

## PEOPLE AND EVENTS

Continued from Page 5

quets of daisies, and to the gentlemen were given boutonnières of the same lovely flower.

A pillow slip contest was much enjoyed and proved delightfully amusing. The slip contained twelve articles of various shapes and sizes that must be guessed by touch. To Mrs. Anna Walker fell the prize of a pearl handled knife for being so "sharp."

This was followed by a "motor love story." Slips of paper containing the story with numerous blanks, said blank spaces to be filled in with the name of parts of an automobile. Miss Martha Fox proved quick witted in this contest and was given an "automobile"—one of the latest models on the market. To Miss Eva Walker was presented a lovely little crocheted coin purse.

From a silk line stretched across the room was suspended tiny white bags, which when clipped by each guest in turn was found to contain their fortune, a pastime that created fun and merriment. A Victrola concert afforded much pleasure. The final happy surprise of an evening of rare enjoyment was the cute way devised for finding their supper partners and subsequent cutting of the bride's cake which adorned the table at which sat the bride-elect. Red hearts in the centre of which was a key hole were given the ladies, while to the gentlemen were given "keys" that fitted the hearts. This caused a change of partners for the refreshment course, which consisted of apricot ice and caramel cakes. To each guest was presented a silver dart that was used for finding the ring and the thimble in the cake.

To Mr. Frank Adams fell the ring, while Miss Jennie Baas became the possessor of the dime. Assisting Mrs. Whitner were Mrs. Whitner, Sr., Mrs. S. O. Chase and Miss Martha Fox. Other guests were Mrs. Anna Walker, Misses Eva Walker, Claire Walker, Jennie Baas, Agnes Berner, Kathleen Steinmeyer, Edith Stewart; Messrs. M. Minarik, John Minarik, Harry Walker, Sam Bradford, Frank Adams, Raymond Key, Geo. Huff, and Benjamin Whitner.

## St. Agnes Guild

A delightful meeting of St. Agnes Guild was held at the home of Mrs. Chas. Hand Monday afternoon, with Miss Charlotte Hand the agreeable young hostess. Owing to weddings, showers and other events, the attendance was small but a thoroughly good time was enjoyed by those present. Plans were made for a cooked food sale to be held at the Parish House Saturday afternoon and evening and the girls have decided to take orders for chair covers some of which are now ready. If patrons desire initials on the chairs they can be had for five cents extra, making the covers twenty cents plain, or twenty-five cents with the initials.

Those present were Mrs. Archie Betts, Misses Josie and Junie Sturmon, Mildred Dickson, Frances Aspinwall and Rev. Arthur Peck. The next meeting will be held with Miss Clara Phillips at the studio.

## Compliment to Miss Higgins

In compliment to Miss Lillian Higgins of Sanford, who is spending some time in Jacksonville, Mrs. C. W. Denton entertained at an informal dance last evening at her home on Newnan street.

The lower floor of the residence was opened ensuite and was decorated for the occasion with palms, ferns and cut flowers, pink and white carnations predominating.

The guests were received in the drawing room by the hostess and honor guest.

Dancing was engaged in throughout the evening to the strains of piano music, and at a late hour a refreshment course was served, fruit punch being served throughout the evening. Mrs. R. W. Denton presiding at the punch bowl, which was placed in one corner of the dining room.

The dining room was decorated in yellow and white, the dining table, which was laid with a lace cover, being centered with a vase of daisies intermingled with plumes.

Mrs. Denton was assisted in entertaining by her sister in law, Mrs. R. W. Denton.

Among those invited to enjoy the evening with Miss Higgins were Mr. and Mrs. R. W. Denton, Misses Mildred Hendricks, Sara Longworth of Tennessee, Clara Brodnax, Clyde

and Helen Hunt, Beale Taylor, Gertrude Purdon of DeLand and Messrs. Dunham Coxetter, Richard Taylor, Max Christy, Dick Dickinson, M. Longworth, J. Pinholster, Mr. Brickett and Dr. A. C. Knight. —Times-Union.

## Married at Clearwater

Miss Mildred Smith and C. B. Hamrick were quietly married this morning at 10, at the home of the bride's parents, Mr. and Mrs. E. I. Smith on south Fort Harrison avenue.

Only a few friends besides the members of the family witnessed the ceremony. Mrs. John Phillipoff played the wedding march for the young couple as they marched in to the large parlor. Standing beneath an arch of smilax the couple were united by Rev. J. Lawton Moon, the ringing ceremony being used. Misses Lilla and Suddie Smith, sisters of the bride were the bridesmaids and aside from these there were no other attendants. Miss Ethel Eubanks presided over the punch bowl.

The popular couple were the recipients of many beautiful presents from their numerous friends, all of which were laid out to be viewed by the guests.

The bride presented a lovely picture in her neat blue silk poplin traveling dress, with hat and shoes to match. Following the ceremony they left by automobile for Tampa and from there they will go to the East Coast for their honeymoon.

Mrs. Hamrick is one of the charming daughters of Mr. and Mrs. E. I. Smith and numbers her friends in Clearwater by the score. Mr. Hamrick is state organizer for the Macabees and is well known and popular in fraternity circles. —Clearwater Sun.

## Married at DeLand

A marriage in which a most cordial interest is manifested by the friends of the bride in Sanford is that of Miss Margery Boor and Mr. Claude Grady Varn, which occurred in DeLand Thursday evening, June 10. Rev. C. H. Ferran officiating.

The wedding was a pretty home affair taking place at the home of the bride's brother and sister, Prof. and Mrs. Claude Tingley. The house was attractively decorated

with quantities of white flowers and lovely ferns, an improvised altar being an artistic arrangement of potted plants and white carnations against a background of Mexican cypress through the lace-like foliage of which gleamed myriads of tiny electric lights. Overhead hung a beautiful bell of white carnations, beneath which stood the bridal couple during the wedding ceremony.

The bride was lovely in a wedding gown of white and carried a shower bouquet of bride roses and valley lilies and wearing the gift of the groom, a laveliere of gold and sapphires.

After the ceremony supper was served for the bridal party, at which covers were laid for twelve. White carnations and fern centered the table. The place cards were hand-painted forget-me-nots, tied with lovers' knots of blue ribbon, the card also containing a gilded wishbone, held in place with white ribbon, in the frame of which was painted the monogram of the bride and groom.

Mrs. Varn is well known in Sanford having had here a studio for violin lessons since last fall. She has many friends in the city to wish her bon voyage on the matrimonial sea.

## Marriage of Miss Renfro

Tuesday afternoon at Richland, the marriage of Miss Agnes Smith Renfro to Dr. George Proctor Roberts took place at the home of the bride's parents, Mr. and Mrs. J. D. Renfro.

The wedding took place upon the porch, which was transformed into a bower of beauty with graceful vines and tall pines and masses of lovely flowers banked here and there the porch giving upon the beautiful garden was a charming setting for the fair young bride and her attendants. She was attended by her sister, Miss Annie Renfro and her brother, Mr. Jack Renfro. Olive Renfro, the little niece of the bride was the flower girl, sweet and pretty in a dainty frock of white organdie and carrying a basket of flowers. The bride was attired in her going away gown, a handsome coat suit and carried bride roses.

The bridesmaid wore a lovely gown of white and carried an arm bouquet.

A nuptial dinner followed the wedding ceremony, at which only the family were present, and immediately Mr. and Mrs. Roberts left for Sanford en route to their future home in Dillsboro, Indiana.

Mrs. Roberts is well known and loved in Sanford by a large circle of friends, having spent much of her life here. She is the eldest daughter of Mr. and Mrs. J. R. Renfro of Richland and sister of Mr. Harvey Renfro of this city.

## Kilbie-Tillis

Another out of town wedding of much interest to their many friends in this city is that of Miss Margery R. Kilbie and Mr. Roy Tillis, which took place at the home of the bride in Geneva Wednesday morning, Rev. F. P. Strong officiating. The wedding was a quiet one at which only the family and a few intimate friends were present. A wedding dinner was served immediately after the ceremony, after which Mr. and Mrs. Tillis left on the train for Jacksonville and other points of interest for the honeymoon trip.

## Picnic at Lemon Bluff

The usual crowd of jolly good fellows enjoyed a launch ride and delightful picnic at Lemon Bluff the early part of the week, with Mrs. E. O. Hayes chaperone. Felix Frank has resigned from the responsible office because he thinks he is just a "kid" and should not be called upon to chaperone such a giddy crowd of merry makers. He says when a fellow is too young to get married he certainly can't look after the morals and manœuvres of girls and boys older (?) than himself. All the pleasures of a charming day in the woods was heartily enjoyed. This merry group, one might almost guess their names which are Mrs. Hayes, Mr. and Mrs. Archie Betts, Misses Helen Rowland, Margaret Wight, Florence Frank, Charlotte Hand and Saidee Williams; Dr. Fain and Messrs. Joe DeMont, S. M. Lloyd, Sam Younts, Alexander McClintock and Mr. Browne of Paola.

## Attention, Junior Leaguers

There will be a rehearsal every day at the Robbins Nest until the operetta "Over the Rainbow" is presented. All members of the company are earnestly requested to attend regularly and promptly on the day and hour their group rehearses.

## Personal Mention

Miss Jennie Baas, one of the Walker-Minarik attendants left yesterday for a visit to Tennessee.

Mrs. Roy Symon and interesting young family left yesterday for a visit to Michigan. She expects to return home about August 1.

Mrs. Harvey Renfro and Olive have returned from Richland where they attended the Renfro-Roberts marriage. Dr. and Mrs. Roberts returned with them and will remain until Saturday, when they will take the steamer for Jacksonville en route to Indiana.

Mrs. A. M. Roper and little daughter, Mary Elizabeth of Havana, Cuba, spent several hours Wednesday in Sanford, the guest of Miss Bessie Long. She will return to Sanford later for a visit of several days.

Mr. and Mrs. F. W. Pope have gone to Georgia for their summer vacation.

Mrs. C. H. Dinger left yesterday for a visit to the home folks at Dunedin.

Mrs. O. W. Manes of Lake Butler returned home last Friday after a delightful visit to her son, Mr. Ira S. Manes.

Mrs. Adrian Fuquay of Daytona is the guest of Mrs. Harry Wray on the Heights.

Miss Rena Murrell is home from college, to the delight of her many friends.

Mrs. Gustave Sanders and her son, Edward, of Beaufort, S. C., are visiting Mrs. E. D. Brownlee and Mr. H. L. Gibson.

J. R. Wildman has gone to Virginia to spend the summer with his parents.

Mrs. Eugene Larramore of Jacksonville will arrive today to visit her aunt, Mrs. Phelps at Lake Onorop. Next week she will be the guest of Miss Saidee Williams.

Miss Bessie Long returned Wednesday from a delightful visit to her uncle, Mr. J. G. Harold at Gainesville.

Mr. and Mrs. Freeman of Tampa and their daughter, Miss Grace Freeman are guests of Mrs. Anna Walker.

Miss Ernestine Cruz of Orlando was one of the Enaminger-Nickel wedding guests.

Mrs. R. L. Jones and Miss Ho-

Office in Herald Building Telephone No. 148

The English investigation into the Lusitania... that she was sunk.

The jitneys have won a place in the hearts of the people by their good service and low rates.

Press dispatches state that the cream of the Russian army is fighting around Pretzel. And the cream seems to be well whipped.

Let George do it and have him do it as soon as possible for Sanford wants that new hotel to start by the first day of August sure.

Willis Powell is on the program of the East Coast Press Association for a talk on loose leaf ledgers. Willis looks the part all right.

What is so fine as a cold in June. It beats anything in the world for making a man feel like committing suicide by blowing his head off with a handkerchief. we mean.

Being unable to attend the meeting of the East Coast Press Association at West Palm Beach the editor of The Herald sent his wife and we will bet dollars to doughnuts that our better half will be twice as popular as the old man.

Kissimmee announces that a special train will be run from Sanford to Kissimmee on July fifth to allow our people to attend the big celebration and barbecue at that place. Of course if those enterprising people run a special train for our benefit we will certainly have to spend the day with them and have a big time.

With all the immense cattle ranches starting around Sanford some of our enterprising citizens should build an abattoir and packing house. No use to raise cattle here and then allow the meat to rot and then send them back to us to eat at exorbitant prices. The cold storage plan could be worked here with the vegetable growers and cattle men and make money for both.

The German Government has made a full explanation and has paid an indemnity of \$15,000 for the lives of five Spaniards shot by mistake at large last August. They cost considerably more than \$9,000 each when the U. S. was engaged in killing them with embalmed beef during the Spanish American war.

Editor Jordan of the Punta Gorda Herald, who also has a state job to help him make the pay roll on Saturday night is also the campaign manager of Albert Gilchrist for the Senate. Editor Jordan states that Perry Wall cannot be elected unless he spends \$15,000 and newspaper support does not count. We would like to whisper in the shell like ear of Bro. Jordan that it will take more than the Punta Gorda Herald to put his "monkey man" over and unless he gets the newspaper support he will never put him over. Of course in speaking of newspaper support we mean real newspapers and not the kind that Bro. Jordan is talking about.

ROAD LAWS

The county commissioners of Seminole county published the road laws of the state in the Herald last week and in publishing the laws stated that they would do all in their power to see that the said laws were enforced to the letter. This is the right sentiment from the commissioners for with our miles of brick road the speed fiend and the road hog is bound to crop out in places and both of them need to be called down. The latter animal is not confined to the auto driver, however, for the hog may often be found driving a horse and wagon and trying to hog the whole road because he has been in the habit of doing this and expects to keep on doing it until some driver calls him down or the laws are applied to him satisfactorily. The speed fiend of course means the drivers of automobiles who upon getting into a first class brick road are apt to "let'er" out just to see how fast the wheels will go round and in letting her out is more than apt to either crowd the other fellow off the road or else run into him and

break up the vehicle and many times kill some one.

The county commissioners think it a good idea to call attention to the laws first and after that they expect every driver of a vehicle to conform to the rules or take the consequences. There will be men stationed along the roads from time to time and they will watch out for the racers and the hogish ones and they will be promptly arrested if caught. There are also other drivers of both cars and other vehicles that do not seem to know how to turn the corners in the city and pull off on the wrong side of the road in front of an on coming car causing a bad accident through their own ignorance. These people will also be taught a lesson and as ignorance of the law is no excuse for the breaking of same some of these transgressors will find themselves in jail before they know it. Read the rules and conform to the laws.

Portuguese Men of War

There is an animal or a fish or something of that sort that at various times of the year make their appearance at the Florida beaches. The men of war look like a mass of string wound up in a ball the strings being so many tentacles and from this mass protrudes a blubber like appendage that waves in the breeze and distinguishes the brute on the beach, giving it a sail like appearance. The man of war gets stranded on the beach at times and dies there. But before they get to the beach and while in the water they are apt to snap those hundreds of tentacles around the leg of a bather and this causes said bather to yell for help as the man of war makes a bad wound and one that will cause trouble. Being akin to a bad case of poison. Last year Jack Davison had an encounter with the Portuguese man of war at Daytona Beach and came off second best, the said man of war putting Mr. Davison in bed for several days. Last Sunday while F. M. Elder, N. A. Colbert, R. J. Holly and J. D. Davison were preparing to take an early morning dip at the beach the "men of war" were discovered in great quantities at the edge of the water and neither Davison or Colbert could be induced to even wet their little feet in the ocean. Elder and Holly went in regardless and Elder felt one of the varmin's brush against his leg but having plenty of Elder Springs water in his system the varmint could not affect the genial captain. Since coming home the daily papers report the men of war in great quantities at different beaches and the following from the Gainesville Sun is interesting. "A rather unusual occurrence took place at Pablo Beach Sunday afternoon when a school of Portuguese men of war, better known as jelly fish made their appearance in the waters. Consternation reigned supreme for a few moments and there was a scampering of feet as the bathers started shoreward. Over fifty of them were struck, however, by the tentacles of the jelly and it took several physicians some time to still the cries and screams of the agonized bathers. It is understood that the course of the wind blew the fish in toward shore, as the usual habitats of the pests are on the other side of the Gulf Stream, in middle Atlantic and Gulf waters. Their presence in the waters at Pablo is very unusual and they may not reappear for some time."

New Game Law Goes

The Governor last Monday approved the bill generally known as the Gornito game warden bill, which abolishes the law enacted by the legislature of 1913 creating the State Game Department of the state of Florida. The bill approved by the Governor was entitled "An Act declaring the ownership of game and birds in the several counties of the state; to provide for the protection of the same; providing open and closed seasons; providing for hunter's licenses, and for game wardens, and repealing Chapters 6534 and 6535, Acts of 1913, relating to the same subjects."

Woodland Park Notes

The children's day last Wednesday was only lightly attended, although those who came enjoyed the shallow water in the pool immensely. Mr. and Mrs. L. P. Hagen were among those who brought their children for a swim. Thursday a good number, mostly regular Woodlanders came for a swim. Reginald Holly, Member of the Legislature, and Robert Holly, who is going to ride that barrel some day, Misses Ruth, Grace and Helen Iserman, the three Misses Ahern, Mrs. Hurt, Miss MacCray, Miss McLaughlin, Mr. Abernathy and family, Mr. and Mrs. B. W. Herndon and Norma, Mr. J. D. Roberts, Miss Peachea Lefler and Miss Lake, Mr. Walker and Clifford, the C. E. Henty family, of course, accompanied by Mr. and Mrs. Tyler, were some of the visitors. Sunday it seemed as though everybody in Seminole county showed up and to mention everybody would

that in the primary election in 1916, and every two years thereafter, county game wardens shall be nominated, as other county officers and shall be appointed by the boards of county commissioners. The salary of the county game wardens is to be fixed by the boards of county commissioners. The county game warden is given authority to appoint, in his discretion, a deputy warden in each election precinct of the county. Upon such terms and salary or commission as may be mutually agreed upon, such salary or commission to be payable by the county game warden and in no case chargeable against the county." Tallahassee Record.

COUNTY HAPPENINGS

GRAPEVILLE AND UPSALA

We are pleased to note that Mr. and Mrs. Emil Magnusson have returned to their pleasant home here for the summer.

Miss Edna Thompson is a guest this week of Mr. and Mrs. Jesse Thompson, near Paola.

Mr. and Mrs. Vernon Collier and the two Misses Lowes were out from Sanford through our settlement Sunday; we were especially glad to see Mrs. Collier able to be out again after her recent illness.

Mr. and Mrs. Will Evans are expecting to move on Saturday to his mother's at Lake Mary for the summer. Mr. Evans expects to build on his place right near there, while the Bothamy crate mill is closed down for the summer. All regret losing these good people from our immediate vicinity and Lake Mary will be the gainers from our loss, as they have endeared themselves to us during their short stay among us.

Mr. and Mrs. Edward Lencquist had as their guests out from Sanford on Sunday Mr. and Mrs. Hassel.

There was born on Tuesday, the 15th inst., a fine baby girl to Rev. Ericson and wife. All doing nicely, there being in attendance her mother Mrs. Bertelson and Dr. Denton.

Here are some of the names of those attending the DeLeon Springs picnic from here last week: Mr. Azel and Aaron Lundquist, Walfrid Pierson and Miss Ruth Bergquist, Carl Pierson, Mrs. J. A. Thompson and baby Robert, Miss Olga Viblen and Eric. Mr. Norman Swanson took over a number from town in his auto.

Mrs. Kate Thompson and two children took dinner Monday with Mrs. Maud Powell and children on the West Side, afterwards bringing home with her little Charlie Powell for a short visit.

Miss Laura Parker who is still in town with Mrs. Collier was out Sunday and took part in the school exercises.

Rev. Ericson preached an impressive sermon at the Upsala Presbyterian church on last Sunday night choosing for his text, Day 5:27. "Thou art wrapped in the flames and found wanting."

A goodly number came out to see the children's day program for last Sunday. Mr. Viblen kindly loaned us their organ for the occasion. The children all did well considering the short time available for practice. The following program was carried out, Miss Edna Thompson serving as organist. Song, Blessed Jesus, Scripture reading, from Psalm 133, prayer, reading of Mission Writings by Miss Ruth Bergquist; recitation, Miss Edna Thompson, The Lord of Life, song, Whitey Than Snow, dialogue, Children's Day, eight boys; Recitation, Penny Shining and New, Andrew Thompson; song, Little Surleams, by class; reading, Miss Laura Parker; recitation, Ebba Stedt; recitation, Margaret Ericson; song, primary class, Praise Him, praise Him; recitation, Children's Day, Miss Olga Viblen; recitation, Ebba Stedt, Jesus Loves Little Children; collection and distributing papers; song, We Praise Thee Oh God, by all; prayer by Mr. Ericson.

Woodland Park Notes

The children's day last Wednesday was only lightly attended, although those who came enjoyed the shallow water in the pool immensely. Mr. and Mrs. L. P. Hagen were among those who brought their children for a swim. Thursday a good number, mostly regular Woodlanders came for a swim. Reginald Holly, Member of the Legislature, and Robert Holly, who is going to ride that barrel some day, Misses Ruth, Grace and Helen Iserman, the three Misses Ahern, Mrs. Hurt, Miss MacCray, Miss McLaughlin, Mr. Abernathy and family, Mr. and Mrs. B. W. Herndon and Norma, Mr. J. D. Roberts, Miss Peachea Lefler and Miss Lake, Mr. Walker and Clifford, the C. E. Henty family, of course, accompanied by Mr. and Mrs. Tyler, were some of the visitors. Sunday it seemed as though everybody in Seminole county showed up and to mention everybody would

take up as much space as a Price-Pearson dispute. In the morning it was, as usual, rather lonely for Marvin Vorce who is an early swimmer, but in the middle of the forenoon a party of bathers composed of Mr. and Mrs. Cone and a number of the Stafford children joined him, then came a bunch of fine athletes, A. C. L. pay car officials, who did some stunts that would make the average fish envious. They stayed in the pool nearly all day, with a short intermission for lunch. R. J. Holly and all the Holly branches, Mrs. Fernald and party, Mr. and Mrs. Hunt, E. E. Brady and daughter, the C. E. Henry family, Mr. and Mrs. Meisch and children, Mr. and Mrs. Hoolihan, Mrs. Wewner and Mrs. Harris and Mr. Dorner were a few of the two hundred or more visitors. Sunday was an ideal day and everybody enjoyed it. The Mamie brought a good load as usual and the jitney bus came with a full load every hour from 11 a. m. The one car was not capable of handling the crowd and the city bus had to be called on to help out. If those who were disappointed in getting bathrooms will come earlier next time they can all be accommodated. It would also be well to arrange for passage on the jitneys beforehand. Mr. Higgins will run the bus extra trips if needed and will put on another car if demanded. Woodsman

Heard in Jacksonville

The Heard National Bank of Jacksonville is sending out beautiful letters on the subject of optimism and progress. The bank is getting a good deal of the highest class of advertising out of it through copies sent the press and if it were the product of the bank that, too, would be all right. But it is an advertising scheme, pure and simple, and it is prepared, printed and copyrighted by a Philadelphia advertising agency. Each letter says: "Florida, the Best State on Earth. Let us all pull together and develop her vast resources." Mr. Heard, we ask you please to make it also, pulling with us when you pay money to a Philadelphia concern, to show you how to keep from paying space rates for your advertising in Florida papers? -Leesburg Commercial.

Reaching an Understanding.

A big row was going on in an Attention home and finally, the Globe says, one of the neighbors rushed in and said to a woman who was red in the face from screaming at a very angry looking man. "Look here, what's the matter?" "Oh, it's nothing," said the red-faced woman. "Father and I are having a perfect understanding, that's all."

Sorry for the Chickens.

Dorothy was visiting her grandparents in the country for the first time. Seeing a quantity of fowls scattered about the henyard, she shook her head in disapproval. "Grandpa," she told him, gravely, "you really ought to do something to keep your chickens from wearing out so." -San Francisco Star.

The Working Man's Bank Account

Men who are employed by the day or week rarely have very much notice before they are laid off. This means that the working man of all men should have a little money saved up and have it deposited safely in the bank. The Peoples Bank invites the accounts of working men and families. Interest is paid on savings accounts, compounded twice a year. Your money will help you earn money, if deposited with this Bank

Get Your Meals at the A. C. L. Restaurant

Free transportation one way on Jitney Bus with every purchase of 50c or over at the A. C. L. Restaurant. 85-1f

Reports from the farmers around here indicate that the spring crops are not bringing as much money as they did last season.

Groceries delivered via Jitney Bus free of charge to any place on the Jitney Bus route. Customers to meet the bus to receive their orders. J. D. Roberts, Phone 39. 85-1f

Many sections of Seminole county are crying for rain, but here in Sanford we have a nice shower almost daily. Does it rain on the just or the unjust.

Spend your vacation at Neptune Hotel, Daytona Beach, Fla. Summer rates. Sea food a specialty. All home cooking. Mrs. W. H. Delmore Prop. 86-2tc

Joe Watson of Floral City has accepted a position with W. W. Abernathy and will make this city his future home. He is a brother of George Watson of this city.

Caution A porter in a piano store with two weeks' experience should be able to take apart and clean a piano out nicely, but it takes an artist to tune, voice and properly regulate one. Moyer is experienced and conscientious. See ad. 85-1f

S. A. Bradford is getting ready to have his new home built on the lot recently purchased on Magnolia avenue. Magnolia continues to grow and is decidedly one of the most popular residence streets in Sanford.

Packages delivered on the Jitney Bus Line for 5c per 25 lbs. Cars run from Chappell's on East Side to Monroe on West Side. For further information phone 331, Sanford Transfer Co. 86-1f

C. H. Evans is in the city for a few days and his many friends are glad to see him again.

Manager Herndon continues to show some excellent pictures at the Star and the increased patronage shows that they are appreciated.

Major A. K. Powers and Mrs. Powers and little son Kinchen have moved from their home on Sanford Heights to their new home near Beck Hammock.

Hon. Joseph Jones returned to his home in Orlando yesterday after attending court in his capacity of state's attorney.

Mr. and Mrs. Frank Lane of Beresford are in the city for a few days the guests of J. E. Pace and Mr. and Mrs. Edward Lane.

T. Benton Ellis returned to his home in Gainesville last night after spending several weeks here as attorney for F. X. Miller in the Pace ejectment suit.

Joe DeMont, Felix Frank, S. H. Lloyd, Dr. Butt, Braxton Perkins, Ralph Wight, Osborne Herndon, Dr. Stevens, Sam Younts and several others were at Daytona Beach on Sunday.

Tomatoes Canned—My canning factory is now in shape to take care of the trade. Will can tomatoes for any one desiring same. Any quantity six cents per can unlabeled, tomatoes to be furnished. A. Buch, Lefler Block. 85-3tc

Among those motoring over to Daytona Beach in Sunday were Mr. and Mrs. W. H. Treadwell, Mr. and Mrs. J. B. Ray and Mrs. A. P. Cowley of Winter Garden in the Treadwell car and Mr. and Mrs. Smith were also of the Sanford party.

L. J. Brumley and Willie left today for Charlotte, N. C., where they will join Mrs. Brumley and the rest of the family. Mrs. Brumley was called to Charlotte last week by the death of her sister and they will spend the next month in the mountains of North Carolina.

Jitney Bus for Woodland Park Leaves Tenth St. and Park Ave every 15 minutes, 12:30 to 5 p. m. Thursdays and Sundays. Round trip 30c; under ten 20c. Sanitary swimming pool, amusements, music. Leased privately also. Particulars at Higgins' Garage. 86-1f

For the Wednesday night service at Holy Cross Church will be one of the continued series of talks on the establishment of the Church by the apostles. This has been an appreciated series. The hymns are being shown in the screen for all to sing. The service is at 7:30. All are welcome.

Fish Market Have returned to Sanford and opened the fish market in the Lefler block. Fresh and salt water fish delivered to any part of the city. Phone No. 1. A. Buch. 85-3tc

A RESUME OF SANFORD HAPPENINGS UP TO DATE

Address all Communications for this Column to "Society Editor," or Phone Mrs. R. A. Terheun, Phone No. 203

In Honor of Mrs. Stone

A very charming little needle party was given Saturday afternoon by Mrs. Fred Williams in honor of Mrs. Stone, a recent arrival in Sanford. It was one of the prettiest affairs of the early summer. The rooms of the lower floor were beautifully decorated with a profusion of roses and crepe myrtle. A lovely lace luncheon cloth covered the dining table from which was served the delicious salad and ice courses to the guests seated at smaller tables. Vases of flowers centered each table, the place cards, charming little Dutch heads upon which was written below the name of the guest. Enjoying the delightful occasion were Mesdames Stone, Harry Ward, Henry McLaulin, A. M. Phillips, S. O. Shinholer, Frank Woodruff, W. E. Housholder, F. E. Dutton, Wm. McKinnon, B. A. Howard.

Delightful Outing at Lake Harney

Enjoying a glorious auto drive, and picnic supper by moonlight, on the shores of Lake Harney Sunday were Mr. and Mrs. B. W. Herndon, Mrs. Puleston, Miss Peschea Lefler, Miss Olga Schultz and Messrs. Arthur Yowell and J. D. Roberts.

Charming Operetta

Rehearsals are being held daily for the charming little operetta, "Over the Rainbow" to be presented by the Junior Civic League and their friends, July 1st at the Imperial Theatre. The committee in charge report splendid progress with the rehearsals that promises an unusually pretty and attractive presentation of songs, dances and drills. The choruses are especially pleasing and catchy.

Camping Party Returned

A pleasant party enjoying all the pleasures of a week's camping frolic last week were Mr. and Mrs. Augustus Frank and family, including Misses Albane and Gusste Frank, Lyman and Dick Frank, Miss Gene Pope, Mr. and Mrs. Cyril Hayes of Jacksonville, Messrs Henry Robertson and W. E. Dawson. The last week was spent at Shepherd's Spring, the party returning to Sanford last Friday.

The Mystery

One of the most delightful of the mysterious meetings was held at the home of Mrs. T. L. O'Connor last Tuesday afternoon with only two members of the club absent. The ladies were invited to bring there

James Abrams Here

James A. Abrams of Jacksonville, representing the Ludden & Bates Co., was in the city today calling on the trade. Mr. Abrams is probably one of the oldest and most popular piano men in the state and his many friends all over Florida will be pleased to know that he is now with the Ludden & Bates Co., prominently. Not only is Jim Abrams a good salesman but he is square in all his dealings and his hundreds of pleased customers all over the state are his best asset. Mr. Abrams announces that he will have a piano sale in Sanford in the near future that will open the eyes of those desiring good instruments at very low figures.

For Sale or Rent

Fine farm of twenty acres, three miles south of Sanford, on lovely lake; two and one half acre grove in full bearing. Five room bungalow, servant's house and large barn. A lovely home and a paying investment. Am moving to town on account of business interests, and therefore must sell or rent subject to sale. Address George G. Herring, Sanford, Florida. 86-1tc

Killed Wildcat With Club

While Robert Lord was hunting hogs in Mecca Hammock this morning he heard his dogs worrying with some animal and going over to where they were discovered a monster wild cat having a tussle with one of the dogs. Mr. Lord is some man and he immediately waded into the cat with a club and killed him by a blow on the head. Frederic Rand coming along the road in his car afterward brought the cat to The Herald office where he is now on exhibition. He measures about three feet and is a powerful animal of the "bob cat" species.

For Sale

Two horses, well bred, gentle, first class riding and driving horses, and one a good farm horse. Two calves, four and five months old, one a Jersey heifer; a lot of farming tools, one horse wagon and seventy-egg cyphus incubator; a lot of nice chickens. Must sell, as am moving to town. George C. Herring, Sanford, Florida. 86-4tc

their needle work, which with their plans for the future made the hours pass pleasantly. Delicious ice cream served with peaches, cherries, nuts and whipped cream and cake was served by the gracious hostess. Enjoying Mrs. O'Connor's hospitality were Mesdames John Meisch, J. K. Johnson, J. H. Ferguson, E. J. Taylor, Deane Turner, A. D. Smith, W. P. Carter, Ernest Krupp and R. A. Terheun.

Delightful Motor Trip

Mr. and Mrs. E. H. Youngs and daughter, Miss Mildred Youngs and their nieces, Miss Hampton and Miss Harrold of Lakeland, and Miss Muriel Harrold of Sanford left this city on Monday for a motor trip to Jacksonville, including in the itinerary Daytona and St. Augustine.

Daughters of Wesley

The Daughters of Wesley were delightfully entertained by their teacher, Mrs. Roberts last Thursday evening at her home on Laurel avenue. Music and the class fable was much enjoyed throughout the pleasant evening. Cake and ice cream were served by the hostess, assisted by her daughters, Misses Margaret, Elmer and Ruth Roberts. Others present were Mrs. H. H. Chappell, Mrs. Claude Herndon, Misses Minnie Allen, Blanche Johns, Beale Zachary, Mabel Cowan, Kathleen Steinmeyer, Lola Evans, Gertrude Brown, Margaret Davis, Lucre Chapell and Elizabeth Musson.

At Palm Cottage Gardens

A congenial party of Sanford people were charmingly entertained at Prof. Henry Nehrling at Palm Cottage Gardens, his home at Gotha, Saturday afternoon and evening. The charm and beauty of the calcium gardens was much enjoyed and appreciated by his guests. Dainty afternoon refreshments were served by Prof. Nehrling who is a charming, genial host and the party returned to Sanford in the early evening. Prof. Nehrling's guests were Mr. and Mrs. Henry Wight, Mrs. Fannie Munson, Mrs. C. W. Shinholer, Mr. and Mrs. D. I. Thrasher, Mrs. Puleston and Miss May Thrasher.

Births

Mr. and Mrs. William Brady announce the birth of a little son, Friday, June 18, 1915.

Beach Parties

Daytona Beach was a favorite with Sanford people on Sunday, many parties going over for the week end or for the day.

Mrs. Van Valzah, who is well known and a frequent visitor to Sanford has opened the Van Valzah Hotel and is conducting it herself this season, it being one of the most popular hostesses with the folks from Sanford. Mrs. Van Valzah is a gracious hostess and serves delicious shore dinners and suppers. Roy Chittenden is the popular clerk at the Seaside Inn. Among the many parties enjoying the ocean breezes and a dip in the salt were Mr. and Mrs. W. P. Carter and the Misses Margaret and Ruth Roberts who dined at the Van Valzah Hotel.

Mr. and Mrs. Archie Betts, Miss Helen Rowland and Mr. Roy Symes in Mr. Symes' car.

Mr. and Mrs. Deane Turner and little Deane, Messrs. Robert Deane and their cousin, Haywood Deane of Griffin, Ga. This party also put up at the Van Valzah.

Motoring over in the Talbot car were Mr. and Mrs. Frank Talbot, Mrs. A. D. Parrish and W. W. Dowell of Savannah, Ga.

A bunch of jolly good fellows were Ralph Wight, Joe DeMont, Sam Younts and S. M. Lloyd.

With Felix Frank in the party to keep the rest from drowning were Billy Lefler, Dr. Cecil Butt and Braxton Perkins.

Mr. and Mrs. J. C. Fletcher had as their guests, Mr. and Mrs. J. T. Brady and family.

Mr. and Mrs. Ray went over to the beach with their uncle from Ocala in his car.

Dr. Ralph Stevens and A. D. Parrish motored to the beach Saturday night, returning Sunday night.

Personal Mention

Mr. and Mrs. R. J. Deane and son, Mr. H. H. Deane, who have been visiting Mrs. E. E. Turner left today for their home in Griffin, Ga.

Vall Lovell returned last week from Atlanta, where he has been at-

tending Georgia Tech. He received his degree this year, having finished the course in electrical engineering.

Mrs. R. J. Holly left for DeLand Saturday to join Mr. and Mrs. C. O. Codrington and their daughter, Mrs. Roland on a motor trip to West Palm Beach. The party have gone to attend the press association meeting.

Miss Muriel Harrold returned Sunday from a delightful visit to Lakeland. She left again yesterday with her uncle, Mr. E. H. Youngs and family for a motor trip to Jacksonville.

Hume Rumph is spending his vacation at Daytona Beach.

Miss Ruth Roberts is spending a week at the Van Valzah Hotel at Daytona Beach.

Rev. F. P. Strong left today for a two weeks trip to south Florida.

Miss Flora Walker left Monday for a three months visit to her sisters, Mrs. Dexter at Lima, Ohio and Mrs. DeVoe at Berlin, Wis.

Mrs. Edgar Davis, who has been the guest of Mrs. Ed. Lane has gone to Inverness for a visit. She will return to Sanford for another visit before going to her home in Fort Pierce.

Mr. and Mrs. Frank Lane of DeLand were the Sunday guests of Mrs. W. T. Johns.

Mrs. H. P. Driver of Tampa is expected to arrive today to be the guest of Mrs. W. P. Watson.

Mrs. Wm. McKinnon and sister, Mrs. Markwood of Jacksonville have gone to visit their mother at Ocala.

Mrs. Braxton Perkins left Saturday for Plant City, where she will be the guest of Miss Fannie Lowry.

Mrs. T. A. Neal returned Friday from a delightful visit to Jacksonville.

Mr. and Mrs. D. E. Freeman and daughter, Miss Grace Freeman, guests at the Walker-Minarik wedding have returned to Tampa.

Mrs. Frank Talbot leaves today for a visit to Miss Sara Longworth at Jacksonville. She will be joined later by Mr. Talbot and they will

visit Texas and the Panama Exposition before returning to Sanford in the fall.

Mrs. L. P. Hagan is enjoying a visit from her nieces, Misses Zada and Lottie Dutton and Miss Katherine Gardner of DeLand.

Miss Rith Waldron, formerly of Sanford but now of Tampa spent several days in the city last week, the guest of Miss Edna Chittenden, en route to Ormond. She will return later and visit Miss Margaret Strong.

Spending the week end with Mr. and Mrs. J. A. Harrold were Mr. and Mrs. E. H. Youngs, Miss Mildred Youngs and Misses Hampton and Harrold of Lakeland.

Dr. and Mrs. George Roberts, nee Miss Agnes Renfro left on the steamer for Jacksonville Saturday, en route to their future home at Dillsboro, Ind. They were the recipients of many charming attentions while in Sanford.

# CURBSTONE GLEANINGS

## BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

### EVEN THE GATE POST NOT IN IT

A CHIEF IS AMONG YE TAKING NOTES AND FAITH. "HELL PRENT 'EM"---SO SAYS SAUNTERER.

Be Careful What You Say  
In speaking of a person's faults,  
Pray, don't forget your own.  
Remember those with honors of gold  
Should never throw a stone;  
If we had nothing else to do  
Than talk of those who sin  
'Tis better we commence at home,  
And from that point begin.

We have no right to judge a man  
Until he's fairly tried;  
Should we not want his company,  
We know the world is wide;  
Some may have faults—who has not?  
The old as well as young;  
Perhaps we may, for aught we know,  
Have fifty to their one.

Then let us all when we begin  
To slander friend or foe,  
Think of the harm one word may do  
To those we little know;  
Remember curses sometimes, like  
Our chickens roost at home,  
Don't speak of others' faults until  
You have none of your own.

¶ This is a great old world, boys,  
and the more I see of it the greater  
it gets. One fellow will tell me to-  
day about the shortcomings of the  
other fellow and tomorrow my in-  
formant will be in jail for something  
much worse and so it goes. We can  
always find the beam in the neigh-  
bor's eye and forget about our own.  
If more people would try to better  
their own condition, spiritually and  
physically, what a great old world  
this would really be.

• They are telling it on J. D. Du-  
vion that he had the white pillars  
placed in the middle of the streets  
so he could use them for platforms  
from which to make public speeches  
during the campaign for mayor next  
fall. And looking at them makes  
me think that they would be all  
right for that purpose. Sort of a  
Jack in the pulpit affair.

• Taking a walk over the city on  
Sunday surprised me greatly in view-  
ing the many new buildings going  
up on almost every street and I  
cannot help but feel that Sanford  
will some of these days be one of  
the largest and best cities in this part  
of Florida. It has everything to make  
a city and with that new tourist  
hotel here we are bound to attract  
the people next season. Getting  
them here means that they will buy  
property and be one of us and that  
will mean new money and a greater  
city. Let everybody pull for the  
new hotel and you will not regret it  
to have it.

¶ Without knowing what the out-  
come of the Frank case will be in  
Atlanta I believe that the governor  
will give him a life sentence. There  
are few governors that care to send  
a man to the gallows on circumstan-  
tial evidence and I would not care  
to have any man's blood on my head  
if I was the chief executive. This  
may be a foolish notion of mine but  
to my certain knowledge several  
men have been hung on circumstan-  
tial evidence and afterward the  
other fellow confessed the crime.  
It is too late then to make repara-  
tion and in the Frank case if he is  
innocent or guilty the evidence will  
come out some time and the truth  
will prevail and if he is then living  
the law will have been satisfied. I  
am not biased in this case or any  
other case but circumstantial evi-  
dence is a bad thing.

¶ I never did think much of a  
rooster anyhow and his incessant  
crowing in the morning has lost me  
much sleep. He strutted around the  
barnyard and otherwise deports him-  
self in an ungentlemanly and un-  
seemly manner and is absolutely  
useless in the egg business. Read  
what they have done to him in  
Iowa:

As the result of the official edict  
of the state agricultural college here,  
a general massacre of roosters begins  
all over the state today, for the pur-  
pose of eliminating a three million  
dollar annual loss because of spoiled  
chick developed eggs, which has  
been charged against the time hon-  
ored herald of the morning.

And so this is "Dend Rooster  
Week" in Iowa, and the tables steam  
with stewed rooster, rooster potpie  
and other culinary forms of his car-  
case. Those that are not to fall be-  
fore the ax will be penned up.  
The fall of the barnyard king  
comes about through the discovery  
that infertile eggs keep longer and  
better, and that hens lay fully as  
many eggs when the roosters are  
not around.

• Sanford needs a country club  
where the older fellows can get some  
exercise, where the young ones can  
play tennis and where all of us can  
go each day and get some pleasure  
out of life. Our city and suburbs  
offer more in the line of attractions  
than any city in the south and just  
why we do not take advantage of  
them is strange indeed. Even a  
swimming pool and dance pavilion  
on the lake shore would offer some  
diversion. The only place we can  
go now is Woodland Park and that  
is certainly a fine place if you have  
to take an afternoon off. Woodland  
deserves all the success that is com-  
ing to it, for the proprietor has  
worked hard to make it an ideal  
amusement park. But for those who  
want golf, tennis and a place closer  
home the country club would be  
great. Some of our monied men  
ought to get back of the country  
club for if they played golf they  
would live many years longer to en-  
joy their wealth.

## A Fine Remedy For Biliousness and Constipation

People all through this section are  
buying LIV-VER-LAX because it is  
a preparation of real merit. It is a  
vegetable remedy that acts naturally  
and effectively, thoroughly cleansing  
the liver and bowels. It is easy to  
take and has none of the dangers  
and bad after effects of calomel.

of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain  
articles, the nature of which is hereby  
described in the annexed specification,  
inasmuch as the same relate to the  
manufacture of certain articles, the  
nature of which is hereby described in  
the annexed specification, inasmuch  
as the same relate to the manufacture  
of certain articles, the nature of which  
is hereby described in the annexed  
specification, inasmuch as the same  
relate to the manufacture of certain

LEMBERG CAPTURED; A GERMAN VICTORY

GALICIA WILL BE FREE FROM RUSSIANS IS CLAIM OF THE TEUTONS

London, June 24.—With the capture of Lemberg, the Austro-German armies, which have driven the Russians back from the Carpathian Mountains for more than 150 miles, have accomplished the object of their great drive, begun early in May. The Austro-Germans will undoubtedly now direct their efforts toward the complete clearance of Galicia of the Russian invaders.

The Second Austrian army under General von Boehm-Ermolli entered Lemberg Tuesday afternoon after sanguinary fighting. According to unofficial reports, however, much of the artillery of the Russians had been removed and it is considered probable that great part of the Russian army of defense was in retreat before the works were stormed. The Russians are in retreat, Vienna states, near Zolkiew and Rawa Ruska, northwest of Lemberg, between the San and Vistula rivers, and in the vicinity of Kielce, across the border of Russian Poland.

The German Emperor is believed to have been at the front at the taking of Lemberg, and word comes from Petrograd that Emperor Nicholas has started for the Russian front, doubtless to inspire his soldiers by his presence.

Whether the fall of Lemberg means that the Russian army operating south of it in Southeast Galicia is effectively cut off from the army to the north stretching across Poland to the Baltic cannot yet be said. Vienna and Berlin newspapers say this is the case and that Russian arms have received a blow from which they cannot recover.

If the stroke proves as crushing as the Teutons predict, its effect, military observations here say, should be felt in the transfer of vast German forces to the west, where for days they have been hard pressed by the French.

Late tonight Petrograd recorded the fall of Lemberg. Previous dispatches from the Russian capital related details of what purported to be the systematic withdrawal of the Russians from the town and it is believed in military circles here that when the count is taken of the Austro-German body it will not be large, for, as was the case at Przemyśl, the Russians are said to have worked hard to move every thing of military value.

Telegrams from Vienna concerning the capture of Lemberg and recounting the celebration of the populace in Vienna over the victory, add that the corps with the Russian army pays tribute to the magnificent rear guard action fought by the Russians, who are declared to have retreated eastward in good order, leaving behind few pieces and even removing the Russian detachments from the city, which since the Russian occupied it, has been called by them Lwow.

One telegram from Vienna says Emperor William and Emperor Francis Joseph purpose to meet soon in the recaptured Galicia, capital, for "fitting ceremonies to mark the end of Russian dominance of Galicia." The news of the fall of Lemberg was known on the continent yesterday, but it did not reach London until late today. Then bulletins arrived almost simultaneously by wireless from Berlin and Vienna by of Amsterdam. The British press had been expecting such a development and there was no more than passing comment on it, though it drove home, according to military observers, the fact how ample must have been the Austro-German ammunition supply to accomplish the feat.

Berlin and Vienna are reported joyful over the victory of their forces. Arch Duke Frederick of Austria, commander in chief of the Austrian forces, and General August von Mackensen of the German army, both have been made field marshals of the Prussian army in recognition of their services in the Galician campaign.

Cooper With Cooperative

Fred W. Cooper has accepted a position with the Cooperative Store. Mr. Cooper has been with the Bonita where his signs and advertising stunts have attracted general attention. He is also an old advertising man, having been in the advertising game with several daily papers over the state and knows advertising in every department. He will prove to be a valuable man with the Cooperative Store in their new place in the Herndon building, corner of Park avenue and Second street and we can look for some new stunts in window dressing, sign work and other advertising.

B. F. Whitner and S. O. Chase of Sanford were visitors in the city today guests at the Empire.—Reporter-Star.

TWO MEETINGS OF COUNCIL HAVE IMPORTANT MATTERS

BACK TAXES WILL BE COLLECTED AND THE MONEY PAID FOR BULKHEAD

The city council met in regular session June 21, 1915 at 7:30 p. m. Present, B. W. Herndon, president; W. W. Abernathy, J. Adams, C. H. Dingee and H. E. Tolar. Absent, J. D. Davison and R. C. Maxwell. Minutes of the last meeting read and approved.

The collector was authorized to take credit for \$837.36 uncollectable personal tax and \$1267.00 account of reductions and errors, he having presented a list showing same.

The council acknowledged the receipt of a marked copy of the Jacksonville Metropolitan, sent by Sanford citizen, giving the recommendations of the new mayor. It concurs in the views of Mayor Bowden, and will do all they can to reduce taxes and expenses in the city of Sanford. The report of the clerk made at the last meeting shows that the present council are paying all expenses, including the payment of bulkhead, out of their own pockets.

It is the policy of this council to keep within the means of the city and to spend no more than has been appropriated.

It was moved and seconded that the council adjourn to 10 a. m. June 22 to take such steps as they deem necessary.

Council met pursuant to adjournment at 10:30 a. m. June 22, 1915. Present, B. W. Herndon, president; W. W. Abernathy, J. Adams, C. H. Dingee, J. D. Davison, R. C. Maxwell and H. E. Tolar.

It was moved and seconded that the council advise the Seminoles Dredging Co. \$2,500 from the fund held in reserve. Roll call, yes, H. E. Tolar, R. C. Maxwell, W. W. Abernathy, C. H. Dingee, No, J. D. Davison and J. Adams.

It was moved and seconded and carried that the city attorney be directed to at once proceed to collect all sums due the city from all sources.

Davis Law At Right

Tallahassee, June 24.—The contention of the Jacksonville State that the Davis package bill passed by the recent legislature is invalid, was denied by Governor Trammell here yesterday. The contention of the State that the second and third readings of the bill on the same day without a suspension of the rules by a two-thirds majority would cause the act to be unconstitutional, but the Governor declared emphatically that a law had been legally passed and that there would be no necessity, for an extra session to rectify any supposed irregularity.

According to the journal of the senate, the bill passed its second and third readings on April 28, and there was no suspension of the rules. If this was the fact the law is not constitutional and will not stand a test in the courts, but if the rules were suspended and mention of the fact left from the journal, the Davis package bill would revolutionize the liquor traffic of the state.

S. Runge and S. Rapp have returned from Coronado Beach, where they spent a week in restful debate about the war in Europe.

THAW IS ON TRIAL; MAY BE SET FREE

TEST OF HIS SANITY IS TO BE MADE BEFORE A JURY TODAY

New York, June 24.—Thirteen witnesses testified today that they believe Harry K. Thaw is sane. The witnesses, who included Thaw himself, appeared in proceedings before a jury to test Thaw's mental state, on the outcome of which depends whether the slayer of Stanford White will go free or return to the insane asylum from which he escaped.

Four jurors at Thaw's former trials, two chaplains, a physician and a keeper at the Tombs, where Thaw at various times was confined, two newspaper men who have been associated with him during the five years' history of Thaw litigation, a lawyer who had met Thaw in New Hampshire and a juror in civil proceedings instituted by one of Thaw's former attorneys against Thaw's mother were included in the list who testified.

All agreed that Thaw showed no symptom of delusion, that he could talk intelligently on many subjects had never been violent to the knowledge of those who appeared.

Thaw appeared composed on the witness stand and answered his attorney's questions well modulated voice and without hesitation. He described the story of his escape from Matthews and said he left because physicians told him he was sane and because he himself believed he was sane. Examination was postponed.

That the whole course of the Thaw case would be brought to light again before the jury, it was decided was indicated by Deputy Attorney General Cook in his address. He said the state would prove Thaw was sane, but that the jury would be morally persuaded.

In his cross-examinations of the witnesses today Cook put questions designed to impress on the jury that a man suffering from the form of insanity which the State alleges Thaw possesses might appear perfectly rational in his ordinary associations.

An important case, when the charges against Thaw were made, whose home Thaw was alleged to have frequented, has been missing. Cook said today. She has been located in Boston and has promised to come to New York.

Evelyn Nesbit Thaw in Chicago, Cook said, had promised to appear if needed.

Thaw's own opinion on the stand favored the opening statement of the attorney John B. Stanchfield, who reviewed the history of the Thaw case in detail. He quoted former District Attorney Jerome as saying to the jury at Thaw's second trial for the murder of Stanford White that "no one pretends that Thaw is insane as he now sits in court," and read the findings of the commission which declared Thaw sane during his first trial in 1907, when the jury disagreed.

Deputy Attorney General Cook, on behalf of the state declared he would prove that Thaw "is suffering from incurable insanity" and would show "by Thaw's mother that she was suffering from nervous prostration when he was born."

"We will show you that in his childhood Thaw talked gibberish and that his teachers had to talk his language," he said.

Sunday at Methodist Church Sunday school, 9:45 a. m. Preaching, 11, by pastor. Preaching, 7:30.

The evening services last Sunday were well attended. The Presbyterian pastor, Dr. Brownlee, with his congregation worshipped with us, and they with the Congregational members will be with us again on Sunday evening.

The first Sunday evening in July will mark the beginning of the union services for July of the congregational, Presbyterian and Methodist churches of Sanford. The services will be held in the Star Theater. Singing the old hymns, and preaching the old gospel, in the spirit of the Master will characterize these services.

UNKNOWN IN POLITICS SUCCEEDS BRYAN

ROBERT LANSING MADE SECRETARY OF U. S. BY APPOINTMENT

Washington, June 24.—Robert Lansing, who was counsellor for the state department has advised President Wilson in law and precedent in the policy pursued by the United States toward belligerent governments since the outbreak of the European war, was named today to succeed William Jennings Bryan, as secretary of state.

Few appointments in recent years have given such widespread satisfaction in the National Capitol. Mr. Lansing is a life-long Democrat, but he has devoted his time to international law and diplomacy and is as popular with former Republican officials as with his colleagues.

Members of the cabinet and close personal friends of the President advised the selection and Mr. Bryan, himself although not consulted is understood to have hoped for the promotion of Mr. Lansing.

Official announcement of the selection of Mr. Lansing, who has been serving as Secretary of Interim Affairs, was made in the following statement:

Before leaving this evening for a brief rest in New Hampshire the President announced that he had selected the post of Secretary of State to Mr. Robert Lansing, the present Counsellor of the Department of the State and that Mr. Lansing had accepted the appointment.

A commission was prepared and President Wilson signed tonight giving Mr. Lansing a recent appointment. When Congress reconvenes the commission will go to the Senate for ratification.

One of the principal reasons in connection with Mr. Lansing's appointment is the fact that he personally has no political backing or influence. Succeeding William Jennings Bryan, the commission will go to the Senate for ratification.

This very fact commended itself to the President's advisers as a reason for the appointment of a man of Mr. Lansing's experience and ability, the argument being advanced that it would cut a line in the national politics, the people of the United States would be political opponents of Mr. Lansing.

Mr. Lansing takes office thoroughly familiar with the personnel and organization of the Department of State and conversant with confidential details of all important negotiations brought about since Wilson was elected.

Dies From Snake Bite

Two negro boys named Guiden and Trent, living in Goldshoro were bitten by a rattlesnake in the woods last Monday and the Guiden boy being the first one bitten suffered the worst, but both managed to reach the city and were placed under the care of physicians. The Trent boy could have been saved by an operation and seemed to be recovering when in some manner he loosened the tourniquet that had been wound around the limb, allowing the poison to sweep through his system and he died yesterday. The Guiden boy is recovering and will live, so the physicians think. Children should be warned about going into the woods at this time of the year as they are apt to be bitten and the loss of life is sure to follow unless a doctor can be found at once.

Special Meeting at Monroe

On Sunday afternoon at 3:30 the pastor of the Methodist church of Sanford will preach at Monroe church. This service will begin a series of meetings which will continue through the week at 7:30 each evening. A cordial invitation to all the people of that vicinity to come and take part in these services is extended. The people of Sanford are invited to attend as often as they can.

Knights of Columbus Here

The Sanford Council No. 1763 of the Knights of Columbus will again show to the people of Sanford that they are still moving ahead by initiating a class of thirty-five candidates into their order, Sunday, June 27th. It is expected to be one big day for the Catholic men. There will be a hundred and fifty or two hundred visiting Knights from other parts of the state, as Tampa, Jacksonville, Miami, St. Augustine, San Antonio and other cities will be represented. After nine o'clock mass the Knights and candidates will march over the principal streets of town and end at their hall of initiation. After the conferring of degrees in the afternoon the affair will end with a smoker and experience meeting at the Catholic hall at night.

SWEEPING RAIN STORM AND HIGH WINDS DO DAMAGE

PLAYED HAVOC IN THIS CITY LATE LAST WEDNESDAY AFTERNOON

One of the worst storms in the history of the city occurred here on Wednesday afternoon about four o'clock. The storm took the record not so much on account of the duration as on the amount of rainfall and velocity of the wind in a short period of time. The rain fell in torrents and in a few minutes the streets were veritable lakes, the water on First street backing into some of the stores. The storm sewers were entirely inadequate to take off the surplus water and travel stopped for a few minutes on the main streets. While the storm was in progress and afterward the lightning played all kinds of pranks and entered in several business houses, struck the telegraph and telephone wires, shocked people at the telephone struck houses, animals and people, but no actual fatalities occurred.

The Everett home had a large hole torn in the roof and the lightning started the roof burning, but the downpour of rain acted as a fire department and put out the blaze.

At the home of G. W. Spenser on Sanford Heights the telephone wire on the barn acted as a conductor for the lightning and the wet barn did the rest, allowing the lightning to enter the barn, where a negro boy was milking one of the prize cows of the Spenser herd. This shock knocked the cow over on the boy and both of them were rendered unconscious for a few moments but both cow and boy are on the job today, seemingly none the worse for the accident.

The lightning struck the court house and knocked the gilded ball of the flag pole and otherwise the building was unscathed.

Several houses on the east side were struck by lightning and the Crews house was partly demolished, the debris falling on Mrs. Crews and injuring her seriously. She had an infant in her arms at the time and the escape of both from instant death was miraculous.

The storm also knocked down several telephone poles on Celery avenue.

Robert Mason, the son of Dr. Mason was bitten by a dog on Tuesday while riding his wheel on Magnolia avenue. The dog ran alongside of the wheel and before Robert knew he was anywhere around he fastened his teeth into his leg just above the knee. The dog was immediately found by the police force and shot and his head was sent to the Pasteur Institute at Jacksonville to ascertain if there were any signs of rabies. Robert is all right at present and the many friends of the family hope that the examination of the head will not show any symptoms of rabies. There are too many worthless curs roaming the streets of Sanford and the lives of all the children of this city are in jeopardy as long as the present lax laws allow myriads of curs to roam the streets. No one seems to claim them or to pay the license tax on them and yet they evidently belong to somebody. If the police force was allowed to clean out about two hundred worthless dogs out of this city there would be less danger to the children and every one else who is obliged to run the risk of being bitten every day.

Bitten by Dog

Robert Mason, the son of Dr. Mason was bitten by a dog on Tuesday while riding his wheel on Magnolia avenue. The dog ran alongside of the wheel and before Robert knew he was anywhere around he fastened his teeth into his leg just above the knee. The dog was immediately found by the police force and shot and his head was sent to the Pasteur Institute at Jacksonville to ascertain if there were any signs of rabies. Robert is all right at present and the many friends of the family hope that the examination of the head will not show any symptoms of rabies. If the police force was allowed to clean out about two hundred worthless dogs out of this city there would be less danger to the children and every one else who is obliged to run the risk of being bitten every day.

EARTHQUAKE SHOCKS IN CALIFORNIA

IMPERIAL VALLEY SUFFERS FROM EARTHQUAKE KILLING MANY

El Centro, Calif., June 24.—Sharp earth shocks yesterday centered the anxiety of Imperial Valley settlers on the head gates of the great irrigation system which had transformed nearly 270,000 acres of desert.

Tonight the intakes of the Colorado river near Yuma, and the headway at Sharp's were reported safe, although the Sharp's head was shaken and sagged.

Engineers reported that another shock as severe as the one that last night rocked the little cluster of towns in the valley and cost four lives in the Mexican border town of Mexicali, undoubtedly would wreck the works there.

Scientists appear to agree that last night's shocks lay along the line of what is known as the San Andreas fault in the earth's formation which was involved in the north-central California earthquake of 1906.

Damage estimated at \$400,000 was done in the district extending roughly from the shoulder of the Cocopah Mountains of Lower California to San Bernardino and Needles, California, on the north, Yuma on the east and the Delta on the west.

The zone of the tremors were felt most centered about Calexico and Mexicali, where the free revelry of a frontier collection of saloons and dance halls was halted when the first shock put out the lights and where all the fatalities occurred. The men and women killed were crushed beneath the adobe walls of a dance hall.

Rebuilding already has begun. In this city where the business section was ruined, gangs of men were at work today clearing the debris. At Calexico similar work was in progress. The damage here was estimated at close to \$200,000. The loss at Calexico has estimated to be less than that.

Several trees at Calexico added to the damage done there by the quakes, which threw the municipal water tank off its sixty foot tower. The collapse of the tower deprived the town of water pressure.

Tillis Killee

Geneva, June 24. In the presence of relatives and a few intimate friends Miss Margie Killee and Mr. LeRoy Tillis were united in the holy bonds of matrimony on Wednesday, June 16th, at 10 a. m., at the home of the bride's parents, Mr. and Mrs. F. H. Killee in Geneva, Fla. The Rev. Strong of Sanford officiating.

The reception room was made to smile forth the nuptial spirit with tastily arranged decorations of ferns, roses and petunias.

Promptly at the appointed hour the bride and groom, preceded by Miss Bertie Jacobs and Mr. William Killee marched in to the stridings of Mendelssohn's Wedding March, which was played by Mr. O. L. Tharp.

The bride was beautifully gowned in an exquisite dress of dark blue crepe de chine, with accessories to match, while the groom wore a lovely suit of dark blue serge.

Immediately following the ceremony and usual congratulations the bride and groom, followed by the guests repaired to the dining room where refreshments were served.

Shortly after 11 o'clock the bride and groom left by way of the F. E. C. Ry. for Daytona Beach and other points, where they will spend a short honeymoon, returning to Sanford, where they will be at home to their many friends after June 20th.

The bride is one of Geneva's most charming and attractive young ladies and has a wide circle of friends who wish her much happiness and success. The bridegroom is a prominent business man of Sanford and has a host of friends who will extend his bride a cordial welcome.

R. S. Entzminger and family left yesterday for Longwood, where they expect to spend several months with relatives and friends.
