# You can sit this pretty for only \$274830\*

We'll mines no words.

You can buy a Buick SPECIAL like the one shown here if you can buy any new car. You can bose this big and brawny Buick Sedan for just about the price of the smaller cars—even for less than some models of the three most widely known smaller cars. The price we show here proves that.

But you can't get anywhere else for the money what you get in this Buick, or any other new Buick—and that's something you really ought to look into.

For Buick sales are soaring to all-time best-celler highs this year just because more and more people are discovering how much more automobile their dollars buy in a Buick then the same dollars buy alsowhere.

They find Buick a bigger package of sheer automobile for the measy—bigger in power thrill, in stretch-out comfort, in ride steediness, in structural solidity.

They find Buick size and styling an added

\*2-door, 6-passenger Buick SPECIAL Seden, Model 48, illustrated. Optional equipment, accessories, any state and local taxes, additional. Prices may vary slightly in adjoining communities. Even factory-installed aptions are bargeins.

prestige - Buick roadability and handling ease an added pleasure-Buick brawn and precision an added reassurance.

And they find Buick performance a thrill without peer-for where else can you get the whip-quick response and bettered gas mile-age of Variable Pitch Dynasow?

Maybe you'd better drop in and see how much real automobile and fun and deep-down satisfaction your money buys in Buick.

Whether you want the low-priced SPECIAL, the high-powered GENTURY, the extraroomy SUPER, or the custom-built ROADMANTER—you'll find the price more than right and the trade-in deal terrific. Can you make it today?

The atomic weapons-fission and fusion-which exist or are close to perfection today fall into two classes:

1. Tactical bombs, missiles, rockets and cannon projectiles, for use against troops on the battlefield, ships at sea, enemy plane formations or specific military targets such as supply dumps, transportation centers or naval or air bases. 2. The weapons of strategic destruction, capable of wiping out vast areas.

#### "I AM STILL LEARNING"

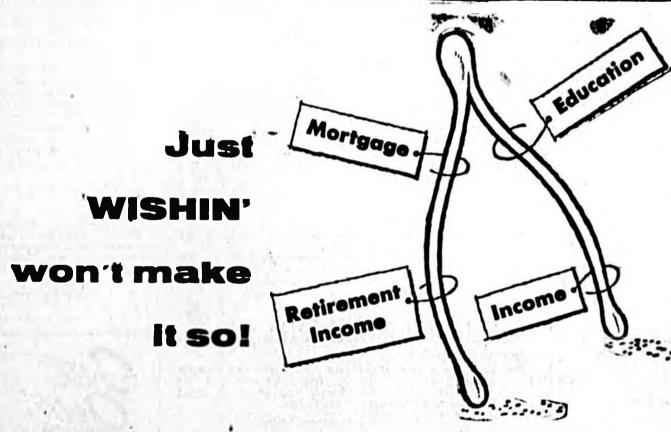

Most of the prescriptions we compound, in this won-

derful age, contain medicines that were unknown 10 years ago. Operating a modern prescription Pharmacy means that we must continuously, "learn", about new discoveries. We study the Medical and Pharmaceutical Journals we receive, and every important Pharmaceutical firm mails us reports of progress.

That is why Physicians know we can compound prescriptions for any medicine they may prescribe. We welcome prescriptions for new, unusual, or rare medicines.

#### Library Services

Congress has before it so many headline-making bills that it is hard for a noncontroversial proposal to get its attention. One such which would be of great use but after several years has yet to get on the Senate calendar, is the Library Services bill introduced by Senator Lister Hill of Ala-

The hill is inspired by the shocking discovery that millions of Americans have no access to public libraries, and for reading have nothing but what they buy themselves. It aims to encourage states to extend library service to small towns, by matching Federal funds for whatever the state may raise for such a purpose. The sum of \$7.500,000 would be appropriate for five years, by which time the situation should be much better, or if not can be more clearly understood.

The hill deserves a better lot than has befallen it in the past.

#### Too Many Bars

A lunch-counter owner in a large city applied for a carry-out beer and wine permit His place was only 370 feet away from a church, which naturally protested.

In the hearing, which adjourned without a decision, the inspector in charge of that police district testified that it already and 265 carry-uts. It would seem as if these were enough.

The prohibition issue is not involved in the opinion that this district and perhaps they meet President Eisenhower of a fixed limit on armed forces. the whole city are over-serviced in drinking in Geneva 10 days from now—will They agreed, almost unchanged, spots. ### Tea Industry Is Winning Battle

The industry has been fighting the tea trade in the United States, places of familiar memory to millions of ex-servicemen. So it says one important reason is price, is likely that many servicemen. the market in this nation of coffee Tea is one of the most economi- became tes drinkers eversess. drinkers. The figures indicate the toa last year came to nearly 116 million pounds — a gain of some million pounds since the end

A good part of this increase may be attributed to iced tea. Restaurant sales of iced tea have soared 250 per cent in the last five years, and the nation's total iced tea consumption has risen to some 10 billion glasses a year.

In the South, one large tea firm
