of the week; the trees, also, some of which were showing abnormal growth for the season. Trees that were defoliated as a result of the October storm gave evidence of recovery. Celery, lettuce, and cabbage will be benefited by the change to colder; some tender truck, such as beans, suffered from frost; local picking of strawberries occurred in Plant City section. Some tomatoes and other truck were set out in the south. The freezing weather over the extreme north and west enabled farmers to kill hogs, which had been unduly delayed. The rather pressing need at this time is a wide distribution of moderate rains.

MANY ARE INJURED

AND SEVERE DAMAGE IS REPORTED IN OKLAHOMA, KANSAS AND MISSOURI

(By The Associated Press) TULSA, Okla., Jan. 5.—With at least a score of families homeless and several persons injured, several towns in this district recovered today from the storm which yesterday swept thru Northwestern Oklahoma and reached into Southeastern Kansas and Southwestern Missouri. Severe damage was reported at Miami, Commerce, Turley, McAlester, Picher, Muskogee and other Oklahoma towns. In Kansas the storm centered around Galena and Baxter Springs. Joplin, Mo., was also hit.

GASPARILLA CARNIVAL WILL BE BIG FEATURE OF SOUTH FLORIDA FAIR

TAMPA, Jan. 5. (Special)—Joe M. Lozano, captain this year of the Ye Mystic Krewe of Gasparilla, the organization which puts on the far-famed Gasparilla carnival at Tampa each year, announces that all of the dates have been arranged for the spectacular event. The dates are:

Jan. 9—Election of Gasparilla XIV, his queen and court.  
Feb. 1—Annual bachelors' ball, at the Tampa Yacht and Country Club.  
Feb. 3—King's ball, at the Tampa Bay hotel.  
Feb. 5—Rehearsal for Krewe, at Tampa Bay casino.  
Feb. 6—Invasion of the city by the Krewe. Banquet at the Tampa hotel.  
Feb. 7—Annual coronation ball, at Tampa Bay casino.

The election of the king and queen is a great event among the Gasparillians. The several candidates—there are always two or more for king and queen—are voted on by secret ballot. Only the tellers who count the votes know who has been honored by selections. And they keep the secret right up to the night of the coronation ball, so that the ceremonial of crowning the royal pair who will preside over the festivities of Ye Mystic Krewe of Gasparilla is always an event of absorbing interest not only to the members of the Krewe but also to the people of this section generally, for Ye Mystic Krewe has members in all parts of the state who come here annually to take part in the revels of the "pirates" at their yearly gatherings.

But to the general public the principal event is the "capture" of the city, which is effected by the Krewe in true pirate style, when they come up to Tampa on a raskish schooner, with dummy cannon but real small arms. The pirates look true to their name, with their attire which is of the mode worn by pirates in the halcyon days of Drake, LaFitte, Kidd and other kindred spirits of the "take what you can" days of the Spanish Main. The "capture" of the city is followed always by a spectacular parade.

Miller, the noted Philadelphia costumer, is preparing the costumes which will be worn by the pirates.

## LARGE AND GREAT CAST IN "THE OLD NEST"

"The Old Nest" a Reginald Barker production offered by Goldwyn, which comes to the Star Theatre for two days, beginning Friday, is perhaps the richest picture in personalities that has been placed before the public in many a season. The story and the scenario were written by Rupert Hughes, the direction was handled by Reginald Barker, and the cast includes the following players: Mary Alden, Cullen Landis, Louise Lovely, Helene Chadwick, the famous "Edgar" children, Johnny Jones, Buddy Messenger and Lucille Ricksen; Maurice B. ("Lefty") Flynn, Molly Malone, Richard Tucker, Nick Cogley, Dwight Crittendon and several others.

### SID SAYS. If You Expect Any Miracles in 1922 You Have Got to Perform Them

(By J. M. Siddall, Editor of The American Magazine)

THE NEW YEAR is at hand. But January 1 and the days to follow will be no different from December 31 and the days behind, unless you make them different.

One of the silliest of human delusions is the idea that time will bring everything out all right. Haven't you heard people get that off—and then proceed to do nothing whatever with time? The most pitiable business failure I know of was due to a self-deluded individual in the concern who did nothing but uoensol the great things that time was going to do for the business. "Just wait," was his advice. "What we need is time. Leave it to time." So they did. And in time the business decayed.

Foolish people leave all sorts of things to time. Some leave the question of ill health to time. Others leave the question of thrift to time. Only today I heard of a \$25,000-a-year man, right here in New York, who at 50 is spending every nickel he makes—nothing. I suppose he thinks that God cares for the ravens, and that God will take care of him. God will no doubt care for him—just as He cares for the ravens. But the ravens don't live until they lose their jobs because of old age. Neither do they require steam heated apartments, underclothes, and hair mattresses to sleep on.

Left to itself, time is nothing but a grand little passer. Look how it passes in the desert and in the Arctic circle. Plenty of time—but no potatoes.

Don't leave anything to Father Time. He won't do anything for you. He can't. All he does is to provide you room in which to perform. If you sit in the corner and wait for him to do your job, you'll be disappointed.

Father Time is only a sort of janitor in the employ of the Almighty. He sees the tenants come and go. But he has nothing to do with any of them, cares nothing about them. When you enter the arena he may bow and say, "Good Morning." When you check out 70 or 80 years later he may say, "Good Night." That, however, will be the extent of his interests in you, or knowledge of you. He sees billions pass in and out the gate—dunces, mediocres and bright boys like Caesar and Willie Shakespeare. But they all look alike to him.

### WOMEN VOTERS GETTING BUSY HAVING MEET

#### IN JACKSONVILLE AND OTHER CITIES WITH PRESIDENT OF LEAGUE PRESENT

Mrs. Maude Wood Park, president of the National League of Women Voters, and Mrs. Julian B. Salley, director of the Third Region of the League, will spend three days in Florida, the sixth, seventh and eighth of January.

Mrs. Park and Mrs. Salley, who are visiting the Leagues of Women Voters of the Third Region, will arrive in Jacksonville on the sixth of January. Arrangements are being made by the Jacksonville League to have a luncheon in Jacksonville in honor of those women of national prominence. Mrs. Park will speak on League work at that time therefore it is hoped that men and women from nearby counties will attend.

Reservations may be made with Mrs. Georgia Huntley, New St. James Hotel, Jacksonville.

Mrs. J. B. O'Hara, chairman of the Florida State League of Women Voters will join Mrs. Park and Mrs. Salley in Jacksonville from which point they will go to Tampa.

Mrs. Park, on January 7th, will address a gathering at a luncheon in Tampa. Mrs. T. L. Karn, 810 South Newport avenue, will be in charge of arrangements there. Reservations may be made through Mrs. Karn.

On Sunday night Mrs. Peck and Mrs. Sally will leave Jacksonville enroute to Birmingham, Ala. Mrs. O'Hara, state chairman, will go to St. Petersburg, the guest of the St. Petersburg League to attend the Pinellas County League meeting which is to be held in that city.

The first convention of the Florida State League of Women Voters will be held in Jacksonville on January 26, 27 and 28, with headquarters at the Seminole Hotel.

The Board of Directors of the League will meet in a morning and an afternoon session on Thursday, the 26th. The formal opening of the convention will take place that evening. The closing session will be held Saturday morning, the 28th.

A very interesting program is being prepared and will be announced later.

Mrs. Georgia Huntley, New St. James Hotel, Jacksonville, is chairman of the Hospitality Committee.

Members of the Diplomatic corps calling to greet President Harding included Karl Lang and Edgar Prochnik charge d'affaires for Germany and Austria.

### ITALIAN SAILORS ATTACK AMERICAN SAILORS IN SHANGHAI CAFE

(By The Associated Press) SHANGHAI, Jan. 2.—Serious trouble between sailors from Italian and American warships here developed today who two score Italian sailors surprised and attacked a dozen American jacksies in a cafe and then went from one cafe to another seeking out and attacking isolated groups of Americans. Five Americans sustained knife wounds, two of them seriously stabbed. The attacks are the outgrowth of a trifling brawl in a cafe following which Italians gathered raiding party.

### DEATHS

#### DEATH OF FRANK E. LANE

The many friends in this city of Frank E. Lane, were shocked last night to hear of his sudden death at his home in DeLand. Mr. Lane had been in ill health for some time but an operation last summer seemed to improve him and his friends were hoping that he had fully recovered but it seemed that his long life of usefulness was ready for a close and he was called away almost without warning.

Frank E. Lane was one of the pioneer citizens of Sanford coming here in the early days from his home in Ohio and engaging in the hardware business here. He married Miss Ida Doyle in this city, the daughter of Mr. and Mrs. M. Doyle and resided here for many years. He afterward located at DeLand becoming identified with the firm of Alexander, Baird & Co., one of the largest fruit firms in that section.

Deceased leaves a wife and daughter, Miss Nell Lane, in DeLand, and a son in this city, Edward F. Lane, and the sympathy of the many relatives and friends in this and other states goes out to them in their bereavement. The funeral will occur Wednesday from his old home at Norwood, Ohio, and the remains were taken there today, accompanied by Mrs. Lane and Miss Nell Lane and Edward Lane.

### FRANK CLARK WILL NOT RUN FOR SENATE

OCALA, Jan. 2.—Representative Frank Clark will not be a candidate for the senate in this year's primary but will seek re-nomination to the lower house of congress from his district according to a letter received today from Clark by J. H. Benjamin, editor of the Ocala Star. Clark made known his intention of not seeking the senatorial seat in reply to communication from Benjamin in which the editor wrote that because of widespread discussion of Clark's probable candidacy for the upper house he believed it time for the representative to advise his constituents of his plans.

SANFORD, THE COMING CITY

If we can judge from Bob Holly's always sprightly "Herald" Sanford is one of the coming towns of Florida which has hardly, as yet, attracted the notice it deserves. It is not a tourist town, though it has many winter visitors who enjoy its varied advantages; but it is a substantial productive town, with a background of farm and garden wealth which affords the best possible insurance of stability, while its situation with regard to water transportation gives it an assured commercial standing. It is one of the coming cities of South Florida.—Lakeland Telegram.

### CHANGE IN FEDERAL TAX TAKES PLACE TODAY ON PRIME NECESSITIES

#### SUCH AS RAIL, FREIGHT, DRUGS, SODA WATER, SHOES, UMBRELLAS, ETC., ETC.

(By The Associated Press) WASHINGTON, Jan. 2.—Changes in federal taxes voted by congress last month came into full force yesterday. Here's how they will affect you:

When you ride on a railroad train or an inland or coastwise steamer you will no longer have to pay the government eight per cent of the amount of your fare and eight per cent of the cost of your seat, berth or state room.

When you ship freight you will not be assessed an extra three per cent of the cost. Likewise you can send packages by express or parcels post without having to give up a "war tax."

When you visit the corner drug store for a bottle of proprietary medicine, a tube of tooth paste, a toilet preparation or the like you will escape the vexatious stamp taxes.

When you go to a soda fountain you no longer will find Uncle Sam holding out his hand for a penny on each ten cents or fraction you pay the clerk for a drink or a plate of ice cream.

If you want to sport a pair of shoes that cost more than \$10, or a shirt costing more than \$3 you'll not have to lay out a tax. These and all other so-called luxury taxes on clothing, as well as those on umbrellas, parasols, sun shades, picture frames, trunks, valises, pocketbooks, etc., go into the discard.

If you live in a place that still can boast of a ten cent movie show or other place of amusement you will not be assessed a penny tax. If the charge exceeds ten cents, however, you will continue to pay a war levy at the present rate of a cent for each ten cents or fraction.

All heads of families with dependents will get a slight reduction in their income tax during the new year, the extent being \$8 for each dependent as a result of the increase from \$200 to \$400 in the exemption on account of dependents.

If you are married and your net income in 1921 was \$5,000 or less, however, you will get a still further reduction in taxes as the normal exemption for married men in this class has been increased from \$2,000 to \$2,500. Single men are given NO additional exemption and you can deduct only \$1,000 from your net income.

Whether you are married or single if you made a gain from the sale of capital assets, such as a building or stocks or bonds, you can pay the tax on this gain at the corporation income rate of 12 1-2 per cent, instead of the surtax rate if you so elect.

If your income is such as to put you in the surtax paying class you will pay in 1922 at the old war rates, but in 1923 you will pay at the new rates, which became effective yesterday, and which provide for some reduction all along the line with the

maximum at 50 per cent on \$200,000, instead of 65 per cent of \$1,000,000 or more.

Some classes of business, big and little, get some relief under the new tax bill, but other classes will have their taxes increased. Corporations which did not fall within the excess profit making class during the war will have their taxes advanced through the increase of 2 1-2 per cent in the corporation income tax. Corporations falling within this class include the railroads and public utilities, the income of which are regulated by federal or state commissions through the control over rates.

The excess profits tax is repealed, but the result will NOT be reflected in federal revenues until the calendar year 1923 as next year this tax will be paid on the basis of the profits made in 1921. Likewise corporations will NOT begin paying at the increased normal income tax until 1923.

Many of the special or excise taxes imposed upon manufacturers in many lines of business also go by the board. The framers of the new tax law believe that this will lighten the burden of the public generally as they hold that these taxes, with but few exceptions, have been passed on. Manufacturers who have their taxes repealed are those turning out chewing gum, articles made of fur, musical instruments, sporting goods, including billiard and pool tables and balls, pleasure boats and canoes costing less than \$100 each, electric fans and thermos bottles and jugs.

Other taxes which come off include those on insurance premiums and on bonds of indemnity and surety, while sharp reductions are made in the taxes on cereal and carbonated beverages sold in closed containers; on candy and on works of art.

Some new taxes are put on manufacturers, the rate being 5 per cent of the amount by which the sale price exceeds given sums in the cases of carpets and rugs, trunks, valises, fitted toilet cases, pocketbooks, portable lamps, and fans. Other new taxes are imposed on manufacturers of finished fountain syrups and carbonic acid gas.

Taxes imposed under existing law which will be retained are: Those on telegraph, telephone, cable and radio messages; tobacco, cigars, cigarettes and snuff; admissions and dues; estates; automobile trucks and wagons, other automobiles and motorcycles, and parts and accessories therefor; cameras, photographic films and plates (other than moving picture films); firearms, shells and cartridges, hunting and bowie knives, dirk knives and daggers, sword canes, stilettos, and brass and metallic knuckles, smoking articles and automatic slot device vending machines; jewelry and articles made of precious metals, except eyeglasses and spectacles.

Stamp taxes retained are those imposed upon bonds of indebtedness; capital stock issues; capital stock, sales or transfer; sales on exchanges; drafts or checks (payable otherwise than on sight or demand); promissory notes, conveyances; entry of goods at the custom house; entry for withdrawal of goods from the custom house; passage tickets; power of attorney; playing cards, and foreign insurance policies.

### RETAIL PRICE TO DETERMINE CONDITIONS

#### FORD SAYS EXISTING COSTS ARE CHIEF FACTORS IN PRESENT MARKETS

(By The Associated Press)

IRON MOUNTAIN, Mich., Jan. 2.

Industrial conditions during the new year will be determined largely by the trend of retail prices, Henry Ford declared here in a statement on the outlook. Price adjustments in many lines made last year and almost wholly responsible for improvements recorded, he said. Still many lines he added in which the movement will not become apparent. Existing costs Ford said are chief factors in the present market conditions. When prices reduced business will boom.

### WALL STREET VIEWS YEAR FEW REGRETS

#### LOOKS HOPEFULLY TO FUTURE BUT SEES GREATER TEST OF OUR RESOURCES

(By The Associated Press)

NEW YORK, Jan. 2.—Wall Street

views the passing of 1921 with but few regrets but looks hopefully to the future although realizing the new year will put the country to even a greater test of its resources and stability. Leaders of industry and finance emphasize their belief return to normal conditions cannot be accomplished until everybody settles down to earnest work, economy and saving. Forecasts of general business conditions this year unusually difficult say conservative observers account many uncertainties which beset era of readjustment and reconstruction.

When the South puts as much into hog raising as it has into cotton growing, this part of the country will lead in hogs as it has led in cotton.

## MANY NEW BUILDINGS ARE BEING FINISHED IN BUSINESS PORTION

Year of 1922 Will See Construction of Many New Business Blocks

### BUILDINGS READY

MILLER BLOCK, HILL-NEWMAN BLOCK AND MANY OTHERS ADDED TO THE LIST.

The opening of the new Seminole Cafe brings to the attention of the public the fact that there is another fine new block added to Sanford's growing list of store buildings.

The new Miller block is on South Park avenue and was originally planned for a garage building, but after part of the building was started the original owners sold the lot and uncompleted building to T. J. Miller & Son, who immediately changed the plans and constructed two fine store rooms, and apartments on the second floor. The restaurant was built for a restaurant and the Popular Market had a store room especially constructed for that business and the apartments overhead are models of convenience and comfort, thus giving Sanford that which is badly needed—furnished rooms and store rooms.

Among the many other business blocks completed within the past few weeks are the Miller building at the corner of Magnolia and Second street which is the largest and one of the finest department store buildings in the state, and the new Hill-Newman building on Sanford avenue, which is a single story brick with two good store rooms that will be occupied by the Federal bakery and by the Pure Food market within a few days.

Lee Brothers have just completed their fine two-story building on West First street with two store rooms on the first floor and large and commodious apartments on the second floor.

J. J. Cates has not completed his big building on First street and Oak avenue, but it is already occupied on the first floor by J. J. Cates and Mrs. Cates in four stores. The upper rooms will be apartments and when finished will be up to date in every particular. This is one of the largest buildings among the new ones to be started in the past few months.

All of these new business blocks add much to the prosperity of the city and gives the many new lines of business a chance to come to Sanford.

There are many other big buildings contemplated this season in the business centers of Sanford, at least two of them being five-story buildings and next fall will find Sanford ready for the new business and the new people that would come here now if they had proper accommodations.

In fact, in looking over the year just passed and the year upon whose threshold we stand today, it is with a feeling that Sanford is having a steady growth that has none of the tendencies of the boom that is so easily dissipated, but a steady growth that will go on and on in the years to

## Tired

"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't ever hungry. I know, by this, I needed a tonic, and as there is none better than—

# CARDUI

## The Woman's Tonic

... I began using Cardui," continues Mrs. Burnett. "After my first bottle, I slept better and ate better. I took four bottles. Now I'm well, feel just fine, eat and sleep, my skin is clear and I have gained and sure feel that Cardui is the best tonic ever made."

Thousands of other women have found Cardui just as Mrs. Burnett did. It should help you.

come and will finally land Sanford among the front ranks of the solid and substantial cities of Florida.

There is so much behind Sanford in farming crops, in location, in industries of all kinds that Sanford is bound to grow and, as The Herald has pointed out before, all the building that has been done here has been done by home people with home capital, for foreign investments have not been made in Sanford, as in the tourist centers. And the city that is built on the solid foundation such as Sanford will never hit the toboggan slide of adversity. The "City Substantial" has been well named and Sanford in the next twelve months will attain a growth and a steady improvement that will be a surprise even to the home people. And foreign investors are looking this way now, attracted by our many advantages and in the next twelve months there will be many outside investors here to take advantage of Sanford's location and this city should start the year 1922 with the feeling that Sanford can weather any gale and come out of any storm that might hit the City Substantial in the general reconstruction days that are to come. Sanford people can face the New Year with the thought that they have a wonderful country to back them up and a wonderful future to face them.

## BEAR KILLED IN WENIWA SWAMP

APOPKA, Fla., Jan. 3.—(Special).—Two of Apopka's ardent sportsmen, Messrs. L. P. Waite and C. J. Jackson, departed late Friday afternoon for a turkey hunt in the jungles of Wekiwa swamp. Instead of finding turkey as expected they were unexpectedly confronted by one of the natives which proved to be a bear, and a battle for supremacy immediately commenced which lasted for a time of thirty minutes and covered a course of more than a half mile, the bear leading a portion of the time, but finally resulting after ten shots had been emptied into the monster by the heroic hunters, in the killing of the bear. This is the first one killed by hunters from Apopka this season.

## SANFORD SECURES BIG WHOLESALE CONCERN IN TAMPA PLUMBING CO.

Will Have Mahoney & Walker in Charge of Big Business

### SANFORD'S LOCAT'N

SECURES MANY NEW WHOLESALE CONCERNS DURING THE PAST YEAR

Sanford attracts another big wholesale business on account of the freight rates, the better means of transportation and the central location of the city at the very heart of business enterprises in South Central Florida. This city is destined to be the wholesale center of this part of the state and during the past year at least five big firms have located here on account of the better distribution and cheaper freight rates and water transportation.

The latest addition to the wholesale business is the Sanford branch of the Tampa Plumbing Supply Co., that have made arrangements to open a warehouse on Oak avenue in the old Eagles building under the management of Mahoney & Walker. They will handle wholesale plumbing supplies and will cover this territory with representatives selling wholesale plumbing supplies to all the plumbing shops within a radius of 500 miles or more. Mahoney & Walker will buy from the big jobbers and have the goods shipped direct to Sanford where they have space for at least fifteen cars of supplies. Last week three cars were received here and have been stored in the warehouse and the company will be ready for business in a few days at which time announcements will be made to the trade. It will be most convenient for the plumbers of Sanford and adjoining cities to be able to get all their supplies from the Tampa branch here without being under the necessity of carrying a big line on hands all the time and they can always be assured of getting what they want and when they want it at the Sanford branch.

## BUSINESS WILL BE BETTER IN THE YEAR OF 1922, SAYS THE FEDERAL RESERVE BOARD

Figures Compared With Last Year Show Good Gains Everywhere

WASHINGTON, Jan. 3.—Continued upward movement of business and the gradual restoration of normal conditions are indicated in the comparison of reports for last month with those of the corresponding months of 1920, according to the December review of the economic situation issued last night by the federal reserve board.

Net improvement was found by the board despite the recession of business activity in December as compared with the same month last year.

"The holiday trade," the board said "is a test of the soundness of preceding business activity. Reports from the various federal reserve districts covering over half of the month show that this year's demand in the eastern districts has registered an increase running as high as ten per cent of that of 1920, while in other districts the situation is pronounced satisfactory."

Manufacturing districts, however, the board reported as far from uni-

form, there being a decrease of activity in the iron and steel industries, while textiles showed a little change from previous months and uncertainty exists as to the future of the clothing industry, due to labor disturbances and the continued demand for consumers for lower prices.

"Freight rates," the board said "continue as a disturbing factor due to the belief that reductions already announced as affecting some commodities may be much more widely extended in the near future."

"A decided improvement in European exchanges," the board said, "has tended to some extent to help the foreign trade situation during the month of December, but the extreme caution in the extension of bank credits which was previously so noticeable a phrase of our foreign trade still continued. Export figures indicate a still further decline of activity in staples, while imports show an advance."

That girl mayor of Freeport, Ohio, must be some child. She favors dances, short skirts, rouge and is now testing "hootch" to see if it is pure. We hope she sends the bad hootch makers to jail for life.

Dispatch says that the premiers are trying to save the Entente to keep Europe from disintegrating. Our advice to them is to let Europe disintegrate. They can pick up the pieces of some of those countries and make a new and better job of it.

Bob Holly has a chance to "clean up" on an offer from Brother Benjamin to "come over" and spank those striking Ocala school students at \$10 apiece—for all that Bob "can spank."—Reporter-Star.

Just a mere figure of speech, old dear. Delicacy would not permit us to spank any of them literally. And then we left it to their parents, you know.

Don't leave your check book lying around loose in your office. Three strangers in Griffin, Georgia, obtained \$350 apiece from three different banks yesterday by having a well known real estate man's checks all made out for \$500. They very considerably deposited part of the money and took part. The part they took was well taken and unless they are overtaken—well, anyhow they took the cash.

We are tired, absolutely peevish about these "walkers", "workers", "wigglers", "jugglers", "jarheads" and all others who are working Florida. They may call it "touring" Florida but we do not. They are here every day with a book to sign, with yards of stuff about themselves walking from Timbuctoo to Saskatchewan, about lecturing, about everything under the sun and the substance of it is they want free advertising in order that they may glean some money from Sanford. If we were mayor of Sanford we would order everything off the street that looked like begging or working the public for any cause whatsoever. Sanford needs the money that is spent for these people to "see Florida" every winter. Why don't they come down in the summer?

**OTHERS JUST LIKE HIM**

We met a man the other day who knows everything. For instance, he knows how to run this newspaper much better than its editor. He knows how to run the town better than anybody else and probably he knows how to run every single person in the community. We haven't the slightest doubt that he feels he can run this country much better than Harding himself. We think the gentleman is wasting his time at present.—Hubard (Ohio) Enterprise.

**TAKES MONEY TO RUN CITIES.**

It takes money and plenty of it to operate cities and look after the various and sundry affairs. It takes money to make the mare go and this applies to municipalities as well as to private business. Cities have been hard hit since the war with everything twice as high and no taxes to meet the deficit. This phase of the matter seems to have been passed up by many cities with the result that they are now facing a financial crisis unless they revise their business to fit the present needs. No city could operate on the same taxes after the war as they could before any more than any private business could operate. It took twice as much money to operate business of all kinds during the war and after the war and in this respect there was no difference in the costs of operation of private business or municipal business. Many tax payers without stopping to think howled about their taxes without knowing and without stopping to inquire the reason. It is given now in the condition of many cities that failed to raise taxes in one way or another in the years following the war and the following from the Palatka News is one of the many that will take place all over the land where the taxes were

not raised to meet the changed conditions:

"I know it is a very unpleasant thing to hear, and more unpleasant to say, but the city is faced with bankruptcy unless this council takes some action to relieve the present financial situation," City Attorney H. E. Merri-day declared last night in the midst of a very tense argument over the advisability of permitting the newly elected tax assessor to make his assessments according to law. The city charter prescribes that all property for taxation shall be assessed at full value. It has been the practice to assess property at anywhere from 15 to 75 per cent of its value. The debate indicated that Palatka has reached that stage where old methods of taxation, collections and assessments must be revised.

**SEEING ORLANDO**

That "building code" in Orlando will cause a lot of people to leave town before sunup. They are now asking "Who is Parr, Carl Dann, Brokaw, Murry King, Bill Glenn, etc.?" We never did ask those fool questions. About one out of ten men are safe when you begin asking funny questions about his past, present and future life. Of course having lived in Orlando we know a lot about those boys but we would not breathe it. Why? Because they know a lot about us.

Who is Robert Parr? asks the Orlando Sentinel. Don't know and don't care but if you do not want him in Orlando he is perfectly welcome to come to Sanford and no questions asked. We will take him at Parr, yesum!

"Another side of Carl Dann" says an article in the Reporter-Star. We certainly hope they have not turned Carl inside out down there. Anyhow, he was born without a cent in his pocket and can't lose much.

**A RECORD OF REAL ACHIEVEMENT**

No matter how far ahead in the future one has been accustomed to look, this is the time of the year when a momentary halt is called to take a retrospect of the year just past in order to ascertain failures and accomplishments, and from that experience lay plans to insure the success of the future.

This is the time of the year when business houses generally take inventory, when comparative records are made in all lines of endeavor, with those of the preceding year.

The New Year is an opportune time for commercial organizations to review their activities for the year just passed and the accomplishments which have resulted from these activities. It is often the case, however, that results are not immediately realized from the activities of a commercial organization, and very often a considerable period of time elapses between the launching of a movement and the actual results therefrom. Any commercial organization, therefore, that can show a maximum of results in a minimum of time is to be congratulated upon the do-it-now proclivities of its officers and membership and justly receives the reputation of being the real factor of progress in the community.

The Sanford Chamber of Commerce has been in existence but a year, but in that time has accomplished real things. Let us forget, look over the list, and show it to those reactionaries, who are on the outside looking in, when it comes to expending individual effort in building up a Greater Sanford.

During the year 1921 in addition to the Board of Governors, there were thirteen standing committees and four special committees. The number of meetings including the Board of Governors and all committees totalled one hundred and twenty one. The average per centage of attendance at these meetings was seventy-five. The Board of Governors met 47 times during the past year and the average length of these meetings was an hour and ten minutes. This will give a general idea of the time put in voluntarily by men who are earnestly interested in the development of Sanford.

The secretary's office has sent out over eight thousand pieces of correspondence and literature of Sanford, to inquiries from every section of the United States.

The Chamber of Commerce also adopted the slogan, "The City Substantial," secured three new wholesale houses, protested against increased telephone rates, secured improvements of approaches to station, supported progressive state and national legislation, had representation at important rate increase hearings, conducted successful campaigns against stock salesmen, entertained National Editorial Association and various parties of prominent touring concerns. It has awarded prizes to the school children for the best essays on the City Substantial, has brought in lecturers of interest to the retail merchants. It

has carried on trade extension trips to adjacent communities culminating in a Gala Day which brought thousands of outsiders to the city. It started the Ship-by-Water movement and fathered the Central Florida Water Traffic League, as a result of which Sanford is now securing daily boat service and the transportation company has had to increase its terminal facilities 400 per cent. It took the initiative in raising, by popular subscription, monies necessary to improve the Osceola and Titusville roads. Its Tourist and Convention committee planned and erected a much needed pavilion on the Lake Front and arranged the details and finances whereby the city would have band concerts during the winter.

The Publicity Committee has been responsible for the outside exploitation of Sanford and has discharged its duties most efficiently. Ten thousand copies of a new booklet have been printed, and advertising has been run in the most prominent newspapers and periodicals of the country. In addition signs have been and are now being placed on the roads and by next season will see them in quantity on the Dixie Highway. The Publicity Committee has to its credit probably the most spectacular piece of advertising ever put out by a Florida Commercial organization. We refer to the advertisement for a millionaire which appeared in the New York Wall Street Journal and the New York Journal of Commerce.

The City Planning Committee has had adopted by the City Commissioners ordinances governing shade trees, and the enforcement of those ordinances relating to the cleaning up of weeds and refuse. It has compiled the necessary data used by a special committee appointed to work out plans for street paving, additional sewerage systems, and yacht basin. The Golf Course Committee now has something definite in the way of a site that presages success for this project. Representative from the Inland Waterway Committee represented the organization at the convention of the Atlantic Deepwaterways Association. Correspondence has been had with the government engineers relative to improvements on the St. Johns river.

The Sanford Chamber of Commerce during the past year has interested a prominent marine engineer in its plans for the development of the lake front and has already secured from him grants, detailed plans and specifications for this proposed improvement.

There have been four membership banquets of the organization held in 1921, three in Sanford and one in Orlando. The last two were for the purpose of engendering a greater co-operative spirit between the two communities and were successful in their purpose. The Chamber, through its membership committee secured sixty new members in 1921.

The Sanford Chamber of Commerce is now a member of the Chamber of Commerce of the United States, The Southern Commercial Secretaries Association, The Florida State Commercial Secretaries Association, and the National Association of Commercial Secretaries. The organization has been closely associated with all local civic organizations and has always given its support to these organizations in movements for civic development. The same is true with officials of both the city and county.

Here, then, is briefly enumerated, the accomplishments of the Sanford Chamber of Commerce, which, from

length of organization is but an infant. Can anyone see a possibility in 1922 after looking over that which has actually been accomplished in 1921? This is an enviable record for a young and small organization. Every man that considers himself at all progressive should be affiliated with the Chamber of Commerce and give all the time he can to helping put over those things which are absolutely certain for the coming year. Sanford has shown what can be done through efficient organization. With the dismissal of petty personal differences and a whole-hearted concerted action through the Chamber of Commerce, New Year's 1923, will witness a record of even far greater achievements.

The Jacksonville Metropolis says that Frank Clark after being importuned by many friends throughout the state to run for the Senate has decided that he will not do so but will stay where he is—in Congress. It is our opinion that Frank Clark found out it was no use trying to run against Trammell and Bryan and all the rest of them will find this out sooner or later. Park Trammell has only one term and is certainly entitled to another and that he will get another is already assured.

Young girl at Asheville lives with a bullet in her brain says a dispatch. People in Asheville can live on very little after the hotels get through with them.

**NOTICE**

**TO ALL AUTOMOBILE OWNERS AND DRIVERS**

Sanford, Florida, Jan. 5th, 1922  
 The law requires that all automobiles must have the required 1922 license tag issued from the Office of the Comptroller, displayed upon the rear of each and every automobile, therefore I take this method of notifying all owners and drivers of automobiles in Seminole County, that after the 30th day of January, 1922, this law will be rigidly enforced. Please be governed accordingly and don't become peeved at the sheriff's forces should you neglect to comply with this law for the sheriff is not responsible for its making. This was done by the legislature at Tallahassee and not by the sheriff of Seminole county.

Respectfully submitted,  
 C. M. HAND, Sheriff  
 Seminole County, Fla.

Chase & Co., and L. Roye are among the first on the East Side to try out the dry dusting machine on Celery avenue or to use on any other vegetable needing spraying for blight or insects. It is said to be more effective and much less trouble than the

spraying machines that have been in use here for many years.

The wrecking train was called to Moore's Station Tuesday to help an engine back on the track, a near wreck caused by spreading rails.

LAKE MONROE

A whole new year is before us and we greet it smilingly. Let's determine to optimistically turn to the light, put the clouds of failure or despair behind us, face about and walk resolutely towards success.

The new year finds us resolving all over again to be better in heart, mind and soul, to live above the smaller things of life, to climb to a higher and broader basis, to be big, generous and kind, superior in all things good.

The Christmas holidays passed off very quietly in our community. Several beautiful trees denoted the merry occasion, some of the prettiest being the public school Christmas tree for the benefit of the school children and the Baptist and Methodist church Christmas trees.

The entertainment at the school Friday afternoon preceding the holidays, was very good and very much enjoyed by the children as old Santa Claus himself paid the school a visit and brought a whole wagon full of big, red apples to the good little boys and girls.

The funeral of M. B. Lyons, who died Thursday evening, after a lingering illness, was conducted Sunday afternoon at 4 o'clock from All Soul's church, Rev. Father Hennessey officiating. Many friends gathered to show their respects to the departed. A short and appropriate oration was delivered by the pastor and after the simple services the body was laid to rest in Lakeview cemetery.

Richard Allen, the eight-months-old son of Mr. and Mrs. Curtis Meuse is very ill at the Fernald-Laughton hospital in Sanford of stomach trouble.

Mrs. P. E. Ahern, of Fort Pierce, is visiting her daughter, Mrs. Curtis Meuse and other relatives and friends.

Elmer Bell, who is attending the Industrial school at Mt. Verde, is spending the holidays with his father, Tom Bell.

W. H. Allen sold his farm to Mr. Young and purchased the farm of Albert Draper. Both places are very desirably located.

Little Cecil Mann, of Winter Haven, is spending the holidays with his mother, Mrs. Walter Prime.

Mr. and Mrs. J. T. Jacobs are spending two weeks at their home at Chulohu.

Walter Price entertained his friends with a birthday party Monday. Delightful refreshments were served and a jolly time enjoyed by all the young folks.

Messrs. John and Tom Bell entertained on Christmas day with a barbecue. Quite a jolly crowd was present to enjoy the occasion. Lots of good things to eat with all the trimmings and then some. Those present were Mr. and Mrs. John Holly, Treuman, Fred, Albert Holly and daughter, Miss Alice Holly, Mr. and Mrs. Ellis Osteen, Mr. and Mrs. Jacob Imboden, Elmer, Fred, George, and Arthur Bell and Miss Elizabeth Robertson.

Less than fifty dollars worth of trees, shrubs and plants caused a property to sell for five hundred dollars more than had been offered for it. One pecan tree often produces many dollars' worth of nuts in a season. A few fig trees will net even more and other nuts and fruits are equally profitable.

How Else Can You Make More Money? The first cost of trees and the upkeep expense are insignificant in comparison with returns. Even a small lot will accommodate a few specimens, in odd corners. Start your planting this winter, making additions as you can. You will get pleasure as well as profit.

**FLORIDA'S 1921 RECORD—THE FUTURE.**

Jacksonville Times-Union: In these closing days of 1921, Florida's record for the year now ending, is being concluded. Unblushingly, and without boasting, may we say that it is a record of which all may be proud, those permanently residing here and those from afar who have interest and pleasure in the state's forward movement and in its contribution to the satisfaction of all who admire progress and advancement.

True, Florida, in common with other sections of the country, has felt the hand of depression which, however, has not fallen so heavily on our people as upon those of other states, those not blessed with so many advantages that contribute to the welfare and happiness of people and of communities, advantages that Florida has in abundance and that give generously to its prosperity even in periods of general business depression.

It is eminently in order that, in these closing days of 1921, all of us should take at least mental note of the record that the state has written for the year, note of only slightly interrupted progress, in a few instances but if uninterrupted progress in many others. Thus we find ourselves at the end of another year with brighter, clearer, strengthened vision with which to look forward to the year that lies ahead of us. Also, we find ourselves in possession of broadened minds, of a greater spirit of tolerance, and possessed of nobler desire and purpose to go from one achievement to another, not altogether as individuals selfishly inclined, but as a state hoping for and working for better things, for more worthy accomplishments that shall be for the benefit of all who call Florida home and for those whose longings and aspirations are to cast their lot with us.

Great and worthy accomplishments stand in Florida's record of 1921. First and foremost, and of utmost importance toward future achievements, is the evident spirit of more hearty co-operation on the part of all the people of Florida, city, county and community co-operation, and in the broader field that embraces all the state, to arrive at that point of worthy distinction that is made possible through sincere, hearty co-operation—not co-operation sectionally only but state-wide. This spirit, going with the work that has been done in 1921 will, if continued and intensified through 1922 make possible achievements far greater than any that as yet have been placed in the record of Florida's preceding years.

We have only to look about and see what Florida has accomplished and then resolve, each and every one of us, that throughout the year 1922 greater efforts shall be made to cooperate with others, whether in one section of Florida or another, to do the things that need to be done to

make Florida what, as a state, it should be. Hearty, practical co-operation will do it, will make of this commonwealth a wonderland of progress and achievement.

Florida's record for 1921 is practically completed. What has been done stands. Where there has been errors there can be atonement by striving to do better in the coming year, to forget the animosities, the jealousies and the hickerings and go forward with strengthened courage and purposeful resolve to improve on the past, to the end that the coming year, and those to follow will furnish records unsurpassed, either by Florida or any other state.

**THE GRUNT OF THE LONE-SOME HOG.**

Numerous cities in Florida are allowing their tail-feathers to be plucked—because of the fact that numerous property-owners in those cities are handicapping the whole works by the outrageous prices they are charging for rentals. One fully developed rent hog can do more harm and injure business to a greater extent than columns of legitimate boosting through the daily and weekly press can overcome in a full season. People are every day leaving those cities and seeking less pretentious spots where the charges are reasonable—rather than be "held up" by those who seek to have an income equal to fifty percent of the cost of construction and equipment.

It is not necessary to name the cities where such actions are daily taking place—for word is spreading every day regarding those localities; and messages are going north and west that eighteen dollar coal and heavy heavedees are rather to be chosen than sunshine in a locality where the owners of properties are robbers and those who lease to subtlet are bandits. The worst of it is that a dozen cities of that sort can do an irreparable injury to all other localities where prices are kept normal.

Not only in private dwellings but in stores and garages and other buildings there is this unjust demand upon those who would lease—sometimes, too, with the idea of remaining permanently. Take a garage that cost, say, three thousand dollars. In place of renting the property, free of all fixtures and having nothing but the bare building, at about thirty dollars a month, which would mean twelve per cent on the investment—or even forty dollars a month, which would mean about fourteen percent—the owner will make a rate of one hundred dollars a month—which reckons up to forty percent on the investment.

All these things militate against the progress and business of Florida—and thereby are the innocent harmed to an incalculable extent; yet there is no redress. The city, no matter how much it may be convinced that a vast amount of damage is being brought about by such greed, cannot proceed to bring demands upon the private owner. It must take its medicine—no matter how wry the face that follows the gulping. But one redress is there to be found. The assessor can fix the value upon the property in accord with the income sought to be derived by the rent-hog. A few years of that work would have a tendency to put prices of rentals where they by right should be. Once change the grunt of the rent-hog into a squeal and better conditions will follow.—Kissimmee Gazette.

**HOW IT HITS FLORIDA**

A good many of our tourist visitors are pessimistic with regard to conditions in the north, and some of them appear to take pleasure in shaking their heads and telling us it will be our time next.

Having no power to penetrate the future, the Telegram can not positively dispute this prediction, but it can point to a few things which, in its humble opinion go far toward discrediting it.

The north may be broke, as some of its representatives claim, but it is paying a good healthy price for some of Florida's products. Strawberries, for instance, which are going out of Plant City, and other berry centers by the car load, have been bringing the highest price in the history of that industry. Many of them have sold for more than a dollar a quart, and some for more than two dollars, at the shipping point.

Plant City is not alone. From the Wauchula Advocate we quote the following: "Beans, \$5 a hamper; peppers, \$8 a hamper and strawberries, \$1.00 a quart! Such is the record of the vegetable market in Wauchula the past week—not city quotations, but the real coin of the realm which the growers receive at the shipping platform.

And Wauchula has been shipping about a solid carload of mixed vegetables daily the past week, and will do better than that next week should the

weather continue favorable." It will take pretty hard times to down a place that is making that sort of record.

At the same time, potatoes are going out at \$3.00 per hamper and cabbage for \$4.00 a crate, according to the Advocate.

Little citrus fruit is being shipped now, but the cream of the crop will be ready after the holidays, and prices are looking up. From fifteen to twenty million dollars net will roll into the state from that source alone within the next forty-five days.

These facts—for that's what they are and not mere opinions—indicate that the north is not half so hard hit as it imagines, and that Florida is enjoying genuine prosperity, with unlimited chance for development and increase of its income.—Lakeland Telegram.

**SELF-STYLED FOSSIL.**

State Superintendent W. N. Sheats, evidently came into the association meeting just closing, with a chip on his shoulder. Any way, it was clear that he had a grievance to air, and he aired it. His chief complaint seemed to be that people were characterizing him as a back number and a fossil. If any further evidence were required to convict him of the charge, his address or more properly his "harangue" as he styled it, furnished it. It was indeed pitiable to see an old man who has for 22 years been honored by the people of Florida with one of the most important and dignified offices of the state, turn political stump speaker before so large and so fine a body of educators as he confronted in the First Baptist church Tuesday evening.

Whatever may have been the record of Mr. Sheats in the past, he certainly displayed had taste, and showed incompetency by the address delivered before the Educational Association that met in this city. It must be a source of regret to the progressive men and women of this state who are devoting their lives to teaching, that the state head should make such a mockery of educational issues, and show such partisan feeling as he displayed.

Perhaps, the theory advanced in the state of Washington, is the correct one: "Too long in office, unfits for service." Any way it must be apparent to all that the educational interests of Florida demand a younger, more progressive and broader minded man than Mr. Sheats at the head. Florida has many capable men who would do honor to this office and there is scarce reason for longer filling it with an excuse.—Reporter-Star.

WRITTEN BY A. M. THRASHER.

The Paris edition of the New York Herald contains the following article headed "Common Sense," and signed by A. M. Thrasher, a former resident of Sanford:

To the writer it is astonishing that within this month so many men in high position and authority, in America, England, Italy and France, statesmen, authors, correspondents, ripe in years, erudite, and with long experience in public life; yes, men who evidently drank deep at the Plerian spring, have said, and done, things that are absolutely silly, have said things which are probably true and yet, they were things it was quite unnecessary to say at all, and said at the most critical time and most inopportune time and places, and I am convinced that it is because of a lack of plain, every-day common horse sense.

Was the Great War the cause of this unbalanced state of mind?

It is an old, old adage, that plain, every-day common sense is the most uncommon thing in the world and the writer believes it.

Common sense is precisely the thing needed in Washington, and in London and elsewhere today.

The lack of common sense, coupled with a small grain of egoism in Washington, may produce disappointment, and blast the hopes of an impatiently waiting world.

I am constrained to mention names but fear you would say I lacked common sense, and refrain. You know them. A. M. Thrasher.

"From all indications the Sanford celery crop will be a good one this season, and good prices will prevail," remarks the Sanford Herald. "Our celery has gone to market in other years when business was depressed in the North, and brought good prices and will do so again." The Herald adds that a great many people never get a chance to enjoy celery anyway, and a great majority of users are people of means. This is true enough, and more's the pity. Celery is one of the finest vegetables grown, and it would be a splendid thing if every family could have it regularly. The growers of celery in Florida are steadily increasing their acreage and doing their best to make it plenty and reasonable in price.—Times-Union.

**FREIGHT RATES MUST BE LOWER FRUIT MEN SAY**

**S. J. SLIGH SCORES RAILROADS FOR MAKING VOLUNTARY REDUCTION OF 10%**

The railroads of the country have pulled what is commonly known as a "slicker" in voluntarily reducing freight rates ten per cent on citrus fruits and vegetables, according to S. J. Sligh, a well-known citrus fruit grower and shipper of this city.

The voluntary reduction, fruit growers assert, was made by the roads in an effort to avoid meeting growers and shippers who had requested a thirty per cent reduction in rates, and the wrath of producer, shipper, and retail merchant is by no means appeased by what has been styled the "generous action of the roads." Shortly after the reduction was announced, Mr. Sligh said, the railroads sought to obtain a statement from the growers and shippers that the new rates were satisfactory, but the fruit men let it be known in no uncertain terms that they regarded the reduction as "purely nominal."

The National League of Commission Merchants will meet in Pittsburgh, January 11 to 14, to plan further action on the freight rate problem. The American National Fruit Growers' Association will hold a similar meeting in Chicago January 27 to 28. Mr. Sligh is a member of both these organizations, as are other men in the fruit industry in Orlando, and is planning to attend both conferences. It is understood that these meetings will request that freight rates on fruits and vegetables be placed on a parity with those existing before the series of raises was granted during the late war, since it is maintained that reductions in wages and other operating expenses justify such action.

During the war the roads were granted an increase of twenty-five per cent for the southern and eastern sections of the country and thirty-three and one-third per cent in the extreme west. This was shortly followed by another increase of thirty per cent in southern and eastern sections and forty per cent in the extreme west. Fruit growers and shippers maintain that this last increase has put an almost unbearable burden upon the industry and it is understood they will seek a return to the pre-war rate following the national conference in Pittsburgh and Chicago next month.—Orlando Sentinel.

The life of a newspaper is advertising, and advertising is a commodity as necessary to the success of a publication as various articles are to a general store. It has been the policy,

and it always will be the policy of the Sentinel, to boost this city, its business and industries and its people to the exclusion of every other city or town in the world.

The business men look to the Sentinel for encouragement for home-trading and buying. At the same time the Sentinel looks to the home people and has every reason to expect them to buy their advertising at home and place it in an Orlando institution which is zealously devoted to the up-building of the City Beautiful and Orange County and everything that pertains to it. This newspaper and its publishers have made heavy investments here, pay heavy taxes and are diligently laboring in every possible manner for the improvement of the city.

Of late it has been observed that Orlando merchants are contributing their dollars in foreign mediums which are notorious, in one particular at least, for knocking and hammering Orlando. Reciprocity is a great word and consistency is likewise a strong word. It is only fair that business men should keep their advertising at home where it will achieve results.

To a few people this may seem to be an inconsequential matter, but to the overwhelming majority we believe that it will appeal because of the principle involved. It is not the question of money, rather it is a question of giving to others that which rightfully belongs at home.—Orlando Sentinel.

after you can refuse to take any advertising from Sanford. It is a poor rule that won't work both ways. At present the Orlando stores are not advertising in the Herald so this little story does not reach this paper but unless the Sanford merchants advertise sufficiently to keep the Herald moving we would not hesitate in going to Orlando and other cities and take advertising. You are right about your statement that it is a poor rule. It is also a double edged sword and cuts both ways and the newspaper will not be cut in the general wind-up. There are some things newspapers won't stand and lack of advertising is one of them. However you started it down at Orlando and you ought to be able to finish it.

The Orlando Sentinel says that paper "covers this section like the dew." That's nothing. The Daily Herald covers Seminole county like "Moon shine" which is covering it some.
