

BIG GROUP OF MEN NAMED TO HELP IN CRISIS

(Continued From Page One) of trade and social service organizations were included. Those requested to serve were: R. H. Ashton, president of the American Railway Association; Rufus Abbott, Chicago; Bernard Daruch, New York; C. E. Hoosman, president of the National conference of social work; Newton D. Baker, Cleveland; Reese Blizard, Parkersburg, W. Va.; J. Herbert Case, president of the Association of Community Chests; Martin H. Carmody, supreme knight, Knights of Columbus; Harvey Coach, Pine Bluff, Ark.; Fred C. Croton, of Ohio; James C. Drury, past commander of the American Legion; E. D. Duffield, Newark, N. J.

Pierre duPont, Wilmington, Del.; John E. Edgerly, president of the National Manufacturers association; William J. Ellis, president of the association of Welfare Officials; Milton Esberg, San Francisco; George Eastman, Rochester, N. Y.; Warren C. Fairbanks, Indianapolis; Harold Fish, Salt Lake City; Fred Fisher, Detroit; Homer Ferguson, Newport News, Va.; Mrs. John M. Glenn, president of the Family Welfare Association of America; Ir. Lillian Gilbreth, Montclair, N. J.; William Green, president of the American Federation of Labor.

C. E. Grunsky, president of the American Engineering Council; Edward N. Hurley, Chicago; E. Johnston, president of the Brotherhood of Railway Engineers; H. C. Knight, president New England Council; H. G. Lloyd, Philadelphia; Alex. Legge, Chicago; J. F. Lucey, Dallas, Texas; Alvan Macaulay, president of the National Automobile Chamber of Commerce; Samuel Mather, Cleveland; Weley C. Mitchell, director, National Bureau of Economic Research; the Rev. John P. Mott, president of the Young Men's Christian Association; Charles Nagle, St. Louis; Cleveland Newton, St. Louis; John K. Otley, Atlanta; John Barton Payne, chairman American Red Cross; Frank R. Phillips, Pittsburgh; William C. Procter, Cincinnati.

Raymond Robbins, Florida; Henry M. Robinson, Los Angeles; John D. Ryan, New York; Edward L. Ryerson, Chicago; Julius Rosenwald, Chicago; Mrs. John F. Simple, president Federation of Women's Clubs; Ibbotson A. II, Silver, Cleveland; A. O. Smith, Wisconsin; George Sloan, president of the American Textile Institute; Matthew Sloan, president National Electric Light Association; Silas Straun, president of the United States Chamber of Commerce; L. J. Taber, master of the National Grange; Walter Teagle, New York; Myron Taylor, New York; George Vincent, GreenwIch, Conn.; Daniel Willard, Baltimore; Col. Arthur Woods, New York; Matthew Wolf, vice president American Federation of Labor; William Allen White, Kansas; Oscar Wells, Birmingham, Ala.

Opinion Is Held Missing Jap Was Thrown Off Ship

(Continued from Page One) miss made it necessary for him to call up passengers in their staterooms. The department of justice entered the cave yesterday when it assigned three of its agents to aid in an attempt to solve the mystery. Although interest in the investigation has been expressed by two other governments, the Japanese and the British, the United States attorney's office here claimed jurisdiction in the case. A flutter of excitement was caused late yesterday in the Federal building when a dapper young Japanese appeared for a private hearing with officials and was reported to be the missing man. He refused to identify himself other than to say he was from the Japanese consulate.

SPEEDY END OF CUBAN REVOLT IS PREDICTED

(Continued From Page One) guards in charge. Conflicting reports were received yesterday regarding the fate of an insurgent expeditionary force, barricaded Wednesday in a railroad tunnel at Gibara, in Oriente province. One report said government troops, renewing the sharp fighting that lasted 75 hours before

the occupation of the town by soldiers Wednesday, drove a small band of the expeditionists from the tunnel, captured six machine guns and four railway carloads of small arms munitions. The correspondent of El Pais, Havana newspaper, intimates in an article that the rebels, many of whom were reported to be Americans, were about to be abandoned by their own army, but left their machine guns behind them. He added that the group was believed to be hiding in a cave in nearby mountains. Colonel Rosales, in command of forces there, was quoted as saying that only eight of the rebel expeditionists were killed and 15 wounded during the three-day battle at Gibara, and that government troops seized 2,500 rifles, 60 machine guns, 150 anti-aircraft guns and a small field piece, when they entered Gibara.

The newspapers reported that a woman resident of Gibara and her two sons, were killed Wednesday by a bomb dropped from an airplane during the attack. Fighting also was reported in several other towns, with groups of rebels said to be active in some of them.

Under order from the general staff of the army yesterday, no person will be allowed to leave Gibara, regardless of nationality, without a pass issued by the general staff. Muzzled censorship was continued in Havana insofar as local newspapers are concerned. Military censorship was discontinued Wednesday night, but the papers were required to submit their papers to the secretary of information before publication yesterday.

Diario de Cuba, Santiago paper, suspended publication Wednesday in protest against a government order that only official government communications regarding the rebellion be published. Arrangements were made that publication would be resumed today.

for she knew Miss Reissner only casually. The former actress said she went to the party in spite of the importer's objections, and when he returned went directly to bed. It was the next morning when she learned he had vanished.

When she questioned Mrs. Fujimura about possible enemies of her husband, she was temporarily abandoned yesterday when she vanished from New York, Conn., where she lives, stated she had given birth to a daughter yesterday morning.

The mother, whose 3-year-old daughter died in a New York hospital about the same time the Beland incident took place, does not yet know her husband, but has been given up as dead.

PRODUCT OF TUNG OIL IS EFFECTIVE AGAINST INSECTS

New Compound Being Manufactured By Gainesville Plant

GAINESVILLE, Aug. 21.—(A.P.)—Another tung oil product being produced in Gainesville is called "Antermite," manufactured by the Williamson Company, makers of tung oil paint.

This new product has been improved by E. F. Williamson, who has been working on the formula since a long period of time. It is a tung oil compound containing a large percentage of cresote. The improvement of this new product is that it is designed to get rid of the destructive termites or white ants that do much damage to wood not only in the southern states but in many other states from the Atlantic to the Pacific.

Application of Antermite kills the termites and seals the pores in the wood so that other pests cannot return and resume operations. In effect, it is a wood preservative and tests recently completed on certain houses in Gainesville where the termites were doing an immense amount of damage, indicate the absolute destruction of the ants, according to the ants, according to Mr. Williamson.

This new product, Mr. Williamson believes, will soon develop its own special market, almost entirely because the termites, of which there are 44 known species, are being fought in practically every portion of the country, from the southern, southwestern, and Pacific coast regions where both the subterranean and non-subterranean kinds occur, they are causing great loss and are injurious to man. Poisonous gases have been used effectively in the eradication of the termites, but the only temporary since another colony comes along to rebuild the damage where the other left off. By the use of Antermite, the pests are not only killed but their habitation completely sealed.

Application of the preparation to infected buildings here in Gainesville has demonstrated the fact that wood when thus treated, is safe from damage.

Tentative Budget Has Been Adopted By County's Board

WEST PALM BEACH, Aug. 21.—The tentative budget of \$376,500 for Palm Beach county, fixed several weeks ago was yesterday adopted as the final budget after the board of county commissioners held a conference with representatives of the other five tax levying bodies of the county, in an unsuccessful effort to agree on further reductions. At the same time the board postponed final setting of millage rates until Monday.

The following representatives of other boards were unanimous in declaring that further reduction would make it impossible for them to operate: D. H. Conkling, secretary of the Florida inland Navigation District, which has increased its millage this year from 1 to 1.5; Mrs. C. C. McCune, secretary of the South Lake Worth Drainage District, which has reduced millage from 15 to 12; J. Thomas Zeigler, chairman of the Jupiter Inlet district, with a millage increased from 10 to 15; Capt. A. S. Anderson, chairman of the Lake Worth Inlet district, which reduced millage from 23 to 27.1; Joe A. Youngblood, superintendent of the Board of Public Instruction, which has reduced school millage from 11 to 8.

The new budget for the county makes a reduction of \$20,000 from last year. Changes that it makes include: reorganization of the county welfare department under Dr. T. D. Gaster, curtailing the appropriations for the actual maintenance of the roads, increasing the appropriations for actual highway work and hospitalization and for the appropriations in the county's department.

Following the outcome of the session of Federal Judge Hamilton L. Riffe in Miami whereby the 1931 and 1932 county tax rates were upheld the board authorized Tax Collector Roy A. Thompson to submit recommendations of a uniform tax rate for the three years, to be held Oct. 6.

Miami Will Welcome DO-X, 12-Engined Leviathan of Air, on U. S. Visit, Aug. 24

DO-X, mighty Leviathan of the sky, as artist sees it over downtown Miami. In the lower foreground, just above Miami's 18-story county-city building, may be seen an 18-passenger flying boat, one of largest type heavier-than-air craft now being operated commercially.

MIAMI, Aug. 21.—Everything is in readiness for the arrival of the Dornier DO-X, largest heavier-than-air craft in the world, when it makes its entrance into the United States at Miami about Monday, Aug. 24.

More than 50,000 visitors from all parts of the state are expected to come to Miami to view the giant seaplane and to participate in the official reception to be given by its officers and crew.

The airliner, under the command of Lieut. Clarence H. Schildhauser, U. S. N., en route to New York from Rio de Janeiro, will be met by an escort of navy and commercial planes a few miles south of Miami and guided to the Diner Key naval base where it will be anchored during its two-day stopover here. Immediately following clearance of United States customs at the Pan American seaplane base, a reception will be held in Bayfront park for passengers and crew and the city's official greetings will be extended by Mayor R. B. Gaultier.

The present flight of DO-X, which has occupied many months, was made to prove to the world the contention and belief of Dr. Claude Dornier, German aeronautical genius, that airplanes can be made more efficient and with

a greater factor of safety with increased size.

The plane is designed to carry not more than 100 passengers, although it has carried successfully 103 passengers together with the crew of 10. It is equipped with 12 American-made engines, Curtiss Conquerors, placed back to back, each developing more than 600 horsepower. One of the features of the ship, the most important, perhaps, of the safety factors, is the fact that she can fly and maneuver on eight engines. It is interesting to note that American gasoline and oil are used.

One hundred thirty-one feet long and with a wing spread of more than 157 feet, the flying boat makes an impressive appearance in the air or on the water.

As a means of showing the plane to the people of the American continent and further persuade the world the feasibility of its design for long distance traveling, the great plane left Almere, the Netherlands, in November, 1929. Proceeding by short stages, the route it traveled across western Europe, down the coast of West Africa, 1,400 miles across the South Atlantic from the Cape Verde Islands to Fernando Nereus Island off the coast of Brazil, thence to Rio de Janeiro. After several weeks in Rio, it again

took off, traveling north along the eastern coast of South America to Para, Brazil, for Miami. Six overnight stops were scheduled between Para and Miami.

Two women are among the 13 passengers aboard the plane on its trip across the Atlantic bound for South and North American ports. They are Mrs. Clara Adams of Shrodsburg, Pa., a veteran passenger of the Graf Zeppelin, and Frau Doris von Clausbruck, wife of the German pilot of the ship.

In order to make their North American welcome an outstanding event of the entire trip, elaborate plans for entertaining the crew and passengers have been made. Numerous committees to attend to every need of the officers and crew are working with the Miami Airport association, city aviation officials and officers of aviation companies. Luncheons, dinners, swimming and beach parties and trips throughout the Greater Miami district are included in special arrangements for the visit.

The Columbia Broadcasting System has indicated that Miami will be placed on a national hook-up to broadcast the arrival and description of the giant plane, and short interviews with the crew and passengers.

News Notes On Agriculture

By Alex R. Johnson and C. R. Dawson, Seminole County Agricultural Department.

COVER CROPS TO BE DISCUSSED

Arthur Smith who is connected with the Synthetic Nitrogen Corporation will be one of the speakers at the next meeting of the Farmers Evening Class which will meet Thursday, August 27, 8:00 o'clock, at the Seminole High School.

Mr. Smith is Director of the research Department of the South Eastern States and is in charge of all crop research work for his company. During the past years he has been actively engaged in the management of cover crops and is the author of several publications dealing with this subject. He will speak on the subject of "UTILIZATION OF THE COVER CROP FOR BEST RESULTS."

One of the problems which Mr. Smith will openly discuss will be the subject of plowing under the cover crop.

Another speaker of the evening will be Mrs. Helen T. Morse, director of welfare work in Seminole County, who will speak to the farmer group on a subject of vital importance to Sanford and Seminole County. Mrs. Morse has some very interesting facts and data compiled which will be of interest to those attending.

Prediction Is Made That Dollar Oil Is About To Be Sold

OKLAHOMA CITY, Aug. 21.—(A.P.)—A prediction that dollar oil may be flowing from some of the derricked giants in the Oklahoma City field before many hours came yesterday as the result of the Oklahoma-Texas program of higher prices, or no crude from these areas.

While the vast East Texas producing area kept under surveillance of national guardians, Oscar Murray, cousin of the Oklahoma governor who led the way to a military curb of wells, forecast a \$1 per barrel price posting here, perhaps today. He predicted opening of wells to those buyers offering \$1 a barrel and taking petroleum royalty from the wells in the same producing horizon.

After a conference with oil men Wednesday night, Governor Murray said four out of five wells willing to pay the \$1 scale he would exact in return for opening wells. He added that if Oklahoma City field companies producing from the Wilcox sand would get together, agree to produce and pay the price "I believe a plan can be worked out in a few days so they can run day and night." There would be a compromise on the price, he said.

Oil-minded southwesterners from major purchasers on down, have expressed belief that a crude oil price increase is assured if the Texas and Oklahoma shutdowns remain in force.

ARE YOU GETTING QUALITY FERTILIZER—OR JUST A 5-5-5?

A & G BRAND

Open Formula No Filler

Get Our New Low Prices Before Buying

ATLANTIC & GULF FERTILIZER CO.

JACKSONVILLE, FLORIDA

C. D. Couch, Sanford Agent

Warehouse—200 N. Maple Ave. Phone 578

PRE-SHRUNK PRICES

As soon as we know the kind of food you want us to buy for you, we start right in to shrink our prices. And we continue the process until the food is finally handed to you over our counters.

In other words, when producers charge us less for food, we lower our prices to you at once. And when we find a less expensive way of shipping, or storing, or trucking, or storekeeping, we shrink our prices accordingly. Or, if we can reduce the cost of doing anything that adds to the price you pay, we pass the savings on to you as a matter of course.

By starting way back at the beginning and planning ahead, we can sell the best grade of food at surprisingly low prices. And make a small profit besides.

Car-bo-ash is superior in every way to Hardwood Ashes

Car-bo-ash has 10 times less moisture than ordinary Hardwood Ashes

THE SYNTHETIC HARDWOOD ASH SUBSTITUTE

CAR-BO-ASH contains about twice as much Calcium Carbonate as the usual run of Hardwood Ashes.

CAR-BO-ASH possesses the correct proportion of Active Lime.

CAR-BO-ASH has the right amount of Soluble Phosphor.

CAR-BO-ASH contains Secondary Plant Food in addition of the quantities found in ordinary Hardwood Ashes.

CAR-BO-ASH is free from sand, dirt, charcoal and other impurities found in Hardwood Ashes.

CAR-BO-ASH is uniform in quality and always mechanically perfect.

CAR-BO-ASH is a definite advance in agricultural crop necessities and is rapidly replacing wood ashes.

CAR-BO-ASH is very economical in use owing to its greater plant food content, even mechanical condition, and low moisture.

CAR-BO-ASH is an exclusive product of the Gulf Fertilizer Company, who alone know the manufacturing process. Therefore, CAR-BO-ASH can be obtained only from the Gulf Fertilizer Company and its authorized distributors.

CAR-BO-ASH can be obtained locally from:

COUPLE READY FOR WORLD AIR TRIP

Here are Mr. and Mrs. Charles H. Day, of Ridgeway, N. J., as they worked to assemble their airplane in London preparatory to a flight around the world. The plane was brought from the United States, and the couple expect to begin the flight in a few days.

Stringfellow who pointed out that the commissioners could make their decision then as well as now and in the meantime have an additional opportunity to hear from taxpayers. The official hearing on Aug. 31 is required by law and is especially for the purpose of receiving protests from taxpayers on any item in the budget.

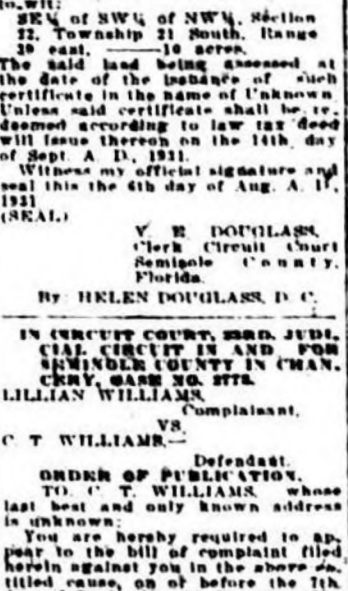

Diversification Of Crops Is Urged By Land Bank Official

DECATUR, Ga., Aug. 21. (A.P.)—Representatives of 25 national farm loan associations yesterday heard R. J. Taylor, vice president of the Federal Land Bank, Columbia, S. C., urge the diversification of crops and say that 1900 farms are now owned by the Federal Land Bank.
Mr. Taylor said "The agencies holding foreclosed farms have a problem to dispose of them, but the market is looking up."
He also told the representatives, in annual meeting, that the farms are being sold to local people and not to corporations. The farms are in Florida, Georgia and the Carolinas. Loans made now, he added, are due in 20 years instead of 35 years as formerly.
Chairman W. D. Marbut, Decatur, said the meeting was designed to acquaint bank officials of Georgia with the stockholders of the association.
Mr. Taylor, making the principal address of the day, said "We have sold in the Federal Land Bank district nearly \$1,000,000 worth of farms during the first six months of this year."

KISSES WIFE, KILLS SELF
JACKSONVILLE, Aug. 21. (A.P.)—After kissing his wife, John P. Land, 70, a retired carpenter, walked into his garage here yesterday and ended his life by firing a bullet through his head. Relatives said Land had been ill and unable to work.

City Tax Liens Are Held Upon Parity With County Liens

SARASOTA, Aug. 21.—That tax liens of the city are of equal dignity and are on a parity with liens for state and county taxes was held recently in an opinion handed down by Circuit Judge Paul C. Albritton.
Occasion of the opinion being expressed was the hearing by the judge of arguments on a demurrer filed by the city in a foreclosure suit in which it was named as a party.
The suit was brought by Capt. Warren F. Purdy to foreclose state tax certificates on certain lots in Sapphire Shores.
Judge Albritton over-ruled the city's demurrer and motion to strike after counsel for both parties had agreed that the foreclosure suit would be continued with no discrimination against the city's tax lien, which will remain as a charge against the property.
In the bill filed by the plaintiff, it was alleged that the city's lien for taxes was inferior to that for the state and county taxes represented by the certificates for which foreclosure proceedings have been instituted.
Harrison E. Barringer is representing the city, while the plaintiff is represented by Judge Cary R. Fish.

Lee County Board Votes Money For Philadelphia Team

FT. MYERS, Aug. 21.—By a vote of three to two the Lee County commission has included in its tentative budget appropriations of \$2,000 each for the Philadelphia Athletics training camp and the chamber of commerce. The action was taken by raising the publicly fund from the \$500 allowed last Monday to \$5,000 and was with the understanding that final decision would not be made until the official public hearing on the budget on Aug. 31.
At that time items in the tentative budget may be reduced or eliminated, but none may be added or increased. In deciding to delay final disposition of the controversial appropriations the board acted on the recommendation of Chairman Harry M.
