## LITTLE BUSINESS MAN

Business hasn't been too good today. But in a minute someone will come along for a while. Johnny will have a chance, bright and inviting, lying in his path.

What's he going to do with that time? As he sits in the man, vicious dance in his mind. He could buy candy, but even, a new magazine. He could even save it for Sunday School... but then what good would a dime do.

Suddenly Johnny remembered a Sunday School lesson. Jesus had told how precious was the penny offering of a poor widow.

Next Sunday Johnny proudly dropped his dime in the offering plate. Johnny's gift wasn't very much. It wasn't a great deal to help the Church meet its financial needs. The important thing is that Johnny's offering to Sunday School has put him on the road to becoming a real Christian business man.

# University System 'Archaic' - Adams

State Official Hits Red Tape, Over Controls

Adams, in a speech to the Gainesville Exchange Club, called budgeting procedures in use in Florida's university system "archaic and unwieldy" and said that university administrators' efforts to give leadership to quality higher education.

The Secretary of State, often at odds with Gov. Haydon Burns and other Cabinet officials who make up the State Budget Commission and the State Board of Education, added new fuel with this criticism of the already burning fire between educators and politicians over financing at the universities.

President J. Wayne Belts, of the University of Florida, became vocal in over the weekend. He called the State Budget Commission and the State Board of Education, added new fuel with this criticism of the already burning fire between educators and politicians over financing at the universities.

Adams' talk today may be a prelude to this continuing process. Failure to allow this freedom of administration is having a detrimental effect on acquiring outstanding professors for the universities, said Adams.

"It is a major stumbling block," he said.

Under the present method followed by Florida, Adams added, the universities must participate in minute detail budgeting three years in advance. If the "guarantee" is off, he said, there is long and tedious process is required to make any change.

"Often this combination of red tape and delay costs Florida the services of truly outstanding educators," Adams charged. It has, he said, caused the state to lose a number of top professors who have taken jobs elsewhere, he said.

"Two generations of scholars have accepted Florida's claim to be a leader in the state of affairs. It is a daily fact of life for Dr. Belts here at the university. It is any wonder his hair is turning gray?" Adams queried.

The situation is reaching crisis proportions and must be solved, he said.

# The Sanford Herald

Seminole County . . . on the St. Johns River . . . "The Nile of America"

Wing Staff Tops UF Goal With 237%

United Fund Drive is moving into its second week and already the Reconnaissance Aircraft Wing One staff has donations in the amount of 237 per cent of its goal.

The drive is scheduled to continue until Nov. 5, and the staff seems to be setting the record for total percentage donations.

Although the Marines were the first unit at Sanford Naval Air Station to reach the magic 100 per cent mark, the Wing staff seems to be setting the record for total percentage donations.

RVAH-1, with 117 per cent donations, and RVAH-3, with 103 per cent donations, also have passed their goals.

Employers there were the second Gold Award of the United Fund drive for 100 per cent participation.

G. Emmett McCall, a University of Kentucky senior from Sanford, has been selected a distinguished military student in military science. He is the son of Mr. and Mrs. H. B. McCall, 2117 Melville Ave.

All members of the American Legion and Forty and Eight will be treated to a free feed by the Sanford Fair Association Tuesday at 7 p. m.

Class of 1956, Seminole High School, hopes to have a reunion next spring to celebrate its tenth year. Members of the class are asked to call Mrs. T. R. (Janice) Kinlaw, 401 W. 24th St., Sanford, for an organizational meeting.

Deadline on filing for school trustee seats is 10 days before the November election. Present trustees are Ray Slaton, Edwin Hunt and Fred Blanton. "We understand the deadline and have a plan to run for re-election. Duties of the trustees involve recommending, transfer or dismissal of school employees."

Blood bank figures for September are way down — less than half of the record-breaking August donations.

"We appreciate all the letters and concern shown for the Mark by Sanford people and his schoolmates," she added.

Indiana Paper Hows to Costs

INDIANAPOLIS (UPI) — The Indianapolis Times, an afternoon newspaper tradition here for more than 77 years, suspended publication with today's edition.

The Scripps-Howard newspaper had suffered what Editor Tom Boardman described as "a long period of increasing deficits."

He said that even with recent increases in circulation and advertising revenues had fallen increasingly short of more rapidly expanding payroll and production expenses.

City to Tighten Taxi Regulations

City of Sanford is planning to "tighten up" on operating of taxis and a study of proposed revised rules and regulations will be taken under consideration at the regular meeting of the city commission at 8 p. m. tonight.

Five cases of three persons arrested will be heard along with miscellaneous business on a short agenda.

Youth Captured

Sanford police arrested a teenage boy who had been caught in the act of attempting to steal a car from Sanford. The boy, who is 16, had broken into the building, taken the keys to a car, and when captured just before 1 a. m., had the car engine running.

According to the police reports the youth, who is 16, had broken into the building, taken the keys to a car, and when captured just before 1 a. m., had the car engine running.

Southland has 124,000 YWAM! (The Y's) will be here for Christmas.

# Casselberry Has Silver Jubilee

Casselberry, which this year celebrates its 25th anniversary, is still active as a public utility.

The town achieved the status of second largest municipality in the county at the time of the last federal census and now has an estimated population of 4,500.

Founder and first mayor of the town, (1904-23) Hibbard Casseberry, is still active as a developer, fern grower, realtor and owner of the utilities corporation supplying water and sewerage service to the city.

Elected at a town meeting of the town, (1923-24) Hibbard Casseberry is still active as a developer, fern grower, realtor and owner of the utilities corporation supplying water and sewerage service to the city.

Fire Chief Paul Bates was elected mayor for the past year, after Hibbard Casseberry was elected town clerk.

Talley Hattaway, Altona Springs realtor, was town marshal for the first 10 years of the town's existence and has an estimated population of 4,500.

Founder and first mayor of the town, (1904-23) Hibbard Casseberry, is still active as a developer, fern grower, realtor and owner of the utilities corporation supplying water and sewerage service to the city.

# Pop Go The Dodgers--Series Now Even

LOS ANGELES (UPI)—The Los Angeles Dodgers, their best running speed and batting defense back in full bloom and the newly fielding Minnesota Twins both came back with their best pitching Monday in the first game of the World Series, all in two games each.

Facing their home park a week after dropping the first

two games on the road, the Dodgers called on Sandy Koufax, considered the best pitcher in the game, to get them in the driver's seat before the Series returns to Minneapolis Wednesday.

Koufax faced Jim Kaat, the southpaw who beat him 4-1 in the second game and an 18-game winner for the Twins. Koufax was 98 for the Dodgers during the regular season.

But they have,

so it's foolish to make any predictions.

He admitted, though, he was nervous about the Series. "I've never pitched in a Series before," he said. "I'll do my best to get it right from now on, just as we did the past two days."

"I told my players to forget the first two losses in Minnesota and just play like they did all season," Alton said. "We did just that and we've got a pretty good pitcher going for us. But they have,

# LA Certain That Koufax Will Provide Series Lead

LOS ANGELES (UPI)—"And now Sandy Koufax..."

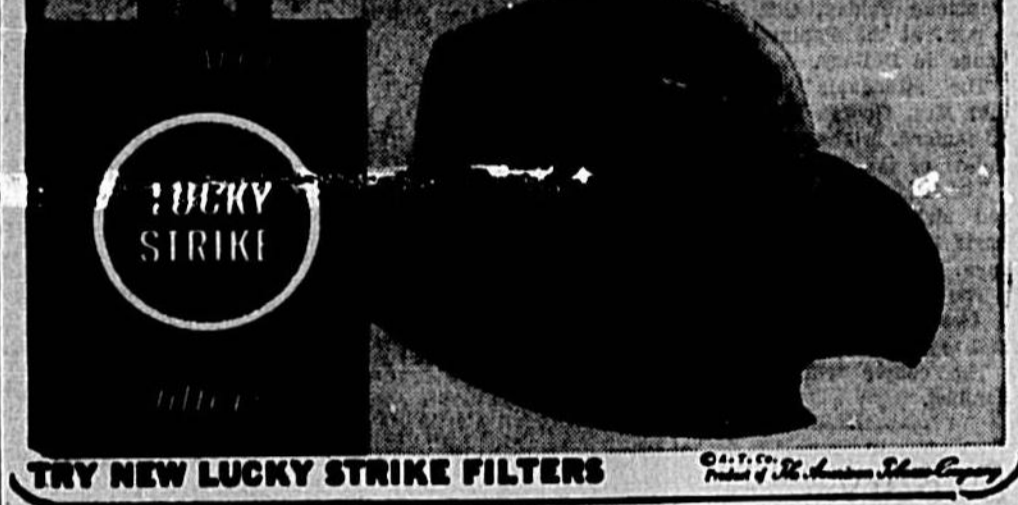

These were the first happy words of Don Drysdale, manager of the Los Angeles Dodgers, as he went to catch Jim Kaat, the Dodger captain, before Monday's game.

"We got back even after being two games down and now we're tied," Drysdale said. "We've been running a base-stealing strategy for a long time, but we've been successful in it."

Murry Willis was even more explicit than Drysdale in tabling Koufax as the man who would turn the tide.

"I'm confident that Koufax is going to outpitch Jim Kaat," the Dodger captain said.

Manager Sam Mele of Minnesota said part of the reason for the second straight win was Koufax, the greatest pitcher in baseball, going for us. And he'll be tough, he said. He's right-handed. Base-stealing strategy.

# Lyman Dumps Titusville, 13-0, For First Victory Of Season

By Jim Bucher Herald Sports Writer

A strong running backfield and a tough defensive line led Lyman to its first victory of the season Friday night, a 13-0 win over the Titusville Terraces at Titusville.

The bulldozing running by fullback Ben Boston and spectacular runs by halfback Larry Baker and fullback Ed Smith were the bulk of the offensive performance for the Greyhounds.

On defense, the Hounds held the home team to 116 yards rushing and the defense backfield, including fullback Ed Smith, halfback Larry Baker and fullback Ed Smith, blocked every one pass completion in 13 attempts.

The second half was almost all Lyman with short gains by Baker and Boston enabling the Hounds to maintain control of the football. They were unable to score, however, until midway in the fourth period, when Baker broke off a 19-yard run, a hole and went 66 yards for a touchdown. The kick followed, but the Hounds led 13-0. Titusville was unable to do much against the strong Lyman defense in the final half, losing a fumble, allowing an interception and punting on several occasions.

The Greyhounds will take an Oak Ridge in a home game Friday night. The Greyhounds at season record now stands at one win, one loss and one tie.

# Gunn Guides Crooms To 33-6 Triumph

By Bob Thomas Jr. Herald Sports Writer

James Gunn paced two touchdowns and ran for another as Crooms triumphed over the Hungerford Rebels by a score of 33-6 Friday night at Municipal Stadium.

The always tough Rebels maintained Crooms' explosive offense in the first half as they held on to a 6-0 tie.

Crooms drew first blood late in the initial period when Don Wilson pounced on a Rebels fumble in the end zone. Early in the second stanza, the boys from Hawthorne tied the score at 6-6 as Archie Riley passed 30 yards to John Dillard for the tally.

Swim Tryouts

By John Barker

Tryouts for a South Seminole Swim Team are scheduled for 8 p.m. today, Tuesday and Friday at Long O'Leary Community Club under direction of Mrs. Richard Cecil, administrator.

All interested youngsters from junior and senior high schools are invited to register and participate in the tryouts.

# Seminoles Shock Eagles, 26-0; Mighty Boone Is Next

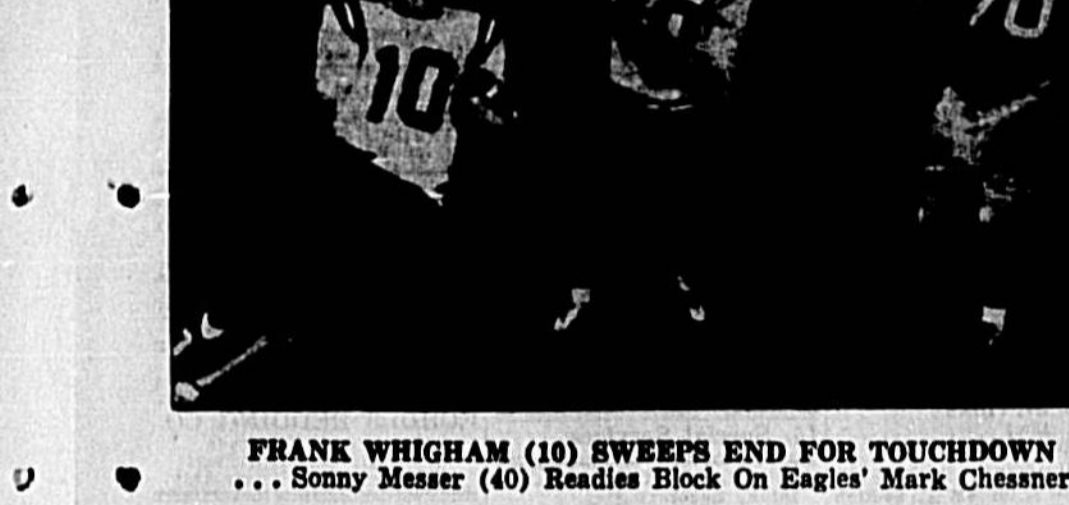

By Sam Stanley Herald Sports Writer

Seminole High's tribe of Fighting Seminoles added a string of Eagle victories to its record on Friday night, and Coach Mark Metz immediately began planning for another war party against a band of Braves who have been touted as the most formidable in the Metro reservation.

The new feathers are the Seminoles' reward for an outstanding defensive job done by the 36-0 scolding of Edgewater and the Braves made by the undefeated Boone High School football team that is perched on top of the Metro Conference with a 3-0 record, just a half step ahead of the 2-1 record of the Seminoles.

The Seminoles' defense was a wall of steel, stopping Edgewater's offense in the first quarter. The Seminoles' defense was a wall of steel, stopping Edgewater's offense in the first quarter. The Seminoles' defense was a wall of steel, stopping Edgewater's offense in the first quarter.

# Mikler's Running Sends Lions To Third Victory

By Bobby Stewart Herald Sports Writer

The Oviedo Lions came back twice to defeat a well-coordinated Tavares team, 25-13, Friday night, Billy Mikler, the Lions' speedster, almost defeated the Bulldogs single-handedly as the help of some fine blocking, he raced for 270 yards and four touchdowns.

A large crowd saw the homecoming Lions, trailing the first quarter and Billy Mikler put the Lions ahead when he took off from his eight yard line and went 92 yards for the TD. The Lions scored again in the third period, only to have the Bulldogs catch up in the fourth quarter.

TEAM STATISTICS

Team	First Downs	Yards Rushing	Yards Passing	Passes	Interceptions	Punts	Fumbles Lost

# Only One Choice!

Senators Countians have no choice but to go to the polls in November and vote for an increase in the school millage.

There are two basic reasons why the millage must be increased:

1. The tremendous growth in school enrollment in the county.
2. The inability to get and keep fully-qualified, top-flight teachers.

One school administration official told us that the extra money provided by the millage will help to increase teacher salaries. We will be able to attract and keep more highly-qualified teachers which our children must have for a quality education.

Not only will the extra money go toward raising the pay for our teachers, but it also will help to maintain accreditation by providing for some improvements in instructional materials, libraries and equipment.

The best simple fact to use in determining the quality of a school system is the amount of money that a school system spends per pupil per year in average daily attendance.

And how does Seminole County now rate in comparison with other counties in the state? Exactly 64th! That's only three notches from the bottom of the barrel.

Seminole County spends only \$309.57 per pupil per year in average daily attendance. In dollars and cents, Seminole spends 68.85 less per pupil than the state average and \$209.41 less than the top county in the state.

Seminole also lags considerably behind our neighboring counties of Volusia, Broward, Lake and Orange.

Even if the voters approve the extra millage the job of raising our schools up to satisfactory standards will be far from finished. But this is a start in the right direction.

Vote Nov. 3 and vote to improve our schools!

### Thought For Today

For thus said the Lord God, the Holy One of Israel, in returning and rest you shall be saved; in quietness and in trust shall be your strength. —Isaiah 30:15.

### Dr. Crane's

## Worry Clinic

Think has millions of men in the same boat with him. But they should actually feel proud, for they are likely to be the executive or professional types who are possessing the "free enterprise" system. Learn how to control your stress via Dr. Crane's Worry Clinic.

GARY S-435: Hank J., aged 38, is a sales manager. "I enjoy my work but it keeps me so tense that my family physician now says I have a high blood pressure."

"How common are ulcers?"

"And what can a victim do to get rid of one?"

"A simple ulcer is often the badge of a go-getter who is a fighter in our 'free enterprise' system."

Actually, it may thus be a mark of distinction.

Leaders and the chronic rest or welfare recipient are not likely to have an ulcer.

Listen to your Dr. C. M. Pollard, medical professor at the University of Michigan, add:

"If you want a good associate, pick a man with an ulcer!"

Dr. Pollard went even further and added: "He'll probably be the first man on the job in the morning and the last one out at night."

For the typical patient is an energetic, forceful personality of the executive type.

He is definitely not the executive or Prudential type.

In fact, in that Bible story, it would likely have been the hard working older brother who had a people ulcer.

For ulcer victims accept responsibility instead of blaming it on the doctor.

They do not shun a fight, whether in business or professional competition.

In sports they are likely to be called the "money players," meaning they bear down hard in a crisis and come through successfully.

Through a blood temperature test are told from the real

## Bruce Bissot -- Ray Cromley Political Notebook

WASHINGTON (UPI) — In 1962, Truman Van Trish (fictional name) became a chief of the La Salle Village (fictional name) in the central province of Binh Thuan.

Trish was young, chunky and tough. He'd been a lieutenant in the French army. He saved his money, bought a small piece of land and farmed it.

The former village chief had been an old man who didn't do much and therefore was no threat to the Viet Cong. Trish got out with the people, talked with them about their problems. He called the U.S. aid men for help in putting in a well and in building a schoolhouse. He set down on a brick in the rice paddy.

Trish was becoming popular. This bothered the Viet Cong. Besides, their program, called for setting up a village. The Viet Cong set up a village in the area. Trish had even pulled his gun from his holster. As police figure it, he'd been stopped by a "troubled friend," then attacked before he knew what was happening.

A bus which started out about 15 minutes after Trish found his stabbed body lying on the Phan Thien road and his head cut off and applied on a nearby pole.

Trish hadn't even pulled his gun from his holster. As police figure it, he'd been stopped by a "troubled friend," then attacked before he knew what was happening.

Trish usually took someone along when he traveled. This morning he didn't.

A three-man V.C. assassination team had been waiting 15 hours.

A bus which started out about 15 minutes after Trish found his stabbed body lying on the Phan Thien road and his head cut off and applied on a nearby pole.

Trish hadn't even pulled his gun from his holster. As police figure it, he'd been stopped by a "troubled friend," then attacked before he knew what was happening.

## Horoscope Forecast

**TUESDAY, OCT. 11, 1966**

**GENERAL TENDENCIES:** The daytime is fine for adopting new and modern methods to whatever awaits your attention, so get busy early and attend to all each while the evening finds a very deceptive condition in which that can cause you to make some decided error in relations in connection with one with whom you wish to be in good terms.

**ARIES (March 21 to April 19):** You are able to find with facility some proper means by which to improve your home and other possessions. Set a better goal for yourself financially, too, be clever.

**TAURUS (April 20 to May 20):** Far greater benefits are possible for you provided you are on the beam as to opportunities about you. Personal goals are best to follow right now. Start a fine year.

**GEMINI (May 21 to June 21):** You have to step up your game, whether of an intimate or business nature, if you are to make them successful. Consult with experts. Don't try experiment by yourself alone.

**MOON CHILDREN (June 22 to July 21):** If you take the time to talk to chums who know about the most modern systems, you get ideas to start a definite upward in your affairs. Listen carefully. Valuable pointers are given.

**LEO (July 22 to Aug. 21):** Contact quickly some influential person you know who can show you how to expand rapidly in the near future. Everything is going better around you. But more so if you are a YERGO (Aug. 23 to Sept. 23). Clever individuals are in a fine mood to help you to advance more quickly and intelligently. Do more listening than talking. Ask questions! Ask!

**LIBRA (Sept. 23 to Oct. 23):** It is necessary that you be very close to your partner. Get all behind you in record time. Then do your best to please your wife, husband, or sweetheart.

**SCORPIO (Oct. 23 to Nov. 22):** Try to be more carefully to what allies appear instead of trying to force your own views. Be in a position of advancement for all. Get contracts that will be long-lasting.

**SAGITTARIUS (Nov. 23 to Dec. 21):** Improving the quality of your work is possible now and you get approval from the most modern in your field. Get future plans made. Be a diligent organizer of the day and night anger will for having fun and increasing culture. Co-workers are impressed indeed with your efficiency. Explain how you do it.

**AQUARIUS (Jan. 21 to Feb. 18):** Get out and buy those efficient running gadgets and machines that do the work at home a positive breeze. Make him happy. You love to work today. It is much appreciated.

**PISCES (Feb. 19 to March 20):** Impress others with your fine work and ability at all meetings you may have. Get appointments planned early and then keep them on time. This is particularly good in business.

**IF YOU WOULD BE BORN TODAY:** He or she will be one of those clever, attractive types that everyone will want to meet, but who actually has much charm that adults seem to be literally blinded around the child's charm. Give the right ethical training early for good results, since the physical drive here is very fast and could be used in the wrong direction. A fine chart for making old ideas into more modern, life more interesting for everyone contacted. Send to Collins.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

### Sportsman Club Is Dedicated To Area Recreation

The Seminole Sportsman's Association is one group in the area that is certainly dedicated to the progress of recreation in Seminole County.

Made up of outdoor enthusiasts, the Sportsman's Association has pledged to do all in its power to keep Florida, and specifically this portion of Central Florida, as a playground for outdoor men.

President S. B. (Jim) Crowe explains the aims of the group, as they:

"To be of service to the community in preserving some recreational area and clean water for the people.

"To cooperate with the county commission in implementing the long range recreational program.

"To work for hyacinth control, not eradication.

"To establish a liaison with other clubs and organizations who have the same goals.

"One of the projects of the Sportsman's Association that is open for all to see, is the Sportsman's Park on the Wekiva River. Recently, the association has put \$1,000 in improvements for the park.

"Another project, already underway, is the obtaining of at least six acres of land for a public park on Lake Jessup. Officers of the Sportsman Association, along with Fred Crowe are: Vice President Bob Wyche; secretary, Harold McGee; treasurer, W. A. Adams; custodian, Henry Wright; director, W. G. Kirby; and members, Robert Harvey, Henry Wright, G. Algrason, Spencer, William Fields, Harold Nelson.

"The Sportsman's Association invites all interested people to join them in obtaining their goals."

### Fishing Club To See Film

By Mrs. John Leone  
A 30-minute film, "New Fishing Culture" will be shown Wednesday at 7:30 p.m. meeting of the DeBarry Fishing Club at the DeBarry Recreation Hall. The film will be shown under direction of Elmer Thompson, program chairman.

Business session will be conducted by Theodore Leigh, president, who invites all members to attend and invites area residents to "come meet your neighbors."

Refreshments will be served following the meeting and program.

...I MUST RECEIVE THE PROMPT FOR THE NEXT DELIVERY OF THE AMERICAN AIRBORNE FORCES IN THE MOUNTAINS.

SAVE YOUR BREATH, MISS ANNE. I AM NO MENTALIST. I AM ONLY A SOLDIER. SAY—PUT THE CARB ON THE BARREL—HEAD FORWARD.

### By Robin Moore

Squadron VAH-11 from Sanford Naval Air Station finished second in an operational readiness inspection held in the Virgin Islands prior to sailing for the Mediterranean aboard the USS Forrestal.

VAH-11, fulfilling its primary mission of all-weather bombing, flew a number of simulated strikes against various targets in the area, dropping 20,000 pounds of live ordnance in a two-day period.

A "well done" was voiced by Cdr. K. M. Sandom, commanding officer of the Checkertails.

"This notable performance could not have taken place without the breaking effort of the maintenance department," Sandom declared.

"Although they seldom receive their just credit, these men launched 84 sorties from the Forrestal before missing the target because of a maintenance malfunction."

VAH-11 left Norfolk Aug. 24 for the Mediterranean and has now reached its destination.

### County OKs Tentative Road Plan

22 Miles Of Improvement Scheduled

By Paul Brookshire  
A tentative road program for Seminole County for 1965-66, covering approximately 22 miles of improvements, was approved by the Board of County Commissioners today.

The commissioners said the program will be reviewed in six months for possible re-allocation of funds not used.

Some of the roads programmed for improvements require donated right-of-way, Chairman John R. Alexander said.

"Our aim has been to evaluate roads on a county-wide basis," Alexander said.

Seven projects in the new road program have been carried over from previous years. They include work on Lake Mary Boulevard, Oxford Road, Winter Park Drive, Spartan Drive, Homewood Drive, one mile of Longwood-Clarkham Road and Nursery Road.

Other road projects by district:

District I—Old SR 44, Mullet Lake Road, Snow Hill Road, Old Titusville Road.

District II—Second Street and Wilbur Avenue (Lake Mary), Lake Mary Road, Country Club Road, Nursery Road, Lake Mary Boulevard.

District III—Bunell Road, Old Forest City Road, Orlando-Aldus Avenue, Florida Avenue, Seminole Circle, Oranole Road.

District IV—Tuskuville Road, DeLeon Street, Oxford Road, Water Park Drive, Spartan Drive.

District V—Orange Boulevard, Homewood Drive, Country Club Road and Longwood-Clarkham Road.

### Casselberry Out Of College Race?

By Barry Lawce  
The City of Casselberry is in danger of losing out completely in the race as a location for the new Seminole Junior College.

Hubbard Casselberry, one of the owners of the land being offered as a possible site within the city, Monday night hinted that he may withdraw his offer unless a paving problem is solved between the city and his Casselberry Utilities Company.

The paving problem concerns the extension of Winter Park Drive, which is one of the main access routes to the proposed college site, located to the east of Howell Park and south of South Bendicks Junior High and Elementary schools.

City Council is taking steps to go ahead with paving of the street, but it will be more difficult to make the connections and sign up the property owners as customers.

Casselberry pointed out that all property owners on the unimproved section of Winter Park Drive are not connected to Casselberry Utilities. He said that if the street is paved before these connections are made, the city will be more difficult to make the connections and sign up the property owners as customers.

Governor Burns represented the city agencies in his official capacity and there is no reason why they should not help pay the bill for his official trips," Ogden said.

### 'Sour Grapes,' Burns Replies

TALLAHASSEE (UPI) — Three state agencies have kicked in close to \$11,000 to buy gasoline for the big twin-engine Convair airplane loaned to Gov. Haydon Burns by the Win-Diala grocery chain.

The Governor's pilot has a credit card from a fourth agency that has not gotten around to using it as yet.

A UPI reporter indicated that the cost of operating the big plane are running lower than anticipated because it has been laid up for a couple of months for repairs and has not been flown since early August.

The use of gasoline credit cards from other state agencies came to light when an angry member of the State Forestry Board, Emmett B. Peter, of Lakeland, a newspaper editor, accused Governor Burns of using strong arm tactics to bring agencies not solely under his jurisdiction to heel.

Governor Burns defended the practice of having the various agencies help pay for the plane which he uses for business trips.

"Sour grapes," said Burns, referring to the charges, including one that the administration is trying to force the Florida Citrus Commission had based its operating budget on a 95 million box orange crop.

The state Department of Agriculture's advisory council had predicted an orange crop of 95 to 100 million boxes.

The citrus industry has been working to come up with plans to market the increasing citrus crop and the smaller-than-expected orange estimate was viewed as a blessing in some circles.

Florida Citrus Mutual executive vice president Robert W. Rulligan did not comment directly on the accuracy of the USDA report, but said it "clearly shows" that the industry's sales efforts for the season must be increased six to 10 percent over last year's efforts.

### Fire Questions At Junior High Are Answered

Curton pointed out that the steel stairwells were "fire-proofed" three years ago at the direction of the State Department of Education and the Sanford Fire Department.

At the same time, fireproof doors, connected to a heat control regulator, were installed in the halls of the school, with automatic closing doors in case of fire.

The inside stairwells are of steel construction, surrounded by fireproof walls. The south stairwell was constructed outside the original building and connected to the main building by a fireproof door.

Issues of the Sanford Herald reported on July 29, 1962, page one, and Aug. 21, 1962, page seven, describe and picture the construction of the stairwells at a cost of \$14,000.

After a general meeting in the auditorium, parents lowered their child's schedule for 10-minute periods in each classroom, where they met with teachers who described how parents may best help their child with his schoolwork, an outline of the course and a question and answer period.

### Citrus Estimate By U. S. Gives Growers Hope

TALLAHASSEE (UPI) — Florida citrus industry leaders looked hopefully at the U.S. Department of Agriculture's first crop estimate of the 1965 citrus yield and hoped it was close.

The USDA set the Florida orange crop at 91.7 million boxes, including 44 million boxes of valencias.

Although no formal industry prediction has been made, most officials had expected an estimate ranging from 95 to 105 million boxes of oranges.

The state Department of Agriculture's advisory council had predicted an orange crop of 95 to 100 million boxes.

The citrus industry has been working to come up with plans to market the increasing citrus crop and the smaller-than-expected orange estimate was viewed as a blessing in some circles.

### City Commission Election Dec. 7

Sixteen pages of proposed revised rules and regulations governing the operation of taxis in the city of Sanford occupied the first order of business of city commissioners Monday.

Some of the main issues of the new regulations are: mandatory periodic safety inspection; delay in getting passengers to destination by frequent stops for pick-up; setting and posting of uniform fares; character, experience and responsibilities of drivers; proper insurance, taxi licensing and chauffeur training.

There are now 472 registered voters on the books.

### New Taxi Laws Eyed

Approved request of Sanford Naval Academy to repair and extend dock in Lake Monroe and dredging from channel to dock, approved request of owner for demolition of garage behind Rose Court apartment, approved request of Chamber of Commerce signed by Mayor L. Baborn Jr. on Oct. 25.

Final signatures of the mayor and city clerk were affixed to the general lease on the municipal golf course to M. Whitchel, after W. C. Hutchison, city attorney, informed the commission the necessary city deed had been filed and funds for the purchase of the lease from the Sanford Golf Club had been placed in escrow.

### Shell Kills 5

By Mrs. Clarence Snyder  
Osteen Volunteer Fire Department made its first run for a house fire at 4 p.m. Monday to the new home of Mr. and Mrs. Earl Tyler, on Lake Butler.

Fire broke out in the kitchen where a stove burner had been left on under a skillet. Mrs. Tyler, who had gone to pick up her children at school, returned to find smoke pouring out from under the door.

A neighbor, William Wankler, took the fire under control when the fire department arrived but not before \$2,000 in damage had been done to the kitchen. Considerable smoke and water damage in other rooms of the house also resulted.

The Tylers had lived in their new home five months.

### Klan Probe

WASHINGTON (UPI) — The House committee on un-American activities opened public hearings Monday on the Ku Klux Klan with the promise of exposing "an entire world where homophobia and bigotry reign."

Francisco Giants had been placed in escrow.
