You see, the hours between 4 pm and 8 pm are what we call the "Peak Period." That's the time when you-and all your neighbors-use the most electricity. For cooling off. Cooking, Baking, Dishwashing, (You know the routine.) All cause an unusually heavy drain on the power supply. And all increase the chances of a power shortage occurring on a hot summer's day when just about every air conditioner within miles is going full blast.

Between 4 pm and 8 pm on hot days, moderate the temperature of your air conditioner. Don't overcool. Also, plan meals which require little or no cooking. Cook before or after peak periods. (The same holds true for washing and drying clothes and dishes.) Finally, keep to a minimum the amount of hot water you use for baths, showers, and other uses during peak periods.

Electricity, like all of America's resources. should be used wisely. By helping us conserve electricity, between 4 pm and 8 pm these summer days, you'll be helping yourself. And everyone else.

Tuesday, August 10, 1971 - Sanford, Florida 32771

63rd Year, No. 246

TurboTrain Visits Sanford Saturday

A preview of things to come: High speed rail transportation between Daytona Beach and Tampa, via Sanford (maybe). The preview will come Saturday morning when a high-speed TurboTrain passes through to acquaint the public with the modern transportation train.

Invited to board the "special" in Sanford are city and county offi-

cials, Chamber of Commerce representatives and their wives. Already aboard will be federal and state transportation authorities. Local guests may leave the train at Orlando, where a bus will be waiting to return them to Sanford, or they may continue to Tampa. The TurboTrain will arrive at the Sanford depot at 10:45 a.m. and depart at The TurboTrain is making a tour of half of the

Amtrak system for the U. S. Department of Transportation. It has been operating between Boston and New York for two years. The month-llong tour, covering 12,000 miles and 31 states, is intended in part to survey public opinion on improved passenger trains, The public is invited to inspect the train at the San-A transportation forum, touching on the Turbo-

County Offers \$Helping\$ Hand

In an endeavor to consolidate efforts toward industrial development in Seminole County, Seminole County Commission Chairman Greg Drummond met with representatives of various civic and governmental units this morning. Once again the municipalities in Seminole County, with the exception of Sanford, were conspicuous by their absence,

At the meeting, Drummond presented a preliminary proposal for a county-wide Seminole Industrial Board. The development body, as proposed by Drummond, will be comprised

Sanford City Commission, in a noon workshop session today, agree to join with the Seminole County Commission in promoting a county-wide industrial procurement board but recommended other municipalities in the county also join. of representatives of the county and cities, as well as

interested civic groups such as chambers of commerce. Drummond proposed the county fund two thirds with the cities providing the remainder. Most of the discussion centered on the funding

and organization of the proposed board, Sanford City Commissioner Julian Stenstrom said it would be unnounced soon an elected fair to ask Sanford taxpayers to pay 20 per cent of efficial, if that'll help you out the county's share and then turn around and have to to contribute from a municipal standpoint County Commission Administrative Assistant Rodney Layer About that Turbo Train com- said the city of Sanford would have more to gain with ing to Sanford on Saturday at the Sanford Airport Industrial sites than would the 10:45 a.m. the public is rest of the county.

Chairman of the County Publicity Advisory Comexamine same, and the kids are mittee John Spoiski reported to those present on what more than welcome to come the county group had done to promote Seminole County. Spolski pointed out the primary problem had bee the lack of an organization to follow-up inquiries made as a result of the advertising, Mack Cleveland, Don't see why the local Jr. of the Greater Sanford Chamber of Commerce ask-Demos are so upset about Gov. ed Spolski if definite results could be calculated from Askew reappointing Ralph Wag- the advertising program, He said the inquiries had ner (Republican) to the Port been turned over to the Sanford Industrial Commis-Authority. This supposedly to keep

TAX COLLECTOR Troy Ray (left) has been so busy reminding Seminole County vehicle owners to "shop early" for new license tags that he had to be reminded to obtain his own new plates by his chief assistant, Curtis Dunaway. Tax collector's offices in the courthouse and Seminole Plaza will be open 9 a.m.-5 p.m. Saturday for tag distribution to avoid last minute lines. Tag mailing service also is available. About 25 per cent of Seminole County's estimated 63,000 license tags for the new year have been sold . . . which indicates some owners will not have their new plates at the deadline, 5 p.m. Thursday, Aug. 20. There will be no extension, Ray said.

Housing Rules Questioned

tenants of Sanford's four feder- relations board headed by Mrs. said.

body sanctioned some of the are discriminatory.

BEFORE THE MEETING STARTED

Investigation into complaints leveled against the Sanford Housing Authority by tenants of five housing projects brought Florida Community Affairs secretary Athalie Range (center) to Sanford's Civic Center Tuesday to head a 21/2-hour hearing. Accompanied by Harry Douglas (left), Florida Community Affairs executive director, the five-man board talked with all groups, including Rev. Amos Jones (right), Seminole Community
