WASHINGTON (UPI)— Sen. Robert C. Byrd (D-W. Va.) says Sen. John F. Kennedy (D-Mass.) is too young and inexperienced to be president.

Area TB Officials To Attend Meet

The Seminole County Tuberculosis and Health Association of Fla. will be closed Wednesday through Saturday, while association executive secretary Mrs. Loraine L. Graham attends the Florida Tuberculosis and Health Association's annual meeting.

Byrd is backing Senate Democratic Leader Lyndon B. Johnson (Tex.), 51, who is not campaigning in any of the pre-convention presidential primaries. Returning from a five-day tour of 27 West Virginia counties, Byrd said that Kennedy "lacks the age and experience to be president in these perilous times."

County association directors Mrs. W. W. Tyre, Mrs. J. N. Anzorello, and Mrs. C. E. Hunter also plan to attend the meeting in Tampa.

Byrd said in a statement that he could not feel secure in the thought of Kennedy "sitting down with the Adenauers, the DeGaulles, the Macmillans and the Khrushchevs as our country wrestles with important problems in the field of international affairs."

'Sunday Liquor Sale Issue Enters County Campaign'

District 3 County Commissioner Lawrence Swafford said at an All-American Spring rally Tuesday night that a "whispering" campaign has been directed at him because of his stand against the sale of liquor on Sunday and charged that one of his opponents allowed the sale of liquor on Sunday while he served as a commissioner. Swafford, speaking to approximately 100 persons, declared that "liquor has been injected into this campaign because of the position I have taken in the past. I neither deny or make any apology for the position I have taken."

"It is a matter of record that one of my opponents, while serving as county commissioner, did allow liquor to be sold on Sunday," Swafford charged.

Swafford said that he had "two statements signed by citizens and members of the Longwood Town Council that were introduced on the floor of the county commission to explain why the ordinance regulating the hours when liquor could be served was not being enforced, he explained that he had taken it upon himself to extend the hours beyond the time set by law."

Swafford said the council demanded that the ordinance be enforced without further violation.

A. B. Lutzmann, one of Swafford's opponents in the race, cautioned voters that now that the race is coming down to the wire "be wary of rumors, vicious lies and falsehoods which are the tools of desperate candidates."

He said that the commissioner needed should have proven ability and stood on his record as mayor of Longwood.

Another candidate in the race, Otis Fausch of Longwood, said he favored sound and orderly progress in the county and said the county could progress on a "pay as you go" basis.

Another district 3 candidate, Ed Zimmermann, said "although we may have the lowest millage in

FSU President Dies In Chicago Of Heart Attack

CHICAGO (UPI) — Dr. Robert M. Strozier, popular president of Florida State University, died today in Chicago.

Strozier, 38, became ill Tuesday night while addressing the officers, a club of townspeople and faculty members of the University of Chicago.

Mrs. Strozier notified that he was seriously ill, left by plane for Chicago without leaving his death.

Strozier had been president of the university in Tallahassee since 1937, when he came from the University of Chicago to succeed Dr. Doak S. Campbell, who retired.

He died at a Chicago hospital, apparently of a heart attack.

He had undergone surgery in Tallahassee last week, but was able to make the trip to Chicago.

He recently had been mentioned as a possible challenger as chairman of the University of Chicago, but said he had not been contacted about the position.

Strozier was dean of students of the Chicago university before going to Tallahassee. He went to Chicago as associate director of International House in May 1945, and became dean of students in 1946.

He believed that an administrator should keep his hand in at teaching and taught a class in romance languages both at Chicago and Florida State.

Strozier, 33, was born in McRae, Ga., and was associate dean of students, associate professor of romance languages and director of the army specialized training program unit at the University of Georgia in Athens.

James Avery, the fifth candidate in this race said he had been accused of talking too much by certain people and devoted his three minutes to stating his qualifications.

Tax Assessor Richard McCanna reaffirmed his previous stand that "taxation by favoritism is both shameful and degrading and must never be returned to Seminole County."

His opponent, Mrs. Mary Earle Walker said that many mistakes were made in the recent reappraisal and if elected she would do her utmost to give everyone a fair reappraisal.

Circuit Court Clerk David Gabel said there is no substitute for experience and "because you work in one office in the courthouse does not make you qualified to handle the duties of another office."

His opponent, Arthur Beckwith Jr., said he has had public service his career and has no outside interests. He would carry on the duties of the clerk in an efficient and courteous manner.

The other candidates seeking office used their three minutes mainly to discuss their qualifications and backgrounds.

Commission Continues Septic Tank Restriction

The County Commission continued its septic tank restriction Tuesday as the use of septic tanks in subdivisions in low lying areas.

The board, by a 2-1 vote, directed Zoning Director Robert Brown not to issue any building permits to the developer of subdivisions which the construction of 186 homes in the 80 acre tract.

The board made the decision after citing a letter from the State Board of Health which stated that "no consideration should be given to the use of septic tanks as proposed for any lots within this subdivision."

A few seconds after the board turned down the proposed plan, developer Sumner Kramer of Orlando said he would put a central sewerage system in the development.

Attorney Gordon Frederick, representing the developer, said that the county sanitation had said that the area was suitable for septic tank use.

"We realize that a central sewerage system is the best, but in many cases it is not economically feasible," Frederick argued.

Sanitarian Val Robbins said the location "meets our standards, but I question our standards."

Senatorial primary election. Case, a staunch Eisenhower supporter pulled 100,000 more votes than opponent after catching fire about 3 a. m. The bodies of those aboard were burned beyond recognition.

New Riots Sweep Korea

SEOUL (UPI) — New anti-government riots swept the length and breadth of South Korea today and heavily armed insurgents battled government troops in the mountains just northeast of Seoul.

President Syngman Rhee appealed to the patriotism of the rebels. He nevertheless called for early restoration of law and order by loyal troops and police who have killed and wounded hundreds of Koreans.

A UPI survey of major hospitals in the Seoul area showed 123 persons were killed and more than 400 wounded in Tuesday's rioting. Five persons were killed today. The final death toll may be much higher.

Rioting against the Rhee government spread to at least seven cities despite stern repression measures and the imposition of martial law. In Seoul's north-eastern outskirts 80 heavily-armed rebels were holding out.

Defense Minister Kim Chun Yul sent trucks with loudspeakers into the area to appeal to the holdouts to surrender. Other appeals came from Rhee's Liberal Party and the opposition Democratic Party. Police and soldiers stood guard at major buildings throughout Seoul. Infantry rifle squads accompanied by tanks roamed through the city looking for trouble-makers.

The stern measures by the government brought a protest from the United States and U. S. Ambassador Walter P. McCaughy was reported prepared to call on Rhee Thursday.

Unofficial reports reaching Seoul reported anti-government demonstrations in Pusan, Kwangju, Taegu, Incheon, Chonju, Suwon and Iri. The outbreaks were quickly put down in most places, the reports said, and there was no mention of casualties.

South Korean government officials were concerned over the possibility that President Eisenhower might cancel his scheduled visit here in June because of the sudden outbreak of violence.

Reports from Augusta said the men responsible for the president's safety were expected to take another look at his Far Eastern travel plans because of the Korean riots.

The U. S. Army said no special action is being taken to alert front-line troops for possible trouble arising from the riots. "A state of combat readiness exists at all times in forward areas," a spokesman said.

Carlos, Morgan Win DCT Awards

Kathy Carlos and Henry Morgan won top awards at the Seminole High Divergent Cooperative Training employer-employee banquet Tuesday night.

Mrs. Carlos won the award for doing the most for the DCT club during the past year. Henry Morgan won the top DCT student certificate.

"Employers are like parents who want children to go to bed when they're wide awake and get up when they're sleepy," First Federal Savings and Loan Association President George Touhy, told about 100 persons gathered for the banquet.

Touhy said he was glad the DCT students had been able to coordinate their work habits with the habits of their employers. He said students must learn to accept and offer ideas and must use the tactful approach in putting across their opinions. He stressed the importance of learning to get along with other people on the job.

Diversified cooperative training is an application of the fundamental educational principle of "learning by doing," County Vocational School director E. S. Douglas said. Letting a student attend school in the morning and work in the afternoon helps him to get into an office and find whether he likes a certain type of work, Douglas explained.

State Warned Of 'Creeping Integration'

By United Press International

Gubernatorial candidate Fred O. Dickinson said today unless Florida elects a strong, decisive governor "this creeping integration you see everywhere will turn into galloping integration."

"Unless we elect a man who is strongly dedicated to the proposition of segregation, the charm and tradition of Florida will be ruined," he told audiences in Orlando and Palatka.

The Democratic candidate for governor kept the air thick with oratory, with 1,441,453 registered Democrats as the target and less than two weeks left to sway them. Some of the highlights included a blunt description of Dickinson as a liar and endorsement of Ted David by a Negro voters group.

Dickinson promised to do "all in my power" to hold the line on racial integration. He said the facts show integration is not a cure-all for the problems of the Negro race and cited race-mixing in the schools of Washington as an example.

Dickinson was termed untruthful by John McCarty, Dickinson had charged that McCarty and his late brother, Dan, had filled many jobs in the flood control authority as "political payoffs" during Dan's term as governor.

Dickinson said also that the McCarty's appointed at least three relatives to state jobs and that McCarty-owned lands benefited from the flood control program.

David was endorsed by the Florida Voters League, a non-partisan Negro group.

The league, which met in Gainesville, noted that David is the only candidate who has endorsed Gov. LeRoy Collins' stand that lunch counter segregation is "morally wrong" in the case of stores which solicit Negroes in other parts of their operations.

McCarty, campaigning at Fort Pierce, promised if elected to work toward a uniform \$16,000-a-year salary for Florida state judges.

Dickinson, speaking at Tampa, proposed a state wage and hour law for Florida workers not covered by federal wage and hour statutes.

At Jacksonville, Ferris Bryant said the state tax on checks, bonds, and bank deposits should be repealed. He said it is driving new wealth and investment away from Florida.

Bryant and Doyle Carlton Jr. came under attack from Haydon Burns, the Jacksonville mayor charged both constantly with against the University of Florida and education in general while legislators.

In the race for commissioner of agriculture, Doyle Conner of Starke pledged Tuesday to "continue my fight for improved education."

Hancock, of Grovesland, said his work toward reorganization of the Department of Agriculture was instrumental in winning for him the support of 21 newspapers.

Army Removes Wraps Of Secret Radar System

WASHINGTON (UPI) — The Army has taken the wraps off a previously-secret radar system that can map military targets and other features hundreds of miles inside the Iron Curtain.

The radar is designed to be carried by aircraft which can do their work while flying safely over friendly territory. It makes a picture so clear that the terrain being mapped appears to be directly beneath the plane.

In this respect, the new system, developed by the Army Signal Corps, outperforms the human eye, cameras, and previous radar.

"This radar is a breakthrough," Brig. Gen. W. M. Thames, commander of the combat surveillance agency, told newsmen watching a demonstration at National Airport here Tuesday.

The radar has obvious implications for improved missile aiming. Remote objects stand out in the real size in radar images and do not merge together as closely-spaced "targets."

The Army has its four experimental models, weighing about 500 pounds each, installed in twin-engine L3 planes. Gyros keep both radar and airplane stable. Returning radar echoes are recorded on film, providing data from which pictures are made.

Reward Offered For Assailants Who Dynamited Home

By United Press International
City officials of Nashville, Tenn. offered a \$10,000 reward today for arrest of the unknown assailants who dynamited the home of a Negro city councilman, and Mayor Ben West appealed to all citizens to "end discrimination."

West called the bombing of Councilman Z. Alexander Looby's home "terrible." He told 2,500 Negroes who marched on City Hall after the early morning explosion Tuesday that he wants to meet with Negro leaders to solve racial problems.

"You also have a responsibility," he told the Negroes. "You have the power to destroy this city. So let's don't have any mobs."

The Rev. Martin Luther King of Atlanta, leader of the "non-violent resistance" by southern Negroes, flew to Nashville to meet with demonstrators and make a speech tonight at Fisk University.

The City Council voted unanimously Tuesday night to offer a \$10,000 reward for apprehension of the men who bombed Looby's house while Looby and his wife

were asleep. The blast wrecked the home, damaged two other houses and shattered windows in a block-square area, but Looby and his wife escaped injury.

Elsewhere in the South: The Mississippi Senate, voting an appropriation for senior colleges, adopted an amendment to withhold salaries of any college employees who have been members of the NAACP, the Communist Party or the American Civil Liberties Union within the past five years.

The Rallies Are For The Voters

There are more names on the voter registration list in Seminole County than ever and we still hear quite a few comments on the relatively small turnouts for the political rallies being held in the various communities.

This leads to the question of whether these voters are not especially interested in listening to the candidates, but are on the rolls just to vote for or against somebody regardless of qualification.

We especially urge that those newcomers in the county who will be voting here for the first time attend the rallies and talk to the candidates—ask what they propose to do to keep the county moving ahead.

And there's one rally we hope every one of the 14,502 registered voters now on the rolls will attend—that's the one sponsored by the Voters League April 28, where no speeches will be made. Questions presented in writing from the audience to the candidates will be the procedure. That's a real public forum and we hope those 14,502 voters keep sending up the questions all night.

At any rate, the voters ought to examine these candidates who want to take charge of our county government for the next few years—and they ought to pin 'em down with questions that will separate the constructive proposals from the hogwash.

Then they ought to go to the polling places on election day and do some positive ballot marking.

WORRY CLINIC by Dr. G. W. Crane

CARE #432: Richard S., aged nine, dislikes school.

"Dr. Crane, my husband is a salesman," Richard's mother began. "So we have moved three times since Richard started school."

"That has always upset Richard, for he is shy and slow to make friends. By the time he'd be just getting acquainted in one school, we'd move elsewhere."

"Now Richard's grades have fallen below average in both reading and arithmetic. He groans about school."

"What can I do to help him? He is a bright boy and should go on to college. But right now he is so discouraged he'd like to quit school forever."

"Diagnosis of school usually means a child isn't making good grades. For we usually like what we excel in and dread that wherein we fail. Occasionally a bright child slips behind his classmates, either because of illness, or frequent moving from one town to another.

In such cases, you parents or your older kids in the home should come to his rescue. But make your teaching a game. Sugar coat the information so he will receive it. For example, if he is poor in arithmetic, that probably means he hasn't learned his multiplication tables and combinations.

These should always be so well taught that a child doesn't even have to think of a pair of numbers. Then "flash" these before your youngster for a brief interval of time.

Thus, if you wish to prime your child in his reading, make a set of such cards on which you print the common words that appear in his reading book at school.

CHEERFUL LITTLE EARFUL!

ASSIGNMENT WASHINGTON by Ed Koterba

WASHINGTON—They uncorked the secret report on that investigation which spills the beans on how the Defense Department has been wasting our dollars.

It's a congressional report which the Pentagon wanted to bottle up - for reasons obvious to any sane taxpayer.

This was the report that disclosed the fantastic foolbockleousness which Rep. Jamie Whitten (D., Miss.) let out of the bag the other day - the story about how the Air Force ordered 300 footlockers for a small base in Germany and ended up with 30,117 shipped from the States, while thousands of the same type of boxes were available right in Germany.

This monstrous goof - which will end up costing taxpayers nearly a quarter-million dollars - is, however, peanuts compared to the real masterpieces of military mismanagement.

Take the tremendous slip at Griffis Air Force base at Rome, N. Y. The Pentagon has been shipping to Griffis gigantic stockpiles of film and photographs.

Investigators found a mountain of film that had cost \$4,500,000.

But, to top it off, somebody forgot to rotate the film stocks, and now \$3 million of that film - enough to stretch from New York to Chicago - is over-age and worthless.

There are hundreds of other examples, uncovered by the investigation which would make any tranquilized taxpayer scream fiscal murder.

For instance, out at the Sacramento, Calif., air material area, the congressional people discovered that some eager beaver took a Pentagon order to "segregate parts" so literally that he had carpenters build more than 30,000 storage bins and cubicles - for duplicate parts!

This year, the Pentagon is junking \$10 billion worth of surplus equipment. They hope to get a nickel or a dime on the dollar. (But the catch is that in many cases it costs \$7 in administrative expenses for every \$3 worth of scrap sold.)

That \$10 billion, incidentally, is more money than the United States spent on its entire budget for the full year of 1940. Much of this surplus is due to bad "guesstimates" on military needs in the past. Next year, the military expects to junk another \$10 billion worth of equipment.

There's a bright note in all this, though. Since a similar investigation two years ago, the military has made some progress in standardizing its shoe supplies.

In 1938, investigators found 1,091 different kinds of military footwear and finislers stocked by the Army Quartermaster Corps in Philadelphia. But since then,

Fantasy Of Flood Looking Like Chapter Out Of Alice In Wonderland

By DICK WEST

WASHINGTON (UPI)—I have just finished reading the latest chapter of "Daniel in Wonderland" which is shaping up as the finest fantasy since Alice took a powder through the looking glass.

There is no doubt that Alice had some wild times while traipsing around the dream world with the gryphon, the mock turtle, the March hare and all that crowd.

But I don't think it is too far fetched to compare her experiences with those that Rep. Daniel J. Flood (D-Pa.) has been having as a member of the House defense appropriations subcommittee.

I had been following Flood's adventures during the hearings on the new defense budget which the subcommittee has been publishing in serial form. As Alice would say, they have been getting "curiouser and curiouser."

All of the subcommittee members have been bewildered from time to time by some of the goings-on at the Pentagon. But Flood seems to be the only one

in a state of perpetual amazement.

It is when he takes up the questioning of witnesses that the hearings begin to sound like "The Mad Tea Party."

In the latest volume of testimony, the subcommittee is endeavoring to comprehend military research programs, which is a way-out subject at best, embracing such matters as the "bug eye" in biological warfare and the effect of space flight on dental fillings.

I credit Vice Adm. J. T. Hayward, deputy chief of naval operations, with the all-time classic comment on how some of these programs came into being.

"We cannot," the admiral said, "go into vast projects with half-vast ideas."

Nevertheless, I'm afraid the subcommittee has only a half-part understanding of military research, and I'm afraid this is largely the result of the tendency on the part of Pentagon witnesses to speak in the unknown tongue.

The execution of the laws is more important than the making of them. —Thomas Jefferson

Licenses Revoked

WASHINGTON (UPI)—The Federal Aviation Agency said Monday it has revoked the pilot licenses of two American fliers who were shot down and captured in Cuba after making an unauthorized flight from Florida. The FAA said it was "exercising its rarely used emergency revocation authority" against the pilots, William Sherris and Howard Rundquist. Both are still held by the Castro government.

Francis Roumillat of Roumillat and Anderson's Drugs at the corner of Park and First in Sanford says:

"It has been my pleasure to know Bernard Parrish and his family for several years. With his record of capable service and ability I know that he will be of great value to us in Seminole County in the Florida Senate."

The girls prepared their own dinner of barbecued chicken, with all the extras and served birthday cake for dessert. It turned out to be a "slumber party" with very little "slumbering" as they spent just about the entire night eating and jabbering. All reports indicate the affair was a great success.

Best sellers have changed little since the first official survey in 1909. Tomatoes, milk and corn were the favorite individual canned foods then; milk, peaches and corn lead now. Among commodities, tomatoes (including sauce, paste and juice), milk and soup are the top three.

Greyhounds Slam Leesburg

14-1 Win Opens Play

By JERRY ODVINGTON

The Sanford Greyhounds opened the 1960 Florida State League season Tuesday night in style by demolishing the Leesburg Orioles, 14-1.

Tonight the locals open their home season against the Orioles with game time set at 7:45. Pre-game ceremonies get underway at 7:30.

Manager Robbie Robertson called on rookie right-hander Ken Sanders to start on the mound Tuesday and the 17-year-old youngster pitched beautifully and went the distance. He gave up eight hits, walked two, and fanned six. It was his first professional ball game and he came through with all the poise of a seasoned veteran. He displayed a blazing fast ball and one of the finest curves seen around the loop in some time.

The Sanford bats were booming all evening with the locals recording three Oriole pitchers for 15 hits. They pounded out three doubles and a triple and every base hit was solid all the way.

Shortstop Dick Green led the attack at the plate with two doubles and two singles in as many times at bat. He also scored four runs. His play afield was also brilliant as he came up with line shots time and time again.

Third baseman Bill Duke also enjoyed a fine opening night with three singles to right field.

First baseman Ken Harrelson also swung a big bat as he hit a double and a triple and drove in two runs. Both of his blows went well over the fence and traveled in the wall in center field. Neither of them would have been out of the park at Memorial Stadium.

Everybody hit for the Greyhounds. Right fielder Bolivar Hernandez picked up two hits as well as left fielder Bill Dube.

Manager Robertson has given the nod to Bob Golick to start on the mound for the locals in the home opener and he raises him as one of the finest pitchers in the Kansas City training camp this spring. As Robbie puts it, "I've been saving Golick for this one." He should please the home folks tonight.

TED WILLIAMS, of the Red Sox, is greeted by teammate Gary Geiger (37) as Williams crosses the plate after hitting the homer in the second inning of the Washington-Boston opener in Washington, D. C. It was Ted's 498th home run of his major league career and tied him with the late Lou Gehrig on the all-time homer hitting list. Williams hit another home run Tuesday.

Minoso Shows Chisox They Made Good Deal; Maris Sparks Yank Win

United Press International

The Rocky Colavito-Harvey Kuenn trade may be the one they're shouting about but the Minnie Mino deal may be the one they'll pay off on.

The 37-year-old native of Matanzas, Cuba, returned to Chicago's South Side as a hometown favorite for the first time in three years Tuesday and demonstrated he's beated up the "White Sox" "go go" attack by driving in six runs in a 10-9 victory over the Kansas City Athletics.

Minoso thus stole the American League's opening day spotlight despite a program during which:

—The Detroit Tiger's beat the Cleveland Indians, 4-2, in a 15-inning struggle that tied the big league record for the longest opening-day game.

—Roger Maris made a sensational debut for the New York Yankees who awoke from their spring coma to whip the Boston Red Sox, 8-4.

—Rookies Ron Hansen and Merv Breeding reeled off three double plays as the Baltimore Orioles downed the Washington Senators, 3-2.

The week-old National League race had an indisputed leader when the Los Angeles Dodgers beat the San Francisco Giants, 4-0, for their fifth win in six games. The Philadelphia Phillies shaded the Pittsburgh Pirates, 4-3, and the St. Louis Cardinals beat the Chicago Cubs, 5-2, in night games.

Minoso, acquired from the Indians in a seven-player trade last December, hit a 420-foot grand slam homer in the fourth inning after knocking in an early run with a sacrifice fly and then snapped a 2-9 tie with a second homer in the ninth. The White Sox had jumped to a 9-2 lead by the fourth but the A's routed Early Wynn in a three-run fifth and then kayoed Mike Garcia with two in the sixth.

Nora Siebern's homer and Ken Hamlin's run-scoring single tied the score for the A's in the top of the ninth but Mino's blast sent the club's opening-day record crowd of 41,661 home happy a few moments later.

The Tigers and Indians battled for four hours and 54 minutes before Al Kaline's two-run single in the 15th inning settled matters.

The man-to-man duel between Colavito and Kuenn was pretty much a bust. Colavito striking out four times and hitting into a double play for the Tigers and Kuenn making two singles in seven tries for the Indians.

Maris, the Yankees' key winter acquisition, drove in four runs with two homers, a double and a single and Bill Skowron also had four hits to lead New York's 17-hit attack on Tom Brewer and four successors. Jim Coates yielded nine Red Sox hits, including

Fullmer Favored In Title Bout

ROZEMAN, Mont. (UPI)—Rugged Gene Fullmer, a Mormon milk rancher from West Jordan, Utah, was a 12-6 favorite today to defend successfully his NBA middleweight title tonight against challenger Joey Giardello of Brooklyn.

Fullmer will receive one of his best purses, \$100,000, for his bout, while Giardello will get the largest payday of his career, \$35,000 plus expenses.

Both fighters expect the bout to go the scheduled 15 round distance. But should the match end earlier, it was likely that Fullmer would win. He has lost only four times in 55 fights and has been knocked out only once, by former champion Sugar Ray Robinson, May 1, 1957. Since then he has won 11 straight fights.

Giardello, on the other hand, has a spotty ring record with 17 defeats in 106 matches. Three times he has lost by knockout, twice because of cuts and he would be victimized by slashes again tonight.

Ingemar, Patty Expected To Sign For Bout Thursday

NEW YORK (UPI)—Ingemar Johansson and Floyd Patterson finally will sign formal contracts Thursday for their June rematch for the heavyweight championship.

Johansson was considerably behind Tuesday when the signing, originally scheduled for today, was postponed 24 hours. In fact, the champion hinted darkly that it there is any more delay he may drop the whole thing.

However, no further delay is expected.

"It's final and definite—we will sign at ten Thursday morning," said Roy Cohn, head of Felture Sports, Inc., which will promote the June battle at the Polo Grounds.

Two Teams Added To Summer Loop

The Sanford City Summer League will have two additional teams when it swings into action Wednesday.

In last Wednesday action, Lance Inc., led by Bob Borsdorff's 564 series and Buddy's Automotive Service, led by Jack Kanners 336 total moved into the league lead with four points apiece.

Close behind came Harry's Liquors and Team 5 with three points followed by Gene's Semi-Cleaners and Bukur's Music Shop.

Mother of Sanford comes next and George's Tavern and Lake Monroe ran round out the league's standings.

Finnish Farmer Takes Marathon

BOSTON (UPI) — A slightly built Finnish farmer has given his tiny nation an unprecedented fourth victory and second straight win in the grueling Boston AA marathon.

Pavvo Kottila also threw cold water on U. S. marathon hopes while capturing the 26-mile, 385-yard grind in near record time Tuesday. Kottila set such a pace through the middle of the race that school teacher Johnny Kelley of Groton, Conn., was forced to drop out before finishing.

Kate Smith Show Doesn't Turn Up Anything New Changing Format

By FRED DANZIG
NEW YORK (UPI) — A TV peeper's potpourri: "The Kate Smith Show," with Xavier Cugat on hand, strayed from its usual formula and tried mixing snappy patter into the show Monday night. It was a mistake. . . Bobby Rydell, featured in Monday night's "Danny Thomas Show," is a clear example of the Sinatra-Bobby Darin influence. . .

WEATHER: Cloudy with showers tonight and Friday. High today in the 80's. Low tonight in the upper 60's.
VOL. XLIX United Press Leased Wire Established 1908 THURSDAY, APRIL 21, 1960 SANFORD, FLORIDA NO. 677

Limit On Candidate Charges Stressed

County Democratic Executive Committee Chairman Robert Billhimer reminded all candidates today that the deadline has passed for hurling new charges against opponents at public rallies.

Billhimer said that the deadline was last Saturday and no new charges or accusations can be made at forthcoming rallies before the May 3 Democratic primary.

Under Florida law, a candidate is not allowed to bring up any new charges 15 days before the primary. He may refer to those that have been brought up at previous rallies.

The next rally sponsored by the county committee will be at 8 p. m. today in Fern Park. The rally will be held in the American Legion Hall. A barbecue chicken dinner will be served from 5:30 to 7:30 p. m. The dinner is being prepared by the Legion auxiliary.

After tonight's rally, the political scene will switch to Geneva Saturday.

As the climax to Geneva's Frontier Day, a political rally will be held at 8 p. m. All candidates running for 20 county offices will speak for three minutes.

For the first time in the Democratic-sponsored rallies, any state office candidate present also will be allowed three minutes to speak.

School Heads Ask For Tax On Part Of Home Exemption

MIAMI BEACH (UPI) — County school superintendents decided today to seek a state constitutional amendment that would permit taxing for school purposes the first \$1,000 of the \$5,000 homestead exemption.

The proposal was introduced by Manatee County Supt. J. Harley Blackburn at a meeting of the county school chiefs prior to the annual convention of the Florida Education Ass.

The move had been expected and caused little discussion.

Blackburn said Manatee County could expect \$275,000 additional county revenue if permitted to levy a 20 mill tax on \$1,000 of the \$5,000 homestead evaluation now exempt from taxes.

Pinellas County School Supt. Floyd Christian estimated such a tax would increase school revenues in his county by \$800,500.

The school chiefs did not try to make a statewide estimate of increased revenue under the tax proposal.

The proposal will be put before the program action committee of the FEA and may come up at the convention business Saturday.

Reds Attempt Refugee Control

BERLIN (UPI) — Communist police entered West Berlin today and tried to impose anti-refugee controls on elevated railways in the Allied areas. They fled back across the Iron Curtain when West German police showed up.

The move was part of a desperate Communist effort to halt a mass flight of refugees from the Soviet occupation zone. Earlier the Reds had ordered a slowdown in their nationalization of small businesses to try to stem the tide of refugees.

The elevated railway, under four-year occupation statutes, is run by the Communists. But this was the first time in two years they had tried to carry out controls on West Berlin stations. Today they questioned travelers and searched their luggage.

West Berlin police raced to the railway stations despite protests of Communist railway workers, and halted the searches.

West Returns To Geneva Frontier Day Saturday

The "Old West" will come alive at Geneva Saturday.

Geneva's Frontier Day will be held with the men asked to wear beards, painted or real and the ladies asked to make and wear bonnets.

The Frontier Day parade will start at 10 a. m. and will feature a "white hot" barbecue of hams, foals, horses and dogs. Anyone who wants to enter a boat depicting the "Old West" is welcome to join up.

A barbecue and dance will be held in the afternoon and night at the Geneva Community Hall to round out the day's activities.

Tickets for this are \$1.25 for adults and 75 cents for students and children. Tickets can be bought at the Sanford and Orlando First Departments. The Florida TV Station in Chulueta, Kings TV in Orlando, Cochs Cinema in Sanford or at the Geneva Grocery Store.

'Pickles'

The swirl of gypsy dancing and Vienna carnival times will come to Seminole High School tonight when the musical "Pickles," opens in the auditorium at 8 p. m.

The Seminole High Chorallers will present the musical play about a baby girl stolen by gypsies. The scenes are set in Vienna and a gypsy camp.

Rights Bill Given Final Approval

WASHINGTON (UPI) — The House gave final and overwhelming approval today to a civil rights bill containing new Negro voting guarantees.

The measure — second major civil rights bill produced by Congress since the Reconstruction era following the Civil War — now goes to President Eisenhower who is expected to sign it into law.

The House completed congressional action by accepting without change 16 amendments which the Senate wrote into the original House bill.

The legislation was called up in the House under a procedure which limited debate to one hour. A few minutes after the House convened at noon Speaker Sam Rayburn brushed aside other business, announcing, "We're going to adopt this first thing."

The final product, which Rayburn has described as "pretty good," satisfied neither liberal northern Democrats nor southern conservatives but the measure originally passed by the House.

The six-part package centers on new voting guarantees for Negroes in the South. The main feature provides for appointment by federal judges of referees empowered to determine voting qualifications of Negroes turned down by local registrars.

The voting referees could be appointed only in areas where the Justice Department, acting under the 1957 Civil Rights Act, had won a federal suit for an order requiring registration of one or more Negroes.

If the judge then determined that a "pattern or practice" of discrimination existed in the area, he could appoint referees to handle other complaints from would-be Negro voters.

Only Negroes who could show they were qualified to vote under state law, had tried to register and failed could be enrolled by the referee.

The bill also requires preservation for 20 months of voting records in federal elections. It provides federal penalties for attempting to obstruct federal court orders, including school desegregation rulings.

Another provision is calculated to bring the weight of federal investigation, and possible federal prosecution, to bear in cases of arson and bombing.

Boards Prepare County Zoning Law For Adoption

Two county boards paved the way for adoption of the new comprehensive zoning law at a meeting Wednesday night.

The County Commission and County Zoning Board met in joint session to go over the request made by property owners for adjustments in the proposed law.

The final hearing will be held May 5 and the board hopes to adopt the proposal at that time. County Zoning Director Robert Brown said.

Zoning Board Attorney W. G. Hutchison emphasized that all zoning is a compromise "and you can't kill off the use of property through zoning."

Hutchison made the remark after property owners in the Old Dixie Highway area presented a petition asking that their property be given a higher classification making it impossible for any industry to relocate in that area.

Most of the requests made at the hearing were the added protection on residential property.
