A young girl, Jennie Parker, flagged a passenger train near Hakehurst, Ga., the other day and prevented a wreck.

Jennie evidently does not wear an up to date skirt, otherwise there wouldn't have been enough goods in the skirt to flag a train.

GREAT IS FLORIDA

For the three months ending June 30, Florida shipped by rail: Fruit—2119 carloads. Lettuce—300 carloads. Celery—1634 carloads.

When one considers that this was a very poor season on account of the drought—the figures are stupendous.—DeLand News.

LET US HAVE SHADE

Seminole county, the youngest in the state should supplement the brick roads with the planting of shade trees all along the way.

"It shall be the duty of the several boards of county commissioners of the respective counties of the state whenever a majority of the freeholders residing or owning real estate along or in the vicinity of any public road or highway shall present to them a petition asking that said public road or highway be improved by planting suitable shade trees along such road or highway, or such part thereof as may be desired or designated in such petition, to grant such petition and to have suitable shade trees planted in regular order as hereinafter provided, the work to be done at the proper season and according to the prayer of the petition."

THE STATE'S LOSS

The Bryan primary law requires that the state provide the candidates with an advertising medium in the shape of a campaign book; the cost of this for the late campaign was \$2,329.69, while the receipts from the candidates aggregated \$1,795.

But that is not all. The Tampa Tribune delivers the following judgment: "Candidates could, use the same money with greater advantage with well circulated newspapers."

Accepting the statement of the Tribune, may we ask whether the state, to her own loss, should compel the candidates to use a medium which did not return them their money's worth.

impulse of strenuous competition? It may be said that newspaper competition... but it is easy to decide on the evidence without accepting the dictum of any newspaper.

Would the efficiency of the primary law be impaired if the advertising feature were eliminated? That is for the legislature to decide, and to the experience and judgment of the members the Times-Union agrees with the Tribune that appeal be made.

WHY STATE NEED BOOSTING

On Saturday potatoes were selling at retail in Jacksonville at 40 cents a peck. On Monday they retained here for 75 cents a peck.

The above isn't a text for a sermon; it is a sermon within itself. It is the most powerful argument in the world why Florida needs boosting.

It hasn't been many weeks since the Metropolis printed a story of a million dollar potato crop from the Hastings development, just a wee, tiny spot on the map of Florida.

CAMP CONFERENCE ENDS MOST HAPPILY

At 8 o'clock the entire crowd was invited to a party given by Miss Emma Tucker in her cottage near the Inn.

The Florida camp conference is the first thing of the kind ever conducted in the state. It has combined the features of a summer camp and a summer conference.

The Florida Development Association, recently formed at Sanford for the purpose of working for an appropriation for advertising Florida in the right way.

We can surely help to lower the cost of living in our own state, and in adjoining states, by developing the state and making it possible for people to make fortunes for themselves.

Another River of Doubt

Perhaps it would be fair to claim that the St. Johns was the first river discovered by white men in the territory of the United States.

We know of a small company of Floridians who might claim the distinction of this service but for their modesty; why not drag them from obscurity and set them up as candidates for the presidency?

they ought put forward and their strenuous labors deserve recognition. Their journal is in the possession of the Times-Union and many names inscribed thereon are strange to our geographers.

Are not these men discoverers and the rest of it? Is it necessary to search for greatness in the wilds of South America? Why not honor those who serve us rather than those who find materials for the maps of foreigners?

The laws of "chance," or the theory of probabilities, have been adopted by the men of science. Until recently the only persons who bothered their heads about the problems that arise in calculating probabilities were gamblers and speculative mathematicians.

Beautiful as this feature of the conference has been, the religious side has been still more stressed. The earnest Christian women who have acted as speakers and leaders have gotten close to the girls and many a girl will leave this conference with a life purpose more clearly defined.

Sunday morning and evening President Jenkins of Wesleyan College was thoroughly at home with a large number of young women. His messages were direct and personal.

Stallings Declares Frank Chance Has Finally Developed Real Contender
—Lauda Caldwell.

Big Chief Stallings, the leader of the Braves, figures Frank Chance's New Yorks as the real dark horse of the American league.

"Chance is one of the greatest leaders in the game," said Stallings, in commenting on the club. "It has taken a whole lot of nerve, and a whole lot of executive ability to do what he has done. He simply cleaned house with all the dead wood Wolverton left and within a year he has built up what strikes me as one of the best balanced clubs in the Johnson circuit.

"There is no one in the American league that has any better pitchers than Chance. To my mind he has the greatest pitcher in the game in Caldwell. That fellow has the greatest curve ball I ever saw, and he has almost as much speed as Johnson. Fisher is a rattling pitcher. I am told that the young fellows who came after I left are equally promising. Their work to date has shown it true.

"Ed Sweeney is not traveling beyond his speed. For me in 1910 he was the best catcher in the American league. But the greatest player of all that Chance dug up is Jimmy Walsh. There is an outfielder for you, one of the very best in the game. How Frank ever got him away from the calculating Connie Mack I cannot figure. A manager has only to have a few players of the Walsh stamp to make a team.

"Where Chance really made his team was in the acquisition of Truesdale. I may be prejudiced but I think he is a better ball player than Malsel. He is as good a fielder as Malsel and will outpitch him, too, in a season's stretch. Though no faster than Truesdale, Malsel is the better base runner. Fritz is one of the best base runners in the country. But

Pitcher Caldwell of Yankees.

Fritz will not get any more bases on balls.

New York fans tell me Truesdale has looked like a bloomer with the stick. I cannot understand that. He should hit 250 in the American league. And hitting 250 there will be few better second basemen. I think Truesdale must be a little nervous in his new surroundings. He will hit better the further he goes. I am sure. I used to bat him second in the order, because of his speed and his fine bunting skill. He legged out many a safety trying to sacrifice for my Buffalo club."

NOTES of the DIAMOND

Outfielder Tennant of Sacramento made four hits in four times up off Pitcher Malarkey of Oakland.

Yeon Gregg's brother, Dave, has been turned back by Manager Birmingham of the Naps. He goes to Spokane.

Catcher Arthur Wilson has been hitting hard for the Chiefteds, but not sufficiently so to keep them out of the division.

One argument in favor of the Pirates' copping the National league hunting is that none of the experts picked them to do so.

Pat Ragon believes that to be in good shape he will have to pitch every other day, and he is pestering Manager Robinson to let him do it.

Helme Wagner, the Red Sox shortstop, denies the report he is through as a player and says he will be back on the job within a few weeks now.

Lou Colyer, the once great catcher of the Boston Red Sox, who has lost his health, will be given a benefit by the players of the whole country.

Scout Chick Frazer is proving a valuable aid to Clarke. The former star pitcher is looking after the hurling corps, and his advice is being followed.

Go to Church Movement Will Have Wonderful Support In Rural Communities

ADVERTISING in the newspapers, securing the co-operation of the telephone companies, announcements at farmers' granges, unions and clubs are suggested as means to arouse interest in a GO TO CHURCH Sunday for rural workers. The Orange Judd Farmer says editorially:

"THE RURAL CHURCH HAS HAD ITS SHARE OF CRITICISM IN RECENT YEARS. SOME OF THE CRITICISM IS JUST, BUT MUCH OF IT IS SENSATIONAL AND UNJUST. THAT RURAL CHURCHES ARE A VITAL PART OF EVERY RURAL COMMUNITY THERE CAN BE NO QUESTION. WITHOUT THEM COUNTRY LIFE WOULD GO TO RUST AND DESTRUCTION, AND THIS ASIDE FROM RELIGION. TO SAVE COUNTRY LIFE, THEN, WE MUST SAVE THE RURAL CHURCH, AND TO SAVE THE RURAL CHURCH WE, AS INDIVIDUALS, MUST DO OUR PART IN PERSONAL DEVOTION AND ATTENDANCE.

"The problem now before us is this: What can we as farmers do to promote this movement and accelerate the churchgoing custom of olden days? The answer is simple. Go to church ourselves, ask our neighbors to do likewise and ask minister or priest to join in welcoming everybody of the community."

To make a great success of this affair it will be necessary for each and every one to see his pastor, tell him of the plan, get his co-operation and then get generally busy. Let it be known in every church in this broad land—from Pacific to Atlantic, from the lakes to the gulf—that special services will be arranged and an effort made to have every person in the community attend church.

ASK THE LOCAL TELEPHONE OPERATOR TO NOTIFY ALL SUBSCRIBERS OF THE TELEPHONE LINES. BY WORD OF MOUTH, BY ANNOUNCEMENTS FROM THE PULPIT, BY NOTICES IN THE GRANGES, CLUBS AND SCHOOLS LET THE NOTICE GO OUT THAT THERE IS A GO TO CHURCH MOVEMENT THROUGHOUT THE COUNTRYSIDE.

SITE IS CHOSEN FOR FEDERAL BUILDING

SANFORD HOUSE CORNER HAS FINALLY BEEN SELECTED

BUILDING WILL START WHEN DEEDS ARE FILED

IT IS UP TO THE OWNERS TO GET BUSY AND THE GOVERNMENT WILL DO THE REST

The site for the government building has been decided upon and Hon. D. L. Thrasher of the Sanford Hotel Co., in whose name the property was offered to the government has received word from the Treasury Department that the lot has received favorable consideration and as soon as the usual formalities are complied with the lot will pass into the hands of the government. The lot is the property of the Sanford Hotel Company and is the corner of First street and Palmetto avenue and has a frontage of 135 feet on First street and extends north on Palmetto avenue 140 feet making a most excellent location in the business section of the city. The lot was given in at the very low price of \$7,500 which is reasonable for business property located in this fine position.

The papers will be returned to the proper officials at Washington and the deed made at once and as the price of \$7,500 will be paid by the house today it is almost certain that the Federal building at Sanford will soon be an assured fact.

The appropriation for the building at Sanford made at the last session of Congress was the lump sum of \$70,000 for the site and building and the small sum for the site means that \$62,500 will be available for the building, making a figure that will be commensurate with the rapid growth of Sanford, and one that will fill all the needs of the city for many years to come.

PASSENGER TRAIN 82 WRECKED AT RANDS

FREIGHT CARS STANDING ON THE MAIN LINE ALMOST CAUSE OF A TRAGEDY

Passenger train No. 82, due here at 1:15 in the morning was wrecked Monday morning and the very narrow escape of all the passengers from death was probably due to Engineer Rowland who slapped on his air and shut off the engine before he jumped for his life.

In switching cars at Rands' siding one of the switchesman had left four box cars on the main track or they had caught them through the switch in some manner that will probably never be explained. As Engineer Rowland rounded the curve north of the siding his headlights revealed the cars on the main stem and with a prayer on his lips he shut off the train, applied the air brakes and jumped for his life as did his men. Engineer Rowland expected to receive a broken limb or a broken neck as he jumped, but luckily he was only bruised and badly shaken, falling on his side and shoulder and rooting up the mud with the side of his head. The fire also escaped any injury.

Ferryman Denies Report To the Public:

I take this means of correcting a report which was circulated during the week of the Fourth of July to the effect that during the rush of automobiles for the beach at the Fourth and the return of same, that at times there were cars far above the number of fifty waiting at the Monroe Ferry to be carried across the river, and that the service was far from being the service required for the proper handling of the ferry boat, and that cars were turned away from the ferry by those in charge.

All of the above report I declare to be unfounded and not true, and the facts to be that at times there were more cars waiting at the ferry landings than it was possible to carry across at one time, but this was only the case when at certain times the majority of the cars were going or coming from the beach at the same time. And that not a car was turned away from the ferry by those in charge, but every car was put across within a reasonable time, and that an extra force of men were on hand and extra powered motors placed in the launch so as to take care of the rush as far as possible, and that a trip was made on an average of every ten minutes.

We tried to give the very best service possible under the circumstances, and feel that better service could not have been rendered, and refer you to an automobile owner who is used to crossing ferries as to the service rendered at the Monroe ferry. E. STAFFORD, Ferryman Monroe Ferry.

Our meeting was held as usual Sunday evening at 6:45.

Owing to the absence of our president who is attending the Encampment at Lake City the meeting was opened by our vice president, Mr. S. G. Kennedy. The subject was, "How Man Came to Sin." The program was ably rendered by members of Group No. 2, of which Miss Ruby Betts is captain.

Our attendance was not as large as usual, as so many of our members are attending the Encampment at Lake City. We hope to have a full attendance next Sunday, as our absent ones will be back by that time. We extend a cordial invitation to any one to attend our meetings.

HUERTA LEAVING TOTTERING MEXICO

EXPECTS TO TRY AND MAKE HIS GETAWAY THIS AFTERNOON

DON'T KNOW WHERE BUT ON HIS WAY

OTHER NEWS OF THE WORLD AT LARGE BOILED DOWN AND SALTED

Vera Cruz, July 14.—Gen. Huerta intends to resign the provisional presidency and leave Mexico, hoping by this means to save his country from further horrors of civil war and the capital from capture, and perhaps sack. This was the statement made here today by Roberto Esteva-Ruis, Mexican secretary of foreign affairs, who is on his way to Europe. Huerta, he says, will surrender the government to Francisco Carbajal, new minister of foreign affairs, who, in turn, will step aside for a provisional president, acceptable to the constitutionalists.

"The president did not make me his confidant," Esteva-Ruis declared, "nor did I have much time to talk with him after it was determined I should leave the cabinet."

The subsecretary was convinced however, he said, that Huerta would lay down his power this week and it would not surprise him if his resignation were announced tomorrow. Carbajal, he added, was suggested as provisional president by the American delegation at the Niagara Falls mediation conference and agreed to by Huerta's delegates and the South American mediators, while the constitutionalists indirectly had conveyed the idea that he would be acceptable to Carranza.

CURRY WAS REMANDED TO COUNTY JAIL

TO AWAIT THE ACTION OF THE CIRCUIT COURT AT NEXT TERM OR APPLY FOR A WRIT OF HABEAS CORPUS

The trial of W. D. Curry for the killing of W. F. Bryan to determine whether defendant should be admitted to bail occurred before Judge Herring yesterday and the court room was crowded with spectators and friends. The court was called about eleven o'clock and sat continuously until seven in the evening before the judge handed down his opinion and remanded Curry to jail to await the session of the circuit court at the fall meeting.

The case was contested step by step, Curry being represented by Davis & Gilles and Karl Robinson of Orlando and A. K. Powers of this city and the state by Jones & Jones of Orlando, State Attorney Cary Landis and Asst. State Attorney Geo. A. DeCottee of this city. A number of eye witnesses to the affair were examined and though the testimony conflicted in the main the thread of the tragedy could be detected. The attorneys on both sides were keeping back the main facts

Stole March on Papa

Eluding the efforts of her father, John Eason, to prevent her elopement, pretty May Eason, aged 17, succeeded in marrying Robert King at Sanford, Fla., Wednesday afternoon and will probably make her home with her husband in that city.

The father returned home yesterday from Jacksonville where he had gone in his chase across two states after his daughter. He wired his wife, Mrs. Allie Eason, at their home at No. 12 Thirty-third street, east, yesterday morning from Jacksonville, informing her of the marriage and stating he was returning home.

About 3 o'clock Tuesday afternoon the young girl left her work at S. H. Kress and Company's and disappeared with a woman friend. It was thought by the father at the time that she had gone to meet King with whom she had been friendly in the last year.

He immediately communicated with Chief of Police Meldrim who wired the authorities at Jacksonville to arrest and hold the girl.

The father left Savannah Wednesday morning at 8 o'clock just twelve hours behind the daughter. She did not go into the railway station at Jacksonville, but left the train on the outside and immediately started for Sanford, where she had made arrangements to meet King.

When the father arrived in Jacksonville he had the chief of police send a telegram to the chief of police at Sanford describing his daughter and asked that she might be detained. Late Wednesday night he received a return wire from the chief there stating that the daughter had been located, but had been married that afternoon to Robert King.

When he received this message Mr. Eason did not continue the chase after his daughter.

King once resided in Savannah and at that time he met Miss Eason. Since he left here, according to her parents, the daughter had corresponded with King and often made remarks about going to join him. The parents objected to her marriage; but when she succeeded in meeting him despite their efforts to thwart the elopement they both stated they would forgive her.

Both the parents stated last night when they learned that their daughter had left Savannah unexpectedly they surmised that she had gone to marry King and for that reason Mr. Eason had asked the assistance of Chief of Police Meldrim in stopping the intended elopement. Both claimed they were not worried by her disappearance other than that they objected to the marriage and wanted to prevent it.

Mr. Eason stated that he would gladly receive the couple. It is understood that King is now employed at Sanford and had made the arrangements through correspondents for the Eason girl to join him there to be married.—Savannah News.
