

# 5-Year NAS Improvement Program Set

## The Sanford Herald

WEATHER: Cloudy through Tuesday with a few scattered showers. High today, 78-84. Low tonight, 67-60.

VOL. 53 United Press Leased Wire Established 1908 MON., FEB. 5, 1962 SANFORD, FLORIDA NO. 381

### Senate Ready To Vote On College Aid

WASHINGTON (UPI)—The Senate was ready to start voting today on an administration-endorsed college aid bill weighted with political and religious issues.

The measure, far broader than one passed last week by the House, would authorize federal assistance over five years for construction of college classrooms, grants to community junior colleges and scholarships for needy and talented American youths.

Critics of the \$2.6 billion aid bill have introduced a number of controversial amendments. Supporters have called on the Senate to reject any "crippling amendments."

Sen. Wayne Morse, D-Ore., floor manager for the bill, said in an interview after the opening round of debate Friday that he doubted if a final vote would come before Tuesday.

The religious issue was injected by Sen. Sam J. Ervin, D-N.C.

Ervin sponsored an amendment to require that the \$1.5 billion earmarked for building classrooms and laboratories be limited to public colleges and universities. Under the bill, private and church schools would be eligible for low-interest rate construction loans.

### FTA Students Turn Teachers

Seminole High School boys and girls who are members of the two chapters of the Future Teachers Assn. began their week as teacher's aides in classrooms of grades one through eight.

After preliminary workouts with the classroom teachers today, many of the student-teachers will take over the entire course for the rest of the week, preparing classwork and tests, grading papers and making lesson plans under the instructor's supervision.

The practice week was started only two years ago and has met the approval of students, student-teachers and teachers.

"This week of actual experience in teaching is undertaken for the purpose of giving the high school students who feel that they might like to make a career of teaching, a foretaste of the advantages and disadvantages, the rewards and difficulties of the profession," said Mrs. Mary Joyce Bateman, FTA club sponsor.

"In many cases in the past, the experience has 'firmed up' a student's determination to go ahead with a teaching career," she added.

### Danny Thomas' Dream Realized

MEMPHIS (UPI)—A star-shaped hospital dedicated to finding a cure for leukemia and other children's diseases opened here Sunday to make a "crazy dream" come true for comic Danny Thomas.

"This is the greatest day of my life," Thomas told 9,000 people who turned out for dedication of St. Jude Hospital. "If I were to die this minute, I would know why I was born."

The opening of the \$33 million research hospital marked the fulfillment of Thomas' 35-year-old vow to St. Jude Thaddeus, patron saint of the lost and helpless.

CIRCUIT COURT CLERK Arthur Beckwith Jr., with an assist from some of the girls in the clerk's office, places some of the courthouse record books in the new shelving in the vault of the courthouse. The new shelves will be utilized to make more records accessible to the citizens. Beckwith said. Left to right, Joan Wilke, Ellen Tyre, Jean Wilke and John Brooks. (Herald Photo)

### Cuba Goes Before UN; Castro Assails U.S.

UNITED NATIONS, N. Y. (UPI)—Cuba, hoping for African and Asian support to add to its Communist backing, took its battle against the United States before the United Nations today.

Still smarting from censure by the Organization of American States (OAS), Premier Fidel Castro's "Marxist-Leninist" government was expected to open all stops in pressing its charges of "imperialist" aggression by the United States.

Czechoslovakia and Romania submitted in advance to the debate in the General Assembly's Main Political Committee a draft resolution calling on the United States to end its "interference" in Cuba's internal affairs and settle its dispute with Castro's government amicably.

Carrying its implication of U. S. guilt, the Communist resolution appeared sure of defeat. The debate is expected to consume at least a week.

### Tampa Accepts Tobacco Order

TAMPA (UPI)—Cigar makers in the Tampa area, cut off from their supply of Cuban leaf by Presidential order, have taken the move "with gallantry."

Raymond Alvarez, secretary of the Chamber of Commerce in Ybor City, center of the cigar industry, said, "It may cause many Ybor City residents to lose their jobs and suffer economic damage, but it also makes us front line troops in the battle to preserve our way of life."

James J. Corral, president of the Tampa Cigar Manufacturers Association, said local cigar makers had from six to 11 months supply of Cuban leaf, with most having a supply that would last eight to nine months.

About 6,000 persons are employed in the cigar making industry here.

### Service Station Looted Of \$25

The Texaco station on French and 13th St. was broken into sometime Saturday night. The cigarette machine was broken and some \$25 taken.

Entry was gained by breaking a window on the side of building.

### Bulletin

TALLAHASSEE (UPI)—Gov. Farris Bryant today announced appointment of John P. Nelson, 37, as "trouble shooter" to help ease the impact of problems of rapid growth in six counties surrounding the nation's missile test center at Cape Canaveral.

### U. S. Pledges To Continue Aid To Congo

WASHINGTON (UPI)—Congressional Premier Cyrille Adoula arrived here today for talks with President Kennedy and immediately received a pledge of continued U. S. assistance.

"We shall endeavor to continue the assistance we have provided to you in the past," Undersecretary of State George W. Ball told Adoula at airport welcoming ceremonies.

Adoula was to lunch with Kennedy at the White House and follow this up with a conference.

Ball said the United States regards a peaceful, independent Congo "of greatest importance to the whole world." He praised Adoula's efforts to bring about stability in the new African nation.

### Thieves Loot Sanford School

Thieves who broke into the Pineroot School over the weekend wreaked havoc with the exhibits of the sixth grade children of James Motheral's class, stealing a large number of models, a microscope, a coin collection, hot rod magazines, Boy Scout equipment, money and many other objects belonging to the students.

Police investigation after the break-in was discovered when school opened today disclosed that the thieves had picked the lock on Motheral's room and also on Mrs. Kathleen Lee's room where 13 or 20 more models were taken.

It was apparent, Motheral said, that the thief or thieves passed the objects out the window to an accomplice.

### Bomber Stream Contest Tuesday

The Hatwing One Bomber Stream Competition for this month will be held on Tuesday. Competing this month will be Heavy Attack Squadrons One, Three, and Eleven. There will be four crews from each squadron, and each crew will fly three RBH runs.

The Bomber Stream Bomber Flag will be presented to the squadron finishing with the greatest number of points.

### U. S. Bans Flights

THE HAGUE (UPI)—The U. S. government has banned charter flights carrying Dutch troops to West New Guinea from landing on U. S. territory, a Foreign Ministry spokesman said today.

### Master Shore Station Plan To Be Set Up

The Sanford Naval Air Station will be placed on a master shore station development plan in the near future with a five-year improvement program scheduled, The Herald learned today.

The Armed Forces Committee of the Chamber of Commerce received a letter from Admiral Robert Pirie's office in Washington discussing the program which will include facilities and building replacement on a permanent basis.

Chamber Manager John Krider will leave for Washington later in the week to meet with high Naval officials in the Pentagon to discuss the planned improvements.

No other details of the program were made public at this time.

Pirie is deputy chief of naval operations.

SEMINOLE COUNTY'S newest member of the Florida Highway Patrol is Jim Chambliss, Chambliss, formerly of Delray Beach will replace Jim Foster who was transferred to Ft. Walton Beach. Chambliss resides with his wife and three girls at 81 N. Third St., North Orlando.

### Glenn, Kennedy In Conference At White House

WASHINGTON (UPI)—Lt. Col. John Glenn, America's astronaut scheduled for the first U. S. manned orbital flight later this month, had a friendly chat with President Kennedy today. They compared notes on the activities of newsmen and photographers.

Glenn, who is spending some time with his family in Virginia before returning to Cape Canaveral, was waiting at the White House when the President flew back from Middleburg, Va., by helicopter.

They talked privately in the President's office for a short time, then photographers and a few reporters were admitted.

The President, surveying the battery of cameramen, observed that the experience must be a familiar one to the astronaut.

"I don't mind but I think our emphasis is on the wrong point sometimes," the Marine officer said. "There is a great deal of personal publicity but not enough emphasis on the scientific aspects of Mercury."

### Convict Escapes; Is Recaptured

A convict from the Oviedo prison camp escaped from a work gang at the Lake Monroe Bridge Friday and was apprehended Sunday in the woods of Paola, the sheriff's office reported.

The convict was identified as A. D. Granville.

Deputies said the convict was spotted near a home in the area and the information reported to the sheriff's office.

### Plant For Miami

MIAMI (UPI)—Aeroflot General Corp. will begin construction of a new plant in South Dade County within 60 days, Corporation President Dan A. Kimball said here Sunday.

### Car Kills Girl; 5 Others Injured

A 17-month old Sanford girl was killed and five persons were hospitalized in two separate accidents within a 12 hour period Friday night and Saturday, police reported.

The girl was identified as Cheryl Ann Baxley, 128 Country Club Rd.

Police said the youngster apparently darted in front of a car driven by Thomas M. Andes of 1002 1/2 French Ave.

Andes told police he didn't see the girl when she ran in front of the vehicle. She died at Seminole Memorial Hospital shortly after the accident. No charges were placed against Andes.

A dense fog and fire was blamed for a six-car pile-up early Saturday morning at French Ave. and 24th St.

Injured in the smash up, with cuts and bruises, were Thomas G. Russell and James Sutherland, both marines stationed at Camp Lejeune, N. C.; Larry Nichols, VAIL-11 at the Naval Air Station; Paul Vachon, Orlando and Wilber Smith, Sanford. No charges were filed against any of the drivers.

City Manager W. E. Knowles reported that five youngsters started a fire in a muck bed, four blocks west of the accident which caused heavy smoke. This and the fog was laid to the cause of the mishap.

Knowles said city crews worked through the weekend to stop the smouldering blaze which lingered through Sunday night.

Funeral services for the Baxley youngster were scheduled to be held at 2:30 p.m. today at Trison Funeral Home with the Rev. Gail Smith of the Central Baptist Church officiating. Burial was to take place in Oaklawn Memorial Park.

Survivors, other than her parents, are four sisters, Karen, Debbie, Mary and Ter-

### Funerals For 2 Aerialists Held

DETROIT (UPI)—The people who make others happy cried Sunday.

These were the circus folk who stood by helplessly last Tuesday when two members of the Great Wallenda high wire aerialist troupe fell to their deaths during a performance.

Services for the young men, Richard Faughnan, 29, and Dieter Schopp, 23, were held in a funeral home here. The bodies were sent to the Wallenda home in Sarasota, Fla.

MOTHERS MARCHERS counting receipts at the Herald Office Friday night were busy adding up the totals after area captains brought in the donations obtained from the community by the mothers who went from door to door. From left are Mrs. R. S. Hillimer, a captain, Mrs. Richard S. Mipes, Chairman, Mrs. Nancy Foster, helper and Mrs. B. B. Carruthers, an area captain. Members of the DOES spearheaded the drive this year. (Herald Photo)

# Steelworkers Map Strategy

PITTSBURGH (UPI)—The United Steelworkers opened three days of meetings here today to map strategy for impending negotiations with the steel industry.

Members of the USW's executive committee and the wage policy committee gathered at the Penn-Sheraton Hotel, within the shadow of the headquarters of U. S. Steel Corp., the world's largest producer.

Labor Secretary Arthur Goldberg, who ruled the union through previous contract battles as its chief counsel, said Sunday night in Washington that a walk-out this year would harm the economy "very

substantially."

"We just simply cannot afford to have a steel strike this year," he said. Goldberg added that chances for agreement were "better than" 50-50.

The present contract, signed after a record 116-day strike in 1959, expires June 30. President Kennedy has asked both sides to aim for a new contract before the expiration date.

The 32-hour work week, which USW president David J. McDonald has said must be part of any new contract, is expected to be among the issues.

McDonald said the reduced week, with no cut in pay, is

necessary to regain employment for the approximately 100,000 steel workers made jobless by automation.

His position has been attacked by top industry officials. Avery C. Adams, board chairman and president of Jones & Laughlin Steel Corp., said the plan can lead to "economic oblivion." He said the industry might favor a strike rather than agree to "an inflationary settlement."

Final decision on what points will be carried to collective bargaining rested with the 170-member wage policy committee, the union's final authority. It will meet Wednesday

to consider recommendations of the executive committee.

There have been six strikes since 1946. The longest and most costly was the 1959 walk-out, which was settled Jan. 4, 1960, after the Taft-Hartley law was invoked. The shortest began at midnight, June 30, 1955, and ended 12 hours later.

FR. RICHARD LYONS of All Souls Catholic Church turns over the first spade of dirt at groundbreaking ceremonies for the Church of The Nativity at Lake Mary. At left is Fr. O'Carroll of Bishop Moore High School and Fr. William Trainor, pastor of the new church. The church is located on SR 427. Over 200 persons attended the ceremonies.

## Mrs. Schirard Funeral Held

Mrs. Mildred Henderson Schirard, wife of John R. Schirard Jr., died late Saturday night in an Orlando hospital following a short illness.

The daughter of Mrs. Maude Duke Henderson of Williamsburg, Va., and the late Dr. Brantley Henderson, she was born in Boykins, Va. She had lived in Sanford for the past 23 years making her home on Crystal Dr. in Loch Arber. An active participant in Sanford civic and social organizations, she was a former president of the Sanford P.T.A., a member of the Sanford Women's Golf Assn., a member of the Sanford Art Assn., of the Garden Club and of the Pink Ladies Auxiliary of Seminole Memorial Hospital.

Survivors, other than her husband and mother, are three sons, Jack Schirard of Sanford; Bramley Schirard of Ft. Pierce and Duke Schirard, stationed in Berlin, Germany, with the U. S. Army; sisters, Mrs. Ruth H. Gallagher of Sanford and Williamsburg, Mrs. Rosalind H. Westgate and Mrs. Hope H. Allard of Williamsburg and Mrs. Thomas G. Little of Atlanta; brothers, Brantley Henderson Jr. of Williamsburg and Horace F. Henderson of McLean, Va., and a niece, Mrs. Harry Lee Jr. of Sanford.

Funeral services were held at 10 a. m. today at All Souls Catholic Church with Rev. Richard Lyons officiating. Burial was in Oaklawn Memorial Park.

Active pallbearers were W. A. Patrick, J. Dan Wright, R. J. Patrick, Wally Dietrichs, John Edward Higgins, and Glenn Lingle Sr. Honorary pallbearers were Thomas G. Little of Atlanta, Thomas J. Gallagher of Williamsburg, Dr. John Morgan, Dr. Robert Rosemond, Jack Hall, W. B. Williams, Byron Smith, Fred R. Wilson, F.E. Rountzler Sr., Louis Leinhardt, George A. Speer Jr. and Andrew Carraway.

## 2 Sanford Men Are Graduated

Among the 46 persons who received degrees at informal graduation exercises Thursday night at Stetson University in DeLand were two from Sanford.

They are Guy R. Strickland and James Hugh Hardin Jr. Hardin is at present teaching general science at Seminole High School. He is a cum laude graduate of the University of Florida, having received his A. B. degree there in 1947. He received a B. D. degree from Presbyterian Seminary, Austin, Tex., in 1950 and a B. S. degree from the College of the Ozarks in 1954.

Strickland, who was graduated cum laude, was a magna cum laude graduate from Orlando Junior College. He plans to take advanced study in history at Stetson. Strickland is a retired commander of the U. S. Navy.

# Fronzizi Speech Criticizing The OAS Action On Cuba Causes 'Little Stir'

BUENOS AIRES (UPI)—Argentine military leaders were expected to meet today to discuss President Arturo Fronzizi's weekend speech defending the "soft" stand on Cuba his government repudiated last week.

The generals and the admirals were not expected to take any action against Fronzizi, provided he lives up to a reported secret agreement to break relations with Cuba without undue delay.

Ambassador to Havana Julio C. Amoia has been called home, and it is expected his recall will be announced formally soon after his arrival Tuesday. Observers estimated it would take another 20 to 30 days to handle technical details of a complete diplomatic

break with the Castro regime. Argentine military chiefs were aroused by this country's refusal to participate in the decision to exclude the Castro government from the inter-American system voted last week by New World foreign ministers at their meeting in Punta Del Este, Uruguay.

The government announced Friday night it would support the foreign ministers' decision, but Fronzizi defended the soft line in a speech in Parana Saturday.

Observers here regarded the president's apparent about-face as a political maneuver designed to help his party's candidates in the March 18 congressional election.

The line he took—that Argentina "refused to knuckle

## Tourist Club Meets Tuesday

The regular meeting of the Sanford Tourist and Shuttleboard Club will be held Tuesday at 7 p.m. This will be preceded by the covered, dish supper at 6 p.m.

All members of the club and their guests and visitors in the Sanford area are invited to be present.

Avoid that which an enemy tells you to do; for if you follow his advice, you will smite your knees with the hand of sorrow. If he shows you a road straight as an arrow, turn from it and go the other way. —Moshih Eddin Saadi.

LTJG. F. H. Galloney was recently promoted to the rank of Lieutenant. Galloney is attached to Heavy Attack Squadron Seven where he is the Planning Officer.

## Legal Notice

Arthur H. Beckwith, Jr., Clerk of the Circuit Court, By Martha T. Viblen, Deputy Clerk. Publish Feb. 5, 12, 19, 26, 1962.

## Vandals Fail To Halt Progress In Village Recreation Centers

By Mona Grinstead

North Orlando's recreation area, swailed by the village for the past two years, is daily nearing completion in spite of almost as rapid destruction by some of its users.

Officials of the North Orlando City report that the children have ruined several boxes of hay used for archery tar-

gets; that they climb the target and basketball standards and the wire backing for the tennis court; that they climb on the shuffleboard shelters and have removed benches placed at these courts taking them to the nearby wooded area. Slides and other movable equipment have often been turned over taking them out of use for the younger children.

## Legal Notice

NOTICE IS HEREBY GIVEN that The Housing Authority of the County of Seminole, Florida, will entertain proposals to furnish Public Liability Insurance, with limits of \$4,000 thousand dollars. Policy is to be written for a term of three years covering the 29-unit housing Project No. 12-1, Butler Boston Court, located in Oviedo, Florida.

This offer of proposals will be received in the office of the Authority up until 2:00 P. M. on February 12, 1962.

Further information with regard to the plans and specifications of said project and forms on which said proposals must be submitted may be obtained by contacting Gordon L. Bradley, Executive Director, The Housing Authority of the County of Seminole, Florida, Administration Building, Castle Brewer Court, Sanford, Florida.

Gordon L. Bradley, Executive Director. The Housing Authority of the County of Seminole, Florida. Publish Jan. 23 & Feb. 3, 1962.

# Critical Planetary Period Passes Without Tragedy

BENARES, India (UPI)—Mother Earth spun merrily through the universe today—unflipped, unshattered and still on course—despite a rare celestial display that had terrified millions of its people.

## Perfect View Of Eclipse Seen By Scientists

LAE, Australia, New Guinea (UPI)—The moon slid directly between the earth and the sun today, darkening an 8,000-mile slice of earth with its shadow and giving astronomers a rare, perfect view of a total eclipse.

U. S. Japanese and Australian astronomers trained nearly \$1 million worth of equipment on the phenomenon at this beach, famed for a World War II Allied landing, and were delighted with their observations.

For 2 minutes and 45 seconds day turned to night as dark that editor Jim Huxley of the New Guinea Times could not see the numbers on his camera.

Dogs barked, roosters crowed and Papuan natives throughout the area disappeared in their homes and huts or under crude grass shelters.

As the world turned dark, the sun's corona, or outer shell of gas, burst into "sw. yellow and nearly white, broken by three tongue-like jets of incandescent hydrogen gas called "prominences."

Dr. Richard Dunn of Sacramento Peak Observatory, New Mexico, described the eclipse as "magnificent."

"It was 100 per cent perfect," he said. Making this eclipse even more extraordinary was the fact that the five planets that can be seen with the naked eye from earth—Mars, Mercury, Venus, Jupiter and Saturn—were lined up with the sun and the moon, giving the scientists a remarkable view.

This extraordinary lineup—the first during a total eclipse in nearly 1,000 years—had caused astrologers the world over to predict a weekend of disaster.

At 3 a. m., it was raining at Lae and astronomers were fearful their view would be blocked. But about 7:40 a. m., cracks appeared in the cloud cover and at 8:50 Sunday—when the eclipse started—the skies were clear and the scientists were jubilant.

"Early in the morning we had very little hope of even seeing a thing with such clouds about, but in the long run it could not have been possible to see a better eclipse anywhere in the world," Dr. Dunn said.

The eclipse was total from Borneo and over an 8,000-mile stretch eastward to a point in the Pacific about 1,000 miles west of Mexico.

Darkness fell over such land areas as Celebes, Ceram, New Guinea, the Solomons and Palmyra Island.

A total eclipse and an extraordinary lineup of five planets—Mercury, Mars, Jupiter, Saturn and Venus—with the earth, moon and sun delighted astronomers but confounded astrologers.

The men of science witnessed a remarkable heavenly spectacle from their observation point in New Guinea.

The astrologers witnessed the collapse of their predictions of dire calamity which had set off the worst wave of superstition since Haley's Comet in 1910.

Half a million Hindu pilgrims bathed Sunday in the chilly waters of the sacred River Ganges in a gesture for their survival.

Hundreds of thousands of Hindu pilgrims flocked to Benares as the time approached for the conjunction of the eight heavenly bodies in the Zodiac sign of Capricorn.

According to Indian astrologers, the time of greatest danger ended this afternoon although some danger will continue all week. They had predicted earthquakes, floods, droughts—almost the whole range of natural disasters.

High priests conducted yagnas—or non-stop prayer sessions—in New Delhi but at least one yagna packed up its sacred fire and scented leaves Sunday morning and decided

the job was finished. The wave of fear was not confined to the Orient.

Twenty-two members of a California religious cult took to the hills around Clearwater, Ariz., last August to prepare for doomsday, believing Clearwater would be one of the 12 places on earth spared from plagues, tidal waves and World War III.

In England, members of the Aetherius Society climbed to the top of a 2,636-foot mountain near Coniston to "send off spiritual powers" to ward off calamity.

In New York City, the Hayden Planetarium reported it had been flooded with thousands of calls from people worried that the end of the world was at hand.

In New Guinea, natives had built small grass huts to crawl into during the period of total eclipse.

SALVATION ARMY ADVISORY BOARD met Friday for the annual reports and installation of new officers. From left, seated, are the new officers, Mrs. Ralph Austin Smith, secretary, Ted Williams, vice chairman, Gordon Bradley, president and Ralph Austin Smith, treasurer. Standing are Capt. and Mrs. Richard Clark, head of the local Army offices, Col. Stout of Jacksonville, chairman of the board, E. D. Kirchhoff, retiring president and Lt. Commissioner Albert Chesham, former territorial commander and speaker of the evening. (Herald Photo)

NEW MEMBERS of the Salvation Army Advisory Board are welcomed by Captain Richard Clark at the annual board dinner meeting Friday. At left, Captain Clark gives the right hand of welcome to Mrs. W. H. Stemper and Rev. James Barnett. (Herald Photo)

## Salvation Army Is Termed Community Insurance Policy

"The Salvation Army is a community insurance policy," Lt. Commissioner Albert Chesham, former territorial commander of the Salvation Army told members of the advisory board, Friday.

"It is an insurance policy against crime, communism, despair and frustration." "We are the hope of the hopeless and the friend of the friendless," the Commissioner said. "People have faith in the Salvation Army."

They serve in 90 countries of the world, Chesham told the group, and the organization was begun 55 years ago in this country. The original founder was William Booth, who believed in religious social work to save both the soul and the body.

MARCHING FOR THE MARCH of Dimes are these oddly dressed girls and boys part of a large group from three service clubs at Seminole High, as they paraded the streets of Sanford, Saturday, shouting one, two, three, four, five. Reports show the walk-a-thon was very successful and the kids are to be commended for their humanitarian service.

From left, in front are Mary Helene Washburn, president of the Anchor Club, Betty Brandt; Ann Schumacher, president of the Tri-Hi-Y and Steve Sewell. Back row co-eds are Rheda Epstein, Susie Halback, Eddie Hamilton and Pam Jones. (Herald Photo)

WITH ... Dottie Higginbotham

MRS. SARA PRIEST

THE DAUGHTER of a local couple, Mr. and Mrs. Carl H. Harris, of 1115 Myrtle Ave. in Sanford has taken another step up in the world, in her chosen line of work.

Mrs. Sara H. Priest, who lives in Arlington, Va., has been with the U.S. Public Health Service for 15 years, starting out as a visual aids specialist, then going on to publications writer and later as an analyst in the Program Development Branch of the USPHS in Washington, D. C.

Mrs. Priest holds an A.B. degree from Marshall College in Huntington, W. Va., and a Master of Public Health degree from Columbia University.

She has now been named a Training Officer with the Pan American Sanitary Bureau, Regional office of the World Health Organization.

FAYE GARNER

**SORORITY NEWS** . . . Miss Faye Garner of Sanford, a student at Mercer University in Macon, Ga. has been named historian of her Alpha Iota Chapter of Phi Mu sorority.

The chapter's new officers were announced recently at the sorority's annual winter formal, which set off a series of social activities for what is known as Phi Mu weekend at Mercer.

**NEWEST PAINTINGS** to hang in the Florida State Bank are the work of Mrs. Gretchen Lewis Crowell (she doesn't use the last name on her official painting signature.)

All of Mrs. Crowell's work is vibrant with deep rich color and carefully executed with painstaking and delicate detail.

The pictures she now has hanging were very impressive to your reporter, who curls up inside in a perfect agony of jealousy when viewing the work of our talented local artists. (How I wish I could express myself this way! But have to try to learn to be content to paint word pictures for you on this typewriter.)

However, the painting of Gretchen's that brought a special glow of warmth and a sigh of possessiveness was the one of the beautiful yellow roses, gracefully arranged in an exquisite copper pedestal bowl, against a blue background, entitled "Moonlight and Roses."

For sheer beauty of simplicity and depth of meaning and reverence though, the painting entitled "Eternal Supreme," (which hangs over near Patty Gatchel's desk) is unequalled.

This is a simple picture, full of meaning. A combination of pure, holy white against rich wine-red dubonet. An arrangement of lovely white calla-lilies, which

symbolize crucifixion, and a white marble statue of the Madonna and Child, against the sacrificial wine color of the background.

The result is an expression of deep feeling, and seems to portray the beauty and meaning of sacrifice.

In the Loan Dept. side of the bank hangs, "An Old Country Attic." This is an authentic picture, portraying some of the contents of a real attic at Indian Trail, N. C., which include a spinning wheel, a churn, books, old flat irons, a coffee mill, a kerosene lamp, an old ornate clock, a flintlock gun and powder horn, an old brass-bound round top chest and many other objects.

(Patty Gatchel says every time she looks at it she sees another object that she missed before.)

Gretchen has caught the dusty look of the attic, the dry, cobwebby feeling, pale rays of sun creeping through the dusty window panes. Here again, the concentration of attention to detail, the creation of atmosphere, that insures a more than casual glance from every viewer.

One you may not see, because the bank has it in its bright pink petunias their dining lounge is a past-growth in an old black iron kettle. This kettle is 100 years old, Gretchen says, in her notes on the paintings.

Back near the safe deposit section is a scene called "Approaching Storm," depicting the churning fury of waves crashing on seacoast rocks. Mrs. Crowell says she painted this one from memory and it took her a long time.

An interesting note is that it is possible to buy any of these paintings and they would certainly be an addition to any home—or office, either for that matter.

**AND SPEAKING OF ART**—Beth, (Mrs. J. O.) Gregory now has her work on display at Senkaris Paint and Glass Store. No inspection has been made from this department yet, but an inspection and a description will be coming up soon. Meanwhile, drop by and see for yourself.

**AND STILL, SPEAKING OF ART** . . . the members of the Sanford Art Assn. are planning an Art Show on Feb. 18th at the Civic Center. That's on a Sunday.

And what an ideal time to take a tour through an Art Show, when you can take your time, look at each picture as long as you like, even go back more than once to the ones that appeal to you the most.

Not all the talented people in Sanford are members of the Art Association and it's a shame, for there are folks around here who possess a remarkable talent for drawing, painting and sketching. They hide their light under a bushel, and only their family and a few close friends have ever seen the beautiful things they have created.

**New Arrivals**

Mr. and Mrs. Jack Wilber, 2621 French Ave., announcing the birth of a 5 lb. 12 oz. son born Jan. 23 at the Seminole Memorial Hospital.

They have chosen the name J. Thomas for the new arrival. They have two other boys (twins) and a girl.

Maternal grandparents are Mr. and Mrs. T. C. McMillan of Norfolk, Va., and paternal grandparents are Dr. and Mrs. H. R. Wilber of DeLand.

Mrs. McMillan left for her home in Norfolk Sunday after spending the past two weeks with the family. She came down to welcome the new baby and help care for the small fry.

## Circles Plan Joint Meeting Tonight

The Ethel Root Circle and the Friendship League of the Congregational Christian Church will hold their joint quarterly session today at the church.

The meeting will start at 7:45 p. m. and the Ethel Root Circle will be hostess for the evening with Mrs. William Bailey and Mrs. James Debenbaugh in charge of arrangements.

## WCS Plans Mission Study And Luncheon

The Woman's Society of Christian Service of the First Methodist Church will meet Tuesday, in McKinley Hall, for the monthly business and program session.

The executive board meets at 9 a. m. followed by the business and program at 9:45 a. m.

During the program hour the first in a series of studies on the Christian Mission in Latin America will be presented.

A covered dish luncheon will be served at noon, preceded by special recognition of new members present.

## Mrs. Landon Visits In North Orlando

Mayor and Mrs. Frank Fasula, of North Orlando, recently enjoyed a two week visit with Mrs. Landon's mother, Mrs. Mitchell Landon, Mrs. Landon, who lives in Conshohocken, Pa., came to Florida by train for the visit with the Fasulas. While here she also visited another daughter, Mrs. Dolores Hellings and children, at Coronado Beach.

The two daughters took their mother on several sight-seeing trips, including Silver Springs, Lake Eola, the beaches and of course a tour of North Orlando.

Mrs. Landon enjoyed the trip so much she plans a return visit in the near future.

## Stimson-Cobb Wedding Planned

The engagement and approaching marriage of Miss Dee Ann Stimson and Raymond Russell Cobb has been announced.

Miss Stimson is the daughter of Mrs. Ada L. Stimson of Ashtabula, Ohio, and Amos N. Stimson of North Kingsville, Ohio.

The bride-elect is a graduate of the Ashtabula High School and of Kent State University in Kent, Ohio. She formerly taught school in Clearwater and at present is employed at Harvey High School in Paintsville, Ohio.

Mr. Cobb is the son of Mr. and Mrs. Theo Cobb of Sanford. He is a graduate of Seminole High School and has attended the University of Florida in Gainesville. He is presently employed at the Minneapolis-Honeywell Co. in St. Petersburg.

The wedding is planned for June 20 at the Harris Memorial Presbyterian Church in Ashtabula, Ohio. The couple will make their home in Clearwater.

## Capt. Cordell Awarded Degree By University

Terry D. Cordell, son of Mr. and Mrs. J. D. Cordell, 2435 Elm Ave., Sanford, has been awarded the degree, Master of Business Administration, by the Graduate School of Business, Louisiana State University.

The degree was awarded on the basis of the candidate's successful completion of course requirements and a comprehensive examination in the fields of accounting, finance, management, economics and marketing.

Terry is a Captain in the U. S. Army Transportation Corp. He received his undergraduate degree from the Citadel.

Capt. Cordell is married to the former Susan Wallace, of Anniston, Ala. and has been assigned to the First Special Forces Group (Airborne), in Okinawa.

**Southern Bell**  
— Growing with the Future

Dear Abby: By Abigail Van Buren

DEAR ABBY: I wear a size 12 dress, have silver blonde hair and people don't believe me when I tell them I am 61 years old. I have had five husbands, but don't jump at any conclusions. I was divorced only once and had four husbands die on me. The man who was my problem at the moment is a 50-year-old bachelor. He is well-to-do, refined and hard to get. He can never get away to see me until after his mother has gone to bed, which is about 8:30 p. m. She has him under her thumb, but good. Oh, brother, talk about a mamma's boy! How do I land this one? "THE DUCHESS"

DEAR "DUCHESS": If I told you, you'd only hate me. If you think you'd be happy married to a 50-year-old man who can't leave his mother until she's sleeping, think again. Enjoy your blessed singleness.

DEAR ABBY: I have always been able to make my own decisions, but this time I would like some help. How old should a girl be when her dolls are put away? My twelve-year-old daughter raised a terrible fuss because, when she was at school, I rearranged her bedroom and put all her dolls away. I think it helps a girl to grow up to take away all the childish toys of her babyhood. (She has had some of those dolls since she was 4.) I have had several of my friends tell me I am wrong. I would like your opinion.

DEAR GOOD: Your friends are right. Your daughter's dolls should not have been put away until she herself initiated it. Older girls do not actually "play" with dolls, they just like to keep them around for ornamental—and sentimental—reasons.

DEAR ABBY: My problem concerns my mother-in-law by a previous marriage, my first husband being deceased. She has become "Chief Sitting Bull" in my house. She pops in on me before noon—with no notice—and she sits here until 8 or 9 o'clock at night. It seems she always comes when I have something else planned. Not wanting to offend her, I quietly cancel my plans and attempt to entertain her. She doesn't have many friends, and goes practically nowhere, so she is not very good company. How can I get her to let me know in advance when she's coming? Her visits are becoming more frequent. SITTING BULL'S VICTIM

DEAR ABBY: I have always been able to make my own decisions, but this time I would like some help. How old should a girl be when her dolls are put away? My twelve-year-old daughter raised a terrible fuss because, when she was at school, I rearranged her bedroom and put all her dolls away. MISTER ED CINDERELLA HORSE

Mr. Ed, the talking horse, is a real Cinderella among TV series. Starting as a lowly syndicated series, with weak response at first, it gained fans so lustily that it was promoted to network status. Alan Young plays the owner, with Connie Hines as his wife.

Highlights TV Time Previews

8-8:30 p. m. (CBS) Pete and Gladys. This familiar staple plot is what is known in the trade as a sure-fire laugh getter—and laugh it surely gets as Gladys agrees to substitute for a temperamental French dancing star and gets more than she bargained for when she is also obliged to do the star's act. Our knockie Gladys, Cara Williams, of course, plays both roles and not only effects a convincing French accent, but gets good laughs with her knockabout dance antics.

TV Time Previews

8:30-9:30 p. m. (NBC) Bell Science Series, "About Time." (Color) As fascinating as it is informative, this documentary not only unfolds the history of clocks and other timepieces, but goes into complete explanation of time measurement, as required by scientists, to billions of a second. Narrator Dr. Frank Baxter also comes as close as anyone can to explaining Einstein's theory of relativity. Too, this will also give you a new respect for calendars. Animated cartoons simplify what otherwise would be potentially heavy stuff to absorb. Highly recommended.

TV Time Previews

8:30-9:30 p. m. (ABC) The Rifleman, "A Young Man's Fancy." Johnny Crawford takes the lion's share of tonight's telecast when the stockbroker's niece comes to town and smites young John a mighty blow with a kiss. Unfortunately, the young lady teaches John the misery as well as the ecstasy of young love by showing a greater interest in another young man. Crawford also gets a chance to make his singing debut tonight. Cheryl Holdridge and Dick Evans goldstar with regular Chuck Connors.

TV Time Previews

The Battery is a 21-acre park at the extreme southern tip of Manhattan Island in New York City.

We The Women: By Ruth Millet

"In St. Louis 100 retired men have formed Experience, Inc., whose members not only offer business aid to firms that need it but have volunteered to the mayor for appointment to civic committees and have offered to serve on grand juries." That little item ought to give women an idea.

## Missile Detection Hit By False Threats

WASHINGTON (UPI) — False warnings from America's giant missile detection radar in Greenland were numerous over a period of five months, it was indicated today.

The Defense Department said in an annual report to the White House that "the majority of false reports which first plagued it were eliminated by February, 1961."

## Congress Set To Vote On Aid To College Bills

WASHINGTON (UPI) — The Senate was scheduled to begin voting today on a series of controversial amendments to the college aid bill supported by President Kennedy.

Sen. Wayne Morse, D-Ore., floor manager for the bill, said he would vote against two of the measures. One is a proposal to limit construction aid to public colleges and universities. The other would expand the college aid bill to include \$325 million over two years to assist states in building public grade and high schools.

Supporters of the \$2.6 billion bill have argued that such amendments would cripple the bill and cause its defeat.

The measure, far broader than the one passed last week by the House, would authorize federal assistance over five years for construction of college classrooms, grants to community junior colleges and scholarships for needy and talented American youths.

Under the bill, private and parochial schools would be eligible for low-interest construction loans.

Morse has said he doubts if a final vote on the bill would come before Tuesday.

Other congressional news: Trade — A special House committee planned to ask Secretary of State Dean Rusk about the \$122 million worth of goods American businessmen shipped behind the Iron Curtain in the last 30 months under government export licenses. The export control committee was also expected to ask Rusk to explain why an international system has not been set up to halt the flow of strategic goods to Cuba from the free world.

## Business Briefs

Mrs. Betty Cass, agent for Nationwide Insurance Co. in South Seminole County, has moved her office from 818 436 to the Heim-Zibell Bldg. in the Cassberry Shopping area.

## St. Anne Circle Sets Meeting

The monthly meeting of St. Anne Circle will take place at the home of Mrs. Lloyd Resler, 121 Lake Dot Dr., Wednesday at 8 p.m.

The business agenda calls for an election of officers and further plans for the purchase of furnishings for the new Church of the Nativity.

St. Anne's is an open circle and all ladies living in the Pinecrest, Park Ridge and Sunland areas of the parish are invited to attend.

## Geneva Youth Joins Navy

Tommy McClain, son of Mr. and Mrs. J. T. McClain of Geneva, left Jan. 29 for an overnight stay at the Jacksonville Navy Receiving Center before leaving on Jan. 30 for Great Lakes Naval Training Base.

Tommy, a junior at Seminole High, was a member of the Glee Club and the Latin Club among other activities. He was pianist for The Crusaders Quartet, local gospel singers' group composed of Dale Duncan, Charles Rabun, Doug Stenstrom and Powell Austin, and also was pianist for the

Geneva Baptist Church Choir. In his spare time, he worked for Army-Navy Surplus in Sanford for the past three years.

In earlier years Tommy was an active Boy Scout and remains keenly interested in the scouting program. He expects, too, to continue his education while in the service where he will train as a hospital corpsman. In this field he will learn to administer medicines, apply first aid, perform minor surgery, assist in the operating room and nurse the sick and injured.

## "I wouldn't be without my FLAMELESS ELECTRIC DRYER"

Just look at my next door neighbor. The pity is that her wash was almost dry. Then w-o-o-o-h... a sudden gust of rain! I've been telling her to get smart and quit lifting, hugging and doing pin-ups on a clothesline.

Let it rain, let it pour, that's what an Electric Dryer is for. A home without a flameless Electric Dryer would seem old-fashioned to me now. Night or day, I can laugh at time and weather. Gone is the pressure of washday. I just pop the towels, linens, shirts, lingerie, blue jeans and my little girl's school dresses into my Electric Dryer and presto!... in no time at all, everything comes out carelessly soft and fresh as a flower. No sun-fade, no wind-damage, no dust-matting, no aching back! And the time saved can be spent in much better ways with my family.

For complete modern-day freedom from washday drudgery, you'll enjoy the "togetherness" of a flameless Electric Dryer, an Electric Washer, an Electric "sit-down" Ironer, and a super-fast, super-safe Electric Water Heater for all the hot water you need when you need it.

See your electric appliance dealer today.

There's no match for flameless electric living... IT'S CHEAPER, TOO!

# Congress Gets \$5.7 Billion School Aid Plan

## Muck Use In First St. Paving Denied

### Avery Checks On Complaints Of Residents

The project engineer for the W. First St. four-lane project denied any use of muck in the construction of the road despite protests from residents calling for an investigation.

County Commissioner James P. Avery conducted an "on the spot check" of a portion of the road this morning after he said he had received complaints from residents in the area that muck was being used.

Avery said that the complaints stem from persons who reported that muck was being moved in and that the road was "spongy" in spots.

However, after the check, Avery said that he felt assured that muck was not being used.

R. H. Stodden, project engineer said that there was no muck in the entire three-mile project.

"Federal specifications don't call for muck and I would be crazy to try and put it in," Stodden emphasized.

The engineer reported he hopes to have the project completed by July.

The San Marco Construction Company is doing the work.

## Raceway Plans Pari - Mutuel Harness Races

Seminole Raceway plans to open pari-mutuel harness racing in December of this year and plans a \$750,000 improvement program in the near future, the Herald learned today.

## Engineer To Give Mercury Project Talk

PETER E. WRIGHT

A first hand explanation of progress on the Mercury Project now under way at Cape Canaveral will be given at 7:30 p. m. Thursday when Peter E. Wright, electronics technician for McDonnell Aircraft Corp., will be guest speaker at a meeting in the school auditorium.

The meeting is being sponsored by the Lyman Missile Club for the public and all interested persons are urged to attend.

Wright also will show a film which, through animation, depicts orbital flight and will lead a question and answer period to conclude the meeting.

A native of Washington state and Navy veteran of World War II and the Korean conflict, Wright and his family are residents of Chulotua while he is at the Cape with McDonnell Aircraft, producers of the Mercury Capsule.

## Citrus Damage Still Shows Up

LAKELAND (UPI)—Florida Citrus Mutual said over the weekend that damage to citrus groves during the freezes of late December and early January continues to show up.

Mutual's survey of 21 Florida counties showed the following extent of effects in Orange, Osceola and Seminole: Recent warm weather caused new growth to start. Limited amount of pruning in progress.

MEMBERS OF the Chamber of Commerce's Waterways Committee looking over plans for the year are left to right, Jack Trim, John Brumley, F. D. Scott and Al Lee, chairman.

## Oviedo Council OKs Fire House Plans

Plans for the new fire house for Oviedo, submitted by F. Wade Tye, Sanford architect, were accepted Monday night by the Town Council at its monthly meeting.

A committee composed of Councilmen W. H. Clout and T. L. Lingo worked with Tye on the final plans of the building which will be constructed on property adjacent to the Town Hall.

The Council, at the request of the Garden Club, agreed to send a city crew out to the triangle at the cemetery and give two days work if necessary to clean off the ground preparatory to beautification by the Garden Club.

Town Clerk Dorothy Courier was instructed to prepare the necessary papers and set a day for delinquent tax sales. The second Monday in June was suggested as an appropriate day for this, since the County holds its tax sale the first Monday.

The Council accepted the bid of \$2,200 from R. M. Wilkins Construction Co. to resurface Lake Charm Drive at its present width.

The Council voted to inform the engineering firm of Evans and Hammond that it is not prepared at this time to accept the offer to set up a town plan designed to attract small industry to the area.

At the suggestion of Council President Ben F. Ward the Council voted to ask its insurance agents, T. L. Lingo Sr. and W. J. Lawton, to institute a survey of the city's insurance needs, making a study of the present policies in force with a view to eliminating any possible overlapping coverage.

Councilman Ben Jones suggested that the Council consider the installation of a water system for the town. He pointed out that savings in insurance could be substantial and that at present only those properties which are near fire wells enjoy a low rate.

A proposal to appoint a Memorial Building committee was tabled pending further study of the situation. It was

## Dredging Asked To Deepen River

The newly revitalized Waterways Committee of the Chamber of Commerce today voted to ask the Corps of Engineers to start dredging the St. Johns River from Sanford through Lake Harney.

Chairman Al Lee suggested the action, calling the waters in "deplorable" condition. He cited the need for dredging and asked that the channels be marked.

At the same time, the committee agreed to seek the support of the city and county in its resolution.

Lee said that certain places on the river are only three feet deep when they should be five.

Serving on the committee with Lee are John Brumley, Jack Trim and F. D. Scott. The committee also stressed the need for an extensive publicity campaign to beef up shad fishing in the area.

Lee pointed to the need for increased local publicity. "This is a big deal for all of us and it means money for the entire community," he said.

## School Resumes Bible Reading

BINGTON, Pa. (UPI)—Bible reading and recitation of the Lord's Prayer resumed today at Abington township senior high school after a special federal court stayed an injunction prohibiting the practice.

Chief U. S. Circuit Court Judge John Biggs Jr., who headed the three-judge court which declared the revised state law requiring daily readings and the saying of the prayer was unconstitutional, ruled Monday that the injunction was stayed until the U.S. Supreme Court decides the case, provided the appeal is carried to that court by April 2.

## President Calls It 'Imperative' To Enact Bill

WASHINGTON (UPI)—President Kennedy sent Congress today an "imperative" request for a \$5.7 billion, five-year education program including federal funds for public schools and teacher salaries.

The President, in a 4,000-word special message, drove head-on into powerful congressional opposition by renewing recommendations he made last year which were shelved by the lawmakers.

Early warnings that general aid for public schools and teachers is dead in the House for this session of Congress did not deter Kennedy.

"We cannot afford to lose another year in mounting a national effort to eliminate the shortage of classrooms, to make teachers' salaries competitive, and to lift the quality of instruction," the President said.

He urgently asked for the same bill passed by the Senate last year but killed in the House Rules Committee: "legislation providing federal aid for public elementary and secondary classroom construction and teachers' salaries."

Kennedy's five-year program included \$2.1 billion for general aid to education; \$747 million to improve the quality of education through special teacher scholarship and training programs; \$2.1 billion for higher education, including college construction and scholarships for 200,000 students a year; and \$600 million for a vast medical and dental school building program plus scholarships for students in these specialty fields.

Calling elementary and secondary schools the foundation of the educational system, the President said there was little

value in attempting to improve higher education and increase the supply of scientists and technicians "without a greater effort for excellence at this basic level."

His general aid proposal last year sponsored in the House Rules Committee, largely over the issue of whether federal assistance also should be extended to parochial and private schools.

Police yesterday took into custody a 14 year old boy, only a few hours after the discovery of the breaking and entering at Pinecrest School and theft of an extensive number of the exhibits on display at the Annual Hobby Show.

Sgt. Leo Rock, investigating officer, said that police became suspicious of the boy after he traded several of the stolen models to another boy, whose older sister recognized them as being part of the exhibit. The boy confessed.

Most of the stolen articles were recovered, except for a number of models which were found crushed on the playground, and a jar containing \$6 in class money.

Police are still investigating the possibilities of one or more accomplices having been involved.

The boy was turned over to juvenile authorities. Judge Vernon Mize said today that this boy has a long record of breaking and entering, vandalism and petty larceny.

Articles stolen were taken from the Annual Hobby Show conducted by James Motheral's sixth grade, and also from the room of Mrs. Kathleen Lee, where a large number of models belonging to the students were on display.

NEW YORK (UPI)—A 30-year-old eye specialist reported Monday that a drug has been found which apparently controls a virus infection which is the major cause of disease leading to loss of vision in this country.

Dr. Herbert E. Kaufman of the University of Florida reported at a symposium on the results of research at the Massachusetts Eye and Ear Infirmary, Boston.

He said that 25 patients afflicted with the virus—known as Herpes Keratitis—were treated with the drug, and all were cured within a week.

The drug 5-Iowa-2 deoxyuridine or IDU originally was developed to slow the progress of leukemia.

The Society for Crippled Children and Adults will meet at 8 p. m. today at the Health Center on French Ave. and Ninth St., Mrs. Laymon Goodman announced today.

Cooper Mathews will be the speaker at the meeting and will also show a film on the activities and work at Forrest Park School for handicapped children. The meeting is open to the public.

WASHINGTON (UPI)—The Civil Aeronautics Board today blamed the deaths of 74 Army recruits in the crash of a non-scheduled airliner at Richmond, Va., last November on a crew that lacked coordination. Judgment and knowledge of the plane it was flying.

## news... BRIEFS

### 21 More Escape

MIAMI (UPI)—Miami made room today for 21 more Cuban refugees who fled their homeland in small boats seeking political asylum.

### Fugitive Held

FLOYDADA, Tex. (UPI)—Delbert H. Linawerke, 30, one of the FBI's "10 most wanted" fugitives, was captured on a farm near Floydada Monday.

### Tiros Delayed

CAPE CANAVERAL (UPI)—A planned attempt to orbit the fourth Tirus weather satellite was postponed today for at least 24 hours because of rocket troubles.

### Adoula Eyes Credit

WASHINGTON (UPI)—Congoese Premier Cyrille Adoula, his personal standing bolstered by talks with President Kennedy, turned today to means of strengthening his country's economy and credit rating.

### Pepper Reports

TALLAHASSEE (UPI)—Claude Pepper, a former U. S. senator now running for one of Florida's new seats in the U. S. House, reported today that he spent no money on the campaign last month, but received contributions of \$825.

### Face Contempt

WASHINGTON (UPI)—Sen. Strom Thurmond, D-S.C. said today he was confident senators investigating military censorship would insist that Pentagon witnesses answer questions or face contempt of Congress citations.

### Jimenez Trip OK'd

JACKSONVILLE (UPI)—Former Venezuelan dictator Marcos Perez Jimenez had permission today to leave his exile home at Miami Beach for a business trip to New York, but Federal Judge William A. McRae asked him not to make a habit of it.

## UN Bonds Urged

WASHINGTON (UPI)—Secretary of State Dean Rusk said today that the nation's interests "allow us no choice" but to help underwrite the special \$200 million United Nations bond issue.

## Castro's 'Revolutionary Court' Judge Assassinated

MIAMI (UPI)—Cuban sources here said today a Castroite official was assassinated and two foes of the regime were secretly executed in Cuba over the weekend.

Travelers from Cuba said Lt. (j.g.) Agustín Rumbaut, chief judge of the Castroite

"revolutionary tribunal" in Santiago, Cuba, was murdered on the outskirts of the city Sunday. The precise method of the killing was not reported.

The travelers said the 22-year old naval officer, who was said to have sentenced four Americans and 17 other

persons to death during his term as judge, was buried in Havana Monday. His death was officially labeled an "accident," they said.

At the same time, refugee sources said two Cubans accused of plotting to assassinate Premier Fidel Castro were tried, sentenced to death and executed secretly Friday in Havana's Cabana fortress prison.

The two men—Octavio Barroso and a dentist whose name could not be determined immediately—were slain by a firing squad in the ancient fortress's dry moat, the sources said.

One of Barroso's sisters and his wife are living here as refugees.
