STATE BODY IN ROW ON SEARCH WARRANT BILL

Householder's Amendment For Stalnak Measure Would Penalize Officers Making Search Without Any Result

'Leeway Given For
Bootlegger,' Is Claim

TALLAHASSEE, Apr. 27.—(INS)—Representative Ernest Householder of Sanford today offered an amendment to the Stalnak Search and Seizure bill making it a misdemeanor for any officer to search a car or any other vehicle if no liquor is found. The penalty for such misdemeanor would be a fine of \$500 or imprisonment up to six months in the county jail, under the proposed amendment, which drew fire from several other representatives. Householder declared that the public wanted to safeguard the public from unwarranted searching when the officers involved had no search warrants.

Rep. Weeks of Holmes fought the amendment, declaring that people should live above suspicion and they would not be stopped. He spoke favorably for the search and seizure measure. 'The man that is not under suspicion will not be stopped to have his car searched,' Weeks declared. He said the amendment would be a boon to the liquor traffic if it would tell the Florida bootleggers to 'go to it, we are with you,' Weeks said.

Rep. Frisbee of Clay county also upheld the bill and strenuously objected to the amendment. Rep. Mackenzie of Lake county declared the amendment should not be adopted and moved to lay it on the table, asserting he had voted for the amendment for police officers to wear uniforms 'to save unwarranted and wholesale killings.' A roll vote was demanded by five members and Mackenzie's motion failed by a vote of 44 to 47. Householder's proposed amendment was killed after an acrimonious debate.

Baker of Sarasota offered an amendment that 'whenever any officer shall search any vehicle or conveyance as provided in this act, without first having procured such search warrant, and there is found upon such search any liquor, or any intoxicating liquors illegally possessed or transported, then upon conviction shall be fined not to exceed \$500 or imprisonment in the county jail not exceeding six months.'

Representative Tom Sale declared the bill was fathered by 'treacherous finances' and this drew fire from all angles. Rep. E. O. King of Orange declared Florida was one of the main points of smuggling liquor into the country because of her extensive coast line. He alleged that many automobiles carried liquor, dope and aliens into this country along Florida's east coast. Rep. E. L. D. Carr of Hillsborough declared that 'members of Congress voted as they feared and not as they drank.'

THE FLOODED REGION

This map shows the vast area affected by the Mississippi valley floods. The shaded areas indicate inundated regions.

COOLIDGE VIEWS CHINESE ATTACKS ON MEXICAN ROW MAY BE SERIOUS

Mexican President Asserts Friendly Settlement May Be Easily Worked Out in Messages of Negotiation

PEKING, Apr. 27.—(INS)—President Coolidge today expressed concern that the increasing firing by Chinese at American and other warships in the Yangtze River might lead to a critical situation. He pointed out the possibility that a direct hit from one of the Chinese shore guns might sink one of the smaller gunboats.

Minister McMurray said that John K. Davis, the American consul at Nanking, is attempting to devise means of checking the American financial losses, but this is difficult as Consul Davis has not been ashore since claims were laid upon the Chinese authorities for damages caused in the anti-foreign outbreak.

Views upon the reply to Eugene Chen's note are still being exchanged among the diplomats representing the United States, Great Britain, Japan, France and Italy, McMurray revealed. A member of the American military attache's office was permitted to examine Soviet account books which were seized when the Soviet credit to the southern (Nationalist) army totaled 10,800,000 rubles (normally \$5,400,000) since the beginning of 1926. The books showed that the Russians had supplied the southern army with munitions, rifles, mortars, railway rolling stock and flame throwers.

HONG KONG, Apr. 27.—(INS)—Taipei, today, an official suspension of the policy of aiding recognized governments and discouraging revolutions also elicited approval from the Mexican executive, Calles, and the 'normal recitade.' A contrary policy, said President Calles, would constitute 'a grave and dishonesty,' he said in conclusion. 'At the bottom of all the difficulties there is nothing more than a misunderstanding or a divergence of judgment.'

DEATH CLAIMS Flood Crest Moves Slowly To Threaten City Of New Orleans

3,000 MAROONED BY FLOOD WATER IN ARKANSAS CITY

Refugees Held Prisoners 48
Hours In Fifteen Feet Of
Water; Rescue Efforts Are
Redoubled By Red Cross

MEMPHIS, Tenn., Apr. 27.—(INS)—Rescue operations centered today at Arkansas City, where 3,000 refugees have been marooned in 15 feet of water for 48 hours. They were being taken by barges to Pine Bluff and Helena, Ark. Otherwise, flood conditions in the Mississippi delta were unchanged today. Greenville and surrounding towns were still under water but most of the refugees have been taken to Vicksburg for safety.

A steady stream of supplies of off sorts—goods clothing, tents, first aid kits—were sent from Memphis to the various Red Cross concentration camps along the flooded Mississippi River, almost as soon as they arrived on every train from the north. Another levee break was reported overnight. This broke near Oscola, Ark., flooding the Arkansas towns of Kilo, Enmore, Dermott, Wilson and Tyler.

Flood waters are draining off highways which had been blocked to traffic in Illinois and Missouri and the end to the great flood is in sight. A bright, warm sun, which helped the situation in this territory yesterday, was out again today, lessening the suffering of thousands of refugees housed in tents.

Kiwanians Vote To Oppose Playing Of Sunday Ball Here

Without a single dissenting vote, the Sanford Kiwanis Club today voted to oppose the playing of Sunday baseball in this city. The action came after considerable discussion on the matter had been indulged in by various members, following President Lawton's query as to what the club thought of the matter.

Definition For 'Dead Beat' Sought By House

TALLAHASSEE, Fla., Apr. 27.—(INS)—The House today is conferring on the legal definition of 'dead beat' in a bill introduced by Speaker of the House Fred H. Davis.

ALBERT J. BEVERIDGE PASSES AWAY AT HIS HOME IN INDIANAPOLIS AFTER TWO WEEKS' ILLNESS OF HEART TROUBLE

Death Comes During Unexpected Release

Capital Mourns Passing Of
Veterans Legislator And
Coolidge Offers Sympathy

INDIANAPOLIS, Ind., Apr. 27.—(INS)—Ex-Senator Albert J. Beveridge, 65, died at his home here today after an illness of two weeks, from heart trouble. Death came in a sudden release, according to Dr. Charles P. Emerson of Indianapolis, Beveridge's physician. Two weeks ago Dr. William Sydney Thayer, professor of medicine at Johns Hopkins University, Baltimore, was called into consultation here, and the two physicians had held hopes of an early recovery, Dr. Emerson said.

WASHINGTON, Apr. 27.—(INS)—The sudden death of Ex-Senator Albert J. Beveridge of Indiana, came as a shock today to officials in the capital, where President Coolidge sent the following message of condolence to Mrs. Beveridge: 'It is with a feeling of personal loss that I have learned of the passing of your distinguished husband. In scholarship, in literature and in politics he was a great American figure. I express to you and your family the sympathy of Mrs. Coolidge and myself.'

Funeral Plans Are Made For J. R. Nugent

TRENTON, N. J., Apr. 27.—(INS)—Funeral arrangements were being made today for James R. Nugent, former democratic leader of New Jersey who died last night following an operation. He was 62 years old.

Nicaragua Battle Believed Imminent

MANAGUA, Nicaragua, Apr. 27.—(INS)—Although the American caravan case conference, broached by the United States, is now in its preliminary stage, advisers from the 'front' today indicated that a battle is imminent between liberals and Diaz government forces in the teustepo-chontales district.

President Coolidge, Silent As Ever, Will Keep Mum On Clark Questions

WASHINGTON, Apr. 27.—The first really serious effort to 'smoke out' President Coolidge on the third term issue has come to naught. Mr. Coolidge, it was announced at the White House today, will ignore the open letter addressed to him yesterday by Forum Magazine, in which he was challenged to present his views to the country on the proposition that no President should attempt to continue in office beyond the traditional eight years established by George Washington.

THE WEATHER

Fair tonight and Thursday; gentle variable winds. Extreme northwest Florida fair tonight and Thursday, gentle to moderate southwest winds.

Conditions Unchanged But Relief Is Pouring Into Area From All Sections Of U. S. More Than 200 Deaths Reported Hoover Approves Plan To Cut Levees To Save Crescent City

By International News The crest of the great Mississippi River flood slowly bore down upon New Orleans to it and leaving desolation in its wake, scattering dread before it. Flood conditions throughout the Mississippi valley are practically unchanged, but relief is pouring into the devastated area from all sections of the country. The death toll has passed 200. With the property loss estimated at only a careful check, after the hundreds of millions of dollars' worth waters have subsided, can the actual losses in lives and property.

Hoover continued his first-hand investigation of the flooded areas today. He approved a plan to save New Orleans from the flood by cutting the levee 10 miles before the city. The plan was opposed by residents in St. Bernard and Plaquemine parishes, whose homes and properties will be deliberately flooded to save the metropolis. The levee cutting in the area controlled the levee with shotguns, threatening to resist the move by force.

The flood has covered nearly 80,000 square miles of territory with millions of people. In seven river basins already under the care of the Red Cross approximately 200,000 of whom 110,000 are in concentration camps.

Huge Dirigible Is Placed In Hangar After Long Flight

NAVAL AIR STATION, LAKE HURST, N. Y., Apr. 27.—(INS)—After being in the air nearly 48 hours, the navy dirigible, Les Azeles was placed in the hangar here early today. She had arrived yesterday morning from Pensacola, Fla., but shifting winds, which attained at times a velocity of 30 miles an hour, prevented the dirigible from being moored or landed.

30,000 YANKEES TO VISIT FRANCE FOR CONVENTION

Thousands Of Ex-Doughboys Will Be Accompanied By Wives Who Plan To Take Paris For Annual Session

INDIANAPOLIS, April 26—(INS)—Approximately 30,000 Americans, ex-soldiers mostly accompanied by their wives, fathers, mothers and other relatives will swoon down on France next September for the annual convention of the American Legion, reports at the National headquarters here indicate.

At least, that is the estimate of James F. Barton, national adjutant, who says reservations have been made to accommodate the young army when it arrives in Paris for the meeting scheduled to start September 19. The convention will officially close in September 23.

But there are many things planned for the "second invasion" of France. The Legion convention will be only a minor part of the trip. Those going will be given an opportunity to visit all the battlefields, do a little globe trotting, and in the case of some, look up friends made during the sojourn of 1917-18.

Elaborate Plans
A committee, known among Legionaries as the "Paris Convention Committee," has made elaborate and detailed plans to handle the young army.

Seven of the trans-Atlantic steamship lines have been induced to designate certain ships as "Legion boats" for the voyage across. These ships will start from New York, Montreal, Hampton Roads, Boston, Charleston, Jacksonville, Galveston and New Orleans.

Americans going to Paris on the Legion ships will be given the entire run of the boats, irrespective of classes, under the present arrangements, with a possible exception of the Leviathan, flagship of the crusade.

Seven liners will be used, according to present plans. Each ship will have a definite allotment of territory from which to draw passengers.

Cost of Trip
Officials at the Legion headquarters estimate a round trip can be made in Paris, including one or more tours of battlefields, at a cost ranging from \$500 up as high as one care to go. The least expensive accommodations can be secured with a round trip on the steamer alone included, for \$175.

A saving of \$1,000,000 to the prospective visitors in France has been made through arrangements with European officials to permit Legionnaires and members of their families to travel without passports, merely using Legion identification certificates.

2 Fliers Killed In Plane Scheduled To Make Ocean Flight

(Continued From Page One)
air unit at Squantum, Mass. Davis was so successful with the reserve unit that he was called to Washington and placed in charge of this branch of the navy's bureau of aeronautics.

Wooster, chosen by Davis as his companion on the proposed flight, was born in Connecticut in 1895, and was graduated from the Naval Academy in 1915. He had been on active duty in the bureau of aeronautics.

Davis not only proposed to attempt the New York Paris flight, but raised the necessary funds from several wealthy sportsmen to finance the hop. The American Legion was actively interested in the Davis flight and for that reason the plane was named for the legion.

Davis was to compete for the \$25,000 prize offered by Raymond Orteig of New York.

The Hampton Road tests were most satisfactory, and Davis confident he could win the prize, flew to Long Island where the plane was christened "American Legion."

From New York, he returned again to Hampton Roads for the final tests. Today's crash is the third accident which has befallen trans-Atlantic planes.

Last year Captain Rene Fonck's plane caught fire as it took off on the Paris hop.

Only a week ago, Commander Byrd and Floyd Bennett, were injured when their plane turned over at Hashbrook Heights, N. J.

The plane carried a capacity load of 29,000 pounds including the weight of the ship. Included in the load were 1,690 gallons of gasoline, of which 600 gallons were in the extra tanks. The cause of the crash remains a mystery. The ship had been subjected to a careful inspection before the attempted flight. There was no indication of any mechanical irregularity revealed by this examination.

An examination of the wreckage revealed that the plane can be salvaged to a great extent, according to naval officers here. It also was disclosed that Davis and Wooster were instantly killed when the plane dived into the marsh beyond Back River.

The bodies of the aviators were brought to the post here and will be sent to Washington for interment, probably in Arlington Cemetery.

Davis was born in Salt Lake City Sept. 26, 1891. He held the distinguished service medal, awarded for his services with the North Sea fleet during the war. He is survived by a wife, Mary E. Davis, of Lee Heights, Va. Wooster's next of kin is George E. Hall, of New Haven, Conn.

DRUMS DO HER TALKING

Marjorie Jane Geltman is only 16 months of age and doesn't talk very plainly yet, but she can make a set of trap drums get up and give a speech. In Cleveland she recently played with an orchestra at an entertainment and more than 500 persons marveled at her uncanny sense of rhythm. She can play a mouth organ, too.

Protection Of Legitimate Developer Keynote Sounded At Bankers' Meeting

VENICE, Fla., Apr. 26—(INS)—Protecting the legitimate developer and making it forever impossible for "Gyp" artist to operate in this state again was the keynote sounded at a session of the Florida State Bankers' Association at a banquet here last night, which was attended by 400 members of the organization.

Edward W. Lane of Jacksonville, principal speaker of the evening, in an impressive, forceful address, declared the time had arrived for the elimination of cross currents by personal endeavors.

"Let Florida bankers, one and all, extend each other a friendly hand that encircles fate into one unit," he said. "Let us properly develop our national resources, before additional liabilities are incurred, meanwhile letting political subdivisions which mean bonded indebtedness set the pace for conservatism and give capital will follow the lead."

Hoover Continues Serious Differences Reported Between Intensive Survey Of Mississippi Area Flood Relief Bodies

(Continued From Page One)
ted farmers. Levee protection efforts along the still threatened area are being coordinated and intensified through army cooperation at the more dangerous points. Funds are pouring in through Red Cross chapters in every section of the country with almost \$2,000,000 made available since the appeal was broadcast Saturday afternoon by President Coolidge.

Delegations from the Louisiana danger area traveled northward to meet Hoover here and invite him to go by special train late this afternoon through the region below Natchez and Baton Rouge, which may be inundated if drastic action is not taken to relieve the pressure of the overtaxed New Orleans levees. The crest moves southward at about 50 miles a day. In 1922, army engineers aboard the China recalled a similar but somewhat less menacing situation at New Orleans was alleviated by a break in the dam at Poydras, La. some distance above the city.

Theft Of Important State Documents Still Mystery To U. S. Government Agents

WASHINGTON—One of these days the telegraph wires may tell us of the arrest of the villains who are said to have filched and altered certain important documents of state with a view to fomenting serious trouble between the United States and Mexico.

The most unfortunate phase of the mystery is that although there have been all kinds of indications to convince one that certain papers passing from the State Department to the American embassy in Mexico City fell into the hands of President Calles, there have been nothing but unconfirmed rumors dark and deep, to show that the papers had been tampered with to the point of alteration or forgery. A definite declaration from the State Department might clarify this situation, but it hasn't been forthcoming.

It may or may not be significant that there has been no condemnation of the Mexican government because it bought secret American papers from someone supposed to have pilfered them. Although this sort of espionage presumably is practiced throughout the world, its discovery during a period of strained international relations might have been expected to call forth a shout of holy horror at such immoral practices. On the contrary, it is generally understood that relations between the two nations are sweet and peaceful compared with what they were a couple of months ago.

HOUSE VOTES TO GIVE \$50,000 FOR SUFFERERS' HELP

(Continued from Page One)
war was introduced in the House chairman of the committee on military affairs.

Each national guard unit called into federal service during the world war had funds, raised by and it is even added that the discovery of the forgeries or whatever they were has brought a new understanding and a certain sympathy where little but discord had previously existed.

Reports of what happened are so vague and conflicting, however, that the whole atmosphere is foggy. This same foggy atmosphere enables numerous persons here to suggest that if the documents in question really did prove an unfriendly attitude toward Mexico or an unseemly interest in revolutionary activities, Mexico might have been able to play them as trump cards.

contributions, etc., for the purchase of comforts and incidentals for Florida guardsmen. At the close of the war these funds were taken over by federal officers and they are now being repaid. The bill would authorize the governor to receive this return of funds for Florida soldiers.

A resolution asking Florida to respond to the appeal of the Red Cross for financial aid for relief of the flood-stricken Mississippi valley was adopted by the senate today.

The resolution pointed out that since it was unconstitutional for the state to appropriate funds for relief work it was up to the people of Florida to act quickly and raise the state's quota of the funds needed and requested by the American Red Cross.

The resolution was introduced by Senator Hale of the ninth district.

The workmen's compensation act, introduced in the house last Friday, was introduced in a companion bill by Senator Pat Whitaker in the senate today.
